Graffiti means any inscription, word, writing, drawing, figure, mark of paint, ink, chalk, dye or other similar substance, etching, engraving or other defacement (collectively 'defacement') by a

graffiti implement or chalk or by the application of any material, gum label, paper, fabric or other matter (collectively "matter") with adhesive or other substance which is intended to make the application of the matter permanent or difficult to remove, on public or private property. Graffiti does not include temporary, easily removable chalks or other water soluble markings which are used in connection with traditional children's activities such as drawings of bases for ball games, hopscotch and similar activities, nor does it include temporary, easily removable markings used in connection with any lawful business or public purpose or activity and markings used to denote the location of underground utility infrastructure and those used in conjunction with establishing survey control data and location points by survey crews.

Graffiti implement means any aerosol paint container or paint applicator or brush, indelible marker containing ink or other pigmented liquid that is not water soluble, stick on label, paint stick, etching equipment or any other device capable of defacing or leaving a visible mark on public or private property.

Paint means paint, wax, epoxy or similar substance capable of being applied to a surface and leaving a defacement.

Property owner(s) means the owner as defined in section 1-2 and such owner's agent or manager, or any other person in lawful control or possession of property if known to the town. The owner of the property shall be deemed to be those persons whose names appear on the tax records as having an interest in the property.

Public or private property means public or private buildings, sidewalks, streets, structures, walls, equipment and other similar things and places.

(b) *Placing graffiti prohibited.* It shall be unlawful for any person to place graffiti upon the surface of any public or private property.

(c) *Removing graffiti required.*

(1) *Removal by perpetrator.* It shall be unlawful for any person placing graffiti on public or private property to fail to remove such graffiti or cause such graffiti to be removed within seventy-two (72) hours after notice from the town. If graffiti is applied by a person under the age of eighteen (18) years of age, the parents or legal guardians of such minor shall be responsible for removal of the graffiti with seventy-two (72) hours after notice from the town.

(2) *Removal by property owner.* It shall be unlawful for any property owner to fail to remove or effectively obscure any graffiti upon property they own, manage, or are in lawful control or possession of within five (5) business days after receiving written notice from the town to remove such graffiti ("Notice to Remove"). Notice to Remove shall be sent by certified mail, return receipt requested or by personal delivery, to the property owner(s). The notice to remove shall provide:

- (i) the street address or other description of the property sufficient for property identification;
- (ii) a description and general location of the graffiti;

- (iii) a statement that the property is a public nuisance due to the existence of the graffiti;
 - (iv) a statement that the graffiti must be removed or effectively obscured within five (5) business days after receiving notice to remove and that if the nuisance is not so abated within that time the town will abate the public nuisance at the cost of the property owner as set forth herein;
 - (v) information identifying any graffiti removal assistance available through the town; and
 - (vi) information concerning procedures for appeal of the Notice.
- (3) *Removal by town.* If the town has provided notice to remove under (c)(2) above and property owner fails or refuses to remove or effectively obscure graffiti upon their property, then, in addition to other enforcement actions hereunder, the town is authorized to remove the graffiti as provided herein at the expense of property owner. If the expenses of removing or obscuring the graffiti is not paid by the property owner within thirty (30) days of receipt of a statement for the cost of such removal or obscuring, the town may sue in a court of competent jurisdiction to recover all such expenses, including all administrative personnel costs, attorney's fees and costs related to enforcing this section, and the town may record a lien in the public records of Wake County, which lien shall be for all such expenses, and the amount of the lien shall bear interest from the date of recording.
- (4) *Appeals.* Any property owner who receives a notice to remove may appeal the notice within five (5) business days of receipt of notice to the town manager. The appeal shall be in writing and shall state with specificity the reasons for the appeal ("appeal notice"). The manager or designee shall set a hearing date within ten (10) days of receipt of the appeal notice, and shall render a decision within a reasonable time after the hearing date. If, on appeal, the manager or designee determines that the graffiti is a public nuisance and must be removed, the manager shall establish a new date for such removal or obscuring.
- (5) *Emergency removal.* If the town determines that any graffiti is a danger to the health, safety or welfare of the public and is unable to provide notice by personal service after at least two attempts to do so, then forty-eight (48) hours after either (i) mailing of the notice described in subsection (2) above by certified and first class mail or (ii) the posting of the notice in a conspicuous place on the property, the town may remove or cause the graffiti to be removed or obscured at its expense.
- (6) *Removal/obscuring.* The town shall not clean, paint or obscure or repair any property containing graffiti more extensively than where the graffiti itself is located. The town shall not be required to restore the area that contained graffiti, or any obscured area, to its original condition including conditions of color, texture, and finish. Notwithstanding the preceding, if the town manager determines in writing that a more extensive area is required to be repainted or repaired in order to avoid an aesthetic disfigurement to the neighborhood or community, the Town of Cary or its authorized private contractor is expressly permitted to perform the work necessary to do more extensive repainting or repairing.
- (d) *Enforcement/remedies.*
- (1) *Civil penalties.* Violation of subsections (b), (c)(1), or (c)(2) shall subject the offender(s) to a civil penalty in the amount of one hundred dollars (\$100.00). In the event there is more

than one violation within any thirty-day period, then the civil penalty shall be increased for each additional violation over one during such period, as follows. The date of the first violation shall establish the beginning date for the initial thirty-day period. The next violation within that 30-day period shall be considered the second violation. Any violations that follow within that thirty-day period shall be numbered sequentially. The penalty shall be:

Second offense within same thirty-day period: \$250.00.

Third offense within same thirty-day period: \$500.00.

Fourth offense within same thirty-day period: \$750.00.

Fifth and any subsequent offense within same thirty-day period: \$1,000.00.

Once the thirty-day period has run from the "first violation," the next violation shall be considered to be a first violation for the purposes of establishing a new thirty-day period. Each subsequent violation that follows more than thirty (30) days from the previous first violation shall be a new first violation for the purpose of establishing a new thirty-day period. In the event there are more than six violations within any twelve-month period, then each violation after six shall subject the violator(s) to a civil penalty of one thousand dollars (\$1,000.00).

Violators shall be issued a written citation which must be paid within seven (7) days from the issue date and time to the Town of Cary Finance Department. The town is authorized to file suit on behalf of the town to collect any unpaid citations, and the police chief, or designee, is authorized to verify and sign complaints on behalf of the town in such suits. Any police officer may issue a citation for violations of this article.

- (2) *Criminal penalty.* In addition to or in lieu of civil penalties or other remedies, violation of subsection (b) of this section shall constitute a misdemeanor. Any person convicted of a violation of this section shall be fined not less than two hundred fifty dollars (\$250.00) for a first offense and five hundred dollars (\$500.00) for a second or subsequent offense. In addition to any other remedy, the court shall order any person convicted of a violation of subsection (b) to make restitution to the victim and/or to the Town of Cary for the damage or loss suffered by the victim and/or to the Town of Cary as a result of the offense. The court may determine the amount, terms, and conditions of the restitution.

(e) *Right of entry on private property.* Prior to entering upon private property or property owned by a public entity other than the Town of Cary for the purpose of this section, the town shall make a reasonable attempt to secure the consent of the property owner or manager for release of the town from liability for property damage or personal injury. If the property owner or manager fails to remove the offending graffiti within the time specified herein, or the town has requested consent to remove or paint over the offending graffiti and the property owner or responsible party has refused consent for entry on terms acceptable to the town and consistent with the terms of this section, the town shall commence abatement and cost recovery proceedings for the graffiti removal according to the provisions specified herein.

(f) *Severability.* The provisions of this section shall be deemed severable. If any portion of this section is deemed unconstitutional, it shall not affect the constitutionality of any other portions of this ordinance.

Subject to the provisions of sections 22-104 through 22-110, it shall be unlawful for any person to create or assist in creating any unreasonably loud, disturbing noise in the town taking into consideration the volume, duration, frequency and other characteristics of the sound. A person shall be deemed to create or assist in creating noise if that person owns, manages or operates any residence, business, or location at which the noise is generated.

(Code 1982, § 13-10; Ord. No. 93-29, 5-13-1993; Ord. No. 98-008, § 1, 6-11-1998)

Sec. 22-103. Definitions.

For the purpose of this division, the following words and phrases are defined below unless it shall be apparent from the context that a different meaning is intended:

Emergency work shall mean any work performed for the purpose of preventing or alleviating physical trauma or property damage threatened or caused by an existing or imminent peril.

Motor vehicle or *vehicle*, as used herein, shall mean any vehicle propelled on land by a motor, such as, but not limited to, passenger cars, trucks, truck-trailers, semi-trailers, campers, go-carts, automobiles, motorcycles or buses. It shall exclude trains and emergency response vehicles such as police, fire and rescue vehicles.

Noise control officer, as used herein, shall mean any police officer or other person so designated by the town manager.

Person shall mean any individual, association, partnership or corporation, including any officer, employee, department, agency or instrumentally [instrument] of the United States, the state or any political subdivision thereof.

Technical terms:

- (1) *A-weighted sound level*: The sound pressure level in decibels as measured on a sound level meter using the A-weighting network. The level so read is designated dB(A).
- (2) *Decibel (dB)*: A unit for describing the amplitude of sound, equal to 20 times the logarithm to the base 10 of the ratio of the pressure of the sound measured to the reference pressure, which is 20 micronewtons per square meter.
- (3) *Sound*: An oscillation in pressure, particle displacement, particle velocity or other physical parameter, in a medium with internal forces that causes compression, and rarefaction of that medium. The description of sound may include any characteristic of such sound, including duration, intensity and frequency.
- (4) *Sound pressure level*: 20 times the logarithms to the base 10 of the ratio of the root mean squared (RMS) sound pressure to the reference pressure of 20 micronewtons per square meter.

***State law reference**—Authority to regulate noise, G.S. § 160A-184.

- (5) *Sound-level meter*: An instrument which includes a microphone, amplifier, RSM detector, integrator or time average, output meter and weighting network used to measure sound pressure levels.
 - (6) *Sound level*: The weighted sound pressure level obtained by the use of a sound level meter and frequency weighting network, such as A, B, or C as specified in American National Standards Institute Specifications for sound level meters (ANSI S1.41971 or the latest approved version thereof). If the frequency weighting employed is not indicated, the A-weighting shall apply.
 - (7) *Slow response*: A measuring technique to obtain an average value when measuring a noise level that fluctuates over a range of four dB or more. By way of illustration only, a sound level meter set on "slow response" would record a sound level between two and six decibels less than the reading for a steadying signal of the same frequency and amplitude when a tone of 1,000 Hz and for a duration of 0.5 seconds is applied.
 - (8) *Amplified sound*: Any sound using amplifying equipment, whose source is outside or whose source is inside and the sound propagates to the outside or to other dwellings or interior locations under separate ownership or occupancy.
 - (9) *Noise*: As used herein, unreasonably loud, disturbing sound levels taking into consideration the volume, duration, frequency and other characteristics of the sound.
- (Code 1982, § 13-11; Ord. No. 93-29, 5-13-1993)

Sec. 22-104. Noise measurement.

For the purpose of determining db(A)'s as referred to in this article, sound levels shall be measured on the A-weighting scale on a sound level meter of standard design and quality having characteristics established by the American National Standards Institute (ANSI) or its successor body.

(Code 1982, § 13-12; Ord. No. 93-29, 5-13-1993)

- (5) The use of any mechanical device operated by compressed air unless the sounds created are effectively muffled and reduced.
- (6) The sounding of any chime, bell or gong attached to any building or premises which disturbs the quiet or repose of any person in the vicinity thereof.

To determine if this limit is being exceeded, sounds may be measured from any point on or within the property line of the nearest residentially occupied property.
- (2) As to multifamily structures including townhomes, apartments, condominiums, or other residential structures or arrangements where property lines cannot readily be determined, it shall be unlawful to operate or allow the operation of any sound amplification equipment so as to create sounds registering 60 db(A) or greater between 9:00 a.m. and 9:00 p.m., or 50 db(A) or greater between the hours of 9:00 p.m. and 9:00 a.m., as measured from any point within the interior of another residential unit in the same complex or within the boundary line of the nearest residentially occupied property, except in accordance with a permit obtained from the town.
- (3) As to places of public entertainment, including, but not limited to, restaurants, taverns and bars, coffeehouses and private clubs, to operate or allow the operation of any sound amplification equipment so as to create sounds registering more than sixty-five (65) dB(A) between 9:00 a.m. and 9:00 p.m., or 55 dB(A) between 9:00 p.m. and 2:00 a.m., or 40 dB(A) between 2:00 a.m. and 9:00 a.m., as measured anywhere within the boundary line of the nearest residentially occupied property, hotel, motel, hospital, or rest home, except in accordance with a permit obtained from the town.
- (4) Operate or allow the operation of any sound amplification equipment for advertising purposes or otherwise to attract customers so as to cast sounds which are unreasonably loud and disturbing or which register more than 60 db(A) at or on the boundary of the nearest public right-of-way or park.
- (5) Operate or allow the operation for personal use of any sound amplification equipment on the public right-of-way, including streets or sidewalks, or in the public parks so as to produce sounds registering more than 60 db(A) at any point 50 feet or more from any electromechanical speaker emitting sound between the hours of 9:00 a.m. and 9:00 p.m., or 50 db(A) 50 feet or more from any electromechanical speaker between the hours of 9:00 p.m. and 9:00 a.m.

(b) The foregoing limitations on the operation of sound amplification equipment shall not apply to the operation of horns, sirens, loudspeakers or other emergency warning devices actually being used in emergency circumstances.

(Code 1982, § 13-15; Ord. No. 93-29, 5-13-1993; Ord. No. 98-009, § 1, 6-11-1998)

Sec. 22-108. Permits.

(a) *Application.* Application for a permit under section 22-105(8) or for additional amplification under section 22-107(a)(1) shall be submitted in writing to the police department at least 15 working days in advance of the planned use. The application shall designate an individual person or persons who shall be in control of the amplification in the case of a permit for section 22-107(a)(1); in control of the firing or discharge of a gun or pyrotechnics in the case of a permit under section 22-105(8), and who shall be responsible for seeing that the activity complies with the terms of the permit.

(b) *Notice of tentative approval.* In the case of permits for additional sound amplification pursuant to section 22-107(a)(1), if the permit is tentatively approved, the applicant shall be responsible for mailing or otherwise delivering to the occupants of each property within a one-thousand-foot radius of the property or facility for which the permit has been granted, as shown on the county tax maps, a notice on a form provided by the noise control officer showing the date and hours of the event. The notice shall be delivered at least 72 hours in advance of the event. The permit will not be approved and issued by the town until the applicant submits an affidavit to the noise control officer confirming that such notices have actually been mailed or otherwise delivered.

(c) *Number of hours.* In the case of excess amplification under section 22-107(a)(1), no permits shall be issued which shall have the effect of allowing more than 20 hours of excess amplification per year at any place of public entertainment or ten hours of excess amplification at any other location. Permits shall be tentatively approved and subsequently granted by the noise control officer in the order of receipt unless permits for 20 or more hours have previously been issued for the same or other locations within a 1,000-foot radius of the facility in the same calendar year, in which event the applicant shall elect whether to limit his request so as to keep the year's accumulated hours of excess amplification in that location between 20 hours or select another location.

(d) *Not permitted in residentially occupied boundaries.* In no event shall a permit be granted which allows the creation of sounds registering more than 70 db(A) at any point on or within the boundary line of the nearest residentially occupied property.

(e) *Denial; exceptional permit.* If an applicant has been denied a permit under this section and believes the denial is illegal by virtue of applicable state or federal law, the applicant shall promptly submit a copy of the denied permit application together with a short statement of the reasons the applicant believes he is entitled to a permit to the town manager. The town manager shall have the discretion to grant an exceptional permit waiving locational, time, and/or db(A) requirements, upon the determination by the town manager that the applicant has made a substantial showing of legal entitlement. Any such exception permit shall be promptly reported to the town council.
