Sec. 51A-4.103. Zoning district map.
Sec. 51A-4.104. Zoning district boundaries.
Sec. 51A-4.105. Interpretation of district regulations.

Division 51A-4.110. Residential District Regulations.
Sec. 51A-4.111. Agricultural [A(A)] District.
Sec. 51A-4.112. Single family districts.
Sec. 51A-4.113. Duplex [D(A)] district.
Sec. 51A-4.114. Townhouse [TH-1(A), TH-2(A), and TH-3(A)] districts.
Sec. 51A-4.115. Clustered housing (CH) district.
Sec. 51A-4.116. Multifamily districts.
Sec. 51A-4.117. Manufactured home [MH(A)] district.
Secs. 51A-4.118 thru 51A-4.119. Reserved.

Division 51A-4.120. Nonresidential District Regulations.
Sec. 51A-4.121. Office districts.
Sec. 51A-4.122. Retail districts.
Sec. 51A-4.123. Commercial service and industrial districts.
Sec. 51A-4.124. Central area districts.
Sec. 51A-4.125. Mixed use districts.
Sec. 51A-4.126. Multiple commercial districts.

Sec. 51A-4.127. Urban corridor districts.

Division 51A-4.200. Use Regulations.

Sec. 51A-4.201. Agricultural uses.
(1) Animal production.
(2) Commercial stable.
(3) Crop production.
(4) Private stable.

(1) Building repair and maintenance shop.
(2) Bus or rail transit vehicle maintenance or storage facility.
(3) Catering service.
(4) Commercial cleaning or laundry plant.
(5) Custom business services.
(6) Custom woodworking, furniture construction, or repair.
(7) Electronics service center.
(8) Job or lithographic printing.
(8.1) Labor hall.
(9) Machine or welding shop.
(10) Machinery, heavy equipment, or truck sales and service.
(11) Medical or scientific laboratory.
(12) Technical school.
(13) Tool or equipment rental.
(14) Vehicle or engine repair or maintenance.

Sec. 51A-4.203. Industrial Uses.
(0) Alcoholic beverage manufacturing.
(1) Industrial (inside).
(1.1) Industrial (inside) for light manufacturing.
(2) Industrial (outside).
(2.1) Medical/infectious waste incinerator.
(3) Metal salvage facility.

(3.1) Mining.
(3.2) Gas drilling and production.
(3.3) Gas pipeline compressor station.
(4) Municipal waste incinerator.
(4.1) Organic compost recycling facility.
(5) Outside salvage or reclamation.
(5.1) Pathological waste incinerator.
(6) Temporary concrete or asphalt batching plant.

Sec. 51A-4.204. Institutional and community service uses.
(1) Adult day care facility.
(2) Cemetery or mausoleum.
(3) Child-care facility.
(4) Church.
(5) College, university, or seminary.
(6) Reserved.
(7) Community service center.
(8) Convalescent and nursing homes, hospice care, and related institutions.
(9) Convent or monastery.
(10) Reserved.
(11) Foster home.
(12) Reserved.
(13) Halfway house.
(14) Hospital.
(15) Reserved.
(16) Library, art gallery, or museum.
(17) Public or private school.

Sec. 51A-4.205. Lodging uses.
(1) Hotel or motel.
(1.1) Extended stay hotel or motel.
(2) Lodging or boarding house.
(2.1) Overnight general purpose shelter.
(3) Reserved.

Sec. 51A-4.206. Miscellaneous uses.
(1) Carnival or circus (temporary).
(1.1) Hazardous waste management facility.
(1.2) Placement of fill material.
(2) Temporary construction or sales office.

Sec. 51A-4.207. Office uses.
(1) Alternative financial establishment.
(2) Financial institution without drive-in window.
(3) Financial institution with drive-in window.
(4) Medical clinic or ambulatory surgical center.
(5) Office.

Sec. 51A-4.208. Recreation uses.
(1) Country club with private membership.
(2) Private recreation center, club or area.
(3) Public park, playground, or golf course.

Sec. 51A-4.209. Residential uses.
(1) College dormitory, fraternity or sorority house.
(2) Duplex.
(3) Group residential facility.
(3.1) Handicapped group dwelling unit.
(4) Manufactured home park, manufactured home subdivision, or campground.
(5) Multifamily.
(5.1) Residential hotel.
(5.2) Retirement housing.
(6) Single family.

Sec. 51A-4.210. Retail and personal service uses.
(1) Ambulance service.
(2) Animal shelter or clinic.
(3) Auto service center.
(4) Alcoholic beverage establishments.
(5) Business school.
(6) Car wash.
(7) Commercial amusement (inside).

(8) Commercial amusement (outside).
(8.1) Commercial motor vehicle parking.
(9) Commercial parking lot or garage.
(9.1) Convenience store with drive-through.
(10) Drive-in theater.
(11) Dry cleaning or laundry store.
(12) Furniture store.
(13) General merchandise or food store 3,500 square feet or less.
(14) General merchandise or food store greater than 3,500 square feet.
(15) Home improvement center, lumber, brick or building materials sales yard.
(16) Household equipment and appliance repair.
(16.1) Liquefied natural gas fueling station.
(17) Liquor store.
(18) Mortuary, funeral home, or commercial wedding chapel.
(19) Motor vehicle fueling station.
(20) Nursery, garden shop, or plant sales.
(21) Outside sales.
(22) Pawn shop.
(23) Personal service use.
(24) Restaurant without drive-in or drive-through service.
(25) Restaurant with drive-in or drive-through service.
(26) Surface parking.
(27) Swap or buy shop.
(28) Taxidermist.
(29) Temporary retail use.
(30) Theater.
(30.1) Truck stop.
(31) Vehicle display, sales, and service.
Sec. 51A-4.211. Transportation uses.
(1) Airport or landing field.
(2) Commercial bus station and terminal.
(3) Heliport.
(4) Helistop.
(5) Private street or alley.
(6) Railroad passenger station.
(7) Railroad yard, roundhouse, or shops.
(8) STOL (short takeoff or landing) port.
(9) Transit passenger shelter.
(10) Transit passenger station or transfer center.

Sec. 51A-4.212. Utility and public service uses.
(1) Commercial radio or television transmitting station.
(2) Electrical generating plant.
(3) Electrical substation.
(4) Local utilities.
(5) Police or fire station.
(6) Post office.
(7) Radio, television, or microwave tower.
(8) Refuse transfer station.
(9) Sanitary landfill.
(10) Sewage treatment plant.
(10.1) Tower/antenna for cellular communication.
(11) Utility or government installation other than listed.
(12) Water treatment plant.

Sec. 51A-4.213. Wholesale, distribution, and storage uses.
(1) Auto auction.
(2) Building mover's temporary storage yard.
(3) Contractor's maintenance yard.
(4) Freight terminal.
(5) Livestock auction pens or sheds.
(6) Manufactured building sales lot.
(7) Mini-warehouse.
(8) Office showroom/warehouse.
(9) Outside storage.
(10) Petroleum product storage and wholesale.
(11) Recycling buy-back center.
(11.1) Recycling collection center.
(11.2) Recycling drop-off container.
(11.3) Recycling drop-off for special occasion collection.
(12) Sand, gravel, or earth sales and storage.
(13) Trade center.
(14) Vehicle storage lot.
(15) Warehouse.

Secs. 51A-4.214 thru 51A-4.216. Reserved.

Sec. 51A-4.217. Accessory uses.
(1) Accessory community center (private).
(1.1) Accessory electric vehicle charging station.
(2) Accessory game court (private).
(3) Accessory helistop.
(3.1) Accessory medical/infectious waste incinerator.
(4) Accessory outside display of merchandise.
(5) Accessory outside sales.
(6) Accessory outside storage.
(6.1) Accessory pathological waste incinerator.
(7) Amateur communication tower.
(7.1) Day home.
(7.2) General waste incinerator.
(8) Home occupation.
(8.1) Live unit.
(9) Occasional sales (garage sales).
(10) Private stable.
(11) Swimming pool (private).
(12) Pedestrian skybridges.

Division IV. Violations.

Sec. 51A-12.401. Violations.

ARTICLE XIII.

FORM DISTRICTS.
Dallas Development Code: Ordinance No. 19455, as amended

[Intentionally left blank]
ARTICLE I.

GENERAL PROVISIONS.

SEC. 51A-1.101. RESERVED. (Ord. 24637)

SEC. 51A-1.102. APPLICABILITY AND PURPOSE.

(a) Applicability.

(1) At any time prior to March 1, 1987, an applicant for a change in zoning district classification or boundary may voluntarily elect to proceed under either this chapter or Chapter 51. The zoning procedures in this chapter automatically apply to any request for a change in zoning district classification or boundary that is formally initiated on or after March 1, 1987.

(2) This chapter (and not Chapter 51) automatically applies to:

(A) all property that is annexed into the city on or after March 1, 1987; and

(B) all property that is rezoned on or after March 1, 1987, if the request for the change in zoning district classification or boundary was formally initiated on or after that date.

(3) The passage of an ordinance granting or amending a specific use permit is not considered to be "rezoning" for purposes of this section.

(b) Purpose.

(1) In general. The regulations in this chapter have been established in accordance with a comprehensive plan for the purpose of promoting the health, safety, morals, and general welfare of the city in order to:

(A) lessen the congestion in the streets;

(B) secure safety from fire, flooding, and other dangers;

(C) provide adequate light and air;

(D) prevent the overcrowding of land;

(E) avoid undue concentration of population;

(F) facilitate the adequate provision of transportation, water, sewage, schools, parks, and other public requirements;

(G) promote the character of areas of the city;

(H) limit the uses in areas of the city that are peculiarly suitable for particular uses;

(I) conserve the value of buildings; and

(J) encourage the most appropriate use of land throughout the city.

(2) Compliance with FHAA. The city council intends that this chapter fully comply with the Federal Fair Housing Amendments Act of 1988 ("FHAA") and all other applicable state and federal legislation. Residential use and district regulations in this chapter are based on the family unit as defined in Section 51A-2.102. It is the express intent of the city council that all families as defined herein be treated alike without regard to the handicapped or non-handicapped status of individual family members, and that this chapter be construed in a manner consistent with the FHAA and all other applicable state and federal legislation at all times. (Ord. Nos. 19455; 21044)

SEC. 51A-1.103. ENFORCEMENT.

(a) Criminal prosecution.

(1) A person who knowingly violates any provision of this chapter is guilty of a separate offense...
for each day or portion of a day during which the violation is continued. Each offense is punishable by a fine of not more than $2,000 nor less than $200. The minimum fine established in this paragraph shall be doubled for the second conviction of the same offense within any 24-month period and trebled for the third and subsequent convictions of the same offense within any 24-month period. At no time shall the minimum fine exceed the maximum fine established in this paragraph.

(2) A person is criminally responsible for a violation of this chapter if:

(A) the person knowingly commits the violation or assists in the commission of the violation;

(B) the person owns part or all of the property and knowingly allows the violation to exist;

(C) the person is the agent of the property owner or is an individual employed by the agent or property owner; is in control of the property; knowingly allows the violation to exist; and fails to provide the property owner’s name, street address, and telephone number to code enforcement officials; or

(D) the person is the agent of the property owner or is an individual employed by the agent or property owner, knowingly allows the violation to exist, and the citation relates to the construction or development of the property.

(3) A person may not use land or a structure on land located in the city for other than those uses designated as permitted uses in accordance with the provisions of this chapter.

(4) It is a defense to prosecution under this chapter that a person is in compliance with an order of the board of adjustment that specifically authorizes otherwise unlawful conduct.

(5) It is a defense to prosecution under this chapter that a use or structure is nonconforming unless the nonconforming rights attendant to the use or structure have been lost or terminated under Section 51A-4.704.

(b) Civil action. This chapter may be enforced through civil court action as provided by state law.

(c) Utility disconnection. The building official may order city or private utilities to be disconnected upon failure to comply with this chapter or the building laws.

(d) Enforcement authority. This chapter may be enforced by the building official or any other representative of the city. (Ord. Nos. 19455; 19963; 20236; 20599; 26286)

SEC. 51A-1.104. CERTIFICATE OF OCCUPANCY.

Except as provided in Section 306.1, “Use or Occupancy,” of Chapter 52, “Administrative Procedures for the Construction Codes,” a person shall not use or occupy or change the use or occupancy of a building, a portion of a building, or land without obtaining a certificate of occupancy from the building official in compliance with Section 306, “Certificate of Occupancy,” of Chapter 52, “Administrative Procedures for the Construction Codes,” of the Dallas City Code. (Ord. Nos. 19455; 21735; 22204; 24439; 26579; 29023)

SEC. 51A-1.104.1. APPLICATIONS.

(a) Except conservation district applications and neighborhood stabilization overlay applications, when submitting an application, the applicant must submit proof, such as a tax certificate, that property taxes and any city fees, fines, or penalties are not delinquent on the subject property. Unless such proof is submitted, the application will be considered incomplete and returned to the applicant. A waiver of this requirement may be granted by a two-thirds vote of the city council if:
§ 51A-1.104.1 Dallas Development Code: Ordinance No. 19455, as amended § 51A-1.105

(1) a waiver will facilitate urban redevelopment, historic conservation, or an important planning objective;

(2) a pending sale of the property is contingent on the zoning application, and the applicant can supply evidence, such as a contract of sale, that the taxes and any city fees, fines, or penalties will be paid at closing; or

(3) the applicant can demonstrate financial hardship that makes payment of taxes impossible, and approval of a waiver will improve the applicant's ability to pay the taxes and any city fees, fines, or penalties.

(b) A waiver application form may be obtained from the department. The waiver application form and waiver application fee must be filed with the city secretary.

(c) Consideration of a waiver application under this procedure is not a consideration of the merits of the zoning application, and does not imply that the zoning application will be approved or disapproved when considered on its merits. (Ord. Nos. 21633; 25047; 26536; 28073)

SEC. 51A-1.105. FEES.

(a) Fees for zoning and SUP amendments and renewals.

(1) An application will not be processed until the fee has been paid.

(2) The applicant shall pay the filing fee to the director. The director shall deposit fees received in the official city depository not later than the next business day following receipt of the fees.

(3) With respect to an application for automatic renewal of an SUP, if no public hearings are held in conjunction with the renewal, the city controller shall refund the appropriate portion of the fee as specified in this subsection. In all other respects, the refund of all or part of an application fee is controlled by Section 51A-4.701(f).

(4) Fee schedule.

</table>

(5) The applicant shall pay a separate filing fee for each type of variance requested. The maximum fee for all variances on one building site heard at one public hearing is $10,000.00.

(6) The board may waive the filing fee if the board finds that payment of the fee would result in substantial financial hardship to the applicant. The applicant may either pay the fee and request reimbursement at the hearing on the matter or request that the issue of financial hardship be placed on the board’s miscellaneous docket for predetermination. If the issue is placed on the miscellaneous docket, the applicant may not file the application until the merits of the request for waiver have been determined by the board. In making this determination, the board may require the production of financial documents. Notwithstanding the above, the board may waive the fee for a request to establish a compliance date under Section 51A-4.704(a)(1) only if:

(A) the applicant is a corporeal person for whom payment of the fee would result in substantial financial hardship; or

(B) a written request for a fee waiver is signed by the owners, as evidenced by the last approved city tax roll, of 20 percent or more of real property within 200 feet, including streets and alleys, of the boundary of the lot containing the nonconforming use.

(c) Fees for fill permits for removal of a flood plain designation.

(1) An application will not be processed until the fee has been paid.

(2) The applicant shall pay a filing fee to the director of water utilities. The director of water utilities shall deposit fees received in the official city depository not later than the next business day following receipt of the fees.

(3) No refund of a fee may be made.

(d) Fees for extraordinarily significant sign designation.

(1) An application will not be processed until the fee has been paid.

(2) The applicant shall pay the filing fee to the director. The director shall deposit fees received in the official city depository not later than the next business day following receipt of the fees.
§ 51A-1.105 Dallas Development Code: Ordinance No. 19455, as amended

(3) No refund of a fee may be made.

(f) Fees for notification signs.

(1) An application will not be processed until the fee for notification signs has been paid.

(2) The applicant shall pay the fee to the director. The director shall deposit fees received in the official city depository not later than the next business day following receipt of the fees.

(3) No refund of a fee may be made.

(4) There is no fee for a sign required under Section 51A-1.106(a)(4). The fee for all other notification signs required under Section 51A-1.106 is $10 for each sign.

(g) Fees for inspection of infrastructure improvements constructed under private development contracts.

(1) An inspection of infrastructure improvements constructed under a private development contract, as required under Section 51A-8.612, will not be performed until the fee has been paid.

(2) The owner of the property to be platted under a private development contract shall pay the inspection fee to the building official. The building official shall deposit fees received in the official city depository not later than the next business day following receipt of the fees.

(h) **Fees for letters of zoning verification.**

(1) A letter of zoning verification will not be processed until the fee for the letter has been paid.

(2) The applicant shall pay the fee to the director. The director shall deposit fees received in the official city depository not later than the next business day following receipt of the fees.

(3) No refund of a fee may be made.

(4) The standard fee for a letter of zoning verification is $90 per letter. A minimum processing time of seven days is required after payment of the standard fee. If expedited processing is requested, a surcharge must be paid in accordance with the following schedule:

<table>
<thead>
<tr>
<th>Processing Time</th>
<th>Surcharge</th>
</tr>
</thead>

<td>$15.00</td>
</tr>
<tr>
<td>6 days</td>
<td>$10.00</td>
</tr>
</tbody>
</table>

(5) A request for a letter of zoning verification must be made in writing. The maximum area for which a letter of zoning verification may be requested is one city block. If the area for which zoning verification is requested cannot be clearly defined by lot and block number, the applicant must furnish a plat with the request.

(i) **Fees for development impact review.**

(1) An application will not be processed until the fee has been paid.

(2) The applicant shall pay the filing fee to the building official. The building official shall deposit fees received in the official city depository not later than the next business day following receipt of the fees.

(3) No refund of a fee may be made.

(4) The fee for a site plan review required under Section 51A-4.803 is $50.00.

(5) An applicant shall pay a fee of $300.00 for an appeal to the city plan commission of a decision of the director denying a development impact review or residential adjacency review application, as described in this chapter.

(j) **Fees for thoroughfare plan amendments.**

(1) An application will not be processed until the fee has been paid.

(2) The applicant shall pay the filing fee to the director of sustainable development and construction. The director of sustainable development and construction shall deposit fees received in the official city depository not later than the next business day following receipt of the fees.

(3) No refund of a fee may be made.

(4) Fee schedule for thoroughfare plan amendment:

</tbody>
</table>

(C) Additional fees may be required for production and installation of ceremonial street name toppers.

(D) No fee is required for a ceremonial street naming application filed by the governmental entities listed in Section 51A-1.105.1.

(m) Fees for special parking and mechanized parking.

(1) An application will not be processed until the fee has been paid.

(2) The applicant shall pay the filing fee to the director. The director shall deposit fees received in the official city depository not later than the next business day following receipt of the fees.

(n) Fees for platting, replatting, and other related fees.

(1) Terms used in this subsection are defined in Articles II and VIII of this chapter.

(2) An application will not be processed until the fee has been paid. The applicant shall pay the filing fee to the director. The director shall deposit fees received in the official city depository not later than the next business day following receipt of the fees.

(3) It might be necessary to submit a plat for review and approval more than once. There is a separate fee for submission of a preliminary plat and submission of a final plat (except there is no fee for a final minor plat or a final amending plat (minor)). Fees for each revised submission are indicated in the fee schedule below. The fee for submission of a final plat for a phase is calculated as if the phase was a freestanding plat. The submission fee for an amending plat (major) is calculated as for a preliminary plat. The addition of up to 10 percent of the area of a previously submitted preliminary plat is considered a revision; if more area than that is added, the revised plat is considered a new preliminary plat.
(4) Fee schedule.

<table>
<thead>
<tr>
<th>Type of Application</th>
<th>Application Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>Preliminary plat, amending plat (major), or final plat containing 20 lots or fewer</td>
<td>$1,548 plus: (a) $17 per lot if no lot exceeds 3 acres; or (b) $70 per acre if any lot exceeds 3 acres</td>
</tr>
<tr>
<td>Preliminary plat, amending plat (major), or final plat containing more than 20 lots</td>

<td>$19,350 each type of plat</td>
</tr>
</tbody>
</table>

(5) The subdivision administrator may waive the fee required if it is determined that a subsequent plat submission is necessary due to an error or omission by the city in the review of an earlier plat submission.

(6) An applicant who submits engineering plans shall pay to the director of development services:

(A) $1,500 for the initial submission of engineering plans;

(B) no fee for the applicant’s submission of the first modification of the initial submission of engineering plans if it includes only those modifications required in response to comments and requirements made by the department of development services after reviewing the initial submission; and

(C) $500 for each subsequent submission.

The fees required in this paragraph must be paid to the director of development services at the time of each submission. After the department of development services has approved all engineering plans and received payment of all required fees, the director of development services shall notify the commission of such approval and payment.

(7) The city controller shall refund 35 percent of the filing fee to the applicant if the applicant withdraws the application prior to the case being posted for hearing. After the case is posted, the applicant may withdraw the plat but the city controller will not refund any part of the filing fee. If the applicant withdraws the application in writing prior to the hearing date, the applicant may request that the filing fee be credited to a subsequent application for the same property if it is submitted within one year of the withdrawal date.

(o) Fee for amendment to Article VII, “Sign Regulations.”

(1) An application will not be processed until the fee has been paid.

(2) The applicant shall pay the fee to the director. The director shall deposit fees received in the official city depository not later than the next business day following receipt of the fees.

(3) No refund of a fee may be made.

(t) Fee for municipal setting designation ordinance.

(1) An application will not be accepted until the initial filing fee has been paid. An application will not be placed on a city council agenda until the additional processing fee has been paid.

(2) The applicant shall pay the fees to the director. The director shall deposit fees received in the official city depository not later than the next business day following receipt of the fees.

(3) No refund of the fees may be made.

(4) The initial filing fee for a municipal setting designation ordinance is $4,000. The director shall not mail notices or advertise the public meeting until the estimated cost of mailing notices and advertising the public meeting is paid. The director shall not place a municipal setting designation ordinance on a city council agenda until an additional processing fee of $8,550 is paid.

(5) The city council may, by resolution, waive or reimburse the initial filing fee when the city council finds that payment of the fee would result in substantial financial hardship to the applicant.

(u) Fees for gas drilling and production.

(1) The city may use a qualified third party to conduct any inspections required by Article XII. The operator shall pay the city for any fees charged by third party inspectors within 30 days of receipt of an invoice from the city.

(2) Any permit that lapses for nonpayment of the annual permit fee will be reinstated upon payment of an additional fee of $50.00 for each thirty-day period during the lapse.

(w) Fees for annexation, disannexation, boundary adjustment agreement, and waiver of extraterritorial jurisdiction applications.

(1) The fee shall be paid to the director when the application is filed. An application will not be processed until the fee has been paid.

(2) The director shall deposit fees received in the official city depository not later than the next business day following receipt of the fees.

(3) No refund of a fee may be made.

(4) There is no fee for the first occasional sale permit in each 12 month period. The fee for the second occasional sale permit in a 12 month period is $25.00.

(5) A person may not operate an occasional sale without a valid permit issued by the director of code compliance. Only the owner or lessee of the property where the occasional sale is being conducted may obtain a permit. The applicant shall provide proof (driver’s license, utility bills, or other proof) that the applicant is the owner or lessee of the property.

(6) The application for an occasional sale permit must be on a form provided by the director and must contain the dates, location, hours of operation of the occasional sale, and any other information that may be reasonably required by the director of code compliance.

(7) The director of code compliance shall deny the application for an occasional sale permit if the director of code compliance determines that:

(A) the applicant has not paid the required fee;

(B) the applicant made a false statement of material fact in the application;

(C) the applicant has been given two or more citations for violating the provisions of this subsection or Section 51A-4.217(b)(9) within 12 months before submitting an application; or

(D) the occasional sale would not meet the requirements of this subsection or of Section 51A-4.217(b)(9).

(8) The applicant may appeal the denial of an application for an occasional sale permit to the...
permit and license appeal board in accordance with Section 2-96 of the Dallas City Code.

(9) By making an application for an occasional sale permit, accepting the permit, and conducting the sale, the permit holder authorizes any code enforcement officer to enter the property to determine that the occasional sale is being conducted in compliance with this chapter.

(10) Permits are only valid for the dates specified on the application. If inclement weather prevents the occasional sale, the director of code compliance may, in his sole discretion, issue a replacement permit at no cost to the applicant. The applicant must request the replacement permit within one week after the date of the cancelled occasional sale. No more than one replacement permit shall be issued per calendar year per address.

(y) Fees for property description review.

(1) An application will not be processed until the fee has been paid.

(2) The applicant shall pay the fee to the director. The director shall deposit fees received in the official city depository not later than the next business day following receipt of the fees.

(3) A fee is required for each review.

(4) No refund of a fee may be made.

SEC. 51A-1.105.1. FEE EXEMPTIONS AND REFUNDS.

(a) No fee is required for applications filed under this chapter by the U.S. Government, the State of Texas, or the city of Dallas if the property that is the subject of the application is devoted exclusively to governmental use.

(b) No fee is required for applications made to the board of adjustment pursuant to Section 51A-1.107, requesting a special exception to a regulation in this chapter based on a handicap.

(c) Whenever affordable housing units are provided as a part of a project in accordance with Division 51A-4.900, the director shall authorize a refund of a percentage of the total zoning and platting application fees paid for the project equal to the percentage of standard affordable housing units provided in the project. (Ord. Nos. 20037; 21176; 21183; 21663; 28096)

SEC. 51A-1.106. NOTIFICATION SIGNS REQUIRED TO BE OBTAINED AND POSTED.

(a) In general.

(1) The notification signs required in this section are intended to supplement state law and other Dallas Development Code notice requirements.

(2) The city plan commission, landmark commission, board of adjustment, or city council shall determine if an applicant has complied with the notification sign posting requirements in this section.

(b) Signs required to be obtained from the city. An applicant is responsible for obtaining the required number of notification signs and posting them on the property that is the subject of the application. Notification signs must be obtained from the director or the building official. An application will not be processed until the fee for the signs has been paid. For purposes of this section, an applicant is one who makes a request:

- (1) for a change in a zoning classification or boundary;
- (2) to the board of adjustment;
- (3) for a certificate of appropriateness for a sign that is to be located in a special provision sign district and is either a detached sign or an attached sign that has more than 100 square feet of effective area; or
- (4) to the landmark commission for a certificate for demolition or removal.

(c) Number of signs required. A minimum of one notification sign is required for every 500 feet or less of street frontage, with one additional notification sign required for each additional 500 feet or less of street frontage. For tracts without street frontage, a minimum of one notification sign is required for every five acres or less, with one additional notification sign required for each additional five acres or less. A maximum of five notification signs are required.

(d) Posting of signs.

- (1) Except as provided in Subsection 51A-1.106(e), the applicant shall post the required number of notification signs on the property within 14 days after an application is filed.
- (2) The signs must remain posted until a final decision is made on the application.
- (3) For tracts with street frontage, signs must be evenly spaced over the length of every street frontage, posted at a prominent location adjacent to a public street, and be easily visible from the street. For tracts without street frontage, signs must be evenly posted in prominent locations most visible to the public.
§ 51A-1.106 Dallas Development Code: Ordinance No. 19455, as amended

(4) An applicant has complied with the required posting of notification signs if any lost, stolen, or vandalized notification signs are timely replaced, and the applicant has made good faith efforts to keep the notification signs posted in accordance with this section.

(e) Failure to comply.

(1) If the city plan commission, landmark commission, or board of adjustment determines that the applicant has failed to comply with the provisions of this section, it shall take no action on the application other than to postpone the public hearing for at least four weeks or deny the applicant’s request, with or without prejudice.

(2) If the hearing is postponed, the required notification signs must be posted within 24 hours after the case is postponed and comply with all other requirements of this section.

(f) Illegal removal of signs.

(1) A person commits an offense if he intentionally or knowingly removes a notification sign that has been posted pursuant to this section.

(2) It is a defense to prosecution under this subsection that the sign was no longer required to be posted pursuant to this section at the time of its removal.

(g) Posting of signs by the director.

(1) When the city council or city plan commission authorizes a hearing on a change in zoning district classification or boundary pursuant to Paragraph 51A-4.701(a)(1), the city council, city plan commission, or landmark commission authorizes a public hearing to establish or amend a historic overlay district pursuant to Paragraph 51A-4.501(c)(2), the board of adjustment authorizes a hearing pursuant to Paragraph 51A-4.703(a)(1), or the city council or an applicant requests that the board of adjustment consider establishing a compliance date for a nonconforming use pursuant to Subparagraph 51A-4.704(a)(1), the director shall post the required number of notification signs on the subject property at least 30 days before the first public hearing unless the body authorizing a hearing approves a shorter time period for posting the required notification signs at the time of authorization.

(2) If the property owner denies permission for the post of the signs, the signs may be posted on the nearest public right-of-way.

(3) Illegal removal of a notification sign that has been posted pursuant to this subsection does not require postponement or denial under Subsection 51A-1.106(e). (Ord. Nos. 19455; 19872; 19963; 20599; 20926; 20949; 21044; 22389; 24542; 26287; 26577; 27184; 29626)

SEC. 51A-1.107. SPECIAL EXCEPTIONS FOR THE HANDICAPPED.

(a) Purpose. It is the express intent of the city council to comply with the Federal Fair Housing Amendments Act of 1988, and to ensure that all handicapped persons have equal opportunity to use and enjoy a dwelling. This section allows a person to seek relief from the enforcement of any regulation contained in this chapter that would result in illegal discrimination against the handicapped.

(b) General provisions.

(1) The board of adjustment shall grant a special exception to any regulation in this chapter if, after a public hearing, the board finds that the exception is necessary to afford a handicapped person equal opportunity to use and enjoy a dwelling. The term “handicapped person” means a person with a “handicap,” as that term is defined in the Federal Fair Housing Amendments Act of 1988, as amended.

(2) The board may impose reasonable conditions upon the granting of this special exception consistent with the purpose stated in this section.
§ 51A-1.107 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-1.109

(3) This section does not authorize the board to grant a change in the use of a building or structure. (Ord. 21183)

SEC. 51A-1.108. COMPREHENSIVE PLAN.

(a) Adoption. The comprehensive plan was adopted following review by the department and the city plan commission, and following a hearing at which the public was given the opportunity to give testimony and present written evidence.

(b) Purpose. The purpose of this comprehensive plan is to promote sound development of the city and promote the public health, safety, and welfare. The comprehensive plan is a plan for the long-range development of the city. The comprehensive plan sets forth policies to govern the future physical development of the city. The comprehensive plan shall serve as a guide to all future city council action concerning land use and development regulations, urban conservation and rehabilitation programs, and expenditures for capital improvements.

(c) Components. The comprehensive plan is composed of the following components:

(1) Vision component. This component expresses the ideas, ideals, and goals residents have for the future of the city, and includes a vision illustration showing possible general locations of building blocks or development patterns.

(2) Policy plan. This plan provides the overall policy framework to guide decisions over time toward achieving the vision.

(3) Implementation plan. This plan provides timelines for accomplishing goals outlined in the vision statement and policy plan. Goals are divided into the implementation plan, which are long-term projects, and action plans, which are short-term projects.

(4) Monitoring program. This program gives the city and citizens a framework for tracking progress toward implementation of the vision.

(5) Other plans. All other area plans and programmatic plans, as existing, amended, or created in the future, are incorporated into the comprehensive plan.

(d) Amendment.

(1) The vision, policy plan, area plans, and programmatic plans may be amended if authorized by city council and by following the procedure for city council authorized amendments as set out in Section 51A-4.701, “Zoning Amendments,” of Article IV, “Zoning Regulations,” of the Dallas Development Code, as amended.

(2) The implementation plan and monitoring program may be amended by ordinance of the city council.

(e) Relation to zoning. The relationship between the comprehensive plan and development regulations is that the comprehensive plan serves merely as a guide for rezoning requests rather than as a mandatory restriction on the city’s authority to regulate land use. The comprehensive plan shall not constitute zoning regulations or establish zoning district boundaries. The comprehensive plan does not limit the ability of the city to prepare other plans, policies, or strategies as required. (Ord. Nos. 26371; 28073)

SEC. 51A-1.109. APPORTIONMENT OF EXACTIONS.

(a) Exactions must be related and proportionate.

(1) No exactions may be imposed unless the exactions are:

(A) related to the needs created by the property development project; and
(B) roughly proportionate to the impact of the property development project.

(2) No precise mathematical calculation is required, but the city must make an individualized determination that the required exaction is related both in nature and extent to the impact of the property development.

(b) Developer report. If the director determines that a developer report is necessary, the developer shall submit a report prepared by a professional engineer licensed to practice in Texas to the director containing an analysis of existing municipal infrastructure, including streets capacity and condition, alleys, street lighting, street signals, water service, wastewater service, fire hydrants, storm water drainage system, solid waste collection, and sanitary sewer; an analysis of the need for municipal infrastructure additions or improvements; and any other information related to the property development project that the director deems necessary.

(c) Waiver. The director may waive the developer report if:

(1) The developer will bear the total cost of the exactions, such as infrastructure improvement necessitated solely by, and internal to, the property development project.

(2) The developer has volunteered to pay a greater proportion of the costs of the exactions.

(3) The director determines that the developer report is unnecessary.

(d) Apportionment determination.

(1) Within 30 days after submission of the developer report, the director shall notify the developer that the report is complete or notify the developer in writing of any deficiencies in the report and of any additional documentation required.

(2) A professional engineer licensed to practice in Texas and retained by the city shall evaluate the complete developer report and make the apportionment determination.

(3) The apportionment determination is a determination of the proportion of exactions to be borne by the developer. For example, if the total cost of the municipal infrastructure additions or improvements is $10,000, and the need for the municipal infrastructure additions or improvements is related to the needs created by the property development project, and the property development project accounts for 80 percent of the impact on the municipal infrastructure additions or improvements, then the developer’s portion is 80 percent of the cost of the municipal infrastructure additions or improvements, or $8,000.

(4) The director shall notify the developer of the apportionment determination within 60 days after deeming the developer report complete, prior to approval of any related zoning district classification or boundary change, prior to final release of any related plat, or prior to execution of any related private development contract, whichever is earliest.

(5) Cost sharing of municipal infrastructure additions or improvements between the developer and the city shall be documented in a cost sharing contract pursuant to Section 51A-8.614.

(e) Appeal.

(1) No waiver. A developer shall not be required to waive the right of appeal as a condition for approval of a development project.

(2) City plan commission. A developer may appeal the director’s apportionment determination to the city plan commission by filing written notice with the director within 30 days after the date of the determination. If an appeal is filed, the city plan commission shall hear the appeal within 60 days after the date of its filing. The director shall forward to the city plan commission the complete record of the matter
being appealed, including the developer report, if any, and the apportionment determination. The city plan commission shall hold a public hearing where the developer and director may present evidence and testimony under procedures adopted by the city plan commission. The developer shall have the burden of proof at the public hearing. The city plan commission shall have the same authority as the director and may affirm, in whole or in part, modify the apportionment determination, or remand the apportionment determination back to the director for further consideration. In reviewing the apportionment determination, the city plan commission shall use the standard in Subsection (a). The city plan commission shall make its determination within 30 days after the hearing.

(3) City council. A developer may appeal the city plan commission’s decision to the city council by filing a written notice with the director within 30 days after the date of the city plan commission’s decision. If an appeal is filed, the city council shall hear the appeal within 60 days after the date of its filing. The director shall forward to the city council the complete record of the matter being appealed, including the developer report, if any, the apportionment determination, and the record of the city plan commission hearing. City council shall hold a public hearing where the developer and the director may present evidence and testimony under procedures adopted by city council. The developer shall have the burden of proof at the public hearing. The city council shall have the same authority as the director and may affirm, in whole or in part, modify the apportionment determination, or remand the apportionment determination back to the director for further consideration. In reviewing the apportionment determination, the city council shall use the standard in Subsection (a). The city council shall make its determination within 30 days after the hearing.

(4) County or district court. A developer may appeal the city council’s decision to a county or district court of the county where the development project is located within 30 days after the date of the city council’s final determination. The sole issue on appeal is whether the city council erred in its review of the city plan commission determination. (Ord. 26530)

SEC. 51A-4.102. RESERVED. (Ord. 19455)

SEC. 51A-4.103. ZONING DISTRICT MAP.

(a) The boundaries of zoning districts are recorded on the Geographic Information System (GIS) maintained by the department which is the official zoning district map of the city. The official zoning district map is made a part of and incorporated into this chapter.

(b) The director shall maintain the zoning district map in the department. The director shall revise the map to reflect any subsequent zoning district amendment.

(c) In case of any question involving a district designation within the city, the updated copy of the official zoning district map on file in the office of the director is presumed correct, and the person challenging the accuracy of that copy has the burden of presenting the official zoning map, together with the ordinances amending the map, to prove the inaccuracy of the updated copy. (Ord. 19455; 20729; 28072)

SEC. 51A-4.104. ZONING DISTRICT BOUNDARIES.

(a) When uncertainty exists as to the boundaries of districts as shown on the official zoning map, the following rules apply:

(1) Boundaries indicated as approximately following the center lines of streets, highways, or alleys are construed to follow those center lines.

(2) Boundaries indicated as approximately following platted lot lines are construed as following those lot lines.

(3) Boundaries indicated as approximately following city limits are construed as following city limits.

(4) Boundaries indicated as following railroad lines are construed as following the established center line of a railroad right-of-way. If no center line is established, the boundary is midway between the railroad right-of-way lines.

(5) Boundaries indicated as following shore lines are construed to follow shore lines. If the shore line changes, the boundaries are construed as moving with the actual shore line.

(6) Boundaries indicated as approximately following the center lines of streams, rivers, canals, lakes, or other bodies of water are construed to follow those center lines. The center line is interpreted as being midway between the shore lines of the body of water. If the center line changes, the boundaries are construed as moving with the center line.
§ 51A-4.104 Dallas Development Code: Ordinance No. 19455, as amended

(7) Boundaries indicated as parallel to or extensions of the features described in Subsections (a)(1) through (a)(6) are construed as being parallel to or extensions of the features.

(8) Boundaries indicated as dividing a lot or tract are construed to be located as shown on the zoning district map.

(b) Distances not specifically indicated on a zoning district map are determined by the scale of the map.

(c) Whenever a street, alley, or other public way is vacated by official action of the city council, the zoning district line adjoining each side of the street, alley, or other public way automatically extends to the center line of the vacated street, alley, or public way.

(d) When there is a question as to the boundary of a tract and that question cannot be resolved by the application of Subsections (a) through (c), the board of adjustment shall determine the boundary by interpreting the official zoning district map and ordinances amending the map.

(e) When there is a question as to whether or how a tract is zoned and that question cannot be resolved by the application of this section, the tract is temporarily classified as an agricultural district, and the tract is subject to the same regulations as provided for annexed territory temporarily zoned. (Ord. 19455)

SEC. 51A-4.105. INTERPRETATION OF DISTRICT REGULATIONS.

(a) The following rules apply in interpreting the district regulations:

(1) The symbol [L] appearing after a listed use means that the use is permitted by right as a limited use only.

(b) The symbol [SUP] appearing after a listed use means that the use is permitted by specific use permit only.

(3) The symbols [L] and [SUP] appearing together after a listed use mean that the use is permitted by right as a limited use; otherwise it is permitted by specific use permit only.

(4) The symbol [DIR] appearing after a listed use means that a site plan must be submitted and approved in accordance with the requirements of Section 51A-4.803. (“DIR” means “development impact review.” For more information regarding development impact review generally, see Division 51A-4.800.)

(5) The symbol [RAR] appearing after a listed use means that, if the use has a residential adjacency as defined in Section 51A-4.803, a site plan must be submitted and approved in accordance with the requirements of that section. (RAR means residential adjacency review. For more information regarding residential adjacency review generally, see Division 51A-4.800.)

(b) If there is a conflict between the text of the district regulations and the charts or any other graphic display in this chapter, the text of the district regulations controls.

(c) If there is a conflict between the text of the district regulations and the text of the use regulations (Division 51A-4.100, et seq.), the text of the use regulations controls. (Ord. Nos. 19455; 19786)

SECS. 51A-4.106 THRU 51A-4.109. RESERVED.

(Ord. 19455)
Division 51A-4.110. Residential District Regulations.

SEC. 51A-4.111. AGRICULTURAL [A(A)] DISTRICT.

(1) Purpose. There exists in certain fringe areas of the city, land which is presently used for agricultural purposes and to which urban services are not yet available. These lands should appropriately continue to be used for agricultural purposes until needed for urban purposes in conformity with the orderly growth of the city. The uses permitted in the A(A) district are intended to accommodate normal farming, ranching, and gardening activities. It is anticipated that all of the A(A) district area will be changed to other urban zoning categories as the area within the corporate limits of Dallas becomes fully developed. Newly annexed territory will be temporarily zoned as an A(A) district until permanent zoning is established.

(2) Main uses permitted.

(A) Agricultural uses.

-- Animal production.
-- Commercial stable.
-- Crop production.

(B) Commercial and business service uses.

None permitted.

(C) Industrial uses.

-- Gas drilling and production. [SUP]
-- Mining. [SUP]
-- Organic compost recycling facility. [SUP]
-- Temporary concrete or asphalt batching plant.

(D) Institutional and community service uses.

-- Adult day care facility. [SUP]
-- Cemetery or mausoleum. [SUP]
-- Child-care facility. [SUP]
-- Church.
-- College, university or seminary.
-- Community service center. [SUP]
-- Convalescent and nursing homes, hospice care, and related institutions. [SUP]
-- Convent or monastery.
-- Foster home. [SUP]
-- Hospital. [SUP]
-- Library, art gallery, or museum. [SUP]
-- Open-enrollment charter school or private school. [SUP]
-- Public school other than an open-enrollment charter school. [RAR]

(E) Lodging uses.

None permitted.

(F) Miscellaneous uses.

-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) Office uses.

None permitted.
§ 51A-4.111  Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.111

(H) Recreation uses.

-- Country club with private membership. [SUP]
-- Private recreation center, club or area. [SUP]
-- Public park, playground, or golf course.

(I) Residential uses.

-- College dormitory, fraternity, or sorority house.
-- Handicapped group dwelling unit. [See Section 51A-4.209(3.1).]
-- Single family.

(J) Retail and personal service uses.

-- Animal shelter or clinic without outside run.
-- Animal shelter or clinic with outside run. [SUP]
-- Commercial amusement (outside). [SUP]
-- Drive-in theater. [SUP]
-- Nursery, garden shop, or plant sales.

(K) Transportation uses.

-- Helistop. [SUP]
-- Transit passenger shelter.
-- Transit passenger station or transfer center. [SUP]

(L) Utility and public service uses.

-- Commercial radio or television transmitting station. [SUP]
-- Electrical substation. [SUP]
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]

-- Police or fire station. [SUP]
-- Radio, television, or microwave tower. [SUP]
-- Refuse transfer station. [SUP]
-- Sanitary landfill. [SUP]
-- Sewage treatment plant. [SUP]
-- Tower/antenna for cellular communication. [See Section 51A-4.212 (10.1).]
-- Utility or government installation other than listed. [SUP]
-- Water treatment plant. [SUP]

(M) Wholesale, distribution, and storage uses.

-- Livestock auction pens or sheds. [SUP]
-- Recycling drop-off container. [See Section 51A-4.213(11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213(11.3).]
-- Sand, gravel, or earth sales and storage. [SUP]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(A) The following accessory uses are not permitted in this district:

-- Accessory community center (private).
-- Accessory outside display of merchandise.
-- Accessory outside sales.
-- Accessory pathological waste incinerator.
§ 51A-4.111 Dallas Development Code: Ordinance No. 19455, as amended

(B) In this district, the following accessory use is permitted by SUP only:

-- Accessory helistop.

(C) In this district, an SUP may be required for the following accessory uses:

-- Accessory medical/infectious waste incinerator. [See Section 51A-4.217(3.1).]

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard. Minimum front yard is 50 feet.

(B) Side and rear yard.

(i) Minimum side yard is 20 feet.

(ii) Minimum rear yard is:

(aa) 50 feet for single family structures; and

(bb) 10 feet for other permitted structures.

(C) Dwelling unit density. No maximum dwelling unit density.

(D) Floor area ratio. No maximum floor area ratio.

(E) Height. Maximum structure height is 24 feet.

(F) Lot coverage.

(i) Maximum lot coverage is:

(aa) 10 percent for residential structures; and

(bb) 25 percent for nonresidential structures.

(ii) Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) Lot size.

(i) Minimum lot area for residential use is three acres.

(ii) Repealed by Ord. 20441.

(H) Stories. No maximum number of stories.

(5) Off-street parking and loading. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions. None. (Ord. Nos. 19455; 19786; 20384; 20441; 20625; 20950; 21002; 21314; 22255; 24271; 24543; 26920)

SEC. 51A-4.112. SINGLE FAMILY DISTRICTS.

(a) R-1ac(A) district.

(1) Purpose. There exists in certain parts of the city large areas of single family residential development on estate type lots of one acre or more in
area. This development has been supplied with utilities and other public services based upon an estate type density. To conserve the character and value of buildings and building sites existing in these areas and to provide for the gradual expansion of this residential development in accordance with the need and a comprehensive plan for various types of residential districts, the R-1ac(A) district is provided. This district is intended to be composed of single family dwellings together with public and private schools, churches, and public park areas to serve the area. The sections designated in the R-1ac(A) districts are limited in area and are not intended to be subject to major alteration by future amendment except at the fringe of the districts where minor adjustments may become appropriate to permit the reasonable development of vacant tracts or gradual transition from other districts.

(2) **Main uses permitted.**

(A) **Agricultural uses.**

-- Crop production.

(B) **Commercial and business service uses.**

None permitted.

(C) **Industrial uses.**

-- Gas drilling and production. [SUP]
-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) **Institutional and community service uses.**

-- Adult day care facility. [SUP]
-- Cemetery or mausoleum. [SUP]
-- Child-care facility. [SUP]
-- Church.

-- College, university or seminary. [SUP]
-- Community service center. [SUP]
-- Convent or monastery. [SUP]
-- Foster home. [SUP]
-- Library, art gallery, or museum. [SUP]
-- Public or private school. [SUP]

(E) **Lodging uses.**

None permitted.

(F) **Miscellaneous uses.**

-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) **Office uses.**

None permitted.

(H) **Recreation uses.**

-- Country club with private membership. [SUP]
-- Private recreation center, club, or area. [SUP]
-- Public park, playground, or golf course.

(I) **Residential uses.**

-- Handicapped group dwelling unit. [See Section 51A-4.209(3.1).]
-- Single family.

(J) **Retail and personal service uses.**

None permitted.
§ 51A-4.112 Dallas Development Code: Ordinance No. 19455, as amended § 51A-4.112

(K) Transportation uses.
-- Private street or alley. [SUP]
-- Transit passenger shelter. [See Section 51A-4.211.]
-- Transit passenger station or transfer center. [SUP]

(L) Utility and public service uses.
-- Electrical substation. [SUP]
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station. [SUP]
-- Radio, television, or microwave tower. [SUP]
-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
-- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.
-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(A) The following accessory uses are not permitted in this district:
-- Accessory helistop.
-- Accessory medical/infectious waste incinerator.
-- Accessory outside display of merchandise.
-- Accessory outside sales.
-- Accessory pathological waste incinerator.

(B) In this district, the following accessory uses are permitted by SUP only:
-- Accessory community center (private).

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard. Minimum front yard is 40 feet.

(B) Side and rear yard. Minimum side and rear yard is:

(i) 10 feet for single family structures; and

(ii) 20 feet for other permitted structures.

(C) Dwelling unit density. No maximum dwelling unit density.

(D) Floor area ratio. No maximum floor area ratio.

(E) Height. Maximum structure height is 36 feet.
§ 51A-4.112 Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.112

(F) Lot coverage.

(i) Maximum lot coverage is:

(aa) 40 percent for residential structures; and

(bb) 25 percent for nonresidential structures.

(ii) Surface parking lots and underground parking structures are not included in lot coverage calculations.

(G) Lot size.

(i) Minimum lot area for residential use is one acre.

(ii) Repealed by Ord. 20441.

(iii) Repealed by Ord. 20441.

(H) Stories. No maximum number of stories.

(5) Off-street parking and loading. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally. In this district, off-street parking must be provided at or below ground level.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) Electrical service for single family uses. In this district, a lot for a single family use may be supplied by not more than one electrical utility service, and metered by not more than one electrical meter. The board of adjustment may grant a special exception to authorize more than one electrical utility service and more than one electrical meter on a lot in this district when, in the opinion of the board, the special exception will:

(1) not be contrary to the public interest;

(2) not adversely affect neighboring properties; and

(3) not be used to conduct a use not permitted in this district.

(b) R-1/2ac(A) district.

(1) Purpose. There exists in certain parts of the city large areas of single family residential development on estate type lots of one-half acre or more in area. This development has been supplied with utilities and other public services based upon an estate type density. To conserve the character and value of buildings and building sites existing in these areas and to provide for the gradual expansion of this residential development in accordance with the need and a comprehensive plan for various types of residential districts, the R-1/2ac(A) district is provided. This district is intended to be composed of single family dwellings together with public and private schools, churches, and public park areas to serve the area. The sections designated in the R-1/2ac(A) districts are limited in area and are not intended to be subject to major alteration by future amendment except at the fringe of the districts where minor adjustments may become appropriate to permit the reasonable development of vacant tracts or gradual transition from other districts.

(2) Main uses permitted.

(A) Agricultural uses.

-- Crop production.
### (B) Commercial and business service uses.

None permitted.

### (C) Industrial uses.

- Gas drilling and production. [SUP]
- Temporary concrete or asphalt batching plant. *By special authorization of the building official.*

### (D) Institutional and community service uses.

- Adult day care facility. [SUP]
- Cemetery or mausoleum. [SUP]
- Child-care facility. [SUP]
- Church.
- College, university or seminary. [SUP]
- Community service center. [SUP]
- Convent or monastery. [SUP]
- Foster home. [SUP]
- Library, art gallery, or museum. [SUP]
- Public or private school. [SUP]

### (E) Lodging uses.

None permitted.

### (F) Miscellaneous uses.

- Carnival or circus (temporary). *By special authorization of the building official.*
- Temporary construction or sales office.

### (G) Office uses.

None permitted.

### (H) Recreation uses.

- Country club with private membership. [SUP]
- Private recreation center, club, or area. [SUP]
- Public park, playground, or golf course.

### (I) Residential uses.

- Handicapped group dwelling unit. *See Section 51A-4.209(3.1).*
- Single family.

### (J) Retail and personal service uses.

None permitted.

### (K) Transportation uses.

- Private street or alley. [SUP]
- Transit passenger shelter. *See Section 51A-4.211.*
- Transit passenger station or transfer center. [SUP]

### (L) Utility and public service uses.

- Electrical substation. [SUP]
- Local utilities. *SUP or RAR may be required. See Section 51A-4.212(4).*
- Police or fire station. [SUP]
- Radio, television, or microwave tower. [SUP]
- Tower/antenna for cellular communication. *See Section 51A-4.212 (10.1).*
§ 51A-4.112 Dallas Development Code: Ordinance No. 19455, as amended

-- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.

-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(A) The following accessory uses are not permitted in this district:

-- Accessory helistop.
-- Accessory medical/infectious waste incinerator.
-- Accessory outside display of merchandise.
-- Accessory outside sales.
-- Accessory pathological waste incinerator.

(B) In this district, the following accessory uses are permitted by SUP only:

-- Accessory community center (private).

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard. Minimum front yard is 40 feet.

(B) Side and rear yard. Minimum side and rear yard is:

(i) 10 feet for single family structures; and
(ii) 20 feet for other permitted structures.

(C) Dwelling unit density. No maximum dwelling unit density.

(D) Floor area ratio. No maximum floor area ratio.

(E) Height. Maximum structure height is 36 feet.

(F) Lot coverage.

(i) Maximum lot coverage is:

(aa) 40 percent for residential structures; and

(bb) 25 percent for nonresidential structures.

(ii) Surface parking lots and underground parking structures are not included in lot coverage calculations.

(G) Lot size.

(i) Minimum lot area for residential use is one-half acre.

(ii) Repealed by Ord. 20441.

(iii) Repealed by Ord. 20441.

(H) Stories. No maximum number of stories.
§ 51A-4.112 Dallas Development Code: Ordinance No. 19455, as amended

(5) **Off-street parking and loading.** Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally. In this district, off-street parking must be provided at or below ground level.

(6) **Environmental performance standards.** See Article VI.

(7) **Landscape regulations.** See Article X.

(8) **Additional provisions.**

   (A) **Electrical service for single family uses.** In this district, a lot for a single family use may be supplied by not more than one electrical utility service, and metered by not more than one electrical meter. The board of adjustment may grant a special exception to authorize more than one electrical utility service and more than one electrical meter on a lot in this district when, in the opinion of the board, the special exception will:

      (i) not be contrary to the public interest;

      (ii) not adversely affect neighboring properties; and

      (iii) not be used to conduct a use not permitted in this district.

   (c) **R-16(A) district.**

   (1) **Purpose.** Single family residential development has taken place on intermediate sized lots in portions of the city in recent years. In order to protect and encourage the continued development of intermediate density with single family residences in appropriate areas of the city, the R-16(A) district is provided. In addition to single family residences, it is intended that churches, public and private schools, and public parks necessary to serve and complement the intermediate density development be permitted. The areas placed in the R-16(A) district are generally limited in area and are not intended to be subject to major alteration by future amendment except where changed conditions might justify the action or where minor adjustments in the boundary of a district may be appropriate to secure a reasonable development of the land.

(2) **Main uses permitted.**

   (A) **Agricultural uses.**

      -- Crop production.

   (B) **Commercial and business service uses.**

      None permitted.

   (C) **Industrial uses.**

      -- Gas drilling and production. [SUP]

      -- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

   (D) **Institutional and community service uses.**

      -- Adult day care facility. [SUP]

      -- Cemetery or mausoleum. [SUP]

      -- Child-care facility. [SUP]

      -- Church.

      -- College, university or seminary. [SUP]

      -- Community service center. [SUP]

      -- Convent or monastary. [SUP]

      -- Foster home. [SUP]

      -- Library, art gallery, or museum. [SUP]
§ 51A-4.112  Dallas Development Code: Ordinance No. 19455, as amended

-- Public or private school. [SUP]

(E) Lodging uses.

None permitted.

(F) Miscellaneous uses.

-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) Office uses.

None permitted.

(H) Recreation uses.

-- Country club with private membership. [SUP]
-- Private recreation center, club, or area. [SUP]
-- Public park, playground, or golf course.

(I) Residential uses.

-- Handicapped group dwelling unit. [See Section 51A-4.209(3.1).]
-- Single family.

(J) Retail and personal service uses.

None permitted.

(K) Transportation uses.

-- Private street or alley. [SUP]
-- Transit passenger shelter. [See Section 51A-4.211.]
-- Transit passenger station or transfer center. [SUP]}

(L) Utility and public service uses.

-- Electrical substation. [SUP]
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station. [SUP]
-- Radio, television, or microwave tower. [SUP]
-- Tower/antenna for cellular communication. [See Section 51A-4.212 (10.1).]
-- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.

-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(A) The following accessory uses are not permitted in this district:

-- Accessory helistop.
-- Accessory medical/infectious waste incinerator.
-- Accessory outside display of merchandise.
-- Accessory outside sales.
-- Accessory pathological waste incinerator.
§ 51A-4.112 Dallas Development Code: Ordinance No. 19455, as amended

(B) In this district, the following accessory uses are permitted by SUP only:

-- Accessory community center (private).

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard. Minimum front yard is 35 feet.

(B) Side and rear yard.

(i) Minimum side and rear yard for single family structures is 10 feet.

(ii) Minimum side yard for other permitted structures is 15 feet.

(iii) Minimum rear yard for other permitted structures is 20 feet.

(C) Dwelling unit density. No maximum dwelling unit density.

(D) Floor area ratio. No maximum floor area ratio.

(E) Height. Maximum structure height is 30 feet.

(F) Lot coverage.

(i) Maximum lot coverage is:

(aa) 40 percent for residential structures; and

(bb) 25 percent for nonresidential structures.

(ii) Surface parking lots and underground parking structures are not included in lot coverage calculations.

(G) Lot size.

(i) Minimum lot area for residential use is 16,000 square feet.

(ii) Repealed by Ord. 20441.

(iii) Repealed by Ord. 20441.

(H) Stories. No maximum number of stories.

(5) Off-street parking and loading. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally. In this district, off-street parking must be provided at or below ground level.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) Electrical service for single family uses. In this district, a lot for a single family use may be supplied by not more than one electrical utility service, and metered by not more than one electrical meter. The board of adjustment may grant a special exception to authorize more than one electrical utility service and more than one electrical meter on a lot in this district when, in the opinion of the board, the special exception will:

(i) not be contrary to the public interest;
(ii) not adversely affect neighboring properties; and

(iii) not be used to conduct a use not permitted in this district.

(d) R-13(A) district.

(1) Purpose. Single family residential development has taken place on intermediate sized lots in portions of the city in recent years. In order to protect and encourage the continued development of intermediate density with single family residences in appropriate areas of the city, the R-13(A) district is provided. In addition to single family residences, it is intended that churches, public and private schools, and public parks necessary to serve and complement the intermediate density development be permitted. The areas placed in the R-13(A) district are generally limited in area and are not intended to be subject to major alteration by future amendment except where changed conditions might justify the action or where minor adjustments in the boundary of a district may be appropriate to secure a reasonable development of the land.

(2) Main uses permitted.

(A) Agricultural uses.

-- Crop production.

(B) Commercial and business service uses.

None permitted.

(C) Industrial uses.

-- Gas drilling and production. [SUP]

-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.

-- Adult day care facility. [SUP]

-- Cemetery or mausoleum. [SUP]

-- Child-care facility. [SUP]

-- Church.

-- College, university or seminary. [SUP]

-- Community service center. [SUP]

-- Convent or monastery. [SUP]

-- Foster home. [SUP]

-- Library, art gallery, or museum. [SUP]

-- Public or private school. [SUP]

(E) Lodging uses.

None permitted.

(F) Miscellaneous uses.

-- Carnival or circus (temporary). [By special authorization of the building official.]

-- Temporary construction or sales office.

(G) Office uses.

None permitted.

(H) Recreation uses.

-- Country club with private membership. [SUP]

-- Private recreation center, club, or area. [SUP]

-- Public park, playground, or golf course.
§ 51A-4.112 Dallas Development Code: Ordinance No. 19455, as amended

(I) Residential uses.

-- Handicapped group dwelling unit. [See Section 51A-4.209(3.1).]

-- Single family.

(J) Retail and personal service uses.

None permitted.

(K) Transportation uses.

-- Private street or alley. [SUP]

-- Transit passenger shelter. [See Section 51A-4.211.]

-- Transit passenger station or transfer center. [SUP]

(L) Utility and public service uses.

-- Electrical substation. [SUP]

-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]

-- Police or fire station. [SUP]

-- Radio, television, or microwave tower. [SUP]

-- Tower/antenna for cellular communication. [See Section 51A-4.212 (10.1).]

-- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.

-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]

-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(A) The following accessory uses are not permitted in this district:

-- Accessory helistop.

-- Accessory medical/infectious waste incinerator.

-- Accessory outside display of merchandise.

-- Accessory outside sales.

-- Accessory pathological waste incinerator.

(B) In this district, the following accessory uses are permitted by SUP only:

-- Accessory community center (private).

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard. Minimum front yard is 30 feet.

(B) Side and rear yard. Minimum side and rear yard is:

(i) 8 feet for single family structures; and

(ii) 15 feet for other permitted structures.

(C) Dwelling unit density. No maximum dwelling unit density.
(D) **Floor area ratio.** No maximum floor area ratio.

(E) **Height.** Maximum structure height is 30 feet.

(F) **Lot coverage.**

(i) Maximum lot coverage is:

(aa) 45 percent for residential structures; and

(bb) 25 percent for nonresidential structures.

(ii) Surface parking lots and underground parking structures are not included in lot coverage calculations.

(G) **Lot size.**

(i) Minimum lot area for residential use is 13,000 square feet.

(H) **Stories.** No maximum number of stories.

(5) **Off-street parking and loading.** Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally. In this district, off-street parking must be provided at or below ground level.

(6) **Environmental performance standards.** See Article VI.

(7) **Landscape regulations.** See Article X.

(8) **Additional provisions.**

(A) **Electrical service for single family uses.** In this district, a lot for a single family use may be supplied by not more than one electrical utility service, and metered by not more than one electrical meter. The board of adjustment may grant a special exception to authorize more than one electrical utility service and more than one electrical meter on a lot in this district when, in the opinion of the board, the special exception will:

(i) not be contrary to the public interest;

(ii) not adversely affect neighboring properties; and

(iii) not be used to conduct a use not permitted in this district.

(e) **R-10(A) district.**

(1) **Purpose.** Single family residential development has taken place on intermediate sized lots in portions of the city in recent years. In order to protect and encourage the continued development of intermediate density with single family residences in appropriate areas of the city, the R-10(A) district is provided. In addition to single family residences, it is intended that churches, public and private schools, and public parks necessary to serve and complement the intermediate density development be permitted. The areas placed in the R-10(A) district are generally limited in area and are not intended to be subject to major alteration by future amendment except where changed conditions might justify the action or where minor adjustments in the boundary of a district may be appropriate to secure a reasonable development of the land.

(2) **Main uses permitted.**

(A) **Agricultural uses.**

-- Crop production.
§ 51A-4.112 Dallas Development Code: Ordinance No. 19455, as amended

(B) Commercial and business service uses.

None permitted.

(C) Industrial uses.

-- Gas drilling and production. [SUP]
-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.

-- Adult day care facility. [SUP]
-- Cemetery or mausoleum. [SUP]
-- Child-care facility. [SUP]
-- Church.
-- College, university or seminary. [SUP]
-- Community service center. [SUP]
-- Convent or monastery. [SUP]
-- Foster home. [SUP]
-- Library, art gallery, or museum. [SUP]
-- Public or private school. [SUP]

(E) Lodging uses.

None permitted.

(F) Miscellaneous uses.

-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) Office uses.

None permitted.

(H) Recreation uses.

-- Country club with private membership. [SUP]
-- Private recreation center, club, or area. [SUP]
-- Public park, playground, or golf course.

(I) Residential uses.

-- Handicapped group dwelling unit. [See Section 51A-4.209(3.1).]
-- Single family.

(J) Retail and personal service uses.

None permitted.

(K) Transportation uses.

-- Private street or alley. [SUP]
-- Transit passenger shelter. [See Section 51A-4.211.]
-- Transit passenger station or transfer center. [SUP]

(L) Utility and public service uses.

-- Electrical substation. [SUP]
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station. [SUP]
-- Radio, television, or microwave tower. [SUP]
-- Tower/antenna for cellular communication. [See Section 51A-4.212 (10.1).]
§ 51A-4.112 Dallas Development Code: Ordinance No. 19455, as amended

--- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.

-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(A) The following accessory uses are not permitted in this district:

-- Accessory helistop.
-- Accessory medical/infectious waste incinerator.
-- Accessory outside display of merchandise.
-- Accessory outside sales.
-- Accessory pathological waste incinerator.

(B) In this district, the following accessory uses are permitted by SUP only:

-- Accessory community center (private).

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard. Minimum front yard is 30 feet.

(B) Side and rear yard.

(i) Minimum side and rear yard for single family structures is six feet.

(ii) Minimum side yard for other permitted structures is 10 feet.

(iii) Minimum rear yard for other permitted structures is 15 feet.

(C) Dwelling unit density. No maximum dwelling unit density.

(D) Floor area ratio. No maximum floor area ratio.

(E) Height. Maximum structure height is 30 feet.

(F) Lot coverage.

(i) Maximum lot coverage is:

(aa) 45 percent for residential structures; and

(bb) 25 percent for non-residential structures.

(ii) Surface parking lots and underground parking structures are not included in lot coverage calculations.

(G) Lot size.

(i) Minimum lot area for residential use is 10,000 square feet.

(ii) Repealed by Ord. 20441.

(iii) Repealed by Ord. 20441.
§ 51A-4.112 Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.112

(H) Stories. No maximum number of stories.

(5) Off-street parking and loading. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally. In this district, off-street parking must be provided at or below ground level.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) Electrical service for single family uses. In this district, a lot for a single family use may be supplied by not more than one electrical utility service, and metered by not more than one electrical meter. The board of adjustment may grant a special exception to authorize more than one electrical utility service and more than one electrical meter on a lot in this district when, in the opinion of the board, the special exception will:

(i) not be contrary to the public interest;

(ii) not adversely affect neighboring properties; and

(iii) not be used to conduct a use not permitted in this district.

(f) R-7.5(A) district.

(1) Purpose. This district comprises a major portion of the existing single family dwelling development of the city and is considered to be the proper zoning classification for large areas of the undeveloped land remaining in the city appropriate for single family dwelling use. This district is intended to be composed of single family dwellings together with public and private schools, churches, and public parks essential to create basic neighborhood units. Limited portions of these neighborhood units may consist of denser residential zoning classifications which are shown on the zoning district map or which later may be created by amendments to the map.

(2) Main uses permitted.

(A) Agricultural uses.

-- Crop production.

(B) Commercial and business service uses.

None permitted.

(C) Industrial uses.

-- Gas drilling and production. [SUP]

-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.

-- Adult day care facility. [SUP]

-- Cemetery or mausoleum. [SUP]

-- Child-care facility. [SUP]

-- Church.

-- College, university or seminary. [SUP]

-- Community service center. [SUP]

-- Convent or monastery. [SUP]

-- Foster home. [SUP]

-- Library, art gallery, or museum. [SUP]

-- Public or private school. [SUP]
§ 51A-4.112 Dallas Development Code: Ordinance No. 19455, as amended

(E) Lodging uses.

None permitted.

(F) Miscellaneous uses.

-- Carnival or circus
(temporary).  [By special
authorization of the building
official.]

-- Temporary construction or
sales office.

(G) Office uses.

None permitted.

(H) Recreation uses.

-- Country club with private
membership. [SUP]

-- Private recreation center, club,
or area. [SUP]

-- Public park, playground, or
golf course.

(I) Residential uses.

-- Handicapped group dwelling
unit.  [See Section
51A-4.209(3.1).]

-- Single family.

(J) Retail and personal service uses.

None permitted.

(K) Transportation uses.

-- Private street or alley. [SUP]

-- Transit passenger shelter. [See
Section 51A-4.211.]

-- Transit passenger station or
transfer center. [SUP]

(L) Utility and public service uses.

-- Electrical substation. [SUP]

-- Local utilities. [SUP or RAR
may be required.  See Section
51A-4.212(4).]

-- Police or fire station. [SUP]

-- Radio, television, or
microwave tower. [SUP]

-- Tower/antenna for cellular
communication. [See Section
51A-4.212(10.1).]

-- Utility or government
installation other than listed.
[SUP]

(M) Wholesale, distribution, and
storage uses.

-- Recycling drop-off container.
[See Section 51A-4.213(11.2).]

-- Recycling drop-off for special
occasion collection. [See
Section 51A-4.213(11.3).]

(3) Accessory uses. As a general rule, an
accessory use is permitted in any district in which the
main use is permitted. Some specific types of
accessory uses, however, due to their unique nature,
are subject to additional regulations contained in
Section 51A-4.217. For more information regarding
accessory uses, consult Section 51A-4.217.

(A) The following accessory uses are not
permitted in this district:

-- Accessory helistop.

-- Accessory medical/infectious
waste incinerator.

-- Accessory outside display of
merchandise.

-- Accessory outside sales.

-- Accessory pathological waste
incinerator.
(B) In this district, the following accessory uses are permitted by SUP only:

- Accessory community center (private).

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard. Minimum front yard is 25 feet.

(B) Side and rear yard.

(i) Minimum side and rear yard for single family structures is five feet.

(ii) Minimum side yard for other permitted structures is 10 feet.

(iii) Minimum rear yard for other permitted structures is 15 feet.

(C) Dwelling unit density. No maximum dwelling unit density.

(D) Floor area ratio. No maximum floor area ratio.

(E) Height. Maximum structure height is 30 feet.

(F) Lot coverage.

(i) Maximum lot coverage is:

(aa) 45 percent for residential structures; and

(bb) 25 percent for nonresidential structures.

(ii) Surface parking lots and underground parking structures are not included in lot coverage calculations.

(G) Lot size.

(i) Minimum lot area for residential use is 7,500 square feet.

(ii) Repealed by Ord. 20441.

(iii) Repealed by Ord. 20441.

(H) Stories. No maximum number of stories.

(5) Off-street parking and loading. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally. In this district, off-street parking must be provided at or below ground level.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) Electrical service for single family uses. In this district, a lot for a single family use may be supplied by not more than one electrical utility service, and metered by not more than one electrical meter. The board of adjustment may grant a special exception to authorize more than one electrical utility service and more than one electrical meter on a lot in this district when, in the opinion of the board, the special exception will:

(i) not be contrary to the public interest;
(ii) not adversely affect neighboring properties; and

(iii) not be used to conduct a use not permitted in this district.

(g) R-5(A) district.

(1) Purpose. This classification creates a single family dwelling district which is appropriate in area requirements for moderate value single family housing development and which, at the same time, provides a reasonable standard of light, air, and similar living amenities. It is intended that the R-5(A) classification be added by amendment in specific areas where higher density single family residence development is shown to be appropriate because of existing development and the adequacy of utilities and where redevelopment of substandard areas at increased single family density is appropriate.

(2) Main uses permitted.

(A) Agricultural uses.

-- Crop production.

(B) Commercial and business service uses.

None permitted.

(C) Industrial uses.

-- Gas drilling and production. [SUP]

-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.

-- Adult day care facility. [SUP]

-- Cemetery or mausoleum. [SUP]

-- Child-care facility. [SUP]

-- Church.

-- College, university or seminary. [SUP]

-- Community service center. [SUP]

-- Convent or monastery. [SUP]

-- Foster home. [SUP]

-- Library, art gallery, or museum. [SUP]

-- Public or private school. [SUP]

(E) Lodging uses.

None permitted.

(F) Miscellaneous uses.

-- Carnival or circus (temporary). [By special authorization of the building official.]

-- Temporary construction or sales office.

(G) Office uses.

None permitted.

(H) Recreation uses.

-- Country club with private membership. [SUP]

-- Private recreation center, club, or area. [SUP]

-- Public park, playground, or golf course.

(I) Residential uses.

-- Handicapped group dwelling unit. [See Section 51A-4.209(3.1).]

-- Single family.
§ 51A-4.112 Dallas Development Code: Ordinance No. 19455, as amended

(J) Retail and personal service uses.

None permitted.

(K) Transportation uses.

-- Private street or alley. [SUP]
-- Transit passenger shelter. [See Section 51A-4.211.]
-- Transit passenger station or transfer center. [SUP]

(L) Utility and public service uses.

-- Electrical substation. [SUP]
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station. [SUP]
-- Radio, television, or microwave tower. [SUP]
-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
-- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.

-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(A) The following accessory uses are not permitted in this district:

-- Accessory helistop.
-- Accessory medical/infectious waste incinerator.
-- Accessory outside display of merchandise.
-- Accessory outside sales.
-- Accessory pathological waste incinerator.

(B) In this district, the following accessory uses are permitted by SUP only:

-- Accessory community center (private).

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard. Minimum front yard is 20 feet.

(B) Side and rear yard. Minimum side and rear yard is:

(i) five feet for single family structures; and

(ii) 10 feet for other permitted structures.

(C) Dwelling unit density. No maximum dwelling unit density.

(D) Floor area ratio. No maximum floor area ratio.

(E) Height. Maximum structure height is 30 feet.
§ 51A-4.112 Dallas Development Code: Ordinance No. 19455, as amended

(F) Lot coverage.

(i) Maximum lot coverage is:

(aa) 45 percent for residential structures; and

(bb) 25 percent for nonresidential structures.

(ii) Surface parking lots and underground parking structures are not included in lot coverage calculations.

(G) Lot size.

(i) Minimum lot area for residential use is 5,000 square feet.

(ii) Repealed by Ord. 20441.

(iii) Repealed by Ord. 20441.

(H) Stories. No maximum number of stories.

(5) Off-street parking and loading. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally. In this district, off-street parking must be provided at or below ground level.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) Electrical service for single family uses. In this district, a lot for a single family use may be supplied by not more than one electrical utility service, and metered by not more than one electrical meter. The board of adjustment may grant a special exception to authorize more than one electrical utility service and more than one electrical meter on a lot in this district when, in the opinion of the board, the special exception will:

(1) not be contrary to the public interest;

(2) not adversely affect neighboring properties; and

(3) not be used to conduct a use not permitted in this district. (Ord. Nos. 19455; 19786; 19808; 20122; 20384; 20441; 20625; 20950; 21002; 21044; 21314; 24543; 26920)

SEC. 51A-4.113. DUPLEX [D(A)] DISTRICT.

(1) Purpose. Duplex dwellings have long been a recognized form of housing in the city. In order to provide standards which will protect and encourage the various types of duplex dwellings existing in the city, a duplex dwelling district with minimum area requirements is provided.

(2) Main uses permitted.

(A) Agricultural uses.

-- Crop production.

(B) Commercial and business service uses.

None permitted.

(C) Industrial uses.

-- Gas drilling and production. [SUP]

-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]
§ 51A-4.113 Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.113

(D) Institutional and community service uses.

-- Adult day care facility. [SUP]
-- Cemetery or mausoleum. [SUP]
-- Child-care facility. [SUP]
-- Church.
-- College, university or seminary. [SUP]
-- Community service center [SUP]
-- Convent or monastery. [SUP]
-- Foster home. [SUP]
-- Library, art gallery, or museum. [SUP]
-- Public or private school. [SUP]

(E) Lodging uses.

None permitted.

(F) Miscellaneous uses.

-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) Office uses.

None permitted.

(H) Recreation uses.

-- Country club with private membership. [SUP]
-- Private recreation center, club, or area. [SUP]
-- Public park, playground, or golf course.

(I) Residential uses.

-- Duplex.
-- Handicapped group dwelling unit. [See Section 51A-4.209(3.1).]
-- Single family.

(J) Retail and personal service uses.

None permitted.

(K) Transportation uses.

-- Private street or alley. [SUP]
-- Transit passenger shelter. [See Section 51A-4.211.]
-- Transit passenger station or transfer center. [SUP]

(L) Utility and public service uses.

-- Electrical substation. [SUP]
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station. [SUP]
-- Radio, television, or microwave tower. [SUP]
-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
-- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.

-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]
§ 51A-4.113 Dallas Development Code: Ordinance No. 19455, as amended § 51A-4.113

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(A) The following accessory uses are not permitted in this district:

-- Accessory helistop.
-- Accessory medical/infectious waste incinerator.
-- Accessory outside display of merchandise.
-- Accessory outside sales.
-- Accessory pathological waste incinerator.

(B) In this district, the following accessory uses are permitted by SUP only:

-- Accessory community center (private).

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard. Minimum front yard is 25 feet.

(B) Side and rear yard.

(i) Minimum side and rear yard for single family structures is five feet.

(ii) Minimum side yard for duplex structures is five feet.

(iii) Minimum rear yard for duplex structures is 10 feet.

(iv) Minimum side and rear yard for other permitted structures is 10 feet.

(C) Dwelling unit density. No maximum dwelling unit density.

(D) Floor area ratio. No maximum floor area ratio.

(E) Height. Maximum structure height is 36 feet.

(F) Lot coverage.

(i) Maximum lot coverage is:

(aa) 60 percent for residential structures; and

(bb) 25 percent for nonresidential structures.

(ii) Surface parking lots and underground parking structures are not included in lot coverage calculations.

(G) Lot size.

(i) Minimum lot area for residential use is 6,000 square feet.

(ii) Repealed by Ord. 20441.

(iii) Repealed by Ord. 20441.

(H) Stories. No maximum number of stories.

(5) Off-street parking and loading. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally. In this district, off-street parking must be provided at or below ground level.
(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) Electrical service for duplex uses. In this district, a lot for a duplex use may be supplied by not more than one electrical utility service and metered by not more than two electrical meters. The board of adjustment may grant a special exception to authorize more than one electrical utility service and more than two electrical meters on a lot for a duplex use in this district when, in the opinion of the board, the special exception will:

(i) not be contrary to the public interest;

(ii) not adversely affect neighboring properties; and

(iii) not be used to conduct a use not permitted in this district.

(B) Electrical service for single family uses. In this district, a lot for a single family use may be supplied by not more than one electrical utility service, and metered by not more than one electrical meter. The board of adjustment may grant a special exception to authorize more than one electrical utility service and more than one electrical meter on a lot in this district when, in the opinion of the board, the special exception will:

(i) not be contrary to the public interest;

(ii) not adversely affect neighboring properties; and

(iii) not be used to conduct a use not permitted in this district.

SEC. 51A-4.114. TOWNHOUSE [TH-1(A), TH-2(A), and TH-3(A)] DISTRICTS.

(1) Purpose. These classifications create districts that are being recognized as a form of housing in the city, and provide standards which will protect and encourage various types of single family dwellings in the city. The townhouse districts are also established in an effort to provide a more dense single family residential character by providing minimum standards for lot area, yards, lot coverage, and lot frontage.

(2) Main uses permitted.

(A) Agricultural uses.

-- Crop production.

(B) Commercial and business service uses.

None permitted.

(C) Industrial uses.

-- Gas drilling and production.

-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.

-- Adult day care facility. [SUP]

-- Cemetery or mausoleum. [SUP]

-- Child-care facility. [SUP]

-- Church.

-- College, university or seminary. [SUP]

-- Community service center. [SUP]
§ 51A-4.114 Dallas Development Code: Ordinance No. 19455, as amended

-- Convalescent and nursing homes, hospice care, and related institutions. [SUP]
-- Convent or monastery. [SUP]
-- Foster home. [SUP]
-- Library, art gallery, or museum. [SUP]
-- Public or private school. [SUP]

(E) Lodging uses.

None permitted.

(F) Miscellaneous uses.

-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) Office uses.

None permitted.

(H) Recreation uses.

-- Country club with private membership. [SUP]
-- Private recreation center, club, or area. [SUP]
-- Public park, playground, or golf course.

(I) Residential uses.

-- Duplex.
-- Retirement housing. [SUP]
-- Handicapped group dwelling unit. [See Section 51A-4.209(3.1).]
-- Single family.

(J) Retail and personal service uses.

None permitted.

(K) Transportation uses.

-- Private street or alley. [SUP]
-- Transit passenger shelter.
-- Transit passenger station or transfer center. [SUP]

(L) Utility and public service uses.

-- Electrical substation. [SUP]
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station. [SUP]
-- Radio, television, or microwave tower. [SUP]
-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
-- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.

-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.
(A) The following accessory uses are not permitted in these districts:

-- Accessory helistop.
-- Accessory medical/infectious waste incinerator.
-- Accessory outside display of merchandise.
-- Accessory outside sales.
-- Accessory pathological waste incinerator.

(B) In these districts, the following accessory uses are permitted by SUP only:

-- Accessory community center (private).

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard. No minimum front yard.

(B) Side and rear yard.

(i) No minimum side and rear yard for single family structures.

(ii) Minimum side yard for duplex structures is five feet.

(iii) Minimum rear yard for duplex structures is 10 feet.

(iv) Minimum side and rear yard for other permitted structures is 10 feet.

(v) If a townhouse district abuts a district that requires a greater side yard, the side yard requirements of the more restrictive district apply to the abutting side yard in the townhouse district.

(C) Dwelling unit density.

(i) In a TH-1(A) district, no more than six dwelling units for each acre are allowed.

(ii) In a TH-2(A) district, no more than nine dwelling units for each acre are allowed.

(iii) In a TH-3(A) district, no more than 12 dwelling units for each acre are allowed.

(D) Floor area ratio. No maximum floor area ratio.

(E) Height. Maximum structure height is 36 feet.

(F) Lot coverage.

(i) Maximum lot coverage is:

(aa) 60 percent for residential structures; and

(bb) 25 percent for nonresidential structures.

(ii) Surface parking lots and underground parking structures are not included in lot coverage calculations.

(iii) In these districts, 80 percent of an individual lot may be covered by structures if the coverage for the total project does not exceed 60 percent and at least 40 percent is reserved for open space.

(G) Lot size.

(i) Minimum lot area for residential use is:

(aa) 2,000 square feet for single family structures; and

(bb) 6,000 square feet for duplex structures.
§ 51A-4.114 Dallas Development Code: Ordinance No. 19455, as amended

(H) Stories. No maximum number of stories.

(5) Off-street parking and loading. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally. In this district, off-street parking must be provided at or below ground level.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) Single family structure spacing. In this district, a minimum of 15 feet between each group of eight single family structures must be provided by plat.

(B) Electrical service for single family uses. In this district, a lot for a single family use may be supplied by not more than one electrical utility service, and metered by not more than one electrical meter. The board of adjustment may grant a special exception to authorize more than one electrical utility service and more than one electrical meter on a lot in this district when, in the opinion of the board, the special exception will:

(i) not be contrary to the public interest;

(ii) not adversely affect neighboring properties; and

(iii) not be used to conduct a use not permitted in this district.

(C) Electrical service for duplex uses. In this district, a lot for a duplex use may be supplied by not more than one electrical utility service and metered by not more than two electrical meters. The board of adjustment may grant a special exception to authorize more than one electrical utility service and more than two electrical meters on a lot for a duplex use in this district when, in the opinion of the board, the special exception will:

(i) not be contrary to the public interest;

(ii) not adversely affect neighboring properties; and

(iii) not be used to conduct a use not permitted in this district. (Ord. Nos. 19455; 19786; 19808; 19912; 19913; 20384; 20441; 20625; 20950; 21002; 21044; 21314; 24543; 26920)

SEC. 51A-4.115. CLUSTERED HOUSING (CH) DISTRICT.

(1) Purpose. To provide for the development and protection of areas of moderate density housing with flexibility to allow for common open space.

(2) Main uses permitted.

(A) Agricultural uses.

-- Crop production.

(B) Commercial and business service uses.

None permitted.

(C) Industrial uses.

-- Gas drilling and production. [SUP]
§ 51A-4.115 Dallas Development Code: Ordinance No. 19455, as amended

(M) Wholesale, distribution, and storage uses.
-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(A) The following accessory uses are not permitted in this district:

-- Accessory helistop.
-- Accessory medical/infectious waste incinerator.
-- Accessory outside display of merchandise.
-- Accessory outside sales.
-- Accessory pathological waste incinerator.

(B) In this district, the following accessory uses are permitted by SUP only:

-- Accessory community center (private).

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard. Minimum front yard is:

(i) 15 feet where adjacent to an expressway or a thoroughfare; and

(ii) no minimum in all other cases.

(B) Side and rear yard. Minimum side and rear yard is:

(i) 10 feet where adjacent to or directly across an alley from a zoning district other than a TH or TH(A) district; and

(ii) no minimum in all other cases.

(C) Dwelling unit density. Maximum dwelling unit density is 18 dwelling units per net acre.

(D) Floor area ratio. No maximum floor area ratio.

(E) Height.

(i) Residential proximity slope. If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope originating in an R, R(A), D, D(A), TH, or TH(A) district. (See Section 51A-4.412.) Exception: Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

(ii) Maximum height. Unless further restricted under Subparagraph (i), maximum structure height is 36 feet.

(F) Lot coverage. Maximum lot coverage is 60 percent. Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.
§ 51A-4.115 Dallas Development Code: Ordinance No. 19455, as amended

(G) Lot size. Minimum lot size is 2,000 square feet for each dwelling unit.

(H) Stories. No maximum number of stories.

(5) Off-street parking and loading. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally. In this district, off-street parking must be provided at or below ground level.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) Minimum district size. A minimum of one-half acre is required for the establishment of this district unless the city council determines that a smaller district is justified in a transitional circumstance separating a residential district from a higher density district.

(B) Limit on attached units. No group of attached dwelling units may exceed eight in number. (Ord. Nos. 19455; 19786; 19808; 19912; 20384; 20625; 20950; 21002; 21044; 21186; 21314; 22139; 22782; 24543; 26920)

SEC. 51A-4.116. MULTIFAMILY DISTRICTS.

(a) MF-1(A) and MF-1(SAH) districts.

(1) Purpose. The MF-1(A) and MF-1(SAH) districts are composed mainly of areas containing mixtures of single family, duplex, and multifamily dwellings and certain uniformly developed multifamily dwelling sections. These districts are medium density districts and are located in certain areas close into the center of the city and at various outlying locations. The area regulations are designed to protect the residential character and to prevent the overcrowding of the land by providing minimum standards for building spacing, yards, off-street parking, and coverage. All commercial and office uses are prohibited. It is anticipated that additional areas may be designated in the MF-1(A) or MF-1(SAH) district from time to time in the future where the change is appropriate and access and utility services can reasonably accommodate these medium density dwellings. Additionally, the MF-1(SAH) district is created to encourage the provision of affordable housing.

(2) Main uses permitted.

(A) Agricultural uses.

-- Crop production.

(B) Commercial and business service uses.

None permitted.

(C) Industrial uses.

-- Gas drilling and production. [SUP]

-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.

-- Adult day care facility. [SUP]

-- Cemetery or mausoleum. [SUP]

-- Child-care facility. [SUP]

-- Church.

-- College, university or seminary. [SUP]

-- Community service center. [SUP]
§ 51A-4.116 Dallas Development Code: Ordinance No. 19455, as amended

-- Convalescent and nursing homes, hospice care, and related institutions. [RAR]
-- Convent or monastery.
-- Foster home.
-- Hospital. [SUP]
-- Library, art gallery, or museum. [SUP]
-- Public or private school. [SUP]

(E) Lodging uses.

None permitted.

(F) Miscellaneous uses.

-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) Office uses.

None permitted.

(H) Recreation uses.

-- Country club with private membership. [RAR]
-- Private recreation center, club, or area. [SUP]
-- Public park, playground, or golf course.

(I) Residential uses.

-- College dormitory, fraternity, or sorority house.
-- Duplex.
-- Group residential facility. [See Section 51A-4.209(3).]
-- Handicapped group dwelling unit. [See Section 51A-4.209(3.1).]

-- Multifamily.
-- Retirement housing.
-- Single family.

(J) Retail and personal service uses.

None permitted.

(K) Transportation uses.

-- Transit passenger shelter.
-- Transit passenger station or transfer center. [SUP]

(L) Utility and public service uses.

-- Electrical substation. [SUP]
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station. [SUP]
-- Radio, television, or microwave tower. [SUP]
-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
-- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.

-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.
§ 51A-4.116 Dallas Development Code: Ordinance No. 19455, as amended

(A) The following accessory uses are not permitted in this district:
-- Accessory outside display of merchandise.
-- Accessory outside sales.
-- Accessory pathological waste incinerator.

(B) In this district, the following accessory uses are permitted by SUP only:
-- Accessory helistop.

(C) In this district, an SUP may be required for the following accessory uses:
-- Accessory medical/infectious waste incinerator. [See Section 51A-4.217(3.1).]

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

Except as provided in this paragraph, the following yard, lot, and space regulations apply:

(A) Front yard. Minimum front yard is 15 feet.

(B) Side and rear yard.

(i) No minimum side and rear yard for single family structures.

(ii) Minimum side yard for duplex structures is five feet.

(iii) Minimum side yard for other permitted structures is 10 feet.

(iv) Minimum rear yard for duplex structures is 10 feet.

(v) Minimum rear yard for other permitted structures is 15 feet. A minimum rear yard of 10 feet may be provided when a building site backs upon an MF, MF(A), O-1, O-2, NO, NO(A), LO, LO(A), MO, MO(A), GO, GO(A), NS, NS(A), SC, CR, RR, GR, LC, HC, CS, CA-1, CA-1(A), CA-2, CA-2(A), I-1, I-2, I-3, LI, IR, IM, mixed use, or multiple commercial district.

(C) Dwelling unit density.

(i) MF-1(A) district. No maximum dwelling unit density.

(ii) MF-1(SAH) district. Maximum dwelling unit density varies depending on whether a density bonus is obtained in accordance with Division 51A-4.900 as follows:

<table>
<thead>
<tr>
<th>Percentage of SAH Units Provided</th>
<th>Dwelling Units Permitted</th>
</tr>
</thead>
<tbody>
<tr>
<td>0%</td>
<td>15</td>

</tr>
<tr>
<td>20%</td>
<td>30</td>
</tr>
</tbody>
</table>

(D) Floor area ratio. No maximum floor area ratio.

(E) Height.

(i) Residential proximity slope. If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope originating in an R, R(A), D, D(A), TH, or TH(A) district. (See Section 51A-4.412.) Exception: Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a
height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

    (ii) Maximum height. Unless further restricted under Subparagraph (i), maximum structure height is 36 feet.

(F) Lot coverage.

    (i) Maximum lot coverage is:

    (aa) 60 percent for residential structures; and

    (bb) 25 percent for nonresidential structures.

(ii) Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) Lot size. Minimum lot area per dwelling unit is as follows:

<table>
<thead>
<tr>
<th>TYPE OF STRUCTURE</th>
<th>MINIMUM LOT AREA PER DWELLING UNIT</th>
</tr>
</thead>
<tbody>
<tr>
<td>Single family</td>
<td>3,000 sq. ft.</td>

(ii) **Residential proximity slope.** In addition to the items listed in Section 51A-4.408 (a)(2)(A), the following additional items may project through the residential proximity slope to a height not to exceed the maximum structure height, or four feet above the slope, whichever is less:

(aa) railings;

(bb) parapet walls;

(cc) trellises; and

(dd) structures such as wind barriers, wing walls, and patio dividing walls.

(iii) **No minimum lot area per dwelling unit.** No minimum lot area per dwelling unit is required for qualifying developments.

(iv) **Developments with transit proximity.** For a development with transit proximity as defined in Section 51A-4.1102, maximum lot coverage is 85 percent.

(v) **Urban form setback.** An additional 10-foot front yard setback is required for that portion of a structure above 45 feet in height.

(vi) **Retirement housing.** The density limits in Section 51A-4.209(b)(5.2)(E)(ii) do not apply.

(5) **Off-street parking and loading.** Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(6) **Environmental performance standards.** See Article VI.

(7) **Landscape regulations.** See Article X.
(8) **Additional provisions.**

(A) **Single family structure spacing.** In this district, a minimum of 15 feet between each group of eight single family structures must be provided by plat.

(b) **MF-2(A) and MF-2(SAH) districts.**

(1) **Purpose.** The MF-2(A) and MF-2(SAH) districts are composed mainly of areas containing mixtures of single family, duplex, and multifamily dwellings and certain uniformly developed multifamily dwelling sections. These districts are medium density districts and are located in certain areas close into the center of the city and at various outlying locations. The area regulations are designed to protect the residential character and to prevent the overcrowding of the land by providing minimum standards for building spacing, yards, off-street parking, and coverage. All commercial and office uses are prohibited. It is anticipated that additional areas may be designated in the MF-2(A) or MF-2(SAH) district from time to time in the future where the change is appropriate and access and utility services can reasonably accommodate these medium density dwellings. Additionally, the MF-2(SAH) district is created to encourage the provision of affordable housing.

(2) **Main uses permitted.**

(A) **Agricultural uses.**

-- Crop production.

(B) **Commercial and business service uses.**

None permitted.

(C) **Industrial uses.**

-- Gas drilling and production. [SUP]

-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) **Institutional and community service uses.**

-- Adult day care facility. [SUP]

-- Recycling drop-off container. [See Section 51A-4.213(11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213(11.3).]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(A) The following accessory uses are not permitted in this district:
-- Accessory outside display of merchandise.
-- Accessory outside sales.
-- Accessory pathological waste incinerator.

(B) In this district, the following accessory uses are permitted by SUP only:
-- Accessory helistop.

(C) In this district, an SUP may be required for the following accessory uses:
-- Accessory medical/infectious waste incinerator. [See Section 51A-4.217(3.1).]

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the

4/19 Dallas City Code 93
§ 51A-4.116 Dallas Development Code: Ordinance No. 19455, as amended

event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

Except as provided in this paragraph, the following yard, lot, and space regulations apply:

(A) Front yard. Minimum front yard is 15 feet.

(B) Side and rear yard.

(i) No minimum side and rear yard for single family structures.

(ii) Minimum side yard for duplex structures is five feet.

(iii) Minimum side yard for other permitted structures is 10 feet.

(iv) Minimum rear yard for duplex structures is 10 feet.

(v) Minimum rear yard for other permitted structures is 15 feet. A minimum rear yard of 10 feet may be provided when a building site backs upon an MF, MF(A), O-1, O-2, NO, NO(A), LO, LO(A), MO, MO(A), GO, GO(A), NS, NS(A), SC, CR, RR, GR, LC, HC, CS, CA-1, CA-1(A), CA-2, CA-2(A), I-1, I-2, I-3, LI, IR, IM, mixed use, or multiple commercial district.

(C) Dwelling unit density.

(i) MF-2(A) district. No maximum dwelling unit density.

(ii) MF-2(SAH) district. Maximum dwelling unit density varies depending on whether a density bonus is obtained in accordance with Division 51A-4.900 as follows:

<table>
<thead>
<tr>
<th>Percentage of SAH</th>
<th>Dwelling Units Permitted</th>
</tr>
</thead>
<tbody>
<tr>
<td>0%</td>
<td>20</td>
</tr>
<tr>
<td>5%</td>
<td>22</td>
</tr>
<tr>
<td>10%</td>
<td>24</td>
</tr>
<tr>
<td>15%</td>
<td>30</td>
</tr>
<tr>
<td>20%</td>
<td>40</td>
</tr>
</tbody>
</table>

(D) Floor area ratio. No maximum floor area ratio.

(E) Height.

(i) Residential proximity slope. If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope originating in an R, R(A), D, D(A), TH, or TH(A) district. (See Section 51A-4.412.) Exception: Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

(ii) Maximum height. Unless further restricted under Subparagraph (i), maximum structure height is 36 feet.

(F) Lot coverage.

(i) Maximum lot coverage is:

(aa) 60 percent for residential structures; and

(bb) 50 percent for nonresidential structures.
(ii) Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) **Lot size.** Minimum lot area per dwelling unit is as follows:

<table>
<thead>
<tr>
<th>TYPE OF STRUCTURE</th>
<th>MINIMUM LOT AREA PER DWELLING UNIT</th>
</tr>
</thead>
<tbody>
<tr>
<td>Single family</td>
<td>1,000 sq. ft.</td>
</tr>
<tr>
<td>Duplex</td>
<td>3,000 sq. ft.</td>
</tr>
<tr>
<td><strong>Multifamily:</strong></td>
<td></td>
</tr>
<tr>
<td>No separate bedroom</td>
<td>800 sq. ft.</td>
</tr>
<tr>
<td>One bedroom</td>
<td>1,000 sq. ft.</td>
</tr>
<tr>
<td>Two bedrooms</td>
<td>1,200 sq. ft.</td>
</tr>
<tr>
<td>More than two bedrooms (Add this amount for each bedroom over two)</td>
<td>150 sq. ft.</td>
</tr>
</tbody>
</table>

(H) **Stories.** No maximum number of stories.

(I) **Development bonuses for mixed-income housing.** In an MF-2(A) district, lot coverage, lot size per bedroom, and height may vary depending on whether a development bonus is obtained in accordance with Division 51A-4.1100 as follows:

(i) **Height and lot coverage.** Except as provided in this paragraph, the following increased height and lot coverage requirements apply:

<table>
<thead>
<tr>
<th>MVA Categories A, B, C</th>
<th>Maximum Height</th>
<th>Maximum Lot coverage (residential)</th>
</tr>
</thead>
<tbody>
<tr>
<td>5% at Income band 3</td>
<td>51 ft.</td>
<td>80%</td>
</tr>
<tr>
<td>5% at Income band 3; and</td>
<td>66 ft.</td>
<td>80%</td>
</tr>

<tr>
<td>MVA Categories D, E, F</td>
<td>51 ft.</td>
<td>80%</td>
</tr>
<tr>
<td>5% at Income band 2</td>
<td>66 ft.</td>
<td>80%</td>
</tr>
<tr>
<td>10% at Income band 2</td>
<td>85 ft.</td>
<td>85%</td>
</tr>
<tr>
<td>5% at Income band 1</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

(ii) **Residential proximity slope.** In addition to the items listed in Section 51A-4.408 (a)(2)(A), the following additional items may project through the residential proximity slope to a height not to exceed the maximum structure height, or four feet above the slope, whichever is less:
§ 51A-4.116 Dallas Development Code: Ordinance No. 19455, as amended

(aa) railings;
(bb) parapet walls;
(cc) trellises; and
(dd) structures such as wind barriers, wing walls, and patio dividing walls.

(iii) No minimum lot area per dwelling unit. No minimum lot area per dwelling unit is required for qualifying developments.

(iv) Developments with transit proximity. For a development with transit proximity as defined in Section 51A-4.1102, maximum lot coverage is 85 percent.

(v) Urban form setback. An additional 10-foot front yard setback is required for that portion of a structure above 45 feet in height.

(vi) Retirement housing. The density limits in Section 51A-4.209(b)(5.2)(E)(ii) do not apply.

(5) Off-street parking and loading. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) Single family structure spacing. In this district, a minimum of 15 feet between each group of eight single family structures must be provided by plat.

(c) MF-3(A) district.

(1) Purpose. To provide for the development and protection of midrise, medium density multifamily residential dwellings built on one lot. This district is not intended to be located in areas of low density residential development.

(2) Main uses permitted.

(A) Agricultural uses.

-- Crop production.

(B) Commercial and business service uses.

None permitted.

(C) Industrial uses.

-- Gas drilling and production. [SUP]

-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.

-- Adult day care facility. [L] [SUP]

-- Cemetery or mausoleum. [SUP]

-- Child-care facility. [L] [SUP]

-- Church.

-- College, university or seminary. [SUP]

-- Community service center. [SUP]

-- Convalescent and nursing homes, hospice care, and related institutions. [RAR]

-- Convent or monastery.

-- Foster home.
§ 51A-4.116 Dallas Development Code: Ordinance No. 19455, as amended

(E) Lodging uses.

-- Lodging or boarding house.

(F) Miscellaneous uses.

-- Carnival or circus (temporary). [By special authorization of the building official.]

-- Temporary construction or sales office.

(G) Office uses.

None permitted.

(H) Recreation uses.

-- Country club with private membership. [RAR]

-- Private recreation center, club, or area. [SUP]

-- Public park, playground, or golf course.

(I) Residential uses.

-- College dormitory, fraternity, or sorority house.

-- Group residential facility. [See Section 51A-4.209(3).]

-- Multifamily.

-- Residential hotel.

-- Retirement housing.

(J) Retail and personal service uses.

-- Dry cleaning or laundry store. [L]

-- General merchandise or food store 3,500 square feet or less. [L]

-- Motor vehicle fueling station. [SUP]

-- Personal service uses. [L]

(K) Transportation uses.

-- Transit passenger shelter.

-- Transit passenger station or transfer center. [SUP]

(L) Utility and public service uses.

-- Electrical substation. [SUP]

-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]

-- Police or fire station. [SUP]

-- Post office. [SUP]

-- Radio, television, or microwave tower. [SUP]

-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]

-- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.

-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]

-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.
(A) The following accessory uses are not permitted in this district:

-- Accessory outside display of merchandise.
-- Accessory outside sales.
-- Accessory pathological waste incinerator.

(B) In this district, the following accessory uses are permitted by SUP only:

-- Accessory helistop.
-- Amateur communication tower.

(C) In this district, an SUP may be required for the following accessory uses:

-- Accessory medical/infectious waste incinerator. [See Section 51A-4.217(3.1).]

(B) Side and rear yard.

(i) In general. Minimum side and rear yard is:

(aa) 20 feet where adjacent to or directly across an alley from an R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(A), MF-1(SAH), MF-2, MF-2(A), or MF-2(SAH) district; and

(bb) 10 feet in all other cases.

(ii) Tower spacing. An additional side and rear yard setback of one foot for each two feet in height above 45 feet is required for that portion of a structure over 45 feet in height, up to a total setback of 30 feet. This subparagraph does not require a total side or rear yard setback greater than 30 feet.

(C) Dwelling unit density. Maximum dwelling unit density is 90 dwelling units per net acre.

(D) Floor area ratio. Maximum floor area ratio is 2.0.

(E) Height.

(i) Residential proximity slope. If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope originating in an R, R(A), D, D(A), TH, or TH(A) district. (See Section 51A-4.412.) Exception: Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

(ii) Maximum height. Unless further restricted under Subparagraph (i), maximum structure height is 90 feet.
§ 51A-4.116 Dallas Development Code: Ordinance No. 19455, as amended § 51A-4.116

(F) **Lot coverage.** Maximum lot coverage is 60 percent. Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) **Lot size.**

(i) Minimum lot size for residential use is 6,000 square feet.

(ii) Minimum lot area per dwelling unit is as follows:

<table>
<thead>
<tr>
<th>TYPE OF STRUCTURE</th>
<th>MINIMUM LOT AREA PER DWELLING UNIT</th>
</tr>
</thead>
<tbody>
<tr>
<td>Multifamily:</td>
<td></td>
</tr>
<tr>
<td>No separate bedroom</td>

<tr>
<td>One bedroom</td>
<td>500 sq. ft.</td>
</tr>
<tr>
<td>Two bedrooms</td>
<td>550 sq. ft.</td>
</tr>
<tr>
<td>More than two bedrooms (Add this amount for each bedroom over two)</td>
<td>50 sq. ft.</td>
</tr>
</tbody>
</table>

(H) **Stories.** No maximum number of stories.

(I) **Development bonuses for mixed-income housing.** In an MF-3(A) district, lot coverage, lot size per bedroom, and height may vary depending on whether a development bonus is obtained in accordance with Division 51A-4.1100 as follows:

(i) **Height and lot coverage.** Except as provided in this paragraph, the following increased height and lot coverage requirements apply:

<table>
<thead>
<tr>
<th>MVA Categories A, B, C</th>
<th>Set aside minimums (% of total residential units reserved in each income band, adjusted annually)</th>
<th>Maximum Unit Density per Acre</th>
<th>Maximum Height</th>
<th>Maximum Lot coverage (residential)</th>

<td>85%</td>
</tr>
</tbody>
</table>
(ii) **Residential proximity slope.** In addition to the items listed in Section 51A-4.408 (a)(2)(A), the following additional items may project through the residential proximity slope to a height not to exceed the maximum structure height, or four feet above the slope, whichever is less:

(aa) railings;  
(bb) parapet walls;  
(cc) trellises; and  
(dd) structures such as wind barriers, wing walls, and patio dividing walls.

(iii) **No minimum lot area per dwelling unit.** No minimum lot area per dwelling unit is required for qualifying developments.

(iv) **Floor area ratio.** Maximum floor area ratio includes non-residential uses only.

(v) **Developments with transit proximity.** For developments with transit proximity as defined in Section 51A-4.1102, maximum lot coverage is 85 percent.

(vi) **Retirement housing.** The density limits in Section 51A-4.209(b)(5.2)(E)(ii) do not apply.

(5) **Off-street parking and loading.** Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(6) **Environmental performance standards.** See Article VI.

(7) **Landscape regulations.** See Article X.

(8) **Additional provisions.** None.

---

(d) **MF-4(A) district.**

(1) **Purpose.** To provide for the development and protection of highrise, high density multifamily residential dwellings built on one lot. This district is not intended to be located in areas of low and medium density residential development.

(2) **Main uses permitted.**

(A) **Agricultural uses.**

-- Crop production.
§ 51A-4.116 Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.116

(B) Commercial and business service uses.

None permitted.

(C) Industrial uses.

-- Gas drilling and production. [SUP]
-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.

-- Adult day care facility. [L] [SUP]
-- Cemetery or mausoleum. [SUP]
-- Child-care facility. [L] [SUP]
-- Church.
-- College, university or seminary. [SUP]
-- Community service center. [SUP]
-- Convalescent and nursing homes, hospice care, and related institutions. [RAR]
-- Convent or monastery.
-- Foster home.
-- Hospital. [SUP]
-- Library, art gallery, or museum. [SUP]
-- Public or private school. [SUP]

(E) Lodging uses.

-- Lodging or boarding house.

(F) Miscellaneous uses.

-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) Office uses.

None permitted.

(H) Recreation uses.

-- Country club with private membership. [RAR]
-- Private recreation center, club, or area. [SUP]
-- Public park, playground, or golf course.

(I) Residential uses.

-- College dormitory, fraternity, or sorority house.
-- Group residential facility. [See Section 51A-4.209(3).]
-- Multifamily.
-- Residential hotel.
-- Retirement housing.

(J) Retail and personal service uses.

-- Alcoholic beverage establishments. [See Section 51A-4.210 (b)(4).]
-- Dry cleaning or laundry store. [L]
-- General merchandise or food store 3,500 square feet or less. [L]
-- Motor vehicle fueling station. [SUP]
-- Personal service uses. [L]
§ 51A-4.116 Dallas Development Code: Ordinance No. 19455, as amended § 51A-4.116

-- Restaurant without drive-in or drive-through service. [L] [RAR]
-- Theater. [SUP]

(K) Transportation uses.
-- Transit passenger shelter.
-- Transit passenger station or transfer center. [SUP]

-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
-- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.
-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]

(A) The following accessory uses are not permitted in this district:
-- Accessory outside display of merchandise.
-- Accessory outside sales.
-- Accessory pathological waste incinerator.

(B) In this district, the following accessory uses are permitted by SUP only:
-- Accessory helistop.
-- Amateur communication tower.

(C) In this district, an SUP may be required for the following accessory uses:
-- Accessory medical/infectious waste incinerator. [See Section 51A-4.217(3.1).]

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard.

(i) Minimum front yard is 15 feet.

(ii) Urban form setback. An additional 20-foot front yard setback is required for that portion of a structure over 45 feet in height.

(B) Side and rear yard.

(i) Minimum side and rear yard is:

(aa) 20 feet where adjacent to or directly across an alley from an R, R(A), D, D(A),
§ 51A-4.116 Dallas Development Code: Ordinance No. 19455, as amended

TH, TH(A), CH, MF-1, MF-1(A), MF-1(SAH), MF-2, MF-2(A), or MF-2(SAH) district; and

(bb) 10 feet in all other cases.

(ii) Tower spacing. An additional side and rear yard setback of one foot for each two feet in height above 45 feet is required for that portion of a structure over 45 feet in height, up to a total setback of 30 feet. This subparagraph does not require a total side or rear yard setback greater than 30 feet.

(C) Dwelling unit density. Maximum dwelling unit density is 160 dwelling units per net acre.

(D) Floor area ratio. Maximum floor area ratio is 4.0.

(E) Height.

(i) Residential proximity slope. If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope originating in an R, R(A), D, D(A), TH, or TH(A) district. (See Section 51A-4.412.) Exception: Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

(ii) Maximum height. Unless further restricted under Subparagraph (i), maximum structure height is 240 feet.

(F) Lot coverage. Maximum lot coverage is 80 percent. Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) Lot size.

(i) Minimum lot size is 6,000 square feet.

(ii) Minimum lot area per dwelling unit is as follows:

<table>
<thead>

<td>325 sq. ft.</td>
</tr>
<tr>
<td>More than two bedrooms (Add this amount for each bedroom over two)</td>
<td>50 sq. ft.</td>
</tr>
</tbody>
</table>

(H) Stories. No maximum number of stories.

(5) Off-street parking and loading. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions. None. (Ord. Nos. 19455; 19786; 19808; 19912; 19913; 20384; 20441; 20625; 20920; 20950; 21002; 21044; 31314; 21663; 21735; 22139; 22531; 22782; 24543; 26920; 31152)

SEC. 51A-4.117 MANUFACTURED HOME [MH(A)] DISTRICT.

(1) Purpose. The manufactured home is recognized as a specific form of housing for which accommodations should be provided. To provide appropriate standards for density, spacing, and use, a separate district is created and designated for the specific purpose of providing at appropriate locations, area for the development of manufactured home parks, courts, or subdivisions. In certain commercial
and industrial districts, a manufactured home development may be provided for by amending the zoning district map where these projects are appropriate by approval of a specific use permit. The standards for commercial manufactured home development for transient occupancy differ from those of a manufactured home subdivision where more or less permanent occupancy is anticipated.

(2) Main uses permitted.

(A) Agricultural uses.

-- Crop production.

(B) Commercial and business service uses.

None permitted.

(C) Industrial uses.

-- Gas drilling and production.  [SUP]
-- Temporary concrete or asphalt batching plant.  [By special authorization of the building official.]

(D) Institutional and community service uses.

-- Adult day care facility.  [SUP]
-- Cemetery or mausoleum.  [SUP]
-- Child-care facility.  [SUP]
-- Church.
-- Community service center.  [SUP]
-- Foster home.  [SUP]
-- Library, art gallery, or museum.  [SUP]
-- Public or private school.  [SUP]

(E) Lodging uses.

None permitted.

(F) Miscellaneous uses.

-- Carnival or circus (temporary).  [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) Office uses.

None permitted.

(H) Recreation uses.

-- Country club with private membership.  [RAR]
-- Public park, playground, or golf course.

(I) Residential uses.

-- College dormitory, fraternity, or sorority house.
-- Handicapped group dwelling unit.  [See Section 51A-4.209(3.1).]
-- Manufactured home park or subdivision.
-- Single family.

(J) Retail and personal service uses.

None permitted.

(K) Transportation uses.

-- Transit passenger shelter.
-- Transit passenger station or transfer center.  [SUP]
§ 51A-4.117 Dallas Development Code: Ordinance No. 19455, as amended

(1) Utility and public service uses.

-- Electrical substation. [SUP]
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station. [SUP]
-- Radio, television, or microwave tower. [SUP]
-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
-- Utility or government installation other than listed. [SUP]

(1M) Wholesale, distribution, and storage uses.

-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217. The following accessory uses are not permitted in this district:

-- Accessory helistop.
-- Accessory medical/infectious waste incinerator.
-- Accessory outside display of merchandise.
-- Accessory outside sales.
-- Accessory pathological waste incinerator.

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard.

(i) Minimum front yard is 20 feet.

(ii) In this district, a manufactured home may not be located closer than 20 feet to a public street right-of-way or a private drive used for access, circulation, or service to a lot or stand where a manufactured home is located.

(B) Side and rear yard. Minimum side and rear yard is ten feet.

(C) Dwelling unit density. No maximum dwelling unit density.

(D) Floor area ratio. No maximum floor area ratio.

(E) Height. Maximum structure height is 24 feet.

(F) Lot coverage.

(i) Maximum lot coverage is:

(aa) 20 percent for residential structures; and

(bb) 25 percent for nonresidential structures.

(ii) Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) Lot size.

(i) In this district, a manufactured home must have the following minimum lot area:
(aa) 1,500 square feet for a manufactured home on a transient stand; or

(bb) 4,000 square feet for a manufactured home on a subdivided lot.

(ii) Repealed by Ord. 20441.

(iii) Repealed by Ord. 20441.

(H) Stories. No maximum number of stories.

(5) Off-street parking and loading. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) In this district, no person may locate a manufactured home nearer than 10 feet to the side line of any lot or stand, and the minimum space between adjacent manufactured homes must be 20 feet. (Ord. Nos. 19455; 19786; 20360; 20441; 20625; 20950; 21002; 21044; 21314; 21442; 22392; 24543; 26920)

Division 51A-4.120. Nonresidential District Regulations.

SEC. 51A-4.121. OFFICE DISTRICTS.

(a) Neighborhood office [NO(A)] district.

(1) Purpose. This district represents a group of uses that is restricted to office uses which predominantly serve neighborhood or community needs. They are, therefore, compatible with and are intended for location adjacent to single family, duplex, and townhouse neighborhoods. This district is designed to preserve the environmental quality of neighborhood areas.

(2) Main uses permitted.

(A) Agricultural uses.

-- Crop production.

(B) Commercial and business service uses.

None permitted.

(C) Industrial uses.

-- Gas drilling and production. [SUP]

-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.

-- Adult day care facility. [L]

-- Cemetery or mausoleum. [SUP]

-- Child-care facility. [L]

-- Church.
-- Community service center. [SUP]
-- Library, art gallery, or museum.
-- Open-enrollment charter school or private school. [SUP]
-- Public school other than an open-enrollment charter school. [RAR]

(E) Lodging uses.

None permitted.

(F) Miscellaneous uses.

-- Attached non-premise sign. [SUP]
-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) Office uses.

-- Financial institution without drive-in window.
-- Medical clinic or ambulatory surgical center.
-- Office.

(H) Recreation uses.

-- Country club with private membership.
-- Private recreation center, club, or area. [SUP]
-- Public park, playground, or golf course.

(I) Residential uses.

-- College dormitory, fraternity or sorority house. [SUP]

(J) Retail and personal service uses.

-- Business school. [SUP]
-- Personal service use up to 1,000 square feet in floor area. [L]
-- Restaurant without drive-in or drive-thru service. [SUP]

(K) Transportation uses.

-- Transit passenger shelter.
-- Transit passenger station or transfer center. [By SUP or city council resolution. See Section 51A-4.211.]

(L) Utility and public service uses.

-- Electrical substation. [SUP]
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station. [SUP]
-- Radio, television, or microwave tower. [SUP]
-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
-- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.

-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]
(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217. The following accessory uses are not permitted in this district:

-- Accessory community center (private).
-- Accessory helistop.
-- Accessory medical/infectious waste incinerator.
-- Accessory outside display of merchandise.
-- Accessory outside sales.
-- Accessory pathological waste incinerator.
-- Amateur communication tower.
-- Home occupation.
-- Private stable.

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard. Minimum front yard is 15 feet.

(B) Side and rear yard. Minimum side and rear yard is:

(i) 20 feet where adjacent to or directly across an alley from an R, R(A), D, D(A), TH, TH(A), CH, MF, or MF(A) district; and

(ii) no minimum in all other cases.

(C) Dwelling unit density. No maximum dwelling unit density.

(D) Floor area ratio. Maximum floor area ratio is 0.5.

(E) Height.

(i) Residential proximity slope. If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope. Exception: Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

(ii) Maximum height. Unless further restricted under Subparagraph (i), maximum structure height is:

(aa) 35 feet for a structure with a gable, hip, or gambrel roof; and

(bb) 30 feet for any other structure.

(F) Lot coverage. Maximum lot coverage is 50 percent. Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) Lot size. No minimum lot size.

(H) Stories. Maximum number of stories above grade is two. Parking garages are exempt from this requirement, but must comply with the height regulations of Subparagraph (E).

(5) Off-street parking and loading.

(A) In general. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions
51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(B) Special off-street loading provisions.

(i) In this district, off-street loading spaces may not be located in the required front yard.

(ii) In this district, off-street loading spaces may be located in the front yard behind the setback line if they are screened from the street. Screening must be at least six feet in height measured from the horizontal plane passing through the nearest point of the off-street loading space and may be provided by using any of the methods described in Section 51A-4.602(b)(3).

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) Development impact review. A site plan must be submitted and approved in accordance with the requirements of Section 51A-4.803 before an application is made for a permit for work in this district if the estimated trip generation for all uses on the lot collectively is equal to or greater than 6,000 trips per day and 500 trips per acre per day. See Table 1 in Section 51A-4.803 to calculate estimated trip generation.

(B) Visual intrusion. No portion of any balcony or opening that faces an R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(A), MF-1(SAH), MF-2, MF-2(A), or MF-2(SAH) district may penetrate or be located above a residential proximity slope originating in that district. (See Section 51A-4.412.) For purposes of this paragraph, the term “opening” means an open and unobstructed space or a transparent panel in an exterior wall or door from which there can be visual surveillance into the yard of a residential use.

(C) Garbage collection and mechanical equipment areas. Garbage collection and mechanical equipment areas may not be located closer than 20 feet to the nearest building site in an R, R(A), D, D(A), TH, TH(A), or CH district, or that portion of a planned development district restricted to single family and/or duplex uses.

(D) Screening surface parking lots from street. In this district, all off-street surface parking lots, excluding driveways used for ingress or egress, must be screened from the street. For more information regarding this requirement, see Section 51A-4.301.

(E) Screening side and rear yards from residential districts. In this district, if a building or parking structure is erected on a building site and a portion of the side or rear yard abuts or is across an adjoining alley from an A, A(A), R, R(A), D, D(A), TH, TH(A), CH, MF, MF(A), MH, or MH(A) district, any portion of the building site directly across from that district must be screened from that district.

(b) LO(A) districts (LO-1, LO-2, and LO-3).

(1) Purpose. These districts represent a group of uses that is restricted to office uses which predominantly serve neighborhood or community needs. In addition, certain limited service uses are allowed where they are contained primarily within the building and primarily serve the occupants of the building and not the general public.

(2) Main uses permitted.

(A) Agricultural uses.

-- Crop production.

(B) Commercial and business service uses.

-- Catering service. [L]

-- Medical or scientific laboratory. [SUP]
§ 51A-4.121 Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.121

(C) Industrial uses.
-- Gas drilling and production.
-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.
-- Adult day care facility. [L]
-- Cemetery or mausoleum. [SUP]
-- Child-care facility. [L]
-- Church.
-- College, university, or seminary.
-- Community service center. [SUP]
-- Convent or monastery.
-- Library, art gallery, or museum.
-- Open-enrollment charter school or private school. [SUP]
-- Public school other than an open-enrollment charter school. [RAR]

(E) Lodging uses.
-- Overnight general purpose shelter. [See Section 51A-4.205 (2.1)]

(F) Miscellaneous uses.
-- Attached non-premise sign. [SUP]
-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) Office uses.
-- Alternative financial establishment. [SUP]
-- Financial institution without drive-in window.
-- Financial institution with drive-in window. [SUP]
-- Medical clinic or ambulatory surgical center.
-- Office.

(H) Recreation uses.
-- Country club with private membership.
-- Private recreation center, club, or area. [SUP]
-- Public park, playground, or golf course.

(I) Residential uses.
-- College dormitory, fraternity or sorority house.

(J) Retail and personal service uses.
-- Alcoholic beverage establishments. [See Section 51A-4.210 (b)(4).]
-- Business school.
-- Dry cleaning or laundry store. [L]
-- General merchandise or food store 3,500 square feet or less. [L]
-- Personal service uses. [L]
-- Restaurant without drive-in or drive-through service. [L] [RAR]
(K) Transportation uses.

-- Transit passenger shelter.
-- Transit passenger station or transfer center. [By SUP or city council resolution. See Section 51A-4.211.]

(L) Utility and public service uses.

-- Commercial radio or television transmitting station. [SUP]
-- Electrical substation.
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station. [SUP]
-- Post office. [SUP]
-- Radio, television, or microwave tower. [SUP]
-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
-- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.

-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217. The following accessory uses are not permitted in this district:

-- Accessory community center (private).
-- Accessory helistop.
-- Accessory medical/infectious waste incinerator.
-- Accessory outside display of merchandise.
-- Accessory outside sales.
-- Accessory pathological waste incinerator.
-- Home occupation.
-- Private stable.

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard.

(i) Minimum front yard is 15 feet.

(ii) Urban form setback. An additional 20-foot front yard setback is required for that portion of a structure over 45 feet in height.

(B) Side and rear yard.

(i) Minimum side and rear yard is:

(aa) 20 feet where adjacent to or directly across an alley from an R, R(A), D, D(A), TH, TH(A), CH, MF, or MF(A) district; and

(bb) no minimum in all other cases.

(ii) Tower spacing. An additional side and rear yard setback of one foot for each two feet in height above 45 feet is required for that portion of a structure over 45 feet in height, up to a total setback of 30 feet. This subparagraph does not require a total side or rear yard setback greater than 30 feet.
(C) **Dwelling unit density.** No maximum dwelling unit density.

(D) **Floor area ratio.** Maximum floor area ratio is:

(i) 1.0 in the LO-1 district;

(ii) 1.5 in the LO-2 district; and

(iii) 1.75 in the LO-3 district.

(E) **Height.**

(i) **Residential proximity slope.** If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope. **Exception:** Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

(ii) **Maximum height.** Unless further restricted under Subparagraph (i), maximum structure height is:

(aa) 70 feet in the LO-1 district;

(bb) 95 feet in the LO-2 district; and

(cc) 115 feet in the LO-3 district.

(F) **Lot coverage.** Maximum lot coverage is 80 percent. Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) **Lot size.** No minimum lot size.

(H) **Stories.**

(i) Maximum number of stories above grade is:

(aa) five in the LO-1 district;

(bb) seven in the LO-2 district; and

(cc) nine in the LO-3 district.

(ii) Parking garages are exempt from this requirement, but must comply with the height regulations of Subparagraph (E).

(5) **Off-street parking and loading.**

(A) **In general.** Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(B) **Special off-street loading provisions.**

(i) In these districts, off-street loading spaces may not be located in the required front yard.

(ii) In these districts, off-street loading spaces may be located in the front yard behind the setback line if they are screened from the street. Screening must be at least six feet in height measured from the horizontal plane passing through the nearest point of the off-street loading space and may be provided by using any of the methods described in Section 51A-4.602(b)(3).

(6) **Environmental performance standards.** See Article VI.

(7) **Landscape regulations.** See Article X.
§ 51A-4.121 Dallas Development Code: Ordinance No. 19455, as amended

(8) Additional provisions.

(A) Development impact review. A site plan must be submitted and approved in accordance with the requirements of Section 51A-4.803 before an application is made for a permit for work in these districts if the estimated trip generation for all uses on the lot collectively is equal to or greater than 6,000 trips per day and 500 trips per acre per day. See Table 1 in Section 51A-4.803 to calculate estimated trip generation.

(B) Visual intrusion. No portion of any balcony or opening that faces an R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(A), MF-1(SAH), MF-2, MF-2(A), or MF-2(SAH) district may penetrate or be located above a residential proximity slope originating in that district. (See Section 51A-4.412.) For purposes of this paragraph, the term “opening” means an open and unobstructed space or a transparent panel in an exterior wall or door from which there can be visual surveillance into the yard of a residential use.

(C) Garbage collection and mechanical equipment areas. Garbage collection and mechanical equipment areas may not be located closer than 20 feet to the nearest building site in an R, R(A), D, D(A), TH, TH(A), or CH district, or that portion of a planned development district restricted to single family and/or duplex uses.

(D) Screening surface parking lots from street. In these districts, all off-street surface parking lots, excluding driveways used for ingress or egress, must be screened from the street. For more information regarding this requirement, see Section 51A-4.301.

(E) Screening side and rear yards from residential districts. In these districts, if a building or parking structure is erected on a building site and a portion of the side or rear yard abuts or is across an adjoining alley from an A, A(A), R, R(A), D, D(A), TH, TH(A), CH, MF, MF(A), MH, or MH(A) district, any portion of the building site directly across from that district must be screened from that district.

(c) MO(A) districts (MO-1 and MO-2).

(1) Purpose. These districts represent a group of uses that is restricted to office and limited service uses, which serve the building occupants. These districts are intended to serve both community and city-wide needs, and should be located adjacent to higher density residential, and low and medium density office, retail, commercial, and light industrial districts. In addition to office uses, certain complementary retail uses are permitted in these districts in order to meet the day-to-day retail needs of area residents and office patrons.

(2) Main uses permitted.

(A) Agricultural uses.

-- Crop production.

(B) Commercial and business service uses.

-- Catering service. [L]
-- Electronics service center. [L]
-- Medical or scientific laboratory.

(C) Industrial uses.

-- Gas drilling and production. [SUP]
-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.

-- Adult day care facility. [L]
-- Cemetery or mausoleum. [SUP]
-- Child-care facility. [L]
§ 51A-4.121 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-4.121

-- Church.
-- College, university, or seminary.
-- Community service center. [SUP]
-- Convent or monastery.
-- Hospital. [SUP]
-- Library, art gallery, or museum.
-- Open-enrollment charter school or private school. [SUP]
-- Public school other than an open-enrollment charter school. [RAR]

(E) Lodging uses.

-- Extended stay hotel or motel. [SUP]
-- Hotel or motel. [RAR] or [SUP] [See Section 51A-4.205(1).]
-- Overnight general purpose shelter. [See Section 51A-4.205(2.1).]

(F) Miscellaneous uses.

-- Attached non-premise sign. [SUP]
-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) Office uses.

-- Alternative financial establishment. [SUP]
-- Financial institution without drive-in window.
-- Financial institution with drive-in window. [DIR]
-- Medical clinic or ambulatory surgical center.
-- Office.

(H) Recreation uses.

-- Country club with private membership.
-- Private recreation center, club, or area. [SUP]
-- Public park, playground, or golf course.

(I) Residential uses.

-- College dormitory, fraternity or sorority house.

(J) Retail and personal service uses.

-- Alcoholic beverage establishments. [See Section 51A-4.210(b)(4).]
-- Business school.
-- Dry cleaning or laundry store. [L]
-- General merchandise or food store 3,500 square feet or less. [L]
-- Motor vehicle fueling station. [L]
-- Personal service uses. [L]
-- Restaurant without drive-in or drive-through service. [L] [RAR]
-- Theater. [SUP]

(K) Transportation uses.

-- Helistop. [SUP]
-- Transit passenger shelter.
-- Transit passenger station or transfer center. [By SUP or city council resolution. See Section 51A-4.211.]
(L) Utility and public service uses.

-- Commercial radio or television transmitting station. [SUP]
-- Electrical substation.
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4)].
-- Police or fire station. [SUP]
-- Post office. [SUP]
-- Radio, television, or microwave tower. [SUP]
-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1)].
-- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.

-- Recycling drop-off container. [See Section 51A-4.213 (11.2)].
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3)].

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(A) The following accessory uses are not permitted in this district:

-- Accessory community center (private).
-- Accessory outside display of merchandise.
-- Accessory outside sales.

-- Accessory pathological waste incinerator.
-- Home occupation.
-- Private stable.

(B) In these districts, the following accessory use is permitted by SUP only:

-- Accessory helistop.

(C) In this district, an SUP may be required for the following accessory uses:

-- Accessory medical/infectious waste incinerator. [See Section 51A-4.217 (3.1).]

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard.

(i) Minimum front yard is 15 feet.

(ii) Urban form setback. An additional 20-foot front yard setback is required for that portion of a structure over 45 feet in height.

(B) Side and rear yard.

(i) Minimum side and rear yard is:

(aa) 20 feet where adjacent to or directly across an alley from an R, R(A), D, D(A), TH, TH(A), CH, MF, or MF(A) district; and

(bb) no minimum in all other cases.

(ii) Tower spacing. An additional side and rear yard setback of one foot for each two feet
in height above 45 feet is required for that portion of a structure over 45 feet in height, up to a total setback of 30 feet. This subparagraph does not require a total side or rear yard setback greater than 30 feet.

(C) Dwelling unit density. Not applicable.

(D) Floor area ratio. Maximum floor area ratio is:

(i) 2.0 in the MO-1 district; and

(ii) 3.0 in the MO-2 district.

(E) Height.

(i) Residential proximity slope. If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope. Exception: Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

(ii) Maximum height. Unless further restricted under Subparagraph (i), maximum structure height is:

(aa) 135 feet in the MO-1 district; and

(bb) 160 feet in the MO-2 district.

(F) Lot coverage. Maximum lot coverage is 80 percent. Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) Lot size. No minimum lot size.

(H) Stories.

(i) Maximum number of stories above grade is:

(aa) 10 stories in the MO-1 district; and

(bb) 12 stories in the MO-2 district.

(ii) Parking garages are exempt from this requirement, but must comply with the height regulations of Subparagraph (E).

(5) Off-street parking and loading.

(A) In general. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(B) Special off-street loading provisions.

(i) In these districts, off-street loading spaces may not be located in the required front yard.

(ii) In these districts, off-street loading spaces may be located in the front yard behind the setback line if they are screened from the street. Screening must be at least six feet in height measured from the horizontal plane passing through the nearest point of the off-street loading space and may be provided by using any of the methods described in Section 51A-4.602(b)(3).

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.
§ 51A-4.121   Dallas Development Code: Ordinance No. 19455, as amended    § 51A-4.121

(8) Additional provisions.

(A) Development impact review. A site plan must be submitted and approved in accordance with the requirements of Section 51A-4.803 before an application is made for a permit for work in these districts if the estimated trip generation for all uses on the lot collectively is equal to or greater than 6,000 trips per day and 500 trips per acre per day. See Table 1 in Section 51A-4.803 to calculate estimated trip generation.

(B) Visual intrusion. No portion of any balcony or opening that faces an R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(A), MF-1(SAH), MF-2, MF-2(A), or MF-2(SAH) district may penetrate or be located above a residential proximity slope originating in that district. (See Section 51A-4.412.) For purposes of this paragraph, the term “opening” means an open and unobstructed space or a transparent panel in an exterior wall or door from which there can be visual surveillance into the yard of a residential use.

(C) Garbage collection and mechanical equipment areas. Garbage collection and mechanical equipment areas may not be located closer than 20 feet to the nearest building site in an R, R(A), D, D(A), TH, TH(A), or CH district, or that portion of a planned development district restricted to single family and/or duplex uses.

(D) Screening surface parking lots from street. In these districts, all off-street surface parking lots, excluding driveways used for ingress or egress, must be screened from the street. For more information regarding this requirement, see Section 51A-4.301.

(E) Screening side and rear yards from residential districts. In these districts, if a building or parking structure is erected on a building site and a portion of the side or rear yard abuts or is across an adjoining alley from an A, A(A), R, R(A), D, D(A), TH, TH(A), CH, MF, MF(A), MH, or MH(A) district, any portion of the building site directly across from that district must be screened from that district.

(d) General office [GO(A)] district.

(1) Purpose. This district represents a group of uses which would accommodate sophisticated office developments and may include certain complementary retail and residential uses as a minor component of such developments. This district is intended to serve city-wide needs and should be located near higher density zoning districts, especially where the potential trip generation allowed by this group will have a minimal effect on low density communities.

(2) Main uses permitted.

(A) Agricultural uses.

-- Crop production.

(B) Commercial and business service uses.

-- Catering service. [L]
-- Electronics service center. [L]
-- Medical or scientific laboratory.

(C) Industrial uses.

-- Gas drilling and production. [SUP]
-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.

-- Adult day care facility. [L]
-- Cemetery or mausoleum. [SUP]
-- Child-care facility. [L]
-- Church.
-- College, university, or seminary.
§ 51A-4.121 Dallas Development Code: Ordinance No. 19455, as amended

(E) Lodging uses.

-- Extended stay hotel or motel. [SUP]
-- Hotel or motel. [RAR]
-- Overnight general purpose shelter. [See Section 51A-4.205(2.1).]

(F) Miscellaneous uses.

-- Attached non-premise sign. [SUP]
-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) Office uses.

-- Alternative financial establishment. [SUP]
-- Financial institution without drive-in window.
-- Financial institution with drive-in window. [DIR]
-- Medical clinic or ambulatory surgical center.
-- Office.

(H) Recreation uses.

-- Country club with private membership.
-- Private recreation center, club, or area.
-- Public park, playground, or golf course.

(I) Residential uses.

-- College dormitory, fraternity or sorority house.
-- Handicapped group dwelling unit. [See Section 51A-4.209(3.1).]
-- Single family, duplex, and multifamily uses may occupy up to five percent of the total floor area of any building. See the “additional provisions” [Paragraph (8)] in this subsection.

(J) Retail and personal service uses.*

-- Alcoholic beverage establishments. [See Section 51A-4.210 (b)(4).]
-- Business school.
-- Dry cleaning or laundry store.
-- General merchandise or food store 3,500 square feet or less.
-- Motor vehicle fueling station. [L]
-- Nursery, garden shop, or plant sales.
-- Personal service uses.
-- Restaurant without drive-in or drive-through service. [RAR]
-- Theater. [SUP]

*In this district, a retail and personal service use: (1) must be contained entirely within a building; and (2) may not have a floor area that, in combination with the
floor areas of other retail and personal service uses in the building, exceeds 10 percent of the total floor area of the building.

§ 51A-4.121 Dallas Development Code: Ordinance No. 19455, as amended

(K) Transportation uses.
-- Helistop. [SUP]
-- Railroad passenger station. [SUP]
-- Transit passenger shelter.
-- Transit passenger station or transfer center. [By SUP or city council resolution. See Section 51A-4.211.]

(L) Utility and public service uses.
-- Commercial radio or tele- vision transmitting station.
-- Electrical substation.
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station.
-- Post office.
-- Radio, television, or microwave tower. [RAR]
-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
-- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.
-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217. The following accessory uses are not permitted in these districts:

(A) The following accessory uses are not permitted in this district:
-- Accessory community center (private).
-- Accessory pathological waste incinerator.
-- Home occupation.
-- Private stable.

(B) Reserved.

(C) In this district, an SUP may be required for the following accessory uses:
-- Accessory medical/infectious waste incinerator. [See Section 51A-4.217 (3.1).]

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard.
   (i) Minimum front yard is 15 feet.
   (ii) Urban form setback. An additional 20-foot front yard setback is required for that portion of a structure over 45 feet in height.

(B) Side and rear yard.
   (i) Minimum side and rear yard is:

Dallas City Code 115
(aa) 20 feet where adjacent to or directly across an alley from an R, R(A), D, D(A), TH, TH(A), CH, MF, or MF(A) district; and

(bb) no minimum in all other cases.

(ii) Tower spacing. An additional side and rear yard setback of one foot for each two feet in height above 45 feet is required for that portion of a structure over 45 feet in height, up to a total setback of 30 feet. This subparagraph does not require a total side or rear yard setback greater than 30 feet.

(C) Dwelling unit density. No maximum dwelling unit density.

(D) Floor area ratio. Maximum floor area ratio is 4.0.

(E) Height.

(i) Residential proximity slope. If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope. Exception: Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

(ii) Maximum height. Unless further restricted under Subparagraph (i), maximum structure height is 270 feet.

(F) Lot coverage. Maximum lot coverage is 80 percent. Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) Lot size. No minimum lot size.

(H) Stories. Maximum number of stories above grade is 20. Parking garages are exempt from this requirement, but must comply with the height regulations of Subparagraph (E).

(5) Off-street parking and loading.

(A) In general. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(B) Special off-street loading provisions.

(i) In this district, off-street loading spaces may not be located in the required front yard.

(ii) In this district, off-street loading spaces may be located in the front yard behind the setback line if they are screened from the street. Screening must be at least six feet in height measured from the horizontal plane passing through the nearest point of the off-street loading space and may be provided by using any of the methods described in Section 51A-4.602(b)(3).

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) Development impact review. A site plan must be submitted and approved in accordance with the requirements of Section 51A-4.803 before an application is made for a permit for work in this district if the estimated trip generation for all uses on the lot collectively is equal to or greater than 6,000 trips per day and 500 trips per acre per day. See Table 1 in Section 51A-4.803 to calculate estimated trip generation.

(B) Visual intrusion. No portion of any balcony or opening that faces an R, R(A), D, D(A), TH,
TH(A), CH, MF-1, MF-1(A), MF-1(SAH), MF-2, MF-2(A), or MF-2(SAH) district may penetrate or be located above a residential proximity slope originating in that district. (See Section 51A-4.412.) For purposes of this paragraph, the term “opening” means an open and unobstructed space or a transparent panel in an exterior wall or door from which there can be visual surveillance into the yard of a residential use.

(C) Garbage collection and mechanical equipment areas. Garbage collection and mechanical equipment areas may not be located closer than 20 feet to the nearest building site in an R, R(A), D, D(A), TH, TH(A), or CH district, or that portion of a planned development district restricted to single family and/or duplex uses.

(D) Screening surface parking lots from street. In this district, all off-street surface parking lots, excluding driveways used for ingress or egress, must be screened from the street. For more information regarding this requirement, see Section 51A-4.301.

(E) Screening side and rear yards from residential districts. In this district, if a building or parking structure is erected on a building site and a portion of the side or rear yard abuts or is across an adjoining alley from an A, A(A), R, R(A), D, D(A), TH, TH(A), CH, MF, MF(A), MH, or MH(A) district, any portion of the building site directly across from that district must be screened from that district.

(F) Residential use restrictions. In this district, single family, duplex, and multifamily uses are permitted as a component of a building if they collectively comprise no more than five percent of the total floor area of the building.

(G) Retail and personal service use restrictions. In this district, a retail and personal service use:

(i) must be contained entirely within a building; and

(ii) may not have a floor area that, in combination with the floor areas of other retail and personal service uses in the building, exceeds 10 percent of the total area of the building. (Ord. Nos. 19455; 19786; 19806; 19808; 19873; 19928; 20382; 20625; 20920; 20950; 21002; 21044; 21314; 21399; 21442; 21663; 21735; 22392; 22531; 22782; 24232; 24271; 24543; 24857; 25815; 26920; 28214)

SEC. 51A-4.122. RETAIL DISTRICTS.

(a) Neighborhood service [NS(A)] district.

(1) Purpose. To accommodate convenience retail shopping, services, and professional offices principally servicing and compatible in scale and intensity of use with adjacent residential uses.

(2) Main uses permitted.

(A) Agricultural uses.

-- Crop production.

(B) Commercial and business service uses.

None permitted.

(C) Industrial uses.

-- Gas drilling and production. [SUP]
-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.

-- Adult day care facility.
-- Cemetery or mausoleum. [SUP]
-- Child-care facility.
§ 51A-4.122 Dallas Development Code: Ordinance No. 19455, as amended

-- Church.
-- College, university, or seminary. [SUP]
-- Community service center. [SUP]
-- Convent or monastery.
-- Library, art gallery, or museum.
-- Open-enrollment charter school or private school. [SUP]
-- Public school other than an open-enrollment charter school. [RAR]

(E) Lodging uses.

None permitted.

(F) Miscellaneous uses.

-- Attached non-premise sign. [SUP]
-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) Office uses.

-- Financial institution without drive-in window.
-- Medical clinic or ambulatory surgical center.
-- Office.

(H) Recreation uses.

-- Country club with private membership.
-- Private recreation center, club, or area. [SUP]
-- Public park, playground, or golf course.

(I) Residential uses.

-- College dormitory, fraternity, or sorority house. [SUP]

(J) Retail and personal service uses.

-- Dry cleaning or laundry store.
-- General merchandise or food store 3,500 square feet or less.
-- Motor vehicle fueling station. [SUP]
-- Personal service uses.
-- Restaurant without drive-in or drive-through service. [RAR]

(K) Transportation uses.

-- Transit passenger shelter.
-- Transit passenger station or transfer center. [By SUP or city council resolution. See Section 51A-4.211.]

(L) Utility and public service uses.

-- Electrical substation. [SUP]
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station. [SUP]
-- Post office. [SUP]
-- Radio, television, or microwave tower. [SUP]
-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
-- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.

-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]

118 Dallas City Code
§ 51A-4.122 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-4.122

-- Recycling drop-off for special occasion collection.  [See Section 51A-4.213 (11.3).]

(3) **Accessory uses.** As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217. The following accessory uses are not permitted in this district:

-- Accessory community center (private).
-- Accessory helistop.
-- Accessory medical/infectious waste incinerator.
-- Accessory pathological waste incinerator.
-- Amateur communication tower.
-- Home occupation.
-- Private stable.

(4) **Yard, lot, and space regulations.** (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) **Front yard.** Minimum front yard is 15 feet.

(B) **Side and rear yard.** Minimum side and rear yard is:

(i) 20 feet where adjacent to or directly across an alley from an R, R(A), D, D(A), TH, TH(A), CH, MF, or MF(A) district; and

(ii) no minimum in all other cases.

(C) **Dwelling unit density.** No maximum dwelling unit density.

(D) **Floor area ratio.** Maximum floor area ratio is 0.5.

(E) **Height.**

(i) **Residential proximity slope.** If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope. Exception: Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

(ii) **Maximum height.** Unless further restricted under Subparagraph (i), maximum structure height is:

(aa) 35 feet for a structure with a gable, hip, or gambrel roof; and

(bb) 30 feet for any other structure.

(F) **Lot coverage.** Maximum lot coverage is 40 percent. Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) **Lot size.** No minimum lot size.

(H) **Stories.** Maximum number of stories above grade is two. Parking garages are exempt from this requirement, but must comply with the height regulations of Subparagraph (E).

(5) **Off-street parking and loading.** Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.
(6) Environmental performance standards.
See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) Development impact review. A site plan must be submitted and approved in accordance with the requirements of Section 51A-4.803 before an application is made for a permit for work in this district if the estimated trip generation for all uses on the lot collectively is equal to or greater than 6,000 trips per day and 500 trips per acre per day. See Table 1 in Section 51A-4.803 to calculate estimated trip generation.

(B) Visual intrusion. No portion of any balcony or opening that faces an R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(A), MF-1(SAH), MF-2, MF-2(A), or MF-2(SAH) district may penetrate or be located above a residential proximity slope originating in that district. (See Section 51A-4.412.) For purposes of this paragraph, the term “opening” means an open and unobstructed space or a transparent panel in an exterior wall or door from which there can be visual surveillance into the yard of a residential use.

(b) Community retail (CR) district.

(1) Purpose. To provide for the development of community-serving retail, personal service, and office uses at a scale and intensity compatible with residential communities.

(2) Main uses permitted.

(A) Agricultural uses.
-- Crop production.

(B) Commercial and business service uses.
-- Building repair and maintenance shop. [RAR]
-- Catering service.
-- Custom business services.
-- Electronics service center.
-- Medical or scientific laboratory. [SUP]
-- Tool or equipment rental.

(C) Industrial uses.
-- Gas drilling and production. [SUP]
-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.
-- Adult day care facility.
-- Cemetery or mausoleum. [SUP]
-- Child-care facility.
-- Church.
-- College, university, or seminary.
-- Community service center. [SUP]
-- Convent or monastery.
-- Hospital. [SUP]
-- Library, art gallery, or museum.
-- Open-enrollment charter school or private school. [SUP]
-- Public school other than an open-enrollment charter school. [RAR]

(E) Lodging uses.
-- Hotel and motel. [SUP]
-- Lodging or boarding house. [SUP]
-- Overnight general purpose shelter. [See Section 51A-4.205 (2.1)]
(F) **Miscellaneous uses.**

-- Attached non-premise sign. [SUP]
-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) **Office uses.**

-- Alternative financial establishment. [SUP]
-- Financial institution without drive-in window.
-- Financial institution with drive-in window. [DIR]
-- Medical clinic or ambulatory surgical center.
-- Office.

(H) **Recreation uses.**

-- Country club with private membership.
-- Private recreation center, club, or area.
-- Public park, playground, or golf course.

(I) **Residential uses.**

-- College dormitory, fraternity, or sorority house.

(J) **Retail and personal service uses.**

-- Alcoholic beverage establishments. [See Section 51A-4.210 (b)(4).]
-- Ambulance service. [RAR]
-- Animal shelter or clinic without outside runs. [RAR]
-- Auto service center. [RAR]
-- Business school.

-- Car wash. [DIR]
-- Commercial amusement (inside). [SUP may be required. See Section 51A-4.210(b)(7)(B).]
-- Commercial amusement (outside). [SUP]
-- Commercial parking lot or garage. [RAR]
-- Convenience store with drive-through. [SUP]
-- Dry cleaning or laundry store.
-- Furniture store.
-- General merchandise or food store 3,500 square feet or less.
-- General merchandise or food store greater than 3,500 square feet.
-- General merchandise or food store 100,000 square feet or more. [SUP]
-- Home improvement center, lumber, brick or building materials sales yard. [DIR]
-- Household equipment and appliance repair.
-- Liquor store.
-- Mortuary, funeral home, or commercial wedding chapel.
-- Motor vehicle fueling station.
-- Nursery, garden shop, or plant sales.
-- Paraphernalia shop. [SUP]
-- Pawn shop.
-- Personal service uses.
-- Restaurant without drive-in or drive-through service. [RAR]
-- Restaurant with drive-in or drive-through service. [DIR]
-- Swap or buy shop. [SUP]
-- Temporary retail use.
-- Theater.

(K) **Transportation uses.**

-- Transit passenger shelter.
-- Transit passenger station or transfer center. [By SUP or city council resolution. See Section 51A-4.211.]

(L) Utility and public service uses.

-- Commercial radio and television transmitting station.
-- Electrical substation.
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station.
-- Post office.
-- Radio, television or microwave tower. [SUP]
-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
-- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.

-- Mini-warehouse. [SUP]
-- Recycling buy-back center. [See Section 51A-4.213 (11).]
-- Recycling collection center. [See Section 51A-4.213 (11.1).]
-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]

(A) The following accessory uses are not permitted in this district:

-- Accessory community center (private).
-- Home occupation.
-- Private stable.

(B) In this district, the following accessory use is permitted by SUP only:

-- Accessory helistop.

(C) In this district, an SUP may be required for the following accessory uses:

-- Accessory medical/infectious waste incinerator. [See Section 51A-4.217 (3.1).]

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard. Minimum front yard is 15 feet.

(B) Side and rear yard. Minimum side and rear yard is:

(i) 20 feet where adjacent to or directly across an alley from an R, R(A), D, D(A), TH, TH(A), CH, MF, or MF(A) district; and
(ii) no minimum in all other cases.

(C) Dwelling unit density. No maximum dwelling unit density.

(D) Floor area ratio. Maximum floor area ratio is:

(i) 0.5 for office uses; and
§ 51A-4.122 Dallas Development Code: Ordinance No. 19455, as amended

(ii) 0.75 for all uses combined.

(E) Height.

(i) Residential proximity slope. If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope. Exception: Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

(ii) Maximum height. Unless further restricted under Subparagraph (i), maximum structure height is 54 feet.

(F) Lot coverage. Maximum lot coverage is 60 percent. Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) Lot size. No minimum lot size.

(H) Stories. Maximum number of stories above grade is four. Parking garages are exempt from this requirement, but must comply with the height regulations of Subparagraph (E).

(5) Off-street parking and loading. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) Development impact review. A site plan must be submitted and approved in accordance with the requirements of Section 51A-4.803 before an application is made for a permit for work in this district if the estimated trip generation for all uses on the lot collectively is equal to or greater than 6,000 trips per day and 500 trips per acre per day. See Table 1 in Section 51A-4.803 to calculate estimated trip generation.

(B) Visual intrusion. No portion of any balcony or opening that faces an R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(A), MF-1(SAH), MF-2, MF-2(A), or MF-2(SAH) district may penetrate or be located above a residential proximity slope originating in that district. (See Section 51A-4.412.) For purposes of this paragraph, the term “opening” means an open and unobstructed space or a transparent panel in an exterior wall or door from which there can be visual surveillance into the yard of a residential use.

(c) Regional retail (RR) district.

(1) Purpose. To provide for the development of regional-serving retail, personal service, and office uses. This district is not intended to be located in areas of low density residential development.

(2) Main uses permitted.

(A) Agricultural uses.

-- Crop production.

(B) Commercial and business service uses.

-- Building repair and maintenance shop. [RAR]

-- Catering service.

-- Custom business services.
§ 51A-4.122 Dallas Development Code: Ordinance No. 19455, as amended

(E) Lodging uses.
-- Extended stay hotel or motel. [SUP]
-- Hotel or motel. [RAR] or [SUP] [See Section 51A-4.205(1).]
-- Lodging or boarding house.
-- Overnight general purpose shelter. [See Section 51A-4.205(2.1).]

(F) Miscellaneous uses.
-- Attached non-premise sign. [SUP]
-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) Office uses.
-- Alternative financial establishment. [SUP]
-- Financial institution without drive-in window.
-- Financial institution with drive-in window. [DIR]
-- Medical clinic or ambulatory surgical center.
-- Office.

(H) Recreation uses.
-- Country club with private membership.
-- Private recreation center, club, or area.
-- Public park, playground, or golf course.
§ 51A-4.122 Dallas Development Code: Ordinance No. 19455, as amended

(I) Residential uses.

-- College dormitory, fraternity, or sorority house.

(J) Retail and personal service uses.

-- Alcoholic beverage establishments. [See Section 51A-4.210(b)(4).]
-- Ambulance service. [RAR]
-- Animal shelter or clinic without outside runs. [RAR]
-- Animal shelter or clinic with outside runs. [SUP]
-- Auto service center. [RAR]
-- Business school.
-- Car wash. [RAR]
-- Commercial amusement (inside). [SUP may be required. See Section 51A-4.210(b)(7)(B).]
-- Commercial amusement (outside). [SUP]
-- Commercial parking lot or garage. [RAR]
-- Convenience store with drive-through. [SUP]
-- Dry cleaning or laundry store.
-- Furniture store.
-- General merchandise or food store 3,500 square feet or less.
-- General merchandise or food store greater than 3,500 square feet.
-- General merchandise or food store 100,000 square feet or more.
-- Home improvement center, lumber, brick or building materials sales yard. [RAR]
-- Household equipment and appliance repair.
-- Liquor store.
-- Mortuary, funeral home, or commercial wedding chapel.
-- Motor vehicle fueling station.

-- Nursery, garden shop, or plant sales.
-- Outside sales. [SUP]
-- Paraphernalia shop. [SUP]
-- Pawn shop.
-- Personal service uses.
-- Restaurant without drive-in or drive-through service. [RAR]
-- Restaurant with drive-in or drive-through service. [DIR]
-- Swap or buy shop. [SUP]
-- Temporary retail use.
-- Theater.
-- Vehicle display, sales, and service. [RAR]

(K) Transportation uses.

-- Commercial bus station and terminal. [DIR]
-- Heliport. [SUP]
-- Helistop. [SUP]
-- Railroad passenger station. [SUP]
-- Transit passenger shelter.
-- Transit passenger station or transfer center. [By SUP or city council resolution. See Section 51A-4.211.]

(L) Utility and public service uses.

-- Commercial radio or television transmitting station.
-- Electrical substation.
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station.
-- Post office.
-- Radio, television or microwave tower. [SUP]
-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
§ 51A-4.122 Dallas Development Code: Ordinance No. 19455, as amended

(M) Wholesale, distribution, and storage uses.

-- Mini-warehouse. [SUP]
-- Recycling buy-back center. [See Section 51A-4.213 (11).]
-- Recycling collection center. [See Section 51A-4.213 (11.1).]
-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(A) The following accessory uses are not permitted in this district:

-- Accessory community center (private).
-- Home occupation.
-- Private stable.

(B) In this district, the following accessory use is permitted by SUP only:

-- Accessory helistop.

(C) In this district, an SUP may be required for the following accessory uses:

-- Accessory medical/infectious waste incinerator. [See Section 51A-4.217 (3.1).]

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard.

(i) Minimum front yard is 15 feet.

(ii) Urban form setback. An additional 20-foot front yard setback is required for that portion of a structure over 45 feet in height.

(B) Side and rear yard. Minimum side and rear yard is:

(i) 20 feet where adjacent to or directly across an alley from an R, R(A), D, D(A), TH, TH(A), CH, MF, or MF(A) district; and

(ii) no minimum in all other cases.

(C) Dwelling unit density. No maximum dwelling unit density.

(D) Floor area ratio. Maximum floor area ratio is:

(i) 0.5 for office uses; and

(ii) 1.5 for all uses combined.

(E) Height.

(i) Residential proximity slope. If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope. Exception: Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.
§ 51A-4.122 Dallas Development Code: Ordinance No. 19455, as amended

(ii) Maximum height. Unless further restricted under Subparagraph (i), maximum structure height is 70 feet.

(F) Lot coverage. Maximum lot coverage is 80 percent. Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) Lot size. No minimum lot size.

(H) Stories. Maximum number of stories above grade is five. Parking garages are exempt from this requirement, but must comply with the height regulations of Subparagraph (E).

(5) Off-street parking and loading. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) Development impact review. A site plan must be submitted and approved in accordance with the requirements of Section 51A-4.803 before an application is made for a permit for work in this district if the estimated trip generation for all uses on the lot collectively is equal to or greater than 6,000 trips per day and 500 trips per acre per day. See Table 1 in Section 51A-4.803 to calculate estimated trip generation.

(B) Visual intrusion. No portion of any balcony or opening that faces an R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(A), MF-1(SAH), MF-2, MF-2(A), or MF-2(SAH) district may penetrate or be located above a residential proximity slope originating in that district. (See Section 51A-4.412.) For purposes of this paragraph, the term “opening” means an open and unobstructed space or a transparent panel in an exterior wall or door from which there can be visual surveillance into the yard of a residential use. (Ord. Nos. 19455; 19786; 19806; 19808; 19873; 19931; 20242; 20273; 20382; 20494; 20625; 20895; 20902; 20920; 20950; 21002; 21044; 21259; 21314; 21399; 21442; 21663; 21735; 22204; 22531; 22782; 24232; 24271; 24543; 24857; 25785; 26920; 27572; 28079; 28214; 30477)

SEC. 51A-4.123. COMMERCIAL SERVICE AND INDUSTRIAL DISTRICTS.

(a) Commercial service (CS) district.

(1) Purpose. To provide for the development of commercial and business serving uses that may involve outside storage, service, or display. This district is not intended to be located in areas of low and medium density residential development.

(2) Main uses permitted.

(A) Agricultural uses.

-- Crop production.

(B) Commercial and business service uses.

-- Building repair and maintenance shop. [RAR]

-- Bus or rail transit vehicle maintenance or storage facility. [RAR]

-- Catering service.

-- Commercial bus station and terminal. [DIR] [By right or SUP. See Section 51A-4.211(2).]

-- Commercial cleaning or laundry plant. [RAR]

-- Custom business services.
§ 51A-4.123 Dallas Development Code: Ordinance No. 19455, as amended § 51A-4.123

-- Custom woodworking, furniture construction, or repair.
-- Electronics service center.
-- Job or lithographic printing. [RAR]
-- Labor hall. [SUP]
-- Machine or welding shop. [RAR]
-- Machinery, heavy equipment, or truck sales and services. [RAR]
-- Medical or scientific laboratory.
-- Technical school.
-- Tool or equipment rental.
-- Vehicle or engine repair or maintenance. [RAR]

(C) Industrial uses.

-- Gas drilling and production. [SUP]
-- Industrial (inside) for light manufacturing.
-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.

-- Adult day care facility.
-- Cemetery or mausoleum. [SUP]
-- Child-care facility.
-- Church.
-- College, university, or seminary.
-- Community service center. [SUP]
-- Convent or monastery.
-- Halfway house. [SUP]
-- Hospital. [RAR]

-- Open-enrollment charter school or private school. [SUP]
-- Public school other than an open-enrollment charter school. [RAR]

(E) Lodging uses.

-- Extended stay hotel or motel. [SUP]
-- Hotel or motel. [RAR] or [SUP] [See Section 51A-4.205(1).]
-- Lodging or boarding house.
-- Overnight general purpose shelter. [See Section 51A-4.205(2.1).]

(F) Miscellaneous uses.

-- Attached non-premise sign. [SUP]
-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) Office uses.

-- Alternative financial establishment. [SUP]
-- Financial institution without drive-in window.
-- Financial institution with drive-in window. [RAR]
-- Medical clinic or ambulatory surgical center.
-- Office.

(H) Recreation uses.

-- Country club with private membership.

§ 51A-4.123 Dallas Development Code: Ordinance No. 19455, as amended § 51A-4.123

(L) Utility and public service uses.

-- Commercial radio or television transmitting station.
-- Electrical substation.
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station.
-- Post office.
-- Radio, television, or microwave tower. [RAR]
-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
-- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.

-- Auto auction. [SUP]
-- Building mover’s temporary storage yard. [SUP]
-- Contractor’s maintenance yard. [RAR]
-- Freight terminal. [RAR]
-- Manufactured building sales lot. [RAR]
-- Mini-warehouse.
-- Office showroom/warehouse.
-- Outside storage. [RAR]
-- Petroleum product storage and wholesale. [SUP]
-- Recycling buy-back center. [See Section 51A-4.213(11).]
-- Recycling collection center. [See Section 51A-4.213(11.1).]
-- Recycling drop-off container. [See Section 51A-4.213(11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213(11.3).]
-- Sand, gravel, or earth sales and storage. [SUP]
-- Trade center.
-- Vehicle storage lot. [SUP]
-- Warehouse. [RAR]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(A) The following accessory uses are not permitted in this district:

-- Accessory community center (private).
-- Home occupation.
-- Private stable.

(B) In this district, the following accessory use is permitted by SUP only:

-- Accessory helistop.

(C) In this district, an SUP may be required for the following accessory uses:

-- Accessory medical/infectious waste incinerator. [See Section 51A-4.217 (3.1).]

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard. Minimum front yard is:

(i) 15 feet where adjacent to an expressway or a thoroughfare; and
§ 51A-4.123 Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.123

(ii) no minimum in all other cases.

(B) Side and rear yard. Minimum side and rear yard is:

(i) 20 feet where adjacent to or directly across an alley from an R, R(A), D, D(A), TH, TH(A), CH, MF, or MF(A) district; and

(ii) no minimum in all other cases.

(C) Dwelling unit density. Not applicable.

(D) Floor area ratio. Maximum floor area ratio is:

(i) 0.5 for any combination of lodging, office, and retail and personal service uses; and

(ii) 0.75 for all uses combined.

(E) Height.

(i) Residential proximity slope. If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope. Exception: Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

(ii) Maximum height. Unless further restricted under Subparagraph (i), maximum structure height is 45 feet.

(F) Lot coverage. Maximum lot coverage is 80 percent. Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) Lot size. No minimum lot size.

(H) Stories. Maximum number of stories above grade is three. Parking garages are exempt from this requirement, but must comply with the height regulations of Subparagraph (E).

(5) Off-street parking and loading. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) Development impact review. A site plan must be submitted and approved in accordance with the requirements of Section 51A-4.803 before an application is made for a permit for work in this district if the estimated trip generation for all uses on the lot collectively is equal to or greater than 6,000 trips per day and 500 trips per acre per day. See Table 1 in Section 51A-4.803 to calculate estimated trip generation.

(B) Visual intrusion. No portion of any balcony or opening that faces an R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(A), MF-1(SAH), MF-2, MF-2(A), or MF-2(SAH) district may penetrate or be located above a residential proximity slope originating in that district. (See Section 51A-4.412.) For purposes of this paragraph, the term “opening” means an open and unobstructed space or a transparent panel in an exterior wall or door from which there can be visual surveillance into the yard of a residential use.

(b) Light industrial (LI) district.

(1) Purpose. To provide for light industrial office, research and development, and commercial uses in an industrial park setting. This district is designed to be located in areas appropriate for industrial
development which may be adjacent to residential communities.

(2) Main uses permitted.

(A) Agricultural uses.
   -- Crop production.

(B) Commercial and business service uses.
   -- Building repair and maintenance shop. [RAR]
   -- Bus or rail transit vehicle maintenance or storage facility. [RAR]
   -- Catering service.
   -- Commercial bus station and terminal.
   -- Commercial cleaning or laundry plant. [RAR]
   -- Custom business services.
   -- Custom woodworking, furniture construction, or repair.
   -- Electronics service center.
   -- Job or lithographic printing. [RAR]
   -- Labor hall. [SUP]
   -- Machine or welding shop. [RAR]
   -- Machinery, heavy equipment, or truck sales and services. [RAR]
   -- Medical or scientific laboratory.
   -- Technical school.
   -- Tool or equipment rental.
   -- Vehicle or engine repair or maintenance.

(C) Industrial uses.
   -- Alcoholic beverage manufacturing. [RAR]

   -- Gas drilling and production. [SUP]
   -- Industrial (inside) for light manufacturing.
   -- Inside industrial. [RAR]
   -- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.
   -- Adult day care facility.
   -- Cemetery or mausoleum. [SUP]
   -- Child-care facility.
   -- Church.
   -- College, university, or seminary.
   -- Community service center. [SUP]
   -- Halfway house. [SUP]
   -- Hospital. [SUP]
   -- Open-enrollment charter school or private school. [SUP]
   -- Public school other than an open-enrollment charter school. [RAR]

(E) Lodging uses.
   -- Extended stay hotel or motel. [SUP]
   -- Hotel or motel. [RAR] or [SUP] [See Section 51A-4.205(1).]
   -- Lodging or boarding house.
   -- Overnight general purpose shelter. [See Section 51A-4.205(2.1).]
§ 51A-4.123 Dallas Development Code: Ordinance No. 19455, as amended § 51A-4.123

(F) Miscellaneous uses.
-- Attached non-premise sign. [SUP]
-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) Office uses.
-- Alternative financial establishment. [SUP]
-- Financial institution without drive-in window.
-- Financial institution with drive-in window. [RAR]
-- Medical clinic or ambulatory surgical center.
-- Office.

(H) Recreation uses.
-- Country club with private membership.
-- Private recreation center, club, or area.
-- Public park, playground, or golf course.

(I) Residential uses.
-- None permitted.

(J) Retail and personal service uses.
-- Alcoholic beverage establishments. [See Section 51A-4.210(b)(4).]
-- Animal shelter or clinic without outside runs.
-- Animal shelter or clinic with outside runs. [SUP may be required. See Section 51A-4.210(b)(2).]
-- Auto service center. [RAR]
-- Business school.
-- Car wash. [RAR]
-- Commercial amusement (inside). [SUP may be required. See Section 51A-4.210(b)(7)(B).]
-- Commercial motor vehicle parking. [By SUP only if within 500 feet of a residential district.]
-- Commercial parking lot or garage. [RAR]
-- Dry cleaning or laundry store.
-- Furniture store.
-- General merchandise or food store 3,500 square feet or less.
-- General merchandise or food store 100,000 square feet or more. [SUP]
-- Home improvement center, lumber, brick or building materials sales yard. [RAR]
-- Household equipment and appliance repair.
-- Liquefied natural gas fueling station. [By SUP only if the use has more than four fuel pumps or is within 1,000 feet of a residential zoning district or a planned development district that allows residential uses.]
-- Motor vehicle fueling station.
-- Paraphernalia shop. [SUP]
-- Personal service uses.
-- Restaurant without drive-in or drive-through service. [RAR]
-- Restaurant with drive-in or drive-through service. [DIR]
-- Taxidermist.
-- Temporary retail use.
-- Theater.
-- Truck stop. [SUP]
-- Vehicle display, sales, and service. [RAR]
§ 51A-4.123 Dallas Development Code: Ordinance No. 19455, as amended § 51A-4.123

(K) Transportation uses.

-- Commercial bus station and terminal. [RAR]
-- Heliport. [SUP]
-- Helistop. [SUP]
-- Railroad passenger station. [SUP]
-- Transit passenger shelter.
-- Transit passenger station or transfer center. [By SUP or city council resolution. See Section 51A-4.211.]

(L) Utility and public service uses.

-- Commercial radio or television transmitting station. [SUP]
-- Electrical substation.
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station.
-- Post office.
-- Radio, television or microwave tower. [RAR]
-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
-- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.

-- Freight terminal. [RAR]
-- Manufactured building sales lot. [RAR]
-- Mini-warehouse.
-- Office showroom/warehouse.
-- Outside storage. [RAR]
-- Recycling buy-back center. [See Section 51A-4.213(11).]

-- Recycling collection center. [See Section 51A-4.213(11.1).]
-- Recycling drop-off container. [See Section 51A-4.213(11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213(11.3).]
-- Trade center.
-- Warehouse. [RAR]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(A) The following accessory uses are not permitted in this district:

-- Accessory community center (private).
-- Accessory pathological waste incinerator.
-- Home occupation.
-- Private stable.

(B) In this district, the following accessory uses are permitted by SUP only:

-- Accessory helistop.

(C) In this district, an SUP may be required for the following accessory uses:

-- Accessory medical/infectious waste incinerator. [See Section 51A-4.217 (3.1).]

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)
(A) **Front yard.** Minimum front yard is 15 feet.

(B) **Side and rear yard.** Minimum side and rear yard is:

(i) 30 feet where adjacent to or directly across an alley from an R, R(A), D, D(A), TH, TH(A), CH, MF, or MF(A) district; and

(ii) no minimum in all other cases.

(C) **Dwelling unit density.** No maximum dwelling unit density.

(D) **Floor area ratio.** Maximum floor area ratio is:

(i) 0.5 for retail and personal service uses;

(ii) 0.75 for any combination of lodging, office, and retail and personal service uses; and

(iii) 1.0 for all uses combined.

(E) **Height.**

(i) **Residential proximity slope.** If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope. **Exception:** Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

(ii) **Maximum height.** Unless further restricted under Subparagraph (i), maximum structure height is 70 feet.

(F) **Lot coverage.** Maximum lot coverage is 80 percent. Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) **Lot size.** No minimum lot size.

(H) **Stories.** Maximum number of stories above grade is five. Parking garages are exempt from this requirement, but must comply with the height regulations of Subparagraph (E).

(5) **Off-street parking and loading.** Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(6) **Environmental performance standards.** See Article VI.

(7) **Landscape regulations.** See Article X.

(8) **Additional provisions.**

(A) **Development impact review.** A site plan must be submitted and approved in accordance with the requirements of Section 51A-4.803 before an application is made for a permit for work in this district if the estimated trip generation for all uses on the lot collectively is equal to or greater than 6,000 trips per day and 500 trips per acre per day. See Table 1 in Section 51A-4.803 to calculate estimated trip generation.

(B) **Visual intrusion.** No portion of any balcony or opening that faces an R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(A), MF-1(SAH), MF-2, MF-2(A), or MF-2(SAH) district may penetrate or be located above a residential proximity slope originating in that district. (See Section 51A-4.412.) For purposes of this paragraph, the term “opening” means an open and unobstructed space or a transparent panel in an exterior wall or door from which there can be visual surveillance into the yard of a residential use.
(c) Industrial/research (IR) district.

(1) Purpose. To provide for research and development, light industrial, office, and supporting commercial uses in an industrial research park setting. This district is not intended to be located in areas of low and medium density residential development.

(2) Main uses permitted.

(A) Agricultural uses.
-- Crop production.

(B) Commercial and business service uses.
-- Building repair and maintenance shop. [RAR]
-- Bus or rail transit vehicle maintenance or storage facility. [RAR]
-- Catering service.
-- Commercial cleaning or laundry plant. [RAR]
-- Custom business services.
-- Custom woodworking, furniture construction, or repair.
-- Electronics service center.
-- Job or lithographic printing. [RAR]
-- Labor hall. [SUP may be required. See Section 51A-4.202(8.1).]
-- Machine or welding shop. [RAR]
-- Machinery, heavy equipment, or truck sales and services. [RAR]
-- Medical or scientific laboratory.
-- Technical school.
-- Tool or equipment rental.
-- Vehicle or engine repair or maintenance.

(C) Industrial uses.
-- Alcoholic beverage manufacturing. [RAR]
-- Gas drilling and production. [SUP]
-- Industrial (inside). [See Section 51A-4.203(b)(1).]
-- Industrial (inside) for light manufacturing.
-- Industrial (outside). [See Section 51A-4.203(b)(2).]
-- Medical/infectious waste incinerator. [SUP]
-- Municipal waste incinerator. [SUP]
-- Organic compost recycling facility. [SUP]
-- Pathological waste incinerator. [SUP]
-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.
-- Adult day care facility.
-- Cemetery or mausoleum. [SUP]
-- Child-care facility.
-- Church.
-- College, university, or seminary.
-- Community service center.
-- Hospital. [RAR]
-- Public or private school. [SUP]

(E) Lodging uses.
-- Extended stay hotel or motel. [SUP]
-- Hotel or motel. [RAR]
-- Lodging or boarding house.
-- Overnight general purpose shelter. [See Section 51A-4.205(2.1).]

(F) Miscellaneous uses.
-- Attached non-premise sign. [SUP]
-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Hazardous waste management facility. [Except when operated as a hazardous waste incinerator.]
-- Temporary construction or sales office.

(G) Office uses.
-- Alternative financial establishment. [SUP]
-- Financial institution without drive-in window.
-- Financial institution with drive-in window. [RAR]
-- Medical clinic or ambulatory surgical center.
-- Office.

(H) Recreation uses.
-- Country club with private membership.
-- Private recreation center, club, or area.
-- Public park, playground, or golf course.

(I) Residential uses.
-- None permitted.

(J) Retail and personal service uses.
-- Alcoholic beverage establishments. [See Section 51A-4.210(b)(4).]
-- Animal shelter or clinic without outside runs.
-- Animal shelter or clinic with outside runs. [SUP may be required. See Section 51A-4.210(b)(2).]
-- Auto service center. [RAR]
-- Business school.
-- Car wash. [RAR]
-- Commercial amusement (inside). [SUP may be required. See Section 51A-4.210(b)(7)(B).]
-- Commercial motor vehicle parking. [By SUP only if within 500 feet of a residential district.]
-- Commercial parking lot or garage. [RAR]
-- Convenience store with drive-through. [SUP]
-- Dry cleaning or laundry store.
-- Furniture store.
-- General merchandise or food store 3,500 square feet or less.
-- Home improvement center, lumber, brick or building materials sales yard. [RAR]
-- Household equipment and appliance repair.
-- Liquefied natural gas fueling station. [By SUP only if the use has more than four fuel pumps or is within 1,000 feet of a residential zoning district or a planned development district that allows residential uses.]
-- Motor vehicle fueling station.
-- Paraphernalia shop. [SUP]
-- Pawn shop.
-- Personal service uses.
§ 51A-4.123 Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.123

-- Restaurant without drive-in or drive-through service. [RAR]
-- Restaurant with drive-in or drive-through service. [DIR]
-- Taxidermist.
-- Temporary retail use.
-- Theater.

-- STOL (short take off or landing) port. [SUP]
-- Transit passenger shelter.
-- Transit passenger station or transfer center. [By SUP or city council resolution. See Section 51A-4.211.]

(L) Utility and public service uses.
-- Commercial radio or television transmitting station.
-- Electrical substation.
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station.
-- Post office.
-- Radio, television, or microwave tower. [RAR]
-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
-- Utility or government installation other than listed. [SUP]

-- Water treatment plant. [SUP]

(M) Wholesale, distribution, and storage uses.
-- Freight terminal. [RAR]
-- Manufactured building sales lot. [RAR]
-- Mini-warehouse.
-- Office showroom/warehouse.
-- Outside storage. [RAR]
-- Recycling buy-back center. [See Section 51A-4.213(11).]
-- Recycling collection center. [See Section 51A-4.213(11.1).]
-- Recycling drop-off container. [See Section 51A-4.213(11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213(11.3).]
-- Trade center.
-- Warehouse. [RAR]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217. The following accessory uses are not permitted in this district:

(A) The following accessory uses are not permitted in this district:

-- Accessory community center (private).
-- Accessory pathological waste incinerator.
-- Home occupation.
-- Private stable.

(B) Reserved.

(C) In this district, an SUP may be required for the following accessory uses:
§ 51A-4.123 Dallas Development Code: Ordinance No. 19455, as amended

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard. Minimum front yard is 15 feet.

(B) Side and rear yard. Minimum side and rear yard is:

   (i) 30 feet where adjacent to or directly across an alley from an R, R(A), D, D(A), TH, TH(A), CH, MF, or MF(A) district; and

   (ii) no minimum in all other cases.

(C) Dwelling unit density. No maximum dwelling unit density.

(D) Floor area ratio. Maximum floor area ratio is:

   (i) 0.5 for retail and personal service uses;

   (ii) 0.75 for any combination of lodging, office, and retail and personal service uses; and

   (iii) 2.0 for all uses combined.

(E) Height.

   (i) Residential proximity slope. If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope. Exception: Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

   (ii) Maximum height. Unless further restricted under Subparagraph (i), maximum structure height is 200 feet.

(F) Lot coverage. Maximum lot coverage is 80 percent. Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) Lot size. No minimum lot size.

(H) Stories. Maximum number of stories above grade is 15. Parking garages are exempt from this requirement, but must comply with the height regulations of Subparagraph (E).

(5) Off-street parking and loading. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

   (A) Development impact review. A site plan must be submitted and approved in accordance with the requirements of Section 51A-4.803 before an application is made for a permit for work in this district if the estimated trip generation for all uses on the lot collectively is equal to or greater than 6,000 trips per day and 500 trips per acre per day. See Table 1 in Section 51A-4.803 to calculate estimated trip generation.

   (B) Visual intrusion. No portion of any balcony or opening that faces an R, R(A), D, D(A), TH,
TH(A), CH, MF-1, MF-1(A), MF-1(SAH), MF-2, MF-2(A), or MF-2(SAH) district may penetrate or be located above a residential proximity slope originating in that district. (See Section 51A-4.412.) For purposes of this paragraph, the term “opening” means an open and unobstructed space or a transparent panel in an exterior wall or door from which there can be visual surveillance into the yard of a residential use.

(d) **Industrial manufacturing (IM) district.**

(1) **Purpose.** To provide for heavy industrial manufacturing uses with accompanying open storage and supporting commercial uses. This district is not intended to be located in or near areas of residential development.

(2) **Main uses permitted.**

(A) **Agricultural uses.**

-- Crop production.

(B) **Commercial and business service uses.**

-- Building repair and maintenance shop. [RAR]
-- Bus or rail transit vehicle maintenance or storage facility. [RAR]
-- Catering service.
-- Commercial cleaning or laundry plant. [RAR]
-- Custom business services.
-- Custom woodworking, furniture construction, or repair.
-- Electronics service center.
-- Job or lithographic printing. [RAR]
-- Labor hall. [SUP may be required. See Section 51A-4.202 (8.1).]
-- Machine or welding shop. [RAR]

-- Machinery, heavy equipment, or truck sales and services. [RAR]
-- Medical or scientific laboratory.
-- Technical school.
-- Tool or equipment rental.
-- Vehicle or engine repair or maintenance. [RAR]

(C) **Industrial uses.**

-- Alcoholic beverage manufacturing. [RAR]
-- Gas drilling and production. [SUP]
-- Gas pipeline compressor station. [SUP]
-- Industrial (inside). [SUP may be required. See Section 51A-4.203(a); otherwise RAR.]
-- Industrial (inside) for light manufacturing.
-- Industrial (outside). [SUP may be required. See Section 51A-4.203(a); otherwise RAR.]
-- Medical/infectious waste incinerator. [SUP]
-- Metal salvage facility. [SUP]
-- Mining. [SUP]
-- Municipal waste incinerator. [SUP]
-- Organic compost recycling facility. [RAR]
-- Outside salvage or reclamation. [SUP]
-- Pathological waste incinerator. [SUP]
-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(3) Accessory uses.  As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217. The following accessory uses are not permitted in this district:

(A) The following accessory uses are not permitted in this district:

-- Accessory community center (private).
-- Accessory pathological waste incinerator.
-- Home occupation.
-- Private stable.

(B) Reserved.

(C) In this district, an SUP may be required for the following accessory uses:

-- Accessory medical/infectious waste incinerator.  [See Section 51A-4.217 (3.1).]

(4) Yard, lot, and space regulations.  (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard.  Minimum front yard is:

(i) 15 feet where adjacent to an expressway or a thoroughfare; and

(ii) no minimum in all other cases.

(B) Side and rear yard.  Minimum side and rear yard is:

(i) 30 feet where adjacent to or directly across an alley from an R, R(A), D, D(A), TH, TH(A), CH, MF, or MF(A) district; and

(ii) no minimum in all other cases.

(C) Dwelling unit density.  No maximum dwelling unit density.

(D) Floor area ratio.  Maximum floor area ratio is:

(i) 0.5 for retail and personal service uses;

(ii) 0.75 for any combination of lodging, office, and retail and personal service uses; and

(iii) 2.0 for all uses combined.

(E) Height.

(i) Residential proximity slope.  If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope. Exception: Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope,
whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

(ii) Maximum height. Unless further restricted under Subparagraph (i), maximum structure height is 110 feet.

(F) Lot coverage. Maximum lot coverage is 80 percent. Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) Lot size. No minimum lot size.

(H) Stories. Maximum number of stories above grade is eight. Parking garages are exempt from this requirement, but must comply with the height regulations of Subparagraph (E).

(5) Off-street parking and loading. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) Development impact review. A site plan must be submitted and approved in accordance with the requirements of Section 51A-4.803 before an application is made for a permit for work in this district if the estimated trip generation for all uses on the lot collectively is equal to or greater than 6,000 trips per day and 500 trips per acre per day. See Table 1 in Section 51A-4.803 to calculate estimated trip generation.

(B) Visual intrusion. No portion of any balcony or opening that faces an R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(A), MF-1(SAH), MF-2, MF-2(A), or MF-2(SAH) district may penetrate or be located above a residential proximity slope originating in that district. (See Section 51A-4.412.) For purposes of this paragraph, the term “opening” means an open and unobstructed space or a transparent panel in an exterior wall or door from which there can be visual surveillance into the yard of a residential use. (Ord. Nos. 19455; 19786; 19806; 19873; 19931; 20242; 20273; 20363; 20382; 20425; 20478; 20625; 20806; 20895; 20902; 20920; 20950; 21002; 21044; 21186; 21259; 21314; 21399; 21442; 21456; 21663; 21735; 22204; 22255; 22392; 22531; 22782; 23735; 24232; 24271; 24543; 24759; 24857; 25056; 25785; 25815; 26269; 26920; 27563; 28079; 28214; 28700; 28737; 28803; 29228; 29917; 30477)

SEC. 51A-4.124. CENTRAL AREA DISTRICTS.

(a) CA-1(A) district.

(1) Purpose. This district is provided to accommodate existing development in the central area of the city, to encourage the most appropriate future use of land, and to prevent the increase of street congestion. This district is hereby designated as an area of historical, cultural, and architectural importance and significance.

(2) Main uses permitted.

(A) Agricultural uses.

-- Crop production.

(B) Commercial and business services uses.

-- Building repair and maintenance shop.
-- Bus or rail transit vehicle maintenance or storage facility.
-- Catering service.
§ 51A-4.124 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-4.124

(C) Industrial uses.

-- Alcoholic beverage manufacturing. [SUP]
-- Gas drilling and production. [SUP]
-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.

-- Adult day care facility.
-- Cemetery or mausoleum. [SUP]
-- Child-care facility.
-- Church.
-- College, university, or seminary.
-- Community service center. [SUP]
-- Convalescent and nursing homes, hospice care, and related institutions.
-- Convent or monastery.
-- Foster home. [SUP]
-- Halfway house. [SUP]
-- Hospital.

(E) Lodging uses.

-- Extended stay hotel or motel. [SUP]
-- Hotel or motel.
-- Lodging or boarding house.
-- Overnight general purpose shelter. [See Section 51A-4.205(2.1).]

(F) Miscellaneous uses.

-- Attached non-premise sign. [SUP]
-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) Office uses.

-- Alternative financial establishment. [SUP]
-- Financial institution without drive-in window.
-- Financial institution with drive-in window. [DIR]
-- Medical clinic or ambulatory surgical center.
-- Office.

(H) Recreation uses.

-- Country club with private membership.

(C) In this district, an SUP may be required for the following accessory uses:

-- Accessory helistop.

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217. In this district, the following accessory use is permitted by SUP only:

(A) Reserved.

(B) In this district, the following accessory use is permitted by SUP only:

-- Accessory medical/infectious waste incinerator. [See Section 51A-4.217 (3.1).]

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard. No minimum front yard.

(B) Side and rear yard.

(i) Minimum side yard is:

(aa) five feet for duplex structures;

(bb) 10 feet for multifamily structures 36 feet or less in height; and

(cc) no minimum in all other cases.

(ii) Minimum rear yard is:

(aa) 10 feet for duplex structures;

(bb) 15 feet for multifamily structures 36 feet or less in height; and

(cc) no minimum in all other cases.

(C) Dwelling unit density. No maximum dwelling unit density.
§ 51A-4.124  Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.124

(D) Floor area ratio.

(i) Maximum floor area ratio is 20.0.

(ii) Reserved. (Repealed by Ord. 20361)

(iii) The maximum floor area ratio in the CA-1(A)-CP and CA-1(A)-SP districts may be increased to 24 to 1 by the use of the building setback bonus provisions in the “additional provisions” [Paragraph (8)] in this subsection.

(E) Height. Maximum structure height is any legal height.

(F) Lot coverage. Maximum lot coverage is 100 percent.

(G) Lot size. No minimum lot size.

(H) Stories. No maximum number of stories.

(5) Off-street parking and loading.

(A) In general. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(B) Special off-street parking provisions.

(i) Except as provided in this section, for all uses except single-family and duplex, off-street parking is only required for a building built after June 26, 1967, or an addition to an existing building, at a ratio of one parking space for each 2,000 square feet of floor area.

(ii) Except as provided in this section, no parking is required for ground-floor retail and personal service uses except for the following:

(aa) Alcoholic beverage establishment operating as a bar, lounge, or tavern.

(bb) Commercial amusement (inside).

(iii) No parking is required for the first 5,000 square feet of ground-floor floor area for a restaurant without drive-in or drive-through service.

(iv) If there is a conflict, this paragraph controls over other off-street parking regulations in this chapter.

(C) Special off-street loading provisions.

(i) In this district, off-street loading spaces must be provided in accordance with Section 51A-4.303(a) for only new structures or additions to an existing structure.

(ii) In this district, once the required off-street loading has been established for a structure, no additional off-street loading is required if the use of the structure changes.

(iii) In this district, once an off-street loading space has been provided, the off-street loading space may not be reduced, eliminated, or made unusable in any manner during the life of the structure.

(iv) In this district, on-street loading spaces may satisfy the off-street loading space requirement subject to the following standards:

(aa) Any on-street loading spaces must be approved by the traffic engineer.

(bb) Required off-street loading spaces furnished on-street must be provided at curbside contiguous to the building site.

(cc) If no adjacent curb space is available due to traffic or transit needs, indented curb space may be provided if the required sidewalk width is maintained.
(dd) All required medium and large loading spaces must be provided off-street.

(ee) Structures meeting Subparagraphs (aa) through (dd) above and requiring seven or more off-street loading spaces may satisfy the off-street loading requirement as follows:

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) Single family structure spacing. In this district, a minimum of 15 feet between each group of eight single family structures must be provided by plat.

(B) Minimum 10-foot setback in CA-1(A)-CP and CA-1(A)-SP districts. In the CA-1(A)-CP and CA-1(A)-SP districts, a 10 foot setback is required that is measured from the street curb as established by the Dallas Central Business District Streets and Vehicular Circulation Plan, Ordinance No. 13262, as amended. When an owner establishes a setback on his property greater than the 10 foot requirement, a floor area bonus of six times the additional setback area is allowed. The maximum permitted floor area ratio with a bonus is 24 to one.

(C) Sidewalk regulations. In this district, a sidewalk must be provided between the back of the street curb and the face of a building at grade in accordance with this subsection. The face of a building is behind the columns for a building with exterior columns.

(i) Average sidewalk width equals the total sidewalk surface area divided by the lineal feet of frontage.

(aa) Each frontage on each blockface must contain the required average sidewalk width.

(bb) The computation of average sidewalk width excludes the area occupied by structural walls or columns.

(cc) In computing average sidewalk width, the surface area at a corner is counted only once.

(ii) In a CA-1(A)-CP district, sidewalks must be constructed and maintained in accordance with the following regulations:

(aa) An average sidewalk width of 18 feet is required.

(bb) A minimum sidewalk width of 12 feet that is unobstructed by any structure or planting is required. The 12 foot minimum sidewalk width may be divided into seven and five foot minimum segments.

(iii) In the CA-1(A)-SP district, sidewalks must be constructed and maintained in accordance with the following regulations:

(aa) A building with a floor area ratio of more than 15 to one is subject to the requirements of the CA-1(A)-CP district in Subparagraph (ii).

(bb) A building with a floor area ratio of 15 to one or less must have an average sidewalk width of 15 feet and a minimum sidewalk width of nine feet that is unobstructed by any structure or planting.

(iv) In a CA-1(A) district without a CP or SP overlay district designation, sidewalks must
be constructed and maintained in accordance with the following regulations:

(aa) A building with a floor area ratio of more than 15 to one is subject to the requirements of the CA-1(A)-CP district in Subparagraph (ii).

(bb) A building with a floor area ratio of 10 to one through 15 to one must have an average sidewalk width of 15 feet and a minimum sidewalk width of nine feet that is unobstructed by any structure.

(cc) All other buildings must provide a minimum sidewalk width of 10 feet with seven feet unobstructed by any structure or planting.

(v) Waiver of sidewalk width requirements. An applicant for a sidewalk width waiver shall submit an application to the director on a form approved by the director and signed by all owners of property abutting the sidewalk. The director shall take into account the needs of pedestrians and the proximity of the sidewalk to intersections and crosswalks, transit stops, parks and playgrounds, and other pedestrian-intensive areas when considering the application. The director may grant a sidewalk waiver if the director finds:

(aa) the potential pedestrian traffic in the area does not warrant the width of the sidewalk required;

(bb) the waiver will facilitate an amenity that promotes pedestrian activity such as sidewalk seating areas, enhanced landscaping, or retail kiosks; or

(cc) there are sufficient alternative pedestrian passageways to accommodate pedestrian traffic in the area.

The granting of a waiver does not preclude the city from requiring compliance with all sidewalk standards at some later time and assessing the abutting owners for the cost of the installation or replacement.

(9) Commercial parking garages and surface parking lots.

(A) Intent. The intent of this paragraph is to create a distinct boundary between public space and private parking facilities, raise the aesthetic standards for parking facilities, and improve the quality of right-of-ways.

(B) Definitions. In this paragraph:

(i) COMMERCIAL PARKING GARAGE means a multistory vehicle parking facility that is operated as a business enterprise by charging a fee for parking.

(ii) CORNER LANDSCAPING AREA means an area of any shape abutting the intersection of two right-of-ways equal to the area on a surface parking lot covered by a triangle formed by connecting together the point of intersection of adjacent right-of-way lines and points on each of the right-of-way lines 12.5 percent of the length of the surface parking lot’s right-of-way frontage from the intersection, but in no case to exceed 225 square feet.

(iii) PARKWAY means the portion of a right-of-way located between the street curb and the property line of an adjoining commercial parking garage or surface parking lot.

(iv) RIGHT-OF-WAY means an area dedicated to public use for pedestrian and vehicular movement, but does not include alleys.

(v) SELF-PARK SPACE means a parking space where a customer parks his vehicle and it remains there until a customer drives it away. It does not include a space where an attendant parks a customer vehicle.

(vi) STRIP LANDSCAPING AREA means an area 1.5 feet in width abutting the parkway...
(or right-of-way if there is no parkway) and extending
the length of the street frontage of a surface parking lot,
excluding the corner landscaping area and openings for
pedestrian and vehicular access.

(vii) SURFACE PARKING LOT
means an at-grade parking lot that is operated as a
business enterprise by charging a fee for parking.

(viii) WROUGHT IRON includes
metal that resembles wrought iron in appearance.

(C) Site plan.

(i) When required. A site plan
must be submitted to and approved by the building
official in accordance with this subparagraph before a
building permit or certificate of occupancy may be
issued.

(ii) Requisites. The site plan must
include the following information:

(aa) The number of existing
and proposed parking spaces on the property.

(bb) The location and
dimensions of the property.

(cc) The location and
dimensions of all existing and proposed off-street
parking and loading areas, parking bays, aisles,
driveways, pedestrian access openings, and attendant
booths.

(dd) The location and type of
all existing and proposed landscaping, fencing, trash
receptacles, lighting, and signs.

(ee) Any other reasonable and
pertinent information that the building official
determines to be necessary for site plan review.

(iii) Development. If a site plan is
approved by the building official, development of the
property must be in accordance with the site plan.

(D) Construction.

(i) Slope. The entire surface of a
surface parking lot may not deviate more than seven
degrees from the horizontal plane. No portion of the
surface may deviate more than 12 degrees from the
horizontal plane.

(ii) Driveways. No more than one
two-way driveway or two one-way driveways may be
maintained for each 300 feet, or fraction thereof, of
frontage of a surface parking lot. This provision does
not require the closure or relocation of driveways

(iii) Pervious surface. The use of
pervious surfacing materials for surface parking lots is
encouraged.

(E) Striping. All self-park spaces must
be clearly and permanently identified by stripes. All
self-park spaces for compact cars must be at least 7.5-
foot wide stalls and must be clearly and permanently
marked “compact car only.” All other self-park spaces
must be at least 8-foot wide stalls. Except as specified
in this provision, these spaces must be provided and
striped in accordance with Section 51A-4.301(d)(1).

(F) Lighting.

(i) Requirement. The following
must be lighted between one-half hour after sunset and
2:30 a.m. and between 6:00 a.m. and one-half hour
before sunrise:

(aa) A surface parking lot.

(bb) The first story of an
above-grade commercial parking garage.

(cc) All other portions of a
commercial parking garage that are accessible to
pedestrians or vehicles during the time between one-
half hour after sunset and one-half hour before sunrise.
(ii) **Intensity.** The intensity of required lighting on the surface where vehicles are parked must be:

(aa) an average of at least two footcandles, initial measurement, and at least one footcandle on a maintained basis; and

(bb) a minimum at any point of at least 0.6 footcandle initial, and at least 0.3 footcandle maintained or one-third of the average footcandle measurement for the lighted area, whichever is greater.

(iii) **Type of fixtures.** Light sources must be indirect, diffused, or shielded-type fixtures, installed to reduce glare and the consequent interference with boundary streets. Bare bulbs or strings of lamps are prohibited.

(iv) **Location of fixtures for surface parking lots.** Fixtures must be attached to buildings or mounted on permanent poles. Fixtures may be located on adjoining property. This requirement does not apply to commercial parking garages.

(v) **Height of fixtures for surface parking lots.** Fixtures on surface parking lots must be at least 20 feet above the lot surface. This requirement does not apply to commercial parking garages.

(vi) **Reconciliation.** This subparagraph controls over Section 51A-4.301(e).

(G) **Trash receptacles.** At least one trash receptacle must be provided for each commercial parking garage or surface parking lot. Trash receptacles must not have a fluorescent color.

(H) **Attendant booths.** An attendant booth may not be constructed of flammable materials or have a fluorescent color.

(I) **Access openings.**

(i) Access openings for surface parking lots may not exceed:

(aa) 30 feet in width for a two-way drive.

(bb) 20 feet in width for a one-way drive.

(cc) 10 feet in width for pedestrian access openings.

(ii) At least one pedestrian access opening must be provided for each commercial parking garage and surface parking lot. The spacing between pedestrian access openings must be from 30 feet to 150 feet.

(iii) This subparagraph does not require the closure or relocation of access openings existing as of January 28, 2004.

(J) **Fencing.**

(i) Fencing must be provided:

(aa) For surface parking lots, along an abutting right-of-way, excluding openings for pedestrian and vehicular access. Fencing may be located behind a corner landscaping area.

(bb) For commercial parking garages, to eliminate openings not intended for pedestrian and vehicular access in the first story above grade where the garage abuts the right-of-way.

(cc) Fencing is not required along a DART right-of-way if DART has provided fencing along the right-of-way.
§ 51A-4.124 Dallas Development Code: Ordinance No. 19455, as amended

(ii) Surface parking lots in the middle of a blockface with buildings on both adjoining lots and less than 100 feet of frontage and all commercial parking garages must have wrought iron fencing.

(iii) All other surface parking lots must have:

(aa) a wrought iron fencing;

(bb) bollards;

(cc) post-and-cable fencing; or

(dd) other fencing that is in keeping with the intent of this paragraph, as determined by the director.

(iv) If a wrought iron fence is provided:

(aa) it must be at least 36 inches in height;

(bb) its bars must be spaced no more than eight inches apart; and

(cc) it may have a foundation that does not exceed twelve inches in height.

(v) If bollards are provided, each bollard must be:

(aa) constructed of concrete, brick or stone;

(bb) at least eight inches in width or diameter;

(cc) at least 30 inches in height;

(dd) no more than seven feet from another bollard, unless connected by a metal chain, in which case they may be no more than nine feet from another bollard.

(vi) If post-and-cable fencing is provided, the posts must:

(aa) be finished metal with caps;

(bb) have a minimum diameter of two and one-half inches;

(cc) be spaced no more than 18 feet apart; and

(dd) be connected with stainless steel tension cable.

(K) Landscaping.

(i) Parkway landscaping requirement for commercial parking garages and surface parking lots. Unless a parkway landscape permit is denied or revoked, one tree or shrub must be provided in the adjoining parkway for each 30 feet along the frontage abutting the right-of-way. This provision does not apply to commercial parking garages or surface parking lots existing as of January 28, 2004.

(ii) Perimeter landscaping requirement for surface parking lots. The corner landscaping area must be planted with a combination of ground cover, shrubs, and trees, or used for kiosks with decorative paving. As used in this subparagraph, “kiosk” means a multi-sided structure for the display of premise and non-premise signs. The strip landscaping area must be planted with a combination of ground cover, shrubs, and trees. Car bumpers may overhang the strip landscaping area.

(iii) Exemption along certain DART right-of-ways. Landscaping is not required along a DART right-of-way if DART has provided landscaping along the right-of-way.

(iv) Exemption for certain small surface parking lots. Landscaping is not required for surface parking lots with a total area of 10,000 square
§ 51A-4.124 Dallas Development Code: Ordinance No. 19455, as amended

feet or less, unless two or more contiguous lots have an aggregate area of 10,000 square feet or more.

(v) Alternative landscape plan. The director may approve an alternative landscape plan only if compliance with this paragraph is not possible, the inability to comply is not self-created, and the alternative landscape plan is in keeping with the intent of this paragraph. An alternative landscape plan may include placement of landscaping in alternative locations. An alternative landscape plan may reduce the square footage of landscape area if additional trees or shrubs are provided.

(vi) Trees. All trees provided must be recommended for local area use by the director. Each tree planted must have a caliper of at least two and one-half inches.

(vii) Shrubs. All shrubs provided must be recommended for local area use by the director. Each shrub provided must be at least 30 inches in height.

(viii) Minimum tree clearance. All portions of a tree above street pavement must be at least thirteen and one-half feet in height.

(ix) Tree grates. Tree grates conforming to state and federal standards and specifications adopted to eliminate, insofar as possible, architectural barriers encountered by aged, handicapped, or disabled persons, and of a size adequate to permit healthy tree growth must be provided for all trees planted within a public sidewalk.

(x) Private license granted. The city council hereby grants a private license to the owners of all commercial parking garages and surface parking lots in this district for the exclusive purpose of authorizing compliance with the parkway landscaping requirements. A property owner is not required to pay an initial or annual fee for this license. This private license shall not terminate at the end of any specific time period, however, the city council retains the right to terminate this license whenever in its judgment the purpose or use of this license is inconsistent with the public use of the right-of-way or whenever the purpose or use of this license is likely to become a nuisance. A property owner is not required to comply with any landscaping requirement of this subparagraph if compliance is made impossible due to the termination of this license. This provision controls over Article VI, “License for Use of Public Right-of-Way,” of Chapter 43, “Streets and Sidewalks,” of this code. Note: This private license does not eliminate the need for a parkway landscape permit or commercial general liability insurance.

(xi) Parkway landscape permit. A parkway landscape permit must be obtained from the director for all landscaping in the parkway.

(aa) An application for a parkway landscape permit must be in writing on a form approved by the director and accompanied by plans or drawings showing the area of the parkway affected and the planting proposed.

(bb) Upon receipt of the application, the director shall circulate it to all affected city departments, utilities, and other franchise holders for review and comment. If, after receiving those comments, the director determines that the construction and planting proposed will not be inconsistent with and will not unreasonably impair the public use of the right-of-way, he shall issue a parkway landscape permit to the property owner; otherwise, he shall deny the permit.

(cc) A parkway landscape permit issued by the director is subject to immediate revocation upon written notice if at any time he determines that the use of the parkway authorized by the permit is inconsistent with or unreasonably impairs the public use of the right-of-way.

(dd) The issuance of a parkway landscape permit under this subparagraph does not excuse the property owner, his agents, or employees from liability in the installation or maintenance of trees or shrubs in the right-of-way.
§ 51A-4.124 Dallas Development Code: Ordinance No. 19455, as amended

(xii) **Xeriscape.** The use of xeriscape is encouraged.

(M) **Compliance.**

(i) All commercial parking garages and surface parking lots in the Central Subdistrict must comply with this paragraph before January 28, 2007. Fencing within the Central Subdistrict is required only when the City Center Tax Increment Financing District finances its installation. As used in this subparagraph, “Central Subdistrict” means the area bounded by Ross Avenue, Pearl Street, Bryan Street, Central Expressway, Live Oak Street, Olive Street, Harwood Street, Young Street, Akard Street, Wood Street, and Griffin Street.

(ii) All commercial parking garages and surface parking lots in the Secondary Subdistrict must comply with this paragraph before January 28, 2009. As used in this subparagraph, “Secondary Subdistrict” means the area with CA-1(A) zoning inside the Central Business District (including property under the freeways), but excluding the Central Subdistrict.

(N) **Maintenance.**

(i) Any improvements required by this paragraph must be properly maintained in a state of good repair and neat appearance at all times.

(ii) Plant materials required by this paragraph must be maintained in a healthy, growing condition at all times.

(O) **Special exception.**

(i) **In general.** The board of adjustment may grant a special exception to any requirement of this paragraph if the board finds, after a public hearing, the special exception will not adversely affect the other properties within the subdistrict and strict compliance with the requirement would result in unnecessary hardship. If the board grants a special exception, it must specify the length of time the special exception is effective.

(ii) **Lighting.** The board shall not grant a special exception to a lighting requirement unless the board also finds, after a public hearing, that the special exception will not compromise the safety of persons using the parking. In determining whether to grant this special exception, the board shall consider:

(aa) the extent to which the parking will be used after dark;

(bb) the crime statistics for the area;

(cc) the extent to which adequate lighting may be provided by light sources located on adjacent property; and

(dd) the extent to which the commercial parking garage or surface parking lot will be secured by fences, gates, and chains.

(b) **CA-2(A) district.**

(1) **Purpose.** This district is provided to accommodate existing development in the central area of the city, to encourage the most appropriate future use of land, and to prevent the increase of street congestion.
§ 51A-4.124 Dallas Development Code: Ordinance No. 19455, as amended

(2) Main uses permitted.

(A) Agricultural uses.
-- Crop production.

(B) Commercial and business services uses.
-- Building repair and maintenance shop.
-- Bus or rail transit vehicle maintenance or storage facility.
-- Catering service.
-- Commercial cleaning or laundry plant.
-- Custom business services.
-- Custom woodworking, furniture construction, or repair.
-- Electronics service center.
-- Job or lithographic printing.
-- Labor hall. [SUP]
-- Medical or scientific laboratory.
-- Technical school.
-- Tool or equipment rental.
-- Vehicle or engine repair or maintenance. [DIR]

(C) Industrial uses.
-- Alcoholic beverage manufacturing. [SUP]
-- Gas drilling and production. [SUP]
-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.
-- Adult day care facility.

(E) Lodging uses.
-- Extended stay hotel or motel. [SUP]
-- Hotel or motel.
-- Lodging or boarding house.
-- Overnight general purpose shelter. [See Section 51A-4.205(2.1).]

(F) Miscellaneous uses.
-- Attached non-premise sign. [SUP]
-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.
(G) Office uses.

-- Alternative financial establishment. [SUP]
-- Financial institution without drive-in window.
-- Financial institution with drive-in window. [DIR]
-- Medical clinic or ambulatory surgical center.
-- Office.

(H) Recreation uses.

-- Country club with private membership.
-- Private recreation center, club, or area.
-- Public park, playground, or golf course.

(I) Residential uses.

-- College dormitory, fraternity or sorority house.
-- Duplex.
-- Group residential facility. [See Section 51A-4.209(3).]
-- Handicapped group dwelling unit. [See Section 51A-4.209(3.1).]
-- Multifamily.
-- Residential hotel.
-- Retirement housing.
-- Single family.

(J) Retail and personal service uses.

-- Alcoholic beverage establishments. [See Section 51A-4.210(b)(4).]
-- Ambulance service.
-- Auto service center.
-- Business school.
-- Commercial amusement (inside). [SUP may be required. See Section 51A-4.210(b)(7)(B).]

(K) Transportation uses.

-- Commercial bus station and terminal. [DIR]
-- Heliport. [SUP]
-- Helistop. [SUP]
-- Private street or alley. [SUP]
-- Railroad passenger station.
Railroad yard, roundhouse, or shops.
-- STOL (short takeoff or landing) port. [SUP]
-- Transit passenger shelter.
-- Transit passenger station or transfer center.

(L) Utility and public service uses.

-- Commercial radio or television transmitting station.
-- Electrical substation.
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station.
-- Post office.
-- Radio, television, or microwave tower.
-- Sewage treatment plant. [SUP]
-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
-- Utility or government installation other than listed.
-- Water treatment plant. [SUP]

(M) Wholesale, distribution, and storage uses.

-- Freight terminal. [DIR]
-- Mini-warehouse.
-- Office showroom/warehouse.
-- Outside storage. [SUP]
-- Recycling buy-back center. [See Section 51A-4.213(11).]
-- Recycling collection center. [See Section 51A-4.213(11.1).]
-- Recycling drop-off container. [See Section 51A-4.213(11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213(11.3).]

Trade center.
-- Warehouse.

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217. In this district, the following accessory use is permitted by SUP only:

(A) Reserved.

(B) In this district, the following accessory use is permitted by SUP only:

-- Accessory helistop.

(C) In this district, an SUP may be required for the following accessory uses:

-- Accessory medical/infectious waste incinerator. [See Section 51A-4.217 (3.1).]

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard. There is no minimum front yard.

(B) Side and rear yard.

(i) Minimum side yard is:

(aa) five feet for duplex structures;

(bb) 10 feet for multifamily structures 36 feet or less in height; and
(cc) no minimum in all other cases.

(ii) Minimum rear yard is:

(aa) 10 feet for duplex structures;

(bb) 15 feet for multifamily structures 36 feet or less in height; and

(cc) no minimum in all other cases.

(C) Dwelling unit density. No maximum dwelling unit density.

(D) Floor area ratio. Maximum floor area ratio is 20.0.

(E) Height. Maximum structure height is any legal height.

(F) Lot coverage. Maximum lot coverage is 100 percent.

(G) Lot size. Minimum lot area per dwelling unit is as follows:

<table>
<thead>
<tr>
<th>TYPE OF STRUCTURE</th>
<th>MINIMUM LOT AREA PER DWELLING UNIT</th>
</tr>
</thead>
<tbody>
<tr>
<td>Single family</td>
<td>1000 sq. ft.</td>
</tr>
<tr>
<td>Duplex</td>
<td>2500 sq. ft.</td>
</tr>
</tbody>
</table>

Multifamily:

No separate bedroom 50 sq. ft.

One bedroom 65 sq. ft.

Two bedrooms 75 sq. ft.

More than two bedrooms (Add this amount for each bedroom over two) 10 sq. ft.

(H) Stories. No maximum number of stories.

(5) Off-street parking and loading. In this district, for all uses except single family and duplex, off-street parking is only required for a building built after June 1, 1981, or an addition to an existing building, at a ratio of one parking space for each 2,000 square feet of floor area which exceeds 5,000 square feet. No off-street parking is required for a building with 5,000 square feet or less of floor area. If there is a conflict, this paragraph controls over other off-street parking regulations in this chapter. Consult the off-street parking and loading regulations (Division 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) Single family structure spacing. In this district, a minimum of 15 feet between each group of eight single family structures must be provided by plat. (Ord. Nos. 19455; 19786; 19806; 19912; 20242; 20273; 20361; 20731; 20752; 20902; 20920; 20950; 21001; 21044; 21259; 21314; 21735; 21960; 22097; 22139; 22204; 22531; 22799; 24232; 24271; 24543; 24857; 25047; 25133; 25487; 25785; 26920; 28073; 28125; 28214; 28272; 28700; 29128; 29917; 30932)

SEC. 51A-4.125. MIXED USE DISTRICTS.

(a) In general. Single or multiple uses may be developed on one site in a mixed use district as in any other district; however, in order to encourage a mixture of uses and promote innovative and energy conscious design, efficient circulation systems, the conservation of land, and the minimization of vehicular travel, density bonuses are awarded to developments that qualify as “mixed use projects” as defined in Subsection (b). If a development does not qualify as an MUP, it is limited to a “base” dwelling unit density and floor area ratio.
When a development qualifies as an MUP, it earns a higher maximum dwelling unit density and floor area ratio and, in some instances, a greater maximum structure height. Additional FAR bonuses are incrementally awarded to encourage the inclusion of “residential” as part of an MUP. The exact increments of increase vary depending on the actual use categories mixed and the district that the MUP is in. For more information regarding the exact increments of increase, consult the yard, lot, and space regulations in this section governing the particular district of interest.

(b) Qualifying as a mixed use project. To qualify as a MIXED USE PROJECT (MUP) for purposes of this section, a development must contain uses in two or more of the following categories, and the combined floor areas of the uses in each category must equal or exceed the following percentages of the total floor area of the project:

<table>
<thead>
<tr>
<th>Use Category</th>
<th>% of Total Floor Area</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lodging</td>
<td>15%</td>
</tr>
<tr>
<td>Office</td>
<td>15%</td>
</tr>
<tr>
<td>Residential</td>
<td>15%</td>
</tr>
<tr>
<td>Retail and personal service</td>
<td>10%</td>
</tr>
</tbody>
</table>

</tr>
</tbody>
</table>

(c) Mixed use project (MUP) regulations.

(1) If an MUP is proposed, a project plan must be submitted to and approved by the building official.

(2) If an MUP is constructed in phases:

(A) the first phase must independently qualify as an MUP under Subsection (b); and

(B) each subsequent phase combined with all previous phases already completed or under construction must also qualify as an MUP under Subsection (b).

(3) An MUP may consist of two or more building sites if they are developed under a unified development plan. The plan must be:

(A) signed by or on behalf of all of the owners of the property involved;

(B) approved by the building official; and

(C) filed in the deed records of the county where the property is located.

(4) When an MUP consists of multiple building sites, its development standards and off-street parking and loading requirements are calculated by combining the sites and treating them as a single building site.
§ 51A-4.125  Dallas Development Code: Ordinance No. 19455, as amended

(d) **MU-1 and MU-1(SAH) districts.**

(1) **Purpose.** To provide for the development of moderate density retail, office, and/or multifamily residential uses in combination on single or contiguous building sites; to encourage innovative and energy conscious design, efficient circulation systems, the conservation of land, and the minimization of vehicular travel. Additionally, the MU-1(SAH) district is created to encourage the provision of affordable housing.

(2) **Main uses permitted.**

(A) **Agricultural uses.**

-- Crop production.

(B) **Commercial and business service uses.**

-- Catering service.
-- Custom business services.
-- Electronics service center.
-- Labor hall. [SUP]
-- Medical or scientific laboratory. [SUP]

(C) **Industrial uses.**

-- Gas drilling and production. [SUP]
-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) **Institutional and community service uses.**

-- Adult day care facility.
-- Cemetery or mausoleum. [SUP]
-- Child-care facility.
-- Church.

-- College, university or seminary.
-- Community service center. [SUP]
-- Convalescent and nursing homes, hospice care, and related institutions. [RAR]
-- Convent or monastery.
-- Foster home.
-- Hospital. [SUP]
-- Library, art gallery, or museum.
-- Open-enrollment charter school or private school. [SUP]
-- Public school other than an open-enrollment charter school. [RAR]

(E) **Lodging uses.**

-- Extended stay hotel or motel. [SUP]
-- Hotel or motel. [RAR] or [SUP] [See Section 51A-4.205(1).]

(F) **Miscellaneous uses.**

-- Attached non-premise sign. [SUP]
-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) **Office uses.**

-- Financial institution without drive-in window.
-- Financial institution with drive-in window. [DIR]
-- Medical clinic or ambulatory surgical center.
§ 51A-4.125  Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.125

-- Office.

(H) Recreation uses.

-- Country club with private membership.
-- Private recreation center, club, or area.
-- Public park, playground, or golf course.

(I) Residential uses.

-- College dormitory, fraternity, or sorority house.
-- Duplex.
-- Group residential facility. [See Section 51A-4.209(3).]
-- Handicapped group dwelling unit. [See Section 51A-4.209 (3.1).]
-- Multifamily.
-- Residential hotel.
-- Retirement housing.
-- Single family.

(J) Retail and personal service uses.

-- Alcoholic beverage establishments. [See Section 51A-4.210(b)(4).]
-- Animal shelter or clinic without outside runs. [RAR]
-- Auto service center. [RAR]
-- Business school.
-- Car wash. [RAR]
-- Commercial amusement (inside). [SUP may be required. See Section 51A-4.210(b)(7)(B).]
-- Commercial amusement (outside). [SUP]
-- Commercial parking lot or garage. [RAR]
-- Dry cleaning or laundry store.
-- Furniture store.
-- General merchandise or food store 3,500 square feet or less.
-- General merchandise or food store greater than 3,500 square feet.
-- General merchandise or food store 100,000 square feet or more. [SUP]
-- Mortuary, funeral home, or commercial wedding chapel.
-- Motor vehicle fueling station.
-- Nursery, garden shop, or plant sales.
-- Paraphernalia shop. [SUP]
-- Personal service uses.
-- Restaurant without drive-in or drive-through service. [RAR]
-- Restaurant with drive-in or drive-through service. [DIR]
-- Swap or buy shop. [SUP]
-- Temporary retail use.
-- Theater.

(K) Transportation uses.

-- Transit passenger shelter.
-- Transit passenger station or transfer center. [By SUP or city council resolution. See Section 51A-4.211.]

(L) Utility and public service uses.

-- Commercial radio or television transmitting station.
-- Electrical substation.
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station.
-- Post office.
-- Radio, television, or microwave tower. [SUP]
-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
§ 51A-4.125 Dallas Development Code: Ordinance No. 19455, as amended

(M) Wholesale, distribution, and storage uses.

-- Mini-warehouse. [SUP]
-- Recycling buy-back center [See Section 51A-4.213 (11).]
-- Recycling collection center. [See Section 51A-4.213 (11.1).]
-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(A) The following accessory uses are not permitted in this district:

-- Private stable.

(B) In this district, the following accessory use is permitted by SUP only:

-- Accessory helistop.

(C) In this district, an SUP may be required for the following accessory uses:

-- Accessory medical/infectious waste incinerator. [See Section 51A-4.217 (3.1).]

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

Except as provided in this paragraph, the following yard, lot, and space regulations apply:

(A) Front yard.

(i) In general. Minimum front yard is 15 feet.

(ii) Urban form setback. An additional 20-foot front yard setback is required for that portion of a structure above 45 feet in height.

(B) Side and rear yard.

(i) In general. Minimum side and rear yard is:

(aa) 20 feet where adjacent to or directly across an alley from an R, R(A), D, D(A), TH, TH(A), CH, MF, or MF(A) district; and

(bb) no minimum in all other cases.

(ii) Tower spacing. An additional side and rear yard setback of one foot for each two feet in height above 45 feet is required for that portion of a structure above 45 feet in height, up to a total setback of 30 feet. This subparagraph does not require a total side or rear yard setback greater than 30 feet.

(C) Dwelling unit density.

(i) MU-1 district. Maximum dwelling unit density varies depending on whether the development is a "mixed use project" as follows:

<table>
<thead>
<tr>
<th>MAXIMUM DWELLING UNIT DENSITY</th>
</tr>
</thead>
<tbody>
<tr>
<td>(dwelling units per net acre)</td>
</tr>
<tr>
<td>---</td>
</tr>
<tr>
<td>Base (No MUP)</td>
</tr>
<tr>
<td>MUP with Mix of 2 Categories</td>
</tr>
<tr>
<td>MUP with Mix of 3 or More Categories</td>
</tr>
<tr>
<td>15</td>
</tr>
<tr>
<td>20</td>
</tr>
<tr>
<td>25</td>
</tr>
</tbody>
</table>
(ii) MU-1(SAH) district. Maximum dwelling unit density varies depending on whether a density bonus is obtained in accordance with Division 51A-4.900 and the development is a "mixed use project" as follows:

MAXIMUM DWELLING UNIT DENSITY
(dwelling units per net acre)

<table>
<thead>
<tr>
<th>Percentage of SAH Units Provided</th>
<th>Base (No MUP)</th>
<th>MUP with Mix of 2 Categories</th>
<th>MUP with Mix of 3 or More Categories</th>
</tr>
</thead>
<tbody>
<tr>
<td>0%</td>
<td>10</td>
<td>15</td>
<td>20</td>
</tr>
<tr>
<td>20%</td>
<td>15</td>
<td>20</td>
<td>25</td>
</tr>
</tbody>
</table>

(D) Floor area ratio. Maximum floor area ratio (FAR) varies depending on whether the development is a "mixed use project" as follows:

[Note: The first column is the base FAR, which applies when there is no MUP. The second column (MUP=2/no Res) is the FAR for an MUP with a mix of two use categories when neither category is "residential." The third column (MUP=2/with Res) is the FAR for an MUP with a mix of "residential" plus one other use category. The fourth column (MUP=3/no Res) is the FAR for an MUP with a mix of three or more use categories, none of which is "residential." The fifth column (MUP=3/with Res) is the FAR for an MUP with a mix of "residential" plus two or more other use categories.]

MAXIMUM FLOOR AREA RATIO

<table>
<thead>
<tr>
<th>Use Categories</th>
<th>Base (no MUP)</th>
<th>MUP=2 (no Res)</th>
<th>MUP=2 (with Res)</th>
<th>MUP=3 (no Res)</th>
<th>MUP=3 (with Res)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lodging</td>
<td>0.8</td>
<td>0.85</td>
<td>0.9</td>
<td>0.85</td>
<td>0.95</td>
</tr>
<tr>
<td>Office</td>
<td>0.8</td>
<td>0.85</td>
<td>0.9</td>
<td>0.85</td>
<td>0.95</td>
</tr>
<tr>
<td>Residential</td>
<td>0.8</td>
<td>---</td>
<td>0.95</td>
<td>---</td>
<td>0.95</td>
</tr>
<tr>
<td>Retail and personal service</td>
<td>0.4</td>
<td>0.5</td>
<td>0.5</td>
<td>0.6</td>
<td>0.6</td>
</tr>
<tr>
<td>TOTAL DEVELOPMENT</td>
<td>0.8</td>
<td>0.9</td>
<td>1.0</td>
<td>1.0</td>
<td>1.1</td>
</tr>
</tbody>
</table>

(E) Height.

(i) Residential proximity slope. If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope. Exception: Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

(ii) Maximum height. Unless further restricted under Subparagraph (i), maximum structure height varies depending on whether the development is a "mixed use project" as follows:

[Note: The first column is the base height, which applies when there is no MUP. The second column (MUP=No Retail) is the height for an MUP with a mix of two use categories when neither category is "retail and personal service." The third column (MUP=with Retail) is the height for an MUP with a mix of "retail and personal service" plus one or more other use categories.]

MAXIMUM STRUCTURE HEIGHT
(in feet)

<table>
<thead>
<tr>
<th>Use Categories</th>
<th>Base (No MUP)</th>
<th>MUP with Mix of 2 Categories (No Retail)</th>
<th>MUP with Mix of 3 or More Categories (with Retail)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>80</td>
<td>90</td>
<td>120</td>
</tr>
</tbody>
</table>

(F) Lot coverage. Maximum lot coverage is 80 percent. Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) Lot size. No minimum lot size.

(H) Stories.

(i) Maximum number of stories above grade is:
(aa) seven when the maximum structure height is 90 feet; and

(bb) nine when the maximum structure height is 120 feet.

(ii) Parking garages are exempt from this requirement, but must comply with the height regulations of Subparagraph (E).

(I) Development bonuses for mixed-income housing. In an MU-1 district, certain regulations vary depending on whether a development bonus is obtained in accordance with Division 51A-4.1100 as follows:

(i) Maximum dwelling unit density. Except as provided in this paragraph, the following density bonuses apply:

<table>
<thead>
<tr>
<th>MVA Category</th>
<th>Minimum Set Aside (3% of total residential units reserved in each income band, adjusted annually)</th>
<th>Additional Maximum Unit Density</th>
</tr>
</thead>
<tbody>
<tr>
<td>Category A, B, C</td>
<td>5% at Income band 3; 5% at Income band 2; 5% at Income band 1</td>
<td>65 per acre; 80 per acre; 105 per acre</td>
</tr>
<tr>
<td>Category D, E, F</td>
<td>5% at Income band 2; 10% at Income band 2; 5% at Income band 1</td>
<td>65 per acre; 80 per acre; 105 per acre</td>
</tr>
<tr>
<td>Categories G, H, I</td>
<td>5% at Income band 1</td>
<td>105 per acre</td>
</tr>
</tbody>
</table>

(ii) Residential proximity slope. In addition to the items listed in Section 51A-4.408(a)(2)(A), the following additional items may project through the residential proximity slope to a height not to exceed the maximum structure height, or four feet above the slope, whichever is less:

(aa) railings;

(bb) parapet walls;

(cc) trellises; and

(dd) structures such as wind barriers, wing walls, and patio dividing walls.

(iii) Floor area ratio. In calculating the maximum floor area ratios in Subparagraph (D), residential uses are not included.

(iv) Developments with transit proximity. For developments with transit proximity as defined in Section 51A-4.1102, an additional bonus of 15 dwelling units is allowed and the maximum lot coverage is 85 percent.
(5) **Off-street parking and loading.** Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(6) **Environmental performance standards.** See Article VI.

(7) **Landscape regulations.** See Article X.

(8) **Additional provisions.**

   (A) **Development impact review.** A site plan must be submitted and approved in accordance with the requirements of Section 51A-4.803 before an application is made for a permit for work in this district if the estimated trip generation for all uses on the lot collectively is equal to or greater than 6,000 trips per day and 500 trips per acre per day. See Table 1 in Section 51A-4.803 to calculate estimated trip generation.

   (B) **Visual intrusion.** No portion of any balcony or opening that faces an R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(SAH), MF-1(A), MF-2, MF-2(A), or MF-2(SAH) district may penetrate or be located above a residential proximity slope which originates in that district. (See Section 1A-4.412.) For purposes of this paragraph, the term “opening” means an open and unobstructed space or a transparent panel in an exterior wall or door from which there can be visual surveillance into the yard of a residential use.

   (e) **MU-2 and MU-2(SAH) districts.**

   (1) **Purpose.** To provide for the development of medium density retail, office, hotel, and/or multifamily residential uses in combination on single or contiguous building sites; to encourage innovative and energy conscious design, efficient circulation systems, the conservation of land, and the minimization of vehicular travel. Additionally, the MU-2(SAH) district is created to encourage the provision of affordable housing.

   (2) **Main uses permitted.**

      (A) **Agricultural uses.**

         -- Crop production.

      (B) **Commercial and business services uses.**

         -- Catering service.
         -- Custom business services.
         -- Electronics service center.
         -- Labor hall. [SUP]
         -- Medical or scientific laboratory.
         -- Tool or equipment rental.

      (C) **Industrial uses.**

         -- Gas drilling and production. [SUP]
         -- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

      (D) **Institutional and community service uses.**

         -- Adult day care facility.
         -- Cemetery or mausoleum. [SUP]
         -- Child-care facility.
         -- Church.
         -- College, university or seminary.
         -- Community service center. [SUP]
         -- Convalescent and nursing homes, hospice care, and related institutions. [RAR]
         -- Convent or monastery.
         -- Foster home.
         -- Halfway house. [SUP]
         -- Hospital. [SUP]
§ 51A-4.125 Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.125

-- Library, art gallery, or museum.
-- Open-enrollment charter school or private school. [SUP]
-- Public school other than an open-enrollment charter school. [RAR]

(E) Lodging uses.
-- Extended stay hotel or motel. [SUP]
-- Hotel or motel. [RAR]
-- Overnight general purpose shelter. [See Section 51A-4.205(2.1).]

(F) Miscellaneous uses.
-- Attached non-premise sign. [SUP]
-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) Office uses.
-- Alternative financial establishment. [SUP]
-- Financial institution without drive-in window.
-- Financial institution with drive-in window. [DIR]
-- Medical clinic or ambulatory surgical center.
-- Office.

(H) Recreation uses.
-- Country club with private membership.
-- Private recreation center, club, or area.
-- Public park, playground, or golf course.

(I) Residential uses.
-- College dormitory, fraternity, or sorority house.
-- Duplex.
-- Group residential facility. [See Section 51A-4.209(3).]
-- Multifamily.
-- Residential hotel.
-- Retirement housing.

(J) Retail and personal service uses.
-- Alcoholic beverage establishments. [See Section 51A-4.210(b)(4).]
-- Animal shelter or clinic without outside runs. [RAR]
-- Auto service center. [RAR]
-- Business school.
-- Car wash. [RAR]
-- Commercial amusement (inside). [SUP may be required. See Section 51A-4.210(b)(7)(B).]
-- Commercial amusement (outside). [SUP]
-- Commercial parking lot or garage. [RAR]
-- Convenience store with drive-through. [SUP]
-- Dry cleaning or laundry store.
-- Furniture store.
-- General merchandise or food store 3,500 square feet or less.
-- General merchandise or food store greater than 3,500 square feet.
-- General merchandise or food store greater than 3,500 square feet.
§ 51A-4.125 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-4.125

-- General merchandise or food store 100,000 square feet or more. [SUP]
-- Household equipment and appliance repair.
-- Liquor store.
-- Mortuary, funeral home, or commercial wedding chapel.
-- Motor vehicle fueling station.
-- Nursery, garden shop, or plant sales.
-- Paraphernalia shop. [SUP]
-- Personal service uses.
-- Restaurant without drive-in or drive-through service. [RAR]
-- Restaurant with drive-in or drive-through service. [DIR]
-- Swap or buy shop. [SUP]
-- Temporary retail use.
-- Theater.

(K) Transportation uses.
-- Helistop. [SUP]
-- Railroad passenger station. [SUP]
-- Transit passenger shelter.
-- Transit passenger station or transfer center. [By SUP or city council resolution. See Section 51A-4.211.]

(L) Utility and public service uses.
-- Commercial radio or television transmitting station.
-- Electrical substation.
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station.
-- Post office.
-- Radio, television, or microwave tower. [SUP]

-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
-- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.
-- Mini-warehouse. [SUP]
-- Recycling buy-back center [See Section 51A-4.213 (11).]
-- Recycling collection center. [See Section 51A-4.213 (11.1).]
-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(A) The following accessory uses are not permitted in this district:
-- Private stable.

(B) In this district, the following accessory use is permitted by SUP only:
-- Accessory helistop.

(C) In this district, an SUP may be required for the following accessory uses:
-- Accessory medical/infectious waste incinerator. [See Section 51A-4.217 (3.1).]
§ 51A-4.125 Dallas Development Code: Ordinance No. 19455, as amended § 51A-4.125

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

Except as provided in this paragraph, the following yard, lot, and space regulations apply.

(A) Front yard.

(i) In general. Minimum front yard is 15 feet.

(ii) Urban form setback. An additional 20-foot front yard setback is required for that portion of a structure above 45 feet in height.

(B) Side and rear yard.

(i) In general. Minimum side and rear yard is:

(aa) 20 feet where adjacent to or directly across an alley from an R, R(A), D, D(A), TH, TH(A), CH, MF, or MF(A) district; and

(bb) no minimum in all other cases.

(ii) Tower spacing. An additional side and rear yard setback of one foot for each two feet in height above 45 feet is required for that portion of a structure above 45 feet in height up to a total setback of 30 feet. This subparagraph does not require a total side or rear yard setback greater than 30 feet.

(C) Dwelling unit density.

(i) MU-2 district. Maximum dwelling unit density varies depending on whether the development is a "mixed use project" as follows:

<table>
<thead>
<tr>
<th>Percentage of SAH Units Provided</th>
<th>Base (No MUP)</th>
<th>MUP with Mix of 2 Categories</th>
<th>MUP with Mix of 3 or More Categories</th>
</tr>
</thead>
<tbody>
<tr>
<td>0%</td>
<td>30</td>
<td>45</td>
<td>60</td>
</tr>
<tr>
<td>5%</td>
<td>33</td>
<td>50</td>
<td>65</td>
</tr>
<tr>
<td>10%</td>
<td>37</td>
<td>55</td>
<td>70</td>
</tr>
<tr>
<td>15%</td>
<td>42</td>
<td>60</td>
<td>75</td>
</tr>
<tr>
<td>20%</td>
<td>50</td>
<td>75</td>
<td>100</td>
</tr>
</tbody>
</table>

(ii) MU-2(SAH) district. Maximum dwelling unit density varies depending on whether a density bonus is obtained in accordance with Division 51A-4.900 and whether the development is a "mixed use project" as follows:

<table>
<thead>
<tr>
<th>Percentage of SAH Units Provided</th>
<th>Base (No MUP)</th>
<th>MUP with Mix of 2 Categories</th>
<th>MUP with Mix of 3 or More Categories</th>
</tr>
</thead>
<tbody>
<tr>
<td>0%</td>
<td>30</td>
<td>45</td>
<td>60</td>
</tr>
<tr>
<td>5%</td>
<td>33</td>
<td>50</td>
<td>65</td>
</tr>
<tr>
<td>10%</td>
<td>37</td>
<td>55</td>
<td>70</td>
</tr>
<tr>
<td>15%</td>
<td>42</td>
<td>60</td>
<td>75</td>
</tr>
<tr>
<td>20%</td>
<td>50</td>
<td>75</td>
<td>100</td>
</tr>
</tbody>
</table>

(D) Floor area ratio. Maximum floor area ratio (FAR) varies depending on whether the development is a "mixed use project" as follows:

[Note: The first column is the base FAR, which applies when there is no MUP. The second column (MUP=2/no Res) is the FAR for an MUP with a mix of two use categories when neither category is "residential." The third column (MUP=2/with Res) is the FAR for an MUP with a mix of "residential" plus one other use category. The fourth column (MUP=3/no Res) is the FAR for an MUP with a mix of three or more use categories, none of which is "residential." The fifth column (MUP=3/with Res) is the FAR for an MUP with a mix of "residential" plus two or more other use categories.]
(E) Height.

(i) Residential proximity slope. If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope. Exception: Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

(ii) Maximum height. Unless further restricted under Subparagraph (i), maximum structure height varies depending on whether the development is a “mixed use project” as follows:

[Note: The first column is the base height, which applies when there is no MUP. The second column (MUP/no Retail) is the height for an MUP with a mix of two use categories when neither category is “retail and personal service.” The third column (MUP/with Retail) is the height for an MUP with a mix of “retail and personal service” plus one or more other use categories.]

(F) Lot coverage. Maximum lot coverage is 80 percent. Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) Lot size. No minimum lot size.

(H) Stories.

(i) Maximum number of stories above grade is:

(aa) 10 when the maximum structure height is 135 feet; and

(bb) 14 when the maximum structure height is 180 feet.

(ii) Parking garages are exempt from this requirement, but must comply with the height regulations of Subparagraph (E).

(I) Development bonuses for mixed-income housing. In an MU-2 district, certain regulations vary depending on whether a development bonus is obtained in accordance with Division 51A-4.1100 as follows:

(i) Maximum dwelling unit density. Except as provided in this paragraph, the following density bonuses apply:
§ 51A-4.125 Dallas Development Code: Ordinance No. 19455, as amended

Set aside minimums (% of total residential units reserved in each income band, adjusted annually)

Additional Maximum Unit Density:

51A-4.125e(4)(C), plus:

- MVA Categories A, B, C
  - 5% at Income band 3
  - 5% at Income band 3; and
  - 5% at Income band 2
  - 5% at Income band 3;
  - 5% at Income band 2; and
  - 5% at Income band 1
  - 40 per acre
  - 60 per acre
  - 80 per acre

- MVA Categories D, E, F
  - 5% at Income band 2
  - 10% at Income band 2;
  - 10% at Income band 2; and
  - 5% at Income band 1
  - 35 per acre
  - 55 per acre
  - 75 per acre

- MVA Categories G, H, I
  - 5% at Income band 1
  - 75 per acre

(ii) Residential proximity slope. In addition to the items listed in Section 51A-4.408 (a)(2)(A), the following additional items may project through the residential proximity slope to a height not to exceed the maximum structure height, or four feet above the slope, whichever is less:

(aa) railings;

(bb) parapet walls;

(cc) trellises; and

(dd) structures such as wind barriers, wing walls, and patio dividing walls.

(iii) Floor area ratio. In calculating the maximum floor area ratios in Subparagraph (D), residential uses are not included.

(iv) Developments with transit proximity. For developments with transit proximity as defined in Section 51A-4.1102, an additional bonus of 15 dwelling units is allowed and the maximum lot coverage is 85 percent.

(5) Off-street parking and loading. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) Development impact review. A site plan must be submitted and approved in accordance with the requirements of Section 51A-4.803 before an application is made for a permit for work in this district if the estimated trip generation for all uses on the lot collectively is equal to or greater than 6,000 trips per day and 500 trips per acre per day. See Table 1 in Section 51A-4.803 to calculate estimated trip generation.

(B) Visual intrusion. No portion of any balcony or opening that faces an R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(A), MF-1(SAH), MF-2, MF-2(A), or MF-2(SAH) district may penetrate or be located above a residential proximity slope which originates in that district. (See Section 51A-4.412.) For purposes of this paragraph, the term "opening" means an open and unobstructed space or a transparent panel in an exterior wall or door from which there can be visual surveillance into the yard of a residential use.
§ 51A-4.125  Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.125

(f)  MU-3 and MU-3(SAH) districts.

(1) Purpose.  To provide for the development of high density retail, office, hotel, and/or multifamily residential uses in combination on single or contiguous building sites; to encourage innovative and energy conscious design, efficient circulation systems, the conservation of land, and the minimization of vehicular travel. Additionally, the MU-3(SAH) district is created to encourage the provision of affordable housing.

(2) Main uses permitted.

(A) Agricultural uses.

-- Crop production.

(B) Commercial and business service uses.

-- Catering service.
-- Custom business services.
-- Electronics service center.
-- Labor hall. [SUP]
-- Medical or scientific laboratory.
-- Tool or equipment rental.

(C) Industrial uses.

-- Gas drilling and production. [SUP]
-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.

-- Adult day care facility.
-- Cemetery or mausoleum. [SUP]
-- Child-care facility.
-- Church.

-- College, university or seminary.
-- Community service center. [SUP]
-- Convalescent and nursing homes, hospice care, and related institutions. [RAR]
-- Convent or monastery.
-- Foster home.
-- Halfway house. [SUP]
-- Hospital. [RAR]
-- Library, art gallery, or museum.
-- Open-enrollment charter school or private school. [SUP]
-- Public school other than an open-enrollment charter school. [RAR]

(E) Lodging uses.

-- Extended stay hotel or motel. [SUP]
-- Hotel or motel. [RAR]
-- Overnight general purpose shelter. [See Section 51A-4.205(2.1).]

(F) Miscellaneous uses.

-- Attached non-premise sign. [SUP]
-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) Office uses.

-- Alternative financial establishment. [SUP]
-- Financial institution without drive-in window.
§ 51A-4.125 Dallas Development Code: Ordinance No. 19455, as amended § 51A-4.125

-- Financial institution with drive-in window. [DIR]
-- Medical clinic or ambulatory surgical center.
-- Office.

(H) Recreation uses.

-- Country club with private membership.
-- Private recreation center, club, or area.
-- Public park, playground, or golf course.

(I) Residential uses.

-- College dormitory, fraternity or sorority house.
-- Duplex.
-- Group residential facility. [See Section 51A-4.209(3).]
-- Multifamily.
-- Residential hotel.
-- Retirement housing.

(J) Retail and personal service uses.

-- Alcoholic beverage establishments. [See Section 51A-4.210(b)(4).]
-- Animal shelter or clinic without outside runs. [RAR]
-- Auto service center. [RAR]
-- Business school.
-- Car wash. [RAR]
-- Commercial amusement (inside). [SUP may be required. See Section 51A-4.210(b)(7)(B).]
-- Commercial amusement (outside). [SUP]
-- Commercial parking lot or garage. [RAR]
-- Convenience store with drive-through. [SUP]
-- Dry cleaning or laundry store.

-- Furniture store.
-- General merchandise or food store 3,500 square feet or less.
-- General merchandise or food store greater than 3,500 square feet.
-- General merchandise or food store 100,000 square feet or more. [SUP]
-- Household equipment and appliance repair.
-- Liquor store.
-- Mortuary, funeral home, or commercial wedding chapel.
-- Motor vehicle fueling station.
-- Nursery, garden shop, or plant sales.
-- Paraphernalia shop. [SUP]
-- Personal service uses.
-- Restaurant without drive-in or drive-through service. [RAR]
-- Restaurant with drive-in or drive-through service. [DIR]
-- Swap or buy shop. [SUP]
-- Temporary retail use.
-- Theater.

(K) Transportation uses.

-- Heliport. [SUP]
-- Helistop. [SUP]
-- Railroad passenger station. [SUP]
-- Transit passenger shelter.
-- Transit passenger station or transfer center. [By SUP or city council resolution. See Section 51A-4.211.]

(L) Utility and public service uses.

-- Commercial radio or television transmitting station.
-- Electrical substation.
§ 51A-4.125  Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.125

-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station.
-- Post office.
-- Radio, television, or microwave tower. [SUP]
-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
-- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.

-- Mini-warehouse. [SUP]
-- Office showroom/warehouse.
-- Recycling buy-back center. [See Section 51A-4.213 (11).]
-- Recycling collection center. [See Section 51A-4.213 (11.1).]
-- Recycling drop-off container. [See Section 51A-4.213 (11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]
-- Trade center.

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(A) The following accessory use is not permitted in this district:

-- Private stable.

(B) Reserved.

(C) In this district, an SUP may be required for the following accessory uses:

-- Accessory medical/infectious waste incinerator. [See Section 51A-4.217 (3.1).]

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

Except as provided in this paragraph, the following yard, lot, and space regulations apply:

(A) Front yard.

(i) In general. Minimum front yard is 15 feet.

(ii) Urban form setback. An additional 20-foot front yard setback is required for that portion of a structure above 45 feet in height.

(B) Side and rear yard.

(i) In general. Minimum side and rear yard is:

(aa) 20 feet where adjacent to or directly across an alley from an R, R(A), D, D(A), TH, TH(A), CH, MF, or MF(A) district; and

(bb) no minimum in all other cases.

(ii) Tower spacing. An additional side and rear yard setback of one foot for each two feet in height above 45 feet is required for that portion of a structure above 45 feet in height up to a total setback of 30 feet. This subparagraph does not require a total side or rear yard setback greater than 30 feet.
§ 51A-4.125  Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.125

(C) Dwelling unit density.

(i) MU-3 district. No maximum dwelling unit density.

(ii) MU-3(SAH) district. Maximum dwelling unit density varies depending on whether a density bonus is obtained in accordance with Division 51A-4.900 and whether the development is a "mixed use project" as follows:

<table>
<thead>
<tr>
<th>Percentage of SAH Units Provided</th>
<th>Base (No MUP)</th>
<th>MUP with Mix of 2 Categories</th>
<th>MUP with Mix of 3 Categories</th>
</tr>
</thead>
<tbody>
<tr>
<td>0%</td>
<td>50</td>
<td>50</td>
<td>50</td>
</tr>
<tr>
<td>5%</td>
<td>53</td>
<td>55</td>
<td>55</td>
</tr>
<tr>
<td>10%</td>
<td>57</td>
<td>60</td>
<td>60</td>
</tr>
<tr>
<td>15%</td>
<td>62</td>
<td>65</td>
<td>65</td>
</tr>
<tr>
<td>20%</td>
<td>NO MAXIMUM</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

(D) Floor area ratio. Maximum floor area ratio (FAR) varies depending on whether the development is a "mixed use project" as follows:

[Note: The first column is the base FAR, which applies when there is no MUP. The second column (MUP=2/no Res) is the FAR for an MUP with a mix of two use categories when neither category is "residential." The third column (MUP=2/with Res) is the FAR for an MUP with a mix of "residential" plus one other use category. The fourth column (MUP=3/no Res) is the FAR for an MUP with a mix of three or more use categories, none of which is "residential." The fifth column (MUP=3/with Res) is the FAR for an MUP with a mix of "residential" plus two or more other use categories.]

(E) Height.

(i) Residential proximity slope. If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope. Exception: Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

(ii) Maximum height. Unless further restricted under Subparagraph (i), maximum structure height is 270 feet.

(F) Lot coverage. Maximum lot coverage is 80 percent. Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) Lot size. No minimum lot size.

(H) Stories. Maximum number of stories above grade is 20. Parking garages are exempt from this requirement, but must comply with the height regulations of Subparagraph (E).

(I) Development bonuses for mixed-income housing. In an MU-3 district, certain regulations vary depending on whether a development bonus is obtained in accordance with Division 51A-4.1100 as follows:
(i) **Maximum floor area bonuses and lot coverage.** Except as provided in this paragraph, the following floor area bonuses and lot coverage requirements apply:

<table>
<thead>
<tr>
<th>MVA Categories</th>
<th>Set aside minimums (% of total residential units reserved in each income band, adjusted annually)</th>
<th>Floor Area Ratio: 51A-4.125(f)(4)(D), plus:</th>
<th>Maximum Lot coverage (residential)</th>
</tr>
</thead>
<tbody>
<tr>
<td>A, B, C</td>
<td>5% at Income band 3; 5% at Income band 3; and 5% at Income band 2; 5% at Income band 3; 5% at Income band 2 and 5% at Income band 1</td>
<td>1.0</td>
<td>80%</td>
</tr>
<tr>
<td>D, E, F</td>
<td>5% at Income band 2; 10% at Income band 2; 10% at Income band 2 and 5% at Income band 1</td>
<td>2.0</td>
<td>85%</td>
</tr>
<tr>
<td>G, H, I</td>
<td>5% at Income band 1</td>
<td>3.0</td>
<td>85%</td>
</tr>
</tbody>
</table>

(ii) **Residential proximity slope.** In addition to the items listed in Section 51A-4.408 (a)(2)(A), the following additional items may project through the residential proximity slope to a height not to exceed the maximum structure height, or four feet above the slope, whichever is less:

(aa) railings;

(bb) parapet walls;

(cc) trellises; and

(dd) structures such as wind barriers, wing walls, and patio dividing walls.

(iii) **Floor area ratio.** The floor area ratio bonuses in this paragraph are limited to residential uses only.

(iv) **Developments with transit proximity.** For developments with transit proximity as defined in Section 51A-4.1102, the maximum floor area ratio is increased by 1.0 above the FAR allowed in this section (for example: if the allowed FAR for a mixed use project is 4.0 and a development bonus of 1.5 is utilized, this transit proximity bonus allows an FAR of 6.5) and the maximum lot coverage is 90 percent.

(5) **Off-street parking and loading.** Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(6) **Environmental performance standards.** See Article VI.

(7) **Landscape regulations.** See Article X.
§ 51A-4.125 Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.126

(8) Additional provisions.

(A) Development impact review. A site plan must be submitted and approved in accordance with the requirements of Section 51A-4.803 before an application is made for a permit for work in this district if the estimated trip generation for all uses on the lot collectively is equal to or greater than 6,000 trips per day and 500 trips per acre per day. See Table 1 in Section 51A-4.803 to calculate estimated trip generation.

(B) Visual intrusion. No portion of any balcony or opening that faces an R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(A), MF-1(SAH), MF-2, MF-2(A), or MF-2(SAH) district may penetrate or be located above a residential proximity slope which originates in that district. (See Section 51A-4.412.) For purposes of this paragraph, the term “opening” means an open and unobstructed space or a transparent panel in an exterior wall or door from which there can be visual surveillance into the yard of a residential use. (Ord. Nos. 19455; 19786; 19808; 19912; 19931; 20237; 20242; 20273; 20380; 20382; 20625; 20895; 20902; 20920; 20928; 20950; 21002; 21044; 21259; 21314; 21399; 21400; 21442; 21663; 21735; 21796; 22139; 22204; 22531; 22782; 24232; 24271; 24543; 24857; 25785; 25815; 26920; 27572; 28079; 28214; 30477; 31152)

SEC. 51A-4.126. MULTIPLE COMMERCIAL DISTRICTS.

(a) In general. Single or multiple uses may be developed on one site in a multiple commercial district as in any other district; however, in order to encourage a mixture of uses, density bonuses are awarded to developments that qualify as “multiple commercial projects” as defined in Subsection (b). If a development does not qualify as an MCP, it is limited to a “base” floor area ratio. When a development qualifies as an MCP, it earns a higher maximum floor area ratio. For more information regarding the exact increments of increase, consult the yard, lot, and space regulations in this section governing the particular district of interest.

(b) Qualifying as a multiple commercial project. To qualify as a MULTIPLE COMMERCIAL PROJECT (MCP) for purposes of this section, a development must contain uses in two or more of the following categories, and the combined floor areas of the uses in each category must equal or exceed the following percentages of the total floor area of the project:

<table>
<thead>
<tr>
<th>Use Category</th>
<th>% of Total Floor Area</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lodging</td>
<td>15%</td>
</tr>
<tr>
<td>Office</td>
<td>15%</td>
</tr>
<tr>
<td>Retail and personal service</td>
<td>10%</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Use Category</th>
<th>% of Total Floor Area</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lodging</td>
<td>10%</td>
</tr>
<tr>
<td>Office</td>
<td>15%</td>
</tr>
<tr>
<td>Retail and personal service</td>
<td>5%</td>
</tr>
</tbody>
</table>

(c) Multiple commercial project (MCP) regulations.

(1) If an MCP is proposed, a project plan must be submitted to and approved by the building official.

(2) If an MCP is constructed in phases:

(A) the first phase must independently qualify as an MCP under Subsection (b); and

(B) each subsequent phase combined with all previous phases already completed or under
[Intentionally left blank]
Construction must also qualify as an MCP under Subsection (b).

(3) An MCP may consist of two or more building sites if they are developed under a unified development plan. The plan must be:

(A) signed by or on behalf of all of the owners of the property involved;

(B) approved by the building official; and

(C) filed in the deed records of the county where the property is located.

(4) When an MCP consists of multiple building sites, its development standards and off-street parking regulations are calculated by combining the sites and treating them as a single building site.

(d) MC-1 district.

(1) Purpose. To provide for the development of moderate density lodging, office, and retail uses in or adjacent to a residential community where development options need to remain flexible, and where a moderate density mixed use development having a residential component could adversely impact the community.

(2) Main uses permitted.

(A) Agricultural uses.

-- Crop production.

(B) Commercial and business service uses.

-- Catering service.
-- Custom business services.
-- Electronics service center.
-- Labor hall. [SUP]
-- Medical or scientific laboratory. [SUP]

(C) Industrial uses.

-- Gas drilling and production. [SUP]
-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.

-- Adult day care facility.
-- Cemetery or mausoleum. [SUP]
-- Child-care facility.
-- Church.
-- College, university, or seminary.
-- Community service center. [SUP]
-- Convent or monastery.
-- Hospital. [SUP]
-- Library, art gallery, or museum.
-- Open-enrollment charter school or private school. [SUP]
-- Public school other than an open-enrollment charter school. [RAR]

(E) Lodging uses.

-- Extended stay hotel or motel. [SUP]
-- Hotel or motel. [RAR] or [SUP] [See Section 51A-4.205(1).]
-- Overnight general purpose shelter. [See Section 51A-4.205(2.1).]
§ 51A-4.126 Dallas Development Code: Ordinance No. 19455, as amended § 51A-4.126

(F) Miscellaneous uses.

-- Attached non-premise sign. [SUP]
-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) Office uses.

-- Alternative financial establishment. [SUP]
-- Financial institution without drive-in window.
-- Financial institution with drive-in window. [DIR]
-- Medical clinic or ambulatory surgical center.
-- Office.

(H) Recreation uses.

-- Country club with private membership.
-- Private recreation center, club, or area.
-- Public park, playground, or golf course.

(I) Residential uses.

-- College dormitory or fraternity or sorority house.

(J) Retail and personal service uses.

-- Alcoholic beverage establishments. [See Section 51A-4.210(b)(4).]
-- Animal shelter or clinic without outside runs. [RAR]
-- Auto service center. [RAR]
-- Business school.

-- Commercial amusement (inside). [SUP may be required. See Section 51A-4.210(b)(7)(B).]
-- Commercial amusement (outside). [SUP]
-- Commercial parking lot or garage. [RAR]
-- Convenience store with drive-through. [SUP]
-- Dry cleaning or laundry store.
-- Furniture store.
-- General merchandise or food store 3,500 square feet or less.
-- General merchandise or food store greater than 3,500 square feet.
-- General merchandise or food store 100,000 square feet or more. [SUP]
-- Mortuary, funeral home, or commercial wedding chapel.
-- Motor vehicle fueling station.
-- Nursery, garden shop, or plant sales.
-- Personal service use.
-- Restaurant without drive-in or drive-through service. [RAR]
-- Restaurant with drive-in or drive-through service. [DIR]
-- Swap or buy shop. [SUP]
-- Temporary retail use.
-- Theater.

(K) Transportation uses.

-- Transit passenger shelter.
-- Transit passenger station or transfer center. [By SUP or city council resolution. See Section 51A-4.211.]

(L) Utility and public service uses.

-- Commercial radio or television transmitting station.
§ 51A-4.126  Dallas Development Code: Ordinance No. 19455, as amended

-- Electrical substation.
-- Local utilities.  [SUP or RAR may be required.  See Section 51A-4.212(4).]
-- Police or fire station.
-- Post office.
-- Radio, television, or microwave tower. [SUP]
-- Tower/antenna for cellular communication.  [See Section 51A-4.212(10.1).]
-- Utility or government installation other than listed.  [SUP]

(M) Wholesale, distribution, and storage uses.

-- Mini-warehouse.  [SUP]
-- Recycling buy-back center.  [See Section 51A-4.213 (11).]
-- Recycling collection center.  [See Section 51A-4.213 (11.1).]
-- Recycling drop-off container.  [See Section 51A-4.213 (11.2).]
-- Recycling drop-off for special occasion collection.  [See Section 51A-4.213 (11.3).]

(3) Accessory uses. Generally speaking, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(A) The following accessory uses are not permitted in this district:

-- Accessory community center (private).
-- Home occupation.
-- Private stable.

(B) The following accessory use is permitted by SUP only:

-- Accessory helistop.

(C) In this district, an SUP may be required for the following accessory uses:

-- Accessory medical/infectious waste incinerator.  [See Section 51A-4.217 (3.1).]

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(A) Front yard.

(i) Minimum front yard is 15 feet.

(ii) Urban form setback. An additional 20-foot front yard setback is required for that portion of a structure above 45 feet in height.

(B) Side and rear yard.

(i) Minimum side and rear yard is:

(aa) 20 feet where adjacent to or directly across an alley from an R, R(A), D, D(A), TH, TH(A), CH, MF, or MF(A) district; and

(bb) no minimum in all other cases.

(ii) Tower spacing. An additional side and rear yard setback of one foot for each two feet in height above 45 feet is required for that portion of a structure above 45 feet in height, up to a total setback of 30 feet. This subparagraph does not require a total side or rear yard setback greater than 30 feet.
(C) Dwelling unit density. Not applicable.

(D) Floor area ratio. Maximum floor area ratio (FAR) varies depending on whether the development is a “multiple commercial project” as follows:

[Note: The first column is the base FAR, which applies when there is no MCP. The second column is the FAR for an MCP with a mix of two use categories. The third column is the FAR for an MCP with a mix of three or more use categories.]

(E) Height.

(i) Residential proximity slope. If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope. Exception: Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

(ii) Maximum height. Unless further restricted under Subparagraph (i), maximum structure height is 70 feet.

(F) Lot coverage. Maximum lot coverage is 80 percent. Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) Lot size. No minimum lot size.

(H) Stories. Maximum number of stories above grade is five. Parking garages are exempt from this requirement, but must comply with the height regulations of Subparagraph (E).

(5) Off-street parking and loading. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) Development impact review. A site plan must be submitted and approved in accordance with the requirements of Section 51A-4.803 before an application is made for a permit for work in this district if the estimated trip generation for all uses on the lot collectively is equal to or greater than 6,000 trips per day and 500 trips per acre per day. See Table 1 in Section 51A-4.803 to calculate estimated trip generation.

(B) Visual intrusion. No portion of any balcony or opening that faces an R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(A), MF-1(SAH), MF-2, MF-2(A), or MF-2(SAH) district may penetrate or be located above a residential proximity slope which originates in that district. (See Section 51A-4.412.) For purposes of this paragraph, the term “opening” means an open and unobstructed space or a transparent panel in an exterior wall or door from which there can be visual surveillance into the yard of a residential use.
(e) **MC-2 district.**

(1) **Purpose.** To provide for the development of moderate density lodging, office, and retail uses adjacent to a residential community where development options need to remain flexible, and where a moderate density mixed use development having a residential component could adversely impact the community.

(2) **Main uses permitted.**

(A) **Agricultural uses.**

-- Crop production.

(B) **Commercial and business service uses.**

-- Catering service.
-- Custom business services.
-- Electronics service center.
-- Labor hall. [SUP]
-- Medical or scientific laboratory. [SUP]

(C) **Industrial uses.**

-- Gas drilling and production. [SUP]
-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) **Institutional and community service uses.**

-- Adult day care facility.
-- Cemetery or mausoleum. [SUP]
-- Child-care facility.
-- Church.
-- College, university, or seminary.

-- Community service center. [SUP]
-- Convent or monastery.
-- Hospital. [SUP]
-- Library, art gallery, or museum.
-- Open-enrollment charter school or private school. [SUP]
-- Public school other than an open-enrollment charter school. [RAR]

(E) **Lodging uses.**

-- Extended stay hotel or motel. [SUP]
-- Hotel or motel. [RAR] or [SUP] [See Section 51A-4.205(1).]
-- Overnight general purpose shelter. [See Section 51A-4.205(2.1).]

(F) **Miscellaneous uses.**

-- Attached non-premise sign. [SUP]
-- Carnival or circus (temporary). [By special authorization of the building official.]
-- Temporary construction or sales office.

(G) **Office uses.**

-- Alternative financial establishment. [SUP]
-- Financial institution without drive-in window.
-- Financial institution with drive-in window. [DIR]
-- Medical clinic or ambulatory surgical center.
-- Office.
§ 51A-4.126 Dallas Development Code: Ordinance No. 19455, as amended § 51A-4.126

(H) Recreation uses.

-- Country club with private membership.
-- Private recreation center, club, or area.
-- Public park, playground, or golf course.

(I) Residential uses.

-- College dormitory or fraternity or sorority house.

(J) Retail and personal service uses.

-- Alcoholic beverage establishments. [See Section 51A-4.210(b)(4).]
-- Animal shelter or clinic without outside runs. [RAR]
-- Auto service center. [RAR]
-- Business school.
-- Car wash. [RAR]
-- Commercial amusement (inside). [SUP may be required. See Section 51A-4.210(b)(7)(B).]
-- Commercial amusement (outside). [SUP]
-- Commercial parking lot or garage. [RAR]
-- Convenience store with drive-through. [SUP]
-- Dry cleaning or laundry store.
-- Furniture store.
-- General merchandise or food store 3,500 square feet or less.
-- General merchandise or food store greater than 3,500 square feet.
-- General merchandise or food store 100,000 square feet or more. [SUP]
-- Household equipment and appliance repair.
-- Liquor store.
-- Mortuary, funeral home, or commercial wedding chapel.
-- Motor vehicle fueling station.
-- Nursery, garden shop, or plant sales.
-- Personal service use.
-- Restaurant without drive-in or drive-through service. [RAR]
-- Restaurant with drive-in or drive-through service. [DIR]
-- Swap or buy shop. [SUP]
-- Temporary retail use.
-- Theater.

(K) Transportation uses.

-- Helistop. [SUP]
-- Railroad passenger station. [SUP]
-- Transit passenger shelter.
-- Transit passenger station or transfer center. [By SUP or city council resolution. See Section 51A-4.211.]

(L) Utility and public service uses.

-- Commercial radio or television transmitting station.
-- Electrical substation.
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station.
-- Post office.
-- Radio, television, or microwave tower. [SUP]
-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
-- Utility or government installation other than listed. [SUP]
(M) Wholesale, distribution, and storage uses.
   -- Mini-warehouse. [SUP]
   -- Recycling buy-back center. [See Section 51A-4.213 (11.1).]
   -- Recycling collection center. [See Section 51A-4.213 (11.1).]
   -- Recycling drop-off container. [See Section 51A-4.213 (11.2).]
   -- Recycling drop-off for special occasion collection. [See Section 51A-4.213 (11.3).]

(3) Accessory uses. Generally speaking, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(A) The following accessory uses are not permitted in this district:
   -- Accessory community center (private).
   -- Home occupation.
   -- Private stable.

(B) The following accessory use is permitted by SUP only:
   -- Accessory helistop.

(C) In this district, an SUP may be required for the following accessory uses:
   -- Accessory medical/infectious waste incinerator. [See Section 51A-4.217 (3.1).]

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

   (A) Front yard.
      (i) Minimum front yard is 15 feet.
      (ii) Urban form setback. An additional 20-foot front yard setback is required for that portion of a structure above 45 feet in height.

   (B) Side and rear yard.
      (i) Minimum side and rear yard is:
         (aa) 20 feet where adjacent to or directly across an alley from an R, R(A), D, D(A), TH, TH(A), CH, MF, or MF(A) district; and
         (bb) no minimum in all other cases.
      (ii) Tower spacing. An additional side and rear yard setback of one foot for each two feet in height above 45 feet is required for that portion of a structure above 45 feet in height up to a total setback of 30 feet. This subparagraph does not require a total side or rear yard setback greater than 30 feet.

   (C) Dwelling unit density. Not applicable.

   (D) Floor area ratio. Maximum floor area ratio (FAR) varies depending on whether the development is a “multiple commercial project” as follows:

[Note: The first column is the base FAR, which applies when there is no MCP. The second column is the FAR for an MCP with a mix of two use categories. The third column is the FAR for an MCP with a mix of three or more use categories.]

(E) **Height.**

(i) **Residential proximity slope.** If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope. Exception: Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

(ii) **Maximum height.** Unless further restricted under Subparagraph (i), maximum structure height is 90 feet.

(F) **Lot coverage.** Maximum lot coverage is 80 percent. Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) **Lot size.** No minimum lot size.

(H) **Stories.** Maximum number of stories above grade is seven. Parking garages are exempt from this requirement, but must comply with the height regulations of Subparagraph (E).

(5) **Off-street parking and loading.** Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(6) **Environmental performance standards.** See Article VI.

(7) **Landscape regulations.** See Article X.

(8) **Additional provisions.**

(A) **Development impact review.** A site plan must be submitted and approved in accordance with the requirements of Section 51A-4.803 before an application is made for a permit for work in this district if the estimated trip generation for all uses on the lot collectively is equal to or greater than 6,000 trips per day and 500 trips per acre per day. See Table 1 in Section 51A-4.803 to calculate estimated trip generation.

(B) **Visual intrusion.** No portion of any balcony or opening that faces an R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(A), MF-1(SAH), MF-2, MF-2(A), or MF-2(SAH) district may penetrate or be located above a residential proximity slope which originates in that district. (See Section 51A-4.412.) For purposes of this paragraph, the term “opening” means an open and unobstructed space or a transparent panel in an exterior wall or door from which there can be visual surveillance into the yard of a residential use.

(f) **MC-3 and MC-4 districts.**

(1) **Purpose.** To provide for the development of medium density lodging, office, and retail uses in areas where a medium density mixed use development having a residential component could adversely impact a residential community.

(2) **Main uses permitted.**

(A) **Agricultural uses.**

-- Crop production.
§ 51A-4.126 Dallas Development Code: Ordinance No. 19455, as amended

(B) Commercial and business service uses.
   -- Catering service.
   -- Custom business services.
   -- Electronics service center.
   -- Labor hall. [SUP]
   -- Medical or scientific laboratory.
   -- Tool or equipment rental.

(C) Industrial uses.
   -- Gas drilling and production. [SUP]
   -- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.
   -- Adult day care facility.
   -- Cemetery or mausoleum. [SUP]
   -- Child-care facility.
   -- Church.
   -- College, university, or seminary.
   -- Community service center. [SUP]
   -- Convent or monastery.
   -- Hospital. [SUP]
   -- Library, art gallery, or museum.
   -- Open-enrollment charter school or private school. [SUP]
   -- Public school other than an open-enrollment charter school. [RAR]

(E) Lodging uses.
   -- Extended stay hotel or motel. [SUP]
   -- Hotel or motel. [RAR] or [SUP] [See Section 51A-4.205(1).]
   -- Overnight general purpose shelter. [See Section 51A-4.205(2.1).]

(F) Miscellaneous uses.
   -- Attached non-premise sign. [SUP]
   -- Carnival or circus (temporary). [By special authorization of the building official.]
   -- Temporary construction or sales office.

(G) Office uses.
   -- Alternative financial establishment. [SUP]
   -- Financial institution without drive-in window.
   -- Financial institution with drive-in window. [DIR]
   -- Medical clinic or ambulatory surgical center.
   -- Office.

(H) Recreation uses.
   -- Country club with private membership.
   -- Private recreation center, club, or area.
   -- Public park, playground, or golf course.
§ 51A-4.126 Dallas Development Code: Ordinance No. 19455, as amended

(I) Residential uses.

-- College dormitory or fraternity or sorority house.

(J) Retail and personal service uses.

-- Alcoholic beverage establishments. [See Section 51A-4.210(b)(4).]
-- Ambulance service. [RAR]
-- Animal shelter or clinic without outside runs. [RAR]
-- Auto service center. [RAR]
-- Business school.
-- Car wash. [RAR]
-- Commercial amusement (inside). [SUP may be required. See Section 51A-4.210(b)(7)(B).]
-- Commercial amusement (outside). [SUP]
-- Commercial parking lot or garage. [RAR]
-- Convenience store with drive-through. [SUP]
-- Dry cleaning or laundry store.
-- Furniture store.
-- General merchandise or food store 3,500 square feet or less.
-- General merchandise or food store greater than 3,500 square feet.
-- General merchandise or food store 100,000 square feet or more. [SUP]
-- Household equipment and appliance repair.
-- Liquor store.
-- Mortuary, funeral home, or commercial wedding chapel.
-- Motor vehicle fueling station.
-- Nursery, garden shop, or plant sales.
-- Personal service use.
-- Restaurant without drive-in or drive-through service. [RAR]
-- Restaurant with drive-in or drive-through service. [DIR]
-- Swap or buy shop. [SUP]
-- Temporary retail use.
-- Theater.

(K) Transportation uses.

-- Heliport. [SUP]
-- Helistop. [SUP]
-- Railroad passenger station. [SUP]
-- Transit passenger shelter.
-- Transit passenger station or transfer center. [By SUP or city council resolution. See Section 51A-4.211.]

(L) Utility and public service uses.

-- Commercial radio or television transmitting station.
-- Electrical substation.
-- Local utilities. [SUP or RAR may be required. See Section 51A-4.212(4).]
-- Police or fire station.
-- Post office.
-- Radio, television, or microwave tower. [SUP]
-- Tower/antenna for cellular communication. [See Section 51A-4.212(10.1).]
-- Utility or government installation other than listed. [SUP]

(M) Wholesale, distribution, and storage uses.

-- Mini-warehouse. [SUP]
-- Recycling buy-back center [See Section 51A-4.213 (11).]
-- Recycling collection center. [See Section 51A-4.213 (11.1).]
(3) **Accessory uses.** As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(A) The following accessory uses are not permitted in these districts:

- Accessory community center (private).
- Home Occupation.
- Private stable.

(B) The following accessory use is permitted by SUP only:

- Accessory helistop.

(C) In these districts, an SUP may be required for the following accessory uses:

- Accessory medical/infectious waste incinerator. [See Section 51A-4.217 (3.1).]

(4) **Yard, lot, and space regulations.** (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, Division 51A-4.400 controls.)

(E) Height.

(i) Residential proximity slope. If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope. Exception: Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

(ii) Maximum height. Unless further restricted under Subparagraph (i), maximum structure height is:

(aa) 115 feet in the MC-3 district; and

(bb) 135 feet in the MC-4 district.

(F) Lot coverage. Maximum lot coverage is 80 percent. Aboveground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) Lot size. No minimum lot size.

(H) Stories.

(i) Maximum number of stories above grade:

(aa) 9 in the MC-3 district; and

(bb) 10 in the MC-4 district.

(ii) Parking garages are exempt from this requirement, but must comply with the height regulations of Subparagraph (E).

(5) Off-street parking and loading. Consult the use regulations (Division 51A-4.200) for the specific off-street parking requirements for each use. Consult the off-street parking and loading regulations (Divisions 51A-4.300 et seq.) for information regarding off-street parking and loading generally.

(6) Environmental performance standards. See Article VI.

(7) Landscape regulations. See Article X.

(8) Additional provisions.

(A) Development impact review. A site plan must be submitted and approved in accordance with the requirements of Section 51A-4.803 before an application is made for a permit for work in this district if the estimated trip generation for all uses on the lot collectively is equal to or greater than 6,000 trips per day and 500 trips per acre per day. See Table 1 in Section 51A-4.803 to calculate estimated trip generation.
§ 51A-4.126 Dallas Development Code: Ordinance No. 19455, as amended

(B) Visual intrusion. No portion of any balcony or opening that faces an R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(A), MF-1(SAH), MF-2, MF-2(A), or MF-2(SAH) district may penetrate or be located above a residential proximity slope which originates in that district. (See Section 51A-4.412.) For purposes of this paragraph, the term “opening” means an open and unobstructed space or a transparent panel in an exterior wall or door from which there can be visual surveillance into the yard of a residential use. (Ord. Nos. 19786; 19806; 19808; 19873; 20242; 20273; 20380; 20382; 20625; 20895; 20902; 20920; 20950; 21002; 21044; 21259; 21314; 21399; 21400; 21442; 21663; 21735; 21796; 22204; 22531; 22782; 24232; 24271; 24543; 24857; 25785; 25815; 26920; 28079; 28214)

SEC. 51A-4.127. URBAN CORRIDOR DISTRICTS.

(a) In general. A minimum of two land uses must be developed on a lot in an urban corridor district, with one use being residential use above street level. Density bonuses are awarded to lots that have parking structures. Parking requirements are reduced for lots that have linkages to transit and have a high level of pedestrian amenities. There are three types of urban corridor districts, differing principally in their density and height allowances: UC-1, UC-2, and UC-3. The urban corridor district regulations apply to all frontages of the lot, except where otherwise specified.

(b) Qualifying a segment of a street as an urban corridor.

(1) Urban corridor requirements. A segment of street must have all of the following characteristics to be an urban corridor:

(A) A minimum outside lane width of 10 feet.

(B) A road composition that supports buses.

(C) No speed bumps.

(D) A minimum turning radius of 50 feet.

(E) A minimum overhead clearance of 11 feet.

(2) Community collectors and arterial streets. An urban corridor segment of street must be built in accordance with the city’s thoroughfare plan, and must be the following type of thoroughfare for each urban corridor district:

(A) UC-1: community collector or four- or six-lane arterial.

(B) UC-2: four- or six-lane arterial.

(C) UC-3: six-lane arterial.

(3) State highways. A UC-1, UC-2, or UC-3 district may exist along a segment of a state highway designated by the Texas Department of Transportation if the segment has all of the characteristics required for an urban corridor, and the department determines the frontage to be safe (based on vehicular traffic speed and volume) for the level of pedestrian traffic expected for the type of urban corridor district requested.

(4) Ineligible streets. Interstate highways, freeways, expressways, and their frontage roads are ineligible streets for urban corridors.

(c) UC districts.

(1) Purpose. To encourage medium density mixed use development with a required above-grade residential component, pedestrian-friendly site design, and an urban street character, in order to increase pedestrian traffic, reduce vehicular traffic, promote innovative use of space, promote energy efficient design, conserve land, and accommodate a range of compatible land uses through appropriate site design.

Dallas City Code
187
§ 51A-4.127 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-4.127

(2) Main uses permitted.

(A) Agricultural uses.

-- Crop production.

(B) Commercial and business service uses.

-- Catering service.
-- Custom business services.
-- Electronics service center.
-- Job or lithographic printing.
-- Medical or scientific laboratory. [SUP]

(C) Industrial uses.

-- Gas drilling and production. [SUP]
-- Temporary concrete or asphalt batching plant. [By special authorization of the building official.]

(D) Institutional and community service uses.

-- Adult day care facility.
-- Child-care facility.
-- Church.
-- College, university, or seminary.
-- Community service center. [SUP]
-- Convalescent and nursing homes, hospice care, and related institutions.
-- Convent or monastery.
-- Hospital. [SUP]
-- Library, art gallery, or museum.
-- Open enrollment charter school or private school. [SUP]

-- Public school other than open enrollment charter school. [RAR]

(E) Lodging uses.

-- None permitted.

(F) Miscellaneous uses.

-- Temporary construction or sales office.

(G) Office uses.

-- Alternative financial establishment. [SUP in UC-2 and UC-3 only.]
-- Financial institution without drive-in window.
-- Medical clinic or ambulatory surgical center.
-- Office.

(H) Recreation uses.

-- Private recreation center, club, or area. [UC-2 and UC-3 only.]
-- Public park, playground, or golf course. [DIR]

(I) Residential uses.

-- College dormitory, fraternity, or sorority house. [SUP]
-- Group residential facility. [SUP]
-- Handicapped group dwelling unit. [SUP]
-- Multifamily.
-- Retirement housing. [SUP]
(J) Retail and personal service uses.

-- Alcoholic beverage establishments. [See Section 51A-4.210(b)(4).]
-- Animal shelter or clinic without outside runs.
-- Business school. [UC-2 and UC-3 only.]
-- Commercial amusement (inside). [UC-2 and UC-3 only. SUP may be required. See Section 51A-4.210 (b)(7)(B).]
-- Commercial parking lot or garage.
-- Dry cleaning or laundry store without drive-in or drive-through service.
-- Furniture store.
-- General merchandise or food store 3,500 square feet or less.
-- General merchandise or food store greater than 3,500 square feet [UC-2 and UC-3 only.]
-- General merchandise or food store 100,000 square feet or more. [SUP]
-- Household equipment and appliance repair.
-- Nursery, garden shop, or plant sales.
-- Personal service uses.
-- Restaurant without drive-in or drive-through service.
-- Temporary retail use.
-- Theater [DIR required. This use is limited to a theater with less than 1,000 seats. See Section 51A-4.210(b)(30).]

(K) Transportation uses.

-- Transit passenger shelter.

(L) Utility and public service uses.

-- Local utilities.
-- Police or fire station.
-- Post office.
-- Mounted cellular antenna. [UC-3 only.]
-- Utility or other government installation other than listed.

(M) Wholesale, distribution, and storage uses.

-- Recycling drop-off container. [See Section 51A 4.213(11.2).]
-- Recycling drop-off for special occasion collection. [See Section 51A-4.213(11.3).]

(3) Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(A) The following accessory uses are not permitted in these districts:

-- Accessory helistop.
-- Accessory medical/infectious waste incinerator.
-- Accessory outside storage.
-- Accessory pathological waste incinerator.
-- Amateur communication tower.
-- Day home.
-- General waste incinerator.
-- Private stable.

(B) The following accessory uses are permitted in these districts by SUP only:
§ 51A-4.127 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-4.127 Dallas Development Code: Ordinance No. 19455, as amended

-- Accessory community center (private).
-- Pedestrian skybridges.

(4) Yard, lot, and space regulations. (Note: The yard, lot, and space regulations in this subsection must be read together with the yard, lot, and space regulations contained in Division 51A-4.400. In the event of a conflict between this subsection and Division 51A-4.400, this subsection controls.)

(A) Front yard.

(i) There is no minimum front yard.

(ii) The maximum front yard is the smallest possible distance that meets the requirements for buffer zone and pedestrian zone in the curb-to-building area, except for any area in the front yard that meets the qualifications for a pedestrian plaza in Subparagraph (iii) below. See Subsection (c)(8)(B) for details about the curb-to-building area.

(iii) Part of the front yard may be used for a pedestrian plaza. A plaza may have a maximum depth of 50 feet (measured perpendicular from the frontage to the opposite side of the plaza) and a maximum length (measured along the side of the plaza parallel to the frontage) of 20 percent of the length of the building along the frontage.

(iv) Urban form setback. An additional front yard setback of one foot for each two feet in height above 55 feet is required for that portion of a building above 55 feet in height.

(B) Side and rear yard.

(i) No side yard is required on a side of the lot that is adjacent to a central area, mixed use, or urban corridor district; however, if a side yard is provided, it must be at least five feet wide.

(ii) The minimum side yard is 10 feet on any side of a lot where that side of the lot is directly across a street 64 feet or less in width from, or is directly across an alley from, an R, R(A), D, D(A), TH, TH(A), or CH district, or where part of a structure on that side of the lot is within 330 feet of an R, R(A), D, D(A), TH, TH(A), or CH district.

(iii) The minimum side yard is five feet in all other cases.

(iv) The minimum rear yard is 10 feet in UC-1, and 15 feet in UC-2 and UC-3.

(C) Dwelling unit density.

(i) The minimum number of dwelling units per acre is 10 in UC-1; 35 in UC-2; and 45 in UC-3.

(ii) The minimum dwelling unit area is 500 square feet.

(D) Floor area ratio.

(i) The maximum floor area ratio without any bonuses is 0.6 in UC-1; 0.85 in UC-2; and 1.0 in UC-3.

(ii) The maximum floor area ratio with a bonus for having an above-grade parking structure is 1.8 in UC-1; 3.0 in UC-2; and 4.0 in UC-3.

(iii) The maximum floor area ratio with a bonus for having a below-grade parking structure is 2.0 in UC-1; 3.6 in UC-2; and 4.5 in UC-3.

(E) Height.

(i) The maximum structure height without any bonuses is 30 feet in UC-1; 40 feet in UC-2; and 55 feet in UC-3.

(ii) The maximum structure height with a bonus for having an above- or below-grade parking structure is 55 feet in UC-1; 80 feet in UC-2; and 100 feet in UC-3.
(iii) Residential proximity slope. If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope. Exception: Except for chimneys, structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less. Chimneys may project through the slope to a height 12 feet above the slope and 12 feet above the maximum structure height.

(F) Lot coverage. The maximum lot coverage is 80 percent. Above-ground parking structures are included in lot coverage calculations; surface parking lots and underground parking structures are not.

(G) Lot size. There is no minimum lot size.

(H) Stories.

(i) The minimum number of stories above street level is two in UC-1; three in UC-2; and four in UC-3.

(ii) The maximum number of stories above street level with bonuses for an above- or below-street-level parking structure is four in UC-1; six in UC-2; and eight in UC-3.

(5) Off-street parking and loading. The off-street parking requirements in Division 51A-4.200 and the off-street parking and loading regulations in Division 51A-4.300 apply, except as follows:

(A) Multifamily use parking requirements. One parking space is required per 500 square feet of multifamily dwelling unit floor area on the lot, up to a maximum of two parking spaces per dwelling unit.

(B) Parking reductions. A lot located within 500 feet of a bus stop on a DART bus route, or a shuttle bus route connecting to a DART light rail station, with a minimum headway, i.e. the scheduled time interval between the arrival of successive same-route buses, trains, or other vehicles used for public transportation at a passenger stop, of 10 minutes during peak hours and 30 minutes during non-peak hours as these times are set by DART, shall be granted reductions of four percent of total parking requirements for each additional pedestrian amenity type provided in excess of the minimum amenities required [See Subsection (c)(8)(D) for pedestrian amenities rules], up to a maximum 20 percent reduction. If parking reduction is sought, bicycle parking must be provided as an amenity type. The additional pedestrian amenities must be provided within the curb-to-building area and must serve to enhance the pedestrian pathways from building entrances on the lot to transit stops. These parking reductions do not apply to uses that already have parking exemptions based on delta theory. [See Subsection 51A-4.704(b)(4)(A) for delta theory parking regulations.]

(C) On-street parallel parking. On-street parallel parking spaces adjacent to the lot provided on community collectors or four-lane arterials count toward off-street parking requirements. Notwithstanding the foregoing, nothing in this section shall abrogate the authority granted to the city’s traffic engineer by Chapter 28 of the Dallas City Code to regulate traffic, including parking, on public streets.

(D) Shared parking. Shared parking is required for all nonresidential uses on the lot. The utilization rates in the following table provide the basis for calculation of parking spaces required with shared parking. The adjusted standard off street parking requirement for the development is the largest of the five “time-of-day” column sums.
§ 51A-4.127  Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.127

(6) Environmental performance standards. See Article VI.

(7) Landscape and open space provisions.

(A) In general. See Article X. Section 51A-10.126 does not apply, and Subsections (b)(2) and (b)(4) of Section 51A-10.125 are superseded by this subsection. All private licensing requirements must be met.

(B) Parking lot screening. Except as otherwise provided, all requirements of Section 51A-4.301(f) apply to parking lots and parking structures in urban corridor districts, and to remote parking lots and parking structures serving a building in an urban corridor district. A five-foot-wide landscaped strip must be located along any edge of the parking lot or parking structure that is visible at grade level from a street or alley, in accordance with the following provisions:

(i) Small trees must be located every 15 feet, or fraction thereof, or clustered every 30 feet, within the landscaped strip. A small tree must have a minimum caliper width of three inches, with the exception of multi-trunk trees, which may have a minimum caliper width of two inches per trunk.

(ii) A continuous row of large evergreen shrubs must be located in the landscaped strip.

(iii) For every four rows of parking, parking lots must contain at least one interior landscaped strip of at least 15 linear feet that is planted with ground cover, shrubbery of 24-36 inches in height, and at least one large tree.

(iv) Fences may complement but not substitute for parking lot trees and shrubbery screening.

(v) Covered parking may substitute for trees and shrubbery in the interior of the parking area, but not for those required along its perimeter. Covered parking may not replace shrubbery or substitute for trees that provide buffering between parking lots or parking structures and the street.

(C) Screening of off-street loading spaces.

(i) All off-street loading spaces must be screened from all public streets adjacent to the lot.

(ii) Screening of all off-street loading spaces must be at least six feet high.

(iii) Garbage storage areas must be visually screened on all sides by a brick, stone, or concrete masonry, stucco, concrete, or wood wall or fence. Screening is not required on a side adjacent to an alley or easement used for garbage pick-up service. Trellises or other coverings must be used to screen the top of garbage storage areas.

(D) Street trees. A small street tree must be provided for every 50 feet of frontage, with a minimum of two trees per lot. A small tree must have a minimum caliper width of three inches, with the exception of multi-trunk trees which may have a minimum caliper width of two inches per trunk. Street trees must be located in the buffer zone between the street curb and the sidewalk. If the buffer zone is located in the public right-of-way, street trees must be located in the public right-of-way. The city arborist recommends the following list of trees as being most
suitable for planting in the buffer zone in all urban corridor districts, and the city strongly encourages the use of these trees in the buffer zone:

(i) Japanese Maple, *Acer palmatum*.

(ii) Eastern Redbud, *Cercis canadensis*.

(iii) *Thornless Cockspur Hawthorne*, *Crataegus crus-galli* ‘*inermis*.’

(iv) Thornless Honeylocust, *Gleditsia triacanthos* var. *inermis*.

(v) Possumhaw Holly, *Ilex decidua*.

(vi) Yaupon Holly, *Ilex vomitoria*.

(vii) Eastern Red Cedar, *Juniperus virginia*.

(viii) *Eldarica*, Mondell, or Afghan Pine, *Pinus eldarica*.

(ix) Austrian or Black Pine, *Pinus nigra*.

(xi) Chinese Pistachio, *Pistacia chinensis*.

(xii) Mexican Plum, *Prunus mexicana*.

(xiii) Western Soapberry, *Sapindus drumondii*.

(xiv) Eve’s Necklace, *Sophora affinis*.

(xv) Rusty Blackhaw, *Vibernum rufidulum*.

(E) **Tree grates.** Any tree within 18 inches of a curb must be protected by a tree grate.

(F) **Permeable surface area.** A minimum of 10 percent of the lot area must be open space in the form of permeable surfaces such as perimeter landscape buffer strip, recreation area, or conservation area. Discrete open space areas smaller than 25 square feet or less than 5 feet wide, and landscaping in the public right-of-way, are not counted towards this 10 percent requirement.

(8) **Site design requirements.**

(A) **Land use placement.**

(i) **Off-street parking.** Parking is permitted on any level of a building, but no part of any parking area or parking structure may front on an urban corridor or be located directly across a street 64 feet or less in width from, or be directly across an alley from, an R, R(A), D, D(A), TH, TH(A), or CH district, or be within 330 feet of an R, R(A), D, D(A), TH, TH(A), or CH district. The length of any portion of a parking lot or structure that is visible at grade-level from a street may not exceed 24 feet.

(ii) **Street level uses.** Residential uses are not permitted at street-level along an urban corridor frontage.

(iii) Residential uses are the only uses permitted at street level along frontages that are not on an urban corridor and:

(aa) the frontage is directly across a street 64 feet or less in width from, or is directly across an alley from, an R, R(A), D, D(A), TH, TH(A), or CH district; or

(bb) any part of a structure on that frontage is within 330 feet of an R, R(A), D, D(A), TH, TH(A), or CH district.

(iv) **Uses above street level.** Residential uses are the only uses permitted on all
levels above street level, except that adult daycare uses, child-care facility uses, and office uses that are accessory to street-level uses in the building are permitted on the second level of a building that has three or more levels.

(B) Curb-to-building area. The area between the curb and the building line must meet the following standards:

(i) It must have a width of 10 feet in a UC-1 district; 12 feet in a UC-2 district; and 15 feet in a UC-3 district.

(ii) Where public right-of-way provides insufficient space, the curb-to-building area must be provided on private property until the prescribed width is met.

(iii) It must include a buffer zone, located between the curb and the pedestrian zone, that contains all required street trees [see Subsection (c)(7)(D)] as well as trees and shrubs provided as pedestrian amenities [see Subsection (c)(8)(E)]. Other pedestrian amenities may also be located in the buffer zone.

(iv) It must include a pedestrian zone, located between the buffer zone and the building line, that contains a sidewalk that meets urban corridor district sidewalk standards. [See Subsection (c)(8)(C).] The pedestrian zone may contain pedestrian amenities that are attached to the building facade and do not impede pedestrian movement or visually obstruct the street-level windows. [See Subsection (c)(8)(F)(iii).]

(v) A pedestrian plaza located on a frontage is considered to begin at the building line for purposes of this Subparagraph (B).

(C) Sidewalk standards. Sidewalks must be located in the pedestrian zone for the entire length of the frontage, and must meet the following standards:

(i) In a UC-1 district, they must have a minimum clear zone of five feet.

(ii) In a UC-2 district, they must have a minimum clear zone of seven feet.

(iii) In a UC-3 district, they must have a minimum clear zone of 10 feet.

(iv) Sidewalk widths must match up with the width of existing sidewalks in front of adjacent properties at the point of intersection. Where there are different sidewalk widths on each side of the urban corridor district frontage, the width matched must be that which most closely approximates the required 5- to 10-foot width, and the new sidewalk must taper to meet the incongruous sidewalks.

(v) Additional pedestrian pathways that are not in the pedestrian zone must have a minimum width of four feet.

(D) Pedestrian amenities.

(i) At least three of the following types of pedestrian amenities must be provided within the curb-to-building area of the lot:

(aa) Awnings/canopies with a minimum overhang of 4 feet and a minimum length of 25 feet per 100 feet of building facade along the frontage; or a combination of street trees and evergreen shrubs with a minimum of one small tree per 25 feet of frontage and a minimum of one shrub per 5 feet of frontage.

(bb) Benches at one per 100 feet of frontage, with a minimum of two per lot.

(cc) Trash receptacles at one per 100 feet of frontage, with a minimum of two per lot.

(dd) Bicycle parking at one 5-bicycle unit per 100 feet of frontage, with a minimum of two per lot.

(ee) Pedestrian street lamps (free-standing or wall-mounted) at one per 50 feet of frontage.
§ 51A-4.127 Dallas Development Code: Ordinance No. 19455, as amended

(ff) Enhanced sidewalk with stamped concrete or brick pavers in the pedestrian zone for the full width of the sidewalk, along the entire frontage.

(gg) Public art or water features costing no less than $2,500, at one per lot.

(hh) Drinking fountains at one per lot.

(ii) Amenities must be placed far enough from the street curb so as not to create a physical barrier to buses.

(iii) Canopies, awnings, and pedestrian street lamp fixtures must have a minimum nine-foot clearance. Lamp fixtures may not exceed 14 feet in height. Light fixtures may not emit light upward into the windows of dwelling units.

(iv) All pedestrian amenities must be maintained by the owner of the lot; if there is more than one owner, all owners are jointly and severally liable for maintenance.

(E) Driveway design requirements.

(i) Pedestrian crosswalks must be clearly marked to indicate where the crosswalk crosses the driveway.

(ii) Common or joint driveways are required when adjacent lots have direct vehicular access.

(iii) Curb cuts must be no less than 12 and no more than 24 feet in length (measured parallel to the frontage). Each lot may have a maximum of one curb cut for each frontage.

(iv) Driveways into parking areas or structures must be from an urban corridor.

(v) No part of a circular or semi-circular driveway is permitted on an urban corridor.

(F) Building envelope design requirements.

(i) Building facades. Building facades must be as close as possible to the pedestrian zone. Columns of an arcade must be on the building line, and the internal facade of an arcade must be set back from the building line no more than 10 feet. Parking deck and garage facades visible at ground level from any street or alley must have the appearance of a multiple-story building, and be of similar material finish as the building on the site for which the parking is being provided.

(ii) Building height and setback. Building height and setback is subject to both residential proximity slope and urban form setback requirements. In all instances, residential proximity slope requirements supersede all other height allowances.

(iii) Storefront treatments. The following provisions apply to all uses at ground level except church use and residential uses. All street-facing street-level portions of a building must have windows and primary entrances facing the street or a plaza. No more than 10 continuous linear feet of street-facing street-level facade may lack a transparent surface (e.g., a window or a transparent door). Corner lot structures must have corner entrances in compliance with the visibility triangle standards set by the department of sustainable development and construction. Street-facing, street-level windows must:

(aa) be clear, unpainted, or made of similarly treated glass allowing visibility within street-level uses;

(bb) cover 50 percent or more of street-level frontage;

(cc) not have a bottom edge higher than three feet above the base of building; and

(dd) be less than 10 feet high.
(iv) **Pedestrian access to the building.** Primary pedestrian (i.e. residential and customer) ingress and egress must be to or from an urban corridor. Pedestrian ingress and egress for all other functions must be to or from rear or side yard entrances. Pedestrian pathways must be provided to connect the pedestrian zone to the parking lot, rear entrances to dwellings, and to emergency exits.

(d) **Site plan.**

(1) A site plan must be submitted in accordance with the requirements of this subsection before an application is made for a permit for work on a lot in an urban corridor district.

(2) Procedure. The applicant should contact the department to arrange a pre-application conference, at which the applicant should provide a sketch plan of the site with the information requested by the department. When the applicant is ready to apply for site plan review, the applicant must provide a detailed site plan.

(3) The site plan must:

(A) satisfy the requirements of Subparagraphs (A) through (G), (J), and (N) through (Q) in Section 51A-4.803(d)(1);

(B) show all existing and proposed points of ingress and egress, building entrances, exits, service areas, and windows;

(C) show all public right-of-way lines;

(D) show the location and indicate the type, size, and height of perimeter fencing, screening, and buffering elements proposed or required;

(E) show all provisions to be made to direct and detain storm water and to mitigate erosion both during and following the completion of construction;

(F) show the location and indicate the type, orientation, size, and height of light standards that will illuminate any portion of a required yard;

(G) show the location of existing and proposed signs;

(H) show the existing and proposed locations of all exterior loudspeakers and sound amplifiers;

(I) show the existing and proposed locations for all mechanical equipment capable of producing high levels of noise;

(J) show all existing and proposed provisions for pedestrian circulation on the lot including the location of the pedestrian amenity zones and the location and description of amenities provided to satisfy the three-amenity rule and the requirements for parking reductions;

(K) demonstrate how the urban corridor district site meets the minimum open space requirements showing location and landscape plans of all open space including buffer zones and screening areas;

(L) demonstrate eligibility for parking requirement reduction or density bonuses, if requested by applicant; and

(M) any other reasonable and pertinent information that the director determines to be necessary for site plan review. (Ord. Nos. 24718; 25785; 26920; 28125; 28214; 28424; 28700)

S S S
Dallas Development Code: Ordinance No. 19455, as amended

[Intentionally left blank]
SEC. 51A-4.201. AGRICULTURAL USES.

(1) Animal production.

(A) Definition: An area which is used for the raising of animals (including fish) and the development of animal products on a commercial basis. Typical uses include beef or sheep ranching, dairy farming, piggeries, poultry farming, and fish farming.

(B) Districts permitted: By right in the A(A) district. By SUP only in non-residential districts.

(C) Required off-street parking: Two spaces.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) In an A(A) district, a person shall not operate this use upon an area less than three acres. In non-residential districts, no minimum acreage is required.

(ii) Animals include but are not limited to pigs, chickens, turkeys, cows, sheep, goats, and horses.

(iii) Structures may be erected for a private stable, pen, barn, shed, or silo for raising, treating, and storing products raised on the premises. A dwelling unit is permitted either as part of this structure or as a separate structure.

(iv) Standings under roofed stables must be made of a material that provides for proper drainage so as not to create offensive odors, fly breeding, or other nuisances.

(v) The keeping of horses is subject to the requirements under the private stable accessory use.

(2) Commercial stable.

(A) Definition: A facility for the business of boarding horses or renting horses to the public.

(B) Districts permitted: A(A) district.

(C) Required off-street parking: One space for each two stalls.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) This use does not include sales, auction, or similar trading activity.

(3) Crop production.

(A) Definitions. In this paragraph:

(i) AQUACULTURE means the cultivation, maintenance, and harvesting of aquatic species.

(ii) AQUAPONICS means the combination of aquaculture (fish) and hydroponics (plants) to grow food crops or ornamental crops and aquatic species together in a recirculating system without discharge or exchange of water.
(iii) **BED COVER** means a hoop-house, shade structure, or similar structure located above a planting bed to assist with the growing or shading of food crops or ornamental crops.

(iv) **COMMUNITY GARDEN** means an URBAN GARDEN as that use is defined in this subparagraph. Except in those Chapter 51P articles where community garden is specifically defined, any reference to community garden in Chapter 51P is a reference to an urban garden in this subparagraph.

(v) **FARM OR RANCH** means an area which is used for growing farm products or keeping farm poultry and farm livestock.

(vi) **URBAN GARDEN** means an area managed and maintained to grow and harvest food crops and/or ornamental crops for personal or group use, consumption, sale, or donation. Urban gardens may be divided into separate plots for cultivation by one or more individuals or may be farmed collectively by members of the group and may include common areas maintained and used by group members.

(B) **Districts permitted:** By right in all districts.

(C) **Required off-street parking:** Except as otherwise provided in this subparagraph, off-street parking is not required. For an urban garden in non-residential districts that allows on-site sales, one off-street parking space is required for every 200 square feet of sales area with a minimum two off-street parking spaces provided.

(D) **Required off-street loading:** None.

(E) **Additional provisions for urban gardens:**

(i) An urban garden must comply with the regulations for the zoning district in which the urban garden is located.

(ii) **Aquaponics, aquaculture, and the raising of chickens are permitted. All other animal grazing and animal production are prohibited.**

(iii) For an urban garden in a residential district, the combined floor area of structures may not exceed 10 percent of the lot, with no single structure exceeding 200 square feet in floor area. Structures that assist in the growing of vegetation, such as bed covers and raised planting beds, are not included in floor area calculations. Structures must comply with yard, lot, and space regulations for the district.

(iv) For an urban garden in a residential district, one single, non-illuminated, flat sign of no more than six square feet must be provided. The sign must contain the phone number of an emergency contact person for the urban garden. If animals are present in the urban garden, the sign must also contain the contact information for Dallas 311 city services. In residential districts, no other signage is permitted.

(v) Each bed cover may only cover one planting bed.

(vi) Except as provided in this subparagraph, maximum height of a bed cover is four feet from the growing surface or eight feet, measured from grade, whichever is less. Within the required front yard, maximum height of a bed cover is four feet, measured from grade.

(vii) The on-site sale of food crops, ornamental crops, and eggs produced at the urban garden is allowed only in non-residential districts. No other items may be sold.

(F) **Additional provisions for farms:**

(i) A person shall not operate a farm upon an area less than three acres.
(ii) Structures may be erected for a private pen, barn, shed, or silo for the treating, and storing of products raised on the premises. A dwelling unit is permitted either as part of this structure or as a separate structure.

(iii) Animal grazing is allowed as part of this use; however, animal production, as defined in Section 51A-4.201(1), is not permitted.

(4) **Private stable.**

(A) **Definition:** An area for the keeping of a horse or horses for the private use of the property owner or the owner of the horse(s).

(B) **Districts permitted:** By right in all residential districts when located on a lot that is at least one acre in size, otherwise by SUP in all residential districts.

(C) **Required off-street parking:** None.

(D) **Required off-street loading:** None.

(E) **Additional provisions:**

(i) A private stable is permitted only on a lot that has at least 15,000 square feet of land and a person may keep only the number of horses permitted for the lot area as described in the following chart:

<table>
<thead>
<tr>
<th>LOT AREA</th>

(ii) A private stable must include a pen, corral, fence, or similar enclosure containing at least 800 square feet of land for each animal with a stable under a roof containing at least 100 square feet for each animal.

(iii) A stable must have proper drainage so as not to create offensive odors, fly breeding, or other nuisances.

(iv) A pen, corral, fence, or similar enclosure may not be closer than 20 feet to an adjacent property line. The widths of alleys, street rights-of-way, or other public rights-of-way may be used in establishing the 20 foot distance to the adjacent property line.

(v) A pen, corral, fence, or similar enclosure must be of a sufficient height and strength to retain the horse(s). (Ord. Nos. 19455; 19786; 20493; 21001; 23302; 24718; 28125; 29687; 30890)

SEC. 51A-4.202. **COMMERCIAL AND BUSINESS SERVICE USES.**

(1) **Building repair and maintenance shop.**

(A) **Definition:** A facility providing for general building repair and maintenance, including the installation of plumbing, electrical, air conditioning, and heating equipment.

(B) **Districts permitted:** By right in CR, RR, CS, industrial, and central area districts. RAR required in CR, RR, CS, and industrial districts.

(C) **Required off-street parking:** One space per 300 square feet of floor area.
§ 51A-4.202 Dallas Development Code: Ordinance No. 19455, as amended

(8.1) Labor hall.

(A) Definitions. In this paragraph:
(i) LABOR HALL means any profit or non-profit public or private entity, whether a corporation, partnership, natural person, or any other legal entity, whose business involves securing temporary unskilled or agricultural employment for a client through the use of a hiring hall or facility where unskilled workers gather to await employment.

(ii) UNSKILLED WORKER means an individual who performs labor involving physical toil that does not require persons engaged in a particular occupation, craft, or trade, or practical or familiar knowledge of the principles or processes of an art, science, craft, or trade.

(B) Districts permitted: By right in IR and IM districts when located at least:

(i) 1000 feet from all conforming residential uses; and

(ii) 500 feet from all “public or private school” uses.

Otherwise, by SUP in IR and IM districts. By SUP only in RR, CS, LI, central area, mixed use, and multiple commercial districts.

(C) Required off-street parking. One space per 500 square feet of floor area.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>

</tr>
</tbody>
</table>

Each additional 100,000 or fraction thereof 1 additional

(E) Additional provisions:

(i) This use must have a lobby or waiting room with a floor area of not less than the greater of 500 square feet or 50 percent of the total floor area of the premises.

(ii) Food may be prepared and served as an accessory use.

(iii) No SUP for a labor hall may be granted for more than a two-year time period. An SUP for a labor hall is not eligible for automatic renewal.

(iv) In determining whether to grant a specific use permit for a labor hall, the city council shall consider its proximity to the main uses listed in Subparagraph (B) of this paragraph, and require that the labor hall meet, as nearly as practicable, the distance requirements set out in that subparagraph.

(v) Measurements of distance under this paragraph are taken radially. "Radial" measurement means a measurement taken along the shortest distance between the nearest point of the building site of the labor hall and the nearest point of the building site of another use.

(vi) This use must comply with all applicable licensing provisions.

(9) Machine or welding shop.

(A) Definition: A facility where material is processed by machining, cutting, grinding, welding, or similar processes.

(B) Districts permitted: By right in CS and industrial districts. RAR required in CS and industrial districts.

(C) Required off-street parking: One space per 500 square feet of floor area.
(D) Required off-street loading:

</tbody>
</table>

(E) Additional provisions:

(i) If an inoperable or wrecked motor vehicle remains outside on the premises for more than 24 hours, the premises is an outside salvage or reclamation use. However, a premise is not an outside salvage or reclamation use if the premise stores not more than four inoperable or wrecked motor vehicles each of which having a valid state registration, current safety inspection certificate, and documentary record of pending repairs or other disposition, and if the premise has a current certificate of occupancy for a motor vehicle related use. (Ord. Nos. 19455; 19786; 20493; 20902; 21001; 21663; 23910; 24718; 28803; 30890)

SEC. 51A-4.203. INDUSTRIAL USES.

(a) Potentially incompatible industrial uses.

(1) A “potentially incompatible industrial use” listed in this subsection is permitted by SUP only in the IM district.

(2) The following main uses, activities, operations, and processes are hereby declared to be potentially incompatible industrial uses:

- Bulk processing, washing, curing, or dyeing of hair, felt, or feathers
- Concrete crushing
- Fat rendering
- Foundries, ferrous or non-ferrous
- Grain milling or processing
- Leather or fur tanning, curing, finishing, or dyeing
§ 51A-4.203 Dallas Development Code: Ordinance No. 19455, as amended

Section 51A-4.203 Dallas Development Code: Ordinance No. 19455, as amended

(3) Main uses that manufacture the following products are hereby declared to be potentially incompatible industrial uses:

- Heavy metal casting or foundry products, including ornamental iron work or similar products
- Insecticides, fungicides, disinfectants, or related industrial or household chemical compounds
- Linoleum or oil cloth
- Lumber, plywood, veneer, or similar wood products
- Matches
- Miscellaneous metal alloys or foil, including solder, pewter, brass, bronze, or tin, lead, or gold foil, or similar products
  - Paint, varnishes, or turpentine
  - Paper
  - Porcelain products, including bathroom or kitchen equipment, or similar products
  - Raw plastic
  - Rubber, natural or synthetic, including tires, tubes, or similar products
  - Soaps or detergents
  - Stone products, including abrasives, asbestos, stone screenings, and sand or lime products

(b) Specific uses.

(0) Alcoholic beverage manufacturing.

(A) Definition: An establishment for the manufacture, blending, fermentation, processing, and packaging of alcoholic beverages with a floor area exceeding 10,000 square feet that takes place wholly inside a building. A facility that only provides tasting or retail sale of alcoholic beverages is not an alcoholic beverage manufacturing use.

(B) Districts permitted: By right in industrial districts with RAR required. By SUP only in central area districts.

(C) Required off-street parking:

(i) Except as otherwise provided, one space per 600 square feet of floor area.

(ii) One space per 1,000 square feet of floor area used for storage.
(iii) One space per 100 square feet of floor area used for retail sales and seating.

(D) Required off-street loading:

<table>

<td>50,000 to 100,000</td>
<td>2</td>
</tr>
<tr>
<td>Each additional 100,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) Retail sales of alcoholic beverages and related items and tastings or sampling are allowed in accordance with Texas Alcoholic Beverage Commission regulations.

(ii) Except for loading, all activities must occur within a building.

(iii) Silos and containers of spent grain are allowed as outdoor storage. Containers of spent grain must be screened. All other outdoor storage or repair is prohibited.

(iv) If an SUP is required, silos and outdoor storage areas for spent grain must be shown on the site plan.

(v) Drive-through facilities are prohibited.

(1) Industrial (inside).

(A) Definition: An industrial facility where all processing, fabricating, assembly, or disassembly takes place wholly within an enclosed building.

(B) Districts permitted: If this use is "potentially incompatible" [See Subsection (a)], it is permitted by SUP only in the IM district; otherwise, it is permitted by right in industrial districts with RAR required.

(C) Required off-street parking: One space per 600 square feet of floor area.

(D) Required off-street loading:

<td>2</td>
</tr>
<tr>
<td>Each additional 100,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) Accessory outside storage is limited to five percent of the lot. Outside storage that occupies more than five percent of the lot is only allowed in a district where outside storage is permitted as a main use. For more information regarding accessory outside storage, see Section 51A-4.217. For more information regarding outside storage as a main use, see Section 51A-4.213.

(ii) Accessory inside retail sales may occupy up to 10 percent of the total floor area of the main use.

(1.1) Industrial (inside) for light manufacturing.

(A) Definition: A light industrial use where all processing, fabricating, assembly, or disassembly of items takes places wholly within an enclosed building. Typical items for processing, fabricating, assembly, or disassembly under this use include but are not limited to apparel, food, drapes, clothing accessories, bedspreads, decorations, artificial plants, jewelry, instruments, computers, and electronic devices.

(B) Districts permitted: By right in CS and industrial districts.

(C) Required off-street parking: One space per 600 square feet of floor area.
§ 51A-4.203 Dallas Development Code: Ordinance No. 19455, as amended

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>

<td>2</td>
</tr>
<tr>
<td>Each additional 100,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) Potentially incompatible industrial uses, as defined in this section, are prohibited as part of any activity, operation, or processing conducted under this use.

(ii) This use may not exceed 10,000 square feet of floor area.

(2) Industrial (outside).

(A) Definition: An industrial facility where any portion of the processing, fabricating, assembly, or disassembly takes place outside or in an open structure.

(B) Districts permitted: If this use is "potentially incompatible" [See Subsection (a)], it is permitted by SUP only in the IM district; otherwise it is permitted:

(i) by right in the IM district with RAR required; and

(ii) by SUP only in the IR district.

(C) Required off-street parking: One space per 600 square feet of floor area, plus one space per 600 square feet of outside manufacturing area.

(E) Additional provisions:

(i) Accessory outside storage may occupy to 50 percent of the lot. Outside storage that occupies more than 50 percent of the lot is only allowed in a district where outside storage is permitted as a main use. For more information regarding accessory outside storage, see Section 51A-4.217. For more information regarding outside storage as a main use, see Section 51A-4.213.

(ii) Any portion of the building site containing this use that is adjacent to or directly across a street or alley from a district other than an IR or IM district must be screened from that district.

(iii) Accessory inside retail sales may occupy up to 10 percent of the total floor area of the main use.

(2.1) Medical/infectious waste incinerator.

(A) Definition: A facility used to incinerate plastics, special waste, and waste containing pathogens or biologically active material, which because of its type, concentration, and quantity, is capable of transmitting disease to persons exposed to the waste.

(B) Districts permitted: By SUP only in IR and IM districts.

(C) Required off-street parking: One space per 1,000 square feet of floor area.
§ 51A-4.203 Dallas Development Code: Ordinance No. 19455, as amended

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 50,000</td>
<td>1</td>

<td>50,000 to 100,000</td>
<td>2</td>
</tr>
<tr>
<td>Each additional 100,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) All medical/infectious waste incinerators must be located at least:

(aa) 1,000 feet from all lots containing residential; public or private school; church; and public park, playground, or golf course uses; and

(bb) one mile from all lots containing municipal and hazardous waste incinerators.

(ii) A medical/infectious waste incinerator used to incinerate up to 225 pounds of waste per hour must be located:

(aa) on a lot that is no smaller than one acre in size;

(bb) at least 100 feet from the lot line; and

(cc) at least one-fourth mile from all lots containing main use medical/infectious and pathological waste incinerators.

(iii) A medical/infectious waste incinerator used to incinerate more than 225 pounds of waste per hour must be located:

(aa) on a lot that is no smaller than five acres in size; and

(bb) at least 200 feet from the lot line; and

(cc) at least one mile from all lots containing main use medical/infectious and pathological waste incinerators.

(iv) No outside storage is permitted in conjunction with this use.

(v) The area of notification for a public hearing to consider an SUP application for this use is 500 feet.

(3) Metal salvage facility.

(A) Definition: A facility that collects, separates, and processes scrap metal in bulk form for reuse and manufacturing.

(B) Districts permitted: By SUP only in the IM district.

(C) Required off-street parking: The off-street parking requirement may be established in the ordinance granting the SUP, otherwise a minimum of five spaces required.

(D) Required off-street loading:

<table>
<thead>
<tr>

<td>2</td>
</tr>
<tr>
<td>Each additional 100,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) This use must have a visual screen of at least nine feet in height which consists of a solid masonry, concrete, or corrugated sheet metal wall, or a chain link fence with metal strips through all links.

(ii) The owner of a metal salvage facility shall not stack objects higher than eight feet within 40 feet of the visual screen. The owner of a metal salvage facility may stack objects one foot higher than eight feet for each five feet of setback from the 40 foot point.
(iii) If an inoperable or wrecked motor vehicle remains outside on the premises for more than 24 hours, the premises is an outside salvage or reclamation use. However, a premise is not an outside salvage or reclamation use if the premise stores not more than four inoperable or wrecked motor vehicles each of which having a valid state registration, current safety inspection certificate, and documentary record of pending repairs or other disposition, and if the premise has a current certificate of occupancy for a motor vehicle related use.

(iv) A minimum distance of 500 feet is required between a metal salvage facility and an R, R(A), D, D(A), TH, TH(A), CH, MF, MF(A), MH, or MH(A) district.

(3.1) Mining.

(A) Definition: The extraction, removal, or stockpiling of earth materials, including soil, sand, gravel, oil, or other materials found in the earth. The excavation of earth materials for ponds or lakes, including excavations for fish farming ponds and recreational lakes, are considered mining unless otherwise expressly authorized by another provision of this code. The following are not considered mining:

(i) The extraction, removal, or stockpiling of earth materials incidental to an approved plat or excavation permit, incidental to construction with a building permit, or for governmental or utility construction projects such as streets, alleys, drainage, gas, electrical, water, and telephone facilities and similar projects.

(ii) The extraction, removal, or stockpiling of earth materials incidental to construction of landscaping, retaining walls, fences, and similar activities consistent with the land use allowed at the site of removal.

(iii) Gas drilling and production. See Section 51A-4.203(b)(3.2).

(B) Districts permitted: By SUP only in A(A) and IM districts.

(C) Required off-street parking: None.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 50,000</td>
<td>1</td>
</tr>
<tr>
<td>50,000 to 100,000</td>
<td>2</td>
</tr>
<tr>
<td>Each additional 100,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) The applicant shall submit a site plan of existing conditions, operations plan, reclamation plan, and the proposed bond to the director for review and recommendation.

(ii) If a specific use permit is granted, the city shall inspect and monitor the mining and reclamation operation at least once annually.

(iii) A specific use permit may not be issued for mining on city park land.

(F) Site plan of existing conditions: The applicant shall submit a site plan of existing conditions that includes:

(i) a site location map on a small scale showing major circulation routes and other landmarks which would aid in the location of the site;

(ii) contours shown at no greater than five-foot intervals;

(iii) connections to roads outside the site;

(iv) location, identification, and dimensions of all public and private easements;

(v) location of flood plain, water bodies, natural and man-made channels (wet and dry), and subsurface channels;
(vi) tree and other vegetation groupings, rock outcroppings, and any other significant natural features;

(vii) location and depth of any known former or current mines or landfills in or within 500 feet of the boundaries of the excavation and an indication of the type of fill used;

(viii) analyzed core samples if the city determines that contaminants may be present; and

(ix) any other information the director determines is reasonably necessary for a complete review of the proposed operations.

(G) Operations plan: The applicant shall submit an operations plan that includes:

(i) storage of reclamation topsoil and methods of disposing of all material not to be sold or reclaimed;

(ii) hours of operation;

(iii) location and depth of excavation;

(iv) drainage and erosion control measures;

(v) method for the disposal of contaminants, if present;

(vi) roads to be used for transportation of stone, sand, or gravel;

(vii) fences or any other barriers necessary for safety;

(viii) noise and dust control measures;

(ix) the length of time necessary to complete the mining and reclamation of the site; and

(x) any other information the director determines is reasonably necessary for a complete review of the proposed operations.

(H) Reclamation plan: The applicant shall submit a reclamation plan that is verified by a registered surveyor. The reclamation plan must show the reclamation of the entire site upon completion of operation and the phases of reclamation to be completed at no greater than five-year intervals. The reclamation plan must include the following information:

(i) contours shown at no greater than five-foot intervals with slopes not steeper than a three-to-one (horizontal to vertical) ratio;

(ii) circulation routes, including roadways, any internal circulation, rights-of-way, and connections to roads outside the site;

(iii) location, identification, and dimensions of all public and private easements;

(iv) location of flood plain, water bodies, natural and man-made channels (wet and dry), subsurface dams, dikes, or channels;

(v) location of any areas to be filled with water including a description of the source of the water, the means of water retention, and the prevention of stagnation and pollution;

(vi) location and type of vegetation;

(vii) structures (including height), utilities, and proposed land uses, if any;

(viii) the amount of the performance bond that will be posted in accordance with Subparagraph (I) below; and

(ix) any other information the director determines is reasonably necessary for a complete review of the proposed operation.
§ 51A-4.203 Dallas Development Code: Ordinance No. 19455, as amended § 51A-4.203

(I) Performance bond:

(i) The applicant shall post a performance bond with the city controller before passage of the ordinance granting the specific use permit. The performance bond must be approved as to form by the city attorney.

(ii) The bond must be twice the estimated cost to the city of restoring the premises in a manner shown on the reclamation plan. The amount of the bond shall be determined by the director on the basis of relevant factors including expected changes in the price index, topography of the site, project methods being employed, depth and composition of overburden, and data provided in the reclamation plan.

(iii) The bond must be issued by a surety company licensed to do business in Texas. The applicant may deposit cash, certificates of deposit, or government securities in lieu of a bond. Interest received on deposits and securities must be returned to the applicant upon the approval of reclamation of the site.

(iv) The director shall conduct a final inspection to determine whether the site has been reclaimed in accordance with the specific use permit. Final inspection must be made not more than two years after the expiration of the specific use permit. A registered surveyor provided by the applicant shall verify the final topography of the site.

(v) The director shall report to the city council on the completion of the project. The city council shall determine by resolution whether the reclamation has been completed in accordance with the specific use permit and whether the performance bond should be released.

(vi) The city controller shall release the bond or deposit if the city council finds that the applicant has completed reclamation of the site in accordance with the specific use permit. If the site is not restored in accordance with the reclamation plan, the director shall use the bond or deposit to restore the site in accordance with the plan.

(3.2) Gas drilling and production.

(A) Definitions:

(i) BOUNDARY means the perimeter of the operation site. OPERATION SITE means the area identified in the SUP to be used for drilling, production, and all associated operational activities after gas drilling is complete.

(ii) ENVIRONMENTALLY SIGNIFICANT AREA means an area:

(aa) with slopes greater than three to one;

(bb) containing endangered species of either flora or fauna;

(cc) that is geologically similar to the Escarpment Zone, as defined in Division 51A-5.200, “Escarpment Regulations,” of Article V, “Flood Plain and Escarpment Zone Regulations;”

(dd) identified as wetlands or wildlife habitat;

(ee) determined to be an archeological or historical site; or

(ff) containing more than 1,000 inches of trunk diameter of protected trees, in the aggregate, within a 10,000 square foot area. Trunk diameter is measured at a point 12 inches above grade. To be included in the aggregate calculations of trunk diameter, a protected tree must have a trunk diameter of six inches or more. For purposes of this provision, a protected tree is defined in Section 5A-10.101.

(iii) GAS DRILLING AND PRODUCTION means the activities related to the extraction of any fluid, either combustible or noncombustible, that is produced in a natural state from the earth and that maintains a gaseous or rarefied state at standard temperature and pressure conditions, or the extraction of any gaseous vapors derived from petroleum or natural gas.
(iv) HABITABLE STRUCTURE means any use or structure that is not a protected use but has a means of ingress or egress, light, and ventilation. Habitable structure does not include an accessory structure, such as a garage or shed.

(v) PROTECTED USE means institutional and community service uses (except cemetery or mausoleum); lodging uses; office uses; recreation uses (except when the operation site is on a public park, playground, or golf course); residential uses; and retail and personal service uses (except commercial motor vehicle parking or commercial parking lot or garage). Parking areas and areas used exclusively for drainage detention are not part of a protected use.

(vi) See Article XII for additional definitions that apply to gas drilling and production.

(B) Districts permitted: By SUP only in all districts.

(C) Required off-street parking: None.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 50,000</td>
<td>1</td>
</tr>
<tr>
<td>50,000 to 100,000</td>
<td>2</td>
</tr>
<tr>
<td>Each additional 100,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) See Article XII for additional regulations relating to gas drilling and production. No provision found in Articles IV or XII may be waived through the adoption of or amendment to a planned development district.

(ii) Before an SUP for a gas drilling and production use within a public park, playground, or golf course may be processed, city council must hold a public hearing and make a determination in accordance with Texas Parks and Wildlife Code Chapter 26, “Protection of Public Parks and Recreational Lands.”

(iii) A favorable vote of three-fourths of all members of the city council is required to approve a gas drilling and production use on a public park, playground, or golf course if city council finds that the approval will not harm the public health, safety, or welfare.

(iv) In addition to the findings required in Section 51A-4.219 for the granting of an SUP, city plan commission and city council must consider the:

(aa) proximity of a proposed gas drilling and production use to an environmentally significant area; and

(bb) potential impact the proposed gas drilling and production use may have on the environmentally significant area.

(v) Compliance with federal and state laws and regulations and with city ordinances, rules, and regulations is required, and may include platting, a flood plain fill or alteration permit, building permits, and gas well permits. Compliance with these additional regulations may be required before, concurrently with, after, or independently of the SUP process.

(vi) Trailers or mobile homes that are temporarily placed on the operation site and used by gas drilling workers as a residence are a permitted accessory use.

(vii) Once any gas drilling related activity begins on the operation site, the applicant shall limit access to the operation site by erecting an eight-foot-tall temporary chain-link fence. Within 30 days after any well completion activity ceases, an eight-foot-tall permanent fence must be erected and maintained around the perimeter of the operation site. This provision controls over the fence height regulations of the zoning district. City council, by SUP, may require a different form of screening, but may not reduce the fence height requirements of this provision.
(viii) Access to the operation site must comply with the Dallas Fire Code. The operation site plan must be reviewed and approved by the fire marshal before an SUP can be granted.

(ix) The operation site may not have a slope greater than 10 degrees unless the director determines that all equipment is located and activities occur on a portion of the operation site that does not have a slope greater than 10 degrees, there is adequate erosion control, and the slope of the operation site will not be a threat to the public safety or welfare.

(x) The operator shall provide the director with a statement of intent to enter into a road repair agreement before an SUP may be scheduled for a public hearing.

(xi) The director shall revise the zoning district maps upon the granting of an SUP for a gas drilling and production use, to provide a 1,000 foot gas drilling and production use notice overlay around the boundary of the operation site.

(F) Spacing:

(i) Habitable structure.

(aa) Except as otherwise provided in this provision, a gas drilling and production use must be spaced at least 300 feet from a habitable structure.

(bb) If a gas drilling and production use is located on the same property as a habitable structure, the spacing requirements in this provision may be waived for that habitable structure with a favorable vote of two-thirds of all members of the city council if city council finds that the reduction will not harm the public health, safety, or welfare.

(ii) Protected use.

(aa) Except as otherwise provided in this provision, a gas drilling and production use must be spaced at least 1,500 feet from a protected use (except trailers or mobile homes placed on the operation site as temporary residences for workers).

(bb) City council may reduce the minimum 1,500 foot spacing requirement from a protected use by not more than 500 feet with a favorable vote of two-thirds of all members of the city council if city council finds that the reduction will not harm the public health, safety, or welfare.

(cc) If a gas drilling and production use is located on the same property as a protected use, the spacing requirements in this provision may be waived for that protected use with a favorable vote of two-thirds of all members of the city council if city council finds that the reduction will not harm the public health, safety, or welfare.

(dd) If a gas drilling and production use is located on a public park, playground, or golf course, the spacing requirements in this provision for protected uses and habitable structures off the public park, playground, or golf course use still apply.

(ee) Spacing is measured as follows:

(11) For institutional and community service uses (except cemetery or mausoleum), and residential uses, from the boundary of the operation site in a straight line, without regard to intervening structures or objects, to the property line of the institutional and community service use (except cemetery or mausoleum) or the residential use.
(22) For recreation uses (except when the operation site is on a public park, playground, or golf course), lodging uses, office uses, and retail and personal service uses (except commercial motor vehicle parking or commercial parking lot or garage) from the boundary of the operation site in a straight line, without regard to intervening structures or objects, to the closest point of a physical barrier or demarcation that establishes a boundary of the protected use. Examples of physical barriers or demarcations include fencing around activity areas, such as play fields, courts, or pools; or edges, borders, or boundaries of maintained areas adjacent to trails, golf courses, or active recreation areas. If the protected use is conducted exclusively inside, from the boundary of the operation site in a straight line, without regard to intervening structures of objects, to the closest point of the structure housing the protected use.

(G) Neighborhood meeting:

(i) Within 60 days after filing an SUP application, the applicant or operator shall, at the applicant or operator’s expense, provide notice of a neighborhood meeting regarding the pending SUP application.

(ii) The applicant or operator shall mail notice of the neighborhood meeting by depositing the notice properly addressed and postage paid in the United States mail. The notice must be written in English and Spanish. The applicant or operator shall mail notice of the neighborhood meeting to all real property owners as indicated by the most recent appraisal district records and all mailing addresses within 2,000 feet of the boundary of the proposed gas drilling and production use operation site.

(iii) The notice of the neighborhood meeting must include:

(aa) the date, time, and location of the neighborhood meeting;

(bb) the identity of the applicant and the operator;

(cc) the location of the pending SUP application;

(dd) information about the proposed gas drilling and production use;

(ee) the purpose of the neighborhood meeting; and

(ff) information about subscribing to the operator’s electronic notification list to receive updates about when specific operations will occur, including site preparation, drilling, casing, fracturing, pipeline construction, production, transportation, and maintenance of the operation site.

(iv) Within five days after mailing the notice of the neighborhood meeting, the applicant shall file an affidavit with the director swearing and affirming that all real property owners and mailing addresses within 2,000 feet of the boundary of the proposed gas drilling and production use operation site were mailed notice of the neighborhood meeting in accordance with this subparagraph. The affidavit must include a list of the real property owners and mailing addresses to which notice was sent.

(v) The applicant and operator shall attend and conduct the neighborhood meeting not less than seven or more than 21 days after providing notice of the neighborhood meeting. The neighborhood meeting must be held at a facility open to the public near the proposed gas drilling and production use.

(vi) The purpose of the neighborhood meeting is for the applicant or operator to:

(aa) inform the community about the proposed gas drilling and production use;

(bb) explain the operations associated with gas drilling and production, including site preparation, site development and construction, drilling, casing, fracturing, pipeline construction, production, transportation, and maintenance of the operation site; and
(cc) explain and provide information about subscribing to the operator's electronic notification list to receive updates about when specific operations will occur, including site preparation, drilling, casing, fracturing, pipeline construction, production, transportation, and maintenance of the operation site.

(3.3) Gas pipeline compressor station.

(A) Definition:

(i) BOUNDARY means the perimeter of the compressor station site. GAS PIPELINE COMPRESSOR STATION SITE means the area identified in the SUP to be used for the gas pipeline compressor station.

(ii) GAS PIPELINE COMPRESSOR STATION means a facility for devices that raise the pressure of a compressible fluid (gas) in order for the gas to be transported through a transmission pipeline. This use does not include compressors that are part of a gas drilling and production use that only provide compression for gas to circulate into a gathering system.

(iii) PROTECTED USE means institutional and community service uses (except cemetery or mausoleum); lodging uses; office uses; recreation uses (except when the operation site is on a public park, playground, or golf course); residential uses; and retail and personal service uses (except commercial motor vehicle parking or commercial parking lot or garage). Parking areas and areas used exclusively for drainage detention are not part of a protected use.

(B) Districts permitted: By SUP only in IM district.

(C) Required off-street parking: Five spaces.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) A gas pipeline compressor station must be spaced at least 1,500 feet from a protected use, measured from the boundary of the gas pipeline compressor station site in a straight line, without regard to intervening structures or objects, to the closest point of the protected use or areas of the protected use activity.

(ii) To reduce noise, all compressors must be fully enclosed in a building.

(iii) Except as otherwise provided in this subparagraph, the perimeter of the gas pipeline compressor station site must be screened from public view. City council may, by SUP, require a different form of screening but may not reduce the height requirements in this subparagraph. Screening must be at least six feet in height and must be constructed of:

(aa) earthen berm planted with turf grass or ground cover that does not have a slope that exceeds one foot of height for each two feet of width;

(bb) brick, stone, metal, or masonry wall that significantly screens equipment and structures from view;

(cc) landscaping materials recommended for local area use by the chief arborist. The landscaping must be located in a bed that is at least three feet wide with a minimum soil depth of 24 inches. The initial plantings must be capable of obtaining a solid appearance within 18 months; or

(dd) any combination of the above.

(iv) Unless a specific color is required by federal or state law, all equipment and structures must be painted with a neutral color to match the nearby surroundings as nearly as possible.

(v) To reduce noise and emissions, electric motors must be used on the gas pipeline compressor station unless the operator submits a report to the gas inspector and the gas inspector finds that electric motors cannot be used.
(vi) Internal combustion engines and compressors, whether stationary or mounted on wheels, must be equipped with an exhaust muffler or a comparable device that suppresses noise and disruptive vibrations and prevents the escape of gases, fumes, ignited carbon, or soot.

(vii) Exhaust from any internal combustion engine or compressor may not be discharged into the open air unless it is equipped with an exhaust muffler or mufflers or an exhaust muffler box constructed of non-combustible materials sufficient to suppress noise and disruptive vibrations and prevent the escape of noxious gases, fumes, ignited carbon, or soot.

(viii) Compressors must comply with the low and high frequency noise requirements in Section 51A-12.204(1), “Noise.”

(4) Municipal waste incinerator.

(A) Definition: A facility used to incinerate solid waste, other than industrial or hazardous waste, resulting from or incidental to municipal, community, institutional, and recreational activities, including, but not limited to, garbage, rubbish, ashes, street cleanings, dead animals, and abandoned automobiles.

(B) Districts permitted: By SUP only in IR and IM districts.

(C) Required off-street parking: One space per 1,000 square feet of floor area.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 50,000</td>
<td>1</td>

<td>50,000 to 100,000</td>
<td>2</td>
</tr>
<tr>
<td>Each additional 100,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) A municipal waste incinerator must front on a principal arterial.

(ii) The incinerator must be located on a lot that is no smaller than five acres in size, and be located at least 200 feet from the lot line.

(iii) The incinerator must be located at least:

(aa) 1,500 feet from all lots containing residential; public or private school; church; public park, playground, or golf course; convalescent or nursing home; medical clinic or ambulatory surgical center; and hospital uses;

(bb) two miles from all lots containing municipal and hazardous waste incinerators; and

(cc) one mile from all lots containing medical/infectious and pathological waste incinerators.

(iv) No outside storage is permitted in conjunction with this use.

(v) The area of notification for a public hearing to consider an SUP application for this use is 750 feet.

(4.1) Organic compost recycling facility.

(A) Definition: A commercial facility where the production of compost from organic materials takes place outside or in an open structure. For purposes of this definition, organic materials mean leaves, grass clippings, yard and garden debris, and brush, including clean woody vegetative material not greater than six inches in diameter that results from landscape maintenance and land-clearing operations. Tree stumps, roots, and shrubs with intact root balls are not organic materials.

(B) Districts permitted: By right in the IM district with RAR required. By SUP only in A(A) and IR districts.
(C) Required off-street parking: One space per 500 square feet of floor area.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) In an IM district, an organic compost recycling facility must be visually screened on any side that is within 200 feet of and visible from a thoroughfare or an adjacent property that is not zoned an IM district. For purposes of this paragraph, adjacent means across the street or sharing a common lot line.

(5) Outside salvage or reclamation.

(A) Definition: A facility which stores, keeps, dismantles, or salvages scrap or discarded material or equipment outside. Scrap or discarded material includes but is not limited to metal, paper, rags, tires, bottles, or inoperable or wrecked motor vehicles, motor vehicle parts, machinery, and appliances.

(B) Districts permitted: By SUP only in the IM district.

(C) Required off-street parking: The off-street parking requirement may be established in the ordinance granting the SUP, otherwise a minimum of five spaces required.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 50,000</td>

<td>50,000 to 100,000</td>
<td>2</td>
</tr>
<tr>
<td>Each additional 100,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) This use must have a visual screen of at least nine feet in height which consists of a solid masonry, concrete, or corrugated sheet metal wall, or a chain link fence with metal strips through all links.

(ii) The owner of an outside salvage or reclamation use shall not stack objects higher than eight feet within 40 feet of the visual screen. The owner of an outside salvage or reclamation use may stack objects one foot higher than eight feet for each five feet of setback from the 40 foot point.

(iii) If an inoperable or wrecked motor vehicle remains outside on the premises for more than 24 hours, the premises is an outside salvage or reclamation use. However, a premise is not an outside salvage or reclamation use if the premise stores not more than four inoperable or wrecked motor vehicles each of which having a valid state registration, current safety inspection certificate, and documentary record of pending repairs or other disposition, and if the premise has a current certificate of occupancy for a motor vehicle related use.

(iv) A minimum distance of 500 feet is required between an outside salvage or reclamation use and an R, R(A), D, D(A), TH, TH(A), CH, MF, MF(A), MH, or MH(A) district.

(5.1) Pathological waste incinerator.

(A) Definition: A facility used to incinerate organic human or animal waste, including, but not limited to:

(i) Human materials removed during surgery, labor and delivery, autopsy, or biopsy, including body parts, tissues or fetuses, organs, and bulk blood and body fluids.

(ii) Products of spontaneous human abortions, regardless of the period of gestation, including body parts, tissue, fetuses, organs, and bulk blood and body fluids.

(iii) Anatomical remains.
(iv) Bodies for cremation.

(B) Districts permitted: By SUP only in IR and IM districts.

(C) Required off-street parking: One space per 1,000 square feet of floor area.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 50,000</td>
<td>1</td>
</tr>
<tr>
<td>50,000 to 100,000</td>
<td>2</td>
</tr>
<tr>
<td>Each additional 100,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) A pathological waste incinerator must be located on a lot that is no smaller than one acre in size, and be at least 100 feet from the lot line.

(ii) The incinerator must be located at least:

(aa) 1,000 feet from all lots containing residential; public or private school; church; and public park, playground, or golf course uses;

(bb) one mile from all lots containing municipal and hazardous waste incinerators; and

(cc) one-fourth mile from all lots containing medical/infectious and pathological waste incinerators.

(iii) Reserved.

(iv) All waste must be disposed of within a 24 hour period.

(v) No outside storage is permitted in conjunction with this use.

(6) Temporary concrete or asphalt batching plant.

(A) Definition: A temporary facility for mixing cement or asphalt.

(B) Districts permitted: Special authorization by the building official is required in accordance with the additional provisions for this use.

(C) Off-street parking:

Required off-street parking: Two spaces. Off-street parking requirements for this use may be satisfied by providing temporary parking spaces that do not strictly comply with the construction and maintenance provisions for off-street parking in this chapter. The operator of this use has the burden of demonstrating to the satisfaction of the building official that the temporary parking spaces:

(i) are adequately designed to accommodate the parking needs of the use; and

(ii) will not adversely affect surrounding uses.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) A temporary certificate of occupancy is required for this use. The building official may issue a temporary certificate of occupancy in any zoning district for a temporary batching plant to mix, compound, and batch concrete, asphalt, or both, for a public or private project. The certificate is valid for six months. The building official shall deny the certificate if he determines that on-site fencing, screening, or buffering elements do not provide adequate protection for adjacent property. If the project is not completed within six months, the building official may extend the certificate to complete the project.
(ii) A person to whom a temporary certificate of occupancy is issued shall:

(aa) comply with city, state and federal laws at the batching plant site;

(bb) clear the site of equipment, material and debris upon completion of the project;

(cc) repair or replace any public improvement that is damaged during the operation of the temporary batching plant; and

(dd) locate and operate the temporary plant in a manner which eliminates unnecessary dust, noise, and odor (as illustrated by, but not limited to covering trucks, hoppers, chutes, loading and unloading devices and mixing operations, and maintaining driveways and parking areas free of dust).

(iii) A person shall only furnish concrete, asphalt, or both, to the specific project for which the temporary certificate of occupancy is issued.

(iv) The placement of a temporary batching plant for a private project is restricted to the site of the project. The board may grant a special exception to this requirement when, in the opinion of the board, the special exception will not adversely affect neighboring properties. (Ord. Nos. 19455; 19786; 20411; 20478; 21002; 21456; 22026; 22255; 22388; 22392; 24792; 25047; 26920; 28553; 28700; 28803; 29228; 29557; 29917; 30890)

SEC. 51A-4.204. INSTITUTIONAL AND COMMUNITY SERVICE USES.

(1) Adult day care facility.

(A) Definition: A facility that provides care or supervision for five or more persons 18 years of age or older who are not related by blood, marriage, or adoption to the owner or operator of the facility, whether or not the facility is operated for profit or charges for the services it offers.

(B) Districts permitted: By right in retail, CS, industrial, central area, mixed use, multiple commercial, and urban corridor districts. By right as a limited use in MF-3(A), MF-4(A), and office districts. By SUP in residential districts. [No SUP required for a limited use in MF-3(A) and MF-4(A) districts.]

(C) Required off-street parking: One space per 500 square feet of floor area.

(D) Required off-street loading:

<table>
<thead>
<tr>

<tr>
<td>thereof</td>
<td>thereof</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) The limited use regulations in this chapter are modified for this use to allow an outdoor recreation area and separate access from the main building to the recreation area.

(ii) This use must comply with statutory licensing requirements.

(iii) The persons being cared for or supervised under this use may not use the facility as a residence.

(2) Cemetery or mausoleum.

(A) Definition:

(i) A cemetery is a place designated for burial of the dead.

(ii) A mausoleum is a building with places for the entombment of the dead.
§ 51A-4.204  Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.204

(B) Districts permitted: By SUP only in all residential and nonresidential districts except the P(A) and urban corridor districts.

(C) Required off-street parking: Two spaces.

(D) Required off-street loading: None

(E) Additional provisions:

(i) Cemeteries are subject to Chapter 11 of this code.

(3) Child-care facility.

(A) Definition: A facility that provides care, training, education, custody, treatment, or supervision for persons under 14 years of age who are not related by blood, marriage, or adoption to the owner or operator of the facility, whether or not the facility is operated for profit or charges for the services it offers. This use does not include:

(i) a facility that is operated in connection with a shopping center, business, religious organization, or establishment where children are cared for during short periods while parents or persons responsible for the children are attending religious services, shopping, or engaging in other activities on or near the premises, including but not limited to retreats or classes for religious instruction;

(ii) a school or class for religious instruction that does not last longer than two weeks and is conducted by a religious organization during the summer months;

(iii) an educational facility accredited by the Central Education Agency or the Southern Association of Colleges and Schools that operates primarily for educational purposes in grades kindergarten and above;

(iv) an educational facility that operates solely for educational purposes in grades kindergarten through at least grade two, that does not provide custodial care for more than one hour during the hours before or after the customary school day, and that is a member of an organization that promulgates, publishes, and requires compliance with health, safety, fire, and sanitation standards equal to standards required by state, municipal, and county codes;

(v) a kindergarten or preschool educational program that is operated as part of a public school or a private school accredited by the Central Education Agency, that offers educational programs through grade six, and does not provide custodial care during the hours before or after the customary school day;

(vi) an educational facility that is integral to and inseparable from its sponsoring religious organization or an educational facility both of which do not provide custodial care for more than two hours maximum per day, and that offers educational programs for children age five and above in one or more of the following: kindergarten through at least grade three, elementary, or secondary grades;

(vii) a day home as defined in Section 51A-4.217; or

(viii) individuals living together as a single housekeeping unit in which not more than four individuals are unrelated to the head of the household by blood, marriage, or adoption.

(B) Districts permitted: By right in retail, CS, industrial, central area, mixed use, multiple commercial, and urban corridor districts. By right as a limited use in MF-3(A), MF-4(A), and office districts. By SUP in residential districts. [No SUP required for a limited use in MF-3(A) and MF–4(A) districts.]

(C) Required off-street parking: If an SUP is required for this use, the off-street parking requirement may be established in the ordinance granting the SUP, otherwise one space per 500 square feet of floor area.

(D) Required off-street loading:
### SQUARE FEET OF FLOOR AREA IN STRUCTURE

<table>
<thead>
<tr>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 10,000</td>
</tr>
<tr>
<td>10,000 to 60,000</td>
</tr>
<tr>
<td>Each additional 60,000 or fraction thereof</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) The limited use regulations in this chapter are modified for this use to allow an outdoor play area and separate access from the main building to the play area.

(ii) This use must comply with all applicable requirements imposed by state law.

(iii) The persons being cared for, trained, kept, treated, or supervised under this use may not use the facility as a residence.

(4) Church.

(A) Definition: A facility principally used for people to gather together for public worship, religious training, or other religious activities. This use does not include home meetings or other religious activities conducted in a privately occupied residence.

(B) Districts permitted: By right in all residential and nonresidential districts except the P(A) district.

(C) Required off-street parking:

(i) Number of spaces required. One space per 333 square feet in floor area if a church has less than 5,000 square feet of floor area and is located in a shopping center with more than 20,000 square feet in floor area, otherwise one space for each four fixed seats in the sanctuary or auditorium. If fixed benches or pews are provided, each 18 inches of length of the fixed bench or pew constitutes one fixed seat for purposes of this paragraph. If portions of seating areas in the sanctuary or auditorium are not equipped with fixed seats, benches, or pews, the parking requirement for those portions is one space for each 28 square feet of floor area.

(ii) Definitions. For purposes of this subsection, "remote parking" means required off-street parking provided on a lot not occupied by the main use.

(iii) Reconciliation with Divisions 51A-4.300 et seq. Except as otherwise expressly provided in this subsection, the off-street parking regulations in Divisions 51A-4.300 et seq. apply to this use. In the event of a conflict between this subsection and Divisions 51A-4.300 et seq., this subsection controls.

(iv) Remote parking.

(aa) Distance extension with shuttle service. A remote parking lot for a church may be located up to one and one-half miles (including streets and alleys) from the lot occupied by the church if a shuttle service is provided to transport persons between the church and the remote parking lot. The shuttle service route must be approved by the traffic engineer.

(bb) Remote parking agreement. An agreement authorizing a church to use remote parking may be based on a lease of the remote parking spaces if:

(I) the lease is for a minimum term of three years; and

(II) the agreement provides that both the owner of the lot occupied by the church and the owner of the remote lot shall notify the city of Dallas in writing if there is a breach of any provision of the lease, or if the lease is modified or terminated.
§ 51A-4.204 Dallas Development Code: Ordinance No. 19455, as amended

(D) Required off-street loading: None.

(E) Additional provisions:

(i) A church may permit passengers of mass transportation and car pools to park on the church parking lot.

(ii) The following structures, when located on top of a church building, are excluded from the height measurement of the church building:

(aa) Belfries.

(bb) Bell towers.

(cc) Campaniles.

(dd) Carillons.

(ee) Crosses.

(ff) Cupolas.

(gg) Spires.

(hh) Steeples.

(iii) A rectory, convent, or monastery is permitted as an accessory use.

(5) College, university, or seminary.

(A) Definition:

(i) A college or university is an academic institution of higher learning beyond the level of secondary school.

(ii) A seminary is an institution for the training of candidates for the priesthood, ministry, or rabbinate.

(B) Districts permitted: By right in A(A), LO(A), MO(A), GO(A), CR, RR, CS, industrial, central area, mixed use, multiple commercial, and urban corridor districts. By SUP only in single family, duplex, townhouse, CH, multifamily, NO(A), and NS(A) districts.

(C) Required off-street parking: One space per 25 square feet of classroom.

(D) Required off-street loading:

(6) Repealed. (Ord. 21044)

(7) Community service center.

(A) Definition: A multi-functional facility where a combination of social, recreational, welfare, health, habilitation, or rehabilitation services are provided to the public. For purposes of this definition, a facility where only business transactions or administrative, educational, school support, counseling, informational, referral, or out-patient medical, dental, or optical treatment services (or any combination of these activities) take place is not considered to be a community service center.

(B) Districts permitted: By right in RR, IR, and CA-2(A) districts. By SUP only in all residential, office, NS(A), CR, CS, LI, CA-1(A), mixed use, multiple commercial, and urban corridor districts.

(C) Required off-street parking: One space per 200 square feet of floor area.

(D) Required off-street loading: None.
§ 51A-4.204 Dallas Development Code: Ordinance No. 19455, as amended

(8) Convalescent and nursing homes, hospice care, and related institutions.

(A) Definition:

(i) This use includes both:

(aa) an establishment which furnishes (in single or multiple facilities) food and shelter to five or more persons who are not related by blood, marriage, or adoption to the owner or proprietor of the establishment and, in addition, provides minor treatment under the direction and supervision of a physician, or services which meet some need beyond the basic provision of food, shelter, and laundry; and

(bb) an establishment conducted by or for the adherence of any well-recognized church or religious denomination for the purpose of providing facilities for the care or treatment of the sick who depend exclusively upon prayer or spiritual means for healing, without the use of any drug or material remedy, provided safety, sanitary, and quarantine laws and regulations are complied with.

(ii) This use does not include:

(aa) a hotel or similar place that furnishes only food and lodging, or either, to its guests;

(bb) a hospital; or

(cc) an establishment that furnishes only baths and massages in addition to food, shelter, and laundry.

(B) Districts permitted: By right in multifamily, central area mixed use, and urban corridor districts. By SUP only in agricultural, TH(A), and CH districts. RAR required in multifamily and mixed use districts.

(C) Required off-street parking: 0.3 spaces per bed.

(D) Required off-street loading: One space.

(E) Additional provisions:

(i) In townhouse, RTN, CH, and multifamily districts, this use is subject to the following density restrictions:

<table>
<thead>
<tr>
<th>ZONING DISTRICT CLASSIFICATION</th>

*For purposes of this subparagraph, the term “suite” means one or more rooms designed to accommodate one family, containing living, sanitary, and sleeping facilities, but not containing a kitchen.

(ii) This use must comply with statutory licensing requirements, if any.

(iii) This use may include dwelling units that are exclusively restricted to visitors, patients, or members of the staff.

(9) Convent or monastery.

(A) Definition: The living quarters or dwelling units for a religious order or for the congregation of persons under religious vows.

(B) Districts permitted: By right in A(A), multifamily, office, retail, CS, central area, mixed use, multiple commercial, and urban corridor districts. By SUP only in single family, duplex, townhouse, and CH districts.
(11) Foster home.

(A) Definition: A facility that provides room, board, and supervision to five or more persons under 18 years of age who are not related by blood, marriage, or adoption to the owner or operator of the facility.

(B) Districts permitted: By right in CH, multifamily, CA-2(A), and mixed use districts. By SUP only in A(A), single family, duplex, townhouse, MH(A), and CA-1(A) districts.

(C) Required off-street parking: Two spaces.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) This use must comply with statutory licensing requirements.

(12) Reserved.

(13) Halfway house.

(A) Definition: A facility for the housing, rehabilitation, and training of persons on probation, parole, or early release from correctional institutions, or other persons found guilty of criminal offenses.

(B) Districts permitted: By SUP only in LI, RR, CS, MU-2, MU-2(SAH), MU-3, MU-3(SAH), and central area districts. A halfway house may not be located in a planned development district unless all of the requirements of this paragraph are met.

(C) Required off-street parking: Determined by the specific use permit. This requirement must include provision of adequate off-street parking for residents, staff, and visitors. In determining an adequate number of off-street parking spaces, the city council shall consider the degree to which allowing the use would create traffic hazards or congestion given the capacity of nearby streets, the trip generation characteristics of the use, the availability of public transit and the likelihood of its use, and the feasibility of traffic mitigation measures.

(D) Required off-street loading: Determined by the specific use permit.

(E) Additional provisions:

(i) No more than 50 residents are permitted in a halfway house. Halfway houses must be located at least 1000 feet from residential districts, single family, duplex, and multifamily uses, public parks and recreational facilities, child-care facilities, and public or private schools.

(ii) A halfway house may not be located within one mile from another halfway house.

(iii) A specific use permit for a halfway house shall be issued for a two year time period. Periodic review periods may be established as part of the specific use permit.

(iv) The treatment of alcoholic, narcotic, or psychiatric problems is allowed under this use if expressly permitted by the specific use permit.

(v) This use shall comply with all applicable city, state, and federal codes and regulations.

(vi) Halfway houses must be located within 1200 feet of mass transit service.

(vii) A halfway house specific use permit application must include evidence of meetings between the applicant and property owners within the
§ 51A-4.204 Dallas Development Code: Ordinance No. 19455, as amended

Evidence of meetings must include records reflecting the dates of the meetings, the individuals or organizations involved, and the issues discussed and resolved.

(viii) Signs identifying a use as a halfway house are not permitted.

(ix) Halfway house premises must be properly maintained in good condition at all times.

(x) A security plan must be submitted with an application for a specific use permit for a halfway house. The security plan must demonstrate compliance with the security requirements of state law. The director shall furnish a copy of security plans for halfway houses to appropriate city, county, and state agencies for their review before the commission’s consideration of an application. Provisions addressing security must be included in any ordinance granting a specific use permit for a halfway house. A compliance report must be submitted to the director every two years after the date of passage of an ordinance granting a specific use permit and with each application for renewal of a specific use permit for a halfway house.

(xi) Measurements of distance under this paragraph are taken radially. “Radial” measurement means a measurement taken along the shortest distance between the nearest point of the building site of the halfway house and the nearest point of the building site of another use, or of a zoning district boundary.

(14) Hospital.

(A) Definition: An institution where sick or injured patients are given medical treatment.

(B) Districts permitted: By right in GO(A), RR, CS, LI, IR, central area, MU-3, and MU–3(SAH) districts. By SUP only in A(A), multifamily, MO(A), CR, IM, MU-1, MU-1(SAH), MU-2, MU-2(SAH), multiple commercial, and urban corridor districts. RAR required in GO(A), RR, CS, LI, IR, MU-3, and MU-3(SAH) districts.

(C) Required off-street parking: One space for each patient bed.

(D) Required off-street loading:

<table>
<thead>
<tr>

</tbody>
</table>

(E) Additional provisions:

(i) This use must be licensed by the state as a hospital.

(15) Repealed. (Ord. 21044)

(16) Library, art gallery, or museum.

(A) Definition: An establishment for the loan or display of books or objects of art, science, or history.

(B) Districts permitted: By right in office, retail, central area, mixed use, multiple commercial, and urban corridor districts. By SUP only in residential districts.

(C) Required off-street parking: For a library, one space per 500 square feet of floor area. For an art gallery or museum, one space per 600 square feet of floor area.

(D) Required off-street loading:

<table>

</tbody>
</table>
(E) Additional provisions:

(i) This use must be sponsored by a public or quasi-public agency and open and available to the general public.

(ii) Retail sales in a library, art gallery, or museum is permitted as a limited accessory use.

(17) Public or private school.

(A) Definitions:

(i) OPEN-ENROLLMENT CHARTER SCHOOL means a public school that is operated under a charter granted under Subchapter D of Chapter 12 of the Texas Education Code.

(ii) PRIVATE SCHOOL means a school that a student may attend and thereby be exempt from state law requirements of compulsory attendance at a public school, and that exists apart from the student’s home.

(iii) PUBLIC SCHOOL means a kindergarten, elementary, or secondary educational institution that is owned or operated by a local independent school district, or operated under a charter granted under Chapter 12 of the Texas Education Code.

(B) Districts permitted:

(i) Public school other than an open-enrollment charter school: By right in A(A), office, retail, CS, central area, mixed use, multiple commercial, and urban corridor districts. By SUP only in single family, duplex, townhouse, CH, multifamily, MH(A), and industrial districts. RAR required in A(A), office, retail, CS, mixed use, multiple commercial, and urban corridor districts.

(ii) Open-enrollment charter school or private school: By SUP only in residential, office, retail, CS, industrial, central area, mixed use, multiple commercial, and urban corridor districts.

(C) Required off-street parking:

(i) One and one-half spaces for each kindergarten/elementary school classroom;

(ii) Three and one-half spaces for each junior high/middle school classroom; and

(iii) Nine and one-half spaces for each senior high school classroom.

(iv) If an SUP is required for this use, the off-street parking requirement may be established in the ordinance granting the SUP.

(D) Required off-street loading:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

(E) Additional provisions:

(i) This use does not include business, commercial, trade, or craft schools.

(ii) This use must comply with all applicable licensing requirements.

(iii) If this use is nonconforming, the board of adjustment shall not establish a compliance date for the use under Section 51A-4.704(a)(1) unless the owners of more than 50 percent of the land within 200 feet of the lot containing the school or a lot used by an entity affiliated with the school that is within 200 feet of the lot containing the school file a written petition with the board requesting that a compliance date be established. In computing the percentage of land area under this subparagraph, the area of public rights-of-way and city-owned property is excluded. The area of the lots used or owned by the school or by an entity affiliated with the school is also excluded from the computation.
§ 51A-4.204 Dallas Development Code: Ordinance No. 19455, as amended

(iv) This use, if nonconforming, may expand its total floor area by up to ten percent or 2,000 square feet, whichever is less, without obtaining an SUP. (Ord. Nos. 19455; 19786; 19913; 19931; 20037; 20159; 20493; 20731; 20752; 20845; 20920; 21044; 21442; 21663; 22026; 24271; 24718; 25047; 27495; 28096; 28424; 28803; 30890; 30896)

SEC. 51A-4.205. LODGING USES.

(1) Hotel or motel.

(A) Definition: A facility containing six or more guest rooms that are rented to occupants on a daily basis.

(B) Districts permitted:

(i) Except as otherwise provided in Subparagraphs (B)(iii) or (B)(iv), by right in MO(A), GO(A), RR, CS, LI, IR, IM, central area, MU-1, MU-1(SAH), MU-2, MU-2(SAH), MU-3, MU-3(SAH) and multiple commercial districts.

(ii) By SUP only in the CR district.

(iii) By SUP only for a hotel or motel use that has 60 or fewer guest rooms.

(iv) If an SUP is not required, RAR required in MO(A), GO(A), RR, CS, LI, IR, IM, MU-1, MU-1(SAH), MU-2, MU-2(SAH), MU-3, MU-3(SAH), and multiple commercial districts.

(C) Required off-street parking: One space for each unit for units 1 to 250; 3/4 space for each unit for units 251 to 500; 1/2 space for all units over 500; plus one space per 200 square feet of meeting room.

</table>

(E) Additional provisions:

(i) Suite hotels may have kitchens in the guest rooms.

(1.1) Extended stay hotel or motel.

(A) Definition: A lodging facility containing six or more guest rooms, in which:

(i) 25 percent or more of the guest rooms have a kitchen that includes a sink, a full-size stove, and a full-size refrigerator (a cooking area limited to a microwave, mini-refrigerator, or cook-top does not constitute a “kitchen” for purposes of this definition); and

(ii) 10 percent or more of the guest rooms contain a sleeping area that is separated from a sitting area by a wall or partition.

(B) Districts permitted: By SUP in MO(A), GO(A), RR, CS, industrial, central area, mixed use, and multiple commercial districts.

(C) Required off-street parking: One space for each unit for units 1 to 250; 3/4 space for each unit for units 251 to 500; 1/2 space for all units over 500; plus one space per 200 square feet of floor area other than guest rooms.

</table>

(E) Additional provisions:

(i) Amenities such as maids, laundry, concierge, meeting rooms, exercise rooms, pool, and business services (fax, internet, voice mail, courier, etc.) may only be provided to guests.

(2) Lodging or boarding house.

(A) Definition: A facility containing at least one but fewer than six guest rooms that are separately rented to occupants.

(B) Districts permitted: By right in MF-2(A), MF-2(SAH), MF-3(A), MF-4(A), RR, CS, LI, IR, and central area districts. By SUP only in CR and IM districts.

(C) Required off-street parking: One space for each guest room.

(D) Required off-street loading:

</tbody>
</table>

(E) Additional provisions:

(i) The operator of this use may serve meals to the occupants.

(ii) This use may not have kitchens in the guest rooms.

(2.1) Overnight general purpose shelter.

(A) Definitions: In these use regulations:

(i) BED means a piece of furniture, mat, cushion, or other device on or in which a person may lie and sleep.

(ii) OVERNIGHT GENERAL PURPOSE SHELTER means an emergency lodging facility (as opposed to a residential or medical treatment facility) that provides room and board to more than four persons who are not related by blood, marriage, or adoption to the head of the household or the owner or operator of the facility, and that negotiates sleeping arrangements on a daily basis, whether or not the facility is operated for profit or charges for the services it offers. This definition does not include:

(aa) dwelling units occupied exclusively by families (Note: Dwelling units occupied exclusively by families are considered to be single family, duplex, or multifamily uses, as the case may be); or

(bb) any other use specifically defined in this chapter.

(iii) THIS USE means an overnight general purpose shelter as defined in this paragraph.

(B) Districts permitted:

(i) If this use provides shelter for 20 or less overnight guests, it is permitted by SUP only in LO(A), MO(A), GO(A), CR, RR, CS, LI, IR, central area, MU-2, MU-2(SAH), MU-3, MU-3(SAH), and multiple commercial districts.

(ii) If this use provides shelter for more than 20 overnight guests, it is permitted by SUP only in GO(A), CS, LI, IR, and central area districts.

(C) Required off-street parking: 0.0025 spaces per bed, plus one space per 200 square feet of
office or program service floor area; a minimum of four spaces is required.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 50,000</td>

<tr>
<td>50,000 to 150,000</td>
<td>1</td>
</tr>
<tr>
<td>Each additional 100,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) The maximum number of overnight guests permitted under this use is:

(aa) 20 in LO(A), MO(A), CR, RR, MU-2, MU-3, and multiple commercial districts; and

(bb) 200 in all other cases.

(ii) The cumulative maximum number of beds permitted for all of these uses combined on building sites located wholly or partially in the central business district is 250.

(iii) The cumulative maximum number of beds permitted for all of these uses combined on building sites located wholly or partially in the area including and within one-third of a mile of the central business district is 1100.

(iv) In the event of a conflict between Subparagraphs (ii) and (iii) and the provisions of any special purpose, planned development, or conservation district ordinances, Subparagraphs (ii) and (iii) control.

(v) This use must be spaced at least 1,000 feet away from:

(aa) a church;

(bb) a public or private elementary or secondary school;

(cc) any residential use listed in Section 51A-4.209 except a “college dormitory, fraternity, or sorority house”;

(dd) any residential district, historic overlay district, or public park; and

(ee) any other overnight general purpose shelter.

If this use provides shelter for more than 50 overnight guests, it must be spaced at least one-half mile from any other overnight general purpose shelter. For purposes of these use regulations, measurement is made in a straight line, without regard to intervening structures or objects, from the nearest boundary of the building site containing the overnight general purpose shelter to the nearest boundary of the building site containing the church, public or private elementary or secondary school, or residential use, or to the nearest boundary of the residential or historic overlay district or public park, whichever is applicable. The distance between overnight general purpose shelters is measured in a straight line, without regard to intervening structures or objects, between the nearest boundaries of the building sites on which the shelters are located.

(vi) This use must be located within one-half mile of public transit.

(vii) This use must comply with all applicable licensing requirements.

(viii) The board of adjustment shall not establish a termination date for this use under Section 51A-4.704(a)(1).

(ix) Whenever an overnight general purpose shelter operating on city-owned land in full compliance with all applicable laws is, through no fault of its own, forced to vacate its current location as a result of the direct, positive, and affirmative action of the city, and if the requirements of this subparagraph are met, the shelter shall be permitted to relocate in any nonresidential district for a period of time of one year without applying for an SUP. The SUP requirement shall be suspended only if the proposed new building site is located a minimum of
§ 51A-4.205 Dallas Development Code: Ordinance No. 19455, as amended

1,000 feet from any building site containing any residential use listed in Section 51A-4.209 except a “college dormitory, fraternity, or sorority house”; and a minimum of 1,000 feet from any building site containing another shelter. All measurements shall be taken radially between the building sites in question. In addition, the shelter must obtain a certificate of occupancy and any other required licenses and approvals before it may begin operating. A shelter that relocates in accordance with this subparagraph shall not acquire any nonconforming rights during the period of suspension, and any investment made in land, buildings, or structures during that period shall be at the complete risk of the shelter that an SUP may not ultimately be granted. At or before the end of the one-year period, the shelter shall either file an application for an SUP or cease operations. A shelter that files an application for an SUP in accordance with this subparagraph may remain operating while the application is pending before the city plan commission or city council; however, if the application is denied or withdrawn, the shelter shall cease operations no later than 60 days after the date the final decision is made to deny the application, or the date the application is withdrawn, whichever is applicable.

§ 51A-4.206 MISCELLANEOUS USES.

(1) Attached non-premise sign.

(A) Definition: A “non-premise sign” as defined in Article VII that is also an “attached sign” as defined in that article.

(B) Districts permitted:

(i) By express authorization in special provision sign districts.

(ii) By express authorization and SUP only in planned development districts.

(iii) By SUP only in office, retail, CS, industrial, central area, mixed use, and multiple commercial districts.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) This use must be located in or within one mile of the central business district, and be spaced at least 1,000 feet from all other attached non-premise signs.

(ii) The effective area of this use may not exceed 25 percent of the area of the facade to which it is attached, or 672 square feet, whichever is less. No more than 10 percent of the effective area of this use may contain words, and this use may not contain more than eight words.

(iii) An SUP granted for this use must have a time limit of no more than three years, and is not eligible for automatic renewal.

(iv) These use regulations cannot be modified in an ordinance establishing or amending regulations governing a planned development district.

(v) Subparagraphs (i), (ii), and (iii) do not apply when this use is expressly authorized in a special provision sign district.

(vi) No certificate of occupancy is required for this use.

(2) Carnival or circus (temporary).

(A) Definition: A temporary traveling show or exhibition that has no permanent structure or installation.

(B) Districts permitted: Special authorization by the building official as approved in Resolution No. 65-1854.
(C) Required off-street parking: 25 spaces per acre.

(D) Required off-street loading: One space.

(E) Additional provisions:
   (i) Off-street parking and loading requirements for this use may be satisfied by using existing parking and loading spaces for other uses located within 500 feet of the carnival or circus, or by providing temporary parking spaces that do not strictly comply with the construction and maintenance provisions for off-street parking in this chapter. The operator of this use has the burden of demonstrating to the satisfaction of the building official that the temporary parking and loading spaces:
      (aa) are adequately designed to accommodate the parking and loading needs of the use; and
      (bb) will not adversely affect surrounding uses.

(3) Detached non-premise sign.

(A) Definition: A “non-premise sign” as defined in Article VII that is also a “detached sign” as defined in that article.

(B) Districts permitted: See Section 51A-7.306.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Additional provisions:
   (i) Legal and non-conforming detached non-premise signs may be relocated under certain circumstances. See Section 51A-7.307.

(ii) No certificate of occupancy is required for this use.

(4) Hazardous waste management facility.

(A) Definition: A facility for which a person is required to obtain a hazardous waste permit from the Texas Water Commission pursuant to the Texas Solid Waste Disposal Act (Chapter 361 of the Texas Health and Safety Code). The term “hazardous waste permit” means that permit required to be obtained from the Texas Water Commission pursuant to Section 361.082 of that Act for the processing, storage, or disposal of hazardous waste. In accordance with that Act:

   (i) DISPOSAL means the discharging, depositing, injecting, dumping, spilling, leaking, or placing of hazardous waste, whether containerized or uncontainerized, into or on land or water so that the hazardous waste or any constituent thereof may be emitted into the air, discharged into surface water or groundwater, or introduced into the environment in any other manner.

   (ii) FACILITY means all contiguous land, including structures, appurtenances, and other improvements on the land, used for the processing, storage, or disposal of hazardous waste on the building site.

   (iii) HAZARDOUS WASTE means solid waste, as defined by state law, identified or listed as hazardous waste by the administrator of the United States Environmental Protection Agency under the Federal Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act of 1976, as amended (42 U.S.C. Section 6901 et seq.).

   (iv) PROCESSING means the extraction of materials from or the transfer, volume reduction, conversion to energy, or other separation and preparation of hazardous waste for reuse or disposal. The term includes the treatment or neutralization of hazardous waste designed to change the physical, chemical, or biological character or
composition of a hazardous waste so as to neutralize the waste, recover energy or material from the waste, render the waste nonhazardous or less hazardous, make it safer to transport, store, or dispose of, or render it amenable for recovery or storage, or reduce its volume. The term does not include activities concerning those materials exempted by the administrator of the United States Environmental Protection Agency under the federal Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act of 1976, as amended (42 U.S.C. Section 6901 et seq.), unless the Texas Water Commission or the Texas Department of Health determines that regulation of the activity under the Texas Solid Waste Disposal Act is necessary to protect human health or the environment.

(v) STORAGE means the temporary holding of hazardous waste, after which the waste is processed, disposed of, or stored elsewhere. [Note: The term “temporary holding” in this definition is subject to interpretation by the Texas Water Commission.]

(B) Districts permitted: By right in the IM district when operated as a hazardous waste incinerator; otherwise by right in IR and IM districts.

(C) Required off-street parking: One space per 1,000 square feet of floor area.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 50,000</td>
<td>NONE</td>
</tr>
<tr>

<td>2</td>
</tr>
<tr>
<td>Each additional 100,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) This use must fully comply with all applicable local, state, and federal laws and regulations.

(ii) This use must not be located within 1,000 feet of an established residence, church, school, or dedicated public park which is in use at the time the notice of intent to file a hazardous waste permit application is filed with the Texas Water Commission, or if no such notice is filed, at the time the permit application is filed with the commission.

(iii) This use shall at all times be considered a separate main use. This use cannot be an accessory use within the meaning of Section 51A-4.217.

(iv) When operated as a hazardous waste incinerator, this use must front on a principal arterial and be located:

(aa) on a lot that is no smaller than five acres in size;

(bb) at least 200 feet from the lot line;

(cc) at least two miles from all lots containing municipal and hazardous waste incinerators;

(dd) at least one mile from all lots containing medical/infectious and pathological waste incinerators; and

(ee) at least 1,500 feet from all lots containing residential; public or private school; church; public park, playground, or golf course; convalescent or nursing home; medical clinic or ambulatory surgical center; and hospital uses.

(v) No outside storage is permitted in conjunction with this use when it is operated as a hazardous waste incinerator.

(vi) In the event of a conflict between these use regulations and any other provision in this chapter, these use regulations control.

(5) Placement of fill material.

(A) Definition: The placement or deposit of fill material, which is composed of
nonhazardous earth material. This does not include industrial or municipal waste as defined in Chapter 18 of the Dallas City Code, as amended or solid waste as defined in 51A-2.102 of the Dallas Development Code, as amended. For the purposes of this paragraph:

(i) Hazardous earth material means: earth material containing hazardous material, as defined in Title 49 of the Code of Federal Regulations.

(B) Districts permitted: Except as otherwise provided in this paragraph, by SUP in all districts.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) In addition to the findings required by Section 51A-4.219 of this chapter, a specific use permit may not be granted for this use except upon a finding that the placement of fill material:

(aa) will not adversely affect surrounding uses;  

(bb) will be conducted in a manner which eliminates unnecessary dust, noise and odor;  

(cc) will not damage any public improvement or public infrastructure as a result of the filling operation;  

(dd) will not be placed in a flood plain, escarpment or geologically similar area unless authorized in accordance with the Dallas City Code;  

(ee) will not alter drainage of the property that adversely affects the site or adjacent properties;  

(ff) will be accomplished with safe and adequate ingress and egress to the site; and

(gg) will not damage or destroy any protected trees during the filling operation unless mitigation measures are provided in accordance with Article X of the Dallas Development Code.

(ii) Automatic renewal. A specific use permit granted for this use is not eligible for automatic renewal.

(iii) Exemptions from the specific use permit requirement. Placement of fill material is permitted by right in all districts if it:

(aa) is incidental to on-site filling operations necessary to the development of a subdivision pursuant to an approved plat and a private development contract executed with the city;  

(bb) is for the site where the filling is being done and in connection with one of the following approved permits: permit for construction, fill permit, escarpment permit, excavation permit, or landscape permit;  

(cc) is incidental to on-site filling operations necessary for governmental or utility construction projects such as streets, alleys, drainage, gas, electrical, water, cable, and telephone facilities, and similar projects;  

(dd) is incidental to on-site filling operations necessary to the construction of paving for parking areas and similar activities consistent with the allowed land use; or  

(ee) does not exceed five truck loads or 50 cubic yards of fill material, whichever is less, during any 12 month period. For purposes of this provision, a truck is defined as a truck-tractor, road tractor, semi-trailer, trailer or truck with a rated capacity in excess of one and one-half tons according to the manufacturer’s classification.

Note: If the placement of fill material exceeds the level stated above in provision (E)(iii)(ee) and does not qualify for an
§ 51A-4.207  Dallas Development Code: Ordinance No. 19455, as amended

exemption, the operator of the use must file an application for a specific use permit.

(iv) Operations plan. An applicant shall submit to the director of sustainable development and construction an operations plan which includes:

(aa) hours of operation;

(bb) location and depth of fill;

(cc) fences or any other barriers necessary for safety and screening;

(dd) drainage and erosion control measures, if required;

(ee) means for protection of trees;

(ff) truck routes to be used (usage of truck routes must be in compliance with Article X of Chapter 28 of the Dallas City Code);

(gg) the length of time necessary to complete the filling;

(hh) sufficient ingress and egress to and from the site; and

(ii) any other information the director determines is reasonably necessary for a complete review of the proposed filling operations.

(v) Illegally deposited material. Any material illegally deposited in the placement of fill material must be removed within 60 days after notice from the director of the Department of Streets, Sanitation and Code Enforcement.

(6) Temporary construction or sales office.

(A) Definition: A facility temporarily used as a construction or sales office.

(B) Districts permitted: By right in all residential and nonresidential districts except the P(A) district.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) A temporary construction or sales office must be located on a platted lot or on a site that is part of a preliminary plat approved by the commission.

(ii) The building official shall issue a temporary certificate of occupancy for a period of one year for a temporary construction or sales office. The building official may grant up to four extensions of six months each to the certificate of occupancy for a construction office if the builder maintains active or continuous construction on the site or within the subdivision, and for a sales office if a minimum of ten lots in the subdivision are unsold.

(iii) A temporary construction or sales office may not be located in another subdivision or used for construction or sales in another subdivision. (Ord. Nos. 19455; 19786; 20478; 20493; 21002; 22996; 23239; 24232; 25047; 28073; 30890)

SEC. 51A-4.207. OFFICE USES.

(1) Alternative financial establishment.

(A) Definitions: In this paragraph:

(i) ALTERNATIVE FINANCIAL ESTABLISHMENT means a car title loan business or money services business. An alternative financial establishment does not include state or federally chartered banks, community development financial institutions, savings and loans, credit unions, or
regulated lenders licensed in accordance with Chapter 342 of the Texas Finance Code. If a regulated lender licensed in accordance with Chapter 342 of the Texas Finance Code also offers services as a credit access business under Chapter 393 of the Texas Finance Code, that business is an alternative financial establishment.

(ii) CAR TITLE LOAN BUSINESS means an establishment that makes small, short-term consumer loans secured by a title to a motor vehicle.

(iii) MONEY SERVICES BUSINESS means a business that provides or assists a consumer in obtaining a payday cash advance, payroll advance, short-term cash loan, short term cash advance, instant payday cash advance, short-term money loan services, or similar services to individuals for a specified fee.

(B) Districts permitted: By SUP only in all nonresidential districts except the NO(A), NS(A), MU-1, MU-1(SAH), UC-1, and P(A) districts.

(C) Required off-street parking: One space per 333 square feet of floor area.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 50,000</td>
<td>NONE</td>
</tr>
<tr>
<td>50,000 to 150,000</td>
<td>1</td>
</tr>
<tr>
<td>Each additional 100,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) No alternative financial establishment may be located within 1,500 feet, measured from property line to property line, of any other alternative financial establishment.

(ii) No alternative financial establishment may be located within 300 feet, measured from property line to property line, of a lot in a residential district.

(iii) An alternative financial establishment may only be a main use that requires a specific use permit and a certificate of occupancy. An alternative financial establishment may not be an accessory use within the meaning of Section 51A-4.217.

(2) Financial institution without drive-in window.

(A) Definition: A facility for the extension of credit and the custody, loan, or exchange of money which does not provide drive-in window service for customers. A financial institution without drive-in window includes regulated lenders licensed in accordance with Chapter 342 of the Texas Finance Code, but does not include lenders that also offer any services as credit access businesses under Chapter 393 of the Texas Finance Code.

(B) Districts permitted: By right in all nonresidential districts except the P(A) district.

(C) Required off-street parking: One space per 333 square feet of floor area.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 50,000</td>
<td>NONE</td>
</tr>
<tr>
<td>50,000 to 150,000</td>
<td>1</td>
</tr>
<tr>
<td>Each additional 100,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(3) Financial institution with drive-in window.

(A) Definition: A facility for the extension of credit and the custody, loan, or exchange of money which provides drive-in window service for customers in motor vehicles. A financial institution with drive-in window includes regulated lenders licensed in accordance with Chapter 342 of the Texas Finance Code, but does not include lenders that also offer any services as credit access businesses under Chapter 393 of the Texas Finance Code.
Finance Code, but does not include lenders that also offer any services as credit access businesses under Chapter 393 of the Texas Finance Code.

(B) Districts permitted: By right in MO(A), GO(A), CR, RR, CS, industrial, central area, mixed use, and multiple commercial districts. By SUP only in LO(A) districts. DIR required in MO(A), GO(A), CR, RR, mixed use, central area, and multiple commercial districts. RAR required in CS and industrial districts.

(C) Required off-street parking: One space per 333 square feet of floor area. See the additional provisions [Subparagraph (E)] for off-street stacking requirements.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 50,000</td>
<td>NONE</td>
</tr>
<tr>
<td>50,000 to 150,000</td>
<td>1</td>
</tr>
<tr>
<td>Each additional 100,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) The following off-street stacking requirements apply to this use (See Section 51A-4.304 for more information regarding off-street stacking spaces generally):

(aa) The total number of stacking spaces required for teller windows or stations is as follows:

<table>
<thead>
<tr>
<th>NO. OF TELLER WINDOWS OR STATIONS</th>
<th>TOTAL NUMBER OF STACKING SPACES REQUIRED</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>5</td>
</tr>
<tr>
<td>2</td>
<td>10</td>
</tr>
<tr>
<td>3</td>
<td>15</td>
</tr>
<tr>
<td>4</td>
<td>18</td>
</tr>
<tr>
<td>Each additional teller window or station</td>
<td>3 additional</td>
</tr>
</tbody>
</table>

(bb) For purposes of Subparagraph (aa), the term “teller window or station” means a location where customers in motor vehicles transact business with an employee of the financial institution by deal drawer or through the use of a pneumatic tube system or equivalent.

(cc) Each unmanned transaction station must have a minimum of two stacking spaces. For purposes of this subparagraph, the term “unmanned transaction station” means a location where customers in motor vehicles transact business with a machine.

(4) Medical clinic or ambulatory surgical center.

(A) Definition: A facility for examining, consulting with, and treating patients with medical, dental, or optical problems on an out-patient basis.

(B) Districts permitted: By right in all nonresidential districts except the P(A) district.

(C) Required off-street parking: One space per 200 square feet of floor area.
(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 50,000</td>
<td>NONE</td>
</tr>
<tr>
<td>50,000 to 150,000</td>
<td>1</td>
</tr>
<tr>
<td>Each additional 100,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) Offices and laboratories are permitted as accessory uses.

(5) Office.

(A) Definition: A place for the regular transaction of business.

(B) Districts permitted: By right in all nonresidential districts except the P(A) district.

(C) Required off-street parking: One space per 333 square feet of floor area.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 50,000</td>
<td>NONE</td>
</tr>
<tr>
<td>50,000 to 150,000</td>
<td>1</td>
</tr>
<tr>
<td>Each additional 100,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) Retail sales, the transfer of manufactured goods, or the storage of commodities is not permitted except as a limited accessory use. (Ord. Nos. 19455; 19786; 19806; 20493; 21001; 28214; 29208; 29589; 30890)

SEC. 51A-4.208. RECREATION USES.

(1) Country club with private membership.

(A) Definition: A private recreational club containing a golf course and a club house that is available only to the country club membership and their guests.

(B) Districts permitted: By right in CH, multifamily, MH(A), and all nonresidential districts except the P(A), and urban corridor districts. By SUP only in A(A), single family, duplex, and townhouse districts. RAR required in CH, multifamily, and MH(A) districts.

(C) Required off-street parking: If an SUP is required for this use, the off-street parking requirement may be established by the ordinance granting the SUP, otherwise three spaces for each game court, one space for each additional 150 square feet of floor area, and five spaces for each golf course green.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) This use may contain a private bar, dining room, a swimming pool, and tennis courts and similar services and recreational facilities.

(2) Private recreation center, club, or area.

(A) Definition: An area providing private recreational facilities such as playgrounds, parks, game courts, swimming pools, and playing fields.

(B) Districts permitted: By right in GO(A), CR, RR, CS, industrial, central area, mixed use, multiple commercial, UC-2 and UC-3 districts. By SUP only in all residential districts except MH(A), and in NO(A), LO(A), MO(A), and NS(A) districts.

(C) Required off-street parking: If an SUP is required for this use, the off-street parking
requirement may be established by the ordinance granting the SUP, otherwise three spaces for each game court and one space for each additional 150 square feet of floor area.

(D) Required off-street loading: None.

(3) Public park, playground, or golf course.

(A) Definition: Land planned, developed, or used for active or passive recreational use by the public that is owned or operated by a public agency for those purposes.

(B) Districts permitted: By right in all residential and nonresidential districts except the P(A) district. DIR required in urban corridor districts.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Additional provisions.

(i) Lighting standards for this use for facilities other than parking may:

(aa) be built to any height below the residential proximity slope; or

(bb) project above the residential proximity slope to a height not to exceed 40 feet. This provision is an exception to the maximum structure height that would otherwise apply in the zoning district.

(ii) Lighting standards for this use for parking facilities must not exceed 20 feet in height.

(iii) Spillover light on neighboring residential lots must not exceed 0.1 footcandle measured at a point five feet inside the residential lot line and five feet above the ground surface.

(iv) The board may grant a special exception to the height restrictions applicable to lighting standards for this use upon making a special finding from the evidence presented that:

(aa) strict compliance with those restrictions will unreasonably burden the use of the property; and

(bb) the special exception will not adversely affect neighboring property. The board shall not grant a special exception to the spillover light restriction in Subparagraph (iii).

(v) The heights of nonconforming lighting standards for this use may be increased by up to 10 percent without board approval, provided that the spillover light restriction in Subparagraph (iii) is complied with. The cumulative additional height authorized by this subparagraph is 10 percent of the height of the lighting standard at the time it became nonconforming. (Ord. Nos. 19455; 19786; 20344; 20384; 20493; 24718; 27183; 28803; 30890)

SEC. 51A-4.209. RESIDENTIAL USES.

(a) General provisions. Notwithstanding any other provision in this chapter, a facility that meets all of the requirements of Article 1011n, V.T.C.A., may locate in any residential zone or district in the city as a matter of right. Unless otherwise directed by the city attorney, the building official and any other city officer or employee charged with enforcement of this chapter shall construe Article 1011n by substituting Congress’ definition of a handicapped person in the Fair Housing Amendments Act of 1988, as amended, for the state’s definition of “disabled person” in that article.

(b) Specific uses.

(1) College dormitory, fraternity, or sorority house.

(A) Definition: A college resident hall or a facility for housing a social or service organization of college students.

(B) Districts permitted: By right in A(A), multifamily, MH(A), LO(A), MO(A), GO(A), CR,
RR, CS, central area, mixed use, and multiple commercial districts. By SUP only in NO(A), NS(A), and urban corridor districts.

(C) Required off-street parking: One space for each sleeping room.

(D) Required off-street loading: One space.

(2) Duplex.

(A) Definition: Two dwelling units located on a lot.

(B) Districts permitted: By right in duplex, townhouse, CH, MF-1(A), MF-1(SAH), MF-2(A), MF-2(SAH), central area, and mixed use districts. By right as a restricted component of a building in the GO(A) district. [See Section 51A-4.121(d).]

(C) Required off-street parking: Two spaces per dwelling unit.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) Only one main building may be placed on a building site under this use.

(ii) In a duplex district, a lot for a duplex use may be supplied by not more than one electrical utility service and metered by not more than two electrical meters. The board of adjustment may grant a special exception to authorize more than one electrical utility service or more than two electrical meters on a lot for a duplex use in a duplex district when, in the opinion of the board, the special exception will:

(aa) not be contrary to the public interest;

(bb) not adversely affect neighboring properties; and

(cc) not be used to conduct a use not permitted in the district where the building site is located.

(iii) In addition to any other applicable regulations, industrialized housing must comply with the following additional provisions. For purposes of this subparagraph, “industrialized housing” means industrialized housing as defined by Section 1202.002 of the Texas Occupations Code, as amended.

(aa) Industrialized housing must have all local permits and licenses that are applicable to other single family or duplex dwellings.

(bb) Industrialized housing must have a value equal to or greater than the median taxable value of each single family dwelling located within 500 feet of the lot on which the industrialized housing is proposed to be located, as determined by the most recent certified tax appraisal roll of the appraisal district. For purposes of this subparagraph, the “value” of the industrialized housing means the taxable value of the industrialized housing and the lot after installation of the industrialized housing.

(cc) Industrialized housing must comply with municipal aesthetic standards; yard, lot, and space regulations; subdivision regulations; and

(dd) Industrialized housing must have exterior siding, roofing, roof pitch, foundation fascia, and fenestration compatible with the single family dwellings located within 500 feet of the lot on which the industrialized housing is proposed to be located. “Compatible” as used in this subparagraph means similar in application, color, materials, pattern, quality, shape, size, slope, and other characteristics; but does not necessarily mean identical. The burden is on the property owner or applicant to supply proof of compatibility. The property owner or applicant may appeal a decision of the building official to deny a permit due to lack of compatibility to the board of adjustment.
§ 51A-4.209 Dallas Development Code: Ordinance No. 19455, as amended

landscaping; and any other regulations applicable to single family dwellings.

(ee) Industrialized housing must be securely fixed to a permanent foundation.

(ff) Industrialized housing may not be constructed in a historic overlay district unless the industrialized housing conforms to the preservation criteria of the historic overlay district.

(gg) Industrialized housing may not be constructed in a conservation district unless the industrialized housing conforms to the conservation district regulations.

(hh) Industrialized housing may not be constructed unless it complies with public deed restrictions for the property.

3 Group residential facility.

(A) Definition: An interim or permanent residential facility (as opposed to a lodging or medical treatment facility) that provides room and board to a group of persons who are not a “family” as that term is defined in this chapter, whether or not the facility is operated for profit or charges for the services it offers. This use does not include:

(i) facilities that negotiate sleeping arrangements on a daily basis;

(ii) dwelling units occupied exclusively by families (Note: Dwelling units occupied exclusively by families are considered to be single family, duplex, or multifamily uses, as the case may be); or

(iii) any other use specifically defined in this chapter.

(B) Districts permitted: When located at least 1,000 feet from all other group residential facilities and licensed handicapped group dwelling units (as defined in this chapter), by right in CH, multifamily, central area, and mixed use districts; otherwise, by SUP only in the same districts. For purposes of this provision, the term “licensed” means licensed by the Texas Department of Human Services, or its successor, and the distance between uses is measured in a straight line, without regard to intervening structures or objects, between the nearest boundaries of the building sites on which the uses are located. (Note: The spacing component of these use regulations is based, not on the handicapped status of the residents, but on the non-family status of the groups. [See Section 51A-1.102(b)(2).] By SUP only in urban corridor districts.

(C) Required off-street parking: 0.25 spaces per bed, plus one space per 200 square feet of office area; a minimum of four spaces is required. If an SUP is required for this use, the off-street parking requirement may be established in the ordinance granting the SUP. In determining this requirement, the city council shall consider the nature of the proposed use and the degree to which the use would create traffic hazards or congestion given the capacity of nearby streets, the trip generation characteristics of the use, the availability of public transit and the likelihood of its use, and the feasibility of traffic mitigation measures.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) This use is subject to the following density restrictions:
§ 51A-4.209 Dallas Development Code: Ordinance No. 19455, as amended

*For purposes of this subparagraph, the term “suite” means one or more rooms designed to accommodate one family, containing living, sanitary, and sleeping facilities, but not containing a kitchen; and the term “bed” means a piece of furniture, mat, cushion, or other device on or in which one may lie and sleep.

(ii) This use must comply with statutory licensing requirements, if any.

(iii) This use may include dwelling units or suites that are exclusively restricted to visitors or members of the staff.

(3.1) Handicapped group dwelling unit.

(A) Definitions:

(i) DOMICILE means the legal, established, fixed, and permanent place of residence of a person, as distinguished from a temporary and transient, though actual, place of residence.

(ii) HANDICAPPED GROUP DWELLING UNIT means a single dwelling unit that is the domicile of not more than eight handicapped persons who are not a “family” as that term is defined in this chapter, and who are living together as a single housekeeping unit. Up to two supervisory personnel may reside on the premises, provided that the total number of residents, including supervisory personnel, does not exceed eight.

(iii) HANDICAPPED PERSON means a handicapped person as defined in the federal Fair Housing Amendments Act of 1988, as amended.

(iv) LICENSED means licensed by the Texas Department of Human Services, or its successor.

(B) Districts permitted: When located at least 1,000 feet from group residential facilities and all other licensed handicapped group dwelling units (as defined in this chapter), by right in the following districts: agricultural, single family, duplex, townhouse, CH, MF-1(A), MF-1(SAH), MF-2(A), MF-2(SAH), MH(A), GO(A), central area, MU-1, and MU-1(SAH) districts; otherwise, by SUP only in the same districts. In the GO(A) district, the total floor area of this use in combination with all single family, duplex, and multifamily uses may not exceed five percent of the total floor area of the building in which the use is located. For purposes of this provision, the distance between uses is measured in a straight line, without regard to intervening structures or objects, between the nearest boundaries of the building sites on which the uses are located. (Note: The spacing component of these use regulations is based, not on the handicapped status of the residents, but on the non-family status of the groups.) By SUP only in urban corridor districts.

(C) Required off-street parking: One space in R-7.5(A), R-5(A), and TH districts; two spaces in all other districts. If an SUP is required for this use, the off-street parking requirement may be established in the ordinance granting the SUP. In determining this requirement, the city council shall consider the nature of the proposed use and the degree to which the use would create traffic hazards or congestion given the capacity of nearby streets, the trip generation characteristics of the use, the availability of public transit and the likelihood of its use, and the feasibility of traffic mitigation measures.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) No certificate of occupancy is required for this use.
(ii) This use liberalizes current restrictions on the number of unrelated persons who may reside together in a dwelling unit in the city for the exclusive benefit of handicapped persons seeking to permanently reside together as a single housekeeping unit. Its purpose is to comply with the substance and spirit of the federal Fair Housing Amendments Act of 1988, as amended, which requires that reasonable accommodations be made in rules, policies, and practices to permit persons with handicaps equal opportunity to use and enjoy a dwelling. [See Section 51A-1.102(b)(2).]

(iii) This use is exempt from payment of SUP application fees.

(iv) Any owner of property on which this use is located or proposed to be located may request a letter from the director confirming that no SUP is required for the use. No fee is required to apply for such a letter. Application must be on a form furnished by the director. The director shall issue the requested letter unless, within 30 days after submission of a complete application, the director gives written notice to the applicant that the use or proposed use will require an SUP. For purposes of this paragraph, notice is given to the applicant by depositing the same properly addressed and postage paid in the United States mail. The proper address for purposes of this notice requirement is the address provided by the applicant on the application. No SUP shall be required for uses that operate in justifiable reliance upon a valid confirmation letter issued by the director.

(v) Any aggrieved person may appeal a decision of the director that an SUP is required for this use. Such appeals shall be heard and decided by the board of adjustment. An appeal to the board must be made within 15 days after the director gives written notice that the SUP is required. Appeal is made by filing a written notice of appeal on a form approved by the board. [See Section 51A-4.703.] No fee is required to appeal the decision of the director to the board.

(vi) If two or more facilities are within 1,000 feet of each other and otherwise in permissible locations, the first one lawfully established and continually operating thereafter is the conforming use. For purposes of this subparagraph, “continually operating” means that the use has not been discontinued for six months or more.

(4) Manufactured home park, manufactured home subdivision, or campground.

(A) Definition:

(i) A manufactured home park is a unified development of transient stands arranged on a lot under single ownership.

(ii) A manufactured home subdivision is a plat designed specifically for manufactured home development.

(iii) A campground is a lot used to accommodate recreation vehicles, tents, or manufactured homes on a rental basis for temporary camping purposes.

(B) Districts permitted: By right in the MH(A) district.

(C) Required off-street parking: 1.5 spaces for each transient stand for a manufactured home park or campground; 1.5 spaces for each lot in a manufactured home subdivision.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) The owner of a manufactured home park must have a site plan approved by the commission before the building official may issue a building permit for the manufactured home park. The site plan must include the dimensions, bearings, and street frontage of the property; the location of buildings, structures, lots, stands, and uses; the method of ingress and egress; off-street parking and loading arrangements; screening, lighting, and landscaping, if appropriate; and any other information the director determines necessary for a complete review of the proposed development.
§ 51A-4.209 Dallas Development Code: Ordinance No. 19455, as amended

(ii) The owner of a manufactured home subdivision must have a plat approved by the commission and filed in the county records before the building official may issue a building permit for the manufactured home subdivision.

(iii) One caretaker’s dwelling unit and one office is permitted under this use.

(iv) Uses that are customarily incidental to this use, including an employee’s washroom, a manager’s office, laundry room, swimming pool, and game courts are permitted provided they are located no closer than 50 feet to an R, R(A), D, D(A), TH, or TH(A) district. The game courts, laundry room, and swimming pool must be for the exclusive use of the residents and their guests. No exterior advertising of the uses is permitted.

(v) The owner under this use must provide and maintain a permanent steel chain link fence or its equivalent. The fence must be at least five feet in height and must completely surround the rear and all sides of this use that are not exposed to a dedicated street.

(vi) Open playground space must be provided under this use at a ratio of 500 square feet of open space for each of the first 20 lots or transient stands provided, and at a ratio of 250 square feet for all additional lots or transient stands.

(vii) This use must comply with the requirements of Chapter 47 of this code.

(5) **Multifamily.**

(A) Definitions: Three or more dwelling units located on a lot.

(B) Districts permitted: By right in CH, multifamily, central area, mixed use, and urban corridor districts. By right as a restricted component of a building in the GO(A) district. [See Section 51A–4.121(d).]

(C) Off-street parking.

Required off-street parking: One space per bedroom with a minimum of one space per dwelling unit. An additional one-quarter space per dwelling unit must be provided for guest parking if the required parking is restricted to resident parking only. No additional parking is required for accessory uses that are limited principally to residents.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) Uses that are customarily incidental to the multifamily use and that include an employee’s washroom, a manager’s office, laundry room, swimming pool, and game courts are permitted provided they are located no closer than 50 feet to an R, R(A), D, D(A), TH, or TH(A) district. The game courts, laundry room, and swimming pool must be for the exclusive use of the residents and their guests. No exterior advertising of the uses is permitted.

(ii) The minimum space between exterior walls of a multifamily dwelling must be 10 feet between the walls if only one wall has an opening for light and air and 20 feet if both walls have an opening for light and air. This provision applies to multifamily buildings with a common roof and free standing multifamily buildings. This provision does not apply to walls located entirely within a dwelling unit.

(iii) This use does not include a hotel or motel.

(5.1) **Residential hotel.**

(A) Definition: A facility that receives more than 50 percent of its rental income from occupancies of 30 consecutive days or more and contains:

(i) six or more guest rooms with living and sleeping accommodations, but no kitchen or kitchenette;
(ii) six or more guest rooms with living, sleeping, and kitchen or kitchenette facilities that are offered for rental on a daily basis; or

(iii) six or more guest rooms with living and sleeping accommodations, each of which is individually secured and rented separately to one or more individuals who have access to bathroom, kitchen, or dining facilities outside the guest room on a common basis with other occupants of the structure.

(B) Districts permitted: By right in MF-2(A), MF-2(SAH), MF-3(A), MF-4(A), central area, and mixed use districts when located at least one mile, measured from property line to property line, from all other residential hotel uses.

(C) Required off-street parking: 0.5 spaces per guest room.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) This use is subject to the regulations in Article VII of Chapter 27 of the Dallas City Code, as amended.

(ii) For a use holding an occupancy record card pursuant to Chapter 27 on August 10, 1994, the nonconformity as to the minimum distance requirement set out in Subparagraph (B) does not render it subject to amortization by the board of adjustment.

(iii) The operator of this use shall maintain a registry showing the name, address, date of arrival, and date of departure of each guest. The operator of this use shall make the registry available to the building official.

(5.2) Retirement housing.

(A) Definition: A residential facility principally designed for persons 55 years of age or older. This use does not include a “convalescent and nursing homes, hospice care, and related institutions” use, which is defined as a separate main use in Section 51A-4.204(8).

(B) Districts permitted: By right in CH, multifamily, central area, and mixed use districts. By SUP only in townhouse and urban corridor districts.

(C) Required off-street parking: One space per dwelling unit or suite.

(D) Required off-street loading:

(E) Additional provisions:

(i) In these regulations:

(aa) ELDERLY RESIDENT means a resident that is 55 years of age or older.

(bb) SUITE means one or more rooms designed to accommodate one family containing living, sanitary, and sleeping facilities, but not containing a kitchen.

(ii) In townhouse, RTN, CH, and multifamily districts, this use is subject to the following density restrictions:
§ 51A-4.209 Dallas Development Code: Ordinance No. 19455, as amended

(iii) Except as otherwise provided in Subparagraphs (iv) and (v), each occupied dwelling unit or suite must have at least one elderly resident. Failure to comply with this provision shall result in the facility being reclassified as another residential or lodging use.

(iv) One dwelling unit or suite may be designated as a caretaker unit whose occupants are not subject to the age restriction in Subparagraph (iii).

(v) Those persons legally re-siding with an elderly resident at the facility may continue to reside at the facility for a period not to exceed one year if the elderly resident dies or moves out for medical reasons. The board may grant a special exception to authorize an extension of the length of time a person may continue to reside at the facility if the board finds, after a public hearing, that literal enforcement of this provision would result in an unnecessary personal hardship. In determining whether an unnecessary personal hardship would result, the board shall consider the following factors:

(aa) The physical limitations of the resident, if any.

(bb) Any economic constraints which would make it difficult for the resident to relocate.

(cc) Whether the resident is dependent on support services or special amenities provided by the retirement housing project.

(dd) Whether there are any alternative housing or market constraints which would impair the ability to relocate.

(vi) No use with exterior advertising or signs may be considered accessory to this use.

(6) Single family.

(A) Definition: One dwelling unit located on a lot.

(B) Districts permitted: By right in agricultural, single family, duplex, townhouse, CH, MF-1(A), MF-1(SAH), MF-2(A), MF-2(SAH), MH(A), central area, MU-1, and MU-1(SAH) districts. By right as a restricted component of a building in the GO(A) district. [See Section 51A-4.121(d).]

(C) Required off-street parking: One space in R-7.5(A), R-5(A), and TH districts; two spaces in all other districts.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) Additional dwelling unit. The board of adjustment may grant a special exception to authorize an additional dwelling unit in any district when, in the opinion of the board, the additional dwelling unit will not:

(aa) be used as rental accommodations; or

(bb) adversely affect neighboring properties.

(ii) In granting a special exception under Subparagraph (i), the board shall require the applicant to deed restrict the subject property to prevent use of the additional dwelling unit as rental accommodations.
(iii) **Accessory dwelling unit.**

(aa) The board of adjustment may grant a special exception to authorize a rentable accessory dwelling unit in any district when, in the opinion of the board, the accessory dwelling unit will not adversely affect neighboring properties.

(bb) If a minimum of one additional off-street parking space is not provided, the board shall determine if that will create a traffic hazard. The board may require an additional off-street parking space be provided as a condition of granting this special exception.

(cc) In granting a special exception under this subparagraph, the board shall require the applicant to:

(I) deed restrict the subject property to require owner-occupancy on the premises; and

(II) annually register the rental property with the city's single family non-owner occupied rental program.

(iv) **Dwelling units in general.**

(aa) Except for the foundation, a dwelling unit must be physically separable from contiguous dwelling units in the event of removal of a dwelling unit. Each party wall must be governed by a set of deed restrictions, stipulating that if a dwelling unit is removed, the party wall stays with the remaining dwelling unit.

(bb) Each dwelling unit must have separate utility services; however, general utility services on land owned and maintained by a homeowner's association is allowed.

(v) **Utility meters.** In a single family, duplex, or townhouse district, a lot for a single family use may be supplied by not more than one electrical utility service and metered by not more than one electrical meter. The board of adjustment may grant a special exception to authorize more than one electrical utility service or more than one electrical meter on a lot in a single family, duplex, or townhouse district when, in the opinion of the board, the special exception will:

(aa) not be contrary to the public interests;

(bb) not adversely affect neighboring properties; and

(cc) not be used to conduct a use not permitted in the district where the building site is located.

(vi) **Industrialized housing.** In addition to any other applicable regulations, industrialized housing must comply with the following additional provisions. For purposes of this subparagraph, "industrialized housing" means industrialized housing as defined by Section 1202.002 of the Texas Occupations Code, as amended.

(aa) Industrialized housing must have all local permits and licenses that are applicable to other single family or duplex dwellings.

(bb) Industrialized housing must have a value equal to or greater than the median taxable value of each single family dwelling located within 500 feet of the lot on which the industrialized housing is proposed to be located, as determined by the most recent certified tax appraisal roll of the appraisal district. For purposes of this subparagraph, the "value" of the industrialized housing means the taxable value of the industrialized housing and the lot after installation of the industrialized housing.

(cc) Industrialized housing must have exterior siding, roofing, roof pitch, foundation fascia, and fenestration compatible with the single family dwellings located within 500 feet of the lot on which the industrialized housing is proposed to be located. "Compatible" as used in this subparagraph means similar in application, color, materials, pattern,
quality, shape, size, slope, and other characteristics; but
does not necessarily mean identical. The burden is on
the property owner or applicant to supply proof of
compatibility. The property owner or applicant may
appeal a decision of the building official to deny a
permit due to lack of compatibility to the board of
adjustment.

(dd) Industrialized housing
must comply with municipal aesthetic standards; yard,
lot, and space regulations; subdivision regulations;
landscaping; and any other regulations applicable to
single family dwellings.

(ee) Industrialized housing
must be securely fixed to a permanent foundation.

(ff) Industrialized housing
may not be constructed in a historic overlay district
unless the industrialized housing conforms to the
preservation criteria of the historic overlay district.

(gg) Industrialized housing
may not be constructed in a conservation district unless
the industrialized housing conforms to the conservation
district regulations.

(hh) Industrialized housing
may not be constructed unless it complies with public
deed restrictions for the property.

(vii) Accessory structures. Except
in the agricultural district, accessory structures are
subject to the following regulations:

(aa) Except as provided in this
section, no person shall rent an accessory structure. For
purposes of this section, rent means the payment of any
form of consideration for the use of the accessory
structure.

(bb) Except for accessory
dwelling units, no person shall use an advertisement,
display, listing, or sign on or off the premises to
advertise the rental of an accessory structure.

(cc) The height of an
accessory structure may not exceed the height of the
main building.

(dd) The floor area of any
individual accessory structure on a lot, excluding floor
area used for parking, may not exceed 25 percent of
the floor area of the main building.

(ee) The total floor area of all
accessory structures on a lot, excluding floor area used
for parking, may not exceed 50 percent of the floor
area of the main building.

(ff) Accessory structures
must have exterior siding, roofing, roof pitch,
foundation fascia, and fenestration compatible with the
main building. "Compatible" as used in this provision
means similar in application, color, materials, pattern,
quality, shape, size, slope, and other characteristics;
but does not necessarily mean identical. The burden is
on the property owner or applicant to supply proof of
compatibility. This provision does not apply to
accessory structures with a floor area of 200 square feet
or less. (Ord. Nos. 19455; 19786; 19912; 20360; 20493;

SEC. 51A-4.210. RETAIL AND PERSONAL
SERVICE USES.

(a) General provisions. Except as otherwise
provided in this article, the following general
provisions apply to all uses listed in this section:

1. All uses must be retail or service
establishments dealing directly with consumers. No
person may produce goods or perform services on the
premises unless those goods or services are principally
sold on the premises to individuals at retail.

2. Outside sales, outside display of
merchandise, and outside storage may be classified as
either main or accessory uses. Accessory outside sales,
accessory outside display of merchandise, and
§ 51A-4.210 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-4.210

accessory outside storage are limited to five percent of the lot. If these uses occupy more than five percent of the lot, they are only allowed in districts that permit them as a main use.

(3) In a GO(A) district, a retail and personal service use:

(A) must be contained entirely within a building; and

(B) may not have a floor area that, in combination with the floor areas of other retail and personal service uses in the building, exceeds 10 percent of the total floor area of the building.

(b) Specific uses.

(1) Ambulance service.

(A) Definition: A facility for the housing, maintenance, and dispatch of vehicles designed to transport sick or injured persons to medical facilities.

(B) Districts permitted: By right in CR, RR, CS, central area, MC-3, and MC-4 districts. RAR required in CR, RR, CS, mixed use, and multiple commercial districts.

(C) Required off-street parking: One space per 300 square feet of floor area, plus one space per 500 square feet of site area.

(D) Required off-street loading:

<table>

(2) Animal shelter or clinic.

(A) Definition: A facility for the diagnosis, treatment, hospitalization, or harboring of animals including, but not limited to dogs, cats, birds, and horses.

(B) Districts permitted:

(i) Without outside runs: By right in A(A), CR, RR, CS, LI, IR, IM, mixed use, multiple commercial, and urban corridor districts. RAR required in CR, RR, CS, mixed use, and multiple commercial districts.

(ii) With outside runs: By right in CS, LI, IR, and IM districts when located at least 1,000 feet from residential districts; otherwise, by SUP only in the same districts. By SUP only in A(A) and RR districts.

(C) Required off-street parking: One space per 300 square feet of floor area.

(D) Required off-street loading:

(3) Auto service center.

(A) Definition: A facility for the servicing or minor mechanical repair of motor vehicles. This use may include the retail sale of lubricating oils, tires, or parts for use in motor vehicles. This use does not include as its primary function the disassembly, rebuilding, and replacement of motor vehicle engines, transmissions, or other major machinery components, nor auto body repair or painting.

(B) Districts permitted: By right in CR, RR, CS, industrial, central area, mixed use, and multiple commercial districts. RAR required in CR, RR, CS, industrial, mixed use, and multiple commercial districts.
(C) Required off-street parking: One space per 500 square feet of floor area; a minimum of four spaces is required. Parking spaces that are used to repair motor vehicles and located in a structure are not counted in determining the required parking.

(D) Required off-street loading:

</tr>
</tbody>
</table>

(E) Additional provisions:

(i) If an inoperable or wrecked motor vehicle remains outside on the premises for more than 24 hours, the premises is an outside salvage or reclamation use. However, a premise is not an outside salvage or reclamation use if the premise stores not more than four inoperable or wrecked motor vehicles each of which having a valid state registration, current safety inspection certificate, and documentary record of pending repairs or other disposition, and if the premise has a current certificate of occupancy for a motor vehicle related use.
Dallas Development Code: Ordinance No. 19455, as amended

[Intentionally left blank]
(ii) The servicing or repair of motor vehicles that weigh more than 6,000 pounds or that have a manufacturer’s rated seating capacity of more than 15 persons is not permitted under this use.

(4) **Alcoholic beverage establishments.**

(A) Definitions:

(i) **BAR, LOUNGE, OR TAVERN** means an establishment principally for the sale and consumption of alcoholic beverages on the premises that derives 75 percent or more of its gross revenue on a quarterly (three-month) basis from the sale or service of alcoholic beverages, as defined in the Texas Alcoholic Beverage Code, for on-premise consumption.

(ii) **MICROBREWERY, MICRODISTILLERY, OR WINERY** means an establishment for the manufacture, blending, fermentation, processing, and packaging of alcoholic beverages with a floor area of 10,000 square feet or less that takes place wholly inside a building. A facility that only provides tasting or retail sale of alcoholic beverages is not a microbrewery, microdistillery, or winery use.

(iii) **PRIVATE-CLUB BAR** means an establishment holding a private club permit under Chapter 32 or 33 of the Texas Alcoholic Beverage Code that derives 35 percent or more of its gross revenue from the sale or service of alcoholic beverages for on-premise consumption and that is located within a dry area as defined in Title 6 (Local Option Elections) of the Texas Alcoholic Beverage Code. PRIVATE-CLUB BAR does not include a fraternal or veterans organization, as defined in the Texas Alcoholic Beverage Code, holding a private club permit under Chapter 32 or 33 of the Texas Alcoholic Beverage Code. PRIVATE-CLUB BAR does not include the holder of a food and beverage certificate, as defined in the Texas Alcoholic Beverage Code.

(B) Districts permitted:

(i) **Bar, lounge, or tavern and private club-bar.** By SUP only in GO(A)*, CR, RR, CS, industrial, central area, mixed use, multiple commercial, MF-4(A), LO(A), MO(A), UC-2, and UC-3 districts.*Note: This use is subject to restrictions in the GO(A) district. See Subsection (a)(3).

(ii) **Microbrewery, microdistillery, or winery.** By right in industrial districts with RAR required. By SUP only in CR, RR, CS, central area, mixed-use, urban corridor, and walkable urban mixed use districts.

(C) Required off-street parking:

(i) **Bar, lounge, or tavern and private club-bar.**

(aa) Except as otherwise provided, one space per 100 square feet of floor area.

(bb) One space per 500 square feet of floor area used for the manufacture of alcoholic beverages as an accessory use to the bar, lounge, or tavern use.

(ii) **Microbrewery, microdistillery, or winery.**

(aa) Except as otherwise provided, one space per 600 square feet of floor area.

(bb) One space per 1,000 square feet of floor area used for storage.

(cc) One space per 100 square feet of floor area used for retail sales and seating.

(D) Required off-street loading:

<table>

(E) Additional provisions:

(i) **Bar, lounge, or tavern and private club-bar.**

(aa) Food may be prepared and served as an accessory use.

(bb) Music, entertainment, or facilities for dancing may be provided under this use.

(cc) The person owning or operating the use shall, upon request, supply the building official with any records needed to document the percentage of gross revenue for the previous 12 month period derived from the sale or service of alcoholic beverages for on-premise consumption.

(dd) Unless the person owning or operating the use supplies the building official with records to prove otherwise, an establishment holding a private club permit under Chapter 32 or 33 of the Texas Alcoholic Beverage Code is presumed to derive 35 percent or more of its gross revenue from the sale or service of alcoholic beverages for on-premise consumption.

(ii) **Microbrewery, micro-distillery, or winery.**

(aa) Retail sales of alcoholic beverages and related items and tastings or sampling are allowed in accordance with Texas Alcoholic Beverage Commission regulations.

(bb) Except for loading, all activities must occur within a building.

(cc) Silos and containers of spent grain are allowed as outdoor storage. Containers of spent grain must be screened. All other outdoor storage or repair is prohibited.

(dd) If an SUP is required, silos and outdoor storage areas for spent grain must be shown on the site plan.

(ee) Drive-through facilities are prohibited.

(5) **Business school.**

(A) **Definition:** A facility offering instruction and training in a service or the arts such as secretarial, barber, commercial artist, computer software, medical technician, and similar training.

(B) **Districts permitted:** By right in LO(A), MO(A), GO(A)*, CR, RR, CS, industrial, central area, mixed use, multiple commercial, UC-2, and UC-3 districts. By SUP only in the NO(A) district. *Note: This use is subject to restrictions in the GO(A) district. See Subsection (a)(3).

(C) **Required off-street parking:** One space per 25 square feet of classroom. Any personal service uses accessory to a business school must be parked to the personal service use parking requirement.

(D) **Required off-street loading:**

</tbody>
</table>

(6) **Car wash.**

(A) **Definition:** A facility for the washing or steam cleaning of passenger vehicles. A car wash may be:

(i) a single unit type which has a single bay or a group of single bays with each bay to accommodate one vehicle only; or

(ii) a tunnel unit type which allows washing of multiple vehicles in a tandem arrangement while moving through the structure.

(B) **Districts permitted:** By right in CR, RR, CS, industrial, mixed use, MC-2, MC-3, and MC-4
§ 51A-4.210 Dallas Development Code: Ordinance No. 19455, as amended

(C) Required off-street parking: For single-unit type car washes: none. For tunnel-type car washes a minimum of three spaces required. See the additional provisions [Subparagraph (E)] for off-street stacking requirements.

(D) Required off-street loading:

<table>
<thead>
<tr>

<tr>
<td>Each additional 60,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) Required off-street stacking: Three stacking spaces for each bay in a single unit car wash; 25 stacking spaces for each tunnel unit car wash. See Section 51A-4.304 for more information regarding off-street stacking spaces generally.

(ii) Spaces used to wash motor vehicles and located in a structure are not counted in determining the required stacking.

(7) Commercial amusement (inside).

(A) Definitions. In this paragraph:

(i) AMUSEMENT CENTER means a facility for which an amusement center license is required under Chapter 6A of the Dallas City Code, as amended.

(ii) BILLIARD HALL means a facility for which a billiard hall license is required under Chapter 9A of the Dallas City Code, as amended.

(iii) CHILDREN’S AMUSEMENT CENTER means a facility with amusement rides, games, play areas, and other activities, catering primarily to children 12 years of age and younger.

(iv) CLASS E DANCE HALL means a facility for which a Class E dance hall license is required under Chapter 14 of the Dallas City Code, as amended.

(v) COMMERCIAL AMUSEMENT (INSIDE) means a facility wholly enclosed in a building that offers entertainment or games of skill to the general public for a fee. This use includes but is not limited to an adult arcade, adult cabaret, adult theater, amusement center, billiard hall, bowling alley, children’s amusement center, dance hall, motor track, or skating rink.

(vi) DANCE HALL means a dance hall as defined in Chapter 14 of the Dallas City Code, as amended, but excludes those uses described in Section 14-2(d). This definition includes a Class E dance hall.

(B) Districts permitted:

(i) Except as otherwise provided in Subparagraphs (B)(ii), (B)(iii), and (B)(iv), by right in CR, RR, CS, industrial, central area, mixed use, multiple commercial, UC-2, and UC-3 districts.

(ii) Amusement center: An SUP is required for an amusement center in a CR, RR, CS, industrial, central area, mixed use, multiple commercial, UC-1, or UC-2 district if it has a floor area of 2,500 square feet or more and is located within 300 feet of a residential district.

(iii) Bingo parlor: An SUP is required for a bingo parlor in a CR, UC-2, or UC-3 district.

(iv) Dance hall: An SUP is required for any dance hall (including a Class E dance hall) in a CR, CS, UC-2, or UC-3 district. An SUP is also required for a Class E dance hall in an RR, industrial, central area, mixed use, or multiple commercial district if the Class E dance hall is located within 300 feet of a residential district. RAR is required for any dance hall that does not require an SUP but is located within 300 feet of a residential district.
(C) Required off-street parking:

(i) Bingo parlor: one space per 50 square feet of floor area.

(ii) Bowling alley: six spaces per lane.

(iii) Children’s amusement center: one space per 200 square feet of floor area.

(iv) Dance hall: one space per 25 square feet of dance floor and one space per 100 square feet of floor area for the remainder of the use. Delta credits, as defined in Section 51A-4.704(b)(4)(A), may not be used to meet this off-street parking requirement. No special exception may be granted to the parking requirements.

(v) Motor track: one space per 1000 square feet of restricted track area and one space per additional 200 square feet of floor area.

(vi) Skating rink: one space per 200 square feet of floor area.

(vii) Other uses: If an SUP is required for this use, the off-street parking requirements may be established in the ordinance granting the SUP, otherwise one space per 100 square feet of floor area.

(D) Required off-street loading:

<tr>
<td>Each additional 60,000 or fraction thereof</td>
<td>1 additional thereof</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) For purposes of determining the applicability of regulations triggered by the proximity of this use to another zoning district, measurements are made in a straight line, without regard to intervening structures or objects, from the nearest boundary of the lot where this use is conducted to the nearest boundary of the zoning district at issue.

(ii) All required off-street parking for a bingo parlor located within 300 feet of a residential district must be provided on the lot occupied by the bingo parlor use.

(iii) A dance hall shall at all times be considered a separate main use and cannot be an accessory use within the meaning of Section 51A-4.217.

(iv) This use must comply with all applicable licensing requirements. Amusement center licensing requirements are located in Chapter 6A, billiard hall licensing requirements are located in Chapter 9A, dance hall licensing requirements are located in Chapter 14, and sexually oriented business licensing requirements are located in Chapter 41A.

(8) Commercial amusement (outside).

(A) Definition: A facility offering entertainment or games of skill to the general public for a fee where any portion of the activity takes place outside. This use includes, but is not limited to a golf driving range or miniature golf course.

(B) Districts permitted: By right in CS and central area districts. By SUP only in A(A), CR, RR, mixed use, and multiple commercial districts. DIR required in the CS district.

(C) Required off-street parking: If an SUP is required for this use, the off-street parking requirement may be established by the ordinance granting the SUP, otherwise one space per 200 square feet of floor area, plus one space per 400 square feet of site area exclusive of parking area.

(D) Required off-street loading:

§ 51A-4.210 Dallas Development Code: Ordinance No. 19455, as amended § 51A-4.210

(8.1) **Commercial motor vehicle parking.**

(A) Definition: A facility for the temporary, daily, or overnight parking of commercial motor vehicles as defined in the use regulations for a truck stop, and/or motor vehicles with two or more rear axles such as trucks, truck tractors, and similar vehicles, for no charge or for a fee, regardless of whether that fee is charged independently of any other use on the lot, if the parking is not accessory to a main use on the lot.

(B) Districts permitted: By right in CS, LI, IR, and IM districts, except by SUP only if located within 500 feet of a residential district, measured in a straight line, without regard to intervening structures or objects, from the nearest boundary of the lot where this use is conducted to the nearest boundary of the zoning district at issue.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(9) **Commercial parking lot or garage.**

(A) Definition: A vehicle parking facility that is operated as a business enterprise by charging a fee for parking.

(B) Districts permitted: By right in CR, RR, CS, industrial, central area, mixed use, multiple commercial, and urban corridor districts. RAR required in CR, RR, CS, industrial, mixed use, and multiple commercial districts.

(C) Required off-street parking: None; however, if this use is in the central business district, off-street stacking spaces or passenger unloading zones may need to be provided. For more information regarding off-street parking in the central business district, see Section 51A-4.306.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) The parking of vehicles that weigh more than 6,000 pounds or that have a manufacturer’s rated seating capacity of more than 15 persons is prohibited under this use in all areas of the city except the central business district.

(ii) This use must comply with the off-street parking regulations in Divisions 51A-4.300 et seq.

(iii) If located in the CA-1(A) district, this use must comply with the regulations in Section 51A-4.124(a)(9).

(9.1) **Convenience store with drive-through.**

(A) Definition: A business that is primarily engaged in the retail sale of convenience goods, or both convenience goods and gasoline, that has drive-in or drive-through service and has less than 10,000 square feet of floor area. For purposes of this definition, CONVENIENCE GOODS means food, beverage, household, personal care, and pharmaceutical items. A gasoline pump is not considered a drive-in or drive-through service.

(B) Districts permitted: By SUP only in CR, RR, CS, IR, IM, MU-2, MU-3, and multiple commercial districts.

(C) Required off-street parking: One space per 200 square feet of floor area.

(D) Required off-street loading: One space.

(E) Additional provisions:

(i) A minimum of two stacking spaces must be provided. See Section 51A-4.304 for more information regarding off-street stacking spaces generally.

(ii) The outside sale, display, or storage of furniture is permitted if the furniture is:

(aa) customarily used outside; and
§ 51A-4.210 Dallas Development Code: Ordinance No. 19455, as amended

(bb) made of a material that is resistant to damage or deterioration from exposure to the outside environment.

(iii) The outside sale, display, or storage of furniture, other than the furniture described in Section 51A-4.210(b)(9.1)(E)(ii), is permitted only on Saturday and Sunday.

(iv) This use must comply with Chapter 12B, “Convenience Stores,” of the Dallas City Code.

(10) Drive-in theater.

(A) Definition: A facility for showing motion pictures outdoors where the audience views the motion picture from automobiles or while seated outside.

(B) Districts permitted: By SUP only in A(A), CS, and IM districts.

(C) Required off-street parking: Six parking spaces. The number of stacking spaces must equal ten percent of the number of the theater’s stalls.

(D) Required off-street loading: None.

(11) Dry cleaning or laundry store.

(A) Definition: A facility for the cleaning or laundering of garments, principally for individuals.

(B) Districts permitted: By right in GO(A)*, retail, CS, industrial, central area, mixed use, and multiple commercial districts. In urban corridor districts, this use is permitted by right, but the use may not have a drive-in or drive-through facility. By right as a limited use only in MF-3(A), MF-4(A), LO(A), and MO(A) districts. *Note: This use is subject to restrictions in the GO(A) district. See Subsection (a)(3).

(C) Required off-street parking: One space per 200 square feet of floor area.

(D) Required off-street loading: One space.

(E) Additional provisions:

(i) Garments may be collected at off-site pick-up stations for laundering and dry cleaning in this use.

(ii) This use may occupy no more than:

(aa) 3,500 square feet of floor area in an NS(A) district; and

(bb) 7,500 square feet of floor area in all other districts.

(iii) If this use has a drive-through facility, a minimum of two stacking spaces must be provided. See Section 51A-4.304 for more information regarding off-street stacking spaces generally.

(12) Furniture store.

(A) Definition: A facility principally for the display and retail sale of new furniture and appliances.

(B) Districts permitted: By right in CR, RR, CS, industrial, central area, mixed use, multiple commercial, and urban corridor districts.

(C) Required off-street parking: One space per 500 square feet of floor area open to the public. One space per 1,000 square feet of floor area for storage or warehouse areas not open to the public.

(D) Required off-street loading:

<table>

(E) Additional provisions:

(i) The outside sale, display, or storage of furniture is permitted if the furniture is:
§ 51A-4.210 Dallas Development Code: Ordinance No. 19455, as amended § 51A-4.210

(aa) customarily used outside; and

(bb) made of a material that is resistant to damage or deterioration from exposure to the outside environment.

(ii) The outside sale, display, or storage of furniture, other than the furniture described in Section 51A-4.210(b)(12)(E)(i), is permitted only on Saturday and Sunday.

(iii) See Section 51A-4.605 for design standards applicable to uses of 100,000 square feet or more.

(13) General merchandise or food store 3,500 square feet or less.

(A) Definition: A retail store with a floor area of 3,500 square feet or less for the sale of general merchandise or food. Typical general merchandise includes clothing and other apparel, equipment for hobbies and sports, gifts, flowers and household plants, dry goods, toys, furniture, antiques, books and stationery, pets, drugs, auto parts and accessories, and similar consumer goods. The term “food store” includes a grocery store, delicatessen, convenience store without drive-through, and specialty foods store. This use does not include other uses in this article that are specifically listed.

(B) Districts permitted: By right in GO(A)*, retail, CS, industrial, central area, mixed use, multiple commercial, and urban corridor districts. By right as a limited use only in MF-3(A), MF-4(A), LO(A), and MO(A) districts. *Note: This use is subject to restrictions in the GO(A) district. See Subsection (a)(3).

(C) Required off-street parking: One space per 200 square feet of floor area.

(D) Required off-street loading: One space.

(E) Additional provisions:

(i) If this use has a drive-through facility, a minimum of two stacking spaces must be provided. See Section 51A-4.304 for more information regarding off-street stacking spaces generally.

(ii) The outside sale, display, or storage of furniture is permitted if the furniture is:

(aa) customarily used outside; and

(bb) made of a material that is resistant to damage or deterioration from exposure to the outside environment.

(iii) The outside sale, display, or storage of furniture, other than the furniture described in Section 51A-4.210(b)(13)(E)(ii), is permitted only on Saturday and Sunday.

(14) General merchandise or food store greater than 3,500 square feet.

(A) Definition: A retail store with a floor area greater than 3,500 square feet but less than 100,000 square feet for the sale of general merchandise or food. Typical general merchandise includes clothing and other apparel, equipment for hobbies and sports, gifts, flowers and household plants, dry goods, toys, furniture, antiques, books and stationery, pets, drugs, auto parts and accessories, and similar consumer goods. The term “food store” includes a grocery store, delicatessen, convenience store without drive-through, and specialty foods store. This use does not include other uses in this article that are specifically listed.

(B) Districts permitted: By right in CR, RR, CS, central area, mixed use, multiple commercial, UC-2, and UC-3 districts.

(C) Required off-street parking: One space per 200 square feet of floor area for uses with less than 10,000 square feet of floor area. One space per 220 square feet of floor area for uses with a floor area of 10,000 square feet or greater, but less than 40,000 square feet of floor area. One space per 250 square feet of floor area for uses with a floor area of 40,000 square feet or greater, but less than 100,000 square feet of floor area.
(D) Required off-street loading:

<table>

(E) Additional provisions:

(i) If this use has a drive-through facility, a minimum of two stacking spaces must be provided. See Section 51A-4.304 for more information regarding off-street stacking spaces generally.

(ii) The outside sale, display, or storage of furniture is permitted if the furniture is:

(aa) customarily used outside; and

(bb) made of a material that is resistant to damage or deterioration from exposure to the outside environment.

(iii) The outside sale, display, or storage of furniture, other than the furniture described in Section 51A-4.210(b)(14)(E)(ii), is permitted only on Saturday and Sunday.

(14.1) General merchandise or food store 100,000 square feet or more.

(A) Definition: A retail store with a floor area of 100,000 square feet or more for the sale of general merchandise or food. Typical general merchandise includes clothing and other apparel, equipment for hobbies and sports, gifts, flowers and household plants, dry goods, toys, furniture, antiques, books and stationery, pets, drugs, auto parts and accessories, and similar consumer goods. The term “food store” includes a grocery, delicatessen, and convenience and specialty foods stores. This use does not include other uses in this article that are specifically listed.

(B) Districts permitted: By right in RR and central area districts. By SUP only in CR, CS, LI, mixed use, multiple commercial, and urban corridor districts.

(C) Required off-street parking: One space per 300 square feet of floor area.

(D) Required off-street loading:

(E) Additional provisions:

(i) If this use has a drive-through facility, a minimum of two stacking spaces must be provided. See Section 51A-4.304 for more information regarding off-street stacking spaces generally.

(ii) The outside sale, display, or storage of furniture is permitted if the furniture is:

(aa) customarily used outside; and

(bb) made of a material that is resistant to damage or deterioration from exposure to the outside environment.

(iii) The outside sale, display, or storage of furniture, other than the furniture described in Section 51A-4.210(b)(14)(E)(ii), is permitted only on Saturday and Sunday.

(iv) See Section 51A-4.605 for design standards applicable to uses of 100,000 square feet or more.

(15) Home improvement center, lumber, brick or building materials sales yard.

(A) Definition: A facility for the sale of home, lawn, and garden supplies, brick, lumber, and other similar building materials.

(B) Districts permitted: By right in CR, RR, CS, and industrial districts. DIR required in the
§ 51A-4.210  Dallas Development Code: Ordinance No. 19455, as amended

CR district. RAR required in RR, CS, and industrial districts.

(C) Required off-street parking: One space per 275 square feet of retail floor area, plus one space per 1,000 square feet of site area exclusive of parking area.

(D) Required off-street loading:

(16) Household equipment and appliance repair.

(A) Definition: A facility for the repair of household and home equipment, including appliances, lawnmowers, power tools, and similar items.

(B) Districts permitted: By right in CR, RR, CS, industrial, central area, MU-2, MU-2(SAH), MU-3, MU-3(SAH), MC-2, MC-3, MC-4, and urban corridor districts.

(C) Required off-street parking: One space per 200 square feet of floor area.

(D) Required off-street loading:

(16.1) Liquefied natural gas fueling station.

(A) Definitions: In this paragraph:

(i) COMMERCIAL MOTOR VEHICLE means a motor vehicle that:

(aa) is designed or used for the transportation of cargo;

(bb) has a gross weight, registered weight, or gross weight rating in excess of 26,000 pounds; and

(cc) is not owned or operated by a governmental entity.

(ii) LIQUEFIED NATURAL GAS FUELING STATION means a facility for the retail sale of liquefied natural gas from pumps to commercial motor vehicles.

(B) Districts permitted:

(i) By right in LI, IR, and IM districts, but SUP required if the use has more than four fuel pumps or is within 1,000 feet of a residential zoning district or a planned development district that allows residential uses.

(ii) By SUP in only in the CS district.

(C) Required off-street parking: None.
(D) Required off-street loading:
Sufficient space must be allowed for the unloading of a liquefied natural gas fuel truck.

(E) Additional provisions:

(i) No overnight parking is allowed.

(ii) No signage is permitted on liquefied natural gas storage tanks except for required safety signage.

(iii) A fuel pump island must be constructed in a manner that allows vehicular access adjacent to the island without interfering with or obstructing off-street parking. The building official shall not issue a permit to authorize the construction of a pump island until its placement has been approved by the director.

(iv) Liquefied natural gas storage tanks, fuel pumps, and related equipment may not be located beneath electric power lines.

(v) Liquefied natural gas storage tanks, fuel pumps, and related equipment must be located at least 10 feet from the nearest building, property line, any source of ignition, or nearest public street or sidewalk.

(vi) Liquefied natural gas storage tanks, fuel pumps, and related equipment must be located at least 50 feet from the nearest rail of any railroad main track.

(vii) A clear space of at least three feet must be provided for access to all valves and fittings.

(viii) During fueling operations, the point of transfer (the point where the fueling connection is made) must be at least 10 feet from any building or public street or sidewalk, and at least three feet from any storage tanks or containers. The point of transfer may be a lesser distance from buildings or walls made of concrete or masonry materials, or of another material having a fire resistance rating of at least two hours, but the point of transfer must be at least 10 feet away from any building openings.

(17) Liquor store.

(A) Definition: An establishment principally for the retail sale of alcoholic beverages for off-premise consumption, as defined in the Texas Alcoholic Beverage Code.

(B) Districts permitted: By right in CR, RR, CS, central area, MU-2, MU-2 (SAH), MU-3, MU-3(SAH), MC-2, MC-3, and MC-4 districts.

(C) Required off-street parking: One space per 200 square feet of floor area.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 60,000</td>
<td>1</td>
</tr>
<tr>
<td>Each additional 100,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) If this use has a drive-through facility, a minimum of two stacking spaces must be provided. See Section 51A-4.304 for more information regarding off-street stacking spaces generally.

(ii) If a use has drive-in or drive-through service and has less than 10,000 square feet of floor area, the use shall be classified as a convenience store with drive-through under Paragraph (9.1).

(18) Mortuary, funeral home, or commercial wedding chapel.

(A) Definition:

(i) A mortuary or funeral home is a facility in which dead bodies are prepared for burial or cremation or funeral services are conducted.

(ii) A commercial wedding chapel is a facility, not associated with a church, where a wedding is performed for profit.
§ 51A-4.210 Dallas Development Code: Ordinance No. 19455, as amended

(B) Districts permitted: By right in CR, RR, CS, central area, mixed use, and multiple commercial districts.

(C) Required off-street parking:

(i) One space per 300 square feet of floor area other than the chapel, plus one space for each two seats in the chapel. Up to 50 percent of the required off-street parking for this use may be tandem spaces.

(ii) If all spaces provided are non-tandem, the off-street parking requirement for this use is one space per 500 feet of floor area other than the chapel, plus one space for each two seats in the chapel.

(D) Required off-street loading:

(E) Additional provisions:

(i) A commercial wedding chapel may provide reception areas, but no alcoholic beverages may be sold.

(19) Motor vehicle fueling station.

(A) Definition: A facility for the retail sale of motor vehicle fuel dispensed from pumps or electric vehicle charging stations. This use does not include a truck stop or a liquefied natural gas fueling station as defined in this section.

(B) Districts permitted: By right in CR, RR, CS, industrial, central area, mixed use, and multiple commercial districts. By right as a limited use only in MO(A) and GO(A) districts. By SUP only in MF-3(A), MF-4(A), and NS(A) districts.

(C) Required off-street parking: Two spaces.

(D) Required off-street loading: Sufficient space must be provided to allow for the unloading of a fuel truck.

(E) Additional provisions:

(i) Except for compression cylinder tanks used in connection with compressed natural gas fueling facilities, all storage tanks for motor vehicle fuel must be located underground.

(ii) A fuel pump island must be constructed in a manner that allows vehicular access adjacent to the island without interfering with or obstructing off-street parking. The building official shall not issue a permit to authorize the construction of a pump island until its placement has been approved by the director.

(iii) Fuel pumps are permitted as an accessory use only if they comply with the following subparagraphs:

(aa) The pumps must be available only to the owner and tenant of the main building and not available to the general public.

(bb) The fuel pump and any sign relating to the pump must not be visible from the public street. No sign may be erected indicating the availability of motor vehicle fuel.

(iv) Fuel pumps must be located at least 18 feet from the boundary of the site.

(v) Compression cylinder tanks used in connection with compressed natural gas fueling facilities must be screened from adjacent streets, alleys, and residential uses.

(20) Nursery, garden shop, or plant sales.

(A) A facility for the growing, display, or sale of plant stock, seeds, or other horticultural items.

(B) Districts permitted: By right in A(A), GO(A)*, CR, RR, CS, central area, mixed use,
§ 51A-4.210 Dallas Development Code: Ordinance No. 19455, as amended

multiple commercial, and urban corridor districts. *Note: This use is subject to restrictions in the GO(A) district. See Subsection (a)(3).

(C) Required off-street parking: One space per 500 square feet of floor area, plus one space per 2,000 square feet of outside sales and display area.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF SALES AREA</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 60,000</td>
<td>1</td>
</tr>
<tr>
<td>Each additional 60,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) In all districts where this use is permitted except the GO(A) district, accessory outside sales, display of merchandise, or storage may occupy up to 100 percent of the lot. In the GO(A) district, this use must be located entirely within a building. See Subsection (a)(3) for more information about restrictions on retail and personal service uses generally in the GO(A) district.

(21) Outside sales.

(A) Definition: A site for the outside sale of general merchandise or food. This use includes, but is not limited to, outdoor flea markets.

(B) Districts permitted: By right in central area districts. By SUP only in RR and CS districts.

(C) Required off-street parking: One space per 200 square feet of sales area.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) Except as otherwise provided in this article, outside sales is considered to be a separate main use if it occupies more than five percent of the lot. Outside sales on less than five percent of the lot may qualify as an accessory use if it is customarily incidental to a main use. See Section 51A-4.217.

(21.1) Paraphernalia shop.

(A) Definition: An establishment that displays or offers for sale any "illegal smoking paraphernalia" as that term is defined in Chapter 31 of the Dallas City Code or any other smoking paraphernalia that is commonly used, or commonly known to be used, for the inhalation of tobacco or illegal substances. For purposes of this definition, rolling papers, tobacco cigarettes, and tobacco cigars are not considered paraphernalia.

(B) Districts permitted: By SUP only in CR, RR, CS, industrial, and mixed use districts.

(C) Required off-street parking: One space for each 200 square feet of floor area.

(D) Required off-street loading: One space.

(E) Additional provisions:

(i) A paraphernalia shop may not be located within 1,500 feet, measured from property line to property line, of any other paraphernalia shop.

(ii) A paraphernalia shop may not be located within 1,000 feet, measured from property line to property line, of a lot in a residential district.

(iii) A paraphernalia shop may not be located within 1,000 feet, measured from property line to property line, of a lot with a school.

(iv) A paraphernalia shop may not be located within 1,000 feet, measured from property line to property line, of a lot with a child-care facility.

(v) A paraphernalia shop may not be located within 1,000 feet, measured from property line to property line, of a lot with a college, university, or seminary.
(vi) A paraphernalia shop may not be located within 1,000 feet, measured from property line to property line, of a lot with a church.

(vii) A paraphernalia shop may not have a drive-in or drive-through or walk-up window.

(viii) The outside sale, display, or storage of products is prohibited.

(ix) A paraphernalia shop may only be a main use that requires a certificate of occupancy. A paraphernalia shop may not be an accessory use within the meaning of Section 51A-4.217.

(22) Pawn shop.

(A) Definition: A facility for loaning money on the security of personal property and the sale of unclaimed property.

(B) Districts permitted: By right in CR, RR, CS, IR, and IM districts.

(C) Required off-street parking: One space per 200 square feet of floor area.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>

<td>1</td>
</tr>
<tr>
<td>Each additional 60,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) A pawnshop legally operating as a permitted use or a nonconforming use on March 1, 1989, is entitled to relocate to another site in the same zoning district or classification in which it is located on March 1, 1989, provided the relocation is completed before the first anniversary of the date that the pawnshop ceased doing business at the previous location.

[§ 51A-4.210 continues on page 289.]
Dallas Development Code: Ordinance No. 19455, as amended

[Intentionally left blank]
§ 51A-4.210 Dallas Development Code: Ordinance No. 19455, as amended § 51A-4.210

(23) Personal service use.

(A) Definition: A facility for the sale of personal services. Typical personal service uses include a barber/beauty shop, shoe repair, a tailor, an instructional arts studio, a photography studio, a laundry or cleaning pickup and receiving station, a handcrafted art work studio, safe deposit boxes, a travel bureau, and a custom printing or duplicating shop.

(B) Districts permitted: By right in GO(A)*, retail, CS, industrial, central area, mixed use, multiple commercial, and urban corridor districts. By right as a limited use only in MF-3(A), MF-4(A), NO(A), LO(A), and MO(A) districts. *Note: This use is subject to restrictions in the GO(A) district. See Subsection (a)(3).

(C) Required off-street parking: One space per 200 square feet of floor area.

(D) Required off-street loading:

<table>

</tbody>
</table>

(E) Additional provisions:

(i) If this use has a drive-through facility, a minimum of two stacking spaces must be provided. See Section 51A-4.304 for more information regarding off-street stacking spaces generally.

(ii) In the NO(A) district, this use may occupy no more than 1,000 square feet of floor area.

(24) Restaurant without drive-in or drive-through service.

(A) Definition: An establishment principally for the sale and consumption of food on the premises. (This use does not include a restaurant with drive-in or drive-through service.)

(B) Districts permitted: By right in GO(A)*, retail, CS, industrial, central area, mixed use, multiple commercial, and urban corridor districts. By right as a limited use only in MF-4(A), LO(A), and MO(A) districts. By SUP only in the NO(A) district. RAR required in MF-4(A), LO(A), MO(A), GO(A), retail, CS, industrial, mixed use, and multiple commercial districts. *Note: This use is subject to restrictions in the GO(A) district. See Subsection (a)(3).

(C) Required off-street parking:

(i) As a main use: except as otherwise provided, one space per 100 square feet of floor area.

(ii) As a limited or accessory use: except as otherwise provided, one space per 200 square feet of floor area.

(iii) One space per 500 square feet of floor area used for the manufacture of alcoholic beverages as an accessory use to the restaurant without drive-in or drive-through service use.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>

<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) The sale and service of alcoholic beverages in conjunction with the operation of this use is allowed generally, but may be prohibited
If this use is located in a liquor control overlay district. See Section 51A-4.503.

(25) Restaurant with drive-in or drive-through service.

(A) Definition:

(i) A restaurant with drive-in service is an establishment principally for the sale and consumption of food where food service is provided to customers in motor vehicles for consumption on the premises.

(ii) A restaurant with drive-through service is an establishment principally for the sale and consumption of food which has direct window service allowing customers in motor vehicles to pick up food for off-premise consumption.

(B) Districts permitted: By right in CR, RR, CS, industrial, mixed use, and multiple commercial districts. By SUP only in central area districts. DIR required in CR, RR, CS, industrial, mixed use, and multiple commercial districts.

(C) Required off-street parking:

(i) Except as otherwise provided, one space per 100 square feet of floor area; with a minimum of four spaces. See additional provisions [Subparagraph (E)] for off-street stacking requirements. See Section 51A-4.304 for more information regarding off-street stacking spaces generally.

(ii) One space per 500 square feet of floor area used for the manufacture of alcoholic beverages as an accessory use to the restaurant with drive-in or drive-through service use.

(D) Required off-street loading:

<table>
<thead>

</tbody>
</table>

(iii) A remote order station, if any, must be set back at least 27 feet from all streets that allow direct access to the station.

(26) Surface parking.

(A) Definition: A passenger vehicle parking facility.

(B) Districts permitted: By right in the P(A) district.

(C) Required off-street parking: None.
(D) Required off-street loading: None.

(E) Additional provisions:

(i) All parking must be at grade level.

(ii) A commercial parking lot or garage is not permitted under this use.

(iii) No structures are permitted under this use except signs and required screening.

(iv) The owner of surface parking must maintain a minimum front yard of ten feet when the surface parking is contiguous to an A, A(A), R, R(A), D, D(A), TH, TH(A), CH, MF, MF(A), MH, or MH(A) district.

(27) Swap or buy shop.

(A) Definition: A facility for the purchase and retail sale or exchange of new or used regulated property where more than 25 percent of the facility’s total inventory is obtained from a source other than an authorized vendor or manufacturer. This use includes, but is not limited to, bazaars. For purposes of this definition:

(i) REGULATED PROPERTY means automobile accessories, business machines, crafted precious metals, electronic equipment, firearms as defined by state law, household appliances, jewelry, motorcycle accessories, musical instruments, photographic equipment, power tools, or sporting goods; and

(ii) AUTHORIZED VENDOR OR MANUFACTURER means a commercial supplier who deals in the wholesale distribution of regulated property in the ordinary course of business.

(B) Districts permitted: By SUP only in CR, RR, CS, central area, mixed use, and multiple commercial districts.

(C) Required off-street parking: One space per 200 square feet of floor area.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>

</tbody>
</table>

(29) Temporary retail use.

(A) Definition: A temporary facility for the retail sale of seasonal products, including food, christmas trees, and live plants.

(B) Districts permitted: By right in CR, RR, CS, industrial, central area, mixed use, multiple commercial, and urban corridor districts.

(C) Required off-street parking: One space per 500 square feet of site area.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>

<td>1 additional</td>
</tr>
</tbody>
</table>
§ 51A-4.210  Dallas Development Code: Ordinance No. 19455, as amended

(D) Required off-street loading: One space.

(E) Additional provisions:

(i) Off-street parking and loading requirements for this use may be satisfied by using existing parking and loading spaces for other uses located within 500 feet of the temporary retail use, or by providing temporary parking and loading spaces that do not strictly comply with the construction and maintenance provisions for off-street parking and loading in this chapter. The operator of this use has the burden of demonstrating to the satisfaction of the building official that temporary off-street parking or loading spaces:

(aa) are adequately designed to accommodate the parking and loading needs of the temporary retail use; and

(bb) will not adversely affect surrounding uses.

(ii) The building official shall issue a temporary certificate of occupancy for a period of 60 days for a temporary retail use. The building official may grant one 30-day extension of the temporary certificate of occupancy if the use has fully complied with all applicable city ordinances. No more than one temporary certificate of occupancy may be issued for a temporary retail use at the same location within a 12-month period.

30.1 Truck stop.

(A) Definitions: In these use regulations:

(i) COMMERCIAL MOTOR VEHICLE means a motor vehicle that:

(aa) is designed or used for the transportation of cargo;

(bb) has a gross weight, registered weight, or gross weight rating in excess of 26,000 pounds; and

(cc) is not owned or operated by a governmental entity.

(ii) TRUCK STOP means a facility for the retail sale of motor vehicle fuel dispensed from pumps to commercial motor vehicles.
§ 51A-4.210 Dallas Development Code: Ordinance No. 19455, as amended

(B) Districts permitted: By SUP only in CS, LI, IM, and IR districts.

(C) Required off-street parking: Two spaces.

(D) Required off-street loading: Sufficient space must be provided to allow for the unloading of a fuel truck.

(E) Additional provisions:
   (i) Except for above-ground storage tanks used in connection with liquefied natural gas fueling facilities, and compression cylinder tanks used in connection with compressed natural gas fueling facilities, all storage tanks for motor vehicle fuel must be located underground.
   (ii) A fuel pump island must be constructed in a manner that allows vehicular access adjacent to the island without interfering with or obstructing off-street parking. The building official shall not issue a permit to authorize the construction of a pump island until its placement has been approved by the director.
   (iii) A truck stop is always a main use, and cannot be an accessory use within the meaning of Section 51A-4.217. Other than accessory parking, any other use on the same lot is considered an additional main use, such as on-site restaurants, cleaning facilities, and repair services.
   (iv) Fuel pumps must be located at least 18 feet from the boundary of the site.
   (v) Compression cylinder tanks used in connection with compressed natural gas fueling facilities must be screened from adjacent streets, alleys, and residential uses.
   (vi) Except as provided in Item (vii), liquefied natural gas storage tanks are only permitted if approved as part of the specific use permit process.
   (vii) For the purposes of Section 51A-4.704, adding liquefied natural gas fueling facilities to a nonconforming truck stop is not the enlargement of a nonconforming use.
   (viii) No signage is permitted on liquefied natural gas storage tanks except for required safety signage.

(31) Vehicle display, sales, and service.

(A) Definition: A facility for the display, service, and retail sale of new or used automobiles, boats, trucks, motorcycles, motor scooters, recreational vehicles, or trailers.

(B) Districts permitted: By right in RR, CS, and industrial districts. By SUP only in central area districts. RAR required in RR, CS, and industrial districts.

(C) Required off-street parking: One space per 500 square feet of floor and site area exclusive of parking area.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 10,000</td>
<td>NONE</td>

<td>10,000 to 60,000</td>
<td>1</td>
</tr>
<tr>
<td>Each additional 60,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:
   (i) The weight of each vehicle displayed or sold under this use may not exceed 6,000 pounds.
   (ii) Outside display and storage of new or used vehicles for sale is permitted under this use without visual screening.
   (iii) New or used vehicles for sale may be displayed or stored in the required front yard under this use.
§ 51A-4.210 Dallas Development Code: Ordinance No. 19455, as amended

(iv) If an inoperable or wrecked motor vehicle remains outside on the premises for more than 24 hours, the premises is an outside salvage or reclamation use. However, a premise is not an outside salvage or reclamation use if the premise stores not more than four inoperable or wrecked motor vehicles each of which having a valid state registration, current safety inspection certificate, and documentary record of pending repairs or other disposition, and if the premise has a current certificate of occupancy for a motor vehicle related use.  (Ord. Nos. 19455; 19786; 19810; 19928; 20242; 20237; 20257; 20273; 20425; 20493; 20494; 20895; 21001; 21200; 21209; 21259; 21289; 21291; 21400; 21659; 21663; 21697; 21735; 21796; 21960; 22020; 22204; 22531; 22995; 23739; 24439; 24659; 24718; 24759; 25047; 25056; 25785; 26269; 26513; 26746; 27563; 28073; 28079; 28700; 28737; 28803; 30477; 30890)

SEC. 51A-4.211. TRANSPORTATION USES.

(1) Airport or landing field.

(A) Definition: A facility for the landing of fixed or rotary wing aircraft.

(B) Districts permitted: By SUP only in IR and IM districts.

(C) Required off-street parking: One space per 200 square feet of terminal building floor area.

(D) Required off-street loading:

<table>

</table>

(i) A minimum of 60 acres is required for this use.

(ii) This use must be approved by the city aviation department.

(iii) This use is subject to the Federal Aviation Administration’s rules and regulations.

(2) Commercial bus station and terminal.

(A) Definition: A facility operated as a bus or shuttle passenger station or transfer center serving a privately owned transit operation. For purposes of this paragraph:

(i) Bus means a motor vehicle that has a manufacturer’s rated seating capacity of more than 15 passengers, and is used for the transportation of persons from a location in the city to another location either inside or outside the city.

(ii) Shuttle means a van-type motor vehicle that has a manufacturer’s rated seating capacity of not less than seven passengers and not more than 15 passengers, and is used for the transportation of persons from a location in the city to another location either inside or outside the city.

(B) Districts permitted:

(i) Except as otherwise provided in Subparagraph (B)(ii), by right in RR, CS, LI, IR, IM, and central area districts.

(ii) By SUP only in the CS district when:

(aa) the facility operates with a bus; or

(bb) the facility operates with a shuttle within 500 feet of a residential district.

(iii) DIR required in RR and central area districts, and the CS district when an SUP is not required. RAR required in industrial districts.
§ 51A-4.211  Dallas Development Code: Ordinance No. 19455, as amended

(C) Required off-street parking: One space per 200 square feet of building floor area plus one space per five seats of manufacturer’s rated seating capacity for the maximum number of vehicles on site during any one hour time period.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) A lobby or waiting room with a floor area of not less than 200 square feet must be provided.

(ii) Seating in the lobby or waiting room must be provided at a ratio of one seat for every 25 square feet of floor area in the lobby or waiting room.

(iii) The outdoor sale of general merchandise or food is prohibited.

(iv) No loading or unloading of passengers is permitted on public right-of-way.

(3) Heliport.

(A) Definitions: A facility for the landing and taking off of rotary wing aircraft.

(B) Districts permitted: By right in IR and IM districts. By SUP only in RR, CS, LI, central area, MU-2, MU-2(SAH), MU-3, MU-3(SAH) MC-2, MC-3, and MC-4 districts. RAR required in IR and IM districts.

(C) Required off-street parking: One space per 600 square feet of site area; a minimum of four spaces is required.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) This use may include fueling or servicing facilities, if approved by the city aviation department.

(ii) This use must be approved by the city aviation department.

(iii) This use is subject to the Federal Aviation Administration’s rules, regulations, and approval.

(4) Helistop.

(A) Definition: A landing pad for occasional use by rotary wing aircraft.

(B) Districts permitted: By right in IR and IM districts. By SUP only in A(A) MO(A), GO(A), RR, CS, LI, central area, MU-2, MU-2(SAH), MU-3, MU-3(SAH) MC-2, MC-3, and MC-4 districts. RAR required in IR and IM districts.

(C) Required off-street parking: Two spaces.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) Regularly scheduled stops are not permitted under this use.

(ii) This use must be approved by the city aviation department.

(iii) This use is subject to the Federal Aviation Administration’s rules, regulations, and approval.

(iv) Fueling or servicing facilities are not permitted under this use.

(5) Private street or alley.

(A) Definition: A street or an alley whose ownership has been retained privately.

(B) District restrictions:

(i) This accessory use is not permitted in agricultural, multifamily, MH(A), office, retail, commercial service and industrial, mixed use, and multiple commercial districts.
(ii) An SUP is required for this accessory use in single family, duplex, townhouse, CH, and central area districts.

(C) Required off-street parking: None.

(D) Required off-street loading: See Section 51A-4.303.

(E) Additional provisions:

(i) Private streets and alleys must be constructed and maintained to the standards for public rights-of-way and must be approved by the director. Sidewalks are required and must be constructed and maintained to the standards for sidewalks in the public right-of-way. Water and sanitary sewer mains must be installed in accordance with the applicable ordinances.

(ii) A legal entity must be created that is responsible for street lighting, street maintenance and cleaning, and the installation and maintenance of interior traffic control devices. The legal instruments establishing the responsibility for a private street or alley must be submitted to the city plan commission for approval, be approved as to legal form by the city attorney, and recorded in the appropriate county.

(iii) Private streets and alleys must contain private service easements including, but not limited to, the following easements: utilities; firelane; street lighting; government vehicle access; mail collection and delivery access; and utility meter reading access.

(iv) Street lights comparable with those required on public rights-of-way must be provided. Street lighting design plans must be approved by the director in compliance with applicable standards of the department of sustainable development and construction.

(v) Design plans and location of all traffic control devices must be approved by the traffic engineer. The design, size, color, and construction of all traffic control devices must comply with those required in public rights-of-way.

(vi) The fire protection standards in Article XIII of the Dallas fire code must be followed.

(vii) A public school, park or other public facility must be accessible from public rights-of-way in accordance with this code.

(viii) Private streets must comply with the thoroughfare plan and may not interrupt public through streets.

(ix) Private street names and numbers must be approved by the city plan commission.

(x) Private streets and the area they serve must be platted.

(xi) Guard houses may be constructed at any entrance to a private street. All guard houses must be at least 25 feet from a public right-of-way.

(xii) Any structure that restricts access to a private street must provide a passageway 20 feet wide and 14 feet high.

(xiii) One private street entrance must remain open at all times. If an additional private street entrance is closed at any time, it must be constructed to permit opening of the passageway in emergencies by boltcutters or breakaway panels.

(xiv) A private street serving an area containing over 150 dwelling units must have a minimum of two access points to a public street.

(xv) A private street may serve no more than 300 dwelling units.

(xvi) The city has no obligation to maintain a private street. If a private street is not maintained in compliance with the requirements of this chapter, the city, after a public hearing before the city plan commission, shall have the right, but not the obligation, to take those actions necessary to put the private street in compliance. The legal entity responsible for maintaining the private street shall pay the city for the work performed within a period of 180 days from the date the city sends the notice.
days from the presentation of the bill, or the private street will become a public street of the city.

(xvii) A court or plaza may be considered a private street for the purpose of creating a building site if a specific use permit for a private street or alley use is obtained.

(6) Railroad passenger station.

(A) Definition: A facility for the loading and discharging of train passengers.

(B) Districts permitted: By right in central area districts. By SUP only in GO(A), RR, CS, industrial, MU-2, MU-2(SAH), MU-3, MU-3(SAH), MC-2, MC-3, and MC-4 districts.

(C) Required off-street parking: One space per 200 square feet of terminal building floor area.

(D) Required off-street loading: None.

(7) Railroad yard, roundhouse, or shops.

(A) Definition: A facility for storing and repairing railroad equipment, and making up trains.

(B) Districts permitted: By right in IM and central area districts. RAR required in the IM district.

(C) Required off-street parking: One space for each 500 square feet of floor area of roundhouse and shops.

(D) Required off-street loading: None.

(8) STOL (short takeoff or landing) port.

(A) Definition: A facility for take-off and landing operations of fixed wing aircraft designed to land on runways of 1000 feet or less.

(B) Districts permitted: By SUP only in IR, IM, and central area districts.

(C) Required off-street parking: One space per 200 square feet of terminal building floor area; a minimum of five spaces is required.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) This use may include refueling equipment and passenger shelters, but may not include maintenance facilities.

(ii) This use must be approved by the city aviation department.

(iii) This use is subject to the Federal Aviation Administration’s rules, regulations, and approval.

(9) Transit passenger shelter.

(A) Definition: A structure which affords protection from the weather to persons who are waiting to board a publicly owned or franchised transit vehicle.

(B) Districts permitted: By right in all residential and nonresidential districts.

(C) Required off-street parking: None.

(D) Required off-street loading: None.
(E) Additional provisions:

(i) A site plan must be submitted to and approved by the director if the location of the proposed shelter structure will be on or within 20 feet of a lot that is located in a single family or duplex district and occupied by a residential use. The site plan must show the area within a 50-foot radius of the proposed shelter structure. No site plan is required if the lot is vacant or exclusively occupied by one or more nonresidential uses.

(ii) The submission and review procedures for a site plan required under Subparagraph (i) are the same as those required under Section 51A-4.803 for a lot that has residential adjacency. For purposes of these provisions, the term “lot” in Section 51A-4.803 is construed to mean only that area for which a site plan is required.

(iii) In addition to the requirements of Section 51A-4.803(e), upon the filing of a complete application for review of a site plan required under Subparagraph (i), the director shall send written notice to all owners of real property lying within 200 feet of the area for which the site plan is required.

(iv) In single family and duplex districts, the shelter structure must not occupy an area greater than 100 square feet.

(v) A litter container of adequate size must be provided on the site at all times.

(vi) This use must be installed by public agencies.

(vii) This use is exempt from the front, side, and rear yard requirements in this chapter, except that the shelter structure must be set back at least five feet from the edge of the roadway.

(viii) No signs are permitted on the transit passenger shelter site except for governmental signs, transit system logos, schedules, and route information.

(10) Transit passenger station or transfer center.

(A) Definition: A facility operated as a bus or rail passenger station or transfer center serving a publicly-owned or franchised mass transit operation. Typical facilities may include station platforms, bus bays, off-street parking, private access roads, and other passenger amenities.

(B) Districts permitted:

(i) By right in central area districts.

(ii) By SUP only in all residential districts.

(iii) By SUP or, in the alternative, by city council resolution in office, retail, CS, industrial, mixed use, and multiple commercial districts. Authorization by city council resolution must strictly comply with the procedures and requirements outlined in the additional provisions below.

(C) Required off-street parking: None required in central area districts. In all other districts, the off-street parking requirements for each site shall be determined during the site review process and incorporated into the specific use permit ordinance or city council resolution, whichever is applicable.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) Analyses required. In all districts except central area districts:

(aa) transit and parking demand analyses must be submitted with an application for a specific use permit or for an approval by city council resolution; and

(bb) a traffic impact analysis is required when the same is requested by the director, or when the proposed facility will generate more than 1,000 vehicle trips per day.
Landscaping. Landscaping must be provided to comply with Article X of this chapter, or with a landscape plan approved by the city council. In approving a landscape plan, the city council shall, as a minimum, impose landscaping requirements that are reasonably consistent with the standards and purposes of Article X.

Screening. Screening must be provided to comply with Section 51A-4.602, or with a site plan approved by the city council.

Vehicular ingress and egress.

Vehicular ingress and egress between this use and a residential alley is prohibited. For purposes of this paragraph, the term “residential alley” means a public alley or access easement that abuts or is in a single family, duplex, townhouse, or clustered housing district.

Any vehicular ingress and egress between this use and a minor street must be shown on a site plan approved by the city council.

Minimum setbacks for parking and maneuvering. In residential districts, all off-street parking spaces and bus bays, including maneuvering areas, must be located behind the required setback lines established in this chapter, or behind the established setbacks for the blockface, as defined in Section 51A-4.401, whichever results in the greater setback. A minimum setback of ten feet must be provided for a side or rear yard adjacent to a residential use.

Outside speaker restrictions. Outside speakers are not permitted within 50 feet of another lot in a residential district. Outside speakers, when permitted, must face away from adjacent properties.

Restrictions on authorization by city council resolution in certain districts. In NO(A), LO(A), MO(A), NS(A), CR, RR, CS, LI, MU-1, MU-1(SAH), MC-1, and MC-2 districts, authorization by city council resolution is not available unless:

A traffic impact analysis demonstrates to the satisfaction of the director that the projected traffic from the proposed facility will not reduce traffic operating conditions on public streets to a level-of-service “E” or “F” as defined in the Highway Capacity Manual, Transportation Research Board of the National Research Council, Washington, D.C.; and

(bb) the facility:

[1] is located greater than 330 feet from private property (as defined in Section 51A-4.412 of the Dallas Development Code) in a single family, duplex, townhouse, or CH district;

[2] has no parking other than that needed for the drop-off and pick-up of passengers, and no more than five bus bays; or

[3] is separated from a lot in a single family, duplex, townhouse, or CH district by a street 64 feet or more in width.

Procedures for authorization by city council resolution. Authorization by city council resolution must strictly comply with the following procedures and requirements:

(aa) The specific use permit requirement for each particular station or transfer center site shall remain in effect unless and until the city council adopts a resolution approving that site in accordance with this subsection.

(bb) An applicant for authorization by city council resolution shall submit a site plan that complies with the requirements of Section 51A-4.803 to the director. The director shall review the site plan in accordance with that section and formulate a recommendation for the city council within 30 calendar days of the date of its submission.

(cc) Upon formulating a recommendation regarding the site plan, the director shall schedule a public hearing before the city council to receive public comment regarding the plan. The director shall send written notice of the public hearing to all owners of real property within 500 feet of the proposed site. The measurement of the 500 feet includes streets and alleys. The notice must be given not less than 10 days before the date set for the hearing. Notice is given by depositing the notice properly addressed and postage paid in the United

7/18 Dallas City Code 299
States mail to the property owners as evidenced by the last approved city tax roll.

(dd) The city secretary shall give notice of the public hearing in the official newspaper of the city at least 15 days before the hearing. After the city council holds its public hearing, it shall make a decision regarding the plan. The decision need not be made on the same day that the public hearing is held.

(ee) The city council may approve or deny the site plan. An approval must be by resolution adopted by a majority of those councilmembers present and eligible to vote, and a true and correct copy of the site plan must be attached to the resolution as an exhibit. The city council may impose reasonable conditions upon the approval of a site plan consistent with the purposes stated in Section 51A-1.102 of this chapter. Any conditions imposed must be in writing and made part of the resolution.

(ff) After a final decision is reached by the city council denying a site plan, no further applications for site plan approval may be considered for that particular station or transfer center site for two years from the date of the final decision. If the city council renders a final decision of denial without prejudice, the two year time limitation is waived. A property owner may apply for a waiver of the two year time limitation by submitting a request in writing to the director. Only the city council may waive the time limitation applicable to site plans reviewed under this subsection. A simple majority vote by the city council is required to grant the request. The two year time limitation applicable to site plans reviewed under this subsection does not affect the ability of a property owner to apply for a specific use permit for the same site.

(gg) Authorization by city council resolution shall no longer be available for a particular station or transfer center site when an application is made for a specific use permit for that site unless the application is withdrawn prior to the mailing of notices for the public hearing before the city plan commission. (Ord. Nos. 19455; 19786; 20122; 20493; 20625; 21001; 21663; 22026; 22799; 23735; 23766; 24833; 25047; 28073; 28424; 30890; 30932)

SEC. 51A-4.212. UTILITY AND PUBLIC SERVICE USES.

(1) Commercial radio or television transmitting station.

(A) Definition: A facility for the transmission of commercial programming by radio or television within the commercial band of the electromagnetic spectrum.

(B) Districts permitted: By right in GO(A), CR, RR, CS, industrial, central area, mixed use, and multiple commercial districts. By SUP only in A(A), LO(A), and MO(A) districts.

(C) Required off-street parking: One space per 1,000 square feet of floor area.

(D) Required off-street loading: None.

(2) Electrical generating plant.

(A) Definition: A facility franchised by the city that generates electricity from mechanical power produced by gas, coal, or nuclear fission.

(B) Districts permitted: By SUP only in the IM district.

(C) Required off-street parking: One space per 1,000 square feet of floor area.

(D) Required off-street loading:

§ 51A-4.212 Dallas Development Code: Ordinance No. 19455, as amended

(3) Electrical substation.

(A) Definition: A facility for transforming electricity for distribution to individual customers.

(B) Districts permitted: By right in LO(A), MO(A), GO(A), CR, RR, CS, industrial, central area, mixed use, and multiple commercial districts. By SUP only in all residential, NO(A), and NS(A) districts.

(C) Required off-street parking: Two spaces.

(D) Required off-street loading: None.

(4) Local utilities.

(A) Definitions:

(i) UTILITY SERVICES means air pollution monitoring stations, antennas, cables, dishes, distribution lines, drainage lines, generating facilities, nodes and hubs, pipes, poles, pumping stations, receivers and senders, repeating or regenerating devices, storm water facilities, switching stations, substations, tanks, transmission lines, water wells, wires, or similar equipment operated by a municipality, a transit authority, or a certificated, franchised, or licensed utility company providing cable television, electrical, gas, internet, storm sewer, telecommunications, telegraph, telephone, water, or wastewater service to the public.

(ii) COMMUNICATIONS EXCHANGE FACILITY means a facility for the centralized placement of communications equipment used to store, house and route voice and data transmissions among communications companies.

(B) Districts permitted:

(i) Utility services:

(aa) Except as otherwise provided, by right in all residential and nonresidential districts.

(bb) By SUP only in residential districts if the above-grade facilities exceed 300 square feet in floor area or structure footprint per lot, except that no SUP is required for below-grade facilities, distribution lines, transmission lines, and supporting structures. In this subparagraph, “structure footprint” means the ground area defined by vertical planes extending downward from the outermost projection of the structure.

(cc) RAR is required if this use is more than 150 square feet in floor area or more than 10 feet in height, except that no RAR is required for below-grade facilities, distribution lines, transmission lines, and supporting structures.

(ii) Communications exchange facility: By right in LO(A), MO(A), GO(A), RR, CS, industrial, central area, mixed use, and multiple commercial districts. By right in the CR district if this use does not exceed 50,000 square feet in floor area; otherwise, prohibited in the CR district. By right in nonresidential planned development districts that allow local utilities. Allowed in residential planned development districts only if specifically listed as a permitted use, otherwise prohibited in residential planned development districts.

(C) Required off-street parking:

(i) Utility services: None.

(ii) Communications exchange facility: One space per 5,000 square feet of floor area, except that one space per 333 square feet is required for any floor area used for office space.

(D) Required off-street loading:

(i) Utility services: None.

(ii) Communications exchange facility:
§ 51A-4.212 Dallas Development Code: Ordinance No. 19455, as amended

SQUARE FEET OF FLOOR AREA IN STRUCTURE | TOTAL REQUIRED SPACES OR BERTHS
--- | ---
0 to 50,000 | NONE
50,000 to 150,000 | 1
Each additional 100,000 or fraction thereof | 1 additional

(E) Additional provisions:

(i) Utility services:

(aa) Above-ground storage tanks are not permitted under this use, except accessory above-ground storage tanks to emergency generators. The capacity of accessory above-ground storage tanks may not exceed 11,000 gallons in nonresidential districts and 3,500 gallons in residential districts.

(bb) Except as otherwise provided in Subparagraph (E)(i)(dd), in residential districts, if this use is over seven feet in height, screening that complies with Section 51A-4.602(b) must be constructed and maintained along the side and rear of the use.

(cc) Except as otherwise provided in Subparagraph (E)(i)(dd), if this use is over seven feet in height, a perimeter landscape buffer strip that complies with Section 51A-10.125 must be provided.

(dd) Distribution lines, transmission lines, and supporting structures are exempt from the requirements of Subparagraphs (E)(i)(bb) and (E)(i)(cc).

(ee) No landscape regulations apply to this use except as expressly provided in these additional provisions.

(ff) This use is not subject to compliance proceedings under Section 51A-4.704.

(ii) Communications exchange facility:

(aa) Section 51A-4.408(a)(1), which exempts structures for utility uses from certain height restrictions, does not apply to this use.

(5) Police or fire station.

(A) Definition: A facility operated by the city as a police or fire station.

(B) Districts permitted: By right in GO(A), CR, RR, CS, industrial, central area, mixed use, multiple commercial, and urban corridor districts. By SUP only in residential, NO(A), LO(A), MO(A), and NS(A) districts.

(C) Required off-street parking:

(i) Police station: One space per 150 square feet of floor area.

(ii) Fire station: Five spaces plus one additional space per bed.

(D) Required off-street loading: One space.

(E) Additional provisions:

(i) This use may include emergency medical services.

(6) Post office.

(A) Definition: A government facility for the transmission, sorting, and local distribution of mail.
§ 51A-4.212 Dallas Development Code: Ordinance No. 19455, as amended

(B) Districts permitted: By right in GO(A), CR, RR, CS, industrial, central area, mixed use, multiple commercial, and urban corridor districts. By SUP only in MF-3(A), MF-4(A), LO(A), MO(A), and NS(A) districts.

(C) Required off-street parking: One space per 200 square feet of floor area.

(D) Required off-street loading:

<table>

(E) Additional provisions:

(i) This use includes main branches, substation branches, and neighborhood coin-operated self-service stations.

(7) Radio, television, or microwave tower.

(A) Definition: A structure supporting antennae that transmit or receive any portion of the electromagnetic spectrum.

(B) Districts permitted: By right in GO(A), CS, industrial, and central area districts. By SUP only in residential, NO(A), LO(A), MO(A), retail, mixed use, and multiple commercial districts. RAR required in GO(A), CS, and industrial districts.

(C) Required off-street parking: Two spaces.

(D) Required off-street loading: None.

(8) Refuse transfer station.

(A) Definition: A privately owned facility for the separation, transfer, or packing of solid waste materials from smaller collecting vehicles to larger transport vehicles.

(B) Districts permitted: By SUP only in A(A) and IM districts.

(C) Required off-street parking: One space per 1,000 square feet of site area exclusive of parking area.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) This use must comply with Chapter 18 of the Dallas City Code and all other applicable city ordinances, rules, and regulations.

(9) Sanitary landfill.

(A) Definition: A facility for the collection, handling, storage, and disposal of solid waste.

(B) Districts permitted: By SUP only in A(A) and IM districts.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) This use is subject to federal and state law requirements.

(ii) This use must comply with Chapter 18 of the Dallas City Code and all other applicable city ordinances, rules, and regulations.
(10) **Sewage treatment plant.**

(A) **Definition:** A facility for receiving and treating sewage from the city sanitary sewer system.

(B) **Districts permitted:** By SUP only in A(A), IM, and central area districts.

(C) **Required off-street parking:** One space for each million gallons of capacity.

(D) **Required off-street loading:** None.

(10.1) **Tower/antenna for cellular communication.**

(A) **Definitions:**

(i) **Mounted cellular antenna** means a cellular antenna that is attached to an existing structure, that complies with the requirements of Subparagraph (E)(i), and that is part of a cellular system authorized by the Federal Communications Commission. An auxiliary building housing electronic and communication equipment is permitted as part of this use.

(ii) **Monopole cellular tower** means a single pole structure that supports a platform and cellular antennas, that complies with the requirements of Subparagraphs (E)(ii) and (iii), and that is part of a cellular system authorized by the Federal Communications Commission. An auxiliary building housing electronic and communication equipment is permitted as part of this use.

(iii) **Other cellular communication tower/antenna** means any cellular communication tower or antenna that is part of a cellular system authorized by the Federal Communications Commission, but that is not covered by the definitions contained in Subparagraphs (A)(i) and (A)(ii). An auxiliary building housing electronic and communication equipment is permitted as part of this use.

(iv) **Platform** means that portion of a monopole cellular tower that is located on top of the pole and that supports directional, transmitting, and receiving antennas.

(v) **Temporary cellular unit** means any cellular communication structure, vehicle, trailer mounted apparatus, or device that is part of a system authorized by the Federal Communications Commission that is used to temporarily provide service where an existing tower/antenna for cellular communication is not operable for one or more of the following reasons:

(aa) The existing tower/antenna for cellular communication use is damaged or destroyed other than by the intentional act of the owner or agent; or

(bb) A demolition or construction permit has been issued on a building site that includes an existing mounted cellular antenna, monopole cellular tower, or other cellular communication tower/antenna.

(B) **Districts permitted:**

(i) **Mounted cellular antennas:**

By right in A(A), single family, duplex, townhouse, CH, MF-1(A), MF-1(SAH), MF-2(A), MF-2(SAH), and MH(A) districts when attached to an existing structure that is currently occupied or was last occupied by a nonresidential use. By SUP only in A(A), single family, duplex, townhouse, CH, MF-1(A), MF-1(SAH), MF-2(A), MF-2(SAH), and MH(A) districts when attached to an existing structure that is currently occupied or was last occupied by a nonresidential use and the mounted cellular antenna exceeds the residential proximity slope height restrictions. The impact of the mounted cellular antenna height on an adjacent residential district must be considered in the SUP process.

(ii) **Mounted cellular antennas:**

By right in MF-3(A), MF-4(A), office, retail, CS, industrial, central area, mixed use, multiple commercial, P(A), and UC-3 districts when attached to any existing structure. By SUP only in MF-3(A), MF-4(A), office, retail, CS, industrial, central area,
mixed use, multiple commercial, P(A), and UC-3 districts when attached to an existing structure and the mounted cellular antenna exceeds the residential proximity slope height restrictions. The impact of the mounted cellular antenna height on an adjacent residential district must be considered in the SUP process.

(iii) Monopole cellular towers: By right in commercial, industrial, and central area districts with RAR required in commercial and industrial districts. By right in LO(A), MO(A), GO(A), mixed use, and multiple commercial districts if the height of the tower does not exceed the maximum height for structures in that district as provided in the district regulations (Divisions 51A-4.100 et seq.) with RAR required in the same districts; otherwise by SUP only. By right in the CR district if the height of the tower does not exceed 65 feet, with RAR required; otherwise by SUP only. By right in the RR district if the height of the tower does not exceed 80 feet, with RAR required; otherwise by SUP only. By SUP only in all residential, NO(A), NS(A) districts, and in any district where a monopole cellular tower is permitted by right but exceeds the residential proximity slope height restrictions. The impact of the monopole cellular tower height on an adjacent residential district must be considered in the SUP process.

(iv) Other cellular communication towers/antennas are permitted by right in GO(A), CS, industrial, and central area districts. By SUP only in residential, NO(A), GO(A), MO(A), retail, mixed use, multiple commercial districts, and in any district where other cellular communication towers/antennas are permitted by right but exceed the residential proximity slope height restrictions. RAR required in GO(A), CS, and industrial districts. The impact of the other cellular communication tower/antenna height on an adjacent residential district must be considered in the SUP process.

(v) Temporary cellular unit is permitted by right in all districts.

(C) Required off-street parking: None required for temporary cellular units. One space if the cellular communication tower/antenna has an auxiliary building housing electronic and communication equipment (“auxiliary building”) greater than 120 square feet. Physically separate auxiliary buildings will not be aggregated to determine the area of an auxiliary building for the purpose of determining required off-street parking requirements.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) Mounted cellular antennas may not exceed 12 feet above the structure to which they are attached. Whip antennas are excluded from this calculation.

(ii) The pole portion of a monopole cellular tower may not exceed 42 inches in diameter. Microwave dishes or similar devices up to three feet in diameter may be mounted on the pole portion of a monopole cellular tower. If microwave dishes or similar devices on a monopole cellular tower are concealed within a stealth tower, no maximum; otherwise, no more than two dishes or similar devices may be placed on a monopole cellular tower.

(iii) The platform portion of a monopole cellular tower may not have a horizontal cross sectional area greater than 196 square feet. The depth of the platform may not exceed 4 feet, excluding any whip antenna. Only antennas that are part of a cellular system authorized by the Federal Communications Commission are permitted on a platform.

(iv) The owner of a monopole or other tower for cellular communication shall notify the building official when the tower is no longer operating as part of a cellular system authorized by the Federal Communications Commission. Within 12 months of the date the tower ceases to operate as part of an authorized cellular system, the tower must either be removed from the site, or a certificate of occupancy must be obtained to allow another permitted use of the tower. If within 12 months the owner fails to remove the tower or obtain proper authorization for use of the tower, the building official shall revoke the certificate of occupancy for the tower and notify the city attorney to pursue enforcement remedies.
(v) Mounted cellular antennas attached to utility structures are exempt from the residential proximity slope regulations in certain circumstances. [See Section 51A-4.408(a)(1)(C).]

(vi) Temporary cellular unit:

(aa) The building official shall issue a certificate of occupancy for a period not to exceed one year. The building official may grant up to two six-month extensions if a complete application for or amendment to a specific use permit or planned development district has been filed with the director or a building permit is issued for the replacement of the existing tower/antenna for cellular communication.

(bb) A temporary cellular unit must be removed upon the expiration of its certificate of occupancy or upon the completion or expiration of a permit to construct a structure to mount a permanent mounted cellular antenna, a monopole cellular tower, or other cellular antenna, whichever occurs first.

(cc) Except as provided in this provision, a temporary cellular unit must comply with the yard, lot, and space regulations of the district and may not exceed the height of the existing tower/antenna for cellular communication use to be removed. Lightning rods atop a temporary cellular unit are not included in height calculations. A temporary cellular unit is not subject to residential proximity slope. If a temporary cellular unit collocates with existing operators on a single vertical temporary cellular unit, the following regulations apply:

(I) If the height of the existing mounted cellular antenna to be removed is less than the maximum structure height of the district, the maximum structure height may extend an additional ten feet in height for each existing operator above one, not to exceed the maximum structure height of the district.

(II) If the height of the existing mounted cellular antennas to be removed is equal to or exceeds the maximum structure height of the district, the maximum height of the temporary cellular unit may not exceed the height of the existing mounted cellular antennas to be removed.

(vii) The specific use permit regulations in Section 51A-4.219 apply to a tower/antenna for cellular communication except as modified in this provision. The director shall send written notice of a public hearing on an application for an SUP for a tower/antenna for cellular communication use to all owners of real property lying within 500 feet of the building site as defined in Section 51A-4.601 on which the tower/antenna for cellular communication use will be located. If the site does not comply with Section 51A-4.601, the director shall send written notice of a public hearing on an application for an SUP for a tower/antenna for cellular communication use to all owners of real property lying within 500 feet of the boundaries of a lot on a preliminary plat that is approved by the city plan commission upon which the tower/antenna for cellular communication use is to be located.

(viii) An application for or an amendment to a specific use permit or planned development district is not required for a modification to an existing tower/antenna for cellular communication or its base station unless the modification substantially changes the physical dimensions of the existing tower/antenna for cellular communication, or its base station. A modification substantially changes the physical dimensions of an existing tower/antenna for cellular communication or its base station if it meets the criteria listed in 47 C.F.R. §1.40001(b)(7), as amended.

(11) Utility or government installation other than listed.

(A) Definition:

(i) A “utility other than listed” is a public or private facility certificated, franchised, licensed, or operated by the city as a utility, and that is not specifically covered by the use regulations in this chapter.

(ii) A “government installation other than listed” is an installation owned or leased by a government agency and that is not specifically covered by the use regulations in this chapter. Typical such government installations include city hall, a courthouse, or an elevated water storage reservoir.
(B) Districts permitted: By right in central area and urban corridor districts, except that an SUP is required for the “government installation other than listed” use in the CA-1(A) district. By SUP only in residential, office, retail, industrial, mixed use, and multiple commercial districts.

(C) Required off-street parking: The ratio of the use that the building official determines is the most equivalent to the proposed use in terms of function. If a specific use permit is required, the off-street parking regulations may be established in the ordinance granting the permit. In such cases, the city council shall consider the degree to which the use would create traffic hazards or congestion given the capacity of nearby streets, the trip generation characteristics of the use, the availability of public transit and the likelihood of its use, and the feasibility of traffic mitigation measures.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) The SUP requirement for this use does not apply to a building, other structure, or land under the control, administration, or jurisdiction of a state or federal agency.

(12) Water treatment plant.

(A) Definition: A facility for purifying, supplying, and distributing city water, including a system of reservoirs, channels, mains, and purifying equipment.

(B) Districts permitted: By right in the IM district. By SUP only in A(A), central area, and IR districts. RAR required in the IM district.

(C) Required off-street parking: Two spaces.

(D) Required off-street loading: None.

SEC. 51A-4.213. WHOLESALE, DISTRIBUTION, AND STORAGE USES.

(1) Auto auction.

(A) Definition: A facility for the auction of automobiles.

(B) Districts permitted: By SUP only in CS and IM districts.

(C) Required off-street parking: One space per 500 square feet of site area exclusive of parking area.

(D) Required off-street loading:

<table>

(2) Building mover’s temporary storage yard.

(A) Definition: A site where a building or structure which has been removed from its original construction site is temporarily stored.

(B) Districts permitted: By SUP only in CS and IM districts.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) This use must be surrounded by a solid visual screen of at least nine feet in height and constructed of solid masonry, solid concrete, corrugated sheet metal, or a chain link fence with strips of metal through all links.
(ii) This use must be landscaped with plants meeting the requirements of the specific use permit.

(iii) Buildings temporarily stored under this use may not be placed upon a foundation.

(iv) This use does not include bona fide sales lots on which new buildings or structures are located displaying examples of workmanship or appearance of the buildings or structures to be constructed on other sites and sold.

(3) Contractor’s maintenance yard.

(A) Definition: A facility for the storage and maintenance of contractor’s supplies and operational equipment.

(B) Districts permitted: By right in CS and IM districts. RAR required in CS and IM districts.

(C) Required off-street parking: One space per 2,000 square feet of site area exclusive of parking area; a minimum of four spaces is required.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) This use must be surrounded by screening.

(4) Freight terminal.

(A) Definition: A facility for the transfer or storage of freight.

(B) Districts permitted: By right in CS, industrial, and central area districts. RAR required in CS and industrial districts. DIR required in central area districts.

(C) Required off-street parking: One space per 1,000 square feet of floor area.

(D) Required off-street loading:

<table>

</table>

(5) Livestock auction pens or sheds.

(A) Definition: A facility for the auction of livestock.

(B) Districts permitted: By SUP only in A(A) and IM districts.

(C) Required off-street parking: One space per 28 square feet of seating area, plus one space per 600 square feet of sales area.

(D) Required off-street loading:

<table>
<thead>
<tr>

</tbody>
</table>
§ 51A-4.213 Dallas Development Code: Ordinance No. 19455, as amended § 51A-4.213

(6) Manufactured building sales lot.

(A) Definition: A facility for the display, service, and retail sale of manufactured housing or preassembled storage buildings.

(B) Districts permitted: RAR required in CS and industrial districts.

(C) Required off-street parking: One space per 200 square feet of office floor area. A minimum of four spaces must be provided.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>

</tr>
<tr>
<td>Each additional 60,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) Outside display and storage of new or used manufactured housing or preassembled storage buildings for sale is permitted under this use without a visual screen.

(ii) Display or storage of manufactured housing or preassembled storage buildings is prohibited within the required front yard.

(7) Mini-warehouse.

(A) Definition: A building or group of buildings containing one or more individual compartmentalized storage units for the inside storage of customers’ goods or wares, where no unit exceeds 500 square feet in floor area.

(B) Districts permitted: By right in CS, industrial, central area districts. By SUP only in CR, RR, mixed use, and multiple commercial districts.

(C) Required off-street parking: A minimum of six spaces required. Spaces may not be used for outside storage, vehicle storage, or parking for vehicles for rent.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>

<tr>
<td>Each additional 100,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) Caretaker’s quarters are permitted as an accessory use. One parking space must be provided per 500 square feet of floor area of caretaker’s quarters; however, no more than two spaces are required for each caretaker’s quarters.

(8) Office showroom/warehouse.

(A) Definitions. In this paragraph:

(i) OFFICE SHOWROOM/WAREHOUSE means a facility which has the combined uses of office and showroom or warehouse for the primary purpose of wholesale trade, display, and distribution of products.

(ii) OFFICE SHOWROOM COMPONENT means the portion of this use which provides area for the regular transaction of business and for the display of uncontainerized merchandise in a finished building setting.

(B) Districts permitted: By right in CS, industrial, central area, MU-3, and MU-3(SAH) districts.

(C) Off-street parking.

Required off-street parking:

(i) Office: One space per 333 square feet of floor area.

(ii) Showroom/warehouse: One space per 1,000 square feet of floor area for the first 20,000 square feet of floor area. One space per 4,000 square feet of floor area in excess of 20,000 square feet.
§ 51A-4.213 Dallas Development Code: Ordinance No. 19455, as amended § 51A-4.213

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 to 10,000</td>
<td>NONE</td>
</tr>
<tr>
<td>10,000 to 50,000</td>
<td>1</td>
</tr>
<tr>
<td>50,000 to 100,000</td>
<td>2</td>
</tr>
<tr>
<td>Each additional 100,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) Retail sales of products which are sold at wholesale on the premises are permitted as a part of this use.

(ii) In the MU-3 and MU-3(SAH) districts, the office showroom component of this use must comprise at least 25 percent of the total floor area of the use.

(G) Stacking height.

(i) Except as provided in this subparagraph, maximum outside storage stacking height is 30 feet if the open storage is visible from and within 200 feet of a thoroughfare or adjoining property that is not zoned an IM district. If outside storage is 200 feet or more from a thoroughfare or adjoining property, no maximum outside storage stacking height.

(ii) Outside storage stacking height within 40 feet of required screening may not exceed the height of the required screening.

(H) Additional provisions:

(i) A person shall not place, store, or maintain outside for a period in excess of 24 hours, an item that is not:

(aa) customarily used or stored outside; or
(bb) made of a material that is resistant to damage or deterioration from exposure to the outside environment.

(ii) Except as otherwise provided in this article, outside storage is considered to be a separate main use if it occupies more than five percent of the lot. Outside storage on less than five percent of the lot may qualify as an accessory use if it is customarily incidental to a main use. See Section 51A-4.217.

(iii) Outside storage is prohibited in required yards, landscaping areas, and parking areas.

(iv) All nonconforming open storage uses must comply with Subparagraphs (F) and (G) before September 22, 2018. The owner or operator may request from the board of adjustment an extension of this time period by filing an application with the director on a form provided by the city. The application must be filed before the September 22, 2018 deadline expires. The application is not considered filed until the fee is paid. The board of adjustment may grant an extension of this time period if it determines, after a public hearing, that strict compliance would result in substantial financial hardship or inequity to the applicant without sufficient corresponding benefit to the city and its citizens in accomplishing the objectives of this Paragraph (9), “Outside Storage.” The fee to request that the board of adjustment extend time is the same fee as the fee for a nonresidential special exception set forth in Article I, “General Provisions,” of the Dallas Development Code.

(10) Petroleum product storage and wholesale.

(A) Definition: A facility for the storage and wholesale trade and distribution of petroleum products.

(B) Districts permitted: By right in the IM district with RAR required. By SUP only in the CS district.

(C) Required off-street parking: One space for each 2,000 square feet of site area exclusive of parking area; a minimum of four spaces required.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 10,000</td>
<td>NONE</td>
</tr>
<tr>
<td>10,000 to 50,000</td>
<td>1</td>
</tr>
<tr>
<td>50,000 to 100,000</td>
<td>2</td>
</tr>
<tr>
<td>Each additional 100,000 or fraction thereof</td>
<td>1 additional</td>
</tr>
</tbody>
</table>

(E) Additional provisions:

(i) In an IM district, petroleum product storage and wholesale must be visually screened on any side that is within 200 feet of and visible from a thoroughfare or an adjacent property that is not zoned an IM district. For purposes of this paragraph, adjacent means across the street or sharing a common lot line.

(11) Recycling buy-back center.

(A) Definitions: In these use regulations:

(i) HOUSEHOLD METALS means items that are:

   (aa) customarily used in a residential dwelling;

   (bb) comprised of any quantity of ferrous or nonferrous metal, as defined in Chapter 40B of the Dallas City Code, as amended; and

   (cc) not included in the definition of industrial metals. Examples of household metals include, but are not limited to kitchen pots and pans, cooking and serving tools, barbeque equipment, window screens, gardening tools, and aluminum foil.

(ii) INDUSTRIAL METALS means pipes, wires, coils, condensors, guard rails, automotive parts, bulky appliances, and similar industrial or construction materials which are comprised of any quantity of ferrous or nonferrous
§ 51A-4.213 Dallas Development Code: Ordinance No. 19455, as amended

metal, as defined in Chapter 40B of the Dallas City Code, as amended.

(iii) RECYCLABLE MATERIALS means clothing, aluminum cans, steel cans, glass, paper, plastics, and household and industrial metals.

(iv) RECYCLING BUY-BACK CENTER means a facility wholly enclosed within a building, or an automatic collection machine, used for the collection and temporary storage of recyclable materials as provided in Subparagraph (B).

(v) RECYCLING USE means any use listed in Paragraphs (11) through (11.3) of this section.

(B) Districts permitted:

(i) If this use is located on property controlled, managed, or maintained by the park and recreation board: By right in all districts.

(ii) For the collection of aluminum cans, steel cans, glass, paper, clothing, and plastics: By right with RAR required in industrial, central area, MU-2, MU-2(SAH), MU-3, MU-3(SAH), MC-2, MC-3, and MC-4 districts. By SUP in CR, RR, CS, MU-1, MU-1(SAH), and MC-1 districts.

(iii) For the collection of household metals: By SUP in CR, RR, CS, industrial, central area, mixed use and multiple commercial districts.

(iv) For the collection of industrial metals: By SUP in industrial districts.

(C) Required off-street parking: One space per 500 square feet of floor area.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) The floor area of this use may not exceed 10,000 square feet.

(ii) Mechanical processing of recyclable materials is limited to crushing, bailing, and shredding.

(iii) Materials stored at this use must be removed at least once a week or before reaching capacity. The facilities must be maintained in proper repair and the exterior must have a neat and clean appearance.

(iv) In the LI, IR, and IM districts, openings providing vehicle access to the building may remain open at all times. In all other districts, vehicle access openings must remain closed except when receiving or removing recyclable materials.

(v) No more than one recycling use is permitted on a building site.

(vi) This use must be located at least 1,000 feet from another recycling use. Measurements of distance under this paragraph are taken radially. “Radial” measurement means a measurement taken along the shortest distance between the nearest point of the building sites where recycling uses are located.

(vii) The collection of industrial metals is prohibited in all districts except the LI, IR, and IM districts as provided in Subparagraph (B).

(viii) If this use is located on property controlled, managed, or maintained by the park and recreation board, the requirements of Subparagraphs (C), (D), and (E) do not apply.

(ix) The collection of hazardous waste, as defined in Section 51A-4.206(4)(A)(iii), is prohibited.

(x) No SUP for this use may be granted for more than a two-year time period.

(11.1) Recycling collection center.

(A) Definitions:

(i) HOUSEHOLD METALS means items that are:

(aa) customarily used in a residential dwelling;
§ 51A-4.213 Dallas Development Code: Ordinance No. 19455, as amended

(bb) comprised of any quantity of ferrous or nonferrous metal, as defined in Chapter 40B of the Dallas City Code, as amended; and

(cc) not included in the definition of industrial metals. Examples of household metals include, but are not limited to kitchen pots and pans, cooking and serving tools, barbeque equipment, window screens, gardening tools, and aluminum foil.

(ii) INDUSTRIAL METALS means pipes, wires, coils, condensors, guard rails, automotive parts, bulky appliances, and similar industrial or construction materials which are comprised of any quantity of ferrous or nonferrous metal, as defined in Chapter 40B of the Dallas City Code, as amended.

(iii) RECYCLABLE MATERIALS means aluminum cans, steel cans, glass, paper, plastics, and household and industrial metals.

(iv) RECYCLING COLLECTION CENTER means a facility for the collection and temporary storage of recyclable materials as provided in Subparagraph (B).

(v) RECYCLING USE means any use listed in Paragraphs (11) through (11.3) of this section.

(B) Districts permitted:

(i) If this use is located on property controlled, managed, or maintained by the park and recreation board: By right in all districts.

(ii) For the collection of aluminum cans, steel cans, glass, paper, and plastics: By right with RAR required in industrial, central area, MU-2, MU-2(SAH), MU-3, MU-3(SAH), MC-2, MC-3, and MC-4 districts. By SUP in CR, RR, CS, MU-1, MU-1(SAH), and MC-1 districts.

(iii) For the collection of household metals: By SUP in CR, RR, CS, industrial, central area, mixed use, and multiple commercial districts.

(iv) For the collection of industrial metals: By SUP in industrial districts.

(C) Required off-street parking: A minimum of one space is required. If the use is operated by an attendant, one additional space is required.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) This use may only be located on an improved surface in an enclosed container or a trailer that is not more than 45 feet in length.

(ii) A trailer may only be placed on an improved surface of a building site containing a minimum of 30,000 square feet of land area, and a minimum of 10,000 square feet of building area. The area occupied by this use may not exceed 2,000 contiguous square feet, excluding area for required parking and maneuvering.

(iii) No more than one recycling use is permitted on a building site. A collection center is limited to one trailer and two containers of no more than 40 cubic yards each. An additional 40-cubic-yard container may be substituted for the permitted trailer.

(iv) A collection center located on a parking lot may not occupy required off-street parking spaces. A collection center must be arranged so as to not impede free traffic flow. This use may not be located in a required yard.

(v) Mechanical processing of recyclable materials is prohibited on site.

(vi) Materials stored at the collection center must be removed at least once a week or before reaching capacity.

(vii) The collection center must be maintained in proper repair and the exterior must have a neat and clean appearance. All containers must be constructed of solid materials.

(viii) Collection centers must be attended at all times or closed.
§ 51A-4.213 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-4.213

(ix) A sign must be provided for each trailer and container. Each sign must identify the use, the operator responsible for the use, and the telephone number of the operator. A trailer may have one sign on each side, not exceeding 125 square feet. No sign on a container may exceed 30 square feet. No other sign is permitted for this use.

(x) No SUP for this use may be granted for more than a two-year time period.

(xi) Operation of this use between the hours of 9:00 p.m. and 7:00 a.m. is prohibited.

(xii) This use must be located at least 1,000 feet from another recycling use. Measurements of distance under this paragraph are taken radially. “Radial” measurement means a measurement taken along the shortest distance between the nearest point of the building sites where recycling uses are located.

(xiii) If this use is located on property controlled, managed, or maintained by the park and recreation board, the requirements of Subparagraphs (C), (D), and (E) do not apply.

(xiv) The collection of hazardous waste, as defined in Section 51A-4.206(1.1), is prohibited.

(11.2) Recycling drop-off container.

(A) Definitions: In these use regulations:

(i) RECYCLABLE MATERIALS means aluminum cans, steel cans, glass, paper, and plastics.

(ii) RECYCLING DROP-OFF CONTAINER means a facility for the collection and temporary storage of recyclable materials that are limited to aluminum cans, steel cans, glass, paper, and plastics.

(B) Districts permitted:

(i) By right in all districts if this use is located on property controlled, managed, or maintained by the park and recreation board.

(ii) By right in all districts except the P(A) district if the requirements of Subparagraph (E) are satisfied. Except as otherwise provided in Subparagraph (B)(i) and except for the P(A) district, by SUP in any district if any requirement of Subparagraph (E) is not satisfied.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) A multifamily or non-residential use must be located on the same building site as this use.

(ii) This use may not be located within a visibility triangle as defined in Section 51A-4.602.

(iii) No more than two containers are permitted on a building site. Containers may have no more than 3.5 cubic yards of storage capacity except that one container for paper collection may have no more than 20 cubic yards of storage capacity. No container may exceed six feet in height. All deposit openings must be designed to prevent dispersion of the container’s contents, or the container must be staffed at all times when collection may occur. Containers must be constructed of solid materials and placed on concrete paving, hot mix asphalt paving that consists of a binder and surface course, or a material that has equivalent characteristics.

(iv) Containers may not occupy required off-street parking spaces, impede free traffic flow, or be located in a yard that abuts a street. For purposes of this provision, “yard” means the area extending the length of the lot between the main structure and a street.

(v) Trailers and automatic collection machines are prohibited.

(vi) Mechanical processing of the recyclable materials is prohibited on site.

(vii) Materials stored at this use must be removed at least once a week or before
reaching capacity. The facilities must be maintained in proper repair and the exterior must have a neat and clean appearance.

(viii) A sign must be provided for each container on the container. Each sign must identify the use, the operator responsible for the use, and the telephone number of the operator. No sign on a container may exceed 30 square feet. One sign that does not exceed 20 square feet may be provided on a required screening fence within five feet of a container.

(ix) No more than one recycling use is permitted on a building site.

(x) This use must be located at least 1,000 feet from another recycling use. Measurements of distance under this provision are taken radially. “Radial” measurement means a measurement taken along the shortest distance between the nearest point of the building sites where recycling uses are located.

(xi) Recycling drop-off containers must be visually screened on any side visible from a street or an adjoining residential property by a brick, stone, concrete masonry, stucco, concrete, or wood wall or fence or by landscape screening. To allow air circulation and visibility, the screening from grade to one foot above grade must be open except for support posts. Screening must be properly maintained so that:

(aa) the screening is not out of vertical alignment more than one foot from the vertical, measured at the top of the screening; and

(bb) any rotted, fire damaged, or broken slats or support posts; any broken or bent metal posts; any torn, cut, bent, or ripped metal screening; any loose or missing bricks, stones, rocks, mortar, or similar materials and any dead or damaged landscaping materials are repaired or replaced.

(xii) No SUP for this use may be granted for more than a two-year time period.

(xiii) Nonprofit organizations are exempt from payment of SUP application fees for this use. For purposes of this provision, “nonprofit organization” means an organization eligible for an exemption from taxation pursuant to Sections 501(c) of the Internal Revenue Code. At the time of application, a nonprofit applicant must submit an affidavit, acknowledged before a notary public, stating the organization’s eligibility for a fee exemption under this paragraph.

(xiv) The collection of hazardous waste, as defined in Section 51A-4.206(1.1), is prohibited.

(xv) If this use is located on property controlled, managed, or maintained by the park and recreation board, the requirements of Subparagraphs (C), (D), and (E) do not apply.

(xvi) By December 31, 2008, recycling drop-off containers must be brought into compliance with amendments to this subparagraph contained in Ordinance No. 27314, passed by the Dallas City Council on September 10, 2008.

(11.3) Recycling drop-off for special occasion collection.

(A) Definitions: In these use regulations:

(i) HOUSEHOLD METALS means items that are:

(aa) customarily used in a residential dwelling;

(bb) comprised of any quantity of ferrous or nonferrous metal, as defined in Chapter 40B of the Dallas City Code, as amended; and

(cc) not included in the definition of industrial metals. Examples of household metals include, but are not limited to kitchen pots and pans, cooking and serving tools, barbecue equipment, window screens, gardening tools, and aluminum foil.

(ii) INDUSTRIAL METALS means pipes, wires, coils, condensers, guard rails, automotive parts, bulky appliances, and similar industrial or construction materials which are comprised of any quantity of ferrous or nonferrous metal, as defined in Chapter 40B of the Dallas City Code, as amended.
RECYCLABLE MATERIALS means aluminum cans, steel cans, glass, paper, plastics, and household and industrial metals.

RECYCLING DROP-OFF FOR SPECIAL OCCASION COLLECTION means a facility for the collection and temporary storage of recyclable materials that are limited to metals, glass, paper, and plastics.

(B) Districts permitted:

(i) By right in all districts if this use is located on property controlled, managed, or maintained by the park and recreation board.

(ii) By right in all districts except the P(A) district if the requirements of Subparagraph (E) are satisfied. Except as otherwise provided in Subparagraph (B)(i) and except for the P(A) district, by SUP in any district if any requirement of Subparagraph (E) is not satisfied.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) No more than one event each calendar month is permitted, and no event may exceed three days in duration.

(ii) A church, school, or community center use with no less than two acres of land area must be located on the same building site as this use.

(iii) Trailers and containers may not be located within a required yard.

(iv) This use is limited to one trailer and two containers of no more than 40 cubic yards each. An additional 40-cubic-yard container may be substituted for the permitted trailer.

(v) This use must be attended at all times or closed.

(vi) This use may not occupy required off-street parking spaces or impede free traffic flow.

(vii) Mechanical processing of recyclable materials is prohibited.

(viii) All containers, conveyances, and materials must be removed from the property after each three-day event. The facilities must be maintained in proper repair and the exterior must have a neat and clean appearance. All containers must be constructed of solid materials.

(ix) A sign must be provided for each trailer and container. Each sign must identify the use, the operator responsible for the use, and the telephone number of the operator. No sign may exceed 30 square feet.

(x) Sales transactions are prohibited on site.

(xi) No more than one recycling use is permitted on a building site.

(xii) This use must be located at least 1,000 feet from another recycling use. Measurements of distance under this paragraph are taken radially. “Radial” measurement means a measurement taken along the shortest distance between the nearest point of the building sites where recycling uses are located.

(xiii) Nonprofit organizations are exempt from payment of SUP application fees for this use. For purposes of this paragraph, nonprofit organization means an organization eligible for an exemption from taxation pursuant to Sections 501(c)(3) and 501(c)(4) of the Internal Revenue Code. At the time of application, a nonprofit applicant must submit an affidavit, acknowledged before a notary public, stating the organization’s eligibility for a fee exemption under this paragraph.

(xiv) No SUP for this use may be granted for more than a two-year time period.

(xv) If this use is located on property controlled, managed, or maintained by the
§ 51A-4.213 Dallas Development Code: Ordinance No. 19455, as amended

park and recreation board, the requirements of Subparagraphs (C), (D), and (E) do not apply.

(xvi) The collection of hazardous waste, as defined in Section 51A-4.206(1.1), is prohibited.

(12) Sand, gravel, or earth sales and storage.

(A) Definition: A facility for storing and selling sand, gravel, and earth.

(B) Districts permitted: By right in the IM district with RAR required. By SUP only in A(A) and CS districts.

(C) Required off-street parking: One space per 2,000 square feet of site area exclusive of parking area; a minimum of four spaces is required.

(D) Required off-street loading:

<table>
<thead>
<tr>
<th>SQUARE FEET OF FLOOR AREA IN STRUCTURE</th>
<th>TOTAL REQUIRED SPACES OR BERTHS</th>

</tbody>
</table>

(E) Additional provisions:

(i) No mining is permitted under this use.

(ii) In an IM district, sand, gravel, or earth sales and storage must be visually screened on any side that is within 200 feet of and visible from a thoroughfare or an adjoining property that is not zoned an IM district.

(13) Trade center.

(A) Definition: A facility for exhibitions, trade shows, and conventions.

(B) Districts permitted: By right in CS, industrial, central area, MU-3, MU-3(SAH), and MC-4 districts.

(C) Required off-street parking: One space for each 700 square feet of floor area, exclusive of atriums, mechanical rooms, stairwells, and hallways. Required off-street parking must be provided on the site within 500 feet of a public entrance to the trade center. However, parking may be located at a distance greater than 500 feet if a satisfactory system of transportation between the trade center and parking area is established and maintained by the owner of the use.

(D) Required off-street loading:

(E) Additional provisions:

(i) This use must have a minimum floor area of 2,000,000 square feet.

(ii) This use must have a site area of at least 100 acres. The site area may be divided by streets. The area of the dividing streets is not included in the computation of the site area.

(iii) No more than 40 percent of the floor area may be used for retail sales.

(14) Vehicle storage lot.

(A) Definition: A facility for the storage of vehicles that have been towed, repossessed, or are otherwise in the care and custody of the operator of the lot.

(B) Districts permitted: By right in the IM district. By SUP only in the CS district.
§ 51A-4.213 Dallas Development Code: Ordinance No. 19455, as amended

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) No servicing of vehicles or sales of vehicles or parts are permitted under this use.

(ii) A person shall not store outside a legally or mechanically inoperative or wrecked motor vehicle for a continuous period in excess of 60 days.

(iii) This use must have a visual screen of at least six feet in height which consists of solid masonry, concrete, brick, stucco, stone, or wood.

(iv) Access through required screening may be provided only by a solid gate equaling the height of the screening. The gate must be located at least 20 feet from the back of the existing street curb, and must remain closed except when in actual use.

(v) No stacking, crushing, dismantling, or repair of vehicles is permitted.

(vi) A landscape plan must be submitted to the building official with any application for a building permit in connection with the creation or expansion of this use. The point values and standards contained in Section 51A-10.107 of this chapter apply to the building official’s review of the landscape plan required for this use. The landscape plan must show at least 20 points of landscaping located between the required screening and the perimeter of the lot. The requirements contained in Article X of this chapter related to acceptable landscape materials, soil requirements, protection of landscape areas, irrigation requirements, completion, and maintenance apply to this use.

(vii) A minimum distance of 500 feet is required between this use and a single family, duplex, townhouse, clustered housing, multifamily, or manufactured home district.

(viii) This use must comply with all applicable licensing requirements.

(ix) Paving surface requirements may be provided in an ordinance granting or amending a specific use permit or a planned development district. Otherwise, the paving surface requirements contained in Subsection 51A-4.301(d)(3.1) apply.

(15) Warehouse.

(A) Definition: A facility for the inside storage and distribution of items.

(B) Districts permitted: By right in CS, industrial, and central area districts. RAR required in CS and industrial districts.

(C) Required off-street parking: One space per 1,000 square feet of floor area up to 20,000 square feet, and one space per 4,000 square feet of floor area over 20,000 square feet.

(D) Required off-street loading:

<table>

(E) Additional provisions:

(i) Retail sales are permitted as part of the warehouse use if the sales are conducted in compliance with the following subparagraphs:

(aa) Up to 100 percent of the total warehouse floor area may be devoted to retail sales activities during an occasional warehouse sale. No more than six occasional warehouse sales may be conducted during any 12 month period. Each
§ 51A-4.213 Dallas Development Code: Ordinance No. 19455, as amended

occasional warehouse sale must be limited in duration to no more than three consecutive calendar days.

(bb) Retail sales are permitted at all times as part of the warehouse use when the retail sales area does not exceed 10 percent of the total warehouse floor area. (Ord. Nos. 19455; 19786; 20363; 20380; 20493; 20806; 20950; 21001; 21289; 21663; 21697; 24792; 27314; 28803; 29208; 29917; 30890)

SECS. 51A-4.214 THRU 51A-4.216. RESERVED. (Ord. 19455)

SEC. 51A-4.217. ACCESSORY USES.

(a) General provisions.

(1) An accessory use must be a use customarily incidental to a main use. A use listed in Sections 51A-4.201 through 51A-4.216 may be an accessory use if the building official determines that the use is customarily incidental to a main use and otherwise complies with this section. Except as otherwise provided in this article, an accessory use must comply with all regulations applicable to the main use.

(2) Except as otherwise provided in this article, an accessory use must be located on the same lot as the main use.

(3) Except as otherwise provided in this article, accessory uses listed in Subsection (b) or in Sections 51A-4.201 through 51A-5.216 are subject to the following area restrictions: If the use is conducted outside, it may not occupy more than five percent of the area of the lot containing the main use. If the use is conducted inside, it may not occupy more than five percent of the floor area of the main use. Any use which exceeds these area restrictions is considered to be a separate main use.

(4) Except as otherwise provided in Subsection (b), an accessory use is permitted in any district in which the main use is permitted.

(5) Except as provided in this paragraph, an alcohol related establishment that is customarily incidental to a main use, such as an alcohol related establishment within a hotel, restaurant, or general merchandise store, is not limited to the five percent area restriction in Section 51A-4.217(a)(3), and will be considered as part of the main use when determining the gross revenue derived by the establishment from the sale of alcoholic beverages for on-premise consumption. Accessory microbrewery, micro-distillery, or winery uses and accessory alcoholic beverage manufacturing uses may not occupy more than 40 percent of the total floor area of the main use. Any use that exceeds these area restrictions is considered a separate main use.

(b) Specific accessory uses. The following accessory uses are subject to the general provisions in Subsection (a) and the regulations and restrictions outlined below:

(1) Accessory community center (private).

(A) Definition: An integral part of a residential project or community unit development that is under the management and unified control of the operators of the project or development, and that is used by the residents of the project or development for a place of meeting, recreation, or social activity.

(B) District restrictions:

(i) This accessory use is not permitted in A(A), office, retail, CS, industrial, multiple commercial, and P(A) districts.

(ii) An SUP is required for this accessory use in single family, duplex, townhouse, CH, and urban corridor districts.

(C) Required off-street parking:

(i) Except as provided in this subparagraph, one space for each 100 square feet of floor area.

(ii) No off-street parking is required if this use is accessory to a multifamily use and is used primarily by residents.

(D) Required off-street loading: None.
(E) Additional provisions:

(i) A private community center may not be operated as a place of public meetings or as a business.

(ii) The operation of a private community center must not create noise, odor or similar conditions beyond the property line of the project or development site.

(iii) A liquor permit may not be issued for a private community center.

(iv) This accessory use need not be located on the same lot as the main use.

(v) The area restrictions in Subsection (a)(3) do not apply to this use.

(1.1) Accessory electric vehicle charging station.

(A) Definition: A facility that provides electrical charging for vehicles.

(B) District restrictions: Residential and nonresidential districts.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) Up to 10 percent of parking counted as required parking for a main use on the property may be electric vehicle charging spaces.

(ii) If this accessory use is located in a residential district, it may not have a sign advertising its services.

(iii) A charging cord may not cross over a sidewalk or pedestrian walkway.

(2) Accessory game court (private).

(A) Definition: A game court for engaging in tennis, handball, racquetball, or similar physical activities.

(B) District restrictions: This accessory use is not permitted in the P(A) district.

(C) Required off-street parking: Three spaces for each game court. No off-street parking is required for a game court accessory to a single family or duplex use.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) This accessory use may occupy up to 50 percent of the area of the lot containing the main use.

(3) Accessory helistop.

(A) Definition: A landing pad for occasional use by rotary wing aircraft.

(B) District restrictions:

(i) This accessory use is not permitted in single family, duplex, townhouse, CH, MH(A), NO(A), LO(A), NS(A), P(A), and urban corridor districts.

(ii) An SUP is required for this accessory use in A(A), multifamily, MO(A), CR, RR, CS, LI, central area, MU-1, MU-1(SAH), MU-2, MU–2(SAH), and multiple commercial districts.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) Regularly scheduled stops are not permitted under this accessory use.
(ii) Fueling or servicing facilities are not permitted under this accessory use.

(iii) This accessory use must be approved by the city aviation department.

(iv) This accessory use is subject to the Federal Aviation Administration’s rules, regulations, and approval.

(3.1) **Accessory medical/infectious waste incinerator.**

(A) Definition: A facility used to incinerate plastics, special waste, and waste containing pathogens or biologically active material which, because of its type, concentration, and quantity, is capable of transmitting disease to persons exposed to the waste.

(B) District restrictions:

(i) This accessory use is not permitted in single family, duplex, townhouse, CH, MH(A), NO(A), LO(A), NS(A), P(A), and urban corridor districts.

(ii) An SUP is required for this facility if it is used to incinerate more than 225 pounds of waste per hour.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) This accessory use is permitted only in conjunction with a hospital use.

(ii) The facility must be located at least 200 feet from all lots containing residential uses.

(iii) If the facility is used to incinerate more than 225 pounds of waste per hour, it must be located at least 200 feet from all lots containing public or private school uses.

(4) **Accessory outside display of merchandise.**

(A) Definition: The outside placement of merchandise for sale for a continuous period less than 24 hours.

(B) District restrictions: This accessory use is not permitted in residential, NO(A), LO(A), and MO(A) districts.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Except as otherwise provided in the use regulations, the area used for accessory outside display of merchandise may not be greater than an area equal to five percent of the floor area of the main use. This regulation controls over the area restrictions in Subsection 51A-4.217(a)(3).

(F) As with all other uses, an accessory outside display may not obstruct required parking and may not be placed in the public right-of-way without a license.

(5) **Accessory outside sales.**

(A) Definition: A site for the outside sale of merchandise.

(B) District restrictions: This accessory use is not permitted in residential, NO(A), LO(A), MO(A), and P(A) districts.

(C) Required off-street parking: None for the first 1,000 square feet of sales area; one space for each additional 500 square feet of sales area.

(D) Required off-street loading: None.

(6) **Accessory outside storage.**

(A) Definitions:

(i) **ACCESSORY OUTSIDE STORAGE** means the outside placement of an item for a continuous period in excess of 24 hours. Outside
placement includes storage in a structure that is open or not entirely enclosed.

(ii) **BOOK EXCHANGE STRUCTURE** means an enclosed structure that holds books or other literary materials to be shared or exchanged in a pedestrian accessible location constructed and maintained by the owner of the property.

(B) District restrictions: This accessory use is not permitted in the P(A) district.

(C) Required off street parking: None.

(D) Required off street loading: None.

(E) Additional provisions:

(i) A person shall not place, store, or maintain outside, for a continuous period in excess of 24 hours, an item which is not:

(aa) customarily used or stored outside; or

(bb) made of a material that is resistant to damage or deterioration from exposure to the outside environment.

(ii) For purposes of this subsection, an item located on a porch of a building is considered to be outside if the porch is not enclosed.

(iii) Except as otherwise provided in this subsection, accessory outside storage is not permitted in the primary yard or on a front porch of a residential building. In this subsection, "primary yard" means the portion of a lot or tract which abuts a street and extends across the width of the lot or tract between the street and the main building.

(iv) It is a defense to prosecution under Subsection (E)(iii) that the item is:

(aa) an operable motor vehicle with valid state registration parked on a surface that meets the standards for parking surfaces contained in the off-street parking regulations of this chapter, except that this defense is not available if the vehicle is a truck tractor, truck, bus, or recreational vehicle and it has a rated capacity in excess of one and one-half tons according to the manufacturer's classification, or if the vehicle is over 32 feet in length;

(bb) a boat, trailer, or recreational vehicle parked on a surface that meets the standards for parking surfaces contained in the off-street parking regulations of this chapter, and the item cannot reasonably be placed in an area behind the primary yard;

(cc) landscaping, or an ornamental structure, including, but not limited to a birdbath, plant container, or statuette, placed in the primary yard or on the front porch for landscaping purposes;

(dd) lawn furniture or a book exchange structure made of a material that is resistant to damage or deterioration from exposure to the outside environment;

(ee) located on a front porch and not visible from the street; or

(ff) a vehicle displaying a registration insignia or identification card issued by the state to a permanently or temporarily disabled person for purposes of Section 681.006 of the Texas Transportation Code.

(v) A person shall not use more than five percent of the lot area of a premise for accessory outside storage. The area occupied by an operable motor vehicle with valid state registration is not counted when calculating the area occupied by accessory outside storage. Except as otherwise provided in this article, outside storage is considered to be a separate main use if it occupies more than five percent of the lot.

(vi) The board may grant a special exception to the additional provisions of this subsection relating to accessory outside storage in the primary yard or on a front porch of a residential building when, in the opinion of the board, the special exception will not adversely affect neighboring property.
(6.1) **Accessory pathological waste incinerator.**

(A) Definition: A facility used to incinerate organic human or animal waste, including:

(i) Human materials removed during surgery, labor and delivery, autopsy, or biopsy, including body parts, tissues or fetuses, organs, and bulk blood and body fluids.
Dallas Development Code: Ordinance No. 19455, as amended

[Intentionally left blank]
(ii) Products of spontaneous human abortions, regardless of the period of gestation, including body parts, tissue, fetuses, organs, and bulk blood and body fluids.

(iii) Anatomical remains.

(iv) Bodies for cremation.

(B) District restrictions: This accessory use is not permitted in office, NS(A), industrial, P(A), and urban corridor districts. This accessory use is permitted in residential districts only in conjunction with a public park containing a zoo and aquarium.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) This accessory use is permitted only in conjunction with a mortuary or funeral home; or a public park containing a zoo and aquarium owned or operated by a public agency, available to the general public year-round, and having a collection of at least 5,000 specimens.

(ii) This accessory use must be located at least 200 feet from all lots containing residential uses.

(iii) When this accessory use is operated in conjunction with a public park containing a zoo and aquarium, no more than one incinerator is permitted, and the incinerator may not burn more than 200 pounds per hour.

(7) Amateur communication tower.

(A) Definition: A tower with an antenna that transmits amateur radio, citizen band, or both spectrums, or that receives any portion of a radio spectrum.

(B) District restrictions:

(i) This accessory use is not permitted in NO(A), NS(A), and P(A) districts.

(ii) An SUP is required for this accessory use in MF-3(A) and MF-4(A) districts.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) In all districts where this accessory use is permitted except MF-3(A) and MF-4(A) districts, a person may erect one amateur communication tower that exceeds the maximum height specified in Section 51A-4.408 if the amateur communication tower:

   (aa) does not exceed 60 feet in height;

   (bb) is setback an additional 12 inches from the required front, side, and rear yards for each additional eighteen inches of height above the maximum height specified in Section 51A-4.408;

   (cc) has a maximum horizontal cross-sectional area of three square feet;

   (dd) has no more than two antennae above the maximum height specified in Section 51A-4.408 with a maximum volume of 900 cubic feet for a single antenna and 1400 cubic feet for two antennae. In this provision, antenna volume is the space within an imaginary rectangular prism which contains all extremities of the antenna;

   (ee) does not encroach into the required front, side, or rear yard. A guy wire and anchor point for a tower is prohibited in the required front yard and is also prohibited in the required side and rear yards unless the guy wire and anchor point is attached to the top of a structural support that is no less than six feet in height. If a structural support for a guy wire and anchor point is used, the structural support may project into the required side and rear yards no more than two feet, measured from the setback line. In this provision, a structural support for an anchor point is any pole, post, strut, or other fixture or framework necessary to hold and secure an anchor point or within three feet of the side or rear property.
line. If an alley abuts a rear property line, a guy wire and anchor point may extend to the rear property line; and

(ff) has a minimum space between antennae above the maximum height specified in Section 51A-4.408 of eight feet or more as measured vertically between the highest point of the lower antenna and the lowest point of the higher antenna.

(ii) The board of adjustment may allow a special exception from the requirements of Subsection (E)(i) with the exception of Subsection (E)(i)(aa), if the board finds that the special exception would not adversely affect neighboring property and would be in harmony with the general purpose and intent of this section.

(iii) In all residential districts where this accessory use is permitted except MF-3(A) and MF-4(A) districts, a person may erect an amateur communication tower over 60 feet and not above 100 feet in height if authorized by a specific use permit.

(iv) This accessory use may occupy up to 25 percent of the area of the lot containing the main use.

(v) This accessory use is prohibited in all residential districts in the area between the street and the facade of any main or accessory structure. (This area includes, but may be greater than, the front yard.)

(vi) The owner or operator of an amateur communication tower shall remove the tower within six months of the date that the tower ceased to operate as an amateur radio, citizen band, or radio spectrum authorized by the Federal Communications Commission. Upon failure of the owner or operator to remove the tower within the prescribed period, the building official shall notify the city attorney to pursue enforcement remedies against that owner or operator for failure to remove the tower.

(7.1) Day home.

(A) Definition: A facility that provides care or supervision for “day home attendees,” whether or not the facility is operated for profit or charges for the services it offers. For the purposes of this paragraph, “day home attendees” means persons under 14 years of age, including those related to the owner of the residence or the head of the household by blood, marriage, or adoption. A day home is incidental to the primary use of the premises as a residence and conducted on the premises by a resident of the premises who is on the premises during hours of operation.

(B) Districts restrictions: This accessory use is not permitted in P(A) and urban corridor districts.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) No more than 10 day home attendees are permitted at any time in the operation of this use.

(ii) A person who conducts a day home use shall not:

(aa) use an advertisement, sign, or display on or off the premises;

(bb) advertise in the yellow pages of the telephone directory;

(cc) employ more than two persons on the premises, other than the residents of the premises;

(dd) conduct outdoor activities between the hours of 10 p.m. and 7 a.m.;

(ee) conduct outdoor activities unless the activities are screened from the neighboring property by a fence at least four feet in height;

(ff) generate loud and raucous noise that renders the enjoyment of life or property uncomfortable or interferes with public peace and comfort.

(iii) This use does not include individuals living together as a single housekeeping
unit in which not more than four individuals are unrelated to the head of the household by blood, marriage, or adoption.

(iv) The area restrictions in Subsection (a)(3) do not apply to this use.

(v) This use must comply with all applicable requirements imposed by city ordinances, rules, and regulations, and by state law.

(7.2) General waste incinerator.

(A) Definition: A facility used to incinerate solid waste consisting of combustible rubbish, refuse, and garbage.

(B) District restrictions: This accessory use is not permitted in urban corridor districts.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) This accessory use must be located at least 200 feet from all lots containing residential uses.

(8) Home occupation.

(A) Definition: An occupation that is incidental to the primary use of the premises as a residence and conducted on the residential premises by a resident of the premises.

(B) District restrictions: This accessory use is not permitted in the P(A) district.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) A person who engages in a home occupation shall not:

(aa) use any advertisement, sign, or display relating to the home occupation on the premises;

(bb) use the street address of the premises on any advertisement, sign, or display off the premises;

(cc) employ more than one person on the premises, other than residents of the premises;

(dd) have an employee, other than residents of the premises, who works on the premises more than four hours in any given week;

(ee) conduct any activities relating to the home occupation, including activities on any porch, deck, patio, garage, or unenclosed or partially enclosed portion of any structure, unless conducted entirely inside the main structure;

(ff) involve more than 3 people on the premises at one time, other than residents of the premises;

(gg) generate loud and raucous noise that renders the enjoyment of life or property uncomfortable or interferes with public peace and comfort;

(hh) sell or offer products of the home occupation at or on the premises;

(ii) generate vehicular traffic that unreasonably disrupts the surrounding residents’ peaceful enjoyment of the neighborhood; or

(jj) generate parking congestion that unreasonably reduces the availability of on-street parking spaces on surrounding streets.

(ii) A home occupation may not occupy more than 25 percent or 400 square feet of the total floor area of the main structure, whichever is less. This area restriction controls over the area restriction of Subsection (a)(3).
§ 51A-4.217 Dallas Development Code: Ordinance No. 19455, as amended

(8.1) Live unit.

(A) Definition: A dwelling unit accessory to any nonresidential use allowed in that district.

(B) District restrictions: This accessory use is not permitted in A(A), R-1ac(A), R-1/2ac(A), R-16(A), R-13(A), R-10(A), R-7.5(A), R-5(A), D(A), TH-1(A), TH-2(A), TH-3(A), CH, MF-1(A), MF-2(A), MH(A), CA-1(A), CA-2(A), MU-1, P(A), CS, and IM districts.

(C) Required off-street parking: One additional space is required for the accessory use in excess of the required off-street parking for the floor area of the nonresidential use.

(D) Required off-street loading: None.

(E) Floor area: Except as otherwise provided in the use regulations, the maximum floor area for the dwelling unit shall not exceed the total square feet of the main use. This floor area restriction controls over the floor area restrictions in Section 51A-4.217(a)(3).

(F) Additional provisions:

(i) Units cannot be sold separately by metes and bounds.

(ii) One live unit allowed per lot.

(iii) Live unit can be attached or detached from the nonresidential use.

(iv) Rented live units must be registered with the city's single family rental program.

(9) Occasional sales (garage sales).

(A) Definition: The sale of tangible personal property at retail by a person who is not in the business or does not hold himself or herself out to be in the business of selling tangible personal property at retail.

(B) District restrictions: This accessory use is not permitted in the P(A) district.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) A person shall sell tangible personal property only on the premises of the owner or lessee of the premises where the sale is conducted, and the owner or lessee must be the legal owner of the tangible personal property at the time of the sale.

(ii) The sale must be inside the building or garage, or on an approved surface as described in Section 51A-4.301(d)(4).

(iii) A person shall not sell, offer, or advertise for sale merchandise made, produced, or acquired solely for the purpose of resale at an occasional sale.

(iv) A person shall not conduct an occasional sale for a duration of more than three consecutive calendar days.

(v) A person shall not conduct more than two occasional sales at a premises during any 12 month period.

(vi) A person shall not place more than one sign, not to exceed two square feet in effective area, upon the lot where the sale is taking place. Up to five signs, not to exceed two square feet in effective area each, are permitted at locations remote from the sale property with the permission of the owner of the remote location. Signs advertising an occasional sale are not permitted in medians or on trees or light poles. All signs advertising an occasional sale must be removed within 24 hours after expiration of the permit issued under Section 51A-1.105(x).

(vii) The area restrictions in Subsection (a)(3) do not apply to this use.

(viii) Any advertisement of an occasional sale or of an item being offered for sale at an occasional sale must contain the street address at which the sale will occur and the date(s) on which the sale will occur.
§ 51A-4.217 Dallas Development Code: Ordinance No. 19455, as amended

(ix) A person commits an offense if he operates an occasional sale without a valid permit under Section 51A-1.105(x).

(10) Private stable.

(A) Definition: An area for the keeping of horses for the private use of the property owner.

(B) District restrictions: This accessory use is not permitted in office, retail, CS, industrial, mixed use, multiple commercial, central area, P(A), and urban corridor districts.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) A private stable is permitted only on a lot that has at least 15,000 square feet and a person may keep only the number of horses permitted for the lot area as described in the following chart:

<table>
<thead>
<tr>
<th>LOT AREA</th>
<th>NUMBER OF HORSES</th>
</tr>
</thead>
<tbody>
<tr>
<td>At least 15,000 sq. ft. but less than one-half acre</td>
<td>1</td>
</tr>
<tr>
<td>At least one-half acre but less than one acre</td>
<td>2</td>
</tr>
<tr>
<td>At least one acre but less than two acres</td>
<td>3</td>
</tr>
<tr>
<td>At least one-half acre per horse</td>
<td>4 or more</td>
</tr>
</tbody>
</table>

(ii) A private stable must include a pen or corral containing at least 800 square feet for each animal with a stable under a roof containing at least 100 square feet for each animal.

(iii) A stable must have proper drainage so as not to create offensive odors, fly breeding, or other nuisances.

(iv) A pen, corral, fences, or similar enclosures may not be closer than 20 feet to an adjacent property line. The widths of alleys, street rights-of-way, or other public rights-of-way may be used in establishing the 20 feet distance to the adjacent property line.

(v) Fences for pens, corrals, or similar enclosures must be of a sufficient height and strength to retain the horses.

(vi) The area restrictions in Subsection (a)(3) do not apply to this use.

(11) Swimming pool (private).

(A) Definition: A swimming pool constructed for the exclusive use of the residents of a residential use.

(B) District restrictions: This accessory use is not permitted in the P(A) district.

(C) Required off-street parking: None.

(D) Required off-street loading: None.

(E) Additional provisions:

(i) No private swimming pool may be operated as a business, except that private swimming lessons may be given under the home occupation use.

(ii) No private swimming pool may be maintained in such a manner as to be hazardous or obnoxious to adjacent property owners.

(iii) No private swimming pool may be constructed in the required front yard. However, a private swimming pool may be located within the required side or rear yard if it meets the requirements of Section 51A-4.217(a).

(iv) A private swimming pool must be surrounded by a fence.

(v) The area restrictions in Subsection (a)(3) do not apply to this use.
(12) **Pedestrian skybridges.**

(A) **Definition:** Use of a structure constructed above grade primarily to allow pedestrians to cross a city right-of-way. A pedestrian skybridge use does not include use of a structure constructed primarily for automobiles.

(B) **Purpose.** The purpose of this section is to promote the health, safety, and general welfare of persons and property within the city by providing for the structural integrity of pedestrian skybridges over public right-of-ways; preventing visual obstruction of public right-of-ways and urban landscapes; facilitating the flow of traffic; encouraging use of public skybridges by pedestrians through well designed additions to the existing pedestrian system; minimizing the negative impact of pedestrian skybridges on adjoining properties, communication and utility company facilities, and public street lighting and safety facilities; and establishing standards for construction and maintenance of pedestrian skybridges.

(C) **Districts permitted.** A pedestrian skybridge is permitted in any district by SUP. An SUP is required for pedestrian skybridges in planned development (PD) districts. A license or abandonment from the city of Dallas is also required to cross a city right-of-way. Provisions concerning licenses for use of the public right-of-way are contained in Chapter 43, “Streets and Sidewalks,” of the Dallas City Code. Provisions concerning abandonment of the public right-of-way are contained in Chapter 2, “Administration,” of the Dallas City Code.

(D) **Application.** An application for an SUP for a pedestrian skybridge must contain a statement outlining the need for the pedestrian skybridge and how the pedestrian skybridge will enhance the welfare of the area of request and adjacent properties.

(E) **Specific use permit procedure.** The provisions concerning specific use permits contained in Section 51A-4.219 apply except as modified by this subsection.

(i) **Notification.** The director shall send written notice of a public hearing on an application for an SUP for a pedestrian skybridge to all owners of real property lying within 750 feet of the properties on which the skybridge will be located.

(ii) **Protest.** For purposes of the protest provisions, the area of request is the properties on which the skybridge will be located.

(iii) **Residential adjacency.** An SUP for a pedestrian skybridge must be approved by the affirmative vote of three-fourths of all members of the city council if the pedestrian skybridge is within 750 feet of a residential zoning district or planned development district that allows residential uses or is sited within a planned development district that is adjacent to residential districts.

(iv) **Term.** The term of an SUP for a pedestrian skybridge must coincide with the term of any related license.

(F) **Mandatory pedestrian skybridge standards.** Additional provisions concerning construction of pedestrian walkways are contained in Chapter 53, "Dallas Building Code," of the Dallas City Code. Pedestrian skybridges must be constructed and maintained in accordance with the following regulations:

(i) **Pedestrian skybridges must be properly maintained at all times.** If a pedestrian skybridge connects two buildings which are separately owned, an operating agreement assigning maintenance and liability responsibilities is required.

(ii) **No more than one pedestrian skybridge may be located within any blockface or 700 feet of frontage, whichever is less.**

(iii) **Pedestrian skybridges must have clearance above the public right-of-way of at least 18 feet above grade.**

(iv) **If the pedestrian skybridge has a length of less than 150 feet, the interior passageway must be no less than 10 feet and no greater than 20 feet in width.** If the pedestrian skybridge has a length equal to or greater than 150 feet, the interior passageway must be no less than 12 feet and no greater than 20 feet in width.
(v) The interior height of the passageway must be at least 7 1/2 feet. The interior height at the springline of vaulted ceilings must be at least 7 1/2 feet.

(vi) Supports may be located within the public right-of-way if the placement of the support structure does not impede pedestrian traffic and maintains minimum sidewalk clearance widths required in the zoning district and in conformance with the Americans with Disabilities Act, 42 U.S.C. Chapter 126.

(vii) A sign must be posted within the adjoining structures indicating whether the skybridge is open to the public, the location of the pedestrian skybridge, and where the pedestrian skybridge leads.

(viii) Pedestrian skybridges must meet state and federal standards for accessibility to and usability by individuals with disabilities.

(ix) Pedestrian skybridges connected to structures with air conditioning must be enclosed and air conditioned.

(x) Any change in slope of the pedestrian skybridge greater than one percent must be over private property or concealed within the pedestrian skybridge.

(xi) Pedestrian skybridges must not diverge from a perpendicular angle to the right-of-way by more than 30 degrees.

(xii) At least 70 percent of the side walls must be open, or glass or transparent material with a light transmission of not less than 36 percent and a luminous reflectance of not more than six percent. "Light transmission" means the ratio of the amount of total light to pass through the material to the amount of total light falling on the material and any glazing. "Luminous reflectance" means the ratio of the amount of total light that is reflected outward by a material to the amount of total light falling on the material.

(xiii) Minimum artificial lighting of 15 foot candles must be provided. Lighting must not produce glare of an intensity that creates a nuisance for motor vehicles or pedestrians.

(xiv) No exterior signs, other than government signs, may be applied to or suspended from any pedestrian skybridge.

(xv) Pedestrian skybridges must not be located within 300 feet of an historic overlay district.

(xvi) Pedestrian skybridges must be designed to prevent people from jumping or throwing objects from the pedestrian skybridge.

(xvii) Structural materials must be durable and easily maintained. Construction must comply with the City of Dallas Building and Fire Codes.

(xviii) Pedestrian skybridges must not interfere with or impair use of the right-of-way by existing or proposed communication and utility facilities.

(xix) The applicant must post bond for the estimated cost to the city to remove the pedestrian skybridge if it becomes a public nuisance.

(xx) Skybridges may be placed in the required front, side, or rear yard.

(G) Recommended pedestrian skybridge standards. Pedestrian skybridges are recommended to be constructed and maintained in accordance with the following guidelines:

(i) Pedestrian skybridges which are open to the public should penetrate the second story of the adjoining structures, or, if not possible, as close as possible to the street level.

(ii) Pedestrian skybridges should penetrate the adjoining structures as closely as possible to escalators or elevators having access to the entire structure and the street.

(iii) Free-standing pedestrian skybridges and pedestrian skybridges connected to
structures without air conditioning should have a roof, wind breaks, and adequate ventilation that maximize the comfort and safety of pedestrians. A pedestrian skybridge should be open only when the adjoining structures are open.

(iv) If the length of the pedestrian skybridge exceeds 250 feet, the passageway should be interrupted by interior visual breaks, such as turns, courts, or plazas.

(v) Primary lighting sources should be recessed and indirect. Accent lighting is encouraged. Natural lighting should be used in addition to artificial lighting.

(vi) The pedestrian skybridge should be designed so as to coordinate with the adjoining structures to the extent possible. Where coordination is not possible, the pedestrian skybridge should be of a neutral color, such as brown or grey.

(H) Waiver. The city council may, by a three-fourths vote, grant a waiver to the pedestrian skybridge standards contained in this paragraph if the council finds that:

(i) strict compliance with the requirements will unreasonably burden the use of either of the properties;

(ii) the waiver will not adversely affect neighboring property;

(iii) the waiver will not be contrary to the public interest; and

(iv) the waiver will not be contrary to the public health, safety, or welfare.

(I) Compliance regulations. Pedestrian skybridge uses are not subject to the compliance regulations contained in Section 51A-4.704. (Ord. Nos. 19455; 19786; 20411; 20478; 20845; 21001; 21002; 21289; 21454; 21663; 21735; 22004; 22204; 22392; 23012; 23031; 23258; 24205; 24718; 24843; 24899; 24915; 26334; 26746; 28021; 28700; 28737; 28803; 29024; 30257; 30894; 31041)

SEC. 51A-4.218. LIMITED USES.

(a) A limited use must be contained entirely within a building and be primarily for the service of the occupants of the building.

(b) A limited use may not have a floor area that in combination with the floor areas of other limited uses in the building exceeds 10 percent of the floor area of the building.

(c) A limited use must:

(1) have no exterior public entrance except through the general building entrances; and

(2) have no exterior advertising signs on the same lot. (Ord. 19455)

SEC. 51A-4.219. SPECIFIC USE PERMIT (SUP).

(a) General provisions.

(1) The SUP provides a means for developing certain uses in a manner in which the specific use will be compatible with adjacent property and consistent with the character of the neighborhood.

(2) The use regulations for each use in Division 51A-4.200 state whether an SUP is required for a use to be permitted in a zoning district. The SUP requirement for a use in a district does not constitute an authorization or an assurance that the use will be permitted. Each SUP application must be evaluated as to its probable effect on the adjacent property and the community welfare and may be approved or denied as the findings indicate appropriate. Each SUP must be granted by the city council by separate ordinance.

(3) The city council shall not grant an SUP for a use except upon a finding that the use will:

(A) complement or be compatible with the surrounding uses and community facilities;
§ 51A-4.219 Dallas Development Code: Ordinance No. 19455, as amended

(B) contribute to, enhance, or promote the welfare of the area of request and adjacent properties;

(C) not be detrimental to the public health, safety, or general welfare; and

(D) conform in all other respects to all zoning regulations and standards.

(4) The granting of an SUP has no effect on the uses permitted as of right and does not waive the regulations of the underlying zoning district.

(5) The city council may impose reasonable conditions upon the granting of an SUP consistent with the purposes stated in this chapter.

(6) The applicant shall post the SUP ordinance in a conspicuous place on the property, except where a use has no interior building space (for example, a private street or alley use). The applicant shall post the SUP ordinance by June 1, 2006.

(b) Specific use permit procedure.

(1) An applicant for an SUP shall comply with the zoning amendment procedure for a change in zoning district classification. Each SUP ordinance is incorporated by reference into this chapter.

(2) At the time of applying for an SUP, the applicant shall submit:

(A) a site plan that includes:

(i) the dimensions, bearings, and street frontage of the property;

(ii) the location of buildings, structures, and uses;

(iii) the method of ingress and egress;

(iv) off-street parking and loading arrangements;

(v) screening, lighting, and landscaping, if appropriate;

(vi) the locations, calipers, and names (both common and scientific) of all trees near proposed construction activity (trees in close proximity that all have a caliper of less than eight inches may be designated as a “group of trees” with only the number noted); and

(vii) any other information the director determines necessary for a complete review of the proposed development; and

(B) a traffic impact analysis if the director determines that the analysis is necessary for a
Dallas Development Code: Ordinance No. 19455, as amended

[Intentionally left blank]
§ 51A-4.219 Dallas Development Code: Ordinance No. 19455, as amended

(3) If the director determines that one or more of the items listed in Paragraph (2) is not necessary to allow for a complete review of the proposed development, he shall waive the requirement that the item(s) be provided.

(4) The minor amendment process allows flexibility as necessary to meet the contingencies of development. Amendments that do not qualify as minor amendments must be processed as a zoning amendment. The city plan commission shall, after a public hearing, authorize minor changes in the site plan that otherwise comply with the SUP ordinance and the underlying zoning and do not:

(A) alter the basic relationship of the proposed development to adjacent property;

(B) increase the number of dwelling units shown on the original site plan by more than 10 percent;

(C) increase the floor area shown on the original site plan by more than five percent or 1,000 square feet, whichever is less;

(D) increase the height shown on the original site plan;

(E) decrease the number of off-street parking spaces shown on the original site plan so as to create a traffic hazard or traffic congestion or fail to provide adequate parking; or

(F) reduce setbacks at the boundary of the site as specified by a building or setback line shown on the original site plan.

For purposes of this paragraph, “original site plan” means the earliest approved site plan that is still in effect, and does not mean a later amended site plan. For example, if a site plan was approved with the specific use permit and then amended through the minor amendment process, the original site plan would be the site plan approved with the specific use permit, not the site plan as amended through the minor amendment process. If, however, the site plan approved with the specific use permit was replaced through the zoning amendment process, then the replacement site plan becomes the original site plan. The purpose of this definition is to prevent the use of several sequential minor amendments to circumvent the zoning amendment process.

An applicant or owner of real property within the notification area may appeal the decision of the city plan commission to the city council. An appeal must be requested in writing within 10 days after the decision of the city plan commission. City council shall decide whether the city plan commission erred, using the same standards that city plan commission used. Appeal to the city council is the final administrative remedy available.

(5) Reserved.

(6) A time limit may be imposed as a condition upon the granting of an SUP. If a time limit has been imposed, the SUP automatically terminates when the time limit expires. Except as otherwise provided in Subsection (c), the applicant shall go through the procedures outlined above in Paragraphs (1) and (2) to renew an SUP.

(7) As a further condition to the granting of an SUP, the city council may require the property owner to participate in cost-sharing for infrastructure improvements that are in part necessitated by the proposed development. In no case, however, shall the property owner be required to pay for more than 50 percent of the cost of improvements located more than 250 feet from the lot.

(8) The minor amendment process allows flexibility as necessary to meet the contingencies of development. Amendments that do not qualify as minor amendments must be processed as a zoning amendment. The city plan commission shall, after a public hearing, authorize minor changes in the landscape plan that otherwise comply with the SUP ordinance and the underlying zoning and do not:

(A) reduce the perimeter landscape buffer strip shown on the original landscape plan;
§ 51A-4.219 Dallas Development Code: Ordinance No. 19455, as amended

(B) detrimentally affect the original landscape plan’s aesthetic function relative to adjacent right-of-way or surrounding property; or

(C) detrimentally affect the original landscape plan’s screening or buffering function.

For purposes of this paragraph, “original landscape plan” means the earliest approved landscape plan that is still in effect, and does not mean a later amended landscape plan. For example, if a landscape plan was approved with the specific use permit and then amended through the minor amendment process, the original landscape plan would be the landscape plan approved with the specific use permit, not the landscape plan as amended through the minor amendment process. If, however, the landscape plan approved with the specific use permit was replaced through the zoning amendment process, then the replacement landscape plan becomes the original landscape plan. The purpose of this definition is to prevent the use of several sequential minor amendments to circumvent the zoning amendment process.

An applicant or owner of real property within the notification area may appeal the decision of the city plan commission to the city council. An appeal must be requested in writing within 10 days after the decision of the city plan commission. City council shall decide whether the city plan commission erred, using the same standards that city plan commission used. Appeal to the city council is the final administrative remedy available.

(c) Automatic renewals.

(1) As part of an SUP ordinance or ordinance amendment, the city council may declare that an SUP is eligible for automatic renewal pursuant to this subsection. Automatic renewal is an alternative to the standard method of renewing an SUP by amending the SUP ordinance. In order for automatic renewal to occur, the property owner or his representative must file a complete application for automatic renewal with the director after the 180th day but before the 120th day before the expiration of the current SUP time period. If a fee is required, the application is not considered “filed” until the fee is paid. For more information regarding fees, see Section 51A-1.105.

(2) Automatic renewal does not result in an amendment to the SUP ordinance. An applicant seeking to change the SUP conditions or to otherwise amend the SUP ordinance must go through the procedures outlined in Subsection (b).

(3) An application for automatic renewal must be filed with the director on a form furnished by the city for that purpose. As part of the application, the property owner or his representative shall state that all existing SUP conditions have been complied with, and that no changes to the conditions or other SUP ordinance provisions are being requested.

(4) Failure to timely file a complete application required under Paragraph (1) renders the SUP ineligible for automatic renewal. The city council may, however, reinstate an SUP’s eligibility for future automatic renewals as part of a new SUP ordinance or ordinance amendment.

(5) Upon the filing of a complete application for automatic renewal, the director shall send written notice to all owners of real property lying within 200 feet of the area governed by the SUP. The notice must state that the SUP is eligible for automatic renewal and may be automatically renewed without further notice.

(6) If the owners of 20 percent or more of the land within 200 feet of the area governed by the SUP file a written protest against the automatic renewal in accordance with this paragraph, the director shall forward the application to the city plan commission and city council for further action. Written protests against an automatic renewal must be filed with the director before 5:00 p.m. on the 21st calendar day after the date the notice is mailed. A protest sent through the mail must be received by the director before the deadline. If the deadline falls on a Saturday, Sunday, or official city holiday, then the protests must be filed before noon of the following working day. To the extent that they do not conflict with this subsection, the provisions of Section 51A-4.701 governing written protests in zoning cases apply to protests filed under this subsection.
§ 51A-4.219 Dallas Development Code: Ordinance No. 19455, as amended

(7) After the deadline for filing written protests has passed, the director shall review the conditions of the SUP and determine whether the conditions have been met. If the director determines that the conditions have not been met, he shall forward the application to the city plan commission and city council for further action.

(8) “Further action” as that term is used in Paragraphs (6) and (7) means that the director shall schedule the application for public hearings before both the city plan commission and the city council. Notice of the public hearings must be given as would be required by law for a change in zoning district classification. The city plan commission shall make a recommendation to the city council regarding the proposed renewal based on staff reports, field inspections, and the evidence presented at its public hearing.

(9) In connection with an application that has been forwarded to it by the director pursuant to Paragraph (6) or (7), the city council may:

(A) pass an amending ordinance to repeal the SUP’s eligibility for automatic renewal, or to supplement, remove, or amend any of the conditions or other provisions in the SUP ordinance; or

(B) take no action and thereby allow the SUP to automatically renew as a matter of law.

(10) No renewal or expiration of an SUP may occur while the application is pending before the city plan commission or city council. If the application is pending at the end of the current time period stated in the SUP ordinance, the time period shall be extended as a matter of law until:

(A) the day following the next succeeding official agenda meeting of the city council after the council makes its final decision on the application; or

(B) if the council votes to pass an amending ordinance, until the effective date of the amending ordinance.

(11) The renewal of an SUP eligible for automatic renewal occurs as a matter of law at the end of the current time period as stated in the SUP ordinance, or as extended pursuant to Paragraph (10). Unless otherwise specified in the SUP ordinance, an automatic renewal is for the same time period as the immediately preceding time period [excluding, if applicable, extensions pursuant to Paragraph (10)].

(12) An SUP that is automatically renewed pursuant to this subsection may continue to be automatically renewed in perpetuity so long as the owner or his representative continues to timely file the applications for automatic renewal required under Paragraph (1). Failure to timely file this application during any renewal period renders the SUP ineligible for further automatic renewal. The city council may, however, reinstate the SUP’s eligibility for future automatic renewals as part of a new SUP ordinance or ordinance amendment.

(13) This subsection does not impair the ability of the city plan commission or city council to call a public hearing on its own motion for the purpose of passing an amending ordinance to repeal an SUP’s eligibility for automatic renewal, or to supplement, remove, or amend any of the conditions or other provisions in an SUP ordinance. (Ord. Nos. 19455; 20132; 20496; 22053; 23997; 26270; 26730)

SEC. 51A-4.220. CLASSIFICATION OF NEW USES.

(a) Initiation.

(1) A person, the commission, or the city council may propose zoning amendments to regulate new and previously unlisted uses.

(2) A person requesting the addition of a new use shall submit to the director all information necessary for the classification of the use, including, but not limited to:

(A) the nature of the use and whether the use involves dwelling activity, sales, or processing;

(B) the type of product sold or produced under the use;

(C) whether the use has enclosed or open storage and the amount and nature of the storage;
(D) anticipated employment;
(E) transportation requirements;
(F) the nature and time of occupancy and operation of the premises;
(G) the off-street parking and loading demands;
(H) the amount of noise, odor, fumes, dust, toxic material and vibration likely to be generated; and
(I) the requirements for public utilities such as sanitary sewer and water.

(b) Use regulations. New use regulations must contain the following information:

(1) The definition of the use.
(2) The zoning districts within which the use is permitted.
(3) The required off-street parking.
(4) The required off-street loading.
(5) Any additional provisions reasonably necessary to regulate the use. (Ord. 19455)

SEC. 51A-4.221. SEXUALLY ORIENTED BUSINESSES.

(a) Purpose. All uses operated as sexually oriented businesses are subject to the licensing and locational restrictions in Chapter 41A. This section expressly classifies the sexually oriented businesses defined in Chapter 41A for zoning purposes. These classifications codify the existing practices of the building official and should not be construed as changing the locational restrictions in Chapter 41A.

(b) Definitions. In this section:

(1) ADULT ARCADE means any place to which the public is permitted or invited wherein coin-operated or slug-operated or electronically, electrically, or mechanically controlled still or motion picture machines, projectors, or other image-producing devices are maintained to show images to five or fewer persons per machine at any one time, and where the images so displayed are distinguished or characterized by the depicting or describing of “specified sexual activities” or “specified anatomical areas.”

(2) ADULT BOOKSTORE or ADULT VIDEO STORE means a commercial establishment that as one of its principal business purposes offers for sale or rental for any form of consideration any one or more of the following:

(A) books, magazines, periodicals or other printed matter, or photographs, films, motion pictures, DVD’s, video cassettes or video reproductions, slides, or other visual representations that depict or describe “specified sexual activities” or “specified anatomical areas”; or
(B) instruments, devices, or paraphernalia that are designed for use in connection with “specified sexual activities.”

(3) ADULT CABARET means a commercial establishment that regularly features the offering to customers of adult cabaret entertainment.

(4) ADULT CABARET ENTERTAINMENT means live entertainment that:

(A) is intended to provide sexual stimulation or sexual gratification; and

(B) is distinguished by or characterized by an emphasis on matter depicting, simulating, describing, or relating to “specified anatomical areas” or “specified sexual activities.”

(5) ADULT MOTEL means a hotel, motel, or similar commercial establishment that:

(A) offers accommodations to the public for any form of consideration; provides patrons with closed-circuit television transmissions, films, motion pictures, video cassettes, slides, or other photographic reproductions that are characterized by the depiction or description of “specified sexual activities” or “specified anatomical areas”; and has a sign (as
defined in this section) visible from the public right-of-way that advertises the availability of this adult type of photographic reproductions; or

(B) offers a sleeping room for rent for a period of time that is less than 10 hours; or

(C) allows a tenant or occupant of a sleeping room to subrent the room for a period of time that is less than 10 hours.

(6) ADULT MOTION PICTURE THEATER means a commercial establishment where, for any form of consideration, films, motion pictures, video cassettes, slides, or similar photographic reproductions are regularly shown that are characterized by the depiction or description of “specified sexual activities” or “specified anatomical areas.”

(7) ESCORT means a person who, for consideration, agrees or offers to act as a companion, guide, or date for another person, or who agrees or offers to privately model lingerie or to privately perform a striptease for another person.

(8) ESCORT AGENCY means a person or business association that furnishes, offers to furnish, or advertises to furnish escorts as one of its primary business purposes, for a fee, tip, or other consideration.

(9) NUDE MODEL STUDIO means any place where a person who appears in a state of nudity or displays “specified anatomical areas” is provided to be observed, sketched, drawn, painted, sculptured, photographed, or similarly depicted by other persons who pay money or any form of consideration.

(10) NUDITY or a STATE OF NUDITY means:

(A) the appearance of a human bare buttock, anus, male genitals, female genitals, or female breast; or

(B) a state of dress that fails to completely and opaquely cover a human buttock, anus, male genitals, female genitals, or any part of the female breast or breasts that is situated below a point immediately above the top of the areola.

(11) SEXUALLY ORIENTED BUSINESS means an adult arcade, adult bookstore or adult video store, adult cabaret, adult motel, adult motion picture theater, escort agency, or nude model studio, or other commercial enterprise the primary business of which is the offering of a service or the selling, renting, or exhibiting of devices or any other items intended to provide sexual stimulation or sexual gratification to the customer.

(12) SIGN means any display, design, pictorial, or other representation that is:

(A) constructed, placed, attached, painted, erected, fastened, or manufactured in any manner whatsoever so that it is visible from the outside of a sexually oriented business; and

(B) used to seek the attraction of the public to any goods, services, or merchandise available at the sexually oriented business. The term “sign” also includes any representation painted on or otherwise affixed to any exterior portion of a sexually oriented business establishment or to any part of the tract upon which the establishment is situated.

(13) SPECIFIED ANATOMICAL AREAS means:

(A) any of the following, or any combination of the following, when less than completely and opaquely covered:

(i) any human genitals, pubic region, or pubic hair;

(ii) any buttock; or

(iii) any portion of the female breast or breasts that is situated below a point immediately above the top of the areola; or

(B) human male genitals in a discernibly erect state, even if completely and opaquely covered.

(14) SPECIFIED SEXUAL ACTIVITIES means and includes any of the following:
(A) the fondling or other erotic touching of human genitals, pubic region, buttocks, anus, or female breasts;

(B) sex acts, normal or perverted, actual or simulated, including intercourse, oral copulation, or sodomy;

(C) masturbation, actual or simulated; or

(D) excretory functions as part of or in connection with any of the activities set forth in Subparagraphs (A) through (C) of this paragraph.

(c) Zoning classification of sexually oriented businesses. The different types of sexually oriented businesses defined above are classified as follows for zoning purposes:

(d) **Always a main use.** A use being operated as a sexually oriented business shall at all times be considered a separate main use, and cannot be an accessory use within the meaning of Section 51A-4.217. (Ord. Nos. 24438; 24696; 26513; 27404; 27495; 27790)
§ 51A-4.301 Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.301

(8) In all districts except a central area district, required off-street parking must be available as free parking or contract parking on other than an hourly or daily fee basis. This requirement does not apply to institutional uses or mechanized parking approved under Division 51A-4.340.

(9) A parking space must be at least 20 feet from the right-of-way line adjacent to a street or alley if the space is located in enclosed structure and if the space faces upon or can be entered directly from the street or alley. This provision controls over any building line platted to a lesser setback and any other provision of this article.

(10) Except as specifically permitted in this article, all off-street parking must be provided on the lot occupied by the main use.

(11) The board of adjustment may not authorize the placement of special parking, as defined in Division 51A-4.320, in a residential district.

(12) Off-street parking may be provided in a parking district in accordance with Section 51A-4.302.

(13) In an agricultural, multifamily, MH(A), or nonresidential district, a person shall not construct or maintain a parking lot or garage that has access to a public alley or access easement that abuts or is in an R, R(A), D, D(A), TH, TH(A), or CH district unless the director approves the means of access.

(14) Off-street parking is not permitted in a visibility triangle as defined in Section 51A-4.602.

(b) Off-street parking provisions for residential districts.

(1) In residential districts, any off-street parking for nonresidential uses must comply with the minimum front yard requirements of Section 51A-4.401.

(2) In residential districts except an MF-3(A) or MF-4(A) district, required off-street parking for residential uses must be located behind a required front building line.

(3) In an MF-1(A), MF-1(SAH), MF-2(A), or MF-2(SAH) district, no required or excess parking may be placed in the required front yard.

(4) In an MF-3(A) or MF-4(A) district, any off-street parking for residential uses may extend to the front property line.

(5) Except for mechanized parking approved under Division 51A-4.340, in single family, duplex, townhouse, and CH districts, off-street parking must be provided at or below ground level.

(c) Off-street parking provisions for nonresidential districts.

(1) In nonresidential districts, any off-street parking may extend to the front property line.

(2) thru (5) Reserved.

(6) In order to provide adequate off-street parking for large scale mixed use development projects, the following are excluded in the calculation of off-street parking requirements:

(A) Ten percent of the required parking for the office use when that use totals in excess of 250,000 square feet in floor area and is developed on the same lot with a use qualifying for an exception under Subsections (c)(6)(B) or (C) of this section.

(B) Ten percent of the required parking for the hotel and motel use when that use totals in excess of 250 guest rooms and is developed on the same lot with a use qualifying for an exception under Subsections (c)(6)(A) or (B) of this section.

(C) Ten percent of the required parking for the retail and personal service uses, when those uses total in excess of 40,000 square feet in floor area and are developed on the same lot with a use qualifying for an exception under Subsections (c)(6)(A) or (B) of this section.

(D) Fifty percent of the required parking for the following uses when developed on the same lot with an office use with more than 250,000 square feet of floor area or a hotel or motel use with more than 250 guest rooms:
§ 51A-4.301 Dallas Development Code: Ordinance No. 19455, as amended § 51A-4.301

-- Bar, lounge, or tavern.
-- Carnival or circus (temporary)
-- Catering service.
-- Commercial amusement (inside).
-- Commercial amusement (outside).
-- Country club with private membership.
-- Drive-in theater.
-- Private recreation center, club, or area.
-- Public park, playground, or golf course.
-- Restaurant without drive-in service.
-- Restaurant with drive-in or drive-through service.
-- Theater.

(7) Retail mall parking.

(A) For purposes of this subsection:

(i) a “retail mall” is a building containing retail uses that occupy at least 400,000 square feet of gross floor area (excluding the pedestrian way). A retail mall may have additional uses; and

(ii) the term “recreation and entertainment uses” means the following uses:

-- Carnival or circus (temporary).
-- Commercial amusement (inside).
-- Commercial amusement (outside).
-- Country club with private membership.
-- Drive-in theater.
-- Private recreation center, club, or area.
-- Public park, playground, or golf course.
-- Theater.

(B) A retail mall is eligible for the parking requirement reduction in this subsection only if:

(i) all uses in the retail mall are physically attached to and have public access to an environmentally controlled pedestrian way; and

(ii) the floor area of the pedestrian way is at least seven percent of the gross floor area of the retail mall.

(C) The number of required off-street parking spaces for a retail mall is reduced as follows:

(i) 10 percent for all uses (including the pedestrian way), other than recreation and entertainment uses;

(ii) 50 percent for recreation and entertainment uses, other than theater uses, for floor area up to 10 percent of the gross floor area of the retail mall (including the pedestrian way); and

(iii) 50 percent for a theater use when the theater use is on the same building site as the retail mall and utilizes the same parking area as the retail mall.

(D) No reduction in required off-street parking spaces is allowed for that part of the gross floor area devoted to recreation and entertainment uses, other than theater uses, that is in excess of 10 percent of the gross floor area of the retail mall (including the pedestrian way).

(E) This subsection may not be used in conjunction with Section 51A-4.301(c)(6) to calculate a further reduction in the number of required off-street parking spaces for large scale mixed use development projects.

(d) Construction and maintenance provisions for off-street parking.

(1) Each off-street parking space must be provided in accordance with the following dimensional standards:

Dallas City Code 337
(A) A parking space parallel with the access lane must be 22 feet long and 8 feet wide. A one-way access lane must be at least 10 feet wide; a two-way access lane must be at least 20 feet wide.

(B) All other parking spaces must be provided in accordance with this section and the chart entitled “Parking Bay Widths” on page 271.

(C) The following restrictions apply to the use of 7.5 foot stalls to satisfy off-street parking requirements:

(i) 7.5-foot wide stalls must be double-striped and identified by pavement markings which indicate that the stalls are for small car parking.

(ii) 7.5-foot wide stalls may constitute no more than 35 percent of the required parking spaces for any use.

(2) For a use other than a single family, duplex, or vehicle storage lot use, each off-street parking space must be clearly and permanently identified by stripes, buttons, tiles, curbs, barriers, or another method approved by the building official.

(3) For a single family or duplex use, the surface of a parking space, maneuvering area for parking, or driveway must consist of an all-weather and drainable material which is approved by the building official, or a material specified in Subsection (d)(4).

(3.1) For a vehicle storage lot use, the surface of a parking space, maneuvering area for parking, or driveway must consist of an all-weather material which allows delivery and release of vehicles in all weather conditions as approved by the director, unless paving surface requirements reasonably consistent with this paragraph and Subsection (d)(4) are provided in an ordinance granting or amending a specific use permit or a planned development district.

(4) For a use other than a single family, duplex, or vehicle storage lot use, the surface of an enclosed or unenclosed parking space, maneuvering area for parking, or a driveway which connects to a street or alley must be on a compacted sub-grade, and must consist of:

(A) concrete paving;

(B) hot mix asphalt paving which consists of a binder and surface course; or

(C) a material which has equivalent characteristics of Subsections (d)(4)(A) or (d)(4)(B) and has the approval of the building official.

(5) A person commits an offense if he stops, stands, parks, or maneuvers a motor vehicle on a lot, unless the vehicle is on a surface as required in Subsections (d)(3) and (d)(4). The registered owner of an unattended or unoccupied vehicle is presumed to be the person who illegally parked the motor vehicle. The records of the State Highway Department or the County Highway License Department showing the name of the person to whom the state highway license was issued is prima facie evidence of ownership by the named individual.

(5.1) A person commits an offense if he owns, occupies, or is in control of property on which a motor vehicle is maneuvered, stopped, stood, or parked, unless the vehicle is maneuvered, stopped, stood, or parked on a surface as required in Subsections (d)(3) and (d)(4).

(6) The owner of off-street parking for a use other than single family or duplex use shall:

(A) keep the maneuvering area and parking surface free of potholes;

(B) maintain wheelguards and barriers; and

(C) maintain non-permanent parking space markings such as paint, so that clear identification of each parking space is apparent.

(7) Off-street parking spaces for nonresidential uses and parking spaces along the perimeter of a commercial parking lot or garage must have wheel guards not less than 6 inches in height or other barriers approved by the building official. The wheel guard or barrier must be at least three feet from the screening and must be placed so that:
(A) no part of the automobile extends into the public sidewalk or adjoining property; and

(B) no part of the automobile contacts screening.

(8) All off-street parking spaces and areas must comply with the guidelines established in the Off-Street Parking Handbook. The director shall keep a true and correct copy of the Off-Street Parking Handbook on file in his office for public inspection and/or copying upon request.
(e) Lighting provisions for off-street parking.

(1) Commercial parking lot. A commercial parking lot which offers service and collects revenue for use after dark (including attended, self-park, coin-actuated gated lots, and rentals on any basis) must be lighted beginning one-half hour after sunset and continuing throughout the hours of use or until midnight, whichever is earlier. If only a portion of the parking lot is offered for use after dark, only that part must be lighted. However, the portion offered for use must be clearly designated. The lighting of a commercial parking lot must meet the following minimum requirements:

(A) The intensity of lighting on the parking surface must be:

(i) an average of at least two footcandles, initial measurement, and at least one footcandle on a maintained basis; and

(ii) a minimum at any point of at least 0.6 footcandle initial, and at least 0.3 footcandle maintained or one-third of the average for the lighted area, whichever is greater.

(B) The light sources must be:

(i) indirect, diffused, or covered by shielded type fixtures; and

(ii) installed to reduce glare and the consequent interference with boundary streets.

(C) Fixtures must be attached to buildings or mounted on metal poles at a height of no less than 20 feet above the parking surface.

(D) Strings of lamps or bare bulbs are prohibited.

(E) A commercial parking lot contiguous to or directly across the street or alley from an A, A(A), R, R(A), D, D(A), TH, TH(A), CH, MF, MF(A), MH, or MH(A) district must comply with Subsection (e)(2) instead of this subsection.

(2) Other off-street parking. Off-street parking for a use other than single family, duplex, or the commercial parking lot use that offers service after dark must be lighted beginning one-half hour after sunset and continuing throughout the hours of use or until 10 o’clock p.m., whichever is earlier. If only a portion of a parking area is offered for use after dark, only that part must be lighted. However, the portion offered for use must be clearly designated. The lighting of the off-street parking area must meet the following minimum requirements:

(A) The intensity of light on the parking surface must be:

(i) an average of at least one footcandle, initial measurement, and at least one-half footcandle on a maintained basis; and

(ii) a minimum at any point of at least 0.3 footcandle initial, and at least 0.2 footcandle maintained or one-third of the average for the lighted area, whichever is greater.

(B) The intensity of spillover light on neighboring residential lots, measured at a point five feet inside the residential lot line and five feet above the ground surface, may not exceed 0.1 footcandle.

(C) The light sources must:

(i) be indirect, diffused, or covered by shielded type fixtures; and

(ii) be installed to reduce glare and the consequent interference with boundary streets; and

(iii) not be visible from property that is:

(aa) occupied by a residential use; and

(bb) located within 600 feet of the light source.

(D) Fixtures must be attached to buildings or mounted on metal poles. If any portion of a fixture is over 20 feet in height, that portion may not be located above a residential proximity slope. (See Section 51A-4.412.)
(E) Strings of lamps or bare bulbs are prohibited.

(3) Special exception. The board of adjustment may grant a special exception to the height restrictions in this subsection if the board determines, after a public hearing, that the special exception will not adversely affect neighboring property. In determining whether to grant a special exception, the board shall consider the following factors:

(A) Hours of use for the parking area.

(B) Size and configuration of the lot on which the parking area is located.

(C) Distances between the parking area and surrounding uses.

(f) Screening provisions for off-street parking.

(1) The owner of off-street parking must provide screening to separate the parking area from:

(A) a contiguous residential use or vacant lot if either is in an A, A(A), R, R(A), D, D(A), TH, TH(A), CH, MF, MF(A), MH, or MH(A) district and the parking area serves a nonresidential use; or

(B) a contiguous single family or duplex use or a vacant lot if any of these are in an R, R(A), D, D(A), TH, TH(A), or CH district and the parking area serves a multifamily use.

(2) If an alley separates a parking area from another use, the use is considered contiguous to the parking area. If a street separates a parking area from another use, the use is not considered contiguous to the parking area.

(3) Screening for off-street parking required under Subsection (f)(1) must be a brick, stone, or concrete masonry, stucco, concrete, or wood wall or fence that is not less than six feet in height. The wall or fence may not have more than ten square inches of open area for each square foot of surface area, and may not contain any openings or gates for vehicular access. The owner of off-street parking must maintain the screening in compliance with these standards.

(4) The board may not grant a special exception to the height requirements for screening around off-street parking.

(5) In an office district, all off-street surface parking lots, excluding driveways used for ingress or egress, must be screened from the street by using one or more of the following three methods to separately or collectively attain a minimum height of three feet above the parking surface:

(i) Brick, stone, or concrete masonry, stucco, concrete, or wood wall or fence.

(ii) Earthen berm planted with turf grass or ground cover recommended for local area use by the director of parks and recreation. The berm may not have a slope that exceeds one foot of height for each two feet of width.

(iii) Evergreen plant materials recommended for local area use by the building official. The plant materials must be located in a bed that is at least three feet wide with a minimum soil depth of 24 inches. Initial plantings must be capable of obtaining a solid appearance within three years. Plant materials must be placed a maximum of 24 inches on center over the entire length of the bed unless the building official approves an alternative planting density that a landscape authority certifies as being capable of providing a solid appearance within three years.

(6) For purposes of Subsection (f)(5):

(A) the height of screening is measured from the horizontal plane passing through the nearest point of the surface of the parking lot; and

(B) screening may be placed in a visibility triangle as defined in the visual obstruction regulations in Section 51A-4.602(c) of this chapter. Any screening placed in a visibility triangle must be two and one-half feet in height measured from the top of the adjacent street curb. If there is no adjacent street curb, the measurement is taken from the grade of the portion of the street adjacent to the visibility triangle.

(g) Reserved.
§ 51A-4.301 Dallas Development Code: Ordinance No. 19455, as amended

(h) Residential alley access restrictions for nonresidential uses.

(1) The following residential alley access restrictions are established in order to promote safety and protect the public from disturbances that interfere with the quiet enjoyment of residential properties. Between the hours of 10 p.m. and 7 a.m., no person may use a public alley or access easement that abuts or is in an R, R(A), D, D(A), TH, TH(A), or CH district for the purpose of delivering or receiving any goods or services to or from a nonresidential use in a nonresidential district. It is a defense to prosecution under this paragraph that the person is:

(A) a governmental entity;

(B) a communications or utility company, whether publicly or privately owned; or

(C) the operator of an authorized emergency vehicle as defined in Section 541.201 of the Texas Transportation Code.

(2) The board of adjustment may grant a special exception to the alley access restriction in Paragraph (1) if the board finds, based on evidence presented at a public hearing, that strict compliance with the restriction would result in the material and substantial impairment of access to the property as a whole. In determining whether access would be materially and substantially impaired, the board shall consider the following factors:

(A) The extent to which access to the restricted alley between the hours of 10 p.m. and 7 a.m. is essential to the normal operation of the use or uses to which the special exception would apply.

(B) The extent to which the property as a whole has reasonable access to other public streets, alleys, or access easements in addition to the restricted alley.

(C) The extent to which strict compliance with the alley access restriction will necessarily have the effect of substantially reducing the market value of the property.

(3) In granting a special exception under this subsection, the board shall:

(A) specify the use or uses to which the special exception applies; and

(B) establish a termination date for the special exception, which may not be later than five years after the date of the board’s decision.

(4) In granting a special exception under this subsection, the board may:

(A) authorize alley access only during certain hours; or

(B) impose any other reasonable condition that would further the purpose and intent of the alley access restriction.

(5) Notwithstanding any of the above, a special exception granted by the board under this subsection for a particular use automatically and immediately terminates if and when that use is changed or discontinued. (Ord. Nos. 19455; 19786; 20361; 20383; 21200; 21209; 21210; 21290; 21658; 21663; 22053; 22026; 23013; 24843; 25047; 28073; 29128; 30893)

SEC. 51A-4.302. PARKING [P(A)] DISTRICT REGULATIONS.

(a) General provisions.

(1) The parking district must be either contiguous to or perpendicularly across an adjoining street or alley from a main use.

(2) The owner of a lot in a parking district contiguous to an A, A(A), R, R(A), D, D(A), TH, TH(A), CH, MF, MF(A), MH, or MH(A) district shall provide and maintain a minimum front yard of ten feet.

(b) Procedures for establishing a parking district.

(1) The applicant for a parking district shall comply with the zoning amendment procedure for a change in a zoning district classification.
§ 51A-4.302 Dallas Development Code: Ordinance No. 19455, as amended

(A) for a single retail or personal service use in Chapter 51A over 60,000 square feet, or for a retail use in Chapter 51 over 60,000 square feet, the first 25 percent of the loading spaces must be of the large size, then 25 percent must be of the medium or large size; and

(B) for hotels and motels, one required off-street loading space must be of the large size, and at least 75 percent of the required spaces must be of the large or medium size.

(3) In determining the size of the required number of loading spaces in Subsection (b)(2) above, fractional spaces are counted to the nearest whole number, with one-half counted as an additional space.

(4) Each large size off-street loading space must have a width of not less than 11 feet, a length of not less than 55 feet, and a height of not less than 14 feet.

(5) Each medium size off-street loading space must have a width of not less than 11 feet, a length of not less than 35 feet, and a height of not less than 13 feet.

(6) Each small size off-street loading space must have a height of not less than 7.5 feet, and either a length of not less than 25 feet with a width of not less than 8 feet, or a length of not less than 20 feet with a width of not less than 10 feet.

(7) Ingress to and egress from required off-street loading spaces must have at least the same vertical height clearance as the off-street loading space.

(8) Each required off-street loading space must be designed with a reasonable means of vehicular access from the street or alley in a manner which will least interfere with traffic movement. Each off-street loading space must be independently accessible so that no loading space blocks another loading space. Trash removal facilities and other structures must not block a required loading space. The design of the ingress, egress, and maneuvering area must be approved by the director of development services.

Dallas City Code 343
§ 51A-4.303 Dallas Development Code: Ordinance No. 19455, as amended

(9) Off-street loading facilities for more than one building site may be provided in a common terminal if connections between the building and terminal are off-street.

(10) If a publicly owned off-street truck terminal presently exists, is under construction, or is funded for construction, the required off-street loading for a use that is located on a lot contiguous to or perpendicular across the street from the terminal must be provided in the publicly owned off-street truck terminal if the truck terminal is designed to accommodate the loading needs of the use, as determined by the director of building services.

(11) If a use is served by a publicly owned off-street truck terminal, the owner of that use shall provide an off-street connection to the truck terminal, and shall pay a rental fee, as determined by city council.

(12) In an office district in Chapter 51A, or an NO, LO, MO, or GO district in Chapter 51, off-street loading spaces may not be located in the required front yard.

(13) Main uses under 10,000 square feet in size may share a common off-street loading space provided that the space is located within a walking distance of 150 feet from an exit of each use that it serves. For purposes of this paragraph, “walking distance” is measured along the most convenient pedestrian walkway between the nearest point of the loading space and the exit of the use.

(c) and (d) Reserved. (Ord. Nos. 19455; 19786; 19807; 25047; 27404)

SEC. 51A-4.304. OFF-STREET STACKING SPACE REGULATIONS.

(a) Site plan submission. All required off-street stacking spaces must be shown on a site plan that is approved by the building official and made part of the certificate of occupancy record for the use.

(b) Site plan requisites. A site plan submitted for review under this section must:

(1) show all existing and proposed points of ingress and egress, circulation and maneuvering areas, and off-street parking and loading areas; and

(2) separately tabulate the number of required off-street parking, loading, and stacking spaces in a conspicuous place on the plan for quick and easy reference.

(c) General provisions.

(1) The purpose of stacking space requirements is to promote public safety by reducing on-site and off-site traffic congestion. A stacking space may be located anywhere on the building site provided that it can effectively function in a manner consistent with its purpose.

(2) At a minimum, a stacking space must be 8 feet wide and 18 feet long.

(3) A space at a drive-in or drive-through window, menu board, order station, or service bay may qualify as a stacking space.

(4) An area reserved for stacking spaces may not double as a circulation driveway or maneuvering area.

(d) Off-street stacking special exception.

(1) The board of adjustment may grant a special exception to authorize a reduction in the number of off-street stacking spaces required under this article if the board finds, after a public hearing, that the stacking demand generated by the use does not warrant the number of off-street stacking spaces required, and the special exception would not create a traffic hazard or increase traffic congestion on adjacent and nearby streets. The maximum reduction authorized by this subsection is two spaces for each of the first two drive-through windows, if any, or 25 percent of the total number of required spaces, whichever is greater, minus the number of spaces currently not provided due to already existing nonconforming rights.

(2) In determining whether to grant a special exception under Paragraph (1), the board shall consider the following factors:
(A) The stacking demand and trip generation characteristics of all uses for which the special exception is requested.

(B) The current and probable future capacities of adjacent and nearby streets based on the city’s thoroughfare plan.

(C) The availability of public transit and the likelihood of its use.

(3) In granting a special exception under Paragraph (1), the board shall specify the use or uses to which the special exception applies. A special exception granted by the board for a particular use automatically and immediately terminates if and when that use is changed or discontinued.

(4) In granting a special exception under Paragraph (1), the board may:

(A) establish a termination date for the special exception or otherwise provide for the reassessment of conditions after a specified period of time;

(B) impose restrictions on access to or from the subject property; or

(C) impose any other reasonable condition that would have the effect of improving traffic safety or lessening congestion on the streets.

(5) The board shall not grant a special exception under Paragraph (1) to reduce the number of off-street stacking spaces required in:

(A) a planned development district; or

(B) an ordinance granting or amending a special use permit. (Ord. Nos. 19786; 20272)

SEC. 51A-4.305. HANDICAPPED PARKING REGULATIONS.

Handicapped parking must be provided and maintained in compliance with all Federal and State laws and regulations. (Ord. Nos. 20493; 27864)

SEC. 51A-4.306. OFF-STREET PARKING IN THE CENTRAL BUSINESS DISTRICT.

(a) Applicability. This section applies to all off-street parking, including commercial parking lots and garages, located in the central business district (“CBD”); however, Subsections (b), (c), and (d) do not apply to commercial parking lots and garages in the CBD. In the event of a conflict between this section and other provisions in this chapter, this section controls. Consult Section 51A-4.124(a) for additional regulations concerning commercial parking lots and garages in the CA-1(A) district.

(b) Lighting.

(1) A lighting district is hereby created for purposes of this subsection. The boundaries of the lighting district are as follows:

BEGINNING at a point being the intersection of the southeast line of Woodall Rodgers Freeway with the west line of North Central Expressway;

THENCE southerly along the west line of North Central Expressway to the centerline of Live Oak Street;

THENCE southwesterly along the centerline of Live Oak Street to the centerline of Pearl Street;

THENCE southeasterly along the centerline of Pearl Street to the centerline of Pearl Expressway;

THENCE southerly along the centerline of Pearl Expressway to the centerline of Pacific Avenue;

THENCE westerly along the centerline of Pacific Avenue to the centerline of Harwood Street;

THENCE southerly along the centerline of Harwood street to the centerline of Jackson Street;

THENCE westerly along the centerline of Jackson Street to the centerline of Akard Street;

THENCE southeasterly along the centerline of Akard Street to the centerline of Canton Street;
THENCE southwesterly along the centerline of Canton Street to the northwest line of East R.L. Thornton Freeway;

THENCE southwesterly along the northwest line of East R.L. Thornton Freeway to the northeast line of Stemmons Freeway;

THENCE northwesterly along the northeast line of Stemmons Freeway to the southeast line of Woodall Rodgers Freeway;

THENCE northeasterly along the southeast line of Woodall Rodgers Freeway to the point of beginning.

(2) A surface parking lot in the lighting district that collects revenue on the premises for after-dark use (including attended, self-park, and coin-activated gated lots) must be lighted after dark until 2 a.m., or until no customer vehicles remain on the parking lot, whichever is earlier. If revenue is collected for after-dark use of only a portion of the parking lot and that portion is clearly designated, only that portion must be lighted. For purposes of this subsection, “dark” means one-half hour after sunset.

(3) No lighting is required for a surface parking lot outside of the lighting district.

(4) No portion of a surface parking lot may be open for use by customer vehicles after dark without lighting unless a sign is prominently displayed at or near the entrance to the facility stating: “THIS FACILITY IS NOT ILLUMINATED DURING HOURS OF DARKNESS.” The sign must be posted adjacent to the public street and be easily visible from the street.

(5) A multi-level or underground parking garage must be lighted 24 hours a day except when vehicular ingress and egress is prohibited.

(6) The intensity of required lighting on the parking surface must be:

(A) an average of at least two footcandles, initial measurement, and at least one footcandle on a maintained basis; and

(B) a minimum at any point of at least 0.6 footcandle initial, and at least 0.3 footcandle maintained or one-third of the average for the lighted area, whichever is greater.

(7) Light sources must be indirect, diffused, or shielded-type fixtures, installed to reduce glare and the consequent interference with boundary streets. Bare bulbs or strings of lamps are prohibited.

(8) Fixtures must be attached to buildings or mounted on permanent poles.

(9) Fixtures on surface parking lots must be at least 20 feet above the lot surface. This requirement does not apply to parking garages.

(10) The board may grant a special exception to the lighting requirements of this subsection if the board finds, after a public hearing, that the special exception will not compromise the safety of persons using the parking. In determining whether to grant this special exception, the board shall consider:

(A) the extent to which the parking will be used after dark;

(B) the crime statistics for the area; and

(C) the extent to which adequate lighting may be provided by light sources located on adjacent property.

(11) The board shall not grant a special exception eliminating lighting requirements for all or a portion of a parking lot or garage without requiring that a sign be posted advising the public of the extent to which there will be no illumination during hours of darkness. The sign must be posted in a conspicuous place and be reasonably calculated to adequately inform those persons who might park in the area that is the subject of the special exception.

(c) Stall width. There is no minimum stall width requirement for non-required off-street parking spaces. Required off-street parking spaces must comply with the dimensional standards contained in Section 51A-4.301.

(d) Parking space identification. Non-required parking spaces need not be identified. Required off-street parking spaces must be clearly and
permanently identified by stripes, buttons, tiles, curbs, barriers, or another method approved by the building official.

(e) Wheel guards and barriers. Required off-street parking spaces for nonresidential uses, and parking spaces (both required and non-required) along the perimeter of the parking lot or garage must have wheel guards not less than six inches in height, or other permanent barriers approved by the building official. Examples of acceptable permanent barriers include guardrails and fences or walls capable of containing an automobile within the parking area. Wheel guards or barriers must be placed so that no part of the automobile extends into the public sidewalk or adjoining property.

(f) Passenger unloading zone required in certain cases.

(1) If customer vehicles are parked by an attendant or employee of the facility, a passenger unloading zone must be provided as part of the ingress lane to the facility. The passenger unloading zone must be:

   (A) a minimum of 15 feet wide and 36 feet long;

   (B) clearly and permanently identified and labeled as a “no parking” area; and

   (C) located so that it can effectively function to reduce on-site and off-site traffic congestion that would otherwise result from operation of the parking lot or garage.

(2) The following are acceptable means of identifying and labeling a passenger unloading zone:

   (A) Painting one of the following on the pavement within the zone:

       (i) The words “NO PARKING” consisting of 12-inch high black letters on a red background.

       (ii) A No Parking symbol sign consisting of the symbol “P” in black, circumscribed in a red circle at least 36 inches in diameter with a red slash. The sign must be painted on a white background with a black border. Illustrations of acceptable No Parking symbol signs may be found in the 1980 Texas Manual on Uniform Traffic Control Devices for Streets and Highways published by the State Department of Highways and Public Transportation.

   (B) Painting on the pavement along each of the four sides of the outside perimeter of the zone the words “NO PARKING” consisting of four-inch high black letters on a red background.

   (g) Stacking space required in certain cases. No stacking spaces are required when a passenger unloading zone is provided in accordance with Subsection (f). However, if no passenger unloading zone is provided, one stacking space must be provided in accordance with Section 51A-4.304.

   (h) Conformance. All nonconforming parking lots and garages within the central business district must fully comply with the provisions of this section before April 1, 1991, or within two years of the date the parking lot or garage became nonconforming as to this section, whichever is later. The board may grant an extension of this time period if it determines, after a public hearing, that strict compliance would result in substantial financial hardship or inequity to the applicant without sufficient corresponding benefit to the city and its citizens in accomplishing the objectives of this section. (Ord. Nos. 20272; 21960)

SEC. 51A-4.307. NONCONFORMITY AS TO PARKING OR LOADING REGULATIONS.

Consult Section 51A-4.704 for regulations concerning nonconformity as to parking and loading. (Ord. 21553)

SECS. 51A-4.308 THRU 51A-4.309. RESERVED.
Division 51A-4.310. Off-street parking reductions.

SEC. 51A-4.311. SPECIAL EXCEPTIONS.

(a) Special exception: parking demand.

(1) The board may grant a special exception to authorize a reduction in the number of off-street parking spaces required under this article if the board finds, after a public hearing, that the parking demand generated by the use does not warrant the number of off-street parking spaces required, and the special exception would not create a traffic hazard or increase traffic congestion on adjacent or nearby streets. Except as otherwise provided in this paragraph, the maximum reduction authorized by this section is 25 percent or one space, whichever is greater, minus the number of parking spaces currently not provided due to delta credits, as defined in Section 51A-4.704(b)(4)(A). For the commercial amusement (inside) use and the industrial (inside) use, the maximum reduction authorized by this section is 75 percent or one space, whichever is greater, minus the number of parking spaces currently not provided due to delta credits, as defined in Section 51A-4.704(b)(4)(A). For the office use, the maximum reduction is 35 percent or one space, whichever is greater, minus the number of parking spaces currently not provided due to delta credits, as defined in Section 51A-4.704(b)(4)(A). Applicants may seek a special exception to parking requirements under this section and an administrative parking reduction under Section 51A-4.313. The greater reduction will apply, but the reductions may not be combined.

(2) In determining whether to grant a special exception under Paragraph (1), the board shall consider the following factors:

(A) The extent to which the parking spaces provided will be remote, shared, or packed parking.

(B) The parking demand and trip generation characteristics of all uses for which the special exception is requested.

(C) Whether or not the subject property or any property in the general area is part of a modified delta overlay district.

(D) The current and probable future capacities of adjacent and nearby streets based on the city’s thoroughfare plan.

(E) The availability of public transit and the likelihood of its use.

(F) The feasibility of parking mitigation measures and the likelihood of their effectiveness.

(3) In granting a special exception under Paragraph (1), the board shall specify the use or uses to which the special exception applies. A special exception granted by the board for a particular use automatically and immediately terminates if and when that use is changed or discontinued.

(4) In granting a special exception under Paragraph (1), the board may:

(A) establish a termination date for the special exception or otherwise provide for the reassessment of conditions after a specified period of time;

(B) impose restrictions on access to or from the subject property; or

(C) impose any other reasonable condition that would have the effect of improving traffic safety or lessening congestion on the streets.

(5) The board shall not grant a special exception under Paragraph (1) to reduce the number of off-street parking spaces required in an ordinance granting or amending a specific use permit.

(6) The board shall not grant a special exception under Paragraph (1) to reduce the number of off-street parking spaces expressly required in the text or development plan of an ordinance establishing or amending regulations governing a specific planned development district. This prohibition does not apply when:

(A) the ordinance does not expressly specify a minimum number of spaces, but instead simply makes reference to the existing off-street parking regulations in Chapter 51 or this chapter; or
§ 51A-4.311 Dallas Development Code: Ordinance No. 19455, as amended

(B) the regulations governing that specific district expressly authorize the board to grant the special exception.

(7) The board shall not grant a special exception under Paragraph (1) to reduce the number of off-street parking spaces required for a commercial amusement (inside) used as a dance hall.

(b) Special exception: tree preservation. The board may grant a special exception to authorize a reduction in the number of off-street parking spaces required under this article if the board finds, after a public hearing, that the reduction will result in the preservation of an existing tree. The preserved tree must be protected from vehicular traffic through the use of concrete curbs, wheel stops, or other permanent barriers. The maximum reduction authorized by this subsection is 10 percent or one space, whichever is greater, minus the number of parking spaces currently not provided due to already existing nonconforming rights. (Ord. Nos. 22053; 23614; 25268; 28803)

SEC. 51A-4.312. TREE PRESERVATION PARKING REDUCTION.

The number of off-street parking spaces required under this article is reduced by one for each protected tree (as defined in Article X) retained that would otherwise have to be removed. The preserved tree must be protected from vehicular traffic through the use of concrete curbs, wheel stops, or other permanent barriers. The maximum reduction authorized by this section is five percent or one space, whichever is greater, minus the number of parking spaces currently not provided due to already existing nonconforming rights. (Ord. 22053)

SEC. 51A-4.313. ADMINISTRATIVE PARKING REDUCTION.

(a) The director may grant a reduction in the number of off-street parking spaces required under this article for specific uses if the director finds that the parking demand generated by the use does not warrant the number of off-street parking spaces required, and the reduction would not create a traffic hazard or increase traffic congestion on adjacent or nearby streets.

(b) In determining whether to grant a reduction under Subsection (a), the director shall consider the following factors:

1. The extent to which the parking spaces provided will be assigned, compact, remote, shared, or packed parking.

2. The parking demand and trip generation characteristics for the occupancy for which the reduction is requested.

3. The number of individuals employed on the site of the occupancy for which the reduction is requested.

4. The number of company vehicles parked on the site of the occupancy for which the reduction is requested.

5. Whether or not the subject property or the surrounding properties are part of a modified delta overlay district.

6. The current and probable future capacities of adjacent and nearby streets based on the city’s thoroughfare plan.

The maximum reduction authorized by this section for specific uses is:

<table>
<thead>
<tr>
<th>Use</th>
<th>Maximum Administrative Reduction</th>
</tr>
</thead>
<tbody>
<tr>
<td>Industrial (inside)</td>
<td>50 percent</td>
</tr>
<tr>
<td>Industrial (outside)</td>
<td>50 percent</td>
</tr>
<tr>
<td>Office uses and retail and personal service uses (except for restaurants and alcoholic beverage establishments) within a 1,200 feet walking distance of a platform of a rail transit station by a sidewalk with a minimum width of six feet</td>
<td>20 percent (must not be within 600 feet of a single-family or duplex district and the use must be connected to the rail transit station)</td>
</tr>
<tr>
<td>Trade center</td>
<td>25 percent</td>
</tr>
<tr>
<td>Warehouse greater than 100,000 square feet</td>
<td>50 percent (up to 75 percent if the requirement of Subsection (d)(3) is complied with)</td>
</tr>
<tr>
<td>Museum/art gallery</td>
<td>50 percent</td>
</tr>
</tbody>
</table>

Note: Applicants may seek a special exception to parking requirements under Section 51A-4.311 and an administrative parking reduction under this section. The greater reduction will apply, but the reductions may not be combined.
§ 51A-4.313 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-4.314

(7) The availability of alternative transportation modes and availability, access, and distance to public transit and the likelihood of their use.

(8) The feasibility of parking mitigation measures and the likelihood of their effectiveness.

(9) The impact on adjacent residential uses.

(c) In granting a reduction under Subsection (a), the director shall specify the occupancy to which the reduction applies. A reduction granted by the director for a particular occupancy automatically and immediately terminates if and when the certificate of occupancy for the use is revoked or terminated or the existing business stops operating.

(d) In granting a reduction under Subsection (a), the director may:

(1) establish a termination date for the reduction or otherwise provide for the reassessment of conditions after a specified period of time;

(2) impose restrictions on access to or from the subject property;

(3) require that adequate lot area be available to comply with standard parking requirements; or

(4) impose any other reasonable condition that would have the effect of improving traffic safety or lessening congestion on the streets.

(e) The director may not grant a reduction under Subsection (a) to reduce the number of off-street parking spaces required in an ordinance granting or amending a specific use permit.

(f) The director may not grant a reduction under Subsection (a) to reduce the number of off-street parking spaces required in the text or development plan of an ordinance establishing or amending a planned development district. This prohibition does not apply when:

(1) the ordinance does not expressly specify a minimum number of spaces, but instead simply makes reference to the existing off-street parking regulations in Chapter 51 or this chapter; and

(2) the regulations governing that planned development district expressly authorize the director to grant the reduction. (Ord. 28803)

SEC. 51A-4.314. REDUCTIONS FOR PROVIDING BICYCLE PARKING.

(a) Required off-street parking may be reduced by one space for every six Class I bicycle parking spaces provided on a building site. Bicycle parking spaces required by Section 51A-4.333 count toward this parking reduction. A minimum of 20 off-street parking spaces must be required in order to receive a parking reduction of one space.

(b) Required off-street parking may be reduced by one space for every four Class II bicycle parking spaces provided on a building site. Bicycle parking spaces required by Section 51A-4.333 count toward this parking reduction. A minimum of 20 off-street parking spaces must be required in order to receive a parking reduction of one space.

(c) A parking reduction under this subsection may not be granted for fractional parking spaces and fractional parking spaces may not be rounded up to the next nearest whole parking space.

(d) A parking reduction granted under Subsections (a) or (b) cannot exceed five percent of the total required off-street parking spaces for a building site.

(e) In addition to a parking reduction granted under Subsections (a) or (b), required off-street parking spaces may be reduced by an additional five percent by providing showers, lockers, and changing facilities for bicycle riders. This parking reduction is not available for residential and retail and personal service uses. (Ord. 29128)
Division 51A-4.320. Special Parking Regulations.

SEC. 51A-4.321. DEFINITIONS.

In this division:

(1) LICENSEE means a person in whose name a license has been issued under this division, as well as the individual listed as an applicant on the application for a license. The term includes any employee, agent, or independent contractor of the person in whose name the license is issued.

(2) PACKED PARKING means off-street parking that is governed by special dimensional standards for parking spaces, allowing maximal parking on the lot when an attendant is used.

(3) PERSON means an individual, assumed name entity, partnership, joint-venture, association, corporation, or other legal entity.

(4) REMOTE PARKING means off-street parking provided on a lot not occupied by the main use.

(5) SHARED PARKING means the use of the same off-street parking stall to satisfy the off-street parking requirements for two or more uses.

(6) SHUTTLE means a vehicle used to transport patrons between the drop-off point at the main use and the remote parking lot serving the use.

(7) SPECIAL PARKING means packed parking, remote parking, and shared parking as those terms are defined in this section.

(8) WALKING DISTANCE means the distance from the nearest point of the special parking lot to the nearest public entrance of the main use, measured along the most convenient pedestrian walkway. (Ord. Nos. 19786; 21660)

SEC. 51A-4.322. PURPOSE.

This division provides alternatives to the standard parking and loading regulations in Division 51A-4.300. Packed parking provides alternative dimensional requirements for parking spaces to allow maximal parking on a lot when an attendant is used to park vehicles. Remote parking allows an exception to the requirement that all off-street parking be provided on the lot occupied by the main use. Shared parking allows an exception to the requirement that no off-street parking space for one use be included in the calculation of the parking required for any other use. (Ord. Nos. 19786; 21660)

SEC. 51A-4.323. PROCEDURES FOR SPECIAL PARKING APPROVAL.

(a) In general. All special parking must be approved by the building official in accordance with this division. A person seeking approval of special parking shall submit an application to the building official pursuant to Subsection (b).

(b) Application. An application for special parking approval must be filed with the building official. An application form may be obtained from the building official. The application must include the following:

(1) The application fee.

(2) A site plan illustrating the applicable items listed in Subsection (c).

(3) For packed parking, a statement describing the operational plan, including:

(A) the days and hours of operation of the main use;

(B) staffing required to park the vehicles; and

(C) the location of any parking service stand.
§ 51A-4.323 Dallas Development Code: Ordinance No. 19455, as amended

(4) For remote parking:

(A) a map illustrating the walking distance from the special parking to the use providing the parking; and

(B) if applicable, a statement pointing out the factors justifying an extension of walking distance including discussion of the following factors:

   (i) The type of use involved.

   (ii) The parking demand generated by the use involved.

   (iii) The percentage of required off-street parking that will be provided as remote parking.

   (iv) The availability and condition of sidewalks.

   (v) The availability and frequency of a local shuttle or transit service.

   (vi) The availability of or proposal for shelters for users of any local shuttle or transit service.

   (vii) Any other factors that may have the effect of encouraging patrons of the use to use or discouraging patrons of the use from using the remote parking.

(5) For shared parking, a study of parking demand and accumulation during all days and hours of operation for all uses sharing parking.

(6) Any other reasonable and pertinent information that the building official determines to be necessary for special parking review.

(c) Site plan requisites.

(1) The following information must be illustrated on the site plan:

   (A) The number of parking spaces required for each use.

   (B) The location and dimensions of the special parking lot.

   (C) The location and dimensions of all existing and proposed off-street parking and loading areas, parking bays, aisles, and driveways.

   (D) The location and dimensions of any dumpster on the special parking lot.

   (E) The number of cars to be accommodated in each row of parking spaces.

   (F) The location and dimensions of all existing streets and alleys adjacent to the special parking lot and between the special parking lot and the main use.

   (G) The location of all existing easements for street purposes on the special parking lot.

   (H) Existing and proposed provisions for pedestrian circulation in the area of request, including sidewalks, walkways, crosswalks, and pedestrian plazas.

   (I) Existing and proposed median cuts and driveways located within 250 feet of the special parking lot.

   (J) The location and the type of any special traffic regulation facilities proposed or required.

   (K) A proposed landscape plan, if required elsewhere in this chapter.

(2) For special parking consisting of more than 50 parking spaces, the following additional information must be illustrated on the site plan:

   (A) Existing and proposed points of ingress and egress and estimated peak hour turning movements to and from existing and proposed public and private streets and alleys adjacent to the special parking lot.
(B) Average daily traffic counts on streets adjacent to the special parking lot.

(C) Estimated peak hour turning movements at intersections located within 250 feet of the special parking lot. (Ord. Nos. 19786; 21660; 30892)

SEC. 51A-4.324. REVIEW BY THE DIRECTOR.

(a) Conformity with standards required. The building official shall deny an application for special parking unless it meets all of the applicable standards in this section.

(b) General standards.

(1) Special parking may not be located in a residential district, except that Chapter 51 community service, religious, and educational uses, and Chapter 51A institutional and community service uses may share parking in residential districts on the same lot where both uses are located. Nonresidential uses in residential districts may also use special parking if the special parking is not located in a residential district.

(2) Except as otherwise expressly provided in this subsection, special parking may not account for more than 50 percent of the off-street parking required for any use.

(3) The 50 percent limitation in Paragraph (2) does not apply to:

(A) remote parking within a walking distance of 300 feet of the main use; and

(B) shared parking on the same lot as the main use if all uses sharing the parking have mutually exclusive hours of operation.

(4) Special parking must comply with all codes, ordinances, rules, and regulations of the city.

(5) Special parking may not create safety hazards.

(c) Packed parking standards. Packed parking may not be used unless a license is obtained pursuant to Section 51A-4.329.

(d) Remote parking standards.

(1) Walking distance. Remote parking must be located within a walking distance of 300 feet from the use served by the remote parking unless an extension of walking distance is approved by the building official.

(2) Extension of walking distance.

(A) The building official may extend the walking distance for remote parking to no more than 600 feet unless the extension would:

(i) significantly discourage patrons of the use from using the remote parking;

(ii) unreasonably endanger the safety of persons or property; or

(iii) not otherwise be in the public interest.

(B) A license is required to authorize an extension of walking distance beyond 600 feet. (See Section 51A-4.329.)

(3) Signs required at main use and at parking lot. A sign must be prominently displayed at all entrances of a remote parking lot and at all entrances of a parking lot providing on-site parking for the main use. Each sign must:

(A) illustrate or describe the location of the remote parking in relation to the main use;

(B) be constructed of weather resistant material;

(C) be no less than 30 inches wide and 24 inches long; and
(D) contain clearly legible letters in a color that contrasts with the background material of the sign.

(e) Shared parking standards. Uses sharing parking must have either mutually exclusive or compatibly overlapping normal hours of operation. The building official shall determine whether hours of operation are compatibly overlapping on a case by case basis. (Ord. Nos. 19786; 21660; 25290; 27404)

SEC. 51A-4.325. DECISION OF THE DIRECTOR.

(a) Form of decision. The decision of the building official must take one of three forms:

(1) Approval, no conditions.

(2) Approval, subject to conditions noted.

(3) Denial.

(b) Statement of reasons. If the building official denies an application for special parking, he shall state in writing the specific reasons for denial.

(c) Approval subject to conditions noted. As an alternative to denial of an application for special parking under Section 51A-4.324(a), the building official may approve the special parking subject to conditions noted if compliance with all conditions will eliminate what would otherwise constitute grounds for denial. If the building official approves the special parking subject to conditions noted, he shall state in writing the specific requirements to be met before the special parking shall be considered approved.

(d) Approval with no conditions. If there are no grounds for denial under Section 51A-4.324(a), the building official shall approve the application for special parking with no conditions. (Ord. Nos. 19786; 21660)

SEC. 51A-4.326. NOTICE.

The building official shall give written notice to the applicant of the decision regarding the application for special parking. Notice is given by depositing the notice properly addressed and postage paid in the United States mail. The notice must be sent to the address shown on the application. (Ord. Nos. 19786; 21660)

SEC. 51A-4.327. APPEALS.

(a) An appeal from a decision of the building official under Section 51A-4.325 may be made to the board of adjustment.

(b) In considering the appeal, the sole issue before the board of adjustment shall be whether or not the building official erred in making the decision and, in this connection, the board shall consider the same standards that were required to be considered by the building official in making the decision. (Ord. Nos. 19786; 21660)

SEC. 51A-4.328. AGREEMENT REQUIRED.

(a) Requisites of agreement. If the application for special parking is approved, a special parking agreement must be executed and filed in accordance with this section. A standard agreement form may be obtained from the building official. The agreement must:

(1) be in writing;

(2) contain legal descriptions of the properties affected;

(3) set forth adequate consideration between the parties;

(4) specify the special parking being provided and the hours of operation of any use involved;

(5) be a covenant running with the land;

(6) state that all parties agree to defend, indemnify, and hold harmless the city of Dallas from and against all claims or liabilities arising out of or in connection with the agreement;
(7) be governed by the laws of the state of Texas;

(8) be approved by the building official and be approved as to form by the city attorney;

(9) be signed by all owners of the properties affected;

(10) be signed by all lienholders, other than taxing entities, that have an interest in or an improvement on the properties; and

(11) state that it may only be amended or terminated by a subsequent written instrument that is:

(A) except as otherwise provided in Subsection (b), signed by all owners of the properties affected and by all lienholders, other than taxing entities, that have an interest in or an improvement on the properties;

(B) approved by the building official;

(C) approved as to form by the city attorney; and

(D) filed and made a part of the deed records of the county or counties in which the properties are located.

(b) Approval. The building official shall approve an agreement if all properties governed by the agreement fully comply with the regulations in this division. If all affected owners and lienholders do not sign the instrument amending or terminating an agreement, and if all uses for which parking is provided under the agreement demonstrate that the agreement is no longer needed to fully comply with the off-street parking requirements in this chapter, the building official shall approve the amending or terminating instrument without those signatures.

(c) Agreement must be filed. An agreement shall not be considered effective until a true and correct copy of the approved agreement is filed in the deed records of the county or counties in which the properties are located and two file-marked copies of the agreement are filed with the building official.

(d) Amendment or termination of agreement. An agreement may only be amended or terminated by a written instrument that is executed in accordance with this subsection on a form provided by the city.

(1) The instrument must be:

(A) signed by all owners of properties affected and by all lienholders, other than taxing entities, that have an interest in or an improvement on the properties;

(B) approved by the building official;

(C) approved as to form by the city attorney; and

(D) filed and made a part of the deed records of the county or counties in which the properties are located.

(2) The building official shall approve an instrument amending or terminating a special parking agreement if:

(A) all uses providing parking under the agreement and all uses on the property for which parking is provided under the agreement fully comply with the off-street parking regulations in this chapter; or

(B) all uses on the property for which parking is provided under the agreement cease to operate and terminate their certificates of occupancy.

(3) The amending or terminating instrument shall not be considered effective until a true and correct copy of the approved instrument is filed in the deed records of the county or counties in which the properties are located and two file-marked copies of the instrument are filed with the building official.

(Ord. Nos. 19786; 21660; 22783)
SEC. 51A-4.329. SPECIAL PARKING LICENSE.

(a) When a special parking license is required.

(1) A special parking license is required to authorize:

(A) packed parking; or

(B) an extension of the walking distance for remote parking beyond 600 feet [See Section 51A-4.324(d)].

(2) Special parking licenses are issued by the building official. An application for special parking under Section 51A-4.323 serves as an application for a license under this section.

(b) Conformity with standards required. The building official shall deny a special parking license unless it meets all of the applicable standards in Section 51A-4.324 and this section.

(c) Packed parking standards.

(1) The passenger loading and unloading area for packed parking must have adequate means of ingress to and egress from a street or an alley. The building official shall only consider alley access in satisfaction of this requirement when alley access is permitted by this chapter.

(2) All maneuvering, parking, and loading for packed parking must be accomplished on private property.

(3) The area of each packed parking space must be no less than 145 square feet.

(4) An access lane that is no less than 24 feet wide must be provided through the packed parking area.

(5) An attendant must be provided to park vehicles during all business hours of the main use.

(6) A sign must be prominently displayed at all entrances of a packed parking lot. Each sign must:

(A) state:

(i) that all or a portion of the lot is restricted to packed parking serving the main use;

(ii) that an attendant must be provided during all business hours of the main use;

(iii) the business hours of the main use;

(iv) a phone number specified by the building official to be used for reporting violations of this division, including the requirement of an attendant during all business hours of the main use;

(v) the phone number of the licensee; and

(vi) the issuance number of the licensee;

(B) be constructed of weather resistant material;

(C) be no less than 30 inches wide and 24 inches long; and

(D) contain clearly legible letters in a color that contrasts with the background material of the sign.

(d) Standards for extension of walking distance beyond 600 feet.

(1) The building official shall require that either a shuttle or an attendant be provided by the applicant as a condition to approval of an extension of the walking distance for remote parking beyond 600 feet.

(2) If a shuttle is required, it must:

(A) transport patrons between the main use and the remote parking lot;

(B) be adequately staffed during all hours of operation of the main use; and
§ 51A-4.329 Dallas Development Code: Ordinance No. 19455, as amended

(C) have adequate seating capacity to accommodate patrons expected to use the remote parking.

(3) If an attendant is required, the attendant shall drive vehicles of patrons between the main use and the remote parking lot.

(4) In no event may the building official authorize remote parking to be located beyond a walking distance of one-half mile from the main use.

(e) Revocation of license by building official. The building official shall revoke a license under this division if:

(1) the licensee fails to comply with the requirements of the license, this division, or other applicable law;

(2) the licensee made a false statement of material fact on an application for a license under this section; or

(3) the building official determines that the special parking unreasonably endangers the safety of persons or property and is not otherwise in the public interest.

(f) Suspension of license by building official. If the building official determines that a licensee has failed to comply with any regulation established under this division, the building official may suspend the special parking license for a definite period of time not to exceed 60 days. A licensee whose special parking license is suspended shall not use the special parking involved during the period of suspension. If the licensee fails to comply within the suspension period, the building official shall revoke the license.

(g) Expiration of license. A special parking license expires three years from the date of issuance, unless sooner revoked by the building official or by the city council.

(h) Renewal. A special parking license may be renewed by making an application for renewal at least 30 days before expiration of the license. If the license renewal involves changes to the original application, a new application for special parking approval must be submitted under Section 51A-4.323. If the license renewal does not involve changes, the request for renewal must be filed with the building official on a form furnished by the city for that purpose.

(i) Appeal of denial, suspension, or revocation of license. If the building official refuses to issue a license to an applicant or suspends or revokes the license of a licensee, the action of the building official is final unless the licensee files an appeal with a permit and license appeal board in accordance with Section 2-96 of this code. (Ord. Nos. 19786; 21660)

SEC. 51A-4.329.1. OFFENSES.

A person commits an offense if he operates a use:

(1) in violation of a special parking agreement executed and filed pursuant to Section 51A-4.328; or

(2) without a valid license required under Section 51A-4.329. (Ord. Nos. 19786; 21660; 29128)

SEC. 51A-4.329.2. REVOCATION OF CERTIFICATE OF OCCUPANCY.

The building official shall revoke the certificate of occupancy for any use being operated:

(1) in violation of a special parking agreement executed and filed pursuant to Section 51A-4.328; or

(2) without a valid license required under Section 51A-4.329. (Ord. Nos. 19786; 21660; 29128)

SEC. 51A-4.331. APPLICABILITY.

(a) Except as provided in Subsection (b), this section becomes applicable to a building site when:

(1) an application is made for a building permit:

(A) for new construction; or

(B) to increase the floor area on a building site by 10 percent or more or by 2,000 square feet or more, whichever is less; or

(2) there is a change in land use that requires an increase in off-street parking.

(b) This section does not apply to:

(1) uses that require four or fewer off-street parking spaces;

(2) agricultural uses;

(3) utility and public service uses;

(4) wholesale, distribution, and storage uses;

(5) a mobile home park, mobile home subdivision, or campground; or

(6) a drive-in theater. (Ord. 29128)

SEC. 51A-4.332. GENERAL PROVISIONS.

(a) Bicycle parking spaces are not permitted in a visibility triangle as defined in Section 51A-4.602.

(b) Bicycle parking spaces must not impede access to a fire hydrant or pedestrian circulation.

(c) Bicycle parking spaces must not reduce the unobstructed space for the passage of pedestrians to less than the minimum required sidewalk width for that building site.

(d) Bicycle parking spaces must be protected from motor vehicles to prevent damage to parked bicycles.

(e) Bicycle parking spaces must be maintained in a clean, neat, and orderly manner.

(f) All bicycle racks must be securely anchored. (Ord. 29128)

SEC. 51A-4.333. SPACES REQUIRED.

(a) The greater of two bicycle parking spaces per building site or one bicycle parking space per 25 required off-street parking spaces is required.

(b) No more than 30 bicycle parking spaces are required on any building site.

(c) For every 10 bicycle parking spaces, or portion of 10 bicycle parking spaces, provided on a building site, a minimum of two bicycle parking spaces must be available for use by guests or visitors.

(d) In determining the required number of bicycle parking spaces, fractional spaces are counted to the nearest whole number, with one half counted as an additional space. (Ord. 29128)

SEC. 51A-4.334. LOCATION AND DESIGN.

(a) All required bicycle parking spaces must be provided on the lot occupied by the main use.

(b) Bicycle parking spaces exterior to a building must be a part of or connected to a pedestrian pathway that connects to a building entrance open to the public.

(c) Bicycle parking spaces exterior to a building must be clearly visible from a primary building entrance or signs must be posted at the entrances to the automobile parking area that indicate the location of bicycle parking. For bicycle parking interior to a building, signs must be posted at the entrance to the automobile parking area that indicate the location of the bicycle parking. If signs are required to be posted at the entrances to the automobile parking area, the signs must:
§ 51A-4.334 Dallas Development Code: Ordinance No. 19455, as amended

(1) be prominently displayed;
(2) illustrate or describe the location of bicycle parking spaces;
(3) be constructed of weather resistant material;
(4) be a minimum of 10 inches in width by 15 inches in height; and
(5) have clearly legible letters and graphics that contrast with the background material.

(d) When placed parallel, bicycle racks must be spaced at least four feet apart.

(e) When placed linear, bicycle racks must be spaced at least seven feet apart.

(f) Class I bicycle parking must provide a minimum two-and-a-half foot by six foot area for each bicycle parking space.

(g) Class I bicycle parking may be placed in the required front, side, or rear yard. (Ord. 29128)

SEC. 51A-4.335. WAIVERS.

(a) An applicant for a bicycle parking waiver shall submit an application to the director on a form provided by the city.

(b) The director may waive the bicycle parking requirements only upon a determination that:

(1) due to existing site constraints, meeting the requirements of this division would:

(A) interfere with the minimum requirements for pedestrian or vehicular maneuvering; or

(B) would otherwise be contrary to public safety; or

(2) the building site only has access from a roadway where riding a bicycle is prohibited under Sections 9-6 or 28-159 of the Dallas City Code. (Ord. 29128)
§ 51A-4.341 Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.343

SEC. 51A-4.341. PURPOSE.

This division provides alternatives to the standard parking and loading regulations in Division 51A-4.300 to allow parking within a structure when an approved mechanical system is used to park and retrieve vehicles. (Ord. 29128)

SEC. 51A-4.342. DEFINITIONS.

In this division:

(1) APERTURE AREA means the total area of window, door, and facade openings on the exterior of any portion of a mechanized parking facility, expressed as a percentage of the total facade area.

(2) ARTICULATION means any portion of the exterior of a mechanized parking facility that includes a material change, facade openings, columns, pilasters, or other architectural element.

(3) COMPATIBLE means similar in application, color, materials, pattern, shape, size, slope, and other characteristics but does not mean identical.

(4) MECHANIZED PARKING means parking spaces located underground or within a structure where a mechanical system is used to park and retrieve vehicles.

(5) TRANSLUCENT means not completely clear or transparent but clear enough to allow light to pass through while diffusing it so that persons, objects, etc. on the inside of the structure are not visible from the exterior of the structure. (Ord. 29128)

SEC. 51A-4.343. PROCEDURES FOR MECHANIZED PARKING APPROVAL.

(a) In general. All mechanized parking must be approved by the building official. The building official shall deny an application for mechanized parking unless it meets all of the standards of this division.

(b) Application. An applicant for mechanized parking approval shall submit an application to the building official on a form provided by the city. The applicant must be the person who will own, control, or operate the mechanized parking. The application must contain the following:

(1) The name, street address, mailing address, e-mail address, and telephone number of the applicant or the applicant’s authorized agent.

(2) The street address and main telephone number, if any, of the property where the mechanized parking will be located.

(3) The application fee.

(4) The name, street address, mailing address, e-mail address, and telephone number of a person or persons to contact in an emergency or in case of a malfunction.

(5) Building plans for the mechanized parking structure.

(6) An operational plan for the mechanized parking that includes the following:

(A) A statement describing the staffing required to operate the mechanized parking, if any.

(B) A trip generation table with a description of the main uses to be served by the mechanized parking.

(C) A stacking analysis.

(D) A peak use analysis.

(E) A statement detailing how long it takes to park and retrieve a vehicle.

(F) A noise generation analysis and a noise mitigation plan.

(7) Any other reasonable and pertinent information that the building official determines to be necessary for mechanized parking review. (Ord. 29128)
SEC. 51A-4.344. MECHANIZED PARKING LICENSE.

(a) License required.

(1) Mechanized parking may not be used unless a license is obtained under this section.

(2) Mechanized parking licenses are issued by the building official. An application for mechanized parking under Section 51A-4.343 serves as an application for a license under this section.

(b) Denial of license. The building official shall deny a mechanized parking license unless the mechanized parking meets all of the standards in this division.

(c) Suspension of license by building official.

(1) If the building official determines that a licensee has failed to comply with any regulation established under this division, the building official may suspend the mechanized parking license for a definite period not to exceed 60 days.

(2) A licensee whose mechanized parking license is suspended shall not use the mechanized parking involved during the period of suspension except to release parked cars to drivers or owners.

(3) If the licensee fails to comply within the suspension period, the building official shall revoke the license.

(d) Revocation of license by building official. The building official shall revoke a mechanized parking license if:

(1) the licensee fails to comply with the requirements of the license, this division, or other applicable law;

(2) the applicant made a false statement of material fact on an application for a license; or

(3) the building official determines that the mechanized parking unreasonably endangers the safety of persons or property or is not otherwise in the public interest.

(e) Expiration of license. A mechanized parking license expires three years from the date of issuance, unless sooner revoked by the building official.

(f) Renewal. A mechanized parking license may be renewed by making an application for renewal at least 30 days before the expiration of the license. If the building official determines that the license renewal involves substantive changes to the original application, a new application for mechanized parking approval must be submitted under Section 51A-4.343. If the license renewal does not involve substantive changes, the application for renewal must be filed with the building official on a form furnished by the city.

(g) Appeal of denial, suspension, or revocation of license. If the building official denies, suspends, or revokes a license, the action of the building official is final unless the applicant or licensee files an appeal with the permit license and appeal board in accordance with Section 2-96 of the Dallas City Code.

(Ord. 29128)

SEC. 51A-4.345. GENERAL STANDARDS.

(a) In general. Mechanized parking spaces may be counted as required parking if the mechanized parking otherwise complies with the requirements of this article.

(b) Location. Mechanized parking must be located underground or in an enclosed above-ground parking structure.

(c) Compliance with approved plans required. Mechanized parking must comply with the building plans and operational plan approved by the building official.

(d) Maintenance. Mechanized parking must be maintained in a state of good repair and operation.

(e) Exemption from construction and maintenance provisions. Mechanized parking is exempt from the construction and maintenance provisions for off-street parking in Sections 51A-4.301(d) and 51A-4.306(c), (d), and (e). The lighting requirements in Sections 51A-4.301(e) and 51A-4.306(b) apply only to the first floor of a mechanized parking facility.

Dallas City Code 361
§ 51A-4.345 Dallas Development Code: Ordinance No. 19455, as amended

(f) Passenger loading and unloading.

(1) A passenger loading and unloading area is required if the mechanized parking facility is served by an attendant or valet.

(2) Passenger loading and unloading areas must comply with the requirements of Section 51A-4.306(f) regardless of zoning district.

(3) The passenger loading and unloading area must have adequate means of ingress from and egress to a street or an alley. The building official shall only consider alley access in satisfaction of this requirement when alley access is permitted by this chapter.

(g) Required stacking.

(1) One stacking space per every 10 mechanized parking bays is required for a mechanized parking facility not served by an attendant or valet.

(2) A mechanized loading bay counts as a stacking space.

(3) Required stacking must comply with Section 51A-4.304.

(4) The building official may reduce the stacking space requirement if the building official determines that all of the stacking spaces are not necessary based on an analysis of the operational plan. An applicant seeking a stacking space reduction from the building official shall provide the building official with a report by an independent professional engineer to justify the requested reduction.

(h) No use of public right-of-way. All stacking, maneuvering, parking, and loading for mechanized parking must be accomplished on private property.

(i) Access lane.

(1) An access lane no less than 20 feet in width must be provided outside each mechanized loading bay if the mechanized parking facility is not fully automated.

(2) An applicant seeking a reduction in the required width of an access lane from the building official shall provide the building official with a report by an independent professional engineer to justify the requested reduction.

(3) The building official may waive this requirement or reduce the width of an access lane required under this subsection if the building official determines that doing so will not create a traffic hazard or increase traffic congestion on adjacent or nearby streets.

(j) Required signs. A sign must be prominently displayed at all entrances of a mechanized parking facility. Each sign must:

(1) state the business hours of operation of the mechanized parking facility;

(2) have a phone number provided by the building official to be used for reporting violations of this division and any malfunctions of the mechanized parking facility;

(3) have the phone number of the licensee;

(4) have the issuance number of the license;

(5) have a phone number for 24-hour assistance;

(6) be constructed of weather resistant material;

(7) be no less than 30 inches wide and 24 inches long; and

(8) have clearly legible letters in a color that contrasts with the background material.

(k) Facade.

(1) These facade requirements apply to any portion of a building containing mechanized parking except when accessory to a single family or duplex use. If there is a conflict between the regulations within a zoning district that require concealment of parking structure facades, this subsection controls.
(2) An aboveground mechanized parking facility must be concealed by a facade that is:

(A) compatible in appearance with the facade of the main building it serves, or

(B) compatible in appearance with other buildings within a one block radius.

(3) The burden is on the property owner or applicant to supply proof of compatibility.

(4) Aperture area or articulation must be provided at a minimum of 20 percent and a maximum of 80 percent for any street facing facade.

(5) Articulation must be provided at least every 30 feet, measured horizontally and vertically.

(6) Except for pedestrian and vehicular entrances, the aperture area must be screened with an opaque or translucent material that may be permeable or impermeable. Screening materials for the aperture area may have no more than 36 square inches of transparent material in any given square foot of surface and may have no more than 25 percent transparency.

(7) The board of adjustment may grant a special exception to the standards in this subsection when, in the opinion of the board, the special exception will not adversely affect neighboring property. The alternative facade must provide adequate screening of equipment and structures and mitigate noise. (Ord. 29128)
§ 51A-4.401 Dallas Development Code: Ordinance No. 19455, as amended

provided on both streets. If access is prohibited on one frontage by plat or by the city, the following structures or portions of structures in the yard along that frontage are governed by the rear yard regulations in Section 51A-4.403:

(A) Swimming pools.
(B) Game courts.
(C) Fences.
(D) Garages.
(E) Accessory storage buildings.

(6) Except as provided in this paragraph, if a blockface is divided by two or more zoning districts, the front yard for the entire blockface must comply with the requirements of the district with the greatest front yard requirement.

(A) If the greatest front yard is in a district with only one or more of the following uses being conducted as a main use and having a minimum of 80 feet of frontage, the blockface terminates at the boundary of that use:

(i) Utility and public service uses listed in Section 51A-4.212.
(ii) A railroad right-of-way.
(iii) A cemetery or mausoleum.
(iv) Recreation uses listed in Section 51A-4.208.

(B) In this section BLOCKFACE means:

(i) the distance along one side of a street between the two nearest intersecting streets;
(ii) where a street deadends, the distance along one side of a street between the nearest intersecting street and the end of the deadend street; or
(iii) where a street centerline contains a change of direction greater than 45 degrees,

the distance along one side of a street between either the nearest intersecting street or the deadend and the point determining the angle of the change of direction.

(7) Reserved.

(8) The minimum front yard requirements in a planned development district are controlled by the planned development district regulations.

(9) In an A(A), multifamily, MH(A), office, retail, CS, LI, IR, IM, central area, mixed use, or multiple commercial district, the board of adjustment may allow a special exception from the front yard requirements of this section to permit the erection of a permanently constructed porte-cochere, covered walkway, or canopy if the structure is rectilinear in shape and does not exceed 25 feet in width at the building line, and if the board finds that the structure will not adversely affect neighboring property.

(b) Front yard provisions for residential districts.

(1) If a corner lot in a single family, duplex, or agricultural district has two street frontages of equal distance, one frontage is governed by the front yard regulations of this section, and the other frontage is governed by the side yard regulations in Section 51A-4.402. If the corner lot has two street frontages of unequal distance, the shorter frontage is governed by this section, and the longer frontage is governed by side yard regulations in Section 51A-4.402. Notwithstanding this provision, the continuity of the established setback along street frontage must be maintained.

(2) Reserved.

(3) If a TH or TH(A) district abuts another residential district in the same blockface and fronts on the same side of the street, the residential district with the greater front yard requirement determines the minimum front yard. The minimum front yard for the residential district with the greater front yard requirement must extend at least 150 feet into the TH or TH(A) district.

(4) through (7) Reserved.
§ 51A-4.401 Dallas Development Code: Ordinance No. 19455, as amended § 51A-4.402

(c) Special exception for carports.

(1) The board may grant a special exception to the minimum front yard requirements in this section for a carport for a single family or duplex use when, in the opinion of the board:

(A) there is no adequate vehicular access to an area behind the required front building line that would accommodate a parking space; and

(B) the carport will not have a detrimental impact on surrounding properties.

(2) In determining whether to grant this special exception, the board shall consider the following factors:

(A) Whether the requested special exception is compatible with the character of the neighborhood.

(B) Whether the value of surrounding properties will be adversely affected.

(C) The suitability of the size and location of the carport.

(D) The materials to be used in construction of the carport.

(3) Storage of items other than motor vehicles is prohibited in a carport for which a special exception has been granted under this subsection.

(d) Special exception for tree preservation.

(1) The board may grant a special exception to the minimum front yard requirements in this section to preserve an existing tree.

(2) In determining whether to grant this special exception, the board shall consider the following factors:

(A) Whether the requested special exception is compatible with the character of the neighborhood.

(B) Whether the value of surrounding properties will be adversely affected.

(C) Whether the tree is worthy of preservation.

(e) Schedule of minimum front yards.

(1) Except as provided in this section, a person shall not erect, alter, convert, or maintain a structure or part of a structure in violation of the minimum front yard requirements in the district regulations (Divisions 51A-4.100 et seq.). A schedule of minimum front yards is provided in Section 51A-4.410.

(Ord. Nos. 19455; 19786; 20236; 21186; 21290; 22053; 26531; 30895; 30932)

SEC. 51A-4.402. MINIMUM SIDE YARD.

(a) General provisions.

(1) Required side yards must be open and unobstructed except for fences and light poles 20 feet or less in height. Except as otherwise provided in this section, ordinary projections of window sills, belt courses, cornices, and other architectural features may not project more than 12 inches into the required side yard. A fireplace chimney may project up to two feet into the required side yard if its area of projection does not exceed 12 square feet. Roof eaves may project up to three feet into the required side yard. Balconies may not project into the required side yard.

(2) The side yard setback is measured from the side lot line of the building site, except when a front yard is treated as a side yard, the setback is measured from the lot line or the required right-of-way as determined by the thoroughfare plan for all thoroughfares, whichever creates the greater setback. On minor streets, the setback is measured from the lot line or the existing right-of-way, whichever creates the greater setback.

(A) When city council by ordinance establishes a specific right-of-way line for a street, the required setback is measured from that right-of-way line.
(3) Reserved.

(4) A unitary air conditioning unit may be located in the required side yard, but not nearer than three feet to the property line.

(5) The building official may approve a ramp that projects into the required side yard to allow a handicapped person access to an existing single family, duplex, or handicapped group dwelling unit use. The ramp must be constructed with minimal encroachment and must be constructed to the applicable accessibility standard as determined by the building official. Initial review of a complete permit application for a ramp must be completed in 10 days.

(b) Side yard provisions for residential districts.

(1) In a single family district, one required side yard may be reduced below the setback required in this section, if the other side yard is increased to at least double the side yard required in this section, subject to the following conditions:

(A) The minimum side yard between structures on contiguous lots must not be less than the minimum side yard required in this section.

(B) To reduce the required side yard, a subdivision plat must be approved by the commission and filed with the county clerk showing the location of all building lines, and showing the proposed distances between the building lines and property lines, streets lines and alley lines.

(C) A person may not erect an accessory structure except for a swimming pool and its appurtenances in the double side yard.

(2) Reserved.

(3) In a residential district, a person need not provide a side yard setback for a structure accessory to a residential use, including a generator, if the structure:

(A) does not exceed 15 feet in height; and

(B) is located in the rear 30 percent of the lot.

Note: This paragraph does not apply to a front yard governed by the side yard regulations in Section 51A-4.402 (such as a front yard treated as a side yard on a corner lot).

(4) through (6) Reserved.

(c) Special exception for carports.

(1) The board may grant a special exception to the minimum side yard requirements in this section for a carport for a single family or duplex use when, in the opinion of the board, the carport will not have a detrimental impact on surrounding properties.

(2) In determining whether to grant this special exception, the board shall consider the following factors:

(A) Whether the requested special exception is compatible with the character of the neighborhood.

(B) Whether the value of surrounding properties will be adversely affected.

(C) The suitability of the size and location of the carport.

(D) The materials to be used in construction of the carport.

(3) Storage of items other than motor vehicles is prohibited in a carport for which a special exception has been granted under this subsection.

(d) Special exception for tree preservation.

(1) The board may grant a special exception to the minimum side yard requirements in this section to preserve an existing tree.

(2) In determining whether to grant this special exception, the board shall consider the following factors:
(A) Whether the requested special exception is compatible with the character of the neighborhood.

(B) Whether the value of surrounding properties will be adversely affected.

(C) Whether the tree is worthy of preservation.

(e) Schedule of minimum side yards.

(1) Except as provided in this section, a person shall not erect, alter, convert, or maintain a structure or part of a structure in violation of the minimum side yard requirements in the district regulations (Divisions 51A-4.100 et seq.). A schedule of minimum side yards is provided in Section 51A-4.410.

(Ord. Nos. 19455; 20236; 21186; 22053; 30895)

SEC. 51A-4.403. MINIMUM REAR YARD.

(a) General provisions.

(1) Required rear yards must be open and unobstructed except for fences. Except as otherwise provided in this section, ordinary projections of window sills, belt courses, cornices, and other architectural features may not project more than 12 inches into the required rear yard. A fireplace chimney may project up to two feet into the required rear yard if its area of projection does not exceed 12 square feet. Roof eaves may project up to three feet into the required rear yard. Balconies may not project into the required rear yard.

(2) The rear yard setback is measured from the rear lot line of the building site.

(3) Reserved.

(4) The building official may approve a ramp that projects into the required rear yard to allow a handicapped person access to an existing single family, duplex, or handicapped group dwelling unit use. The ramp must be constructed with minimal encroachment and must be constructed to the applicable accessibility standard as determined by the building official. Initial review of a complete permit application for a ramp must be completed in 10 days.

(b) Rear yard provisions for residential districts.

(1) Reserved.

(2) In a residential district, a person need not provide a full rear yard setback for a structure accessory to a residential use, including a generator, if the structure does not exceed 15 feet in height. Where the rear yard is adjacent to an alley, a three-foot setback must be provided. Where the rear yard is not adjacent to an alley, no setback is required.

(c) Reserved.

(d) Special exception for tree preservation.

(1) The board may grant a special exception to the minimum rear yard requirements in this section to preserve an existing tree.

(2) In determining whether to grant this special exception, the board shall consider the following factors:

(A) Whether the requested special exception is compatible with the character of the neighborhood.

(B) Whether the value of surrounding properties will be adversely affected.

(C) Whether the tree is worthy of preservation.

(e) Schedule of minimum rear yards.

(1) Except as provided in this section, a person shall not erect, alter, convert, or maintain a structure or part of a structure in violation of the minimum rear yard requirements in the district regulations (Divisions 51A-4.100 et seq.). A schedule of minimum rear yards is provided in Section 51A-4.410.

(Ord. Nos. 19455; 20236; 20440; 22053; 30895)
§ 51A-4.404  MINIMUM LOT AREA FOR RESIDENTIAL USE.

(a) General provisions.

(1) A person shall not reduce a lot below the minimum area requirements of this section, unless:

(A) the lot is replatted for a community unit development; or

(B) the city or other governmental agency reduces the lot size by widening an abutting street. In this situation the minimum lot area is computed on the basis of the original lot size before the street widening.

(2) The area requirements in a planned development district are controlled by the planned development district regulations.

(b) Reserved.

(c) Schedule of minimum lot area for residential use.

(1) Except as otherwise provided in this section, a person shall not erect, alter, or convert any residential structure or part of a structure to have a smaller lot area than is allowed in the district regulations (Divisions 51A-4.100 et seq.). A schedule of minimum lot area for residential use is contained in Section 51A-4.410. (Ord. 19455)

§ 51A-4.405  MINIMUM LOT WIDTH FOR RESIDENTIAL USE.

(a) General provisions.

(1) A person may not reduce a lot below the minimum width requirements of this section, unless:

(A) the lot is platted for a community unit development; or

(B) the city or other governmental agency reduces the lot size by widening an abutting street. In this situation the minimum lot width is computed on the basis of the original lot size before widening.

(2) The area requirements in a planned development district are controlled by the planned development district regulations.

(b) Reserved.

(c) Schedule of minimum lot area for residential use.

(1) Except as otherwise provided in this section, a person shall not erect, alter, or convert any residential structure or part of a structure to have a smaller lot area than is allowed in the district regulations (Divisions 51A-4.100 et seq.). A schedule of minimum lot area for residential use is contained in Section 51A-4.410. (Ord. 19455)

§ 51A-4.406  MINIMUM LOT DEPTH FOR RESIDENTIAL USE.

(a) General provisions.

(1) A person may not reduce a lot below the minimum width requirements of this section, unless:

(A) the lot is platted for a community unit development; or

(B) the city or other governmental agency reduces the lot size by widening an abutting street. In this situation the minimum lot depth is computed on the basis of the original lot size before the street widening.

(2) The area requirements in a planned development district are controlled by the planned development district regulations.

(b) The minimum lot depth for residential use is 10 feet. (Ord. Nos. 19455; 24731)

§ 51A-4.407  MAXIMUM LOT COVERAGE.

(a) General provisions.

(1) In single family, duplex, townhouse, MF-1(A), MF-1(SAH), MF-2(A), MF-2(SAH), MF-3(A), MH(A), NO(A), and NS(A) districts, institutional buildings may cover a maximum of 60 percent of the lot.

(2) Reserved.
(3) The maximum lot coverage requirements in a planned development district are controlled by the planned development district regulations.

(4) Reserved.

(b) Reserved.

(c) Schedule of maximum lot coverage.

(1) Except as otherwise provided in this section, a person shall not erect, alter, or convert any structure or part of a structure to cover a greater percentage of a lot than is allowed in the district regulations (Divisions 51A-4.100 et seq.). A schedule of maximum lot coverage is contained in Section 51A-4.410. (Ord. 19455)

SEC. 51A-4.408. MAXIMUM BUILDING HEIGHT.

(a) Special height provisions.

(1) Structures for utility and public service uses and institutional uses may be erected to any height consistent with the Federal Aviation Administration airspace limitations, residential proximity slope height restrictions, and the building code. Exceptions:

(A) No portion of a structure that exceeds the maximum structure height specified in the district regulations (Divisions 51A-4.100 et seq.) may be located above a residential proximity slope. See Section 51A-4.412.

(B) Local utility transmission and distribution lines and supporting structures are exempt from residential proximity slope height restrictions.

(C) A mounted cellular antenna, as defined in Paragraph 51A-4.212(10.1), attached to a utility structure is exempt from residential proximity slope height restrictions if the utility structure is greater than 65 feet in height. For purposes of this subparagraph, a utility structure means an electrical transmission distribution tower, an elevated water storage tank, and any other structure operated by a municipality, a transit authority, or a certificated, franchised, or licensed utility company in connection with provision of the utility.

(D) A tower/antenna for cellular communication, as defined in Paragraph 51A-4.212(10.1), is exempt from residential proximity slope height restrictions if a specific use permit is required, or if a modification to an existing tower/antenna for cellular communication use is modified in a manner that does not substantially change the physical dimensions of the existing tower/antenna for cellular communication or its auxiliary building. A modification substantially changes the physical dimensions of an existing tower/antenna for cellular communication or its auxiliary building if it meets any of the criteria listed in 47 C.F.R. §1.40001(b)(7), as amended.

(2) In a district in which building height is limited to 36 feet or less, the following structures may project a maximum of 12 feet above the maximum structure height specified in the district regulations (Divisions 51A-4.100 et seq.):

(A) Structures on top of a building:

(i) Elevator penthouse or bulkhead.

(ii) Mechanical equipment room.

(iii) Cooling tower.

(iv) Tank designed to hold liquids.

(v) Ornamental cupola or dome.

(vi) Skylights.

(vii) Clerestory.

(viii) Visual screens which surround roof mounted mechanical equipment.

(ix) Chimney and vent stacks.

(x) Amateur communications tower.
(xi) Parapet wall, limited to a height of four feet.

(B) Structures at grade level:

(i) Amateur communications tower.

Note: The heights allowed in Subsection (a)(2) are subject to any residential proximity slope height restrictions that may be contained in the district regulations for a particular district. (See Divisions 51A-4.100 et seq.).

(3) The maximum building height requirements in a planned development district are controlled by the planned development district regulations.

(4) In single family, duplex, townhouse, MF-1(A), MF-1(SAH), MF-2(A), and MF-2(SAH) districts:

(A) no dormer eaves may project above the maximum structure height specified in the district regulations (Divisions 51A-4.100 et seq.); and

(B) the highest point of a structure with a gable, hip, gambrel, or dome roof may not project more than 12 feet above the maximum height specified in the district regulations (Divisions 51A-4.100 et seq.).

(b) 

(b) Schedule of maximum building heights. Except as otherwise provided in this section, a person shall not erect or alter any structure or part of a structure to exceed the maximum height standards in the district regulations (Divisions 51A-4.100 et seq.). A schedule of maximum building heights is contained in Section 51A-4.410. (Ord. Nos. 19455; 20361)

(c) FAA Height Restrictions. To protect navigable airspace, no structure shall be erected, altered, or maintained at a height in excess of limits established by Federal Aviation Administration regulations. (Ord. Nos. 19455; 20037; 21663; 22639; 24543; 26578; 28072; 29984)

SEC. 51A-4.409. MAXIMUM FLOOR AREA RATIO.

(a) General provisions.

(1) Reserved. (Repealed by Ord. 20361)

(2) A basement is not counted in the computation of floor area ratio.

(3) The maximum floor area ratio requirements in a planned development district are controlled by the planned development district regulations.

(4) through (7) Reserved.

(b) Schedule of maximum floor area ratio.

(1) Except as otherwise provided in this section, a person shall not erect or alter any structure or part of a structure to exceed the maximum floor area ratio in the district regulations (Divisions 51A-4.100 et seq.). A schedule of maximum floor area is contained in Section 51A-4.410. (Ord. Nos. 19455; 20361)

SEC. 51A-4.410. SCHEDULE OF YARD, LOT, AND SPACE REGULATIONS.

The following charts comprise the schedule of yard, lot, and space regulations for purposes of this division. In the event of a conflict between this schedule and the text of the district regulations (Divisions 51A-4.100 et seq.), the text of the district regulations controls. (Ord. 19455)

{Ch. 51A continues with yard, lot, and space charts beginning on page 371}
Dallas Development Code: Ordinance No. 19455, as amended

NOTE: The yard, lot, and space charts on the following pages have not been formally adopted by the city council; they are prepared by the city staff and are intended for use as a guide only. It is necessary to see the text of this chapter for specific regulations. In the event of a conflict between the yard, lot, and space charts and the text of this chapter, the text of this chapter controls.

§ 51A-4.411 Dallas Development Code: Ordinance No. 19455, as amended

SEC. 51A-4.411. SHARED ACCESS DEVELOPMENT.

(a) Purpose. Traditional single family lots front on a street and have a rectangular shape. New developments have been platted with a minimal frontage on a street, and have access to the street from a shared driveway. This section is designed to address the issues specific to these non-traditional lots.

(b) Definitions.

(1) SHARED ACCESS AREA means that portion of a shared access development that fronts on a public or private street and provides access to individual lots within the shared access development.

(2) SHARED ACCESS DEVELOPMENT means a development where one or more of the lots within the development do not front on a public or private street, where access to the lots within the development is provided via a shared access area and that meets all of the requirements of this section.

(3) SHARED ACCESS POINT means that portion of a shared access development where the shared access area provides vehicular access to a public or private street.

(c) Shared access development requirements.

(1) A shared access development is created by platting no less than three and no more than 36 individual lots. Adjacent shared access developments may not be connected or combined to exceed the 36 lot maximum.

(2) A shared access development must be restricted by plat to single family use.

(3) No building permit may be issued to authorize work in a shared access development until the plat and the shared access area agreement have been recorded in the real property records of the appropriate county, all requirements of the shared access area have been met, and the director has corrected the appropriate zoning map in the offices of the city secretary, the building official, and the department to reflect the restriction to single family use.

(4) A shared access development may not be platted as a community unit development (CUD).

(d) Shared access area requirements.

(1) Design and lighting of the shared access area must be approved by the director.

(2) Water and wastewater mains must be installed in accordance with applicable ordinances.

(3) Design and location of interior traffic control devices must be approved by the traffic engineer.

(4) The fire protection standards in the Dallas Fire Code must be followed.

(5) The geometrics of the shared access area must be designed to provide appropriate access for passenger, delivery, emergency, and maintenance vehicles and with a minimum height clearance of 18 feet above the surface of the shared access area.

(6) The shared access area must be shown on the plat of the shared access development.

(7) The shared access area must front on a public or private street (not an alley), have a minimum width of 20 feet, and have a minimum pavement width of 16 feet.

(8) If a guard house is provided, it must be at least 30 feet from the shared access point.

(9) If a shared access area entrance is closed at any time, it must be constructed to permit opening of the entrance in emergencies by boltcutters or breakaway panels.

(10) A shared access area may serve no more than 18 dwelling units per shared access point. No more than two shared access points may serve a shared access development.

(e) Written agreement requirements. A shared access development must be regulated by a written shared access agreement that:

(1) reflects adequate consideration;
§ 51A-4.411 Dallas Development Code: Ordinance No. 19455, as amended

(2) contains legal descriptions of the individual lots within the shared access development, and of the shared access area;

(3) is signed by all owners and lienholders of property in the shared access development and is binding on lienholders by a subordination clause;

(4) is approved by the building official;

(5) is approved as to form by the city attorney;

(6) creates a covenant running with the land (the document may be in any of several forms, including but not limited to, an access easement; a unity agreement; deed restrictions; or homeowners’ association’s covenants, conditions, and restrictions);

(7) provides that the owners of property in the shared access development are responsible for lighting, maintenance, and cleaning of the shared access area, and where appropriate, the installation and maintenance of interior traffic control devices;

(8) provides necessary easements in the shared access area for the benefit of the individual lots in the shared access development for utilities, storm water drainage, fire protection, lighting, traffic control, government and emergency vehicle access, mail service, meter-reading access, vehicular and pedestrian access, parking, and deliveries;

(9) gives the city the right, but not the obligation, to take any action needed to make necessary repairs or improvements within the shared access area, and to place a lien on all lots within the shared access development until the city has received full compensation for that action;

(10) provides that the owners of property in the shared access development agree to defend and indemnify the city, and to hold the city harmless from and against all claims or liabilities arising out of or in connection with the shared access development, shared access area, or shared access agreement;

(11) provides that it is governed by the laws of the State of Texas;

(12) provides that it may only be amended or terminated:

(A) with the consent of all the owners and lienholders of property in the shared access development; and

(B) after approval as to form by the city attorney, and approval by the director; and

(13) provides for the installation, maintenance, and repair of utilities, including electric, water, sewage, and communications located within the shared access area.

(f) Code compliance requirements.

(1) All code requirements must be met individually by each lot in the shared access development, unless otherwise specified in this subsection.

(2) The shared access development is treated as one lot for purposes of compliance with the front, side, and rear yard regulations, applicable landscape regulations, and any prohibition against parking in a front yard. For example, the front yard of the shared access development as a whole determines whether the front yard setback is in compliance with the zoning district regulations, and the individual lots within the shared access development are not individually required to meet front yard setback requirements.

(3) Each lot within the shared access development must meet the minimum lot area requirement for the zoning district in which it is located. In multifamily districts, the lot area of individual lots may be up to 20 percent less than the minimum lot area requirement if the average lot area of all lots within the shared access development equals or exceeds the minimum lot area requirement.

(4) In all districts other than multifamily districts, the shared access area may not be used to satisfy minimum lot area requirements or determine lot coverage.

(5) See Section 51A-10.125(a)(2) for landscape regulations applicable to shared access developments.
§ 51A-4.411 Dallas Development Code: Ordinance No. 19455, as amended

(g) **Guest parking requirements.** In addition to any parking spaces required for each dwelling unit, shared access developments must provide 0.25 unassigned spaces available for use by visitors and residents for each dwelling unit. Guest parking spaces must be located where they will not impede access from any other guest parking space or dwelling unit to the shared access point. (Ord. Nos. 24731; 25047; 26333; 28073)

SEC. 51A-4.412. RESIDENTIAL PROXIMITY SLOPE.

(a) **Definitions of general terms.** In this section:

(1) **PRIVATE PROPERTY** means any property not dedicated to public use, except that “private property” does not include the following:

(A) A private street or alley.

(B) Property on which a utility and public service use listed in Section 51A-4.212 is being conducted as a main use.

(C) A railroad right-of-way.

(D) A cemetery or mausoleum.

(2) **RESTRICTED BUILDING OR STRUCTURE** means the building or structure whose height is restricted by a residential proximity slope.

(3) **SITE OF ORIGINATION** means any private property in:

(A) an R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(A), MF-1(SAH), MF-2, MF-2(A), or MF-2(SAH) district; or

(B) an identifiable portion of a planned development or conservation district, which portion is restricted to residential uses not exceeding 36 feet in height. See the sections in this chapter governing planned development and conservation districts for specific guidance as to how to treat identifiable portions of those districts.

(b) **Residential proximity slope defined.** The residential proximity slope is a plane projected upward and outward from every site of origination as defined in Subsection (a). Specifically, the slope is projected from the line formed by the intersection of:

(1) the vertical plane extending through the boundary line of the site of origination; and

(2) the grade of the restricted building or structure.

(c) **Angle and extent of projection.** The angle and extent of projection of the residential proximity slope depends on the zoning category of the site of origination as follows:

<table>
<thead>
<tr>
<th>ZONING CATEGORY</th>
<th>ANGLE OF PROJECTION</th>
<th>EXTENT</th>
</tr>
</thead>
<tbody>
<tr>
<td>R, R(A), D, D(A), TH,</td>
<td>18.4° (1 to 3 slope)</td>
<td>Infinite.</td>
</tr>
<tr>
<td>and TH(A)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CH, MF-1, MF-1(A), MF-2</td>
<td>45° (1 to 1 slope)</td>
<td>Terminates at a horizontal distance of 50 feet from the site of origination.</td>
</tr>
<tr>
<td>and MF-2(A)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

(d) **Calculation of height restrictions.** The horizontal distances used to calculate the height restrictions imposed by the residential proximity slope may be determined by using the lot, block, and right-of-way dimensions as shown on the official plat or zoning maps of the city, or by scale measurement of the distances on such official maps. All dimensions and methodology used in determining the distance measurement are subject to the approval of the building official.

(e) **Exemption.** Certain structures are exempt from the residential proximity slope. See Section 51A-4.408. (Ord. Nos. 19455; 19786; 20308; 21663; 26578)
Division 51A-4.500. Overlay and Conservation District Regulations.

SEC. 51A-4.501. HISTORIC OVERLAY DISTRICT.

(a) Purpose. The purpose of this section is to promote the public health, safety and general welfare, and:

(1) to protect, enhance and perpetuate places and areas which represent distinctive and important elements of the city’s historical, cultural, social, economic, archeological, paleontological, ethnic, political and architectural history;

(2) to strengthen the economy of the city;

(3) to increase public knowledge and appreciation of the city’s historic past and unique sense of place;

(4) to foster civic and neighborhood pride and a sense of identity;

(5) to promote the enjoyment and use of historic resources by the people of the city;

(6) to preserve diverse architectural styles, patterns of development, and design preferences reflecting phases of the city’s history;

(7) to create a more livable urban environment;

(8) to enhance property values;

(9) to provide financial incentives for preservation;

(10) to protect and enhance the city’s attraction to tourists and visitors;

(11) to resolve conflicts between the preservation of historic resources and alternative land uses;

(12) to integrate historic preservation into public and private land use planning;

(13) to conserve valuable resources through use of the existing building environment;

(14) to stabilize neighborhoods;

(15) to increase public awareness of the benefits of historic preservation;

(16) to maintain a harmony between new and historic structures so that they will be compatible in scale, form, color, proportion, texture and material; and

(17) to encourage public participation in identifying and preserving historic resources.

(b) Establishment of historic overlay districts. A historic overlay district may be established to preserve places and areas of historical, cultural, or architectural importance and significance if the place or area has three or more of the following characteristics:

(1) History, heritage and culture: Represents the historical development, ethnic heritage or cultural characteristics of the city, state, or country.

(2) Historic event: Location as or association with the site of a significant historic event.

(3) Significant persons: Identification with a person or persons who significantly contributed to the culture and development of the city, state, or country.

(4) Architecture: Embodiment of distinguishing characteristics of an architectural style, landscape design, method of construction, exceptional craftsmanship, architectural innovation, or contains details which represent folk or ethnic art.

(5) Architect or master builder: Represents the work of an architect, designer or master builder whose individual work has influenced the development of the city, state, or country.

(6) Historic context: Relationship to other distinctive buildings, sites, or areas which are eligible for preservation based on historic, cultural, or architectural characteristics.

(7) Unique visual feature: Unique location of singular physical characteristics representing an
established and familiar visual feature of a neighborhood, community or the city that is a source of pride or cultural significance.

(8) Archaeological: Archaeological or paleontological value in that it has produced or can be expected to produce data affecting theories of historic or prehistoric interest.

(9) National and state recognition: Eligible for or designated as a National Historic Landmark, Recorded Texas Historic Landmark, State Archeological Landmark, American Civil Engineering Landmark, or eligible for inclusion in the National Register of Historic Places.

(10) Historic education: Represents an era of architectural, social, or economic history that allows an understanding of how the place or area was used by past generations.

(c) Historic designation procedure and predesignation moratorium.

(1) Purpose. Temporary preservation of the status quo upon initiation of the historic designation procedure is necessary to allow time to evaluate each proposed historic overlay district, to consider appropriate preservation criteria, and to prevent circumvention of the purposes of this section. Relief from the predesignation moratorium may be obtained by applying for a predesignation certificate of appropriateness or certificate for demolition or removal.

(2) Initiation of historic designation procedure. The procedure for adopting an ordinance to establish or amend a historic overlay district may be initiated by the city council, the city plan commission, the landmark commission, or by the owner(s) of the property. The director shall provide property owners with notice of a public hearing to initiate the historic designation procedure at least 10 days before the date set for the hearing using the procedure outlined in Section 51A-4.701(a)(1). No permits to alter or demolish the property may be issued after provision of this notice until action is taken at that hearing by the city council, city plan commission, or landmark commission. The historic designation procedure is considered to be initiated immediately when the city council, the city plan commission, or the landmark commission votes to initiate it or, in the case of initiation by the property owner(s), when the zoning change application is filed with the director.

(3) Appeal. If the historic designation procedure is initiated by the landmark commission or city plan commission, the property owner may appeal the initiation to the city council by filing a written notice with the director within 10 days after the action of the landmark commission or city plan commission. Within 180 days after the filing of the appeal, the director shall prepare, and the landmark commission shall adopt, a designation report and submit it to the city council. After submission of the designation report, the city council shall hold a public hearing on the appeal. The sole issue on appeal is whether the landmark commission or city plan commission erred in evaluating the significance of the property based on the characteristics listed in Section 51A-4.501(b). Appeal to the city council constitutes the final administrative remedy.

(4) Enforcement. Upon initiation of the historic designation procedure, the historic preservation officer shall immediately notify the building official. The building official shall not accept any application for a permit to alter, demolish, or remove the structure or site subject to the predesignation moratorium, unless a predesignation certificate of appropriateness or certificate for demolition or removal has been issued.

(5) Designation report. Upon initiation of the historic designation procedure, the historic preservation officer shall coordinate research to compile a written report regarding the historical, cultural, and architectural significance of the place or area proposed for historic designation. This report must include a statement on each of the following to the extent that they apply:

(A) A listing of the architectural, archaeological, paleontological, cultural, economic, social, ethnic, political, or historical characteristics upon which the nomination is based;

(B) A description of the historical, cultural, and architectural significance of the structures and site;

382 Dallas City Code
§ 51A-4.501 Dallas Development Code: Ordinance No. 19455, as amended

(C) A description of the boundaries of the proposed historic overlay district, including subareas and areas where new construction will be prohibited; and

(D) Proposed preservation criteria for the proposed historic overlay district.

(6) Termination of the predesignation moratorium. The predesignation moratorium ends on the earliest of the following dates:

(A) The day after the city council, city plan commission, or landmark commission that voted to initiate the historic designation procedure, votes to terminate the historic designation procedure.

(B) The day after the city council, in an appeal from an initiation by the city plan commission or landmark commission, votes to terminate the historic designation procedure.

(C) In the case of initiation by the property owner(s), the day after the zoning change application is withdrawn.

(D) If the proposed historic overlay district zoning change is approved, the effective date of the ordinance establishing the historic overlay district.

(E) If the proposed historic overlay district zoning change is denied, the day after either the city council makes its final decision denying the change or the expiration of the time period for appeal to the city council from a city plan commission recommendation of denial.

(F) Two years after the date the historic designation procedure was initiated, regardless of who initiated the procedure.

(d) Predesignation certificate of appropriateness.

(1) When required. A person shall not alter a site, or alter, place, construct, maintain, or expand any structure on the site during the predesignation moratorium without first obtaining a predesignation certificate of appropriateness in accordance with this subsection.

(2) Penalty. A person who violates this subsection is guilty of a separate offense for each day or portion of a day during which the violation is continued, from the first day the unlawful act was committed until either a predesignation certificate of appropriateness is obtained or the property is restored to the condition it was in immediately prior to the violation.

(3) Application. An application for a predesignation certificate of appropriateness must be submitted to the director. The application must include complete documentation of the proposed work. Within 10 days after submission of an application, the director shall notify the applicant in writing of any additional documentation required. No application shall be deemed to be filed until it is made on forms promulgated by the director and contains all required supporting plans, designs, photographs, reports, and other exhibits required by the director. The applicant may consult with the department before and after the submission of an application.

(4) Predesignation certificate of appropriateness review procedure. Upon receipt of an application for a predesignation certificate of appropriateness, the director shall determine whether the structure is contributing or noncontributing. Within 40 days after a complete application is filed for a noncontributing structure, the landmark commission shall hold a public hearing and shall approve, deny with prejudice, or deny without prejudice the application and forward its decision to the director. Within 65 days after a complete application is filed for a contributing structure, the landmark commission shall hold a public hearing and shall approve, deny with prejudice, or deny without prejudice the application and forward its decision to the director. The landmark commission may impose conditions on the predesignation certificate of appropriateness. The applicant has the burden of proof to establish the necessary facts to warrant favorable action. The director shall immediately notify the applicant of the landmark commission’s action. The landmark commission’s decision must be in writing and, if the decision is to deny the predesignation certificate of appropriateness, with or without prejudice, the writing must state the reasons why the predesignation certificate of appropriateness is denied.
(5) **Standard for approval.** The landmark commission must approve the application if it determines that:

(A) for contributing structures, the application will not adversely affect the character of the site or a structure on the site; and the proposed work is consistent with the regulations contained in this section and the proposed preservation criteria; or

(B) for noncontributing structures, the proposed work is compatible with the historic overlay district.

(6) **Issuance.** If a predesignation certificate of appropriateness has been approved by the landmark commission or if final action has not been taken by the landmark commission within 40 days (for a noncontributing structure) or 65 days (for a contributing structure) after a complete application is filed:

(A) the director shall issue the predesignation certificate of appropriateness to the applicant; and

(B) if all requirements of the development and building codes are met and a building permit is required for the proposed work, the building official shall issue a building permit to the applicant for the proposed work.

(7) **Appeal.** If a predesignation certificate of appropriateness is denied, the chair of the landmark commission shall verbally inform the applicant of the right to appeal to the city plan commission. If the applicant is not present at the hearing, the director shall inform the applicant of the right to appeal in writing within 10 days after the hearing. The applicant may appeal the denial to the city plan commission by filing a written notice with the director within 30 days after the date of the decision of the landmark commission. The director shall forward to the city plan commission a complete record of the matter being appealed, including a transcript of the tape of the hearing before the landmark commission. In considering an appeal, the city plan commission shall review the landmark commission record and hear and consider arguments from the appellant and the representative for the landmark commission. The city plan commission may only hear new testimony or consider new evidence that was not presented at the time of the hearing before the landmark commission to determine whether that testimony or evidence was available at the landmark commission hearing. If the city plan commission determines that new testimony or evidence exists that was not available at the landmark commission hearing, the city plan commission shall remand the case back to the landmark commission in accordance with Subsection (o). In reviewing the landmark commission decision the city plan commission shall use the substantial evidence standard in Subsection (o). The city plan commission may reverse or affirm, in whole or in part, modify the decision of the landmark commission, or remand any case back to the landmark commission for further proceedings. Appeal to the city plan commission constitutes the final administrative remedy.

(8) **Reapplication.** If a final decision is reached denying a predesignation certificate of appropriateness, no further applications may be considered for the subject matter of the denied predesignation certificate of appropriateness unless the predesignation certificate of appropriateness has been denied without prejudice or the landmark commission finds that there are changed circumstances sufficient to warrant a new hearing. A simple majority vote by the landmark commission is required to grant the request for a new hearing.

(9) **Suspension of work.** After the work authorized by the predesignation certificate of appropriateness is commenced, the applicant must make continuous progress toward completion of the work, and the applicant shall not suspend or abandon the work for a period in excess of 180 days. The director may, in writing, authorize a suspension of the work for a period greater than 180 days upon written request by the applicant showing circumstances beyond the control of the applicant.

(10) **Revocation.** The director may, in writing, revoke a predesignation certificate of appropriateness if:

(A) the predesignation certificate of appropriateness was issued on the basis of incorrect information supplied;
(B) the predesignation certificate of appropriateness was issued in violation of the regulations contained in this section, the proposed preservation criteria, or the development code or building codes; or

(C) the work is not performed in accordance with the predesignation certificate of appropriateness, the development code, or building codes.

(11) Amendments to a predesignation certificate of appropriateness. A predesignation certificate of appropriateness may be amended by submitting an application for amendment to the director. The application shall then be subject to the standard predesignation certificate of appropriateness review procedure.

(12) Effect of approval of the historic overlay district. A predesignation certificate of appropriateness will be treated as a certificate of appropriateness after the effective date of the ordinance implementing the historic overlay district.

(e) Additional uses and regulations.

(1) A historic overlay district is a zoning overlay which supplements the primary underlying zoning district classification. A historic overlay district is subject to the regulations of the underlying zoning district, except the ordinance establishing the historic overlay district may permit additional uses and provide additional regulations for the historic overlay district.

(2) If there is a conflict, the regulations contained in the historic overlay district ordinance control over the regulations of the underlying zoning district. If there is a conflict, the regulations contained in the historic overlay district ordinance control over the regulations of this section.

(3) The historic overlay district ordinance may include preservation criteria for the interior of historic structures if the interior is customarily open and accessible to the public and the interior has extraordinary architectural, archaeological, cultural, economic, social, ethnic, political or historical value. Unless there are specific provisions for the interior, the preservation criteria in the historic overlay district ordinance and the Secretary of the Interior’s Standards for the Rehabilitation of Historic Properties apply only to the exterior of structures within a historic overlay district.

(4) The landmark commission shall consider the Secretary of the Interior’s Standards for the Rehabilitation of Historic Properties (“the Standards”), as amended, when reviewing applications for predesignation and standard certificates of appropriateness. Rehabilitation is defined as the act or process of making possible a compatible use for a property through repair, alterations, and additions while preserving those portions or features which convey its historical, cultural, or architectural values. The Standards are common sense principles in non-technical language developed to help promote consistent rehabilitation practices. It should be understood that the Standards are a series of concepts about maintaining, repairing, and replacing historic materials, as well as designing new additions or making alterations; as such, they cannot, in and of themselves, be used to make essential decisions about which features of a historic property should be saved and which might be changed. The director shall make the current Standards available for public inspection at all times. For informational purposes, the Standards published at Section 68.3 of Title 36 of the Code of Federal Regulations (current through January 1, 2001) are set forth below:

(A) A property will be used as it was historically or be given a new use that requires minimal changes to its distinctive materials, features, spaces and spatial relationships.

(B) The historic character of a property will be retained and preserved. The removal of distinctive materials or alteration of features, spaces, and spatial relationships that characterize a property will be avoided.

(C) Each property will be recognized as a physical record of its time, place and use. Changes that create a false sense of historical development, such as adding conjectural features or elements from other historic properties, will not be undertaken.
(D) Changes to a property that have acquired historic significance in their own right will be retained and preserved.

(E) Distinctive materials, features, finishes, and construction techniques or examples of craftsmanship that characterize a property will be preserved.

(F) Deteriorated historic features will be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature will match the old in design, color, texture, and, where possible, materials. Replacement of missing features will be substantiated by documentary and physical evidence.

(G) Chemical or physical treatments, if appropriate, will be undertaken using the gentlest means possible. Treatments that cause damage to historic materials will not be used.

(H) Archeological resources will be protected and preserved in place. If such resources must be disturbed, mitigation measures will be undertaken.

(I) New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work will be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and its environment.

(J) New additions and adjacent or related new construction will be undertaken in such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

(f) Notice of designation.

(1) Upon passage of a historic overlay district ordinance, the director shall send a notice to the owner or owners of property within the historic overlay district stating the effect of the designation, the regulations governing the historic overlay district, and the historic preservation incentives that may be available.

(2) Upon passage of a historic overlay district ordinance, the director shall file a copy of the ordinance in the county deed records to give notice of the historic regulations. Pursuant to Texas Local Government Code Section 315.006, the director shall also file in the county deed records a verified written instrument listing each historic structure or property by the street address, if available, the legal description of the real property, and the name of the owner, if available.

(3) The director may erect suitable plaques appropriately identifying each historic overlay district.

(g) Certificate of appropriateness.

(1) When required. A person shall not alter a site within a historic overlay district, or alter, place, construct, maintain, or expand any structure on the site without first obtaining a certificate of appropriateness in accordance with this subsection and the regulations and preservation criteria contained and in the historic overlay district ordinance.

(2) Penalty. A person who violates this subsection is guilty of a separate offense for each day or portion of a day during which the violation is continued, from the first day the unlawful act was committed until either a certificate of appropriateness is obtained or the property is restored to the condition it was in immediately prior to the violation.

(3) Application. An application for a certificate of appropriateness must be submitted to the director. The application must include complete documentation of the proposed work. Within 10 days after submission of an application, the director shall notify the applicant in writing of any additional documentation required. No application shall be deemed to be filed until it is made on forms promulgated by the director and contains all required supporting plans, designs, photographs, reports, and other exhibits required by the director. The applicant may consult with the department before and after the submission of an application.
§ 51A-4.501 Dallas Development Code: Ordinance No. 19455, as amended

(4) Director's determination of procedure. Upon receipt of an application for a certificate of appropriateness, the director shall determine whether the application is to be reviewed under the routine work review procedure or the standard certificate of appropriateness review procedure.

(5) Routine maintenance work review procedure.

(A) If the director determines that the applicant is seeking a certificate of appropriateness to authorize only routine maintenance work, he may review the application to determine whether the proposed work complies with the regulations contained in this section and the preservation criteria contained in the historic overlay district ordinance and approve or deny the application within 20 days after a complete application is filed. The applicant must supply complete documentation of the work. Upon request, staff will forward copies of applications to the task force. The director may forward any application to the landmark commission for review.

(B) Routine maintenance work includes:

(i) the installation of a chimney located on an accessory building, or on the rear 50 percent of a main building and not part of the corner side facade;

(ii) the installation of an awning located on an accessory building, or on the rear facade of a main building;

(iii) the replacement of a roof of the same or an original material that does not include a change in color;

(iv) the installation of a wood or chain link fence that is not painted or stained;

(v) the installation of gutters and downspouts of a color that matches or complements the dominant trim or roof color;

(vi) the installation of skylights and solar panels;

(vii) the installation of storm windows and doors;

(viii) the installation of window and door screens;

(ix) the application of paint that is the same as the existing or that is an appropriate dominant, trim, or accent color;

(x) the restoration of original architectural elements;

(xi) minor repair using the same material and design as the original;

(xii) repair of sidewalks and driveways using the same type and color of materials;

(xiii) the process of cleaning (including but not limited to low-pressure water blasting and stripping), but excluding sandblasting and high-pressure water blasting; and

(xiv) painting, replacing, duplicating, or stabilizing deteriorated or damaged architectural features (including but not limited to roofing, windows, columns, and siding) in order to maintain the structure and to slow deterioration.

(C) The applicant may appeal the director's decision by submitting to the director a written request for appeal within 10 days of the decision. The written request for appeal starts the standard certificate of appropriateness review procedure by the landmark commission.

(6) Standard certificate of appropriateness review procedure.

(A) If the director determines that the applicant is seeking a certificate of appropriateness to authorize work that is not routine maintenance work, or if the director's decision concerning a certificate of appropriateness to authorize only routine maintenance work is appealed, the director shall immediately forward the application to the landmark commission for review.
(B) Upon receipt of an application for a certificate of appropriateness, the director shall determine whether the structure is contributing or noncontributing. Within 40 days after a complete application is filed for a noncontributing structure, the landmark commission shall hold a public hearing and shall approve, deny with prejudice, or deny without prejudice the application and forward its decision to the director. Within 65 days after a complete application is filed for a contributing structure, the landmark commission shall hold a public hearing and shall approve, deny with prejudice, or deny without prejudice the certificate of appropriateness and forward its decision to the director. The landmark commission may approve a certificate of appropriateness for work that does not strictly comply with the preservation criteria upon a finding that the proposed work is historically accurate and is consistent with the spirit and intent of the preservation criteria and that the proposed work will not adversely affect the historic character of the property or the integrity of the historic overlay district. The landmark commission may impose conditions on the certificate of appropriateness. The applicant has the burden of proof to establish the necessary facts to warrant favorable action. The director shall immediately notify the applicant of the landmark commission’s action. The landmark commission’s decision must be in writing and, if the decision is to deny the certificate of appropriateness, with or without prejudice, the writing must state the reasons why the certificate of appropriateness is denied.

(C) **Standard for approval.** The landmark commission must grant the application if it determines that:

(i) for contributing structures:

(aa) the proposed work is consistent with the regulations contained in this section and the preservation criteria contained in the historic overlay district ordinance;

(bb) the proposed work will not have an adverse effect on the architectural features of the structure;

(cc) the proposed work will not have an adverse effect on the historic overlay district; and

(dd) the proposed work will not have an adverse effect on the future preservation, maintenance and use of the structure or the historic overlay district.

(ii) for noncontributing structures, the proposed work is compatible with the historic overlay district.

(D) **Issuance.** If a certificate of appropriateness has been approved by the landmark commission or if final action has not been taken by the landmark commission within 40 days (for a noncontributing structure) or 65 days (for a contributing structure) after a complete application is filed:

(i) the director shall issue the certificate of appropriateness to the applicant; and

(ii) if all requirements of the development and building codes are met and a building permit is required for the proposed work, the building official shall issue a building permit to the applicant for the proposed work.

(E) **Appeal.** If a certificate of appropriateness is denied, the chair of the landmark commission shall verbally inform the applicant of the right to appeal to the city plan commission. If the applicant is not present at the hearing, the director shall inform the applicant of the right to appeal in writing within 10 days after the hearing. The applicant may appeal the denial to the city plan commission by filing a written notice with the director within 30 days after the date of the decision of the landmark commission. The director shall forward to the city plan commission a complete record of the matter being appealed, including a transcript of the tape of the hearing before the landmark commission. In considering an appeal, the city plan commission shall review the landmark commission record and hear and consider arguments from the appellant and the representative for the landmark commission. The city plan commission may only hear new testimony or consider new evidence that was not presented at the time of the hearing before the landmark commission to determine whether that testimony or evidence was available at the landmark commission hearing. If the city plan commission determines that new testimony
§ 51A-4.501 Dallas Development Code: Ordinance No. 19455, as amended

or evidence exists that was not available at the landmark commission hearing, the city plan commission shall remand the case back to the landmark commission in accordance with Subsection (o). In reviewing the landmark commission decision the city plan commission shall use the substantial evidence standard in Subsection (o). The city plan commission may reverse or affirm, in whole or in part, modify the decision of the landmark commission, or remand any case back to the landmark commission for further proceedings. Appeal to the city plan commission constitutes the final administrative remedy.

(F) Reapplication. If a final decision is reached denying a certificate of appropriateness, no further applications may be considered for the subject matter of the denied certificate of appropriateness for one year from the date of the final decision unless:

(i) the certificate of appropriateness has been denied without prejudice; or

(ii) the landmark commission waives the time limitation because the landmark commission finds that there are changed circumstances sufficient to warrant a new hearing. A simple majority vote by the landmark commission is required to grant the request for waiver of the time limitation.

(G) Suspension of work. After the work authorized by the certificate of appropriateness is commenced, the applicant must make continuous progress toward completion of the work, and the applicant shall not suspend or abandon the work for a period in excess of 180 days. The director may, in writing, authorize a suspension of the work for a period greater than 180 days upon written request by the applicant showing circumstances beyond the control of the applicant.

(H) Revocation. The director may, in writing, revoke a certificate of appropriateness if:

(i) the certificate of appropriateness was issued on the basis of incorrect information supplied;

(ii) the certificate of appropriateness was issued in violation of the regulations contained in the historic overlay district ordinance, the development code, or building codes; or

(iii) the work is not performed in accordance with the certificate of appropriateness, the development code, or building codes.

(I) Amendments to a certificate of appropriateness. A certificate of appropriateness may be amended by submitting an application for amendment to the director. The application shall then be subject to the standard certificate of appropriateness review procedure.

(8) Emergency procedure. If a structure on a property subject to the predesignation moratorium or a structure in a historic overlay district is damaged and the building official determines that the structure is a public safety hazard or will suffer additional damage without immediate repair, the building official may allow the property owner to temporarily protect the structure. In such a case, the property owner shall apply for a predesignation certificate of appropriateness, certificate of appropriateness, or certificate for demolition or removal within 10 days of the occurrence which caused the damage. The protection authorized under this subsection must not permanently alter the architectural features of the structure.

(h) Certificate for demolition or removal.

(1) Findings and purpose. Demolition or removal of a historic structure constitutes an irreplaceable loss to the quality and character of the city. Therefore, demolition or removal of historic structures should be allowed only for the reasons described in this subsection.

(2) Application. A property owner seeking demolition or removal of a structure on a property subject to the predesignation moratorium or a structure in a historic overlay district must submit a complete application for a certificate for demolition or removal to the landmark commission. Within 10 days after submission of an application, the director shall notify the applicant in writing of any additional documentation required. The application must be accompanied by the following documentation before it will be considered complete:
§ 51A-4.501 Dallas Development Code: Ordinance No. 19455, as amended

(A) An affidavit in which the owner swears or affirms that all information submitted in the application is true and correct.

(B) An indication that the demolition or removal is sought for one or more of the following reasons:

(i) To replace the structure with a new structure that is more appropriate and compatible with the historic overlay district.

(ii) No economically viable use of the property exists.

(iii) The structure poses an imminent threat to public health or safety.

(iv) The structure is non-contributing to the historic overlay district because it is newer than the period of historic significance.

(C) For an application to replace the structure with a new structure that is more appropriate and compatible with the historic overlay district:

(i) Records depicting the original construction of the structure, including drawings, pictures, or written descriptions.

(ii) Records depicting the current condition of the structure, including drawings, pictures, or written descriptions.

(iii) Any conditions proposed to be placed voluntarily on the new structure that would mitigate the loss of the structure.

(iv) Complete architectural drawings of the new structure.

(v) A guarantee agreement between the owner and the city that demonstrates the owner’s intent and financial ability to construct the new structure. The guarantee agreement must:

   (aa) contain a covenant to construct the proposed structure by a specific date in accordance with architectural drawings approved by the city through the predesignation certificate of appropriateness process or the certificate of appropriateness process;

   (bb) require the owner or construction contractor to post a performance and payment bond, letter of credit, escrow agreement, cash deposit, or other arrangement acceptable to the director to ensure construction of the new structure; and

   (cc) be approved as to form by the city attorney.

(D) For an application of no economically viable use of the property:

(i) The past and current uses of the structure and property.

(ii) The name of the owner.

(iii) If the owner is a legal entity, the type of entity and states in which it is registered.

(iv) The date and price of purchase or other acquisition of the structure and property, and the party from whom acquired, and the owner’s current basis in the property.

(v) The relationship, if any, between the owner and the party from whom the structure and property were acquired. (If one or both parties to the transaction were legal entities, any relationships between the officers and the board of directors of the entities must be specified.)

(vi) The assessed value of the structure and property according to the two most recent tax assessments.

(vii) The amount of real estate taxes on the structure and property for the previous two years.

(viii) The current fair market value of the structure and property as determined by an independent licensed appraiser.

(ix) All appraisals obtained by the owner and prospective purchasers within the previous two years in connection with the potential or actual appraisal value of the structure and property.
§ 51A-4.501 Dallas Development Code: Ordinance No. 19455, as amended

Purchase, financing, or ownership of the structure and property.

(x) All listings of the structure and property for sale or rent within the previous two years, prices asked, and offers received.

(xi) A profit and loss statement for the property and structure containing the annual gross income for the previous two years; itemized expenses (including operating and maintenance costs) for the previous two years, including proof that adequate and competent management procedures were followed; the annual cash flow for the previous two years; and proof that the owner has made reasonable efforts to obtain a reasonable rate of return on the owner’s investment and labor.

(xii) A mortgage history of the property during the previous five years, including the principal balances and interest rates on the mortgages and the annual debt services on the structure and property.

(xiii) All capital expenditures during the current ownership.

(xiv) Records depicting the current conditions of the structure and property, including drawings, pictures, or written descriptions.

(xv) A study of restoration of the structure or property, performed by a licensed architect, engineer or financial analyst, analyzing the physical feasibility (including architectural and engineering analyses) and financial feasibility (including pro forma profit and loss statements for a ten year period, taking into consideration redevelopment options and all incentives available) of adaptive use of restoration of the structure and property.

(xvi) Any consideration given by the owner to profitable adaptive uses for the structure and property.

(xvii) Construction plans for any proposed development or adaptive reuse, including site plans, floor plans, and elevations.

(xviii) Any conditions proposed to be placed voluntarily on new development that would mitigate the loss of the structure.

(xix) Any other evidence that shows that the affirmative obligation to maintain the structure or property makes it impossible to realize a reasonable rate of return.

(E) For an application to demolish or remove a structure that poses an imminent threat to public health or safety:

(i) Records depicting the current condition of the structure, including drawings, pictures, or written descriptions.

(ii) A study regarding the nature, imminence, and severity of the threat, as performed by a licensed architect or engineer.

(iii) A study regarding both the cost of restoration of the structure and the feasibility (including architectural and engineering analyses) of restoration of the structure, as performed by a licensed architect or engineer.

(F) For an application to demolish or remove a structure that is noncontributing to the historic overlay district because the structure is newer than the period of historic significance:

(i) Documentation that the structure is noncontributing to the historic overlay district.

(ii) Documentation of the age of the structure.

(iii) A statement of the purpose of the demolition.

(G) Any other evidence the property owner wishes to submit in support of the application.

(H) Any other evidence requested by the landmark commission or the historic preservation officer.
§ 51A-4.501 Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.501

(3) Certificate of demolition or removal review procedure.

(A) Economic review panel. For an application of no economically viable use of the property, the landmark commission shall cause to be established an ad hoc three-person economic review panel. The economic review panel must be comprised of three independent experts knowledgeable in the economics of real estate, renovation, and redevelopment. “Independent” as used in this subparagraph means that the expert has no financial interest in the property, its renovation, or redevelopment; is not an employee of the property owner; is not a city employee; is not a member of the landmark commission; and is not compensated for serving on the economic review panel. The economic review panel must consist of one person selected by the landmark commission, one person selected by the property owner, and one person selected by the first two appointees. If the first two appointees cannot agree on a third appointee within 30 days after submission of the documentation supporting the application, the third appointee will be selected by the director within 5 days. Within 35 days after submission of the documentation supporting the application, all appointments to the economic review panel shall be made. Within 35 days after appointment, the economic review panel shall review the submitted documentation; hold a public hearing; consider all options for renovation, adaptive reuse, and redevelopment; and forward a written recommendation to the landmark commission. The historic preservation officer shall provide administrative support to the economic review panel. The economic review panel’s recommendation must be based on the same standard for approval to be used by the landmark commission. An application of no economically viable use will not be considered complete until the economic review panel has made its recommendation to the landmark commission. If the economic review panel is unable to reach a consensus, the report will indicate the majority and minority recommendations.

(B) Within 65 days after submission of a complete application, the landmark commission shall hold a public hearing and shall approve or deny the application. If the landmark commission does not make a final decision within that time, the building official shall issue a permit to allow the requested demolition or removal. The property owner has the burden of proof to establish by clear and convincing evidence the necessary facts to warrant favorable action by the landmark commission.

(4) Standard for approval. The landmark commission shall deny the application unless it makes the following findings:

(A) The landmark commission must deny an application to replace a structure with a new structure unless it finds that:

(i) the new structure is more appropriate and compatible with the historic overlay district than the structure to be demolished or removed; and

(ii) the owner has the financial ability and intent to build the new structure. The landmark commission must first approve the predesignation certificate of appropriateness or certificate of appropriateness for the proposed new structure and the guarantee agreement to construct the new structure before it may consider the application to demolish or remove.

(B) The landmark commission must deny an application of no economically viable use of the property unless it finds that:

(i) the structure is incapable of earning a reasonable economic return unless the demolition or removal is allowed (a reasonable economic return does not have to be the most profitable return possible);

(ii) the structure cannot be adapted for any other use, whether by the owner or by a purchaser, which would result in a reasonable economic return; and

(iii) the owner has failed during the last two years to find a developer, financier, purchaser, or tenant that would enable the owner to realize a reasonable economic return, despite having made substantial ongoing efforts to do so.

(C) The landmark commission must deny an application to demolish or remove a structure
that poses an imminent threat to public health or safety unless it finds that:

(i) the structure constitutes a documented major and imminent threat to public health and safety;

(ii) the demolition or removal is required to alleviate the threat to public health and safety; and

(iii) there is no reasonable way, other than demolition or removal, to eliminate the threat in a timely manner.

(D) The landmark commission must deny an application to demolish or remove a structure that is noncontributing to the historic overlay district because it is newer than the period of historic significance unless it finds that:

(i) the structure is non-contributing to the historic overlay district;

(ii) the structure is newer than the period of historic significance for the historic overlay district; and

(iii) demolition of the structure will not adversely affect the historic character of the property or the integrity of the historic overlay district.

(5) Appeal. The chair of the landmark commission shall give verbal notice of the right to appeal at the time a decision on the application is made. If the applicant is not present at the hearing, the director shall inform the applicant of the right to appeal in writing within 10 days after the hearing. Any interested person may appeal the decision of the landmark commission to the city plan commission by filing a written notice with the director within 30 days after the date of the decision of the landmark commission. If no appeal is made of a decision to approve the certificate for demolition or removal within the 30-day period, the building official shall issue the permit to allow demolition or removal. If an appeal is filed, the city plan commission shall hear and decide the appeal within 65 days after the date of its filing. The director shall forward to the city plan commission a complete record of the matter being appealed, including a transcript of the tape of the hearing before the landmark commission. In considering an appeal, the city plan commission shall review the landmark commission record and hear and consider arguments from the appellant and the representative for the landmark commission. The city plan commission may only hear new testimony or consider new evidence that was not presented at the time of the hearing before the landmark commission to determine whether that testimony or evidence was available at the landmark commission hearing. If the city plan commission determines that new testimony or evidence exists that was not available at the landmark commission hearing, the city plan commission shall remand the case back to the landmark commission in accordance with Subsection (o). In reviewing the landmark commission decision the city plan commission shall use the substantial evidence standard in Subsection (o). The city plan commission may reverse or affirm, in whole or in part, modify the decision of the landmark commission, or remand any case back to the landmark commission for further proceedings. Appeal to the city plan commission constitutes the final administrative remedy.

(6) Reapplication. If a final decision is reached denying a certificate for demolition or removal, no further applications may be considered for the subject matter of the denied certificate for demolition or removal for one year from the date of the final decision unless:

(A) the certificate for demolition or removal has been denied without prejudice; or

(B) the landmark commission waives the time limitation because the landmark commission finds that there are changed circumstances sufficient to warrant a new hearing. A simple majority vote by the landmark commission is required to grant the request for waiver of the time limitation.

(7) Expiration. A certificate for demolition or removal expires if the work authorized by the certificate for demolition or removal is not commenced within 180 days from the date of the certificate for demolition or removal. The director may extend the time for commencement of work upon written request by the applicant showing circumstances beyond the control of the applicant. If the certificate for demolition
or removal expires, a new certificate for demolition or removal must first be obtained before the work can be commenced.

(i) Certificate for demolition for a residential structure with no more than 3,000 square feet of floor area pursuant to court order.

(1) Findings and purpose. Demolition of a historic structure constitutes an irreplaceable loss to the quality and character of the city. Elimination of substandard structures that have been declared urban nuisances and ordered demolished pursuant to court order is necessary to prevent blight and safeguard the public health, safety, and welfare. Therefore, the procedures in this subsection seek to preserve historic structures while eliminating urban nuisances.

(2) Notice to landmark commission by email. A requirement of this subsection that the landmark commission be provided written notice of a matter is satisfied if an email containing the required information is sent to every member of the landmark commission who has provided an email address to the director.

(3) Referral of demolition request to landmark commission and director. When a city department requests the city attorney’s office to seek an order from a court or other tribunal requiring demolition of a residential structure with no more than 3,000 square feet of floor area on a property subject to a predesignation moratorium or in a historic overlay district, that department shall provide written notice to the landmark commission and director of that request within two business days after the date it makes the request. The notice must include a photograph of the structure, the address of the property, and (if known) the name, address, and telephone number of the property owner. If the city attorney’s office determines that the department did not provide the required notice, the city attorney’s office shall provide that notice within two business days after the date it determines that the department did not provide the notice.

(4) Notice of court proceedings to landmark commission and director. The city attorney’s office shall provide written notice to the landmark commission and director at least 10 days before any hearing before a court or other tribunal where the city attorney’s office seeks an order requiring demolition of a residential structure with no more than 3,000 square feet of floor area subject to a predesignation moratorium or in a historic overlay district. If a court or other tribunal orders demolition of the structure subject to a predesignation moratorium or in a historic overlay district, the city attorney’s office shall provide written notice to the landmark commission and director within five days after the order is signed and provided to the city attorney’s office.

(5) Application. If the city or a property owner seeks demolition of a residential structure with no more than 3,000 square feet of floor area subject to a predesignation moratorium or in a historic overlay district pursuant to an order from a court or other tribunal requiring demolition obtained by the city, a complete application for a certificate for demolition must be submitted to the landmark commission. Within 10 days after submission of an application, the director shall notify the city’s representative or the property owner in writing of any documentation required but not submitted. The application must be accompanied by the following documentation before it will be considered complete:

(A) An affidavit in which the city representative or the property owner affirms that all information submitted in the application is correct.

(B) Records depicting the current condition of the structure, including drawings, pictures, or written descriptions, and including Historic American Buildings Survey or Historic American Engineering Records documentation if required by law or agreement.

(C) A signed order from a court or other tribunal requiring the demolition of the structure in a proceeding brought pursuant to Texas Local Government Code Chapters 54 or 214, as amended.

(D) A copy of a written notice of intent to apply for a certificate for demolition that was submitted to the director and the landmark commission at least 30 days before the application.

(E) Any other evidence the city representative or property owner wishes to submit in support of the application.
§ 51A-4.501 Dallas Development Code: Ordinance No. 19455, as amended

(6) Hearing. Within 40 days after submission of a complete application, the landmark commission shall hold a public hearing to determine whether the structure should be demolished. If the landmark commission does not make a final decision on the application or suspend the granting of the certificate of demolition pursuant to this subsection within that time, the building official shall issue a demolition permit to allow the demolition. The city representative or the property owner has the burden of proof to establish by a preponderance of the evidence the necessary facts to warrant favorable action by the landmark commission.

(7) Standard for approval. The landmark commission shall approve the certificate for demolition if it finds that:

(A) a court or other tribunal has issued a final order requiring the demolition of the structure pursuant to Texas Local Government Code Chapters 54 or 214, as amended; and

(B) suspension of the certificate for demolition is not a feasible option to alleviate the nuisance in a timely manner.

(8) Suspension. The purpose of the suspension periods is to allow an interested party to rehabilitate the structure as an alternative to demolition.

(A) Residential structures with no more than 3,000 square feet of floor area.

(i) Initial suspension period.

(aa) The landmark commission may suspend the granting of the certificate for demolition until the next regularly scheduled landmark commission meeting (the initial suspension period) to allow time to find a party interested in rehabilitating the structure.

(bb) If during the initial suspension period no interested party is identified, the landmark commission shall grant the certificate for demolition.

(cc) If during the initial suspension period an interested party is identified, the landmark commission shall suspend the granting of the certificate for demolition for no more than two more regularly scheduled landmark commission meetings (the extended suspension period).

(ii) Extended suspension period.

(aa) During the extended suspension period, the interested party shall:

[1] submit an application for a predesignation certificate of appropriateness or a certificate of appropriateness;

[2] provide evidence that the interested party has or will obtain title to the property and has authority to rehabilitate the structure, or is authorized to rehabilitate the property by a party who has title to the property or has the right to rehabilitate the property;

[3] provide evidence that the structure and property have been secured to prevent unauthorized entry; and

[4] provide a guarantee agreement that:

[A] contains a covenant to rehabilitate the structure by a specific date, in accordance with the predesignation certificate of appropriateness process or certificate of appropriateness, which the landmark commission may extend if the interested party shows circumstances preventing rehabilitation of the structure by that date that are beyond the control of the interested party;

[B] is supported by a performance and payment bond, letter of credit, escrow agreement, cash deposit, or other similar enforceable arrangement acceptable to the director to ensure rehabilitation of the structure; and

[C] is approved as to form by the city attorney.
§ 51A-4.501  Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.501

(bb) If during the extended suspension period the interested party does not meet the requirements of Subparagraph (A)(ii), the landmark commission shall grant the certificate for demolition.

(cc) If during the extended suspension period the interested party meets the requirements of Subparagraph (A)(ii), the landmark commission shall continue to suspend the granting of the certificate for demolition (the continuing suspension period).

(iii) Continuing suspension period.

(aa) The interested party must rehabilitate the structure to comply with Dallas City Code Chapter 27 and request an inspection by the city before the end of the continuing suspension period.

(bb) At each landmark commission meeting during the continuing suspension period, the interested party shall provide a progress report demonstrating that reasonable and continuous progress is being made toward completion of the rehabilitation.

(cc) If during the continuing suspension period the landmark commission finds that the interested party is not making reasonable and continuous progress toward completion of the rehabilitation, the landmark commission shall grant the certificate for demolition, unless the interested party shows circumstances preventing reasonable and continuous progress that are beyond the control of the interested party.

(dd) If during the continuing suspension period the landmark commission finds that the interested party has rehabilitated the structure to comply with Dallas City Code Chapter 27, the landmark commission shall deny the certificate for demolition.

(9) Appeal. The city representative or property owner may appeal a decision of the landmark commission under this subsection to the city plan commission by filing a written notice with the director within 10 days after the date of the decision of the landmark commission. The city plan commission shall hear and decide the appeal at the next available city plan commission meeting. The standard of review shall be de novo, but the director shall forward to the city plan commission a transcript of the landmark commission hearing. In considering the appeal, the city plan commission may not hear or consider new evidence unless the evidence corrects a misstatement or material omission at the landmark commission hearing or the evidence shows that the condition of the property has changed since the landmark commission hearing. The city plan commission chair shall rule on the admissibility of new evidence. The city plan commission shall use the same standard required for the landmark commission. The city plan commission may reverse or affirm, in whole or in part, modify the decision of the landmark commission, or remand any case back to the landmark commission for further proceedings; however, the city plan commission shall give deference to the decision of the landmark commission. Appeal to the city plan commission constitutes the final administrative remedy.

(10) Expiration. A certificate for demolition expires if the work authorized by the certificate for demolition is not commenced within 180 days after the date of the certificate for demolition. The director may extend the time for commencement of work upon written request by the city representative or the property owner showing circumstances justifying the extension. If the certificate for demolition expires, a new certificate for demolition must first be obtained before the work can be commenced.

(11) Procedures for all other structures. If the city or a property owner seeks demolition of any structure other than a residential structure with no more than 3,000 square feet of floor area subject to a predesignation moratorium or in a historic overlay district pursuant to an order from a court or other tribunal requiring demolition obtained by the city, an application must be filed under Subsection (h) of this section.

(j) Summary abatement by fire marshal. If the fire marshal finds that conditions on a structure subject to a predesignation moratorium or in a historic overlay district are hazardous to life or property and present a clear and present danger, the fire marshal may summarily abate those conditions without a predesignation certificate of appropriateness, certificate of appropriateness, or certificate for demolition.
(k) Demolition by neglect.

(1) Definition. Demolition by neglect is neglect in the maintenance of any structure on property subject to the predesignation moratorium or in a historic overlay district that results in deterioration of the structure and threatens the preservation of the structure.

(2) Demolition by neglect prohibited. No person shall allow a structure to deteriorate through demolition by neglect. All structures on properties subject to the predesignation moratorium and in historic overlay districts must be preserved against deterioration and kept free from structural defects. The property owner or the property owner’s agent with control over the structure, in keeping with the city’s minimum housing standards and building codes, must repair the structure if it is found to have any of the following defects:

(A) Parts which are improperly or inadequately attached so that they may fall and injure persons or property.

(B) A deteriorated or inadequate foundation.

(C) Defective or deteriorated floor supports or floor supports that are insufficient to carry the loads imposed.

(D) Walls, partitions, or other vertical supports that split, lean, list, or buckle due to defect or deterioration, or are insufficient to carry the loads imposed.

(E) Ceilings, roofs, ceiling or roof supports, or other horizontal members which sag, split, or buckle due to defect or deterioration, or are insufficient to support the loads imposed.

(F) Fireplaces and chimneys which list, bulge, or settle due to defect or deterioration, or are of insufficient size or strength to carry the loads imposed.

(G) Deteriorated, crumbling, or loose exterior stucco or mortar.

(H) Deteriorated or ineffective waterproofing of exterior walls, roofs, foundations, or floors, including broken or open windows and doors.

(I) Defective or lack of weather protection for exterior wall coverings, including lack of paint or other protective covering.

(J) Any fault, defect, or condition in the structure which renders it structurally unsafe or not properly watertight.

(K) Deterioration of any exterior feature so as to create a hazardous condition which could make demolition necessary for the public safety.

(L) Deterioration or removal of any unique architectural feature which would detract from the original architectural style.

(3) Demolition by neglect procedure.

(A) Purpose. The purpose of the demolition by neglect procedure is to allow the landmark commission to work with the property owner to encourage maintenance and stabilization of the structure and identify resources available before any enforcement action is taken.

(B) Request for investigation. Any interested party may request that the historic preservation officer investigate whether a property is being demolished by neglect.

(C) First meeting with the property owner. Upon receipt of a request, the historic preservation officer shall meet with the property owner or the property owner’s agent with control of the structure to inspect the structure and discuss the resources available for financing any necessary repairs. After the meeting, the historic preservation officer shall prepare a report for the landmark commission on the condition of the structure, the repairs needed to maintain and stabilize the structure, any resources available for financing the repairs, and the amount of time needed to complete the repairs.

(D) Certification and notice. After review of the report, the landmark commission may
vote to certify the property as a demolition by neglect case. If the landmark commission certifies the structure as a demolition by neglect case, the landmark commission shall notify the property owner or the property owner’s agent with control over the structure of the repairs that must be made. The notice must require that repairs be started within 30 days and set a deadline for completion of the repairs. The notice must be sent by certified mail.

(E) Second meeting with the property owner. The historic preservation officer shall meet with the property owner or the property owner’s agent with control over the structure within 30 days after the notice was sent to inspect any repairs completed and assist the property owner in obtaining any resources available for financing the repairs.

(F) Referral for enforcement. If the property owner or the property owner’s agent with control over the structure fails to start repairs by the deadline set in the notice, fails to make continuous progress toward completion, or fails to complete repairs by the deadline set in the notice, the landmark commission may refer the demolition by neglect case to the code compliance department or the city attorney for appropriate enforcement action to prevent demolition by neglect.

(l) Historic preservation incentives. Consult Article XI, “Development Incentives,” for regulations concerning the tax exemptions, conservation easements, and transfer of development rights available to structures in historic overlay districts.

(m) Historic preservation fund.

(1) The department, in cooperation with community organizations, shall develop appropriate funding structures and shall administer the historic preservation fund.

(2) The historic preservation fund is composed of the following funds:

(A) Outside funding (other than city general funds or capital funds), such as grants and donations, made to the city for the purpose of historic preservation and funding partnerships with community organizations.

(B) Damages recovered pursuant to Texas Local Government Code Section 315.006 from persons who illegally demolish or adversely affect historic structures.

(3) The outside funding may be used for financing the following activities:

(A) Necessary repairs in demolition by neglect cases.

(B) Full or partial restoration of low-income residential and nonresidential structures.

(C) Full or partial restoration of publicly owned historic structures.

(D) Acquisition of historic structures, places, or areas through gift or purchase.

(E) Public education of the benefits of historic preservation or the regulations governing historic overlay districts.

(F) Identification and cataloging of structures, places, areas, and districts of historical, cultural, or architectural value along with factual verification of their significance.

(4) Damages recovered pursuant to Texas Local Government Code Section 315.006 must be used only for the following purposes:

(A) Construction, using as many of the original materials as possible, of a structure that is a reasonable facsimile of a demolished historic structure.

(B) Restoration, using as many of the original materials as possible, of the historic structure.

(C) Restoration of another historic structure.

(n) Enforcement and criminal penalties.

(1) A person is criminally responsible for a violation of this section if:

(A) the person owns part or all of the property and knowingly allows the violation to exist;
§ 51A-4.501 Dallas Development Code: Ordinance No. 19455, as amended

(B) the person is the agent of the property owner or is an individual employed by the agent or property owner; is in control of the property; knowingly allows the violation to exist; and fails to provide the property owner’s name, street address, and telephone number to code enforcement officials;

(C) the person is the agent of the property owner or is an individual employed by the agent or property owner, knowingly allows the violation to exist, and the citation relates to the construction or development of the property; or

(D) the person knowingly commits the violation or assists in the commission of the violation.

(2) Any person who adversely affects or demolishes a structure on property subject to the predesignation moratorium or in a historic overlay district in violation of this section is liable pursuant to Texas Local Government Code Section 315.006 for damages to restore or replicate, using as many of the original materials as possible, the structure to its appearance and setting prior to the violation. No predesignation certificates of appropriateness, certificates of appropriateness, or building permits will be issued for construction on the site except to restore or replicate the structure. When these restrictions become applicable to a site, the director shall cause to be filed a verified notice in the county deed records and these restrictions shall be binding on future owners of the property. These restrictions are in addition to any fines imposed.

(3) Prosecution in municipal court for an offense under this section does not prevent the use of other enforcement remedies or procedures provided by other city ordinances or state or federal laws applicable to the person charged with or the conduct involved in the offense.

(o) Substantial evidence standard of review for appeals. The city plan commission shall give deference to the landmark commission decision and may not substitute its judgment for the landmark commission’s judgment.

(1) The city plan commission shall remand the matter back to the landmark commission if it determines that there is new testimony or evidence that was not available at the landmark commission hearing.

(2) The city plan commission shall affirm the landmark commission decision unless it finds that it:

(A) violates a statutory or ordinance provision;

(B) exceeds the landmark commission’s authority; or

(C) was not reasonably supported by substantial evidence considering the evidence in the record.

(p) Judicial review of decisions. The final decision of the city planning commission regarding an appeal of a landmark commission decision may be appealed to a state district court. The appeal to the state district court must be filed within 30 days after the decision of the city planning commission. If no appeal is made to the state district court within the 30-day period, then the decision of the city plan commission is final and unappealable. An appeal to the state district court is limited to a hearing under the substantial evidence rule. (Ord. Nos. 19455; 19499; 20585; 21244; 21403; 21513; 21874; 22018; 23506; 23898; 24163; 24542; 24544; 25047; 26286; 27430; 27922; 28073; 28553; 29478, eff. 10/1/14)

Sec. 51A-4.502. Institutional Overlay District.

(a) General provisions.

(1) The institutional overlay district promotes cultural, educational, and medical institutions, and enhances their benefit to the community while protecting adjacent property.

(2) The following main uses may be permitted in an institutional overlay district:

-- Ambulance service.
-- Ambulatory surgical center.
-- Cemetery or mausoleum.
-- Church.
§ 51A-4.502 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-4.502 -- College dormitory, fraternity or sorority house.
-- College, university, or seminary.
-- Community service center.
-- Convalescent and nursing homes, hospice care, and related institutions.
-- Convent or monastery.
-- Day care center.
-- Foster home.
-- Halfway house.
-- Hospital.
-- Library, art gallery, or museum.
-- Medical clinic.
-- Medical or scientific laboratory.
-- Overnight general purpose shelter.
-- Post office.
-- Public or private school.

(3) All uses permitted in the underlying zoning district are allowed in an institutional overlay district.

(4) The zoning regulations of the underlying zoning district are applicable to an institutional overlay district unless otherwise provided in this section.

(b) Special yard, lot, and space regulations.

(1) In an institutional overlay district, additional setbacks, if any, for institutional buildings greater than 36 feet in height may be established by the site plan process.

(2) Buildings in an institutional overlay district must comply with applicable height regulations.

(3) If any portion of a structure is over 26 feet in height, that portion may not be located above a residential proximity slope originating in an R, R(A), D, D(A), TH, or TH(A) district. Exception: Structures listed in Section 51A-4.408(a)(2) may project through the slope to a height not to exceed the maximum structure height, or 12 feet above the slope, whichever is less.

(c) Special parking regulations.

(1) Required off-street parking for institutional uses may be located anywhere within the boundaries of the institutional overlay district or outside the district if the parking meets the requirements of Division 51A-4.320.

(2) Reserved.

(3) Reserved.

(d) Procedures for establishing an institutional overlay district.

(1) The applicant for an institutional overlay district shall comply with the zoning amendment procedure for a change in the zoning district classification.

(2) A site plan must be submitted after the institutional district is established and before a building permit or certificate of occupancy is issued.

(e) Site plan process.

(1) The building official shall not issue a building permit for additions to existing structures or for new structures except in accordance with an approved site plan and all applicable regulations.

(2) Preapplication conference. An applicant for site plan approval shall request, by letter, a preapplication conference with the director. The letter must contain a brief, general description of the nature, location, extent of the proposed institutional use and the list of any professional consultants advising the applicant concerning the proposed site plan.

(3) Upon receipt of a request, the director shall schedule a preapplication conference to discuss the proposed site plan. Based on the information provided by the applicant, the director shall:

(A) provide initial comments concerning the merits of the proposed development;

(B) state what information must be provided in the site plan application for a complete review of the proposed development; and
(C) provide any other information necessary to aid the applicant in the preparation of the site plan application.

(4) Application for site plan approval. An applicant for site plan approval shall submit to the director:

(A) a site plan application in the form prescribed by the director that contains at least the following information:

(i) The applicant’s name and address and his ownership interest in the property proposed for development.

(ii) The signatures of all owners of the property proposed for development.

(iii) The size of the parcel proposed for development, its street address, and a legal description of the property.

(iv) A statement setting forth the current uses of the property and plans for future development;

(B) ten copies of the site plan and one 8-1/2 x 11 inch clear transparency of the site plan;

(C) copies of legal instruments guaranteeing the availability of remote off-street parking and the mode of transportation to serve that parking, and copies of any restrictive covenants that are to be recorded with respect to the institutional uses; and

(D) a site plan fee.

(5) Site plan. The applicant shall provide a site plan drawn to a scale not less than 100 feet to the inch or to a scale specified by the director, on a sheet of paper no larger than two feet by three feet. The site plan must depict the following for a complete review of the proposed development:

(A) The boundary lines and dimensions of the property, existing subdivision lots, available utilities, easements, roadways, rail lines, and public rights-of-way that cross or are adjacent to the property.

(B) Topography of the property proposed for development in contours of not less than five feet, together with any proposed grade elevations, if different from existing elevations.

(C) Flood plains, water courses, marshes, drainage areas, and other significant environmental features including, but not limited to, rock outcroppings and major tree groupings.

(D) The location and use of all existing and proposed buildings or structures.

(E) Total number and location of off-street parking and loading spaces.

(F) All points of vehicular ingress and egress and circulation within the property.

(G) Setbacks, lot coverage, and when relevant, the relationship of the setbacks provided and the height of any existing or proposed building or structure.

(H) The location, size, and arrangement of all outdoor signs and lighting.

(I) The type, location, and quantity of all plant material used for landscaping, and the type, location, and height of fences or screening and the plantings around them.

(J) Location, designation, and total area of all usable open space and any proposed improvements to the open space.

(K) Land uses and zoning districts contiguous to the property.

(L) Any other information the director determines necessary for a complete review of the proposed development.

(6) Departmental review. The director shall forward the information to the department of sustainable development and construction, public works, sanitation services, water utilities and code compliance, and to any other appropriate departments. Within 30 days following receipt of a completed
application for site plan approval, or for a longer time agreed to by the applicant, the departments shall review the proposed development and forward their comments, if any, in writing to the director. Upon conclusion of the departmental review, the director shall forward to the commission the application for site plan approval and the written information provided by the departments.

(A) The directors of the departments of public works, transportation, and water utilities shall prepare a written statement evaluating the impact of the proposed institutional uses on public facilities including sewers, water utilities, and streets.

(B) The director of water utilities shall prepare a written statement describing any known drainage or topography problems.

(7) Conferences and modifications during review. If the application for site plan approval meets one or more of the standards for site plan disapproval, and the director and the applicant meet to discuss the application for site plan approval, the director may accept an amended application for site plan approval.

(8) City plan commission review. The commission shall review the application for site plan approval and render its decision within 21 days from the date of referral by the director, or for a longer time that has been agreed to by the applicant. The commission shall review the application for site plan approval and may approve the application, disapprove the application, or approve the application subject to specified conditions and modifications that are permanently marked on the site plan or made a part of the site plan conditions.

(9) Standards for site plan disapproval. The commission may disapprove an application for site plan approval upon findings of fact based on one or more of the following standards:

(A) The application for site plan approval is incomplete or contains violations of this chapter or other applicable regulations, and the applicant, after written request from the director, has failed to supply the additional information or correct the violation.

(B) The proposed site plan interferes with or is in conflict with a right-of-way, easement, or any approved plan such as a thoroughfare plan or transit plan.

(C) The proposed site plan destroys, damages, or interferes with significant natural, topographic, or physical features of the site that are determined significant by the commission.

(D) The proposed site plan is incompatible with adjacent land use and detrimental to the enjoyment of surrounding property in that the proposed development would create noise above the ambient level, substantially increase traffic, or fail to provide adequate buffers.

(E) The points of egress and ingress or the internal circulation of traffic within the site creates a traffic hazard, either on or off the site.

(F) The proposed site plan creates drainage or erosion problems to the site or adjacent property.

(10) City council appeal. An applicant may appeal to city council the decision of the commission concerning an application for site plan approval by filing a written request with the director within ten days of the action of the commission.

(11) Amendment. A site plan may be amended by following the same procedure as required in this section. (Ord. Nos. 19455; 19786; 20920; 21044; 22026; 23694; 25047; 28073; 28424; 30239; 30654; 30994)

SEC. 51A-4.503. D AND D-1 LIQUOR CONTROL OVERLAY DISTRICTS.

General provisions. Note: These provisions apply only to D and D-1 Liquor Control Overlay Districts enacted before June 11, 1987.

(1) A D or D-1 liquor control overlay district is designated as “dry” by the suffix “D” or “D-1” on the zoning district map.
§ 51A-4.503  Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.504

(2) In a “D” liquor control overlay district, a person shall not sell or serve alcoholic beverages or setups for alcoholic beverages for consumption on or off the premises.

(3) In a “D-1” liquor control overlay district, a person shall not sell or serve alcoholic beverages, or setups for alcoholic beverages, for consumption on or off the premises, unless the sale or service is part of the operation of a use for which a specific use permit has been granted by the city council.

(4) It is a defense to prosecution under Paragraphs (2) and (3) of this section that the alcoholic beverage or setup for alcoholic beverage is served, but not sold, at a private residence for consumption at the residence. For purposes of this subsection, a private residence must be a permitted residential or lodging use listed in the use regulations of this article. If the use is a lodging use, the term “private residence” means the guest room only. (Ord. Nos. 19455; 21735)

SEC. 51A-4.504. DEMOLITION DELAY OVERLAY DISTRICT.

(a) Purpose. A demolition delay overlay district is intended to encourage the preservation of historically significant buildings that are not located in a historic overlay district by helping the property owner identify alternatives to demolition.

(b) General provisions.

(1) The city plan commission or city council may initiate a demolition delay overlay district following the procedure in Section 51A-4.701, “Zoning Amendments.”

(2) This section applies to any building located in a demolition delay overlay district that is at least 50 years old and meets one of the following criteria:

(A) the building is located in a National Register Historic District or is individually listed on the National Register of Historic Places;

(B) the building is designated as a Recorded Texas Historic Landmark;

(C) the building is designated as a State Archeological Landmark;

(D) the building is designated as a National Historic Landmark;

(E) the building is listed as significant in the 2003 Downtown Dallas/Architecturally Significant Properties Survey; or

(F) the building is listed as contributing in the 1994 Hardy-Heck-Moore Survey.

(c) Demolition delay process.

(1) Phase I.

(A) Upon receipt of a complete application to demolish a building that is in a demolition delay overlay district, the building official shall refer the application to the historic preservation officer.

(B) Within 10 days after the historic preservation officer receives an application to demolish a building within a demolition delay overlay district, the historic preservation officer shall determine whether the building meets the requirements in Subsection (b)(2).

(C) If the historic preservation officer determines that a building within a demolition delay overlay district does not meet the criteria in Subsection (b)(2) and the application meets the requirements for issuing a demolition permit in the Dallas Building Code, the building official shall grant the application to demolish a building.

(2) Phase II.

(A) Within 45 days after determining whether a building within a demolition delay overlay district meets the requirements in Subsection (b)(2), the historic preservation officer shall schedule a meeting with the building’s owner and appropriate city officials to discuss alternatives to demolition, such as historic designation under Section 51A-4.501; historic preservation tax exemptions and economic development incentives for historic properties under Article XI; loans or grants from public or private resources; acquisition of the building; and variances.
(B) The historic preservation officer shall post notice of the meeting with the building’s owner on the city’s website.

(C) Within two working days after the historic preservation officer determines the building within the demolition delay overlay district meets the
requirements in Subsection (b)(2), the historic preservation officer shall post a sign on the property to notify the public that an application has been made for a demolition permit within a demolition delay overlay district. The sign must include a phone number where citizens can call for additional information.

(D) The meeting may include organizations that foster historic preservation, urban planning, urban design, development, and improvement in demolition delay overlay districts.

(E) If at the end of the 45-day period the application meets the requirements of the Dallas Building Code and the building owner declines to enter into an agreement as outlined in Paragraph (3), the building official shall grant the application to demolish a building within a demolition delay overlay district.

(3) Phase III. The property owner may enter into an agreement with the city to delay granting a demolition permit for an additional time period to continue exploration of alternatives to demolition. (Ord. 29893)

SEC. 51A-4.505. CONSERVATION DISTRICTS.

(a) Definitions. In this section:

(1) AREA means the land within the boundaries of a proposed CD that may include subdistricts, land within the boundaries proposed to be added to an established CD that may include subdistricts, or land within the boundaries of a proposed subdistrict.

(2) BLOCKFACE means the linear distance of lots along one side of a street between the two nearest intersecting streets. If a street dead ends, the terminus of the dead end will be treated as an intersecting street.

(3) CD means conservation district.

(4) CD ORDINANCE means the ordinance establishing or amending a particular conservation district.

(5) DEMOLITION means the intentional destruction of an entire building.

(6) NEIGHBORHOOD COMMITTEE means the property owners of at least 10 properties within a proposed CD, proposed area to be added to an established CD, or an established CD; or, if less than 10 properties, 50 percent of the property owners within the proposed CD, proposed area to be added to an established CD, or an established CD.

(7) PHYSICAL ATTRIBUTES means the physical features of buildings and structures, including the architectural style; characteristics of a period; and method of construction, and may also include those physical characteristics of an area that help define or make an area unique, including scale; massing; spatial relationship between buildings; lot layouts; setbacks; street layouts; streetscape characteristics or other natural features; or land-use patterns.

(8) STABLE means that the area is expected to remain substantially the same over the next 20 years with continued maintenance of the property. While some changes in structures, land uses, and densities may occur, all such changes are expected to be compatible with surrounding development.

(9) STABILIZING means that the area is expected to become stable over the next 20-year period through continued reinvestment, maintenance, or remodeling.

(b) Findings and purpose.

(1) State law authorizes the city of Dallas to regulate the construction, alteration, reconstruction, or razing of buildings and other structures in “designated places and areas of historic, cultural, or architectural importance and significance.”

(2) Conservation districts are intended to provide a means of conserving an area’s distinctive character by protecting or enhancing its physical attributes.

(3) Conservation districts are distinguished from historic overlay districts, which preserve historic residential or commercial places; neighborhood
stabilization overlay districts, which preserve single family neighborhoods by imposing neighborhood-specific yard, lot, and space regulations that reflect the existing character of the neighborhood; and planned development districts, which provide flexibility in planning and construction while protecting contiguous land uses and significant features.

(4) The purpose of a CD is to:

(A) protect the physical attributes of an area or neighborhood;

(B) promote development or redevelopment that is compatible with an existing area or neighborhood;

(C) promote economic revitalization;

(D) enhance the livability of the city; and

(E) ensure harmonious, orderly, and efficient growth.

(c) General provisions.

(1) Each CD must be established by a separate CD ordinance.

(2) A CD may replace a planned development district or a neighborhood stabilization overlay. A CD may include an historic district overlay. A CD may not be placed on a planned development district or a neighborhood stabilization overlay.

(3) For purposes of determining the applicability of regulations in this chapter triggered by adjacency or proximity to another zoning district, an identifiable portion of a CD governed by a distinct set of use regulations is treated as though it were a separate zoning district. If the CD district or a portion of the district is limited to those uses permitted in an expressly stated zoning district, the CD district or portion of the district is treated as though it were that expressly stated zoning district; otherwise it is treated as though it were:

(A) a TH-3(A) zoning district if it is restricted to single family and/or duplex uses;

(B) an MF-2(A) zoning district if it is restricted to residential uses not exceeding 36 feet in height and allows multifamily uses;

(C) an MF-3(A) zoning district if it is restricted to residential uses and allows multifamily uses exceeding 36 feet in height; or

(D) a nonresidential zoning district if it allows a nonresidential use.

(d) Establishing a conservation district.

(1) Determination of eligibility.

(A) Before a neighborhood committee may request pre-application meetings or apply for a CD, a neighborhood committee must request a determination of eligibility and the director must determine that an area is eligible. A request for determination of eligibility is not an application for a CD.

(B) A neighborhood committee must submit a request for determination of eligibility on a form furnished by the department. The request for a determination of eligibility must include:

(i) The names and addresses of the neighborhood committee members.

(ii) The name and address of the neighborhood committee member designated to receive notice and information from the department.

(iii) A map of the request area.

(iv) A written statement explaining how the neighborhood committee selected the request area. For example, the request area is the original subdivision.

(v) A list of the architectural styles of each main building in the area of request and the year that each main building was constructed.

(vi) A written statement describing the physical attributes of the area, including the architectural styles, period of significance, and method of construction.
(vii) A written statement describing how the area of request meets all of the eligibility criteria in Section 51A-4.505(d)(1)(C).

(viii) Any other information that the director deems necessary.

(C) Within 65 days after a complete request for determination of eligibility is submitted, the director shall make a determination of eligibility. An area is not eligible for a CD unless it satisfies all of the following criteria:

(i) The area contains at least one blockface.

(ii) The area must be either "stable" or "stabilizing" as defined in this section.

(iii) The area is compact and contiguous with boundary lines drawn to the logical edges of the area or subdivision, as indicated by a creek, street, subdivision line, utility easement, zoning boundary line, or other boundary.

(iv) At least 75 percent of the lots are developed with main buildings that are at least 25 years old.

(v) The area has physical attributes that include recognizable architectural style(s).

(D) If the director determines that the area is eligible for a CD, the director shall notify the designated neighborhood committee member in writing why the proposed area is not eligible. Notice is given by depositing the notice properly addressed and postage paid, return receipt requested, in the United States mail. The director's determination that an area is not eligible for a CD classification may be appealed to the city plan commission by the neighborhood committee.

(G) An appeal of a determination that an area is not eligible for a CD is made by filing a written notice of appeal with the director. The notice of appeal must be filed within 30 days after the director provides written notice to the designated neighborhood committee member. The sole issue on appeal is whether the director erred in the determination of eligibility. The city plan commission shall consider the same criteria that the director is required to consider.

(H) The city plan commission's determination of eligibility on appeal is final. If the city plan commission determines that the area is not eligible for a CD, no further requests for determination of eligibility may be considered for the area of request for two years from the date of its decision. A property owner within the area of request may apply for a waiver of the two-year limitation period pursuant to Section 51A-4.701(d)(3).

(2) Pre-application meetings.

(A) After an area is determined eligible for a CD and before a neighborhood committee may apply for a CD, a neighborhood committee must request pre-application meetings. A request for pre-application meetings is not an application for a CD.

(B) Pre-application meetings are held by the department. Pre-application meetings are intended to inform the neighborhood committee and property owners within the eligible area about the determination of eligibility process, purpose of a CD, and the CD ordinance process. Pre-application meetings are also held to discuss and establish a list of development and architectural standards the neighborhood is interested in regulating.
§ 51A-4.505 Dallas Development Code: Ordinance No. 19455, as amended

(C) Within 65 days after the director has determined that an area is eligible for a CD, the neighborhood committee must submit a request for pre-application meetings on a form furnished by the department or the determination of eligibility for that area expires. If the determination of eligibility expires, a neighborhood committee must submit a new request for determination of eligibility and the director must determine that the area is eligible before a request for pre-application meetings may be submitted.

(D) Within 60 days after a complete request for pre-application meetings is submitted, the director shall schedule the first of at least two pre-application meetings. Notice of each pre-application meeting shall be given at least 10 days before the pre-application meeting to all property owners within the area eligible for a CD as evidenced by the last certified municipal tax roll.

(E) Within 14 days after the last pre-application meeting, the department shall provide the designated neighborhood committee member with the original petition forms.

(F) The original petition forms must include a map showing the boundaries of the area determined eligible for a CD; a list of the development and architectural standards a CD may regulate; the development and architectural standards established at the pre-application meetings that neighborhood is interested in regulating; the name and address of all property owners within the proposed CD; the deadline for the required signatures; and a statement that by signing the petition, the property owner is indicating support for initiating a process that may result in a change of zoning.

(G) Once the original petition forms are provided to the designated neighborhood committee member, additions to the development and architectural standards established by the neighborhood and listed on the original petition forms may only be recommended by city plan commission and approved by the city council.

(3) Application for a CD.

(A) After an area is determined eligible for a CD and the pre-application meetings have been held by the department, a neighborhood committee may submit an application for a CD.

(B) The application must be on a form provided by the department and must include:

(i) The original petition forms submitted with the dated signatures of property owners within the area determined eligible for a CD in support of the proposed CD that represent at least 58 percent of the land, excluding streets and alleys, within the proposed CD or 58 percent of the lots within the proposed CD.

(aa) For a proposed CD with 200 or fewer lots, the signatures on the original petition forms must be dated within 12 months following the date the original petition forms are provided to the designated neighborhood committee member.

(bb) For a proposed CD with 201 to 500 lots, the signatures on the original petition forms must be dated within 15 months following the date the original petition forms are provided to the designated neighborhood committee member.

(cc) For a proposed CD with more than 500 lots, the signatures on the original petition forms must be dated within 18 months following the date the original petition forms are provided to the designated neighborhood committee member.

(ii) The application fee, if applicable.

(aa) If the original petition forms are signed by 75 percent or more of the lots within the proposed CD boundaries, the application fee is waived.

(bb) If the proposed CD is authorized pursuant to Section 51A-4.701(a)(1), the application fee is waived.
(iii) Any other information that the director deems necessary.

(C) Within 30 days after an application for a CD is submitted, the director shall verify the original petition forms and determine if the application is complete. The time the director takes to review an application for completeness is not counted toward the date requirements in Section 51A-4.505(d)(3)(B)(i) for signatures in support of the proposed CD.

(D) If the application is deemed complete or the CD is authorized pursuant to Section 51A-4.701(a)(1), a public hearing to create a CD is initiated.

(E) If the director deems the application incomplete, the director shall notify the designated neighborhood committee member in writing of the application deficiencies and return the incomplete application. Notice is given by depositing the notice properly addressed and postage paid, return receipt requested, in the United States mail.

(F) For purposes of Section 51A-4.701, “Zoning Amendments,” once a CD application has been deemed complete, the CD shall be treated as a city plan commission authorized public hearing and may not be appealed to city council if the city plan commission recommends denial. If the proposed CD is initiated by application, the notice of authorization in Section 51A-4.701(a)(1) is not required.

4 Preparing a CD ordinance

(A) Within 30 days after a CD application is deemed complete, the director shall begin scheduling neighborhood meetings. Neighborhood meetings shall be held as necessary to receive input from property owners regarding the content of the CD ordinance.

(B) The city shall prepare a CD ordinance that includes:

(i) a map showing the boundaries of the area, including any subdistricts, that the director determined eligible for a CD;

(ii) maps and other graphic and written materials describing the physical attributes of the proposed CD; and

(iii) regulations for development and architectural standards.

(C) The CD ordinance must include the following:

(i) Development standards.

(aa) accessory structures.

(bb) building and structure height;

(cc) density;

(dd) fences and walls;

(ee) floor area ratio;

(ff) lot coverage;

(gg) lot size;

(hh) off-street parking and loading requirements;

(ii) permitted uses;

(jj) setbacks; and

(kk) stories.

(ii) Architectural standards.

(aa) architectural styles;

(bb) building elevations;

(cc) building materials;

(dd) chimneys;

(ee) porch styles;

(ff) roof form or pitch;
(gg) roofing materials; and
(hh) windows.

(D) The CD ordinance may also include, but is not limited to, the following development and architectural standards:
   (i) building relocation;
   (ii) building width;
   (iii) demolition;
   (iv) driveways, curbs, and sidewalks;
   (v) foundations;
   (vi) garage location and entrance;
   (vii) impervious surfaces;
   (viii) landscaping or other natural features;
   (ix) massing;
   (x) paint colors;
   (xi) solar energy systems and the components;
   (xii) steps; or
   (xiii) window and dormer size and location.

(E) At least 30 days before the city plan commission public hearing to consider the proposed CD ordinance, the director shall conduct a neighborhood meeting to review the proposed CD ordinance.

(F) Notice of the neighborhood meeting shall be given at least 10 days before the neighborhood meeting to all property owners within the boundaries of the proposed CD as evidenced by the last certified municipal tax roll. The notice must include a web address where an electronic copy of the draft CD ordinance may be found.

(G) After the neighborhood meeting and at least 10 days before consideration by the city plan commission, the director shall send written notice of the city plan commission public hearing and a reply form to all property owners within the area of notification as evidenced by the last certified municipal tax roll. The reply form allows the recipient to indicate support or opposition to the proposed CD and give written comments. The director shall report to the city plan commission the percentage of replies in favor and in opposition, and summarize any comments.

(H) If city plan commission recommends approval of the proposed CD, at least 10 days before consideration by the city council, the director shall send written notice of the city council public hearing and a reply form to all property owners within the area of notification as evidenced by the last certified municipal tax roll. The reply form allows the recipient to indicate support or opposition to the proposed CD and give written comments. The director shall report to the city council the percentage of replies in favor and in opposition, and summarize any comments.

(e) Expanding an established CD.

(1) In general. Before a neighborhood committee or, if the area proposed to be added is one lot, an applicant may request petitions or apply to expand an established CD, a neighborhood committee or applicant must request a determination of eligibility for the proposed area to be added and the director must determine that the area is eligible. A request for determination of eligibility is not an application to amend an established CD.

(2) Determination of eligibility.

(A) A neighborhood committee or, if the area proposed to be added is one lot, an applicant must submit a request for determination of eligibility on a form furnished by the department. The request for determination of eligibility must include:

   (i) The names and addresses of the neighborhood committee members or applicant.
§ 51A-4.505 Dallas Development Code: Ordinance No. 19455, as amended

(ii) If applicable, the name and address of the neighborhood committee member designated to receive notice and information from the director.

(iii) A map of the request area to be added that is compact and contiguous with the established CD.

(iv) A written statement explaining how the neighborhood committee or the applicant selected the request area. For example, the proposed area is part of the original subdivision but was not included when the CD was established.

(v) A list of the architectural styles of each main building in the area of request and the year that each main building was constructed.

(vi) A written statement describing the physical attributes of the area, including the architectural styles, period of significance, and method of construction and how these physical attributes, including the architectural styles, are similar to and compatible with the established CD.

(vii) A written statement describing how the proposed area meets all of the eligibility requirements in Section 51A-4.505(d)(1)(C) except that the area proposed is not required to be at least one blockface.

(viii) Any other information that the director deems necessary.

(B) Within 65 days after a complete request for determination of eligibility is submitted, the director shall make a determination of eligibility. An area is not eligible to be added to an established CD unless:

(i) the area satisfies all of the criteria in Section 51A-4.505(d)(1)(C), except that the area to be added is not required to be at least one blockface, and

(ii) the area to be added is similar to and compatible with the physical attributes of the established CD.

(C) If the director determines that the proposed area is eligible to be added to an established CD, the director shall notify the designated neighborhood committee member or applicant in writing. Notice is given by depositing the notice properly addressed and postage paid, return receipt requested, in the United States mail. The director's determination that an area is eligible for a CD may not be appealed.

(D) After the director determines an area is eligible to be added to an established CD, the boundaries may only be changed by city council at a public hearing to consider expanding an established CD or by a request for a new determination of eligibility after the original determination of eligibility expires. A request for a new determination of eligibility with different boundaries must be made before a neighborhood committee or applicant may request petitions or apply to expand an established CD.

(E) If the director determines that the area is not eligible to be added to an established CD, the director shall notify the designated neighborhood committee member or applicant in writing why the area is not eligible. Notice is given by depositing the notice properly addressed and postage paid, return receipt requested, in the United States mail.

(F) The director's determination that an area is not eligible to be added to a CD may be appealed to the city plan commission by the neighborhood committee or applicant.

(G) An appeal of a determination that an area is not eligible for a CD is made by filing a written notice of appeal with the director. The notice of appeal must be filed within 30 days after the director provides written notice to the designated neighborhood committee member or applicant. The sole issue on appeal is whether the director erred in the determination of eligibility. The city plan commission shall consider the same criteria that the director is required to consider.

(H) The city plan commission's determination of eligibility on appeal is final. If the city plan commission determines that the area is not eligible for a CD, no further requests for determination
of eligibility may be considered for the area of request for two years from the date of its decision. A property owner within the area of request may apply for a waiver of the two-year limitation period pursuant to Section 51A-4.701(d)(3).

3) Request for petitions.

(A) After an area is determined eligible to be added into an established CD and before a neighborhood committee or applicant may apply to expand an established CD, a neighborhood committee or applicant must request petitions. A request for petitions is not an application to amend an established CD.

(B) A neighborhood committee or applicant must submit a request for petitions within 65 days after the director determines that the area is eligible to be added to an established CD or the determination of eligibility for that proposed area to be added expires. If the determination of eligibility expires, a neighborhood committee or applicant must submit a new request for determination of eligibility and the director must determine that the area is eligible before a request for petitions may be submitted.

(C) The request for petitions must be on a form furnished by the department and must include the names and addresses of the neighborhood committee members or the applicant and a list of the development and architectural standards listed in Sections 51A-4.505(d)(4)(C) and (D) that a neighborhood committee or applicant is interested in regulating.

(D) Within 14 days after a complete request for petitions is submitted, the director shall provide the designated neighborhood committee member or applicant with the original petition forms.

(E) The original petition forms must include a map showing the boundaries of the established CD and the area eligible to be added to the established CD; a list of the development and architectural standards a CD may regulate; the development and architectural standards the neighborhood or applicant is interested in regulating; the name and address of all property owners within the proposed area to be added to an established CD; the deadline for the required signatures; and a statement that by signing the petition, the property owner is indicating support for initiating a process that may result in a change of zoning.

(F) Once the original petition forms are provided to the designated neighborhood committee member or applicant, additions to the development and architectural standards established by the neighborhood and listed on the original petition forms may only be recommended by city plan commission and approved by the city council.

(G) Within 60 days after the department provides the designated neighborhood committee member or applicant with the original petition forms, the department shall schedule a neighborhood meeting. Notice of the neighborhood meeting shall be given at least 10 days before the neighborhood meeting to all property owners within the proposed area to be added and the established CD as evidenced by the last certified municipal tax roll.

(H) The neighborhood meeting is held by the department. The purpose of the neighborhood meeting is to inform the property owners within the established CD, and the proposed area to be added, that petitions have been requested to expand the established CD.

4) Application to expand an established CD.

(A) After an area is determined eligible to be added to an established CD and the neighborhood committee or applicant has requested and received the original petition forms, the neighborhood committee or applicant may submit an application to expand an established CD.

(B) The application must be on a form provided by the department and must include:

(i) The original petition forms with dated signatures of property owners within the proposed area to be added into the established CD that are in support of being added to the established CD.
(ii) The signatures on the original petition forms must be dated within 60 days after the date the director provides the original petition forms to the neighborhood committee or applicant and must represent at least 58 percent of the land, excluding streets and alleys, within the proposed area to be added to the CD; or 58 percent of the lots within the area proposed to be added to the CD.

(iii) The application fee, if applicable. If the proposed expansion of the established CD is authorized pursuant to Section 51A-4.701(a)(1), the application fee is waived.

(iv) Any other information that the director deems necessary.

(C) Within 30 days after an application to expand an established CD is submitted, the director shall verify the original petition forms and determine if the application is complete. The 30 day application review period is not counted toward the signature date requirement in Section 51A-4.505(e)(4)(B)(ii).

(D) If the director deems the application complete or the request to expand the established CD is authorized pursuant to Section 51A-4.701(a)(1), a public hearing to expand an established CD is initiated.

(E) If the director deems the application incomplete, the director shall notify the designated neighborhood committee member in writing of the deficiencies and return the incomplete application. Notice is given by depositing the notice properly addressed and postage paid, return receipt requested, in the United States mail.

(5) Preparing an ordinance to expand an established CD.

(A) The city shall prepare amendments to the established CD in accordance with Sections 51A-4.505(d)(4)(B) through (D) to establish development and architectural standards for the area to be added.

(B) At least 10 days before consideration by the city plan commission, the director shall send written notice of the city plan commission public hearing and a reply form to all property owners within the area of notification as evidenced by recent tax rolls. The reply form allows the recipient to indicate support or opposition to the proposed expansion of the established CD and give written comments. The director shall report to the city plan commission the percentage of replies in favor and in opposition, and summarize any comments.

(C) At least 10 days before consideration by the city council, the director shall send written notice of the city council public hearing and a reply form to all property owners within the area of notification as evidenced by recent tax rolls. The reply form allows the recipient to indicate support or opposition to the proposed expansion of the established CD and give written comments. The director shall report to the city council the percentage of replies in favor and in opposition, and summarize any comments.

(f) Amending regulations in an established CD.

(1) Pre-application meetings.

(A) To amend regulations that affect an entire established CD, a neighborhood committee must first request pre-application meetings. A request for pre-application meetings is not an application for a CD.

(B) Pre-application meetings are held by the department. Pre-application meetings are intended to inform the property owners within the established CD that a neighborhood committee is interested in amending regulations in the established CD and to discuss and establish a list of development and architectural standards the neighborhood is interested in amending or adding to the established CD.

(C) Within 60 days after a complete request for pre-application meetings is submitted, the director shall schedule the first of at least two pre-application meetings. Notice of each pre-application meeting shall be given at least 10 days before the pre-application meeting to all property owners within the established CD as evidenced by the last certified municipal tax roll.
(D) Within 14 days after the last pre-application meeting, the department shall provide the designated neighborhood committee member with the original petition forms.

(E) The original petition forms must include a map showing the boundaries of the established CD; a list of the development and architectural standards a CD may regulate; the development and architectural standards established at the pre-application meetings that the neighborhood is interested in amending or adding; the name and address of all property owners within the established CD; the deadline for the required signatures; and a statement that by signing the petition, the property owner is indicating support for initiating a process that may result in a change of zoning.

(F) Once the original petition forms are provided to the designated neighborhood committee member, additions to the development and architectural standards established by the neighborhood and listed on the original petition forms may only be recommended by the city plan commission and approved by the city council.

(2) Application to amend an established CD.

(A) After the pre-application meetings have been held by the department, a neighborhood committee may submit an application to amend an established CD that affects the entire CD.

(B) The application must be on a form provided by the department and must include:

(i) The original petition forms submitted with the dated signatures of property owners within the established CD in support of amending the established CD that represent at least 58 percent of the land, excluding streets and alleys, within the established CD or 58 percent of the lots within the established CD.

(aa) For an established CD with 200 or fewer lots, the signatures on the original petition forms must be dated within 12 months following the date the original petition forms are provided to the designated neighborhood committee member.

(bb) For an established CD with 201 to 500 lots, the signatures on the original petition forms must be dated within 15 months following the date the original petition forms are provided to the designated neighborhood committee member.

(cc) For an established CD with more than 500 lots, the signatures on the original petition forms must be dated within 18 months following the date the original petition forms are provided to the designated neighborhood committee member.

(ii) The application fee, if applicable.

(aa) If the original petition forms are signed by 75 percent or more of the lots within the established CD boundaries, the application fee is waived.

(bb) If the established CD is authorized pursuant to Section 51A-4.701(a)(1), the application fee is waived.

(iii) Any other information that the director deems necessary.

(C) Within 30 days after an application to amend an established CD is submitted, the director shall verify the original petition forms and determine if the application is complete. The time the director takes to review an application for completeness is not counted toward the date requirements in Section 51A-4.505(d)(3)(B)(i) for signatures in support of the proposed CD.

(D) If the application is deemed complete or an amendment to the established CD is authorized pursuant to Section 51A-4.701(a)(1), a public hearing to create a CD is initiated.

(E) If the director deems the application incomplete, the director shall notify the designated neighborhood committee member in writing of the application deficiencies and return the incomplete application. Notice is given by depositing the notice properly addressed and postage paid, return receipt requested, in the United States mail.
§ 51A-4.505 Dallas Development Code: Ordinance No. 19455, as amended

(F) For purposes of Section 51A-4.701, “Zoning Amendments,” once an application to amend regulations in an established CD has been deemed complete, the application shall be treated as a city plan commission authorized public hearing and may not be appealed to city council if the city plan commission recommends denial. If the application to amend regulations in an established CD is initiated by application, the notice of authorization in Section 51A-4.701(a)(1) is not required.

(3) Preparing an ordinance to amend an established CD.

(A) Within 30 days after an application to amend an established CD is deemed complete, the director shall begin scheduling neighborhood meetings. Neighborhood meetings shall be held as necessary to receive input from property owners regarding the amendments to the established CD. Notice of neighborhood meetings shall be given at least 10 days before the neighborhood meeting to all property owners within the boundaries of the established CD as evidenced by the last certified municipal tax roll.

(B) The city shall prepare an ordinance amending an established CD in accordance with Sections 51A-4.505(d)(4)(B) through (D).

(C) At least 30 days before the city plan commission public hearing to consider proposed amendments to an established CD, the director shall conduct a neighborhood meeting to review the proposed ordinance amending the established CD.

(D) Notice of the neighborhood meeting shall be given at least 10 days before the neighborhood meeting to all property owners within the boundaries of the established CD as evidenced by the last certified municipal tax roll. The notice must include a web address where an electronic copy of the draft proposed ordinance amending the established CD may be found.

(E) After the neighborhood meeting and at least 10 days before consideration by the city plan commission, the director shall send written notice of the city plan commission public hearing and a reply form to all property owners within the area of notification as evidenced by the last certified municipal tax roll. The reply form allows the recipient to indicate support or opposition to the proposed CD and give written comments. The director shall report to the city plan commission the percentage of replies in favor and in opposition, and summarize any comments.

(F) If city plan commission recommends approval of the proposed CD, at least 10 days before consideration by the city council, the director shall send written notice of the city council public hearing and a reply form to all property owners within the area of notification. The reply form allows the recipient to indicate support or opposition to the proposed CD and give written comments. The director shall report to the city council the percentage of replies in favor and in opposition, and summarize any comments.

(g) Creating or amending a subdistrict within an established CD.

(1) An application to create or amend a subdistrict within an established CD must comply with Section 51A-4.701(a)(2).

(2) At least 30 days before a city plan commission public hearing to consider creating or amending a subdistrict within an established CD, the director shall hold a neighborhood meeting.

(3) Notice of the neighborhood meeting shall be given at least 10 days before the neighborhood meeting to all property owners within the established CD as evidenced by the last certified municipal tax roll.

(4) The purpose of the neighborhood meeting is to inform the property owners within the established CD of the application to create or amend a subdistrict within an established CD.

(5) The city shall prepare an ordinance creating or amending a subdistrict within an established CD in accordance with Sections 51A-4.505(d)(4)(B) through (D).

(6) The city council shall not grant a request to create or amend a subdistrict within an established CD except upon a finding that the creating or amending a subdistrict within the established CD will not:
§ 51A-4.505 Dallas Development Code: Ordinance No. 19455, as amended

(A) alter the essential character of the established CD, or

(B) be detrimental to the overall purpose of the established CD.

(h) Removing property from an established CD.

(1) An application to remove property from an established CD must comply with Section 51A-4.701(a)(2).

(2) At least 30 days before a city plan commission public hearing to consider removing property from an established CD, the director shall hold a neighborhood meeting.

(3) Notice of the neighborhood meeting shall be given at least 10 days before the neighborhood meeting to all property owners within the established CD as evidenced by the last certified municipal tax roll.

(4) The purpose of the neighborhood meeting is to inform the property owners within the established CD of the application to remove a property from an established CD.

(5) The city council shall not grant a request to remove property from an established CD except upon a finding that removing property from the established CD will not:

(A) alter the essential character of the established CD, or

(B) be detrimental to the overall purpose of the established CD.

(i) Work review procedures.

(1) Review form applications. A review form application must be submitted for any work covered by the standards in a CD ordinance.

(2) Work requiring a building permit.

(A) Upon receipt of a review form application for work requiring a building permit, the building official shall refer the review form application to the director to determine whether the work complies with the standards of the applicable CD ordinance. Within 30 days after submission of a complete review form application, the director shall review and determine whether the work complies with the standards of the applicable CD ordinance.

(B) If the director determines that the work complies with the standards of the applicable CD ordinance, the director shall approve the review form application and send it back to the building official, who shall issue the building permit if all requirements of the construction codes and other applicable ordinances have been met.

(C) If the director determines that the work does not comply with the standards of the applicable CD ordinance, the director shall state in writing the specific CD ordinance requirements that must be met before a building permit may be issued and send it back to the building official, who shall deny the building permit. The director shall give written notice to the applicant stating the reasons the building permit is denied.

(3) Work not requiring a building permit.

(A) Upon receipt of a review form application for work not requiring a building permit, the director shall review and determine whether the work complies with the standards of the applicable CD ordinance within 10 days after submission of a complete review form application.

(B) If the director determines that the work complies with the standards of the applicable CD ordinance, the director shall approve the review form application and give written notice to the applicant.

(C) If the director determines that the work does not comply with the standards of the applicable CD ordinance, the director shall state in writing the specific CD ordinance requirements to be met before the work review application may be approved. The director shall give written notice to the applicant stating the reasons for denial.

(j) Appeals.

(1) An applicant may appeal any decision regarding a review form application made by the
§ 51A-4.505 Dallas Development Code: Ordinance No. 19455, as amended

director or any aggrieved person may appeal a final decision of an administrative official, to the board of adjustment by filing a written appeal within 15 days after notice of the decision is given by the director or the official in accordance with Section 51A-4.703(a).

(2) The regulations and procedures in Section 51A-4.703 apply to an appeal to the board of adjustment under this section, including staying proceedings, notice of hearing, and board action.

(3) In considering the appeal, the sole issue before the board of adjustment shall be whether the director or the administrative official erred in the decision. The board shall consider the same standards required to be considered by the director or the administrative official.

(4) Appeals to the board of adjustment are the final administrative remedy.

(k) Conflicts. If there is a conflict between the text of this section and the text of a CD ordinance, the text of the CD ordinance controls.

(l) Board of adjustment fee waiver. The board of adjustment may waive any filing fee for an appeal from a decision of the building official interpreting a CD ordinance, or for a variance or special exception to a CD ordinance requirement when the board finds that payment of the fee would result in substantial financial hardship to the applicant. The applicant may either pay the fee and request reimbursement as part of his appeal or request that the matter be placed on the board’s miscellaneous docket for predetermination. If the matter is placed on the miscellaneous docket, the applicant may not file his appeal until the merits of the request for waiver have been determined by the board. (Ord. Nos. 19455; 19930; 20037; 20308; 24843; 29702)
Dallas Development Code: Ordinance No. 19455, as amended

[Intentionally left blank]
SEC. 51A-4.506. MODIFIED DELTA OVERLAY DISTRICT.

(a) Definitions. In this section:

DELTA THEORY means “delta theory” as defined in Section 51A-4.704 of this chapter.

(b) General provisions.

(1) The city council may establish a modified delta overlay district in those areas where it determines that a continued application of the delta theory is not justified because:

(A) there is no longer a need to encourage redevelopment and adaptive reuse of existing structures; or

(B) a continued application of the delta theory will create traffic congestion and public safety problems and would not be in the public interest.

(2) In a modified delta overlay district, the city council may limit the number or percentage of nonconforming parking or loading spaces that may be carried forward by a use under the delta theory. An ordinance establishing a modified delta overlay district in which nonconforming parking or loading spaces are limited by number rather than by percentage must specify the method by which the nonconforming spaces are to be allocated among property owners.

(3) An ordinance establishing a modified delta overlay district may not increase the number of nonconforming parking or loading spaces that may be carried forward under the delta theory when a use is converted or expanded.

(4) An ordinance establishing a modified delta overlay district must provide that when a use located in the district is converted to a new use having lesser parking or loading requirements, the rights to any portion of the nonconforming parking or loading not needed to meet the new requirements are lost.

(5) An ordinance establishing a modified delta overlay district may restrict or eliminate the availability of the off-street parking special exception described in Section 51A-4.301(I).

(6) An ordinance establishing a modified delta overlay district may allow the remote parking distances contained in the special parking regulations (Division 51A-4.320) to be increased and allow special parking to account for more than 50 percent of the off-street parking required for any use. (Ord. Nos. 19786; 22471)

SEC. 51A-4.507. NEIGHBORHOOD STABILIZATION OVERLAY.

(a) Findings and purpose.

(1) The city council finds that the construction of new single family structures that are incompatible with existing single family structures within certain established neighborhoods is detrimental to the character, stability, and livability of that neighborhood and the city as a whole.

(2) The neighborhood stabilization overlay is intended to preserve single family neighborhoods by imposing neighborhood-specific yard, lot, and space regulations that reflect the existing character of the neighborhood. The neighborhood stabilization overlay does not prevent construction of new single family structures or the renovation, remodeling, repair or expansion of existing single family structures, but, rather, ensures that new single family structures are compatible with existing single family structures.

(3) The yard, lot, and space regulations of the neighborhood stabilization overlay are limited to facilitate creation and enforcement of the regulations.

(4) Neighborhood stabilization overlay districts are distinguished from historic overlay districts, which preserve historic residential or commercial places; and from conservation districts, which conserve a residential or commercial area’s distinctive atmosphere or character by protecting or enhancing its significant architectural or cultural attributes.

(b) Definitions. In this section:

(1) BLOCKFACE means the linear distance of lots along one side of a street between the two
§ 51A-4.507 Dallas Development Code: Ordinance No. 19455, as amended

nearest intersecting streets. If a street dead-ends, the terminus of the dead-end will be treated as an intersecting street.

(2) CORNER SIDE YARD is a side yard abutting a street.

(3) DISTRICT means a neighborhood stabilization overlay district.

(4) HEIGHT PLANE means a plane projecting upward and toward the subject lot from a point six feet above grade at the center line of the street adjacent to the front property line, and extending to the intersection of a vertical plane from the front building line with the maximum height established by the neighborhood stabilization overlay and continuing at the same angle to the maximum height of the underlying zoning. The height plane is illustrated below.

(5) INTERIOR SIDE YARD is a side yard not abutting a street.

(6) MEDIAN means the middle number in a set of numbers where one-half of the numbers are less than the median number and one-half of the numbers are greater than the median number. For example, 4 is the median number of 1, 3, 4, 8, and 9. If the set of numbers has an even number of numbers, then the median is the average of the two middle numbers. For example, if the set of numbers is 1, 3, 4, 6, 8, and 9, then the median is the average of 4 and 6, or 5.

(7) NEIGHBORHOOD COMMITTEE means the owners of at least 10 properties within a proposed district.

(8) SINGLE FAMILY STRUCTURE means a main structure designed for a single family use, without regard to whether the structure is actually used for a single family use. For example, a house containing a child care facility is a single family structure, but an institutional building, such as a church or school, converted to a single family use is not.

(c) Petition, initiation, and process.

(1) Except as provided in this subsection, the procedures for zoning amendments contained in Section 51A-4.701, “Zoning Amendments,” apply.

(2) A neighborhood stabilization overlay may only be placed on an area that is zoned as a single family residential district and developed primarily with single family structures. A neighborhood stabilization overlay may not be placed on a conservation district or a neighborhood with a historic overlay. A neighborhood stabilization overlay may be placed on an established neighborhood even though it contains vacant lots. A neighborhood stabilization overlay may not be placed on a new subdivision being developed on a tract of land.
§ 51A-4.507  Dallas Development Code: Ordinance No. 19455, as amended

(3) A district must contain at least 50 single family structures in a compact, contiguous area, or be an original subdivision if the subdivision contains fewer than 50 single family structures. Boundary lines should be drawn to include blockfaces on both sides of a street, and to the logical edges of the area or subdivision, as indicated by a creek, street, subdivision line, utility easement, zoning boundary line, or other boundary. Boundary lines that split blockfaces in two should be avoided. The minimum area of a subdistrict within a district is one blockface.

(4) The neighborhood committee may request a petition form by submitting a request to the department on a form furnished by the department. The request must include the boundaries of the proposed district. The boundaries of the proposed district must comply with the requirements of this section.

(5) As soon as possible after the department provides the neighborhood committee with a petition form, the department shall conduct a neighborhood meeting. The department shall give notice of the neighborhood meeting to all property owners within the proposed district as evidenced by the last approved city tax roll at least 10 days prior to the neighborhood meeting.

(6) The petition must be on a form furnished by the department. The petition form must include a map of the boundaries of the proposed district, a list of the proposed regulations, the name and address of all property owners within the proposed district, and a statement that by signing the petition the signers are indicating their support of the district.

(7) The petition must be submitted with the following:

   (A) The dated signatures of property owners within the proposed district in support of the proposed district.

   (i) For a proposed district with more than 50 single family structures, the signatures on the petition must be dated within six months following the date of the neighborhood meeting.

   (B) The application fee, if applicable.

   (i) If a petition is signed by more than 50 percent but less than 75 percent of the lots within the proposed district, the application fee must be paid.

   (ii) If a petition is signed by 75 percent or more of the lots within the proposed district, the application fee is waived.

   (iii) If the proposed district is authorized pursuant to Section 51A-4.701(a)(1), the application fee is waived.

   (C) A map showing the boundaries of the proposed district.

   (D) A list of any neighborhood associations that represent the interests of property owners within the proposed district.

   (E) A list of the names and addresses of the neighborhood committee members.

   (F) Any other information the director determines is necessary.

(8) A public hearing to create a district is initiated by submission of a complete petition or by authorization pursuant to Section 51A-4.701(a)(1).

(9) For purposes of Section 51A-4.701, “Zoning Amendments,” once a complete petition has been submitted to the director, the neighborhood stabilization overlay shall be treated as a city plan commission authorized public hearing. If the district is initiated by petition, the notice of authorization contained in Section 51A-4.701(a)(1) is not required.

(10) Along with any other required notice, at least 10 days prior to consideration by the city plan commission, the director shall mail a draft of the
proposed neighborhood stabilization overlay ordinance and a reply form to all owners of real property within the area of notification. The reply form must allow the recipient to indicate support or opposition to the proposed neighborhood stabilization overlay and give written comments. The director shall report to the city plan commission and the city council the percentage of replies in favor and in opposition, and summarize any comments.

(e) Neighborhood stabilization overlay.

(1) In general.

(A) A neighborhood stabilization overlay is not required to specify standards for each category of yard, lot, and space regulation in this subsection, but if it does, the regulations must be selected from the options described in this subsection.

(B) The yard, lot, and space regulations of the neighborhood stabilization overlay must reflect the existing conditions within the neighborhood.

(C) Except as provided in the neighborhood stabilization overlay, the yard, lot, and space regulations of the underlying zoning remain in effect.

(D) The provisions of Section 51A-4.704(c), regarding renovation, remodeling, repair, rebuilding, or enlargement of nonconforming structures, remain in effect.

(E) The yard, lot, and space regulations of the neighborhood stabilization overlay apply only to single family structures.

(F) The yard, lot, and space regulations of the neighborhood stabilization overlay must be read together with the yard, lot, and space regulations in Division 51A-4.400. In the event of a conflict between the neighborhood stabilization overlay and Division 51A-4.400, the neighborhood stabilization overlay controls.

(2) Front yard setback. The minimum front yard setback must be within the range between the setback of the underlying zoning and the median front yard setback of single family structures within the district. This range may allow for a front yard setback that is greater or lesser than the front yard setback of the underlying zoning. For example, if the minimum front yard setback of the underlying zoning is 25 feet and the median front yard setback of single family structures within the district is 40 feet, the minimum front yard setback selected must be between 25 feet and 40 feet.

(3) Corner side yard setback. The minimum corner side yard setback must be within the range between the setback of the underlying zoning and the median corner side yard setback of single family structures within the district. This range may allow for a corner side yard setback that is greater or lesser than the corner side yard setback of the underlying zoning. For example, if the minimum corner side yard setback of the underlying zoning is five feet and the median corner side yard setback of single family structures within the district is 20 feet, the minimum corner side yard setback selected must be between five feet and 20 feet.

(4) Interior side yard setback. The minimum interior side yard setback must be within the range between the setback of the underlying zoning and the median interior side yard setback of single family structures within the district. This range may allow for an interior side yard setback that is greater or lesser than the interior side yard setback of the underlying zoning. For example, if the minimum interior side yard setback of the underlying zoning is five feet and the median interior side yard setback of single family structures within the district is 20 feet, the minimum interior side yard setback selected must be between five feet and 20 feet. The minimum side yard setback for each side yard may be separately established. For example, the minimum side yard on the west side may be five feet, and the minimum side yard on the east side may be 10 feet.

(5) Height.

(A) If the petition is signed by the owners of more than 50 percent but less than 60 percent of the lots within the district, height regulations may not be included in the overlay.

(B) If the petition is signed by the owners of 60 percent or more of the properties within
§ 51A-4.507 Dallas Development Code: Ordinance No. 19455, as amended

the district, the maximum height selected must be
selected from the following:

(i) If the median height of single
family structures within the district is 20 feet or more,
then the district height must be within the range
between the median height of single family structures
within the district and the maximum height of the
underlying zoning.

(ii) If the median height of single
family structures within the district is less than 20 feet,
then the district height must be either the median
height of single family structures within the district or
within the range between 20 feet and the maximum
height of the underlying zoning.

(C) If the district regulates height, single
family structures may not be built to heights that
exceed the height plane, except structures listed in
Section 51A-4.408(a)(2). Height is measured from grade
to the midpoint between the lowest eaves and the
highest ridge of the structure. See Paragraph 51A-
2.102(47), “Height.”

(6) Garage access, connection, location. The
garage access, connection, or location must be selected
from one or more of the following options:

(A) garage access of:

(i) front entry;

(ii) side entry; or

(iii) rear entry;

(B) garage connection of:

(i) attached to the single family
structure; or

(ii) detached from the single
family structure; and

(C) garage location:

(i) in front of the single family
structure; or

(ii) to the side of the single family
structure; or

(iii) to the rear of the single family
structure. (Ord. 26161)

SEC. 51A-4.508. TURTLE CREEK
ENVIRONMENTAL
CORRIDOR.

(a) The Turtle Creek Environmental Corridor
(“the corridor”) consists of the following area:

Beginning at the intersection of the west line of Turtle
Creek Boulevard and the south line of Wycliff Avenue;
thence in a westerly direction along said south line of
Wycliff Avenue to a point in a line, said line being 75
feet west of and parallel to the west line of Turtle
Creek Boulevard;

Thence in a southerly direction along said line,
crossing Avondale Street, Irving Avenue, Blackburn
Street, Gilbert Avenue and Holland Avenue, to a point
in the southwest line of Lemmon Avenue, said point
being 75 feet northwest of the northwest line of Turtle
Creek Boulevard;

Thence in a northwesterly direction along the
southwest line of Lemmon Avenue to a point in a line,
said line being 25 feet northwest of and parallel to the
northwest line of Hood Street;

Thence in a southwesterly direction along said line,
crossing Rawlins Street and Hall Street, to a point in a
line, said line being 25 feet southwest of and parallel to
the southwest line of Hall Street;

Thence in a southeasterly direction along said line,
crossing Hood Street and Sale Street, to a point in a
line, said line being 75 feet northwest of and parallel to
the northwest line of Turtle Creek Boulevard;

Thence in a southwesterly direction along said line,
crossing Cedar Springs Road (when Cedar Springs is
positioned in a northwest-southeast direction) and
continuing along a line 75 feet northwest of and
parallel to the northwest line of Cedar Springs Road
(when Cedar Springs is positioned in a northeast-
southwest direction), crossing Dickason Avenue and Gillespie Avenue to a point in the southwest line of Gillespie Avenue, said point being 75 feet northwest of the intersection of the southwest line of Gillespie Avenue and the northwest line of Turtle Creek Drive;

Thence in a southwesterly direction from said point along a line 75 feet northwest of and parallel to the northwest line of Turtle Creek Drive, crossing Fairmount Avenue, to a point in a line, said line being 25 feet northeast of and parallel to the northeast line of Maple Avenue;

Thence in a northwesterly direction along said line to a point in the southeast line of Hood Street;

Thence in a southwesterly direction along the southeast line of Hood Street extended to the centerline of Maple Avenue;

Thence in a southeasterly direction along the centerline of Maple Avenue to a point in the northwest right-of-way line of the M.K.&T. Railroad;

Thence in a northeasterly direction along said railroad right-of-way line, crossing Fairmount Avenue, Cedar Springs Road, Bowen Street, Hall Street, Lemmon Avenue, Lemmon Avenue East, and Blackburn Street to a point in the northeast line of Blackburn Street;

Thence in a northwesterly direction along the northeast line of Blackburn Street to a point in a line, said line being 75 feet southeast of and parallel to the centerline of Turtle Creek;

Thence in an easterly and northerly direction along said line to a point in the Dallas/Highland Park City Limit Line;

Thence in a westerly and northerly direction along said city limit line to the place of beginning.

(b) No off-street vehicular surface parking shall be constructed closer than 50 feet from the right-of-way line of Turtle Creek Boulevard, Turtle Creek Drive, and Cedar Springs Road (when Cedar Springs Road is positioned in a northeast-southwest direction), or closer than 50 feet from the centerline of Turtle Creek. No building permit for any proposed subsurface parking facility shall be issued by the Building Inspector unless a surface landscape plan for such lot or tract has been approved by the Park and Recreation Board of the City.

(c) Except as provided in Subsections (d), (e), and (f) of this Section, no structure shall be constructed closer to the right-of-way lines of Turtle Creek Boulevard, Turtle Creek Drive, and Cedar Springs Road (when Cedar Springs Road is positioned in a northeast-southwest direction), than as specified below:

For those properties lying between the M.K.&T. Railroad right-of-way and Turtle Creek, such setback shall be measured from the centerline of Turtle Creek.

(d) At the intersections of Turtle Creek Boulevard with Blackburn Street, with Lemmon Avenue, with Hall Street, and with Cedar Springs Road, and the intersection of Turtle Creek Drive with Gillespie Street, no structure shall be constructed closer
to such intersection than an imaginary line formed between points on each curb line 100 feet from such intersection.

(e) On those lots or tracts which face Lee Park or Reverchon Park across a public right-of-way, no structure or surface parking shall be constructed closer to the front property line than 25 feet.

(f) The minimum setback for any building or other structure may be decreased by transfer to such lot of an allowable setback which is unused upon a contiguous lot which is located within the corridor. Such transferred rights may be used at a ratio of two feet acquired for every one foot used. No transfer of additional setback shall be effective unless an instrument, in a form approved by the City Attorney, has been executed by the parties concerned and recorded in the Deed Records of Dallas County, Texas, serving as a notice of the restrictions under this section applying both to the contiguous lot and the transferee lot. Such document shall specify:

(1) the amount of setback to be transferred, the decreased minimum setback permitted on the transferee lot by virtue of the transfer, and the increased minimum setback on the contiguous lot;

(2) the duration of the transfer, which shall be specified to be not less than the actual lifetime of any building on the transferee lot whose construction is made possible, in whole or in part, by the transfer;

(3) the effect of any subsequent changes in the setback requirement under this section for both lots; and

(4) the effect of any subsequent change in the size of either lot, whether by virtue of conveyance, condemnation, or otherwise, upon the setback for both lots.

In no case shall the setback of the transferee lot be less than that minimum specified below:

(g) Any property owner within the corridor may on his own initiative, offer to the city, subject to Park and Recreation Board approval, a dedication in fee simple or for park purposes any area of land fronting on any public street within the corridor as permanent open space. Upon dedication of such property, the Tax Assessor shall reassess the remaining area to reflect such dedication prior to the next assessment ordinance, and the city shall maintain such property so dedicated with normal landscape standards. The owner may, in lieu of such dedication, grant to the city a landscape easement on any area of land fronting on
§ 51A-4.508 Dallas Development Code: Ordinance No. 19455, as amended § 51A-4.510

any public street in the corridor. The city shall, upon approval of a landscape plan for such easement by the Park and Recreation Board, to be carried out by the property owner, either maintain the same or arrange for its maintenance, and the Tax Assessor shall make such tax reassessments as the facts justify. Any property dedicated or granted for a landscape easement shall be considered in computing floor-area ratio, coverage, and density. (Ord. Nos. 26026; 26248)

**SEC. 51A-4.509. PARKING MANAGEMENT OVERLAY DISTRICT.**

See Section 51A-13.410, “Parking Management Overlay (-PM),” for the regulations governing the parking management overlay. (Ord. 27495)

**SEC. 51A-4.510. ACCESSORY DWELLING UNIT OVERLAY.**

(a) **Definitions.** In this section:

(1) **ACCESSORY DWELLING UNIT (ADU)** means a rentable additional dwelling unit, subordinate to the main unit, located on a building site with a single family use.

(2) **NEIGHBORHOOD COMMITTEE** means the owners of at least 10 properties within a proposed overlay.

(b) **Petition, initiation, and process.**

(1) Except as provided in this subsection, the procedures for zoning amendments contained in Section 51A-4.701, "Zoning Amendments," apply.

(2) An accessory dwelling unit overlay may only be placed on an area that allows single family uses and does not expressly prohibit accessory dwelling units.

(3) An overlay must contain at least 50 single family structures in a compact, contiguous area, or be an original subdivision if the subdivision contains fewer than 50 single family structures. Boundary lines should be drawn to include blockfaces on both sides of a street, and to the logical edges of the area or subdivision, as indicated by a creek, street, subdivision line, utility easement, zoning boundary line, or other boundary. Boundary lines that split blockfaces in two should be avoided.

(4) As soon as possible after the department provides the neighborhood committee with a petition form or city council authorizes a hearing, the department shall conduct a neighborhood meeting. The department shall give notice of the neighborhood meeting to all property owners within the proposed overlay as evidenced by the last approved city tax roll at least 10 days before the neighborhood meeting.

(5) The neighborhood committee may request a petition form by submitting a request to the department on a form furnished by the department. The request must include the boundaries of the proposed overlay. The boundaries of the proposed overlay must comply with the requirements of this section.

(6) The petition must be on a form furnished by the department. The petition form must include a map of the boundaries of the proposed overlay, a list of the proposed regulations (including a proposed off-street parking reduction), the name and address of all property owners within the proposed overlay, and a statement that by signing the petition the signers are indicating their support of the overlay.

(7) The petition must be submitted with the following:

(A) The dated signatures of property owners within the proposed overlay in support of the proposed overlay.

(i) For a proposed overlay with 50 or fewer single family structures, the signatures on the petition must be dated within three months following the date of the neighborhood meeting.

(ii) For a proposed overlay with more than 50 single family structures, the signatures on the petition must be dated within six months following the date of the neighborhood meeting.
§ 51A-4.510 Dallas Development Code: Ordinance No. 19455, as amended

(B) The application fee, if applicable.

(i) If a petition is signed by more than 50 percent but less than 75 percent of the lots within the proposed overlay, the application fee must be paid.

(ii) If a petition is signed by 75 percent or more of the lots within the proposed overlay, the application fee is waived.

(iii) If the proposed overlay is authorized pursuant to Section 51A-4.701(a)(1), the application fee is waived.

(C) A map showing the boundaries of the proposed overlay.

(D) A list of any neighborhood associations that represent the interests of property owners within the proposed overlay.

(E) A list of the names and addresses of the neighborhood committee members.

(F) Any other information the director determines is necessary.

(8) For purposes of Section 51A-4.701, “Zoning Amendments,” once a complete petition has been submitted to the director, the accessory dwelling unit overlay shall be treated as a city plan commission authorized public hearing. If the overlay is initiated by petition, the notice of authorization contained in Section 51A-4.701(a)(1) is not required.

(9) Along with any other required notice, at least 10 days before consideration by the city plan commission, the director shall mail a draft of the proposed accessory dwelling unit overlay ordinance and a reply form to all owners of real property within the area of notification. The reply form must allow the recipient to indicate support or opposition to the proposed accessory dwelling unit overlay and give written comments. The director shall report to the city plan commission and the city council the percentage of replies in favor and in opposition, and summarize any comments.

c) Accessory dwelling unit overlay.

(1) In general.

(A) The provisions of Section 51A-4.704(c), regarding renovation, remodeling, repair, rebuilding, or enlargement of nonconforming structures, remain in effect.

(B) An accessory dwelling unit may not be sold separately from the main building.

(C) For an accessory dwelling unit, the prohibition on advertisements in Section 51A-4.209(b)(6)(E)(vii)(bb) do not apply.

(D) The yard, lot, and space regulations of the accessory dwelling unit overlay must be read together with the yard, lot, and space regulations in Division 51A-4.400. If there is a conflict between this section and Division 51A-4.400, this section controls.

(E) If there is a conflict between this section and the single-family use regulations in Section 51A-4.209, this section controls.

(2) Yard, lot, and space regulations.

(A) In general. Except as provided in this subsection, the yard, lot, and space regulations of the underlying zoning remain in effect.

(B) Side and rear yard.

(i) If the structure containing the accessory dwelling unit is less than 15 feet in height and is located in the rear 30 percent of the lot, minimum side yard is three feet.

(ii) If the structure containing the accessory dwelling unit is less than 15 feet in height, minimum rear yard is three feet.

(iii) Structures 15 feet or more in height containing accessory dwelling units must comply with the side and rear yard setbacks of the base zoning.
§ 51A-4.510 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-4.511

(C) **Floor area.**

(i) **Detached accessory dwelling unit.**

(aa) Minimum floor area is 200 square feet.

(bb) Maximum floor area is the greater of 700 square feet or 25 percent of the main structure.

(ii) **Attached accessory dwelling unit.** Maximum floor area is the greater of 700 square feet or 25 percent of the main use.

(D) **Height.**

(i) **General.** Except as provided in this subparagraph, the maximum height of the structure containing the accessory dwelling unit cannot exceed the height of the main dwelling unit.

(ii) **Accessory dwelling units located above detached garages.** For accessory dwelling units located over detached garages, maximum height is the maximum height allowed in that zoning overlay.

(E) **Location.**

(i) An accessory dwelling unit may not be located in front of a main structure.

(ii) The board may grant a special exception to authorize the placement of an accessory dwelling unit in front of a structure when, in the opinion of the board, the accessory dwelling unit:

(aa) will not adversely affect neighboring properties;

(bb) will not be contrary to the public interest; and

(cc) denial of the special exception will unduly burden the property.

(F) **Off-street parking.**

(i) Except as provided in this paragraph, a minimum of one space is required.

(ii) Off-street parking is not required for an accessory dwelling unit located within 1,200 feet of a DART bus or transit stop.

(iii) Off-street parking may be reduced if 75 percent of the property owners within the proposed overlay sign the petition agreeing to the reduction.

(iv) City council may also reduce the off-street parking requirement if a reduction is recommended by the neighborhood steering committee during the authorized hearing process.

(G) **Stories.** Maximum number of stories for an accessory dwelling unit is one.

(3) **Utility meters.** A lot with an accessory dwelling unit may be supplied by not more than two electrical utility services, and metered by not more than two electrical meters.

(4) **Owner occupancy.**

(A) Except as provided in this paragraph, if one dwelling unit is used as rental accommodations, the property owner must reside in the main structure or the accessory dwelling unit during the tenancy.

(B) The owner may be absent for one year with director approval.

(5) **Single family rental program.** The rental unit must be registered in the city single family rental program. (Ord. 30931)

SEC. 51A-4.511. NEIGHBORHOOD FOREST OVERLAY.

(a) **Findings and purpose.**

(1) The city council intends to provide a means of conserving and maintaining the existing urban forest within the boundaries of neighborhood forest overlays.

(2) The neighborhood forest overlay is provided for the purpose of promoting the health, safety, and the general welfare of present and future
inhabitants of city neighborhoods through the managed conservation and protection of the trees in the community. It is intended to help promote or restore the character of established communities as recognized by its inhabitants; to stabilize and protect the air quality near homes; to conserve the city’s tree canopy; to retain the living green infrastructure for reducing flood and stormwater effects; to protect property against depreciation; to encourage sustainable construction methods and design in redevelopment; and to assure the sustained stability of neighborhoods for the future.

(3) A neighborhood forest overlay is a neighborhood-driven process that extends the protections prescribed within Division 51A-10.130, “Urban Forest Conservation,” to the properties within the overlay area that contain single-family and duplex uses in residential districts on lots smaller than two acres in size.

(b) Interpretations. Except as otherwise provided in this subsection, the regulations in Article X apply in neighborhood forest overlay districts. Sections 51A-10.135(c), 51A-10.135(d), 51A-10.135(e), and 51A-10.135(f) do not apply. If there is a conflict between this section and Article X, this section applies. If there is a conflict between a neighborhood forest overlay ordinance and Article X, the neighborhood forest overlay ordinance controls.

(c) Definitions. In this section:

(1) MEDIAN means the middle number in a set of numbers where one-half of the numbers are less than the median number and one-half of the numbers are greater than the median number. For example, 4 is the median number of 1, 3, 4, 8, and 9. If the set of numbers has an even number of numbers, then the median is the average of the two middle numbers. For example, if the set of numbers is 1, 3, 4, 6, 8, and 9, then the median is the average of 4 and 6, or 5.

(2) NEIGHBORHOOD COMMITTEE means the owners of at least 10 properties within a proposed overlay.

(3) STRUCTURE PROXIMITY AREA means the five-foot area around a dwelling unit.

(4) TREE CONSERVATION AREA means the area of tree protection and the site subject to urban forest conservation regulations.

(d) Petition, initiation, and process.

(1) Except as provided in this subsection, the procedures for zoning amendments contained in Section 51A-4.701, “Zoning Amendments,” apply.

(2) A neighborhood forest overlay may only be placed on an area:

(A) containing lots that are primarily smaller than two acres in size;

(B) developed primarily with single family or duplex structures; and

(C) that is zoned either:

(i) as a residential district; or

(ii) as a planned development district, conservation district, or form district (or portion thereof) that is restricted to single family or duplex uses.

(3) The boundary lines of a neighborhood forest overlay should be drawn to include blockfaces on both sides of a street, and to the logical edges of the area or subdivision, as indicated by a creek, street, subdivision line, utility easement, zoning boundary line, or other boundary. Boundary lines that split blockfaces in two should be avoided. The minimum area of a subdistrict within a district is one blockface. An overlay:

(A) must contain at least 50 lots in a compact, contiguous area, or be an original subdivision if the subdivision contains fewer than 50 single family or duplex structures; or

(B) may contain less than 50 lots, but no less than 10 lots, if the lots are located alongside a primary natural area or if the lots maintain a current forest cover of mature large and medium trees, including significant trees, or trees established prior to the original subdivision.
§ 51A-4.511 Dallas Development Code: Ordinance No. 19455, as amended

(4) A neighborhood forest overlay may contain vacant lots and lots greater than two acres in size even though those lots will not be subject to the overlay regulations. Vacant lots within the boundaries of a neighborhood forest overlay, however, are not subject to the unrestricted zone exception in Section 51A-10.134(b).

(5) The neighborhood committee may request a petition form by submitting a request to the department on a form furnished by the department. The request must include the boundaries of the proposed district. The boundaries of the proposed district must comply with the requirements of this section.

(6) As soon as possible after the department provides the neighborhood committee with a petition form, the department shall conduct a neighborhood meeting. The department shall give notice of the neighborhood meeting to all property owners within the proposed overlay as evidenced by the last approved city tax roll at least 10 days prior to the neighborhood meeting.

(7) The petition must be on a form furnished by the department. The petition form must include a map of the boundaries of the proposed overlay, a list of the proposed regulations, the name and address of all property owners within the proposed district, and a statement that by signing the petition the signers are indicating their support of the overlay.

(8) The petition must be submitted with the following:

(A) The dated signatures of property owners within the proposed overlay in support of the proposed overlay.

(i) For a proposed overlay with 50 or fewer single family or duplex structures, the signatures on the petition must be dated within three months following the date of the neighborhood meeting.

(ii) For a proposed overlay with more than 50 single family or duplex structures, the signatures on the petition must be dated within six months following the date of the neighborhood meeting.

(iii) If the proposed overlay is pursuant to Sections 51A-4.511(e)(2)(A)(i) or (ii), 60 percent of property owner signatures are required for staff to accept the petition.

(iv) If the proposed overlay is pursuant to Sections 51A-4.511(e)(2)(A)(iii) or (iv), 70 percent of property owner signatures are required for staff to accept the petition.

(B) The application fee, if applicable.

(i) If a petition is signed by property owners of fewer than 75 percent of the lots within the proposed district, the application fee must be paid.

(ii) If a petition is signed by property owners of 75 percent or more of the lots within the proposed district, the application fee is waived.

(iii) If the proposed overlay is authorized pursuant to Section 51A-4.701(a)(1), the application fee is waived.

(C) A map showing the boundaries of the proposed district.

(D) A list of the names and addresses of the neighborhood committee members.

(E) Any other information the director determines is necessary.

(9) A public hearing to create an overlay is initiated by submission of a complete petition or by authorization pursuant to Section 51A-4.701(a)(1).

(10) For purposes of Section 51A-4.701, "Zoning Amendments," once a complete petition has been submitted to the director, the neighborhood forest overlay shall be treated as a city plan commission authorized public hearing. If the district is initiated by petition, the notice of authorization contained in Section 51A-4.701(a)(1) is not required.
(11) Along with any other required notice, at least 10 days prior to consideration by the city plan commission, the director shall mail a draft of the proposed neighborhood forest overlay ordinance and a reply form to all owners of real property within the area of notification. The reply form must allow the recipient to indicate support or opposition to the proposed neighborhood forest overlay and give written comments. The director shall report to the city plan commission and the city council the percentage of replies in favor and in opposition and summarize any comments.

(12) Upon passage of a neighborhood forest overlay ordinance, the director shall file a copy of the ordinance in the county deed records to give notice of the regulations. The director shall also file in the county deed records a verified written instrument listing each property by the street address, if available, the legal description of the real property, and the name of the owner, if available.

(e) Neighborhood forest overlay.

(1) In general.

(A) A neighborhood forest overlay establishes regulations that must be selected from the options described in this subsection.

(B) The regulations of the neighborhood forest overlay must reflect the existing forest conditions within the neighborhood.

(C) Except as provided in the neighborhood forest overlay, all regulations of the underlying zoning remain in effect.

(2) Tree conservation area.

(A) The neighborhood committee will select their tree conservation area from the following options:

(i) Front yard setback.

(ii) Front yard to structure.

(iii) Front, side, and rear yard setbacks.

(iv) Entire lot.

(B) The conservation, establishment, and maintenance of trees in Section 51A-10.136(a) apply to trees within a tree conservation area.

(3) Additional options.

(A) Tree canopy cover goal option. To reduce tree replacement requirements, a portion of existing tree canopy coverage over a tree conservation area must be preserved.

(i) The tree canopy cover goal is determined by the neighborhood during the petition process. The minimum percentage is to be determined by the median of the tree canopy coverage in the tree conservation area on each lot within the proposed overlay.

(ii) Healthy large and medium trees preserved in the tree conservation area, including boundary trees, may be included in tree canopy cover calculations. Invasive trees and trees located within 20 feet on center of the nearest overhead public electric line are not included in the calculation.

(iii) Each large and medium nursery stock tree planted as landscaping may also qualify as 300 square feet of tree canopy cover. If the tree canopy cover goal is met, additional landscape trees are not required, except that one tree must be provided in the required front yard.

(iv) Boundary trees located on adjacent private property must be protected to the drip line according to the tree protection shown on the site assessment plan.

(v) The tree canopy cover for the tree conservation area on the lot may be measured by the property owner, and verified and approved by the building official.

(B) Minimum front yard tree option. Lots must maintain a minimum number of trees in the front yard, as designated by the neighborhood forest overlay ordinance. Replacement is not required in the case that a property falls below the minimum number of large or medium trees due to a reason enumerated.
§ 51A-4.511 Dallas Development Code: Ordinance No. 19455, as amended

in the defense to prosecution section of Section 51A-10.140(b).

(4) Structure proximity area. More than 50 percent of the tree trunk at grade must be within the structure proximity area to qualify for an exception from mitigation. An approved tree removal application is required prior to tree removal.

(5) Site assessment plan. Prior to any development, construction activity, or disturbance of an area that may affect trees within the tree conservation area, a tree removal application, or permits for construction or grading, a site assessment plan must be submitted to the building official. The overlay regulations do not prohibit the removal or alteration of unprotected trees, or landscape ornamental and small trees, or other landscape shrubs, grasses, or other materials, that do not qualify as a protected tree. Any work or disturbance which includes significant soil compaction, trenching, tilling, excavation, paving, grading, chemical mixing, or pruning exceeding 10 percent tree canopy reduction, on the tree and within the dripline of the protected tree, is subject to the site assessment plan review. The site assessment plan must show the following:

(A) Structures.

(B) Paving.

(C) Proposed development, construction or disturbance.

(D) Location, diameter, and species of all trees (including boundary trees) in the tree conservation area, and 10 feet beyond.

(E) Tree protection, as applicable.

(F) Replacement trees, as applicable.

(6) Tree mitigation. Upon approval of tree removal within the tree conservation area, or an unauthorized removal of a protected tree, tree mitigation or replacement is required in accordance with Section 51A-10.134(c). The applicable methods are:

(A) Replacement on the site of removal.

(B) Replacement with a legacy tree on the site of removal.

(C) If replacement is not possible on the lot of removal, then replacement on other property within boundaries of the neighborhood forest overlay.

(D) If replacement is not possible within the neighborhood forest overlay, the tree must be replaced within five miles of the neighborhood forest overlay.

(E) Payment into reforestation fund. This option is only available if the building official determines that, due to restrictive site conditions, it would be impracticable or imprudent for the responsible party to plant a replacement tree on the tree removal property or comply with one or more of the mitigation methods in this section.

(f) Criminal responsibility and defenses to prosecution.

(1) The criminal liability and defenses to prosecution provisions in Section 51A-10.140 apply to properties subject to a neighborhood forest overlay.

(2) A tree removal application or tree replacement is not required if the tree is determined by a certified arborist to be diseased or dead or poses an imminent threat to people or property and such determination was not caused by an intentional act of the owner or an agent of the owner. (Ord. 31174)
Division 51A-4.600. Regulations of Special Applicability.

SEC. 51A-4.601. CREATION OF A BUILDING SITE.

(a) The building official shall not issue a certificate of occupancy or a building permit until a building site is established in one of the following ways:

(1) A lot is part of a plat that has been approved by the commission, or approved by the platting authority recognized by state law for the jurisdiction where the property was located before annexation or consolidation with the city of Dallas, and filed in the plat records of the appropriate county. Unless a lot is part of a shared access development, or unless otherwise provided in an ordinance establishing or amending a planned development district, all platted lots must contact, through fee simple ownership, a dedicated street or a private street.

(2) A parcel was separately owned before September 11, 1929, or before annexation or consolidation and the parcel has contact, through fee simple ownership, with a dedicated street. For purposes of this paragraph, a parcel is considered “separately owned” if it:

(A) is described in a different deed than that of adjacent properties; and

(B) has remained in the same configuration since September 10, 1929, regardless of whether ownership has changed since that date.

Documented evidence must be provided by the owner to demonstrate that land has remained in the same configuration during the relevant time period. Under this paragraph, the building official may issue a building permit for only one main building on each building site.

(3) A lot is part of an industrial subdivision in which only streets, easements, and blocks are delineated. The industrial subdivision must be approved by the commission and filed in the plat records of the appropriate county. No specific lot delineation is required, but yard, lot, and space requirements will be determined by property lines or lease lines.

(4) Any area in a CA-1(A) district that is bound on all sides by public streets or alleys constitutes a legal building site.

(5) A parcel upon which a building permit was authorized for development of a single family or duplex use before August 1, 1984, provided the single family or duplex use is not changed to a different use than that approved before August 1, 1984. The authorized single family or duplex use need not exist at the time of application for a certificate of occupancy or building permit under this paragraph, but evidence must be provided showing that the single family or duplex use was authorized on the property before August 1, 1984, did in fact exist, and no other use has been made of the property since the single family or duplex use was authorized by the city. A building site must be established under another paragraph of this section if a change of use has been made or is proposed for the property.

(6) A parcel upon which a building permit was authorized for development of other than a single family or duplex use and:

(A) the building permit authorizing an existing structure was issued before August 1, 1984;

(B) the proposed work does not increase the floor area of the structure by more than 35 percent; and

(C) the proposed addition does not exceed 10,000 square feet of floor area. Evidence must be provided showing that the use was authorized on the property before August 1, 1984.

(7) A parcel with less lot area, depth, or width than required in this chapter provided:

(A) the parcel has an area, depth, or width that is not more than 10 percent smaller or is greater than the average lot area, depth, or width of other platted lots or recognized building sites capable of development with single family or duplex uses within the same platted block (for purposes of this
subsection, “platted block” means the legal block as shown on the plat map;)

(B) the platted lots or recognized building sites contiguous to the parcel are developed with single family or duplex uses;

(C) the majority of the platted lots and recognizable building sites within the same platted block as the parcel have been platted or have been recognizable building sites for at least 20 years; and

(D) the parcel complies with all other zoning regulations other than lot area, depth, or width regulations.

(b) Land used in meeting the requirements of this article for a particular use or building may not be used to meet the requirements for any other use or building.

(c) Except as provided in the regulations for the single family and duplex uses, more than one main building may be erected on a building site when there is compliance with all applicable regulations in this chapter.

(d) A lot with less lot area than required in this chapter that was lawfully established under the regulations in force at the time of the creation of the building site may be used for a single family use if permitted by all zoning regulations applicable to the property other than lot area regulations. (Ord. Nos. 19455; 23383; 24731; 25809)

SEC. 51A-4.602. FENCE, SCREENING AND VISUAL OBSTRUCTION REGULATIONS.

(a) Fence standards. Unless otherwise specifically provided for in this chapter, fences must be constructed and maintained in accordance with the following regulations.

(1) In this subsection:

(A) FENCE PANEL means the portion of a fence located between the posts or columns.

(B) RETAINING WALL means a wall designed to hold in place earthen or similar materials and to prevent the material from sliding away or eroding.

(2) A person shall not erect or maintain a fence in a required yard more than nine feet above grade. In all residential districts except multifamily districts, a fence may not exceed four feet above grade when located in the required front yard, except when the required front yard is governed by the side or rear yard regulations pursuant to Section 51A-4.401.

(3) In single family districts, a fence panel with a surface area that is less than 50 percent open may not be located less than five feet from the front lot line. This paragraph does not apply to retaining walls.

(4) In multifamily districts, a fence located in the required front yard may be built to a maximum height of six feet above grade if all conditions in the following subparagraphs are met:

(A) No lot in the blockface may be zoned as a single family or duplex district.

(B) No gates for vehicular traffic may be located less than 20 feet from the back of the street curb.

(C) No fence panel having less than 50 percent open surface area may be located less than five feet from the front lot line.

(5) If a fence panel setback is required under Paragraph (4)(C), the entire setback area, except for driveways and sidewalks, must be located within 100 feet of a verifiable water supply and landscaped with living evergreen shrubs or vines recommended for local use by the park and recreation director. Initial plantings must be calculated to cover a minimum of 30 percent of the fence panel(s) within three years after planting. Shrubs or vines must be planted 24 inches on center over the entire length of the setback area unless a landscape architect recommends otherwise.

(6) Unless all of the conditions in Paragraphs (4) and (5) are met, a fence in a multifamily
district may not exceed four feet above grade when located in the required front yard, except when the required front yard is governed by the side or rear yard regulations pursuant to Section 51A-4.401.

(7) Fence heights shall be measured from:

(A) In single family and duplex districts:

(i) the top of the fence to the level of the ground on the inside and outside of any fence within the required front yard. The fence height shall be the greater of these two measurements. If the fence is constructed on fill material that alters grade, as determined by the building official, the height of the artificially altered grade shall be included in the height of the fence. For purposes of this provision, artificially altered grade means the placement of fill material on property that exceeds a slope of one foot of height for three feet of distance; and

(ii) the top of the fence to the level of the ground on the inside of the fence in the required side or rear yard.

(B) In all other zoning districts, fence heights shall be measured from the top of the fence to the level of the ground on the inside of the fence.

(8) A fence may not be located within an easement without the prior written approval by the agencies having interest in the easement.

(9) Except as provided in this subsection, the following fence materials are prohibited:

(A) Sheet metal;

(B) Corrugated metal;

(C) Fiberglass panels;

(D) Plywood;

(E) Plastic materials other than preformed fence pickets and fence panels with a minimum thickness of seven-eighths of an inch;

(F) Barbed wire and razor ribbon (concertina wire) in residential districts other than an A(A) Agricultural District; and

(G) Barbed wire and razor ribbon (concertina wire) in nonresidential districts unless the barbed wire or razor ribbon (concertina wire) is six feet or more above grade and does not project beyond the property line.

(10) All fences must provide firefighting access to the side and rear yard.

(11) The board may grant a special exception to the fence standards in this subsection when, in the opinion of the board, the special exception will not adversely affect neighboring property.

(b) Required screening. Unless otherwise specifically provided for in this chapter, screening must be constructed and maintained in accordance with the following regulations.

(1) Screening required in this article must be not less than six feet in height.

(2) The board may grant a special exception to the height requirement for screening when, in the opinion of the board, the special exception will not adversely affect neighboring property, except that the board may not grant a special exception to the height requirements for screening around off-street parking.

(3) Required screening must be constructed of:

(A) brick, stone, concrete masonry, concrete, or wood;

(B) earthen berm planted with turf grass or ground cover recommended for local area use by the building official. The berm may not have a slope that exceeds one foot of height for each two feet of width;

(C) evergreen plant materials recommended for local area use by the building official. The plant materials must be located in a bed
§ 51A-4.602 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-4.602

that is at least three feet wide with a minimum soil depth of 24 inches. Initial plantings must be capable of obtaining a solid appearance within three years. Plant materials must be placed a maximum of 24 inches on center over the entire length of the bed unless the building official approves an alternative planting density that a landscape authority certifies as being capable of providing a solid appearance within three years; or

(D) any combination of the above.

(4) A required screening wall or fence may not have more than 10 square inches of openings in any given square foot of surface. Plant materials used for required screening must obtain a solid appearance and provide a visual barrier of the required height within three years after their initial planting.

(5) Access through required screening may be provided only by a solid gate equaling the height of the screening. The gate must remain closed:

(A) between the hours of 10 p.m. and 7 a.m.; and

(B) at all other times except when in actual use.

(6) Garbage storage areas must be visually screened on any side visible from a street or an adjoining property by a brick, stone, concrete masonry, concrete, or wood wall or fence or by landscape screening. Screening is not required on a side adjacent to an alley or easement used for garbage pick-up service. Screening is not required if the garbage storage area is 200 feet or more from the street or adjoining property. To allow air circulation and visibility, the screening from grade to one foot above grade may be up to 50 percent open.

(7) An owner shall provide screening in accordance with this section for the rear or service side of a nonresidential building if:

(A) the nonresidential building is in a residential district and is exposed to a residential use; or

(B) the nonresidential building is in an office, retail, CS, IL, IR, or IM district and is exposed to and closer than 150 feet to the boundary line of an A, A(A), R, R(A), D, D(A), TH, TH(A), CH, MF, MF(A), MH, or MH(A) district.

(8) When all service, storage, and loading facilities are contained within a nonresidential building, the screening requirement in Subsection (b)(7) does not apply.

(9) Plant materials used for required screening must be maintained in a healthy growing condition at all times. The property owner is responsible for the regular weeding, mowing of grass, irrigating, fertilizing, pruning, and other maintenance of all plantings as needed. Any plant that dies must be replaced with another living plant that complies with screening requirements within 90 days after notification by the city.

(10) All required screening with plant materials must be irrigated by an automatic irrigation system installed to comply with industry standards.

(11) Fences that are painted or stained must be uniformly painted or stained across the entire length of the fence. This provision prohibits different colored patches of paint or stain on portions of a fence. For example, if a fence is painted white, graffiti should be covered with the same color of white paint, not with blue or red paint.

(c) Special screening and visual intrusion provisions.

(1) In an office district, if a building or a parking structure is erected on a building site and a portion of the side or rear yard abuts or is across an adjoining alley from an A, A(A), R, R(A), D, D(A), TH, TH(A), CH, MF, MF(A), MH, or MH(A) district, any portion of the building site directly across from that district must be screened from that district.

(2) through (5) Reserved.

(6) In all nonresidential districts except central area districts, no portion of any balcony or opening that faces an R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(A), MF-1(SAH), MF-2, MF-2(A), or MF-2(SAH) district may be located above a residential proximity slope originating in that district.
§ 51A-4.602 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-4.603

(d) Visual obstruction regulations.

(1) A person shall not erect, place, or maintain a structure, berm, plant life, or any other item on a lot if the item is:

(A) in a visibility triangle, as defined in Paragraph (2); and

(B) between two-and-one-half feet and eight feet in height measured from the top of the adjacent street curb. If there is no adjacent street curb, the measurement is taken from the grade of the portion of the street adjacent to the visibility triangle.

(2) For purposes of Paragraph (1), the term “visibility triangle” means:

(A) in all zoning districts except central area districts, the Deep Ellum/Near Eastside District (Planned Development District No. 269), and the State-Thomas Special Purpose District (Planned Development District No. 225), the portion of a corner lot within a triangular area formed by connecting together the point of intersection of adjacent street curb lines (or, if there are no street curbs, what would be the normal street curb lines) and points on each of the street curb lines 45 feet from the intersection;

(B) in central area districts, the Deep Ellum/Near Eastside District (Planned Development District No. 269), and the State-Thomas Special Purpose District (Planned Development District No. 225), the portion of a corner lot within a triangular area formed by connecting together the point of intersection of adjacent street curb lines (or, if there are no street curbs, what would be the normal street curb lines) and points on each of the street curb lines 30 feet from the intersection;

(C) in all zoning districts, the portion of a lot within a triangular area formed by connecting together the point of intersection of the edge of a driveway or alley and an adjacent street curb line (or, if there is no street curb, what would be the normal street curb line) and points on the driveway or alley edge and the street curb line 20 feet from the intersection.

(3) The board shall grant a special exception to the requirements of this section when, in the opinion of the board, the item will not constitute a traffic hazard.

(4) It is a defense to prosecution under this subsection that a structure becomes nonconforming with respect to the visibility triangle unless the nonconforming rights attendant to the structure have been lost or terminated under Section 51A-4.704. (Ord. Nos. 19455; 19786; 20236; 20362; 20539; 21663; 22994; 25831; 26288; 27495; 29917; 30198; 30893)

SEC. 51A-4.603. USE OF CONVEYANCE AS A BUILDING.

(a) For the purposes of this section, conveyance means a railway coach or car, streetcar, bus, airplane, trailer, or similar structure, vehicle, or device originally intended for transporting people or goods.

(b) A person shall not place or use a conveyance as a building for the operation of a use. It is a defense to prosecution that the use of a conveyance is permitted under this section.

(c) A person may obtain permission to use a conveyance as a building for the operation of a use at
§ 51A-4.603 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-4.603

a location properly zoned for the use if the device contributes to a theme or period development. The person shall submit an application to the director requesting approval of the proposal. Within 60 days of receipt of the application, the commission shall submit its recommendation of approval or disapproval to the city council which may approve or reject a resolution authorizing the use. The conveyance must comply with all applicable ordinances and regulations.

(d) A person may use a conveyance as a temporary office, but not as a residence, in connection with the sale of real estate within a specific development project, after obtaining a building permit and certificate of occupancy from the building official. The following measures to assure sanitary conditions must be taken:

(1) If sanitary sewer facilities are available, temporary plumbing connections must be made as prescribed by the Dallas plumbing code. No permanent plumbing connection is permitted.

(2) If sanitary sewer facilities are not available, sanitation facilities must be provided in accordance with the rules and regulations of the department of code compliance. No building permit or certificate of occupancy may be issued by the building official without the approval of the department of code compliance.

(3) Electrical service in connection with the use described in this subsection must be limited to temporary pole service.

(e) Governmental agencies and civic organizations may conduct a use in a conveyance in accordance with this subsection.

(1) The use must be sponsored by and under the direct control of a governmental agency or civic organization.

(2) The use must be a function relating to the public health, safety, and welfare such as driver training, consumer and homemaking education, dental hygiene, mobile library, mobile x-ray unit, or other similar public service use that due to the equipment involved, logistics of scheduling locations and the times needed in a specific community, the use is not appropriate for a permanent location.

(3) The conveyance must be self-contained requiring only electrical service. Only one electrical hook-up station served by a separate electrical service accommodating not more than two conveyances is permitted on any premise. The hook-up station must be a permanent installation installed under permit. Temporary electrical or plumbing connections to existing facilities are not permitted.

(4) The conveyance may be located in any zoning district; however, in residential districts, the location is restricted to properties owned and operated by sponsoring agencies. A sponsoring agency may by agreement reciprocate with other sponsoring agencies to use their premises.

(5) The conveyance must comply with setback requirements of this chapter and the building code.

(6) One sign that does not exceed 30 square feet in size may be attached to each side of the conveyance.

(f) A person shall not place or use a conveyance as a dwelling unit. It is a defense to prosecution under this subsection that:

(1) the person uses a railroad work car, caboose, or converted freight car as a dwelling unit when it is confined to rails and located on the right-of-way of a railway doing business as a common carrier; or

(2) the person uses a manufactured home or self-propelled recreational vehicle as a dwelling unit in a properly zoned district.

(g) A person may use a conveyance as a building for the operation of a recycling collection center.

(h) A person may use a conveyance as a building for the operation of x-ray or other imaging equipment provided it is used in conjunction with a medical clinic or ambulatory surgical center use or a hospital use.
(i) A person may use a conveyance as a building for the purpose of storing food products provided:

1. the conveyance is used in conjunction with a permitted use;

2. a temporary food service permit is obtained from the Department of Health and Human Services; and

3. the use of the conveyance is limited to no more than twice each calendar year for a maximum period of 15 consecutive days.

(j) A person may use a conveyance as a building for food preparation from mobile vans and trucks provided:

1. the conveyance is only allowed in the CS, LI, IR, and IM districts;

2. the conveyance meets the standards of the department of code compliance;

3. the conveyance is operated as a temporary use which is accessory to the main use on the property for the purpose of cooking, wrapping, packaging, processing, or portioning ready-to-eat food for service, sale, or distribution; and

4. all required permits are obtained from the department of code compliance. (Ord. Nos. 19455; 19786; 20360; 21398; 21895; 22759; 23694; 27697)

SEC. 51A-4.604. RESTRICTIONS ON ACCESS THROUGH A LOT.

(a) Access to a use may not go through a lot in a residential district unless the use is permitted in that residential district. If the use is permitted in the residential district by SUP only, the access is also permitted by SUP only.

(b) This section does not affect access to a use through a lot in a nonresidential district. (Ord. 20238)

SEC. 51A-4.605. DESIGN STANDARDS.

(a) Design standards for large retail uses.

1. Purpose. Large retail uses often have negative impacts on community aesthetics, the environment, mass transit, pedestrian circulation, the scale and rhythm of streetscapes, traffic, and urban sprawl. These design standards are intended to ensure that large retail uses are compatible with the surrounding area and mitigate the negative impact of large retail uses while allowing creativity, flexibility, and variety in design. These design standards are also intended to make adaptive reuse of large retail spaces possible.

2. Applicability.

(A) These design standards apply to the following uses built after October 27, 2004, and the following existing uses expanded to 100,000 square feet or more:

(i) In Chapter 51:

(aa) Retail stores other than listed uses of 100,000 square feet or more.

(bb) Retail food store uses of 100,000 square feet or more.

(cc) Furniture store uses of 100,000 square feet or more.

(dd) Home improvement center uses of 100,000 square feet or more.

(ii) In Chapter 51A:

(aa) Furniture store uses of 100,000 square feet or more.

(bb) General merchandise and food store uses of 100,000 square feet or more.

(cc) Home improvement center, lumber, brick or building material sales yard uses of 100,000 square feet or more.
(B) These design standards do not apply to a covered mall building containing more than 500,000 square feet. These design standards do apply to any use listed in Subparagraph (A) within a covered mall building (an anchor tenant) that has a means of ingress and egress independent of the covered mall building and does not have an entrance into the common pedestrian area.

(C) The landscape requirements of these design standards may be used to satisfy any landscaping required by Article X.

(D) In the event that these design standards conflict with other requirements of this chapter, the more stringent requirement applies.

(3) Definitions. The following definitions apply to these design standards:

(A) COVERED MALL BUILDING means a single building enclosing 10 or more retail, personal service, and office uses that have access into a climate-controlled common pedestrian area.

(B) FACADE WALL means any separate face of a building, including parapet walls and omitted wall lines, or any part of a building that encloses usable space. Where separate faces are oriented in the same direction, or in the directions within 45 degrees of one another, they are considered as part of a single facade wall.

(C) FRONT PARKING AREA means, for developments with a single use, the area in front of a line parallel to and extending outward from the primary facade wall to the property lines, and means, for developments with multiple uses, the area between two lines at the corners of the primary facade wall and perpendicular to the primary facade wall and extending to the property line.

(D) PRIMARY FACADE WALL means the facade wall containing the primary entrance. If two or more facades walls have entrances of equal significance, each facade wall will be considered a primary facade wall.

(E) REAR FACADE WALL means the facade wall containing service areas.

(F) SIDE FACADE WALL means any facade wall that is not a primary facade wall or a rear facade wall.

(G) SERVICE AREA means any area for loading docks, outdoor storage (other than an outdoor display, sales, and storage area), trash collection or compaction, truck parking, or other similar functions.

(4) Facade walls. Primary facade walls and side facade walls must incorporate at least three of the following design elements. Rear facade walls must incorporate at least two of the following design elements. The cumulative length of these design elements must extend for at least 60 percent of the facade wall’s horizontal length.

(A) A repeating pattern of wall recesses and projections, such as bays, offsets, reveals, or projecting ribs, that have a relief of at least eight inches.

(B) At least three of the following design elements at the primary entrance, so that the primary entrance is architecturally prominent and clearly visible from the abutting street:

(i) Architectural details such as arches, friezes, tile work, murals, or moldings.

(ii) Integral planters or wing walls that incorporate landscaping or seating.

(iii) Enhanced exterior light fixtures such as wall sconces, light coves with concealed light sources, ground-mounted accent lights, or decorative pedestal lights.

(iv) Prominent three-dimensional features, such as belfries, chimneys, clock towers, domes, spires, steeples, towers, or turrets.

(v) A repeating pattern of pilasters projecting from the facade wall by a minimum of eight inches or architectural or decorative columns.

(C) Arcades, awnings, canopies, covered walkways, or porticos.

(D) Display windows, faux windows, or decorative windows.
(E) Trim or accent elements using decorative contrasting colors or decorative neon lighting of at least 10 percent of the area of the facade wall exclusive of fenestration.

(5) Facade wall changes. Facade walls must have a one or more of the following changes:

(A) Changes of color, texture, or material, either diagonally, horizontally, or vertically, at intervals of not less than 20 feet and not more than 100 feet.

(B) Changes in plane with a depth of at least 24 inches, either diagonally, horizontally, or vertically, at intervals of not less than 20 feet and not more than 100 feet.

(6) Materials and colors.

(A) No more than 75 percent of the area of a facade wall, exclusive of fenestration, may have a single material or color.

(B) The following materials may only be used on rear facade walls:

(i) Smooth-faced concrete block that is non-tinted or non-burnished.

(ii) Tilt-up concrete panels that are unadorned or untextured.

(iii) Prefabricated steel panels.

(7) Roofs.

(A) Roof-mounted mechanical equipment, skylights, and solar panels must be screened or set back so that they not visible from a point five feet, six inches above grade at the property line. Screening materials must match the materials and colors used on the main building. Chain link fence may not be used as a screening material.

(B) Roofs must have at least one of the following design elements:

(i) Parapets with horizontal tops having height changes of at least one foot occurring horizontally no less than every 100 feet. Parapets that do not have horizontal tops must have pitched or rounded tops with a pattern that repeats or varies no less than every 100 feet. All parapets must have detailing such as cornices, moldings, trim, or variations in brick coursing.

(ii) Sloping roofs with at least two of the following design elements:

(aa) Slope of at least 5:12.

(bb) Two or more slope planes.

(cc) Overhanging eaves extending at least three feet beyond the supporting wall.

(8) Parking lots and landscaping.

(A) Landscaped islands of a minimum of 20 square feet per row of cars must be placed at both ends of each grouping of parking rows. Landscaped islands must have ground cover and trees or shrubs.

(B) Parking lots must be divided into sections containing no more than 120 parking spaces. Parking lot sections must be divided by landscaped dividers with a minimum width of five feet. Landscaped dividers must have trees spaced at a maximum of 30 feet on center and ground cover or shrubs. Parking lot sections may contain up to 160 parking spaces if, in addition to the landscaped divider, each grouping of parking rows is divided by a landscape island of a minimum of 20 square feet per row of cars. Landscaped islands must have ground cover and trees or shrubs.

(C) No more than two-thirds of the off-street parking spaces may be located in the front parking area. If more than 50 percent of a parking space is within the front parking area, then that parking space shall be counted as being within the front parking area. The two-thirds limitation on off-street parking within the front parking area may be exceeded if one additional tree beyond the requirements of these design standards is provided within the front parking area for every 15 off-street additional parking spaces or fraction thereof located within the front parking area.
(D) Parking lots must have a pedestrian pathway system distinguished from the parking and driving surface by landscape barriers or a change in surface materials such as pavers or patterned concrete. Pedestrian pathways may not be distinguished by paint alone. Pedestrian pathways must be a minimum of eight feet wide. Pedestrian pathways must connect mass transit stops, parking areas, public sidewalks, and public rights-of-way to the primary entrance.

(E) A landscaped buffer strip with a minimum width of 20 feet must be located between any parking area and any public right-of-way other than alleys. The landscape buffer may be interrupted by vehicular and pedestrian access areas. The landscape buffer strip may be located in whole or in part in the public right-of-way if the requirements of Chapter 43 of the Dallas City Code are met. The landscape buffer strip must have an evergreen berm with a minimum height of three feet. If the topography prevents installation of a berm, an evergreen hedge with a minimum height of three feet may be substituted. The landscape buffer must also have trees spaced at a maximum of 30 feet on center.

(F) Trees spaced at a maximum of 30 feet on center must be provided within 20 feet of the primary facade wall and one side facade wall for at least 50 percent of the length of each facade wall. Trees may be located in the public right-of-way if the requirements of Chapter 43 of the Dallas City Code are met. Trees must be planted in a landscape strip with a minimum width of five feet or in tree wells with minimum dimensions of five feet by five feet.

(G) Parking areas must have access, either directly or via a private access drive, to a four-lane public street with two lanes in each direction or to a two-lane one-way public street.

(H) Shopping cart storage areas in parking lots must be screened with landscaping along the length of the shopping cart storage area facing any public right-of-way other than alleys.

(9) Miscellaneous design standards.

(A) Service areas must be oriented so that they are not visible from abutting public rights-of-way or residential zoning districts, or must be screened from abutting public rights-of-way or residential zoning districts by solid masonry screening with a minimum height of eight feet extending the entire length of the service area.

(B) Automotive service bays must be oriented away from any public right-of-way or residential zoning district, unless screened from view with solid masonry screening with a minimum height of eight feet extending the entire length of the automotive service bays.

(C) Mechanical equipment on the ground must be screened using materials matching the materials and colors used on the main building. Chain link fence may not be used as a screening material.

(D) Merchandise may not be displayed or stored in parking areas or on sidewalks adjacent to facade walls, except in screened outdoor display, sales, and storage areas.

(E) Outdoor display, sales, and storage areas, such as nursery departments, must be enclosed by screening with a solid base with a minimum height of three feet surmounted by a wrought iron or tubular steel fence with a minimum height of five feet. The screening must be surmounted with a minimum of two feet of fascia with materials and colors matching the main building. No merchandise other than trees may be visible above the screening.

(F) Shopping cart storage areas adjacent to facade walls (not in parking lots) must be screened with landscaping or materials matching the materials of the primary facade wall. No more than two shopping cart storage areas (one on each side of an entrance) may be provided on any facade wall. Shopping cart storage areas may not exceed 20 feet in length.

(G) In the CA-1 and CA-1(A) districts, a minimum of 75 percent of the primary facade wall must be set back no more than 15 feet.

(H) If the use is within 300 feet of a residential zoning district or a zoning district that allows residential uses, the following restrictions apply. For purposes of this provision, measurements are made in a straight line, without regard to intervening structures or objects, from the nearest...
boundary of the lot where the use is conducted to the nearest boundary of the zoning district in issue.

   (i) External speakers are prohibited.

   (ii) Staging, loading, or idling of commercial vehicles in a service area is prohibited between the hours of 10:00 p.m. and 7:00 a.m. Signs prohibiting staging, loading, or idling of commercial vehicles between the hours of 10:00 p.m. and 7:00 a.m. must be posted every 100 feet adjacent to the service area.

   (iii) An external lighting plan demonstrating compliance with all city ordinances must be submitted to and approved by the building official prior to the issuance of a building permit for new construction, a building permit to expand to 100,000 square feet or more, or a certificate of occupancy.

(10) Variations and exceptions. The city plan commission, whether or not a specific use permit is required, may approve a site plan that does not comply with the requirements of these design standards provided that:

   (A) strict compliance with these design standards is impractical due to site constraints or would result in substantial hardship;

   (B) the site plan complies with the spirit and intent of these design standards;

   (C) the site plan furthers the stated purpose of these design standards; and

   (D) the variation or exception from these design standards will not adversely affect surrounding properties.

The city plan commission shall follow the same procedure used for approval of minor amendments to development plans and the fee for a minor plan amendment shall apply. (Ord. Nos. 25785; 27404; 28553)
§ 51A-4.701 Dallas Development Code: Ordinance No. 19455, as amended

(i) the location of the urban corridor district site showing frontage along an urban corridor, indicating existing widths of rights-of-way, number of lanes, lane widths, and street designations according to the city’s thoroughfare plan or Texas Department of Transportation;

(ii) the existing zoning district classifications and land uses for all properties within 250 feet of the area of request;

(iii) the proposed urban corridor lot dimensions, lot area, existing building footprints, and setback lines showing buildable area based on urban corridor regulations; and

(iv) the proposed mix of land uses.

(b) Commission report and recommendation required.

(1) The commission shall make a report and recommendation to the city council on all proposed amendments to this article or requests for a change in a zoning district classification or boundary.

(2) The director shall conduct those studies necessary for the commission to make its recommendation and report to city council.

(3) The commission or a committee of the commission shall hold a public hearing to allow proponents and opponents of an amendment to this article or request for a change in a zoning district classification or boundary to present their views.

(4) Before the commission holds the public hearing on an amendment to this article or on a request for a change in a zoning district classification or boundary, the director shall give notice of the public hearing in the official newspaper of the city at least 10 days before the hearing.

(5) The director shall send written notice of a public hearing on a city council, city plan commission, or landmark commission authorized hearing for a change in a zoning district classification or boundary to all owners of real property lying within 200 feet of the boundary of the area of request. See Section 51A-1.105 for the notification area for other applications. The measurement of the notification area includes streets and alleys. The notice must be given not less than 10 days before the date set for the hearing by depositing the notice properly addressed and postage paid in the United States mail to the property owners as evidenced by the last approved tax roll. This notice must be written in English and Spanish if the area of request is located wholly or partly within a census tract in which 50 percent or more of the inhabitants are persons of Spanish origin or descent according to the most recent federal decennial census. The applicant may not alter, change, amend, enlarge, or withdraw a portion of an application after notices have been mailed for the public hearing.

(6) The commission shall make its recommendation on a proposed amendment to this article or request for a change in a zoning district classification or boundary from staff reports of the director, field inspections and the evidence presented at the public hearing.

(7) The director shall forward to the city council the commission’s recommendation and report on all amendments to this article and requests for a change in a zoning district classification or boundary except that when the request for a change in a zoning district classification or boundary is denied by the commission, the director shall not forward that recommendation and report to the city council unless the applicant within 10 days of the denial files with the director a request in writing that the city council review the commission’s findings.

(8) A request for a change in a zoning district classification or boundary that has been forwarded to the city council may not be held for longer than six months from the date of the commission’s action without being scheduled for a city council hearing. The commission shall review a request for a change in a zoning district classification or boundary that has not been scheduled within six months of the commission’s action to determine whether a time extension should be granted for a specified period or whether the application should be terminated and declared null and void.
§ 51A-4.701 Dallas Development Code: Ordinance No. 19455, as amended

(c) **City council action.**

(1) Before the city council holds the public hearing on an amendment to this article or on a request for a change in a zoning district classification or boundary, the city secretary shall give notice of the public hearing in the official newspaper of the city at least 15 days before the hearing.

(2) An amendment to this article and requests for a change in a zoning district classification or boundary must be approved by the affirmative vote of a majority of city council members present; except, the favorable vote of three-fourths of all members of the city council is required if:

(A) the request for a change in a zoning district classification or boundary has been recommended for denial by the commission; or

(B) a written protest against a change in a zoning district boundary or classification has been signed by the owners of 20 percent or more of either the land in the area of request or land within 200 feet, including streets and alleys, measured from the boundary of the area of request and the protest has been filed with the director.

(3) When city council passes an amending ordinance, the city secretary shall file the amending ordinance in the official city records. Unless the amending ordinance expressly indicates otherwise, the area of request is presumed to include the area to the centerline of an adjacent street or alley.

(d) **Two year limitation.**

(1) Except as provided in Subsections (d)(2) and (d)(3), after a final decision is reached by the commission or city council either granting or denying a request for a change in a zoning district classification or boundary, no further applications may be considered for that property for two years from the date of the final decision.

(2) If the commission or the city council renders a final decision of denial without prejudice, or if the city council grants a specific use permit and imposes a time limit of two years or less, the two year limitation is waived.

(3) A property owner may apply for a waiver of the two year limitation in the following manner:

(A) The applicant shall submit his request in writing to the director. The director shall inform the applicant of the date on which the commission shall consider his request and shall advise the applicant of his right to appear before the commission.

(B) The commission may waive the time limitation if there are changed circumstances regarding the property sufficient to warrant a new hearing. A simple majority vote by the commission is required to grant the request. If a rehearing is granted, the applicant shall follow the procedure for an amendment to this article or a request for a change in a zoning district classification or boundary.

(C) If the commission denies the request, the applicant may appeal in writing to the city council by filing an appeal with the director.

(e) **Postponements.**

(1) The applicant and the opponents shall each be allowed to postpone one hearing date before the commission and one hearing date before the city council.

(2) A request for postponement must be in writing and must be submitted to the director no later than 5:00 p.m. on the Monday of the week preceding the week of the hearing. If the deadline falls on an official city holiday, then the request must be submitted no later than noon on the following day.

(3) Before a hearing to be held by the city plan commission may be postponed, the person requesting postponement shall pay a fee of $150.00 to the director. Before a hearing to be held by the city council may be postponed, the person requesting postponement shall pay a fee of $150.00 to the director.

(4) Only the applicant or his representative may postpone the hearing date prior to the mailing of the hearing notices. A hearing postponed by the applicant or his representative whether prior to the mailing of required notices or after the mailing of
required notices may be postponed for no longer than 60 days from the date of the scheduled or advertised hearing. If the applicant fails to request in writing within 60 days a new hearing date, the application is automatically withdrawn, and the director shall return the application to the applicant and the filing fee, less that amount necessary for administrative cost as determined by the director.

(5) Only a property owner within the area of notification may request a postponement for the opposition. The request for postponement must set forth the grounds for the postponement and must be signed by the party making the request. If postponed, the case will be rescheduled for the next hearing date that is four weeks or more in the future, unless the party making the request requests an earlier date.

(f) Withdrawals.

(1) If an applicant desires to withdraw his application, the applicant shall request in writing to withdraw an entire application for a change in a zoning district classification or boundary.

(2) If the applicant withdraws the application prior to the mailing of notice, the director shall return the application to the applicant. The director shall determine the administrative cost of processing the application, and shall return the filing fee less the administrative cost to the applicant.

(3) If the applicant withdraws the application after the mailing of notices for a public hearing before the commission, the applicant shall forfeit 65 percent of the filing fee to cover the administrative cost.

(A) If the application is withdrawn before 5:00 p.m. of the day that will leave five full working days (excluding Saturdays, Sundays and official city holidays) before the date of the hearing, the applicant shall not be subject to the two year waiting period required in Subsection (d).

(B) If an applicant requests withdrawal after 5:00 p.m. of the day that will leave five full working days (excluding Saturdays, Sundays and official city holidays) before the date of the hearing, the commission shall hold the public hearing and make a formal recommendation on the application. The applicant shall be subject to the two year waiting period required in Subsection (d).

(4) Once the commission has acted on a request for a change in a zoning district classification or boundary, the applicant may withdraw his application, but the entire application fee shall be retained by the city to cover administrative cost if:

(A) the commission approved the request; or

(B) the commission denied the request, but the applicant within 10 days of the denial files with the director a request in writing that the city council review the commission’s findings.

(5) If the commission denies a request for a change in a zoning district classification or boundary and the applicant does not appeal the decision to city council, the city controller shall refund 35 percent of the filing fee to the applicant.

(g) Written protest procedures.

(1) Purpose.

(A) The state law expressly enables the governing body of a municipality to establish procedures for adopting and enforcing zoning regulations and district boundaries. Pursuant to that authority, the city council enacts this subsection governing the receipt of written protests submitted for the purpose of requiring the favorable vote of three-fourths of all members of the city council to effect a change in a zoning district classification or boundary.

(B) This subsection is not intended to conflict with the state law; it is being enacted at a time when the state law does not explicitly provide how, when, or where a written protest must be filed. The city council expressly recognizes that this subsection may be partially or completely preempted at any such time that the state law is amended to explicitly provide how, when, or where a written protest must be filed.

(C) This subsection is intended to accomplish the following listed objectives which, in the
opinion of the city council, are fully in keeping with the purposes, spirit, and intent of the state law:

(i) To allow the staff sufficient time to accurately calculate the land area percentages that determine the voting requirement.

(ii) To protect the rights of all parties by establishing minimum criteria to assure the reliability of written protests received.

(iii) To protect the rights of those protesting by establishing procedures and deadlines which are not unduly burdensome or restrictive.

(iv) To promote order and maintain the integrity of the zoning process.

(2) Form of protest.

(A) A protest must be in writing and, at a minimum, contain the following information:

(i) A description of the zoning case at issue.

(ii) The names of all persons protesting the proposed change in zoning district classification or boundary.

(iii) A description of the area of lots or land owned by the protesting parties that is either covered by the proposed change or located within 200 feet of the area covered by the proposed change.

(iv) The mailing addresses of all persons signing the protest.

(v) The date and time of its execution.

(B) The protest must bear the original signatures of all persons required to sign under Paragraph (3).

(3) Who must sign.

(A) A protest must be signed by the owner of the property in question, or by a person authorized by power of attorney to sign the protest on behalf of the owner. If the property is owned by two or more persons, the protest must be signed by a majority of the owners, or by a person authorized by power of attorney to sign the protest on behalf of a majority of the owners, except that in the case of community property, the city shall presume the written protest of one spouse to be the protest of both.

(B) In the case of property owned by a corporation, the protest must be signed by the president, a vice-president, or by an attorney in fact authorized to sign the protest on behalf of the corporation. In the case of property owned by a general or limited partnership, the protest must be signed by a general partner or by an attorney in fact authorized to sign the protest on behalf of the partnership.

(C) Lots or land subject to a condominium regime are presumed to be commonly owned in undivided interests by the owners of all condominium units and under the control of the governing body of the condominium. For such lots or land to be included in calculating the lots or land area protesting a proposed rezoning, the written protest must state that the governing body of the condominium has authorized a protest in accordance with procedures required by its bylaws, and that the person signing the protest is authorized to act on behalf of the governing body of the condominium. A written protest signed by the owner of an individual condominium unit shall not be accepted unless the filing party produces legal documents governing the condominium which clearly establish the right of an individual owner to act with respect to his or her respective undivided interest in the common elements of the condominium.

(4) When signatures must be acknowledged.

(A) Except as otherwise provided in Subparagraphs (B) and (C), all signatures on a written protest must be acknowledged before a notary public.

(B) A signature on an original reply form sent by the city to the mailing address of the property owner need not be acknowledged.

(C) A signature on a protest delivered in person by the person signing need not be acknowledged if its reliability is otherwise established to the satisfaction of the director. In such a case, a
§ 51A-4.701 Dallas Development Code: Ordinance No. 19455, as amended

summary of the evidence of reliability considered by the director must be endorsed on the protest by the director.

(5) Filing deadline.

(A) A written protest must be filed with the director before noon of the working day immediately preceding the date advertised for the city council public hearing in the statutory notice published in the official newspaper of the city. A protest sent through the mail must be received by the director before the deadline.

(B) Before the public hearing on the case, the filing deadline is automatically extended whenever the public hearing is re-advertised in the official newspaper of the city pursuant to statutory notice requirements.

(C) After the public hearing has begun, the filing deadline may only be extended by calling a subsequent public hearing and advertising that public hearing in the official newspaper of the city pursuant to statutory notice requirements. In such a case, the new filing deadline is noon of the working day immediately preceding the newly advertised public hearing date.

(6) Withdrawals of protests filed. Withdrawals of protests filed must be in writing and filed with the director before the filing deadline. The provisions of this subsection governing the form and filing of protests apply equally to withdrawals.

(7) Presumptions of validity.

(A) In all cases where a protest has been properly signed pursuant to this subsection, the city shall presume that the signatures appearing on the protest are authentic and that the persons or officers whose signatures appear on the protest are either owners of the property or authorized to sign on behalf of one or more owners as represented.

(B) In cases of multiple ownership, the city shall presume that a properly signed protest which on its face purports to represent a majority of the property owners does in fact represent a majority of the property owners.

(C) The presumptions in Subparagraphs (A) and (B) are rebuttable, and the city attorney may advise the city council that a presumption should not be followed in a specific case based on extrinsic evidence presented.

(8) Conflicting instruments. In the event that multiple protests and withdrawals are filed on behalf of the same owner, the instrument with the latest date and time of execution controls. (Ord. Nos. 19455; 19872; 19935; 20037; 20381; 21431; 22389; 24718; 26271; 28096)

SEC. 51A-4.702. PLANNED DEVELOPMENT (PD) DISTRICT REGULATIONS.

(a) General provisions.

(1) Purpose. The purpose of the PD is to provide flexibility in the planning and construction of development projects by allowing a combination of land uses developed under a uniform plan that protects contiguous land uses and preserves significant natural features.

(2) Uses. A PD may contain any use or combination of uses listed in Division 51A-4.200. The uses permitted in a PD must be listed in the ordinance establishing the district.

(3) Signs. An ordinance establishing or amending a PD may not authorize the erection, relocation, or alteration of a detached non-premise sign. A special provision sign district must be established to authorize the erection, relocation, or alteration of a detached non-premise sign. For more information regarding special provision sign districts, see Division 51A-7.500.

(4) Mandatory regulations. The ordinance establishing a PD must specify regulations governing building height, floor area, lot area, lot coverage, density, yards, off-street parking and loading, environmental performance standards, signs, landscaping, and streets and alleys. The following table may be used as a general guide in establishing these regulations:

Dallas City Code 429
### General Guidelines for Establishing PD Regulations

*If platted lots for a single family use have a minimum width of 30 feet at the front property line, then one parking space is required.

(5) **Codification.** The regulations of each PD ordinance shall be codified in Chapter 51P. The conditions in the PD ordinance and the development plan, landscape plan, or conceptual plan are conditions that must be complied with before a certificate of occupancy may be granted.

(6) **Applicable regulations.**

(A) For PDs created on or after March 1, 1987, the regulations in this chapter control unless they are expressly altered by a PD ordinance in accordance with this section. The general guidelines in Subsection (a)(4) control if the PD ordinance does not enumerate the regulations governing building height, floor area, lot area, lot coverage, density, yards, off-street parking and loading, environmental performance standards, signs, landscaping, and streets and alleys.

(B) For PDs created prior to March 1, 1987, the regulations of Chapter 51 control unless they are expressly altered by a PD ordinance in accordance with this section. The general guidelines below control if the PD ordinance does not enumerate the regulations governing building height, floor area, lot area, lot coverage, density, yards, off-street parking and loading, environmental performance standards, signs, landscaping, and streets and alleys.

(C) Some provisions of Chapter 51 have been amended to refer to the parallel provisions in Chapter 51A. This type of amendment has been made to every extent possible in order to make interpretation and application of the code more consistent and simpler. The amendment process is referred to as “call-forwarding the provisions of Chapter 51” because the amendment incorporates by reference into Chapter 51 the corresponding language in Chapter 51A as it exists on the date of amendment and as it may be amended in the future. The following apply when interpreting call-forwarded provisions of Chapter 51 for planned development districts created under Chapter 51 of the Dallas City Code.

(i) If a call-forwarded provision contains a cross-reference in Chapter 51A to another section in Chapter 51A, the cross-reference should be read to apply to the parallel provisions in Chapter 51.

--- For example, the sexually oriented business regulations in Section 51-4.221 have been call-forwarded. Within those regulations, there is a reference to Section 51A-4.217, the accessory use regulations in Chapter 51A. When applying these regulations to a Chapter 51 planned development district, reference should be made to Section 51-4.217, the accessory use regulations in Chapter 51.

--- Similarly, Section 51-4.324 has been call-forwarded. Section 51-4.324(b)(1)
§ 51A-4.702  Dallas Development Code: Ordinance No. 19455, as amended

refers to “residential districts.” The definition of “residential districts” is located in Section 51A-2.102(119), but the definition makes reference to only Chapter 51A districts. When applying Section 51A-4.324(b)(1) to a Chapter 51 planned development district, reference should be made to the definition of “residential districts” in Chapter 51, which is provided in Section 51-2.102(104).

The building official shall determine the parallel provision in Chapter 51 when applying a call-forwarded regulation.

(ii) If a call-forwarded provision contains a reference to “this chapter,” Chapter 51 should also be included in its application. If a call-forwarded provision contains a reference to “this section” or another internal cross reference, and the regulation referenced has not been call-forwarded, the parallel provision in Chapter 51 applies. The building official shall determine the parallel cross-reference in Chapter 51 when applying a call-forwarded regulation.

(iii) If a district category is referenced in a call-forwarded provision, that district category, as defined in Chapter 51, should be included in the application of the regulation. For example, if a regulation has been call-forwarded, and the corresponding regulation in Chapter 51A applies to “industrial districts,” the regulation applies to the Industrial-1, Industrial-2, and Industrial-3 districts when applied to a Chapter 51 planned development district. The building official shall determine the parallel district category in Chapter 51 when applying a call-forwarded regulation.

(iv) If a use category is referenced in a call-forwarded provision, that use category, as defined in Chapter 51, should be included in the application of the regulation. For example, if a regulation has been call-forwarded, and the corresponding regulation in Chapter 51A applies to “transportation uses,” the regulation also applies to the transportation uses contained in Chapter 51 when applied to a Chapter 51 planned development district. The building official shall determine the parallel use category in Chapter 51 when applying a call-forwarded regulation.

(5) The general guidelines below control if a provision of Chapter 51 has been call-forwarded to the parallel provision in Chapter 51A, and the regulation in Chapter 51A refers only to a Chapter 51A zoning classification in its application.

(7) Subdistricts. For purposes of determining the applicability of regulations in this chapter triggered by adjacency or proximity to another zoning district, any identifiable portion of a PD governed by a distinct set of use regulations is treated as though it were a separate zoning district. If the PD
§ 51A-4.702 Dallas Development Code: Ordinance No. 19455, as amended

(51A-4.702) or a portion of the PD is limited to those uses permitted in an expressly stated zoning district, the PD or portion of the PD is treated as though it were that expressly stated zoning district; otherwise it is treated as though it were:

(A) a TH-3(A) zoning district if it is restricted to single family and/or duplex uses;

(B) an MF-2(A) zoning district if it is restricted to residential uses not exceeding 36 feet in height and allows multifamily uses;

(C) an MF-3(A) zoning district if it is restricted to residential uses and allows multifamily uses exceeding 36 feet in height; or

(D) a nonresidential zoning district if it allows a nonresidential use.

(8) Residential proximity slope.

(A) The residential proximity slope defined in Section 51A-4.412 governs development in a PD only to the extent that it is expressly incorporated into the height regulations of the PD ordinance.

(B) Pursuant to Resolution No. 87-2319, the city council may authorize exceptions to the residential proximity slope by establishing PD’s in high-intensity commercial growth nodes, as described in the city’s growth policy plan, in order to accomplish objectives such as transit ridership or residential development, or to achieve other economic or development objectives.

(b) PD preapplication conference.

(1) An applicant for a PD shall request a preapplication conference with the director.

(2) At the preapplication conference, the applicant shall provide a sketch plan that includes, but is not limited to, the following information: proposed land uses, density, approximate gross square footage of nonresidential uses, access, projected height, topography, and significant environmental features.

(3) Based on the information provided by the applicant, the director shall:

(A) provide initial comments concerning the merits of the proposed development;

(B) state what information must be provided in the site plan application for a complete review of the proposed development; and

(C) provide any other information necessary to aid the applicant in the preparation of the site plan application.

(c) PD application procedure.

(1) The applicant for a PD shall comply with the zoning amendment procedure for a change in the zoning district classification.

(2) At the time of applying for a change in zoning district classification, an applicant shall submit:

(A) a site analysis in accordance with Subsection (d); and

(B) a development plan in accordance with Subsection (e).

(3) The applicant may initially submit a conceptual plan in accordance with Subsection (f) instead of a development plan if the conceptual plan provides sufficient information for the city plan commission and city council to act on the PD application. If the applicant initially submits a conceptual plan, the applicant shall submit a complete development plan that complies with the conceptual plan and the conditions of the PD ordinance, and that must be approved by the city plan commission before the issuance of a building permit. If the city plan commission disapproves the development plan, the applicant may appeal the decision to the city council.

(4) An applicant may also be required to submit a development schedule in accordance with Subsection (g).

(d) Site analysis.

(1) The site analysis must be prepared on a topography base map with one-foot, two-foot, or five-foot contour intervals, and must describe existing
natural features and physical improvements by including the following items:

(A) Location of flood plains, water bodies, creeks, marshes, drainage areas, trees near proposed construction activity (including caliper, common name, and scientific name [trees in close proximity that all have a caliper of less than eight inches may be designated as a “group of trees” with only the number noted]), rock outcroppings, important view corridors of scenic vistas and skylines, and any other significant natural features.

(B) Location, identification, and dimensions of all existing public and private easements.

(C) Location of major utility trunk lines and future tie-ins.

(D) Identification of land uses, cemeteries, and historic landmarks on and adjacent to the site.

(E) Location of existing structures within the site and the improvements to be retained.

(F) A site location map on a smaller scale showing major circulation routes and other landmarks that would aid in the location of the site.

(2) If the director determines that the site analysis or one or more of the items listed in Paragraph (1) is not necessary to allow for a complete review of the proposed development, the director shall waive the requirement that the site analysis or the item(s) be provided. In making this determination, the director shall consider the existing topography, conditions, and natural features of the site.

(e) Development plan.

(1) The development plan may be on a single drawing and must clearly indicate:

(A) any proposed public or private streets and alleys;

(B) building sites;

(C) areas proposed for dedication or reserved as parks, open space, parkways, playgrounds, utility and garbage easements, school sites, street widenings, or street changes;

(D) the points of ingress and egress from existing public streets;

(E) an accurate survey of the boundaries of the site;

(F) topography of the site with one-foot, two-foot, or five-foot contour intervals, or spot grades where relief is limited;

(G) location of proposed land uses;

(H) the location of buildings and the minimum distance between buildings and between buildings and property lines, street and alley rights-of-way, and private streets;

(I) the arrangement of off-street parking and loading. This may be indicated as a ratio of off-street parking and loading area to building area if all off-street parking and loading areas are indicated for the site and there is an example that demonstrates a common feasible method of providing the off-street parking and loading;

(J) indication of any special traffic regulation facilities proposed or required;

(K) screening, landscaping, and major tree groupings to be retained if this information is essential to the proper arrangement of the development in relation to adjacent property and internal land uses;

(L) location of cemeteries and historic landmarks;

(M) location of flood plains, water bodies, creeks, marshes, drainage areas, conservation areas, tree groupings, and any other significant natural features to be preserved during development;

(N) location of all major natural or man-made surface drainage features; and
§ 51A-4.702 Dallas Development Code: Ordinance No. 19455, as amended

(2) If the director determines that the items in Subparagraphs (F), (G), (J), or (O) are not necessary to allow for a complete review of the proposed development, the director shall waive the requirement that the item(s) be provided. In making this determination, the director shall consider the existing conditions of the property and the extent of the changes necessitated by the proposed development. The director shall notify the city plan commission of any items that have been waived.

(3) The city plan commission may require elevations and perspective drawings for buildings more than 12 feet in height that are not to be used for single family or duplex uses.

(4) The applicant shall submit a legal instrument establishing a plan for the use and permanent maintenance of any area or lot that is to be entirely devoted to open space that is not part of a building site before the development plan may be approved. The legal instrument must be approved by the city attorney as to legal form, and by the city plan commission as to the suitability for the proposed use of the open space.

(f) Conceptual plan. The conceptual plan must indicate:

1. topography of the site with one-foot, two-foot, or five-foot contour intervals, or spot grades where relief is limited;

2. location of significant natural features to be preserved during development;

3. location of cemeteries and historic landmarks;

4. the location of all land use areas showing the gross acreage for each use or category of use, maximum lot coverage, net residential densities, floor area ratio for each use or category of use, and the approximate floor area for all nonresidential uses;

5. delineation of all undeveloped areas to be conserved as open space;

6. identification of all areas to be dedicated to the city and areas designated as common areas;

7. indication of maximum heights for all structures in feet and stories;

8. location of required screening and buffer areas between the site and adjacent property and between land uses within the site;

9. location of minimum building setbacks along the site boundaries, on dedicated streets, and between residential and nonresidential uses;

10. identification of major access points and rights-of-way to be dedicated to the city; and

11. indication of each phase of development if separate phases are proposed.

(g) Development schedule.

1. The applicant for a PD shall, if the applicant desires or the city plan commission or city council requires, submit a development schedule indicating the date on which construction is to begin and the rate of development until completion. A city council approved development schedule must be included in the ordinance establishing the PD.

2. If the applicant fails to meet the development schedule, the commission may call a public hearing to determine the proper zoning district classification for all or part of the PD.

3. The applicant may apply to the city plan commission for an extension of the development schedule. If the city plan commission denies the extension, the applicant may appeal the decision to the city council.

4. When a development schedule extends for more than one year, the building official shall annually report to the city plan commission the actual development in the PD compared with the development schedule.
(h) Amendments to the development plan.

(1) Purpose and scope. The minor amendment process allows flexibility as necessary to meet the contingencies of development. Amendments that do not qualify as minor amendments must be processed as a zoning amendment. Minor amendments are limited to minor changes in the development plan that otherwise comply with the PD ordinance and do not:

(A) alter the basic relationship of the proposed development to adjacent property;

(B) increase a height shown on the original development plan by more than 10 percent or 12 feet, whichever is less, provided there is no increase in the number of habitable stories or parking levels above grade;

(C) decrease the amount of off-street parking spaces shown on the original development plan so as to create a traffic hazard or traffic congestion or fail to provide adequate parking; or

(D) reduce building setbacks at the boundary of the site shown on the original development plan.

(2) Determination of procedure. Upon receipt of an application, the director shall determine if the proposed amendments are minor amendments and, if so, whether the proposed amendments are to be reviewed under the director procedure, the city plan commission procedure, or the public notice procedure.

(A) Director procedure. The director may forward any application to the city plan commission for review. The director may, however, approve minor amendments to a development plan without the notification described in Section 51A-1.105(k) if:

(i) the purpose of the amendment is to bring the request area into compliance with screening requirements; or

(ii) the proposed development plan:

(aa) does not have residential adjacency;

(bb) does not increase enclosed floor area from that allowed on the original development plan;

(cc) does not increase structure height from that allowed on the original development plan;

(dd) does not change uses from those allowed on the original development plan;

(ee) does not permit access to a street for which no ingress or egress point was previously shown; and

(ff) does not reduce designated perimeter buffer area or designated open space.

The director shall notify the city plan commission of all applications for minor amendments eligible for approval under the director procedure.

(B) City plan commission procedure. The city plan commission may approve a minor amendment to a development plan without the notification described in Section 51A-1.105(k) if the proposed development plan:

(i) does not have residential adjacency;

(ii) does not change uses from those allowed on the original development plan; and

(iii) does not reduce designated perimeter buffer area or designated open space.

(C) Public notice procedure. Minor amendments that do not qualify for the director procedure or the city plan commission procedure must be reviewed under the public notice procedure. The notification described in Section 51A-1.105(k) is required.

(3) “Original development plan.” For purposes of this subsection, “original development plan.”
plan” means the earliest approved development plan that is still in effect, and does not mean a later amended development plan. For example, if a development plan was approved with the planned development district and then amended through the minor amendment process, the original development plan would be the development plan approved with the planned development district, not the development plan as amended through the minor amendment process. If, however, the development plan approved with the planned development district was replaced through the zoning amendment process, then the replacement development plan becomes the original development plan. The purpose of this definition is to prevent the use of several sequential minor amendments to circumvent the zoning amendment process.

(4) Residential adjacency. For purposes of this subsection, a request site has residential adjacency if the portion of the development plan being amended is within 200 feet of:

(A) a lot in an R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(A), MF-2, or MF-2(A) district; or

(B) an area of planned development district that:

(i) is restricted to uses permitted in R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(A), MF-2, or MF-2(A) districts; and

(ii) has a height restriction of 40 feet or less.

A request site does not have residential adjacency if the request site is separated from the areas listed Subparagraphs (i) and (ii) above by a street that measures 65 feet or more in width.

(5) Appeals.

(A) Director procedure. An applicant may appeal the decision of the director to the city plan commission. An appeal must be requested in writing within 10 days after the decision of the director. The proposed minor amendment must then follow the city plan commission procedure.

(B) City plan commission procedure. An applicant may appeal the decision of the city plan commission to the city council. An appeal must be requested in writing within 10 days after the decision of the city plan commission. City council shall decide whether the city plan commission erred, using the same standards that city plan commission used. Appeal to the city council is the final administrative remedy available.

(C) Public notice procedure. An applicant or owner of real property within the notification area may appeal the decision of the city plan commission to the city council. An appeal must be requested in writing within 10 days after the decision of the city plan commission. City council shall decide whether the city plan commission erred, using the same standards that the city plan commission used. Appeal to the city council is the final administrative remedy available.

(i) Amendments to the landscape plan.

(1) Purpose and scope. The minor amendment process allows flexibility as necessary to meet the contingencies of development. Amendments that do not qualify as minor amendments must be processed as a zoning amendment. Minor amendments are limited to minor changes in the landscape plan that otherwise comply with the PD ordinance and do not:

(A) reduce the perimeter landscape buffer strip shown on the original landscape plan;

(B) detrimentally affect the original landscape plan’s aesthetic function relative to adjacent right-of-way or surrounding property; or

(C) detrimentally affect the original landscape plan’s screening or buffering function.

(2) Determination of procedure. Upon receipt of an application, the director shall determine if the proposed amendments are minor amendments and, if so, whether the proposed amendments are to be reviewed under the director procedure, the city plan commission procedure, or the public notice procedure.
§ 51A-4.702 Dallas Development Code: Ordinance No. 19455, as amended

(A) Director procedure. The director may forward any application to the city plan commission for review. The director may, however, approve minor amendments to a landscape plan without the notification described in Section 51A-1.105(k) if:

(i) the proposed minor amendments are necessary to keep landscaping from interfering with service provided by a public utility or state regulated entity for the transmission of power, fuel, water, or communication services; or

(ii) the proposed landscape plan:

(aa) does not change the landscape plan within 25 feet of a property line with residential adjacency;

(bb) does not reduce the number of trees or amount of plan materials in a landscape buffer area (locations and types of trees or plant materials may be altered if the screening and aesthetic function of the buffer area is not affected);

(cc) does not reduce the number of trees or amount of plant materials within 25 feet of a street right-of-way; and

(dd) does not reduce the number of trees, plant materials, or landscape points on the site.

The director shall notify the city plan commission of all applications for minor amendments eligible for approval under the director procedure.

(B) City plan commission procedure. The city plan commission may approve a minor amendment to a landscape plan without the notification described in Section 51A-1.105(k) if the proposed landscape plan does not change the landscape plan within 25 feet of a property line with residential adjacency.

(C) Public notice procedure. Minor amendments that do not qualify for the director procedure or the city plan commission procedure must be reviewed under the public notice procedure. The notification in Section 51A-1.105(k) is required.

(3) “Original landscape plan.” For purposes of this subsection, “original landscape plan” means the earliest approved landscape plan that is still in effect, and does not mean a later amended landscape plan. For example, if a landscape plan was approved with the planned development district and then amended through the minor amendment process, the original landscape plan would be the landscape plan approved with the planned development district, not the landscape plan as amended through the minor amendment process. If, however, the landscape plan approved with the planned development district was replaced through the zoning amendment process, then the replacement landscape plan becomes the original landscape plan. The purpose of this definition is to prevent the use of several sequential minor amendments to circumvent the zoning amendment process.

(4) Residential adjacency. For purposes of this subsection, a request site has residential adjacency if the portion of the landscape plan being amended is within 200 feet of:

(A) a lot in an R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(A), MF-2, or MF-2(A) district; or

(B) an area of a planned development district that:

(i) is restricted to uses permitted in R, R(A), D, D(A), TH, TH(A), CH, MF-1, MF-1(A), MF-2, or MF-2(A) districts; and

(ii) has a height restriction of 40 feet or less.

A request site does not have residential adjacency if the request site is separated from the areas listed Subparagraphs (i) and (ii) above by a street that measures 65 feet or more in width.

(5) Appeals.

(A) Director procedure. An applicant may appeal the decision of the director to the city plan commission. An appeal must be requested in writing within 10 days after the decision of the director. The
proposed minor amendment must then follow the city plan commission procedure.

(B) City plan commission procedure. An applicant may appeal the decision of the city plan commission to the city council. An appeal must be requested in writing within 10 days after the decision of the city plan commission. City council shall decide whether the city plan commission erred, using the same standards that city plan commission used. Appeal to the city council is the final administrative remedy available.

(C) Public notice procedure. An applicant or owner of real property within the notification area may appeal the decision of the city plan commission to the city council. An appeal must be requested in writing within 10 days after the decision of the city plan commission. City council shall decide whether the city plan commission erred, using the same standards that city plan commission used. Appeal to the city council is the final administrative remedy available. (Ord. Nos. 19455; 19786; 20037; 20496; 21243; 22053; 23997; 24232; 24637; 26730; 27404; 28367; 28553; 30808)

SEC. 51A-4.703. BOARD OF ADJUSTMENT HEARING PROCEDURES.

(a) Initiation.

(1) The board may authorize a public hearing on issues within the board’s jurisdiction. A board authorized public hearing must comply with the procedures in this section. If 10 or fewer property owners are involved, the director shall send written notice to the owners of real property within the subject area not less than 10 days before the meeting at which the board will consider authorization of a public hearing. This notice must be written in English and Spanish if the area of request is located wholly or partly within a census tract in which 50 percent or more of the inhabitants are persons of Spanish origin or descent according to the most recent federal decennial census. If more than 10 property owners are involved, the director shall give notice of the public hearing in the official newspaper of the city at least 10 days before the meeting at which the board will consider authorization of a public hearing.

(2) Any aggrieved person, or an officer, department, or board of the city may appeal a decision of an administrative official to the board when that decision concerns issues within the jurisdiction of the board. For purposes of this section, “administrative official” means that person within a city department having the final decision-making authority within the department relative to the zoning enforcement issue.

(A) An appeal to the board must be made within 15 days after notice of the decision of the official.

(B) The appellant shall file with the official a written notice of appeal on a form approved by the board.

(C) The official shall forward the notice of appeal and the record upon which the appeal is based to the director.

(b) Appeal stays all proceedings.

(1) An appeal to the board stays all enforcement proceedings involving the action appealed from unless the official appealed from certifies in writing to the board facts supporting the official’s opinion that a stay would cause imminent peril to life or property.

(2) If the official makes such a finding, enforcement proceedings will be stayed only if, after notice to the official, the board or a court of record, upon a finding of due cause, issues a restraining order.

(c) Notice of hearing.

(1) The board shall hold a public hearing on all applications.

(2) The director shall send written notice of a public hearing to the applicant and all owners of real property located within 200 feet, including streets and alleys, from the boundary of the area upon which the request is made. The notice must be given not less than 10 days before the day set for the hearing by depositing the notice properly addressed and postage paid in the United States mail to the property owners as evidenced by the last approved city tax roll. This
§ 51A-4.703 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-4.704 Dallas Development Code: Ordinance No. 19455, as amended

notice must be written in English and Spanish if the area of request is located wholly or partly within a census tract in which 50 percent or more of the inhabitants are persons of Spanish origin or descent according to the most recent federal decennial census.

(3) The director shall give notice of the time and place of the public hearing in the official newspaper of the city at least 10 days before the hearing.

(d) Board action.

(1) The applicant has the burden of proof to establish the necessary facts to warrant favorable action of the board.

(2) Cases must be heard by a minimum of 75 percent of the members of a board panel. The concurring vote of 75 percent of the members of a panel is necessary to:

(A) reverse an order, requirement, decision, or determination of an administrative official involving the interpretation or enforcement of the zoning ordinance;

(B) decide in favor of an applicant on a matter on which the board is required to pass under state law, the city charter, or city ordinances; or

(C) grant a variance.

(3) The board shall have all the powers of the administrative official on the action appealed from. The board may in whole or in part affirm, reverse, or amend the decision of the official.

(4) The board may impose reasonable conditions in its order to be complied with by the applicant in order to further the purpose and intent of this chapter.

(5) The decision of the board does not set a precedent. The decision of the board must be made on the particular facts of each case.

(6) The applicant shall file an application for a building permit or certificate of occupancy within 180 days from the date of the favorable action of the board, unless the applicant files for and is granted an extended time period prior to the expiration of the 180 days. The filing of a request for an extended time period does not toll the 180 day time period. If the applicant fails to file an application within the time period, the request is automatically denied without prejudice, and the applicant must begin the process to have his request heard again.

(e) Two year limitation.

(1) Except as provided below, after a final decision is reached by the board, no further request on the same or related issues may be considered for that property for two years from the date of the final decision.

(2) If the board renders a final decision of denial without prejudice, the two year limitation is waived.

(3) The applicant may apply for a waiver of the two year limitation in the following manner:

(A) The applicant shall submit his request in writing to the director. The director shall inform the applicant of the date on which the board will consider the request and shall advise the applicant of his right to appear before the board.

(B) The board may waive the two year time limitation if there are changed circumstances regarding the property sufficient to warrant a new hearing. A simple majority vote by the board is required to grant the waiver. If a rehearing is granted, the applicant shall follow the process outlined in this section. (Ord. Nos. 19455; 20926; 22254; 22389; 22605; 25047; 27892; 28073)

SEC. 51A-4.704. NONCONFORMING USES AND STRUCTURES.

(a) Compliance regulations for nonconforming uses. It is the declared purpose of this subsection that nonconforming uses be eliminated and be required to comply with the regulations of the Dallas Development Code, having due regard for the property rights of the persons affected, the public welfare, and the character of the surrounding area.
§ 51A-4.704 Dallas Development Code: Ordinance No. 19455, as amended

(1) Amortization of nonconforming uses.

(A) Request to establish compliance date. The city council may request that the board of adjustment consider establishing a compliance date for a nonconforming use. In addition, any person who resides or owns real property in the city may request that the board consider establishing a compliance date for a nonconforming use. Upon receiving such a request, the board shall hold a public hearing to determine whether continued operation of the nonconforming use will have an adverse effect on nearby properties. If, based on the evidence presented at the public hearing, the board determines that continued operation of the use will have an adverse effect on nearby properties, it shall proceed to establish a compliance date for the nonconforming use; otherwise, it shall not.

(B) Factors to be considered. The board shall consider the following factors when determining whether continued operation of the nonconforming use will have an adverse effect on nearby properties:

(i) The character of the surrounding neighborhood.

(ii) The degree of incompatibility of the use with the zoning district in which it is located.

(iii) The manner in which the use is being conducted.

(iv) The hours of operation of the use.

(v) The extent to which continued operation of the use may threaten public health or safety.

(vi) The environmental impacts of the use’s operation, including but not limited to the impacts of noise, glare, dust, and odor.

(vii) The extent to which public disturbances may be created or perpetuated by continued operation of the use.

(viii) The extent to which traffic or parking problems may be created or perpetuated by continued operation of the use.

(ix) Any other factors relevant to the issue of whether continued operation of the use will adversely affect nearby properties.

(C) Finality of decision. A decision by the board to grant a request to establish a compliance date is not a final decision and cannot be immediately appealed. A decision by the board to deny a request to establish a compliance date is final unless appealed to state court within 10 days in accordance with Chapter 211 of the Local Government Code.

(D) Determination of amortization period.

(i) If the board determines that continued operation of the nonconforming use will have an adverse effect on nearby properties, it shall, in accordance with the law, provide a compliance date for the nonconforming use under a plan whereby the owner’s actual investment in the use before the time that the use became nonconforming can be amortized within a definite time period.

(ii) The following factors must be considered by the board in determining a reasonable amortization period:

(aa) The owner’s capital investment in structures, fixed equipment, and other assets (excluding inventory and other assets that may be feasibly transferred to another site) on the property before the time the use became nonconforming.

(bb) Any costs that are directly attributable to the establishment of a compliance date, including demolition expenses, relocation expenses, termination of leases, and discharge of mortgages.

(cc) Any return on investment since inception of the use, including net income and depreciation.

(dd) The anticipated annual recovery of investment, including net income and depreciation.
(E) Compliance requirement. If the board establishes a compliance date for a nonconforming use, the use must cease operations on that date and it may not operate thereafter unless it becomes a conforming use.

(F) For purposes of this paragraph, “owner” means the owner of the nonconforming use at the time of the board’s determination of a compliance date for the nonconforming use.

(2) The right to operate a nonconforming use ceases if the nonconforming use is discontinued for six months or more. The board may grant a special exception to this provision only if the owner can show that there was a clear intent not to abandon the use even though the use was discontinued for six months or more.

(3) Reserved.

(4) The right to operate a nonconforming use ceases when the use becomes a conforming use. The issuance of an SUP does not confer any nonconforming rights. No use authorized by the issuance of an SUP may operate after the SUP expires.

(5) The right to operate a nonconforming use ceases when the structure housing the use is destroyed by the intentional act of the owner or his agent. If a structure housing a nonconforming use is damaged or destroyed other than by the intentional act of the owner or his agent, a person may restore or reconstruct the structure without board approval. The structure must be restored or reconstructed so as to have the same approximate height, floor area, and location that it had immediately prior to the damage or destruction. A restoration or reconstruction in violation of this paragraph immediately terminates the right to operate the nonconforming use.

(6) The nonconformity of a use as to parking, loading, or an “additional provision” (except for a requirement that a use be located a minimum distance from a structure, use, or zoning district) in Division 51A-4.200 does not render that use subject to the regulations in this subsection.

(b) Changes to nonconforming uses.

(1) Changing from one nonconforming use to another. The board may allow a change from one nonconforming use to another nonconforming use when, in the opinion of the board, the change is to a new use that:

(A) does not prolong the life of the nonconforming use;

(B) would have been permitted under the zoning regulations that existed when the current use was originally established by right;

(C) is similar in nature to the current use; and

(D) will not have an adverse effect on the surrounding area.

(2) Remodeling a structure housing a nonconforming use. A person may renovate, remodel, or repair a structure housing a nonconforming use if the work does not enlarge the nonconforming use. A person may renovate, remodel, or repair a structure housing a nonconforming tower/antenna for cellular communication use if the modification does not substantially change the physical dimensions of the structure housing the nonconforming tower/antenna for cellular communication use. A modification substantially changes the physical dimensions if it meets the criteria listed in 47 C.F.R. §1.40001(b)(7), as amended.

(3) Accessory structure for a nonconforming residential use. An accessory structure for a nonconforming residential use may be constructed, enlarged, or remodeled in accordance with the requirements of Sections 51A-4.209(b)(6)(E)(vii) and 51A-4.217(a) without board approval.

(4) Nonconformity as to parking or loading.

(A) Increased requirements. A person shall not change a use that is nonconforming as to parking or loading to another use requiring more off-street parking or loading unless the additional required off-street parking and loading spaces are provided.
(B) **Delta theory.** In calculating required off-street parking or loading, the number of nonconforming parking or loading spaces for a use may be carried forward when the use is converted or expanded. Nonconforming rights as to parking or loading are defined in the following manner:

Required parking or loading for existing use
- Number of existing parking or loading spaces for existing use
Nonconforming rights as to parking or loading.

(C) **Decreased requirements.** When a use is converted to a new use having a lesser parking or loading requirement, the rights to any portion of the nonconforming parking or loading that are not needed to meet the new requirements are lost.

(5) **Enlargement of a nonconforming use.**

(A) In this subsection, enlargement of a nonconforming use means any enlargement of the physical aspects of a nonconforming use, including any increase in height, floor area, number of dwelling units, or the area in which the nonconforming use operates.

(B) The board may allow the enlargement of a nonconforming use when, in the opinion of the board, the enlargement:

(i) does not prolong the life of the nonconforming use;

(ii) would have been permitted under the zoning regulations that existed when the nonconforming use was originally established by right; and

(iii) will not have an adverse effect on the surrounding area.

(C) Structures housing a nonconforming single family or duplex use may be enlarged without board approval.

(D) A nonconforming tower/antenna for cellular communication use may be enlarged without board approval if the modification enlarging the nonconforming tower/antenna for cellular communication does not substantially change the physical dimensions of the nonconforming tower/antenna for cellular communication use. A modification substantially changes the physical dimensions if it meets the criteria listed in 47 C.F.R. §1.40001(b)(7), as amended.

(c) **Nonconforming structures.**

(1) Except as provided in Subsection (c)(2), a person may renovate, remodel, repair, rebuild, or enlarge a nonconforming structure if the work does not cause the structure to become more nonconforming as to the yard, lot, and space regulations.

(2) The right to rebuild a nonconforming structure ceases if the structure is destroyed by the intentional act of the owner or the owner’s agent.

(3) A person may, without board approval, cause a structure to become nonconforming as to the yard, lot, and space regulations by converting the use of the structure, except that no person may convert its use to a residential use or to one of the nonresidential uses listed below:

-- Airport or landing field.
-- Animal production.
-- Commercial amusement (inside).
-- Commercial amusement (outside).
-- Country club with private membership.
-- Crop production.
-- Drive-in theater.
-- Dry cleaning or laundry store.
-- General merchandise or food store 3,500 square feet or less.
-- General merchandise or food store greater than 3,500 square feet.
-- Helicopter base.
-- Heliport.
-- Helistop.
-- Nursery, garden shop, or plant sales.
-- Personal service use.
-- Private recreation center, club, or area.
-- Public park, playground, or golf course.
-- Restaurant without drive-in or drive-through service.
§ 51A-4.704 Dallas Development Code: Ordinance No. 19455, as amended

-- Restaurant with drive-in or drive-through service.
-- Sand, gravel, or earth sales and storage.
-- Sanitary landfill.
-- STOL (short takeoff or landing) port.
-- Stone, sand, or gravel mining.
-- Temporary construction or sales office.
-- Theater.
-- Transit passenger shelter.

The board may grant a special exception to this provision if the board finds that the conversion would not adversely affect the surrounding properties.

(4) A person may renovate, remodel, repair, rebuild, or enlarge that portion of a nonconforming structure supporting a tower/antenna for cellular communication without board approval if the modification does not substantially change the physical dimensions of the tower or base station. A modification substantially changes the physical dimensions if it meets the criteria listed in 47 C.F.R. §1.40001(b)(7), as amended. (Ord. Nos. 19455; 19786; 20307; 20412; 21553; 22412; 25092; 26511; 29984)

SEC. 51A-4.705. ANNEXED TERRITORY TEMPORARILY ZONED.

(a) All territory annexed to the city is temporarily classified as an agricultural district until permanent zoning district designations are given to the area by the city council.

(b) The procedure for establishing the permanent zoning for annexed territory is the same as provided for zoning amendments.

(c) In an area temporarily classified as an agricultural district, the building official may issue building permits and certificate of occupancy for any use permitted in an agricultural district.

(d) Before permanent zoning is adopted, the building official may issue a building permit and certificate of occupancy for a use other than those permitted in the agricultural district in annexed territory upon approval of the city council in accordance with the following procedure:

SEC. 51A-4.706. RESERVED. (Ord. 19455)
Division 51A-4.800. Development Impact Review.

SEC. 51A-4.801. PURPOSE.

The general objectives of this division are to promote and protect the health, safety, and general welfare of the public through the establishment of an administrative review procedure for certain proposed development considered likely to significantly impact surrounding land uses and infrastructure needs and demands. Development impact review should occur before the developer has completed a full set of working drawings for submission as part of an application for a building permit. As part of the review procedure, the developer may be required to submit a site plan indicating building siting and layout, buffering, landscaping, usable open space, access, lighting, loading, and other specific data. Site plan review is not intended to mandate aesthetics of design, nor is it intended to alter basic development standards such as floor area ratio, density requirements, height, setbacks, and coverage. (Ord. 19455)

SEC. 51A-4.802. DEFINITIONS.

In this article:

(1) BUILDING ENVELOPE means the three dimensional form within which the horizontal and vertical elements of a building are contained.

(2) CALIPER means the diameter of the trunk measured six inches above ground level up to and including four inch caliper size, and measured 12 inches above ground level if the measurement taken at six inches above ground level exceeds four inches. If a tree is of a multi-trunk variety, the caliper of the tree is the average caliper of all of its trunks.

(3) DIR means development impact review.

(4) ESTIMATED TRIP GENERATION means the total number of vehicle trips generated by one or more uses on the lot derived from calculations based exclusively on trip generation assumptions contained in Table 1 in Section 51A-4.803.

(5) RAR means residential adjacency review.

(6) RESTORATION means the act of putting back into a former or original state. (Ord. 19455)

SEC. 51A-4.803. SITE PLAN REVIEW.

(a) When a site plan is required.

(1) Except as otherwise provided in Subsections (a)(3) and (a)(4), a site plan must be submitted in accordance with the requirements of this section before an application is made for a permit for work on an individual lot if the lot is in a district or subdistrict listed in Subsection (a)(2) and:

(A) the estimated trip generation for all uses on the lot collectively is equal to or greater than 6,000 trips per day and 500 trips per day per acre (See Table 1 to calculate estimated trip generation);

(B) the lot contains a use for which DIR is required in the use regulations (See Division 51A-4.200); or

(C) the lot has a residential adjacency as defined in Subsection (d)(3) and contains a use for which RAR is required in the use regulations (See Division 51A-4.200).

(2) The districts and subdistricts listed for purposes of Subsection (a)(1) are:

(A) all nonresidential zoning districts except central area districts; and

(B) SC, GR, LC, HC, O-2, and industrial subdistricts in the Oak Lawn Special Purpose District (Planned Development District No. 193).

'gsf' means gross square feet. These rates are based on the ITE Trip Generation Report, 5th edition, January, 1991. Rates for uses and floor areas not listed shall be based on the ITE Trip Generation Report. Rates for uses and floor areas not listed in the ITE Trip Generation Report shall be determined by the director based on a survey of similar existing uses.
(1) The name, address, telephone number, and signature of the applicant. If the applicant is not the owner of the lot, he must submit a letter from the owner authorizing him to act on the owner’s behalf.

(2) The name, address, and telephone number of the owner of the lot. If there is more than one owner, the names, addresses, and telephone numbers of all owners must be provided.

(3) The street address and complete legal description of the lot.

(4) A brief description of all existing and proposed uses on the lot.

(5) Any other reasonable and pertinent information that the director determines to be necessary for site plan review.

c Site plan submission. A site plan submission under this section must include one reproducible print (blackline polyester film or equal) with five folded blue line or blackline copies, and one 8-1/2 inch by 11 inch clear film positive. The print and copies must have a scale of one inch equals 100 feet or larger (e.g. one inch equals 50 feet, one inch equals 40 feet, etc.) and be on a standard drawing sheet of a size not to exceed 36 inches by 48 inches.

d Site plan requisites.

(1) In general. If the site plan is required due to estimated trip generation or a requirement for DIR in the use regulations, it must:

(A) include a location diagram showing the position of the lot in relation to surrounding streets in the city’s major street network;

(B) contain title block and reference information pertaining to the lot and plan, including the name of the project, the names of the persons responsible for preparing the plan, the zoning classification of the lot, the scale of the plan (both numeric and graphic), and the date of submission, with provision for dating revisions;

(C) show the dimensions of the lot, and indicate lot area in both square feet and acres;

(D) show or describe the building envelope for each existing and proposed building on the lot;

(E) show the location of all existing streets, alleys, easements for street purposes, utility and other easements, floodway management areas, and the 100-year flood plain, if applicable;

(F) show all areas proposed for dedication or reservation;

(G) show zoning setback and building lines for each existing and proposed building on the lot;

(H) show all existing and proposed points of ingress and egress and estimated peak hour turning movements to and from existing and proposed public and private streets and alleys;

(I) show all existing and proposed median cuts and driveways located within 250 feet of the lot;

(J) show all existing and proposed off-street parking and loading areas, indicating the general dimensions of parking bays, aisles, and driveways, and the number of cars to be accommodated in each row of parking spaces;

(K) show all existing and proposed provisions for pedestrian circulation on the lot, including sidewalks, walkways, crosswalks, and pedestrian plazas;

(L) indicate average daily traffic counts on adjacent streets and illustrate estimated peak hour turning movements at intersections located within 250 feet of the lot;

(M) show the location and indicate the type of any special traffic regulation facilities proposed or required;

(N) show the existing and proposed topography of the lot using contours at intervals of two feet or less. Existing contours must be shown with dashed lines; proposed contours must be shown with solid lines;

(1) In general. If the site plan is required due to estimated trip generation or a requirement for DIR in the use regulations, it must:

...
(A) include a location diagram showing
the position of the lot in relation to surrounding streets
in the city’s major street network;

(B) contain title block and reference
information pertaining to the lot and plan, including
the name of the project, the names of the persons
responsible for preparing the plan, the zoning
classification of the lot, the scale of the plan (both
numeric and graphic), and the date of submission, with
provisions for dating revisions;

(C) show the dimensions of the lot, and
indicate lot area in both square feet and acres;

(D) show or describe the building
envelope for each existing and proposed building on
the lot;

(E) show the location of all existing
streets, alleys, easements for street purposes, utility and
other easements, floodway management areas, and the
one-percent annual chance flood plain, if applicable;

(F) show all areas proposed for
dedication or reservation;

(G) show zoning setback and building
lines for each existing and proposed building on the lot;

(H) show all existing and proposed
points of ingress and egress and estimated peak hour
turning movements to and from existing and proposed
public and private streets and alleys;

(I) show all existing and proposed
median cuts and driveways located within 250 feet of
the lot;

(J) show all existing and proposed
off-street parking and loading areas, indicating the
general dimensions of parking bays, aisles, and
 driveways, and the number of cars to be accommodated
in each row of parking spaces;

(K) show all existing and proposed
provisions for pedestrian circulation on the lot,
including sidewalks, walkways, crosswalks, and
pedestrian plazas;

(L) indicate average daily traffic counts
on adjacent streets and illustrate estimated peak hour
turning movements at intersections located within 250
feet of the lot;

(M) show the location and indicate the
type of any special traffic regulation facilities proposed

(N) show the existing and proposed
topography of the lot using contours at intervals of two
feet or less. Existing contours must be shown with
dashed lines; proposed contours must be shown with
solid lines;
§ 51A-4.803 Dallas Development Code: Ordinance No. 19455, as amended

(2) Residential adjacency items. If the lot has a residential adjacency as defined in Subsection (d)(3) and is not in the Oak Lawn Special Purpose District (Planned Development District No. 193), the site plan must:

(A) satisfy the requirements of Subparagraphs (A) through (G), (J), and (N) through (Q) in Subsection (d)(1);

(B) show all existing and proposed points of ingress and egress;

(C) show the existing and proposed locations for all building entrances, exits, service areas, and windows;

(D) show the location and indicate the type, size, and height of perimeter fencing, screening, and buffering elements proposed or required;

(E) show all provisions to be made to direct and detain storm water and to mitigate erosion both during and following the completion of construction;

(F) show the location and indicate the type, orientation, size, and height of light standards which will illuminate any portion of a required yard;
(G) show the location of existing and proposed signs;

(H) show the existing and proposed locations of all exterior loudspeakers and sound amplifiers;

(I) show the existing and proposed locations for all mechanical equipment capable of producing high levels of noise; and

(J) contain any other reasonable and pertinent information that the director determines to be necessary for site plan review.

(3) For purposes of this section, a lot has a residential adjacency if:

   (A) the lot is adjacent to or directly across:
      
      (i) a street 64 feet or less in width; or
      
      (ii) an alley

   from an R, R(A), D, D(A), TH, TH(A), or CH district; or

   (B) an existing or proposed building or structure on the lot is within 330 feet of a lot in an R, R(A), D, D(A), TH, TH(A), or CH district.

(4) Reserved.

(5) The following information, in addition to being shown graphically, must be separately tabulated in a conspicuous place on the plan for quick and easy reference:

   (A) Lot area in square feet and acres.

   (B) Total building floor area and floor area for each use on the lot in square feet.

   (C) Floor area ratio of the lot.

   (D) Square footage and percentages of building coverage and nonpermeable coverage of the lot.
(E) Number of parking spaces required and number of parking spaces provided.

(F) Zoning classification of the lot.

(e) Review by the director.

(1) Upon the filing of a complete application for review of a site plan and a complete site plan submission, the director of sustainable development and construction shall promptly forward one copy of each to the director of code compliance for review and comments. The director of code compliance shall review the application and submission and return a written recommendation to the director of sustainable development and construction within 15 calendar days of the filing date.

(2) The director shall make a decision regarding the application and submission within 30 calendar days of the filing date. That decision must take one of three forms:

(A) Approval, no conditions.

(B) Approval, subject to conditions noted.

(C) Denial.

(3) If the director fails to make a decision regarding the application and submission within 30 calendar days of the filing date, the application and submission are considered to be approved subject to compliance with all applicable city codes, ordinances, rules, and regulations.

(4) The time periods in Subsections (e)(1), (e)(2), and (e)(3) do not begin to run until the applicant provides all of the information required in Subsections (b), (c), and (d). In cases where the director requests additional information within 10 calendar days of the filing date, the time periods in Subsections (e)(1), (e)(2), and (e)(3) do not begin to run until the applicant provides the additional information.

(5) If the director denies an application or submission, he shall state in writing the specific reasons for denial. If he approves an application or submission subject to conditions, he shall state in writing the specific requirements to be met before issuance of a permit to authorize work on the lot.

(f) Grounds for denial.

(1) In general. The director shall deny a site plan application or submission under this section if:

(A) it does not contain sufficient information to allow for site plan review; or

(B) the site plan does not comply with all applicable city codes, ordinances, rules, or regulations.

(2) Vehicular circulation and infrastructure standards.

(A) Except as otherwise provided in Subsection (g), the director shall deny a site plan under this section if:

(i) the provisions for vehicular loading and unloading or parking, or for vehicular or pedestrian circulation, will create hazards to safety or will impose a significant burden upon public facilities which can be avoided or substantially mitigated by reasonable modifications in the plan; or

(ii) the site plan is required due to estimated trip generation and the owner of the lot refuses to comply with one or more of the following development-related infrastructure requirements:

(aa) The owner shall construct traffic control improvements, including, if applicable, traffic signal upgrades, at intersections adjacent to the lot if the traffic engineer determines that such improvements are necessitated by and wholly attributable to the proposed new development.

(bb) The owner shall construct right and left turn lanes, stacking lanes, and bus turnouts in right-of-way adjacent to the lot if the traffic engineer determines that such improvements are necessitated by and wholly attributable to the proposed new development.

(cc) The owner shall dedicate right-of-way or easements to the city to allow for those
§ 51A-4.803 Dallas Development Code: Ordinance No. 19455, as amended

right and left turn lanes, stacking lanes, and bus turnouts that the director determines are necessitated by and wholly attributable to the proposed new development.

(B) To construct the improvements required under Subparagraph (A), the owner shall enter into a private development contract satisfactory to the city. The contract must be made according to terms and conditions stated on a form provided by the director and approved by the city attorney. The contract must include performance and payment bonds equivalent to those which the city uses and requires in its standard specifications, and the city must be a named obligee in the bonds.

(C) In lieu of constructing the improvements required under Subparagraph (A), the owner may voluntarily pay the city an amount equal to the estimated cost of constructing the improvements before issuance of a building permit to authorize work on the lot. For purposes of this subparagraph, the estimated cost of constructing the improvements shall be determined by the director on a case by case basis. Such payments, being voluntarily tendered to the city as an optional alternative to the performance of construction work, shall not be “impact fees” as defined by state law, but shall constitute compensation for the city’s construction of the required improvements. All payments made pursuant to this subparagraph must be credited to separate interest-bearing accounts and used only for financing construction of the specified improvements. Any payments made that are not spent on the specified improvements within five years after the date of payment must be refunded together with interest accrued at the city’s investment rate during the five-year period, less administrative costs. Refunds shall be made to the owner of record shown on the last approved city ad valorem tax roll at the time the refund is paid, except that payments made by a political subdivision or governmental entity shall be refunded to that political subdivision or governmental entity.

(3) Residential adjacency standards. If the lot has a residential adjacency as defined in Subsection (d)(3) and is not in the Oak Lawn Special Purpose District (Planned Development District No. 193), the director shall review the site plan for compliance with this paragraph and, except as otherwise provided in Subsection (g), shall deny the site plan if:

(A) the location of existing or proposed buildings, structures, or equipment on the lot will be detrimental or injurious to each other or to surrounding development, or will impose an undue burden on public facilities, and the detrimental or injurious results or undue burden can be avoided or substantially mitigated by reasonable modifications in the plan;

(B) development of the lot will create a soil or drainage problem which can be avoided or substantially mitigated by reasonable modifications in the plan;

(C) the proposed on-site fencing, screening, or buffering elements do not provide adequate protection to adjacent property, and adequate protection can be provided by reasonable modifications in the plan;

(D) the exterior lighting to be provided on the lot will create a hazard to motorists on an adjacent public or private street or alley, or will damage or diminish the value or usability of adjacent property.

(4) If the director denies a site plan under this section, he shall state in writing the specific reasons for denial.

(g) Approval subject to conditions noted. As an alternative to denial of a site plan under Subsection (f), the director may approve the site plan subject to conditions noted if compliance with all conditions will eliminate what would otherwise constitute grounds for denial. If the director approves the site plan subject to conditions noted, he shall state in writing the specific requirements to be met before issuance of a permit to authorize work on the lot.

(h) Approval, no conditions. If there are no grounds for denial of a site plan under Subsection (f), the director shall approve the site plan with no conditions.

(i) Appeals.

(1) The applicant may appeal the following decisions made by the director:

(A) Denial of an application or site plan submission.
§ 51A-4.803 Dallas Development Code: Ordinance No. 19455, as amended

(B) Approval of an application or site plan submission subject to conditions noted.

(2) An appeal must be made within 10 days after notice is given to the applicant of the director’s decision.

(3) An appeal is made by filing a written request with the director for review by the city plan commission.

(4) Decisions of the commission are final as to available administrative remedies and are binding on all parties.

(5) If the commission fails to make a decision on the appeal within 30 calendar days of the date that the written request is filed with the director, the application and submission are considered to be approved subject to compliance with all other applicable city codes, ordinances, rules, and regulations.

(j) Validity of approved site plan. An approved site plan is valid for a period of two years. If a permit to authorize work on the lot has not been obtained upon expiration of the two-year period, a new site plan submission is required.

(k) Effect of approved site plan. The approval of a site plan by the director or commission does not result in the vesting of development rights, nor does it permit the violation of any city ordinance or state law, nor does it preclude the building official from refusing to issue a permit if he determines that plans and specifications do not comply with applicable laws and ordinances, or that the work described in the application for the permit does not conform to the requirements of the construction codes. (Ord. Nos. 19455; 19786; 19929; 20037; 20730; 21760; 22053; 22026; 25047; 27697; 28073; 28424; 28553; 31314)

Division 51A-4.900. Affordable Housing.

SEC. 51A-4.901. PURPOSE.

This division is adopted to comply with Section 3.5 of the Consent Decree entered on September 24, 1990, in the United States District Court for the Northern District of Texas in the case of Debra Walker et al. v. U.S. Department of Housing and Urban Development et al. and to further the following related and more specific purposes:

(a) to encourage the provision of dwelling units affordable to families of low income throughout the city;

(b) to ensure that these dwelling units are safe, sanitary, decent, and otherwise substantially equivalent to public housing in the city;

(c) to ensure that these dwelling units are available in a variety of sizes to the same extent as throughout the city; and

(d) to otherwise promote the general welfare of the city and its residents. (Ord. 21663)

SEC. 51A-4.902. DEFINITIONS.

Unless the context clearly indicates otherwise:

(a) DENSITY BONUS means an increase in the number of dwelling units otherwise allowed for any particular lot.

(b) DWELLING UNIT OF ADEQUATE SIZE means:

(1) an efficiency or larger unit for a family consisting of one person;
§ 51A-4.902 Dallas Development Code: Ordinance No. 19455, as amended

(2) a one-bedroom or larger unit for a family consisting of two persons;

(3) a two-bedroom or larger unit for a family consisting of three or four persons; and

(4) a three-bedroom or larger unit for a family consisting of more than four persons.

(c) HUD means the United States Department of Housing and Urban Development or its successor.

(d) IN-LIEU PAYMENT means a fee paid as an alternative to the provision of an SAH unit.

(e) LOWER INCOME FAMILY means a family whose income does not exceed 50 percent of the median income for a family in the Dallas Primary Statistical Area, as determined by the Secretary of HUD, with adjustments for family size in accordance with Section 3(b)(2) of the United States Housing Act of 1937, as amended [42 U.S.C.A. 1437a, Subsection (b)(2)].

(f) MINORITY CONCENTRATED AREA means a census tract where, according to the most recent decennial census of population conducted by the U.S. Bureau of the Census, more than 50 percent of the population is Black and/or of Spanish/Hispanic origin or descent.

(i) NON-MINORITY CONCENTRATED AREA means a census tract that, according to the most recent decennial census of population conducted by the U.S. Bureau of the Census, is not a minority concentrated area.

(j) SAH DISTRICT means the MF-1(SAH), MF-2(SAH), MU-1(SAH), MU-2(SAH), and MU-3(SAH) districts established under this chapter.

(k) SAH RENTAL RATE means a monthly payment equal to or less than 30 percent of the tenant’s gross annual family income divided by 12.

(l) SAH UNIT means a standard affordable housing dwelling unit.

(m) STANDARD AFFORDABLE HOUSING DWELLING UNIT means a dwelling unit of adequate size:

(1) leased or offered for lease to a lower income family for an amount equal to or less than the SAH rental rate; or

(2) that satisfies all necessary criteria, as determined by the appropriate federal or state governmental authority, for low income family occupancy to qualify a project for federal or state tax relief or other housing or financial assistance under a program established by and administered in accordance with federal or state law for the purpose of aiding low income families in obtaining a decent place to live. (Ord. 21663)

SEC. 51A-4.903. APPLICATION OF DIVISION.

(a) This division only becomes applicable to a lot in an SAH district when an application is made for a building permit that would increase the dwelling unit density permitted in that district above the number permitted by right.

(b) The city council may impose an SAH requirement in a planned development district that allows 15 or more multifamily dwelling units in the district. The requirement, if imposed, must be reasonably consistent with the standards and purposes of this division and must be a part of the ordinance establishing or increasing the size of the district. (Ord. 21663)

SEC. 51A-4.904. SPECIAL EXCEPTION.

The board of adjustment may grant a special exception to authorize a reduction in the number of SAH units required under this division if the board finds, after a public hearing, that:

(a) the units have remained vacant for six months or more; and

(b) good faith efforts to lease the units to lower income families were made during their vacancy.

In granting a special exception under this section, the board shall establish a termination date for the special exception, which may not be more than one year after
the date of the board’s decision. This provision does not preclude the granting of additional special exceptions in accordance with this section. The two year limitation on a request for a property in Section 51A-4.703(e) does not apply to this section. (Ord. 21663)

SEC. 51A-4.905. PROCEDURES TO OBTAIN A DENSITY BONUS.

(a) In general. Regulations for SAH districts in Article IV specify the dwelling unit density permitted by right. A density bonus may be obtained in these districts if one or more SAH units or an in-lieu payment is provided in accordance with this division. Prior to the issuance of a building permit that would increase the dwelling unit density in a SAH district above the number permitted by right, an application for a density bonus must be submitted to and approved by the director.

(b) Application. An application for a density bonus must be filed with the director on a form provided by the city. The application must include the following:

(1) the date, names, addresses, and telephone numbers of both the property owner and the person preparing the plan;

(2) lot and block description, the zoning classification, and the census tract of the lot for which the density bonus is requested;

(3) the dwelling unit density proposed for the lot and the dwelling unit density permitted by right;

(4) the number of SAH units required as a result of receiving the density bonus;

(5) if applicable, where the SAH units will be provided, including the lot and block description, the zoning classification, and the census tract of the lot where the SAH units will be located;

(6) if applicable, the amount of the in-lieu payment that will be provided;

(7) any other reasonable and pertinent information that the director determines to be necessary for review. (Ord. 21663)

SEC. 51A-4.906. REVIEW BY THE DIRECTOR.

(a) The director shall approve an application for a density bonus that complies with the standards in Subsection (b).

(b) Standards.

(1) An SAH unit provided to qualify a lot for the density bonus must be:

(A) within three miles of the lot receiving the density bonus;

(B) on a lot where no more than 30 percent of the dwelling units are SAH units;

(C) in a non-minority concentrated area; and

(D) in compliance with all city ordinances.

(2) An SAH unit provided to qualify a lot for a density bonus may not be used to qualify another lot for a density bonus.

(3) The design and materials of SAH units must be equivalent to the design and materials of other units located on the same lot. The size of bedrooms in SAH units must be consistent with the size of bedrooms in other units located on the same lot.

(4) Of the SAH units provided, 21 percent must have one bedroom, 45 percent must have two bedrooms, 28 percent must have three bedrooms, and five percent must have four bedrooms. In determining the number of units to be provided, fractional units are counted to the nearest whole number, with one-half counted as an additional unit. (Ord. 21663)
§ 51A-4.907 Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.908

SEC. 51A-4.907. DECISION BY THE DIRECTOR.

(a) Timing. The director shall make a decision regarding the application for a density bonus within 10 working days after a complete application is filed. An application will not be considered complete until all the information required by Section 51A-4.905 is provided.

(b) Failure to act. If the director fails to make a decision regarding the application within the 10-day period, it is approved subject to compliance with all applicable city ordinances.

(c) Form of decision. The decision of the director must take one of the following three forms:

(1) Approval, no conditions.

(2) Approval, subject to conditions noted.

(3) Denial.

(d) Approval with no conditions. If there are no grounds for denying or modifying the application, the director shall approve it with no conditions.

(e) Approval subject to conditions noted. As an alternative to denial of the application, the director may approve it subject to conditions noted if compliance with all conditions will eliminate what would otherwise constitute grounds for denial. If the director approves it subject to conditions noted, he or she shall state in writing the specific requirements to be met before it is approved.

(f) Denial.

(1) Grounds for denial. The director shall deny the application if:

(A) it does not contain all required information; or

(B) an SAH unit required to be provided in order to obtain a certain density bonus in accordance with this division is not provided.

(2) Statement of reasons. If the director denies the application, he or she shall state in writing the specific reasons for denial.

(g) Notice of decision. The director shall give written notice to the applicant of his or her decision regarding the application. Notice is given either by hand delivery or by depositing the notice properly addressed and postage paid in the United States mail. If the notice is mailed, it must be sent to the address shown on the application. (Ord. 21663)

SEC. 51A-4.908. AFFORDABLE HOUSING INSTRUMENT REQUIRED.

(a) Requisites of instrument. If the application for a density bonus is approved, an affordable housing instrument must be executed and filed in accordance with this section on a form provided by the city. The instrument must:

(1) be signed by all owners of the lot(s) affected;

(2) be signed by all lienholders, other than taxing entities, that have either an interest in the lot(s) affected or an improvement on one or more of those lot(s);

(3) contain a lot and block description of the lot(s) on which the SAH unit(s) will be located;

(4) specify the number of the SAH units;

(5) be a covenant running with the land;

(6) state that all signatories agree to defend, indemnify, and hold harmless the city of Dallas from and against all claims or liabilities arising out of or in connection with the instrument;

(7) state that it may only be amended or terminated by a subsequent written instrument that is:
§ 51A-4.908 (A) signed by the owner(s) of the lot(s) affected by the affordable housing instrument and by all lienholders, other than taxing entities, that have an interest in lot(s) or an improvement on the lot(s);

(B) approved by the director of housing and neighborhood services;

(C) approved as to form by the city attorney; and

(D) filed and made a part of the deed records of the county or counties in which the lots are located;

(8) state that the owner agrees to comply with all the requirements of this division, including the submission of an annual report and full cooperation with audits of the affordable housing program conducted by the city;

(9) state that it may be enforced by the city of Dallas;

(10) state that it shall be governed by the laws of the State of Texas; and

(11) be approved by the director of housing and neighborhood services and approved as to form by city attorney.

(b) Instrument must be filed. A true and correct copy of the approved affordable housing instrument must be filed in the deed records of the county or counties in which the lots affected are located. The instrument shall not be considered effective until it is filed in the deed records in accordance with this section. After the instrument is filed in the deed records, two file-marked copies of the instrument must be filed with the director of housing and neighborhood services.

(c) Termination or amendment of instrument. A recorded affordable housing instrument may be terminated or amended to reduce the number of SAH units on a lot if a corresponding number of SAH units are provided on one or more other lots. An instrument terminating or amending a recorded affordable housing instrument must be:

(1) signed by the owner of the lot(s) affected by the affordable housing instrument and by all lienholders, other than taxing entities, that have an interest in the lot(s) or of an improvement on the lot(s);

(2) approved by the director of housing and neighborhood services as to compliance with this division;

(3) approved as to form by the city attorney; and

(4) filed and made a part of the deed records of the county or counties in which the lot(s) are located.

The director of housing and neighborhood services shall not approve a termination or amendment that would cause the total number of SAH units to be reduced below the number required under this division, or that would otherwise cause this division to be violated. (Ord. 21663)

SEC. 51A-4.909. OPERATION OF AFFORDABLE HOUSING PROGRAM.

(a) A certificate of occupancy may not be issued for a dwelling unit permitted because of an SAH unit approved by the director until a certificate of occupancy has been issued for the SAH unit; however, these certificates of occupancy may be issued simultaneously.

(b) An SAH unit originally leased to a qualified lower income family shall automatically lose its status as an SAH unit if the family no longer qualifies as a lower income family at the end of the primary term of the lease. When this occurs, the next vacated dwelling unit must be offered for lease as an SAH unit until the required number of SAH units are provided. This provision may not be used as grounds for evicting a previously qualified lower income family from a unit if the family wishes to pay the market rate for that unit.

(c) A lease for an SAH unit may not exceed a term of one year.
§ 51A-4.909 Dallas Development Code: Ordinance No. 19455, as amended

(d) The director of housing and neighborhood services shall randomly, regularly, and periodically select a sample of families occupying SAH units for the purpose of income verification. Any information received pursuant to this subsection shall remain confidential and shall be used only for the purpose of verifying income in order to determine eligibility for occupation of the SAH units. All prospective tenants of an SAH unit must agree to provide or to allow the director to obtain sufficient information to enable income verification as contemplated in this subsection as a condition to leasing the unit. A person commits an offense if he or she, with the intent to lease or occupy an SAH unit, misrepresents the gross annual family income of its tenant or prospective tenant to the lessor or the city of Dallas with knowledge of its falsity. A person who commits the offense described in this subsection shall be guilty of a separate offense for each day or portion of a day that the unit is leased or occupied based on the misrepresentation.

(e) Annual report. Each owner of property subject to an approved affordable housing instrument shall submit a written report on June 30 of each year to the director that demonstrates compliance with the affordable housing instrument and this division. Each report must include:

(1) a list of SAH units currently leased, including the names and annual family incomes of the tenants;

(2) a list of the SAH units currently offered for lease;

(3) the total number of dwelling units (SAH or otherwise) currently offered for lease;

(4) a list of all lower income families currently seeking to lease one or more dwelling units on the property; and

(5) any other reasonable and pertinent information the director determines to be necessary to demonstrate compliance with the affordable housing instrument and this division.

(f) Family equivalence. The families that reside in SAH units must have similar numbers and ages of members as the other families on that lot. (Ord. 21663)

SEC. 51A-4.910. ALTERNATIVE WAYS TO SATISFY SAH UNIT OBLIGATION.

(a) In-lieu payment.

(1) In general. A property owner may reduce the number of SAH units required to obtain a density bonus by making an in-lieu payment into a special city account, to be known as the Housing Production Trust Fund, for development of SAH units in non-minority concentrated areas of the city. The amount of the payment required is calculated by multiplying the cost of constructing the multifamily dwelling unit [See Paragraph (2) below] required by the number of units of that size that will not be required by reason of the payment. The entire payment must be made to the director before issuance of any required permit.

(2) Cost of constructing multifamily dwelling units. Until January 2, 1995, the cost of constructing a multifamily dwelling unit is as shown:

<table>
<thead>
<tr>
<th>NUMBER OF BEDROOMS IN UNIT</th>
<th>COST PER UNIT</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>$35,000</td>
</tr>
<tr>
<td>2</td>
<td>45,000</td>
</tr>
<tr>
<td>3</td>
<td>55,000</td>
</tr>
<tr>
<td>4</td>
<td>60,000</td>
</tr>
</tbody>
</table>

On January 2, 1995, and on January 2 of each odd-numbered year thereafter, the director shall determine the new costs of constructing multifamily dwelling units by using the following formula:

Cost of Constructing Type of Multifamily Unit X Dallas Cost Index X Historical Cost Index for Year Historical Cost Index for Year X Cost of Constructing Type of Multifamily Unit In Year

Both the Dallas Cost Index and the Historical Cost Indexes must be derived from the most recent issue of Building Construction Cost Data, published by the Robert Snow Means Company, Inc., of Kingston, Massachusetts, unless another publication is designated by the director.
§ 51A-4.910 Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.1003

(b) Provision of single family uses. It is assumed that all SAH units provided will be multifamily uses. A property owner may, however, reduce the number of SAH units required to obtain a density bonus by providing one or more single family uses as SAH units in accordance with this subsection and Sections 51A-4.901 through 51A-4.909. The provision of a single family use reduces the number of multifamily bedrooms required as shown:

<table>
<thead>
<tr>
<th>NUMBER OF BEDROOMS IN THE SINGLE FAMILY USE PROVIDED (“SIZE”)</th>
<th>REDUCTION IN NUMBER OF MULTIFAMILY BEDROOMS REQUIRED</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>2</td>
<td>3</td>
</tr>
<tr>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>4</td>
<td>5</td>
</tr>
</tbody>
</table>

The number of multifamily bedrooms required to obtain a density bonus if a person provides one or more single family uses is calculated as follows. First, determine the number of each size of single family use provided. (For example, a person may provide two two-bedroom and three four-bedroom single family uses as SAH units.) Then, multiply the number of each size of single family use provided by the number of multifamily bedrooms that will not be required by reason of the provision of those single family uses. Next, add these numbers to determine the total number of multifamily bedrooms that will not be required. (In the above example, 21 multifamily bedrooms would not be required because of the provision of the single family uses.) This number is then subtracted from the total number of bedrooms of SAH units that would otherwise be required by Section 51A-4.906(b)(4) to obtain the density bonus. The result is then broken down into the number of different sizes of SAH units required by Section 51A-4.906(b)(4) to obtain the density bonus. (Ord. 21663)

Division 51A-4.1000. Park Land Dedication.

SEC. 51A-4.1001. PURPOSE.

Dedication of park land provides new residents and visitors with recreational amenities and green infrastructure consistent with the current level of park services for existing residents. (Ord. 30934, eff. 7/1/19)

SEC. 51A-4.1002. APPLICABILITY.

(a) In general. Except as provided in this section, park land dedication requirements apply to:

(1) a single family or duplex residential plat or building permit for new construction; and

(2) a development plan or building permit that includes multifamily residential units or a hotel or motel use.

(b) Exceptions. These regulations do not apply to:

(1) plats, replats, or issuance of building permits for new construction on land owned by a governmental unit; and

(2) developments in planned development districts, existing on July 1, 2019, with open space or park land requirements.

(c) Waivers. Only developments that are enrolled in a program administered by the housing and neighborhood revitalization department and authorized by the city council, that furthers the public purposes of the city’s housing policy may be eligible to have some or all of these requirements waived. (Ord. 30934, eff. 7/1/19)

SEC. 51A-4.1003. DEFINITIONS AND INTERPRETATIONS.

(a) Definitions. In this division:

(1) COMMUNITY PARK means a park that is larger than a neighborhood park and serves several neighborhoods.
§ 51A-4.1003 Dallas Development Code: Ordinance No. 19455, as amended

(2) DIRECTOR means the director of the park and recreation department.

(3) HOTEL AND MOTEL USE means a hotel or motel use, extended stay hotel or motel use, lodging or boarding house use, or residential hotel.

(4) MULTIFAMILY USE means a college dormitory, fraternity, or sorority house, group residential facility, multifamily use, or retirement housing.

(5) NEIGHBORHOOD PARK means a park that serves a variety of age groups within a limited area or neighborhood.

(6) PARK DEDICATION ZONE means an area as illustrated on the park land dedication map created by the park and recreation department defining the area where dedication may occur.

(7) PRIVATE PARK LAND means privately owned park land, common area, or green spaces provided on-site that is accessible to the residents of a development.

(8) SINGLE FAMILY OR DUPLEX USE means a duplex use, handicapped group dwelling unit, or single family use.

(b) Interpretations. For uses or terms found in Chapter 51 the regulations in Section 51A-4.702(a)(6)(C) apply in this division. (Ord. 30934, eff. 7/1/19)

SEC. 51A-4.1004. DEDICATION.

(a) General. Dedication may be accomplished by dedication to and acceptance of suitable land by the city or by payment of a fee-in-lieu of dedication.

(b) On-site dedication. For single family or duplex residential subdivisions, on-site dedication must be shown on the preliminary and final plat. For multifamily or hotel and motel uses, on-site dedication must be shown on the development plan or other plan submitted with a building permit application.

(c) Off-site dedication. Off-site dedication must be evidenced by a deed to the city that has been accepted by the director.

(d) Deferral. Payment of the fee-in-lieu may be deferred from the time of platting to the time of issuance of building permits.

(e) Dedication calculation. The following formula applies to determine the amount of land required to be dedicated.

(1) For a single family or duplex residential development:

One acre per 100 dwelling units. Less than 100 dwelling units on a pro rata basis.

(2) For a multi-family development:

One acre per 255 single bedroom dwelling units. Less than 255 dwelling units on a pro rata basis.

One acre per 127 two bedroom or greater dwelling units. Less than 127 dwelling units on a pro rata basis.

For a college dormitory, fraternity, or sorority house, one acre for 255 sleeping rooms. Less than 255 sleeping rooms on a pro rata basis.

(3) For a hotel or motel use development:

One acre per 233 guest rooms. Less than 233 guest rooms on a pro rata basis.

(f) Single family and duplex development. For single family or duplex developments, park land dedication may occur at either the subdivision or permitting phase. Dedication is only required once.

(1) Residential subdivision.

(A) Unless dedication has been deferred to the permitting phase, final approval of a single family or duplex residential subdivision plat requires at least one of the following to satisfy the requirements of Subsection (e) of this section including any credits or off-sets authorized pursuant to Section 51A-4.1007

(i) For park land dedicated within the subdivision, a fee simple dedication on the subdivision plat of the required park land approved by the director.
(ii) For park land dedicated outside the subdivision, evidence of recording in the appropriate real property records of a general warranty deed of the required park land approved and accepted by the director.

(iii) For land platted as a private park, the land must be identified on the plat.

(iv) Confirmation of deposit into the park land dedication fund of the fee-in-lieu of dedication in the amount established pursuant to Section 51A-4.1005.

(B) Land established as a private park for the purposes of this section may not be replatted to change the designation without the approval of the city plan commission. The city plan commission shall not approve a replat that would change the designation unless it determines that:

(i) alternative private park land that satisfies the requirements of this subsection is identified within the original subdivision that meets the dedication requirement; or

(ii) park land dedication requirements are met with an off-site dedication or fee-in-lieu meeting the requirements of this division.

(C) For phased plats, park land dedication plats may only be accepted for the active phase.

(2) Residential building permit. Issuance of a building permit for a single family or duplex development requires at least one of the following to satisfy the requirements of Subsection (e) of this section including any credits or off-sets authorized pursuant to Section 51A-4.1007:

(A) For dedicated park land, evidence of recording in the appropriate real property records of a general warranty deed for the required park land approved and accepted by the director; or

(B) Confirmation of deposit into the park land dedication fund of the fee-in-lieu of dedication in the amount established pursuant to Section 51A-4.1005.

(2) Identification of the required amount of private park on the preliminary and final plats or development plan if applicable; or

(3) Confirmation of deposit into the park land dedication fund of the fee-in-lieu of dedication in the amount established pursuant to Section 51A-4.1005.

(h) Minimum size. If the calculation in Subsection (e) of this section results in less than one acre, the director may require the developer to pay the fee-in-lieu of land dedication as provided in Section 51A-4.1005. The director may approve the dedication of less than one acre of property if the proposed park meets or addresses a need in the park system or presents an opportunity to enhance the city parks system as recommended by the comprehensive plan.

(Ord. 30934, eff. 7/1/19)

SEC. 51A-4.1005. FEE-IN-LIEU.

(a) The owner of property for which dedication is required may pay a fee-in-lieu of dedication in the amount determined in Subsection (c) of this section, and the director shall not refuse any payment of a fee-in-lieu of dedication.

(1) In some instances, the director may require the developer to pay fees-in-lieu of dedicating land. In making this determination, the director shall consider the following factors:
(A) Whether sufficient park land and open space exists in the area of the proposed development; and

(B) Whether recreation potential for an area would be better served by expanding or improving existing parks, by adding land or additional recreational amenities.

(2) The director shall notify the developer in writing of the director's decision to require a fee-in-lieu of dedication and the reason for the decision. The developer may appeal the decision to the park and recreation board by filing a written notice with the director within 15 days after the date of the decision.

(b) Payment of the fee-in-lieu is required at the time of approval of the final plat or issuance of building permits. Cash payments may be used only for acquisition or improvement of park land and facilities located within the same park dedication zone as the development. Fees may be applied to any type of park site or improvement within the park dedication zone in accordance with park and recreation department prioritization.

(c) For developments in more than one park dedication zone, or that abut another park dedication zone, fees-in-lieu may be spent in either park dedication zone.

(d) For Park Dedication Zone Seven (the Downtown/Uptown Zone) as shown on the parkland dedication zone map, fees-in-lieu may be used to increase connectivity in the city's trail system for the recreational benefit of the residents of that area. (Ord. 30934, eff. 7/1/19)

SEC. 51A-4.1006.   PARK DEVELOPMENT FEE.

(a) In general. To provide recreational amenities on existing park land for new residents and visitors, a park development fee is required to be paid at the time of dedication or payment of fee-in-lieu. Except as provided in this section, park development fees must be applied to parks within the park dedication zone in accordance with park and recreation department prioritization.

(b) Location. For developments in more than one park dedication zone, or that abut another park dedication zone, park development fees may be spent in either park dedication zone.

(c) Timing. Park development fees must be paid at the time all other dedications or payments are made. (Ord. 30934, eff. 7/1/19)
SEC. 51A-4.1007.  CALCULATIONS, DEDUCTIONS, AND CREDITS.

(a) Initial calculations. The director shall determine the amount of land required to be dedicated, or fees-in-lieu of dedication to be paid, in accordance with Sections 51A-1.105(z), 51A-4.1004, 51A-4.1005, and this section.

(1) The director shall first calculate the amount of park dedication required in Section 51A-4.1004;

(2) If the owner of the subdivision or development elects to pay a fee-in-lieu of dedication, or the director requires the payment of a fee-in-lieu of dedication, the director shall calculate the fee according Section 51A-4.105(z);

(3) If the owner of the subdivision or development chooses to satisfy the requirements of this division by a combination of dedication of land and payment of a fee-in-lieu of dedication, the director shall:

(A) First, calculate the total park dedication requirement;

(B) Second, subtract from the total park land dedication requirement the amount of park land to be dedicated;

(C) Third, calculate amount of fee-in-lieu for the remaining amount of park land dedication required by multiplying the remaining land area by the fee-in-lieu per square foot cost factor.

(b) Deductions and credits.

(1) The number of dwelling units, guest rooms, or sleeping rooms requiring dedication is based on a total increase in dwelling units, guest rooms, or sleeping rooms. The director shall deduct from the initial calculation the number of dwelling units, guest rooms, or sleeping rooms in existence within five years of the approval of the preliminary plat or the issuance of the first building permit for the proposed new development. The burden is on the applicant to demonstrate to the satisfaction of the director that the dwelling units, guest rooms, or sleeping rooms existed before the application for the subdivision plat or building permits generating the dedication requirement;

(2) The director shall reduce the dedication requirement of Section 51A-4.1004 or the fee-in-lieu of dedication requirement of Section 51A-4.1005, as applicable, by one or more of the following credits:

(A) The director shall grant a maximum credit of 100 percent of the total dedication requirement for publicly accessible private park land provided within the subdivision or development generating the dedication requirement that meets the requirements of this paragraph.

(i) To be eligible for credit, publicly accessible private park land must be:

(aa) made accessible to the public on an instrument approved by the city attorney;

(bb) of a size approved by the director to appropriately meet the needs of the development;

(cc) provide landscaping and recreational amenities approved by the director; and

(dd) be open to the public during all times it is accessible to the residents of the development.

(ii) Equipment in a private park must comply with city standards applicable to the type of equipment.

(iii) A publicly accessible private park land instrument must:

(aa) contain a legal description of the development and the publicly accessible private park land;

(bb) be signed by all owners and lienholders of the development property and is binding on lienholders by a subordination clause;
§ 51A-4.1007 Dallas Development Code: Ordinance No. 19455, as amended

(cc) be approved by the director;

(dd) be approved as to form by the city attorney;

(ee) create a covenant running with the land;

(ff) provide that the owners of the property development are responsible for all general park maintenance at a level consistent with minimum park and recreation standards;

(gg) provide necessary easements for access to the publicly accessible private park land;

(hh) give the city the right, but not the obligation, to take any action needed to make necessary repairs or improvements within the publicly accessible private park land, and to place a lien on all lots within the development until the city has received full compensation for that action;

(ii) provide that the owners of property in the development agree to defend and indemnify the city, and to hold the city harmless from and against all claims or liabilities arising out of or in connection with publicly accessible private park land or publicly accessible private park land instrument;

(jj) provide that it is governed by the laws of the State of Texas; and

(kk) provide that it may only be amended or terminated:

(I) with the consent of all the owners and lienholders of property in the development;

(II) upon the dedication of any park land or payment of a fee-in-lieu necessary to meet the requirements of this section; and

(III) after approval as to form by the city attorney, and approval by the director.

§ 51A-4.1008 A maximum credit of 50 percent of the total requirement will be given for non-publicly accessible private park land provided within the subdivision or development generating the dedication requirement that meets the requirement of this subparagraph. Private park land eligible for credit must:

(i) be of a size approved by the director to appropriately meet the needs of the development;

(ii) be maintained at a level consistent with minimum park and recreation maintenance standards;

(iii) provide landscaping and recreational amenities approved by the director;

(iv) have equipment that complies with city standards applicable to the type of equipment; and

(v) not be an interior common area.

(C) Developments located within a community unit development with open space meeting the requirements of Subparagraph (A) or Subparagraph (B) may receive credit for park land dedication as provided in this section.

(3) Credits are cumulative, up to a maximum of 100 percent of the required dedication and are only applicable to the original property being developed. (Ord. 30934, eff. 7/1/19)

SEC. 51A-4.1008. PARK LAND DEDICATION STANDARDS.

(a) Park land location standards. It is the purpose of this section to ensure that parks are easy to access, can be linked with nearby park and recreational facilities, and are generally open to public view or accessible by easement to benefit area development, enhance the visual character of the city, protect public
safety, and minimize conflict with adjacent land uses. Land proposed to be dedicated for parks must meet the following location standards:

(1) Where physically feasible, parks should be bound by streets or by other public uses (e.g., school, library, recreation center) to facilitate access and possible joint use.

(2) Where residential lots directly abut a park, consideration should be given to future owners’ access to the facility and protection from future park uses, such as lighting and noise.

(3) Dedicated park land must be in a location that is accessible by the public.

(4) The director may accept dedication of property within the park dedication zone that provides for access to parks other than community and neighborhood parks.

(5) The land must comply with current park standards.

(b) Park land acceptance standards.

(1) The city may accept or reject an offer of dedication, after consideration of the recommendation of the director, and require the payment of fees in lieu of dedication as provided in Section 51A-4.1005.

(2) Land dedicated for park and recreational areas must be of such size, dimensions, topography and general character as is reasonably required by the city for the type of use necessary to meet the current park system requirements.

(3) Land proposed to be dedicated for parks must generally meet the following requirements. The director may recommend the acceptance of the dedication of property that does not meet these criteria if the property is adjacent to an existing park or other public space, provides access to a park, or otherwise presents an opportunity to enhance the city parks system consistent with the park and recreation department’s comprehensive plan update.

(A) Minimum size and configuration standards.

(i) Unless determined otherwise by the director pursuant to Subsection 51A-4.1004(h), the minimum size of land dedicated for a park is one acre.

(ii) Land dedicated for a park must be a contiguous piece of property that can physically accommodate improvements associated with a neighborhood or community park.

(B) Location and access standards.

(i) The land must meet the applicable location requirements of Paragraph (4).

(ii) The land must have connectivity to a public street appropriate for the size and use of the park.

(C) Physical characteristics standards.

(i) Unless otherwise approved by the director, land must be vacant and cleared of nonvegetative material.

(ii) The land must be in full compliance with all ordinances, rules, and regulations of the city.

(iii) Except when approved by the director, the land must not have severe slopes or unusual topography that would not allow the park to be used for its intended purpose without recontouring the property.

(D) Minimum environmental conditions standards. Unless provided otherwise in rules promulgated by the director, the land must be reasonably free of recognized environmental conditions.

(i) If land is proposed to be dedicated by plat, before submittal of a final plat, the applicant shall submit either a phase I environmental assessment that shows no environmental conditions exist on the property or a phase II environmental assessment that shows no remediation is required.
(ii) If land is proposed to be dedicated by separate instrument, before acceptance the applicant shall submit either a phase I environmental assessment that shows no environmental conditions exist on the property or a phase II environmental assessment that shows no remediation is required.

(4) Land in a federally designated floodplain or floodway may be dedicated as park land if the land otherwise meets the acceptance standards for park land in this section and all other ordinances, rules, and regulations of the city. Floodplain and floodway areas may only be used to meet a maximum of 50 percent of the dedication requirements. Stormwater detention/retention areas and associated access easements do not meet the standards for acceptance of park land.

(5) For developments in more than one park dedication zone, property may be dedicated in either park dedication zone. (Ord. 30934, eff. 7/1/19)

SEC. 51A-4.1009. PARK LAND DEDICATION FUND.

(a) In general. There is hereby established a special fund for the deposit of all sums paid in lieu of land dedication under this section. The fund will be known as the "Park Land Dedication Fund." Except as provided in this section and Section 51A-4.1005, funds will only be released from the Park Land Dedication Fund to buy, build, or enhance a park within the park dedication zone, from which the funds originated.

(b) Fees paid into the park land dedication fund must be spent by the city within 10 years after the payment of the required fees. If the funds cannot be spent within the 10 year period, the owners of the property on the last day of the 10 year period will be entitled to a refund of the unexpended sum upon request. The owners of the property, as shown on the current tax roll or proven by other instrument, must request a refund within one year of the expiration of the 10 year period. The request must be made in writing to the director.

(c) Where funds have been paid or a dedication for a phased development has been made in accordance with this section, and the original developer does not complete all phases of the entire development, credit for any prior dedication or payment will be applied to subsequent replats or development plans for the same land on a pro-rata basis by dwelling unit for a period of 10 years. Increased density requires the dedication of additional park land or payment of additional fees.

(b) Expenditures. The park land dedication fund must be used for the acquisition and improvement of parks and may not be used for park maintenance or city staff overhead expenses. Indirect costs reasonably incurred in connection with park acquisition and improvement, such as appraisal fees, environmental assessment costs, legal expenses, and engineering and design costs, are limited to a maximum of 10 percent of total acquisition or improvement costs. (Ord. 30934, eff. 7/1/19)

SEC. 51A-4.1010. TREE MITIGATION.

(a) In general. Trees on dedicated park land may be used to meet tree mitigation requirements in accordance with Article X.

(b) Tree mitigation credits. To be eligible for Article X tree mitigation credits, dedicated park land and private park land must meet the conservation easement standards in Sections 51A-10.135(f)(1), 51A-10.135(f)(3), and 51A-10.135(f)(5).

(c) Conservation easements. Park land dedication requirements may be met on an acre for acre basis for any land dedicated as a conservation easement under Article X that meets the conservation easement standards in Article X and the requirements for publicly accessible private park land in Section 51A-4.1007(b)(2)(A)(i) and is accepted by the director. (Ord. 30934, eff. 7/1/19)

SEC. 51A-4.1011. APPEALS.

Except for appeals of apportionment of exactions, all appeals of the director’s decisions are appealable to the park and recreation board following the same procedure as an appeal of an administrative official’s decision to the board of adjustment. Notice of appeal
§ 51A-4.1011 Dallas Development Code: Ordinance No. 19455, as amended

must be made within 15 days of the date of that decision. (Ord. 30934, eff. 7/1/19)

SEC. 51A-4.1012. REVIEW.

The director shall review this ordinance every five years from the effective date. (Ord. 30934, eff. 7/1/19)

Division 51A-4.1100. Mixed-Income Housing.

SEC. 51A-4.1101. PURPOSE.

This division is adopted to implement the provisions and goals of the comprehensive housing policy, affirmatively further fair housing, create and maintain available and affordable housing throughout Dallas, promote greater fair housing choices, and overcome patterns of segregation and concentrations of poverty. (Ord. 31152)

SEC. 51A-4.1102. APPLICABILITY.

(a) In general. Development bonuses apply to qualifying developments located in:

(1) MF-1(A), MF-2(A), and MF-3(A) Multifamily Districts;

(2) MU-1, MU-2, and MU-3 Mixed Use Districts;

(3) MF-1(A), MF-2(A), and MF-3(A) Multifamily Districts with public deed restrictions that only limit allowed uses;

(4) MU-1, MU-2, and MU-3 Mixed Use Districts with public deed restrictions that only limit allowed uses; and

(5) Planned development districts that reference compliance with this division or planned development districts that default to MF-1(A), MF-2(A), MF-3(A), MU-1, MU-2, and MU-3 Districts as base zoning and only alter the allowed uses.

(b) Market value analysis. Specific development bonus applicability is further determined based on the location of the development in a specific market value analysis category.

(c) Residential uses. To be eligible for development bonuses under this division, developments must include multifamily or retirement housing uses. (Ord. 31152)
SEC. 51A-4.1103. DEFINITIONS AND INTERPRETATIONS.

(a) Definitions. In this division:

(1) AFFORDABLE RENT means: (i) a monthly rental housing payment, less an allowance for utilities, that does not exceed 30 percent of an eligible household’s adjusted income divided by 12, or (ii) the voucher payment standard.

(2) AFFIRMATIVE FAIR HOUSING MARKETING means a marketing strategy designed to attract renters of all majority and minority groups, regardless of race, color, national origin, religion, sex, age, disability, or other protected class under Title VIII of the Civil Rights Act of 1964 and all related regulations, executive orders, and directives.

(3) AREA MEDIAN FAMILY INCOME ("AMFI") means the median income for the Dallas Area Standard Metropolitan Statistical Area, adjusted for family size, as determined annually by the Department of Housing and Urban Development.

(4) ELIGIBLE HOUSEHOLDS means households with an adjusted income within the required income band or voucher holders regardless of income.

(5) INCOME means income as defined by 24 CFR §5.609.

(6) INCOME BAND means the range of household incomes between a pre-determined upper limit and a pre-determined lower limit generally stated in terms of a percentage of area median family income adjusted for family size (income bands descriptions are located in Chapter 20A).

(7) MARKET VALUE ANALYSIS ("MVA") means the official study that was commissioned by and prepared for the City of Dallas to assist residents and policy-makers in understanding the elements of their local residential real estate markets.

(8) MIXED-INCOME RESTRICTIVE COVENANT means a covenant running with the land that meets the requirements of this division and Chapter 20A.

(9) OWNER means the entity or person using the development bonus as well as all other owners or operators of the development during the rental affordability period.

(10) PASSENGER LOADING ZONE means a space that is reserved for the exclusive use of vehicles during the loading or unloading of passengers. A passenger loading zone is not a taxicab stand for purposes of Section 28-101, "Restricted Use of Bus Stops and Taxicab Stands."

(11) PEDESTRIAN SCALE LIGHTING means lighting that emanates from a source that is no more than 14 feet above the grade of the sidewalk or an equivalent pedestrian light fixture approved by the director of transportation.

(12) RENTAL AFFORDABILITY PERIOD means the 20 year period that the reserved dwelling units may only be leased to and occupied by eligible households or voucher holders.

(13) RESERVED DWELLING UNIT means the rental units within a development available to be occupied or currently occupied by eligible families or voucher holders and are leased at affordable rents set according to this division.

(14) STOOP means a small porch leading to the entrance of a residence.

(15) TRANSIT PROXIMITY means development within one-half mile of a transit station, including trolley stops, train stations, transfer centers, transfer locations, transit centers, and any transit stop with a climate-controlled waiting area. Transit agencies served include Dallas Area Rapid Transit, Trinity Railway Express, and trolley service.

(16) VOUCHER HOLDER means a holder of a housing voucher, including vouchers directly or indirectly funded by the federal government.

(b) Interpretations. For uses or terms found in Chapter 51 the regulations in Section 51A-4.702(a)(6)(C) apply in this division. (Ord. 31152)
SEC. 51A-4.1104. DEVELOPMENT BONUS PERIOD.

(a) Any development bonus provided in this division is only applicable to structures built during the rental affordability period or according to the terms of the mixed-income restrictive covenant.

(b) Structures built during the term of the mixed-income restrictive covenant may retain their bonuses until they are destroyed by an intentional act of the owner.

(c) Structures built during the term of the mixed-income restrictive covenant may retain their bonuses and be rebuilt if they are destroyed by other than an intentional act of the owner, or owner's agent, if the development continues to meet the requirements of this division. (Ord. 31152)

SEC. 51A-4.1105. PROCEDURES TO OBTAIN A DEVELOPMENT BONUS.

(a) In general.

(1) The owner must comply with the requirements of Chapter 20A, as amended.

(2) Owners shall obtain a certified verification of the building site's MVA category and shall sign a reserved dwelling unit verification before applying for a permit for construction in accordance with this division and Section 20A-25.

(b) Building permit application. An application for a building permit using a development bonus must include the following:

(1) the date, names, addresses, and telephone numbers of the applicant and all property owners;

(2) the legal description, the current zoning classification, the market value analysis category, and the census tract of the building site for which the development bonus is requested;

(3) the total number of dwelling units proposed, the number of reserved dwelling units provided, and the number of reserved dwelling units required as a result of receiving the development bonus;

(4) the total number of one-bedroom dwelling units, two-bedroom dwelling units, etc. being proposed;

(5) a copy of the signed market value analysis verification from the director of housing and neighborhood revitalization; and

(6) any other reasonable and pertinent information that the building official determines to be necessary for review.

(c) Building permit issuance. Before the issuance of a building permit, the mixed-income restrictive covenant must be recorded in the county in which the building site is located, and an official copy of the executed and recorded mixed-income restrictive covenant must be submitted to the building official.

(d) Minimum units required.

(1) A development using a development bonus in this division must provide a minimum of one reserved dwelling unit regardless of the percentage of total units required.

(2) Fractions of a required unit will be rounded up to the next whole number.

(3) A development using a development bonus in this division shall reserve no more than 50 percent of the dwelling units in each development for households at or below 80 percent of area median family income. This maximum percentage of reserved dwelling units may be waived for developments that are enrolled in a program administered by the department of housing and neighborhood revitalization and authorized by the city council that furthers the public purposes of the city's housing policy and affirmatively furthers fair housing.
(e) **Phasing.**

(1) To obtain a development bonus for a phased development, a project plan must be submitted to the building official with the initial building permit application.

(2) For a phased development:

   (A) the first phase must independently qualify for the development bonus; and

   (B) each subsequent phase combined with all previous phases already completed or under construction must also qualify for the development bonus.

(3) A project taking advantage of a development bonus may consist of two or more building sites if they are developed under a project plan. The project plan must be:

   (A) signed by all property owners; and

   (B) approved by the building official.

(f) **Certificate of occupancy.** Before the issuance of a final certificate of occupancy for a multifamily or retirement housing use, the owner must submit to the building official any additional information needed to ensure compliance with the terms of the building permit and the mixed-income restrictive covenant, including:

(1) The approved affirmative fair housing marketing plan described in Section 20A-31(g).

(2) A letter from the director of housing and neighborhood revitalization certifying that the development complies with the mixed-income restrictive covenant. (Ord. 31152)

**SEC. 51A-4.1106. DEVELOPMENT REQUIREMENTS.**

(a) Except as provided in Section 51A-4.1105(e), all reserved dwelling units must be provided on the same building site as the market rate units.

(b) Reserved dwelling units must be dispersed throughout the residential floor area of each building.

(c) Reserved dwelling units must not be segregated or concentrated in any one floor or area of any buildings but must be dispersed throughout all residential buildings.

(d) Reserved dwelling units may float within each dwelling unit type.

(e) Reserved dwelling units must be of comparable finish-out and materials as the market rate dwelling units and must be equally available to eligible families or voucher holders as other market rate dwelling unit tenants.

(f) Except as provided in Section 20A-31(i), reserved dwelling units must be dispersed substantially pro-rata among the total unit types so that not all the reserved dwelling units are efficiency or one-bedroom units. For example, if 10 percent of the total dwelling units are reserved dwelling units, 10 percent of the efficiency units, 10 percent of the one-bedroom units, 10 percent of the two-bedroom units, 10 percent of the three-bedroom units (and so on, if applicable) must be reserved dwelling units.

(1) A maximum 10 percent of the total units may be specialty units including club suites and penthouse suites and are not required to be part of the dispersal of reserved dwelling units by type; however, the overall 10 percent requirement is calculated based on the total number of all units.

(2) In determining the required number of reserved dwelling units, fractional units are counted to the nearest whole number, with one-half counted as an additional unit, but a minimum of one unit is required.

(g) Eligible families or voucher holders occupying reserved units may not be restricted from common areas and amenities unless the restrictions apply to all dwelling unit occupants. (Ord. 31152)
§ 51A-4.1107 Dallas Development Code: Ordinance No. 19455, as amended  § 51A-4.1107

SEC. 51A-4.1107. DESIGN STANDARDS.

(a) In general.

(1) To obtain a development bonus under this division, a qualifying development must meet the requirements of this section, where applicable.

(2) Except as provided in this section, the board of adjustment may not grant a variance or special exception to the standards in this section.

(b) Yard, lot, and space standards.

(1) Encroachments. The following additional items are permitted to be located within the required front, side, and rear yards:

(A) Seat walls, retaining walls, stoops, porches, steps, unenclosed balconies, ramps, handrails, safety railings, and benches all not exceeding four feet in height and extending a maximum of five feet into the required minimum yards.

(B) Landscape planters.

(C) Sculptures.

(D) Awnings

(2) Front yard fences. A maximum four-foot-high fence is allowed in a front yard. A maximum four-foot-high handrail may be located on retaining walls in a front yard.

(3) Height. Maximum height is controlled by the development bonus provisions and must comply with residential proximity slope regulations if applicable.

(c) Off-street parking and loading.

(1) In general. Except as provided in this section, consult the use regulations in Division 51A-4.200 for the specific off-street parking and loading requirements for each use.

(2) Multifamily parking. Except as provided in this paragraph, one and one-quarter space per dwelling unit is required.

(A) At least 15 percent of the required parking must be available for guest parking.

(B) For developments with transit proximity, one space per dwelling unit is required. At least 15 percent of the required parking must be available for guest parking.

(3) Retirement housing. One space per dwelling unit is required.

(4) Parking locations.

(A) In general. Surface parking is prohibited between the street-facing facade and the property line. For buildings with more than one street frontage, only two street frontages are subject to this requirement.

(B) Thoroughfare frontage. For buildings fronting on a thoroughfare, surface parking is prohibited within the front setback.

(C) Surface parking. A maximum of 15 percent of the total on-site parking may be provided as surface parking in a side yard.

(D) Parking structures. That portion of the ground-level floor facing the street of any multi-floor parking facility must have an active use other than parking, with a minimum depth of 25 feet, or must have an exterior facade that is similar in materials, architecture, and appearance to the facade of the main structure. Exterior parking structure facade openings must provide solid screening a minimum 42 inches from the floor level within the parking structure to screen vehicles and vehicle headlights.

(E) Assigned parking. For assigned parking spaces, those spaces allotted for reserved dwelling units must be dispersed and distributed amongst all other assigned parking for similar units.

(5) Passenger loading.

(A) Each building site must provide at least one off-street or on-street passenger loading space. The board of adjustment may grant a variance to this subparagraph.
§ 51A-4.1107 Dallas Development Code: Ordinance No. 19455, as amended

(B) On-street passenger loading zones, if provided, must be constructed in compliance with Architectural Barrier Act accessibility standards and must be approved by the director and by the director of public works.

(6) Screening of off-street loading spaces and service areas. Screening must be at least six feet in height measured from the horizontal plane passing through the nearest point of the off-street loading space and may be provided by using any of the methods described in Section 51A-4.602(b)(3), except that screening around service areas for trash collection must be screened by a masonry wall with a solid gate.

(d) Street and open space frontages.

(1) Frontages. All street-fronting facades and open-space fronting facades must have at least one window and at least one common primary entrance facing the street or open space at street-level. The entrance must access the street or open space with an improved path connecting to the sidewalk. A transparent surface is required for every 25 linear feet of continuous street-fronting and open-space-fronting facade.

(2) Individual entries. Except as provided in this paragraph, a minimum of 60 percent of the street-level dwelling units adjacent to a street in each building must have individual entries that access the street with an improved path connecting to the sidewalk. For at-grade open space, a minimum of 60 percent of the open-space fronting dwelling units in each building must have individual entries that access the open space. EXCEPTION. This paragraph does not apply to retirement housing.

(e) Sidewalk, lighting, and driveway standards.

(1) Sidewalks.

(A) A sidewalk with a minimum average width of six feet must be provided along all street frontages.

(ii) Tree grates do not count toward the minimum unobstructed sidewalk width.

(iii) If the building official determines that the location of a local utility or protected tree, as defined in Article X, would prevent a five-foot minimum width, the sidewalk may be reduced to four feet in width in that location.

(B) Sidewalks must be located in an area parallel to and between two feet and 15 feet of the back of the projected street curb.

(2) Lighting.

(A) Special lighting requirement. Exterior lighting sources, if used, must be oriented down and onto the property they light and generally away from adjacent residential properties.

(B) Pedestrian scale lighting. For a development greater than 20,000 square feet of floor area, pedestrian scale lighting that provides a minimum maintained average illumination level of 1.5 foot candles must be provided along public sidewalks and adjacent to public streets. The design and placement of both the standards and fixtures must be approved by the director of transportation. Unless otherwise provided, the property owner is responsible for the cost of installation, operation, and maintenance of the lighting.

(f) Open space requirements.

(1) At least 10 percent of the building site must be reserved as open space for activity such as active or passive recreation, playground activity, groundwater recharge, or landscaping.

(A) No structures except for architectural elements; playground equipment; structures that are not fully enclosed such as colonnades, pergolas, and gazebos; and ordinary projections of window sills, bay windows, belt courses, cornices, eaves, and other architectural features are allowed; otherwise, open space must be open to the sky.
(B) Open space may contain primarily grass, vegetation, or open water; be primarily used as a ground-water recharge area; or contain pedestrian amenities such as fountains, benches, paths, or shade structures.

(C) Open space may also be provided at or below grade or aboveground by an outside roof deck, rooftop garden, playground area, pool area, patio, or similar type of outside common area.

(D) Private balconies, sidewalks, parking spaces, parking lots, drive aisles, and areas primarily intended for vehicular use are not considered open space and do not count towards the open space requirement.

(E) Operation or parking of vehicles within on-site open space is prohibited. Emergency and grounds maintenance vehicles are exempt.

(F) Open spaces must be properly maintained in a state of good repair and neat appearance, and plant materials must be maintained in a healthy, growing condition.

(2) Landscape areas that fulfill the requirements of Article X may also fulfill these requirements if all conditions of this section and Article X are met.

(g) Non-required fences. Unless a use specifically requires screening, all fences for uses along a street or trail must have a surface area that is a minimum of 50 percent open, allowing visibility between three feet and six feet above grade. The exceptions for multifamily districts in Sections 51A-4.602(a)(2) and 51A-4.602(a)(4) which provide that a fence exceeding four feet above grade may be erected in a front yard in multifamily districts are not applicable. (Ord. 31152)

SEC. 51A-4.1108 BOARD OF ADJUSTMENT VARIANCES.

A development that is eligible to receive the bonuses in this division must either use the bonuses or go to the board of adjustment to seek a variance but may not do both for the same yard, lot, and space regulations. (Ord. 31152)
ARTICLE V.
FLOOD PLAIN AND ESCARPMENT ZONE REGULATIONS.

Division 51A-5.100. Flood Plain Regulations.

SEC. 51A-5.101. DEFINITIONS AND INTERPRETATIONS APPLICABLE TO THE FLOOD PLAIN REGULATIONS.

(a) Definitions. The following definitions are applicable to the flood plain regulations in this article:

(1) AREA OF SPECIAL FLOOD HAZARD means the land in the flood plain within a community that is subject to a one percent or greater chance of flooding in any given year.

(2) BASEMENT means any area of a building having its floor subgrade, or below ground level, on all sides.

(3) BASE FLOOD means the flood having a one percent chance of being equalled or exceeded in any given year.

(3.1) BASE FLOOD ELEVATION means the water surface elevation from a flood having a one percent chance of being equalled or exceeded in any given year, which is shown on the flood insurance rate map (FIRM) and in the accompanying flood insurance study (FIS) for Zones A, AE, AH, A1-A30, AR, V1-V30, or VE.

(4) DESIGN FLOOD (City’s Design Standard) means the 100-year frequency flood discharge as calculated for fully developed watershed conditions. For the Dallas Floodway Levee System, the design flood is the standard project flood as calculated for the Corridor Development Certificate process.

(5) DEVELOPMENT means any manmade change in improved and unimproved real estate, including but not limited to the construction of buildings or other structures, mining, dredging, filling, grading, paving, excavation, drilling, operations, or storage of equipment or materials unless approved by the city on a temporary basis in connection with authorized construction activities.

(6) ENVIRONMENTALLY SIGNIFICANT AREA means an area in the flood plain:

(A) with slopes greater than three to one;

(B) containing endangered species of either flora or fauna;

(C) which is geologically similar to the Escarpment Zone, as defined in Division 51A-5.200, “Escarpment Regulations,” of this article;

(D) identified as wetlands;

(E) determined to be an archaeological or historic site; or

(F) containing more than 1,000 square inches of trunk area of protected trees, in the aggregate, within a 10,000 square foot land area. Trunk diameter is measured at a point 12 inches above grade. To be included in the calculation of trunk area, a tree must have a trunk equal to or greater than six inches. For purposes of this subparagraph, a protected tree is defined in Section 51A-10.101 of this chapter.

(7) EXISTING MANUFACTURED HOME PARK means a manufactured home park or subdivision for which the construction of facilities for servicing the lots was completed before March 16, 1983, the effective FIRM date.

(8) FEMA means the Federal Emergency Management Agency, which is the federal agency responsible for administering the National Flood Insurance Program.

(a) Definitions. The following definitions are applicable to the flood plain regulations in this article:
(1) AREA OF SPECIAL FLOOD HAZARD means the land in the flood plain within a community that is subject to a one percent or greater chance of flooding in any given year.

(2) BASEMENT means any area of a building having its floor subgrade, or below ground level, on all sides.

(3) BASE FLOOD means the flood having a one percent chance of being equalled or exceeded in any given year.

(4) BASE FLOOD ELEVATION means the water surface elevation from a flood having a one percent chance of being equalled or exceeded in any given year, which is shown on the flood insurance rate map (FIRM) and in the accompanying flood insurance study (FIS) for Zones A, AE, AH, A1 - A30, AR, V1-V30, or VE.

(5) DESIGN FLOOD (City’s Design Standard) means the one-percent chance flood frequency discharge as calculated for fully developed watershed conditions. For the Dallas Floodway Levee System, the design flood is the standard project flood as calculated for the Corridor Development Certificate process.

(6) DEVELOPMENT means any manmade change in improved and unimproved real estate, including but not limited to the construction of buildings or other structures, mining, dredging, filling, grading, paving, excavation, drilling operations, or storage of equipment or materials unless approved by the city on a temporary basis in connection with authorized construction activities.

(7) ENVIRONMENTALLY SIGNIFICANT AREA means an area in the flood plain:

(A) with slopes greater than three to one;

(B) containing endangered species of either flora or fauna;

(C) which is geologically similar to the Escarpment Zone, as defined in Division 51A-5.200, "Escarpment Regulations," of this article;

(D) identified as wetlands;

(E) determined to be an archeological or historic site;

(F) containing more than 1,000 square inches of trunk area of protected trees, in the aggregate, within a 10,000 square foot land area. Trunk diameter is measured at a point 12 inches above grade. To be included in the calculation of trunk area, a tree must have a trunk equal to or greater than six inches. For purposes of this subparagraph, a protected tree is defined in Section 51A-10.101 of this chapter.

(8) EXISTING MANUFACTURED HOME PARK means a manufactured home park or subdivision for which the construction of facilities for servicing the lots was completed before March 16, 1983, the effective FIRM date.

(9) FEMA means the Federal Emergency Management Agency, which is the federal agency responsible for administering the National Flood Insurance Program.
§ 51A-5.101 Dallas Development Code: Ordinance No. 19455, as amended  § 51A-5.101

(9) FLOOD OR FLOODING means a general and temporary condition of partial or complete inundation of normally dry land areas from the unusual and rapid accumulation or runoff of surface waters from any source.

(10) FLOOD INSURANCE RATE MAP (FIRM) means an official map of a community on which the Federal Emergency Management Agency has delineated the areas of special flood hazards and the insurance risk premium zones applicable to the community.

(11) FLOOD INSURANCE STUDY (FIS) means the official report provided by FEMA containing flood profiles, water surface elevation of the base flood, and the Flood Boundary-Floodway Map.

(12) FLOOD PLAIN (FP) means any land area susceptible to inundation by the design flood.

(13) FLOOD PLAIN ALTERATION means the construction of buildings or other structures, alterations, mining, dredging, filling, grading, or excavation in the flood plain which does not remove an FP designation. (Examples include the construction of a tennis court, a playground, a swimming pool, a fence, a deck, an erosion control wall, or the installation of significant landscaping.)

(14) FLOOD PLAIN OR FP ADMINISTRATOR means the director of water utilities, who is responsible for administering the federal flood insurance program, or the director’s designated representative.

(15) FLOOD PROOFING means any combination of structural and non-structural additions, changes, or adjustments to structures which reduce or eliminate flood damage.

(16) FLOODWAY (OR REGULATORY FLOODWAY) means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the design flood without cumulatively increasing the water surface elevation or to discharge more than a designated height or rate.

(17) HUNDRED YEAR FREQUENCY FLOOD (100 year flood) means the flood having a one percent chance of being equaled or exceeded in any given year. The 100 year flood in Dallas is based upon fully-developed land uses within the watershed as defined by the current zoning designation.

(17.1) INTERIOR DRAINAGE AREAS mean the geographical areas that act as a watershed for the sumps.

(18) LEVEE means a manmade structure (usually an earthen embankment) designed and constructed in accordance with sound engineering practices to contain, control, or divert the flow of water for protection from temporary flooding.

(19) LEVEE SYSTEM means a flood protection system consisting of a levee or levees and associated structures such as closure and drainage devices constructed and operated in accordance with sound engineering practices.

(20) LOWEST FLOOR means the lowest floor of the lowest enclosed area of a building (including its basement). An unfinished or flood resistant enclosure that is useable solely for parking of vehicles, building access, or storage in an area other than a basement area, is not considered a building's lowest floor.

(21) MANUFACTURED HOME means a structure, transportable in one or more sections, which is built on a permanent chassis and designed for use with or without a permanent foundation when connected to the required utilities. In this article only, the term “manufactured home” includes park trailers, travel trailers, and similar vehicles placed on a site for more than 180 consecutive days, but does not include recreational vehicles.

(22) MANUFACTURED HOME PARK OR SUBDIVISION means a parcel (or contiguous parcels)
unusual and rapid accumulation or runoff of surface waters from any source.

(11) FLOOD INSURANCE RATE MAP (FIRM) means an official map of a community on which the Federal Emergency Management Agency has delineated the areas of special flood hazards and the insurance risk premium zones applicable to the community.

(12) FLOOD INSURANCE STUDY (FIS) means the official report provided by FEMA containing flood profiles, water surface elevation of the base flood, and the Flood Boundary-Floodway Map.

(13) FLOOD PLAIN (FP) means any land area susceptible to inundation by the design flood.

(14) FLOOD PLAIN ALTERATION means the construction of buildings or other structures, alterations, mining, dredging, filling, grading, or excavation in the flood plain which does not remove an FP designation. (Examples include the construction of a tennis court, a playground, a swimming pool, a fence, a deck, an erosion control wall, or the installation of significant landscaping.)

(15) FLOOD PLAIN OR FP ADMINISTRATOR means the director of water utilities, who is responsible for administering the federal flood insurance program, or the director's designated representative.

(16) FLOOD PROOFING means any combination of structural and non-structural additions, changes, or adjustments to structures which reduce or eliminate flood damage.

(17) FLOODWAY (OR REGULATORY FLOODWAY) means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the design flood without cumulatively increasing the water surface elevation or to discharge more than a designated height or rate.

(18) INTERIOR DRAINAGE AREAS mean the geographical areas that act as a watershed for the sumps.

(19) LEVEE means a manmade structure (usually an earthen embankment) designed and constructed in accordance with sound engineering practices to contain, control, or divert the flow of water for protection from temporary flooding.

(20) LEVEE SYSTEM means a flood protection system consisting of a levee or levees and associated structures such as closure and drainage devices constructed and operated in accordance with sound engineering practices.

(21) LOWEST FLOOR means the lowest floor of the lowest enclosed area of a building (including its basement). An unfinished or flood resistant enclosure that is useable solely for parking of vehicles, building access, or storage in an area other than a basement area, is not considered a building's lowest floor.

(22) MANUFACTURED HOME means a structure, transportable in one or more sections, which is built on a permanent chassis and designed for use with or without a permanent foundation when connected to the required utilities. In this article only, the term "manufactured home" includes park trailers, travel trailers, and similar vehicles placed on a site for more than 180 consecutive days, but does not include recreational vehicles.
of land divided into two or more manufactured home lots for rent or sale.

(23) NATIONAL FLOOD INSURANCE PROGRAM (NFIP) means the federal program administered by FEMA which enables property owners to purchase flood insurance against damage to or loss of property resulting from a flood.

(24) POOL-RIFFLE SEQUENCES mean the alternating deep and shallow flow conditions caused by a moving, nonuniform channel grade.

(25) SEEP means a location where natural groundwater makes its way in a non-continuous flow to the surface, creating a wet soil condition.

(26) SPECIAL EXCEPTION means a grant of relief to a property owner permitting reconstruction in a manner otherwise prohibited by this division.

(27) STANDARD PROJECT FLOOD means the flood caused by the most severe combination of meteorological and hydrological conditions reasonably characteristic of the region. The standard project flood is defined by the U.S. Army Corps of Engineers for use in major flood control projects.

(28) STRUCTURE means, for purposes of this division, a walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a manufactured home.

(29) SUBSTANTIAL DAMAGE means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.

(30) SUBSTANTIAL IMPROVEMENT means any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market or tax appraisal value of the structure, whichever is greater, as determined by an independent appraiser or the last official City tax-roll, either before the improvement or repair is started, or, if the structure has been damaged and is being restored, before the damage occurred. For the purpose of this definition “substantial improvement” occurs when the first alteration of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. The term does not, however, include any project for improvement of a structure for the sole purpose of complying with federal, state, or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official as necessary to assure safe living conditions, or any alteration of a structure listed on the National Register of Historic Places or a state inventory of historic places.

(31) SUMPS mean drainage features of levee systems that temporarily store storm water runoff before it is conveyed to a river system by pumping over or draining through a levee.

(32) SWALES mean low lying areas in the floodplain that convey flood waters when flow exceeds channel capacity.

(33) VALLEY STORAGE means the measure of a stream’s ability to store water as it moves downstream.

(34) VARIANCE means a grant of relief by a community from the terms of a floodplain management regulation.

(35) WATER SURFACE ELEVATION means the height, in relation to the North American Vertical Datum (NAVD) of 1988, of floods of various magnitudes and frequencies in the floodplain.

(23) MANUFACTURED HOME PARK OR SUBDIVISION means a parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

(24) NATIONAL FLOOD INSURANCE PROGRAM (NFIP) means the federal program administered by FEMA which enables property owners to purchase flood insurance against damage to or loss of property resulting from a flood.
(25) ONE-PERCENT ANNUAL CHANCE FLOOD FREQUENCY (one-percent annual chance flood) means the flood having a one percent chance of being equaled or exceeded in any given year. The one-percent annual chance flood in Dallas is based upon fully developed land uses within the watershed as defined by the current zoning designation.

(26) POOL-RIFFLE SEQUENCES mean the alternating deep and shallow flow conditions caused by a moving, nonuniform channel grade.

(27) SEEP means a location where natural groundwater makes its way in a non-continuous flow to the surface, creating a wet soil condition.

(28) SPECIAL EXCEPTION means a grant of relief to a property owner permitting reconstruction in a manner otherwise prohibited by this division.

(29) STANDARD PROJECT FLOOD means the flood caused by the most severe combination of meteorological and hydrological conditions reasonably characteristic of the region. The standard project flood is defined by the U.S. Army Corps of Engineers for use in major flood control projects.

(30) STRUCTURE means, for purposes of this division, a walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a manufactured home.

(31) SUBSTANTIAL DAMAGE means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.

(32) SUBSTANTIAL IMPROVEMENT means any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market or tax appraisal value of the structure, whichever is greater, as determined by an independent appraiser or the last official City tax roll, either before the improvement or repair is started, or, if the structure has been damaged and is being restored, before the damage occurred. For the purpose of this definition "substantial improvement" occurs when the first alteration of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. The term does not, however, include any project for improvement of a structure for the sole purpose of complying with federal, state, or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official as necessary to assure safe living conditions, or any alteration of a structure listed on the National Register of Historic Places or a state inventory of historic places.

(33) SUMPS mean drainage features of levee systems that temporarily store storm water runoff before it is conveyed to a river system by pumping over or draining through a levee.

(34) SWALES mean low lying areas in the flood plain that convey flood waters when flow exceeds channel capacity.

(35) VALLEY STORAGE means the measure of a stream’s ability to store water as it moves downstream.

(36) VARIANCE means a grant of relief by a community from the terms of a flood plain management regulation.

(37) WATER SURFACE ELEVATION means the height, in relation to the North American Vertical Datum (NAVD), of floods of various magnitudes and frequencies in the flood plain.

(b) Interpretations. The intent of this ordinance is to equal or exceed the minimum federal criteria for participation in the National Flood Insurance Program, located in 44 Code of Federal Regulations, Chapter I, Part 60.3(d). (Ord. Nos. 19455; 19786; 20360; 24085; 27318; 27572; 27697; 27893; 30994; 31314)
SEC. 51A-5.102. DESIGNATION OR REMOVAL OF FP AREAS.

(a) In general.

(1) A floodplain designation is not a zoning classification, but refers to a specific area subject to flooding.

(2) When this designation is noted by an "FP" prefix on the official zoning district map, the area designated is referred to in this article as an FP area.

(3) FP areas include those areas:

(A) identified as special flood hazards by FEMA in the:

(i) current scientific and engineering report entitled, "The Flood Insurance Study (FIS) for Dallas County," dated March 21, 2019, with accompanying Flood Insurance Rate Maps and/or Flood Boundary-Floodway Maps (FIRM and/or FBFM) dated March 21, 2019, and any revisions thereto are hereby adopted by reference and declared to be a part of this paragraph, or

(ii) current scientific and engineering report entitled, "The Flood Insurance Study (FIS) for Rockwall County," dated September 26, 2008, with accompanying Flood Insurance Rate Maps and/or Flood Boundary-Floodway Maps (FIRM and/or FBFM) dated September 26, 2008, and any revisions thereto are hereby adopted by reference and declared to be a part of this paragraph, and

(iii) current scientific and engineering report entitled, "The Flood Insurance Study (FIS) for Collin County," dated June 7, 2017, with accompanying Flood Insurance Rate Maps and/or Flood Boundary-Floodway Maps (FIRM and/or FBFM) dated June 7, 2017, and any revisions thereto are hereby adopted by reference and declared to be a part of this paragraph, or

(iv) current scientific and engineering report entitled, "The Flood Insurance Study (FIS) for Denton County," dated April 18, 2011, with accompanying Flood Insurance Rate Maps and/or Flood Boundary-Floodway Maps (FIRM and/or FBFM) dated April 18, 2011, and any revisions thereto are hereby adopted by reference and declared to be a part of this paragraph, or

(v) current scientific and engineering report entitled, "The Flood Insurance Study (FIS) for Kaufman County," dated July 3, 2012, with accompanying Flood Insurance Rate Maps and/or Flood Boundary-Floodway Maps (FIRM and/or FBFM) dated July 3, 2012, and any revisions thereto are hereby adopted by reference and declared to be a part of this paragraph, and

(B) other areas that the director of Dallas Water Utilities has identified as flood risk areas.

(b) Initiation. The addition to or removal from the official zoning district map of an FP prefix may be initiated in the following ways:

(1) An owner of property located within an FP area may apply for the review of an FP designation based upon evidence of a mapping error provided by the owner.

(2) The director of water utilities may, upon his or her own initiative, review the status of an FP designation.

(3) An owner of property located within an FP area may apply for a fill permit and removal of the FP prefix by following the procedure outlined in Section 51A-5.105.

(c) Engineering studies. Hydraulic and hydrologic engineering studies or a field survey must support any changes to an FP designation. The director may require core borings as part of his or her investigations under this subsection.
§ 51A-5.102 Dallas Development Code: Ordinance No. 19455, as amended

(d) Decision on designation. The director of water utilities shall make a final decision on whether to add or remove an FP prefix on the official zoning district map only after the director determines that engineering studies support the change in the FP designation.

(e) Zoning map revision. The director of water utilities must notify the director of sustainable development and construction in writing that an FP prefix is to be removed from or added to the official zoning district map. The written notification must contain a description of the property affected and the reasons why the FP prefix is being changed. The director of water utilities shall keep a copy of the notification in a permanent file and send a copy of the notification to the city secretary, who shall keep the copy in a permanent file.

(f) Letter of Map Revision (LOMR). A letter of map revision from FEMA is required for removal of an FP prefix from the official zoning map if the area is designated as a flood hazard area on the FIRM. (Ord. Nos. 19455; 19786; 21299; 22920; 24085; 25047; 25716; 27318; 27551; 27697; 28164; 28671; 29359; 30481; 30994; 31109)

SEC. 51A-5.103. COMPLIANCE IN UNDESIGNATED FLOOD PLAIN AREAS.

(a) A person shall comply with the requirements of this article for FP areas before developing land within the design flood line of a creek or stream having a contributing drainage area of 130 acres or more, even if the land has not been formally designated as an FP area.

(b) Alterations of the natural flood plain in areas with less than 130 acres must be approved by the director of water utilities for compliance with the Dallas Development Code and city drainage standards. (Ord. Nos. 19455; 19786; 24085; 27697; 30994)

SEC. 51A-5.103.1. VEGETATION ALTERATION IN FLOOD PLAIN PROHIBITED.

(a) A person commits an offense if he removes or injures any vegetation within a flood plain.

(b) It is a defense to prosecution under Subsection (a) if the act is:

(1) authorized in advance in writing by the director of water utilities;

(2) in conformance with a landscape plan approved by the director of water utilities;

(3) routine maintenance of vegetation such as trimming or cutting designed to maintain the healthy or attractive growth of the vegetation; or

(4) routine maintenance performed, required, or authorized by the city in order to maintain the floodwater conveyance capacity of the flood plain.

(Ord. Nos. 19455; 19786; 24085; 27697; 30994)

SEC. 51A-5.104. USES AND IMPROVEMENTS PERMITTED.

(a) Uses permitted. To allow for the appropriate development of land which is subject to flooding without unduly endangering life and property, the following uses are permitted in an FP area provided they are permitted in the underlying zoning district and comply with the requirements of Section 51A-5.105(g) and all applicable elevation requirements of the Federal Emergency Management Agency:

(1) Farm or ranch.

(2) Utility services, electrical substation, detention basin, water reservoir or pumping station, and water treatment plant.
§ 51A-5.104 Dallas Development Code: Ordinance No. 19455, as amended § 51A-5.104

(3) Sanitary landfill and refuse transfer station.

(4) Public park or playground, private recreation club or area, private community center, and golf course.

(5) Outside commercial amusement approved by specific use permit.

(6) Helistop approved by specific use permit.

(7) Radio, television, or microwave tower, and amateur communications tower.

(b) Improvements permitted.

(1) Structures. A structure customarily associated with a use listed in Subsection (a) may be constructed within an FP area only if the director of water utilities determines that the proposed structure meets the same engineering requirements applicable to filing in Section 51A-5.105(g) and issues a flood plain alteration permit.

(2) Improvements. The owner of a structure in an FP area shall not make any improvements to the structure without first obtaining approval from the director of water utilities. The director of water utilities may approve proposed improvements if the cumulative value of all improvements for the previous ten years is less than 50 percent of the market or tax appraisal value of improvements on the property, whichever is greater. No substantial improvements are permitted. Any improvement must comply with the requirements of Section 51A-5.105(g).

(3) Completion of vested structures. The building official shall not withhold a final inspection or certificate of occupancy for a structure in an FP area if building permits for the structure were issued by the building official before FEMA’s FIRM becomes effective designating such areas as AA or AE, and the structure otherwise complies with all applicable requirements.

(4) Board of adjustment. The board of adjustment may grant a special exception to allow the reconstruction of a structure in an FP area upon a showing of good and sufficient cause, a determination that failure to all the reconstruction would result in exceptional hardship to the property owner, and a determination that the reconstruction will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public, or conflict with other laws. The board may not grant a special exception to authorize reconstruction within any designated floodway if any increase in flood levels during the base flood discharge would result. Any special exception granted must be the minimum necessary, considering the flood hazard, to afford relief. The reconstruction of a structure in an FP area may not increase the lot coverage of the structure.

(A) The director of water utilities shall notify in writing the owner of a structure in an FP area that:

(i) the granting of a special exception to reconstruct the structure below the base flood level will result in increased premium rates for flood insurance that will commensurate with the increased risk; and

(ii) the construction below the base flood level increases risks to life and property. The notification letter must be maintained with the record of the board’s action.

(B) The FP administrator shall maintain a record of all actions involving applications for special exceptions and shall report special exceptions to FEMA upon request.

(5) Parking.

(A) Surface parking. All surface parking spaces must be constructed at a minimum elevation of two feet above the design flood elevation.
(B) Underground parking garages. The entrance elevation and any openings on underground parking garages constructed within or adjacent to a flood prone area may not be lower than two feet above the design flood elevation.

(C) Elm Fork, West Fork, and Trinity River flood plain. The minimum elevation requirements do not apply to parking in the flood plain of Elm Fork, West Fork, and main stem of the Trinity River.

(D) Storage in the flood plain prohibited.

(i) A person shall not place, store, or maintain a shipping container, trailer, boat, inoperable vehicle, or construction equipment in the flood plain. For purposes of this paragraph, the term "vehicle" includes but is not limited to automobiles, buses, and recreational vehicles. It is a defense to prosecution that the placement, storage, or maintenance of shipping containers, trailers, boats, inoperable vehicles, or construction equipment is otherwise permitted by or in connection with a valid federal, state, county, or city permit, or is otherwise authorized by those entities.

(ii) The director of water utilities shall give written notice and allow persons in violation of Subparagraph (i) a period of 180 days to come into compliance.

(6) Manufactured homes. Manufactured homes may not be placed in manufactured home parks, courts, or subdivisions within flood plain areas unless all of the following requirements are met:

(A) No manufactured home may be placed within a floodway.

(B) The manufactured home park, court, or subdivision where the manufactured home is to be placed must have been an existing development prior to March 16, 1983, the effective date of the original City of Dallas Flood Insurance Rate Map.

(C) All manufactured homes to be placed within a flood plain area in accordance with Subparagraph (B) must be installed using methods and practices that minimize flood damage.

(D) The lowest floor of a manufactured home must be elevated one foot above the design flood elevation, and the home must be anchored to resist flotation, collapse, or lateral movement. An acceptable method of anchoring includes but is not limited to the use of over-the-top frame ties to ground anchors. Applicable state anchoring requirements for resisting wind forces must be met. A registered land surveyor shall submit a certification to the director of water utilities stating that elevation requirements are satisfied.

(E) The manufactured home's chassis must be supported by reinforced piers or other foundation elements that are less than 36 inches in height above grade. The chassis must be securely anchored to a foundation system to resist flotation, collapse, and lateral movement.

(F) Enclosure of areas below the lowest floor of a manufactured home placed within an FP area must be designed to automatically equalize hydrostatic floor forces on exterior walls by allowing for the entry and exit of flood water. Designs for meeting this requirement must be certified by a licensed professional engineer and satisfy the following criteria:

(i) At least two openings must be provided which have a total net area of not less than one square inch for every square foot of enclosed area subject to flooding.

(ii) The bottom of all openings must be no higher than one foot above grade. Openings may be equipped with screens, louvers, valves, or other coverings or devices provided that they permit the automatic entry and exit of floodwater.

(c) Construction standards. All improvements and construction permitted in an FP area must comply with the following requirements:
(1) Structures must be:

   (A) securely anchored to the foundation and otherwise designed to prevent flotation and collapse during inundation; and

   (B) designed to prevent damage to nonstructural elements during inundation.

(2) Thermal insulation used below the first floor level must be of a type that does not absorb water.

(3) Adhesives must have a bonding strength that is unaffected by inundation.

(4) Doors and all wood trim must be sealed with a water-proof paint or similar product.

(5) Electrical, heating, ventilation, plumbing, air-conditioning equipment, and other service facilities must be designed and located to prevent water from entering or accumulating in the components during flooding.

(6) Basements.

   (A) Basements are permitted only in nonresidential construction and only if they are designed to preclude inundation by the design flood level, either by:

      (i) locating any exterior opening at least three feet above the level of the design flood elevation; or

      (ii) using water-tight closures, such as bulkheads and flood shields.

   (B) All basements must be constructed so that any enclosure area, including utilities and sanitary facilities below the flood-proofed design level, is watertight with impermeable walls.

   (C) Basement walls must be built with the capacity to resist hydrostatic and hydrodynamic loads and the effects of buoyancy resulting from flooding to the flood-proofed design level so that minimal damage will occur from floods that exceed the flood-proofed design level.

   (D) The area surrounding the structure must be filled to or above the elevation of the design flood. The fill must be compacted, and slopes must be protected by vegetative cover.

   (E) Basements must be designed by a licensed engineer.

(7) Plywood used at or below the first floor level must be of an “exterior” or “marine” grade and of a water-resistant or waterproof variety.

(8) Wood flooring used at or below the first floor level must be installed to accommodate a lateral expansion of the flooring, perpendicular to the flooring grain, without incurring structural damage to the building.

(9) Basement ceilings must consist of a sufficient wet strength and be installed to survive inundation.

(10) Paints or other finishes used at or below the first floor level must be capable of surviving inundation.

(11) All air ducts, large pipes and storage tanks located at or below the first floor level must be firmly anchored to prevent flotation.

(12) Tanks must be vented at a location above the 100-year flood level.

(12) Tanks must be vented at a location above the one-percent annual chance flood level. (Ord. Nos. 19455; 19786; 20360; 24085; 24543; 27697; 27893; 30994; 31314)

SEC. 51A-5.105. FILLING IN THE FLOOD PLAIN.

(a) Permit required.

(1) A person shall not deposit or store fill, place a structure, excavate, or engage in any other
development activities in an FP area without first obtaining:

(A) a fill permit or an FP alteration permit from the director of water utilities; and

(B) all other permits required by county, state, and federal agencies.

(2) A fill permit allows the property to be developed at a specified elevation in compliance with this section.

(3) The director of water utilities shall maintain a record of all fill permits and FP alteration permits.

(b) Flood plain alteration permit. The director of water utilities may issue a flood plain alteration permit if he or she determines that:

(1) the alteration does not remove an FP designation; and

(2) the alteration complies with all applicable engineering requirements in Subsection (g).

(c) Initiation of fill permit process.

(1) Application. An applicant for a fill permit shall submit an application to the director of water utilities on a form approved by the director and signed by all owners of the property.

(2) Notification signs. Except as provided in Section 51A-5.105(f)(2), an applicant is responsible for obtaining the required number of notification signs and posting them on the property that is subject of the application. Notification signs must be obtained from the director of water utilities at the time the application is made.

(A) Number of signs required. For tracts of five acres or less, only one notification sign is required. An additional notification sign is required for each additional five acres or less, except that no applicant is required to obtain and post more than five notification signs on the property, regardless of its size.

(B) Posting of signs. The applicant shall post the required number of notification signs on the property at least 15 days before the date of the scheduled public hearing before the city council. The signs must be posted at a prominent location adjacent to a public street and be easily visible from the street.

(C) Failure to comply. If the city council determines that the applicant has failed to comply with the provisions of this section, it may postpone the public hearing.

(d) Preapplication conference.

(1) An applicant for a fill permit shall request a preapplication conference with representatives from the department of water utilities.

(2) At the preapplication conference, the director of water utilities shall determine what information is necessary for a complete evaluation of the proposed fill project. The director may require the applicant to submit all necessary information, including, but not limited to the following:

(A) A vicinity map.

(B) The acreage figures for the entire tract, the area located in the flood plain, and the area proposed to be filled.

(C) A description of existing and proposed hydrologic and hydraulic analysis conducted.

(D) A landscape and erosion control plan. The landscape plan must comply with the Landscape and Tree Preservation Regulations in Article X of the Dallas Development Code, as amended.
(E) A table of values for analysis of the engineering criteria listed in Subsections (h)(1), (h)(2), and (h)(4).

(F) A water surface profile.

(G) A plan view showing existing and proposed contours and grading.

(H) Plotted cross-sections.

(I) An overall map of the project area.

(e) Filling to remove an FP designation.

(1) In general. This subsection applies to applications to remove an FP designation other than applications to remove an FP designation from an interior drainage area pursuant to Subsection (f).

(2) Review of application by departments.

(A) If the application is to remove an FP designation, the director of water utilities shall forward copies of the application to the director of sustainable development and construction, the chief planning officer, and the director of park and recreation for review.

(B) The director of sustainable development and construction, the chief planning officer, and the director of park and recreation shall review the application and advise the director of water utilities of the environmental impacts of the project. They shall also determine whether the applicant’s property should be considered for public acquisition due to its ecological, scenic, historic or recreational value. The director of water utilities shall provide a report to the city council on each application regarding environmental impacts and public acquisition issues.

(3) Neighborhood meeting. The water utilities department shall schedule and conduct a neighborhood meeting on each application. The applicant or the applicant’s representative must attend the neighborhood meeting. The director shall send written notice of the meeting to the applicant, to all owners of real property within 500 feet from the boundary of the subject property, and to persons and organizations on the early notification list on file with the department of sustainable development and construction. Measurements include the streets and alleys. The notice must be given not less than 10 days before the date set for the neighborhood meeting by depositing the notice properly addressed and postage paid in the United States mail to the property owners as evidenced by the last approved city tax roll. This notice must be written in English and Spanish if the area of request is located wholly or partly within a census tract in which 50 percent or more of the inhabitants are persons of Spanish origin or descent according to the most recent federal decennial census.

(4) Notice and public hearing. After the neighborhood meeting, the director of water utilities shall schedule a public hearing on the application. The city secretary shall give notice of the public hearing in the official newspaper of the city at least 15 days before the date of the public hearing. The director shall also send written notice of the public hearing to the applicant, to all owners of real property within 500 feet from the boundary of the subject property, and to persons and organizations on the early notification list on file with the department of sustainable development and construction. Written notice must be given in the same manner required in Paragraph (2) for the neighborhood meeting.

(5) Decision on application.

(A) After notice and a public hearing in compliance with Paragraph (3), the city council shall approve or deny the application for a fill permit. The city council may only deny an application if:

(i) the application does not meet the requirements of Section 51A-5.105(g); or

(ii) the city council has, by resolution, authorized acquisition of the property
§ 51A-5.105 Dallas Development Code: Ordinance No. 19455, as amended

under the laws of eminent domain, and denial of the application is necessary to preserve the status quo until the property is acquired.

(B) In connection with its approval of a fill permit, the city council may grant a variance to the requirements of Subsection (h) if the variance will not violate any provision of federal or state law or endanger life or property.

(C) If the city council approves a fill permit application, the FP designation for the filled area may be removed from the official zoning district map upon compliance by the applicant with the specifications for filling.

(6) Zoning map revision. Upon compliance with all applicable requirements of this section by the applicant, the director of water utilities shall notify the director of sustainable development and construction, who shall remove the FP designation for the filled area from the official zoning district map.

(7) Letter of Map Revision (LOMR). A letter of map revision must be obtained from FEMA, if applicable, before an FP prefix may be removed from the official zoning district map. A building permit may be issued for construction of underground utilities if a conditional letter of map revision (CLOMR) is obtained; however, no building permit may be issued until a final letter of map revision is obtained. Upon approval and receipt of a letter of map revision, the director of water utilities shall notify the director of sustainable development and construction, who shall remove the FP designation for the subject area from the official zoning district map.

(g) Filling operations. If the city council approves a fill permit, the filling operations must comply with the following requirements:

(1) Any excavation required by the specifications of the approved application must be conducted before or at the same time as placing fill.

(2) Building pad sites must be filled to an elevation of at least two feet above the design flood elevation.

(3) The lowest floor of any structure must be constructed at least three feet above the design flood elevation.

(4) Fill material must consist of natural material including but not limited to soil, rock, gravel, or broken concrete. Decomposable matter, including but not limited to lumber, sheetrock, trees, tires, refuse, or hazardous, toxic matter, is prohibited as fill
material. Fill must be compacted to 95 percent standard proctor density.

(5) Before construction, erosion control devices such as straw hay bales, silt fences or similar items must be installed to eliminate any transportation of sediment downstream. The property owner is responsible for removal of any sediment deposited by runoff as a result of filling.

(6) If compliance with a National Pollutant Discharge Elimination System (NPDES) permit is required for construction activities, a copy of the Notice of Intent (NOI) or the individual NPDES permit must be submitted to the director of water utilities before beginning fill operations.

(7) Fill shall be placed no more than five feet above the design flood elevation, except where necessary to match the existing elevation of the adjacent property as determined by the director of water utilities. In determining when it is necessary to match the existing elevation, the director shall consider the effects on local drainage and storm water management, the access needs of the property, and other public health and safety concerns.

(8) A copy of the approved fill permit must be posted and maintained at the fill site for inspection purposes until fill operations have been completed.

(9) After filling operations have been completed, the applicant shall submit a certification to the director of water utilities that proper fill elevations, compaction requirements, and all other specifications of the approved application have been followed. In addition, the applicant shall submit a copy of the letter of map revision (LOMR) issued by FEMA, if applicable.

(h) **Engineering requirements for filling.**

(1) Except for detention basins, alterations of the FP area may not increase the water surface elevation of the design flood of the creek upstream, downstream, or through the project area. Detention basins may increase the water surface elevation of the design flood provided the increase is within the detention basin’s boundaries as approved by the director of water utilities.

(2) Alterations of the FP area may not create or increase an erosive water velocity on or off-site. The mean velocity of stream flow at the downstream end of the site after fill may not exceed the mean velocity of the stream flow under existing conditions.

(3) The effects of the existing and proposed public and private improvements will be used in determining water surface elevations and velocities.

(4) The FP area may be altered only to the extent permitted by equal conveyance reduction on both sides of the natural channel. The following valley storage requirements apply to all FP areas except those governed by a city council-adopted management plan that contains valley storage regulations, in which event the valley storage regulations contained in the plan apply:

(A) Except as otherwise provided in Subparagraph (B):

(i) no loss of valley storage is permitted along a stream with a drainage area of three square miles or more;

(ii) valley storage losses along streams with a drainage area between 130 acres and three square miles may not exceed 15 percent, as calculated on a site by site basis; and

(iii) valley storage losses along streams with a drainage area of less than 130 acres is not limited.

(B) Hydrologic computations may be performed to evaluate basin-wide valley storage loss impacts on the design flood discharge. If the computations demonstrate that valley storage losses do not result in increases in the design flood discharge at any point downstream of the project, valley storage
losses are permitted even though they exceed the limits provided in Subparagraph (A).

(5) An environmental impact study and a complete stream rehabilitation program must be approved before relocation or alteration of the natural channel or alteration of an environmentally significant area. The net environmental impacts of the proposal may not be negative. The environmental impact study must contain the following items:

(A) A description of the existing conditions of the site, adjacent properties, upstream and downstream creek sections for approximately 1,000 feet (unless conditions require additional information in the opinion of the director of water utilities), and creek and overbank areas. The description of these conditions must include:

(i) the characterization of creek features such as bed quality and material, pool-riffle sequences, natural ground water, springs, seeps, magnitude and continuity of flow, water quality (including biological oxygen demand, dissolved oxygen, and nutrient loadings), bank quality and material, vegetative cover and patterns, bank erosion, topographic relief, disturbances to the natural character of the creek, animal and aquatic life, and the extent and character of wetland areas; and

(ii) soil types and land uses of the site and surrounding area.

(B) A description of the proposed project. This description must include:

(i) the intended ultimate use of the site, or if that is not known, a description of the interim site plan, including construction access;

(ii) reasons why the creek or flood plain alteration is necessary; and

(iii) a site plan showing the flood plain and construction access necessary to perform the work.

(C) A description of at least three possible ways of handling the creek and flood plain, including:

(i) an alternative that assumes the creek and flood plain are not changed;

(ii) the applicant’s proposed action; and

(iii) alternatives proposed by the director of water utilities.

(D) An identification of the impacts created by each alternative, describing in detail all of the positive and negative impacts upon the existing conditions described in Subparagraph (A), that would be created by each alternative.

(E) A recommended course of action based upon evaluation of the alternatives.

(F) Proposed strategies to mitigate adverse impacts. Examples of strategies include tree wells, temporary construction and permanent erosion and sedimentation controls, vegetative buffers, and replacement planting.

(6) The toe of any fill slope must parallel the natural channel to prevent an unbalanced stream flow in the altered FP area.

(7) To insure maximum accessibility to the FP area for maintenance and other purposes and to lessen the probability of slope erosion during periods of high water, maximum slopes of the filled area may not exceed four to one for 50 percent of the length of the fill and six to one for the remaining length of the fill. The slope of any excavated area may not exceed four to one unless the excavation is in rock. Vertical walls, terracing, and other slope treatments may be used provided no unbalancing of stream flow results and the slope treatment is approved as a part of a landscaping plan for the property.
§ 51A-5.105 Dallas Development Code: Ordinance No. 19455, as amended

(8) The elevation of excavated areas in the FP area may not be lower than one-third of the depth of the natural channel, as measured from the adjacent bank, except for excavation of lakes. Excavation must be at least 50 feet from the bank of the natural channel, except as necessary to provide proper drainage. The excavated area may not exceed 25 percent of the total area of the tract's unfilled flood plain.

(9) A landscape and erosion control plan must be submitted and approved. Landscaping must incorporate natural materials (such as earth, stone, and wood) on cut and filled slopes when possible. The definitions of Section 51A-10.101 of this chapter apply to this subsection. Except as otherwise provided, the preservation and mitigation requirements contained in the tree preservation regulations, Division 51A-10.130 of the Dallas Development Code, apply. Each landscape and erosion control plan must comply with the following criteria:

(A) The size, type, and location of all trees within the existing flood plain that are six-inch caliper and larger must be shown. The plans must indicate which of the trees are to be preserved and which will be lost due to development activities in the flood plain.

(B) Trees must be protected if they are more than six-inches in caliper and located in sloped areas of flood plain fill with a depth of four feet or less. If trees are protected by tree wells, the wells must be at or beyond the drip line of the tree and must provide positive drainage. A well may not exceed four feet in depth unless designed and certified by a registered landscape architect. Tree wells are required if either of the following conditions occur at the base of a tree to be protected:

   (i) a fill of greater than six inches; or

   (ii) a cut greater than six inches.

(C) The size, type, and location of all proposed replacement trees to mitigate the loss of existing trees must be shown. The tree types must be selected in accordance with the provisions of Section 51A-10.134 and must be approved by the city arborist as suitable for use under local climate and soil conditions.

(D) Where a swale is proposed, tree replacement is required for the loss of existing trees with a six-inch caliper or greater located within the proposed swale. The applicant must indicate replacement of either 35 percent of the number of trees displaced, or the minimum number of trees necessary to provide a spacing equivalent to 50 feet on center, whichever is less. At least 50 percent of the replacement trees must have a caliper of at least six inches. The remainder of the trees must have a caliper of at least three inches.

(E) The specific plant materials proposed to protect fill and excavated slopes must be indicated. Plant materials must be suitable for use under local climate and soil conditions. In general, hydroseeding or sodding Bermuda grass is acceptable during the summer months (May 1st to August 30th). Winter rye or fescue grass may be planted during times other than the summer months as a temporary measure until such time as the permanent planting can be accomplished.

(F) The proposed methods of erosion and sedimentation control, such as hay bales and sedimentation basins, to be used during construction must be shown in detail.

(G) The fill case applicant, current owners, and subsequent owners must maintain and assure the survival of all planted material until the property is developed and a permanent maintenance plan of record is established. Maintenance responsibility must be reflected in the submitted plans or supporting documents.
(10) Any alteration of the FP area necessary to obtain a removal of an FP prefix may not cause any additional expense in any current or projected public improvements.

(i) Special criteria for the Trinity and the Elm Fork. If the FP area is in the flood plain of the Trinity River, Elm Fork of Trinity River, West Fork of the Trinity River, Five Mile Creek – confluence to Bonnie View Road, White Rock Creek – confluence to Scyene Road, or the regulatory floodways established by FEMA, the following requirements must be met:

(A) Encroachment into the floodway is prohibited unless FEMA issues a conditional Letter of MapRevision.

(B) Fill elevations and first floor elevations in flood plain areas located along the Elm Fork, West Fork or main stem of the Trinity River that would be protected from inundation by the 100-year or greater flood by a federally authorized flood control project must be constructed at a minimum elevation of one foot above the design flood. The parking requirements in Section 51A-5.104(b)(4) do not apply.

(j) Term of permit validity and extension procedures.

(A) Permits issued after October 11, 1996. A fill permit is valid for a five-year time period from the date of issuance. The fill permit automatically terminates if the filling operations have not been completed within the five-year time period. The director of water utilities may grant a one-time extension of a fill permit for an additional three-year time period upon receipt of a written request made at least 30 days before the expiration of the original permit. The applicant for permit extension must demonstrate that the project fully complies with the flood plain regulations that were in effect at the time that the original permit was approved.
(B) **Permits issued before October 11, 1996.** Fill permits issued before October 11, 1996, shall expire on December 31, 2001. The director of water utilities shall notify owners of fill permits governed by this paragraph that:

(i) filling must be completed no later than December 31, 2001; and

(ii) a one-time extension of the permit for an additional three-year time period may be granted by the director of water utilities upon receipt of a written request made at least 30 days before the expiration date of the original permit. The applicant for permit extension must demonstrate that the project fully complies with the flood plain regulations that were in effect at the time that the original permit was approved.

(C) **New permit required upon expiration.** When a fill permit terminates, the applicant must apply for a new permit before filling the property. The new application must comply with the flood plain regulations that are in effect at the time that the request is considered by the city council.

(D) **Presumption of completion.** Filling operations are deemed completed when the applicant submits:

(i) a certification to the director of water utilities that proper fill elevations have been achieved and the specifications of the approved application have been followed; and

(ii) a letter of map revision from FEMA, if applicable. (Ord. Nos. 19455; 19786; 21299; 22920; 24085; 25047; 27697; 27893; 28424; 29478; 30994; 31314)
SEC. 51A-5.106. SETBACK FROM NATURAL CHANNEL REQUIRED.

(a) For purposes of this section:

(1) NATURAL CHANNEL SETBACK LINE means that setback line described below located the farther beyond the crest:

(A) That line formed by the intersection of the surface of the land and the vertical plane located a horizontal distance of 20 feet beyond the crest.

(B) That line formed by the intersection of the surface of the land beyond the crest and a plane passing through the toe and extending upward and outward from the channel at the designated slope. For purposes of this paragraph, the designated slope is:

(i) four to one if the channel contains clay or shale soil; and

(ii) three to one in all other cases.

(2) CREST means that line at the top of the bank where the slope becomes less than four to one.

(3) TOE means that line at the bottom of the bank where the slope becomes less than four to one.

(b) Except as otherwise provided in Subsection (c), all structures must be located behind the natural channel setback line.

(c) A structurally engineered retention system approved by the director may be substituted for the setback required in Subsection (b). (Ord. Nos. 19786; 24085; 25047; 28073)

SEC. 51A-5.107. TRINITY RIVER CORRIDOR DEVELOPMENT CERTIFICATE PROCESS.

(a) Definitions. In this section:

(1) CORRIDOR DEVELOPMENT CERTIFICATE (CDC) MANUAL means the manual by that title dated January 31, 1992, or its latest revision, which is attached to this ordinance and kept on file in the office of the city secretary.

(2) FLOOD PLAIN ALTERATION means any construction of buildings or other structures, mining, dredging, filling, grading, or excavation in the floodplain.

(3) TRINITY RIVER CORRIDOR means the portion of the flood plain of the West Fork, Elm Fork, and mainstream segments of the Trinity River flood plain within the Dallas city limits, as delineated on the latest CDC Regulatory Map.

(b) Certificate required. A person commits an offense if he makes any flood plain alteration within the Trinity River Corridor without first obtaining a corridor development certificate from the director of water utilities. It is a defense to prosecution that an exemption or variance has been obtained in accordance with CDC criteria.

(c) Application. An application for a corridor development certificate must be filed with the director of water utilities on a form furnished by the department of water utilities.

(d) Review. The director of water utilities shall deny an application for a certificate unless it complies with the standards contained in the CDC Manual or unless an exemption from or a variance to those standards is obtained in accordance with Subsection (e).
§ 51A-5.107 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-5.201

(e) Exemptions and variances.

(1) Exemptions.

(A) An exemption from the requirements of this section may be obtained if the floodplain alteration involves the following activities:

(i) Ordinary maintenance of and repair to flood control structures.

(ii) The construction of outfall structures and associated intake structures if the outfall has been permitted under state or federal law.

(iii) Discharge of material for backfill or bedding for utility lines, provided there is no significant change in pre-existing bottom contours and excess materials are removed to an upland disposal area.

(iv) Bank stabilization.

(v) Any project listed in the U.S. Army Corps of Engineers March 1990 Reconnaissance Report, which is attached as Appendix A to the CDC Manual, or any project approved under the provisions of this division, provided the approval, permit, or authorization has not expired and no significant changes have occurred since the approval, permit, or authorization was issued.

(B) Application for an exemption must be made to the director of water utilities on a form provided by the department of water utilities.

(C) If the director of water utilities determines that an application for an exemption falls within one of the categories listed in Paragraph (1), the director shall issue a written exemption from the requirements of this section.

(2) Variances. If the director of water utilities determines that the application for a corridor development certificate does not comply with all of the standards contained in the CDC Manual, the applicant may apply for a variance to any standard contained in the manual. An application for a variance must be made to the director of water utilities, who shall schedule the application for consideration by the city council. (Ord. Nos. 21636; 24085; 27697; 30994)

SEC. 51A-5.201. DEFINITIONS.

In this division, unless the context clearly indicates otherwise:

(1) BEST MANAGEMENT PRACTICES means schedules of activities, prohibitions of practices, maintenance procedures, and other management practices to prevent or reduce the pollution of waters of the United States. Best management practices also include treatment requirements, operating procedures, and practices to control plant site runoff, spillage or leaks, sludge or waste disposal, or drainage from raw material storage.

(2) CHALK ZONE means the lower chalk member of the Austin chalk formation overlying the Eagle Ford shale formation. The chalk zone consists primarily of a chalk limestone with minor seams of shale and bentonite clays.

(3) CREST means that line above the escarpment line where the slope becomes less than 4:1.

(4) ESCARPMENT AREA REVIEW COMMITTEE means the committee described in Section 51A-5.209 of this chapter.

(5) ESCARPMENT FACE means that portion of the escarpment zone between the crest and the toe.

(6) ESCARPMENT LINE means that line formed by the intersection of the plane of the stratigraphic contact between the Austin chalk and the Eagle Ford shale formations and the surface of the land.
(7) ESCARPMENT ZONE means that corridor of real property south of Interstate Highway 30 between the following described vertical planes:

(A) On the crest side of the escarpment line and measuring horizontally from that line, the vertical plane that is 125 feet from that line, or 35 feet beyond the crest, whichever is farther from that line.

(B) On the toe side of the escarpment line and measuring horizontally from that line, the vertical plane that is 85 feet from that line, or 10 feet beyond the toe, whichever is farther from that line.

(8) FACTOR OF SAFETY means a combination of factors which, when considered together, indicates whether the slope is stable at a slip surface location. The factor of safety (Fs) is determined using the equation:

\[
Fs = \frac{\text{Shearing strength available along sliding surface}}{\text{Shearing stresses tending to produce failure along surface}}
\]

(9) GEOLOGICALLY SIMILAR AREAS means:

(A) areas adjacent to and similar to the escarpment zone by virtue of their slopes, soils, and geology; and

(B) the drainage basins containing the escarpment zone, excluding those portions of the basins which are:

(i) downstream from the areas described in Subparagraph (A) above; or

(ii) north of Interstate Highway 30.

(10) GRADING means excavation or filling or any combination thereof.

(11) REGISTERED PROFESSIONAL ENGINEER means a person who is duly licensed and registered to engage in the practice of engineering in the State of Texas in accordance with state law.

(12) SHALE ZONE means the Arcadia Park/Kamp Ranch members of the Eagle Ford shale formation which lie below the Austin chalk formation. The shale zone consists primarily of clays and shale with minor layers of limestone or sand.

(13) SLOPE means the slope of the terrain. For example, a 5:1 slope means a slope with an angle described by five feet horizontal to one foot vertical.

(14) STORM WATER POLLUTION PREVENTION PLAN means a plan required by either a construction general permit or an industrial general permit, which plan describes and ensures the implementation of practices to reduce pollutants in storm water discharges associated with construction or industrial activity at a site or facility.

(15) TOE means that line below the escarpment line where the slope becomes flatter than 5:1. (Ord. Nos. 19455; 25047; 26000)

SEC. 51A-5.202. DEVELOPMENT IN ESCARPMENT ZONE PROHIBITED.

(a) A person commits an offense if, within the escarpment zone, he:

(1) removes or injures any tree or vegetation; or

(2) alters the physical condition of the land in any way. Examples of alterations to the physical condition of the land include, but are not limited to dumping, excavation, storage, and filling.

(b) It is a defense to prosecution under Subsection (a) that the act was:

(1) the construction of a public improvement authorized by the city and performed in accordance with the requirements of this division; or
§ 51A-5.202  Dallas Development Code: Ordinance No. 19455, as amended  § 51A-5.204

(2) the modification of a single family or duplex structure existing on the date of passage of this ordinance, and the modification did not:

(A) change the use of the structure;

(B) cause the size of the structure to exceed by 50 percent or more the size of the structure as it existed on the date of passage of this ordinance; or

(C) cause the market value of the structure to exceed by 50 percent or more the market value of the structure as it existed on the date of passage of this ordinance.

(c) The construction of public improvements in the escarpment zone requires an escarpment permit. The performance standards for development in a geologically similar area apply to the construction of public improvements in the escarpment zone. (Ord. Nos. 19455; 26000)

SEC. 51A-5.203. PERMIT REQUIRED FOR DEVELOPMENT IN GEOLOGICALLY SIMILAR AREAS.

(a) A person commits an offense if, in a geologically similar area and without first obtaining an escarpment permit from the city expressly authorizing the act, he:

(1) removes or injures any trees or vegetation; or

(2) alters the physical condition of the land in any way. Examples of alterations to the physical condition of the land include, but are not limited to dumping, excavation, storage, and filling.

(b) It is a defense to prosecution under Subsection (a) that the act was the modification of a single family or duplex structure existing on the date of passage of this ordinance, and the modification did not:

(1) change the use of the structure;

(2) cause the size of the structure to exceed by 50 percent or more the size of the structure as it existed on the date of passage of this ordinance; or

(3) cause the market value of the structure to exceed by 50 percent or more the market value of the structure as it existed on the date of passage of this ordinance. (Ord. Nos. 19455; 26000)

SEC. 51A-5.204. ESCARPMENT PERMIT APPLICATION AND REVIEW.

(a) An applicant for an escarpment permit shall request a preapplication conference with the escarpment area review committee. The purpose of the conference is to determine what information must be submitted with the permit application to allow a complete evaluation of the proposed project. After the conference, the committee shall advise the director of its findings and recommendations.

(b) After the preapplication conference, the applicant shall submit an application for an escarpment permit to the director. The application must be on a form approved by the director and be signed by the owner of the property. Except as otherwise provided in this division, the following items must be provided as part of the application:

(1) The name and address of:

(A) the owner(s) of the property; and

(B) the person(s) who prepared the plans and drawings submitted.

(2) A general vicinity map of the proposed development site.

(3) A one inch = 100 feet scale site plan showing details of the terrain and area drainage. This site plan must be a contour map with two-foot contour intervals.
§ 51A-5.204 Dallas Development Code: Ordinance No. 19455, as amended

(4) A one inch = 50 feet scale cross section and plan review of any proposed structures.

(5) Results of the slope stability analysis required under Section 51A-5.205.

(6) The soil erosion control plan required under Section 51A-5.206.

(7) The grading plan required under Section 51A-5.207.

(8) The vegetation plan required under Section 51A-5.208.

(9) Financial assurance in the form of a letter of credit, a performance bond, or other instrument payable to the city of Dallas for all improvements related to the required soil erosion control, grading, and vegetation plans to insure that funds are available to the city to implement those plans if the developer fails to implement them.

(10) A performance and maintenance bond for each private development contract for the construction of public infrastructure improvements.

(11) One inch = 100 feet scale transparent overlay drawings of the required soil erosion control, grading, and vegetation plans such that a composite map can be created by combining the overlay drawings and the site plan required under Subsection (b)(3).

(12) Cost estimates and timetables for implementation and completion of work specified in the required soil erosion control, grading, and vegetation plans.

(13) Any other information that the director determines to be necessary to allow for a complete evaluation of the proposed project.

(c) If the director determines that one or more of the items listed in Subsection (b) is not necessary to allow for a complete review of the proposed project, he shall waive the requirement that the item or items be provided.

(d) All plans, drawings, and specifications submitted as part of an application for an escarpment permit must comply with the requirements of this chapter and all applicable ordinances, rules, and regulations of the city of Dallas.

(e) Upon submission by the applicant of a complete application for an escarpment permit, the director shall forward copies of all materials submitted to the escarpment area review committee for consideration. Upon review of all materials submitted, the committee shall furnish the director a written report containing its recommendations and comments concerning the proposed project. The director shall consider the committee’s report before making a decision to grant or deny the escarpment permit.

(f) If the application and other materials submitted show that the proposed project complies with the requirements of this chapter and all applicable ordinances, rules, and regulations of the city of Dallas, the director shall issue an escarpment permit and forward the application to the building official for further action. Otherwise, the director shall deny the escarpment permit.

(g) The building official shall not issue a building permit for any project for which an escarpment permit is required unless the director has first issued an escarpment permit authorizing the work.

(h) The director may not authorize any disturbance of the land for development purposes until both the required soil erosion control and grading plans have been submitted and approved. After the approval of both of these plans, the director may issue a limited permit to authorize clearing and grubbing.

(i) A decision made by the director to grant or deny an escarpment permit may be appealed to the board of adjustment in the same manner that appeals are made from decisions of the building official.

(j) An inspector from the department shall monitor all development for which an escarpment
permit is required to ensure compliance with the approved plans, the requirements of this chapter, and all applicable ordinances, rules, and regulations of the city of Dallas. (Ord. Nos. 19455; 25047; 26000; 28073)

SEC. 51A-5.205. SLOPE STABILITY ANALYSIS.

(a) For all proposed development within a geologically similar area, field and laboratory tests must be performed on samples taken from representative locations within the development site to ascertain the existing geotechnical conditions.

(b) A slope stability analysis must be performed for each new structure to be erected within a geologically similar area. No structure may be erected where the slope stability factor of safety is less than 1.5.

(c) Except for items that are expressly waived by the director, the slope stability analysis data submitted must include the following:

1. A description of the boring location(s).
2. Drillers logs of borings delineating the stratigraphy of the soil and bedrock.
3. The locations and methods used to determine groundwater conditions and elevations.
4. A table of field and laboratory engineering tests including, but not limited to shear strength tests, atterberg limits, and shrink/swell tests.
5. Calculations for the slope stability analysis, including the criteria and parameters used, indicating the slope and location of slip surfaces and corresponding factors of safety.
6. All analyses, designs, tests, and calculations for new development within a geologically similar area must be certified by a registered professional engineer. A registered professional engineer must also certify that structural foundations for all new development are designed to meet the requirements of the building code and all other applicable codes. (Ord. Nos. 19455; 26000)

SEC. 51A-5.206. SOIL EROSION CONTROL PLAN.

(a) A soil erosion control plan must be submitted for all proposed development within a geologically similar area. Except for items that are expressly waived by the director, the plan must:

1. show the type of soil cover as mapped by the Soil Conservation Service and confirmed by representative field tests and samples;
2. indicate the susceptibility to erosion of the mapped soils as confirmed by representative field tests and samples;
3. show the location of existing and proposed development;
4. include a timing schedule indicating starting and completion dates of the development activities sequence and the time of exposure of each area prior to completion of control measures;
5. contain a complete description of all measures to be taken to prevent or control erosion and sedimentation of soils during and after construction;
6. comply with best management practices standards for storm water pollution prevention plans; and
7. be certified by a registered professional engineer.

(b) Development within a geologically similar area must conform to the following performance standards:

1. Development must be fitted to the topography and soils to minimize cut and fill sections.
§ 51A-5.206 Dallas Development Code: Ordinance No. 19455, as amended

(2) Grading is not permitted within the 100 year flood plain boundaries of watercourses unless it is:

(A) in conjunction with the construction of approved drainage facilities; or

(B) authorized by a city council approved fill permit. All grading must comply with Section 51A-5.207 of this division.

(2) Grading is not permitted within the one-percent annual chance flood plain boundaries of watercourses unless it is:

(A) in conjunction with the construction of approved drainage facilities; or

(B) authorized by a city council approved fill permit. All grading must comply with Section 51A-5.207 of this division.

(3) Indigenous vegetation must be retained and protected except in immediate areas of development so that a minimal amount of vegetation is removed or replaced. If vegetation is removed, it must be replaced with new vegetation of the same variety unless the building official approves an alternative variety as being less susceptible to disease or better suited for urban development.

(4) Development must be accomplished in a manner which assures that as small an area as possible is exposed to erosion at any one time. When land is exposed during development, the exposure must be kept to the shortest practical period of time not to exceed six months. In extraordinary cases, an extension of the six month time period may be granted in writing by the director. In such cases the director shall seek and consider the recommendation of the escarpment area review committee before making his decision.

(5) Areas where construction activities have ceased for more than 21 days must be stabilized by the developer to minimize erosion through the use of temporary or permanent vegetation, mulching, sod, geotextiles, or similar measures. In cases where permanent measures are not installed, the developer must maintain the temporary measures until the site is either fully developed or permanent vegetation with a density of at least 70 percent of the native background vegetative cover for the area has been installed.

(6) Sediment basins or other installations approved by the director must be installed and maintained to remove sediment from runoff waters accumulating on land undergoing development. These...
installations should be returned to natural conditions upon the substantial completion of improvements or when the director determines that the installations are no longer needed. In any event, the owner shall cause these installations to be returned to natural conditions within 90 days after written notice to do so is given by the director.

(7) Runoff caused by changed soil and surface conditions during and after development, both above and below the escarpment zone, must be controlled on each development site within approved drainage facilities so that the runoff velocity leaving the site is maintained at or below predevelopment rates. Site-specific erosion control is required below the escarpment zone where the erosion control plan shows detrimental erosion caused by runoff velocities.

(8) When additional storm water runoff is being discharged onto the face of the escarpment, the property owner’s engineer shall provide an analysis of whether the additional storm water runoff has a negative effect on the escarpment. If the additional storm water runoff has a negative effect, then detention is required.

(9) Stormwater drainage may not be discharged over the escarpment face at eroding velocities as those velocities are defined in the soil evaluation reports. In no event may the discharge exceed a velocity greater than three feet per second. Stormwater drainage discharge must comply with Section 51A-5.207 of this division.

(10) Temporary vegetation and mulching must be used to protect areas exposed during development. Permanent vegetation must be established on disturbed areas following development in accordance with the vegetation plan required under Section 51A-5.208 of this division.

(11) Channel velocities may not exceed five feet per second, except that velocities higher than five feet per second may be maintained at up to predevelopment rates in the escarpment and chalk zones if the developer establishes to the satisfaction of
§ 51A-5.206 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-5.207 GRADING PLAN.

(a) A grading plan must be submitted for all proposed development within a geologically similar area. Except for items that are expressly waived by the director, the following items must be included as part of the plan:

(1) A soil engineering report. This report must include data regarding the nature, distribution and strength of existing soils, conclusions and recommendations for grading procedures, design criteria for corrective measures when necessary, and opinions and recommendations covering adequacy of the site to be developed. The report must be signed by a registered professional engineer.

(2) An engineering geology report. This report must include an adequate description of the geology of the site, conclusions and recommendations regarding the effect of geologic conditions on the proposed development, and opinions and recommendations covering adequacy of the site to be developed. The report must be signed by a registered professional engineer.

(3) Limiting dimensions, elevations or finish contours to be achieved by grading, and proposed drainage channels and related construction.

(4) Detailed plans for all surface and subsurface drainage devices, walls, cribbing, dams, and other protective devices to be constructed with or as a part of the proposed work, together with a map showing the drainage area and the estimated runoff of the area.

(b) Development within a geologically similar area must conform to the following performance standards:

(1) Grading must be planned so as to have the least disturbance on the area’s natural topography, watercourses, vegetation, and wildlife. This may preclude all development in certain areas. No cleared, graded, or otherwise disturbed land may be left without temporary protective stabilizing cover. (See Section 51A-5.206.)

(2) The maximum slopes permitted in geologically similar areas shall be determined by the director based on the results of the geotechnical investigations of the site materials and other factors analyzed in this division.

(3) Topsoil must be stockpiled and redistributed on areas where vegetation will be grown after the grading is completed. Methods to insure maintenance of these areas until vegetation is established must be detailed. (Ord. Nos. 19455; 26000)

SEC. 51A-5.208 VEGETATION PLAN.

(a) A vegetation plan must be submitted for all proposed development in a geologically similar area. Except for items that are expressly waived by the director, the plan must:

(1) show the location and type of landscape features and plant materials in the areas of proposed development; and

(2) specify all proposed vegetation removal and replacement.

(b) Development in a geologically similar area must conform to the following performance standards:

(1) Indigenous vegetation must be retained and protected except in immediate areas of
§ 51A-5.208 Dallas Development Code: Ordinance No. 19455, as amended

development so that a minimal amount of vegetation is removed or replaced. If vegetation is removed, it must be replaced with new vegetation of the same variety unless the building official approves an alternative variety as being less susceptible to disease or better suited for urban development.

(2) Shrub borders must be maintained around woodlands where practicable.

(3) Landscaping must consist of ecologically suitable plant species. (Ord. Nos. 19455; 26000; 30893)

SEC. 51A-5.209. ESCARPMENT AREA REVIEW COMMITTEE.

(a) In order to assist the director and the board of adjustment in the administration and interpretation of these escarpment regulations, and to establish an efficient forum for city input and review of proposed developments in geologically similar areas, an escarpment area review committee ("the committee") shall be established. The committee shall be advisory in nature and be comprised of at least one representative from the departments of sustainable development and construction, parks and recreation, planning and urban design, and public works. Members of the committee shall be appointed by the heads of the departments they represent. At least two representatives must be present to constitute a quorum.

(b) The committee shall have the following powers and duties:

(1) To thoroughly familiarize itself with the structures, land, areas, geology, hydrology, and indigenous plant life in the escarpment zone and in geologically similar areas.

(2) To thoroughly familiarize itself with the escarpment regulations.

(3) To identify criteria to be used in evaluating proposed development in the escarpment zone and in geologically similar areas.

(4) To identify guidelines to be used in determining whether a proposed development complies with the spirit and intent of the escarpment regulations.

(5) To meet with each prospective developer of a project for which an escarpment permit is required and make recommendations to the director as to what information may be waived or what additional information is required to allow a complete evaluation of the proposed project.

(6) To review applications for escarpment permits for compliance with the escarpment regulations, and to make recommendations to the director as to whether the applications should be approved or denied.

(7) To give advice and provide staff assistance to the board of adjustment and the city plan commission in the exercise of their responsibilities.

(8) To initiate amendments to the escarpment regulations when, in the opinion of the committee, the amendments are necessary to further the spirit and intent of the escarpment regulations.

(c) The committee shall meet at least once each month, with additional meetings to be held upon the call of the director, or upon petition of a simple majority of the members of the committee.

(d) The provisions of Chapter 8, "Boards and Commissions," of the Dallas City Code, as amended, do not apply to the committee.

(e) Actions taken or recommendations made by the committee are not binding upon the director, the board of adjustment, the city plan commission, and the city council, and these persons and public bodies may decide a matter contrary to the recommendations of the committee. (Ord. Nos. 19455; 25047; 26000; 28073; 28424; 29478; 29882; 30239; 30654)
§ 51A-5.210 Dallas Development Code: Ordinance No. 19455, as amended § 51A-5.210

When property in the escarpment zone or in the geologically similar area is platted:

(1) the escarpment zone or the geologically similar area must be shown on the plat;

(2) the plat must provide any dedications necessary for maintenance, drainage, or compliance with this division; and

(3) the property owner is encouraged, but not required, to dedicate the escarpment zone or geologically similar area to the city as park. (Ord. 26000)
ARTICLE VII.
SIGN REGULATIONS.

Division 51A-7.100. Purposes and Definitions.

SEC. 51A-7.101. PURPOSE.

Signs use private land and the sight lines created by the public rights-of-way to inform and persuade the general public by publishing a message. Except as provided in Section 51A-7.207, this article provides standards for the erection and maintenance of private signs. All private signs not exempted as provided below shall be erected and maintained in accordance with these standards. The general objectives of these standards are to promote health, safety, welfare, convenience and enjoyment of the public, and, in part to achieve the following:

(a) SAFETY: To promote the safety of persons and property by providing that signs:

   (1) do not create a hazard due to collapse, fire, collision, decay or abandonment;

   (2) do not obstruct fire fighting or police surveillance; and

   (3) do not create traffic hazards by confusing or distracting motorists, or by impairing the driver’s ability to see pedestrians, obstacles, or other vehicles, or to ready traffic signs.

(b) COMMUNICATIONS EFFICIENCY: To promote the efficient transfer of information in sign messages by providing that:

   (1) businesses and services may identify themselves;

   (2) customers and other persons may locate a business or service;

   (3) no person or group is arbitrarily denied the use of the sight lines from the public right-of-way for communication purposes; and

   (4) persons exposed to signs are not so overwhelmed by the number of messages presented that they cannot find the information they seek, and are able to observe or ignore messages, according to the observer’s purpose.

(c) LANDSCAPE QUALITY AND PRESERVATION: To protect the public welfare and to enhance the appearance and economic value of the landscape, by providing that signs:

   (1) do not interfere with scenic views;

   (2) do not create a nuisance to persons using the public rights-of-way;

   (3) do not constitute a nuisance to occupancy of adjacent and contiguous property by their brightness, size, height, or movement;

   (4) are not detrimental to land or property values; and

   (5) contribute to the special character of particular areas or districts within the city, helping the observer to understand the city and orient himself with it. (Ord. Nos. 19455; 22061)

SEC. 51A-7.102. DEFINITIONS.

Unless the context clearly indicates otherwise, for purposes of this article, the following words and phrases have the meanings respectively ascribed to them by this section:

(1) ADVERTISE means to attract, or to attempt to attract, the attention of any person to any business, accommodations, goods, services, property, or commercial activity.
(1.1) ATHLETIC FIELD SIGN means a sign that is designed, intended, or used to inform or advertise to the spectators of an athletic event.

(2) ATTACHED SIGN means any sign attached to, applied on, or supported by, any part of a building (such as a wall, roof, window, canopy, awning, arcade, or marquee) that encloses or covers usable space.

(3) BUILDING means a structure which has a roof supported by columns, walls or air for the shelter, support, or enclosure of persons, animals or chattel.

(4) BUSINESS ZONING DISTRICT means:

(A) for purposes of interpreting Chapter 51: any zoning district designated by this chapter as SC, GR, LC, CA-1, CA-2, HC, I-1, I-2, or I-3. Any PD district is also included in this list, unless specifically excluded by its provisions; and

(B) for purposes of interpreting Chapter 51A: any zoning district designated by this chapter as CR, RR, CS, industrial, central area, mixed use, or multiple commercial. Any PD district is also included in this list, unless specifically excluded by its provisions.

(5) CHARACTER means any letter of the alphabet or numeral.

(6) CITY means the city of Dallas, Texas.

(7) COMMERCIAL MESSAGE means a message placed or caused to be placed before the public by a person or business enterprise directly involved in the manufacture or sale of the products, property, accommodations, services, attractions, or activities or possible substitutes for those things which are the subject of the message and that:

(A) refers to the offer for sale or existence for sale of products, property, accommodations, services, attractions, or activities; or

(B) attracts attention to a business or to products, property, accommodations, services, attractions, or activities that are offered or exist for sale or for hire.

(8) COMMISSION means the city plan commission of the city of Dallas.

(9) DETACHED SIGN means any sign connected to the ground that is not an attached, portable, or vehicular sign.

(10) Reserved.

(11) EFFECTIVE AREA means the following:

(A) For a detached sign, the area within a minimum imaginary rectangle of vertical and horizontal lines that fully contains all extremities of the sign, excluding its supports. This rectangle is calculated from an orthographic projection of the sign viewed horizontally. The viewpoint for this projection that produces the largest rectangle must be used. If elements of the sign are movable or flexible, such as a flag or a string of lights, the measurement is taken when the elements are fully extended and parallel to the plane of view.

(B) For an attached sign, the sum of the areas within minimum imaginary rectangles of vertical and horizontal lines, each of which fully contains a word. If a design, outline, illustration, or interior illumination surrounds or attracts attention to a word, then it is included in the calculation of effective area.

(12) ERECT means to build, attach, hang, place, suspend, fasten, affix, maintain, paint, draw, or otherwise construct.

(12.1) ESCARPMENT ZONE means the escarpment zone as defined in Section 51A-5.201.

(13) EXPRESSWAY means:

(A) the Dallas North Tollway;
§ 51A-7.102 Dallas Development Code: Ordinance No. 19455, as amended

(B) Interstate Highway 20;
(C) Interstate Highway 30;
(D) Interstate Highway 35E;
(E) Interstate Highway 45;
(F) Interstate Highway 635;
(G) U.S. Highway 67;
(H) U.S. Highway 75;
(I) U.S. Highway 80 east of Interstate Highway 30 to the city limits;
(J) U.S. Highway 175;
(K) State Highway 114;
(L) State Highway 183;
(M) Spur 408;
(N) Walton Walker Boulevard from Spur 408 north to the city limits, and from Stemmons Freeway south to the city limits; and
(O) Woodall Rodgers Freeway.

(13.1) EXPRESSWAY SIGN means a sign that is wholly within 100 feet of an expressway right-of-way and whose message is visible from the main traveled way or that has been relocated adjacent to an expressway pursuant to Section 51A-7.307(f).

(14) FACADE means any separate face of a building, including parapet walls and omitted wall lines, or any part of a building which encloses or covers usable space. Where separate faces are oriented in the same direction, or in the directions within 45° of one another, they are to be considered as part of a single facade.

(14.1) GEOLOGICALLY SIMILAR AREAS means “geologically similar areas” as defined in Section 51A-5.201.

(15) GOVERNMENT SIGN means a flag, insignia, legal notice, informational, directional, traffic, or safe school zone sign which is legally required or necessary to the essential functions of government agencies.

(16) HEIGHT, as applied to a sign, means the vertical distance between the highest part of the sign or its supporting structure, whichever is higher, and a level plane going through the nearest point of the vehicular traffic surface of the adjacent improved public right-of-way, other than an alley. In the event a sign is equidistant from more than one improved public right-of-way, none of which are alleys, the highest point shall be used.

(16.1) HIGHWAY BEAUTIFICATION ACT (HBA) SIGN means a non-premise sign that is within 660 feet of an expressway or new expressway right-of-way and whose message is visible from the main traveled way.

(17) ILLUMINATED SIGN means any sign that is directly lighted by any electrical light source, internal or external. This definition does not include signs that are illuminated by street lights or other light sources owned by any public agency or light sources that are specifically operated for the purpose of lighting the area in which the sign is located rather than the sign itself.

(18) INTERSECTION means the junctions of the centerlines of any two public rights-of-way, other than alleyways, crossing at grade, or, where the crossing is separated at grade, the intersection is the point where expressway travel pavements converge or diverge, or the point where any expressway interchange ramp intersects the expressway travel pavement. For purposes of this definition, the term “expressway” includes “new expressway.”

(19) LUMINANCE means the brightness of a sign or a portion thereof expressed in terms of footlamberts.
For purposes of this article, luminance is determined by the use of an exposure meter calibrated to standards established by the National Bureau of Standards and equipped with a footlambert scale.

(20) MOVEMENT CONTROL SIGN means a sign that directs vehicular or pedestrian movement within or onto the premise on which the movement control sign is located.

(20.1) NEW EXPRESSWAY means a divided highway with full control of access whose original mainlanes in the city of Dallas were not entirely open to the public as of July 1, 1999. The President George Bush Turnpike (State Highway 190) is a new expressway under this definition.

(21) NON-BUSINESS ZONING DISTRICT means any zoning district not designated as a business district as defined in this section. Any parking district may be specifically designated a business zoning district for the purposes of this article.

(22) NONCOMMERCIAL MESSAGE means any message that is not a commercial message.

(23) NON-PREMISE SIGN means any sign that is not a premise sign.

(24) OCCUPANCY means the purpose for which a building is used or intended to be used. The term also includes the building or room housing such use.

(25) ONE SIGN means any number of detached signs structurally connected above grade.

(26) PORTABLE SIGN means any sign that is not securely connected to the ground in such a way that it cannot easily be moved from one location to another and that is not an attached sign, vehicular sign, or a sign that refers solely to the sale or lease of the premises.

(27) PREMISE means a lot or unplatted tract that is reflected in the plat books of the building inspection division of the city. Refer to Section 51A-7.208 of this article.

(28) PREMISE SIGN means any sign the content of which relates to the premises on which it is located, referring exclusively to the following:

(A) the name of the owner or occupant of the premises, or the identification of the premises;

(B) accommodations, services, or activities offered or conducted on the premises;

(C) products sold, other than incidentally, on the premises if no more than 70 percent of the sign is devoted to the advertisement of products by brand name or symbol; or

(D) the sale, lease, or construction of the premises.

(29) PRIVATE PROPERTY means any property not dedicated to public use, except that “private property” does not include the following:

(A) A private street or alley.

(B) For purposes of interpreting Chapter 51, property on which a utility and services use, post office, refuse transfer station, or sanitary landfill is being conducted as a main use. For purposes of interpreting Chapter 51A, property on which a utility and public service use listed in Section 51A-4.212 is being conducted as a main use.

(C) A railroad right-of-way.

(D) A cemetery or mausoleum.

(30) PROTECTIVE SIGN means any sign that is commonly associated with safeguarding the permitted uses of the occupancy, including, but not limited to “bad dog,” “no trespassing,” and “no solicitors.”

(30.1) RESIDENTIAL ZONING DISTRICT means:
§ 51A-7.102 Dallas Development Code: Ordinance No. 19455, as amended

(A) an A(A), R(A), D(A), TH(A), CH, MF(A), or MH(A) zoning district; or

(B) any identifiable portion of a special purpose, conservation, or planned development district (such as a subarea or subdistrict) that allows single family, duplex, manufactured home, multifamily (multiple family), or retirement housing uses.

(30.2) SAFE SCHOOL ZONE SIGN means a government sign:

(A) to be placed in the public right-of-way at the direction of a school district;

(B) indicating a safe school hotline number, or an alcohol-free, gun-free, or drug-free zone for a school; and

(C) erected to give notice of these zones in order to aid in the enforcement of state or federal laws involving violation of certain crimes in proximity of a school.

(31) SETBACK means the distance between a sign and the nearest public right-of-way line. An alley is not considered to be public right-of-way for the purpose of calculating a setback. Where a public way crosses a railroad right-of-way, the setback is measured from the public right-of-way line extended across the railroad right-of-way.

(32) SIGN means any device, flag, light, figure, picture, letter, word, message, symbol, plaque, poster, display, design, painting, drawing, billboard, wind device, or other thing visible from outside the premise on which it is located and that is designed, intended, or used to inform or advertise to persons not on that premise. This definition does not include:

(A) searchlights and landscape features that display no words or symbols;

(B) works of art that are not designed, intended or used to advertise; or

(C) temporary holiday decorations.

(33) SIGN SUPPORT means any pole, post, strut, cable, or other structural fixture or framework necessary to hold and secure a sign, providing that said fixture or framework is not imprinted with any picture, symbol or word using characters in excess of one inch in height, nor is internally or decoratively illuminated.

(34) SPECIAL PURPOSE SIGN means a sign temporarily supplementing the permanent signs on a premise.

(34.1) SUBDIVISION SIGN means a sign that identifies a single family, duplex, or townhouse residential neighborhood or a business park.

(35) VEHICULAR SIGN means any sign on a vehicle moving along the ground or on any vehicle parked temporarily, incidental to its principal use for transportation. This definition does not include signs that are being transported to a site of permanent erection.

(36) WIND DEVICE means any flag, banner, pennant, streamer, or similar device that moves freely in the wind. All wind devices are considered to be signs, and are regulated and classified as attached or detached, by the same rules as other signs.

(37) WORD: For purposes of this article, each of the following is considered to be one word:

(A) Any word in any language found in any standard unabridged dictionary or dictionary of slang.

(B) Any proper noun or any initial or series of initials.

(C) Any separate character, symbol, or abbreviation, such as “&”, “$”, “%”, and “Inc.”.

(D) Any telephone number, street number, or commonly used, combination of numerals and/or symbols such as “$5.00”, or “50%”. 

Dallas City Code 503

SEC. 51A-7.201. APPLICATION OF DIVISION.

The provisions of this division shall apply to all signs in the city, without regard to zoning. (Ord. Nos. 19455; 20359)

SEC. 51A-7.202. IMITATION OF TRAFFIC AND EMERGENCY SIGNS PROHIBITED.

No person shall cause to be erected or maintained any sign using any combination of forms, words, colors, or lights, which imitate standard public traffic regulatory, emergency signs, or signals. (Ord. 19455)

SEC. 51A-7.203. ROOF AND RIGHT-OF-WAY SIGNS.

(a) No sign shall be located on a roof or project over a building, except as provided in Section 51A-7.305.

(b) No sign shall be located within or project over any public right-of-way, or across the public right-of-way line extended across a railroad right-of-way, except:

(1) Signs attached to and projecting no more than 18 inches from a building wall legally located at or near the right-of-way line.

(c) Whenever any sign is located in violation of Subsection (b), it is prima facie evidence that the
§ 51A-7.203 Dallas Development Code: Ordinance No. 19455, as amended

person whose address or telephone number is listed on the sign, or who is otherwise named, described, or identified on the sign, is the person who committed the violation, either personally or through an agent or employee.

(d) It is a defense to prosecution under Subsection (b) that the sign was authorized or required by another city ordinance, state law, or federal law. (Ord. Nos. 19455; 20359; 20927; 25455; 26512)

SEC. 51A-7.204. OTHER CODES NOT IN CONFLICT, APPLICABLE.

All signs erected or maintained pursuant to the provisions of this article shall be erected and maintained in compliance with all applicable state laws and with the building code, electrical code, and other applicable ordinances of the city. In the event of conflict between this article and other laws, the most restrictive standard applies. (Ord. 19455)

SEC. 51A-7.205. ATHLETIC FIELD SIGNS, PORTABLE SIGNS, SPECIAL PURPOSE SIGNS, MOVEMENT CONTROL SIGNS, AND PROTECTIVE SIGNS.

(a) Non-premise athletic field signs.

(1) Non-premise athletic field signs are permitted only in special provision sign districts.

(2) Non-premise athletic field signs must be on the same premise as the athletic field and be attached to a scoreboard or the inside of a fence surrounding the field. All signs must be oriented toward the field or its seating areas.

(3) The cumulative effective area of all non-premise athletic field signs attached to a scoreboard may not exceed 240 square feet.

(b) Portable signs. Portable signs, as that term is defined in Section 51A-7.102, are prohibited.

(c) Reserved.

(d) Reserved.

(e) Movement control signs. Movement control signs may be erected at any occupancy or on any premise, other than a single-family or duplex premise, may be attached or detached, and may be erected without limit as to number, provided, that such signs shall comply with all other applicable requirements of this article. No setback is required for a detached movement control sign that does not exceed two feet in height. Unless granted a variance under the provisions of Section 51A-7.703, the occupant of a premise may erect a movement control sign only if the sign:

(1) does not exceed two square feet in effective area;

(2) conveys a message which directs vehicular or pedestrian movement within or onto the premise on which the sign is located;

(3) contains no advertising or identification message; and

(4) has words that do not exceed four inches in height if the sign is an attached sign.

(f) Protective signs. The occupant of a premise may erect not more than two protective signs, in accordance with the following provisions:

(1) Each sign must not exceed 100 square inches in effective area.

(2) Detached signs must not exceed two feet in height.

(3) Letters must not exceed four inches in height. (Ord. Nos. 19455; 20927; 21798; 21855; 21978; 24232; 27253)
SEC. 51A-7.206. VEHICULAR SIGNS.

Vehicular signs shall conform to the following restrictions:

(a) Vehicular signs shall contain no flashing or moving elements.

(b) Vehicular signs shall have no element with a luminance greater than 200 footlamberts.

(c) Vehicular signs shall not project beyond the surface of a vehicle for a distance in excess of 8 inches.

(d) Vehicular signs shall not be attached to a vehicle so that the driver’s vision is obstructed from any angle.

(e) Signs, lights and signals used by authorized emergency vehicles shall not be restricted.

(f) Vehicular signs shall conform to all the regulations for detached signs if:

(1) the vehicular sign is so placed as to constitute a “sign” as defined in Section 51A-7.102; and

(2) the vehicle upon which the sign is located is parked on other than a temporary basis.

(g) The owner of the vehicle upon which a vehicular sign is placed is responsible for ensuring that the provisions of this section are adhered to and commits an offense if any vehicular sign on his vehicle violates this section. If such a vehicle is found unattended or unoccupied, the registered owner of the vehicle shall be presumed to be the actual owner. The records of the state highway department or the county highway license department showing the name of the registered owner of such vehicle shall constitute prima facie evidence of actual ownership by the named individual. (Ord. 19455)

SEC. 51A-7.207. GOVERNMENT SIGNS.

(a) Except as provided by Subsection (b), nothing in this article shall be construed to regulate the display of a government sign.

(b) Safe school zone signs must satisfy the following requirements.

(1) Safe school zone signs must be erected within 600 feet of a school.

(2) Safe school zone signs may not exceed five square feet in effective area.

(3) No less than 80 percent of the effective area of a safe school zone sign must be devoted to a governmental message.

(4) No more than 20 percent of the effective area of a safe school zone sign may be devoted to the identification of a sponsor. (Ord. Nos. 19455; 20927; 22061; 22392)

SEC. 51A-7.208. CREATION OF SITE.

The building official shall not issue a permit for construction, erection, placement, or maintenance of a sign until a site is established in one of the following ways:

(a) A lot is part of a plat which is approved by the commission and filed in the plat records of the appropriate county. All platted lots must have frontage, through fee simple ownership, on a dedicated street.

(b) A lot was separately owned prior to September 11, 1929 or prior to annexation or consolidation, and the lot has frontage, through fee simple ownership, on a dedicated street.
§ 51A-7.208 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-7.211

(c) A lot is part of an industrial subdivision in which only streets, easements, and blocks are delineated. The industrial subdivision must be approved by the commission and filed in the plat records of the appropriate county. No specific lot delineation is required, but yard, lot and space requirements will be determined by property lines or lease lines.

(d) Tracts that are governed by a detached sign unity agreement in accordance with Section 51A-7.213. (Ord. Nos. 19455, 21797)

SEC. 51A-7.209. SIGNS DISPLAYING NONCOMMERCIAL MESSAGES.

(a) Notwithstanding any other provision of this article, any sign that may display a commercial message may also display a noncommercial message, either in place of or in addition to the commercial message, so long as the sign complies with other requirements of this article or other ordinances that do not pertain to the content of the message displayed.

(b) Notwithstanding any other provision of this article, or other ordinance, any sign that may display one type of noncommercial message may also display any other type of noncommercial message, so long as the sign complies with other requirements of this article or other ordinances that do not pertain to the content of the message displayed.

(c) Nothing in this article shall be construed to regulate a sign that contains primarily a political message for which a permit is not required under Section 51A-7.602. (Ord. Nos. 19455, 25921)

SEC. 51A-7.210. GENERAL MAINTENANCE.

(a) Sign and sign supports must be maintained in a state of good repair and neat appearance at all times.

(b) Revocation of permit.

(1) The building official shall revoke, in writing, the sign permit for a sign if it has for a period of one year:

(A) displayed obsolete advertising matter;

(B) been without advertising matter; or

(C) been damaged in excess of 50 percent of the cost of replacement of the sign.

(2) The owner of the sign is liable to the city for a civil penalty in the amount of $200 a day for each calendar day that the sign is maintained without a permit. The building official shall give written notice to the property owner of the amount owed to the city in civil penalties, and shall notify the city attorney of any unpaid civil penalty. The city attorney shall collect unpaid civil penalties in a suit on the city’s behalf.

(3) The civil penalty provided for in Paragraph (2) is in addition to any other enforcement remedy the city may have under city ordinances and state law. (Ord. Nos. 20359; 24232)

SEC. 51A-7.211. SIGNS ATTACHED TO STRUCTURES LOCATED ON BUILDINGS.

(a) Except as provided in Paragraph (b), no sign may be attached to the following structures located on a building:

(1) Elevator penthouse or bulkhead.

(2) Mechanical equipment room.

(3) Cooling tower.

(4) Tank designed to hold liquid.
§ 51A-7.211 Dallas Development Code: Ordinance No. 19455, as amended

(5) Ornamental cupola or dome.
(6) Skylight.
(7) Clerestory.
(8) Visual screens which surround roof mounted mechanical equipment.
(9) Chimney and vent stacks.
(10) Amateur communications tower.
(11) Parapet wall over four feet.
(12) Storage facility.

(b) A sign may be attached to a structure located on a building if the sign refers exclusively to:

(1) the identification of the premise; or
(2) a tenant that occupies in excess of 50 percent of the floor area of the premise. (Ord. 20343)

SEC. 51A-7.212. STREET CONSTRUCTION ALLEVIATION SIGNS.

(a) Definitions. In this section, unless the context clearly indicates otherwise:

(1) CONSTRUCTION means major activity involving on-site excavation, fabrication, erection, alteration, repair, or demolition that materially alters or restricts access to a premise.
(2) DIRECTOR means the director of transportation of the city or the director’s designated representative, including but not limited to the city’s traffic engineer.
(3) ERECT means erect or maintain.
(4) OPERATOR means a person who causes a use or business to function or puts or keeps a use or business in operation. A person need not have an ownership interest in a use or business to be an “operator” of the use or business for purposes of this section.

(5) OWNER includes any part owner, joint owner, tenant in common, tenant in partnership, joint tenant, tenant by the entirety, or lessee.

(6) SIGN means a sign authorized to be erected or maintained under this section.

(7) STREET means a street more than 85 feet in width, including frontage roads, if applicable. “Frontage Road” means a frontage, access, or service road for a freeway or tollway.

(b) Purpose. The purpose of this section is to promote the health, safety, morals, and general welfare of the city in order to lessen the congestion in the streets; to improve communications efficiency by allowing businesses to identify themselves and by helping customers to locate these businesses; to promote the safety of persons and property by reducing the confusion created by street construction; and to preserve landscape quality by imposing uniform standards. This section is not intended to apply to temporary minor repairs to streets.

(c) Authority to erect. In addition to any other signs permitted under this chapter, up to two detached premise signs may be erected on a premise if:

(1) the premise contains at least one main use other than a single family or duplex use;
(2) the premise has frontage along that portion of a street under construction as defined in Subsection (a); and
(3) the director has given written notice in accordance with Subsection (d).

(d) Notice required to be given by the director. Whenever the director determines that construction of a street, as defined in this section, is imminent, the
director shall serve a written notice for the purpose of authorizing the erection of signs in accordance with this section. The written notice may be hand-delivered, sent by mail, or published in the official newspaper of the city. In order to validly authorize a sign under this section, the notice must:

(1) contain a reference to or copy of this section;

(2) describe with specificity the portion of the street that is or will be under construction;

(3) contain estimated commencement and completion dates for the construction; and

(4) contain a statement that no sign may be erected or maintained on a premise:

(A) more than five days before the estimated construction commencement date stated in the notice; or

(B) more than five days after the estimated construction completion date stated in the notice.

(e) Time period when sign authorized. This section only authorizes signs to be placed on property adjacent to that portion of a street described in the notice given pursuant to Subsection (d) during the time period beginning five days before the estimated construction commencement date stated in the notice and ending five days after the estimated construction completion date stated in the notice. No sign may be erected or maintained on a premise:

(1) more than five days before the estimated construction commencement date stated in the notice; or

(2) more than five days after the estimated construction completion date stated in the notice.

(f) Physical requirements for sign. All signs must comply with the following paragraphs:

(1) No more than two signs may be erected on a premise. No more than one sign may be erected at any motor vehicle entrance to a premise.

(2) No setback is required for a sign; however, no sign may be located in a public right-of-way. If a sign is placed in a visibility triangle as defined in Section 51A-4.602(d), it shall be a defense to prosecution under that section that the sign does not constitute a traffic hazard.

(3) The sign must be visible from and oriented towards the street under construction and have an arrow that directs motorists to a motor vehicle entrance to the premise.

(4) The sign must be a square, with dimensions of four feet by four feet. It must have a 3-inch border of white reflective sheeting or paint and a reflective blue background. The text of the sign must consist of reflective white characters. (Note: It is intended that the requirements of this paragraph be strictly and precisely complied with.)

(5) No sign may exceed eight feet in height.

(6) No sign may be a portable sign unless the director determines that the sign does not constitute a safety hazard.

(g) Criminal responsibility. If a sign violates this section and is not otherwise authorized under the Dallas City Code, a person is criminally responsible for a sign unlawfully erected or maintained if the person:

(1) erects or maintains the sign;
§ 51A-7.212 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-7.213

(2) is an owner or operator of a use or business to which the sign refers; or

(3) owns part or all of the land on which the sign is located.

(h) City may remove signs. The City of Dallas may remove any sign without liability if the director determines that the sign constitutes a safety hazard, or if the sign does not comply with this section; however, the City shall not be liable for failure to remove a sign.

(Ord. Nos. 20728; 20927; 25047; 28424; 30239; 30654)

SEC. 51A-7.213. DETACHED SIGN UNITY AGREEMENTS.

(a) The building official may authorize the dissolution of common boundary lines between lots for the limited purpose of allowing those lots to be considered one premise for the erection of detached signs, provided that a written agreement is executed in accordance with this section on a form provided by the city.

(b) The agreement must:

(1) contain legal descriptions of the properties sharing the common boundary line(s);

(2) set forth adequate consideration between the parties;

(3) state that all parties agree that the properties sharing the common boundary line(s) may be collectively treated as one lot for the limited purpose of erecting detached signs;

(4) state that the dissolution of the common boundary line(s) described in the agreement is only for the limited purpose of allowing the erection of detached signs, and that actual lines of property ownership are not affected;

(5) state that it constitutes a covenant running with the land with respect to all properties sharing the common boundary line(s);

(6) state that all parties agree to defend, indemnify, and hold harmless the city of Dallas from and against all claims or liabilities arising out of or in connection with the agreement;

(7) state that it shall be governed by the laws of the state of Texas;

(8) state that it may only be amended or terminated by a subsequent written instrument that is:

(A) signed by an owner of property sharing the common boundary line(s) or by a lienholder, other than a taxing entity, that has either an interest in a property sharing the common boundary line(s) or an improvement on such a property;

(B) approved by the building official;

(C) approved as to form by the city attorney; and

(D) filed and made a part of the deed records of the county or counties in which the properties are located;

(9) be approved by the building official and be approved as to form by the city attorney;

(10) be signed by all owners of the properties sharing the common boundary line(s);

(11) be signed by all lienholders, other than taxing entities, that have either an interest in the properties sharing the common boundary line(s) or an improvement on those properties; and

(12) be filed and made a part of the deed records of the county or counties in which the properties are located.
(c) The building official shall approve an agreement if all properties governed by the agreement fully comply with the regulations in this article.

(d) An agreement shall not be considered effective until a true and correct copy of the approved agreement is filed in the deed records in accordance with this section and two file-marked copies of the agreement are filed with the building official.

(e) An agreement may only be amended or terminated by a written instrument that is executed in accordance with this subsection on a form provided by the city. The instrument must be:

1. signed by an owner of property sharing the common boundary line(s) or by a lienholder, other than a taxing entity, that has either an interest in a property sharing the common boundary line(s) or an improvement on such a property;
2. approved by the building official;
3. approved as to form by the city attorney; and
4. filed and made a part of the deed records of the county or counties in which the properties are located.

The building official shall approve an instrument amending or terminating an agreement if all properties governed by the agreement fully comply with the regulations in this article. The amending or terminating instrument shall not be considered effective until it is filed in the deed records in accordance with this subsection and two file-marked copies are filed with the building official.

(f) No detached non-premise sign may be erected or maintained on a property that is described in an agreement executed in accordance with this section. (Ord. 21797)

SEC. 51A-7.214. CITY KIOSKS.

(a) In this section, CITY KIOSK means a multi-sided structure for the display of premise signs, non-premise signs, informational signs, or way-finding maps pursuant to a city-approved kiosk program.

(b) City kiosks may be located in any part of the city authorized by the city-approved kiosk program, including all special provision sign districts, except that city kiosks may not be located in the Victory Sign District (including the “TXU tract” generally bounded by the Victory Sign District on the north, east, and south and bounded by I-35 on the west) or the West Village Sign District. City kiosks in special provision sign districts are not required to comply with the provisions of the special provision sign district, but must comply with the provisions of the city-approved kiosk program. Kiosks in special provision sign districts that are not part of the city-approved kiosk program remain subject to the provisions of the special provision sign district.

(c) Nothing in this article shall be construed to regulate the display of signs on city kiosks, except that city kiosks must comply with the city-approved kiosk program. (Ord. 26082)

SEC. 51A-7.215. ANIMAL SHELTER SIGN.

(a) In this section, ANIMAL SHELTER SIGN means a sign located on the same lot as a city-operated animal shelter and used for the display of premise and non-premise messages.

(b) Except as provided in this section, an animal shelter sign must comply with this article.

(c) The animal shelter sign:

1. may not be a Highway Beautification Act (HBA) sign;
§ 51A-7.215 Dallas Development Code: Ordinance No. 19455, as amended

(2) may not exceed 50 feet in height measured from grade;

(3) must be located at least 1,500 feet from a residential district;

(4) may not have an effective area in excess of 936 square feet;

(5) must have at least one static panel with a minimum effective area of 128 square feet that identifies the animal shelter; and

(6) must have a changeable message portion of the sign that uses LED/LCD technology with a maximum effective area of 672 square feet. The message or picture on the changeable message portion of the sign may not change more than once every eight seconds. At least 15 percent of the advertising time during each advertising cycle on the changeable message portion of the sign must display photos of animals available for adoption at the animal shelter or provide information about events being held or services being offered at the animal shelter.

(d) An animal shelter sign may not be relocated to another premise. (Ord. 27097)

SEC. 51A-7.216. DIGITAL DISPLAY ON CERTAIN PREMISE SIGNS.

(a) Effective area. The effective area of digital display may not exceed 50 square feet or 50 percent of the total effective area of the sign as allowed in the provisions for the respective zoning district, whichever is greater.

(b) Display.

(1) All digital displays signs must automatically adjust the sign brightness so that the brightness level of the sign is no more than 0.3 footcandles over ambient light conditions at a distance that is equal to the square root of the effective area multiplied by 100 from the sign. A digital display sign must be equipped with both a dimmer control and a photocell that automatically adjusts the display’s intensity according to natural ambient light conditions.

(2) A digital display may not increase the light level on a lot in a residential district over ambient conditions without the digital display, measured in footcandles at the point closest to the sign that is five feet inside the residential lot and five feet above the ground.

(3) Before the issuance of a digital display sign permit, the applicant shall provide written certification from the sign manufacturer that:

(A) the light intensity has been factory programmed to comply with the maximum brightness and dimming standards in this subsection; and

(B) the light intensity is protected from end-user manipulation.

(c) Change of message. Changes of message must comply with the following:

(1) Each message must be displayed for a minimum of 20 seconds in business zoning districts and 20 minutes in non-business zoning districts.

(2) Changes of message must be accomplished within two seconds.

(3) Changes of message must occur simultaneously on the entire sign face.

(4) No flashing, dimming, or brightening of message is permitted except to accommodate changes of message.

(d) Compliance. All nonconforming digital display premise signs must come into compliance with Paragraphs (b)(1)-(2) and Subsection (c) by August 26, 2016. The owner of a digital display premise sign may appeal to the board of adjustment for a later compliance date at any time up to the compliance date.
in this subsection if the owner will not be able to recover his investment in the sign (up to the date of nonconformance) by the compliance date in this subsection. The fee for the appeal of the compliance date is the same as the fee for a nonresidential special exception before the board of adjustment as set forth in Chapter 51A. (Ord. 29839)

SEC. 51A-7.301. APPLICATION OF DIVISION.

The provisions of this division apply to all signs in business zoning districts, except that attached signs within 100 feet of either private property in a non-business zoning district or a public park of more than one acre shall be governed by the provisions of Division 51A-7.400 of this article. (Ord. Nos. 19455; 20007; 20379; 25786)

SEC. 51A-7.302. RESERVED. (Ord. 25786)

SEC. 51A-7.303. GENERAL PROVISIONS APPLICABLE TO SIGNS IN BUSINESS ZONING DISTRICTS.

(a) No illuminated sign which has an effective area of 400 square feet or less shall have a luminance greater than 300 footlamberts, nor shall any such sign have a luminance greater than 300 footlamberts for any portion of the sign within a circle two feet in diameter. No illuminated sign which has an effective area greater than 400 square feet shall have a luminance greater than 200 footlamberts, nor shall any such sign have a luminance greater than 200 footlamberts for any portion of the sign within a circle of two feet in diameter. The restrictions of luminance in this section shall be determined from any other premise or from any public right-of-way other than an alley.

(b) No illuminated sign nor any illuminated element of any sign, may turn on or off, or change its brightness, if:

(1) the change of illumination produces an apparent motion of the visual image, including but not limited to illusion of moving objects, moving patterns
or bands of light, expanding or contracting shapes, rotation or any similar effect of animation;

(2) the change of message or picture occurs more often than once each three seconds for those portions of a sign which convey time or temperature, or once each 20 seconds for all other portions of a sign; or

(3) a portion of the sign, within a circle of two feet in diameter, has a luminance greater than 200 footlamberts when all elements of the sign are fully and steadily illuminated.

(c) No sign or any part of any sign may move or rotate at a rate more often than once each 10 seconds, or change its message at a rate more often than once each 20 seconds, with the exception of wind devices, the motion of which is not restricted. No sign may move, rotate or change its message at any rate if any of its elements or any illuminated portion within a two-foot circle has a luminance greater than 200 footlamberts.

(d) Subdivision signs are subject to the following restrictions:

(1) Subdivision signs are exempt from compliance with the provisions of Section 51A-7.304, “Detached Signs,” of this article.

(2) The maximum effective area of each subdivision sign may not exceed 40 square feet.

(3) The maximum number of subdivision signs permitted is two signs per street entrance into the business park.

(4) Subdivision signs may not project more than three inches from the surface of the structure.

(5) Subdivision signs may not be internally illuminated.

(6) The highest part of a subdivision sign may not exceed six feet in height.

(7) Subdivision signs must be landscape signs or monument signs. For purposes of this subsection, “landscape sign” means a sign that is part of a single landscape design that creates a base for the sign in conjunction with a retaining wall or an open space created with the use of water or planting material, and “monument sign” means a detached sign applied directly onto a ground-level support structure (instead of a pole support) with no separation between the sign and the ground.

(8) Subdivision signs may be located within the public right-of-way if a license for use of the public right-of-way is obtained pursuant to the requirements of the Dallas City Code.

(9) Subdivision signs may only contain the name of the business park.

(10) The application for a subdivision sign permit must be supported by the owner of property abutting the proposed subdivision sign, if any, and two-thirds of the property owners within 300 feet of the proposed subdivision sign. (Ord. Nos. 19455; 19704; 20359; 20495; 20927; 24232; 25455)

SEC. 51A-7.304. DETACHED SIGNS.

Detached signs are permitted in business zoning districts as follows:

(a) Definitions. In this section:

(1) EFFECTIVE-AREA-TO-HEIGHT RATIO means the ratio of the effective area of a sign to its height. For example, a sign with an effective area of 50 square feet and a height of 25 feet has an effective-area-to-height ratio of 2:1.

(2) MONUMENT SIGN means a detached sign applied directly onto a ground-level support structure (instead of a pole support) with no separation between the sign and the ground, or mounted on a fence.
§ 51A-7.304 Dallas Development Code: Ordinance No. 19455, as amended

(3) MULTI-TENANT SIGN means a detached sign that advertises two or more businesses on a single premise.

(4) NON-MONUMENT SIGN means a detached sign that is not a monument sign.

(5) SETBACK-TO-HEIGHT SLOPE is a plane projected upward and inward from a point of beginning located at the property line 7.5 feet above a level plane going through the nearest point of the vehicular traffic surface of the adjacent improved public right-of-way other than an alley and extending infinitely, as illustrated below. A 5:1 setback-to-height slope moves one-half foot away from the point of beginning for every one foot the slope rises, resulting in a 63.4349 degree slope. A 1:1 setback-to-height slope moves one foot away from the point of beginning for every one foot the slope rises, resulting in a 45 degree slope. A 2:1 setback-to-height slope moves two feet away from the point of beginning for every one foot the slope rises, resulting in a 26.5651 degree slope.

Setback to Height Slopes
§ 51A-7.304 Dallas Development Code: Ordinance No. 19455, as amended

(6) SINGLE-TENANT SIGN means a detached sign that advertises only one business.

(7) UNITY-AGREEMENT SIGN means a detached sign erected under a detached sign unity agreement pursuant to Section 51A-7.213.

(b) General regulations applicable to all detached signs.

(1) Except as provided in Section 51A-7.306(a), detached signs must be premise signs.

(2) No portion of a detached sign may be located above a residential proximity slope. See Section 51A-4.412.

(3) Non-monument signs are not allowed within 250 feet of either private property in a non-business zoning district or a public park of more than one acre. The board of adjustment may grant a special exception to this provision when, in the opinion of the board, the special exception will not adversely affect neighboring property.

(4) Only one detached sign is allowed per street frontage other than expressways. One expressway sign is allowed for every 450 feet of frontage or fraction thereof on an expressway.

(5) Detached signs on the same premise must be at least 200 feet apart.

(6) All of the premises operating under a detached sign unity agreement may together have only one unity-agreement sign per street frontage, but each premise operating under that detached sign unity agreement may have one single-tenant monument sign.

(7) Detached signs may not be placed in a visibility triangle. See Section 51A-4.602(d).

(8) The support structure for monument signs must be constructed of concrete, metal, or masonry; wood is prohibited. The board of adjustment may grant a special exception to this provision when, in the opinion of the board, an alternative material will be as durable as concrete, metal, or masonry. This provision does not control the material used for the sign itself.

(9) Measurements of distance under this section are taken radially unless otherwise specified. "Radial" measurement is measurement taken along the shortest distance between a sign or proposed sign location and the nearest point of the object.

(10) The effective area of a sign attached to a fence is the effective area of the sign only, not the area of the entire fence.

(c) Regulations applicable to single-tenant signs.

(1) Setback.

(A) Monument signs. There is no minimum setback for a single-tenant monument sign.

(B) Non-monument signs. The minimum setback for a single-tenant non-monument sign is 15 feet.

(2) Height. The height of a single-tenant sign may not exceed a 2:1 setback-to-height slope or 35 feet, whichever is less.

(3) Effective area. The effective area of a single-tenant sign may not exceed an 8:1 effective-area-to-height ratio or 200 square feet, whichever is less.

(d) Regulations applicable to multi-tenant signs.

(1) Setback.

(A) Monument signs. The minimum setback for a multi-tenant monument sign is five feet.

(B) Non-monument signs. The minimum setback for a multi-tenant non-monument sign is 15 feet.
§ 51A-7.304 Dallas Development Code: Ordinance No. 19455, as amended

(2) **Height.** The height of a multi-tenant sign may not exceed a 1:1 setback-to-height slope or 35 feet, whichever is less.

(3) **Effective area.**

(A) **Monument signs.** The effective area of a multi-tenant monument sign may not exceed a 10:1 effective-area-to-height ratio or 200 square feet, whichever is less.

(B) **Non-monument signs.** The effective area of a multi-tenant non-monument sign may not exceed a 5:1 effective-area-to-height ratio or 200 square feet, whichever is less.

(4) **Address required.** A multi-tenant sign must contain the address of the premise.

(e) **Regulations applicable to unity-agreement signs.**

(1) **Applicability.** This subsection controls over Subsections (c), (d), and (e) of this section.

(2) **Setback.**

(A) **Monument signs.** The minimum setback for a unity-agreement monument sign is five feet.

(B) **Non-monument signs.** The minimum setback for a unity-agreement non-monument sign is 15 feet.

(3) **Height.** The height of a unity-agreement sign may not exceed a 0.5:1 setback-to-height slope or 35 feet, whichever is less.

(4) **Effective area.** The effective area of a unity-agreement sign may not exceed a 10:1 effective-area-to-height ratio or 200 square feet, whichever is less.

(f) **Regulations applicable to expressway signs.**

(1) **Applicability.** This subsection controls over Subsections (c), (d), and (e) of this section.

(2) **Setback, height, and effective area generally.**

(A) An expressway sign with a minimum setback of five feet may have a maximum height of 20 feet and maximum effective area of 50 square feet.

(B) An expressway sign with a minimum setback of 15 feet may have a maximum height of 30 feet and a maximum effective area of 150 square feet.

(C) An expressway sign with a minimum setback of 25 feet may have a maximum height of 40 feet and a maximum effective area of 400 square feet.

(D) The height of an expressway sign may be extended to 50 feet, or to 30 feet above the nearest point on the nearest travel surface of the nearest expressway or new expressway, whichever is higher, if the total height of the sign does not exceed 60 feet above the ground at the base of the sign.

(3) **Setback, height, and effective area of unity-agreement expressway signs.**

(A) A unity-agreement expressway sign with a minimum setback of five feet may have a maximum height of 30 feet and a maximum effective area of 150 square feet.

(B) A unity-agreement expressway sign with a minimum setback of 15 feet may have a maximum height of 40 feet and a maximum effective area of 250 square feet.
(C) A unity-agreement expressway sign with a minimum setback of 25 feet may have a maximum height of 50 feet and a maximum effective area of 450 square feet.

(D) The height of a unity-agreement expressway sign may be extended to 50 feet, or to 30 feet above the nearest point on the nearest travel surface of the nearest expressway or new expressway, whichever is higher, if the total height of the sign does not exceed 60 feet above the ground at the base of the sign. (Ord. Nos. 19455; 20927; 21186; 21455; 21797; 21798; 24232; 25786; 25814; 26082; 29024)

SEC. 51A-7.305. ATTACHED SIGNS.

Attached signs are permitted in business areas in accordance with the following provisions:

(a) Except as otherwise permitted under Sections 51-4.213(25), 51-4.217(b)(5), 51A-4.206(1), and 51A-4.217(b)(9), all attached signs must be premise signs or convey a noncommercial message.

(b) All signs and their words shall be mounted parallel to the building surface to which they are attached, and shall project no more than 18 inches from that surface except as provided in Subsection (e) below.

(c) On the primary facade, the combined effective area of all attached signs may not exceed 25 percent of the total area of the primary facade. On each secondary facade, the combined effective area of all attached signs may not exceed 15 percent of the total area of that secondary facade. As applied to a building with multiple occupants, the facade area of each use with a separate certificate of occupancy shall be treated as a separate facade. On any building facade, there may be a maximum of eight words which contain any character of a height equal to or exceeding four inches and pertain to any premise or any non-residential occupancy. Words consisting of characters less than four inches high may be used without limit.

(d) The combined effective area of all signs attached to any window or any glass door may not exceed 15 percent of the area of that window or that glass door. Signs in the upper two-thirds of a window or glass door are prohibited. Signs attached to a window or a glass door must be brought into compliance with this provision by September 25, 2008.

(e) Attached signs may project more than 18 inches from vertical building planes as follows:

(1) Any premise or any non-residential occupancy may erect not more than one attached sign projecting up to a maximum of four feet from a vertical building plane, but not above the roof, provided that the premise or occupancy maintains no detached sign on the premise, and that the sign does not exceed 20 square feet in effective area, and that no part of the sign descends closer to grade than 10 feet, nor projects into or over any public right-of-way.

(2) On any premise or non-residential occupancy, a sign may be erected at the eaves or edge of the roof or on a parapet or edge of a canopy; provided, that the sign is parallel to the vertical building plane, and does not project more than four feet above the surface to which it is attached.

(3) Any premise or non-residential occupancy may erect one attached sign projecting up to a maximum of four feet from a vertical building plane if:

(A) the sign does not exceed 60 square feet in effective area;

(B) no single face of a three-dimensional sign exceeds 60 square feet;

(C) the attached sign is not above the highest point of a facade;

(D) no part of the sign descends closer to grade than 10 feet;
§ 51A-7.305 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-7.307

(E) the sign does not project into or over any public right-of-way; and

(F) the contents of the sign are limited to a registered trademark or logo that contains no word or character.

(f) Words may be attached to machinery or equipment which is necessary or customary to the business, including but not limited to devices such as gasoline pumps, vending machines, ice machines, etc., provided that words so attached refer exclusively to products or services dispensed by the device, consist of characters no more than four inches in height, and project no more than one inch from the surface of the device. (Ord. Nos. 19455; 20927; 21978; 24232; 27244; 27253; 29024)

SEC. 51A-7.306. DETACHED NON-PREMISE SIGNS PROHIBITED GENERALLY.

(a) No person may erect or maintain a detached non-premise sign in the city. It is a defense to prosecution under this subsection that the sign:

(1) is a nonconforming use;

(2) is a special purpose sign, movement control sign, protective sign, or vehicular sign as defined in this article;

(3) is a sign that contains primarily a political message for which a permit is not required under Section 51A-7.602;

(4) is in a special provision sign district or planned development district and expressly authorized by and in full compliance with the ordinances establishing and amending that district;

(5) was lawfully relocated pursuant to Section 51A-7.307;

(6) is expressly authorized by and in full compliance with a valid order of the court or board of adjustment; or

(7) is a sign advertising an occasional sale (garage sale) pursuant to Sections 51-4.217(b)(5) or 51A-4.217(b)(9).

(b) A lawfully erected detached non-premise sign in a special provision sign district or planned development district shall be considered a legal (as opposed to non-conforming) use if it is expressly authorized by and in full compliance with the ordinances establishing and amending that district. (Ord. Nos. 19455; 19766; 19786; 20360; 20927; 21663; 22392; 24232; 25921; 29024)

SEC. 51A-7.307. RELOCATION OF CERTAIN DETACHED NON-PREMISE SIGNS.

(a) In general. Non-conforming detached non-premise signs located on or overhanging a parcel of land acquired by a governmental entity may be relocated subject to the restrictions in this section.

(b) Application. The owner of the sign and the governmental entity must sign a relocation application. The owner of the sign must submit the relocation application within one year after the sign is actually removed from the parcel of land pursuant to a request of the governmental entity. The relocation must be completed within one year after approval of the relocation application.

(c) Compliance required. Except as provided in this section, relocated signs must fully comply with the size, height, spacing, setback, and other restrictions in this article.

(d) Relocation to remainder.

(1) All relocated signs must be relocated on the remainder of the tract from which the parcel of
§ 51A-7.307 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-7.307

land was acquired unless relocating to the remainder is not possible for reasons such as:

(A) there is no remainder;

(B) the sign owner is unable to obtain an agreement from the property owner of the remainder; or

(C) the remainder is not of sufficient size or suitable configuration to allow the relocated sign to be as visible as the original sign from the nearest main traveled thoroughfare.

(2) Signs relocated to a remainder may not be less conforming than the original sign, but must comply with the spacing requirements of Paragraphs (e)(12) and (e)(13).

(3) All signs located on a railroad right-of-way must be relocated within that same railroad right-of-way. Relocated signs must be relocated within 500 feet of their original location unless possible locations are not of a suitable size or configuration or are otherwise unusable. Signs that have been relocated within 500 feet of their original location may not be less conforming than the original sign. If a sign cannot be relocated within 500 feet of its original location, it can be relocated anywhere in that same railroad right-of-way, but must fully comply with the size, height, spacing, setback, and other restrictions in this article.

(e) Restrictions on relocations.

(1) A sign may not be relocated within 1,000 feet of a new expressway.

(2) A sign may not be relocated within 100 feet of an expressway unless it was originally located within 100 feet of an expressway or new expressway.

(3) A sign message on a relocated sign may not be oriented to be visible from a new expressway.

(4) A sign message on a relocated sign may not be oriented to be visible from an expressway unless it was originally oriented to be visible from an expressway or new expressway.

(5) A non-HBA sign must be relocated at least 500 feet from another non-premise sign.

(6) An HBA sign must be relocated at least 500 feet from another non-premise sign on the same side of the expressway.

(7) No more than one relocation is permitted between the sites or former sites of non-premise signs that existed on April 26, 2000 unless the distance between the sites or former sites in feet equals or exceeds the number of relocated signs multiplied by 1,500.

(8) A relocated sign may not have a greater effective area than it had at its original location, except that the effective area of multiple relocated signs may be combined, provided that:

(A) the overall number of signs within the city is reduced;

(B) the effective area of the combined sign is equal to or less than the sum of the effective area of the individual signs; and

(C) except as provided in Paragraph (g)(3), the effective area does not exceed 400 square feet for a combined non-expressway sign or 672 square feet for a combined expressway sign.

For purposes of this paragraph, the effective area of a relocated sign does not include the sign skirting if no part of the sign message appears on the skirting other than the name of the sign company.

(9) Two one-faced signs may be relocated to create one two-faced sign, provided that:

(A) the two faces are oriented within 60 degrees of one another; and

Dallas City Code 519
(B) except as provided in Paragraph (g)(3), the effective area does not exceed 400 square feet for a combined non-expressway sign or 672 square feet for a combined expressway sign.

This paragraph controls over Paragraphs (5) and (6).

(10) All relocated signs must be built to comply with the building code.

(11) A sign may not be relocated until demolition and other required permits have been applied for and approved by the city.

(12) A sign may not be relocated within 2,000 feet of the Trinity River, measured from the center line of the Trinity River. For purposes of this paragraph, the term “Trinity River” means the portion of the river south of the confluence of the Elm and West forks as depicted on the most recent version of the flood insurance rate maps published by the Federal Emergency Management Agency.

(13) A sign may not be relocated within 500 feet of a historic district, public park, city-owned lake, or the escarpment zone or geologically similar areas.

(14) A non-HBA sign may not be relocated within 500 feet of a non-business or residential zoning district.

(15) An HBA sign may not be relocated within 300 feet of a non-business or residential zoning district.

(16) A sign may not be relocated within 200 feet of any intersection involving:

(A) two or more arterials;

(B) an expressway frontage road and an arterial; or

(C) expressway travel lanes or ramps.

(17) No new properties, such as electrical, mechanical, or LED, may be added to a relocated sign. (For example, a non-illuminated sign may not be converted to an illuminated sign, and a plain billboard may not be converted to a digital or tri-vision sign.)

(f) Relocated expressway signs.

(1) A relocated expressway sign may exceed the effective area in Subsection (g). A relocated expressway sign may not have an effective area that exceeds 672 square feet.

(2) A relocated expressway sign must have a setback of at least 40 feet from the nearest expressway travel lane and at least five feet from the nearest public right-of-way but may not be relocated more than 200 feet from the expressway right-of-way.

(3) The effective area of a relocated expressway sign does not include extensions of the sign face if:

(A) the extensions do not collectively exceed 20 percent of the original area of the sign face; and

(B) no individual extension exceeds 80 percent of the original length or 50 percent of the original height of the sign face.

(4) The height of a relocated expressway sign may not exceed an overall height of 50 feet, or 42.5 feet above the nearest point on the nearest travel surface of the nearest expressway or new expressway, whichever is higher, if the total height of the sign does not exceed 80 feet above the ground at the base of the sign.

(g) Limitations on size. Except as provided in Subsection (f):

(1) a relocated sign with an effective area of 72 square feet or less may not exceed 20 feet in height; and
§ 51A-7.307 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-7.308

(2) a relocated sign with an effective area greater than 72 square feet may not exceed 400 square feet in effective area or 30 feet in height.

(3) A relocated sign in a CR, RR, MU-1, MU-1(SAH), MU-2, MU-2(SAH), MC-1, or MC-2 zoning district, or in an SC or CR subdistrict of a PD district, may not exceed 72 square feet in effective area or 20 feet in height. This provision controls over Paragraphs (1) and (2).

(h) Measurements. Measurements of distance under this section pertaining to minimum separation between signs are linear unless otherwise specified in the provision. A “linear” measurement is taken from a sign or proposed sign location to the nearest point on another sign. Measurements of distance under this section pertaining to minimum distance from zoning districts or locations are taken radially unless otherwise specified in the provision. “Radial” measurement is a measurement taken along the shortest distance between a sign or proposed sign location and the nearest point of a private property line in a restricted zoning district or location.

(i) Specific use permit. The city council may grant a specific use permit to:

(1) authorize a detached non-premise sign to have lesser spacing than that required in Paragraphs (e) (12), (13), (14) or (15); or

(2) allow the relocation of an HBA sign or an expressway sign to an LO(A), MO(A), or GO(A) district.

For more information regarding specific use permits, see Section 51A-4.219. (Ord. Nos. 24232; 27516)

SEC. 51A-7.308. DIGITAL DISPLAY ON CERTAIN DETACHED NONPREMISE SIGNS.

(a) In general. Certain nonconforming detached non-premise signs may be modified to use digital display technology subject to the restrictions in this section.

(b) Application. The owner of the sign must submit a digital display sign permit application for a face modification. After the building official approves the digital display sign permit, the owner must apply for a demolition permit to remove sign face area in accordance with Subsection (d). The owner must complete demolition of sign face according to the applicable ratio in Subsection (d) before the sign face is modified.

(c) Compliance required.

(1) Except as provided in this section, digital display signs must fully comply with the size, height, spacing, setback, and other restrictions in this article for detached non-premise signs.

(2) Digital display sign support structures must be built to comply with the building code.

(3) Digital display signs must comply with Title 43 Texas Administrative Code Section 21.163, “Electronic Signs,” as amended.

(4) Both existing and new digital signs must comply with all lighting and safety standards mandated by federal, state, or local rules or statutes, including standards adopted or amended after the date of passage of these requirements. Lighting and safety standards include brightness; message duration; and proximity of the sign to other digital displays, ramps, and interchanges.

(d) Sign face exchange ratio.

(1) Except as provided in Paragraph (2), for every one square foot of sign face modified to use digital display technology, three square feet of detached non-premise sign face area must be removed from within the city.

(A) To receive credit for the area of a conventional face removed, the conventional sign face
removed must result in elimination of a sign structure (if a face is removed from a structure, the entire structure must be removed).

(B) At least one structure removed must be within a five mile radius of the conventional face being converted.

(C) No credit is given for the area of the conventional face removed to convert to a digital display.

(D) Removal of sign face area must be completed before modification of sign area to use digital display technology.

(2) A company holding a valid state advertising license and that maintains 61 or fewer registered expressway non-premise signs on January 1, 2011 shall be allowed one sign face modification without complying with Paragraph (1). The new digital sign face may be no larger than the preexisting conventional sign face. Any subsequent modifications must comply with Paragraph (1).

(e) Location and number.

(1) A maximum of 50 non-premise locations with digital displays are permitted in the city. The director shall time stamp all applications upon receipt. The director shall review applications in order of submittal. If the director determines that an application is incomplete or does not meet the requirements of this section, the director shall reject the application and then review the next application. If the initial number of applications exceeds the number of permits available, the director shall provide for a lottery to distribute the permits.

(2) Digital display signs may only be expressway signs.

(3) For support structures with only one digital display sign, signs must be located a minimum of 1,500 feet from any other digital display sign oriented to the same traffic direction along the main travel lanes of the expressway, measured linearly. For support structures with two digital display signs, signs must be located a minimum of 2,000 feet from any other digital display sign along the same expressway, measured linearly.

(4) Digital display signs may not be located within 300 feet of any lot located in a residential district, measured radially.

(5) Digital display signs may not be located within 2,000 feet of the Trinity River, measured from the center line of the Trinity River. For purposes of this paragraph, the term “Trinity River” means the portion of the river south of the confluence of the Elm and West Forks as depicted on the most recent version of the flood insurance rate maps published by the Federal Emergency Management Agency.

(6) Digital display signs may not be located within 500 feet of a lot in a historic district.

(7) Digital display signs may not be located within 500 feet of an escarpment zone.

(f) Digital display sign support structures.

(1) Digital display sign support structures may not exceed an overall height of 50 feet or 42.5 feet above the nearest point on the nearest travel surface of the nearest expressway, whichever is higher, except that no digital display sign may be higher than the conventional sign it replaced.

(2) On support structures with two sign faces:

(A) If existing faces are pivoted at an angle of 10 degrees or greater from each other and toward the main travel lanes of an expressway, one or both sign faces may be converted to digital display.

(B) If existing faces are pivoted at an angle of less than 10 degrees, only one face may be converted to a digital display. The other sign face must be removed.
§ 51A-7.308 Dallas Development Code: Ordinance No. 19455, as amended

(3) Sign support structures and faces being converted to accommodate digital displays may not be modified to change the angle of a sign face.

(4) Electrical service to sign support structures with digital displays must be underground between the property line and the sign.

(g) Display.

(1) All digital displays signs must automatically adjust the sign brightness so that the brightness level of the sign is no more than 0.3 footcandles over ambient light conditions at a distance of 250 feet from the sign. A digital display sign must be equipped with both a dimmer control and a photocell that automatically adjusts the display’s intensity according to natural ambient light conditions.

(2) A digital display may not increase the light level on a lot in a residential district over ambient conditions without the digital display, measured in footcandles at the point closest to the sign that is five feet inside the residential lot and five feet above the ground.

(3) Before the issuance of a digital display sign permit, the applicant shall provide written certification from the sign manufacturer that:

(A) the light intensity has been factory programmed to comply with the maximum brightness and dimming standards in this subsection; and

(B) the light intensity is protected from end-user manipulation by password-protected software or other method satisfactory to the building official.

(h) Change of message. Changes of message must comply with the following:

(1) Each message must be displayed for a minimum of eight seconds.

(2) Changes of message must be accomplished within two seconds.

(3) Changes of message must occur simultaneously on the entire sign face.

(4) No flashing, dimming, or brightening of message is permitted except to accommodate changes of message.

(i) Malfunction. Digital display sign operators must respond to a malfunction or safety issue within one hour after notification and must remedy that malfunction or safety issue within 12 hours after notification. In case of sign malfunction, the digital display must freeze until the malfunction is remedied.

(j) Display of emergency information. The city may exercise its police powers to protect public health, safety, and welfare by requiring emergency information to be displayed on digital display signs. Upon notification, the sign operators shall display: Amber Alerts, Silver Alerts, information regarding terrorist attacks, natural disasters, and other emergency situations in appropriate sign rotations. Emergency information messages must remain in rotation according to the issuing agency’s protocols.

(k) Sunset. The director shall issue no permits after August 31, 2015, unless that date is extended by ordinance before that date. The city plan commission and city council shall review this section before August 31, 2015. (Ord. Nos. 28238; 29393; 29557)

SEC. 51A-7.401. APPLICATION OF DIVISION.

The provisions of this division apply to all signs located:

(1) in any non-business zoning district;

(2) within 100 feet of private property in a non-business zoning district; or

(3) within 100 feet of a public park of more than one acre.  (Ord. Nos. 19455; 20007; 20379)

SEC. 51A-7.402. GENERAL PROVISIONS APPLICABLE TO SIGNS IN NON-BUSINESS ZONING DISTRICTS.

(a) No portion of an illuminated sign shall have a luminance greater than 200 foot lamberts.

(b) Except for wind devices, no sign nor part of any sign in a non-business zoning district shall move, flash, rotate, or change its illumination more than once an hour.

(c) Except as otherwise permitted under Sections 51-4.213(25) or (26), 51-4.217(b)(5), 51A-4.206(1) or (3), and 51A-4.217(b)(9), an occupant in non-business zoning districts may erect only signs that convey a noncommercial message, special purpose signs, and premise signs, which include movement control signs and protective signs.

(d) Subdivision signs are subject to the following restrictions:

(1) Subdivision signs are exempt from compliance with the provisions of Section 51A-7.403, “Detached Signs,” of this article.

(2) The maximum effective area of each subdivision sign may not exceed 40 square feet.

(3) The maximum number of subdivision signs permitted is two signs per street entrance into the residential neighborhood.

(4) Subdivision signs may not project more than three inches from the surface of the structure.

(5) Subdivision signs may not be internally illuminated.

(6) The highest part of a subdivision sign may not exceed six feet in height.

(7) Subdivision signs must be landscape signs or monument signs. For purposes of this subsection, “landscape sign” means a sign that is part of a single landscape design that creates a base for the sign in conjunction with a retaining wall or an open space created with the use of water or planting material, and “monument sign” means a detached sign applied directly onto a ground-level support structure (instead of a pole support) with no separation between the sign and the ground.

(8) Subdivision signs may be located within the public right-of-way if a license for use of the public right-of-way is obtained pursuant to the requirements of the Dallas City Code.

(9) Subdivision signs may only contain the name of the single family, duplex, or townhouse residential neighborhood.

(10) The application for a subdivision sign permit must be submitted by a homeowners association.

(11) The application for a subdivision sign permit must be supported by the owner of property abutting the proposed subdivision sign, if any, and two-thirds of the property owners within 300 feet of the proposed subdivision sign.  (Ord. Nos. 19455; 20927; 24232; 24270; 25455; 29024)
SEC. 51A-7.403. DETACHED SIGNS.

(a) A multifamily or non-residential premise may display detached signs subject to the following restrictions:

(1) TYPE OF SIGNS: A sign permitted by this subsection must:

(A) be a premise sign; or

(B) convey a noncommercial message.

(2) NUMBER OF SIGNS: Each premise may have one detached sign for each 600 feet, or fraction thereof, of frontage along a public way, other than an alley.

(3) SETBACK: A sign permitted by this subsection must comply with the following setback requirements:

(A) A minimum setback of five feet is required of all detached signs.

(B) A minimum setback of 10 feet is required for signs exceeding 10 square feet in effective area or 15 feet in height.

(C) A minimum setback of 20 feet is required for all signs exceeding 20 square feet in effective area or 20 feet in height.

(D) A minimum setback of 15 feet is required if any part of the sign, other than supports that do not exceed a total cross-sectional area of one square foot, occupies the space between two feet and 10 feet above grade.

(4) EFFECTIVE AREA AND HEIGHT: A detached sign may not exceed 50 square feet in effective area or 25 feet in height.

(b) A single family or duplex residential premise may display detached signs subject to the following restrictions:

(1) TYPE OF SIGNS: A sign permitted by this subsection must:

(A) refer to the sale or lease of the premises;

(B) refer to an occasional sale authorized in Section 51A-4.217(b)(5) of this code; or

(C) convey a noncommercial message.

(2) NUMBER OF SIGNS: Each premise may have one detached sign for each 600 feet, or fraction thereof, of frontage along a public way, other than an alley.

(3) SETBACK: A sign permitted by this subsection must comply with the following setback requirements:

(A) A minimum setback of five feet is required for all detached signs unless the premise has a yard that is less than five feet, in which case the sign must be set back the maximum possible distance.

(B) A minimum setback of 10 feet is required for signs exceeding 10 square feet in effective area.

(C) A minimum setback of 15 feet is required if any part of the effective area of the sign occupies the space above two feet above grade.

(4) EFFECTIVE AREA AND HEIGHT: A detached sign may not exceed 20 square feet in effective area or eight feet in height. (Ord. Nos. 19455; 20927; 20962; 21798)
SEC. 51A-7.404. ATTACHED SIGNS.

(a) Attached signs are permitted for multifamily premises, non-residential premises, and non-residential occupancies in non-business zoning districts, subject to the following restrictions:

(1) Except as otherwise permitted under Section 51-4.213 in Chapter 51, or under Section 51A-4.206 in this chapter, all attached signs must be premise signs or convey a noncommercial message.

(2) All signs erected pursuant to this section shall be limited to one per facade per occupant of premise.

(3) Words consisting of characters all of which are less than four inches in height may be used without limit as to number, and shall not be considered in computing the effective area.

(4) Reserved.

(5) No attached sign erected pursuant to this section shall be permitted to have more than eight words consisting of characters in excess of four inches in height and such sign shall not exceed 40 square feet in effective area. As an exception to this rule a building in an LO(A), MO(A), GO(A), or O-2 zoning district may be permitted to have additional attached signs with larger effective areas above the first two stories of the building when the following conditions are met:

(A) If an election is made to erect a sign greater than 40 square feet only one sign on that facade will be permitted above the first two stories of the building. Nothing herein shall prohibit each occupant or premise otherwise authorized an attached sign pursuant to this section to have such a sign below the third story of the building.

(B) Only two attached signs per building may have an effective area larger than 40 square feet and each shall be on a separate facade.

(C) Each attached sign erected pursuant to this exception may have an additional 40 square feet of effective area for each additional story above the first two stories of the building.

(6) All signs and their words shall be mounted parallel to the building surface to which they are attached and shall project no more than 18 inches from the surface to which they are attached except as provided in Paragraph (7) below. Signs shall not be mounted on roofs and shall not project above roofs.

(7) A non-residential premise may erect one attached sign that projects no further than 4 feet from the vertical building surface provided that the sign may not be illuminated, exceed 20 square feet in effective area, extend above the roof or over any public right-of-way, be located within the space 10 feet above the grade, or be on a premise with a detached sign.

(b) A single family or duplex residential premise may not display an attached sign except a protective sign. (Ord. Nos. 19455; 19786; 19879; 21978; 24232; 29611)

SEC. 51A-7.501. PURPOSE OF SPECIAL PROVISION SIGN DISTRICTS.

For the purpose of establishing, enhancing, preserving, or developing the character, quality, and property values of areas of unique character and special development potential, and to protect public welfare, districts whose signs are regulated by special provisions may be established from time to time, as provided below. (Ord. Nos. 19455; 24232)

SEC. 51A-7.502. CREATION OF A SPECIAL PROVISION SIGN DISTRICT.

By amendment to this article, the city council may designate an area as a special provision sign district subject to the following conditions:

(1) The district must include frontage on a street, either for an entire blockface or for not less than 500 feet measured along the way or continuous set of intersecting ways.

(2) A special provision sign district is an overlay zoning district that must be created or amended in accordance with Section 51A-4.701.

(3) As a prerequisite to the establishment of such a special provision sign district, the council must determine that the modified rules established for said districts shall:

(A) establish, preserve, enhance, or develop the character of a particular area;

(B) cause no disturbance to neighboring property lying outside the proposed district;

(C) create no hazard or annoyance to motorists or pedestrians; and

(D) not contravene the intent of this chapter. (Ord. Nos. 19455; 20927; 24232; 30932)

SEC. 51A-7.502.1. NON-PREMISE SIGNS IN SPECIAL PROVISION SIGN DISTRICTS.

(a) The city council may expressly authorize one or more non-premise signs in:

(1) all special provision sign districts created on or before October 14, 1999; and

(2) any special provision sign district created after that date if:

(A) the district has an area of at least 50 acres; and

(B) the signs are located in or within one mile of the central business district.

(b) The city council may expressly authorize one or more non-premise athletic field signs in any special provision sign district, regardless of the size or location of the district.

(c) A minimum of 30 percent of the effective area of a detached HBA sign that exceeds 100 square feet in effective area must identify activities conducted or premises located in the special provision sign district. (Ord. 24232)

SEC. 51A-7.503. MODIFICATIONS ALLOWED IN SPECIAL PROVISION SIGN DISTRICTS.

Without changing the definition of this article, or altering its basic structure, the modified rules for special provision sign districts may:
§ 51A-7.503 Dallas Development Code: Ordinance No. 19455, as amended

(1) impose sign restrictions which are in addition to, or more stringent than those provided for elsewhere in this article; and

(2) waive certain restrictions, or establish restrictions more lenient than those provided for elsewhere in this article. (Ord. Nos. 19455; 24232)

SEC. 51A-7.504. SPECIAL SIGN DISTRICT ADVISORY COMMITTEE CREATED.

(a) There is hereby created a committee to be known as the special sign district advisory committee, hereinafter called the “committee”, composed of five members appointed by the city plan commission. The committee shall be appointed within 15 days following the effective date of the establishment of the first special provision sign district created pursuant to the provisions of Division 51A-7.500 of this article. The members of the committee shall include one architect, one graphic designer, and one businessman associated with the sign industry. The city plan commission is authorized to solicit a list of nominees from any trade or professional association the membership of which has special knowledge of or interest in the design, construction, and placement of signs or urban planning and design. Appointments to the committee shall be for a term of two years ending on September 1 of each odd-numbered year and the members shall serve without compensation. The commission shall designate a chairman and vice-chairman from the members. The commission may appoint up to three alternate members to the committee who serve in the absence of one or more regular members when requested to do so by the chairperson or by the city manager. The alternate members serve for the same period and are subject to removal the same as regular members. The commission shall fill vacancies occurring in the alternate membership the same as in the regular membership.

(b) The committee shall meet at least once each month with additional meetings upon call by the committee chairman or a simple majority of the committee members. A simple majority of members present shall constitute a quorum and issues shall be decided by a simple majority vote of the members present. The department shall furnish staff support to the committee.

(c) The function of the committee shall be to familiarize itself thoroughly with the character, special conditions, and economics of all special provision sign districts as provided in Section 51A-7.503 of this article. In addition, the committee shall, upon request, provide guidance, advice and assistance to any applicant for a sign permit in a special provision sign district.

(d) Nothing in this article shall be construed to affect or modify the authority of any committee or commission whose duty it is to review permits for changes to the exterior of buildings in a special purpose district. Such committee or commission shall continue to review said permits using the standards and procedures established for that special purpose district.

(e) Nothing in this section shall be construed as preventing the city council from creating a separate procedure for allowing a separate committee to function as or in lieu of the sign district advisory committee for a particular special provision sign district. Any such separate procedure or separate committee must be established as part of the ordinance creating the special provision sign district or as part of an amendment thereto. (Ord. Nos. 19455; 20345; 20927; 24232; 25047; 28073)

SEC. 51A-7.505. PERMIT PROCEDURES FOR SPECIAL PROVISION SIGN DISTRICTS.

Unless otherwise provided as part of the ordinance creating a special provision sign district or as part of an amendment thereto, the following permit procedures apply:

(1) When required. Except when erecting a sign in a historic overlay district, in which case a certificate of appropriateness must be obtained in accordance
with Section 51A-4.501(b), no sign permit may be issued in a special provision sign district to any applicant unless the application has first been reviewed by the director and a certificate of appropriateness has been issued in accordance with this section.

(2) Application. When applying for a sign permit in a special provision sign district, the applicant shall submit an application to the building official. After determining that the proposed sign conforms with the other sections of the code, the building official shall forward a copy of the application to the director within five working days of its receipt. The applicant shall provide the building official, the director, and the committee with specific information in the form of perspectives, renderings, photographs, models, or other representations sufficient to show the nature of the proposed sign and its effect on the immediate premises. Any applicant may request a meeting with the director or the committee before submitting an application and may consult with the director or the committee during the review of the permit application. Every applicant is entitled to appear before the committee and to be present when any vote is taken.

(3) Determination of procedure. Upon receipt of an application, the director shall determine whether it is to be reviewed under the director procedure or the committee procedure. The proposed sign must be reviewed under the director procedure if it:

(A) has an effective area less than 50 square feet;

(B) is a premise sign;

(C) does not contain any changeable message or flashing or blinking lights;

(D) has a setback of at least 10 feet;

(E) is not located within a historic overlay district;

(F) does not project more than 18 inches over public right-of-way if it is an attached sign;

(G) has an effective area of less than 15 percent of the facade of the building to which the sign is attached if the sign is an attached sign; and

(H) does not exceed 25 feet in height if the sign is a detached sign.

If the proposed sign does not meet all of the above requirements, it must be reviewed under the committee procedure.

(4) Director procedure.

(A) Decision by the director. If the director determines that the sign must be reviewed under the director procedure, the director shall review the application and approve or deny it within 10 days of its receipt.

(B) Appeals. Any interested person may appeal the decision of the director by submitting a written request for appeal to him or her within 10 days of the decision. The appeal starts the committee procedure.

(5) Committee procedure.

(A) Decision by the committee. If the director determines that the sign must be reviewed under the committee procedure or that his or her decision has been appealed, he or she shall forward the application to the committee for review.

(B) Factors the committee shall consider. In reviewing an application, the committee shall first consider whether the applicant has submitted sufficient information for the committee to make an informed decision. If the committee finds the proposed sign to be consistent with the special character of the special provision sign district, the committee shall make a recommendation of approval.
to the city plan commission. The committee shall consider the proposed sign in terms of its appropriateness to the special provision sign district with particular attention to the effect of the proposed sign upon the economic structure of the special provision sign district and the effect of the sign upon adjacent and surrounding premises without regard to any consideration of the message conveyed by the sign. After consideration of these factors, the committee shall recommend approval or denial of the application and forward that recommendation to the city plan commission.

(6) Decision by the commission. Upon receipt of a recommendation by the committee, the commission shall hold a public hearing to consider the application. At least 10 days before the hearing, notice of the date, time, and place of the hearing, the name of the applicant, and the location of the proposed sign must be published in the official newspaper of the city and the building official shall serve, by hand-delivery or mail, a written notice to the applicant that contains a reference to this section, and the date, time, and location of this hearing. A notice sent by mail is served by depositing it properly addressed and postage paid in the United States mail. In addition, if the application is for a detached sign or for an attached sign that has more than 100 square feet of effective area, the applicant must post the required number of notification signs in accordance with Section 51A-1.106. In making its decision, the commission shall consider the same factors that were required to be considered by the committee in making its recommendation. If the commission approves the application, it shall forward a certificate of appropriateness to the building official within 15 days after its approval. If the commission denies the application, it shall so inform the building official in writing. Upon receipt of the written denial, the building official shall so advise the applicant within five working days of the date of receipt of the written notice.

(7) Authority of building official not affected. Nothing in this section shall be construed to affect or modify the authority of the building official to refuse to grant a sign permit in any case in which the proposed sign does not conform to specific provisions of height, effective area, setback, or similar restrictions established in this article or the modified restrictions applicable to the special provision sign district, or to the structural requirements of the building code or other codes which the building official is required by law to enforce.

(8) Action required within 60 days. If no action has been taken by the city within 60 days of the receipt of the application by the building official, a certificate of appropriateness shall be deemed issued and the building official shall so advise the applicant.

(9) Change in application. No change may be made in any permit application subsequent to action by the city without resubmittal to the director and approval of the resubmitted application by following the procedures in this section.

(10) Appeal to council. An applicant may appeal a denial of a certificate of appropriateness by the commission to the city council within 60 days of the date of the decision by the commission.

(11) Criminal responsibility. A person commits an offense if he or she erects or maintains a sign in a special provision sign district without first obtaining a certificate of appropriateness expressly authorizing the sign as required by this article. (Ord. Nos. 19455; 20949; 20962; 21402; 22425; 24163; 24232; 30892)

SEC. 51A-7.506. EXPIRATION OF SPECIAL PROVISION SIGN DISTRICTS.

The city council may establish a special provision sign district for a limited time. At the end of this period, the special provision sign district, and its provisions regulating signs, shall be discontinued, unless renewed for another limited period in accordance with the procedure established in Section 51A-7.502. (Ord. Nos. 19455; 24232)
SECTION 51A-7.507. TEMPORARY SIGNS IN SPECIAL PROVISION SIGN DISTRICTS

(a) Purpose. This section allows persons to erect and maintain temporary signs within special provision sign districts while their applications for permanent signs in those districts are pending. Nothing in this section shall be construed as prohibiting a special provision sign district from having a separate procedure for obtaining a temporary sign permit.

(b) Procedures to obtain permit.

1. In general. Notwithstanding Section 51A-7.505, an applicant for a sign permit in a special provision sign district may apply for a permit to erect a temporary sign in accordance with this section. The permit must be obtained before erecting or maintaining the sign.

2. Application for permit. An application for a permit must be filed with the building official on a form provided by the city. Each application must comply with the requirements of the Dallas Building Code.

3. Requirements. The building official shall deny the application unless the proposed temporary sign meets all of the following requirements. The sign must:

(A) comply with all provisions of the code, as amended, except for Section 51A-7.505;

(B) be an attached sign;

(C) be a premise sign;

(D) be constructed of cloth, canvas, light fabric, or nylon;

(E) not be an illuminated sign;

(F) not have dimensions that exceed the dimensions of the sign for which the applicant proposes to obtain a certificate of appropriateness; and

(G) not be the same sign for which the applicant proposes to obtain a certificate of appropriateness.

4. Decision of the building official.

(A) Timing. The building official shall make a decision regarding the application within five working days after it is filed. If the applicant has not provided all the information required by this section, then the five-day period does not begin until the required information is provided.

(B) Failure to act. If the building official fails to make a decision regarding the application within five working days after it is filed, it is approved subject to compliance with all applicable city ordinances.

(C) Form of decision. The decision must take one of the following three forms:

(i) Approval, no conditions.

(ii) Approval, subject to conditions noted.

(iii) Denial.

(D) Approval with no conditions. If there are no grounds for denying the application, the building official shall approve it with no conditions.

(E) Approval subject to conditions noted. As an alternative to denial of the application, the building official may approve it subject to conditions noted if compliance with all conditions will eliminate what would otherwise constitute grounds for denial. If he or she approves it subject to conditions noted, he or she shall state in writing the specific requirements to be met before it is approved.
(F) Denial.

(i) Grounds for denial. The building official shall deny the application if it does not comply with all of the requirements of this section or contain all required information.

(ii) Statement of reasons. If the building official denies the application, he or she shall state in writing the specific reasons for denial.

(G) Notice of decision. The building official shall give written notice to the applicant of his or her decision regarding the application. Notice is given either by hand-delivery or by depositing the notice properly addressed and postage paid in the United States mail. If the notice is mailed, it must be sent to the address shown on the application.

(c) Revocation of permit. The building official shall revoke the permit if he or she determines that the permittee has:

(1) failed to comply with any provision of the code, as amended, except for Section 51A-7.505;

(2) made a false statement of material fact on the application; or

(3) erected or maintained a sign that endangers the safety of persons or property and is not otherwise in the public interest.

(d) Expiration of permit. A permit automatically expires 60 days from the date of its issuance.

(e) Permit limit. Once a permit expires or is revoked, no person may apply for another permit for that sign.

(f) Appeals. In considering an appeal from a decision of the building official made in the enforcement of this section, the sole issue before the board of adjustment shall be whether or not the building official erred in his or her decision. The board shall consider the same standards that the building official was required to consider in making the decision on the permit.

(g) Criminal responsibility. If a sign violates this section and is not otherwise authorized by the code, a person is criminally responsible for a sign unlawfully erected or maintained if the person:

(1) erects or maintains the sign;

(2) is an owner or operator of a use or business to which the sign refers; or

(3) owns part or all of the land on which the sign is located.

(h) No representation by the city. The grant of a permit to erect a temporary sign does not mean that an applicant will receive a certificate of appropriateness for any sign. (Ord. Nos. 20954; 24232; 30892)
§ 51A-7.601 Dallas Development Code: Ordinance No. 19455, as amended

Division 51A-7.600. Permit Procedures.

SEC. 51A-7.601. ADMINISTRATION OF ARTICLE BY DIVISION OF BUILDING INSPECTION.

The provisions of this article shall be administered and enforced by the division of building inspection. (Ord. 19455)

SEC. 51A-7.602. PERMITS.

(a) While all signs not explicitly exempted are subject to the provisions of this article, and while a permit to erect any sign not so exempted may be applied for if desired, a permit is required only for the following signs:

(1) Except as otherwise provided in Subsection (b), all signs having an effective area greater than 20 square feet.

(2) All signs having a height in excess of eight feet.

(3) All illuminated signs.

(4) All signs with moving elements.

(5) All signs erected or to be erected in or over any public way.

(6) Except as otherwise provided in Subsection (b), all signs projecting more than 18 inches from any wall, roof, parapet, or eaves.

(b) Pursuant to Section 216.903 of the Texas Local Government Code, a permit is not required for a sign that contains primarily a political message and is located on private real property with the consent of the property owner unless the sign:

(1) has an effective area greater than 36 feet;

(2) is more than eight feet high;

(3) is illuminated; or

(4) has any moving elements.

In this subsection, the term “private real property” does not include real property subject to an easement or other encumbrance that allows the city to use the property for a public purpose. This subsection does not apply to a sign, including a billboard, that contains primarily a political message on a temporary basis and that is generally available for rent or purchase to carry commercial advertising or other messages that are not primarily political.

(c) Any sign for which a permit is issued shall be inspected after its erection for conformity to the provisions of this article by the division of building inspection. (Ord. Nos. 19455; 25921)

SEC. 51A-7.603. APPLICATIONS.

All applicants for permits must comply with the requirements of Subchapter 36 of Chapter 53, the Dallas Building Code. (Ord. Nos. 19455; 20927; 28553)

SEC. 51A-7.604. RESERVED. (Ord. 20927)

SEC. 51A-7.605. EXTRAORDINARILY SIGNIFICANT SIGNS.

(a) General provisions.

(1) The city council or city plan commission may authorize a hearing to designate an existing sign as an extraordinarily significant sign. Any person may apply for designation of an existing sign as an extraordinarily significant sign. Except for city council or city plan commission authorized hearings, each owner of a proposed extraordinarily significant sign and each owner of property where the proposed
§ 51A-7.605 Dallas Development Code: Ordinance No. 19455, as amended

extraordinarily significant sign is located must sign the application.

(2) The director shall send written notice of a public hearing on an application to designate an extraordinarily significant sign to all owners of real property lying within 200 feet of the boundary of the area of request.

(3) If a sign is designated as an extraordinarily significant sign, it is exempted from the provisions of Section 51A-7.210(b)(1)(A) and Division 51A-7.700 of this article.

(4) An owner of an extraordinarily significant sign must ensure that the sign is not structurally dangerous or a fire hazard, and does not cause electrical shocks or other hazardous conditions.

(b) The city plan commission shall review an application to designate an extraordinarily significant sign in accordance with Subsection (c) of this section in a public hearing and shall submit its recommendation to the city council. The city council shall act upon the recommendation of the city plan commission by granting or denying the application subject to the voting requirement in Section 51A-4.701(c)(2)(B) and Section 51A-7.803 of this article.

(c) To qualify for designation as an extraordinarily significant sign, the sign must:

(1) be at least 40 years of age;

(2) possess unique physical design characteristics such as configuration, color, texture, or other unique characteristics; and

(3) be of extraordinary significance to the city, the historic district where it is located, or the historic structure to which it is attached.

(d) In the consideration of Subsection (c)(3) of this section, the following must be evaluated:

(1) the significance of the sign on the basis of the significance of the physical composition or structure of the sign without regard to the significance of the company or other entity which is identified by the sign; and

(2) the importance of the sign in identifying a particular area of the city and the attitude and sentiment of the community concerning the significance of the sign without regard to the significance of the company or other entity which is identified by the sign. (Ord. Nos. 19455; 19557; 20927; 21186; 22738)

SEC. 51A-7.701. PURPOSE OF DIVISION.

It is the declared purpose of this division that, in time, all privately owned signs shall either conform to the provisions of this article or be removed. By the passage of this ordinance and its amendments, no presently illegal sign shall be deemed to have been legalized unless such sign complies with all current standards under the terms of this ordinance and all other ordinances of the city of Dallas. Any sign which does not conform to all provisions of this ordinance shall be a non-conforming sign if it legally existed as a conforming or non-conforming sign under prior ordinances; or an illegal sign if it did not exist as a conforming or non-conforming sign, as the case may be. It is further the intent and declared purpose of this ordinance that this division, and not the provisions of Article IV, shall exclusively govern how non-conforming signs in the city are treated. It is further the intent and declared purpose of this ordinance that no offense committed, and no liability, penalty or forfeiture, either civil or criminal, incurred prior to the time this ordinance was adopted shall be discharged or affected by such passage, but prosecutions and suits for such offenses, liabilities, penalties or forfeitures may be instituted, and causes presently pending may proceed. (Ord. Nos. 19455; 24232)

SEC. 51A-7.702. REMOVAL AND MAINTENANCE OF CERTAIN NON-CONFORMING SIGNS.

(a) Signs erected without a permit, either prior to or after the adoption of this article, are illegal signs if a permit was required for its erection according to the law in effect at the time the sign was erected. It shall be unlawful to maintain any illegal sign. It is a defense to prosecution under this subsection if the sign has been made to comply with the provisions of this article so that a permit may be issued.

(b) All signs that were legally erected pursuant to a valid permit or legally maintained and that do not conform to the provisions of this article must be removed or modified if useful life determinations were made and amortization periods were set by the Municipal Board on Sign Control before January 1, 1990.

(c) No person may repair a non-conforming sign if the cost of repair is more than 60 percent of the cost of erecting a new sign of the same type at the same location, unless that sign is brought into conformity with this chapter. No person may repair a non-conforming sign where the effect of such repair shall be to enlarge or increase the structure of the non-conforming sign. For purposes of this section, monopole, metal, and wood are each an example of a “type” of sign and the term “repair” does not include maintenance or changes of words or other content on the face of a sign.

(d) The effective area of a detached non-premise sign does not include the sign skirting if no part of the sign message appears on the skirting other than the name of the sign company.

(e) No new electrical or mechanical properties may be added to a non-conforming detached non-premise sign. (For example, a non-illuminated sign may not be converted to an illuminated sign, and a plain billboard may not be converted to a tri-vision type.)

(f) The effective area of a detached non-premise expressway sign does not include extensions of the sign face if:

(1) the extensions do not collectively exceed 20 percent of the original area of the sign face; and

(2) no individual extension exceeds 80 percent of the original length or 50 percent of the original height of the sign face. (Ord. Nos. 19455; 20927; 22113; 23094; 24232)
SEC. 51A-7.703. BOARD OF ADJUSTMENT.

(a) The board of adjustment may, in specific cases, take the following actions and authorize the following special variances and exceptions with respect to the provisions of this article.

(b) The board of adjustment may waive any filing fee for an appeal under this article when the board finds that payment of the fee would result in substantial financial hardship to the applicant. The applicant may either pay the fee and request reimbursement as part of his appeal or request the matter be placed on the board’s miscellaneous docket for predetermination. If the matter is placed on the miscellaneous docket, the applicant may not file his appeal until the merits of the request for waiver have been determined by the board.

(c) When in its judgment the public convenience and welfare will be substantially served and appropriate use of the neighboring area will not be substantially and permanently injured, the board of adjustment may, in specific cases and subject to appropriate conditions, authorize only the following special variances and exceptions to the regulations established in this article for non-conforming signs legally erected or maintained prior to April 30, 1973:

(1) Reserved.

(2) Permit a variance for detached non-premise signs of up to 20 percent of the setback, effective area, and height requirements of this article.

(3) Permit a variance for detached premise signs of up to 25 percent of the setback, effective area, and height requirements of this article.

(4) Authorize one additional detached sign on a premise in excess of the number permitted by this article.

(5) Authorize up to two additional large letter words on an attached sign in excess of the number permitted by this article.

(6) Permit the following special variances and exceptions for movement control signs when from the evidence presented the board finds them to be necessary to give directions to a business:

(A) Authorize an identification message to be placed on the sign.

(B) Authorize an effective area of up to 4 square feet.

(C) Authorize a height of up to 2-1/2 feet.

(7) Authorize the remodeling, renovation, or alteration of a sign when some non-conforming aspect of the sign is thereby reduced and when the period of time allowed for the owner of the sign to recoup his investment is not thereby extended.

(8) The board of adjustment may also vary any or all other provisions of this article not specified above with respect to premise signs only when the board has made a specific finding from evidence presented that strict compliance will result in substantial financial hardship or inequity to the applicant without sufficient corresponding benefit to the city and its citizens in accomplishing the objectives of this article.

(d) Except as provided in Section 51A-7.703(c) the board of adjustment may, in specific cases and subject to appropriate conditions, authorize only the following special variances and exceptions to the regulations established in this article when the board has made a special finding from the evidence presented that strict compliance with the requirement of this article will result in substantial financial hardship or inequity to the applicant without sufficient corresponding benefit to the city and its citizens in accomplishing the objectives of this article:

(1) Permit a variance for detached premise signs of up to 10 percent of the setback, effective area, and height requirements of this article.
(2) Authorize one additional detached premise sign on a premise in excess of the number permitted by this article.

(3) Authorize up to two additional large letter words on an attached sign in excess of the number permitted by this article.

(4) Authorize signs attached to a window or glass door in a business zoning district to exceed 15 percent of the area of that window or glass door or to be located within the upper two-thirds of that window or glass door if the board finds that the proposed signs do not eliminate visibility into, or out from, the premise.

(A) A sign authorized by this paragraph:

(i) must be made of translucent vinyl or a similar material with at least a 65/35 perforation pattern (a maximum of 65 percent of the area is closed, a minimum of 35 percent of the area is open); and

(ii) may only have images; any text or characters on the sign are limited to 15 percent of the window area and are only permitted in the lower one-third of the window.

(B) A convenience store regulated by Chapter 12B is not eligible for this special exception.

(C) Once a special exception is approved, a business does not need to return to the board of adjustment to change out the images or words on a sign as long as the sign complies with the approved special exception.

(5) Permit the following special variances and exceptions for movement control signs when from the evidence presented the board finds them to be necessary to give directions to a business:

(A) Authorize an identification message to be placed on the sign.

(B) Authorize an effective area of up to 4 square feet.

(C) Authorize a height of up to 2-1/2 feet.

(e) The board of adjustment may hear and decide appeals which allege error in any order, requirement, decision, or determination made by the building inspection division in the enforcement of this article.

(f) The board of adjustment may require a non-conforming sign to be brought into immediate conformity with all current standards of all ordinances of the city of Dallas, or to be removed when from the evidence presented the board finds the sign to be hazardous to the public or to have been abandoned by its owners.

(g) Where a permit was required for a sign’s erection according to the law in effect at the time the sign was erected and where building inspection division finds no record of a permit being issued, the board of adjustment may authorize the issuance of a replacement permit when from the evidence presented the board finds either that a permit was issued or that arrangements were made with a sign company to obtain said permit. The period of time allowed by Section 51A-7.702(b) for the owner to recoup his investment will not be extended by issuance of a replacement permit. (Ord. Nos. 19455; 20927; 28784)
§ 51A-7.705 Dallas Development Code: Ordinance No. 19455, as amended § 51A-7.802

(b) Hearing. If a person receives a notice of violation or is cited for maintaining an illegal sign, and the person notifies the city attorney in writing within 10 days of receiving the notice or citation that he believes the sign displays a noncommercial or primarily political message and is therefore not in violation of this article, the city attorney shall postpone prosecution of the case and have the matter placed on the agenda of the board of adjustment for appeal under Section 51A-7.703(e) of this article. The board shall give the person maintaining the sign 10 days written notice of a public hearing on the matter. After hearing the evidence, the board shall decide whether the message displayed on the sign is commercial, noncommercial, or primarily political. No fee may be charged for this appeal.

(c) Judicial Review. If the board decides that the message is commercial or not primarily political and that the sign is therefore illegal, the person maintaining the sign may within 10 days of the board’s decision file a notice of nonacceptance of the decision with the city attorney. Within three days after receiving notice of nonacceptance, the city attorney shall initiate suit in the district court for determination that the sign is illegal and for an injunction to prohibit display of the sign in violation of this article. The city shall bear the burden of showing that the sign is illegal. In computing the three-day time period, Saturdays, Sundays, and legal holidays are excluded. (Ord. Nos. 19455; 20927; 25047; 28073)

Division 51A-7.800. Procedure For Changes and Amendments.

SEC. 51A-7.801. AUTHORITY TO AMEND; SUBMISSION OF PROPOSED AMENDMENTS TO CITY PLAN COMMISSION.

The city council may from time to time amend, supplement, or change this article. The amendment, supplement, or change may be petitioned for by any person, corporation, or group of persons by filing an application and paying an application fee to the department. Proposals for amending, supplementing, or changing this article in the public interest may also be initiated by motion of the city council or the city plan commission. Before taking any action on a proposed amendment, supplement, or change, the city council shall submit the same to the city plan commission for its recommendation and report. (Ord. Nos. 19455; 20927; 25047; 28073)

SEC. 51A-7.802. PUBLIC HEARINGS PROVIDED.

The city plan commission shall hold a public hearing on any amendment, supplement or change prior to making its recommendation and report to the city council. The director shall give notice of the public hearing in the official newspaper of the city at least 10 days before the hearing. The city council shall hold a public hearing before acting on the city plan commission’s recommendation and report. At least 15 days notice of the time and place of city council hearing shall be published in the official newspaper of the city of Dallas. (Ord. Nos. 19455; 20007)
SEC. 51A-7.803. THREE-FOURTHS VOTE OF CITY COUNCIL IN CERTAIN CASES.

If the city plan commission votes to recommend against a proposed change to this article as clearly reflected in the minutes of its meeting, the change shall not become effective except by a three-fourths vote of the members of the city council of the city of Dallas. (Ord. 19455; 24185)
