THENCE southerly along the common line of Lots 4 and 3 Block 13/191, crossing 25 feet wide Clover Street and continuing along the common line of Lots 11 and 12, Block 13/191, and crossing Canton Street to a point for a corner on the common line of Lots 4 and 3, Block 12/192;

THENCE easterly along the south line of Canton Street to the west line of Oakland Avenue, a point for a corner;
THENCE southerly with said west line of Oakland Avenue and extending same to a point for a corner on the south line of 25 feet wide Virgil Street;

THENCE easterly along the south lines of Virgil Street crossing Oakland Avenue and Walton Street and continuing to a point for a corner on the west line of Hall Street;

THENCE easterly with the extension of the south line of 30 feet wide Virgil Street, crossing Hall Street, Block 850 and part of Block 851 to a point for a corner, being the northwesterly extension of a common block line of Blocks 851 and 7/851;

THENCE southwesterly along said northwesterly extension line and common block line of Blocks 851 and 7/851 to a common block corner and continuing northeasterly with said common block line and with the common block line of Blocks 851 and 6/851 and extending same through part of Block 851 to a point for a corner on the southwest right of way line of the T.& P.R.R.;

THENCE southeasterly with said SW right of way line of the T.& P.R.R. to a point for a corner, being on the southerly extension of a common tract line in Block 6/828, same being approximately 177.5 feet northwesterly from and parallel to Hickory Street;

THENCE northeasterly, crossing the T.& P.R.R. right of way and 20 feet wide Truck Avenue and continuing along said common tract line in Block 6/828 to a point for a corner on the southwest line of Second Avenue;

THENCE southeasterly with said southwest line of Second Avenue and extending same to a point for a corner on the southeast line of Hickory Street;

THENCE northeasterly, crossing Second Avenue and continuing along the southeast line of Hickory Street to a point for a corner on the southwest line of First Avenue;

THENCE southeasterly along said southwest line of First Avenue, crossing the G.C.&S.F.R.R. right of way to a point for a corner on the northeasterly line of Block 2/812;

THENCE easterly with the southerly line of First Avenue, crossing R. L. Thornton Freeway to the easterly right of way line of said freeway, same being the northwest cornerpoint of Block 6/812;

THENCE southerly along the west line of said Block 6/812 to its southwest cornerpoint;

THENCE southwesterly, crossing a portion of R. L. Thornton Freeway right of way, including an underpass portion of Second Avenue, to a point for a corner on the southeast right of way line of R. L. Thornton Freeway and the west line of Oak Lane, same being the present northeast corner of Block 3/812;

THENCE southerly with the west lines of Oak Lane, crossing Third Avenue and continuing to the most southerly cornerpoint of Block 4/812;

THENCE westerly, crossing Block 853 and the G.C.&S.F.R.R. right of way with the shortest line connecting to a point on the northeast line of said G.C.&S.F.R.R. right of way and being on the southwest line of Chestnut Street extended;

THENCE southwesterly with the northeast line of said railroad right of way to a point on the southwest line of Jeffries Street extended;

THENCE northwesterly with said extension line and the southwest line of Jeffries Street to the southeast line of Hickory Street, a point for a corner;

THENCE southwesterly with said southeast line of Hickory Street and extending same to a point for a corner on the centerline of Oakland Avenue;

THENCE southeasterly along the centerline of Oakland Avenue to a point for a corner on the northwesterly right of way line of the G.C.& S.F.R.R.;

THENCE southwesterly with said northwest right of way line of the G.C.& S.F.R.R. to a point for a corner on
§ 51A-7.901 Dallas Development Code: Ordinance No. 19455, as amended

the southeasterly extension of the southwest line of Lot 17, Block 14/865;

THENCE crossing Central Expressway (Interstate Highway 45) to a point for a corner, being on the westerly right of way line of said Central Expressway (Interstate Highway 45) and the northwest line of Corinth Street;

THENCE southwesterly with said northwest line of Corinth Street to the northeast line of Good-Latimer Expressway, a point for a corner;

THENCE westerly, crossing Good-Latimer Expressway to a point for a corner on the northwest line of a 12 feet wide tract in Block 869-1/4, the same being approximately 142 feet from and parallel to Corinth Street;

THENCE southwesterly with the northwest line of said 12 feet wide tract in Block 869 1/4 to a point for a corner on the northeast right of way line of the (T.&N.O.R.R.) H.& T.C.R.R.;

THENCE westerly, crossing said (T.&N.O.R.R.) H.&T.C.R.R. right of way to a point for a corner on the northwest line of Corinth Street;

THENCE southwesterly with the northwest lines of Corinth Street, crossing South Central Expressway and Harwood Street and continuing to the northeast line of Park Avenue to a point for a corner;

THENCE northwesterly with said northeast lines of Park Avenue, crossing Hickory Street and continuing to a point for a corner on the northeasterly extension of the northwest line of Beaumont Street, same being the southeast line of Block 454 extended;

THENCE southwesterly with said northwest line of Beaumont Street to a point for a corner on the northeast line of an alley in Block 454;

THENCE northwesterly with said northeast line of an alley in Block 454 to a point for a corner on the common line of Lots 16 and 17 extended;

THENCE southwesterly along said extension line and common lot line to the northeast line of St. Paul Street, a point for a corner;

THENCE northwesterly with said northeast line of St. Paul Street and extending same to a point for a corner on the northwest line of Gano Street;

THENCE southwesterly with said northwest line of Gano Street to a point for a corner on the northeast line of Ervay Street;

THENCE crossing Ervay Street to a point for a corner on the northwest line of Gano Street;

THENCE northwesterly with the southwest line of Ervay Street and extending same to a point for a corner on the northwest line of approximately 35 feet wide Sullivan Avenue;

THENCE southwesterly along said northwest line of Sullivan Avenue to the northeast line of Orr Street, a point for a corner;

THENCE northwesterly with said northeast line of Orr Street and extending same to a point for a corner, being on the northeasterly extension of the common line of Blocks 448 1/2 and Block B/93;

THENCE southwesterly along said common block line to a point for a corner on the northeast line of Browder Street;

THENCE with said northeast line of Browder Street northwesterly and extending to the northwest line of Blakeney Street, a point for a corner;

THENCE southwesterly crossing Browder Street and continuing along the northwest line of approximately 25 feet wide Blakeney Street to the northeast line of Akard Street, a point for a corner;

THENCE westerly, crossing Akard Street to a point for a corner on the southwest line of Akard Street and the northwest line of Powhattan Street;
§ 51A-7.901  Dallas Development Code: Ordinance No. 19455, as amended

THENCE southwesterly along the northwest line of Powhattan Street, crossing Peters Street, Wall Street, and a C.R. & P.R.R. right of way and continuing with said northwest line of Powhattan Street and extending to a point for a corner on the southwest line of Lamar Street;

THENCE northwesterly with said southwest line of Lamar Street to a point for a corner being approximately 660 feet southeasterly from the southeast line of Cadiz Street;

THENCE southwesterly crossing Block 1082, Austin Street, Block 1082, the M.K.T.R.R. and C.R. & P.R.R. right of ways and Block 1081 and across an old channel of the Trinity River with the shortest line connecting to the common northeast corner point of Lots 10 and 11, Block 69/7338;

THENCE southwesterly with the common line of Lots 10 and 11, Block 69/7338 and crossing Industrial Blvd. to a point for a corner on the common line of Lots 4 and 5, Block 71/340;

THENCE southwesterly with said common line of Lots 4 and 5 and with the common line of Lots 24 and 25 through Block 71/340 to a point for a corner on the northeast line of Rock Island Street;

THENCE southwesterly, crossing Rock Island Street and through part of Block 8000 to a point for a corner on the approximate centerline of the Trinity River East Levee (of the City and County of Dallas Levee Improvement District), said point being approximately 660 feet southeasterly from the southeast right of way line of Cadiz Street Viaduct;

THENCE northwesterly and northerly with said approximate centerline of the Trinity River East Levee and crossing Cadiz Street Viaduct right of way, R. L. Thornton Freeway right of way, the North Texas Traction Company right of way, Houston Street Viaduct right of way, Texas Turnpike Authority right of way and continuing to a point for a corner on the southerly right of way line of West Commerce Street;

THENCE easterly with said southerly line of West Commerce Street to a point for a corner on the east line of said Trinity River East Levee;

THENCE easterly along said original Texas and Pacific R.R. southerly right of way line to a point for a corner on same, being approximately 660 feet westerly from the westerly line of Stemmons Freeway;

THENCE with the westerly line of Industrial Blvd. northwesterly and extending same to a point for a corner, being on the westerly extension of the north line of Continental Avenue;

THENCE northwesterly with the northeast lines of Dragon Street, crossing Wichita Street and continuing to a point for a corner in Block 409 on a common tract line, being approximately 369 feet northwest of the northwest line of Wichita Street;

THENCE northeasterly with common tract lines to a point for a corner on the southwest line of Slocum Street;

THENCE northeasterly, crossing Slocum Street, Block 401, Stemmons Freeway, the C.R.I.& P.R.R. and S.L. & S. W. R. R. right of ways, a Dallas Power and Light Company tract in Blocks 392 and 393 and the MKT R.R. right of way and crossing part of Blocks I/389,
§ 51A-7.901 Dallas Development Code: Ordinance No. 19455, as amended

J/384 and a closed portion of Griffin and Ashland Streets, with the shortest line connecting to a point on the southeast line of Ashland Street and the northeast line of an alley in Block G/385;

THENCE northeasterly with said southeast lines of Ashland Street, crossing Summer Street and extending to a point for a corner on the NE line of Wesley Alley;

THENCE southeasterly along said NE line of Wesley Alley to the SE line of Block I/354, a point for a corner;

THENCE northeasterly along the southeast line of Block I/354 and along the northwest line of Cedar Springs Road to a point for a corner on the southwest line of 24 feet wide Yates Alley;

THENCE northeasterly with the northwest lines of Cedar Springs Road, crossing Yates Alley, old Field Street, Alamo Street, right of way for new extension of Field Street, and Caroline Street and extending said northwest line of Cedar Springs Road across Akard Street to a point for a corner on the east line of Cedar Springs Road;

THENCE with the east line of Cedar Springs Road northerly to the south line of Harwood Street, a point for a corner;

THENCE easterly with said south line of Harwood Street and extending same to a point for a corner on the easterly line of McKinney Avenue extended;

THENCE northeasterly along said extension line and the easterly line of McKinney Avenue to a point for a corner on the southwest line of Olive Street;

THENCE crossing Olive Street to a point for a corner on the southeast line of Thomas Street;

THENCE northeasterly along the southeast lines of Thomas Street, crossing Pearl Street, Crockett Court, Leonard Street, Fairmount Street, Routh Street, Boll Street, Worthington Street, Clay Alley, Allen Street, Clyde Alley, Clark Street, Ellis Street and Hugo Street and continuing to the southwest line of Hall Street and the point of beginning.

(b) Other special provision sign districts created in accordance with this article are not controlled by this division even though such districts may be wholly or partially located within the boundaries described in Subsection (a). (Ord. Nos. 19455; 20167; 21404; 24606)

SEC 51A-7.901.1. DESIGNATION OF SUBDISTRICTS.

(a) This district is divided into eight subdistricts: Retail Subdistrict A, Retail Subdistrict B, the General CBD Subdistrict, the Downtown Perimeter Subdistrict, the Main Street Subdistrict, the Convention Center Subdistrict, the Akard Station Subdistrict, and the Whitacre Tower Subdistrict.

(b) Retail Subdistrict A is that central area of downtown within the boundaries described in the Exhibit A attached to Ordinance No. 30685, passed by the Dallas City Council on October 25, 2017.

(c) Retail Subdistrict B is that central area of downtown within the boundaries described in the Exhibit A attached to Ordinance No. 30685, passed by the Dallas City Council on October 25, 2017.

(d) The General CBD Subdistrict is that area of the district within the Freeway Loop, more particularly described in the Exhibit A attached to Ordinance No. 30685, passed by the Dallas City Council on October 25, 2017.

(e) The Downtown Perimeter Subdistrict is that area outside of the freeway loop within the downtown sign district.

(f) The Main Street Subdistrict is that area of downtown near Main Street described in Exhibit A attached to Ordinance No. 30685, passed by the Dallas City Council on October 25, 2017.
(g) The Convention Center Subdistrict is that area of downtown near the convention center, more particularly described in the Exhibit A attached to Ordinance No. 30685, passed by the Dallas City Council on October 25, 2017.

(h) The Akard Station Subdistrict is that area of downtown that is more particularly described in the Exhibit A attached to Ordinance No. 30685, passed by the Dallas City Council on October 25, 2017.

(i) The Whitacre Tower Subdistrict is that area of downtown within the boundaries described in the Exhibit A attached to Ordinance No. 30685 passed by the Dallas City Council on October 25, 2017.

(j) The Discovery Subdistrict is that area of downtown within the boundaries described in the Exhibit A attached to Ordinance No. 31191, passed by the Dallas City Council on April 24, 2019. (Ord. Nos. 24606; 24925; 28346; 29227; 29751; 30685; 31191)

SEC. 51A-7.902. PURPOSE.

The purpose of this division is to regulate both the construction of new signs and the alterations of existing signs with a view towards enhancing, preserving, and developing the unique character of the downtown area while addressing the diversity of businesses and promoting the economy of downtown. The general objectives of this division include those listed in Section 51A-7.101 as well as aesthetic considerations to ensure that signs are appropriate to the architecture of the district, do not obscure significant architectural features of its buildings, and lend themselves to the developing retail and residential uses and the pedestrian character of the area. The district regulations are in large part inspired by the high level of pedestrian activity and the need to maximize effective orientation of signage toward the walking public. (Ord. Nos. 19455; 20167; 21404; 24606)

SEC. 51A-7.903. DEFINITIONS.

In this division:

(1) ACTIVITY DISTRICT means a group of entertainment, cultural, performance, retail, or restaurant establishments that generate pedestrian
activity within a particular geographic area, and that
has a known name as a destination such as, but not
limited to, the Farmers Market, Main Street, or the Arts
District.

(2) ARCADE SIGN means any sign that is
mounted under a canopy or awning and is
perpendicular to the building to which the canopy or
awning is attached. This sign is intended to be read
from the pedestrian walkway that the canopy or
awning covers.

(3) AWNING means a fabric or vinyl
surface supported by a metal structure, which is
applied to the face of a building.

(4) AWNING SIGN means a sign attached
to, painted on, or otherwise applied to an awning.

(5) BANNER means a sign applied on a
strip of cloth, vinyl, or similar material and attached to
a building or structure. Awning, canopy signs, and
flags are not banners.

(6) CANOPY means a permanent, non-
fabric architectural element projecting from the face of
a building.

(7) CANOPY SIGN means a sign attached
to, applied on, or supported by a canopy, with no
changeable message area.

(8) CHANGEABLE MESSAGE SIGN means
a sign composed of LED/LCD elements, slide lettering,
slated rotating surfaces, or other changeable message
technology that displays different designs or
advertisements.

(8.1) CONSTRUCTION BARRICADE SIGN
means a sign that is affixed to a construction barricade.

(8.2) CONVENTION CENTER COMPLEX
means the convention center and buildings attached to
Dallas Development Code: Ordinance No. 19455, as amended

[Intentionally left blank]
§ 51A-7.903 Dallas Development Code: Ordinance No. 19455, as amended

(9) DISTRICT or THIS DISTRICT means the Downtown Sign District.

(10) DISTRICT ACTIVITIES means activities that take place on five or more premises within an activity district.

(11) EFFECTIVE AREA means:

(A) for a detached sign other than outlined in (B) below, the area within a minimum imaginary rectangle of vertical and horizontal lines that fully contains all extremities of the sign, excluding its supports. This rectangle is calculated from an orthographic projection of the sign viewed horizontally. The viewpoint for this projection that produces the largest rectangle must be used. If elements of the sign are moveable or flexible, such as a flag or a string of lights, the measurement is taken when the elements are fully extended and parallel to the plane of view;

(B) for signs placed on a fence, non enclosing wall, planter, or other similar structure that is designed to serve a separate purpose other than to support the sign, the entire area of such structure may not be computed, and the effective area must be measured by the rule for effective area for attached signs; and

(C) for an attached sign, the sum of the areas within minimum imaginary rectangles of vertical and horizontal lines, each of which fully contains a word. If a design, outline, illustration, or interior illumination surrounds or attracts attention to a word, then it is included in the calculation of effective area.

(12) ENTERTAINMENT FACILITY means a structure or building for sports events or the performing arts, including indoor motion picture theaters, theaters for live musical or dramatic performances, indoor and outdoor concert halls, and exhibition halls.

(13) FACADE means any separate face of a building, including parapet walls and omitted wall lines, or any part of a building which encloses or covers usable space, chimneys, roof-mounted equipment, mounted antennas, or water towers. Where separate faces are oriented in the same direction or in directions within 45 degrees of one another, they are to be considered as part of a single facade. A roof is not a facade or part of a facade. Multiple buildings on the same lot will each be deemed to have separate facades.

(14) FLAT ATTACHED SIGN means an attached sign projecting 12 inches or less from a building, and the face of which is parallel to the building facade.

(15) FREEWAY LOOP means the area of the city within Woodall Rogers Freeway, R.L. Thornton Freeway, Central Expressway (elevated bypass), and Stemmons Freeway.

(16) GENERIC GRAPHICS means any pattern of shapes, colors, or symbols that does not commercially advertise.

(17) KIOSK means a multi-sided structure for the display of premise and nonpremise signs.

(18) LANDSCAPE SIGN means a sign that is a part of a single landscape design which creates a base for the sign in conjunction with a retaining wall or an open space created with the use of water or planting material.

(19) LOWER LEVEL SIGN means an attached sign wholly situated within the lower level sign area.

(20) LOWER LEVEL SIGN AREA means the portion of a facade less than 36 feet above grade.

(21) MARQUEE SIGN means a sign attached to, applied on, or supported by a permanent canopy projecting over a pedestrian street entrance of a building, and consisting primarily of changeable panels, words, or characters.
§ 51A-7.903 Dallas Development Code: Ordinance No. 19455, as amended

(21.1) MEDIA CENTER PLAZA means an outdoor area that is accessible to the public, and includes:

(A) a plaza that is at least 120,000 square feet in size; and

(B) structures containing ground-floor retail and restaurant uses.

(21.2) MEDIA WALL SIGN means an attached sign projecting no more than five feet from a building, the face of which is parallel to the building facade, and which may wrap around the corner of a building. A media wall sign must be located adjacent to a media center plaza. A media wall sign must be a changeable message sign, and must incorporate changeable messages, including streaming.

(22) MESSAGE AREA means the area within the effective area of a sign that provides a specific commercial or non-commercial message and that excludes all extremity and intra-areas associated with the sign fixture.

(22.1) MIDDLE LEVEL SIGN means an attached sign wholly or partially situated within the middle level sign area.

(22.2) MIDDLE LEVEL SIGN AREA means the portion of a building facade that is between the lower level sign area and the upper level sign area.

(23) MONUMENT SIGN means a detached sign applied directly onto a grade-level support structure (instead of a pole support) with no separation between the sign and grade.

(24) MOVEMENT CONTROL SIGN means a sign that directs vehicular and pedestrian movement within this district.

(24.1) PEDESTRIAN-ORIENTED CONCESSION SIGN means a premise sign displaying advertising for one or more retail uses to on-site pedestrians.

(25) PROJECTING ATTACHED SIGN means an attached sign projecting more than 12 inches from a building at an angle other than parallel to the facade.

(26) PROMOTIONAL MESSAGE means a message that identifies or promotes a cultural activity within this district, any special event being conducted in this district, any event being conducted, in whole or in part, in an entertainment complex, or any other event that will benefit the city. Benefit to the city is established by:

(A) use of city property in accordance with a contract, license, or permit;

(B) the receipt of city monies for the activity or event; or
(C) an ordinance or resolution of the city council that recognizes the activity or event as benefitting the city.

(27) PUBLIC AREA means any publicly or privately-owned outdoor area that is accessible to the public.

(28) RESIDENTIAL USES means those uses defined in Section 51A-4.209.

(29.1) RETAINING WALL SIGN means a sign in Retail Subdistrict B affixed or engraved into a retaining wall supporting a landscape bed or similar feature.

(30) SIGN HARDWARE means the structural support system for a sign, including the fastening devices that secure a sign to a building facade or pole.

(31) SPECIAL SIGN DISTRICT ADVISORY COMMITTEE means that committee created by Section 51A-7.504 of the Dallas Development Code, as amended.

(32) TEMPORARY SIGN means a sign erected for a limited time that identifies an event or activity of limited duration. Examples include signs advertising the sale or lease of property, construction activity in progress, or a concert or other cultural event.

(33) UPPER LEVEL SIGN means an attached sign wholly situated within the upper level sign area.

(34) UPPER LEVEL SIGN AREA means the portion of a facade more than 36 feet above grade and within the top 12 feet of a facade on buildings 18 stories or less, or within the top 36 feet of a facade on buildings more than 18 stories.

(34.1) VIDEOBOARD SIGN means a flat screen that is capable of displaying moving images similar to television images, by light-emitting diode or
§ 51A-7.903  Dallas Development Code: Ordinance No. 19455, as amended  § 51A-7.906

other similar technology, and that is mounted to the exterior of a building.

(35) WELCOME MESSAGE means a message that identifies and greets heads of state, foreign dignitaries, groups using city property in accordance with a contract, license, or permit, or government organizations.

(36) WINDOW ART DISPLAY means an exhibit or arrangement placed within a storefront window of a building and designed to be viewed from a street or public area.

(37) WINDOW SIGN means a sign painted or affixed to a window.

(38) WORD: For purposes of this division, each of the following is considered to be one word:

(A) Any word in any language found in any standard unabridged dictionary or dictionary of slang.

(B) Any proper noun or any initial or series of initials.

(C) Any separate character, symbol, or abbreviation such as “&”, “¥”, “%”, and “Inc.”

(D) Any telephone number, street number, or commonly used combination of numerals and symbols such as “$5.00” or “50%”,

(E) Any Internet website, network, or protocol address, domain name, or universal record locator.

(F) Any symbol or logo that is a registered trademark but which itself contains no word or character.

(G) A street address is not considered to be a word.  (Ord. Nos. 20167; 21404; 24606; 24925; 27795; 28346; 28347; 29227 [31191])

SEC. 51A-7.904.  DETACHED NON-PREMISE SIGNS.

Except as provided in this division, no person may erect a detached non-premise sign in this district.  (Ord. Nos. 19455; 20167; 21404; 24606; 24925)

SEC. 51A-7.905.  SIGN PERMIT REQUIREMENT.

(a) Except as provided in Sections 51A-7.908, 51A-7.914, and 51A-7.915, a person shall not alter, place, maintain, expand, or remove a sign in this district without first obtaining a sign permit from the city.

(b) The procedure for obtaining a sign permit is outlined in Section 51A-7.505 of this article. Section 51A-7.602 of this article does not apply to signs in this district.

(c) A person who violates Subsection (a) is guilty of a separate offense for each day or portion of a day during which the violation is continued.  (Ord. Nos. 20167; 21404; 24606; 24925)

SEC. 51A-7.906.  GENERAL PROVISIONS FOR ALL SIGNS IN THE DOWNTOWN SIGN DISTRICT.

(a) Except as provided in Subsection (b), the regulations of Section 51A-7.303 apply in this district.

(b) For retail and personal service uses within the Main Street Subdistrict, Retail Subdistrict A, and Retail Subdistrict B, the measurements of luminance are taken from any premise or public right-of-way other than an alley outside the Main Street Subdistrict, Retail Subdistrict A, and Retail Subdistrict B, respectively.

(c) Illuminated signs in this district must comply with Section 51A-6.104 of the Dallas Development Code, as amended.  (Ord. Nos. 24606; 24925; 27795; 29227)
§ 51A-7.907  Dallas Development Code: Ordinance No. 19455, as amended  § 51A-7.909

SPECIAL PROVISIONS FOR SIGNS WITHIN THE GENERAL CBD, MAIN STREET, CONVENTION CENTER, AND RETAIL SUBDISTRICTS.

§ 51A-7.909  ATTACHED NON-PREMISE DISTRICT ACTIVITY VIDEOBOARD SIGNS.

(a) Content. Non-p[, ]...
(3) Non-premise district activity videoboard signs may not be placed on Pacific Avenue between Akard Street and Ervay Street.

(4) Non-premise district activity videoboard signs may not be placed on building facades facing Main Street Garden or Belo Garden.

(c) Size. Non-premise district activity videoboard signs must have a minimum of 100 square feet in effective area and may have a maximum 150 square feet in effective area.

(d) SUP required.

(1) Non-premise district activity videoboard signs are only permitted by SUP.

(2) All applications for non-premise district activity videoboard signs must include a report from a traffic engineer stating that the placement of the sign will not interfere with the effectiveness of traffic control devices within 300 ft of the sign.

(3) If there is a conflict between Subsection 51A-4.206(1) and this section, this section controls.

(4) Original applications and renewal applications for non-premise district activity videoboard signs must include an affidavit stating that the building meets the occupancy requirements in Subsection (g).

(5) Within 10 days after expiration or revocation of the SUP the non-premise district activity videoboard sign must be removed.

(e) Installation. Non-premise district activity videoboard signs must be securely attached.

(f) Projecting signs. Projecting non-premise district activity videoboard signs:

(1) must have a vertical orientation with height exceeding the width at a minimum 16:9 height-to-width ratio;

(2) may project a maximum of 12 feet into the right-of-way:

(A) subject to the licensing requirements of Chapter XIV of the City Charter, Article VI of Chapter 43 of the Dallas City Code, the Dallas Building Code, and all other applicable laws, codes, ordinances, rules, and regulations;

(B) subject to review by the traffic engineer to ensure that the sign will not pose a traffic hazard or visibility obstruction; and

(C) provided that no projecting sign may project closer than two feet to a vertical plane extending through the back of a street curb;

(3) must have a minimum clearance of 15 feet above the sidewalk and a maximum clearance of 35 feet above the sidewalk; and

(4) must have videoboard displays on both sides of the sign.

(g) Building occupancy requirements. Non-premise district activity videoboard signs are only permitted on buildings with retail and personal service uses, lodging uses, or office uses occupying at least 75 percent of the leasable ground floor area and an overall building occupancy of at least 50 percent. Non-premise district activity videoboard signs are not allowed on a lot containing a commercial surface parking lot use. The director shall notify City Council of any building that falls below the occupancy requirements and fails to reestablish the occupancy requirement within 120 days. The director may waive the occupancy requirements of this subsection for up to one year if the director determines that the building or multi-building complex is currently being redeveloped. The director may revoke this waiver if redevelopment stops or is inactive for 90 days or more.

(Ord. Nos. 27481; 28347; 28424; 28553; 28822; 29227)
SEC. 51A-7.910. OPERATIONAL REQUIREMENTS FOR ATTACHED VIDEOBOARD SIGNS.

(a) Display.

(1) All videoboard signs:

(A) must contain a default mechanism that freezes the image in one position in case of a malfunction;

(B) must automatically adjust the sign brightness based on natural ambient light conditions in compliance with the following formula:

(i) the ambient light level measured in luxes, divided by 256 and then rounded down to the nearest whole number, equals the dimming level; then

(ii) the dimming level, multiplied by .0039 equals the brightness level; then

(iii) the brightness level, multiplied by the maximum brightness of the specific sign measured in nits, equals the allowed sign brightness, measured in nits. For example:

\[
\frac{32768}{256} = \text{ambient light in luxes}
\]

\[
\frac{128}{0.039} = \text{dimming level}
\]

\[
\frac{0.492}{9000} = \text{brightness level}
\]

\[
4492.8 = \text{allowed brightness in nits;}
\]

(C) must be turned off between 1:00 a.m. and 7:00 a.m. Monday through Friday and 2:00 a.m. and 8:00 a.m. on Saturday and Sunday; and

(D) may not display light of such intensity or brilliance to cause glare, impair the vision of an ordinary driver, or constitute a nuisance.

(2) Non-premise district activity videoboard signs:

(A) must have a full color display able to display a minimum of 281 trillion color shades; and

(B) must be able to display a high quality image with a minimum resolution equivalent to the following table:

<table>
<thead>
<tr>
<th>Size of LED Panel</th>
<th>Maximum Pixel Size</th>
</tr>
</thead>
<tbody>
<tr>
<td>100 s/f to 125 s/f</td>
<td>16 mm</td>
</tr>
<tr>
<td>Greater than 126 s/f</td>
<td>19 mm</td>
</tr>
</tbody>
</table>

(b) Light intensity. Before the issuance of a videoboard sign permit, the applicant shall provide written certification from the sign manufacturer that:

(1) the light intensity has been factory programmed to comply with the maximum brightness and dimming standards in the following table in Subparagraph (a)(1)(B); and

(2) the light intensity is protected from end-user manipulation by password-protected software, or other method satisfactory to the building official.

(c) Change of message. Except as provided in this section, changes of message must comply with the following:

(1) Each message must be displayed for a minimum of eight seconds.

(2) Changes of message must be accomplished within two seconds.

(3) Changes of message must occur simultaneously on the entire sign face.

(4) No flashing, dimming, or brightening of message is permitted except to accommodate changes of message.

(d) Streaming information. If a special events permit has been issued for district activities, streaming
video and audio is permitted, except that ticker tape streaming is permitted at all times when the videoboard sign is operating. Ticker tape streaming must be located within the bottom 10 percent of the effective area.

(e) Malfunction. Videoboard sign operators must respond to a malfunction or safety issue within one hour after notification. (Ord. Nos. 27481; 27572)

SEC. 51A-7.911. ATTACHED PREMISE SIGNS.

(a) Attached signs in general.

(1) Attached signs must be securely attached.

(2) Attached signs overhanging the public way are permitted, except that no sign may project closer than two feet to the vertical plane extending through the back of a street curb.

(3) The total effective area for all signs on a facade may not exceed:

(A) 30 percent of the area in the lower level sign area;

(B) 20 percent of the area in the middle level sign area; and

(C) 30 percent of the area in the upper level sign area.

(4) Except as provided in this paragraph, attached signs may not project more than four feet above the roof line. Attached signs in the Convention Center Subdistrict may not project more than nine feet above the roof line.

Projecting attached signs are not included in these effective area calculations. See additional restrictions on sign area in the provisions for specific sign types.
(5) Attached premise signs may be videoboard signs, provided that the message content concerns businesses on the premise which are open for business for a minimum of 50 weeks per year with employees present a minimum of 30 hours per week. For operational and maintenance requirements, see Section 51A-7.910.

(b) Arcade signs.

(1) An arcade sign must be located at least 15 feet from any other arcade sign.

(2) No arcade sign may exceed six square feet in effective area.

(3) No arcade sign may be lower than 10 feet above grade.

(c) Awning signs.

(1) Awning signs in the general CBD and convention center subdistricts.

(A) No awning sign may:

(i) project more than two inches from the surface of the awning; or

(ii) be lower than 10 feet above grade.

(B) The total effective area for any one awning sign may not exceed six square feet.

(C) The total effective area for all awning signs combined on each street frontage may not exceed 150 square feet.

(2) Awning Signs in the Main Street Subdistrict, Retail Subdistrict A, and Retail Subdistrict B.

(A) No awning sign may:
§ 51A-7.911 Dallas Development Code: Ordinance No. 19455, as amended

(d) Canopy signs.

(1) Canopy signs in the general CBD and convention center subdistricts.

(A) No canopy sign may:

(i) exceed 50 percent of the length of the canopy facade to which it is attached;

(ii) project horizontally more than two inches from the surface of the canopy; or

(iii) be lower than 10 feet above grade.

(B) The total effective area for all canopy signs combined on each street frontage may not exceed 180 square feet.

(C) No canopy sign may project vertically above the surface of the canopy if a lower level flat attached sign is maintained at that occupancy on the same facade.

(D) No canopy sign may project vertically above the surface of the canopy more than 15 percent of the overall length of the sign.

(E) A canopy sign may only be located over a pedestrian entrance to a premise.

(2) Canopy Signs in the Main Street Subdistrict, Retail Subdistrict A, and Retail Subdistrict B.

(A) No canopy sign may:

(i) exceed 60 percent of the length of the canopy facade to which it is attached;

(ii) project horizontally more than 12 inches from the surface of the canopy; or

(iii) be lower than 10 feet above grade.

(B) The total effective area for all canopy signs combined on each street frontage may not exceed 180 square feet.

(C) No canopy sign may project vertically above the surface of the canopy if a lower level flat attached sign is maintained at that occupancy on the same facade.

(D) No canopy sign may project vertically above the surface of the canopy more than 20 percent of the overall length of the sign.

(E) Canopy signs may only be located over a pedestrian entrance to a premise.

(e) Flat attached signs.

(1) Lower level flat attached signs.

(A) Except as provided in this paragraph, the maximum number of lower level flat attached signs permitted on a facade is the sum obtained by counting all of the street entrances and first floor occupants with windows on that facade with no street entrances.

(B) In the general CBD and convention center subdistricts, the maximum effective area for a lower level flat attached sign is:
§ 51A-7.911 Dallas Development Code: Ordinance No. 19455, as amended § 51A-7.911

(i) 30 square feet if the sign is within 15 feet of the right-of-way; and

(ii) 50 square feet if the sign is more than 15 feet from the right-of-way.

(C) Except as provided in this paragraph, in the Main Street Subdistrict, Retail Subdistrict A, and Retail Subdistrict B, the maximum effective area for a lower level flat attached sign is:

(i) 40 square feet if the sign is within 15 feet of the right-of-way; or

(ii) 60 square feet if the sign is more than 15 feet from the right-of-way.

(D) In Retail Subdistrict B, if retaining wall signs are erected pursuant to Section 51A-7.912, a maximum of one flat attached sign is permitted per building entry with a maximum effective area of 10 square feet per sign. The provisions of Subparagraph (C) apply in the absence of retaining wall signs.

(2) Middle level flat attached signs.

(A) Each middle level flat attached sign may have a maximum of eight words that contain any character of a height equal to or exceeding four inches.

(B) Middle level flat attached signs must be wholly or partially located within the middle level sign area.

(C) Except as provided in this subparagraph, the maximum effective area for a middle level flat attached sign is 500 square feet. In the Whitacre Tower Subdistrict the maximum effective area for a middle level flat attached sign is 784 square feet.

(D) Middle level flat attached signs may only display the names or symbols or a combination thereof representing tenants occupying one or more full floors or 20,000 square feet or more of leasable building area, whichever is greater.

(E) Middle level flat attached signs are only permitted on buildings with 10 or more stories.

(F) One middle level flat attached sign is permitted for every 100 feet of building height or portion thereof, up to a maximum of three signs, per facade.

(G) Middle level flat attached signs must have a vertical separation of 75 feet from any other flat attached sign on the same facade in the lower, middle, or upper level sign area.

(3) Upper level flat attached signs.

(A) Each upper level flat attached sign may have a maximum of eight words that contain any character of a height equal to or exceeding four inches.

(B) Upper level flat attached signs must be wholly located within the upper level sign area.

(f) Marquee signs.

(1) No marquee sign may:

(A) exceed 225 square feet for buildings with an entertainment facility housing 150 seats or less; or

(B) exceed 375 square feet for buildings with an entertainment facility housing more than 150 seats.

(2) No marquee sign may be longer than two-thirds of the length of the frontage of the building to which the marquee is attached.

(3) The message area on any marquee sign may not exceed 60 percent of the effective area of the sign.

(4) Marquee signs must have a height dimension of not less than two feet.

(5) No premise may have more than one marquee sign per street frontage.
(6) Only an entertainment facility may have a marquee sign.

(g) **Projecting attached signs.**

(1) **Lower projecting attached signs.**

(A) No premise may have more than one lower projecting attached sign per pedestrian entrance.

(B) No lower projecting attached sign may exceed 15 square feet in effective area in the general CBD and convention center subdistricts, or 30 square feet in effective area in the Main Street Subdistrict, Retail Subdistrict A, and Retail Subdistrict B.

(C) No lower projecting attached sign may be lower than 10 feet above grade, or project vertically above the roof of a building, or 25 feet above grade, whichever is lower.

(D) No lower projecting attached sign may project more than five feet into the public right-of-way.

(2) **Upper projecting attached signs.**

(A) No premise may have more than one upper projecting attached sign.

(B) No upper projecting attached sign may project more than five feet into the public right-of-way.

(C) An upper projecting attached sign:

(i) may be located outside the upper level sign area; and

(ii) may not be lower than 12 feet above grade.

(D) The lowest point of an upper projecting attached sign must be located within 36 feet above grade.

(E) No upper projecting attached sign may exceed 180 square feet in effective area.

(3) The board of adjustment may authorize a special exception to the effective area, height, or location restrictions for a projecting attached sign if the board finds, after a public hearing, that the special exception will not be contrary to the public interest, adversely affect neighboring properties, or create a traffic hazard and that the special exception will be in harmony with the general purpose and intent of this division. In no event may a special exception granted under this paragraph authorize a sign to exceed 300 square feet in effective area or 45 feet in height.

(4) All projecting attached videoboard signs must have videoboard displays on both sides of the sign.

(h) **Media wall signs.**

(1) One media wall sign is permitted in the Discovery Subdistrict only.

(2) A media wall sign may be located no lower than 15 feet from grade and may be located no higher than 125 feet from grade.

(3) Non-premise messages are permitted only when streaming live or pre-recorded media content that is not simply an advertisement or commercial.

(4) For purposes of a media wall sign, **PREMISE** means the property within the Discovery Subdistrict and the property within the Media Center Plaza abutting the Discovery Subdistrict.

(5) For purposes of a media wall sign, **PREMISE SIGN** means any sign that contains content that relates to the premise and referring exclusively to the following:

(A) the name, trade name, or logo of the owner or occupant of the premises, or the identification of the premise;

(B) accommodations, services, or activities offered or conducted on the premise;
(C) products or media content sold, other than incidentally, on the premise, the intent of which is not to promote third-party advertising but to allow the products and media content of the premise, but does not include monetization from third-party advertising;

(D) the sale, lease, or construction of the premise;

(E) products or media content owned by the owner or its affiliates, or by the occupant of the premise;

(F) public service or sponsorship announcements; and

(G) the streaming of live or pre-recorded content.

(6) Media wall signs may be a maximum 9,300 square feet in effective area. For a media wall sign that wraps around the side of a building, a maximum of 6,650 square feet in effective area is permitted on the north/Jackson Street side of the building, and a maximum of 2,650 square feet in effective area is permitted on the west/Akard Street side of the building.

(7) A media wall sign:

(A) must contain a default mechanism that freezes the image in one position in case of a malfunction.

(B) must automatically adjust the sign brightness based on natural ambient light conditions in compliance with the following formula:

\[ \text{brightness level} = (\frac{\text{ambient light level}}{256}) \times 0.0039 \times \text{maximum brightness of the specific sign measured in nits} \]

For example:

\[ \frac{32,768}{256} = 128 \text{ (dimming level)} \]

\[ 0.4992 \times 9,000 = 4492.8 \text{ (allowed brightness in nits)} \]

(C) between 1:00 a.m. and 7:00 a.m., Monday through Friday, and between 2:00 a.m. and 8:00 a.m. on Saturday and Sunday,

(i) must display at no more than 300 nits or five percent of the total brightness of the sign capabilities, whichever is less; and

(ii) may utilize no more than 50 percent of the sign's total diodes and display no text;

(D) may not display light of such intensity or brilliance as to cause glare, impair the vision of an ordinary driver, or constitute a nuisance;

(E) must have a color display able to display a minimum of 281 trillion color shades; and

(F) must be able to display a high-quality image with a minimum pixel pitch of six mm.

(8) Before the issuance of a media wall sign permit, the applicant shall provide written certification from the sign manufacturer or vendor that:

(A) the light intensity has been programmed to comply with the maximum brightness and dimming formula in Section 51A-7.911(h)(7)(B); and

(B) the light intensity is protected from end-user manipulation by password-protected software, or other method satisfactory to the building official.

(9) Media wall sign operators must respond to a malfunction or safety issue within one hour after notification. (Ord. 20927; 21404; 21694; 24606; 24925; 27481; 27795; 28346; 29227; 30685; 31191)

SEC. 51A-7.912. DETACHED PREMISE SIGNS.

(a) Unless otherwise provided, all detached premise signs must be monument signs or landscape
(b) No detached premise sign may be located within five feet of a public right-of-way, except for monument signs or landscape signs, which may be located at the building line.

(c) Except as provided in this section, detached premise signs located within 15 feet of a public right-of-way may not exceed 20 square feet in effective area, or five feet in height.

(d) Except as provided in this section, detached premise signs with a setback of 15 feet or greater from a public right-of-way may not exceed 50 square feet in effective area, or 15 feet in height.

(e) A detached premise sign may contain only the name, logo, and address of the premise building and its occupants.
(f) Section 51A-7.304(c) of the Dallas Development Code, as amended, does not apply to monument signs or landscape signs in this district.

(g) A premise having more than 450 feet of frontage along a street may have no more than one additional detached premise sign for each additional 100 feet of frontage or fraction thereof. For purposes of the subsection, “street” means a right-of-way that provides primary access to adjacent property.

(h) The following additional regulations apply in Retail Subdistrict B.

(1) Campus identification sign.

(A) One campus identification sign is permitted if the building site contains a single building with a floor area of 1.5 million square feet or greater.

(B) This sign must be located within 15 feet of the right-of-way.

(C) Maximum height is four feet, six inches.

(D) Maximum effective area is 77 square feet.

(E) The message area cannot exceed 70 percent of the effective area.

(F) Push-through acrylic lettering is required. No other lettering is permitted.

(2) Additional monument signs.

(A) Three additional monument signs are permitted if the building site contains a single building with a floor area of 1.5 million square feet or greater.

(B) Maximum height is four feet, six inches.

(C) Maximum effective area of each sign is 45 square feet.

(D) The message area cannot exceed 60 percent of the effective area.

(E) These signs may be located along any street, provided there are no more than five detached premise signs oriented toward any street.

(F) The 200-foot spacing provision in Section 51A-7.304, “Detached Signs,” for detached signs on the same premise does not apply to additional monument signs permitted by this paragraph.

(3) Retaining wall signs.

(A) A maximum of four retaining wall signs are permitted.

(B) Maximum effective area of each sign is 40 square feet.

(4) Pedestrian-oriented concession signs.

(A) A maximum of three pedestrian-oriented concessions signs are permitted.

(B) These signs may contain campus and associated identification.

(C) Minimum setback is 15 feet.

(D) Maximum height is eight feet, eight inches.

(E) Maximum effective area of each sign is 30 square feet.

(F) There is no message area restrictions for these signs.

(G) Push-through acrylic lettering is required. No other lettering is permitted.
§ 51A-7.912 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-7.914 Dallas Development Code: Ordinance No. 19455, as amended

(5) Illumination.

(A) Except as provided in this paragraph, internal sources of illumination may only be used if the internal source is an integral part of the sign’s design, such as the use of light emitting diodes (LED) or small individual incandescent lamps.

(B) Except as provided in this paragraph, detached premise signs must not have a plastic translucent cover.

(C) Retaining wall signs and pedestrian-oriented concession signs may be externally lit, or internally lit with a translucent or transparent cover, without limitation to the type of lighting or cover materials. (Ord. Nos. 20167; 21404; 22425; 24606; 24925; 29227)

SEC. 51A-7.913. CONSTRUCTION BARRICADE SIGNS.

(a) The director shall review all construction barricade signs for consistency with the construction fence requirements of the Dallas Central Business District Streetscape plan. Upon approval of the signs by the director, a sign permit for the signs may be issued. This review is a condition precedent for any permit issued for a construction barricade. No additional sign permits for the barricade may be issued after the barricade permit is issued.

(b) A construction barricade sign may not project more than two inches from the surface of the construction barricade.

(c) A construction barricade sign may neither be lighted nor contain any moving parts.

(d) A construction barricade sign must be removed when the construction barricade is removed.

(e) A minimum of ten percent of the effective area of a construction barricade sign must display city park names, city activities, district activities, or the names of the owner, occupant, or district sponsor of the construction site.

(f) A construction barricade sign may not exceed eight feet in height.

(g) A construction barricade may be fully decorated or graphically designed if:

(1) no decoration or graphic horizontally projects more than two inches from the surface of the barricade; or

(2) no decoration or graphic vertically projects more than four feet above the top of the barricade.

(h) A construction barricade sign may contain one non-premise message per street frontage. (Ord. Nos. 19455; 20167; 21404; 24606; 24925; 25047; 28073; 28347; 28553)

SEC. 51A-7.914. BANNERS ON STREETLIGHT POLES.

Banners on streetlight poles are subject to the following regulations:

(a) A banner must display a promotional message, a welcome message, or generic graphics.

(b) No more than 10 percent of the effective area of a banner may contain a welcome message that identifies and greets a group using city property in accordance with a contract, license, or permit.

(c) Up to 10 percent of the effective area of a banner may contain the word(s) or logo(s) that identify a sponsor of a cultural event or activity if the sponsor’s name is part of the name of the activity or event.

(d) A banner having either a promotional message or a welcome message may not be erected more than 90 days prior to the beginning of the advertised activity or event, and must be removed no
later than 15 days after that activity or event has ended. The sign hardware for a banner may be left in place between displays of a banner.

(e) A banner and its sign hardware must:

(1) be mounted on a streetlight pole;

(2) meet the sign construction and design standards in the Dallas Building Code;

(3) be at least 12 feet above grade, unless it overhangs a roadway, in which case it must be at least 15 feet above grade;

(4) be made out of weather-resistant and rust-proof material;

(5) not project more than three feet from the pole onto which it is mounted; and

(6) not exceed 20 square feet in effective area.

(f) No sign permit or certificate of appropriateness is required to erect or remove a banner. (Ord. Nos. 21404; 24606; 24925)

SEC. 51A-7.915. WINDOW ART DISPLAYS IN VACANT BUILDINGS.

Window art displays on the ground floor of a vacant building are allowed subject to the following regulations:

(a) A window art display may contain only a promotional message, generic graphics (including three-dimensional artifacts), a message identifying the sponsor of the display, or a message referring to the sale or lease of the premises.

(b) Window signs in a window art display may not:

(1) cover more than 25 percent of the surface area of a window;

(2) contain a logo or word that has any character that exceeds five inches in height;

(3) advertise a specific product or service other than the cultural event or activity; or

(4) have more than 10 percent or four square feet, whichever is less, of its effective area devoted to sponsorship identification.

(c) No sign permit or certificate of appropriateness is required to erect or remove a window art display. (Ord. Nos. 21404; 24606; 24925)

SEC. 51A-7.916. NONCOMMERCIAL MESSAGE NONDISCRIMINATION.

Notwithstanding any other provision of this division, any sign that may display a type of noncommercial message may display in place of that message any other type of noncommercial message, so long as the sign complies with other requirements of this article and other ordinances that do not pertain to the content of the message displayed. Section 51A-7.209 of the Dallas Development Code, as amended, applies to this district. (Ord. Nos. 21404; 24606; 24925)

SEC. 51A-7.917. ACTIVITY DISTRICT CHANGEABLE MESSAGE SIGNS.

(a) No more than six activity district changeable message signs may be located in this district.

(b) Activity district changeable message signs in the general CBD and convention center subdistricts:

(1) may be attached or detached signs;

(2) must be located at least 1500 feet apart;
§ 51A-7.917 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-7.918

(3) if attached signs, must be located on separate facades; and

(4) may not exceed 450 square feet in effective area.

(c) Activity district changeable message signs in the Main Street Subdistrict, Retail Subdistrict A, and Retail Subdistrict B:

(1) must be attached signs;

(2) must be located at least 300 feet apart;

(3) must be located on separate facades; and

(4) may not exceed 200 square feet in effective area.

(d) A maximum of four activity district changeable message signs may be located in the general CBD and convention center subdistricts collectively, and a maximum of two activity district changeable message signs may be located in the Main Street Subdistrict, Retail Subdistrict A, and Retail Subdistrict B, collectively.

(e) Activity district changeable message signs may not exceed 60 feet in height.

(f) Activity district changeable message signs may only promote district activities within this district or West End Special Provision Sign District, Deep Ellum Special Provision Sign District, Arts District Special Provision Sign District, and Farmers Market Special Provision Sign District.

(g) No more than 10 percent of the effective area of a district changeable message sign may be devoted to sponsorship identification.

(h) No more than eight permanent words may be located on an activity district changeable message sign.

(i) There is no limit to the number of words on the changeable message portion of an activity district changeable message sign.

(j) No attached activity district changeable message sign may project above the roof.

(k) Activity district changeable message signs must be securely anchored and meet design standards approved by the Special Sign District Advisory Committee. (Ord. Nos. 24606; 24925; 28346; 29227)

SEC. 51A-7.918. KIOSKS.

(a) Kiosks for which permits were issued after March 9, 2005.

(1) Kiosks may only be erected as part of a city-wide kiosk program approved by the city council.

(2) Kiosks are not subject to this section, and must meet the design standards of a city-wide kiosk program approved by the city council.

(b) Kiosks for which permits were issued on or before March 9, 2005.

(1) Kiosks may display premise or non-premise messages.

(2) Kiosks must be spaced at least 300 feet apart.

(3) No kiosk may be illuminated by a detached, independent external light source.

(4) Kiosks may not be located on sidewalks unless:

(A) an unobstructed sidewalk width of 10 feet is maintained on any side with a message area; or
§ 51A-7.918 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-7.919

(B) an unobstructed sidewalk width of seven feet is maintained with no message area.

(5) Kiosks must be securely anchored.

(6) Except as provided in this section, kiosks must meet the design standards of a city-wide kiosk program approved by the city council.

(7) Kiosks may contain coin-operated public toilets.

(8) Kiosks must not exceed:

(A) 10 feet in height;

(B) 80 square feet in effective area; or

(C) 100 square feet in effective area if a kiosk contains a coin-operated public toilet.

(9) The effective area of a kiosk is measured using the rule for measuring the effective area of detached signs.

(10) The message area of a kiosk may not exceed 60 percent of the effective area of the kiosk.

(A) One-third of the message area of a kiosk must identify a district activity or be an area way-finding map. The message area identifying a district activity or containing an area way-finding map must be oriented to be visible from a sidewalk within the public right-of-way.

(B) There is no limit as to the number of words containing characters of a height equal to or exceeding four inches on a kiosk.

(11) Kiosks with area way-finding maps must have the word “information” or an information symbol above the message area.

(12) Kiosks may be relocated within this district, provided the new location and kiosk design complies with this section. (Ord. Nos. 24606; 24925; 25926)

SEC. 51A-7.919. MOVEMENT CONTROL SIGNS.

(a) Except as provided in this section, movement control signs must direct vehicular or pedestrian movement within this district or to adjacent districts and may include the name or logo of any premise located in this district or the name or logo of any adjacent district.

(b) Movement control signs that include the name or logo of two or more premises may:

(1) be attached or detached signs;

(2) not exceed 30 square feet in effective area;

(3) be located in a public right-of-way; or

(4) be erected anywhere within the district without limit as to number.

(c) Movement control signs that include the name or logo of one premise may:

(1) be attached or detached signs;

(2) be erected on the premise without limit as to number;

(3) not exceed two square feet in effective area; and

(4) not be located in the public right-of-way.
§ 51A-7.919  Dallas Development Code: Ordinance No. 19455, as amended
§ 51A-7.920

(d) The following additional regulations apply in Retail Subdistrict B.

(1) Movement control signs cannot include the name or logo of any premise located in this subdistrict or adjacent subdistricts.

(2) Pedestrian movement control signs may:
   (A) be attached or detached signs;
   (B) not exceed 10 square feet in effective area;
   (C) not exceed a message area of 75 percent;
   (D) not exceed a maximum letter height of five inches;
   (E) not be located in a public right-of-way; and
   (F) be erected anywhere in this subdistrict without limitation as to number.

(3) Vehicular movement control signs may:
   (A) be attached or detached signs;
   (B) not exceed two square feet in effective area;
   (C) not be located in a public right-of-way; and
   (D) be erected anywhere in this subdistrict without limitation as to number. (Ord. Nos. 24606; 24925; 29227)

SEC. 51A-7.920.  DISTRICT IDENTIFICATION SIGNS.

(a) A district identification sign may only:

(1) identify the name or logo of the Main Street Subdistrict, Retail Subdistrict A, or Retail Subdistrict B as approved by the city council; and

(2) be located in the subdistrict it identifies.

(b) A district identification sign may be located in the right-of-way.

(c) No district identification sign may be a changeable message sign.

(d) A district identification sign may only be a monument sign, a banner sign, or be located on a structure that spans a right-of-way or on a nonenclosing wall.

(e) A maximum of six district identification signs are allowed in the Main Street Subdistrict, Retail Subdistrict A, and Retail Subdistrict B, collectively.

(f) No district identification sign may exceed 50 square feet in effective area.

(g) No district identification sign may exceed five words.

(h) A structure that spans a right-of-way or a nonenclosing wall containing a district identification sign:

   (1) may not exceed 900 square feet in effective area;
   (2) must be at least 15 feet above grade; and
   (3) may not exceed 25 feet in height.

(i) Monument identification signs located within 15 feet of a public right-of-way may not exceed 20 square feet in effective area, or five feet in height.

(j) Monument identification signs located more than 15 feet from a public right-of-way may not exceed 50 square feet in effective area, or 15 feet in height.
(k) Banner district identification signs and their hardware must meet the sign construction and design standards contained in the Dallas Building Code, and be at least 12 feet above grade, unless they overhang a roadway, in which case they must be at least 15 feet above grade;

(1) No banner district identification sign and its hardware may exceed 25 feet in height;

(2) No banner district identification sign and its hardware may project more than three feet from the pole on which they are mounted;

(3) A banner district identification sign and its hardware must be spaced at least 100 feet from other banner district identification signs;

(4) A banner district identification sign and its hardware may not exceed 24 square feet in effective area; and

(5) A banner district identification sign and its hardware must be made of weather-resistant and rust proof material. (Ord. Nos. 24606; 24925)

SEC. 51A-7.921. PROTECTIVE SIGNS.

(a) The occupant of a premise may erect no more than two detached protective signs in accordance with the following provisions:

(1) No sign may exceed 700 square inches in effective area.

(2) No detached sign may exceed two feet in height.

(3) No word may exceed four inches in height, unless otherwise required by law.

(b) The occupant of a premise may erect attached protective signs at each entrance to a premise in accordance with the following provisions:

(1) No sign may exceed 700 square inches in effective area.

(2) The cumulative messages may not exceed 1,300 square inches per entrance.

(3) No word may exceed four inches in height, unless otherwise required by law. (Ord. Nos. 24606; 24925)

SEC. 51A-7.922. SPECIAL PURPOSE SIGNS.

(a) Illumination. Special purpose signs may be externally or internally illuminated.

(1) Attached signs.

(A) Only one attached premise special purpose sign may be located on each facade per premise up to four times within any 12-month period as long as:

(i) the sign is maintained for no more than 45 days each time during that 12-month period;

(ii) the sign conforms to all other regulations for attached signs; and

(iii) the effective area of the sign does not exceed:

(aa) 30 percent of the building facade for an entertainment facility; or

(bb) 10 percent of the building facade for other uses.

(B) There is no limit to the number of words permitted on an attached premise special purpose sign.

(2) Detached special purpose signs are prohibited in this district. (Ord. Nos. 24606; 24925)
SEC. 51A-7.923. OTHER TEMPORARY SIGNS.

(a) In addition to the protective signs permitted under Section 51A-7.921, temporary protective signs may be erected anywhere on a construction site at anytime during construction subject to the following provisions:

(1) There is no limit on the number of temporary protective signs on a construction site.

(2) No sign may exceed 20 square feet in effective area, or eight feet in height.

(3) Temporary protective signs may be illuminated, but no lighting source may project more than three inches from the vertical surface, or six inches above the top, of the sign.

(4) All temporary protective signs must be removed upon completion of the construction.

(b) “For Sale,” “For Lease,” “Remodeling,” and “Under Construction” signs. Signs that relate exclusively to the sale, lease, remodeling, or construction of the premises on which they are located are permitted subject to the following provisions:

(1) Attached signs.

(A) There is no limit on the number of attached signs permitted.

(B) If the sign is attached to a window, the maximum effective area of the sign is 16 square feet.

(C) If the sign is attached to other portions of a facade, the maximum effective area of the sign is 32 square feet.

(2) Detached signs.

(A) Detached signs are limited to one for each 100 feet of frontage on a public street or private access easement.

(B) No detached sign may exceed 128 square feet in effective area, or 16 feet in height. (Ord. Nos. 24606; 24925)

SECS. 51A-7.924 THRU 51A-7.929. RESERVED.

SEC. 51A-7.930. SUPERGRAPHIC SIGNS.

(a) Definitions. In this section:

(1) AFFILIATE means any person who is an owner, shareholder, member, partner, agent, officer, or director of an applicant for a supergraphic sign location permit pursuant to this section or a person who has a contractual relationship with an applicant related to supergraphic signs.

(2) CENTRAL BUSINESS DISTRICT WALLSCAPE SIGN means a supergraphic sign located in the inner loop area that is neither a promotional wallscape nor a civic center wallscape.

(3) CIVIC CENTER WALLSCAPE SIGN means a supergraphic sign located on a city-owned performance venue with a minimum 1,000 person seating capacity, convention center, or library.

(4) INNER LOOP AREA means the Main Street Subdistrict, Retail Subdistrict A, Retail Subdistrict B, the Convention Center Subdistrict, and the General CBD Subdistrict.

(5) LOCATION PERMIT means a sign permit to erect a supergraphic sign in a specific location.

(6) PROMOTIONAL WALLSCAPE SIGN means a supergraphic sign that identifies or promotes a cultural activity or sporting event that significantly benefits the city.
§ 51A-7.930 Dallas Development Code: Ordinance No. 19455, as amended § 51A-7.930

(7) QUALIFIED APPLICANT means any person who has been qualified by the director to apply for a location permit.

(8) SUPERGRAPHIC SIGN means a large attached premise or non-premise sign on a mesh or fabric surface, or a projection of a light image onto a wall face without the use of lasers.

(9) WALL FACE means an uninterrupted blank plane of a wall, from vertical edge to vertical edge, from its highest edge to its lowest edge. Edges can be established by a distinct change in materials or off-set which runs across (transects) the entire wall in a straight line.

(b) Visual display and coverage.

(1) Except as provided in this paragraph, a supergraphic sign must have one large visual display with a minimum of 80 percent non-textual graphic content (no more than 20 percent text).

(A) Multiple displays giving an appearance of multiple signs are prohibited.

(B) The effective area of text is the sum of the areas within minimum imaginary rectangles of vertical and horizontal lines, each of which fully contains a word.

(C) A promotional wallscape sign may contain 10 percent text or logo related to sponsorship. The remainder of the promotional wallscape sign must promote the special event.

(2) Subject to the maximum effective area in Subsection (c), a central business district wallscape sign must cover at least 60 percent of the wall face of the building to which it is attached. The lower 10 feet of the wall face may not be covered and is disregarded in calculating the coverage area.

(3) Supergraphic signs are intended to be creative and artful and not strictly a representation of an advertised product. It is the intent of this provision to:

(A) encourage the use of illustrative images or other non-repetitive design elements;

(B) encourage visually interesting, vibrant, and colorful designs;

(C) discourage use of solid colors or repetitive design elements; and

(D) discourage an image of a single product or product logo without other graphic elements.

(4) Supergraphic signs may be internally or externally illuminated. If internally illuminated, a supergraphic sign may consist of translucent materials, but not transparent materials.

(5) No building may have more than two central business district wallscape signs. The two central business district wallscape signs must be oriented a minimum of 90 degrees from each other.

(c) Effective area. Minimum permitted effective area of a central business district wallscape sign is 2,500 square feet. This subsection controls over Paragraph (b)(2).

(d) Height. No central business district wallscape sign or civic center wallscape sign may exceed 450 feet in height. There is no maximum height for promotional wallscape signs.

(e) Number of sign locations permitted.

(1) No more than 22 central business district wallscape locations are permitted within the inner loop area.

(2) No more than four civic center wallscape locations are permitted within the inner loop area.
§ 51A-7.930 Dallas Development Code: Ordinance No. 19455, as amended

(3) No supergraphic signs are permitted outside of the inner loop area.

(f) Extensions.

(1) Except as provided in Paragraph (2), a supergraphic sign may not extend beyond the edge of the face of the building to which it is attached.

(2) A supergraphic sign may wrap around the edge of a building if:

(A) both building facades to which the supergraphic sign is attached are otherwise eligible facades; and

(B) the supergraphic sign is one continuous image.

(g) Location.

(1) A central business district wallscape sign may only be located on a blank wall face.

(2) No supergraphic sign may:

(A) cover any window or architectural or design feature of the building to which it is attached;

(B) be attached to a federal-, state-, or city-designated historic or landmark structure;

(C) be attached to a facade erected or altered after June 1, 2005;

(D) be attached to a facade on Pacific Avenue between Akard Street and Ervay Street;

(E) be attached to a facade facing Main Street Garden or Belo Garden.

(3) Except as provided in Paragraph (4), central business district wallscape signs are only permitted on parking structures or buildings with lodging, residential, retail and personal service, or office uses occupying at least 75 percent of the leasable ground floor area and an overall building occupancy of at least 50 percent of the floor area.

(4) The director may waive the requirements in Paragraph (3) for up to one year if the director determines that the building or multi-building complex is currently being redeveloped. The director may revoke this waiver if redevelopment stops or is inactive for 90 days or more.

(h) Message duration. A supergraphic sign location may not display the same message for more than four consecutive months in any 12-month period.

(i) Hardware fasteners. All hardware fasteners for a supergraphic sign must comply with the Dallas Building Code and all other ordinances, rules, and regulations of the City of Dallas.

(j) HBA signs prohibited. No supergraphic sign may be a Highway Beautification Act (HBA) sign as defined in Section 51A-7.102.

(k) Permits.

(1) Application to be a qualified applicant.

(A) An applicant shall submit an application to the director for the purpose of qualifying as an applicant. The application must include:

(i) the name, address, phone number, and other pertinent information of the applicant, and if the applicant is a business entity, the names and business addresses of the principal officers, managers, and other persons who own more than five percent of the entity; and

(ii) an affidavit stating that the applicant is in good standing with the city on all code enforcement matters related to supergraphic signs.

(B) A person may not qualify as an applicant if that person:
§ 51A-7.930 Dallas Development Code: Ordinance No. 19455, as amended

(i) has any outstanding code violations related to supergraphic signs;

(ii) has previously displayed a non-permitted supergraphic sign within the previous 12 month period; or

(iii) is an affiliate of another qualified applicant.

2) Location permit.

(A) Qualified applicants must submit a separate location permit application for each location. The director shall time stamp all applications upon receipt.

(B) The director shall review location permit applications in order of submittal. If the director determines that a location permit application is incomplete or does not meet the guidelines, the director shall reject the application and then review the next location permit application. If the initial number of location permit applications exceeds the number of location permits available, the director shall provide for a lottery to distribute the location permits.

(C) An application for a supergraphic sign location permit must contain:

(i) a memorandum of lease, sworn to by affidavit, that shows that the qualified applicant has an enforceable lease for a supergraphic location;

(ii) an affidavit stating that the property where the supergraphic sign will be located has no outstanding code enforcement matters;

(iii) a current tax certificate and affidavit stating that there are no unpaid governmental liens for the supergraphic sign location; and

(iv) an affidavit stating that the building meets the occupancy requirements in Paragraph (g)(3).

(D) Location permit holders may not be an affiliate of any other location permit holder.

(E) A person may not have more than nine pending or active location permits combined at any one time.

(F) A person shall not obtain a location permit for use by another person.

(G) A location permit expires four years after the date of issuance.

(H) The director shall revoke a location permit if the location has displayed obsolete supergraphic advertising or has been without supergraphic advertising matter for six months or more.

(I) A holder of a location permit may apply for renewal of the location permit by filing a complete application for renewal with the director no more than 180 days before the expiration of the current permit. To be eligible for a renewal of a location permit, an applicant must meet the qualification criteria under Paragraph (1).

3) Promotional wallscape signs. An application for a promotional wallscape must be supported by a resolution of the city council that recognizes the activity or event as significantly benefiting the city. A promotional wallscape may not be erected more than 60 days before the beginning of the activity or event and must be removed not later than 30 days after the activity or event has ended.

4) Review procedure. The director shall review all applications for location permits and copy change permits using the director procedure in Section 51A-7.505.

(I) Mandatory removal in 2019. All supergraphic signs must be removed on or before July 31, 2019. This section does not confer a nonconforming or vested right to maintain a supergraphic sign after
§ 51A-7.930 Dallas Development Code: Ordinance No. 19455, as amended § 51A-7.932

July 31, 2019, and all permits authorizing supergraphic signs shall automatically expire on that date.

(m) Sunset. This section expires on July 31, 2019, unless re-enacted with amendment before that date. The city plan commission and city council shall review this section before its expiration date. (Ord. Nos. 24717; 24925; 24926; 25291; 25995; 27300; 27587; 28346; 28347; 28553; 29227)

SEC. 51A-7.931. CONVENTION CENTER COMPLEX ACCENT LIGHTING.

(a) The convention center complex may have building accent lighting consisting of LED or similar technology that changes colors and brightness.

(b) Convention center complex accent lighting may display images, symbols, logos, or words that are associated with

(1) a convention or event taking place within the convention center complex or;

(2) an event or activities taking place within the Downtown Special Provision Sign District. (Ord. 28346)

SEC. 51A-7.932. AKARD STATION SUBDISTRICT.

(a) Purpose. It is the intent of this subdistrict to:

(1) create an aesthetically pleasing environment that promotes an atmosphere of vitality appropriate for a place where thousands of citizens gather for living, working, commuting, entertainment, and celebration;

(2) encourage the use of innovative, colorful, and entertaining signs, and signs that bring a distinctive character and attract people to downtown;

(3) identify and promote Akard Station as a vibrant centerpiece of ingress and egress in the heart of the Central Business District;

(4) encourage signs with a style, orientation, and location that take into consideration the high number of pedestrians and commuters expected within this district;

(5) communicate clear directions to and through the subdistrict; and

(6) promote the economic success of businesses within the subdistrict.

(b) In general. Except as provided in this section, signs must comply with the Downtown Special Provision Sign District in Division 51A-7.900. If there is a conflict between the text of this section and this division, the text of this section controls.

(c) Definitions. In this section:

(1) BUILDING IDENTIFICATION SIGN means a sign identifying a building within the subdistrict.

(2) FACADE-INTEGRATED SIGN means a sign that is part of a skin system for a portion of a building facade, has no fenestration, projects no more than 12 inches from the building facade, and the sign hardware is visually concealed from public rights-of-way.

(3) MIDDLE-LEVEL SIGN AREA means that portion of a building facade that is between the lower-level sign area and the upper-level sign area not to exceed 100 feet above grade.

(4) UPPER-LEVEL SIGN AREA means that portion of a building facade 36 feet or less from the top of a building.
§ 51A-7.932 Dallas Development Code: Ordinance No. 19455, as amended

(d) Special provisions for all signs.

(1) The maximum effective area of all signs combined is 10 percent of the total area of all building facades within this subdistrict.

(2) Permits for all signs in the Akard Station Subdistrict are subject to the director procedure in Section 51A-7.505(4).

(3) Except as otherwise limited by maximum effective areas allowed in this subdistrict, there is no maximum size or number of individual signs.

(e) Non-premise signs.

(1) Non-premise signs are only allowed on a building constructed before 1970 that contains at least 1,000,000 square feet of floor area.

(2) Non-premise signs may only be located in the middle-level sign area.

(3) Maximum total effective area of non-premise signs is 19,100 square feet. Minimum effective area of a single non-premise sign is 3,000 square feet. A message that wraps a building corner is considered one sign.

(4) Not more than 50 percent of all non-premise signage may be digital.

(5) The portion of a non-premise facade-integrated sign not devoted to building identification must be one large visual display with a minimum of 80 percent non-textual graphic content (no more than 20 percent text).

(6) A maximum of six signs may display non-premise messages at one time.

(7) No more than two non-premise signs may be displayed on a facade at one time.

(8) The same non-premise sign message may not be displayed for a period longer than 12 consecutive months.

(f) Digital signs.

(1) Digital signs must be facade-integrated signs and may only be located in the middle-level sign area.

(2) Digital signs must comply with the operational requirements for attached videoboard signs in Section 51A-7.910.

(g) HBA signs. No sign may be a Highway Beautification Act (HBA) sign as defined in Section 51A-7.102.

(h) Lower-level sign area.

(1) The total effective area for all signs in the lower-level sign area is 7,500 square feet.

(2) Premise signs located behind a window with at least 75 percent non-textual graphic content are not included in the calculation of effective area of signage within the lower-level sign area.

(3) Signs may be attached to a window or glass door and may exceed 15 percent of the area of that window or glass door or be located within the upper two-thirds of that window or glass door if the building official determines that the proposed signs do not eliminate visibility into or out of the premise. A sign authorized by this paragraph:

   (A) must be made of translucent vinyl or a similar material with at least a 65/35 perforation pattern (a maximum of 65 percent of the area is closed, a minimum of 35 percent of the area is open); and

   (B) may only have images; any text or characters on the sign are limited to 15 percent of the window area and are only permitted in the lower one-third of the window.
§ 51A-7.932 Dallas Development Code: Ordinance No. 19455, as amended

(4) Facade-integrated signs are not allowed in the lower-level sign area.

(i) Middle-level sign area.

(1) The total effective area for all signs in the middle-level sign area is 30,000 square feet.

(2) Middle-level signs must be facade-integrated signs. Facade-integrated signs may be digital signs or static signs with a light source that is not directly visible.

(3) To effectively balance the desire for significant signage and vibrancy within this subdistrict, a minimum of 1,400 square feet of effective area must display promotional messages in the Central Business District. An additional minimum of 1,500 square feet of effective area must display:

(A) promotional messages in the Central Business District, or

(B) images of artwork, historically significant buildings, or events within the city.

(4) A minimum of 1,800 square feet of the effective area of facade-integrated signs must be a building identification signage. Building identification signage may be included within or as a portion of any other sign.

(5) Digital signs are prohibited on a building facade facing Akard Street.

(6) Each new non-premise sign permit application for signs in the middle-level sign area must be submitted with a form provided by the department of sustainable development and construction detailing compliance with this section.

(j) Upper-level sign area.

(1) The total effective area for all signs in the upper-level sign area is 6,500 square feet.

(2) Facade-integrated signs are not allowed in the upper-level sign area.

(k) Signage study.

(1) Property owner or operator shall submit a signage study evaluating the types and ratio of signs in this subdistrict. The signage study must be in writing, must be submitted to the director between 60 and 90 days before December 31, 2021, and must include:

(A) a summary of all middle-level sign permit applications, including the forms submitted detailing compliance with this section; and

(B) the total number of notices of violation and citations issued by the City of Dallas for violating this section since May 27, 2015.

(2) Within 30 days after submission of the signage study, the director shall forward to the city council. If no signage study is submitted by the deadline, the director shall notify city council.

(j) Nonconforming or vested rights. This section does not confer a nonconforming or vested right to maintain a non-premise sign after the maximum period allowed for a non-premise message has expired. (Ord. 29751)
Division 51A-7.1000.
West End Historic Sign District.

SEC. 51A-7.1001. DESIGNATION OF WEST END HISTORIC SIGN DISTRICT.

(a) The West End Historic Sign District is hereby recognized as that area of the city within the boundaries described in the Exhibit A attached to Ordinance No. 30139, passed by the Dallas City Council on June 22, 2016.

(b) The Purse Building subdistrict is hereby created within the West End Historic Sign District. The boundaries of the Purse Building subdistrict are described in Exhibit B attached to Ordinance No. 30139, passed by the Dallas City Council on June 22, 2016.

(c) The Antioch Church subdistrict is hereby created within the West End Historic Sign District. The boundaries of the Antioch Church subdistrict are described in Exhibit C attached to Ordinance No. 30663, passed by the Dallas City Council on September 27, 2017. (Ord. Nos. 19455; 21404; 22112; 26027; 30139; 30663)

SEC. 51A-7.1002. PURPOSE.

The purpose of this division is to regulate the construction of new signage and alterations made to existing signage with a view towards preserving the historic nature of this district. The general objectives of this division include those listed in Section 51A-7.101 as well as aesthetic considerations to insure that new signage is of appropriate historical design and does not visually obscure significant architectural features of a building or the district in general. (Ord. Nos. 19455; 21404; 22112; 26027)

SEC. 51A-7.1003. DEFINITIONS.

In this division:

(1) BANNER means a sign attached to or applied on a strip of cloth and temporarily attached to a building or structure. Canopy signs and political flags are not banners.
(2) CANOPY SIGN means a sign attached to, applied on, or supported by a canopy or awning.

(3) FLAT ATTACHED SIGN means an attached sign projecting four or less inches from a building.

(4) GENERIC GRAPHICS means any pattern of shapes, colors, or symbols that does not commercially advertise.

(5) LOWER LEVEL SIGN means a sign partially or wholly situated below the top of the first floor windows or, if there are no first floor windows, below a point 12 feet above grade.

(6) MARQUEE means a permanent canopy projecting over the main entrance of a building. A marquee is considered to be part of the building.

(7) MARQUEE SIGN means a sign attached to, applied on, or supported by a marquee.

(8) NIGHT means the time period from one-half hour after sunset to one-half hour before sunrise.

(9) PAINTED APPLIED SIGN means a sign painted directly on to the exterior facade of a building, not including doors and windows.

(10) PROJECTING ATTACHED SIGN means an attached sign, other than a roof sign, projecting 18 or more inches from a building.

(11) PROMOTIONAL MESSAGE means a message that identifies or promotes a cultural activity or event that benefits the city. Benefit to the city is established by:

(A) use of city property in accordance with a contract, license, or permit;

(B) the receipt of city monies for the activity or event; or

(C) resolution of the city council that recognizes the activity or event as benefitting the city.

(12) ROOF SIGN means a sign that is attached by sign supports to the roof of a building.

(13) SIGN HARDWARE means the structural support system for a sign, including the fastening devices that secure a sign to a building facade or pole.

(14) THIS DISTRICT means the West End Historic Sign District.

(15) TYPE A FACADE means a facade with a total window area comprising between 30 and 50 percent (inclusive) of the total facade area.

(16) TYPE B FACADE means a facade with a total window area comprising less than 30 or more than 50 percent of the total facade area.

(17) UPPER LEVEL SIGN means a sign wholly situated above the top of the first floor windows or, if there are no first floor windows, above a point 12 feet above grade.

(18) WELCOME MESSAGE means a message that identifies and greets heads of state, foreign dignitaries, groups using city property in accordance with a contract, license, or permit, or government organizations.

(19) WINDOW ART DISPLAY means an exhibit or arrangement placed within a storefront window of a building and designed to be viewed from a street.

(20) WINDOW SIGN means a sign painted on or affixed to a window. (Ord. Nos. 19455; 21404; 22112; 26027)
SEC. 51A-7.1004. GENERAL REQUIREMENTS FOR ALL SIGNS.

(a) Pursuant to the authority of Section 51A-7.503 of this article, the rules relating to the erection of all signs in the West End Historic Sign District are as follows:

(1) No illuminated sign may contain flashing or moving elements or change its brightness, except as otherwise provided in this division.

(2) Except for a marquee sign or a sign constructed of fiberglass, no sign may be illuminated by fluorescent or back lighting. The use of indirect lighting is allowed.

(3) The use of neon and single incandescent bulbs is allowed.

(4) Except for a marquee sign, the use of plastic on the exterior of a sign is prohibited. For purposes of this provision, fiberglass is not considered to be plastic.

(5) The use of a fluorescent color on a sign is prohibited.

(6) No sign or part of a sign may move or rotate, with the exception of a wind device, the motion of which is not restricted.

(7) Except as provided in Sections 51A-7.1008 and 51A-7.1009, all signs must be premise signs or convey a noncommercial message.

(8) No sign may cover or obscure any portion of a major decorative cornice of a building.

(b) The following typestyles are suggested, but not required, for signs in this district: Americana Extra Bold, Aster Bold, Baskerville Bold, Bodoni Bold, Bookman Bold, Caslon No. 3, Cheltenham Bold, Copperplate Gothic 31, Craw Modern, Egyptian 505 Bold, Garamond Bold, Gothic 13, Goudy Extra Bold, Times Roman Bold. (Ord. Nos. 19455; 21404; 21626; 22112; 22392; 26027)

SEC. 51A-7.1005. ATTACHED SIGNS.

Pursuant to the authority of Section 51A-7.503 of this article, the rules relating to the erection of attached signs in the West End Historic Sign District are as follows:

(a) Attached signs in general.

(1) Attached signs must be securely attached.

(2) Attached signs overhanging the public way are permitted, except that no sign may project closer than two feet to the vertical plane extending through the back of a street curb.

(3) Attached signs projecting horizontally more than 18 inches from a vertical building surface are prohibited.

(4) Except for a painted applied sign or a marquee sign, no attached sign may exceed 30 square feet in effective area unless it is:

(A) attached to a building having more than six stories; and

(B) at least 36 feet above grade.

(5) An attached sign, other than a roof sign, must be mounted parallel to the facade and may not project more than six feet above the surface to which it is attached.

(b) Canopy signs.

(1) No canopy sign may:

(A) be lower than 10 feet above grade, except that a sign may be as low as eight feet above
grade if it does not project more than one-half inch from the surface of the canopy; or

(B) project vertically above the surface of the canopy or awning.

(2) The total effective area permitted for all canopy signs combined on a premise is the product obtained by multiplying 20 square feet times the number of street entrances to the premise.

(c) Flat attached signs on Type A facades.

(1) The maximum number of lower level flat attached signs permitted on a Type A facade is the sum obtained by counting all of the street entrances and first floor windows on that facade.

(2) No lower level flat attached sign on a Type A facade may exceed six feet in effective area.

(3) The maximum permitted effective area for all upper level flat attached signs combined on each Type A facade is 30 square feet.

(4) No upper level flat attached sign on a Type A facade may contain more than eight words. All words must:

(A) consist of characters eight inches or more in height; and

(B) read horizontally from left to right.

(d) Flat attached signs on Type B facades.

(1) No premise may have more than three flat attached signs on each Type B facade.

(2) No flat attached sign on a Type B facade may contain more than eight words with characters four or more inches in height. Words consisting of characters less than four inches in height may be used without limit.

(e) Marquee signs.

(1) No marquee sign may exceed 90 square feet in effective area unless it is for a theater, in which case it may not exceed 400 square feet in effective area.

(2) Marquee signs must:

(A) be parallel to the surface to which they are attached; and

(B) have a minimum height dimension of two feet.

(3) Except for a marquee sign for a theater, all words on a marquee sign must consist of changeable individual characters.

(4) Marquee signs may have flashing lights.

(5) The following provisions apply to a marquee sign for a theater:

(A) No more than 10 percent of its effective area may contain fixed characters.

(B) No more than 75 percent of its effective area may contain changeable characters.

(C) It may contain an unlimited number of words consisting of changeable characters.

(f) Painted applied signs on Type A facades.

(1) No lower level painted applied signs on a Type A facade may contain words consisting of characters more than eight inches in height.

(2) No upper level painted applied sign on a Type A facade may contain more than eight words. All words must:

(A) consist of characters eight or more inches in height; and

(B) read horizontally from left to right.
§ 51A-7.1005 Dallas Development Code: Ordinance No. 19455, as amended

(g) Painted applied signs on Type B facades.

(1) No painted applied sign on a Type B facade may contain more than eight words consisting of characters exceeding four inches in height. Words consisting of characters four or less inches in height may be used without limit.

(2) No more than 60 percent of a Type B facade may be covered by painted applied signs.

(h) Projecting attached signs.

(1) No premise may have more than one projecting attached sign per street entrance.

(2) No projecting attached sign may:

(A) exceed 20 square feet in effective area;

(B) be lower than 10 feet above grade; or

(C) project vertically above the second story or the roof of the building, whichever is lower.

(i) Window signs. No window sign may:

(1) contain words consisting of characters eight or more inches in height;

(2) have a painted background; or

(3) cover more than 25 percent of the window surface area.

(j) Roof signs.

(1) Only buildings having six or more stories may have roof signs.

(2) No more than one roof sign may be located above each facade.

(3) No roof sign may be erected on a roof:

(A) lower than the sixth story ceiling;

(B) that is not the main roof of a building; or

(C) of a penthouse.

(4) A roof sign and its sign supports may not be located within four feet of a parapet wall or the outer edge of a building.

(5) The sign supports for a roof sign must consist of open, exposed metal framing. The metal must be painted, coated, or of a material that will not rust or corrode.

(6) No roof sign may project above the roof more than one-fourth of the building height.

(7) The effective area of a roof sign may not exceed 800 square feet. (Ord. Nos. 19455; 20927; 21404; 21626; 22112; 26027)

SEC. 51A-7.1006. DETACHED SIGNS.

Pursuant to the authority of Section 51A-7.503 of this article, the rules relating to the erection of detached signs in the West End Historic Sign District are as follows:

(1) No premise which maintains an attached sign of any type may have a detached sign.

(2) No detached sign may:

(A) have an effective area greater than 12 square feet;

(B) have a total height greater than 15 feet; or

(C) be located less than five feet from a public right-of-way. (Ord. Nos. 19455; 21404; 22112; 26027)
SEC. 51A-7.1007. SPECIAL PURPOSE SIGNS.

Pursuant to the authority of Section 51A-7.503 of this article, the rules relating to the erection of special purpose signs in the West End Historic Sign District are as follows:

(a) Attached special purpose signs.

(1) Attached special purpose signs may be displayed on a premise a maximum of ten time periods in each calendar year for a maximum of 15 days per time period. No more than one attached special purpose sign may be displayed on a premise at any given time.

(2) Special purpose signs attached to a window may not cover more than 25 percent of the window surface area.

(3) No more than one banner may be displayed on a premise in each calendar year. The maximum permitted period of display is 30 consecutive days.

(b) Detached special purpose signs.

(1) No detached special purpose sign is permitted on a sidewalk less than seven feet wide. All detached special purpose signs must be placed so that a minimum seven-foot wide clear passageway is maintained for pedestrian traffic.

(2) No detached special purpose sign may:

(A) be displayed at night;

(B) be more than 30 inches from a building; or

(C) exceed a height of four feet.

(3) No more than one detached special purpose sign may be displayed on a premise at any given time. (Ord. Nos. 19455; 21404; 22112; 26027)

SEC. 51A-7.1007.1. PURSE BUILDING SUBDISTRICT.

(a) In general. Except as provided in this division, the provisions of the West End Historic Sign District apply in this subdistrict.

(b) Definitions. In this subdistrict:

(1) SUPERGRAPHIC SIGN means a large attached premise or non-premise sign on a mesh or fabric surface, or a projection of a light image onto a wall face without the use of lasers.

(2) WALL FACE means an uninterrupted blank plane of a wall, from vertical edge to vertical edge, from its highest edge to its lowest edge. Edges can be established by a distinct change in materials or off-set which runs across (transects) the entire wall in a straight line.

(c) Supergraphic sign.

(1) Number. A maximum of one supergraphic sign is permitted.

(2) Visual display and coverage.

(A) The supergraphic sign must have one large visual display with a minimum of 80 percent non-textual graphic content (no more than 20 percent text).

(i) Multiple displays giving an appearance of multiple signs are prohibited.

(ii) The effective area of text is the sum of the areas within minimum imaginary rectangles of vertical and horizontal lines, each of which fully contains a word.

(B) The supergraphic sign is intended to be creative and artful and not strictly a representation of an advertised product. It is the intent of this provision to:
§ 51A-7.1007.1 Dallas Development Code: Ordinance No. 19455, as amended

(i) encourage the use of illustrative images or other non-repetitive design elements;

(ii) encourage visually interesting, vibrant, and colorful designs;

(iii) discourage use of solid colors or repetitive design elements; and

(iv) discourage an image of a single product or product logo without other graphic elements.

(C) The supergraphic sign may be internally or externally illuminated. If internally illuminated, the supergraphic sign may consist of translucent materials, but not transparent materials.

(D) The supergraphic sign may not extend beyond the edge of the face of the building to which it is attached.

(3) Effective area. Minimum permitted effective area is 2,500 square feet. Maximum permitted effective area is 6,500 square feet.

(4) Height. The supergraphic sign may not be lower than 10 feet above grade level.

(5) Location. The supergraphic sign may only be located on the east facade of the building.

(6) Additional provisions.

(A) The supergraphic sign is intended to be compatible with the West End Historic District as determined by the Landmark Commission.

(B) All hardware fasteners for the supergraphic sign must comply with the Dallas Building Code and all other ordinances, rules, and regulations of the City of Dallas.

(C) The supergraphic sign may not be a Highway Beautification Act (HBA) sign as defined in Section 51A-7.102.

(D) The existing painted sign on the east facade must remain uncovered and visible. (Ord. Nos. 30139; 31204)

SEC. 51A-7.1007.2. ANTIOCH CHURCH SUBDISTRICT.

(a) In general. Except as provided in this division, the provisions of the West End Historic Sign District apply in this subdistrict.

(b) Definitions. In this subdistrict:

(1) SUPERGRAPHIC SIGN means a large attached premise or non-premise sign on a mesh or fabric surface, a projection of a light image onto a wall face without the use of lasers, or painted or vinyl adhesive signage.

(2) WALL FACE means an uninterrupted blank plane of a wall, from vertical edge to vertical edge, from its highest edge to its lowest edge. Edges can be established by a distinct change in materials or off-set which runs across (transects) the entire wall in a straight line.

(c) Supergraphic sign.

(1) Number. A maximum of one supergraphic sign is permitted.

(2) Visual display and coverage.
(A) The supergraphic sign must have one large visual display with a minimum of 80 percent non-textual graphic content (no more than 20 percent text).

(i) Multiple displays giving an appearance of multiple signs are prohibited.
(ii) The effective area of text is the sum of the areas within minimum imaginary rectangles of vertical and horizontal lines, each of which fully contains a word.

(B) The supergraphic sign is intended to be creative and artful and not strictly a representation of an advertised product. It is the intent of this provision to:

(i) encourage the use of illustrative images or other non-repetitive design elements;

(ii) encourage visually interesting, vibrant, and colorful designs;

(iii) discourage use of solid colors or repetitive design elements; and

(iv) discourage an image of a single product or product logo without other graphic elements.

(C) The supergraphic sign may be internally or externally illuminated. If internally illuminated, the supergraphic sign may consist of translucent materials, but not transparent materials.

(D) The supergraphic sign may not extend beyond the edge of the face of the building to which it is attached.

(3) Effective area. Minimum permitted effective area is 2,500 square feet. Maximum permitted effective area is 6,500 square feet.

(4) Height. The supergraphic sign may not be lower than 10 feet above grade level.

(5) Location. The supergraphic sign may only be located on the east facade of the building.

(6) Additional provisions.

(A) The supergraphic sign is intended to be compatible with the West End Historic District as determined by the Landmark Commission.

(B) All hardware fasteners for the supergraphic sign must comply with the Dallas Building Code and all other ordinances, rules, and regulations of the City of Dallas.

(C) The supergraphic sign may not be a Highway Beautification Act (HBA) sign as defined in Section 51A-7.102.

(D) The supergraphic sign may not display the same message for more than six consecutive months in any 12-month period.

(E) The supergraphic sign must be removed on or before September 27, 2027. This section does not confer a nonconforming or vested right to maintain a supergraphic sign after September 27, 2027, and all permits authorizing a supergraphic sign automatically expire on that date.

(d) This section expires on September 27, 2027, unless re-enacted before that date. The city plan commission and city council shall review this section.
before its expiration date. (Ord. Nos. 30663; 31203)

SEC. 51A-7.1008. BANNERS ON STREETLIGHT POLES.

Banners may be mounted on streetlight poles subject to the following regulations:

(a) A banner must display a promotional message, a welcome message, or generic graphics. No sponsorship identification is permitted on a banner.

(b) No more than 10 percent of the effective area of a banner may contain a welcome message that identifies and greets a group using city property in accordance with a contract, license, or permit.
(c) Up to 10 percent of the effective area of a banner may contain the words or logos that identify a sponsor of a cultural event or activity if the sponsor’s name is part of the name of the activity or event.

(d) A banner having either a promotional message or a welcome message may not be erected more than 90 days prior to the beginning of the advertised activity or event, and must be removed no later than 15 days after that activity or event has ended. The sign hardware for a banner may be left in place between displays of a banner.

(e) A banner and its sign hardware must:

1. be mounted on a streetlight pole;
2. meet the sign construction and design standards in the Dallas Building Code;
3. be at least 12 feet above grade, unless it overhangs a roadway, in which case it must be at least 15 feet above grade;
4. be made out of weather-resistant and rust-proof material;
5. not project more than three feet from the pole onto which it is mounted; and
6. not exceed 20 square feet in effective area.

(f) If a banner overhangs the public right-of-way, a license must be obtained in accordance with the requirements of the City Charter and the Dallas City Code.

(g) No sign permit or certificate of appropriateness is required to erect or remove a banner. (Ord. Nos. 21404; 22112; 26027)

SEC. 51A-7.1009. WINDOW ART DISPLAYS IN VACANT BUILDINGS.

Window art displays on the ground floor of a vacant building are allowed subject to the following regulations:

(a) A window art display may contain only a promotional message, generic graphics (including three-dimensional artifacts), or messages identifying the sponsor of the display.

(b) Window signs in a window art display may not:

1. cover more than 25 percent of the surface area of a window;
2. contain a logo or word that has any character that exceeds five inches in height;
3. advertise a specific product or service other than the cultural event or activity; or
4. have more than 10 percent or four square feet, whichever is less, of its effective area devoted to sponsorship identification.

(c) No sign permit or certificate of appropriateness is required to erect or remove a window art display. (Ord. Nos. 21404; 22112; 26027)
§ 51A-7.1010 Dallas Development Code: Ordinance No. 19455, as amended § 51A-7.1101

SEC. 51A-7.1010. SIGN PERMIT REQUIREMENT.

Pursuant to the authority of Section 51A-7.503 of this article, the sign permit requirements for signs in the West End Historic Sign District are as follows:

(1) Except as provided in Sections 51A-7.1008 and 7.1009, a person shall not alter, place, maintain, expand, or remove a sign in the West End Historic Sign District without first obtaining a sign permit from the city.

(2) The procedure for obtaining a sign permit is outlined in Section 51A-7.505 of this article. Section 51A-7.602(a) and (c) of this article does not apply to signs in the West End Historic Sign District.

(3) A person who violates Paragraph (1) above is guilty of a separate offense for each day or portion of a day during which the violation is continued. (Ord. Nos. 19455; 21404; 22112; 26027; 29208)

SEC. 51A-7.1011. NONDISCRIMINATION BETWEEN NONCOMMERCIAL MESSAGES.

Notwithstanding any other provision of this division, any sign that may display a type of noncommercial message may display in place of that message any other type of noncommercial message, so long as the sign complies with other requirements of this article and other ordinances that do not pertain to the content of the message displayed. (Ord. Nos. 21404; 22112; 26027)

SEC. 51A-7.1101. DESIGNATION OF UPTOWN SIGN DISTRICT.

A special sign provision district is hereby created to be known as the Uptown Sign District. For purposes of this division, the Uptown Sign District of the City of Dallas is that area of the city within the following described boundaries:

Being a tract or parcel of land situated in the John Grigsby Survey, Abstract No. 495 and being part of City of Dallas Blocks 2/929, J/929, I/929, 1/942, 5/944, 948, I/949, 949, 3/950 and all of Blocks A/540, 3/929, 2/933, 3/933 and 2/948 and also being part of the following dedicated streets: Yeargan Street, Leonard Street, Howell Street, Bookout Street, Maple Avenue, McKinney Avenue, Pearl Street, McKinnon Street, and the North Dallas Tollway and being more particularly described as follows:

BEGINNING at a point for corner in the centerline of Leonard Street (50 feet wide), said point being North 45°11’10" West, a distance of 243.15 feet from the intersection of the centerline of Thomas Avenue (variable width) and the centerline of said Leonard Street;

THENCE South 44°E 50’21” West, a distance of 68.00 feet to a point for corner;

THENCE South 14°E 42’00” West, a distance of 243.37 feet to a point for corner;

THENCE South 45°11’00” West, a distance of 269.95 feet to a point for corner in the centerline of North Pearl Street (variable width) and the beginning of a curve to the left;

THENCE in a northwesterly direction along said centerline of North Pearl Street and along said curve to the left whose chord bears North 50°55’28” West, and
having a radius of 547.63 feet, a central angle of 16°06'58" and an arc length of 154.04 feet to a point for corner in the centerline of McKinney Avenue (60 feet wide) and the end of said curve to the left;

THENCE South 15°00'00" West along the centerline of McKinney Avenue, a distance of 106.93 feet to a point for corner;

THENCE South 89°15'32" West, a distance of 667.47 feet to a point for corner in the centerline of Cedar Springs Road (variable width);

THENCE North 03°02'00" West along the centerline of Cedar Springs Road, a distance of 149.72 feet to a point for corner in the centerline of said Pearl Street;

THENCE South 82°27'00" West along the centerline of Pearl Street and along the centerline of the North Dallas Tollway (variable width), a distance of 122.00 feet to a point for corner and the beginning of a curve to the right;

THENCE in a northwesterly direction continuing along the centerline of said Dallas North Tollway and along said curve to the right having a radius of 124.57 feet, a central angle of 51°00'00" and an arc length of 110.88 feet to a point for corner and the end of said curve to the right;

THENCE North 46°33'00" West continuing along the centerline of said Dallas North Tollway, a distance of 207.54 feet to a point for corner in the centerline of Yeargan Street (variable width);

THENCE North 42°06'27" East along the centerline of Yeargan Street, a distance of 94.48 feet to a point for corner;

THENCE North 0°31'00" West continuing along the centerline of said Yeargan Street, passing at 224.36 feet the centerline of North Pearl Street (50 feet wide) and at 555.72 feet the centerline of Bookout Street to the east (33 feet wide) and continuing a total distance of 577.98 feet to a point for corner in the centerline of Bookout Street to the west (50 feet wide);
THENCE North 44°21'00" East, a distance of 20.50 feet to a point for corner;

THENCE South 45°39'00" East, a distance of 516.07 feet to a point for corner in the centerline of said McKinney Avenue;

THENCE North 15°00'00" East along the centerline of said McKinney Avenue, a distance of 21.49 feet to a point for corner in the centerline of said Leonard Street;

THENCE South 45°11'10" East along the centerline of said Leonard Street, a distance of 355.51 feet to the POINT OF BEGINNING and containing 36.76 acres of land. (Ord. Nos. 19649; 20037; 20378)

SEC. 51A-7.1102. PURPOSE.

The purpose of this division is to regulate both the construction of new signs and the alterations of existing signs with a view towards enhancing, preserving and developing the unique character of this district. The general objectives of this division include those listed in Section 51A-7.101 as well as aesthetic considerations to insure that signs are appropriate to the architecture of the district, do not obscure significant architectural features of its buildings, and lend themselves to the developing character of the area. (Ord. Nos. 19649; 20037)

SEC. 51A-7.1103. DEFINITIONS.

In this division:

(a) ARCADE means any walkway which is attached to a building and not fully enclosed on all sides, covered with a roof structure having the primary function of weather protection and which is not structural to the building itself.

(b) BANNER means a sign attached to or applied on a strip of cloth and temporarily attached to a building or structure. Canopy signs and political flags are not banners.

(c) CANOPY SIGN means a sign attached to, applied on, or supported by a canopy or awning.

(d) FLAT ATTACHED SIGN means an attached sign projecting from a building and parallel to the building facade.

(e) LOWER LEVEL SIGN means a sign partially or wholly situated below the top of the first floor windows or below a point 16 feet above grade, whichever is lower.

(f) MARQUEE means a permanent canopy projecting over the main entrance of a building. A marquee is considered to be part of the building.

(g) MARQUEE SIGN means a sign attached to, applied on, or supported by a marquee.

(h) PAINTED APPLIED SIGN means a sign painted directly onto the exterior facade of a building, not including doors or windows.

(i) PROJECTING ATTACHED SIGN means an attached sign projecting from a building.

(j) THIS DISTRICT means the Uptown Sign District.

(k) TYPE A FACADE means a facade with a total window area comprising between 20 to 50 percent (inclusive) of the total facade area.

(l) TYPE B FACADE means a facade with a total window area comprising less than 20 or more than 50 percent of the total facade area.

(m) UPPER LEVEL SIGN means a sign wholly situated above the top of the first floor windows or above a point 16 feet above grade, whichever is lower.

(n) WINDOW SIGN means a sign painted or affixed onto a window. (Ord. Nos. 19649; 20037)
SEC. 51A-7.1104. SPECIAL PROVISIONS FOR ALL SIGNS.

(a) Pursuant to the authority of Section 51A-7.503 of this article, the rules relating to the erection of all signs in the Uptown Sign District are expressly modified as follows:

(1) No illuminated sign may contain flashing or moving elements or change its brightness, except as otherwise provided in this division.

(2) Signs may be illuminated by fluorescent back lighting or indirect lighting.

(3) The use of neon or single incandescent bulbs is allowed.

(4) The use of fiberglass as a sign material is allowed.

(5) The use of plastic as an exterior face of a sign is prohibited. Plastic may be used as a backing for routed letters in a sign can or as decorative ornaments.

(6) The use of fluorescent color on a sign is prohibited.

(7) No sign or part of a sign may move or rotate, with the exception of a wind device, the motion of which is not restricted.

(b) The following typestyles are suggested, but not required, for signs in this district: Americana Extra Bold, Aster Bold, Avante Garde, Baskerville Bold, Bookman Bold, Caslon No. 3, Century Bold Condensed, Cheltenham Bold, Univers 67. (Ord. Nos. 19649; 20037)

SEC. 51A-7.1105. SPECIAL PROVISIONS FOR ATTACHED SIGNS.

Pursuant to the authority of Section 51A-7.503 of this article, the rules relating to the erection of attached signs in the Uptown Sign District are expressly modified as follows:

(a) Attached signs in general.

(1) Attached signs must be securely attached.

(2) Attached signs projecting horizontally and either parallel or perpendicular to a building facade are permitted except no sign can extend above the highest point of the building roof.

(3) Attached signs overhanging the public right-of-way are permitted except that no sign may project closer than two feet to the vertical plane extending through the back of a street curb.

(4) Attached signs projecting horizontally more than 8 inches but less than 18 inches from a vertical building surface are prohibited.

(5) No attached sign other than a painted applied sign, an upper level flat attached sign, a marquee sign, or a banner may exceed 30 square feet in effective area.

(6) Projecting attached signs may have one double faced copy area which is perpendicular to the building facade.

(7) Attached signs may be placed above an arcade.

(8) Banner signs may be constructed of either synthetic or natural cloth.

(b) Canopy signs.

(1) No canopy sign may:

(A) project horizontally more than two inches from the surface of the canopy or awning;

(B) be lower than 10 feet above grade, except that a sign may be as low as eight feet above grade if it does not project more than one-half inch from the surface of the canopy; or
(C) project vertically above the surface of the canopy or awning.

(2) The total effective area permitted for all canopy signs combined on a facade is the product obtained by multiplying 20 square feet times the number of street entrances to the premise.

(3) The maximum size of each canopy sign is limited to 30 square feet.

(c) Flat attached signs on Type A facade.

(1) No flat attached sign may project more than eight inches from a building.

(2) The maximum number of lower level flat attached signs permitted on Type A facade is the sum obtained by multiplying two times the number of street entrances on that facade.

(3) No lower level flat attached sign on a Type A facade may contain more than eight words. All words must:

(A) consist of characters eight inches or less in height; and

(B) read horizontally from left to right.

(4) The maximum size of a lower level flat attached sign on Type A facade is limited to eight square feet.

(5) No premise may have more than one upper level flat attached sign per street entrance.

(6) No upper level flat attached sign on a Type A facade may contain more than eight words. All words must:

(A) consist of characters four inches or more in height; and

(B) read horizontally from left to right.

(d) Flat attached signs on Type B facades.

(1) No flat attached sign may project more than eight inches from a building.

(2) No premise may have more than one flat attached sign on each Type B facade.

(3) No flat attached sign on any Type B facade may contain more than eight words with characters four or more inches in height. Words consisting of characters less than four inches in height may be used without limit.

(e) Marquee signs.

(1) No marquee sign may exceed 90 square feet in effective area.

(2) Marquee signs must:

(A) be parallel to the surface to which they are attached; and

(B) have a minimum height dimension of two feet.

(3) All words on a marquee sign must consist of changeable individual characters.

(4) Marquee signs may have flashing lights.

(5) The maximum number of marquee signs shall be limited to one per facade.

(f) Projecting attached signs.

(1) Projecting attached signs on any facade must be 16 feet apart measured in any direction.

(2) No projecting attached sign may:

(A) exceed 20 square feet in effective area of the face of the sign;

(B) be lower than 10 feet above grade;
§ 51A-7.1105 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-7.1107

(C) project vertically above the third level window sill or 32 feet above grade whichever is less;

(D) project vertically above the highest surface of the building roof; or

(E) project less than 18 inches from a building.

(g) Window signs.

(1) No window sign may:

   (A) contain words consisting of characters more than eight inches in height;

   (B) cover more than 25 percent of the window surface area; or

   (C) be affixed to the window by tape.

(2) A window sign may be hand painted or silk screened onto a window, or made of self-adhesive vinyl. (Ord. Nos. 19649; 20037)

SEC. 51A-7.1106. SPECIAL PROVISIONS FOR DETACHED SIGNS.

Pursuant to the authority of Section 51A-7.503 of this article, the rules relating to the erection of detached signs in the Uptown Sign District are expressly modified as follows:

(a) No detached sign may:

   (1) have an effective area greater than 120 square feet;

   (2) have a total height greater than 15 feet; or

   (3) be located less than five feet from a public right-of-way.

(b) The maximum number of signs permitted shall be one for every 220 linear feet of frontage on the public right-of-way, or fraction thereof. (Ord. Nos. 19649; 20037)

SEC. 51A-7.1107. SPECIAL PROVISIONS FOR NON-PREMISE DETACHED SIGNS IN THE PUBLIC RIGHT-OF-WAY.

Pursuant to the authority of Section 51A-7.503 of this article, the rules relating to the erection of non-premise detached signs in the Uptown Sign District are expressly modified as follows:

(a) Non-premise detached signs may be located within the public right-of-way subject to the franchise requirements of Chapter XIV of the city charter, Article VI of Chapter 43 of the Dallas City Code, as amended, and the requirements of this section.

(b) Non-premise detached signs may be located in the public right-of-way only when the distance from the back of the curb to the property line is 13 feet or greater.

(c) Non-premise detached signs may be placed in the public right-of-way only within five feet of a motor vehicle entrance to a premise shared by two or more uses whose front doors are not visible from the street.

(d) Signs erected pursuant to this section must identify use categories and not particular business establishments. Examples of permitted messages are: “OFFICES”, “SHOPS”, “PARKING”, “RESTAURANTS”, “HOTEL”, alone or in combination. Signs that say “EXIT” or “ENTRANCE” are also permitted.

(e) No more than two signs may be erected pursuant to this section at each motor vehicle entrance to a premise.
§ 51A-7.1107 Dallas Development Code: Ordinance No. 19455, as amended

(f) No non-premise detached sign may contain more than eight words. All words must:

(1) consist of characters eight inches or less in height; and

(2) read horizontally from left to right.

(g) No non-premise detached sign located within the public right-of-way may:

(1) have an effective area greater than four square feet;

(2) have a total height of greater than two feet, six inches;

(3) be located less than five feet from the back of a street curb;

(4) be located so as to obstruct sidewalk passage;

(5) be located within a visibility triangle as defined in this chapter;

(6) interfere with utilities or traffic signage and signals;

(7) contain the colors red or green; or

(8) be spot lit or directly lit from outside the sign.

(h) Plants must be kept trimmed so as to clearly expose non-premise detached signs in the public right-of-way. (Ord. Nos. 19649; 20037)

SEC. 51A-7.1108. SPECIAL PROVISIONS FOR SPECIAL PURPOSE SIGNS.

Pursuant to the authority of Section 51A-7.503 of this article, the rules relating to the erection of special purpose signs in the Uptown Sign District are expressly modified as follows:

(a) Attached or window special purpose signs.

(1) Attached special purpose signs may be displayed on a premise a maximum of three 30 day time periods and one 45 day time period in each calendar year. No more than one attached special purpose may be displayed on a facade at any given time.

(2) Window special purpose signs may be displayed on a premise a maximum of three 30 day time periods and one 45 day time period in each calendar year. No more than one attached special purpose sign may be displayed on a window at any given time.

(3) No more than 25 percent of a window surface may be covered by either window signs or special purpose window signs, alone or in combination.

(4) The size of an attached or window special purpose sign is limited to 30 square feet.

(5) A window special purpose sign may not be affixed to a window by tape.

(b) Detached special purpose signs.

(1) Detached special purpose signs may be displayed on a premise a maximum of three 30 day time periods and one 45 day time period in each calendar year.

(2) The maximum number of detached special purpose signs permitted on a premise at any given time is the sum obtained by counting all of the street entrances onto that premise, and multiplying by two.

(3) No detached special purpose sign may:

(A) exceed eight feet in height;

(B) contain more than eight words;

(C) be mounted on wheels;
(D) be a trailer sign with changeable copy; or

(E) contain flashing or blinking lights. (Ord. Nos. 19649; 20037)

SEC. 51A-7.1109. SIGN PERMIT REQUIREMENT.

Pursuant to the authority of Section 51A-7.503 of this article, the sign permit requirements for signs in the Uptown Sign District are expressly modified as follows:

(a) A person shall not alter, place, maintain, expand, or remove a sign in the Uptown Sign District without first obtaining a sign permit from the city.

(b) The procedure for obtaining a sign permit is outlined in Section 51A-7.505 of this article. Section 51A-7.602 of this article does not apply to signs in the Uptown Sign District.

(c) A person who violates Subsection (a) is guilty of a separate offense for each day or portion of a day during which the violation is continued.

(d) The erection of signs within the public right-of-way, as specified herein, is permitted if the owner of the land as well as the owner of the improvements agree in writing, prior to the issuance of a permit, that the signs will be removed at no expense to the city upon notice from the city that the street is to be widened or the license with the city is terminated or expires, whichever occurs first. (Ord. Nos. 19649; 20037)

SEC. 51A-7.1201. DESIGNATION OF ARTS DISTRICT SIGN DISTRICT.

(a) A special provision sign district is hereby created to be known as the Arts District Sign District. For purposes of this article, the boundaries of the Arts District Sign District are described in the Exhibit A attached to Ordinance No. 30731, passed by the Dallas City Council on December 13, 2017.

(b) Subdistrict A is hereby created within the Arts District Sign District. For the purposes of this division, Subdistrict A is the area bounded by Flora Street to the northwest, Leonard Street to the northeast, Ross Avenue to the southeast, and Crockett Street to the southwest and more particularly described in the Exhibit A attached to Ordinance No. 30731, passed by the Dallas City Council on December 13, 2017.

(c) Subdistrict B is hereby created within the Arts District Sign District. For the purposes of this division, Subdistrict B is the area bounded by Woodall Rodgers Freeway to the northwest, Crockett Street to the northeast, Munger Avenue to the southeast, and Pearl Street to the southwest, and more particularly described in the Exhibit A attached to Ordinance No. 30731, passed by the Dallas City Council on December 13, 2017.

(d) Subdistrict C is hereby created within the Arts District Sign District. For the purposes of this division, Subdistrict C is the area bounded by Flora Street to the northwest, Olive Street to the northeast, Ross Avenue to the southeast, and Harwood Street to the southwest, and more particularly described in Exhibit A attached to Ordinance No. 31079, passed by the Dallas City Council on December 12, 2018.

(e) The property described in Subsection (a), which was formerly part of the Downtown Special Provision Sign District, is no longer considered to be part of that district. This division completely supersedes Division 51A-7.900 with respect to the property described in Subsection (a). (Ord. Nos. 20345; 28471; 30731; 31079)

SEC. 51A-7.1202. PURPOSE.

The Dallas Arts District (Planned Development District No. 145) was established by Ordinance No. 17710, which was passed by the Dallas City Council on February 16, 1983. This approximately 17-block, 60-acre area in the northeast section of the central business district represents a concerted effort on the part of the city and arts organizations to consolidate major art institutions in one mixed-use area.

The guideline for development in the Arts District is an urban design plan known as the “Sasaki Plan.” This plan is based on district-wide design and land use concepts, which include the creation of a pedestrian-oriented environment and a distinctive visual image for the district. Flora Street is defined as the major pedestrian spine and focus of development in the district. As a wide, tree-lined environment, Flora Street connects three subdistricts (Museum Crossing, Concert Lights, and Fountain Plaza) and provides continuity in a development framework for public institutions and private owners.

The sign regulations in this division have been developed with the following objectives in mind:

(1) To protect the character of Flora Street and the Arts District from inappropriate signs in terms of number (clutter), size, style, color, and materials.

(2) To enhance the image and liveliness of the Arts District by encouraging compatible signs that are colorful, decorative, entertaining, and artistic in style, while being functional and informative in purpose.

(3) To promote the commercial success of each individual tenant in the Arts District and, in turn, the commercial success of all the tenants in the district collectively.

(4) To create a sense of design uniformity between signs and the other streetscape elements of the Arts District.

(5) To help make the Arts District an attractive place for the public to frequent by providing ease of direction to specific cultural institutions.

(6) To create a means of identifying the various types or categories of retail establishments along Flora Street.

(7) To identify and promote cultural events and activities consistent with the purposes of the Arts District.

(8) To recognize that sign hardware is a part of the overall visual design of a sign, and to ensure that investments in signs and other structures in the Arts District are not devalued by inappropriate or poor quality sign hardware. (Ord. 20345)

SEC. 51A-7.1203. DEFINITIONS.

(a) In this division:

(1) ARTS DISTRICT means Planned Development District No. 145 (the Dallas Arts District).

(2) ARTS DISTRICT OFFICIAL LOGO means the official logo of the Arts District as depicted in Exhibit A, which is attached to Ordinance No. 20345, passed by the Dallas City Council on June 14, 1989.

(3) AWNING SIGN means a sign that is or appears to be part of an awning.

(4) BLOCK means an area bounded by streets on all sides.
(5) BLOCKFACE means all of the lots on one side of a block.

(6) BUILDING CORNICE AREA means that portion of a building facade above the highest story, but below the actual roof structure.

(7) BUILDING IDENTIFICATION SIGN means any sign composed of one or more characters that identify a specific building’s name.

(8) CANOPY means a permanent non-fabric architectural element projecting from the face of a building.

(9) CANOPY FASCIA SIGN means a sign with a digital display that is attached to, applied on, or supported by the fascia or soffit of a canopy.

(10) CBD STREETSCAPE PLAN means the Dallas Central Business District Streetscape Guidelines approved by the Dallas City Council on April 15, 1981, by Resolution No. 81-1118.

(11) CHARACTER means a symbol, as a letter or number, that represents information.

(12) CONSTRUCTION BARRICADE SIGN means a sign that is affixed to a construction barricade.

(13) CULTURAL INSTITUTION means any facility used primarily for the visual or performing arts; open to the public, such as a museum, concert hall, theater, or similar facility; and established by a public or philanthropic entity.

(14) CULTURAL INSTITUTION DIGITAL SIGN means a monument sign with a digital display that identifies the cultural institution; the district; a sponsor of the cultural institution, district, or arts organization; or an arts organization such as a symphony, dance troupe, or theater group that uses that cultural institution.

(15) CULTURAL INSTITUTION IDENTIFICATION SIGN means a premise sign that identifies the cultural institution or the primary arts organization such as a symphony, dance troupe, or theater group that uses that cultural institution.

(16) DETACHED PREMISE SIGN means a sign that is both a detached sign and a premise sign as defined in Section 51A-7.102.

(17) FLAT ATTACHED SIGN means an attached sign projecting four inches or less from a building.

(18) FLORA STREET FRONTAGE AREA means the "Flora Street Frontage Area" as defined in the Arts District PD ordinance (Ordinance No. 17710, as amended).

(19) FREESTANDING IDENTIFICATION SIGN means a monument sign that identifies the cultural institution; the district; a sponsor of the cultural institution, district, or arts organization; or an arts organization such as a symphony, dance troupe, or theater group that uses that cultural institution.

(20) GENERIC RETAIL IDENTIFICATION SIGN means a sign identifying a type or category of retail establishment without identifying a specific establishment.

(21) GOVERNMENTAL TRAFFIC SIGN means a sign, signal, or other traffic control device installed by a governmental agency for the purpose of regulating, warning, or guiding vehicular or pedestrian traffic on a public highway. Examples of these signs include stop signs, one-way signs, no parking signs, and electronic pedestrian and vehicular signalization devices and their fixtures.

(22) INSTITUTIONAL MOVEMENT INFORMATION SIGN means a sign showing the location of or route to a specific cultural institution or a parking area serving that institution.
§ 51A-7.1203 Dallas Development Code: Ordinance No. 19455, as amended

(23) INTEGRATED SIGN means a premise sign within Subdistrict A, Subdistrict B, or Subdistrict C that is integrated into the design of the building and may be a monument sign.

(24) KIOSK means a small structure with one or more open sides used to display artwork or temporary signs.

(25) MARQUEE SIGN means a sign attached to, applied on, or supported by a permanent canopy projecting over a pedestrian street entrance of a building, and consisting primarily of changeable panels, words, or characters.

(26) MONUMENT SIGN means a detached sign applied directly onto a grade level support structure (instead of a pole support) with no separation between the sign and grade.

(27) PLAQUE means a permanent tablet, the contents of which are either commemorative or identifying.

(28) PREMISE means the entire Arts District Sign District land area as defined in 51A-7.1201(a).

(29) PRIVATE SIGNS means those signs that are not "public signs" as defined in this section.

(30) PROJECTING ATTACHED SIGN means an attached sign projecting more than four inches from a building.

(31) PROMOTIONAL SIGN means a sign that promotes a cultural event or activity.

(32) PUBLIC SIGNS means governmental traffic signs, institutional movement control signs, generic retail identification signs, promotional signs, or plaques as defined in this section.

(33) RESTAURANT/RETAIL IDENTITY SIGN means an attached premise sign located on a building in Subdistrict B or Subdistrict C that has a restaurant, retail, or personal service use located on the ground floor and that identifies that specific restaurant, retail, or personal service tenant.

(34) SASAKI PLAN means the urban design plan prepared by Sasaki Associates, Inc. in August, 1982 to serve as the guideline for development in the Dallas Arts District. The Sasaki Plan is attached to and made a part of the Arts District PD ordinance (Ordinance No. 17710, as amended).

(35) SIGN HARDWARE means the structural support system for a sign, including the fastening devices that secure a sign to a building facade or pole.

(36) SPONSORSHIP CONTENT means goods and services sold by the sponsor of the cultural institution, district, or arts organization whether sold on or off the premises.

(37) TENANT IDENTITY SIGN means an attached premise sign within Subdistrict A or Subdistrict B located on a building that is primarily used for office uses that identifies a specific office tenant.

(38) THIS DISTRICT means the Arts District Sign District.

(39) WINDOW SIGN means a sign temporarily or permanently attached to, applied on, or supported by a window.

(b) Except as otherwise provided in this section, the definitions contained in Sections 51A-2.102 and 51A-7.102 apply to this division. In the event of a conflict, this section controls. (Ord. Nos. 20345; 26768; 28071; 28471; 30731; 31079)

SEC. 51A-7.1204. ARTS DISTRICT SIGN PERMIT REQUIREMENT.

(a) A person shall not alter, place, maintain, expand, or remove a sign in this district without first obtaining a sign permit from the city, except that no sign permit is required for:
§ 51A-7.1204 Dallas Development Code: Ordinance No. 19455, as amended

(1) governmental traffic signs; and

(2) promotional signs other than banners.

(b) The procedure for obtaining a sign permit is outlined in this section. Section 51A-7.602 does not apply to signs in this district.

(c) No sign permit may be issued to authorize a sign in this district unless the director has first issued a certificate of appropriateness in accordance with this section.

(d) There is hereby created a committee to be known as the Arts District Sign Review Committee ("the committee"). The committee shall be composed of five members appointed by the city plan commission. One member of the committee must be an architect or graphic designer. The commission shall solicit a list of nominees from entities operating in the Arts District. Appointments to the committee shall be for a term of two years ending on September 1 of each odd-numbered year, and the members shall serve without compensation. The commission may appoint up to three alternate members to the committee who serve in the absence of one more regular members when requested to do so by the chairperson or by the city manager. The alternate members serve for the same period and are subject to removal the same as regular members. The commission shall fill vacancies occurring in the alternate membership the same as in the regular membership.

(e) The committee shall meet upon the call of the chair or a simple majority of the committee members. A simple majority of members present shall constitute a quorum, and issues shall be decided by a simple majority vote of the members present. The department shall furnish staff support to the committee.

(f) The function of the committee shall be to familiarize itself thoroughly with the character, special conditions, and economics of the Arts District. In addition, the committee shall provide guidance, advice, and assistance to the director in reviewing applications for permits to authorize signs in this district.

(g) Section 51A-7.504, which establishes the special sign district advisory committee for special provision sign districts in the city generally, does not apply to this district. The Arts District Sign Review Committee is the exclusive advisory committee for reviewing and making recommendations to the director concerning applications for permits to authorize signs in this district.

(h) Upon receipt of an application for a permit to authorize a sign in this district, the building official shall refer the application and plans to the director for a review to determine whether the work complies with this ordinance. The director shall conduct his or her review so that a decision on issuance of the permit can be made within 30 calendar days from the date the completed application is submitted to the building official.

(i) The director shall solicit a recommendation from the committee before making a decision to approve or disapprove a certificate of appropriateness. The recommendation of the committee is not binding upon the director, and the director may decide a matter contrary to the recommendation of the committee.

(j) A decision by the director to grant a certificate of appropriateness may be appealed by the committee only. A decision to deny the certificate may be appealed by either the applicant or the committee. An appeal is made by filing a written request with the director for review by the city plan commission. An appeal must be made within 10 days after notice is given to the applicant of the director’s decision. In considering the appeal, the sole issue shall be whether or not the director erred in making the decision, and, in this connection, the commission shall consider the same standards that were required to be considered by the director in making the decision. Decisions of the commission are final as to available administrative remedies and are binding on all parties.

(k) If the city plan commission fails to make a decision on an appeal by the applicant within 30 calendar days of the date the written request for an appeal is filed, the director shall conduct a hearing in accordance with Rule 100-01.7 of the City Development Code and make a decision which shall be binding on all parties.

(586)
Dallas City Code
1/19
appeal is filed with the director, the application shall be considered approved subject to compliance with all other applicable city codes, ordinances, rules, and regulations.

(l) A person who violates Subsection (a) or any other provision in this division is guilty of a separate offense for each day or portion of the day during which the violation is continued. (Ord. Nos. 20345; 20927; 25047; 28073)

SEC. 51A-7.1205. SPECIAL PROVISIONS FOR ALL SIGNS.

(a) This division does not apply to signs that are not visible from outside the premise on which they are located.

(b) Signs in this district are permitted in or overhanging the public way subject to city franchise requirements.

(c) Except in Subdistrict A, Subdistrict B, and Subdistrict C, no sign may obscure a window or a significant architectural element of a building.

(d) Sign hardware may be visible if its structural elements have been specifically devised for their intrinsic contribution to an overall visual effect. Utilitarian hardware intended only for functional purposes must be concealed from normal view.

(e) Mounting devices supporting a projecting attached sign must be fully integrated with the overall design of the sign.

(f) Materials, fasteners, and anchors used to manufacture and install signs must be resistant to corrosion.

(g) Paints and coatings must contain a UV inhibitor to retard the discoloration and fading effects of ultraviolet light. In addition to finish coats, bare metals must have a primer coat or other surface pretreatment as recommended by the paint or coating manufacturer.

(h) Electrical power required for signs must be supplied by means of concealed conduit from an appropriate power source to the sign in accordance with city codes and accepted practices of the trade. Electrical disconnects, transformers, and related apparatus, including wiring and conduit, must be concealed from normal view.

(i) No signs may be illuminated by an independent external light source.

(j) Burned out or defective lights in signs must be replaced within a reasonable time. Failure to comply with this provision may result in sign permit revocation.

(k) Banners are only allowed as promotional signs. (Ord. Nos. 20345; 28471; 30731; 31079)

SEC. 51A-7.1205.1. OPERATIONAL REQUIREMENTS FOR SIGNS WITH DIGITAL DISPLAYS.

(a) Display. All signs with digital display:

(1) must contain a default mechanism that freezes the image in one position in case of a malfunction;

(2) must automatically adjust the sign brightness based on natural ambient light conditions in compliance with the following formula:

(A) the ambient light level measured in luxes, divided by 256 and then rounded down to the nearest whole number, equals the dimming level; then

(B) the dimming level, multiplied by .0039 equals the brightness level; then

(C) the brightness level, multiplied by the maximum brightness of the specific sign measured in nits, equals the allowed sign brightness, measured in nits. For example:
§ 51A-7.1205.1 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-7.1206

(3) may not display light of such intensity or brilliance to cause glare, impair the vision of an ordinary driver, or constitute a nuisance;

(4) must have a full color display able to display a minimum of 281 trillion color shades; and

(5) must be able to display a high quality image with a minimum resolution equivalent to the following table:

<table>
<thead>
<tr>
<th>Size of LED Panel</th>
<th>Maximum Pixel Size</th>
</tr>
</thead>
<tbody>
<tr>
<td>100 s/f to 125 s/f</td>
<td>16 mm</td>
</tr>
<tr>
<td>Greater than 126 s/f</td>
<td>19 mm</td>
</tr>
</tbody>
</table>

(b) Light intensity. Before the issuance of a sign permit for a sign with a digital display, the applicant shall provide written certification from the sign manufacturer that:

(1) the light intensity has been factory programmed to comply with the maximum brightness and dimming standards in the formula in Subparagraph (a)(2); and

(2) the light intensity is protected from end-user manipulation by password-protected software, or other method satisfactory to the building official.

(c) Change of message. Except as provided in this section, changes of message must comply with the following:

(1) Each message must be displayed for a minimum of eight seconds.
and consist of three pairs of signs, with the second and third pairs being located immediately below the first pair.

(b) Governmental traffic signs.

(1) This subsection applies only to governmental traffic signs as defined in Section 51A-7.1203.

(2) Notwithstanding any other provision in this division, these signs must comply with applicable statutory specifications.

(3) On Flora and Crockett Streets these signs must be mounted on streetlight poles, or on white cylindrical poles. On other streets they must be mounted on white cylindrical poles or on other fixtures recommended in the CBD Streetscape Plan.

(4) The backs of these signs must be white in color.

(c) Institutional movement information signs.

(1) This subsection applies only to institutional movement information signs as defined in Section 51A-7.1203.

(2) On Flora and Crockett Streets these signs must be mounted on streetlight poles, or on white cylindrical poles. On other streets they must be mounted on white cylindrical poles or on other fixtures recommended in the CBD Streetscape Plan.

(3) The backs of these signs must be white in color and incorporate the Arts District official logo.

(d) Plaques. Plaques must be made of bronze or stone and contain an inscription that relates to the Arts District.

(e) Promotional signs.

(1) This subsection applies only to promotional signs as defined in Section 51A-7.1203.

(2) These signs must promote cultural events and activities. The portion of a sign devoted to sponsor identification, if any, must not exceed 10 percent of its effective area. No sign or portion of a sign may be used to advertise a specific product or service other than the cultural event or activity.

(3) Banners must be either flat against a building facade or mounted on streetlight poles. All other signs must be affixed to city-franchised kiosks.

(4) No sign other than a banner may be larger than 30 inches by 40 inches.

(5) No sign may be permanent in nature. Each sign must be removed no later than 30 days after its specific advertised event or activity has ended. (Ord. 20345)

SEC. 51A-7.1207. ATTACHED PRIVATE SIGNS.

(a) In general.

(1) This section applies to all attached private signs except building identification signs, cultural institution identification signs, canopy fascia signs, and tenant identity signs within Subdistrict A, Subdistrict B, and Subdistrict C. For the regulations governing building identification signs, see Section 51A-7.1209. For the regulations governing cultural institution identification signs, see Section 51A-7.1210. For the regulations governing canopy fascia signs, see Section 51A-7.1211. For the regulations governing tenant identity signs within Subdistrict A, see Section 51A-7.1214.1. For the regulations governing tenant identity and restaurant/retail identity signs within Subdistrict B, see Section 51A-7.1214.2. For the regulations governing restaurant/retail identity signs within Subdistrict C, see Section 51A-7.1214.3.

(2) These signs are only allowed on building facades that are in the Flora Street Frontage Area.
§ 51A-7.1207 Dallas Development Code: Ordinance No. 19455, as amended § 51A-7.1207

(3) No sign may project above the building cornice area.

(4) At grade structural supports are prohibited.

(5) No establishment may have a mix of awning signs, projecting attached signs, flat attached signs, and/or marquee signs, except that awning signs may be mixed with flat attached signs.

(b) Awning signs.

(1) This subsection applies only to awning signs as defined in Section 51A-7.1203.

(2) Letters and numbers on these signs must:

(A) be parallel or perpendicular to the front building facade; and

(B) not exceed 18 inches in height.

(3) No letters or numbers are allowed on the sloped top of an awning except as part of an official corporate logo or registered trademark. No more than 50 percent of the total sloped awning surface area may contain graphics.

(4) No words, other than those which are part of the basic awning design pattern, are permitted on awnings located above the second story.

(5) No sign may have flashing or sequenced lighting.

(c) Flat attached signs.

(1) This subsection applies only to flat attached signs as defined in Section 51A-7.1203.

(2) These signs are not permitted above the third story of a building.

(3) No sign may have a length that exceeds 70 percent of the length of the frontage of the establishment with which it is associated. Signs associated with the same establishment must be spaced at least 30 feet apart. No sign may exceed 60 square feet in effective area.

(4) The maximum character heights allowed on these signs are:

(A) 18 inches for signs located below the third story; and

(B) 24 inches for third-story signs.

(5) No sign cabinets are permitted. Adequate clear space for staging characters must be provided. In no event may the character height exceed 60 percent of the vertical dimension of the sign. The sides of three-dimensional characters, if any, must be the same color as their faces.

(6) No sign may contain more than five words.

(7) Sources of sign illumination that are an integral part of the design of the sign, such as neon or small individual incandescent lamps, are permitted. These signs may be protected by transparent covers.

(8) Internally-lit plastic translucent signs are prohibited.

(9) No sign may have flashing or sequenced lighting.

(d) Marquee signs.

(1) This subsection applies only to marquee signs as defined in Section 51A-7.1203.

(2) These signs are only allowed in conjunction with establishments that have as their major use movies or live entertainment productions.
(3) The permanent canopy of which this sign is a part must:

   (A) project no more than six feet from the building facade;

   (B) be a minimum of ten feet above the sidewalk grade;

   (C) have a vertical dimension that does not exceed four feet; and

   (D) have a horizontal dimension along the building facade that does not exceed 30 feet.

(4) The total effective area of signs on the permanent canopy must not exceed 120 square feet.

(5) No sign may:

   (A) project more than three feet from the permanent canopy;

   (B) extend vertically more than 30 feet above the canopy height; or

   (C) be more than three feet in width.

(6) Messages with characters over eight inches in height are limited to a maximum of five words on each canopy facade. Messages with characters under eight inches in height have no limit on the number of words. Character height must not exceed 60 percent of the vertical dimension of the permanent canopy, or 24 inches, whichever is less.

(7) Only the name of the establishment with which the sign is associated may appear on that portion of the sign located above the permanent canopy.

(8) Display panels that announce a show or event may have plastic characters on an internally-lit background.

(9) These signs may turn on or off or change their brightness. The restrictions contained in Section 51A-7.303(b)(1) do not apply to these signs. Flashing and sequenced lighting are permitted.

(e) Projecting attached signs.

(1) This subsection applies only to projecting attached signs as defined in Section 51A-7.1203.

(2) These signs must be a minimum of ten feet above grade.

(3) These signs must be located in either the bottom, top, or combined envelope depicted graphically in the diagram that is attached to and made a part of this ordinance as Exhibit B. Restrictions on the size and location of each sign depend on which envelope the sign is located in as follows:

<table>
<thead>
<tr>
<th>Envelope</th>
<th>Bottom Envelope</th>
<th>Top Envelope</th>
<th>Combined Envelope</th>
</tr>
</thead>
<tbody>
<tr>
<td>Maximum projection allowed from building facade</td>
<td>6 ft.</td>
<td>3 ft.</td>
<td>3 ft.</td>
</tr>
<tr>
<td>Maximum vertical dimension allowed</td>
<td>10 ft.</td>
<td>20 ft.</td>
<td>30 ft.</td>
</tr>
<tr>
<td>Maximum effective area allowed for each sign face*</td>
<td>30 sq. ft.</td>
<td>40 sq. ft.</td>
<td>45 sq. ft.</td>
</tr>
</tbody>
</table>

*Double this amount to compute the total effective area allowed for both sides of the sign.

(4) If their characters are eight inches or less in height, these signs are not restricted as to the number of words permitted. Signs with characters more than eight inches in height are limited to five words. No character may exceed 12 inches in height if the message area exceeds 60 percent of the sign surface area.

(5) One sign is allowed above each entrance provided that signs associated with the same establishment are spaced at least 30 feet apart.

(6) No sign may be more than 12 inches thick. All messages on these signs must be located on
§ 51A-7.1207 Dallas Development Code: Ordinance No. 19455, as amended § 51A-7.1208

(a) Detached non-premise signs. Detached non-premise private signs are prohibited in this district. This provision does not apply to:

1. Sponsorship messages on canopy fascia signs, cultural institution digital signs, and freestanding identification signs; or

2. Non-premise messages allowed on construction barricade signs.

(b) Detached premise signs.

1. This subsection applies to all detached premise signs except building identification signs, cultural institution identification signs, cultural institution digital signs, freestanding identification signs, construction barricade signs, and integrated signs within Subdistrict A, Subdistrict B, and Subdistrict C.

For the regulations governing building identification signs, see Section 51A-7.1209. For the regulations governing cultural institution identification signs, see Section 51A-7.1210. For the regulations governing cultural institution digital signs, see Section 51A-7.1212. For the regulations governing freestanding identification signs, see Section 51A-7.1213. For the regulations governing construction barricade signs, see Section 51A-7.1214. For the regulations governing integrated signs within Subdistrict A, see Section 51A-7.1214.1. For the regulations governing integrated signs within Subdistrict B, see Section 51A-7.1214.2. For the regulations governing integrated signs within Subdistrict C, see Section 51A-7.1214.3.

2. No detached premise sign may exceed 20 square feet in effective area.

3. Each premise may have no more than one sign on each blockface.

4. The pole support element of these signs must be a cylindrical metal column that is six inches in diameter and white in color.
§ 51A-7.1208 Dallas Development Code: Ordinance No. 19455, as amended

(5) No sign may exceed 13 feet 6 inches in height.

(6) The face of these signs must be flat. Vacuum-formed sign faces are prohibited.

(7) No sign may move or rotate.

(8) No sign may be more than 12 inches thick.

(9) No illuminated sign or element of a sign may turn on or off or change its brightness. (Ord. Nos. 20345; 26768; 28071; 28471; 30731; 31079)

SEC. 51A-7.1209. BUILDING IDENTIFICATION SIGNS.

(a) This section applies only to building identification signs as defined in Section 51A-7.1203.

(b) Illumination of these signs, if any, must be from within to illuminate the building facade or monument and produce a “halo” around the characters. No illuminated sign or element of a sign may turn on or off or change its brightness.

(c) These signs must be located:

(1) on a building facade above an entrance;

(2) in the building cornice area; or

(3) on a monument in a landscaped area between a building facade and the property line.

(d) Signs located above building entrances are limited to the building name and/or street address. A maximum of 50 square feet of effective area of each sign may be allocated to the building name, and a maximum of 25 square feet of effective area of each sign may be allocated to the building address. The maximum permitted heights of characters on these signs are 24 inches for the building name, and 12 inches for the building address. These signs are not allowed above the third story of the building.

(e) No facade may have more than one sign in the building cornice area.

(f) Signs on monuments must conform to the setback and area regulations of detached premise signs in this chapter generally. These signs must be composed of individual characters made of bronze, brass, or stainless steel, or be engraved in stone. (Ord. 20345)

[Exhibit A appears on page 598]

SEC. 51A-7.1210. CULTURAL INSTITUTION IDENTIFICATION SIGN.

(a) This section applies only to cultural institution identification signs.

(b) Signs may only be located on:

(1) a building facade;

(2) a lower-level roof line as shown on Exhibit C; or

(3) a monument in a landscaped area between a building facade and the property line.

(c) Signs on a building facade may not have an effective area greater than five percent of that building facade.

(d) Signs on a lower-level roof line may not have an effective area greater than five percent of the facade segment located beneath that lower-level roof line. (See Exhibit C).

(e) No portion of a sign on a lower-level roof line may project above the structures’ highest roof-line.

(f) Sign cabinets are not permitted.
(g) Illuminated signs and illuminated sign elements may not turn on or off, but may go through cycles of dimming and brightening to create a slow pulsing effect. Each cycle of dimming and brightening must exceed five seconds.

(h) Signs must be compatible with the architectural design and contribute to the visual effect of the building.

(i) Characters may not exceed 24 inches in height.

(j) Monument signs must comply with the setback and effective area regulations for detached premise signs in this chapter.

(k) Signs shall not be considered a business identification sign.

(l) Signs may not have a changeable message.

(Ord. 26768)

[Exhibit C appears on page 600]

SEC. 51A-7.1211. CANOPY FASCIA SIGNS.

(a) This section applies only to canopy fascia signs as defined in Section 51A-7.1203.

(b) Canopy fascia signs must comply with the operational requirements in Section 51A-7.1205.1.

(c) Canopy fascia signs may only be located on buildings fronting on Flora Street.

(d) A maximum of two canopy fascia signs per building is allowed. Only one canopy fascia sign is allowed on a building facade.

(e) Maximum height of a canopy fascia sign is four feet.

(f) Maximum length of a canopy fascia sign is 74 feet.

(g) Maximum effective area of a canopy fascia sign is 496 square feet.

(h) Canopy fascia signs may only display premise and sponsorship content. (Ord. 28071)

SEC. 51A-7.1212. CULTURAL INSTITUTION DIGITAL SIGNS.

(a) This section applies only to cultural institution digital signs as defined in Section 51A-7.1203.

(b) Cultural institution digital signs must comply with the operational requirements in Section 51A-7.1205.1.

(c) A maximum of six cultural institution digital signs are allowed.

(1) One cultural institution digital sign is allowed at the southwest corner of the intersection of Woodall Rodgers Freeway and Jack Evans Street.

(A) Maximum height is 50 feet.

(B) Maximum width is 20 feet.

(C) Total maximum effective area is 1,000 square feet, per side. Maximum effective area for identification of sponsor is 400 square feet, per side.

(D) Minimum setback is 12 feet from back of curb.

(2) One cultural institution digital sign is allowed at the northeast corner of the intersection of Ross Avenue and Leonard Street.

(A) Maximum height is 35 feet.

(B) Maximum width is 12 feet.
(C) Total maximum effective area is 420 square feet, per side. Maximum effective area for identification of sponsor is 144 square feet, per side.

(D) Minimum setback is 35 feet from back of curb.

(3) Four cultural institution digital signs are allowed along Flora Street.

(A) Maximum height is 7 feet.

(B) Maximum width is 3.5 feet.

(C) Total maximum effective area is 8 square feet, per side. Maximum effective area for identification of sponsor is 1.25 square feet, per side.

(D) Minimum setback is 30 feet from back of curb.

(d) Cultural institution digital signs may only display premise and sponsorship content. (Ord. Nos. 28071; 28553)

SEC. 51A-7.1213. FREESTANDING IDENTIFICATION SIGNS.

(a) This section applies only to freestanding identification signs as defined in Section 51A-7.1203.

(b) A maximum of three freestanding identification signs are allowed only along Flora Street.

(c) Maximum height is 20 feet.

(d) Maximum width is 8 feet.

(e) Maximum effective area is 160 square feet, per side.

(f) Minimum setback is 30 feet from back of curb.

(g) Freestanding identification signs may only display premise and sponsorship content. (Ord. 28071)

SEC. 51A-7.1214. CONSTRUCTION BARRICADE SIGNS.

(a) This section applies only to construction barricade signs as defined in Section 51A-7.1203.

(b) A minimum 10 percent of the effective area of the sign must display the names of the owner, occupant, district sponsor, district activity, and/or Woodall Rodgers Park name or activity.

(c) Non-premise messages are allowed. Only one non-premise message along a street frontage is allowed.

(d) Construction barricade signs must be removed when the construction barricade is removed.

(e) The message area on a construction barricade sign may be fully decorated or graphically designed if:

(1) no decoration or graphic horizontally projects more than two inches from the surface of the barricade; or

(2) no decoration or graphic vertically projects more than four feet above the top of the barricade. (Ord. Nos. 28071; 28553)

SEC. 51A-7.1214.1. SUBDISTRICT A.

(a) In general. Except as provided in this division, the provisions of the Arts District Sign District apply in this subdistrict.

(b) Tenant identity signs and building identification signs.

(1) Only one tenant identity sign or building identification sign is permitted per facade, except that a tenant identity sign or building identification sign is not permitted on the Leonard Street facade.
§ 51A-7.1214.1 Dallas Development Code: Ordinance No. 19455, as amended § 51A-7.1214.2

(2) Except as provided in this paragraph, tenant identity signs must be located above the highest leasable floor. On the Ross Avenue facade, a tenant identity sign may be located at any floor.

(3) Tenant identity signs must be composed of individual letters only and illumination of these signs, if any, must be internal to each letter. No illuminated sign or element of a sign may turn on or off or change its brightness.

(4) All tenant identity signs and building identification signs must be the same color.

(c) Integrated sign.

(1) Only one integrated sign is permitted.

(2) This sign must be either an attached sign or a monument sign.

(A) If the sign is an attached sign, it must be attached to a wall and face Crockett Street.

(B) If the sign is a monument sign, it may be two sided, but must be located in the building plaza area.

(3) This sign may identify the building’s owner or developer and multiple tenants.

(4) This sign may be located at the building line.

(5) This sign may be located within five feet of a public right of-way.

(6) The maximum height for the sign is eight feet measured from the bottom of the sign face to the top of the sign face.

(7) The maximum effective area for the sign is 50 square feet.

(8) All elements of an integrated sign must be consistent in color and materials.

(d) Detached premise sign. Detached premise signs may not exceed 30 square feet. (Ord. Nos. 28471; 29339)

SEC. 51A-7.1214.2. SUBDISTRICT B.

(a) In general. Except as provided in this division, the provisions of the Arts District Sign District apply in this subdistrict.

(b) Tenant identity signs and building identification signs.

(1) Number.

(A) Two tenant identity signs or building identification signs are permitted on the Woodall Rodgers Freeway facade and must be located at or above the third story.

(B) Tenant identity signs are prohibited on the Munger Avenue and Crockett Street facades.

(2) Composition and illumination. Tenant identity signs must be composed of individual letters only and illumination of these signs, if any, must be internal to each letter. No illuminated sign or element of a sign may turn on or off or change its brightness.

(3) Color. All tenant identity signs and building identification signs must be the same white and silver color.

(4) Facade coverage. Tenant identity signs and building identification signs may not exceed four percent of the facade to which it is affixed.

(c) Restaurant/retail identity signs.

(1) Two restaurant/retail identity signs are allowed on the Pearl Street facade and two restaurant/retail signs are allowed on the Woodall Rodgers Freeway facade.
§ 51A-7.1214.2 Dallas Development Code: Ordinance No. 19455, as amended § 51A-7.1214.3

(2) Restaurant/retail identity signs must be composed of individual letters only and illumination of these signs, if any, must be internal to each letter. No illuminated sign or element of a sign may turn on or off or change its brightness.

(3) All restaurant/retail signs must be the same white and silver color.

(4) Restaurant/retail identity signs may not exceed four percent of the facade to which it is affixed.

(5) Restaurant/retail identity signs may be located a maximum of 24 feet above grade.

(d) Integrated sign.

(1) Only one integrated sign is permitted.

(2) This sign must be a monument sign.

(3) This sign may be located at the building line.

(4) This sign may be located within five feet of a public right-of-way. This sign must be located on Pearl Street a minimum of 15 feet from Woodall Rodgers Freeway and 100 feet from Munger Avenue.

(5) The maximum height for the sign is eight feet measured from the bottom of the sign face to the top of the sign face.

(6) The maximum effective area for the sign is 175 square feet. Tenant names are limited to a maximum effective area of 60 square feet. The portion of the sign that contains the address and that does not contain tenant names must have a clear or transparent appearance.

(7) All elements of an integrated sign must be a consistent color and materials to the building. (Ord. 30731)

SEC. 51A-7.1214.3. SUBDISTRICT C.

(a) In general. Except as provided in this division, the provisions of the Arts District Sign District apply in this subdistrict.

(b) Restaurant/retail identity signs.

(1) Two restaurant/retail identity signs are allowed on the Ross Avenue facade.

(2) Restaurant/retail identity signs must be composed of individual letters only and illumination of these signs, if any, must be internal to each letter. No illuminated sign or element of a sign may blink, flash, or change its brightness.

(3) The maximum effective area for a restaurant/retail identity sign is 50 square feet.

(4) Restaurant/retail identity signs may be located a maximum of 24 feet above grade.

(5) Restaurant/retail identity signs may be located on or behind glass facades.

(c) Building identification sign.

(1) In this subdistrict, a building identification sign includes a sign that is part of a landscape design that creates a base for the sign in conjunction with a retaining wall or an open space created with the use of water or planting material.

(2) The maximum effective area for a building identification sign is 40 square feet.

(3) One building identification sign may be located on Ross Avenue a minimum of 10 feet from Olive Street and 290 feet from Harwood Street.

(4) A building identification sign may be located within five feet of a public right-of-way.
§ 51A-7.1214.3 Dallas Development Code: Ordinance No. 19455, as amended § 51A-7.1215

(d) Integrated sign.

(1) A maximum of two integrated signs are permitted.

(A) One integrated sign must be located on Ross Avenue a minimum of 10 feet from Olive Street and 260 feet from Harwood Street. The maximum effective area for the integrated sign at this location is 40 square feet.

(B) One integrated sign that may only identify the building must be located on Ross Avenue a minimum of 280 feet from Olive Street and 20 feet from Harwood Street. The maximum effective area for the integrated sign at this location is 30 square feet.

(2) An integrated sign may be located within five feet of a public right-of-way.

(3) A single contiguous sign, able to be viewed from more than one street, is considered one integrated sign.

(4) The maximum height for an integrated sign is eight feet, measured from the bottom of the sign face to the top of the sign face.

(5) The characters on an integrated sign must be a minimum of four inches in height.

(6) All integrated signs must have consistent color, materials, and fonts. (Ord. 31079)

SEC. 51A-7.1215. APPLICATION OF HIGHWAY BEAUTIFICATION ACTS.

For purposes of applying the Federal and Texas Highway Beautification Acts, this district is considered to be a commercial zone. (Ord. 28071)
EXHIBIT A - ORD. 20345
EXHIBIT C - ORD. 26768

SEC. 51A-7.1301. DESIGNATION OF SIGN DISTRICT.

A special provision sign district is hereby created to be known as the Deep Ellum/Near East Side Sign District. The boundaries of the Deep Ellum/Near East Side Sign District are the same as those of the Deep Ellum/Near East Side District (Planned Development District No. 269). (Ord. 20596)

SEC. 51A-7.1302. PURPOSE.

The purpose of this division is to promote signage that is compatible with the architectural character and design guidelines of the Deep Ellum/Near East Side Planned Development District while encouraging artistic, creative, and innovative signs which are reflective of themes that have grown and developed in the Deep Ellum area. (Ord. 20596)

SEC. 51A-7.1303. DEFINITIONS.

(a) In this division:

(1) ARTWORK means any pictorial or image presentation or design.

(2) BANNER means a sign attached to or applied on a strip of cloth and temporarily attached to a building or structure. Canopy signs and political flags are not banners.

(3) CANOPY SIGN means a sign attached to or applied on a canopy or awning.

(4) FLAT ATTACHED SIGN means an attached sign projecting 18 inches or less from a building and parallel to the building facade.

(5) MARQUEE SIGN means a sign attached to, applied on, or supported by a permanent canopy projecting over a pedestrian street entrance of a building, and consisting primarily of changeable panels or words.

(6) PROJECTING ATTACHED SIGN means an attached sign projecting 18 or more inches from a building.

(7) THIS DISTRICT means the Deep Ellum/Near East Side Sign District.

(8) WALLSCAPE SIGN means a sign meeting the requirements set forth in Section 51A-7.1308.

(9) WINDOW SIGN means a sign painted or affixed onto a window.

(b) Except as otherwise provided in this section, the definitions contained in Sections 51A-2.102 and 51A-7.102 apply to this division. In the event of a conflict, this section controls. (Ord. Nos. 20596; 24984)

SEC. 51A-7.1304. SIGN PERMIT REQUIREMENTS.

(a) No person may alter, place, maintain, expand, or remove a sign in this district without first obtaining a sign permit from the city. This section does not apply to government signs described in Section 51A-7.207.

(b) Except as otherwise provided in Section 51A-7.1306(f), the procedure for obtaining a sign permit is outlined in Section 51A-7.505.

(c) Section 51A-7.602 does not apply to signs in this district. (Ord. Nos. 20596; 24984)
SEC. 51A-7.1305. SPECIAL PROVISIONS FOR ALL SIGNS.

(a) Signs in this district are permitted to overhang the public right-of-way subject to city franchising requirements.

(b) Except as otherwise provided in Subsections (c) and (d), the maximum effective area of all signs combined on a premise is 10 percent of the total area of all building facades facing public right-of-way that is adjacent to the premise.

(c) When more than 50 percent of the total effective area of all signs combined on a premise is devoted to artwork, and there is no wallscape sign on the premise, the maximum effective area of all signs combined on a premise is 15 percent of the total area of all building facades facing public right-of-way that is adjacent to the premise.

(d) When there is a wallscape sign on the premise, the maximum effective area of all signs combined on a premise is 90 percent of the total area of all building facades facing public right-of-way that is adjacent to the premise.

(e) Except for wallscape signs, all signs must be premise signs or convey a noncommercial message.

(f) Special purpose signs may be erected on a premise no more than once each calendar year. The maximum number of consecutive days that a special purpose sign may be maintained is 15.

(g) The use of neon or single incandescent bulbs is permitted.

(h) No portions of a sign other than the words themselves may be illuminated by back-lighting.

(i) No portion of a sign may have a luminance greater than 200 footlamberts.

(j) The following materials are suggested, but not required, for signs in this district:

   (1) Metal.
   (2) Glass.
   (3) Wood. (Ord. Nos. 20596; 24984)

SEC. 51A-7.1306. SPECIAL PROVISIONS FOR ATTACHED SIGNS.

The regulations relating to the erection of attached signs in this district are hereby expressly modified as follows:

(a) Attached signs in general.

   (1) No portion of an attached sign may be located:

      (A) more than 10 feet from the facade to which it is attached; or
      (B) less than two feet from the back of a street curb.

   (2) Although not required, the use of three-dimensional projecting attached signs is encouraged.

(b) Banners.

   (1) Banners are permitted in this district to promote cultural events or activities.

   (2) If the cultural event or activity has a sponsor, no more than 10 percent of the effective area of the banner may be utilized for sponsor identification.

   (3) No portion of a banner may be used to advertise a specific product or service other than the cultural event or activity.

(c) Canopy signs. Canopy signs must be flat-attached or painted directly onto the surface of the canopy.
§ 51A-7.1306 Dallas Development Code: Ordinance No. 19455, as amended

(d) Marquee signs.

(1) No premise may have more than one marquee sign.

(2) The length of a marquee sign must not exceed two-thirds of the length of the facade to which it is attached.

(3) Marquee signs may incorporate moving patterns or bands of light, except that the use of illumination to produce apparent motion of a visual image, such as expanding or contracting shapes, rotation, or similar effects of animation, is prohibited.

(e) Window sign. No window sign may cover more than 25 percent of the window surface area.

(f) Wallscape signs.

(1) Definitions. In this section:

(A) SUPERGRAPHIC SIGN means an attached premise or non-premise sign on a mesh-type surface.

(B) WALLSCAPE SIGN means a supergraphic sign or an attached premise or non-premise sign painted directly onto the face of a building.

(2) Visual display and coverage.

(A) A wallscape sign must have at least 84 percent non-textual graphic content (a maximum of 16 percent of the effective area of the sign may contain text).

(B) A wallscape sign must have a single message; it may not have multiple messages or function as multiple signs.

(C) The lower 15 feet of the face may not be covered.

(3) Minimum area. A wallscape sign must exceed 3,000 square feet.

(4) Location. The building to which a wallscape sign is attached or applied must be more than 80 feet in height, and only those portions of a building covering at least 1,100 square feet in floor area may be used to determine the height of the building for the purpose of this paragraph. No wallscape sign may be attached to a building or structure erected after June 1, 2005.

(5) Number of signs permitted, and spacing requirement. One wallscape sign per face is permitted in this district. The signs may be spaced immediately adjacent to each other on different faces of the building.

(6) Removal of wallscape sign. If a wallscape sign is proposed that will be painted onto the face of a building, the applicant must provide a bond in the amount of the cost of removal of the wallscape sign, that provides that the wallscape sign will be removed within 30 days of the expiration of the permitted message duration.

(7) Sign permit application review. All applications for sign permits for wallscape signs shall be reviewed using the director procedure in Division 51A-7.500.

(8) Mandatory removal in 2018. All wallscape signs must be removed on or before July 1, 2018. This section does not confer a nonconforming or vested right to maintain a wallscape sign after July 1, 2018, and all permits authorizing wallscape signs shall automatically expire on that date.

(9) Sunset. This section expires on July 1, 2018, unless reenacted with amendment prior to that date. The city plan commission and city council shall review this section prior to its expiration date. (Ord. Nos. 20596; 24984; 25996; 27284)
SEC. 51A-7.1307. SPECIAL PROVISIONS FOR DETACHED SIGNS.

The regulations relating to the erection of detached signs in this district are hereby expressly modified as follows:

(1) No premise having an attached sign of any type, except for banners, may have a detached sign.

(2) A premise that has no attached signs other than banners, and that has frontage along more than one street, may have one detached sign along each street frontage.

(3) No detached sign support may be located in the public right-of-way. (Ord. 20596)

SEC. 51A-7.1308. PARKING AD SIGNS.

(1) Definition. In this section, PARKING AD SIGN means a standardized detached sign that meets the requirements of this section.

(2) Content.

(A) Parking ad signs may display premise or non-premise messages.

(B) Parking ad signs must display a standardized parking emblem.

(C) Parking ad signs must display a standardized district identification.

(D) Parking ad signs must display way-finding information at pedestrian level.

(3) Location.

(A) Parking ad signs may only be located on a lot with frontage on Main Street, Elm Street, or Commerce Street.

(B) Parking ad signs may not exceed 20 feet in height.

(B) Parking ad signs may not exceed 40 square feet in total effective area. Way-finding information does not count toward the total effective area.

(C) The premise or non-premise message on a parking ad sign may not exceed 25 square feet in effective area.

(4) Size and effective area.

(A) Parking ad signs may not exceed 20 feet in height.

(B) Parking ad signs may not exceed 40 square feet in total effective area. Way-finding information does not count toward the total effective area.

(C) The premise or non-premise message on a parking ad sign may not exceed 25 square feet in effective area.

(5) Lighting. Parking ad signs may not be illuminated by a detached, independent light source.

(6) Landscaping. Lots with parking ad signs must have a landscaped area located within 20 feet of the street right-of-way of a minimum of 150 square feet or three percent of the lot area, whichever is greater, and containing a combination of ground cover, shrubs, or trees.

(7) Number.

(A) Lots with parking ad signs may only have one detached sign.

(B) A maximum of 20 parking ad signs are allowed in this district.

(8) HBA prohibition. Parking ad signs may not be Highway Beautification Act (HBA) signs.

(9) Mandatory removal. All permits authorizing parking ad signs automatically expire on September 1, 2015. All parking ad signs must be removed by September 1, 2015. This section shall not be construed to confer nonconforming or vested rights to maintain parking ad signs after September 1, 2015.
§ 51A-7.1308 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-7.1401

(10) Sunset. This section expires on September 1, 2015, unless reenacted with amendment prior to that date. The city plan commission and city council shall review this section prior to its expiration. (Ord. 26066)

SEC. 51A-7.1401. DESIGNATION OF SIGN DISTRICT.

A special provision sign district is hereby created to be known as the Jefferson Boulevard Sign District. The Jefferson Boulevard Sign District is that area within the following described boundaries:

BEGINNING at a point being the northwestern corner of Lot 9A, Block 189/3248;

THENCE easterly along the northern lot line of Lot 9A, Block 189/3248, crossing Polk Street and extending along the center line of the alley between Sunset Street and Jefferson Boulevard to the center line of the alley between Polk Street and Tyler Street;

THENCE northerly along the alley center line to the projected northern lot line of Lot 3, Block 178/3237;

THENCE easterly along the northern lot line of Lot 3, Block 178/3237 crossing Tyler Street and extending along the northern lot lines of Lots 11 and 12, Block 157/3226 and extending along the center line of the alley between Sunset Street and Jefferson Boulevard to the center line of the alley between Zang Boulevard and Beckley Avenue;

THENCE northerly along the center line of the alley between Zang Boulevard and Beckley Avenue to the projected northern lot line of Lot 10, Block 49/3169;

THENCE easterly along the northern lot line of Lot 10, Block 49/3169 to the center line of Beckley Avenue;

THENCE southerly along the center line of Beckley Avenue to the projected northern lot line of Lot 12, Block 50/3170;

THENCE westerly along the northern lot line of Lot 12, Block 50/3170 and continuing along the center line of the alley between Jefferson Boulevard and Center

Dallas City Code
Street continuing and crossing Polk Street to the northeast corner of Lot 10, Block 188/3247 and continuing along the northern lot lines of Lots 9 and 10, Block 188/3247 to the center line of the alley between Willomet Street and Polk Street;

THENCE northerly along the center line of the alley between Willomet Street and Polk Street crossing Jefferson Boulevard and continuing along the western lot line of Lot 9A, Block 189/3248 to the PLACE OF BEGINNING. (Ord. Nos. 21114; 22019)

SEC. 51A-7.1402. PURPOSE.

The purpose of this division is to regulate both the construction of new signs and the alterations of existing signs with a view towards enhancing, preserving, and developing the unique character of this district. These sign regulations have been developed with the following objectives in mind:

(1) To protect the historical and architectural character of this district from inappropriate signs in terms of number (clutter), style, color and materials.

(2) To ensure that significant architectural features in this district or of a building within this district are not obscured.

(3) To promote the economic success of each business within this district and, in turn, the collective success of this district.

(4) To ensure that the size and orientation of signs are geared toward the high number of pedestrians in this district.

(5) To enhance the aesthetics of this district.

(6) To promote safety, communications efficiency, and landscape quality and preservation as described in Section 51A-7.101. (Ord. Nos. 21114; 22019)

SEC. 51A-7.1403. DEFINITIONS.

(a) In this division:

(1) ARTWORK means any pictorial or image presentation or design.

(2) FLAT ATTACHED SIGN means an attached sign projecting from a building and parallel to the building facade.

(3) MARQUEE SIGN means a sign attached to, applied on, or supported by a permanent canopy projecting over a pedestrian street entrance of a building, and consisting primarily of changeable panels, words, or characters.

(4) PAINTED APPLIED SIGN means a sign painted directly onto the exterior facade of a building, not including doors or windows.

(5) THIS DISTRICT means the Jefferson Boulevard Sign District.

(6) WINDOW SIGN means a sign painted or affixed to a window.

(b) Except as otherwise provided in this section, the definitions contained in Sections 51A-2.102 and 51A-7.102 apply to this division. In the event of a conflict, this section controls. (Ord. Nos. 21114; 22019)

SEC. 51A-7.1404. SIGN PERMIT REQUIREMENTS.

(a) No person may alter, erect, maintain, expand, or remove a sign in this district without first obtaining a sign permit from the city. This section does not apply to government signs described in Section 51A-7.207.

(b) The procedure for obtaining a sign permit is outlined in Section 51A-7.505. Section 51A-7.602 does not apply to signs in this district. (Ord. Nos. 21114; 22019)
SEC. 51A-7.1405. GENERAL REQUIREMENTS FOR ALL SIGNS.

(a) Signs in right-of-way. Signs in this district are permitted to overhang the public right-of-way subject to city franchising requirements.

(b) Materials. Although not required, painted applied signs and enameled metal signs are encouraged.

(c) Lighting.

(1) No sign may be illuminated by an independent, external fluorescent light source.

(2) The only light sources that may be used to illuminate a sign are cold cathode tube (neon), mercury vapor bulbs, or incandescent bulbs. (Ord. Nos. 21114; 22019)

SEC. 51A-7.1406. ATTACHED SIGNS.

(a) Attached signs in general.

(1) Except for marquee signs and as specified in Paragraphs (2) and (3), all attached signs must be mounted parallel to the building surface to which they are attached and may not project more than 18 inches from that building.

(2) One attached sign that projects up to four feet from a vertical building surface may be erected at a nonresidential occupancy if:

(A) the sign does not exceed 20 square feet in effective area;

(B) no portion of the sign is lower than 10 feet above grade; and

(C) there is no detached sign on the premise.

(b) Marquee signs.

(1) No premise may have more than one marquee sign.

(2) The length of the marquee sign must not exceed two-thirds of the length of the facade to which it is attached.

(3) Marquee signs may incorporate moving patterns or bands of light, except that the use of illumination to produce apparent motion of a visual image, such as expanding or contracting shapes, rotation, or similar effects of animation, is prohibited.

(c) Window signs. No window sign may:

(1) have a painted or opaque background; or

(2) cover more than 25 percent of the window surface area. (Ord. Nos. 21114; 22019; 22392)

SEC. 51A-7.1407. DETACHED SIGNS.

(a) Detached signs may not exceed the height of the tallest building on the premise or 30 feet, whichever is less.

(b) Detached signs may not exceed 150 square feet in effective area.

(c) Detached non-premise signs are prohibited in this district. (Ord. Nos. 21114; 22019)
SEC. 51A-7.1501. DESIGNATION OF SIGN DISTRICT.

A special provision sign district is hereby created to be known as the McKinney Avenue Sign District. The McKinney Avenue Sign District is that area within the following described boundaries:

BEGINNING at a point on the northwest line of McKinney Avenue, said point being 166.84 feet southwest of the southwest line of Fairmount Street;

THENCE in a northwesterly direction along a line, said line being approximately 142 feet southwest of and parallel to the southwest line of Fairmount Street, a distance of approximately 482.05 feet to a point for corner on the common line between City Blocks 949 and 1/949;

THENCE in a southwesterly direction along said common block line, a distance of approximately 20.4 feet to a point for corner on the centerline of a 16 feet wide public alley adjacent to Lots 13 and 15 in City Block 1/949;

THENCE in a northwesterly direction along the centerline of said alley and its northwestward prolongation across Mahon Street and continuing along the centerline of a 16 feet wide public alley in City Block 3/950 and continuing along the northwestward prolongation of the centerline of said alley, a distance of approximately 795 feet to a point for corner on the centerline of Howell Street;

THENCE in a northeasterly direction along the centerline of Howell Street, a distance of approximately 400.4 feet to a point for corner on the southeastward prolongation of the centerline of a 20 feet wide public alley in City Blocks 952 and 953;

THENCE in a northwesterly direction along said line and continuing along the centerline of said alley in City Blocks 952 and 953, a distance of approximately 403 feet to a point for corner on a line, said line being 20 feet northwest of and parallel to the southeast line of Lot 10 in City Block 952;

THENCE in a northeasterly direction along said line and its northeastward prolongation across Routh Street and continuing along the centerline of Laledie Street, a distance of approximately 1,060 feet to a point for corner on the centerline of Vine Street;

THENCE in a northwesterly direction along the centerline of Vine Street, a distance of approximately 245 feet to a point for corner on the centerline of Cole Avenue;

THENCE in a northeasterly direction along the centerline of Cole Avenue, a distance of approximately 793 feet to a point for corner on a line, said line being 118.0 feet northeast of and parallel to the northeast line of Sneed Street;

THENCE in a southeasterly direction along said line, continuing along the northeast boundary of Lot 1-A in City Block 17/965, a distance of approximately 156.40 feet to a point for corner on the centerline of a 15 feet wide public alley in City Block 17/965;

THENCE in a northeasterly direction along the centerline of said alley, a distance of approximately 315 feet to a point on the southwest line of Bowen Street;

THENCE in a northeasterly direction, continuing along the northeastward prolongation of the centerline of the 15 feet wide public alley in City Block 17/965, crossing Bowen Street and continuing along the centerline of a 15 feet wide alley in City Block 12/970 and its northeastward prolongation, crossing Hall Street, and continuing along the centerline of a 15 feet wide public alley in City Block 9/972, a total distance of approximately 940 feet to a point for corner on a line, said line being the southeasterly prolongation of the common line between Lots 3 and 4 in City Block 9/972;
3 and 4 and continuing along the northwestward prolongation of said common lot line, a distance of approximately 202.5 feet to a point for corner on the centerline of Cole Avenue;

THENCE in a northeasterly direction along the centerline of Cole Avenue, a distance of approximately 338 feet to a point for corner on the centerline of Lemmon Avenue;

THENCE in a northeasterly direction along a line, said line being 224.7 feet southeast of and parallel to the southeast line of Cole Avenue, a distance of approximately 130 feet to a point for corner on a line, said line being the northwestward prolongation of the common line between Lots 2 and 3 in City Block 978;

THENCE in a southeasterly direction along said line, and continuing along said common line in City Block 978, and continuing along the southeastward prolongation of said line, crossing McKinney Avenue and extending into City Block 10-A/637, a total distance of approximately 560 feet to a point for corner on a line, said line being approximately 168 feet southeast of and parallel to the southeast line of McKinney Avenue;

THENCE in a southeasterly direction along said line, crossing Lemmon Avenue, and continuing into City Block 11/971, a distance of approximately 697.67 feet to a point for corner on a line, said line being approximately 146 feet northeast of and parallel to the northeast line of Hall Street;

THENCE in a southeasterly direction along said line, a distance of approximately 295 feet to a point for corner on the centerline of Oak Grove Avenue;

THENCE in a southwesterly direction along the centerline of Oak Grove Avenue, a distance of approximately 1,356 feet to a point for corner on the centerline of McKinney Avenue;

THENCE in a southerly direction along the centerline of McKinney Avenue, a distance of approximately 115 feet to a point for corner on the northwestward prolongation of the centerline of Clyde Lane;
prolongation, a distance of approximately 190 feet to a point for corner on the centerline of Worthington Street;

THENCE in a southeasterly direction along the centerline of Worthington Street, a distance of approximately 50 feet to a point for corner on a line, said line being perpendicular to the southwest line of Worthington Street;

THENCE in a southwesterly direction along said line, a distance of approximately 24 feet to a point for corner on the southwest line of Worthington Street, said point also being the most northerly corner of Lot 5-A in City Block A/561;

THENCE in a southeasterly direction along the northwest line of said Lot 5-A, a distance of 158.69 feet to a point for corner;

THENCE in a southeasterly direction along the southwest line of Lot 5-A in City Block A/561, a distance of 48.3 feet to a point for corner;

THENCE South 39° 38' 00" West along a common property line, a distance of approximately 172 feet to a point for corner on the centerline of Boll Street;

THENCE in a southeasterly direction along the centerline of Boll Street, a distance of approximately 80 feet to a point for corner on a line, said line being perpendicular to the southwest line of Boll Street;

THENCE in a southeasterly direction along said line, a distance of approximately 25 feet to a point for corner on the southwest line of Boll Street, said point also being the most easterly corner of Lot 4 in City Block A/554;

THENCE in a southerly and southwesterly direction along the southeasterly boundary of Lots 1, 2, 3 and 4 in City Block A/554, and continuing along the southwestward prolongation of the southeast boundary of Lot 4 in City Block A/554, a distance of approximately 355 feet to a point for corner on the centerline of Routh Street;

THENCE in a southeasterly direction along the centerline of Routh Street, a distance of approximately 120 feet to a point for corner on a line, said line being perpendicular to the southwest line of Routh Street;

THENCE in a southwesterly direction along said line, a distance of approximately 25 feet to a point for corner on the southwest line of Routh Street, said point also being the centerline of a 15 feet wide public alley in City Block C/549;

THENCE in a southwesterly direction along the centerline of said alley and its southwestward prolongation, a distance of approximately 375 feet to a point for corner on the centerline of Fairmount Street;

THENCE in a southeasterly direction along the centerline of Fairmount Street, a distance of approximately 30 feet to a point for corner on a line, said line being the northeastward prolongation of the centerline of a 20 feet wide public alley in City Block B/548;

THENCE in a southwesterly direction along the centerline of said alley and its southwestward prolongation, a distance of approximately 210 feet to a point for corner on the centerline of Leonard Street;

THENCE in a northwesterly direction along the centerline of Leonard Street, a distance of approximately 120 feet to a point for corner on the centerline of McKinney Avenue;

THENCE in a southwesterly direction along the centerline of McKinney Avenue, a distance of approximately 40 feet to a point for corner on a line, said line being approximately 142 feet southwest of and parallel to the southwest line of Fairmount Street;

THENCE in a northwesterly direction along said line, a distance of approximately 35 feet to a point on the northwest line of McKinney Avenue, the PLACE OF BEGINNING.

THENCE in a southerly direction along the centerline of the McKinney Avenue Sign District, a distance of approximately 190 feet to a point on the northwest line of McKinney Avenue, the PLACE OF BEGINNING.

A special provision sign district is hereby created to be known as the McKinney Avenue Sign District. The McKinney Avenue Sign District is that area within the following described boundaries:

BEGINNING at a point on the northwest line of
THENCE in a northwesterly direction along a line, said line being approximately 142 feet southwest of and parallel to the southwest line of Fairmount Street, a distance of approximately 482.05 feet to a point for corner on the common line between City Blocks 949 and 1/949;

THENCE in a southwesterly direction along said common block line, a distance of approximately 20.4 feet to a point for corner on the centerline of a 16 feet wide public alley adjacent to Lots 13 and 15 in City Block 1/949;

THENCE in a northwesterly direction along the centerline of said alley and its northwestward prolongation across Mahon Street and continuing along the centerline of a 16 feet wide public alley in City Block 3/950 and continuing along the northwestward prolongation of the centerline of said alley, a distance of approximately 705 feet to a point for corner on the centerline of Howell Street;

THENCE in a northeasterly direction along the centerline of Howell Street, a distance of approximately 400.4 feet to a point for corner on the southeastward prolongation of the centerline of a 20 feet wide public alley in City Blocks 952 and 953;

THENCE in a northwesterly direction along said line and continuing along the centerline of said alley in City Blocks 952 and 953, a distance of approximately 403 feet to a point for corner on a line, said line being 30 feet northwest of and parallel to the southeast line of Lot 10 in City Block 952;

THENCE in a northeasterly direction along said line and its northeastward prolongation across Routh Street and continuing along the centerline of Laclede Street, a distance of approximately 1,060 feet to a point for corner on the centerline of Vine Street;

THENCE in a northeasterly direction along the centerline of Vine Street, a distance of approximately 245 feet to a point for corner on the centerline of Cole Avenue;

THENCE in a northeasterly direction along the centerline of Cole Avenue, a distance of approximately 793 feet to a point for corner on a line, said line being 118.0 feet northeast of and parallel to the northeast line of Sneed Street;

THENCE in a southeasterly direction along said line, continuing along the northeast boundary of Lot 1-A in City Block 17/965, a distance of approximately 156.40 feet to a point for corner on the centerline of a 15 feet wide public alley in City Block 17/965;

THENCE in a northwesterly direction along the centerline of said alley, a distance of approximately 315 feet to a point on the southwest line of Bowen Street;

THENCE in a northeasterly direction, continuing along the northeastward prolongation of the centerline of the 15 feet wide public alley in City Block 17/965, crossing Bowen Street and continuing along the centerline of a 15 feet wide alley in City Block 12/970 and its northeastward prolongation, crossing Hall Street, and continuing along the centerline of a 15 feet wide public alley in City Block 9/972, a total distance of approximately 940 feet to a point for corner on a line, said line being the southeasterly prolongation of the common line between Lots 3 and 4 in City Block 9/972;

THENCE in a northwesterly direction along said line and continuing along said common line between Lots 3 and 4 and continuing along the northwestward prolongation of said common lot line, a distance of approximately 202.5 feet to a point for corner on the centerline of Cole Avenue;

THENCE in a northeasterly direction along the centerline of Cole Avenue, a distance of approximately 338 feet to a point for corner on the centerline of Lemmon Avenue;

THENCE in a northeasterly direction along a line, said line being 224.7 feet southeast of and parallel to the southeast line of Cole Avenue, a distance of approximately 130 feet to a point for corner on a line, said line being the northwestward prolongation of the common line between Lots 2 and 3 in City Block 978;

THENCE in a southeasterly direction along said line, and continuing along said common line in City Block 978, and continuing along the southeastward prolongation of said line, crossing McKinney Avenue a total distance of approximately 360 feet to a point for corner on the centerline of McKinney Avenue;

THENCE in a southwesterly direction along said centerline of McKinney Avenue, a distance of approximately 131 feet to a point at the intersection of McKinney Avenue.
THENCE in a southeasterly direction along said centerline of McKinney Avenue and the centerline of Lemmon Avenue;

THENCE in a southeasterly direction along said centerline of Lemmon Avenue, a distance of approximately 198 feet to a point for corner on a line, said line being approximately 198 feet southeast of and parallel to said centerline of McKinney Avenue;

THENCE in a southwesterly direction along said line, crossing Lemmon Avenue, and continuing into City Block 11/971, a distance of approximately 474.51 feet to a point for corner on a line, said line being approximately 146 feet northeast of and parallel to the northeast line of Hall Street;

THENCE in a southeasterly direction along line, a distance of approximately 295 feet to a point for corner on the centerline of Oak Grove Avenue;

THENCE in a southwesterly direction along the centerline of Oak Grove Avenue, a distance of approximately 1,356 feet to a point for corner on the centerline of McKinney Avenue;

THENCE in a southerly direction along the centerline of McKinney Avenue, a distance of approximately 115 feet to a point for corner on the northwestward prolongation of the centerline of Clyde Lane;

THENCE in a southeasterly direction along said line and continuing along the centerline of Clyde Lane, a distance of approximately 320 feet to a point for corner on a line, said line being the northeastward prolongation of the common line between Lots 18 and 19 in City Block B/578;

THENCE in a southeasterly direction along said line and continuing along said common line between Lots 18 and 19, a distance of approximately 90 feet to a point for corner on the southwest line of Lot 18 in City Block B/578;

THENCE in a southeasterly direction along said lot line, a distance of approximately 40 feet to a point for corner on the common line between Lots 1 and 2 in City Block A/578;

THENCE in a southeasterly direction along said common lot line and its southwestward prolongation, a distance of approximately 155 feet to a point for corner on the centerline of Allen Street;

THENCE in a southeasterly direction along the centerline of Allen Street, a distance of approximately 100 feet to a point for corner on a line, said line being perpendicular to the southwest line of Allen Street;

THENCE in a southwesterly direction along said line, a distance of approximately 22.5 feet to a point for corner on the southwest line of Allen Street, said point also being the northernmost corner of Lot 5 in City Block 577;

THENCE in a southerly direction along the western boundary of said Lot 5 and continuing in a southeasterly direction along the southwestern boundary of Lots 6 and 7, and continuing along the southeastward prolongation of the southwestern boundary of said Lot 7, a distance of approximately 277.5 feet to a point for corner on the centerline of a 15 feet wide public alley adjacent to City Block A/577;

THENCE in a southwesterly direction along the centerline of said alley and its southwestward prolongation, a distance of approximately 190 feet to a point for corner on the centerline of Worthington Street;

THENCE in a southeasterly direction along the centerline of Worthington Street, a distance of approximately 50 feet to a point for corner on a line, said line being perpendicular to the southwest line of Worthington Street;

THENCE in a southwesterly direction along said line, a distance of approximately 24 feet to a point for corner on the southwest line of Worthington Street, said point also being the most northerly corner of Lot 5-A in City Block A/561;

THENCE in a southwesterly direction along the northwest line of said Lot 5-A, a distance of 158.69 feet to a point for corner;

THENCE in a southeasterly direction along the southwest line of Lot 5-A in City Block A/561, a distance of 48.3 feet to a point for corner;

THENCE in a southwesterly direction along the southwest line of Lot 5-A in City Block A/561, a distance of 48.3 feet to a point for corner;

THENCE South 39°38'00" West along a common property line, a distance of approximately 172 feet to a point for corner on the centerline of Boll Street;

THENCE in a southeasterly direction along the centerline of Boll Street, a distance of approximately 80 feet to a point for corner on a line, said line being
perpendicular to the southwest line of Boll Street;

THENCE in a southwesterly direction along said line, a distance of approximately 25 feet to a point for corner on the southwest line of Boll Street, said point also being the most easterly corner of Lot 4 in City Block A/554;

THENCE in a southerly and southwesterly direction along the southeasterly boundary of Lots 1, 2, 3 and 4 in City Block A/554, and continuing along the southwestward prolongation of the southeast boundary of Lot 1 in City Block A/554, a distance of approximately 355 feet to a point for corner on the centerline of Routh Street;

THENCE in a southeasterly direction along the centerline of Routh Street, a distance of approximately 120 feet to a point for corner on a line, said line being perpendicular to the southwest line of Routh Street;

THENCE in a southwesterly direction along said line, a distance of approximately 25 feet to a point for corner on the southwest line of Routh Street, said point also being the centerline of a 15 feet wide public alley in City Block C/549;

THENCE in a southeasterly direction along the centerline of said alley and its southwestward prolongation, a distance of approximately 375 feet to a point for corner on the centerline of Fairmount Street;

THENCE in a southeasterly direction along the centerline of Fairmount Street, a distance of approximately 30 feet to a point for corner on a line, said line being the northeastward prolongation of the centerline of a 20 feet wide public alley in City Block B/548;

THENCE in a southwesterly direction along the centerline of said alley and its southwestward prolongation, a distance of approximately 210 feet to a point for corner on the centerline of Leonard Street;

THENCE in a northwesterly direction along the centerline of Leonard Street, a distance of approximately 120 feet to a point for corner on the centerline of McKinney Avenue;

THENCE in a southwesterly direction along the centerline of McKinney Avenue, a distance of approximately 40 feet to a point for corner on a line, said line being approximately 142 feet southwest of and parallel to the southwest line of Fairmount Street;

THENCE in a northwesterly direction along said line, a distance of approximately 35 feet to a point on the northwest line of McKinney Avenue, the PLACE OF BEGINNING.  (Ord. Nos. 21145; 31265)
(a) This district is hereby divided into three subdistricts, which shall be known as the Spine, Quadrangle, and Peripheral Subdistricts.

(b) The Spine Subdistrict is that area of the city within the following described boundaries:

BEGINNING at a point on the northwest line of McKinney Avenue, said point being 166.84 feet southwest of the southwest line of Fairmount Street;

THENCE in a northwesterly direction along a line, said line being approximately 142 feet southwest of and parallel to the southwest line of Fairmount Street, a distance of approximately 317.05 feet to a point for corner on a line, said line being approximately 165 feet southeast of and parallel to the common line between City Blocks 949 and 1/949;

THENCE in a northeasterly direction along said line, a distance of approximately 167 feet to a point for corner on the centerline of Fairmount Street;

THENCE in a northeasterly direction along a line, said line being the southwestward prolongation of the centerline of Howland Street and continuing along the centerline of Howland Street and its northeastward prolongation, a distance of approximately 458 feet to a point for corner on the centerline of Routh Street;

THENCE in a northwesterly direction along the centerline of Routh Street, a distance of 90 feet to a point for corner on the centerline of Howland Street in City Block 3/955;

THENCE in a northeasterly direction along said line and continuing along the centerline of Howland Street to a point for corner on the centerline of Boll Street;

THENCE in a northwesterly direction along the centerline of Boll Street to a point for corner on a line, said line being 105 feet northwest of and parallel to the northwest line of Howland Street;

THENCE in a northeasterly direction along said line to a point for corner on the common line between Lots 6 and 6A in City Block 2/955;

THENCE in a northwesterly direction along said common lot line to a point for corner on the north/south common line between Lots 6 and 6A in City Block 2/955;

THENCE in a southwesterly direction along said common lot line and its southwestward prolongation to a point for corner on the centerline of Boll Street;

THENCE in a northwesterly direction along the centerline of Boll Street to a point for corner on the centerline of Howell Street;

THENCE in a northeasterly direction along the centerline of Howell Street to a point for corner on the centerline of Worthington Street;

THENCE in a southeasterly direction along the centerline of Worthington Street to a point for corner on a line, said line being the southwestward prolongation of the common line between Lots 1 and 10 in City Block 1/955;

THENCE in a northeasterly direction along said line, and continuing along said common lot line, a distance of approximately 195.86 feet to a point for corner on the south line of Lot 1 in City Block 955;

THENCE in a westerly direction along the south line of said Lot 1, a distance of approximately 67 feet to a point for corner on the southeast line of Howell Street;

THENCE in a northeasterly direction along a line, said line being perpendicular to the southeast line of Howell Street, a distance of approximately 25 feet to a point for corner on the centerline of Howell Street;
THENCE in a northeasterly direction along the centerline of Howell Street to a point for corner on the centerline of Vine Street;

THENCE in a northwesterly direction along the centerline of Vine Street to a point for corner on the centerline of Cole Avenue;

THENCE in a northeasterly direction along the centerline of Cole Avenue to a point for corner on a line, said line being the northwestward prolongation of the southwest line of Lot 3 in City Block 963;

THENCE in a southeasterly direction along said line, and continuing along the southwest line of said Lot 3 to a point for corner on the southeast line of said Lot 3;

THENCE in a northeasterly direction along the northeast line of said Lot 3 and its northwestward prolongation to a point for corner on the centerline of Cole Avenue;

THENCE in a northeasterly direction along the centerline of Cole Avenue to a point for corner on a line, said line being the northwestward prolongation of the northeast line of Lot 1A in City Block 963;

THENCE in a southeasterly direction along said line, and continuing along the northeast line of said Lot 1A to a point for corner on the northwest line of said Lot 1A;

THENCE in a northeasterly direction along the northwest line of said Lot 1A and its northeastward prolongation to a point for corner on the centerline of Allen Street;

THENCE in a southeasterly direction along the centerline of Allen Street to a point for corner, said point being approximately 169.5 feet southeast of the northeastward prolongation of the southwest line of Laclede Street;

THENCE in a northwesterly direction along a line parallel with the southwest line of McKinney Avenue, a distance of approximately 495 feet to a point for corner on the centerline of Sneed Street, with said point being approximately 122.77 feet southeast of the southeast line of Cole Avenue, said point also being at the intersection of the southwestward prolongation of the centerline of a 15 foot wide public alley in City Block 17/965;

THENCE in a northeasterly direction along the centerline of said alley, a distance of approximately 458 feet to a point on the southwest line of Bowen Street;

THENCE in a northeasterly direction, continuing along the northeastward prolongation of the centerline of the 15 foot wide public alley in City Block 17/965, crossing Bowen Street and continuing along the centerline of a 15 foot wide alley in City Block 12/970, and its northeastward prolongation, crossing Hall Street, and continuing along the centerline of a 15 foot wide public alley in City Block 9/972, a total distance of approximately 1,278 feet to a point for corner on the centerline of Lemmon Avenue;

THENCE in a northwesterly direction along the centerline of Lemmon Avenue, a distance of approximately 30 feet to a point for corner on a line, said line being the southwestward prolongation of the common line between Lots 1 and 2 in City Block 978;

THENCE in a northeasterly direction along said line and continuing along the common line between said Lots 1 and 2, a distance of approximately 138 feet to a point for corner on the common line between Lots 2 and 3 in City Block 978;

THENCE in a southeasterly direction along said common lot line and continuing along the southeastward prolongation of said line, crossing McKinney Avenue and extending into City Block 10-A/637, a total distance of approximately 400 feet to a point for corner on a line, said line being approximately 168 feet southeast of and parallel to the southeast line of McKinney Avenue;
§ 51A-7.1502 Dallas Development Code: Ordinance No. 19455, as amended

THENCE in a southwesterly direction along said line; crossing Lemmon Avenue, and continuing into City Block 11/971, a distance of approximately 607.67 feet to a point for corner on a line, said line being approximately 146 feet northeast of and parallel to the northeast line of Hall Street;

THENCE in a southeasterly direction along said line, a distance of approximately 85 feet to a point for corner on the centerline of Noble Street;

THENCE in a southwesterly direction along the centerline of Noble Street and its southwestward prolongation, a distance of approximately 171 feet to a point for corner on the centerline of Hall Street;

THENCE in a southeasterly direction along the centerline of Hall Street, a distance of approximately 171 feet to a point for corner on the centerline of Oak Grove Avenue;

THENCE in a southwesterly direction along the centerline of Oak Grove Avenue, a distance of approximately 1,185 feet to a point for corner on the centerline of McKinney Avenue;

THENCE in a southerly direction along the western boundary of said Lot 5 and continuing in a southeasterly direction along the southwestern boundary of Lots 6 and 7, and continuing along the southeastward prolongation of the southwestern boundary of said Lot 7, a distance of approximately 277.5 feet to a point for corner on the centerline of a 15 foot wide public alley adjacent to City Block A/577;

THENCE in a southerly direction along the centerline of said alley and its southwestward prolongation, a distance of approximately 190 feet to a point for corner on the centerline of Worthington Street;

THENCE in a southeasterly direction along the centerline of Worthington Street, a distance of approximately 50 feet to a point for corner on a line, said line being perpendicular to the southwest line of Worthington Street;

THENCE in a southeasterly direction along said line, a distance of approximately 24 feet to a point for corner on the southwest line of Worthington Street, said point also being the northermost corner of Lot 5-A in City Block A/561;
THENCE in a southwesterly direction along the northwest line of said Lot 5-A, a distance of 158.69 feet to a point for corner;

THENCE in a southeasterly direction along the southwest line of Lot 5-A in City Block A/561, a distance of 48.3 feet to a point for corner;

THENCE South 39°38′00″ West along a common property line, a distance of 172.0 feet to a point for corner on the centerline of Boll Street;

THENCE in a southeasterly direction along the centerline of Boll Street, a distance of approximately 80 feet to a point for corner on a line, said line being perpendicular to the southwest line of Boll Street;

THENCE in a southerly and southwesterly direction along the southeasterly boundary of Lots 1, 2, 3 and 4 in City Block A/554 and continuing along the southwestward prolongation of the southeast boundary of Lot 1 in City Block A/554, a distance of approximately 355 feet to a point for corner on the centerline of Routh Street;

THENCE in a southeasterly direction along the centerline of Routh Street, a distance of approximately 120 feet to a point for corner on a line, said line being parallel to the southwest line of Routh Street;

THENCE in a southeasterly direction along a line, said line being the southwestward prolongation of the centerline of Fairmount Street, a distance of approximately 30 feet to a point for corner on a line, said line being the northeastward prolongation of the centerline of a 20 foot wide public alley in City Block B/548;

THENCE in a southwesterly direction along the centerline of said alley and its southwestward prolongation, a distance of approximately 210 feet to a point for corner on the centerline of Leonard Street;

THENCE in a northwesterly direction along the centerline of Leonard Street, a distance of approximately 120 feet to a point for corner on the centerline of McKinney Avenue;

THENCE in a southerly direction along a line, said line being approximately 142 feet southwest of and parallel to the southwest line of Fairmount Street;

THENCE in a northwesterly direction along the centerline of McKinney Avenue, a distance of approximately 48 feet to a point for corner on a line, said line being approximately 142 feet southwest of and parallel to the southwest line of Fairmount Street;

THENCE in a northwesterly direction along said line, a distance of approximately 35 feet to a point on the northwest line of McKinney Avenue, the PLACE OF BEGINNING.

(b) The Spine Subdistrict is that area of the city within the following described boundaries:

BEGINNING at a point on the northwest line of McKinney Avenue, said point being 166.84 feet southwest of the southwest line of Fairmount Street;

THENCE in a northwesterly direction along a line, said line being approximately 142 feet southwest of and parallel to the southwest line of Fairmount Street, a distance of approximately 317.05 feet to a point for corner on a line, said line being approximately 165 feet southeast of and parallel to the common line between City Blocks 949 and 1/949;

THENCE in a northeasterly direction along said line, a distance of approximately 167 feet to a point for corner on the centerline of Fairmount Street;

THENCE in a northeasterly direction along said line, a distance of approximately 167 feet to a point for corner on the centerline of Fairmount Street;

THENCE in a northeasterly direction along a line, said line being the southwestward prolongation of the centerline of Howland Street and continuing along the centerline of Howland Street and its northeastward
prolongation, a distance of approximately 458 feet to a point for corner on the centerline of Routh Street;

THENCE in a northwesterly direction along the centerline of Routh Street, a distance of 90 feet to a point for corner on a line, said line being the southwestward prolongation of the centerline of Howland Street in City Block 3/955;

THENCE in a northeasterly direction along said line and continuing along the centerline of Howland Street to a point for corner on the centerline of Boll Street;

THENCE in a northwesterly direction along the centerline of Boll Street to a point for corner on a line, said line being 105 feet northwest of and parallel to the northwest line of Howland Street;

THENCE in a northeasterly direction along said line to a point for corner on the common line between Lots 6 and 6A in City Block 2/955;

THENCE in a northeasterly direction along said common lot line to a point for corner on the north/south common line between Lots 6 and 6A in City Block 2/955;

THENCE in a southwesterly direction along said common lot line and its southwestward prolongation to a point for corner on the centerline of Boll Street;

THENCE in a northwesterly direction along the centerline of Boll Street to a point for corner on the centerline of Howell Street;

THENCE in a northeasterly direction along the centerline of Howell Street to a point for corner on the centerline of Worthington Street;

THENCE in a southeasterly direction along said line, and continuing along the southwest line of said Lot 3 to a point for corner on the southeast line of said Lot 3;

THENCE in a northeasterly direction along the northeast line of said Lot 3 and its northwestward prolongation to a point for corner on the centerline of Cole Avenue;

THENCE in a northeasterly direction along the centerline of Cole Avenue to a point for corner on a line, said line being the northwestward prolongation of the southwest line of Lot 3 in City Block 963;

THENCE in a southeasterly direction along said line, and continuing along the southwest line of said Lot 3 to a point for corner on the southeast line of said Lot 3;

THENCE in a northeasterly direction along the northeast line of said Lot 3 and its northwestward prolongation to a point for corner on the centerline of Cole Avenue;

THENCE in a northeasterly direction along the centerline of Cole Avenue to a point for corner on a line, said line being the northwestward prolongation of the northeast line of Lot 1A in City Block 963;

THENCE in a northeasterly direction along the northwest line of said Lot 1A and its northeastward prolongation to a point for corner on the centerline of Allen Street;

THENCE in a northeasterly direction along the centerline of Allen Street to a point for corner, said point being approximately 169.5 feet southeast of the northeastward prolongation of the southeast line of Laclede Street;

THENCE in a northeasterly direction along a line
parallel with the southwest line of McKinney Avenue, a distance of approximately 495 feet to a point for corner on the centerline of Sneed Street, with said point being approximately 122.77 feet southeast of the southeast line of Cole Avenue, said point also being at the intersection of the southwestward prolongation of the centerline of a 15-foot-wide public alley in City Block 17/965;

THENCE in a northeasterly direction along the centerline of said alley, a distance of approximately 458 feet to a point on the southwest line of Bowen Street;

THENCE in a northeasterly direction, continuing along the northeastward prolongation of the centerline of the 15 foot wide public alley in City Block 17/965, crossing Bowen Street and continuing along the centerline of a 15 foot wide alley in City Block 12/970 and its northeastward prolongation, crossing Hall Street, and continuing along the centerline of a 15 foot wide public alley in City Block 9/972, a total distance of approximately 1,278 feet to a point for corner on the centerline of Lemmon Avenue;

THENCE in a northwesterly direction along the centerline of Lemmon Avenue, a distance of approximately 30 feet to a point for corner on a line, said line being the southwestward prolongation of the common line between Lots 1 and 2 in City Block 978;

THENCE in a northeasterly direction along said line and continuing along the common line between said Lots 1 and 2, a distance of approximately 138 feet to a point for corner on the common line between Lots 2 and 3 in City Block 978;

THENCE in a southeasterly direction along said common lot line and continuing along the southeastward prolongation of said line, crossing McKinney Avenue a total distance of approximately 200 feet to a point for corner on the centerline of McKinney Avenue;

THENCE in a southwesterly direction along said centerline of McKinney Avenue, a distance of approximately 131 feet to a point at the intersection of said centerline of McKinney Avenue and the centerline of Lemmon Avenue;

THENCE in a southeasterly direction along said centerline of Lemmon Avenue, a distance of approximately 198 feet to a point for corner on a line, said line being approximately 198 feet southeast of and parallel to said centerline of McKinney Avenue;

THENCE in a southeasterly direction along said line, a distance of approximately 85 feet to a point for corner on the centerline of Noble Street;

THENCE in a southwesterly direction along the centerline of Noble Street and its southwestward prolongation, a distance of approximately 171 feet to a point for corner on the centerline of Hall Street;

THENCE in a southeasterly direction along the centerline of Hall Street, a distance of approximately 205 feet to a point for corner on the centerline of Oak Grove Avenue;

THENCE in a southeasterly direction along the centerline of Oak Grove Avenue, a distance of approximately 1,185 feet to a point for corner on the centerline of McKinney Avenue;

THENCE in a southerly direction along the centerline of McKinney Avenue, a distance of approximately 115 feet to a point for corner on the northwestward prolongation of the centerline of Clyde Lane;

THENCE in a southeasterly direction along said line and continuing along the centerline of Clyde Lane, a distance of approximately 320 feet to a point for corner on a line, said line being the northeastward prolongation of the common line between Lots 18 and 19 in City Block B/578;

THENCE in a southeasterly direction along said line and continuing along said common line between Lots 18 and 19, a distance of approximately 90 feet to a point for corner on the southwest line of Lot 18 in City Block B/578;

THENCE in a southeasterly direction along said lot line, a distance of approximately 40 feet to a point for corner on the common line between Lots 1 and 2 in City Block A/578;

THENCE in a southeasterly direction along said common lot line and its southwestward prolongation,
a distance of approximately 155 feet to a point for corner on the centerline of Allen Street;

THENCE in a southeasterly direction along the centerline of Allen Street, a distance of approximately 100 feet to a point for corner on a line, said line being perpendicular to the southwest line of Allen Street;

THENCE in a southwesterly direction along said line, a distance of approximately 22.5 feet to a point for corner on the southwest line of Allen Street, said point also being the northernmost corner of Lot 5 in City Block 577;

THENCE in a southerly direction along the western boundary of said Lot 5 and continuing in a southeasterly direction along the southwestern boundary of Lots 6 and 7, and continuing along the southeastward prolongation of the southwestern boundary of said Lot 7, a distance of approximately 277.5 feet to a point for corner on the centerline of a 15-foot-wide public alley adjacent to City Block A/577;

THENCE in a southwesterly direction along the centerline of said alley and its southwestward prolongation, a distance of approximately 190 feet to a point for corner on the centerline of Worthington Street;

THENCE in a southeasterly direction along the centerline of Worthington Street, a distance of approximately 50 feet to a point for corner on a line, said line being perpendicular to the southwest line of Worthington Street;

THENCE in a southwesterly direction along said line, a distance of approximately 24 feet to a point for corner on the southwest line of Worthington Street, said point also being the northernmost corner of Lot 5-A in City Block A/561;

THENCE in a southeasterly direction along the northwest line of said Lot 5-A, a distance of 158.69 feet to a point for corner;

THENCE in a southeasterly direction along the southwest line of Lot 5-A in City Block A/561, a distance of 48.3 feet to a point for corner;

THENCE South 39°38'00" West along a common property line, a distance of 172.0 feet to a point for corner on the centerline of Boll Street;

THENCE in a southeasterly direction along the centerline of Boll Street, a distance of approximately 80 feet to a point for corner on a line, said line being perpendicular to the southwest line of Boll Street;

THENCE in a southwesterly direction along said line, a distance of approximately 25 feet to a point for corner on the southwest line of Boll Street, said point also being the most easterly corner of Lot 4 in City Block A/554;

THENCE in a southerly and southwesterly direction along the southeasterly boundary of Lots 1, 2, 3 and 4 in City Block A/554 and continuing along the southwestward prolongation of the southeast boundary of Lot 1 in City Block A/554, a distance of approximately 355 feet to a point for corner on the centerline of Routh Street;

THENCE in a southeasterly direction along the centerline of Routh Street, a distance of approximately 120 feet to a point for corner on a line, said line being perpendicular to the southwest line of Routh Street;

THENCE in a southwesterly direction along said line, a distance of approximately 25 feet to a point for corner on the southwest line of Routh Street, said point also being the centerline of a 15-foot-wide public alley in City Block C/549;

THENCE in a southeasterly direction along the centerline of said alley and its southwestward prolongation, a distance of approximately 375 feet to a point for corner on the centerline of Fairmount Street;

THENCE in a southeasterly direction along the centerline of Fairmount Street, a distance of approximately 30 feet to a point for corner on a line, said line being the northeastward prolongation of the centerline of a 20-foot-wide public alley in City Block B/548;

THENCE in a southwesterly direction along the centerline of said alley and its southwestward prolongation, a distance of approximately 210 feet to a point for corner on the centerline of Leonard Street;

THENCE in a northwesterly direction along the centerline of Leonard Street, a distance of approximately 120 feet to a point for corner on the centerline of McKinney Avenue;

THENCE in a southwesterly direction along the centerline of McKinney Avenue, a distance of...
approximately 40 feet to a point for corner on a line, said line being approximately 142 feet southwest of and parallel to the southwest line of Fairmount Street;

THENCE in a northwesterly direction along said line, a distance of approximately 35 feet to a point on the northwest line of McKinney Avenue, the PLACE OF BEGINNING.

(c) The Quadrangle Subdistrict is that area of the city within the following described boundaries:

Being all of City Block 956 bounded by Laclede Street on the northwest, Vine Street on the northeast, Howell Street on the southeast, and Routh Street on the southwest.

(d) The Peripheral Subdistrict is that area within the McKinney Avenue Sign District that is not in either the Spine Subdistrict or the Quadrangle Subdistrict. (Ord. Nos. 21145; 24132; 31265)

SEC. 51A-7.1503. PURPOSE.

The purpose of this division is to regulate both the construction of new signs and the alterations of
existing signs with a view towards enhancing, preserving, and developing the unique character of this district. These sign regulations have been developed with the following objectives in mind:

(a) To protect the historical and architectural character of this district from inappropriate signs in terms of number (clutter), style, color, and materials.

(b) To ensure that significant architectural features in this district are not obscured.

(c) To encourage signs that are complimentary to the architectural styles and historical nature of the buildings and trolley in this district.

(d) To ensure that the size and orientation of signs are geared toward the high number of pedestrians in this district.

(e) To attract the public to the goods and services available in the district by enhancing the aesthetic quality of signs in this district.

(f) To encourage artistic, creative, and innovative signs that reflect the themes of the area.

(g) To promote safety, communications efficiency, and landscape quality and preservation as described in Section 51A-7.101. (Ord. 21145)

SEC. 51A-7.1504. DEFINITIONS.

(a) Unless the context clearly indicates otherwise, in this division:

(1) ARCADE means any structure that is attached to a building and neither fully enclosed on all sides nor structural to the building itself, which is covered by a roof having the primary function of weather protection for a walkway.

(2) FLAT ATTACHED SIGN means an attached sign projecting from a building and parallel to the building facade.

(3) HIGHRISE BUILDING means a building that has a height of more than 36 feet.

(4) LOWER FACADE means the area of a highrise building facade that is 36 feet or less above grade when measured vertically.

(5) LOWRISE BUILDING means a building that has a height of 36 feet or less.

(6) MARQUEE SIGN means a sign attached to, applied on, or supported by a permanent canopy projecting over a pedestrian street entrance of a building, and consisting primarily of changeable panels, words, or characters.

(7) PAINTED APPLIED SIGN means a sign painted directly onto the exterior facade of a building, not including doors and windows.

(8) PROJECTING ATTACHED SIGN means an attached sign projecting 18 or more inches from a building.

(9) SMALL WORD means a word with no character that exceeds four inches in height.

(10) THIS DISTRICT means the McKinney Avenue Sign District.

(11) UPPER FACADE means the area of a highrise building facade that is more than 36 feet above grade when measured vertically.

(12) WINDOW SIGN means a sign painted or affixed to a window.

(b) Except as otherwise provided in this section, the definitions contained in Sections 51A-2.102 and 51A-7.102 apply to this division. In the event of a conflict, this section controls. (Ord. 21145)
SEC. 51A-7.1505. SIGN PERMIT REQUIREMENTS.

The regulations relating to the erection of all signs in this district are expressly modified as follows:

(a) No person may alter, erect, maintain, expand, or remove a sign in this district without first obtaining a sign permit from the city. This section does not apply to government signs described in Section 51A-7.207.

(b) The procedure for obtaining a sign permit is outlined in Section 51A-7.505. Section 51A-7.602 does not apply to signs in this district. (Ord. 21145)

SEC. 51A-7.1506. SPECIAL PROVISIONS FOR ALL SIGNS.

The regulations relating to the erection of all signs in this district are expressly modified as follows:

(a) Signs in right-of-way. Signs in this district are permitted to overhang the public right-of-way subject to city franchising requirements.

(b) Materials.

(1) The use of plastic is prohibited, except when it is:

(A) used as a decoration (as opposed to a character) on the exterior face of a sign, in which case no more than five percent of the effective area of the sign may consist of plastic;

(B) placed behind the exterior face of a sign in places where that face has been cut in the shape of a character; or

(C) used in or on a marquee sign.

(2) Although not required, painted applied signs and enameled metal sheet signs are encouraged.

(c) Lighting.

(1) The only light sources that may be used to illuminate a sign are cold cathode, neon, and incandescent lamps.

(2) A light source external to a sign may illuminate a sign if the light does not cross into either a public right-of-way or a residential zoning district.

(3) Illuminated signs on translucent fabric are encouraged.

(4) No light used to illuminate a sign may turn on or off, or change its brightness more than twice a day.

(d) Colors. Fluorescent and neon colors on signs are prohibited. (Ord. 21145)

SEC. 51A-7.1507. SPECIAL PROVISIONS FOR ATTACHED SIGNS.

The regulations relating to the erection of attached signs in this district are expressly modified as follows:

(a) Location restrictions.

(1) No attached sign may be erected on a facade unless it faces a public right-of-way that is adjacent to the lot where the sign is proposed to be located.

(2) No small words may be on an attached sign erected partially or totally within an upper facade in either the Spine or Quadrangle Subdistricts.

(3) In the Peripheral Subdistrict, no attached sign may be erected on:

(A) an upper facade; or

(B) a lot where a detached sign is erected.
(b) Effective area.

(1) Spine and Quadrangle Subdistricts. In the Spine and Quadrangle Subdistricts, the combined effective area of all attached signs:

(A) on a lowrise building or a lower facade may not exceed ten percent of the total area of the building facade or the lower facade, as the case may be; and

(B) on an upper facade may not exceed five percent of the total area of the lower facade.

(2) Peripheral Subdistrict. In the Peripheral Subdistrict, the combined effective area of all attached signs on a lowrise building or a lower facade may not exceed eight percent of the total area of the building facade or the lower facade, as the case may be.

c) Flat attached signs.

(1) No flat attached sign may project more than eight inches from a building.

(2) A flat attached sign may be erected on an arcade, but it may not project above the roof of the attached building.

d) Projecting attached signs.

(1) A projecting attached sign may be erected on an arcade, but it may not project above the roof of the attached building.

(2) No projecting attached sign may be erected partially or totally within an upper facade.

(3) No face of a projecting attached sign erected below the bottom of a second story window may exceed eight square feet.

(4) No face of a projecting attached sign erected above the bottom of a second story window may exceed 15 square feet.

e) Marquee signs.

(1) No marquee sign may:

(A) exceed 100 square feet in effective area;

(B) be longer than one-half of the length of the frontage of the building to which the marquee is attached; and

(C) be located above the bottom of a second story window.

(2) A marquee sign must:

(A) be parallel to the surface to which it is attached; and

(B) have a height dimension between two and six feet.

(3) No premise may have more than one marquee sign.

(4) A marquee sign may be erected only on a building that contains a theater use.

(5) A marquee sign may consist of up to 100 percent plastic.

f) Window signs.

(1) Except as modified by Paragraph (2), the effective area of a window sign may not exceed more than 25 percent of the area of a window or 10 percent of the facade area, whichever is less.

(2) If a window sign uses neon bulbs, the effective area of that sign may not exceed more than 15 percent of the area of a window.

(3) No window sign may be erected on an upper facade. (Ord. 21145)
SEC. 51A-7.1508. SPECIAL PROVISIONS FOR DETACHED SIGNS.

The regulations relating to the erection of detached signs in this district are expressly modified as follows:

(a) No detached sign may:

   (1) exceed 20 feet in height; or

   (2) be located within five feet of any public right-of-way.

(b) If a detached sign has an effective area of more than 10 square feet, it must be located at least 10 feet from any public right-of-way.

(c) No detached sign may have an effective area of more than:

   (1) 150 square feet if the sign is located in the Quadrangle Subdistrict;

   (2) 20 square feet if the sign is located in the Spine Subdistrict; and

   (3) 15 square feet if the sign is located in the Peripheral Subdistrict.

(d) In the Peripheral Subdistrict, no detached sign may be erected on a lot where an attached sign is erected.

(e) Detached non-premise signs are prohibited in this district. (Ord. 21145)

Division 51A-7.1600. Farmers Market Sign District.

SEC. 51A-7.1601. DESIGNATION OF SIGN DISTRICT.

A special provision sign district is hereby created to be known as the Farmers Market Sign District. The boundaries of the Farmers Market Sign District are the same as those of the Farmers Market Special Purpose District (Planned Development District No. 357). (Ord. Nos. 22097; 29233)

SEC. 51A-7.1601.1. DESIGNATION OF SIGN SUBDISTRICTS.

(a) Camden Sign Subdistrict. The Camden Sign Subdistrict is that area of the Farmers Market Sign District within the following described boundaries:

TRACT 1:

BEING all of Lot 2B in City Block 40/164.

TRACT 2:

BEING all of Lot 1A in City Block 7/153.

TRACT 3:

BEING a tract of land situated in the John Grigsby Survey, Abstract No. 495, in the City of Dallas, Dallas County, Texas and being a portion of Blocks 142, 5/155/4/156, 36/168 and 37/167, a portion of a 200-foot-wide H. & T.C. Railroad right-of-way, a portion of a 150-foot-wide T. & N.O. Railroad spur right-of-way, all as dedicated on the Final Plat of Railroad Addition, an Addition to the City of Dallas according to the Map or Plat thereof recorded in Volume 4 at Page 350 of the Map Records of Dallas County, Texas, a portion of a 20-foot-wide alley situated in Block 4/156 abandoned in Ordinance No. 8234, a portion of St. Louis Street, Paris Street and a w-foot wide alley abandoned in Ordinance No. 11472, a portion of St. Louis Street and...
§ 51A-7.1601.1 Dallas Development Code: Ordinance No. 19455, as amended

20-foot-wide alleys situated in Blocks 36/168 and 37/167 abandoned Ordinance No. 1570 and a portion of Central Expressway as abandoned on Ordinance No. 23588, same being a portion of Tract “O” conveyed to Camden Property Trust as evidence by a Special Warranty Deed recorded in Volume 98040 at Page 02379 of the Deed Records of Dallas County, Texas (D.R.D.C.T.) and being more particularly described by metes and bounds as follows (bearing based on the southwest right-of-way line of Good-Latimer Expressway as described in Ordinance No. 21092, recorded in Volume 91249 at Page 4100 D.R.D.C.T., said bearing being North 36°50'46" West):

BEGINNING at a nail found for the east corner of aforesaid Tract “O,” same being the north corner of a tract of land conveyed to Graybar Electric, Inc., as evidenced in a deed recorded in Volume 3502 at Page 282 D.R.D.C.T., said nail also being on the southwest right-of-way line of Good-Latimer Expressway (a variable width right-of-way);

THENCE in a southwesterly direction, departing the southwest right-of-way line of said Good-Latimer Expressway and along the southwest line of said Tract “O,” the following:

South 53°05’14" West, a distance of 219.11 feet to the point of curvature of a corner to the left;

Along the arc of said curve to the left, through a central angle of 28°50’05", having a radius of 219.64 feet and an arc length of 111.05 feet to a 1/2-inch rod found for the end of said curve;

South 36°29’26" East, a distance of 29.78 feet to a 1/2-inch rod found for corner;

South 53°10’39" West, a distance of 424.89 feet to a corner;

South 36°45’09" East, a distance of 93.67 feet to a corner;

South 52°02’59" West, a distance of 350.00 feet to the south corner of said Tract “O,” same being on the northeast right-of-way line of Cesar Chavez Boulevard (formerly Central Expressway) (a variable width right-of-way);

THENCE in a northwesterly direction, along the southwest line of said Tract “O” and the northeast right-of-way line of said Cesar Chavez Boulevard (formerly Central Expressway), the following:

North 27°01’56" West, a distance of 201.55 feet to a chiseled cross found for the point of curvature of a curve to the left;

Along the arc of said curve to the left, through a central angle of 68°13’29", having a radius of 67.00 feet and an arc length of 79.78 feet to the chiseled cross found for the end of said curve;

North 24°20’27" West, a distance of 145.68 feet to a chiseled cross found for the point of curvature of a curve to the left;

Along the arc of said curve through a central angle of 06°14’28", having a radius of 424.70 feet and an arc length of 46.26 feet to a chiseled cross found for the end of said curve;

North 53°21’43" East, a distance of 93.54 feet to a 1/2-inch iron rod found for the point of curvature of a non-tangent curve to the left;

Along the arc of said curve to the left, through a central angle of 06°50’22", having a radius of 1071.00 feet, a chord bearing of North 82°15’38” West, a chord distance of 127.77 feet and an arc length of 127.85 feet to a chiseled cross found for the end of said curve, same being the south corner of a portion of Cesar Chavez Boulevard (formerly Central Expressway) as abandoned by aforesaid Ordinance No. 23588, recorded in Volume 98187 at Page 061815 D.R.D.C.T.;

THENCE North 36°50’27” West, along the southwest line of said abandonment, and along the current northwest right-of-way line of said Cesar Chavez Boulevard (formerly Central Expressway), a distance of 123.76 feet to the intersection of the northeast right-of-way line of said Cesar Chavez Boulevard (formerly
§ 51A-7.1601.1 Dallas Development Code: Ordinance No. 19455, as amended

Central Expressway) with the curving southeast right-of-way line of Marilla Street (a variable width right-of-way at this point) as described in a deed recorded in Volume 98183 at Page 05868 D.R.D.C.T., said curve being a curve to the right;

THENCE in a northeasterly direction, along the southeast right-of-way line of said Marilla Street, the following:

Along the arc of said curve to the right, through a central angle of 89°59'41", having a radius of 15.00 feet and an arc length of 23.56 feet to the point of tangency of said curve (Marilla Street being 58-foot-wide at this point);

North 53°09'14" East, a distance of 434.59 feet to the intersection of the southeast right-of-way line of said Marilla Street with the southwest right-of-way line of Farmers Market Way (a 58-foot-wide right-of-way);

THENCE South 36°50'46" East, along the southwest right-of-way line of said Farmers Market Way, a distance of 127.50 feet to the intersection of the southwest right-of-way line of said Farmers Market Way with the southeast right-of-way line of Taylor Street (a 58-foot-wide right-of-way);

THENCE North 53°09'14" East, along the southeast right-of-way line of said Taylor Street, a distance of 491.01 feet to the point of curvature of a curve to the right;

THENCE in a easterly direction, continuing along the southeast right-of-way line of said Taylor Street and along the arc of said curve to the right, through a central angle of 90°00'00", having a radius of 15.00 feet and an arc length of 23.56 feet to the point of tangency of said curve, same being on the northeast line of said Tract "O," said corner also being the intersection of the southeast right-of-way line of said Taylor Street with the southwest right-of-way line of aforesaid Good-Latimer Expressway;

THENCE South 39°14'11" East, along the northeast line of said Tract "O" and the southwest right-of-way line of said Good-Latimer Expressway, a distance of 411.92 feet to the POINT OF BEGINNING and containing 11.534 acres of land, more or less.

(b) Market Center Sign Subdistrict. The Market Center Sign Subdistrict is that area of the Farmers Market Sign District within the following described boundaries:

BEGINNING at the south corner of a corner clip in the northeast line of Harwood Street and the southwest line of City Block 131;

THENCE North 08°36'06" East, along said corner clip, a distance of 40.00 feet to a point for corner in the south line of said Marilla Street, said point being the north corner of said corner clip;

THENCE along the south line of Marilla Street the following calls;

North 74°47'11" East, a distance of 142.30 feet to a point for corner;

South 45°01'41" East, a distance of 1.11 feet to a point for corner;

North 78°16'02" East, a distance of 192.25 feet to a point for corner;

North 77°52'42" East, a distance of 87.67 feet to a point for corner;

North 74°22'09" East, a distance of 373.33 feet to a point for corner, in the southwest line of South Cesar Chavez Boulevard (a variable width right-of-way);

THENCE South 36°00'00" East, along the southwest line of said Cesar Chavez Boulevard, a distance of 601.81 feet to a point for corner;

THENCE South 32°25'25" East, a distance of 80.16 feet to a point for corner;
THENCE South 10°11'11" East, a distance of 220.32 feet to a point for corner in the south line of Gibson Street, abandoned by Ordinance;

THENCE South 45°34'13" West, along the south line of said abandoned Gibson Street, a distance of 89.59 feet to a point for corner;

THENCE South 71°04'56" West, a distance of 431.66 feet to a point for corner in the northeast line of aforementioned Harwood Street;

THENCE North 45°02'47" West, continuing along the northeast line of said Harwood Street, a distance of 733.28 feet to a point for corner;

THENCE North 45°01'41" West, continuing along the northeast line of said Harwood Street, a distance of 313.77 feet to the POINT OF BEGINNING and containing 15.03 acres or 654,661 square feet of land, more or less. (Ord. Nos. 24424; 29233; 29557)

SEC. 51A-7.1602. PURPOSE.

The purpose of this division is to promote signage that is compatible with the architectural character and design guidelines of the Farmers Market Planned Development District while encouraging artistic, creative, and innovative signs that are reflective of themes that have grown and developed in Farmers Market area. (Ord. Nos. 22097; 29233)

SEC. 51A-7.1603. DEFINITIONS.

(a) In this division:

(1) ARTWORK means any pictorial or image presentation or design.

(2) BANNER means a sign attached to or applied on a strip of cloth.

(3) CANOPY SIGN means a sign attached to or applied on a canopy or awning.

(4) DISTRICT IDENTIFICATION SIGN means an attached or detached sign identifying the Farmers Market.

(5) FLAT ATTACHED SIGN means an attached sign projecting 18 inches or less from a building and parallel to the building facade.

(6) KIOSK means a detached multi-sided structure for the display of premise and non-premise signs.

(7) MARQUEE SIGN means a sign attached to, applied on, or supported by a permanent canopy projecting over a pedestrian street entrance of a building, and consisting primarily of changeable panels or words.

(8) MONUMENT SIGN means a detached premise sign applied directly onto a grade-level support structure (instead of a pole support) with no separation between the sign and the ground, or mounted on a fence or masonry wall.

(9) PROJECTING ATTACHED SIGN means an attached sign projecting 18 or more inches from a building.

(10) ROOF SIGN means a sign that is attached to or supported by the roof of a building constructed after December 11, 2013.

(11) SUPERGRAPHIC SIGN means a large attached premise or non-premise sign on a mesh or fabric surface, or a projection of light image onto a wall face without the use of lasers.

(12) THIS DISTRICT means the Farmers Market Sign District.

(13) VIDEOBOARD SIGN means a flat screen that is capable of displaying moving images similar to television images, by light-emitting diode or other similar technology and that is mounted to the exterior of a building.
§ 51A-7.1603 Dallas Development Code: Ordinance No. 19455, as amended § 51A-7.1606

(14) WINDOW SIGN means a sign painted or affixed onto a window.

(b) Except as otherwise provided in this section, the definitions in Sections 51A-2.102 and 51A-7.102 apply to this division. If there is a conflict, this section controls. (Ord. Nos. 22097; 29233)

SEC. 51A-7.1604. SIGN PERMIT REQUIREMENTS.

(a) No person may alter, place, maintain, expand, or remove a sign in this district without first obtaining a sign permit from the city. This section does not apply to government signs described in Section 51A-7.207.

(b) Except as otherwise provided in this division, the procedure for obtaining a sign permit is outlined in Section 51A-7.505.

(c) Section 51A-7.602 does not apply to signs in this district. (Ord. Nos. 22097; 29233)

SEC. 51A-7.1605 SPECIAL PROVISIONS FOR ALL SIGNS.

(a) Signs may be located within the right-of-way subject to the licensing requirements of Chapter XIV of the City Charter, Article VI of Chapter 43 of the Dallas City Code, the Dallas Building Code, and all other applicable laws, codes, ordinances, rules, and regulation.

(b) Except as otherwise provided in Subsection (c), the maximum effective area of all signs combined on a premise is 10 percent of the total area of all building facades facing public right-of-way that is adjacent to the premise.

(c) When more than 50 percent of the total effective area of all signs combined on a premise is devoted to artwork, the maximum effective area of all signs combined on a premise is 15 percent of the total area of all building facades facing public right-of-way that is adjacent to the premise.

(d) All signs must be premise signs or convey a noncommercial message.

(e) Special purpose signs may be erected on a premise no more than once each calendar year. The maximum number of consecutive days that a special purpose sign may be maintained is 15.

(f) The use of neon or single incandescent bulbs is permitted.

(g) No portions of a sign other than the words themselves may be illuminated by back-lighting.

(h) No portion of a sign may have a luminance greater than 200 footlamberts.

(i) The following materials are suggested, but not required, for signs in this district:

(1) Metal.

(2) Glass.

(3) Wood. (Ord. Nos. 22097; 29233)

SEC. 51A-7.1606. SPECIAL PROVISIONS FOR ATTACHED SIGNS.

(a) In general. The regulations relating to the erection of attached signs in this district are expressly modified as follows:

(b) Attached signs in general.

(1) No portion of an attached sign may be located:

(A) more than 10 feet from the facade to which it is attached; or

Dallas City Code 621
§ 51A-7.1606 Dallas Development Code: Ordinance No. 19455, as amended

(B) less than two feet from the back of a street curb.

(2) Although not required, the use of three-dimensional projecting attached signs is encouraged.

(c) Banners.

(1) Banners are permitted in this district to promote cultural events or activities.

(2) If the cultural event or activity has a sponsor, no more than 10 percent of the effective area of the banner may be used for sponsor identification.

(3) No portion of a banner may be used to advertise a specific product or service other than the cultural event or activity.

(d) Canopy signs. Canopy signs must be flat-attached or painted directly onto the surface of the canopy.

(e) Marquee signs.

(1) No premise may have more than one marquee sign.

(2) The length of a marquee sign must not exceed two-thirds of the length of the facade to which it is attached.

(3) Marquee signs may incorporate moving patterns or bands of light, except that the use of illumination to produce apparent motion of a visual image, such as expanding or contracting shapes, rotation, or similar effects of animation, is prohibited.

(f) Window sign. No window sign may cover more than 25 percent of the window surface area.

(g) Camden Sign Subdistrict.

(1) No more than four attached signs are permitted in this subdistrict.

(2) No attached sign may exceed 50 square feet in effective area.

(3) Each attached sign may contain a maximum of eight words, except that words consisting of characters less than four inches in height may be used without limit.

(4) No more than two signs may be attached to any one facade.

(h) Attached movement control signs in the Camden Sign Subdistrict.

(1) No more than four attached movement control signs are permitted in this subdistrict.

(2) No attached movement control sign may exceed four square feet in effective area.

(3) No attached movement control sign may identify the name or logo of more than one occupant of the premise. (Ord. Nos. 22097; 24424; 29233)

SEC. 51A-7.1607 SPECIAL PROVISIONS FOR DETACHED SIGNS.

(a) In general. The regulations relating to the erection of detached signs in this district are hereby expressly modified as follows:

(1) Except as otherwise provided in this section, no premise having an attached sign of any type, except for banners, may have a detached sign.

(2) A premise that has no attached signs other than banners, and that has frontage along more than one street, may have one detached sign along each street frontage.

(3) No detached sign support may be located in the public right-of-way.
§ 51A-7.1607  Dallas Development Code: Ordinance No. 19455, as amended § 51A-7.1608

(b) Detached signs in the Camden Sign Subdistrict.

(1) No more than four detached signs are permitted in this subdistrict.

(2) Each detached sign must be:

(A) an integral part of the fence or wall; and

(B) constructed of masonry, stone, or similar material with metal letters and symbols.

(3) No minimum setback is required for each detached sign, except that each detached sign must comply with all visibility obstruction regulations.

(4) No detached sign may exceed 30 square feet in effective area.

(5) No detached sign may be closer than 200 feet from another detached premise sign on the same premise.

(6) A detached movement control sign may be located within a visibility triangle, as defined in Section 51A-4.602(d), if the director finds that the sign will not pose a traffic hazard. (Ord. Nos. 22097; 24424; 25047; 28073; 29233)

SEC. 51A-7.1608. SPECIAL PROVISIONS FOR THE MARKET CENTER SIGN SUBDISTRICT.

(a) In general.

(1) Except as otherwise provided in this section, the regulations in Sections 51A-7.1601 through 51A-7.1607 apply to the Market Center Sign Subdistrict. If there is a conflict between this section and Sections 51A-7.1601 through 51A-7.1607, this section controls.

(2) Permit applications are reviewed using the director procedure in Section 51A-7.505.

(3) Signs may be located within the right-of-way subject to the licensing requirements of Chapter XIV of the City Charter, Article VI of Chapter 43 of the Dallas City Code, the Dallas Building Code, and all other applicable laws, codes, ordinances, rules, and regulation.

(b) Special provisions for attached signs.

(1) Except district identification, roof, supergraphic, and videoboard signs, all attached signs must be premise signs.

(2) Attached signs may cover up to 50 percent of a building’s total facade area.

(3) Attached signs may not cover doors or windows.

(c) Special provisions for detached signs.

(1) Except detached movement control signs, district identification, and kiosk signs, all detached signs must be monument premise signs.
(2) Detached signs may be located on a premise with attached signs.

(3) A detached movement control sign is not a monument sign.

(d) District identification signs.

(1) A maximum of five district identification signs are permitted.

(2) Except as otherwise provided in this paragraph, district identification signs may only be located over and span across the rights-of-way at the following locations:

(A) Marilla Street and Pearl Street;
(B) Taylor Street and Cesar Chavez Boulevard;
(C) Taylor Street and Harwood Street; and
(D) Cesar Chavez Boulevard and Farmers Way.

(3) Minimum clearance for a district identification sign located over and spanning across a right-of-way must be determined by the director of the department of transportation before a district identification sign permit may be issued.

(4) A district identification sign that is located over and spanning across a right-of-way may not resemble or obstruct any traffic control devices.

(5) One district identification sign may be located on top of a building at the southeast corner of Farmers Way and Pearl Street. Maximum height of the district identification sign on top of a building at the southeast corner of Farmers Way and Pearl Street is 30 feet.

(6) Maximum effective area of a district identification sign is 1,000 square feet.

(7) A district identification sign may not be located in or visually obstruct a visibility triangle as defined in the visual obstructions regulations in Section 51A-4.602(d).

(e) Kiosks.

(1) A maximum of 10 kiosks are permitted.

(2) Except city kiosks, kiosks may not be located in the rights-of-way.

(3) Kiosks must be spaced at least 50 feet from another kiosk.

(4) Kiosks may not be illuminated by a detached independent external light source.

(5) Kiosks may not exceed 10 feet in height and 100 square feet in effective area.

(f) Monument signs.

(1) A maximum of five monument signs are permitted.

(2) Maximum effective area of a monument sign is 50 square feet.

(3) Maximum height of a monument sign is 15 feet.

(4) No monument sign may be closer than 200 feet from another monument sign on the same premise.

(g) Roof signs.

(1) A maximum of two roof signs are permitted.

(2) A roof sign may not be located on the same building as another roof sign.
(3) A roof sign may not exceed 1,200 square feet in effective area.

(4) At least 15 percent of the effective area of a roof sign must identify the Farmers Market.

(5) A roof sign must comply with the Dallas Fire Code and must be approved by the fire marshal before a sign permit may be approved by the director.

(h) **Supergraphic signs.**

(1) **In general.**

(A) Two supergraphic signs are permitted in addition to the number of supergraphic signs permitted in Section 51A-7.930.

(B) Supergraphic signs may be located on the facade of any building.

(2) **Visual display and coverage.**

(A) Except as provided in this subparagraph, a supergraphic sign must have one large visual display with a minimum of 80 percent non-textual graphic content (no more than 20 percent text).

(i) Multiple displays giving an appearance of multiple signs are prohibited.

(ii) The effective area of text is the sum of the areas within minimum imaginary rectangles of vertical and horizontal lines, each of which fully contains a word.

(B) Supergraphic signs are intended to be creative and artful and not strictly a representation of an advertised product. It is the intent of this provision to:

(i) encourage the use of illustrative images or other non-repetitive design elements;

(ii) encourage visually interesting, vibrant, and colorful designs;

(iii) discourage use of solid colors or repetitive design elements; and

(iv) discourage an image of a single product or product logo without other graphic elements.

(C) Supergraphic signs may be internally or externally illuminated. If internally illuminated, a supergraphic sign may consist of translucent materials, but not transparent materials.

(3) **Extensions.**

(A) Except as otherwise provided in Subparagraph (B), a supergraphic sign may not extend beyond the edge of the face of the building to which it is attached.

(B) A supergraphic sign may wrap around the edge of a building if:

(i) both building facades to which the supergraphic sign is attached are otherwise eligible facades; and

(ii) the supergraphic sign is one continuous image.

(4) **Message duration.** A supergraphic sign location may not display the same message for more than four consecutive months in any 12-month period.

(5) **Hardware fasteners.** All hardware fasteners for a supergraphic sign must comply with the Dallas Building Code and all other ordinances, rules, and regulations of the City of Dallas.

(6) **HBA signs prohibited.** No supergraphic sign may be a Highway Beautification Act (HBA) sign as defined in Section 51A-7.102.
§ 51A-7.1608 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-7.1608 Videoboard signs.

1. In general.

(A) A maximum of two videoboard signs are permitted.

(B) Videoboard signs must have a vertical orientation with height exceeding the width at a minimum 16:9 height-to-width ratio.

(C) Videoboard signs may project a maximum of 12 feet into the right-of-way:

(i) subject to review by the traffic engineer to ensure that the sign will not pose a traffic hazard or visibility obstruction; and

(ii) provided that no videoboard sign may be project closer than two feet to a vertical plane extending through the back of a street curb.

(D) Videoboard signs must have a minimum clearance of 15 feet above the sidewalk and a maximum clearance of 35 feet above the sidewalk.

(E) Videoboard signs must have videoboard displays on both sides of the sign.

(F) Videoboard signs may have a maximum 150 square feet in effective area.

2. Display.

(A) All videoboard signs must:

(i) contain a default mechanism that freezes the image in one position in case of a malfunction;

(ii) automatically adjust the sign brightness based on natural ambient light conditions in compliance with the following formula:

(aa) the ambient light level measured in luxes, divided by 256 and then rounded down to the nearest whole number, equals the dimming level; then,

(bb) the dimming level, multiplied by .0039 equals the brightness level; then,

(cc) the brightness level, multiplied by the maximum brightness of the specific sign measured in nits, equals the allowed sign brightness, measured in nits. For example:

\[
\frac{32768}{256} = 128 = \text{dimming level} \\
128 \times .0039 = 0.4992 = \text{brightness level} \\
0.4992 \times 9000 = 4492.8 = \text{allowed brightness in nits}
\]

(dd) be turned off between 1:00 a.m. and 7:00 a.m. Monday through Friday and 2:00 a.m. and 8:00 a.m. on Saturday and Sunday; and

(ee) not display light of such intensity or brilliance to cause glare, impair the vision of an ordinary driver, or constitute a nuisance.

(B) Videoboard signs must:

(i) have a full color display able to display a minimum of 281 trillion color shades; and

(ii) be able to display a high quality image with a minimum resolution equivalent to the following table:

<table>
<thead>
<tr>
<th>Video board Sign Resolution Chart</th>
</tr>
</thead>
<tbody>
<tr>
<td>100 s/f to 125 s/f</td>
</tr>
<tr>
<td>Greater than 126 s/f</td>
</tr>
</tbody>
</table>

3. Light intensity. Before the issuance of a videoboard sign permit, the applicant shall provide written certification from the sign manufacturer that the light intensity:
(A) has been factory programmed to comply with the maximum brightness and dimming standards in Provision (j)(2)(A)(ii)(cc); and

(B) is protected from end-user manipulation by password-protected software, or other method satisfactory to the building official.

(4) Change of message. Except as provided in this paragraph, changes of message must comply with the following:

(A) Each message must be displayed for a minimum of eight seconds.

(B) Changes of message must be accomplished within two seconds.

(C) Changes of message must occur simultaneously on the entire sign face.

(D) No flashing, dimming, or brightening of message is permitted except to accommodate changes of message.

(5) Streaming information. If a special events permit has been issued for subdistrict activities, streaming video and audio is permitted, except that ticker tape streaming is permitted at all times when the videoboard sign is operating. Ticker tape streaming must be located within the bottom 10 percent of the effective area.

(6) Malfunction. Videoboard sign operators must respond to a malfunction or safety issue within one hour after notification.

(j) Detached movement control signs in the Market Center Sign Subdistrict.

(1) A maximum of five detached movement control signs may be erected in this subdistrict.

(2) No minimum distance is required between a detached movement control sign and any other sign in this subdistrict.
§ 51A-7.1700 Dallas Development Code: Ordinance No. 19455, as amended

Division 51A-7.1700.
Provisions for Victory Sign District.

SEC. 51A-7.1701. DESIGNATION OF VICTORY SIGN DISTRICT.

(a) A special provision sign district is hereby created to be known as the Victory Sign District.

(b) Any portion of this district that was formerly part of the Downtown Special Provision Sign District is no longer considered to be part of that district. This division completely supersedes Division 51A-7.900 with respect to the property within this district.

(c) This district is that area of the city within the boundaries described in Exhibit A attached to Ordinance No. 30043, passed by the Dallas City Council on March 23, 2016. (Ord. Nos. 24348; 25918; 30043)

SEC. 51A-7.1702. DESIGNATION OF SUBDISTRICTS.

(a) This district is hereby divided into four subdistricts: Subdistricts A, B, C, and D. Subdistrict B has three subareas, B-1, B-2, and B-3. Subdistrict C has two tracts. Subdistrict D has one subarea, D-1.

(b) The subdistrict boundaries are described in Exhibit B attached to Ordinance No. 30043, passed by the Dallas City Council on March 23, 2016. (Ord. Nos. 24348; 25918; 30043)

SEC. 51A-7.1703. PURPOSE.

(a) The purpose of these sign regulations is to encourage and regulate the erection and display of signs that will create a unique, lively, and commercially-active environment that is bright and safe, and that incorporates diverse, state-of-the-art graphic technologies.

(b) These sign regulations have been developed to achieve the following objectives in this district:

(1) To create an atmosphere of vitality appropriate for a place where thousands of citizens gather for entertainment and celebration.

(2) To encourage the use of signs that are innovative, colorful, and entertaining, and that bring a distinctive character to this district.

(3) To identify and promote special events and cultural activities that will occur in this district.

(4) To encourage signs with a style, orientation, and location that take into consideration the high number of pedestrians expected within this district.

(5) To communicate clear directions to and through this district.

(6) To promote the economic success of businesses in this district. (Ord. Nos. 24348; 25918)

SEC. 51A-7.1704. DEFINITIONS.

(a) In this division:

(1) ADVERTISE means to attract, or to attempt to attract, the attention of any person to any business, accommodations, goods, services, property, or commercial activity.

(2) ATTACHED SIGN means any sign attached to, applied on, or supported by, any part of a building (such as a wall, parapet, roof, window, canopy, awning, arcade, or marquee) that encloses or covers usable space, and any sign attached to, applied on, or supported by, mounted antennas, water reservoirs on buildings, chimneys, and visual screens that surround roof-mounted equipment. For the following signs, the term attached sign also means any sign attached to, applied on, or supported by the exterior structural framing of a building or...
architectural elements of a building, whether or not the exterior structural framing or architectural elements enclose or cover usable space:

(A) Signs on buildings adjacent to an entertainment complex plaza.

(B) A hotel spectacular sign as described in Section 51A-7.1727(d).

(3) AWNING SIGN means a sign that is attached to or applied or painted on an awning.

(4) BANNER means a sign attached to or applied on a strip of cloth, vinyl, or similar material and attached to a building or structure. Canopy signs and flags are not banners.

(5) BLOCK means an area bounded by streets on all sides.

(6) BLOCKFACE means all of the premises on one side of a block.

(7) BUILDING means a structure that has a roof supported by columns, walls or air for the shelter, support, or enclosure of persons, animals or chattel.

(8) CANOPY SIGN means a sign attached to, applied on, or supported by a canopy.

(9) CHANGEABLE MESSAGE SIGN means a sign displaying static or moving images (similar to television images) that may display different designs, messages, or advertisements and that may include LED/LCD elements, slide lettering, slated rotating surfaces, or other changeable message technology.

(10) CHARACTER means any letter of the alphabet or numeral.

(11) CITY means the city of Dallas, Texas.

(12) COMMERCIAL MESSAGE means a message placed or caused to be placed before the
Dallas Development Code: Ordinance No. 19455, as amended

[Intentionally left blank]
§ 51A-7.1704  Dallas Development Code: Ordinance No. 19455, as amended  § 51A-7.1704

public by a person or business enterprise directly involved in the manufacture or sale of the products, property, accommodations, services, attractions, or activities or possible substitutes for those things which are the subject of the message and that:

(A) refers to the offer for sale or existence for sale of products, property, accommodations, services, attractions, or activities; or

(B) attracts attention to a business or to products, property, accommodations, services, attractions, or activities that are offered or exist for sale or for hire.

(13) COMMISSION means the city plan commission of the city of Dallas.

(14) DETACHED SIGN means any sign connected to the ground that is not an attached, portable, or vehicular sign.

(15) DIRECTOR means the director of planning and development of the city or that director’s designated representative.

(16) DISTRICT ACTIVITIES means: (A) the name, trade name, or logo of the owner or occupant of any premise within this district; (B) the identification of any premise within this district; (C) any accommodations, services, or activities offered or conducted, other than incidentally, on any premise within this district; (D) products sold, other than incidentally, on any premise within this district; and (E) the sale, lease, or construction of any premise within this district.

(17) EFFECTIVE AREA means the following:

(A) For marquee and other changeable message signs and detached signs other than monument signs, the area within a minimum imaginary rectangle of vertical and horizontal lines that fully contains all extremities of the sign, excluding its supports, mast, and finial that does not include patterns, characters, logos, or illustrations. The rectangle is calculated from an orthographic projection of the sign viewed horizontally. The viewpoint for this projection that produces the largest rectangle must be used. If elements of the sign are moveable or flexible, such as a flag or a string of lights, the measurement is taken when the elements are fully extended and parallel to the plane of view. If an attached sign moves or rotates, the sign's effective area shall be measured when the sign is stationary and shall not be based on the entire area within which the sign moves or rotates.

(B) For monument signs and attached signs other than marquee and other changeable message signs, the sum of the areas within minimum imaginary rectangles of vertical and horizontal lines, each of which fully contains a word, excluding a mast and finial that does not include patterns, characters, logos, or illustrations. If a design, outline, illustration, or interior illumination surrounds or attracts attention to a word, then it is included in the calculation of the effective area. An awning or canopy is not included in the calculation of the effective area.

(17.1) ENHANCED BANNER SIGN means a district identification sign consisting of a pole displaying banners and elements that display the name or logo of the district.

(18) ENTERTAINMENT COMPLEX means a public, multi-use sports, entertainment, and convention facility with a seating capacity of at least 15,000, where people view and participate in events and performances, including, but not limited to, theatrical, musical and dramatic performances, professional or amateur sporting events, and meetings and assemblages.

(19) ENTERTAINMENT COMPLEX PLAZA means any outdoor area (whether publicly or privately owned) that is accessible to the public, and that is: (A) at least 10,000 square feet in size; (B) adjacent to an entertainment complex; or (C) within 300 feet of, and has direct pedestrian access to, an entertainment complex. Direct pedestrian access includes, but is not limited to, access across public or private streets.
(20) ERECT means to build, attach, hang, place, suspend, fasten, affix, maintain, paint, draw, or otherwise construct.

(21) EXPRESSWAY means Interstate Highway 35E and Woodall Rodgers Freeway.

(22) EXPRESSWAY-FACING FACADE means a facade that is parallel to or within 45° of the travel lanes of an expressway.

(23) FACADE means any separate face of a building, including parapet walls and omitted wall lines, or any part of a building which encloses or covers usable space, chimneys, roof-mounted equipment, mounted antennas, or water towers. Where separate faces are oriented in the same direction or in directions within 45° of one another, they are to be considered as part of a single facade. A roof is not a facade or part of a facade. Multiple buildings on the same lot will each be deemed to have separate facades. For purposes of these sign regulations, each 250 linear feet, or fraction thereof, of an expressway-facing facade in Subdistrict C is deemed to be a separate facade. For signs located on buildings adjacent to an entertainment complex plaza and the hotel spectacular sign, as described in Section 51A-7.1727(d), the term facade includes the exterior structural framing of a building or architectural elements of the building, whether or not the exterior structural framing or architectural element encloses or covers usable space.

(23.1) FINIAL means a single stationary ornamental element above a sign that may include a light.

(24) FLAT ATTACHED SIGN means an attached sign projecting 18 inches or less from a building.

(25) GOVERNMENT SIGN means a flag, insignia, legal notice, informational, directional, traffic, or safe school zone sign which is legally required or necessary to the essential functions of government agencies.

(26) HEIGHT, as applied to a sign, means the vertical distance between the highest part of the sign or its supporting structure, whichever is higher, and a level plane going through the nearest point of the vehicular traffic surface of the adjacent improved public right-of-way, other than an alley. In the event a sign is equidistant from more than one improved public right-of-way, none of which are alleys, the highest point shall be used.

(27) HIGHWAY BEAUTIFICATION ACT (HBA) SIGN means a non-premise sign that is within 660 feet of an expressway right-of-way and whose message is visible from the main traveled way of that expressway.

(28) ILLUMINATED SIGN means any sign that is directly lighted by any electrical light source, internal or external. This definition does not include signs that are illuminated by street lights or other light sources owned by any public agency or light sources that are specifically operated for the purpose of lighting the area in which the sign is located rather than the sign itself.

(29) KIOSK means a multi-sided structure for the display of premise and non-premise signs. Kiosks may be changeable message signs.

(30) LUMINANCE means the brightness of a sign or a portion thereof expressed in terms of footlamberts. For purposes of this division, luminance is determined by the use of an exposure meter calibrated to standards established by the National Bureau of Standards and equipped with a footlambert scale.

(31) MARQUEE SIGN means a changeable message sign attached to, applied on, or supported by a permanent canopy projecting over a pedestrian street entrance of a building.

(31.1) MAST means an upright pole that supports a sign and may extend above the sign.
(32) MONUMENT SIGN means a detached sign applied directly onto a grade-level support structure (instead of a pole support) with no separation between the sign and grade.

(33) MOVEMENT CONTROL SIGN means a sign that directs vehicular and pedestrian movement within this district or to the West End Historic District.

(34) NONCOMMERCIAL MESSAGE means any message that is not a commercial message. News messages such as stock quotes, scores from sporting events, and news bulletins are noncommercial messages.

(35) NON-PREMISE SIGN means any sign that is not a premise sign.

(36) OCCUPANCY means the purpose for which a building is used or intended to be used. The term also includes the building or room housing such use.

(37) ONE SIGN means any number of detached signs structurally connected above grade.

(38) PARAPET SIGN means a projecting attached sign erected on or attached to the eaves or edge of the roof or on a parapet. A parapet sign is not a roof sign.

(38.1) PARKING STRUCTURE SCREENING SIGN means an attached sign located on a parking structure intended to be creative and artful by use of visually interesting, vibrant, and colorful designs with promotional messages limited to the name or logo of the district or athletic team names, players, or logos.

(39) PERMANENT SIGN means any sign that is not a temporary sign as defined in this section or a sign permitted pursuant to Sections 51A-7.1716 through 51A-7.1722 of this division.

(40) PORTABLE SIGN means any sign that is not securely connected to the ground in such a way that it cannot easily be moved from one location to another and that is not an attached sign, vehicular sign, or a sign that refers solely to the sale or lease of the premises.

(41) PREMISE means a lot or unplatted tract that is reflected in the plat books of the building inspection division of the city. Refer to Section 51A-7.1709 of this division.

(42) PREMISE SIGN means any sign the content of which relates to the premise on which it is located and refers exclusively to:

(A) the name, trade name, or logo of the owner or occupant of the premise or the identification of the premises;

(B) accommodations, services, or activities offered or conducted on the premise;

(C) products sold, other than incidentally, on the premise if no more than 70 percent of the sign is devoted to the advertisement of products by brand name or symbol; or

(D) the sale, lease, or construction of the premise.

(43) PROJECTING ATTACHED SIGN means an attached sign projecting 18 or more inches from a building.

(44) PROMOTIONAL MESSAGE means a message that identifies, promotes, or advertises a cultural activity within this district, any event being conducted, in whole or in part, in an entertainment complex or entertainment complex plaza within this district, any special event being conducted in this district, or any other event that will benefit the city. Benefit to the city is established by:

(A) use of city property in accordance with a contract, license, or permit;

(B) the receipt of city monies for the activity or event; or
§ 51A-7.1704 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-7.1704

(C) an ordinance or resolution of the city council that recognizes the activity or event as benefiting the city.

(45) PROTECTIVE SIGN means any sign that is commonly associated with safeguarding the permitted uses of the occupancy, including, but not limited to “bad dog,” “no trespassing,” and “no solicitors.”

(46) PUBLIC AREA means any publicly or privately-owned outdoor area that is accessible to the public.

(47) ROOF SIGN means a sign that is attached to or supported by the roof of a building.

(48) SAFE SCHOOL ZONE SIGN means a government sign:

(A) to be placed in the public right-of-way at the direction of a school district;

(B) indicating a safe school hotline number, or an alcohol-free, gun-free, or drug-free zone for a school; and

(C) erected to give notice of these zones in order to aid in the enforcement of state or federal laws involving violation of certain crimes in proximity of a school.

(49) SETBACK means the distance between a sign and the nearest public right-of-way line. An alley is not considered to be public right-of-way for the purpose of calculating a setback. Where a public way crosses a railroad right-of-way, the setback is measured from the public right-of-way line extended across the railroad right-of-way.

(50) SIGN means any device, flag, light, figure, picture, letter, word, message, symbol, plaque, poster, display, design, painting, drawing, billboard, wind device, or other thing visible from outside the premise on which it is located and that is designed, intended, or used to inform or advertise to persons not on that premise. This definition does not include:

(A) searchlights and landscape features that display no words or symbols;

(B) works of art that are not designed, intended, or used to advertise; or

(C) temporary holiday decorations.

(51) SIGN HARDWARE means the structural support system for a sign, including the fastening devices that secure the sign to a building facade or pole.

(52) SIGN SUPPORT means any pole, post, strut, cable, or other structural fixture or framework necessary to hold and secure a sign, providing that the fixture or framework is not imprinted with any picture, symbol, or word using characters in excess of one inch in height, nor is internally or decoratively illuminated.

(53) SPECIAL EVENT means a temporary event or gathering, including a special event parade, using either private or public property, in which the estimated number of participants and spectators exceeds 75 during any day of the event and that involves one or more of the following activities, except when the activity is for construction or housemoving purposes only:

(A) Closing of a public street.

(B) Blocking or restriction of public property.

(C) Sale of merchandise, food, or beverages on public or private property.

(D) Erection of a tent on public or private property.
(E) Installation of a stage, bandshell, trailer, van, portable building, grandstand, or bleachers on public or private property.

(F) Placement of portable toilets on public or private property.

(54) SPECIAL EVENT PARADE means the assembly of three or more persons whose gathering is for the common design of traveling or marching in procession from one location to any other location for the purpose of advertising, promoting, celebrating, or commemorating a thing, person, date, or event that is not directly related to the expression of feelings and beliefs on current political, religious, or social issues.

(55) SPECIAL PURPOSE SIGN means a sign temporarily supplementing the permanent signs on a premise.

(56) TEMPORARY SIGN means a sign erected for a limited time that identifies an event or activity of limited duration. Examples include signs advertising the sale or lease of property, construction activity in progress, or a concert or other cultural event.

(57) THIS DISTRICT means the Victory Sign District.

(58) VEHICULAR SIGN means any sign on a vehicle moving along the ground or on any vehicle parked temporarily, incidental to its principal use for transportation. This definition does not include signs that are being transported to a site of permanent erection.

(60) WELCOME MESSAGE means a message that identifies and greets heads of state; foreign dignitaries; groups using city property in accordance with a contract, license, or permit; or government organizations.

(61) WIND DEVICE means any flag, banner, pennant, streamer, or similar device that moves freely in the wind.

(62) WORD: For purposes of this division, each of the following is considered to be one word:

(A) Any word in any language found in any standard unabridged dictionary or dictionary of slang.

(B) Any proper noun or any initial or series of initials.

(C) Any separate character, symbol or abbreviation such as “&”, “$”, “%”, and “Inc.”.

(D) Any telephone number or commonly used combination of numerals and symbols such as “$5.00” or “50%”.

(E) Any internet website, network, or protocol address, domain name, or universal record locator.

(F) Any symbol or logo that is a registered trademark but which itself contains no word or character.

A street number is not considered to be a word. (Ord. Nos. 24348; 25047; 25918; 30043)

SEC. 51A-7.1705. APPLICABILITY OF HIGHWAY BEAUTIFICATION ACTS.

For purposes of applying the Federal and Texas Highway Beautification Acts, this district is considered to be a commercial zoning district. (Ord. Nos. 24348; 25918)
SEC. 51A-7.1706. VICTORY DISTRICT SIGN PERMIT REQUIREMENTS.

(a) In general. Except as provided in this subsection, a person shall not alter, place, maintain, expand, or remove a sign in this district without first obtaining a sign permit from the city. A sign permit is not required to:

(i) Erect an illuminated projection sign in accordance with Section 51A-7.1727(i).

(ii) Change the text on a changeable message sign or a kiosk.

(iii) Erect or replace a banner using the existing sign hardware. A sign permit is required to install sign hardware for a banner.

(b) Sign permit procedures. Except as provided in Subsection (c) below, the procedures for obtaining a sign permit in Division 51A-7.600 apply in this district.

(c) Roof Signs in Subdistrict B.

(i) Certificate of appropriateness required. No sign permit may be issued to authorize a roof sign in Subdistrict B unless the commission has first issued a certificate of appropriateness in accordance with this subsection.

(ii) Application for a roof sign. When applying for a roof sign in Subdistrict B, the applicant shall submit an application to the building official. After determining that the proposed roof sign conforms with all building, electrical, and mechanical codes and all sign regulations in this ordinance, the building official shall forward a copy of the application to the director within five working days of its receipt. The applicant shall provide the building official and the director with specific information in the form of perspectives, renderings, photographs, models, or other representations sufficient to show the nature of the proposed sign and its effect on the building on which it is located as well as its effect on surrounding premises.

Any applicant may request a meeting with the director before submitting an application and may consult with the director during the review of the permit application.

(iii) Review of application by director. The director shall review the application and make a recommendation within 10 days of its receipt. In reviewing an application, he shall first consider whether the applicant has submitted sufficient information to allow an informed decision. If he finds that the proposed roof sign is consistent with the special character of this district, he shall make a recommendation of approval to the commission. The director shall consider the proposed sign in terms of its appropriateness for this district without regard to any consideration of the message conveyed by the sign. After consideration of these factors, the director shall recommend approval or denial of the application and forward that recommendation to the commission.

(iv) City plan commission review. Upon receipt of a recommendation by the director, the commission shall hold a public hearing to consider the application. At least 10 days before the hearing, notice of the date, time, and place of the hearing, the name of the applicant, and the location of the proposed roof sign must be published in the official newspaper of the city. In addition, the building official shall serve, by hand-delivery or mail, a written notice to the applicant that contains a reference to this subsection, and the date, time, and location of the hearing. A notice sent by mail is served by depositing it properly addressed and postage paid in the United States mail. In making its decision, the commission shall consider the same factors that were required to be considered by the director in making his recommendation. If the commission approves the application, it shall forward a certificate of appropriateness to the building official within 15 days of the date of its approval. If the commission denies the application, it shall so inform the building official in writing. The building official shall advise the applicant of the denial within five working days of the date of receipt of the written notice from the commission. If the commission does
§ 51A-7.1706 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-7.1707. IMITATION OF TRAFFIC AND EMERGENCY SIGNS PROHIBITED.

No person shall cause to be erected or maintained any sign using any combination of forms, words, colors, or lights that imitate standard public traffic regulatory, emergency signs, or signals. (Ord. Nos. 24348; 25918)

§ 51A-7.1708. OTHER CODES NOT IN CONFLICT, APPLICABLE.

All signs erected or maintained pursuant to the provisions of this division shall be erected and maintained in compliance with all applicable state laws and with the building code, electrical code, and other applicable ordinances of the city. In the event of conflict between this division and other laws, the most restrictive standard applies. (Ord. Nos. 24348; 25918)

§ 51A-7.1709. CREATION OF SITE.

Except for signs located wholly within the public right-of-way, the building official shall not issue a permit for construction, erection, placement, or maintenance of a sign until a site is established in one of the following ways:

(1) A lot is part of a plat which is approved by the city plan commission and filed in the plat records of Dallas County, Texas.

(2) Tracts that are governed by a detached sign unity agreement in accordance with Section 51A–7.1710. (Ord. Nos. 24348; 25918)

§ 51A-7.1710. DETACHED SIGN UNITY AGREEMENTS.

(a) The building official may authorize the dissolution of common boundary lines between lots for the limited purpose of allowing those lots to be considered one premise for the erection of detached signs if a written agreement is executed in accordance with this section on a form provided by the city.

(b) The agreement must:

(1) contain legal descriptions of the properties sharing the common boundary line(s);

(2) set forth adequate consideration between the parties;

(3) state that all parties agree that the properties sharing the common boundary line(s) may be collectively treated as one lot for the limited purpose of erecting detached signs;

(4) state that the dissolution of the common boundary line(s) described in the agreement is only for
§ 51A-7.1710 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-7.1710

the limited purpose of allowing the erection of detached signs, and that actual lines of property ownership are not affected;

(5) state that it constitutes a covenant running with the land with respect to all properties sharing the common boundary line(s);

(6) state that all parties agree to defend, indemnify, and hold harmless the city of Dallas from and against all claims or liabilities arising out of or in connection with the agreement;

(7) state that it shall be governed by the laws of the state of Texas;

(8) state that it may only be amended or terminated by a subsequent written instrument that is:

(A) signed by an owner of property sharing the common boundary line(s) or by a lienholder, other than a taxing entity, that has either an interest in a property sharing the common boundary line(s) or an improvement on such a property;

(B) approved by the building official;

(C) approved as to form by the city attorney; and

(D) filed and made a part of the deed records of Dallas County, Texas;

(9) be approved by the building official and be approved as to form by the city attorney;

(10) be signed by all owners of the properties sharing the common boundary line(s);

(11) be signed by all lienholders, other than taxing entities, that have either an interest in the properties sharing the common boundary line(s) or an improvement on those properties; and

(12) be filed and made a part of the deed records of Dallas County, Texas.

(c) The building official shall approve an agreement if all properties governed by the agreement fully comply with the regulations in this division.

(d) An agreement shall not be considered effective until a true and correct copy of the approved agreement is filed in the deed records in accordance with this section and two file-marked copies of the agreement are filed with the building official.

(e) An agreement may only be amended or terminated by a written instrument that is executed in accordance with this subsection on a form provided by the city. The instrument must be:

(1) signed by an owner of property sharing the common boundary line(s) or by a lienholder, other than a taxing entity, that has either an interest in a property sharing the common boundary line(s) or an improvement on such a property;

(2) approved by the building official;

(3) approved as to form by the city attorney; and

(4) filed and made a part of the deed records of Dallas County, Texas.

The building official shall approve an instrument amending or terminating an agreement if all properties governed by the agreement fully comply with the regulations in this division. The amending or terminating instrument shall not be considered effective until it is filed in the deed records in accordance with this subsection and two file-marked copies are filed with the building official.

(f) No detached non-premise sign may be erected or maintained on a property that is described in an agreement executed in accordance with this section. (Ord. Nos. 24348; 25918)
§ 51A-7.1711 Dallas Development Code: Ordinance No. 19455, as amended  § 51A-7.1714

SEC. 51A-7.1711. GENERAL MAINTENANCE.

(a) In general. Sign and sign supports must be maintained in a state of good repair and neat appearance at all times.

(b) Revocation of permit.

(1) The building official shall revoke, in writing, the sign permit for a sign if it has for a period of one year:

(A) displayed obsolete advertising matter;

(B) been without advertising matter; or

(C) been damaged in excess of 50 percent of the cost of replacement of the sign.

(2) The owner of the sign is liable to the city for a civil penalty in the amount of $200 a day for each calendar day that the sign is maintained without a required permit. The building official shall give written notice to the property owner of the amount owed to the city in civil penalties, and shall notify the city attorney of any unpaid civil penalty. The city attorney shall collect unpaid civil penalties in a suit on the city’s behalf.

(3) The civil penalty provided for in Paragraph (2) is in addition to any other enforcement remedy the city may have under city ordinances and state law. (Ord. Nos. 24348; 25918)

SEC. 51A-7.1712. GOVERNMENT SIGNS.

(a) Except as provided in Subsection (b), nothing in this division shall be construed to regulate the display of a government sign.

(b) Safe school zone signs must satisfy the following requirements.

(1) Each sign must be erected within 600 feet of a school.

(2) No sign may exceed five square feet in effective area.

(3) At least 80 percent of the effective area of each sign must be devoted to a governmental message.

(4) Up to 20 percent of the effective area of each sign may be devoted to the identification of a sponsor. (Ord. Nos. 24348; 25918)

SEC. 51A-7.1713. SIGNS OVER THE PUBLIC RIGHT-OF-WAY.

(a) Signs may be located in or project over the public right-of-way, including, but not limited to, sidewalks, subject to the licensing and franchise requirements of Chapter XIV of the city charter, Article VI of Chapter 43 of the Dallas City Code, as amended, and the requirements of this section.

(b) The traffic engineer shall review the location of any sign located in or overhanging the public right-of-way to ensure that the sign will not pose a traffic hazard or visibility obstruction. (Ord. Nos. 24348; 25918; 28424)

SEC. 51A-7.1714. COMMERCIAL VERSUS NONCOMMERCIAL MESSAGES.

(a) Notwithstanding any other provision of this ordinance, any sign that may display a commercial message may also display a noncommercial message, either in place of or in addition to the commercial message, so long as the sign complies with other requirements of this ordinance that do not pertain to the content of the message displayed.
(b) Notwithstanding any other provision of this ordinance, any sign that may display one type of noncommercial message may also display any other type of noncommercial message, so long as the sign complies with other requirements of this ordinance that do not pertain to the content of the message displayed. (Ord. Nos. 24348; 25918)

SEC. 51A-7.1715. PREMISE VERSUS NON-PREMISE ADVERTISEMENT.

Notwithstanding any other provision of this ordinance, any sign that may display non-premise advertisement may display premise advertisement in place of the non-premise advertisement, so long as the sign complies with other requirements of this ordinance that do not pertain to the content of the message displayed. (Ord. Nos. 24348; 25918)

SEC. 51A-7.1716. MOVEMENT CONTROL SIGNS.

In addition to all other signs permitted in this ordinance, movement control signs are permitted subject to the following provisions:

(1) Movement control signs must direct vehicular or pedestrian movement within this district or to the West End Historic District and may include the name or logo of any premise located in this district or the name or logo of the West End Historic District.

(2) Except as provided in this paragraph, no movement control sign may exceed 30 square feet in effective area.

(A) Four movement control signs may have a maximum effective area of 60 square feet.

(B) One movement control sign exceeding 30 square feet in effective area may be located at each of the following intersections:

(i) Victory Avenue and Victory Avenue West;

(ii) Olive Street and Houston Street;

(iii) Continental Avenue and Victory Avenue; and

(iv) Houston Street and Victory Avenue West.

(3) Movement control signs may be attached or detached signs and may be erected on any premise without limit as to number.

(4) Movement control signs may be changeable message signs when the messages are limited to directing vehicular movement, including but not limited to the availability and amount of parking, price of parking, and the name of the parking business. (Ord. Nos. 24348; 25918; 30043)

SEC. 51A-7.1717. SIGNS IN PUBLIC PLACES.

In addition to all other signs permitted in this ordinance, an unlimited number of signs that only identify the name or logo of this district may be located on or incorporated into manhole covers, street light poles, sidewalks, benches, trash receptacles, and other improvements in public areas. No such sign, however, may exceed one square foot in effective area or contain more than three words. (Ord. Nos. 24348; 25918; 30043)

SEC. 51A-7.1718. PROTECTIVE SIGNS.

(a) The occupant of a premise may erect not more than two protective signs, in accordance with the following provisions:

(1) No sign may exceed 100 square inches in effective area.
§ 51A-7.1718 Dallas Development Code: Ordinance No. 19455, as amended

(2) No detached sign may exceed two feet in height.

(3) No letter may exceed four inches in height.

(b) The protective signs authorized in the preceding subsection are in addition to all other signs permitted in this ordinance. (Ord. Nos. 24348; 25918)

SEC. 51A-7.1719. VEHICULAR SIGNS.

(a) In addition to all other signs permitted in this ordinance, vehicular signs are permitted subject to the following restrictions:

(1) No sign may contain flashing or moving elements.

(2) No sign may have an element with a luminance greater than 200 footlamberts.

(3) No sign may project beyond the surface of a vehicle in excess of eight inches.

(4) No sign may be attached to a vehicle so that the driver’s vision is obstructed from any angle.

(5) Signs, lights, and signals used by authorized emergency vehicles are not restricted.

(b) A vehicular sign must comply with all regulations for detached signs if:

(1) it is placed so as to constitute a “sign” as defined in Section 51A-7.1704; and

(2) the vehicle upon which the sign is located is parked on other than a temporary basis.

(c) The owner of the vehicle upon which a vehicular sign is placed is responsible for ensuring that the provisions of this section are adhered to and commits an offense if any vehicular sign on his vehicle violates this section. If such a vehicle is found unattended or unoccupied, the registered owner of the vehicle shall be presumed to be the actual owner. The records of the state highway department or the county highway license department showing the name of the registered owner of the vehicle shall constitute prima facie evidence of actual ownership by the named individual. (Ord. Nos. 24348; 25918)

SEC. 51A-7.1720. STREET CONSTRUCTION ALLEVIATION SIGNS.

(a) Definitions. In this section, unless the context clearly indicates otherwise:

(1) CONSTRUCTION means major activity involving on-site excavation, fabrication, erection, alteration, repair, or demolition that materially alters or restricts access to a premise.

(2) DIRECTOR means the director of transportation of the city or his or her designated representative.

(3) ERECT means erect or maintain.

(4) OPERATOR means a person who causes a use or business to function or puts or keeps a use or business in operation. A person need not have an ownership interest in a use or business to be an “operator” of the use or business for purposes of this section.

(5) OWNER includes any part owner, joint owner, tenant in common, tenant in partnership, joint tenant, tenant by the entirety, or lessee.

(6) SIGN means a sign authorized to be erected or maintained under this section.

(7) STREET means a street more than 85 feet in width, including frontage roads, if applicable. “Frontage Road” means a frontage, access, or service road for a freeway or tollway.
§ 51A-7.1720  Dallas Development Code: Ordinance No. 19455, as amended  § 51A-7.1720

(b) Purpose. The purpose of this section is to promote the health, safety, morals, and general welfare of the city in order to lessen the congestion in the streets; to improve communications efficiency by allowing businesses to identify themselves and by helping customers to locate these businesses; to promote the safety of persons and property by reducing the confusion created by street construction; and to preserve landscape quality by imposing uniform standards. This section is not intended to apply to temporary minor repairs to streets.

(c) Authority to erect. In addition to any other signs permitted in this ordinance, up to two detached premise signs may be erected on a premise if:

(1) the premise contains at least one main use other than a single family or duplex use;

(2) the premise has frontage along that portion of a street under construction as defined in Subsection (a); and

(3) the director has given written notice in accordance with Subsection (d).

(d) Notice required to be given by the director. Whenever the director determines that construction of a street, as defined in this section, is imminent, the director shall serve a written notice for the purpose of authorizing the erection of signs in accordance with this section. The written notice may be hand-delivered, sent by mail, or published in the official newspaper of the city. In order to validly authorize a sign under this section, the notice must:

(1) contain a reference to or copy of this section;

(2) describe with specificity the portion of the street that is or will be under construction;

(3) contain estimated commencement and completion dates for the construction; and

(4) contain a statement that no sign may be erected or maintained on a premise:

(A) more than five days before the estimated construction commencement date stated in the notice; or

(B) more than five days after the estimated construction completion date stated in the notice.

(e) Time period when sign authorized. This section only authorizes signs to be placed on property adjacent to that portion of a street described in the notice given pursuant to Subsection (d) during the time period beginning five days before the estimated construction commencement date stated in the notice and ending five days after the estimated construction completion date stated in the notice. No sign may be erected or maintained on a premise:

(1) more than five days before the estimated construction commencement date stated in the notice; or

(2) more than five days after the estimated construction completion date stated in the notice.

The director may change the time period for erecting and maintaining signs under this section at any time by giving a new notice in accordance with Subsection (d).

(f) Physical requirements for sign. All signs must comply with the following paragraphs:

(1) No more than two signs may be erected on a premise. No more than one sign may be erected at any motor vehicle entrance to a premise.

(2) No setback is required for a sign; however, no sign may be located in a public right-of-way. If a sign is placed in a visibility triangle as defined in Section 51A-4.602(d), it shall be a defense to prosecution under that section that the sign does not constitute a traffic hazard.
(3) The sign must be visible from and oriented towards the street under construction and have an arrow that directs motorists to a motor vehicle entrance to the premise.

(4) The sign must be a square, with dimensions of four feet by four feet. It must have a three-inch border of white reflective sheeting or paint and a reflective blue background. The text of the sign must consist of reflective white characters. (Note: It is intended that the requirements of this paragraph be strictly and precisely complied with.)

(5) No sign may exceed eight feet in height.

(6) No sign may be a portable sign unless the director determines that the sign does not constitute a safety hazard.

(g) Criminal responsibility. If a sign violates this section and is not otherwise authorized under the Dallas City Code, a person is criminally responsible for a sign unlawfully erected or maintained if the person:

(1) erects or maintains the sign;

(2) is an owner or operator of a use or business to which the sign refers; or

(3) owns part or all of the land on which the sign is located.

(h) City may remove signs. The City of Dallas may remove any sign without liability if the director determines that the sign constitutes a safety hazard, or if the sign does not comply with this section; however, the city shall not be liable for failure to remove a sign. (Ord. Nos. 24348; 25918)

SEC. 51A-7.1721. ATTACHED SIGNS ON MACHINERY OR EQUIPMENT.

Words may be attached to machinery or equipment which is necessary or customary to a business, including but not limited to devices such as gasoline pumps, vending machines, ice machines, etc., provided that the words so attached refer exclusively to products or services dispensed by the device, consist of characters no more than four inches in height, and project no more than one inch from the surface of the device. (Ord. Nos. 24348; 25918)

SEC. 51A-7.1722. DISTRICT IDENTIFICATION SIGNS.

(a) District identification signs may only identify the name or logo of this district.

(b) No sign may exceed three words or be a changeable message sign.

(c) These signs are in addition to all other signs permitted on a premise and are subject to the following regulations:

(1) In Subdistrict A, district identification signs are not permitted in addition to the other signs authorized on a premise. Any sign in Subdistrict A that identifies the name or logo of this district must meet the regulations for attached or detached signs in Subdistrict A, and the sign will be included in the calculation of the number of permitted signs on a premise.

(2) In Subdistricts B and D, district identification signs must be flat attached signs, monument signs, banners attached to pole supports, or enhanced banner signs.

(A) Attached and detached signs.

(i) In Subdistrict B, a maximum of three flat attached signs or monument signs are permitted.

(ii) In Subdistrict D, a maximum of two monument signs are permitted.

(iii) The maximum effective area for a flat attached sign is 900 square feet.

(Ord. Nos. 24348; 25047; 25918; 30239; 30654)
§ 51A-7.1722 Dallas Development Code: Ordinance No. 19455, as amended

(iv) The maximum effective area for a monument sign is 150 square feet and the sign may not exceed 10 feet in height.

(B) Banners attached to pole supports. No maximum number of banners attached to pole supports. The following additional restrictions apply:

(i) Banners and hardware must meet the sign construction and design standards contained in the Dallas Building Code and be constructed of weather-resistant and rust-proof material.

(ii) Maximum height, including masts and finials, is 36 feet.

(iii) Banners must be between 12 feet and 30 feet above grade, excluding masts and finials.

(iv) Maximum projection for banners is three feet from the pole on which it is mounted.

(v) Maximum effective area for individual banners is 50 square feet.

(C) Enhanced banner signs.

(i) In addition to the banners and elements allowed in Subparagraph B, enhanced banner signs may have one each of the following elements located between 12 feet and 30 feet above grade:

(aa) A vertically oriented illuminated blade cabinet that contains the logo or name of the district with a maximum effective area of 40 square feet with a maximum projection of three feet from the pole on which it is mounted.

(bb) A horizontal element that contains the logo or name of the district with a maximum effective area of 10 square feet and a maximum projection of six feet from the pole on which it is mounted.

(ii) A maximum of one enhanced banner sign is allowed per blockface. Enhanced banner signs are limited to the following locations:

(aa) The southwest corner of Houston Street and Olive Street;

(bb) The southwest corner of Victory Park Lane and Olive Street;

(cc) The southwest corner of Houston Street and Museum Way;

(dd) The northeast corner of Victory Park Lane and High Market Street;

(ee) The northeast corner of Houston Street and High Market Street;

(ff) The northwest corner of Victory Park Lane and High Market Street;

(gg) The northwest corner of Houston Street and Lamar Street;

(hh) The southeast corner of Victory Avenue and Olive Street; and

(ii) The southeast corner of Victory Avenue and High Market Street.

(3) In Subdistrict C, the only district identification signs permitted are one monument sign and banners attached to pole supports. If the sign is a monument sign, the sign may not exceed 10 feet in height or have an effective area greater than 150 square feet. If the sign is a banner, the banner and its hardware must:

(A) meet the sign construction and design standards contained in the Dallas Building Code;

(B) be at least 12 feet but no more than 25 feet above grade;
§ 51A-7.1722  Dallas Development Code: Ordinance No. 19455, as amended

(C) not project more than three feet from the pole on which it is mounted;

(D) not exceed 50 square feet in effective area; and

(E) be made out of weather-resistant and rust-proof material. (Ord. Nos. 24348; 25918; 30043)

SEC. 51A-7.1723. DETACHED SIGNS IN ACCESS EASEMENTS.

(a) No more than 10 permanent, non-premise detached signs may be located in access easements in this district.

(b) No permanent sign in an access easement may exceed five words or be a changeable message sign.

(c) These signs may only identify district activities. (Ord. Nos. 24348; 25918)

SEC. 51A-7.1724. STREAMERS, PENNANTS, AND INFLATABLE SIGNS PROHIBITED.

Streamers, pennants, and inflatable signs, including, but not limited to, balloons, are prohibited in this district. (Ord. Nos. 24348; 25918)

SEC. 51A-7.1725. GENERAL PROVISIONS FOR ALL SIGNS.

Unless otherwise stated, the following general rules apply to all signs in this district.

(1) All signs must comply with Divisions 51A-7.500, 51A-7.600, 51A-7.800, and 51A-7.1700. No other division of Article VII applies to a sign in this district.

(2) There are no setback requirements for a sign in this district.

(3) All signs in this district must be premise signs or convey a noncommercial message.

(4) No sign may be painted onto the roof of a building, and no flat attached sign is permitted on the roof of a building.

(5) No illuminated sign that has an effective area of 400 square feet or less may have a luminance greater than 300 footlamberts, nor may any such sign have a luminance greater than 300 footlamberts for any portion of the sign within a circle two feet in diameter. No illuminated sign which has an effective area greater than 400 square feet may have a luminance greater than 200 footlamberts, nor may any such sign have a luminance greater than 200 footlamberts for any portion of the sign within a circle of two feet in diameter. The measurements of luminance are taken from any other premise or from any public right-of-way other than an alley. This subsection does not apply to signs authorized by Subsections 51A-7.1727(c), (d) or (i).

(6) No illuminated sign, nor any illuminated element of any sign, may turn on or off, or change its brightness, if:

(A) the change of illumination produces an apparent motion of the visual image, including but not limited to illusion of moving objects, moving patterns or bands of light, expanding or contracting shapes, rotation or any similar effect of animation;

(B) the change of message or picture occurs more often than once each three seconds for those portions of a sign which convey time or temperature, or once each 20 seconds for all other portions of a sign; or

(C) a portion of the sign, within a circle of two feet in diameter, has a luminance greater than 200 footlamberts when all elements of the sign are fully and steadily illuminated.
This subsection does not apply to signs authorized by Subsections 51A-7.1727(c), (d) or (i).

(7) No sign or any part of any sign may move or rotate at a rate more often than once each 10 seconds, or change its message at a rate more often than once each 20 seconds, with the exception of wind devices, the motion of which is not restricted. This subsection does not apply to signs authorized by Subsections 51A-7.1727(c), (d) or (i), unless the sign is visible from the main traveled way of an expressway.

(8) No sign may move, rotate, or change its message at any rate if any of its elements or any illuminated portion within a two-foot circle has a luminance greater than 200 footlamberts. This subsection does not apply to signs authorized by Subsections 51A-7.1727(c), (d) or (i).

(9) Attached premise signs are allowed a 10 percent increase in effective area if 51 percent or more of the characters incorporate neon lighting. (Ord. Nos. 24348; 25918; 30043)

SEC. 51A-7.1726. SIGN REGULATIONS FOR SUBDISTRICT A (THE ENTERTAINMENT COMPLEX SUBDISTRICT).

(a) Movement and illumination provisions for all signs.

(1) Signs visible from the main traveled way of an expressway. For signs containing a message that is visible from the main traveled way of an expressway, the regulations of Section 51A-7.1725 apply.

(2) All other signs. For all other signs, the regulations of Section 51A-7.1725 apply except for the provisions of Section 51A-7.1725 (6), (7), and (8).

(3) Luminance.

(A) For purposes of applying Section 51A-7.1725 (5), (6), and (8), the measurements of luminance are taken from any premise or public right-of-way, other than an alley, outside this district.

(B) Luminance limitations related to measurements taken within a circle of two feet in diameter under Section 51A-7.1725 (5), (6), and (8) do not apply in this subdistrict.

(4) Changeable message sign greater than 1,000 square feet facing an entertainment complex plaza. The provisions of Section 51A-7.1725 (5), (6), (7), and (8) do not apply to a changeable message sign greater than 1,000 square feet in effective area located on the facade of a building facing the entertainment complex plaza.

(b) Permanent attached signs. The only permanent attached signs permitted in this subdistrict are signs provided for in this subsection.

(1) Number of permitted signs.

(A) There is no limitation on the number of premise and non-premise attached signs that may be placed on a facade of a building.

(B) Except as otherwise provided, there is no limitation on the number of changeable message signs 1,000 square feet in effective area and less, including marquee signs, that may be placed on a facade of a building. The facade of a building that has a changeable message sign greater than 1,000 square feet in effective area may not have additional changeable message signs greater than 100 square feet in effective area on the same facade.

(C) No more than 13 roof signs are permitted in this subdistrict.

(2) Number of words or characters.

(A) Except for roof signs, there is no limit as to the number of words or characters that may be placed on an attached sign.
(B) The painted roof sign permitted on an entertainment complex may contain 10 words. For all other roof signs, no more than three characters or symbols are permitted for each sign.

(3) Premise and non-premise signs.

(A) All roof signs in this subdistrict must be premise signs.

(B) All other signs in this subdistrict may be premise or non-premise signs.

(4) Effective area limitations for certain attached signs.

(A) The maximum effective area of a changeable message sign is 1,000 square feet, except:

(i) A marquee sign.

(ii) One changeable message sign with a maximum effective area of 1,500 square feet on the facade of a building facing the entertainment complex plaza.

(B) The maximum effective area of a marquee sign is 250 square feet.

(C) The maximum effective area of an awning or canopy sign is 150 square feet.

(D) The maximum effective area of the painted roof sign on an entertainment complex is 8,500 square feet. For purposes of calculating the maximum effective area of this painted roof sign, the building official shall draw a minimum imaginary rectangle of vertical and horizontal lines around all extremities of the sign. The area within the minimum imaginary rectangle is the effective area of the roof sign.

(E) With the exception of the one painted roof sign permitted on an entertainment complex, there is no maximum effective area for a roof sign.

(F) The maximum effective area for all other projecting attached signs is 20 square feet.

(5) Cumulative effective area limitations for all attached signs. The cumulative effective area of permanent non-premise attached signs on a building facade may not exceed 10 percent of the total area of the facade on which the signs are located. The cumulative effective area of all permanent attached signs on the facade may not exceed 30 percent of the total area of the facade.

(6) Spacing of attached non-premise signs. HBA signs on a facade must be spaced a minimum of 50 feet from all HBA signs on another facade. There are no spacing requirements for HBA signs on the same facade.

(7) Signs overhanging or projecting into the public right-of-way.

(A) Attached signs overhanging the public right-of-way are permitted as long as each sign is a minimum of 10 feet above the sidewalk grade.

(B) No portion of a marquee sign may:

(i) project more than eight feet into the public right-of-way; or

(ii) be located less than two feet from the back of a street curb.

(C) For all other projecting attached signs, no portion of the signs may:

(i) project more than four feet into the public right-of-way; or

(ii) be located less than two feet from the back of the street curb.

(8) Roof signs.

(A) No roof sign may project above the surface to which it is attached by more than 25 feet.
(B) One flat attached roof sign is permitted on an entertainment complex if it is: (1) painted directly on the roof of the entertainment complex, and (2) not visible within 400 feet of the boundary of Subdistrict A. The sign is deemed visible if any portion of that sign can be seen at a point five feet above grade.

(C) All other roof signs in this subdistrict must be mounted parallel to the building facade.

(D) No roof sign may be a changeable message sign.

(9) Parapet signs. Parapet signs are prohibited in this subdistrict.

(10) No limitation on projecting attached signs. Projecting attached signs are permitted on premises with detached signs.

(11) District activities and non-premise signs. A minimum of 30 percent of the effective area of an attached non-premise sign must identify district activities.

(12) Signs projecting over the roof line. Except for a roof sign, no attached sign may project over a building.

(13) Location limitation on projecting attached signs. Except for a roof sign, no portion of a projecting attached sign may be located at a point on the facade above 66 feet in height.

(c) Permanent detached signs.

(1) The only permanent detached signs permitted in this subdistrict are movement control and vent stack signs.

(2) A detached sign may only be located on a vent stack if:

(A) the sign face does not exceed 15 feet in height; and

(B) the sign does not exceed 100 square feet in effective area.

(3) Only one sign may be located on a vent stack, and no more than 16 vent stack signs are permitted in this subdistrict.

(4) Signs located on vent stacks may be non-premise signs. Twelve of the 16 permitted signs may only identify district activities.

(d) Temporary signs. The only temporary signs permitted in this subdistrict are special purpose signs, temporary protective signs, temporary signs on construction fencing, and “for sale,” “for lease,” “remodeling,” and “under construction” signs. These temporary signs are in addition to all other signs permitted in this ordinance.

(e) Special purpose signs.

(1) Illumination. Special purpose signs may be externally illuminated, and, except for banners, may be internally illuminated or “back-lighted.”

(2) Premise special purpose signs.

(A) Attached premise special purpose signs.

(i) Entertainment complex. On an entertainment complex, there is no limit on the number or size of attached premise special purpose signs. No sign may be maintained for more than 45 days in any given twelve-month period.

(ii) All other uses. An occupancy may have one attached premise special purpose sign up to four times within any twelve-month period as long as the sign:

(aa) is displayed for no more than 45 days each time during the twelve-month period; and
§ 51A-7.1726  Dallas Development Code: Ordinance No. 19455, as amended  § 51A-7.1726

(bb) has no more than 10 words that contain any character equal to or exceeding four inches in height.

(B) Detached premise special purpose signs. No detached premise special purpose sign is permitted in this subdistrict.

(3) Non-premise special purpose signs.

(A) In general. Non-premise special purpose signs are permitted subject to the following regulations:

(i) Except as provided in Subparagraph (A)(ii) below, non-premise special purpose signs may only display promotional and welcome messages.

(ii) Up to 10 percent of the effective area of a non-premise special purpose sign may contain commercial advertisement. The name of the event or activity identified in a promotional message is not considered commercial advertisement even if the event or activity is named after the sponsor.

(iii) A non-premise special purpose sign may not be erected more than 30 days before the beginning of the advertised activity or event, and must be removed no later than 10 days after the activity or event has ended.

(iv) The sign hardware for a banner may be left in place between displays of a banner.

(B) Attached non-premise special purpose signs.

(i) Entertainment complex. The only attached non-premise special purpose signs permitted on an entertainment complex are banners. Banners may be displayed anywhere on the entertainment complex without limit on their number or size.

(ii) All other uses. For all other uses, attached non-premise special purpose signs are prohibited.

(C) Detached non-premise special purpose signs. No detached non-premise special purpose sign is permitted in this subdistrict.

(f) Other temporary signs.

(1) Temporary protective signs. In addition to the other protective signs permitted under Section 51A-7.1718, temporary protective signs may be erected anywhere on a construction site at anytime during construction. There is no limit on the number of these signs, but no sign may exceed 20 square feet in effective area or eight feet in height. Temporary protective signs may be illuminated, but no lighting source may project more than three inches from the vertical surface of, or six inches above the top of, the sign. All temporary protective signs must be removed upon completion of the construction.

(2) Temporary signs on construction fencing. Temporary signs may be erected on construction fencing subject to the following provisions:

(A) The signs must be spaced at least 50 feet apart.

(B) No sign may exceed 128 square feet in effective area or eight feet in height.

(C) No sign may project more than three inches from the vertical surface of, or six inches above the top of, the fence.

(D) The signs may be illuminated.

(E) The signs may only identify the project under construction and its owners, developers, future tenants, lenders, architects, engineers, project consultants, and contractors.
§ 51A-7.1726 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-7.1727 The signs must be removed upon completion of the construction.

(3) “For Sale,” “For Lease,” “Remodeling,” and “Under Construction” signs. Signs that relate exclusively to the sale, lease, construction, or remodeling of the premises on which they are located are permitted. There is no limit to the number of attached signs permitted. Detached signs are limited to one for each 100 feet of frontage on a public street or private access easement. If attached to a window, the maximum effective area of the sign is 16 square feet; if attached to other portions of a facade, the maximum effective area is 32 square feet. No detached sign may exceed 128 square feet in effective area or 16 feet in height. (Ord. Nos. 24348; 25918; 26552)

SEC. 51A-7.1727. SIGN REGULATIONS FOR SUBDISTRICT B (RETAIL AND ENTERTAINMENT SUBDISTRICT).

(a) Movement and illumination provisions for all signs.

(1) Signs visible from the main traveled way of an expressway. For signs containing a message that is visible from the main traveled way of an expressway, the regulations of Section 51A-7.1725 apply.

(2) All other signs. For all other signs, the regulations of Section 51A-7.1725 apply except for the provisions of Section 51A-7.1725 (6), (7), and (8). The provisions of Subsections 51A-7.1725(5), (6), (7), and (8) do not apply to the signs authorized by Subsections 51A-7.1727(c), (d), and (i).

(b) Permanent attached signs. The only permanent attached signs permitted in this subdistrict are signs provided for in this subsection and Subsections (c) and (d). The restrictions on signs in this subsection do not apply to the signs authorized in Subsections (c) and (d) below.

(1) Number of permitted signs.

(A) Each premise or non-residential occupancy is allowed:

(i) one projecting attached sign per facade;

(ii) one marquee sign, canopy sign, or an awning sign per facade; and

(iii) one additional attached sign per facade. The one additional attached sign may not be a changeable message sign.

(B) Except as provided in this subparagraph, in addition to the three signs permitted in Subparagraph (A), each premise is entitled to two changeable message signs, other than marquee signs. A theater may have a maximum of one changeable message premise sign for each theater screen other than marquee signs.

(C) Four flat attached non-premise signs are permitted in this subdistrict. These signs are not in addition to the number of signs permitted on a premise. Only one non-premise sign is permitted on a facade. A maximum of two of the four attached non-premise signs may be changeable message signs.

(D) No more than two roof signs are permitted in this subdistrict. Only one roof sign is permitted per building.
(E) In no event may the total number of signs on a premise or nonresidential occupancy exceed the number of signs permitted under Subparagraphs (A) and (B).

(F) Window signs are limited to premise signs and do not count against the maximum number of permanent attached signs. Window signs are limited to the first and second floor of a building and may not cover more than 25 percent of any window.

(2) Number of words or characters.

(A) Except for marquee and changeable message signs, no person may erect a sign that contains more than 10 words consisting of any characters of a height equal to or exceeding four inches on any building facade. Words consisting of characters less than four inches in height may be used without limit.

(B) There is no limit as to the number of words containing characters of a height equal to or exceeding four inches on a marquee or other changeable message sign.

(3) Premise and non-premise signs. Except for the four attached non-premise signs permitted in Subsection (b)(1), all attached permanent signs in this subdistrict must be premise signs or convey a noncommercial message.

(4) Effective area limitations for certain attached signs.

(A) With the exception of a marquee sign, the maximum effective area of a changeable message sign is 1,000 square feet.

(B) The maximum effective area of a marquee sign is 250 square feet.

(C) The maximum effective area of an awning or canopy sign is 150 square feet.

(D) There is no maximum effective area for a parapet sign.

(E) The maximum effective area for a roof sign is 800 square feet.

(F) The maximum effective area for all other projecting attached signs is 250 square feet.

(5) Effective area limitation for non-premise attached signs. Except as further restricted in Subsection (b)(4)(A), the effective area of a permanent non-premise attached sign on a building facade may not exceed 50 percent of the area of the portion of the facade below 66 feet in height.

(6) Cumulative effective area limitations for all attached signs. The cumulative effective area of all permanent attached signs on a building facade may not exceed 50 percent of the total area of the facade.

(7) Spacing of attached non-premise signs. HBA signs must be spaced at least 250 feet apart.

(8) Signs overhanging or projecting into the public right-of-way.

(A) Attached signs overhanging the public right-of-way are permitted as long as each sign is a minimum of 10 feet above the sidewalk grade.

(B) No portion of a marquee sign may be located less than 2.5 feet from the back of a street curb.

(C) For all other projecting attached signs, no portion of the signs may:

   (i) project more than eight feet into the public right-of-way; or

   (ii) be located less than two feet from the back of the street curb.

(9) Parapet signs. Parapet signs are permitted as follows:

(A) Except as provided in Subparagraph (B), no parapet sign may project more than four feet
above the edge of the roof, regardless of whether the sign is erected on a parapet wall or the roof's edge.

(B) Six parapet signs in this district may project up to 10 feet above the edge of the roof if no parts of the signs are located at a height above 100 feet, measured from the grade of the buildings on which the signs are attached.

(10) Roof signs. Roof signs are permitted as follows:

(A) No part of a roof sign may be located at a height above 100 feet, measured from the grade of the building on which the sign is attached.

(B) The sign support for a roof sign must consist of open, exposed metal framing. The metal must be painted or coated, or be composed of a material that will not rust or corrode.

(C) A roof sign must be erected on the main roof of the building.

(D) No roof sign may project above the roof more than one-third of the building height.

(E) A roof sign must be mounted parallel to the nearest facade of the building.

(F) No roof sign may be a changeable message sign.

(11) No limitation on projecting attached signs. Projecting attached signs are permitted on premises with detached signs.

(12) Location limitation on non-premise signs. No portion of a non-premise sign may be located at a point on the facade above 66 feet in height.

(13) District activities and non-premise signs. A minimum of 30 percent of the effective area of an attached non-premise sign must identify district activities.

(14) Signs projecting over the roof line. A projecting, attached sign, other than a roof or parapet sign, may project up to a maximum of 10 feet above a building. No changeable message or attached non-premise sign may project above a building.

(15) Location limitation on projecting attached signs. Except for a roof or parapet sign, no portion of a projecting attached sign may be located at a point on the facade above 66 feet in height.

(16) Location limitation on changeable message signs. No portion of a changeable message sign may be located at a point on the facade above 66 feet in height.

(c) Additional signs in Subarea B-1.

(1) In general. The non-premise signs described in this subsection are permitted in Subarea B-1 subject to the following restrictions.

(A) The signs may not be HBA signs.

(B) The signs are permitted on premises with detached signs.

(C) The signs are in addition to all other signs permitted on a premise.

(2) Icon Tower Signs. A maximum of three projecting attached changeable message signs are permitted on an architectural element (such as a tower) that is part of a building adjacent to the western edge of an entertainment complex plaza, subject to the following restrictions:

(A) The signs may not be HBA signs.

(B) Each sign may not exceed 1,200 square feet in effective area.

(C) The signs may not be located more than 150 feet above the base of the building to which the architectural element is attached.
(D) The signs may not project above the architectural element to which they are attached.

(E) The signs may project outward from the architectural element to which they are attached.

(F) All of the signs must be located on the same architectural element.

(3) Icon tower static signs. A maximum of five projecting attached signs are permitted on an architectural element (such as a tower) that is part of a building adjacent to the western edge of an entertainment complex plaza, subject to the following restrictions:

(A) The signs may not be HBA signs.

(B) Each sign may not exceed 144 square feet in effective area.

(C) The signs may not be located more than 170 feet above the base of the building to which the architectural element is attached.

(D) The signs may project above the architectural element to which they are attached.

(E) The signs may project outward from the architectural element to which they are attached.

(F) All of the signs must be located on the same architectural element.

(G) The signs are subject to the limitations on the number of words or characters in Subsection (b)(2) above.

(4) Media Wall Signs. A maximum of eight projecting attached changeable message signs are permitted on a facade facing an entertainment complex plaza, subject to the following restrictions:

(A) The signs may not be HBA signs.

(B) Each sign may not exceed 967 square feet in effective area.

(C) The signs may move along the structural framing to which they are attached and converge to form one or more screens that exceed 967 square feet in effective area.

(D) The signs may not be located more than 85 feet above the base of the building to which the signs are attached.

(E) The signs may project outward from the structural framing or building to which they are attached.

(F) The signs may not project above the building to which they are attached.

(G) No facade may have more than five media wall signs.

(H) The signs may be attached to the exterior structural framing of the building or the building itself.

(5) Portal Sign. One projecting attached changeable message sign is permitted on a building adjacent to the eastern edge of an entertainment complex plaza, subject to the following restrictions:

(A) The sign may not be an HBA sign.

(B) The sign may not exceed 2,135 square feet in effective area.

(C) The sign may not be located more than 85 feet above the base of the building to which the sign is attached.

(D) The sign must be oriented to the south, southeast, or east.

(E) The sign may be attached to one or more facades, so that it wraps around the building.
(F) The sign may be attached to the exterior structural framing of the building or the building itself.

(G) The sign may project outward from the structural framing or building to which it is attached.

(H) The sign may not project above the building to which it is attached.

(6) Ticker sign. Two projecting attached changeable message signs are permitted on an architectural element that is part of a building adjacent to the eastern or western edge of an entertainment complex plaza, subject to the following restrictions:

(A) The sign may not be an HBA sign.

(B) The sign may not exceed 1,000 square feet in effective area.

(C) The sign may not be located more than 40 feet above the base of the building to which the architectural element is attached.

(D) Except as provided in Subparagraph (E), the sign may be attached to a maximum of two facades, so that it wraps around the building.

(E) The sign must be primarily oriented towards either the entertainment complex plaza or Olive Street.

(F) The sign may not project above the building to which the architectural element is attached.

(G) The sign may project outward from the architectural element to which it is attached.

(7) Entertainment complex plaza accent lighting. Facades facing the entertainment complex plaza may have building accent lighting consisting of LED or similar technology that changes colors or brightness. All messages are limited to images, symbols, logos, or words that are associated with district activities.

(d) Additional signs in Subareas B-2 and B-3:

(1) Hotel spectacular sign. One non-premise flat attached changeable message sign is permitted on an architectural element that is part of a building in Subarea B-2, subject to the following restrictions:

(A) The sign may not be an HBA sign.

(B) The sign is permitted on a premise with detached signs.

(C) The sign is in addition to all other signs permitted on a premise.

(D) The sign may not exceed 1,680 square feet in effective area.

(E) The sign may not be located more than 170 feet above the base of the building to which the architectural element is attached.

(F) The sign may not project above the building to which it is attached.

(G) The sign may project outward from the building or architectural element to which it is attached.

(H) The sign must be oriented to the north, northwest, or west.

(I) The sign may be attached to one or more facades, so that it wraps around the building.

(J) If a portion of the sign is static, the static portion is subject to the restrictions on the number of words or characters in Subsection (b)(2) above.

(2) Parking structure screening signs. Attached signs are permitted on parking structures in Subarea B-3, subject to the following restrictions:
§ 51A-7.1727 Dallas Development Code: Ordinance No. 19455, as amended § 51A-7.1727

(A) Visual display and coverage.

(i) The maximum effective area of text may not exceed 20 percent. The effective area of text is the sum of the areas within minimum imaginary rectangles of vertical and horizontal lines, each of which fully contains a word.

(ii) Multiple displays giving an appearance of multiple signs are prohibited.

(iii) A parking structure screening sign must be at least 10 feet above adjacent average grade.

(iv) A parking structure screening sign may be internally or externally illuminated. If internally illuminated, a parking structure screening sign may consist of translucent materials, but not transparent materials. Illumination must be turned off between 1:00 a.m. and 7:00 a.m. Monday through Friday and 2:00 a.m. and 8:00 a.m. on Saturday and Sunday.

(v) Minimum permitted effective area of a parking structure screening sign is 750 square feet.

(B) Location and construction.

(i) The sign may not be an HBA sign.

(ii) A parking structure screening sign may only be located on a blank wall face or on the facade of a parking structure facing north, west, or south.

(iii) The parking structure must comply with the Dallas Building Code parking structure ventilation requirements.

(iv) No parking structure screening sign may cover any window or architectural or design feature of the building to which it is attached.

(v) A parking structure screening sign may wrap around the edge of a building if both building facades to which the parking structure screening sign is attached are eligible facades and the parking structure screening sign is one continuous image.

(e) Permanent detached signs. The only permanent detached signs permitted in this subdistrict are signs provided for in this subsection.

(1) Kiosks. Kiosks are permitted subject to the following regulations:

(A) No more than 20 kiosks are permitted in this district.

(B) Kiosks within the same block face and within 20 feet of the right-of-way line of a public street must be spaced at least 50 feet apart.

(C) No kiosk may be illuminated by a detached independent external light source.

(D) Kiosks may not be located on sidewalks unless a minimum unobstructed sidewalk width of 10 feet is maintained. If, however, a greater unobstructed sidewalk is required in the ordinance establishing Planned Development District No. 582, then that greater unobstructed sidewalk width requirement must be maintained.

(E) Kiosks must be securely anchored to the ground.

(F) No kiosk may exceed ten feet in height, measured from the ground at the base of the kiosk, or 100 square feet in effective area.

(G) Kiosks may display premise or non-premise signs. If the sign displayed is a non-premise non-changeable message sign or a non-premise non-digital changeable message sign, 30 percent of the effective area of the sign must identify a district activity. If the sign displayed is a non-premise digital changeable message sign, the sign must identify a
district activity 30 percent of the time measured on a 24-hour basis.

(2) Monument signs. Each premise fronting on a public street or private access easement may have one monument sign. Premises that have more than 250 feet of frontage along a public street or private access easement, other than an alley, may have not more than one additional monument sign for each additional 250 feet of frontage or fraction thereof. No monument sign may exceed 250 square feet in effective area or 10 feet in height.

(3) Water tower sign. One non-premise sign is permitted on a water tower in this subdistrict subject to the following regulations:

(A) The sign is limited to two words.

(B) The sign may only identify the name or logo of this district.

(C) The sign may not exceed 110 feet in height.

(D) The sign must be painted on the water tower.

(4) All other detached signs. The following additional detached signs are permitted:

(A) Non-premise detached signs may be located in private access easements. No such sign may exceed 30 feet in height or have a sign face that exceeds six feet in height. Each such sign must have a minimum clearance of 14 feet above the ground. Signs permitted under this subparagraph must be spaced at least 250 feet apart.

(B) The owner or operator of a surface parking lot may erect one non-premise detached sign for each vehicular entrance to the parking lot, and one additional non-premise detached sign for each 40,000 square feet of parking surface. Signs permitted under this subparagraph:

(i) may not exceed 30 square feet in effective area or 20 feet in height;

(ii) must be spaced at least 100 feet apart; and

(iii) must be located at least five feet from the lot line or public right-of-way line, whichever creates the greater setback.

A minimum of 30 percent of the effective area of each sign must identify a district activity.

(C) Two additional non-premise detached signs are permitted in this subdistrict subject to the following provisions:

(i) No sign may exceed 66 feet in height, measured from the ground at the base of the sign.

(ii) No sign may exceed 1,500 square feet in effective area.

(iii) The signs must be spaced 400 feet from each other and if the sign is an HBA sign, it must be spaced 100 feet from any detached HBA sign.

(iv) No sign may be nearer than five feet to the lot line or public right-of-way line, whichever creates the greater setback.

(v) No sign may exceed one foot in width for every three feet in height, measured from the ground at the base of the sign.

(vi) The signs must consist of individual panels. Messages may only be displayed on the individual panels. Each panel must be separated from the others by at least one foot of air space, and, except as otherwise provided, no single panel may have an effective area that exceeds 250 square feet. One panel of a sign may have an effective area of up to 500 square feet if: (aa) the panel is an electronic changeable message panel, and (bb) the message displayed on the panel only identifies district activities.
(vii) A minimum of 50 percent of the cumulative effective area of each sign must identify district activities.

(D) One additional non-premise detached sign is permitted in this subdistrict subject to the following provisions:

(i) The sign may not exceed 30 feet in height, measured from the ground at the base of the sign.

(ii) The sign may not exceed 600 square feet in effective area.

(iii) If the sign is an HBA sign, the sign must be spaced at least 200 feet from any other detached HBA sign.

(iv) The sign may not be nearer than five feet to the lot line or public right-of-way line, whichever creates the greater setback.

(v) The sign must be located on the same premise as an entertainment complex use.

(vi) A minimum of 70 percent of the sign’s effective area must identify district activities.

(5) Vent stack signs prohibited. Except as provided in this paragraph, no sign may be located on a vent stack. In Subarea B-2, a vent stack may be used as a monument sign or monument district identification sign.

(f) Temporary signs. The only temporary signs permitted in this subdistrict are special purpose signs, temporary protective signs, temporary signs on construction fencing, and “for sale,” “for lease,” “remodeling,” and “under construction” signs. These temporary signs are in addition to all other signs permitted in this ordinance.

(g) Special purpose signs.

(1) Illumination. Special purpose signs may be externally illuminated, and, except for banners, may be internally illuminated or “back-lighted.”

(2) Premise special purpose signs.

(A) Attached premise special purpose signs.

(i) In general. An occupancy may have one attached premise special purpose sign up to four times within any twelve-month period as long as the sign:

(aa) is displayed for no more than 45 days each time during the twelve-month period; and

(bb) has no more than 10 words that contain any character equal to or exceeding four inches in height.

(ii) Entertainment complex plaza. There is no limit on the number of attached premise special purpose signs that may be erected on the facade of a building facing and adjacent to an entertainment complex plaza. No attached premise special purpose sign may be maintained for more than 45 days in any given twelve-month period.

(B) Detached premise special purpose signs.

(i) An occupancy may have a detached premise special purpose sign no more than three times each calendar year for no more than 38 consecutive days each time. No detached premise special purpose sign may be erected at an occupancy during the 30-day period immediately following the removal of a detached premise special purpose sign from that occupancy.
§ 51A-7.1727 Dallas Development Code: Ordinance No. 19455, as amended

(ii) Detached premise special purpose signs must:

   (aa) be located at least 100 feet apart;
   (bb) not exceed eight feet in height; and
   (cc) not exceed 50 square feet in effective area.

(iii) No more than one detached premise special purpose sign may be erected on each street or private access easement that the premise fronts on.

(4) Non-premise special purpose signs.

   (A) In general. Non-premise special purpose signs are permitted subject to the following regulations:

      (i) Except as provided in Subparagraph (A)(ii) below, non-premise special purpose signs may only display promotional and welcome messages.

      (ii) Up to 10 percent of the effective area of a non-premise special purpose sign may contain commercial advertisement. The name of the event or activity identified in a promotional message is not considered commercial advertisement even if the event or activity is named after the sponsor.

      (iii) A non-premise special purpose sign may not be erected more than 30 days before the beginning of the advertised activity or event, and must be removed no later than 10 days after the activity or event has ended.

      (iv) The sign hardware for a banner may be left in place between displays of a banner.

   (B) Attached non-premise special purpose signs.

      (i) The only attached non-premise special purpose signs permitted in this subdistrict are banners.

      (ii) Banners may be displayed on the facade of a building that is adjacent to an entertainment complex plaza, except that no portion of a banner may be located on the facade at a point above 66 feet in height. There is no limit on the number or size of these banners.

      (iii) Banners may also be displayed on the facades of buildings that are not adjacent to an entertainment complex plaza, except that no portion of a banner may be located on the facade at a point above 36 feet in height. No banner may exceed 200 square feet in effective area, and all banners must be spaced at least 100 feet apart.

   (C) Detached non-premise special purpose signs. The only detached non-premise special purpose signs permitted in this subdistrict are as follows:

      (i) Banners on street light poles. Banners are permitted on street light poles as long as the banners and their hardware:

         (aa) Meet the sign construction and design standards contained in the Dallas Building Code;
         (bb) are at least 12 feet above grade, unless they overhang a roadway, in which case they must be at least 15 feet above grade;
         (cc) do not project more than three feet from the pole on which they are mounted;
         (dd) do not exceed 50 square feet in effective area; and

§ 51A-7.1727 Dallas Development Code: Ordinance No. 19455, as amended

(ee) are made out of weather-resistant and rustproof material.

(ii) Other banners crossing the public way. Banners may be displayed over and across the public way. No portion of a banner may be located more than 25 feet above grade, or less than 14 feet above any street, sidewalk, or other pedestrian area. The height of a sign face may not exceed six feet. All banners must be spaced at least 100 feet apart.

(iii) Other signs located in the right-of-way. Signs may be displayed on any public sidewalk or other public pedestrian area if an unobstructed 10-foot sidewalk or pedestrian walkway area is maintained. No sign may exceed an effective area of 50 square feet, or a height of 10 feet. No more than one sign is permitted per blockface.

(h) Other temporary signs.

(1) Temporary protective signs. In addition to the other protective signs permitted under Section 51A-7.1718, temporary protective signs may be erected anywhere on a construction site at anytime during construction. There is no limit on the number of these signs, but no sign may exceed 20 square feet in effective area or eight feet in height. Temporary protective signs may be illuminated, but no lighting source may project more than three inches from the vertical surface of, or six inches above the top of, the sign. All temporary protective signs must be removed upon completion of the construction.

(2) Temporary signs on construction fencing. Temporary signs may be erected on construction fencing subject to the following provisions:

   (A) The signs must be spaced at least 50 feet apart.

   (B) No sign may exceed 128 square feet in effective area or eight feet in height.

   (C) No sign may project more than three inches from the vertical surface of, or six inches above the top of, the fence.

   (D) The signs may be illuminated.

   (E) The signs may only identify the project under construction and its owners, developers, future tenants, lenders, architects, engineers, project consultants, and contractors.

   (F) The signs must be removed upon completion of the construction.

(3) “For Sale,” “For Lease,” “Remodeling,” and “Under Construction” signs. Signs that relate exclusively to the sale, lease, construction, or remodeling of the premises on which they are located are permitted. There is no limit to the number of attached signs permitted. Detached signs are limited to one for each 100 feet of frontage on a public street or private access easement. If attached to a window, the maximum effective area of the sign is 16 square feet; if attached to other portions of a facade, the maximum effective area is 32 square feet. No detached sign may exceed 128 square feet in effective area or 16 feet in height.

   (i) Illuminated Projection Signs. A maximum of five non-premise signs created by the projection of light onto an entertainment complex plaza adjacent to an entertainment complex are permitted. The projection of light may originate from a premise other than the premise upon which the light is cast. These illuminated projection signs are in additional to all other signs permitted on a premise. The signs may not be HBA signs. (Ord. Nos. 24348; 25918; 30043)

SEC. 51A-7.1728. SIGN REGULATIONS FOR SUBDISTRICT C (EXPRESSWAY ADJACENCY SUBDISTRICT).

(a) Permanent attached signs. The only permanent attached signs permitted in this subdistrict are signs provided for in this subsection.
(1) **Number of permitted signs.**

(A) Each premise or non-residential occupancy is entitled to one attached sign per facade.

(B) In addition to the signs permitted in Subparagraph (A), the following flat attached non-premise signs are permitted on expressway-facing facades in this subdistrict:

(i) On three expressway-facing facades, two non-premise signs with a maximum number of 10 words each, regardless of the size of any character in the word, are permitted. No sign may exceed 672 square feet in effective area or be a changeable message sign. One of the two signs on each facade is limited to advertising district activities.

(ii) In lieu of one of the three facades permitted attached non-premise signs in Subparagraph (i) above and one 1,500-square-foot detached non-premise sign permitted in Subsection (b) of this section, one expressway-facing facade may have an unlimited number of non-premise signs. The cumulative effective area of all non-premise signs on that facade, however, may not exceed 22 percent of the area of the building facade below 66 feet in height. There is no limit on the number of words permitted on a sign. Only one marquee sign and one other changeable message sign, not to exceed 500 square feet in effective area, are permitted on that facade. These signs are limited to advertising district activities.

(iii) For purposes of calculating the maximum effective area of a non-premise attached sign in this subdistrict, the building official shall draw a minimum imaginary rectangle of vertical and horizontal lines around all extremities of the attached non-premise sign. The area within the minimum imaginary rectangle is the effective area of the sign.

(2) **Number of words or characters generally.**

(A) Except as otherwise provided in this paragraph or in Paragraph (1), no person may erect a sign which contains more than 10 words consisting of any characters of a height equal to or exceeding four inches on any building facade. Words consisting of characters less than four inches in height may be used without limit.

(B) There is no limit as to the number of words containing characters of a height equal to or exceeding four inches on a marquee or other changeable message sign.

(3) **Premise and non-premise signs.** Except for the attached non-premise signs permitted in Paragraph (1), all attached permanent signs in this subdistrict must be premise signs or convey a noncommercial message.

(4) **Effective area limitations for certain attached signs.**

(A) Except as provided in Subsection (a)(1)(B)(ii) of this section or as further restricted below, the maximum effective area of a changeable message sign is 1,000 square feet.

(B) The maximum effective area of a marquee sign is 250 square feet.

(C) The maximum effective area of an awning or canopy sign is 150 square feet.

(D) There is no maximum effective area for a parapet sign.

(E) The maximum effective area for all other projecting attached signs is 20 square feet.

(5) **Cumulative effective area limitations for all attached signs.**

(A) Except as provided in Subparagraph (B), the cumulative effective area of all permanent attached signs on an expressway-facing facade may not exceed 22 percent of the total area of the facade.

(B) The cumulative effective area of all permanent attached signs on the expressway-facing facade that is permitted to have an unlimited number
§ 51A-7.1728   Dallas Development Code: Ordinance No. 19455, as amended  § 51A-7.1728

of non-premise attached signs pursuant to Subsection (a)(1)(B)(ii) may not exceed 32 percent of the total area of the facade.

(C) The cumulative effective area of all permanent attached signs on a facade that does not face an expressway may not exceed 20 percent of the total area of the facade.

(6) Spacing of attached non-premise signs. HBA signs on a facade must be spaced a minimum of 1000 feet from all HBA signs on another facade. There are no spacing requirements for HBA signs on the same facade.

(7) Signs overhanging or projecting into the public right-of-way.

(A) Attached signs overhanging the public right-of-way are permitted as long as each sign is a minimum of 10 feet above the sidewalk grade.

(B) No portion of a marquee sign may:

   (i) project more than eight feet into the public right-of-way; or

   (ii) be located less than two feet from the back of a street curb.

(C) For all other projecting attached signs, no portion of the signs may:

   (i) project more than four feet into the public right-of-way; or

   (ii) be located less than two feet from the back of the street curb.

(8) Parapet signs. Parapet signs are permitted in this subdistrict. No parapet sign may project more than four feet above the edge of the roof, regardless of whether the sign is attached to a parapet wall or the roof’s edge.

(9) Roof signs. Roof signs are prohibited in this subdistrict.

(10) No limitation on projecting attached signs. Projecting attached signs are permitted on premises with detached signs.

(11) Limitations on changeable message signs.

(A) A premise is entitled to only one marquee sign per facade, except that one additional marquee sign is permitted on that facade if the width of the facade is more than 300 feet.

(B) A premise is entitled to two additional changeable message signs per facade as long as the signs are not marquee signs.

(C) No portion of a changeable message sign may be located at a point on the facade above 66 feet in height.

(12) Location limitation on projecting attached signs. Except for a parapet sign, no portion of a projecting attached sign may be located at a point on the facade above 66 feet in height.

(13) Location limitation on non-premise signs. No portion of a non-premise sign may be located at a point on the facade above 66 feet in height.

(14) Signs projecting over the roof line. Except for a parapet sign, no attached sign may project over a building.

(b) Permanent detached signs. The only permanent detached signs permitted in this subdistrict are signs provided for in this subsection.

(1) Kiosks. Kiosks are permitted subject to the following regulations:

   (A) No more than 20 kiosks are permitted in this district.

   (B) Kiosks within the same block face and within 20 feet of the right-of-way line of a public street must be spaced at least 50 feet apart.
(C) No kiosk may be illuminated by a detached, independent external light source.

(D) Kiosks may not be located on sidewalks unless a minimum unobstructed sidewalk width of 10 feet is maintained. If, however, a greater unobstructed sidewalk is required in the ordinance establishing Planned Development District No. 582, then that greater unobstructed sidewalk width requirement must be maintained.

(E) Kiosks must be securely anchored to the ground.

(F) No kiosk may exceed ten feet in height, measured from the ground at the base of the kiosk, or 100 square feet in effective area.

(G) Kiosks may display premise or non-premise signs. If the sign displayed is a non-premise non-changeable message sign or a non-premise non-digital changeable message sign, 30 percent of the effective area of the sign must identify a district activity. If the sign displayed is a non-premise digital changeable message sign, the sign must identify a district activity 30 percent of the time measured on a 24-hour basis.

(2) Monument signs. Each premise fronting on a public street or private access easement may have one monument sign. Premises which have more than 250 feet of frontage along a public street or private access easement, other than an alley, may have not more than one additional monument sign for each additional 250 feet of frontage or fraction thereof. No monument sign may exceed 250 square feet in effective area or 10 feet in height.

(3) All other detached signs. The following additional detached signs are permitted:

(A) Non-premise detached signs may be located in private access easements. No such sign may exceed 30 feet in height or have a sign face that exceeds six feet in height. Each such sign must have a minimum clearance of 14 feet above the ground. Signs permitted under this subparagraph must be spaced at least 250 feet apart.

(B) The owner or operator of a surface parking lot may erect one non-premise detached sign for each vehicular entrance to the parking lot, and one additional premise or non-premise detached sign for each 40,000 square feet of parking surface. Signs permitted under this subparagraph:

(i) may not exceed 20 square feet in effective area or 20 feet in height;

(ii) must be spaced at least 100 feet apart; and

(iii) must be located at least five feet from the lot line or public right-of-way line, whichever creates the greater setback.

A minimum of 30 percent of the effective area of each sign must identify a district activity.

(C) Two additional non-premise detached signs are permitted in this subdistrict subject to the following provisions:

(i) No sign may exceed 66 feet in height, measured from the ground at the base of the sign.

(ii) No sign may exceed 1,500 square feet in effective area.

(iii) The signs must be spaced at least 1,500 feet from each other and at least 100 feet from any detached HBA sign.

(iv) No sign may be nearer than five feet to the lot line or public right-of-way line, whichever creates the greater setback.

(v) No sign may exceed one foot in width for every three feet in height, measured from the ground at the base of the sign.
§ 51A-7.1728 Dallas Development Code: Ordinance No. 19455, as amended

(vi) The signs must consist of individual panels. Messages may only be displayed on the individual panels. Each panel must be separated from the others by at least one foot of air space, and except as otherwise provided, no single panel may have an effective area that exceeds 250 square feet. One panel of a sign may have an effective area of up to 500 square feet if: (aa) the panel is an electronic changeable message panel, and (bb) the message displayed on the panel only identifies district activities.

(vii) A minimum of 50 percent of the cumulative effective area of each sign must identify district activities.

(4) Vent stack signs prohibited. No sign may be located on a vent stack in this subdistrict.

(c) Temporary signs. The only temporary signs permitted in this subdistrict are special purpose signs, temporary protective signs, temporary signs on construction fencing, and “for sale,” “for lease,” “remodeling,” and “under construction” signs. These temporary signs are in addition to all other signs permitted in this ordinance.

(d) Special purpose signs.

(1) Illumination. Special purpose signs may be externally illuminated, and, except for banners, may be internally illuminated or “back-lighted.”

(2) Premise special purpose signs.

(A) Attached premise special purpose signs. An occupancy may have one attached premise special purpose sign up to four times within any twelve-month period as long as the sign:

(i) is displayed for no more than 45 days each time during the twelve-month period; and

(ii) has no more than 10 words that contain any character equal to or exceeding four inches in height.

(B) Detached premise special purpose signs.

(i) An occupancy may have a detached premise special purpose sign no more than three times each calendar year for no more than 38 consecutive days each time. No detached premise special purpose sign may be erected at an occupancy during the 30-day period immediately following the removal of a detached premise special purpose sign from that occupancy.

(ii) Detached premise special purpose signs must:

(aa) be located at least 100 feet apart;

(bb) not exceed eight feet in height; and

(cc) not exceed 50 square feet in effective area.

(iii) No more than one detached premise special purpose sign may be erected on each street or private access easement that the premise fronts on.

(4) Non-premise special purpose signs.

(A) In general. Non-premise special purpose signs are permitted subject to the following regulations:

(i) Except as provided below, non-premise special purpose signs may only display promotional and welcome messages.

(ii) Up to 10 percent of the effective area of a non-premise special purpose sign may contain commercial advertisement. The name of the event or activity identified in a promotional message is not considered commercial advertisement even if the event or activity is named after the sponsor.
§ 51A-7.1728 Dallas Development Code: Ordinance No. 19455, as amended

(iii) A non-premise special purpose sign may not be erected more than 30 days before the beginning of the advertised activity or event, and must be removed no later than 10 days after the activity or event has ended.

(iv) The sign hardware for a banner may be left in place between displays of a banner.

(B) Attached non-premise special purpose signs. Attached non-premise special purpose signs are prohibited in this subdistrict.

(C) Detached non-premise special purpose signs. The only detached non-premise special purpose signs permitted in this subdistrict are as follows:

(i) Banners on street light poles. Banners are permitted on street light poles as long as the banners and their hardware:

(aa) meet the sign construction and design standards contained in the Dallas Building Code;

(bb) are at least 12 feet above grade, unless they overhang a roadway, in which case they must be at least 15 feet above grade;

(cc) do not project more than three feet from the pole on which they are mounted;

(dd) do not exceed 50 square feet in effective area; and

(ee) are made out of weather-resistant and rustproof material.

(ii) Other banners crossing the public way. Banners may be displayed over and across the public way. No portion of a banner may be located more than 35 feet above grade, or less than 14 feet above any street, sidewalk, or other pedestrian area. The height of a sign face may not exceed six feet. All banners must be spaced at least 100 feet apart.

(e) Other temporary signs.

(1) Temporary protective signs. In addition to the other protective signs permitted under Section 51A-7.1718, temporary protective signs may be erected anywhere on a construction site at anytime during construction. There is no limit on the number of these signs, but no sign may exceed 20 square feet in effective area or eight feet in height. Temporary protective signs may be illuminated, but no lighting source may project more than three inches from the vertical surface of, or six inches above the top of, the sign. All temporary protective signs must be removed upon completion of the construction.

(2) Temporary signs on construction fencing. Temporary signs may be erected on construction fencing subject to the following provisions:

(A) The signs must be spaced at least 50 feet apart.

(B) No sign may exceed 128 square feet in effective area or eight feet in height.

(C) No sign may project more than three inches from the vertical surface of, or six inches above the top of, the fence.

(D) The signs may be illuminated.

(E) The signs may only identify the project under construction and its owners, developers, future tenants, lenders, architects, engineers, project consultants, and contractors.

(F) The signs must be removed upon completion of the construction.

(3) “For Sale,” “For Lease,” “Remodeling,” and “Under Construction” signs. Signs that relate exclusively to the sale, lease, construction, or remodeling of the premises on which they are located are permitted. There is no limit to the number of attached signs permitted. Detached signs are limited
SEC. 51A-7.1729. SIGN REGULATIONS FOR SUBDISTRICT D (OFFICE AND RESIDENTIAL SUBDISTRICT).

(a) Permanent attached signs. The only permanent attached signs permitted in this subdistrict are signs provided for in this subsection.

(1) Number of permitted signs. Each premise or non-residential occupancy is entitled to one attached sign per facade.

(2) Number of words or characters.

(A) Except as otherwise provided in this paragraph, no person may erect a sign which contains more than 10 words consisting of any characters of a height equal to or exceeding four inches on any building facade. Words consisting of characters less than four inches in height may be used without limit.

(B) There is no limit as to the number of words containing characters of a height equal to or exceeding four inches on a marquee or other changeable message sign.

(C) No more than six words are permitted at a point on the facade above 66 feet in height.

(3) Premise and non-premise signs. All attached permanent signs in this subdistrict must be premise signs or convey a noncommercial message.

(4) Effective area limitations for certain attached signs.

(A) With the exception of a marquee sign, the maximum effective area of a changeable message sign is 1,000 square feet.

(B) The maximum effective area of a marquee sign is 250 square feet.

(C) The maximum effective area of an awning or canopy sign is 250 square feet.

(D) There is no maximum effective area for a parapet sign.

(E) The maximum effective area for all other projecting attached signs is 250 square feet.

(5) Cumulative effective area limitations for all attached signs. The cumulative effective area of all permanent attached signs on a facade may not exceed 10 percent of the building facade on which the signs are located. No more than 50 percent of the maximum effective area may be located at a point on the facade above 66 feet in height.

(6) Signs overhanging or projecting into the public right-of-way.

(A) Attached signs overhanging the public right-of-way are permitted as long as each sign is a minimum of 10 feet above the sidewalk grade.

(B) No portion of a marquee sign may:

(i) project more than eight feet into the public right-of-way; or

(ii) be located less than two feet from the back of a street curb.

(C) For all other projecting attached signs, no portion of the signs may:
§ 51A-7.1729 Dallas Development Code: Ordinance No. 19455, as amended

(i) project more than four feet into the public right-of-way; or

(ii) be located less than two feet from the back of the street curb.

(7) Parapet signs. Parapet signs are permitted in this subdistrict. No parapet sign may project more than four feet above the edge of the roof, regardless of whether the sign is attached to a parapet wall or the roof's edge.

(8) Roof signs. Roof signs are prohibited in this subdistrict.

(9) No limitation on projecting attached signs. Projecting attached signs are permitted on premises with detached signs.

(10) Limitation on changeable message signs.

(A) A premise is entitled to only one marquee sign per facade, except that one additional marquee sign is permitted on that facade if the width of the facade is more than 300 feet.

(B) A premise is entitled to two additional changeable message signs per facade as long as the signs are not marquee signs.

(C) No portion of a changeable message sign is permitted at a point on the facade above 66 feet in height.

(11) Location limitations. Only two facades per building may have a sign or portion of a sign at a point on the facade above 66 feet in height.

(12) Signs projecting over the roof line. Except for a parapet sign, no attached sign may project over a building.

(13) Location limitation on projecting attached signs. Except for a parapet sign, no portion of a projecting attached sign may be located at a point on the facade above 66 feet in height.

(b) Permanent detached signs. The only permanent detached signs permitted in this subdistrict are signs provided for in this subsection.

(1) Kiosks. Kiosks are permitted subject to the following regulations:

(A) No more than 20 kiosks are permitted in this district.

(B) Kiosks within the same block face and within 20 feet of the right-of-way line of a public street must be spaced at least 50 feet apart.

(C) No kiosk may be illuminated by a detached independent external light source.

(D) Kiosks may not be located on sidewalks unless a minimum unobstructed sidewalk width of 10 feet is maintained. If, however, a greater unobstructed sidewalk is required in the ordinance establishing Planned Development District No. 582, then that greater unobstructed sidewalk width requirement must be maintained.

(E) Kiosks must be securely anchored to the ground.

(F) No kiosk may exceed ten feet in height, measured from the ground at the base of the kiosk, or 100 square feet in effective area.

(G) Kiosks may display premise or non-premise signs. If the sign displayed is a non-premise non-changeable message sign or a non-premise non-digital changeable message sign, 30 percent of the effective area of the sign must identify a district activity. If the sign displayed is a non-premise digital changeable message sign, the sign must identify a district activity 30 percent of the time measured on a 24-hour basis.

(2) Monument signs. Each premise fronting on a public street or private access easement may have one monument sign. Premises which have more than 250 feet of frontage along a public street or private
access easement, other than an alley, may have not more than one additional monument sign for each additional 250 feet of frontage or fraction thereof. No monument sign may exceed 250 square feet in effective area or 10 feet in height.

(3) All other detached signs. The following additional detached signs are permitted:

(A) Non-premise detached signs may be located in private access easements. No such sign may exceed 30 feet in height or have a sign face that exceeds six feet in height. Each such sign must have a minimum clearance of 14 feet above the ground. Signs permitted under this subparagraph must be spaced at least 250 feet apart.

(B) The owner or operator of a surface parking lot may erect one non-premise detached sign for each vehicular entrance to the parking lot, and one additional non-premise detached sign for each 40,000 square feet of parking surface. Signs permitted under this subparagraph must be spaced at least 250 feet apart.

(i) may not exceed 30 square feet in effective area or 20 feet in height;

(ii) must be spaced at least 100 feet apart; and

(iii) must be located at least five feet from the lot line or public right-of-way line, whichever creates the greater setback.

A minimum of 30 percent of the effective area of each sign must identify a district activity.

(4) Vent stack signs prohibited. No sign may be located on a vent stack in this subdistrict.

(c) Temporary signs. The only temporary signs permitted in this subdistrict are special purpose signs, temporary protective signs, temporary signs on construction fencing, and “for sale,” “for lease,” “remodeling,” and “under construction” signs. These temporary signs are in addition to all other signs permitted in this ordinance.

(d) Special purpose signs.

(1) Illumination. Special purpose signs may be externally illuminated, and, except for banners, may be internally illuminated or “back-lighted.”

(2) Premise special purpose signs.

(A) Attached premise special purpose signs. An occupancy may have one attached premise special purpose sign up to four times within any twelve-month period as long as the sign:

(i) is displayed for no more than 45 days each time during the twelve-month period; and

(ii) has no more than 10 words that contain any character equal to or exceeding four inches in height.

(B) Detached premise special purpose signs.

(i) An occupancy may have a detached premise special purpose sign no more than three times each calendar year for no more than 38 consecutive days each time. No detached premise special purpose sign may be erected at an occupancy during the 30-day period immediately following the removal of a detached premise special purpose sign from that occupancy.

(ii) Detached premise special purpose signs must:

(aa) be located at least 100 feet apart;

(bb) not exceed eight feet in height; and

(cc) not exceed 50 square feet in effective area.
(iii) No more than one detached premise special purpose sign may be erected on each street or private access easement that the premise fronts on.

(4) Non-premise special purpose signs.

(A) In general. Non-premise special purpose signs are permitted subject to the following regulations:

(i) Except as provided below, non-premise special purpose signs may only display promotional and welcome messages.

(ii) Up to 10 percent of the effective area of a non-premise special purpose sign may contain commercial advertisement. The name of the event or activity identified in a promotional message is not considered commercial advertisement even if the event or activity is named after the sponsor.

(iii) A non-premise special purpose sign may not be erected more than 30 days before the beginning of the advertised activity or event, and must be removed no later than 10 days after the activity or event has ended.

(iv) The sign hardware for a banner may be left in place between displays of a banner.

(B) Attached non-premise special purpose signs. Attached non-premise special purpose signs are prohibited in this subdistrict.

(C) Detached non-premise special purpose signs. The only detached non-premise special purpose signs permitted in this subdistrict are as follows:

(i) Banners on street light poles. Banners are permitted on street light poles as long as the banners and their hardware:

(aa) meet the sign construction and design standards contained in the Dallas Building Code;

(bb) are at least 12 feet above grade, unless they overhang a roadway, in which case they must be at least 15 feet above grade;

(cc) do not project more than three feet from the pole on which they are mounted;

(dd) do not exceed 50 square feet in effective area; and

(ee) are made out of weather-resistant and rustproof material.

(ii) Other banners crossing the public way. Banners may be displayed over and across the public way. No portion of a banner may be located more than 35 feet above grade, or less than 14 feet above any street, sidewalk, or other pedestrian area. The height of a sign face may not exceed six feet. All banners must be spaced at least 100 feet apart.

(e) Other temporary signs.

(1) Temporary protective signs. In addition to the other protective signs permitted under Section 51A-7.1718, temporary protective signs may be erected anywhere on a construction site at anytime during construction. There is no limit on the number of these signs, but no sign may exceed 20 square feet in effective area or eight feet in height. Temporary protective signs may be illuminated, but no lighting source may project more than three inches from the vertical surface of, or six inches above the top of, the sign. All temporary protective signs must be removed upon completion of the construction.

(2) Temporary signs on construction fencing. Temporary signs may be erected on construction fencing subject to the following provisions:

(A) The signs must be spaced at least 50 feet apart.

(B) No sign may exceed 128 square feet in effective area or eight feet in height.
§ 51A-7.1729 Dallas Development Code: Ordinance No. 19455, as amended § 51A-7.1730

(C) No sign may project more than three inches from the vertical surface of, or six inches above the top of, the fence.

(D) The signs may be illuminated.

(E) The signs may only identify the project under construction and its owners, developers, future tenants, lenders, architects, engineers, project consultants, and contractors.

(F) The signs must be removed upon completion of the construction.

(3) “For Sale,” “For Lease,” “Remodeling,” and “Under Construction” signs. Signs that relate exclusively to the sale, lease, construction, or remodeling of the premises on which they are located are permitted. There is no limit to the number of attached signs permitted. Detached signs are limited to one for each 100 feet of frontage on a public street or private access easement. If attached to a window, the maximum effective area of the sign is 16 square feet; if attached to other portions of a facade, the maximum effective area is 32 square feet. No detached sign may exceed 128 square feet in effective area or 16 feet in height.

(f) Additional signs in Subarea D-1: Parking structure screening signs.

(1) Visual display and coverage.

(A) The maximum effective area of text may not exceed 20 percent. The effective area of text is the sum of the areas within minimum imaginary rectangles of vertical and horizontal lines, each of which fully contains a word.

(B) Multiple displays giving an appearance of multiple signs are prohibited.

(C) A parking structure screening sign must be at least 10 feet above adjacent average grade.

(D) A parking structure screening sign may be internally or externally illuminated. If internally illuminated, a parking structure screening sign may consist of translucent materials, but not transparent materials. Illumination must be turned off between 1:00 a.m. and 7:00 a.m. Monday through Friday and 2:00 a.m. and 8:00 a.m. on Saturday and Sunday.

(E) Minimum permitted effective area of a parking structure screening sign is 750 square feet.

(2) Location and construction.

(A) The sign may not be an HBA sign.

(B) A parking structure screening sign may only be located on a blank wall face or on the facade of a parking structure facing north, east, or south.

(C) The parking structure must comply with the Dallas Building Code parking structure ventilation requirements.

(D) No parking structure screening sign may cover any window or architectural or design feature of the building to which it is attached.

(E) A parking structure screening sign may wrap around the edge of a building if both building facades to which the parking structure screening sign is attached are otherwise eligible facades and the parking structure screening sign is one continuous image. (Ord. Nos. 24348; 25918; 30043)

SEC. 51A-7.1730. NON-CONFORMANCE AND BOARD OF ADJUSTMENT AUTHORITY.

(a) Purpose of section. It is the declared purpose of this division that, in time, all privately owned signs shall either conform to the provisions of this division.
§ 51A-7.1730 Dallas Development Code: Ordinance No. 19455, as amended

or be removed. By the passage of this ordinance and its amendments, no presently illegal sign shall be deemed to have been legalized unless such sign complies with all current standards under the terms of this ordinance and all other ordinances of the city of Dallas. Any sign which does not conform to all provisions of this ordinance shall be a nonconforming sign if it legally existed as a conforming or nonconforming sign under prior ordinances; or an illegal sign if it did not exist as a conforming or nonconforming sign, as the case may be. It is further the intent and declared purpose of this ordinance that this division, and not the provisions of Article IV, shall exclusively govern how non-conforming signs in this district are treated. It is further the intent and declared purpose of this ordinance that no offense committed, and no liability, penalty or forfeiture, either civil or criminal, incurred prior to the time this ordinance was adopted shall be discharged or affected by such passage, but prosecutions and suits for such offenses, liabilities, penalties or forfeitures may be instituted, and causes presently pending may proceed.

(b) Removal and maintenance of certain non-conforming signs.

(1) A sign erected without a permit, either prior to or after the adoption of this division, is an illegal sign if a permit was required for its erection according to the law in effect at the time the sign was erected. It shall be unlawful to maintain any illegal sign. It is a defense to prosecution under this subsection if the sign has been made to comply with the provisions of this division so that a permit may be issued.

(2) No person may repair a nonconforming sign if the cost of repair is more than 60 percent of the cost of erecting a new sign of the same type at the same location, unless that sign is brought into conformity with this chapter. No person may alter or repair a nonconforming sign where the effect of such repair shall be to enlarge or increase the structure of the nonconforming sign. For purposes of this section, mono-pole, metal, and wood are each an example of a “type” of sign and the term “repair” does not include maintenance or changes of words or other content on the face of a sign.

(c) Board of Adjustment authority.

(1) The board of adjustment may, in specific cases, take the following actions and authorize the following special exceptions with respect to the provisions of this division.

(2) The board of adjustment may waive any filing fee for an appeal under this division when the board finds that payment of the fee would result in substantial financial hardship to the applicant. The applicant may either pay the fee and request reimbursement as part of his appeal or request that the matter be placed on the board’s miscellaneous docket for predetermination. If the matter is placed on the miscellaneous docket, the applicant may not file his appeal until the merits of the request for waiver have been determined by the board.

(3) The board of adjustment may hear and decide appeals that allege error in any order, requirement, decision, or determination made by the building inspection division in the enforcement of this division.

(4) The board of adjustment may require a nonconforming sign to be brought into immediate conformity with all current standards of all ordinances of the city, or to be removed when, from the evidence presented, the board finds the sign to be hazardous to the public or to have been abandoned by its owners.

(5) Where a permit was required for a sign’s erection according to the law in effect at the time the sign was erected and where the building inspection division finds no record of a permit being issued, the board of adjustment may authorize the issuance of a replacement permit when, from the evidence presented, the board finds that a permit was issued or that arrangements were made with a sign company to obtain the permit.

[Section 51A-7.1730 continues on page 683.]
(d) Determination of non-commercial message.

(1) Findings. The city council finds that it may be necessary in the enforcement of this division to determine whether the message displayed upon a sign is a commercial message or a noncommercial message.

(2) Hearing. If a person receives a notice of violation or is cited for maintaining an illegal sign, and the person notifies the city attorney in writing within 10 days of receiving the notice or citation that he believes the sign displays a noncommercial message and is, therefore, not in violation of this division, the city attorney shall postpone prosecution of the case and shall have the matter placed on the agenda of the board of adjustment for appeal under Section 51A-7.1730(c)(3) of this section. The board shall give the person maintaining the sign 10 days written notice of a public hearing on the matter. After hearing the evidence, the board shall decide whether the message displayed on the sign is commercial or noncommercial. No fee may be charged for this appeal.

(3) Judicial Review. If the board decides that the message is commercial and that the sign is illegal, the person maintaining the sign may within 10 days of the board’s decision file a notice of nonacceptance of the decision with the city attorney. Within three days after receiving notice of nonacceptance, the city attorney shall initiate suit in the district court for determination that the sign is commercial and for an injunction to prohibit display of the sign in violation of this article. The city shall bear the burden of showing that the sign is commercial. In computing the three-day time period, Saturdays, Sundays, and legal holidays are excluded. (Ord. Nos. 24348; 25918)

SEC. 51A-7.1801. DESIGNATION OF SOUTHSIDE ENTERTAINMENT SIGN DISTRICT.

(a) A special provision sign district is hereby created to be known as the Southside Entertainment Sign District. For purposes of this article, the boundaries of the Southside Entertainment Sign District are that portion of Planned Development District No. 317 (the Cedars Special Purpose District), that is enclosed between the centerlines of Interstate Highway 30, the Dallas Area Rapid Transit right-of-way, Belleview Road, and the MK&T railroad right-of-way.

(b) This division incorporates by reference the provisions of Divisions 51A-7.100 through 51A-7.800 of CHAPTER 51A, “PART II OF THE DALLAS DEVELOPMENT CODE,” as that division exists today and as it may be amended in the future. In the event of a conflict between the provisions of this division and Divisions 51A-7.100 through 51A-7.800, this division controls.

(c) Any portion of the property described in Subsection (a) that was formerly part of the Downtown Special Provision Sign District is no longer considered to be part of that district. This division completely supersedes Division 51A-7.900 with respect to the property described in Subsection (a). (Ord. 24760)

SEC. 51A-7.1802. PURPOSE.

(a) The purpose of these sign regulations is to regulate the construction of new signs and the alteration of existing signs to promote economic growth in this district as an entertainment district.
§ 51A-7.1802 Dallas Development Code: Ordinance No. 19455, as amended

(b) These sign regulations have been developed to achieve the following objectives in this district:

(1) To create a vibrant entertainment environment while ensuring that signage does not obscure architecturally significant features of the buildings in this district.

(2) To help create an aesthetically pleasing environment that promotes economic growth in this district. (Ord. 24760)

SEC. 51A-7.1803. DEFINITIONS.

(1) ARCADE SIGN means a sign that is mounted under a canopy or awning and is perpendicular to the building to which the canopy or awning is attached. This sign is intended to be read from the pedestrian walkway that the canopy or awning covers.

(2) AREA INFORMATION SIGN means a sign providing information about any of the following:

(A) The name, trade name, or logo of the owner or occupant of any premise within this district.

(B) The identification of any premise within this district.

(C) Any accommodations, services or activities offered, or conducted, other than incidentally, on any premise within this district.

(D) The sale, lease, or construction of any premise within this district.

(3) ATTACHED SIGN means a sign that is attached to, applied on, or supported by: any part of a building (such as a wall, parapet, roof, window, canopy, awning, arcade, or marquee) that encloses or covers usable space; mounted antennas; water reservoirs on buildings; chimneys; or visual screens that surround roof-mounted equipment.

(4) AWNING means a fabric or vinyl surface supported by a metal (or other similarly strong material) structure, which is applied to the face of a building.

(5) AWNING SIGN means a sign attached to, painted on, or otherwise applied to an awning.

(6) BANNER means a sign applied on a strip of cloth, vinyl, or similar material and attached to a building or structure. Awning, canopy signs, and flags are not banners.

(7) CANOPY means a permanent, non-fabric architectural element projecting from the face of a building.

(8) CANOPY SIGN means a sign attached to, applied on, or supported by a canopy, with no changeable message area.

(9) CHANGEABLE MESSAGE means the portion of a sign composed of Light Emitting Diode (LED)/Liquid Crystal Display (LCD) elements, “Diamond Vision” technology, slide lettering, slated rotating surfaces, or other changeable message technology that displays different designs or advertisements.

(10) DISTRICT or THIS DISTRICT means the Southside Entertainment Sign District.

(11) EFFECTIVE AREA means:

(A) for a detached sign, or a marquee sign, the area within a minimum imaginary rectangle of vertical and horizontal lines that fully contains all extremities of the sign excluding its supports. The rectangle is calculated from an orthographic projection of the sign viewed horizontally. The viewpoint for this projection that produces the largest rectangle must be used. If elements of the sign are moveable or flexible, such as a flag or a string of lights, the measurement is taken when the elements are fully extended and parallel to the plane of view;
§ 51A-7.1803 Dallas Development Code: Ordinance No. 19455, as amended

(B) for a sign placed on an awning, canopy, fence, construction barricade, non-enclosing wall, planter, or other similar structure that is designed to serve a separate purpose other than to support the sign, the entire area of such structure may not be computed, and the effective area must be measured by the rule for effective area for an attached sign; and

(C) for an attached sign other than a marquee sign, the sum of the areas within minimum imaginary rectangles of vertical and horizontal lines, each of which fully contains a word. If a design, outline, illustration, or interior illumination surrounds or attracts attention to a word, then it is included in the calculation of the effective area.

(12) EVENT SIGN means a temporary sign advertising any event at a sports, musical, or arts venue in this district, including, but not limited to, indoor motion picture theaters, theaters for live musical or dramatic performances, indoor and outdoor concert halls, galleries, and exhibition halls.

(13) FACADE means a separate face of a building, such as: a parapet wall; an omitted wall line; any part of a building which encloses or covers usable space; a chimney; roof-mounted equipment; a mounted antenna; or a water tower. Where separate facades on a building are oriented in the same direction or in directions within 45 degrees of one another, they are to be considered as part of a single facade. A roof is not a facade or part of a facade. Multiple buildings on the same lot have separate facades from each other.

(14) FLAT ATTACHED SIGN means an attached sign that projects 18 inches or less from a building, and has a face parallel to the building facade.

(15) GENERIC GRAPHICS means a pattern of shapes, colors, or symbols that does not commercially advertise.

(16) LANDSCAPE SIGN means a sign that is a part of a single landscape design that creates a base for the sign in conjunction with a retaining wall or an open space created with the use of water or planting material.

(17) MARQUEE SIGN means a sign attached to, applied on, or supported by a permanent canopy projecting over a pedestrian street entrance of a building, and consisting primarily of changeable panels, words, or characters.

(18) MESSAGE AREA means the area within the effective area of a sign that provides a specific commercial or noncommercial message and that excludes all extremity and intra-areas associated with the sign fixture.

(19) MONUMENT SIGN means a detached sign applied directly onto a grade-level support structure (instead of a pole support) with no separation between the sign and grade.

(20) MOVEMENT CONTROL SIGN means a sign that directs vehicular and pedestrian movement within this district.

(21) OCCUPANT means a person, group of people collectively, association, partnership, corporation, or other entity to whom a single certificate of occupancy has been issued by the building official.

(22) PROJECTING ATTACHED SIGN means an attached sign projecting more than 12 inches from a building at an angel other than parallel to the facade.

(23) ROOF SIGN means a sign that is attached to or supported by the roof of a building.

(24) SIGN HARDWARE means the structural support system for a sign, including the fastening devices that secure a sign to a building facade or pole.

(25) SPECIAL SIGN DISTRICT ADVISORY COMMITTEE means that committee created by Section 51A-7.504 of the Dallas Development Code, as amended.
(26) TEMPORARY SIGN means a sign erected for a limited time that identifies an event or activity of limited duration. Examples include signs advertising the sale or lease of property, construction activity in progress, or a concert or other cultural event.

(27) WELCOME MESSAGE means a message that identifies and greets heads of state, foreign dignitaries, groups using city property in accordance with a contract, license, or permit, or government organizations.

(28) WINDOW SIGN means a sign painted or affixed to a window.

(29) WORD: For purposes of this division, each of the following is considered to be one word:

(A) Any word in any language found in any standard unabridged dictionary or dictionary of slang.

(B) Any proper noun or any initial or series of initials.

(C) Any separate character, symbol, or abbreviation such as “&”, “$”, “%”, and “Inc.”

(D) Any telephone number, street number, or commonly used combination of numerals and symbols such as “$5.00” or “50%.”

(E) Any Internet website, network, or protocol address, domain name, or universal record locator.

(F) Any symbol or logo that is a registered trademark but which itself contains no word or character.

(G) A street address is not considered to be a word.

(b) Except as otherwise provided in this section, the definitions in the Dallas Development Code apply to this division. In the event of a conflict, this section controls. (Ord. 24760)

SEC. 51A-7.1804. GENERAL PROVISIONS.

(a) Except as otherwise provided in this division, all applications for certificates of appropriateness for signs in this district must be reviewed by the special sign district advisory committee using the permit procedures set forth in Section 51A-7.505.

(b) The only signs permitted in this district are those specified in this division, and those required by state or federal law.

(c) In Historic Overlay District No. 56, the Landmark Commission has the sole authority:

(1) to determine every aspect of a sign other than the construction and maintenance standards, such as the location, size, height, effective area, number, and type of signs; and

(2) to issue a certificate of appropriateness for a sign.

(d) All wind devices except for flags and banners are prohibited in this district unless allowed under a special events permit issued under Chapter 42A of the Dallas City Code, as amended.

(e) Roof signs and pole signs, except for area information signs and temporary detached signs, are prohibited.

(f) A sign with a changeable message area may not change its message at a rate more often than once each 20 seconds. No sign permit is required for changes to the changeable message portion of a sign.

(g) All signs must be premise signs, except area information signs, banner signs on streetlight poles, movement control signs, vehicular signs, government signs, event signs, and window display signs.
§ 51A-7.1804 Dallas Development Code: Ordinance No. 19455, as amended

(h) Signs over the right-of-way.

(1) Signs may be located within the public right-of-way subject to the franchise requirements of Chapter XIV of the City Charter, Article VI of Chapter 43 of the Dallas City Code, as amended, Chapter 36 of the Dallas Building Code, and the requirements of all other applicable laws, codes, ordinances, rules, and regulations.

(2) The traffic engineer shall review the location of any sign located in or overhanging the public right-of-way to ensure that the sign will not pose a traffic hazard or visibility obstruction.

(3) Signs overhanging the public right-of-way are permitted, except that no sign may project closer than two feet to the vertical plane extending through the back of a street curb. No portion of a sign may be located less than two feet from the back of a street curb. (Ord. Nos. 24760; 28424)

SEC. 51A-7.1805. ATTACHED SIGNS.

(a) Attached signs in general.

(1) The total effective area for all attached signs on a facade may not exceed 30 percent of the area of the facade. Projecting signs, marquee signs, and event signs are not included in the total effective area calculations of a facade.

(2) Except for changeable message portions of a sign, event signs, or as otherwise provided in this division, on any building facade, there may be a maximum of eight words per premise and/or per occupant which contain any character of a height equal to or exceeding four inches. Words consisting of characters less than four inches high may be used without limit.

(3) Attached signs must be securely attached.

(4) Attached signs may not project more than four feet above the surface to which they are attached, unless otherwise specified in this division.

(b) Arcade signs.

(1) An arcade sign must be located at least six feet from any other arcade sign.

(2) No arcade sign may exceed six square feet in effective area.

(3) No arcade sign may be lower than 10 feet above grade.

(c) Awning signs.

(1) No awning sign may project beyond the surface of the awning or be lower than 10 feet above grade or higher than 20 feet above grade.

(2) The total effective area for any one awning sign may not exceed six square feet.

(3) An awning sign must be located over a window or a door.

(d) Canopy signs.

(1) No canopy sign may:

(A) exceed 50 percent of the length of the canopy facade to which it is attached;

(B) project vertically beyond the canopy more than 15 percent of the length of the sign;

(C) project horizontally more than 12 inches from the surface of the canopy; or

(D) be lower than 10 feet above grade.

(2) A canopy sign may only be located over a pedestrian entrance to a premise.
§ 51A-7.1805 Dallas Development Code: Ordinance No. 19455, as amended

(e) Flat attached signs.

(1) The maximum effective area for a flat attached sign is 15 percent of the total facade area.

(2) The minimum distance between flat attached signs is four feet.

(3) Parapet signs are permitted as flat attached signs.

(f) Marquee signs.

(1) No marquee sign may exceed 50 percent of the area of the facade.

(2) No marquee sign may be longer than two-thirds of the length of the frontage of the building to which the marquee is attached.

(3) Marquee signs may not project more than five feet above the roof line of the facade to which it is attached.

(4) No premise may have more than one marquee sign per street frontage.

(g) Projecting attached signs.

(1) A projecting attached sign may not exceed the following size limits:

(A) Seventy-five square feet in effective area if the building to which it is attached is at least 36 feet high.

(B) Thirty square feet in effective area if the building to which it is attached is less than 36 feet high.

(2) No projecting attached sign may be lower than 12 feet above grade.

(3) No projecting attached sign may project more than five feet from the facade, or more than five feet over the roof line, of the building to which it is attached.

(h) Temporary attached signs.

(1) Temporary attached signs permitted in this district are temporary protective signs, or signs that relate exclusively to the sale, lease, construction, or remodeling of the premises on which they are located.

(2) No more than one temporary attached sign per occupant is permitted on the facade of the building.

(3) Temporary protective signs may be erected anywhere on a construction site during construction, subject to the following provisions:

(A) No sign may exceed 20 square feet in effective area or ten feet in height.

(B) The signs may be illuminated.

(C) The signs must be removed upon completion of the construction.

(4) Signs that relate exclusively to the sale, lease, construction, or remodeling of the premises on which they are located are permitted, but if the sign is attached to a window, the maximum effective area of the sign is 15 square feet. (Ord. 24760)

SEC. 51A-7.1806. EVENT SIGNS.

(a) Event signs may be non-premise signs.

(b) Event signs are not counted in the calculations for total percentage of facade area covered by signs.

(c) A maximum of 15 percent of the effective area of the sign may contain words or logos that identify the sponsor of the activity or event.
(d) Only one event sign per facade is permitted at one time.

(e) Each facade may display an event sign for up to 15 consecutive days (the display period), a maximum of 12 times per calendar year per premise or occupant. No event sign may be displayed on the same facade in two or more consecutive display periods.

(f) The effective area of an event sign may not exceed 30 percent of the area of the facade to which it is attached.

(g) An event sign may contain an unlimited number of words.

(h) An event sign may not be painted on any part of the building or be below 10 feet above grade. (Ord. 24760)

SEC. 51A-7.1807. WINDOW DISPLAY SIGNS.

(a) Window display signs are permitted only on the ground floor of a vacant building.

(b) A window display sign may contain only the following messages: welcome messages for visitors; advertising of occupants or events at a sports, musical, or arts venue in this district, including, but not limited to, indoor motion picture theaters, theaters for live musical or dramatic performances, indoor and outdoor concert halls, galleries, and exhibition halls; generic graphics (including three-dimensional artifacts); a message identifying the sponsor of the display; or a message referring to the sale or lease of the premises.

(c) Window display signs may not:

1. cover more than 25 percent of the surface area of a window;

2. contain a logo or word that has any character that exceeds five inches in height; or

3. contain more than 15 percent sponsorship identification.

(d) No sign permit or certificate of appropriateness is required to erect or remove a window display sign. (Ord. 24760)

SEC. 51A-7.1808. DETACHED SIGNS.

(a) Detached signs in general.

1. The only detached signs permitted are area information signs, banner signs on streetlight poles, landscape signs, monument signs, temporary detached signs, construction barricade signs, movement control signs, vehicular signs, government signs, and protective signs.

2. A detached premise sign may contain only the name, logo, and address of a premise in this district and its occupants.

3. No more than one detached sign per premise per street frontage is permitted, except that a premise having more than 450 feet of street frontage may have one additional sign per 100 feet (or fraction thereof) of street frontage above 450 feet.

4. Banner signs on streetlight poles and movement control signs may contain only the name, logo, and address of any building in this district and its occupants, or a sponsorship or welcome message, unless otherwise specified in this section.

(b) Area information signs.

1. A maximum of one area information sign is permitted in this district, and it may be located only in the following area, generally described as being near the intersection of Terminal Street and Lamar Street: Being a portion of Lot 3 of Mosher’s Subdivision of Block 419 of the City of Dallas, Texas, as recorded in Volume 4, Page 201, of the Map Records of Dallas County, Texas, and more particularly described as an
area within the perimeter of Lot 3, in the shape of a rectangle which is 20 feet wide and 96 feet long, and which is bounded on the northwest by an imaginary line which is parallel to and 11.5 feet to the southeast of the northwest lot line of said Lot 3 (said northwest line being the dividing or common line between Lot 3 and Lot 4 of said Mosher’s Subdivision of Block 419), bounded on the northeast by an imaginary line which is parallel to and 15 feet to the southwest of the northeast lot line of said Lot 3 (said northeast lot line being adjacent to Lamar Street), bounded on the southeast by an imaginary line which is parallel to and 9.9 feet to the northwest of the southeast lot line of Lot 3 (said southeast line being the dividing or common line between Lot 3 and Lot 2 of said Mosher’s Subdivision of Block 419), and bounded on the southwest by an imaginary line parallel to and 15 feet to the northeast of the southwest line of said Lot 3 (said southwest lot line being adjacent to Terminal Street).

(2) An area information sign:

(A) may not exceed 60 feet in height or 600 square feet in effective area;

(B) must have a changeable message component to the sign;

(C) must display messages regarding at least three occupants of premises in this district or events in this district per cycle of the changeable message board, and may not display an occupant or event message in two successive messages per cycle; and

(D) may display sponsorship identification on a maximum of 20 percent of the effective area of the sign.

(3) The text in the changeable message portion of the sign is limited to welcome messages for visitors, and to advertising of occupants or events at a sports, musical, or arts venue in this district, including, but not limited to, indoor motion picture theaters, theaters for live musical or dramatic performances, indoor and outdoor concert halls, galleries, and exhibition halls.

(4) The changeable message portion of the sign must be available for messages from all premises and occupants within this district.

(c) Banner signs on streetlight poles.

(1) A banner sign is permitted only if it:

(A) advertises an occupant or premise in this district or events at a sports, musical, or arts venue in this district, including, but not limited to, indoor motion picture theaters, theaters for live musical or dramatic performances, indoor and outdoor concert halls, galleries, and exhibition halls; or

(B) displays a sponsorship identification, a welcome message, or generic graphics.

(2) Text on a banner sign may not exceed 10 percent of the total effective area of the banner.

(3) A banner and its sign hardware must:

(A) be mounted on a streetlight pole;

(B) meet the sign construction and design standards in the Dallas Building Code;

(C) be at least 12 feet above grade, unless it overhangs a roadway, in which case it must be at least 15 feet above grade;

(D) be made out of weather-resistant and rust-proof material;

(E) not project more than three feet from the pole onto which it is mounted; and

(F) not exceed 20 square feet in effective area.
§ 51A-7.1808 Dallas Development Code: Ordinance No. 19455, as amended § 51A-7.1809

(4) No sign permit or certificate of appropriateness is required to erect or remove a banner sign.

(d) Landscape signs.

(1) A landscape sign must be a premise sign.

(2) A landscape sign may have a maximum effective area of 50 square feet, and a maximum height of 15 feet.

(3) There is no minimum setback required for landscape signs.

(4) Section 51A-7.304(c) of the Dallas Development Code, as amended, does not apply to landscape signs in this district.

(e) Monument signs.

(1) A monument sign must be a premise sign.

(2) A monument sign may have a maximum effective area of 50 square feet, and a maximum height of 15 feet.

(3) There is no minimum setback required for monument signs.

(4) Section 51A-7.304(c) of the Dallas Development Code, as amended, does not apply to monument signs in this district.

(f) Temporary detached signs.

(1) Temporary detached signs permitted in this district are temporary protective signs, or signs that relate exclusively to the sale, lease, construction, or remodeling of the premises on which they are located.

(2) There is no limit on the number of temporary protective signs permitted.

(3) Temporary protective signs may be erected anywhere on a construction site during construction, subject to the following provisions:

(A) No temporary protective sign may exceed 20 square feet in effective area or 10 feet in height.

(B) The signs may be illuminated.

(C) The signs must be removed upon completion of the construction.

(4) Signs that relate exclusively to the sale, lease, construction, or remodeling of the premises on which they are located are permitted, subject to the following restrictions:

(A) The maximum height of the sign is 10 feet, and the maximum effective area of the sign is 128 square feet.

(B) No more than one of this type of sign is permitted per each 100 feet of frontage of the premises. (Ord. 24760)

SEC. 51A-7.1809. CONSTRUCTION BARRICADE SIGNS.

(a) A construction barricade sign may cover up to 100 percent of the surface area of the construction barricade to which it is attached.

(b) A construction barricade sign may contain any number of words and may have a maximum message area of 50 square feet.

(c) A construction barricade sign may neither be lighted nor contain any moving parts.

(d) A construction barricade sign must be removed from the area when the construction barricade is removed, i.e. the sign may not be detached from the barricade and left at the site.
§ 51A-7.1809 Dallas Development Code: Ordinance No. 19455, as amended § 51A-7.1812

(e) The information on a construction barricade sign is limited to information regarding what is being constructed on the site and who is conducting the construction, including the owners, developers, future tenants, lenders, architects, engineers, project consultants, and contractors. The sign may not advertise a product.

(f) A construction barricade may not project more than four feet above the top or sides of the construction barricade.

(g) A sign that is affixed to a construction barricade may not project more than two inches from the surface of the construction barricade. (Ord. 24760)

SEC. 51A-7.1810. MOVEMENT CONTROL SIGNS.

(a) Movement control signs must direct vehicular or pedestrian movement within this district or to adjacent districts and may include the name or logo of any premise located in this district or in any sign district within a one-mile radius of the Central Business District.

(b) Movement control signs that include the name or logo of two or more premises may:

(1) not exceed 30 square feet in effective area;

(2) be located in a public right-of-way; or

(3) be erected anywhere within the district without limit as to number. (Ord. 24760)

(SEC. 51A-7.1811. PROTECTIVE SIGNS.

(a) The owner of, and each occupant of, a premise may erect no more than two detached protective signs in accordance with the following provisions:

(1) No sign may exceed 700 square inches in effective area.

(2) No detached sign may exceed two feet in height.

(b) The owner of, and each occupant of, a premise may erect attached protective signs at each entrance to a premise in accordance with the following provisions:

(1) No sign may exceed 700 square inches in effective area.

(2) The cumulative messages may not exceed 1,300 square inches per entrance.

(3) No word may exceed four inches in height, unless otherwise required by law. (Ord. 24760)

SEC. 51A-7.1812. APPLICABILITY OF HIGHWAY BEAUTIFICATION ACTS.

For purposes of applying the Federal and Texas Highway Beautification Acts, this district is considered to be a commercial zoning district. (Ord. 24760)

SEC. 51A-7.1901. DESIGNATION OF WEST VILLAGE SIGN DISTRICT.

A special provision sign district is hereby created to be known as the West Village Sign District. For purposes of this article, the boundaries of the West Village Sign District are that portion of the West Mixed Use Subzone of the Planned Development District No. 305 (commonly known as the Cityplace PD) that is enclosed within the following boundaries set forth in Exhibit 7.1900A, which is attached to and made a part of this ordinance, and generally described as the property bounded by the centerlines of Cole Avenue, Blackburn Street, McKinney Avenue, and Lemmon Avenue, and including a 1.1028 acre tract fronting approximately 357 feet on Blackburn Street, fronting approximately 118 feet on McKinney Avenue, and fronting approximately 118 feet on Cole Avenue. (Ord. 24974)

SEC. 51A-7.1902. DESIGNATION OF SUBDISTRICTS.

(a) This district is hereby divided into two subdistricts: Subdistricts A and B.

(b) Subdistrict A is that area of this district within the following described boundaries: all building faces that front on Cole Avenue, Blackburn Street, McKinney Avenue, and Lemmon Avenue.

(c) Subdistrict B is that area of this district that is not in Subdistrict A. (Ord. 24974)

SEC. 51A-7.1903. PURPOSE.

(a) The purpose of this division is to regulate both the construction of new signs and the alterations of existing signs to create a unique, lively and commercially-active environment that is bright and safe, and that incorporates diverse, state-of-the-art graphic technologies to promote an urban mixed use environment in this district.

(b) These sign regulations have been developed to achieve the following objectives in this district:

1. To create an aesthetically pleasing environment that promotes an atmosphere of vitality appropriate for a place where thousands of citizens gather for entertainment and celebration.

2. To encourage the use of signs that are innovative, colorful, and entertaining, and that bring a distinctive character to this district.

3. To identify and promote special events and cultural activities that will occur in this district.

4. To encourage signs with a style, orientation, and location that take into consideration the high number of pedestrians expected within this district.

5. To communicate clear directions to and through this district.

6. To promote the economic success of businesses in this district. (Ord. 24974)

SEC. 51A-7.1904. DEFINITIONS.

In this division:

1. ARCADE SIGN means any sign mounted to the underside of a canopy or awning intended to be read from the pedestrian walkway that the canopy covers.

2. ATTACHED SIGN means any sign attached to, applied on, or supported by, any part of a building (such as a wall, parapet, roof, window, canopy, awning, arcade, or marquee) that encloses or covers usable space.
§ 51A-7.1904 Dallas Development Code: Ordinance No. 19455, as amended

(3) AWNING means a fabric or vinyl surface supported by a tubular metal structure, which is applied to the face of a building.

(4) AWNING SIGN means a sign that is attached or applied to or painted on an awning.

(5) BANNER means a sign attached to or applied on a strip of cloth, vinyl, or similar material and attached to a building or structure. Awning signs and flags are not banners.

(6) CANOPY means a permanent, non-fabric architectural element projecting from the face of a building.

(7) CANOPY SIGN means a sign attached to, applied on, or supported by a canopy, with no changeable message area.

(8) CHANGEABLE MESSAGE SIGN means an electronic sign whose contents can change periodically and that can show animated messages.

(9) DISTRICT means the West Village Special Provision Sign District.

(10) EFFECTIVE AREA means:

(A) For a detached sign, other than outlined in (B) below, the area within a minimum imaginary rectangle of vertical and horizontal lines that fully contains all extremities of the sign, excluding its supports. This rectangle is calculated from an orthographic projection of the sign viewed horizontally. The viewpoint for this projection that produces the largest rectangle must be used. If elements of the sign are moveable or flexible, such as a flag or a string of lights, the measurement is taken when the elements are fully extended and parallel to the plane of view.

(B) For signs placed on a fence, non-enclosing wall, planter or other similar structure that is designed to serve a separate purpose other than to support the sign, the entire area of such structure shall not be computed. In such cases, the sign area shall be computed as the entire area within a single continuous rectilinear perimeter of not more than eight (8) straight lines enclosing the extreme limits of writing, representation, emblems, or figures together with all material, color or lighting forming an integral part of the display or used to differentiate the sign background against which it is placed.

(C) For an attached sign, the sum of the areas within minimum imaginary rectangles of vertical and horizontal lines, each of which fully contains a word. If a design, outline, illustration, or interior illumination surrounds or attracts attention to a word, then it is included in the calculation of effective area.

(D) An awning or canopy is not included in the calculation of the effective area.

(11) ENTERTAINMENT COMPLEX means an entertainment facility with a seating capacity of at least 100 persons for showing motion pictures or staging theatrical performances to an audience or where the audience views and participates in events and performances including, but not limited to, theatrical, musical and dramatic performances, and meetings and assemblages.

(12) FACADE means any separate face of a building, including parapet walls and omitted wall lines, or any part of a building which encloses or covers usable space, chimneys, roof-mounted equipment, mounted antennas, or water towers. Where separate faces are oriented in the same direction or in directions within 45 degrees of one another, they are to be considered as part of a single facade. A roof is not a facade or part of a facade. Multiple buildings on the same lot will each be deemed to have separate facades.

(13) FLAT ATTACHED SIGN means an attached sign projecting 18 inches or less from a building, the face of which is parallel to the building facade.

(14) FREEWAY LOOP means the area of the city inside the District, within 100 feet of an Expressway right-of-way.
(15) GENERIC GRAPHICS means any pattern of shapes, colors, or symbols that does not commercially advertise.

(16) KIOSK means a multi-sided structure or cylindrical structure for the display of premise signs. It does not mean vending and sales carts.

(17) MARQUEE SIGN means a sign attached to, applied on, or supported by a permanent canopy projecting over a pedestrian street entrance of a building and consisting primarily of changeable panels, words, or characters. LED, LCD or other electronic message technology may be used.

(18) MONUMENT SIGN means a detached sign applied directly onto a grade-level support structure.

(19) MOVEMENT CONTROL SIGN means a sign that directs vehicular and pedestrian movement within this district.

(20) NEWSSTAND means an enclosed kiosk that displays premise signs and is manned by a vendor that sells newspapers, magazines, other periodicals and other small retail items such as candy, tobacco etc.

(21) ONE SIGN means any number of detached sign parts structurally connected at, or above grade.

(22) PARAPET SIGN means a permanent projecting attached sign erected on or attached to the eaves or edge of the roof or on a parapet. A parapet sign is not a roof sign.

(23) PREMISE means the property in this District.

(24) PREMISE SIGN means any sign the content of which relates to the premise on which it is located and refers exclusively to:

(A) the name, trade name, or logo of the owner or occupant of the premise or the identification of the premises;

(B) accommodations, services, or activities offered or conducted on the premise; or

(C) the sale, lease, or construction of the premise.

(25) PROJECTING ATTACHED SIGN means an attached sign projecting more than 18 inches from a building at an angle, other than parallel, to the facade.

(26) PROMOTIONAL MESSAGE means a message that identifies, promotes, or advertises a cultural activity taking place in this district, any special event being conducted in this district, any event being conducted, in whole or in part, in an entertainment complex in this district, or any other event that will benefit the city that will take place in this district. Benefit to the city is established by:

(A) Use of city property in accordance with a contract, license, or permit;

(B) The receipt of city monies for the activity or event; or

(C) An ordinance or resolution of the city council that recognizes the activity or event as benefiting the city.

(27) PUBLIC AREA means any publicly or privately owned outdoor area that is accessible to the public.

(28) ROOF SIGN means a sign that is attached to or supported by the roof of a building.

(29) SPECIAL SIGN DISTRICT ADVISORY COMMITTEE means that committee composed and established in Section 51A-7.504 of the Dallas Development Code.
(30) STOREFRONT means an identifiable portion of the premise for which a separate certificate of occupancy has been issued.

(31) TEMPORARY SIGN means a sign erected for a limited time that identifies an event or activity of limited duration. Examples include signs advertising the sale or lease of property, construction activity in progress, or a concert or other cultural event.

(32) WELCOME MESSAGE means a message that identifies and greets people who are expected to visit this district, such as heads of state; foreign dignitaries; groups using city property in accordance with a contract, license, or permit; or government organizations.

(33) WINDOW ART DISPLAY means an exhibit or arrangement placed within a storefront window of a building and designed to be viewed from a street or public area.

(34) WINDOW SIGN means a sign painted or affixed to a window.

(35) WORD: For purposes of this division, each of the following is considered to be one word:

(A) Any word in any language found in any standard unabridged dictionary or dictionary of slang.

(B) Any proper noun or any initial or series of initials.

(C) Any separate character, symbol or abbreviation such as “&”, “$”, “%”, and “Inc.”.

(D) Any telephone number or commonly used combination of numerals and symbols such as “$5.00” or “50%”.

(E) Any internet website, network, or protocol address, domain name, or universal record locator.

(F) Any symbol or logo that is a registered trademark but which itself contains no word or character.

A street number is not considered to be a word. (Ord. 24974)

SEC. 51A-7.1905. GENERAL PROVISIONS FOR ALL SIGNS.

(a) Premise signs. All signs in this district must be premise signs or convey a noncommercial message.

(b) Applicable divisions of Article VII. Except as otherwise provided in this division, all signs in this district must comply with Article VII. Divisions 51A-7.300 and 51A-7.400 do not apply in this district. In the event of a conflict between this division and other requirements set forth in Article VII that are not mandated by state or federal law, the requirements set forth in this division apply.

(c) Permit and certificate of appropriateness requirements.

(1) Sign permit required. A person shall not alter, place, maintain, expand, or remove a sign in this district without first obtaining a sign permit from the city. It is a defense to prosecution that the person was replacing a banner overhanging the public right-of-way using the existing sign hardware. A sign permit is required to install sign hardware for a banner.

(A) Sign permit procedures. Except as provided below, the procedures for obtaining a sign permit in Sec. 51A-7.505 apply in this district.

(B) Determination of procedure. Upon receipt of an application, the director shall determine whether it is to be reviewed under the director procedure or committee procedure. The proposed sign must be reviewed under the director procedure if the sign is:
§ 51A-7.1905 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-7.1905

(i) an attached premise sign of less than 50 square feet effective area and is not located within a historic overlay district; or

(ii) a detached premise sign with less than 50 square feet effective area, less than 25 feet in height, and not located within a historic overlay district; or

(iii) streetlight pole banners or facade mounted banners.

If the proposed sign does not meet the requirements for the director procedure, it must be reviewed under committee procedure.

(2) Certificate of appropriateness. All signs in this district are required to obtain a certificate of appropriateness, except for:

(A) any non-illuminated temporary banners of 20 square feet or less; or

(B) any non-illuminated attached premise sign of less than 20 square feet; or

(C) streetlight pole banners or facade mounted banners.

(d) Signs over the right-of-way. Signs may be located in or project over the public right-of-way, including, but not limited to, sidewalks, subject to the licensing and franchise requirements of Chapter XIV of the City Charter, Article VI of Chapter 43 of the Dallas City Code, as amended, Chapter 45 of the Dallas Building Code, and the requirements of all other applicable laws, codes, ordinances, rules, and regulations. The traffic engineer shall review the location of any sign located in or overhanging the public right-of-way to ensure that the sign will not pose a traffic hazard or visibility obstruction.

(e) Other codes not in conflict. All signs erected or maintained pursuant to the provisions of this division shall be erected and maintained in compliance with all applicable state laws and with the building code, electrical code, and other applicable ordinances of the city. Except as indicated in Subsection (b), in the event of conflict between this division and other laws, the most restrictive standard applies.

(f) Noncommercial messages.

(1) Notwithstanding any other provision of this ordinance, any sign that may display a commercial message may also display a noncommercial message, either in place of or in addition to the commercial message, so long as the sign complies with other requirements of this ordinance that do not pertain to the content of the message displayed.

(2) Notwithstanding any other provision of this ordinance, any sign that may display one type of noncommercial message may also display any other type of noncommercial message, so long as the sign complies with other requirements of this ordinance that do not pertain to the content of the message displayed.

(g) Highway Beautification Acts. For purposes of applying the Federal and Texas Highway Beautification Acts, this district is considered to be a commercial zoning district.

(h) Streamers, pennants, and inflatable signs. Streamers, pennants, and inflatable signs, including, but not limited to, balloons are prohibited in this district.

(i) Setback. Except as provided in the spacing requirements for kiosks and newstands, there are no setback requirements for a sign in this district.

(j) Illuminated signs.

(1) Except for changeable message signs, no illuminated sign that has an effective area of 150 square feet or less may have a luminance greater than 300 footlamberts, nor may any such sign have a luminance greater than 300 footlamberts for any portion of the sign within a circle two feet in diameter. No illuminated sign which has an effective area greater than 150 square feet may have a luminance greater.
§ 51A-7.1905 Dallas Development Code: Ordinance No. 19455, as amended

than 200 footlamberts, nor may any such sign have a luminance greater than 200 footlamberts for any portion of the sign within a circle of two feet in diameter. The measurements of luminance are taken from any other premise or from any public right-of-way other than an alley.

(2) Except for changeable message signs, no illuminated sign nor any illuminated element of any sign, may turn on or off, or change its brightness, if:

(A) the change of illumination produces an apparent motion of the visual image, including but not limited to illusion of moving objects, moving patterns or bands of light, expanding or contracting shapes, rotation or any similar effect of animation;

(B) the change of message or picture occurs more often than once each three seconds for those portions of a sign which convey time or temperature, or once each 20 seconds for all other portions of a sign; or

(C) a portion of the sign, within a circle of two feet in diameter, has a luminance greater than 200 footlamberts when all elements of the sign are fully and steadily illuminated.

(k) Sign movement. Except for changeable message signs, no sign or any part of any sign may move or rotate at a rate more often than once each 10 seconds, or change its message at a rate more often than once each 20 seconds. Except for changeable message signs, no sign may move, rotate or change its message at any rate if any of its elements or any illuminated portion within a two-foot circle has a luminance greater than 200 footlamberts. (Ord. Nos. 24974; 28424)

SEC. 51A-7.1906. DETACHED SIGNS.

(a) Detached signs in general.

(1) A premise may have one or more detached signs.

(2) Detached signs may not exceed 20 feet in effective area.

(3) Detached signs may not exceed 5 feet in height if an attached sign is located on any storefront on the lot where the detached sign is located; otherwise, detached signs may not exceed 15 feet in height.

(4) Detached signs may only be:

(A) monument signs;

(B) an architectural, water or landscape composition that identifies the premise; or

(C) signs on public improvements;

(D) banners on streetlight poles;

(E) special purpose signs; or

(F) district identification signs.

(b) Signs on public improvements. An unlimited number of signs that only identify the name or logo of this district may be located on or incorporated into manhole covers, street light poles, sidewalks, benches, trash receptacles and other improvements in public areas. No such sign, however, may exceed one square foot in effective area.

(c) Banners on streetlight poles.

(1) Banners must display a promotional message, a welcome message, or generic graphics.

(2) No more than 10 percent of the effective area of a banner may contain a welcome message that identifies and greets a group using city property in the district in accordance with a contract, license, or permit.

(3) No more than 10 percent of the effective area of a banner may contain the word(s) or logo(s) that identify a sponsor of a cultural event or activity taking place in the district.
§ 51A-7.1906 Dallas Development Code: Ordinance No. 19455, as amended

(4) A banner having either a promotional message or a welcome message may not be erected more than 90 days prior to the beginning of the advertised activity or event, and must be removed no later than 15 days after that activity or event has ended. The sign hardware for a banner may be left in place between displays of a banner.

(5) A banner and its hardware must:

(A) be mounted on a streetlight pole;

(B) meet the sign construction and design standards in the Dallas Building Code;

(C) be at least 12 feet above grade, unless it overhangs a roadway, in which case it must be at least 15 feet above grade;

(D) be made out of weather-resistant and rust-proof material;

(E) not project more than three feet from the pole onto which it is mounted; and

(F) not exceed 20 square feet in effective area. (Ord. 24974)

SEC. 51A-7.1907. ATTACHED SIGNS.

(a) In general.

(1) Attached signs must be securely attached.

(2) Attached signs overhanging the public way are permitted, except that no sign may project closer than two feet to the vertical plane extending through the back of a street curb.

(3) The maximum combined effective area of all signs attached to a facade may not exceed 30 percent of the total area of the facade.

(4) Except as provided in paragraph (5), attached signs may have a maximum of eight words, which contain any character of a height equal to or exceeding four inches and pertain to any premise or occupancy. Words consisting of characters less than four inches high may be used without limit.

(5) A storefront that is used as an entertainment complex may have attached signs with up to 10 words per facade of 4 inches or greater, which may be located at any height on the storefront.

(6) No sign may be painted onto the roof of a building, and no flat attached sign is permitted on the roof of a building.

(7) No sign may project more than four feet above the edge of the wall to which it is attached; if the wall to which the sign is attached has a parapet wall, no sign may project above the parapet wall.

(b) Awning signs.

(1) No awning sign may:

(A) project horizontally more than two inches from the surface of the awning;

(B) be lower than 10 feet above grade; or

(C) project vertically more than two inches above the surface of the awning.

(2) The maximum size of each awning sign is six square feet.

(3) The maximum combined effective area permitted for all awning signs on a facade is 150 square feet.

(4) There is no limit to the number of awning signs permitted on a premise.
(c) Arcade signs.

(1) No arcade sign may exceed six square feet in effective area.

(2) The minimum linear distance between any two arcade signs in this district is 10 feet.

(3) There is no limit to the number of arcade signs permitted on a premise.

(4) No arcade sign may be lower than 10 feet above grade.

(d) Canopy signs.

(1) No canopy sign may:

   (A) exceed 100 square feet in effective area;

   (B) project horizontally more than two inches from the surface of the canopy; or

   (C) be lower than 10 feet above grade.

(2) Canopy signs may project vertically above the surface of the canopy. The maximum height of the projection may not exceed 15 percent of the overall length of the sign.

(3) Canopy signs erected pursuant to this section are permitted on canopies that overhang the public right-of-way, except that no canopy sign may project closer than two feet from the back of the curb.

(e) Marquee signs.

(1) Marquee signs are allowed only on a storefront that is used as an entertainment complex.

(2) The maximum effective area of a marquee sign is 150 square feet.

(3) Marquee signs must be parallel to the surface to which they are attached, and may not project less than two feet from back of curb.

(4) No building may have more than one marquee sign per street frontage.

(5) Marquee signs may use LED, LCD or similar electronic technology.

(f) Projecting attached signs.

(1) No projecting attached sign on a premise may be closer than five feet from another projecting attached sign.

(2) No projecting attached sign may exceed 100 square feet in effective area, or project more than 3 feet into the public right-of-way.

(3) No projecting attached sign may be lower than 12 feet above grade.

(4) No projecting attached sign may project vertically more than four feet above the edge of the wall to which it is attached; if the sign is attached to a wall with a parapet wall, it may not project vertically above the parapet wall.

(5) No projecting attached sign shall have its lower end more than 25 feet above grade.

(g) Window signs.

(1) A window sign may only be a premise sign or contain a promotional message.

(2) Window signs are allowed only in ground level windows.

(3) Up to 10 percent of the effective area of a window sign may contain the word(s) or logo(s) that identify a sponsor of a cultural event or activity taking place in the district.
§ 51A-7.1907 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-7.1909

(h) Changeable message signs.

(1) Changeable message signs may only be attached signs.

(2) The maximum number of changeable message signs within this district is two.

(3) Changeable message signs may not exceed 150 square feet in effective area.

(4) Changeable message signs are not permitted in Subdistrict A. (Ord. 24974)

SEC. 51A-7.1908. SPECIAL PROVISIONS FOR SPECIAL PURPOSE SIGNS.

(a) Special purpose signs may be externally illuminated, and, except for banners, may be internally illuminated or “back-lighted.”

(b) Attached special purpose signs.

(1) Each storefront may have one attached special purpose sign per facade. An attached special purpose sign may be displayed for a maximum of 45 consecutive days, up to 4 times per year, and it must not exceed 200 square feet in effective area.

(2) A storefront for an entertainment complex use may have up to four attached special purpose signs at a time. An attached special purpose sign may be displayed for up to 45 days in any given twelve-month period, and it must not exceed 400 square feet in effective area.

(c) Detached special purpose signs.

(1) Each storefront may have a detached special purpose sign no more than three times each calendar year for no more than 38 consecutive days each time. No detached special purpose sign may be erected at a location during the 30-day period after the removal of a detached special purpose sign from that location.

(2) A detached special purpose sign must:

(A) be located at least 100 feet apart;

(B) not exceed eight feet in height; and

(C) not exceed 50 square feet in effective area.

(3) No more than one detached special purpose sign may be erected on each street or private access easement on which the storefront has frontage. (Ord. 24974)

SEC. 51A-7.1909. SPECIAL PROVISIONS FOR FACADE-MOUNTED BANNER SIGNS.

(a) A banner must primarily display generic graphics.

(b) A banner may be a district sign or contain a promotional or a welcome message.

(c) A banner having either a promotional message or a welcome message may not be erected more than 90 days prior to the beginning of the advertised activity or event, and must be removed no later than 15 days after that activity or event has ended. The sign hardware for a banner may be left in place between displays of a banner.

(d) A banner and its hardware:

(1) may be mounted parallel on a premise facade or projecting from a premise facade at an angle of up to 90 degrees;

(2) must meet the sign construction and design standards in the Dallas Building Code;
§ 51A-7.1909 Dallas Development Code: Ordinance No. 19455, as amended § 51A-7.1913

(3) must be at least 12 feet above grade, unless it overhangs a roadway, in which case it must be at least 15 feet above grade;

(4) must be made out of weather-resistant and rust-proof material;

(5) must not project more than three feet from the facade; and

(6) must not exceed 100 square feet in effective area. (Ord. 24974)

SEC. 51A-7.1910. SPECIAL PROVISIONS FOR KIOSK SIGNS.

(a) No more than six kiosks are permitted in this district.

(b) No kiosk may be illuminated by a detached, independent external light source.

(c) Kiosks must be spaced at least 50 feet apart.

(d) Kiosks may be located on sidewalks if unobstructed sidewalk widths of eight feet are maintained.

(e) Kiosks must be securely anchored to the ground.

(f) Kiosks may not exceed ten feet in height and 100 square feet in effective area. The display area for each sign on a kiosk may not exceed 20 square feet. (Ord. 24974)

SEC. 51A-7.1911. SPECIAL PROVISIONS FOR NEWSSTAND SIGNS.

(a) No more than two newsstands are permitted in this district

(b) No newsstand may be illuminated by a detached, independent, external light source.

(c) Newsstands must be spaced at least 50 feet apart.

(d) Newsstands may be located on sidewalks if unobstructed sidewalk widths of eight feet are maintained.

(e) Newsstands may not exceed 10 feet in height and 10 feet in diameter. The display area for each sign on a newsstand may not exceed 30 square feet. (Ord. 24974)

SEC. 51A-7.1912. SPECIAL PROVISIONS FOR SIGNS ATTACHED TO MACHINERY OR EQUIPMENT.

Words may be attached to machinery or equipment that is necessary or customary to a business, including but not limited to devices such as gasoline pumps, vending machines, ATM shelters, ice machines, etc., provided that the words so attached refer exclusively to products or services dispensed by the device, consist of characters no more than four inches in height, and project no more than one inch from the surface of the device.

SEC. 51A-7.1913. SPECIAL PROVISIONS FOR MOVEMENT CONTROL SIGNS.

(a) Movement control signs must direct vehicular or pedestrian movement within this district or to an adjacent and congruent district and may include the name or logo of any premise or activity center located in this district.

(b) Movement control signs:

(1) must not exceed three square feet in effective area;

(2) may be located in a public right-of-way; and
§ 51A-7.1913 Dallas Development Code: Ordinance No. 19455, as amended § 51A-7.1915

(3) may be erected anywhere within the district without limit as to number.

(c) Movement control signs may be attached or detached and may be erected on any premise without limit as to number. (Ord. 24974)

SEC. 51A-7.1914. SPECIAL PROVISIONS FOR CONSTRUCTION BARRICADE SIGNS.

(a) The director of planning and development shall review all signs to be placed on a construction barricade and upon approval of the signs by the director, a sign permit for the signs may be issued. This review is a condition on any permit issued for a construction barricade.

(b) A sign that is affixed to a construction barricade must not project horizontally more than two inches from the construction barricade.

(c) A sign that is affixed to a construction barricade must neither be lighted nor contain any moving parts.

(d) A sign that is affixed to a construction barricade must be removed when the construction barricade is removed.

(e) The information contained on a sign placed on a construction barricade may only convey information regarding what is being constructed on the site and who is conducting the construction, including the owners, developers, future tenants, lenders, architects, engineers, project consultants and contractors. The sign may not advertise a product and the total effective area of the words on a construction barricade sign may not exceed 50 square feet.

(f) A construction barricade may be fully decorated with a graphic except that:

1. no decoration or part of the graphic may project more than two inches horizontally from the barricade facade, or

2. no decoration or graphic may project more than four feet vertically above the top of the barricade. (Ord. 24974)

SEC. 51A-7.1915. SPECIAL PROVISIONS FOR OTHER TEMPORARY SIGNS.

(a) In addition to the other protective signs permitted under Section 51A-7.918, Temporary Protective Signs may be erected anywhere on a construction site at anytime during construction. There is no limit on the number of these signs, but no sign may exceed 20 square feet in effective area or eight feet in height. Temporary protective signs may be illuminated, but no lighting source may project more than three inches from the vertical surface of, or six inches above the top of, the sign. All temporary protective signs must be removed upon completion of the construction.

(b) Temporary signs may be erected on construction fencing subject to Section 51A-7.925(b)(4).

(c) “For Sale,” “For Lease,” “Remodeling,” and “Under Construction” signs. Signs that relate exclusively to the sale, lease, construction, or remodeling of the premises on which they are located are permitted. There is no limit to the number of attached signs permitted. Detached signs are limited to one for each 100 feet of frontage on a public street or private access easement. If attached to a window, the maximum effective area of the sign is 16 square feet. If attached to other portions of a facade, the maximum effective area of the sign is 32 square feet. No detached sign may exceed 128 square feet in effective area or 16 feet in height. (Ord. 24974)

SEC. 51A-7.1916. SPECIAL PROVISIONS FOR DISTRICT SIGNS.

(a) District signs may only be a facade mounted banner sign, kiosk sign, newsstand sign, or a changeable message sign.

(b) A district sign may display:

(1) The name, trade name, or logo of the owner or occupant of the premise or the identification of the premises located in this district.

(2) Accommodations, services, or activities offered or conducted on any premise within this district;

(3) The advertisement of products by brand name or symbol for any products sold on a premise within this district if at least 10 percent of the sign is devoted to identification of the district;

(4) The sale, lease, or construction of any premise within the West Village Special Provision Sign District. (Ord. 24974)

SEC. 51A-7.1917. SPECIAL PROVISIONS FOR DISTRICT IDENTIFICATION SIGNS.

(a) No more than two district identification signs are permitted in this district.

(b) A district identification sign may only display the name of the premise as a whole, i.e. “West Village,” and a logo identifying the district.

(c) No district identification sign may have a height greater than six feet, or an effective area greater than 150 square feet. (Ord. 24974)

A sign district is hereby created to be known as the West Commerce Street/Fort Worth Avenue Sign District. The boundaries of the West Commerce Street/Fort Worth Avenue Sign District are the same as Planned Development District No. 714, the West Commerce Street/Fort Worth Avenue Special Purpose District, and generally described as the property located approximately one-eighth to one-fourth of a mile to the north and south of West Commerce Street and Fort Worth Avenue, from North Beckley Avenue to Westmoreland Road. (Ord. 25899)

SEC. 51A-7.2002. DESIGNATION OF SUBDISTRICTS.

This district is hereby divided into Subdistricts 1, 2, 3, 4, and 5. The boundaries of Subdistricts 1, 2, 3, 4, and 5 are the same as the boundaries of Subdistricts 1, 2, 3, 4, and 5 in Planned Development District No. 714, the West Commerce Street/Fort Worth Avenue Special Purpose District. (Ord. 25899)

SEC. 51A-7.2003. PURPOSE.

(a) The purpose of this division is to regulate both the construction of new signs and alterations of existing signs with a view towards enhancing, preserving, and developing the unique character of the West Commerce Street/Fort Worth Avenue corridor while addressing the diversity of businesses and promoting the economy of the West Commerce Street/Fort Worth Avenue corridor.
(b) The objectives of this division include those listed in Section 51A-7.101 as well as the objectives of ensuring that signs are appropriate to the architecture within the district; do not obscure significant architectural features; lend themselves to developing mixed office, retail, and residential projects; and preserve the pedestrian character of the area.

(c) These sign regulations have been developed to achieve the following objectives:

1. To protect the historical and architectural character of this district from inappropriate signs in terms of number (clutter), style, color, and materials.
2. To ensure that significant architectural features are not obscured.
3. To encourage signs that are complementary to the architectural styles and historical nature of the buildings.
4. To attract the public to the goods and services available by enhancing the aesthetic quality of signs.
5. To encourage artistic, creative, and innovative signs that reflect the themes of the area.
6. To promote safety, communications efficiency, and landscape quality. (Ord. 25899)

SEC. 51A-7.2004. DEFINITIONS.

Unless otherwise stated, the definitions in Article VII, “Sign Regulations,” apply to this section. In this section:

1. ARCADE means any walkway that is attached to a building, not fully enclosed on all sides, and covered with a canopy or roof structure having the primary function of weather protection.

2. ARCADE SIGN means an attached sign suspended below the roof of an arcade.

3. AWNING means a projecting fabric or vinyl surface supported by a metal (or other similarly strong material) structure, which is applied to the face of a building.

4. AWNINGSIGN means an attached sign applied to an awning.

5. BANNER means a sign applied to a strip of cloth or similar material.

6. CANOPY means a permanent, non-fabric architectural element projecting from the face of a building.

7. CHANGEABLE MESSAGE means LED/LCD elements, slide lettering, slated rotating surfaces, or other changeable message technology that displays different designs or messages.

8. DISTRICT means the West Commerce Street/Fort Worth Avenue Sign District.

9. DISTRICT IDENTIFICATION SIGN means a detached sign that contains the logo or name of the West Commerce Street/Fort Worth Avenue corridor or welcomes people to the West Commerce Street/Fort Worth Avenue corridor.

10. DISTRICT PROMOTIONAL MESSAGE means a message that identifies, promotes, or advertises a cultural activity, special event, event in an entertainment facility, or event that will benefit the city, and that will take place in this district. Benefit to the city is established by: use of city property in accordance with a contract, license, or permit; the receipt of city monies for the activity or event; or an ordinance or resolution of the city council that recognizes the activity or event as benefiting the city.

11. EFFECTIVE AREA means:

   (A) For a detached sign, other than outlined in Subparagraph (B) below, the area within a minimum imaginary rectangle of vertical and horizontal lines that fully contains all extremities of the
sign, excluding its supports. This rectangle is calculated from an orthographic projection of the sign viewed horizontally. The viewpoint for this projection that produces the largest rectangle must be used. If elements of the sign are moveable or flexible, such as a flag or a string of lights, the measurement is taken when the elements are fully extended and parallel to the plane of view.

(B) For signs placed on a fence, non-enclosing wall, planter, or other similar structure that is designed to serve a separate purpose other than to support the sign, the entire area of such structure shall not be computed. In such cases, the sign area shall be computed as the entire area within a single continuous rectilinear perimeter of not more than eight straight lines enclosing the extreme limits of writing, representation, emblems, or figures together with all material, color, or lighting forming an integral part of the display or used to differentiate the sign background against which it is placed.

(C) For an attached sign, the sum of the areas within minimum imaginary rectangles of vertical and horizontal lines, each of which fully contains a word. If a design, outline, illustration, or interior illumination surrounds or attracts attention to a word, then it is included in the calculation of effective area.

(D) An awning or canopy is not included in the calculation of the effective area.

(12) ENTERTAINMENT FACILITY means a structure or building used for sports events or the performing arts, including indoor motion picture theaters, theaters for live musical or dramatic performances, indoor or outdoor concert halls, and exhibition halls.

(13) EXPRESSWAY SIGN means a detached sign that is wholly within 100 feet of an expressway or new expressway right-of-way and whose message is visible from the main traveled way.

(14) FACADE means any separate face of a building, including parapet walls and omitted wall lines, or any part of a building which encloses or covers usable space, chimneys, roof-mounted equipment, mounted antennas, or water towers. Where separate faces are oriented in the same direction or in directions within 45 degrees of one another, they are to be considered as part of a single facade. A roof is not a facade or part of a facade. Multiple buildings on the same lot will each be deemed to have separate facades.

(15) FLAT ATTACHED SIGN means an attached sign that is parallel to the building facade.

(16) GENERIC GRAPHICS means any pattern of shapes, colors, or symbols that does not commercially advertise.

(17) HIGHWAY BEAUTIFICATION ACT (HBA) SIGN means a non-premise sign that is within 660 feet of an expressway or new expressway right-of-way and whose message is visible from the main traveled way.

(18) MARQUEE means a permanent canopy projecting over the main pedestrian entrance of a building. A marquee is considered to be part of the building.

(19) MARQUEE SIGN means an attached sign applied to a marquee, and consisting primarily of changeable panels, words, or characters.

(20) MONUMENT SIGN means a detached sign applied directly onto a grade-level support structure (instead of a pole support) with no separation between the sign and grade.

(21) PREMISE means a lot or unplatted tract that is reflected in the plat books of the building inspection division of the city. See Section 51A-7.208.

(22) PREMISE SIGN means any sign the content of which relates to the premise on which it is located and refers exclusively to:
(A) the name, trade name, or logo of the owner or occupant of the premise or the identification of the premises;

(B) accommodations, services, or activities offered or conducted on the premise; or

(C) the construction, lease, remodeling, or sale of the premise.

(23) PROJECTING SIGN means an attached sign projecting from a building.

(24) SIGN HARDWARE means the structural support system for a sign, including the fastening devices that secure the sign to a building facade or pole.

(25) SPECIAL PURPOSE SIGN means an attached or detached sign temporarily supplementing the permanent signs on a premise.

(26) WINDOW SIGN means a sign applied to the internal or external surface of a window.

(27) WORD means any of the following:

(A) Any word in any language found in any standard unabridged dictionary or dictionary of slang.

(B) Any proper noun or any initial or series of initials.

(C) Any separate character, symbol, or abbreviation such as “&”, “$”, “%”, and “Inc.”.

(D) Any telephone number or commonly used combination of numerals and symbols such as “$5.00” or “50%”.

(E) Any internet website, network, protocol address, domain name, or universal record locator.

(F) Any symbol or logo that is a registered trademark but which itself contains no word or character.

(G) A street number is not considered to be a word. (Ord. 25899)

SEC. 51A-7.2005. SIGN PERMIT REQUIREMENTS.

(a) No person may alter, expand, maintain, or place a sign in this district without first obtaining a sign permit from the city. No sign permit may be issued for a sign in this district unless the application has first been reviewed by the director and a certificate of appropriateness has been issued in accordance with the procedure outlined in this section.

(b) This section does not apply to government signs described in Section 51A-7.207.

(c) Section 51A-7.504, which establishes the special sign district advisory committee for special provision sign districts, does not apply to this district.

(d) Section 51A-7.505, which outlines the procedure for obtaining a certificate of appropriateness, does not apply in this district.

(e) Section 51A-7.602, which lists certain signs that require sign permits, does not apply to signs in this district. All signs within this district require sign permits.

(f) Upon receipt of an application for a permit to authorize a sign in this district, the building official shall refer the application to the director for review. The director shall issue a decision within 30 calendar days after the complete application is submitted to the building official. The director shall solicit the recommendation of appropriate staff before approving or disapproving a certificate of appropriateness.
(g) The director shall approve a certificate of appropriateness if the application complies with the requirements of this district and the director finds that the proposed sign is consistent with the character of this district. The director shall consider the proposed sign in terms of its appropriateness to this district with particular attention to the effect of the proposed sign upon the economic structure of this district and the effect of the proposed sign upon adjacent and surrounding premises without regard to the consideration of the message conveyed by the sign. The director shall give written notice of the director's decision to the applicant. Notice is given when mailed to the applicant.

(h) A decision to grant a certificate of appropriateness may not be appealed. A decision to deny a certificate of appropriateness may be appealed to the city plan commission only by the applicant. An appeal is made by filing a written request with the director within 10 calendar days after notice of the director's decision is given. In considering the appeal, the sole issue shall be whether the director erred, and in this connection, the city plan commission shall consider the same standard that was required to be considered by the director. Decisions of the city plan commission are final as to administrative remedies. If the city plan commission fails to make a decision on an appeal within 30 calendar days after the appeal is filed with the director, the application shall be considered approved, provided the sign otherwise complies with all applicable city codes, ordinances, rules, and regulations. (Ord. 25899)

SEC. 51A-7.2006. PROVISIONS APPLICABLE TO ALL SIGNS.

(a) Balloons and wind devices. All balloons, banners, flags, inflatable objects, pennants, streamers, and wind devices are considered to be signs and may not be used except as specifically allowed in this section.

(b) Changeable messages.

(1) A changeable message may not change more than every eight seconds.

(2) Only one sign with a changeable message is allowed per premise.

(3) The changeable message portion of any sign is limited to an effective area of 50 square feet.

(c) Fences. Except for special purpose signs, signs may not be attached to fences.

(d) Historic overlay districts. Within a historic overlay district, the landmark commission has the sole authority to determine every aspect of a sign, other than construction and maintenance standards, including effective area, height, location, number, size, and type, and to issue a certificate of appropriateness for that sign.

(e) Lighting.

(1) Except as otherwise provided in this division, signs may be illuminated by internal (back) lighting or indirect lighting.

(2) The use of neon or single incandescent bulbs is allowed.

(3) A light source external to a sign may illuminate a sign if the light does not cross into a public right-of-way, a residential zoning district line, or the property line of a residential use.

(4) Light used to illuminate a sign may not turn on or off, or change its brightness, more than twice a day.

(f) Message limitation. All signs must be district identification signs, district promotional message signs, premise signs, or convey a noncommercial message.

(g) Other applicable law.

(1) All signs erected or maintained pursuant to the provisions of this division must be erected and maintained in compliance with all applicable federal and state laws and with the building code, electrical code, and other applicable ordinances of the city. In the event of conflict between this division and other laws, the most restrictive standard applies.

(2) For purposes of applying the Federal and Texas Highway Beautification Acts, this district is considered to be a commercial zoning district. Signs within this district may not be HBA signs.

(3) The provisions of Division 51A-7.200, “Provisions for All Zoning Districts,” applies in this district. If the event of a conflict, this division controls.

(h) Portable signs. Portable signs are prohibited.

(i) Signs over the right-of-way.

(1) Signs may be located in or project over the public right-of-way, including, but not limited to, sidewalks, subject to the licensing and franchise requirements of Chapter XIV of the City Charter, Article VI of Chapter 43 of the Dallas City Code, as amended, the Dallas Building Code, and the requirements of all other applicable laws, codes, ordinances, rules, and regulations.

(2) The traffic engineer shall review the location of any sign located in or overhanging the public right-of-way to ensure that the sign will not pose a traffic hazard or visibility obstruction.

(3) No portion of a sign may be located less than two feet from a vertical plane extending upward from the back of a street curb. (Ord. Nos. 25899; 28424)

SEC. 51A-7.2007. ATTACHED SIGNS.

(a) Provisions applicable to all attached signs.

(1) Attached signs must be securely attached.

(2) The maximum combined effective area of all attached signs on a facade may not exceed 20 percent of the total area of the facade.

(3) Attached signs may have a maximum of eight words, which contain any character of a height equal to or exceeding four inches. Words consisting of characters less than four inches high may be used without limit.

(4) Attached signs may not be painted onto the roof of a building.

(5) Attached signs are not permitted on the roof of a building.

(6) Banners used as attached signs may only be special purpose signs.

(b) Arcade signs.

(1) There is no limit to the number of arcade signs permitted on a premise.

(2) Arcade signs may not exceed eight square feet in effective area.

(3) The minimum linear distance between any two arcade signs is 15 feet.

(4) Arcade signs may not be lower than 10 feet above the sidewalk.
(5) Arcade signs may not project above the arcade to which they are attached.

(6) Arcade signs may only identify the premise or occupant and provide an address.

c) Awning signs.

(1) There is no limit on the number of awning signs on a premise.

(2) A sign on the face of the awning may only have an effective area equal to 20 percent of the face of the awning. As used in this provision, “face” means the sloping or curved portion of an awning that provides shade over the sidewalk.

(3) Awning signs may not be lower than eight feet above the sidewalk.

(4) Awning signs may not project more than two inches from the surface of the awning.

(5) Awning signs may not be backlit.

(6) The valance of an awning may only have an address, occupant identification, or premise identification. As used in this provision, “valance” means that portion of an awning parallel to the street and perpendicular to the sidewalk.

d) Flat attached signs.

(1) The maximum number of flat attached signs on any premise is one per public pedestrian entrance or one per first-floor tenant, whichever is greater.

(2) The total effective area of all flat attached signs per facade may not exceed 20 percent of the facade or 400 square feet, whichever is less.

(3) Flat attached signs may not project above the rooftop.

(4) A flat attached sign may not project more than 12 inches from the facade to which it is attached.

e) Marquee signs.

(1) The maximum number of marquee signs on any premise is one per street frontage.

(2) The horizontal dimension (length) of a marquee sign may not exceed two-thirds of the length of the facade to which it is attached. The vertical dimension (width) of a marquee sign may not exceed six feet.

(3) Marquee signs are allowed only on an entertainment facility.

(4) Marquee signs may have a changeable message.

(5) Marquee signs may incorporate moving patterns or bands of light, except that the use of illumination to produce apparent motion of a visual image, such as animation or similar effects, is prohibited.

f) Projecting signs.

(1) The maximum number of projecting signs on any premise is one per facade.

(2) Projecting signs may not exceed 40 square feet in effective area.

(3) Projecting signs may not be lower than 10 feet above the sidewalk.

(4) No portion of a projecting sign may be located more than five feet from the facade to which it is attached.

(5) A projecting sign may not project higher than four feet above the edge of the wall to which it is attached.
(6) Projecting signs must be a minimum of five feet from another projecting sign.

(7) Projecting signs may have a message on both sides of the sign structure.

(g) Special purpose signs.

(1) Non-window special purpose signs.

(A) The maximum number of non-window special purpose signs on a facade at any time is two.

(B) Non-window special purpose signs may not exceed 50 square feet in effective area.

(C) Non-window special purpose signs may be displayed on a premise a maximum of four times each calendar year for a maximum of 30 consecutive days each time. Each new non-window special purpose sign must have a new message.

(D) Banners used as attached signs may only be non-window special purpose signs.

(E) Non-window special purpose signs that relate exclusively to the construction, lease, remodeling, or sale of the premise are permitted without limit as to the number or length of time displayed.

(2) Window special purpose signs.

(A) There is no limit on the number of window special purpose signs.

(B) No more than 25 percent of a window surface may be covered by either window signs or window special purpose signs, alone or in combination.

(C) Window special purpose signs may not contain words with characters more than eight inches in height.

(D) Window special purpose signs may be displayed on a premise a maximum of four times each calendar year for a maximum of 30 consecutive days each time. Each new window special purpose sign must have a new message.

(E) Window special purpose signs may contain a district promotional message.

(F) Window special purpose signs that relate exclusively to the construction, lease, remodeling, or sale of the premises on which they are located are permitted without limit as to the number or length of time displayed.

(h) Window signs.

(1) There is no limit on the number of window signs.

(2) No more than 25 percent of a window surface may be covered by either window signs or window special purpose signs, alone or in combination.

(3) Window signs that use internal neon bulbs may not cover more than 15 percent of the window surface.

(4) Window signs may not contain words with characters more than eight inches in height.

(5) Window signs may not be taped to the window. Window signs must be professionally hand-painted, silk screened, or made of self-adhesive vinyl. (Ord. 25899)

SEC. 51A-7.2008 DETACHED SIGNS.

(a) Provisions applicable to all detached signs.

(1) Number. Only one detached sign may be erected on any premise, except that a premise that has more than 450 feet of frontage along a public right-of-way other than an alley may have no more than one
additional detached sign for each additional 450 feet of frontage or fraction thereof.

(2) Height and effective area dependent upon setback.

(A) Detached signs must be set back a minimum of 10 feet.

(B) A detached sign set back more than 10 feet but less than or equal to 20 feet may not exceed 20 feet in height or exceed 150 square feet in effective area.

(C) A detached sign set back more than 20 feet but less than or equal to 30 feet may not exceed 30 feet in height or exceed 150 square feet in effective area.

(D) In Subdistricts 1, 2, and 4, a detached sign set back more than 30 feet may not exceed 30 feet in height or exceed 150 square feet in effective area.

(E) In Subdistricts 3 and 5, a detached sign set back more than 30 feet may not exceed 40 feet in height or exceed 400 square feet in effective area.

(3) Other requirements.

(A) Except for special purpose signs, detached signs may not be placed on fences.

(B) A pole-mounted detached sign must have either a pole cover that covers the entire pole and is made of masonry, metal, plastic, stucco, or wood or have a minimum three-foot-high masonry base.

(C) Banners used as detached signs may only be street light banners.

(b) District identification signs.

(1) There is no limit on the number of district identification signs in the district.

(2) The maximum effective area of a district identification sign is 12 square feet.

(3) The maximum height of a district identification sign is 20 feet.

(4) District identification signs may not have a changeable message.

(c) Expressway signs.

(1) The maximum number of expressway signs is one per premise.

(2) Expressway signs may not exceed 400 square feet in effective area.

(3) Expressway signs may not exceed 40 feet in height.

(4) Expressway signs must be set back from the expressway and Fort Worth Avenue a minimum of 50 feet.

(d) Monument signs.

(1) The maximum number of monument signs is one per premise.

(2) Monument signs may not exceed 150 square feet in effective area.

(3) Monument signs may not exceed 10 feet in height.

(4) In Subdistrict 2, monument signs must be set back a minimum of 15 feet.

(5) In Subdistricts 1, 3, 4, and 5, monument signs must be set back a minimum of 10 feet.

(e) Special purpose signs.

(1) The maximum number of special purpose signs on a premise at any time is one per street frontage.

(2) Special purpose signs may not exceed 50 square feet in effective area.

(3) Special purpose signs may not exceed eight feet in height.

(4) A special purpose sign must be located at least 100 feet from any other detached special purpose sign on the same premise.

(5) Special purpose signs may be displayed on a premise a maximum of four times each calendar year for a maximum of 30 consecutive days each time. Each new special purpose sign must have a new message.

(6) Special purpose signs may be placed on fences.

(7) Special purpose signs may not be mounted on rotating wheels.

(8) Special purpose signs may not be mounted on a trailer.

(9) Special purpose signs may not be changeable message signs or have changeable copy.

(10) Special purpose signs may not be illuminated.

(11) Special purpose signs may not contain flashing or blinking lights.

(12) Special purpose signs that relate exclusively to the construction, lease, remodeling, or sale of the premises on which they are located are permitted without limit as to the length of time displayed.

(f) Street light banners.

(1) The maximum number of street light banners is two per pole, with each banner on opposite sides of the pole.

(2) Streetlight banners may not exceed 12 square feet in effective area.

(3) Streetlight banners may not project more than three feet from the pole onto which they are mounted.

(4) Streetlight banners must be at least 12 feet above the sidewalk. A streetlight banner that overhangs a roadway must be at least 15 feet above the roadway.

(5) Streetlight banners and sign hardware must be made out of weather-resistant and rust-proof material.

(6) If a streetlight banner overhangs the public right-of-way, a license must be obtained in accordance with the requirements of the City Charter and the Dallas City Code.

(7) A streetlight banner must be a district identification sign, or display a district promotional message or generic graphics.

(8) A street light banner having a district promotional message may not be erected more than 60 days prior to the beginning of the advertised activity or event, and must be removed no later than 30 days after that activity or event has ended.

(9) The hardware for a streetlight banner may be left in place between displays of a banner. A streetlight banner and the sign hardware must be mounted on a streetlight pole and meet the sign construction and design standards in the Dallas Building Code.

(10) A sign permit is not required to erect or remove a streetlight banner. (Ord. 25899)
SEC. 51A-7.2101. DESIGNATION OF THE ARTS DISTRICT EXTENSION AREA SIGN DISTRICT.

(a) A sign district is hereby created to be known as the Arts District Extension Area Sign District. The boundaries of the Arts District Extension Area Sign District are the same as those of the Dallas Arts District Extension Area (Planned Development District No. 708).

(b) The property described in Subsection (a), which was formerly part of the Downtown Special Provision Sign District, is no longer considered to be part of that district. This division completely supersedes Division 51A-7.900 with respect to the property described in Subsection (a).

(c) The Arts District Extension Area Sign District has the following three subdistricts:

(1) The One Arts Plaza Subdistrict is all of Lot 1A, Block A/305, Arts Plaza Phase 1, Revised, an Addition to the City of Dallas, Dallas County, Texas, according to the plat thereof situated in the John Grigsby Survey, Abstract No. 495, City of Dallas, Dallas County, Texas, as filed under City Plan File Number S078-070 and recorded as Instrument No. 20080165687, Map Records of Dallas County, Texas.

(2) The Two Arts Plaza and Three Arts Plaza Subdistrict is all of Lot 2, Block A/305, Arts Plaza Phase 2, Final Plat, an Addition to the City of Dallas, Dallas County, Texas, according to the plat thereof situated in the John Grigsby Survey, Abstract No. 495, consisting of City of Dallas Blocks 304, 305, 568 and 570, Dallas County, Texas, as filed under City Plan File Number S045-232 D and recorded as Instrument No. 20080358602, Map Records of Dallas County, Texas.

(3) The Dallas Black Dance Theatre Subdistrict is a tract of land in City Block No. 566 in the City of Dallas, Dallas County, Texas, and being more particularly described as follows:

BEGINNING at the intersection of the northwest line of Ross Avenue (as widened) with the northeast line of Arts Plaza (formerly known as Boll Street as street name changed per City of Dallas Ordinance No. 26921, passed on September 12, 2007 by the City Council of the City of Dallas):

THENCE North 44°46’00” West 348.00 feet along the northeast line of Arts Plaza to the southeast line of Flora Street;

THENCE North 45°26’00” East 114.00 feet along the southeast line of Flora Street;

THENCE South 44°46’00” East 100.00 feet along a line 114.00 feet northeast of and parallel to the northeast line of Arts Plaza;

THENCE North 45°26’00” East 3.00 feet;

THENCE South 44°46’00” East 248.00 feet along a line 117.00 feet northeast of and parallel to the northeast line of Arts Plaza to the northwest line of Ross Avenue;

THENCE South 45°26’00” West 117.00 feet along the northwest line of Ross Avenue to the point of beginning and containing 40,416 square feet of land more or less. (Ord. Nos. 25920; 28933)

SEC. 51A-7.2102. PURPOSE.

(a) The Dallas Arts District Extension Area (Planned Development District No. 708) was established on March 9, 2005, to complement the adjacent Arts District (Planned Development District No. 145). This approximately 17.4-acre area in the northeast section of the central business district, generally bounded by Woodall Rodgers Freeway, North Central Expressway, Routh Street, and Ross
Avenue, represents a concerted effort on the part of the city and arts organizations to consolidate major art institutions in one mixed-use area.

(b) The guideline for development in the Arts District Extension Area is an urban design plan known as the “Sasaki Plan.” This plan is based on district-wide design and land use concepts, which include the creation of a pedestrian-oriented environment and a distinctive visual image for the district. Flora Street is defined as the major pedestrian spine and focus of development in the district. As a wide, tree-lined environment, Flora Street connects three subdistricts (Museum Crossing, Concert Lights, and Fountain Plaza) and provides continuity in a development framework for public institutions and private owners.

(c) The sign regulations in this division have been developed with the following objectives in mind:

1. To protect the character of Flora Street and the Arts District Extension Area from inappropriate signs in terms of number (clutter), size, style, color, and materials.

2. To enhance the image and liveliness of the Arts District Extension Area by encouraging compatible signs that are colorful, decorative, entertaining, and artistic in style while being functional and informative in purpose.

3. To promote the commercial success of each individual tenant in the Arts District Extension Area and, in turn, the commercial success of all the tenants in the district collectively.

4. To create a sense of design uniformity between signs and the other streetscape elements of the Arts District Extension Area and the Arts District.

5. To help make the Arts District Extension Area an attractive place for the public to frequent by providing ease of direction to specific cultural institutions.

6. To create a means of identifying the various types or categories of retail establishments along Flora Street.

7. To identify and promote cultural events and activities consistent with the purposes of the Arts District Extension Area.

8. To recognize that sign hardware is a part of the overall visual design of a sign, and to ensure that investments in signs and other structures in the Arts District Extension Area are not devalued by inappropriate or poor quality sign hardware. (Ord. 25920)

SEC. 51A-7.2103. DEFINITIONS.

(a) In this division:

1. ARTS DISTRICT means Planned Development District No. 145, established by Ordinance No. 17710, passed by the Dallas City Council on February 16, 1983 (the Dallas Arts District).

2. ARTS DISTRICT EXTENSION AREA means Planned Development District No. 708 (the Dallas Arts District Extension Area).

3. ARTS DISTRICT OFFICIAL LOGO means the official logo of the Arts District and the Arts District Extension Area, as depicted in Exhibit A in Division 51A-7.1200, “Provisions for Arts District Sign District.”

4. AWNING SIGN means a sign that is or appears to be part of an awning.

5. BLOCK means an area bounded by streets on all sides.

6. BLOCKFACE means all of the lots on one side of a block.
(7) BUILDING CORNICE AREA means that portion of a building facade above the highest story, but below the actual roof structure.

(8) BUILDING IDENTIFICATION SIGN means any sign composed of one or more characters that identify a specific building's name.

(8.1) BUILDING PLAZA AREA means an open area near a building often featuring walkways, trees and shrubs, and places to sit.

(9) CBD STREETSCAPE PLAN means the Dallas Central Business District Streetscape Guidelines approved by the Dallas City Council on April 15, 1981, by Resolution No. 81-1118.

(10) CHARACTER means a symbol, as a letter or number, that represents information.

(11) DETACHED PREMISE SIGN means a sign that is both a detached sign and a premise sign as defined in Section 51A-7.102.

(12) DISTRICT ACTIVITY SIGN means a sign that promotes cultural events or cultural activities in this sign district, with no portion of the sign devoted to sponsorship.

(13) FLAT ATTACHED SIGN means an attached sign projecting four inches or less from a building.

(14) FLORA STREET FRONTAGE AREA means the “Flora Street Frontage Area” as defined in the Arts District Extension Area PD.

(15) GENERIC RETAIL IDENTIFICATION SIGN means a sign identifying a type or category of retail establishment without identifying a specific establishment.

(16) GOVERNMENTAL TRAFFIC SIGN means a sign, signal, or other traffic control device installed by a governmental agency for the purpose of regulating, warning, or guiding vehicular or pedestrian traffic on a public highway. Examples of these signs include stop signs, one-way signs, no parking signs, and electronic pedestrian and vehicular signalization devices and their fixtures.

(17) INSTITUTIONAL MOVEMENT INFOR-MATION SIGN means a sign showing the location of or route to a specific cultural institution or a parking area serving that institution.

(18) KIOSK means a small structure with one or more open sides used to display artwork or temporary signs.

(19) MARQUEE SIGN means a sign attached to, applied on, or supported by a permanent canopy projecting over a pedestrian street entrance of a building, and consisting primarily of changeable panels, words, or characters.

(19.1) MONUMENT SIGN means a detached sign applied directly to a ground-level support structure (instead of a pole support) with no separation between the sign and the ground, or mounted on a fence.

(20) PLAQUE means a permanent tablet, the contents of which are either commemorative or identifying.

(21) PRIVATE SIGNS means those signs that are not “public signs” as defined in this section.

(22) PROJECTING ATTACHED SIGN means an attached sign projecting more than four inches from a building.

(23) PROMOTIONAL SIGN means a sign that promotes a cultural event or activity.

(24) PUBLIC SIGNS means governmental traffic signs, institutional movement control signs, generic retail identification signs, promotional signs, or plaques or district activity signs as defined in this section.
§ 51A-7.2103 Dallas Development Code: Ordinance No. 19455, as amended

(24.1) RETAINING WALL SIGN means an attached premise sign within the One Arts Plaza Subdistrict or the Two Arts Plaza and Three Arts Plaza Subdistrict that is integrated into a retaining wall.

(25) SASAKI PLAN means the urban design plan prepared by Sasaki Associates, Inc. in August, 1982 to serve as the guideline for development in the Dallas Arts District and Arts District Extension Area. The Sasaki Plan is attached to and made a part of the Arts District PD ordinance (Ordinance No. 25508).

(26) SIGN HARDWARE means the structural support system for a sign, including the fastening devices that secure a sign to a building facade or pole.

(26.1) TENANT IDENTITY SIGN means an attached premise sign within the Two Arts Plaza and Three Arts Plaza Subdistrict located on a building that is primarily used for office uses and that identifies a specific office tenant.

(27) THIS DISTRICT means the Arts District Extension Area Sign District.

(28) WINDOW SIGN means a sign temporarily or permanently attached to, applied on, or supported by a window.

(b) Except as otherwise provided in this section, the definitions contained in Sections 51A-2.102 and 51A-7.102 apply to this division. In the event of a conflict, this section controls. (Ord. Nos. 25920; 28933)

SEC. 51A-7.2104. ARTS DISTRICT EXTENSION AREA SIGN PERMIT REQUIREMENT.

(a) A person shall not alter, place, maintain, expand, or remove a sign in this district without first obtaining a sign permit from the city, except that no sign permit is required for:

(1) governmental traffic signs; and

(2) promotional signs other than banners.

(b) The procedure for obtaining a sign permit is outlined in this section. Section 51A-7.602 does not apply to signs in this district.

(c) No sign permit may be issued to authorize a sign in this district unless the director has first issued a certificate of appropriateness in accordance with this section.

(d) Section 51A-7.504, which establishes the special sign district advisory committee for special provision sign districts in the city generally, does not apply to this district. City planning personnel are responsible for reviewing and making recommendations to the director concerning applications for permits to authorize signs in this district.

(e) Upon receipt of an application for a permit to authorize a sign in this district, the building official shall refer the application and plans to the director for a review to determine whether the work complies with this division. The director shall conduct his or her review so that a decision on issuance of the permit can be made within 30 calendar days from the date the completed application is submitted to the building official.

(f) The director shall solicit a recommendation from the planning staff before making a decision to approve or disapprove a certificate of appropriateness. The recommendation of the staff is not binding upon the director, and the director may decide a matter contrary to the recommendation of the committee.

(g) A decision by the director to grant a certificate of appropriateness may not be appealed. A decision to deny the certificate may be appealed by the applicant. An appeal is made by filing a written request with the director for review by the city plan commission. An appeal must be made within 10 days after notice is given to the applicant of the director’s decision. In considering the appeal, the sole issue shall be whether or not the director erred in making the
decision, and, in this connection, the commission shall consider the same standards that were required to be considered by the director in making the decision, specifically, whether the work complies with this division. Decisions of the commission are final as to available administrative remedies and are binding on all parties.

(h) If the city plan commission fails to make a decision on an appeal by the applicant within 30 calendar days of the date the written request for an appeal is filed with the director, the application shall be considered approved subject to compliance with all other applicable city codes, ordinances, rules, and regulations. (Ord. Nos. 25920; 28073)

SEC. 51A-7.2105. SPECIAL PROVISIONS FOR ALL SIGNS.

(a) This division does not apply to signs that are not visible from outside the premise on which they are located.

(b) Signs in this district are permitted in or overhanging the public way subject to city franchise requirements.

(c) No sign may obscure a window or a significant architectural element of a building.

(d) Sign hardware may be visible if its structural elements have been specifically devised for their intrinsic contribution to an overall visual effect. Utilitarian hardware intended only for functional purposes must be concealed from normal view.

(e) Mounting devices supporting a projecting attached sign must be fully integrated with the overall design of the sign.

(f) Materials, fasteners, and anchors used to manufacture and install signs must be resistant to corrosion.

(g) Paints and coatings must contain a UV inhibitor to retard the discoloration and fading effects of ultraviolet light. In addition to finish coats, bare metals must have a primer coat or other surface pretreatment as recommended by the paint or coating manufacturer.

(h) Electrical power required for signs must be supplied by means of concealed conduit from an appropriate power source to the sign in accordance with city codes and accepted practices of the trade. Electrical disconnects, transformers, and related apparatus, including wiring and conduit, must be concealed from normal view.

(i) No signs may be illuminated by an independent external light source.

(j) Burned out or defective lights in signs must be replaced within a reasonable time. Failure to comply with this provision may result in sign permit revocation.

(k) Banners are only allowed as promotional signs.

(l) Only those signs exempt from the Highway Beautification Act are permitted within 660 feet of a regulated highway. (Ord. 25920)

SEC. 51A-7.2106. PUBLIC SIGNS.

(a) Generic retail identification signs.

(1) This subsection applies only to generic retail identification signs as defined in Section 51A-7.2103.

(2) These signs are only permitted on Flora Street.

(3) These signs must be one-eighth inch thick aluminum disks that are 12 inches in diameter.

(4) Messages on these signs must consist entirely of graphic symbols or glyphs designed to
identify a type or category of retail facility. They may not identify specific retail establishments.

(5) These signs must be mounted on streetlight poles. No more than six signs are allowed on a pole. When there is more than one sign, the second sign must be the same height as the first sign and located on the other side of the pole. Additional signs must be similarly paired and located immediately beneath the first two signs. Thus, the proper maximum configuration will be symmetrical and consist of three pairs of signs, with the second and third pairs being located immediately below the first pair.

(b) Governmental traffic signs.

(1) This subsection applies only to governmental traffic signs as defined in Section 51A-7.2103.

(2) Notwithstanding any other provision in this division, these signs must comply with applicable statutory specifications.

(3) On Flora Street, these signs must be mounted on streetlight poles or on white cylindrical poles. On other streets, they must be mounted on white cylindrical poles or on other fixtures recommended in the CBD Streetscape Plan.

(4) The backs of these signs must be white.

(c) Institutional movement information signs.

(1) This subsection applies only to institutional movement information signs as defined in Section 51A-7.2103.

(2) On Flora Street, these signs must be mounted on streetlight poles or on white cylindrical poles. On other streets, they must be mounted on white cylindrical poles or on other fixtures recommended in the CBD Streetscape Plan.

(3) The backs of these signs must be white and incorporate the Arts District official logo.

(d) Plaques. Plaques must be made of bronze or stone and contain an inscription that relates to the Arts District or the Arts District Extension Area.

(e) Promotional signs.

(1) This subsection applies only to promotional signs as defined in Section 51A-7.2103.

(2) These signs must promote cultural events and activities. The portion of a sign devoted to sponsor identification, if any, must not exceed 10 percent of its effective area. No sign or portion of a sign may be used to advertise a specific product or service other than the cultural event or activity.

(3) Banners must be either flat against a building facade or mounted on streetlight poles. All other promotional signs must be affixed to city-franchised kiosks.

(4) No promotional sign other than a banner may be larger than 30 inches by 40 inches.

(5) No promotional sign may be permanent. Each sign must be removed no later than 30 days after its specific advertised event or activity has ended.

(f) District activity signs.

(1) This subsection applies only to district activity signs as defined in Section 51A-7.2103.

(2) District activity signs are permitted only on the first two floors in that portion of Flora Street Frontage area, at least 660 feet away from a regulated highway under the Highway Beautification Act.

(3) District activity signs are permitted up to any size as the display contained within the transparent portion of the street wall along Flora Street. (Ord. 25920)
SEC. 51A-7.2107.  ATTACHED PRIVATE SIGNS.

(a) In general.

(1) This section applies to all attached private signs, except retaining wall signs and tenant identity signs. The only provision of this section that applies to building identification signs is Paragraph (5) of this subsection. For the regulations governing building identification signs, see Section 51A-7.2109. For the regulations governing retaining wall signs in the One Arts Plaza Subdistrict, see Section 51A-7.2110. For the regulations governing retaining wall signs and tenant identity signs in the Two Arts Plaza and Three Arts Plaza Subdistrict, see Section 51A-7.2111.

(2) No sign may project above the building cornice area.

(3) At-grade structural supports are prohibited.

(4) No establishment may have a mix of awning signs, projecting attached signs, flat attached signs, and/or marquee signs, except that awning signs may be mixed with flat attached signs.

(5) The total effective area of all attached private signs on a facade may not exceed 30 percent of the facade area. Projecting attached signs are not included in these effective area calculations.

(b) Awning signs.

(1) This subsection applies only to awning signs as defined in Section 51A-7.2103.

(2) Letters and numbers on these signs must:

(A) be parallel or perpendicular to the front building facade; and

(B) not exceed 18 inches in height.

(3) No letters or numbers are allowed on the sloped top of an awning except as part of an official corporate logo or registered trademark. No more than 50 percent of the total sloped awning surface area may contain graphics.

(4) No words, other than those which are part of the basic awning design pattern, are permitted on awnings located above the second story.

(5) No sign may have flashing or sequenced lighting.

(c) Flat attached signs.

(1) This subsection applies only to flat attached signs as defined in Section 51A-7.2103.

(2) These signs are not permitted above the third story of a building.

(3) No sign may have a length that exceeds 70 percent of the length of the frontage of the establishment with which it is associated. Signs associated with the same establishment must be spaced at least 30 feet apart. No sign may exceed 60 square feet in effective area.

(4) The maximum character heights allowed on these signs are:

(A) 18 inches for signs located below the third story; and

(B) 24 inches for third-story signs.

(5) No sign cabinets are permitted. Adequate clear space for staging characters must be provided. In no event may the character height exceed 60 percent of the vertical dimension of the sign. The sides of three-dimensional characters, if any, must be the same color as their faces.

(6) No sign may contain more than five words.
§ 51A-7.2107  Dallas Development Code: Ordinance No. 19455, as amended  § 51A-7.2107

(7) Sources of sign illumination that are an integral part of the design of the sign, such as neon or small individual incandescent lamps, are permitted. These signs may be protected by transparent covers.

(8) Internally-lit plastic translucent signs are prohibited.

(9) No sign may have flashing or sequenced lighting.

(d) Marquee signs.

(1) This subsection applies only to marquee signs as defined in Section 51A-7.2103.

(2) These signs are only allowed in conjunction with establishments that have as their major use movies or live entertainment productions.

(3) The permanent canopy of which this sign is a part must:

(A) project no more than six feet from the building facade;

(B) be a minimum of ten feet above the sidewalk grade;

(C) have a vertical dimension that does not exceed four feet; and

(D) have a horizontal dimension along the building facade that does not exceed 30 feet.

(4) The total effective area of signs on the permanent canopy must not exceed 120 square feet.

(5) No sign may:

(A) project more than three feet from the permanent canopy;

(B) extend vertically more than 30 feet above the canopy height; or

(C) be more than three feet in width.

(6) Messages with characters over eight inches in height are limited to a maximum of five words on each canopy facade. Messages with characters under eight inches in height have no limit on the number of words. Character height must not exceed 60 percent of the vertical dimension of the permanent canopy, or 24 inches, whichever is less.

(7) Only the name of the establishment with which the sign is associated may appear on that portion of the sign located above the permanent canopy.

(8) Display panels that announce a show or event may have plastic characters on an internally-lit background.

(9) These signs may turn on or off or change their brightness. The restrictions contained in Section 51A-7.303(b)(1) do not apply to these signs. Flashing and sequenced lighting are permitted.

(e) Projecting attached signs.

(1) This subsection applies only to projecting attached signs as defined in Section 51A-7.2103.

(2) These signs must be a minimum of ten feet above grade.

(3) These signs must be located in either the bottom, top, or combined envelope depicted graphically in the diagram that is Exhibit B in Division 51A-7.1200. Restrictions on the size and location of each sign depend on which envelope the sign is located in as follows:
§ 51A-7.2107  

Dallas Development Code: Ordinance No. 19455, as amended  

§ 51A-7.2108  

(3) The maximum amount of window area that may be utilized as sign space varies depending on the location of the window as follows:

<table>
<thead>
<tr>
<th>Window Location</th>
<th>Maximum Window Coverage Allowed</th>
</tr>
</thead>
<tbody>
<tr>
<td>First Story</td>
<td>8 sq. ft. or 15 percent, whichever is less</td>
</tr>
<tr>
<td>Second Story</td>
<td>10 sq. ft. or 20 percent, whichever is less</td>
</tr>
<tr>
<td>Third Story</td>
<td>12 sq. ft. or 25 percent, whichever is less</td>
</tr>
</tbody>
</table>

(4) No establishment may have more than four window signs.

(5) Hanging neon signs are allowed if their transformers are concealed from normal view.

(6) Opaque painted backgrounds on windows are prohibited. (Ord. Nos. 25920; 28933)

SEC. 51A-7.2108. DETACHED PRIVATE SIGNS.

(a) Detached non-premise signs. Detached non-premise private signs are prohibited in this district.

(b) Detached premise signs.

(1) This subsection applies to all detached premise signs except building identification signs. For the regulations governing building identification signs, see Section 51A-7.2109.

(2) Except in the One Arts Plaza Subdistrict, the Two Arts Plaza and Three Arts Plaza Subdistrict, and the Dallas Black Dance Theatre Subdistrict, no detached premise sign may exceed 20 square feet in effective area.

(3) Each premise may have no more than one sign on each blockface.
§ 51A-7.2108 Dallas Development Code: Ordinance No. 19455, as amended § 51A-7.2110

(4) The pole support element of these signs must be a cylindrical metal column that is six inches in diameter and white in color.

(5) Except in the One Arts Plaza Subdistrict, the Two Arts Plaza and Three Arts Plaza Subdistrict, and the Dallas Black Dance Theatre Subdistrict, no sign may exceed 13 feet, 6 inches in height.

(6) The face of these signs must be flat. Vacuum-formed sign faces are prohibited.

(7) No sign may move or rotate.

(8) No sign may be more than 12 inches thick.

(9) No illuminated sign or element of a sign may turn on or off or change its brightness. (Ord. Nos. 25920; 28933)

SEC. 51A-7.2109. BUILDING IDENTIFICATION SIGNS.

(a) This section applies only to building identification signs as defined in Section 51A-7.2103.

(b) Illumination of these signs, if any, must be from within to illuminate the building facade or monument and produce a “halo” around the characters. No illuminated sign or element of a sign may turn on or off or change its brightness.

(c) These signs must be located:

(1) on a building facade above an entrance;

(2) in the building cornice area; or

(3) on a monument in a landscaped area between a building facade and the property line.

(d) Signs located above building entrances are limited to the building name and/or street address.

(1) Lower-level building identification signs. A maximum of 50 square feet of effective area of each sign may be allocated to the building name, and a maximum of 25 square feet of effective area of each sign may be allocated to the building address. The maximum permitted heights of characters on these signs are 24 inches for the building name, and 12 inches for the building address. These signs are not allowed above the third story of the building.

(2) Upper-level flat attached building identification signs.

(A) Each upper-level flat attached building identification sign may have a maximum of eight words that contain any character of a height equal to or exceeding four inches.

(B) Upper-level flat attached signs must be wholly located within the portion of a facade more than 36 feet above grade and within the top 12 feet of a facade on buildings 18 stories or less, or within the top 36 feet of a facade on buildings more than 18 stories.

(e) No facade may have more than one sign in the building cornice area.

(f) Signs on monuments must conform to the setback and area regulations of detached premise signs in this chapter generally. These signs must be composed of individual characters made of bronze, brass, or stainless steel, or be engraved in stone. (Ord. 25920)

SEC. 51A-7.2110. ONE ARTS PLAZA SUBDISTRICT.

(a) In general. Except as provided in this division, the provisions of the Arts District Extension Area Sign District apply in this subdistrict.

(b) Monument signs.

(1) Only two monument signs are permitted.
§ 51A-7.2110 Dallas Development Code: Ordinance No. 19455, as amended

(2) Monument signs must be freestanding.

(3) Monument signs may be two sided, but must be located in a building plaza area.

(4) Monument signs may identify a building’s owner or developer and multiple tenants.

(5) Monument signs may be located at the building line.

(6) Monument signs may be located within five feet of the public right-of-way.

(7) The maximum height for a monument sign is eight feet measured to the top of the sign face.

(8) The maximum effective area for a monument sign is 50 square feet.

(9) All elements of a monument sign must be consistent in color and material.

(c) Retaining wall signs.

(1) Only two retaining wall signs are permitted.

(2) Retaining wall signs must be mounted on a perimeter retaining wall facing a right-of-way.

(3) Retaining wall signs may identify the building’s owner or developer and multiple tenants.

(4) Retaining wall signs may be located within five feet of the public right-of-way.

(5) The maximum height for a retaining wall sign is eight feet measured to the top of the sign face.

(6) The maximum effective area for a retaining wall sign is 20 square feet.

(7) All elements of a retaining wall sign must be consistent in color and material. (Ord. 28933)

SEC. 51A-7.2111. TWO ARTS PLAZA AND THREE ARTS PLAZA SUBDISTRICT.

(a) In general. Except as provided in this division, the provisions of the Arts District Extension Area Sign District apply in this subdistrict.

(b) Monument signs.

(1) A maximum of four monument signs are permitted.

(2) Only two monument signs are permitted per building site.

(3) Monument signs must be freestanding.

(4) Monument signs may be two sided, but must be located in a building plaza area.

(5) Monument signs may identify a building’s owner or developer and multiple tenants.

(6) Monument signs may be located at the building line.

(7) Monument signs may be located within five feet of the public right-of-way.

(8) The maximum height for a monument sign is eight feet measured to the top of the sign face.

(9) The maximum effective area for a monument sign is 50 square feet.

(10) All elements of a monument sign must be consistent in color and material.

(c) Retaining wall signs.

(1) A maximum of four retaining wall signs are permitted.

(2) Only two retaining wall signs are permitted per building site.
§ 51A-7.2111 Dallas Development Code: Ordinance No. 19455, as amended

(3) Retaining wall signs must be mounted on a perimeter retaining wall facing a right-of-way.

(4) Retaining wall signs may identify the building’s owner or developer and multiple tenants.

(5) Retaining wall signs may be located within five feet of the public right-of-way.

(6) The maximum height for a retaining wall sign is eight feet measured to the top of the sign face.

(7) The maximum effective area for a retaining wall sign is 20 square feet.

(8) All elements of a retaining wall sign must be consistent in color and material.

(d) Tenant identity signs and building identification signs.

(1) Except as provided in this subsection, only one tenant identity sign or building identification sign is permitted per facade.

(2) North of the One Arts Plaza Subdistrict, tenant identity signs and building identification signs are prohibited on the southern facade of a structure.

(3) East of the One Arts Plaza Subdistrict, tenant identity signs and building identification signs are prohibited on the western facade of a structure.

(4) Tenant identity signs must be located above the highest leasable floor.

(5) Tenant identity signs must be composed of individual letters only and illumination of these signs, if any, must be internal to each letter. No illuminated sign or element of a sign may turn on or off or change its brightness.

(6) All tenant identity signs and building identity signs must be the same color. (Ord. 28933)

SEC. 51A-7.2112. DALLAS BLACK DANCE THEATRE SUBDISTRICT.

(a) In general.

(1) Except as provided in this division, the provisions of the Arts District Extension Area Sign District apply in this subdistrict.

(2) For the purposes of this section, the entire subdistrict is considered one building site.

(b) Monument signs.

(1) Only two monument signs are permitted.

(2) Monument signs must be freestanding.

(3) Monument signs may be two sided, but must be located in a building plaza area.

(4) Monument signs may identify a building’s owner or developer and multiple tenants.

(5) Monument signs may be located at the building line.

(6) Monument signs may be located within five feet of the public right-of-way.

(7) The maximum height for a monument sign is eight feet measured to the top of the sign face.

(8) The maximum effective area for a monument sign is 50 square feet.

(9) All elements of a monument sign must be consistent in color and material. (Ord. 28933)
Division 51A-7.2200
Parkland Hospital Sign District.

SEC. 51A-7.2201. DESIGNATION OF PARKLAND HOSPITAL SIGN DISTRICT.

(a) A sign district is hereby created to be known as the Parkland Hospital Sign District.

(b) This district is that area of the city within the boundaries described in Exhibit A attached to Ordinance No. 28950, passed by the Dallas City Council on March 27, 2013. (Ord. 28950)

SEC 51A-7.2202. DESIGNATION OF CORRIDORS.

(a) This district is hereby divided into three corridors: the Perimeter Corridor, the Parkland Corridor, and the Service Corridor.

(b) The Perimeter Corridor is that area of the city generally bordering on Harry Hines Boulevard, Medical District Drive, and Maple Avenue within the boundaries described in Exhibit B attached to Ordinance No. 28950, passed by the Dallas City Council on March 27, 2013.

(c) The Parkland Corridor is that area of the city generally encompassing the internal campus drive from Harry Hines Boulevard to Maple Avenue and from Tex-Oak Avenue to Bengal Street within the boundaries described in Exhibit C attached to Ordinance No. 28950, passed by the Dallas City Council on March 27, 2013.

(d) The Service Corridor is that area of the city generally bordering the Parkland campus on the west, Tex-Oak Avenue, Butler Street, portions of Redfield Street, and Amelia Court within the boundaries described in Exhibit D attached to Ordinance No. 28950, passed by the Dallas City Council on March 27, 2013. (Ord. 28950)

SEC. 51A-7.2203. PURPOSE.

(a) The purpose of this division is to regulate both the construction of new signs and alterations of existing signs with a view towards enhancing, preserving, and developing the unique character of the Parkland Hospital area while addressing the public’s need to find and navigate to the multiple entrances efficiently.

(b) The objectives of this division include those listed in Section 51A-7.101 as well the objectives of ensuring that signs are appropriate to the architecture of the district, do not obscure significant architectural features, and lend themselves to the various user types (vehicular to pedestrian) of the area.

(c) The district regulations reflect the vehicular speeds along Harry Hines Boulevard and Medical District Drive, the high level of pedestrian activity along Parkland Boulevard, and the need to maximize effective orientation to multiple buildings on the campus. (Ord. 28950)

SEC. 51A-7.2204. DEFINITIONS.

In this division:

(1) ARCADE SIGN means any sign that is mounted under a canopy or awning and is perpendicular to the building to which the canopy or awning is attached. This sign is intended to be read from the pedestrian walkway that the canopy or awning covers.

(2) AWNING means a fabric or vinyl surface supported by a metal structure, which is applied to the face of a building.

(3) AWNING SIGN means a sign attached to, painted on, or otherwise applied to an awning.

(4) BANNER means a sign attached to or applied on a strip of cloth, vinyl, or similar material
and attached to a building, pole, or structure. Awning
signs, canopy signs, and flags are not banners.

(5) BRANDING SIGN means a sign that only displays the brand, logo, or name of the district.

(6) CANOPY means a permanent, non-fabric architectural element projecting from the face of a building.

(7) CANOPY SIGN means a sign attached to, applied on, or supported by a canopy.

(8) CHANGEABLE MESSAGE SIGN means a sign displaying static images that may display different designs, messages, or advertisements and that may include LED/LCD elements, slide lettering, slotted rotating surfaces, or other changeable message technology.

(9) CONSTRUCTION BARRICADE SIGN means a sign that is affixed to a construction barricade.

(10) DONOR RECOGNITION SIGN means a sign made of words, logos, or emblems that displays the name of an individual, institution, or other entity that donates money, time, services, or other goods to Parkland Hospital or the Parkland Foundation for the benefit of the hospital.

(11) DISTRICT means the Parkland Hospital Sign District.

(12) EFFECTIVE AREA means the following:

(A) For a detached sign, the area within a minimum imaginary rectangle of vertical and horizontal lines that fully contains all extremities of the sign, excluding its supports. This rectangle is calculated from an orthographic projection of the sign viewed horizontally. The viewpoint for this projection that produces the largest rectangle must be used. If elements of the sign are movable or flexible, such as a flag or a string of lights, the measurement is taken when the elements are fully extended and parallel to the plane of view.

(B) For an attached sign, the sum of the areas within minimum imaginary rectangles of vertical and horizontal lines, each of which fully contains a word. If a design, outline, illustration, or interior illumination surrounds or attracts attention to a word, then it is included in the calculation of effective area.

(C) For signs placed on a fence, non-enclosing wall, planter, or other similar structure that is designed to serve a separate purpose other than to support the sign, the entire area of such structure is not computed, and the effective area is to be measured by the rule for effective area for attached signs.

(13) FLAT ATTACHED SIGN means an attached sign projecting 24 inches or less from a building, and with a face parallel to the building facade.

(14) GENERIC GRAPHICS means a pattern of shapes, colors, or symbols that does not commercially advertise.

(15) KIOSK means a multi-sided structure for the display of premise signs, information messages, and wayfinding information and maps.

(16) LANDSCAPE SIGN means a sign that is a part of a single landscape design which creates a base for the sign in conjunction with a retaining wall or an open space created with the use of water or planting material.

(17) LOWER LEVEL SIGN AREA means the portion of a facade equal to or less than 85 linear feet measured vertically from the ground.

(18) MONUMENT SIGN means a detached sign applied directly onto a grade-level support structure (instead of a pole support) with no separation between the sign and grade.

(19) MOVEMENT CONTROL SIGN means a sign that must direct vehicular or pedestrian movement onto or within this district and may include the name or logo of any premise located in this district.
(20) PARKING LOT IDENTIFICATION SIGN means a sign that may display the number, name, and primary users, in any combination, of a parking lot within the district.

(21) PARKING ZONE IDENTIFICATION SIGN means a sign identifying a particular zone or area within a parking lot either by letter, number, name, or a combination of the three, typically located on light poles within the parking lot.

(22) PEDESTRIAN MOVEMENT CONTROL SIGN means a sign providing information about any of the following:

(A) The name, trade name, or logo of the owner or occupant of any premise within this district.

(B) The identification of any premise within this district.

(C) Any accommodations, services, or activities offered or conducted, other than incidentally, on any premise within this district.

(D) Pedestrian directional information.

(E) Campus maps and other orientation information.

(23) PERMANENT SIGN means any sign that is not a temporary sign as defined in this section.

(24) PROJECTING ATTACHED SIGN means an attached sign projecting 18 or more inches from a building.

(25) PROMOTIONAL MESSAGE means a message that identifies, promotes, or advertises a cultural activity within this district, any event being conducted, in whole or in part, in this district, or any special event being conducted in this district.

(26) SPECIAL EVENT means a special event as defined in Chapter 42A of the Dallas City Code.

(27) TEMPORARY SIGN means a sign erected for a limited time that identifies an event or activity of limited duration. Examples include signs advertising the sale or lease of property, construction activity in progress, or a special or other cultural event.

(28) UPPER LEVEL SIGN AREA means the portion of a facade within the top 45 linear feet of the building measured vertically.

(29) VISION GLASS means window glass that is transparent, translucent, or decoratively fritted.

(30) WELCOME MESSAGE means a message that identifies and greets heads of state; foreign dignitaries; groups using city or county property in accordance with a contract, license, or permit; or government organizations.

(31) WINDOW DISPLAY SIGN means a sign placed within a storefront window of a building and designed to be viewed from a street or public area.

(Ord. 28950)

SEC. 51A-7.2205. SIGN PERMIT REQUIREMENTS.

(a) In general. Except as provided in this subsection, a person shall not alter, place, maintain, expand, or remove a sign in this district without first obtaining a sign permit. A sign permit is not required to:

(1) Change the text on a changeable message sign, a window display sign, a protective sign, or a kiosk.

(2) Erect or replace a banner on a street pole using the existing sign hardware. A sign permit is required to install sign hardware for a banner.

(3) Erect a temporary sign that is less than 50 square feet in effective area.
§ 51A-7.2205 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-7.2209

(4) Erect a non-illuminated sign with an effective area of 20 square feet or less.

(b) Sign permit procedures. The procedures for obtaining a sign permit using the director procedure in Section 51A-7.505(4) apply in this district.

(c) Special event signs. Special event signs are governed by the special event permit. (Ord. 28950)

SEC. 51A-7.2206. IMITATION OF TRAFFIC AND EMERGENCY SIGNS PROHIBITED.

No person shall cause to be erected or maintained any sign using any combination of forms, words, colors, or lights that imitate standard public traffic regulatory or emergency signs or signals. (Ord. 28950)

SEC. 51A-7.2207. CREATION OF SITE.

Except for signs located wholly within the public right-of-way, the building official shall not issue a permit for construction, erection, placement, or maintenance of a sign until a site is established in one of the following ways:

(1) A lot is part of a plat which is approved by the city plan commission and filed in the plat records of Dallas County, Texas.

(2) Tracts that are governed by a detached sign unity agreement in accordance with Section 51A-7.213. (Ord. 28950)

SEC. 51A-7.2208. SIGNS OVER THE PUBLIC RIGHT-OF-WAY.

(a) Signs may be located in or project over the public right-of-way, including, but not limited to, sidewalks, subject to the licensing and franchise requirements of Chapter XIV of the city charter, as amended; Article VI of Chapter 43 of the Dallas City Code, as amended; and the requirements of this section.

(b) The traffic engineer shall review the location of any sign located in or overhanging the public right-of-way to ensure that the sign will not pose a traffic hazard or visibility obstruction. (Ord. 28950)

SEC. 51A-7.2209. GENERAL PROVISIONS FOR ALL SIGNS.

(a) Except as provided in this division, all signs must comply with Article VII.

(b) Except as provided in this subsection, the minimum setback from back of curb is two feet. In the Perimeter Corridor, the minimum setback from back of curb is 10 feet.

(c) Signs are not allowed in a visibility triangle.

(d) All permanent signs must be premise signs or convey a noncommercial message.

(e) Signs may not be painted onto the roof of a building, and flat attached signs are not permitted on the roof of a building, except that helipad signs identifying Parkland Hospital are permitted to be painted onto the roof of a building.

(f) Signs may be internally illuminated.

(g) Illuminated signs with an effective area of 500 square feet or less may not have a luminance greater than 300 foot lamberts, nor may any such sign have a luminance greater than 300 foot lamberts for any portion of the sign within a circle two feet in diameter. Illuminated signs with an effective area greater than 500 square feet may not have a luminance greater than 200 foot lamberts, nor may any such sign have a luminance greater than 200 foot lamberts for any portion of the sign within a circle of two feet in diameter. The measurements of luminance are taken from any other premise or from any public right-of-way other than an alley.
§ 51A-7.2209 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-7.2210

(h) Changeable messages must follow the requirements of Section 51A-7.303(b).

(i) There is no limit to the number of words permitted on a sign. (Ord. 28950)

SEC. 51A-7.2210. MOVEMENT CONTROL SIGNS.

(a) In general.

(1) Movement control signs may be erected on any premise without limit as to number.

(2) Movement control signs may contain generic graphics.

(b) Primary movement control signs. Primary movement control signs:

(1) must be monument signs;

(2) may not exceed 150 square feet in effective area;

(3) may not exceed 20 feet in height; and

(4) may only be located in the Perimeter Corridor.

(c) Secondary movement control signs. Secondary movement control signs:

(1) must be monument signs;

(2) may not exceed 100 square feet in effective area;

(3) may not exceed 16 feet in height; and

(4) may only be located in the Perimeter Corridor.

(d) Tertiary movement control signs. Tertiary movement control signs:

(1) must be monument signs;

(2) may not exceed 50 square feet in effective area;

(3) may not exceed 11 feet in height;

(4) may be located anywhere in the district; and

(5) in the Parkland Corridor, may contain multiple tenant names.

(e) Quaternary movement control signs. Quaternary movement control signs:

(1) must be monument signs;

(2) may not exceed 20 square feet in effective area;

(3) may not exceed six feet in height; and

(4) may be located anywhere in the district.

(f) Overhead movement control signs. Overhead movement control signs:

(1) must be pole mounted signs;

(2) may not exceed 40 square feet in aggregate effective area of movement control panels;

(3) must have a minimum clearance of 13 feet; and

(4) may be located anywhere in the district.

(g) Parkland Corridor movement control signs. Parkland Corridor movement control signs:

(1) must be pole mounted signs;

(2) may not exceed 25 square feet in effective area of movement control panels;
§ 51A-7.2210 Dallas Development Code: Ordinance No. 19455, as amended

(3) may also support a banner (the banner square footage is not counted as part of the square footage);

(4) must have a minimum clearance of eight feet; and

(5) may be located only in the Parkland Corridor.

(h) Pedestrian movement control signs. Pedestrian movement control signs:

(1) must be monument signs;

(2) may not exceed 20 square feet in effective area;

(3) may not exceed 10 feet in height; and

(4) may be located anywhere in the district.

(i) Parking zone identification signs. Parking zone identification signs:

(1) must be pole mounted signs;

(2) may not exceed three square feet in effective area;

(3) must have a minimum clearance of eight feet; and

(4) may be located anywhere in the district.

Sec. 51A-7.2211. District identification signs.

(a) District identification signs may only identify the name or logo of this district or an abutting special provision sign district.

(b) District identification signs may be internally or externally illuminated.

(c) In the Perimeter Corridor, a maximum of two district identification signs are permitted. A district identification sign in this corridor may be attached onto a non-enclosing wall or may be a monument sign.

(1) If the sign is attached onto a non-enclosing wall, the sign may not exceed 10 square feet in effective area.

(2) If the sign is a monument sign, the sign may not exceed 20 feet in height or 150 square feet in effective area.

(d) In the Parkland Corridor, district identification signs are prohibited.

(e) In the Service Corridor, a maximum of two district identification signs are permitted and they must be monument signs. The signs may not exceed 11 feet in height or 45 square feet in effective area. (Ord. 28950)

Sec. 51A-7.2212. Banner signs.

(a) Banner signs may not be illuminated.

(b) Banner signs may be attached to Parkland Corridor movement control sign poles, or may be mounted to street light poles in the Perimeter Corridor or the Service Corridor.

(c) Pole mounted banner signs are not limited in number.

(d) Pole mounted banner signs must:
§ 51A-7.2212 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-7.2212 Dallas Development Code: Ordinance No. 19455, as amended

(1) meet the sign construction and design standards contained in the Dallas Building Code;

(2) be at least eight feet, but no more than 16 feet, above grade;

(3) not project more than three feet from the pole on which they are mounted;

(4) not exceed eight square feet in effective area;

(5) be made out of weather-resistant and rust-proof material; and

(6) may contain district activity promotional messages, welcome messages, premise messages, and sponsorship messages.

(e) A sign permit is not required to erect or remove a pole mounted banner. (Ord. 28950)

SEC. 51A-7.2213. BRANDING SIGNS.

(a) An unlimited number of branding signs may be located on or incorporated into manhole covers, street light poles, sidewalks, benches, trash receptacles, and other improvements.

(b) Branding signs may not exceed one square foot in effective area. (Ord. 28950)

SEC. 51A-7.2214. DONOR RECOGNITION SIGNS.

(a) Attached donor recognition signs.

(1) Attached donor recognition signs are allowed in the lower level sign area only.

(2) Attached donor recognition signs may not be located on vision glass, but may be located on non-vision glass or solid surface areas of the facade.

(3) The aggregate square footage of all donor recognition signs on a facade may not exceed 15 percent of the facade to which they are attached.

(4) Attached donor recognition signs may be located anywhere in the district.

(b) Detached donor recognition signs.

(1) Detached donor recognition signs may be monument or landscape signs.

(2) Detached donor recognition signs may not exceed 50 square feet in effective area.

(3) Detached donor recognition signs may not exceed 11 feet in height.

(4) Detached donor recognition signs may include other non-commercial messages.

(5) Detached donor recognition signs may be located anywhere in the district. (Ord. 28950)

SEC. 51A-7.2215. STREAMERS, PENNANTS, AND INFLATABLE SEASONAL DECORATIONS PROHIBITED.

Streamers, pennants, and inflatable seasonal decorations, including, but not limited to, balloons, are prohibited. (Ord. 28950)

SEC. 51A-7.2216. ATTACHED SIGNS.

(a) In general.

(1) Except as provided in this subsection, the total effective area for all attached signs on a facade may not exceed 30 percent of the area of the facade.

(2) Projecting signs and special event signs may not exceed 20 percent of the area of facade.
(3) Attached signs must be securely attached.

(4) Attached signs may not project more than four feet above the surface to which they are attached.

(5) Attached signs may only be located in the lower level sign area or the upper level sign area.

(b) Arcade signs.

(1) Arcade signs may be located anywhere in the district.

(2) An arcade sign must be located at least six feet from any other arcade sign.

(3) Arcade signs may not exceed six square feet in effective area.

(4) Arcade signs may not be lower than 10 feet above grade.

(c) Awning signs.

(1) Awning signs may be located anywhere in the district.

(2) Awning signs may not project beyond the surface of the awning or be lower than 10 feet above grade.

(3) Awning signs may not exceed six square feet in effective area.

(4) Awning signs must be located over a window or a door.

(5) Awning signs may not be backlit.

(d) Canopy signs.

(1) Canopy signs may be located anywhere in the district.

(2) Canopy signs may not:

   (A) exceed 75 percent of the length of the canopy facade to which it is attached;

   (B) project vertically beyond the canopy more than four feet;

   (C) project horizontally more than 12 inches from the surface of the canopy; or

   (D) be lower than 10 feet above grade.

(e) Flat attached signs.

(1) Except as provided in this division, a flat attached sign may be located anywhere in the district.

(2) The minimum distance between flat attached signs on a retail or mixed use premise is four feet.

(3) The maximum width of a flat attached sign on a retail or mixed use premise is 75 percent of the facade width.

(4) Flat attached signs on a retail or mixed use premise may not be located more than 20 feet from the ground.

(f) Projecting attached signs.

(1) Projecting attached signs may be located anywhere in the district.

(2) Projecting attached signs on a retail or mixed use premise may not:

   (A) exceed 20 square feet in effective area;

   (B) be lower than 10 feet above grade;

   (C) be closer than 15 feet to any other projecting attached sign on a retail or mixed use premise; or
(D) project vertically above 20 feet. (Ord. 28950)

SEC. 51A-7.2217. WINDOW DISPLAY SIGNS.

(a) Window display signs are permitted only on the ground floor of a retail or mixed-use premise in the Parkland Corridor.

(b) Window display signs may not cover more than 25 percent of the surface area of a window. (Ord. 28950)

SEC. 51A-7.2218. KIOSK SIGNS.

(a) A maximum of 10 kiosks are permitted in this district.

(b) Kiosks may not be illuminated by a detached, independent external light source.

(c) Kiosks may be changeable message signs.

(d) Kiosks must be spaced at least 50 feet apart.

(e) Kiosks must be securely anchored to the ground.

(f) Kiosks may not exceed 10 feet in height and 50 square feet in effective area. The display area for each sign on a kiosk may not exceed 20 square feet in effective area. (Ord. 28950)

SEC. 51A-7.2219. CONSTRUCTION BARRICADE SIGNS.

(a) Construction barricade signs may not be illuminated or contain any moving parts.

(b) Construction barricade signs must be removed when the construction barricade is removed.

(c) A construction barricade may be fully decorated with a graphic except that:

(1) no decoration or part of the graphic may project more than two inches horizontally from the barricade facade, or

(2) no decoration or graphic may project more than four feet vertically above the top of the barricade. (Ord. 28950)

SEC. 51A-7.2220. TEMPORARY SIGNS.

(a) Temporary signs may be externally or internally illuminated.

(b) Temporary signs may be attached or detached.

(c) Attached temporary signs may not exceed 125 square feet in effective area.

(d) Detached temporary signs may not exceed 25 square feet in effective area. (Ord. 28950)
Division 51A-7.2300.  
Southwestern Medical District Sign District.

SEC. 51A-7.2301. DESIGNATION OF SOUTHWESTERN MEDICAL SPECIAL PROVISION SIGN DISTRICT.

(a) A special provision sign district is hereby created to be known as the Southwestern Medical District Sign District.

(b) This district is that area within the boundaries described in Exhibit A attached to Ordinance No. 29392, passed by the Dallas City Council on June 25, 2014. (Ord. 29392)

SEC. 51A-7.2302. PURPOSE.

(a) The purpose of this division is to regulate both the construction of new signs and alterations of existing signs with a view towards enhancing, preserving, and developing the unique character of the Southwestern Medical District area while addressing the public’s need to locate and navigate to the multiple hospital and medical office entrances efficiently.

(b) The objectives of this division include those listed in Section 51A-7.101 as well as to:

(1) Create an aesthetically pleasing environment that cultivates a center for healthcare, education, biomedical research, and technology.

(2) Designate entries into this district.

(3) Communicate clear directions to, within, and through the district.

(4) Promote the goods and services available in this district.

(5) Ensure that the size and orientation of signs assist pedestrian and vehicular traffic.

(6) Enhance economic growth and community identity for local businesses and residents in the district.

(7) Ensure that significant architectural features and buildings within this district are not obscured by inappropriate signs.

(8) Identify and promote special events and cultural activities in this district.

(9) Identify and highlight key features, local amenities, corridors, and communities in and adjacent to this district. (Ord. 29392)

SEC. 51A-7.2303. DEFINITIONS AND INTERPRETATIONS.

In this division:

(1) BANNER means a sign attached to or applied on a strip of cloth, vinyl, metal, or similar material and attached to a building, pole, or structure. Canopy signs and flags are not banners.

(2) CHANGEABLE MESSAGE SIGN means a sign displaying static images that may display different designs, messages, or advertisements and that may include LED/LCD elements, slide lettering, slated rotating surfaces, or other changeable message technology.

(3) CONSTRUCTION BARRICADE SIGN means a sign that is affixed to a construction barricade.

(4) DISTRICT OR THIS DISTRICT means the Southwestern Medical District Sign District.

(5) EFFECTIVE AREA means the following:

(A) For a detached sign, the area within a minimum imaginary rectangle of vertical and horizontal lines that fully contains all extremities of the sign, excluding its supports. This rectangle is calculated from an orthographic projection of the sign viewed horizontally. The viewpoint for this projection...
that produces the largest rectangle must be used. If elements of the sign are movable or flexible, such as a flag or a string of lights, the measurement is taken when the elements are fully extended and parallel to the plane of view.

(B) For an attached sign, the sum of the areas within minimum imaginary rectangles of vertical and horizontal lines, each of which fully contains a word. If a design, outline, illustration, or interior illumination surrounds or attracts attention to a word, then it is included in the calculation of effective area.

(C) For signs placed on a fence, non-enclosing wall, planter, or other similar structure that is designed to serve a separate purpose other than to support the sign, the entire area of such structure is not computed, and the effective area is to be measured by the rule for effective area for attached signs.

(6) FLAT ATTACHED SIGN means an attached sign projecting 24 inches or less from a building, and with face parallel to the building facade.

(7) GATEWAY SIGN means a district entry monument sign that lets travelers know they are entering a distinct area within this district.

(8) GENERIC GRAPHICS mean a pattern of shapes, colors, or symbols that does not commercially advertise.

(9) GOVERNMENTAL TRAFFIC SIGN means a sign, signal, or other traffic control device installed by a governmental agency for the purpose of regulating, warning, or guiding vehicular or pedestrian traffic on a public roadway, including stop signs, one-way signs, no parking signs, and electronic pedestrian and vehicular signalization devices and their fixtures.

(10) LOGO means a graphic or emblem that is used to identify, symbolize, and promote an entity or organization.

(11) MEDICAL INSTITUTION means healthcare, medical, educational, and research facilities and destinations within this district that may have a helipad.

(12) MONUMENT SIGN means a detached sign applied directly onto a grade-level support structure (instead of a pole support) with no separation between the sign and grade.

(13) MOVEMENT CONTROL SIGN means a sign that must direct vehicular or pedestrian movement into or within this district and may include the name or logo of this district or of any premise within this district.

(14) PERMANENT SIGN means any sign that is not a temporary sign as defined in this section.

(15) PROMOTIONAL MESSAGE means a message that identifies, promotes, or advertises a cultural activity within this district, any event being conducted, in whole or in part, within this district, or any special event being conducted within this district.

(16) SIGN HARDWARE means the structural support system for a sign, including the fastening devices that secure the sign to a building facade or pole.

(17) SOUTHWESTERN MEDICAL DISTRICT IDENTIFICATION SIGNS means gateway signs, movement control signs, trailblazer signs, and district street topper signs that designate the boundaries of this district and guide people coming to medical institution destinations.

(18) SPECIAL EVENT means a special event as defined in Chapter 42A of the Dallas City Code.

(19) TEMPORARY SIGN means a sign erected for a limited time that identifies an event or activity of limited duration. Examples include signs advertising the sale or lease of property, construction activity in progress, or a special or other cultural event.
(20) TEXAS MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES means the latest publication of the Texas Manual on Uniform Traffic Control Devices published by the Texas Department of Transportation.

(21) TRAILBLAZER SIGN means a sign placed strategically to guide travelers to a particular destination within this district.

(22) VIDEOBOARD SIGN means a flat screen that is capable of displaying moving images similar to television images, by light-emitting diode or other similar technology, and that is mounted to the exterior of a building.

(23) WELCOME MESSAGE means a message that identifies and greets heads of state; foreign dignitaries; groups using city or county property in accordance with a contract, license, or permit; or government organizations. (Ord. 29392)

SEC. 51A-7.2304. SOUTHWESTERN MEDICAL DISTRICT IDENTIFICATION SIGN PERMIT REQUIREMENTS.

(a) In general. Except as provided in this subsection, a person shall not alter, place, maintain, expand, or remove a Southwestern Medical District identification sign in this district without first obtaining a sign permit. A sign permit is not required to:

(1) Change the text on a changeable message sign or a protective sign.

(2) Erect or replace a banner on a street pole using the existing sign hardware. A sign permit is required to install sign hardware for a banner.

(3) Erect a temporary sign that is less than 50 square feet in effective area.

(4) Erect a non-illuminated sign with an effective area of 20 square feet or less.

(5) Erect governmental traffic signs.

(b) Sign permit procedures.

(1) Except as provided in this subsection, the procedures for obtaining a sign permit using the director procedure in Section 51A-7.505(4) apply in this district.

(2) For each sign permit application, a sign plan is required and must include a:

(A) map of the district boundaries with existing and proposed Southwestern Medical District identification signs shown; and

(B) table with the cumulative number of the existing and proposed Southwestern Medical District identification signs tabulated.

(c) Review of application. The director shall review the application and approve or deny it within 30 days of its receipt.

(d) Appeals. Any interested person may appeal the decision of the director by submitting a written request for appeal to the director within 10 days of the decision. Within 30 days after receipt of the written request for appeal, the director shall schedule the appeal on a future city plan commission agenda. The city plan commission shall hold a public hearing to consider the appeal in accordance with Section 51A-7.505(6).

(e) Special event signs. Special event signs are governed by the special event permit regulations in Chapter 42A of the Dallas City Code. (Ord. 29392)

SEC. 51A-7.2305. IMITATION OF TRAFFIC AND EMERGENCY SIGNS PROHIBITED.

No person shall erect or maintain, or cause to be erected or maintained, any sign using any combination
of forms, words, colors, or lights that imitate standard public traffic regulatory or emergency signs or signals. (Ord. 29392)

SEC. 51A-7.2306. CREATION OF SITE.

Except for signs located wholly within the public right-of-way, the director shall not issue a permit for the construction, erection, placement, or maintenance of a sign until a site is established in one of the following ways:

(1) A lot is part of a plat that is approved by the city plan commission and filed in the plat records of Dallas County, Texas.

(2) Tracts that are governed by a detached sign unity agreement in accordance with Section 51A-7.213. (Ord. 29392)

SEC. 51A-7.2307. GOVERNMENT TRAFFIC SIGNS.

Nothing in this division shall be construed to regulate the display of a government traffic sign. (Ord. 29392)

SEC. 51A-7.2308. SIGNS WITHIN AND OVER THE PUBLIC RIGHT-OF-WAY.

(a) Signs may be located within or project over the public right-of-way, subject to the Texas Manual on Uniform Traffic Control Devices, the licensing and franchise requirements of Chapter XIV of the city charter, Article VI of Chapter 43 of the Dallas City Code, as amended, and the requirements of this section.

(b) The traffic engineer shall review and must approve the location in, projecting over, or overhanging the public right-of-way to ensure that the sign complies with the Texas Manual on Uniform Traffic Control Devices, other city ordinances and state laws, and will not pose a traffic or safety hazard or visibility obstruction.

(c) A minimum clearance over public right-of-way must be maintained in accordance with the Texas Manual on Uniform Traffic Control Devices.

(d) For signs in the right-of-way, if there is a conflict between the text of this division and the Texas Manual on Uniform Traffic Control Devices, the Texas Manual on Uniform Traffic Control Devices controls. (Ord. 29392)

SEC. 51A-7.2309. GENERAL PROVISIONS FOR ALL SIGNS.

(a) Except as provided in this division, signs must comply with the provisions for business zoning districts in Article VII.

(b) Signs may be illuminated by back lighting or indirect lighting.

(c) Neon or single incandescent bulbs are not allowed.

(d) Illuminated signs with an effective area of 500 square feet or less may not have a luminance greater than 300 foot lamberts, nor may any such sign have a luminance greater than 300 foot lamberts for any portion of the sign within a circle two feet in diameter. The measurements of luminance are taken from any other premise or from any public right-of-way other than an alley.

(e) Illuminated signs with an effective area greater than 500 square feet may not have a luminance greater than 200 foot lamberts, nor may any such sign have a luminance greater than 200 foot lamberts for any portion of the sign within a circle of two feet in diameter. The measurements of luminance are taken from any other premise or from any public right-of-way other than an alley.
§ 51A-7.2309 Dallas Development Code: Ordinance No. 19455, as amended § 51A-7.2311

(f) Changeable messages must follow the requirements of Section 51A-7.303(b).

(g) A sign or part of a sign may not move or rotate, with the exception of a wind device, the motion of which is not restricted.

(h) Signs are not allowed in a visibility triangle.

(i) The number of words allowed on a sign is not limited, unless otherwise restricted by the Texas Manual on Uniform Traffic Control Devices.

(j) All permanent signs must be premise signs, convey a noncommercial message, list the Southwestern Medical District name and logo, or the name of a hospital or medical or educational use.

(k) Fiberglass as a sign material is allowed.

(l) For detached signs, plastic is not permitted as an exterior face of a sign. Plastic may be used as a backing for routed letters in a sign can or as decorative ornaments.

(m) Except for helipad signs, signs may not be painted onto the roof of a building, and no flat attached sign is permitted on the roof of a building. (Ord. 29392)

SEC. 51A-7.2310. PROHIBITED SIGNS.

The following signs are prohibited in this district:

(a) Videoboard signs.

(b) Supergraphic signs.

(c) Streamers, pennants, and inflatable seasonal decorations. (Ord. 29392)

SEC. 51A-7.2311. SOUTHWESTERN MEDICAL DISTRICT IDENTIFICATION SIGNS.

(a) In general.

(1) A minimum setback is not required for Southwestern Medical District identification signs.

(2) Southwestern Medical District identification signs may be located within the public right-of-way in accordance with Section 51A-7.2308.

(3) Except for district street topper signs, Southwestern Medical District identification signs may be illuminated in accordance with the Texas Manual on Uniform Traffic Control Devices.

(4) Southwestern Medical District identification signs may contain changeable messages.

(b) Gateway signs.

(1) A maximum of 10 gateway signs are allowed.

(2) Gateway signs may not exceed:

(A) 150 square feet in effective area;

(B) 20 feet in height; and

(C) 8 feet in width.

(3) Gateway signs may only identify the name or logo of this district or an abutting special provision sign district.

(4) Gateway signs may be internally or externally illuminated.

(5) Gateway signs may be located within the right-of-way in accordance with Section 51A-7.2308.
§ 51A-7.2311 Dallas Development Code: Ordinance No. 19455, as amended § 51A-7.2312

(c) Movement control signs.

(1) In general.

(A) Movement control signs must be pole signs.

(B) Movement control signs may be located within or project over the public right-of-way in accordance with Section 51A-7.2308.

(C) Text size on movement control signs must comply with the Texas Manual on Uniform Traffic Control Devices.

(2) Large movement control signs.

(A) A maximum of 14 are allowed.

(B) Large movement control signs may have a maximum effective area of 270 square feet.

(C) Large movement control signs may not exceed three separate panels.

(3) Medium movement control signs.

(A) A maximum of 14 are allowed.

(B) Medium movement control signs may have a maximum effective area of 120 square feet.

(C) Medium movement control signs may only contain one panel.

(4) Small movement control signs.

(A) A maximum of 60 are allowed.

(B) Small movement control signs may have a maximum effective area of 80 square feet.

(C) Small movement control signs may only contain one panel.

(d) Trailblazer signs.

(1) Trailblazer signs may be a pole sign or mounted on existing traffic signal posts.

(2) Trailblazer signs may have a maximum effective area of 12 square feet.

(3) Trailblazer signs may only contain one panel.

(4) Trailblazer signs must comply with the minimum clearance over public right-of-way requirements in the Texas Manual on Uniform Traffic Control Devices.

(e) District street topper signs.

(1) District street topper signs must be mounted on a traffic control pole.

(2) District street topper signs may have a maximum effective area of 30 square feet.

(3) District street topper signs may only contain the name of this district.

(4) District street topper signs may not be internally illuminated. (Ord. 29392)

SEC. 51A-7.2312. BANNERS.

(a) Banners may be illuminated.

(b) A banner must display a promotional message, a welcome message, or generic graphics.

(c) No more than 10 percent of the effective area of a banner may contain a welcome message that identifies and greets a group using city property in accordance with a contract, license, or permit.

(d) To create uniformity throughout this district, banners should, on up to 10 percent of the effective area, contain the words or logos identifying a
§ 51A-7.2312 Dallas Development Code: Ordinance No. 19455, as amended

Southwestern Medical District cultural event or activity sponsor if the sponsor’s name is part of the name of the activity or event.

(e) A banner having a promotional message or a welcome message may not be erected for more than 90 days before the beginning of the advertised activity or event, and must be removed no later than 15 days after that activity or event ends. The sign hardware for a banner may be left in place between displays of a banner.

(f) Banners may be mounted to street light poles.

(g) Pole mounted banners are in addition to other signs allowed on a premise and the banner and its hardware must:

1. meet the sign construction and design standards in the Dallas Building Code;
2. be at least eight feet, but no more than 16 feet above grade;
3. not project more than three feet from the pole on which it is mounted;
4. not exceed eight square feet in effective area; and
5. be made out of weather-resistant and rust-proof material.

(h) Pole mounted banners are not limited in number.

(i) A sign permit is not required to erect or remove a pole mounted banner. (Ord. 29392)

SEC. 51A-7.2313. CONSTRUCTION BARRICADE SIGNS.

(a) A construction barricade sign may not be illuminated or contain any moving parts.

(b) A minimum 10 percent of the effective area of a construction barricade sign must display the names of the owner, occupant, medical institution located within this district, or the Southwestern Medical District name, brand, or logo.

(c) Except for traffic signs, construction barricade signs are not allowed in the public right-of-way.

(d) A construction barricade sign must be removed when the construction barricade is removed.

(e) A construction barricade may be fully decorated with a graphic, except that:

1. no decoration or part of the graphic may project more than two inches horizontally from the barricade; and
2. no decoration or graphic may project more than four feet vertically above the top of the barricade. (Ord. 29392)
ARTICLE VIII.
PLAT REGULATIONS.

Division 51A-8.100. Title and Purpose.

SEC. 51A-8.101. TITLE.

This article is known as the plat regulations of the city of Dallas. (Ord. Nos. 20092; 23384)

SEC. 51A-8.102. POLICY.

(a) It is the policy of the city of Dallas to subject the subdivision, platting, replatting, and development of land to the control of the city pursuant to the city charter, state law, and all other rules, regulations, and policies the city may adopt.

(b) To be platted, land must be of such character that it can be used safely for building purposes without danger to health or peril from fire, flood, or other menace.

(c) Land must not be platted until proper provision has been made for paving, drainage, water, wastewater, public utilities, capital improvements, parks, recreation facilities, and rights-of-way for streets, transportation facilities, and improvements.

(d) These regulations supplement and are intended to facilitate the enforcement of the provisions and standards of this code, state law, and all other rules, regulations, and policies which the city may adopt. (Ord. Nos. 20092; 23384)

SEC. 51A-8.103. PURPOSE.

The regulations of this article are established in accordance with the city charter and state law for the purposes stated in Section 51A-1.102 of this chapter and in order to:

(a) protect and provide for the public health, safety, and general welfare of the city;

(b) guide the future growth and development of the city;

(c) guide public policy and action in order to provide adequate and efficient transportation, streets, storm drainage, water, wastewater, parks, and open space facilities;

(d) provide for the proper location and width of streets and building lines;

(e) establish reasonable standards of design and procedures for platting in order to promote the orderly layout and use of land, and to insure proper legal descriptions and monumenting of platted land;

(f) insure that public infrastructure facilities required by city ordinance are available with sufficient capacity to serve the proposed plat before issuance of a certificate of occupancy or release of utility connections or final inspection within the boundaries of the plat;

(g) provide that the cost of public infrastructure improvements that primarily benefit the tract of land being platted be borne by the owners of the tract in accordance with applicable laws; and

(h) prevent the pollution of air, streams, and ponds by assuring the adequacy of drainage facilities and by safeguarding the escarpment, flood plains, and the water table. (Ord. Nos. 20092; 21186; 23384)

SEC. 51A-8.104. FUNCTION OF COMMISSION.

(a) Except administrative plats, the commission shall approve or disapprove plats, subdivisions, and replats of land within the corporate limits and extraterritorial jurisdiction of the city. If a plat conforms to this article, the state law, and all other rules and regulations pertaining to the platting of land, the commission shall endorse its approval upon the plat.
(b) The rules and regulations of the commission must provide for a subdivision review committee for the purpose of reviewing appeals of conditions recommended by the city staff, refusal to approve an administrative plat by the subdivision administrator, and appeals from the subdivision administrator regarding satisfaction of preliminary plat conditions. (Ord. Nos. 20092; 23384; 26529)

SEC. 51A-8.105. JURISDICTION.

This article applies to all plats, as defined in Division 51A-8.200, located within the corporate limits, and within the extraterritorial jurisdiction of the city to the full extent allowed by state law. (Ord. Nos. 20092; 23384)
accordance with Texas Local Government Code Section 212.016 that does not increase or decrease the number of lots.

(9) BARRIER-FREE SIDEWALK means a sidewalk designed using ramps, curb transitions, and additional sidewalk width to facilitate use by persons in wheel chairs.

(10) CERTIFICATE OF CORRECTION means an amending plat (minor) in the form of a document used to make a correction to a recorded plat in cases where a sketch is not needed for clarity, as determined by the subdivision administrator.

(11) COMMISSION means the city plan commission of the city of Dallas.

(12) CONDITIONS OF APPROVAL mean conditions imposed on a plat by the commission that must be satisfied before the subdivision administrator may submit a plat for endorsement by the commission chair.

(13) CORNER CLIP means an area consisting of the triangular extension of street right-of-way at intersections of streets. This area is used for curb returns, utilities, barrier-free ramps, and other public facilities.

(14) COVENANT means an agreement in writing that touches and concerns real property platted or developed under this chapter, executed as required by law, in which a party pledges that something shall be done or shall not be done. A covenant is binding on successors in title to the real property that is the subject of the covenant.

(15) CUL-DE-SAC means an area of circular pavement constructed at the end of a dead-end street to facilitate vehicular access and turnaround.

(16) DEAD-END STREET OR ALLEY means a street or alley having right-of-way or pavement that terminates abruptly at one end without intersecting another street.

(17) DETENTION AREA means an area which temporarily stores stormwater runoff and discharges that runoff at a reduced rate.

(18) DEVELOPER means the owner of the property or the person authorized by the owner to develop the property.

(19) DIVIDED THOROUGHFARE means a street on the thoroughfare plan with travel lanes divided by a median.

(20) DRIVEWAY means a private drive on private property used for vehicular access and maneuvering.

(21) DRIVEWAY APPROACH means a paved connection from a street to a driveway or access way.

(22) DUPLEX LOT means a lot in a duplex D(A) zoning district or a lot in an identifiable duplex component of a planned development district.

(23) ENGINEERING PLANS mean drawings and specifications, including paving, storm water drainage, water, wastewater, or other required plans, submitted to the department of sustainable development and construction or the water utilities department for review in conjunction with a plat.

(24) ESTATE IN EXPECTANCY means an interest in property that is not yet in possession, but the enjoyment of which is to begin at a future time.

(25) FINAL PLAT means a plat that will be signed by the commission chair upon satisfaction of all conditions of approval and all other requirements of this article, and will be effective once it is filed with the county clerk.

(26) FLOODWAY means a drainage area designated on a plat to accommodate the design flood as defined in Article V of this chapter.

(27) FLOODWAY EASEMENT means an easement dedicating a drainage area to the city for control and maintenance of a flood plain.
(28) FLOODWAY MANAGEMENT AREA means a drainage area dedicated in fee simple to the city for control and maintenance of a flood plain.

(29) INFRASTRUCTURE means all streets, alleys, sidewalks, storm drainage facilities, water and wastewater facilities, utilities, lighting, transportation, and any other facilities required by law to adequately serve and support development.

(30) MEDIAN OPENING means a gap in a median allowing vehicular passage through the median.

(31) MINOR PLAT means a plat that meets both of the following requirements:

(A) The area proposed for platting must not exceed five acres in size for residential zoning districts (single family, duplex, and townhouse) and three acres in size for all other zoning districts; and

(B) The proposed plat must not require any public infrastructure. For example: the plat may not contain any new streets or alleys; it must abut an approved public or private street of adequate width as specified in Section 51A-8.604(c) or the Thoroughfare Plan for the city of Dallas; adequate water, wastewater, paving, and drainage improvements must already exist to serve the proposed plat; and any existing improvements which are to remain must meet all setback requirements and must not be divided by a proposed lot line or setback line.

(32) MONUMENT means a permanent structure set on a line to define the location of property lines, important horizontal plat control points, and other important features on a plat.

(33) NONSTANDARD MATERIALS mean any materials not specified in the Standard Construction Details of the department of public works or the North Central Texas Standard Specifications for Public Works Construction of the North Central Texas Council of Governments.

(34) OPEN SPACE, IMPROVED means open space containing structures or improvements, including but not limited to hike and bike trails.

(35) OPEN SPACE, UNIMPROVED means open space containing no buildings, fences, or other structures above or below grade.

(36) OWNER means the fee simple owner of property, or the owner’s representative when authorized by a power of attorney, corporate resolution, or other appropriate document.

(37) PARKWAY means the area between the outside edge of street pavement and the street right-of-way lines abutting other public or private property.

(38) PERMANENT DEAD-END STREET means a street or alley which cannot or will not be extended to another street in the foreseeable future.

(39) PHASE means a portion of an approved preliminary plat that receives final plat approval and is developed before or during the time the owner submits the final plat on the remainder of, or on another phase of, the area shown on the preliminary plat.

(40) PLAT means the graphic presentation of one or more lots or tracts of land, or of a subdivision, resubdivision, combination, or recombination of lots or tracts.

(41) PLAT RELEASE means approval by a department to verify that those conditions of approval required by that department have been satisfied before the final plat is endorsed by the commission chair.

(42) PRELIMINARY PLAT means the initial plat proposed by the applicant, which is reviewed by city staff and presented by staff to the city plan commission for consideration. If the commission determines that approval subject to conditions is appropriate, the subdivision administrator ensures that those conditions are met before the plat is finalized for endorsement by the commission chair.
§ 51A-8.201  Dallas Development Code: Ordinance No. 19455, as amended

(43) PRIVATE DEVELOPMENT CONTRACT means a contract between a developer and a contractor for the construction of infrastructure that is to be dedicated to the public.

(44) PRIVATE STREET means a privately owned street that is required by this article to meet the same standards as a street dedicated to public use.

(45) REPLAT means a plat changing a previously approved and recorded plat that is not an amending plat (minor) or an amending plat (major).

(46) RESIDENTIAL REPLAT means a replat without vacation of the preceding plat for property: (a) any part of which was limited during the preceding five years by an interim or permanent zoning classification to residential use for not more than two residential units per lot; or (b) that contains a lot in the preceding plat that was limited by deed restrictions to residential use for not more than two residential units per lot.

(47) SIDEWALK means a paved area dedicated to the public for pedestrian use.

(48) SINGLE FAMILY LOT means a lot in a single family zoning district, or a lot in an identifiable single family component of a planned development district.

(49) STREET CENTERLINE OFFSET means the distance between the centerlines of two more or less parallel streets measured along the centerline of an intersecting street.

(50) SUBDIVISION means land included within the boundaries of an original plat, or any of the following for the purpose of creating a building site for land development or transfer of ownership:

(A) The division of property into two or more parts.

(B) The combination of lots or tracts into one or more parts.

(C) The redivision or recombination of lots or tracts.

(51) SUBDIVISION ADMINISTRATOR means the city staff employee designated by the city manager to supervise the platting and subdivision process.

(52) TEMPORARY DEAD-END STREET means a street that is planned to or can feasibly be extended in the foreseeable future to another street.

(53) TOWNHOUSE LOT means a lot in a townhouse TH(A) zoning district, or a lot in an identifiable townhouse component of a planned development district.

(54) TRAFFIC BARRIER means a physical barrier that prevents the indiscriminate and unauthorized crossing of traffic between a street or alley and a thoroughfare. Examples of traffic barriers include a series of posts connected by a cable or chain, a deep beam highway guard rail, or a New Jersey barrier-type wall on an engineered foundation.

(55) VACATION means the legal process by which unimproved, platted land, no part of which the city has accepted as a dedication for public use, may be returned to the legal status of being a parcel of unplatted land.

(56) WATER FACILITIES mean the infrastructure required to deliver potable water to property.

(57) WASTEWATER FACILITIES mean the infrastructure required to convey wastewater from property. (Ord. Nos. 20092; 21186; 23384; 24843; 26529; 28424; 30239; 30654)
Division 51A-8.300. RESERVED.
(Ord. 23384)

Division 51A-8.400. Procedures.

SEC. 51A-8.401. WHEN PLATTING IS REQUIRED.

Platting is required:

(a) To create a building site. Platting is required to create a building site pursuant to Section 51A-4.601(a)(1) of this chapter.

(b) To subdivide land. Platting is required to divide a lot or tract into two or more parcels for development of the parcels. Pursuant to the authority granted by Section 212.0045 of the Local Government Code to provide exceptions to state law platting requirements, the city of Dallas shall not require platting to divide property for transfer of ownership through a metes and bounds description unless and until a building permit is requested for the property to be developed as a separate building site. Unless a separate building site has otherwise been established as provided in Section 51A-4.601, a conveyance of property accomplished through a metes and bounds description without platting will not be recognized as a separate building site, nor will the lines of ownership be recognized for purposes of determining development rights on the parcel conveyed without platting.

(c) To combine lots or tracts. Platting is required to combine two or more lots or tracts into one lot.

(d) To amend a plat. Platting is required if property is to be developed in a manner inconsistent with an existing plat.

(e) To include vacated and abandoned property. Platting is required to incorporate property that has been vacated or abandoned into a legal building site.

(f) To correct errors. Platting is required to correct an error on an approved and recorded plat.
(g) To develop a planned development district. A preliminary plat must be submitted at the same time as the development plan for a planned development district. The subdivision administrator and the director shall coordinate the commission review of the preliminary plat and the development plan in accordance with Section 51A-4.702. (NOTE: If the property included in a development plan application has been previously platted or a building site otherwise exists under Section 51A-4.601, this requirement does not apply.)

(h) To establish a shared access development. Platting is required to establish a shared access development as provided in Section 51A-4.411. (Ord. Nos. 20092; 23384; 24270; 24731; 24843)

SEC. 51A-8.402. PLATTING OF STREET RIGHT-OF-WAY PROHIBITED.

Platting street right-of-way without platting adjacent property to be served by the street is prohibited unless the director of sustainable development and construction and the chief planning officer recommend platting the right-of-way because a graphic representation of the right-of-way is needed to facilitate thoroughfare or local street planning. (Ord. Nos. 20092; 22026; 23384; 28424; 29478, eff. 10/1/14)

SEC. 51A-8.403. PLATTING PROCESS.

(a) Plat approval process.

(1) Preliminary plat application. An applicant seeking approval of a plat or replat shall submit a preliminary plat application to the subdivision administrator on a form available at the subdivision administrator’s office. If the subdivision administrator determines that the application is complete, the subdivision administrator shall accept it and route it to all affected departments. If the subdivision administrator determines that the application is incomplete, the subdivision administrator shall return it to the applicant with a description of its deficiencies.

   (A) The preliminary plat application must include the following unless the subdivision administrator determines that an item listed is not applicable and may be omitted:

   (i) All required fees.

   (ii) The proposed layout of the plat legibly drawn on a sheet of paper which measures 24 inches by 30 or 36 inches. The plat must show the bearings and distances of the property, and must be drawn to a scale of one inch equals forty feet or the largest practical scale determined to be legible by the survey section of the department of sustainable development and construction. (Unless otherwise indicated, all words on a plat must be at least 10 characters per inch.)

   (iii) An arrow indicating north.

   (iv) A vicinity map showing all thoroughfares and existing streets within the two nearest intersecting arterials of the boundary of the plat.

   (v) The proposed name of the subdivision in bold, capital letters.

   (vi) The names, addresses, and telephone numbers of the surveyor performing or preparing the metes and bounds description of the property, and all owners and developers.

   (vii) The proposed boundaries of the property indicated with a bold, solid line, and other boundaries indicated with thinner lines.

   (viii) The proposed lot and block numbers, and the area of each lot in square feet.

   (ix) The location, purpose, and grantee of existing easements, and the citation to the volume and page of the county records where the recorded instrument may be found.
(x) The location and purpose of all proposed easements and common areas.

(xi) The layout and dimensions of proposed storm drainage areas and other areas offered for dedication to public use. If the combined on-site and off-site drainage area is less than one acre, this requirement may be waived by the director of sustainable development and construction if the impact of the drainage is not significant.

(xii) The layout of platted lots and unplatted parcels, streets, storm drainage facilities, water and wastewater facilities, public rights-of-way, and other pertinent features existing within a distance of 150 feet from the proposed boundary of the plat.

(xiii) The location and identification of any structure or improvement within the boundaries of the property to be platted, and any significant topographic features located on the property or within 150 feet of the boundaries of the property. Any of these items that are to be removed or altered must be identified on the plat.

(xiv) The general layout and dimensions of proposed streets and alleys, and proposed street names.

(xv) Contour lines indicating the terrain and drainage pattern of the area. Contour intervals must be five feet or less unless the director of sustainable development and construction determines that the slope of the land is less than 1 to 100 (vertical to horizontal). If the director of sustainable development and construction determines that the property being platted is fully developed, contour lines are not required.

(xvi) A copy of any specific use permit or planned development district ordinance regulating the property.

(xvii) A copy of any deed restrictions regulating the property in which the city of Dallas is an enforcing party.

(xviii) If the plat is a replat in accordance with Subsection (b)(1) or (2), a certified copy of the original subdivision of the area filed with the county clerk and a certified copy of the latest replat of the property filed with the county clerk.

(xix) A metes and bounds description of the property included in the plat, as well as all appropriate language of dedication and acknowledgment. Signatures are not required at the time of application.

(xx) If the property is located in the escarpment area or a geologically similar area, an escarpment permit is required at the time of application.

(xxi) The location, caliper, and name (both common and scientific) of all trees near proposed construction (trees in close proximity that all have a caliper of less than eight inches may be designated as a “group of trees” with only the number noted).

(xxii) A copy of the recorded deed reflecting current ownership and a copy of the title policy if title insurance is in place (if no title insurance is in place then a copy of the most recent property tax certificate must be provided). The ownership indicated in the owner’s certificate on the plat must match the deed exactly unless documentation is provided to explain any variation.

(xxiii) All requirements set forth in the survey division’s plat guidelines.

(xxiv) A copy of any regulating plan approved pursuant to Article XIII.

(xxv) The location of any open space required pursuant to Article XIII.

(xxvi) Any other information that the subdivision administrator deems necessary.
§ 51A-8.403 Dallas Development Code: Ordinance No. 19455, as amended

(2) **Staff review.**

(A) All affected departments shall review the preliminary plat application and forward their comments, in writing, to the subdivision administrator within 14 days after the date a complete application is received. (Holiday scheduling may require an extension of the review period.) The subdivision administrator shall formulate a staff recommendation from the comments received in the interdepartmental review process, and submit the plat to the commission within 30 days after the date a complete application is accepted by the city (unless it is an approved administrative plat and the applicant does not appeal any of the conditions). If the staff recommendation is for denial of the application, the subdivision administrator must provide the reasons for denial to the commission.

(B) The subdivision administrator shall approve an administrative plat within 18 days after the date a complete application is accepted by the city if the subdivision administrator finds that it complies with the policies and purposes of this article. If the subdivision administrator refuses to approve an administrative plat, the subdivision administrator shall refer the plat to the commission for consideration within 30 days after the date a complete application is accepted by the city. The subdivision administrator shall provide reasons for refusing to approve the plat to the commission.

(C) An applicant may appeal staff recommendations on an administrative plat or on any other plat to the subdivision review committee of the commission before the plat is considered by the commission, provided the request for appeal is made in sufficient time to allow staff and commission compliance with the 30-day action requirement and applicable posting and notice requirements.

(D) If, after city staff or commission review, it is determined that a minor plat does not comply with the minor plat definition, the application must be considered as a preliminary plat. The increase in fee must be paid before the application is processed.

(E) If, after city staff review, it is determined that an administrative plat does not comply with the administrative plat definition, if city staff refuses to approve an administrative plat, if the applicant appeals any administrative plat conditions, or if the subdivision administrator refers the plat to the commission, the application must be considered as a preliminary plat.

(3) **Commission action.** The commission must hold a public hearing for all replats, and act upon all plat applications, other than approved administrative plats where the conditions are not appealed, within 30 days after the date a complete application is accepted by the city. The commission shall approve the application if it finds that it complies with the policies and purposes of this article. If the commission denies an application, the reasons for denial must be stated in the motion for denial.

(4) **Effect of preliminary plat approval and effective period.**

(A) Approval of a preliminary plat by the commission or the subdivision administrator is not final approval of the plat, but is an expression of approval of the layout shown subject to satisfaction of specified conditions. The preliminary plat serves as a guide in the preparation of a final plat and engineering and infrastructure plans to serve the plat.

(B) All plats other than certificates of correction must be submitted for final staff review and approval by the subdivision administrator in the form of a final plat, except that the subdivision administrator may provide a certificate of approval for an administrative plat in accordance with Paragraph (8).

(C) If the perimeter boundary or any layout design element changes, or if, in the opinion of the subdivision administrator, any other feature or condition changes, the plat must be considered again as a preliminary plat by the commission or the subdivision administrator in the case of an administrative plat. If a replat must be considered...
again by the commission under this paragraph, new notices must be issued for a residential replat, and a new public hearing must be held.

(D) Except as provided in this subparagraph, a preliminary plat approved by the commission expires five years after the commission action date approving the plat if no progress has been made toward completion of the project in accordance with Texas Local Government Code Section 245.005. An approved minor plat, amending plat (minor), or an administrative plat expires two years after the commission action date approving the plat or within two years after the date of the subdivision administrator’s action letter approving the administrative plat if no progress has been made toward completion of the project in accordance with Texas Local Government Code Section 245.005.

(5) Action letter.

(A) Commission-approved plats. Within seven days after the commission action date, the subdivision administrator shall send an action letter to the applicant. If the commission denied the application, the letter must contain the reasons for denial. If the commission approved the application, the letter must contain all conditions of approval.

(B) Administrative plats. Within two days after the subdivision administrator approves an administrative plat, the subdivision administrator shall send an action letter to the applicant with all conditions of approval.

(6) Satisfaction of conditions required. The subdivision administrator shall endorse the administrative plat or submit the plat for endorsement pursuant to Paragraph (8) as soon as the owner has complied with the following requirements: (Any proposed change to a preliminary plat condition must be resubmitted to the commission as a preliminary plat.)

(A) All conditions to approval must be satisfied, including:

(i) On-site easements and rights-of-way must be properly described and noted on the proposed plat.

(ii) Off-site easements and rights-of-way must be dedicated by the respective owners and filed of record with the county.

(iii) All proposed easements and public right-of-way dedications created by the plat must be properly described by bearings and distances.

(iv) Approved language of easement and dedication must be stated on the final plat, executed, and properly acknowledged.

(v) All required licenses and railroad agreements must be executed by the owner, the railroad, utilities, and the city council.

(vi) All required abandonments of public rights-of-way or easements must be approved by the city council, and the abandonment ordinance numbers must be shown on the plat.

(vii) All required infrastructure plans must be approved.

(viii) All required private development contracts must be executed and approved.

(ix) All required covenants must be approved by the city and filed of record with the county.

(x) All monuments required in Section 51A-8.617 must be installed on the property.

(xi) The apportionment determination pursuant to Section 51A-1.109.

(B) All required fees must be paid.

(C) All taxes assessed by the city against the property must be paid.
(D) Releases must be secured by the applicant from the department of sustainable development and construction, the city controller, and the city attorney.

(E) The plat must be endorsed with properly acknowledged original signatures and seals of all owners of the property and surveyors.

(F) For a plat that includes dedication of any streets or alleys, the lienholder must provide a letter of consent subordinating the lienholder’s interest to the dedicated area, and if the owner has a title insurance policy for the platted area, the policy must be updated to within ninety days prior to the date the plat is signed by the commission chair. This provision does not apply to a residential replat that meets the criteria set forth for a minor plat.

(G) All plats other than minor plats must be provided to the chief city surveyor in an electronic format approved by the geographic information systems section of the department of sustainable development and construction.

(7) Appeal.

(A) Adverse decisions of the subdivision administrator regarding whether a preliminary plat condition has been satisfied may be appealed to the subdivision review committee by the applicant or by the owners, as ownership appears on the last approved ad valorem tax roll, of all lots that are:

(i) within the original subdivision; or

(ii) in single-family or duplex districts and within 200 feet of the lot or lots for which the replat is requested.

The appeal must be made in writing on a form furnished by the subdivision administrator.

(B) The subdivision review committee shall render a final decision on the appeal within 21 days after the date a complete application for an appeal is made.

(C) The decision of the subdivision review committee is final unless appealed by the applicant to the commission within 7 days after the date a final decision is made.

(8) Certificate of approval.

(A) Commission-approved plats. If the subdivision administrator determines that the applicant has satisfied all the conditions and requirements of Paragraph (6), the administrator shall immediately forward the final plat to the chair of the commission, who shall endorse the final plat with a certificate indicating approval of the plat. The secretary of the commission shall attest the signature of the chair on the certificate of approval and shall, within five working days, give notice to the applicant that the certificate of approval has been signed. Notice is given by depositing the notice properly addressed and postage paid in the United States mail. The notice must be sent to the address shown on the application.

(B) Administrative plats. If the subdivision administrator determines that the applicant has satisfied all the conditions and requirements of Paragraph (6), the administrator shall endorse the final plat with a certificate indicating approval of the plat. A notary public shall attest the signature of the administrator on the certificate of approval and the subdivision administrator shall, within five working days, give notice to the applicant that the certificate of approval has been signed. Notice is given by depositing the notice properly addressed and postage paid in the United States mail. The notice must be sent to the address shown on the application.

(9) Final plat.

(A) Commission-approved plats. A final plat may be submitted only after the commission action letter regarding the preliminary plat has been received by the applicant. If engineering plans are required as a condition of approval of a preliminary
plat, the final plat cannot be submitted until all engineering plans have been approved in accordance with Section 51A-8.404, to avoid the necessity of multiple submissions. All staff comments shall be forwarded to the subdivision administrator within 21 days of the routing date of the final plat. The director shall notify the applicant of the results of the review. If further modifications are required, the director may require additional submissions of the final plat and fees in accordance with the fee schedule.

(B) Administrative plats. A final plat may be submitted only after the subdivision administrator action letter regarding the administrative plat has been received by the applicant. All staff comments shall be forwarded to the subdivision administrator within 13 days after the final plat is submitted. The subdivision administrator shall notify the applicant of the results of the review. If further modifications are required, the subdivision administrator may require additional submissions of the final plat and fees in accordance with the fee schedule.

(10) Phasing of final plats. After a preliminary plat has been approved by the commission, a final plat may be submitted that includes less than all of the area shown in a preliminary plat if:

(A) the proposed phase conforms to the approved preliminary plat;

(B) the proposed phase meets all conditions of approval of the preliminary plat;

(C) the proposed phase provides a logical progression of development;

(D) the proposed phase being submitted could function as an independent development even if no other phases were ever submitted or approved;

(E) enough area remains outside the phase, but within the boundaries of the preliminary plat, to independently satisfy the minimum zoning requirements of the property;

(F) the area outside the phase has at least the minimum frontage required; and

(G) all fees have been paid in accordance with the fee schedule.

(b) Replatting.

(1) Replatting without vacating preceding plat. A replat of a subdivision or part of a subdivision that does not meet the amending plat (minor) criteria in Subsection 51A-8.403(c)(1)(A) and (B) may be recorded and is controlling without vacating the preceding plat if the replat:

(A) is signed and acknowledged by the owners of the property being replatted;

(B) is approved after a public hearing on the matter by the commission;

(C) does not amend or remove any covenants or restrictions; and

(D) meets all requirements of the plat approval process in Subsection (a).

(2) Residential replat. In addition to compliance with Paragraph (1), a residential replat without vacating the preceding plat must comply with the requirements of this subsection if:

(A) during the preceding five years, any of the area to be replatted was limited by an interim or permanent zoning classification to residential use for not more than two residential units per lot; or

(B) any lot in the preceding plat was limited by deed restrictions to residential use for not more than two residential units per lot.
(3) Notice and protest for a residential replat.

(A) Notice. Before the 15th day before the date of the public hearing, notice of the required public hearing on a replat must be:

(i) published in an official newspaper or a newspaper of general circulation in the county in which the municipality is located; and

(ii) mailed, along with a copy of the required provisions of state law, to the owners, as ownership appears on the last approved ad valorem tax roll, of all lots that are within 200 feet of the lot or lots for which the replat is requested, and are:

(aa) within the original subdivision;

(bb) in single-family, townhouse, or duplex districts; or

(cc) shown on the zoning map to be restricted to single-family, townhouse, or duplex use.

(B) Protest.

(i) In general. If the proposed replat requires a variance and the owners of at least 20 percent of the area of the lots or land immediately adjoining the area covered by the proposed replat and extending 200 feet from that area, but within the original subdivision, protest the replat in accordance with state law, the commission may approve the proposed plat only upon the affirmative vote of at least three-fourths of the members present of the commission. A protest must be filed with the commission before the close of the public hearing at which the plat is to be considered.

(ii) Form of protest. A protest must be in writing and, at a minimum, contain the following information:

(aa) A description of the property at issue by address or lot number.

(bb) The names of all persons protesting the proposed replat.

(cc) A description of the area of lots or land owned by the protesting parties that is immediately adjoining the area covered by the proposed replat and extending 200 feet from that area, but within the original subdivision.

(dd) The mailing addresses of all persons signing the protest.

(ee) The date and time of its execution.

(ff) The protest must bear the original signatures of all persons required to sign under this paragraph.

(C) Who must sign.

(i) A protest must be signed by the owner of the property in question, or by a person authorized by power of attorney to sign the protest on behalf of the owner. If the property is owned by two or more persons, the protest must be signed by a majority of the owners, or by a person authorized by power of attorney to sign the protest on behalf of a majority of the owners, except that in the case of community property, the city shall presume the written protest of one spouse to be the protest of both.

(ii) In the case of property owned by a corporation, the protest must be signed by the president, a vice president, or by an attorney in fact authorized to sign the protest on behalf of the corporation. In the case of property owned by a general or limited partnership, the protest must be signed by a general partner or by an attorney in fact authorized to sign the protest on behalf of the partnership.

(iii) Lots or land subject to a condominium regime are presumed to be commonly...
owned in undivided interests by the owners of all condominium units and under the control of the governing body of the condominium. For such lots or land to be included in calculating the lots or land area protesting a replat, the written protest must state that the governing body of the condominium has authorized a protest in accordance with procedures required by its bylaws, and that the person signing the protest is authorized to act on behalf of the governing body of the condominium. A written protest signed by the owner of an individual condominium unit shall not be accepted unless the filing party produces legal documents governing the condominium which clearly establish the right of an individual owner to act with respect to his or her respective undivided interest in the common elements of the condominium.

(D) When signatures must be acknowledged.

(i) Except as otherwise provided in this subparagraph, all signatures on a written protest must be acknowledged before a notary public.

(ii) A signature on an original reply form sent by the city to the mailing address of the property owner need not be acknowledged.

(iii) A signature on a protest delivered in person by the person signing need not be acknowledged if its reliability is otherwise established to the satisfaction of the subdivision administrator. In such a case, a summary of the evidence of reliability considered by the subdivision administrator must be endorsed on the protest by the subdivision administrator.

(E) Presumptions of validity.

(i) In all cases where a protest has been properly signed pursuant to this paragraph, the city shall presume that the signatures appearing on the protest are authentic and that the persons or officers whose signatures appear on the protest are either owners of the property or authorized to sign on behalf of one or more owners as represented.

(ii) In cases of multiple ownership, the city shall presume that a properly signed protest, which on its face purports to represent a majority of the property owners, does in fact represent a majority of the property owners.

(iii) The presumptions in this subparagraph are rebuttable, and the city attorney may advise the commission that a presumption should not be followed in a specific case based on extrinsic evidence presented.

(F) Conflicting instruments. In the event that multiple protests and withdrawals are filed on behalf of the same owner, the instrument with the latest date and time of execution controls.

(c) Administrative plat process.

(1) Delegation of authority to subdivision administrator. The subdivision administrator may approve the following administrative plats as authorized by Texas Local Government Code Section 212.0065(a)(1) and (2) and this article:

(A) An amending plat (minor) that is filed only for one or more of the following:

(i) To correct an error in a course or distance shown on the preceding plat.

(ii) To add a course or distance that was omitted on the preceding plat.

(iii) To correct an error in a real property description shown on the preceding plat.

(iv) To indicate monuments set after the death, disability, or retirement from practice of the engineer or surveyor responsible for setting monuments.

(v) To show the location or character of a monument that has been changed in location or character or that is shown incorrectly as to location or character on the preceding plat.
(vi) To correct any other type of scrivener or clerical error or omission previously approved by the municipal authority responsible for approving plats, including lot numbers, acreage, street names, and identification of adjacent recorded plats.

(vii) To correct an error in courses and distances of lot lines between two adjacent lots if:

(aa) both lot owners join in the application for amending the plat;

(bb) neither lot is abolished;

(cc) the amendment does not attempt to remove recorded covenants or restrictions; and

(dd) the amendment does not have a material adverse effect on the property rights of the other owners in the plat. In this provision, material adverse effect means a significant and unwanted or negative result on the property rights of other owners in the plat.

(B) An amending plat (minor) that is not in a residential district and that is filed only for one or more of the following:

(i) To relocate a lot line to eliminate an inadvertent encroachment of a building or other improvement on a lot line or easement if the amendment does not increase or decrease the number of lots.

(ii) To relocate one or more lot lines between one or more adjacent lots if:

(aa) the owners of all those lots join in the application for amending the plat;

(bb) the amendment does not attempt to remove recorded covenants or restrictions; and

(cc) the amendment does not increase or decrease the number of lots.

(iii) To replat one or more lots fronting on an existing street if:

(aa) the owners of all the lots join in the application for amending the plat;

(bb) the amendment does not attempt to remove recorded covenants or restrictions;

(cc) the amendment does not increase or decrease the number of lots; and

(dd) the amendment does not create or require the creation of a new street or make necessary the extension of municipal facilities.

(C) A minor plat involving four or fewer lots fronting on an existing street, that is not in a residential district, and that does not require the creation of any new street or the extension of municipal facilities.

(2) A certificate of correction may be used to make the corrections listed in Subparagraph (1)(A), unless the subdivision administrator determines that a sketch is needed for clarity, in which case an amending plat must be submitted. A certificate of correction must be certified by a registered professional surveyor in a form approved by the chief city surveyor.

(3) Except as provided in this subsection, notice, a hearing, and the approval of other lot owners are not required for the approval and issuance of an administrative plat.

(d) Vacation plat.

(1) Any plat may be vacated upon application of the owners of the land in accordance with state law and this article.

(2) A vacation plat must be approved by the commission.
(3) An approved vacation plat must be recorded with the vacated plat and operates to destroy the effect of recording the vacated plat and to divest all public rights to the streets, alleys, and other public areas laid out or described in the vacated plat.

(4) Vacation of a park is prohibited unless approved as required by state law. (Ord. Nos. 20092; 21186; 22053; 22026; 23384; 25047; 26529; 26530; 27495; 28073; 28424)

SEC. 51A-8.404. ENGINEERING PLAN APPROVAL PROCEDURE.

(a) Generally. A person seeking approval of engineering plans for infrastructure must not submit those plans until a preliminary plat has been approved for the property which the infrastructure is to serve. After approval of the preliminary plat, plans for the infrastructure must be submitted to the department. The director shall review the plans submitted under this section for completeness.

(b) Contents of engineering plans. Plans submitted must include the following:

(1) All required fees.

(2) A completed private development checklist on a form provided by the department. The form must be signed by the professional engineer responsible for the plans.

(3) A completed fee receipt on a form approved by the director.

(4) Two blueline prints of the approved preliminary plat.

(5) Two sets of infrastructure plans.

(6) A copy of any specific use permit or planned development district ordinance regulating the property.

(7) A copy of any deed restrictions regulating the property in which the city of Dallas is an enforcing party.

(c) Staff review of engineering plans. All affected divisions of the department shall review the engineering plans against the established criteria and forward their comments to the director. Changes or corrections in the design or right-of-way requirements must be itemized and forwarded, in writing, to the responsible engineer and the owner as those persons are reflected on the private development checklist.

(d) Required off-site easements. If off-site easements or rights-of-way are required to accomplish the construction shown in the engineering plans, field notes describing the easements or rights-of-way, sketches showing the required easements or rights-of-way, copies of recorded deeds for all affected property, and agreements from the owners of the off-site property must be submitted before approval of the plans. The agreements are acceptable only if they are from the current owners and were executed less than one year before the time they are submitted.

(e) Infrastructure plans approval. Upon approval of the infrastructure engineering plans, the applicant shall be notified by the director and advised of the documents needed to secure a final release from the department.

(f) Extension of infrastructure plan approval. An extension of the approval of the street paving, storm drainage, bridge, and culvert plans will be considered upon a formal request by the owner to the director of sustainable development and construction. Six-month extensions may be granted only if the conditions surrounding the plat, as well as the standards, criteria, and requirements listed in Section 51A-8.601 do not require a redesign of the infrastructure improvements. (Ord. Nos. 20092; 23384; 25047; 28073; 28424)
SEC. 51A-8.405. APPORTIONMENT OF EXACTIONS AND PARK LAND DEDICATION.

(a) See Section 51A-1.109 for regulations and procedures concerning apportionment of exactions.

(b) See Division 51A-4.1000 for regulations and procedures concerning park land dedication. (Ord. Nos. 26530; 30934, eff. 7/1/19)

Division 51A-8.500. Subdivision Layout and Design.

SEC. 51A-8.501. COMPLIANCE WITH ZONING.

(a) Except as otherwise provided in Subsection (c), all plats must be drawn to conform to the zoning regulations currently applicable to the property. If a zoning change is contemplated for the property, the zoning change must be completed before the approval of any final plat of the property. A plat submission reflecting a condition not in accordance with the zoning requirements must not be approved by the commission until any available relief from the board of adjustment has been obtained.

(b) Except as otherwise provided in Subsection (c), no plat or replat may be approved which leaves a structure located on a remainder lot.

(c) Subsections (a) and (b) do not apply to a parcel, lot, or remainder lot that constitutes or is a part of a building site established pursuant to Section 51A-4.601(a)(5), (6), or (7) of this chapter. (Ord. Nos. 20092; 23384; 25809)

SEC. 51A-8.502. DESIGNATION OF ABANDONED, FRANCHISED, OR LICENSED PROPERTY.

(a) Indication of abandonment. Any abandoned public right-of-way that is to be incorporated into a platted lot must be indicated by a dashed line on the plat. The ordinance number for the ordinance abandoning the property must be reflected on the plat. Incorporation of property improperly abandoned is prohibited.

(b) Indication of franchise or license. Any franchise or license agreements affecting the property must be indicated on the plat.
(c) **Estate in expectancy.** Any property dedicated to the city as an estate in expectancy must be clearly indicated graphically, and labeled on the plat.

(d) **Revocation of offer to dedicate through platting.** Property previously offered for public dedication by the filing of a plat but not developed in any manner may be revoked through the filing of a replat of the property or a vacation plat if:

1. the dedicated property was never used for the public purpose indicated on the plat dedicating the property or for utility or communication facilities; and

2. no formal acceptance of the dedication was made by the city council or any city department.

(Ord. Nos. 20092; 23384)

**SEC. 51A-8.503. LOTS.**

(a) **Lot size.** The area of each platted lot must comply with the minimum regulations for the zoning district in which the lot is located. Lots must conform in width, depth and area to the pattern already established in the adjacent areas, having due regard to the character of the area, its particular suitability for development, and taking into consideration the natural topography of the ground, drainage, wastewater facilities, and the proposed layout of streets.

(b) **Frontage.**

1. All lots must front upon either a dedicated public street or a private street, unless this requirement is waived by an ordinance establishing a planned development district in which adequate access is provided by access easement. Platted lots may front upon a private street only if that street has been approved in accordance with the requirements of this chapter.

2. For the purposes of this subsection:

(A) the frontage of a lot is the length of the lot’s intersection with a public or private street right-of-way line; and

(B) all of the property in a shared access development is considered to be one lot.

3. Except in planned development districts, the minimum frontage requirement is 10 feet. The minimum frontage requirement for a planned development district is 10 feet unless otherwise provided in the ordinance establishing the district.

4. If four or more single family, townhouse, and duplex lots share a private driveway, a private driveway easement must be provided. The private driveway easement must provide a minimum access width of 20 feet with a flare to 30 feet at its intersection with the curb line of a minor street, and a flare to 40 feet at its intersection with the curb line of a thoroughfare. The private driveway access easement need not be exclusive to a particular lot, but must be indicated on the plat, and must have direct access to a dedicated public street or a private street approved in accordance with this chapter. No more than four lots may share a private driveway access easement unless, upon recommendation from the director and the chief planning officer, the commission finds that the extraordinary topography or shape of the property unduly limits the development potential of the property, and that the proposed development is consistent with the spirit and intent of this chapter. The shared access area in a shared access development is not subject to this paragraph.

5. Single family, duplex, or townhouse lots having frontage on two opposite sides are prohibited unless the commission finds that this design is essential to provide proper orientation of residential lots to thoroughfares. Shared access developments may have frontage on two opposite sides.

(c) **Residential access to thoroughfares.** Where single family, townhouse, or duplex lots abut a divided
thoroughfare, driveway access to the thoroughfare is prohibited unless, upon recommendation of the director and the chief planning officer, the commission finds that the extraordinary topography or shape of the property unduly limits the development potential of the property, and the proposed development is consistent with the spirit and intent of this chapter. If the commission permits access under this subsection, the traffic barrier otherwise required in Section 51A-8.618 is waived.

(d) Municipal boundary lines. Plats divided by municipal boundary lines must be approved by the appropriate body of each affected municipality to be effective. Any building permit issued based on a plat divided by a municipal boundary line is void if the requisite approval has not been obtained.

(e) Lot lines and existing structures.

(1) No plat may be approved if an existing improvement on the property would encroach upon a proposed lot line or setback line, unless the existing improvement is to be removed or relocated, or unless the encroachment is authorized by the Dallas Building Code.

(2) No plat may be approved if the location of a proposed lot line would create a structure not in strict compliance with the Dallas Building Code, as amended, or the Dallas Development Code, as amended, unless the existing structure is to be removed, relocated, or altered to comply.

(3) Notwithstanding Paragraphs (1) and (2), dedications for public infrastructure may be accomplished even if a structure encroaches, provided appropriate language is executed to convey an estate in expectancy. (Ord. Nos. 20092; 21186; 23384; 24731; 25047; 28073; 29478, eff. 10/1/14)

SEC. 51A-8.504. BLOCKS.

(a) Block length. Block lengths in plats for single family lots should not exceed 1200 feet measured from block corner to block corner. The length may be extended if, upon recommendation from the director and the chief planning officer, the commission finds that the extraordinary topography or shape of the property unduly limits the development potential of the property, and that the proposed development is consistent with the spirit and intent of this chapter.

(b) Other considerations. Block length and width must be designed to accommodate the type of use anticipated and must provide for safe and convenient access and circulation. Block design must take into account the physical characteristics of the topography. (Ord. Nos. 20092; 23384; 25047; 28073; 29478, eff. 10/1/14)

SEC. 51A-8.505. BUILDING LINES.

(a) Building lines that establish a minimum front, side, or rear yard setback greater than the current zoning setback requirements, building lines for lots that border a natural creek channel, and building lines established by Section 51A-4.401(a)(3) must be shown on the plat.

(b) A building line may establish a minimum front, side, or rear yard setback greater than the minimum front yard setback required by zoning regulation only if the building line is part of a plan for the orderly development of a subdivision. Except as provided in Section 51A-8.510, a building line may not establish a minimum front, side, or rear yard setback less than the minimum front, side, or rear yard setback required by zoning regulation. The building line for lots that border a natural creek channel must provide the setback required by Section 51A-5.106. No other building lines may be shown on the plat.

(c) If an existing platted building line establishes a minimum front, side, or rear yard setback greater than the minimum front, side, or rear yard setback required by zoning regulation, relief from the platted building line must be sought through a replat submitted to the commission. The commission may approve a relocation or removal of the platted building...
§ 51A-8.505 Dallas Development Code: Ordinance No. 19455, as amended § 51A-8.506

line with a minimum front, side, or rear yard setback greater than required by zoning regulation only:

(1) upon the affirmative vote of at least three-fourths of the commission members present; and

(2) if the commission finds that relocation or removal of the platted building line will not:

(i) require a minimum front, side, or rear yard setback less than required by zoning regulation;

(ii) be contrary to the public interest;

(iii) adversely affect neighboring properties; and

(iv) adversely affect the plan for the orderly development of the subdivision.

(d) If relief is sought from the minimum front, side or rear yard setback required by zoning regulation, approval must be obtained from the board of adjustment.

(e) A building line platted and recorded prior to December 13, 2006, indicating that a front yard setback has been reduced remains enforceable. Removal of the platted building line may be sought through a replat that complies with this section.

(f) The subdivision administrator may not approve an administrative plat that adds, moves, or removes a building line. (Ord. Nos. 20092; 23384; 26529; 26531)

SEC. 51A-8.506. STREET LAYOUT.

(a) Generally. Streets must be designed in relation to the thoroughfare plan, existing and proposed streets, the terrain, streams, and other physical conditions. The arrangement of streets must provide for the continuation of streets between adjacent properties when the continuation is necessary for the safe and efficient movement of traffic, or for utility efficiency. Minor streets should be oriented in a manner that discourages their use by through traffic, and to allow efficient drainage systems, utility systems, and general street improvements. All streets must be designed and constructed in accordance with this section and Section 51A-8.604.

(b) Dead-end streets.

(1) Temporary dead-end streets. If adjacent property is undeveloped and a street must terminate temporarily, the right-of-way must extend to the boundary of the plat. When a temporary dead-end street is shown on a plat, a temporary circular or “T” shaped turnaround must be provided and shown as an easement on the subdivision plat, and must be indicated on the plat by dotted lines. No turnaround is required if the street is 150 feet or less in length, measured from the intersection of the street right-of-way lines with the subdivision boundary to the street’s intersection with a through street. All temporary turnarounds are subject to approval by the director.

(2) Permanent dead-end streets.

(A) Except as otherwise provided in this paragraph, if a permanent dead-end street is created within a proposed plat, a circular turnaround or other approved turnaround must be provided. The minimum radius for the circular turnaround is 50 feet for the right-of-way and 43.5 feet for the pavement measured to the back of the curb. The length of permanent dead-end streets must not exceed 600 feet, measured along the centerline from the block corner to the center of the cul-de-sac. The length of a permanent dead-end street may be extended upon recommendation of the director and the chief planning officer if they find that the extraordinary topography or shape of the property unduly limits the development potential of the property, and that the proposed development is consistent with the spirit and intent of this chapter.

(B) A waiver to the requirement of a turnaround for a dead-end street may be obtained
§ 51A-8.506 Dallas Development Code: Ordinance No. 19455, as amended

from the director and the chief planning officer only upon their determination that a turnaround is not needed to serve the traffic on the street or otherwise needed to protect the public interest.

---

(c) Intersections. The following regulations govern the alignment of intersections:

(1) All streets must intersect as close to a right angle as permitted by topography or other natural physical conditions. A street must not intersect with another street or railroad at an angle of more than 105 degrees or less than 75 degrees.

(2) The intersection of two streets must not be located within 115 feet of a railroad right-of-way if one of the streets crosses the railroad right-of-way at grade. This 115 foot separation is measured from the nearest point of the intersection of the street right-of-way and the nearest point of the railroad right-of-way.

(3) A driveway or alley approach must not be located within 50 feet of a railroad right-of-way.

(4) An intersection must not have more than four street approaches.

(5) Proposed intersections along one side of an existing cross street must, wherever practical, align with existing intersections on the opposite side of the cross street. Street centerline offsets of less than 150 feet are not permitted unless the cross street is divided by a median without openings at either intersection.

(6) If served by a median opening, minor streets that intersect divided thoroughfares must be spaced at least 360 feet apart, measured from centerline to centerline unless otherwise approved by the traffic engineer.

(d) Private streets. If a private street is indicated in the street layout, it must be designed and constructed in accordance with this section and Section 51A-8.604.

(e) Street names. The naming of public or private streets created through the platting process is the responsibility of the applicant. Street names must
conform to the standards for street names contained in Division 51A-9.300 of this chapter. All proposed street names must be reviewed by the fire department, the department of sustainable development and construction, and the police department before consideration by the commission. (Ord. Nos. 2009-2; 21186; 23384; 25047; 28073; 28424; 29478; eff. 10/1/14; 31314)

SEC. 51A-8.507. ALLEYS.

(a) When required. Alleys are required only in residential zoning districts, and then only when required under Section 51A-8.604 based on accommodation of street pavement width and zoning density. Alleys must provide continuous vehicular access regardless of zoning.

(b) Regulations. All alleys must meet the following standards:

(1) Alleys must have a minimum right-of-way of 15 feet in width.

(2) Alley right-of-way must not exceed 20 feet in width.

(3) Alleys must consist of at least 10 feet of pavement.

(4) Permanent dead-end alleys are not allowed unless all access is prohibited between the alley and public rights-of-way. Alleys must either intersect with a dedicated public or private undivided street or an existing alley. If a dead-end alley is shown on a proposed plat, an approved turnaround must be provided unless a waiver is obtained from the director and the chief planning officer. A waiver is permitted only if the director and the chief planning officer determine a turnaround is not necessitated by the amount of traffic on the alley, nor otherwise needed to protect the public interest.

(5) Alleys must function without reliance on fire lanes or access easements. An alley must provide vehicular access from a dedicated public right-of-way or easement to another dedicated public

10/18 Dallas City Code 755
right-of-way along pavement which is all within dedicated public right-of-way.

(6) Alleys adjoining and parallel to divided thoroughfares must be separated from the thoroughfare by a traffic barrier in accordance with Section 51A-8.618 of this article.

(7) Dedications for an alley are required as provided in Section 51A-8.604(c). Where an alley intersects a street, a 15-foot visibility triangle (alley sight easement) is required. Measurements are taken along the property line.

(8) Alleys must be designed and constructed according to the requirements of the Paving Design Manual and the Standard Details for Public Works Construction of the department of public works.

(c) Private alleys. If a private alley is indicated, it must be designed and constructed in accordance with all of the requirements in this section, and must be labeled as a private alley on the proposed plat. Easements for utilities and franchises must be dedicated in private alleys under the same circumstances and in the same manner as required for private streets pursuant to Section 51A-8.610. (Ord. Nos. 20092; 23384; 25047; 28073; 28424; 29478; 30239; 30654; 31314)

SEC. 51A-8.508. PARKS AND COMMON AREAS.

(a) Generally. If any portion of property subject to a plat application qualifies as a prospective park site pursuant to the standards and guidelines contained in the Long Range Physical Plan for Park and Recreational Facilities, the director of parks and recreation must be notified and given an opportunity to negotiate for the acquisition of the property by the city before a final plat is approved. If the applicant elects to make a commitment to sell that portion of the property to the city, he may designate the portion as a reservation for park use if the following requirements are met:

(1) The portion is of a suitable size, dimension, topography, and general character for its intended purpose.

(2) Adequate access to the portion is provided.

(3) The dimensions of the portion are clearly identified on the plat.

(4) Any development shown on the portion complies with the standards of the park and recreation department.

(b) Proper access. Land reserved for recreation sites and parks is considered to have proper access and visibility if:

(1) the property has frontage of at least 100 feet on an improved public street; or

(2) the property has a high degree of visibility and has paved public vehicular access to an improved public street. The paved access must be at least 20 feet in width and must comply with the construction standards of the department of public works.

(c) Utilities. Water, wastewater, and electrical facilities must be provided to the perimeter of the site.

(d) Common areas. Areas retained in private ownership but intended for the benefit of the owners of lots in the plat must be shown as common areas on the plat. A permanent maintenance plan must be approved for the area before release of the final plat. (Ord. Nos. 20092; 23384; 28424; 30239; 30654)

SEC. 51A-8.509. FIRE AND POLICE ACCESS.

(a) Generally. The layout design of a plat must take into consideration the provision of adequate fire and police access.
(b) **Water supply.** Provisions must be made for the extension of water lines and the appropriate placement of fire hydrants as required by the department before approval of the final plat. (Ord. Nos. 20092; 23384; 25047; 28073)

**SEC. 51A-8.510. COMMUNITY UNIT DEVELOPMENT.**

To encourage reasonable flexibility of design and arrangement in the development of residential communities in residential zoning districts, the following provisions are made for the approval of community unit developments ("CUD’s"):  

(a) A CUD must be submitted for approval to the commission as a subdivision.

(b) A CUD must comply with the maximum lot coverage or density requirements for the district in which it is located. For purposes of calculating maximum lot coverage in a CUD, the calculation is made using either the actual size of the lot or the minimum lot area specified for the zoning district in which the lot is located, whichever is greater.

(c) The minimum lot area of any lot within the CUD may be reduced by an amount not to exceed 25 percent of the minimum lot area for the zoning district in which the CUD is located. Any reduction in minimum lot area must be compensated proportionally on a square foot for square foot basis by the establishment of permanent community open space to serve the property being platted. If five percent or more of the community open space is unimproved and in a flood plain (as defined in Article V), the minimum lot area may be reduced by up to 30 percent.

(d) Front yard, side yard, and rear yard requirements may be uniformly reduced on all lots and must establish a uniform pattern within the boundaries of the property being platted. The reduction in front yard, side yard, and rear yard must not exceed the total percentage reduction of lot area within the boundaries of the property being platted.

(e) The CUD must not be used to increase the number of lots which could normally be accommodated by the size of the site.

(f) The CUD provisions are not applicable to property located in a planned development district.

(g) Open space provided in a CUD must be approved as appropriate for its intended purpose by the director and the chief planning officer. The open space area must be within 1320 feet, measured radially, of any residential lot that is reduced in size in accordance with Subsection (c) of this section.

1. **Unimproved open space:**
   
   (A) may extend into floodway easements or floodway management areas;

   (B) must be indicated on the plat with a prohibition of structures and parking areas; and

   (C) must have a minimum of 10,000 square feet.

2. **Improved open space:**

   (A) must not extend into floodway easements or floodway management areas unless the proposed improvements are in compliance with Division 51A-5.100 of this chapter; and

   (B) must be developed in accordance with a site plan approved by the city council after recommendation by the commission. The site plan must include the location and dimensions of all improvements and structures planned for the open space.

(h) A maintenance agreement for the open space area must be provided in a community unit development. The agreement must be approved as to form by the city attorney and executed by the owner(s) or homeowners’ association. (Ord. Nos. 20092; 22053; 22150; 23384; 25047; 28073; 29478)
SEC. 51A-8.511. CONSERVATION EASEMENT.

(a) The owner of the property to be platted may provide an easement on all or part of the property to conserve trees and other natural features, subject to acceptance by the city, to the city or jointly to the city and a nonprofit association dedicated to the conservation of land. Before the city may consider accepting the easement, or consider approving the acceptance of an easement with a nonprofit association as the joint grantee of a conservation easement, the owner shall provide the building official with a list of the protected trees by name (both common and scientific) and caliper or an estimate thereof calculated and documented in a manner approved by the city arborist, written consent by any lienholder of the property to subordination of the lienholder’s interest to the conservation easement area, and a preservation strategy for the easement. The grantee of a conservation easement, if not the city, should be an eligible grantee such that the grantor will have the option of receiving a property tax benefit on the assessed value of the conservation easement area. The conservation easement area should be accessible to the public for walking, upon trails if the area exceeds 30 acres, unless this activity poses a risk to endangered species.

(b) The easement must be approved by the building official and approved as to form by the city attorney.

(c) The owner may offer a conservation easement to the city through the city arborist, or to a nonprofit association approved by the city (a list of such associations may be obtained from the city arborist). (Ord. Nos. 22053; 23384; 24843)

SEC. 51A-8.512. SHARED ACCESS DEVELOPMENT.

See Section 51A-4.411 for regulations concerning shared access developments. (Ord. 26333)
§ 51A-8.601 Dallas Development Code: Ordinance No. 19455, as amended

---

(10) The Dallas Central Business District Pedestrian Facilities Plan.

(13) All other codes and ordinances of the city of Dallas.

(b) All street paving, storm drainage, bridge, and culvert design and construction must conform to the standards, criteria, and requirements of the following, as they may from time to time be amended by those responsible for their promulgation, except that the design criteria in effect on the date the commission approves the preliminary plat must be used to design the infrastructure:

(1) The Thoroughfare Plan for the city of Dallas.

(3) The Long Range Physical Plan for Parks and Recreational Facilities.

(4) The Street Design Manual of the city of Dallas.

(5) The storm drainage policy of the city of Dallas.

(7) The Plan Development Checklist of the department.

(8) The Standard Construction Details of the department of public works.

(10) The Dallas Central Business District Pedestrian Facilities Plan.

---

(11) The most recently adopted Dallas Bike Plan.

(13) All other codes and ordinances of the city of Dallas.

(c) If the infrastructure construction is not included in a city-approved private development contract within two years from the preliminary plat approval date, then the infrastructure must be redesigned using the most current criteria. (Ord. Nos. 20092; 21186; 23384; 25047; 28073; 28424; 30239; 30654; 31314)

SEC. 51A-8.602. DEDICATIONS.

(a) Generally. The owner of the property to be platted must provide an easement or fee simple dedication of all property needed for the construction of streets, thoroughfares, alleys, sidewalks, storm drainage facilities, floodways, water mains, wastewater mains and other utilities, and any other property necessary to serve the plat and to implement the requirements of this article. Dedications shown on plats are irrevocable offers to dedicate the property shown. Once the offer to dedicate is made, it may be accepted by an action by the city council, by acceptance of the improvements in the dedicated areas for the purposes intended, or by actual use by the city. No improvements may be accepted until they are constructed according to the approved plans, details, and specifications, and the final plat is filed for record in the office of the county clerk of the county in which the property is located.

(b) Apportionment of exactions. See Section 51A-1.109 for regulations and procedures concerning apportionment of exactions.
(c) Streets.

(1) The percentage of right-of-way dedication required for streets is as follows:

   (A) When the full right-of-way width of a street is contained within the boundaries of a proposed plat, the entire required right-of-way contained within the boundaries of the plat must be dedicated.

   (B) When a thoroughfare is along the perimeter of a proposed plat, sufficient right-of-way must be dedicated to provide one-half of the thoroughfare plan requirement, measured from the centerline of the existing right-of-way or, if there is no existing right-of-way, the proposed right-of-way as determined by the director and the chief planning officer. If the property on the side of the thoroughfare opposite the property to be platted is railroad right-of-way or a utility or floodway easement, or if some physical or topographical condition makes the property on that side of the street undesirable for street right-of-way, the commission may require a correspondingly greater dedication.

   (C) When a thoroughfare has a city council approved detailed alignment, all right-of-way falling within the approved alignment and within the boundaries of the proposed plat must be dedicated.

   (D) If substandard right-of-way exists for an existing perimeter thoroughfare based on the thoroughfare plan requirements, and the plat includes property on both sides of the existing thoroughfare, sufficient right-of-way must be dedicated to meet the entire right-of-way requirement.

   (E) When substandard right-of-way exists based on this article for a perimeter minor street, sufficient right-of-way must be dedicated to meet one-half of the entire right-of-way width requirement.

   (F) When no right-of-way exists and a minor street is proposed, whether perimeter or
§ 51A-8.602 Dallas Development Code: Ordinance No. 19455, as amended

contained within the boundaries of the proposed plat, the full right-of-way width must be dedicated.

(2) The amount of right-of-way, pavement width, and minimum centerline radius for all minor streets must be provided in accordance with the chart in Section 51A-8.604.

(3) When property has been previously platted and improvements have been constructed, accepted, and used, the commission may waive the requirements for additional right-of-way for existing streets if:

(A) no realignment of any minor street is proposed;

(B) no change in zoning classification is proposed;

(C) the street has been improved with the required number of lanes, and the full right-of-way standard is not warranted by expected traffic volumes, property access requirements, truck, bus, and taxi loading, or pedestrian use;

(D) the director and the chief planning officer recommend the waiver; and

(E) the commission finds that the area is a redeveloping area.

(d) Corner clips and sight easements.

(1) Corner clips must be dedicated at all intersections by means of a street easement. A corner clip is a triangle with the legs along the edges of the street rights-of-way. The size of the corner clip is based on the city's current design standards. Corner clips must be sized to provide an adequate turning radius, or to maintain public appurtenances within the area of the corner clip.

(2) Sight easements must be provided if required by the Street Design Manual of the city of Dallas.
(e) Alley sight easements. Alley sight easements must be granted at the intersection of any alley with a street. The size of the sight easement is that of a triangle with legs along the property lines equaling 15 feet.

(f) Utilities and drainage easements. Easements necessary for poles, wires, conduits, wastewater, gas, water, telephone, electric power, storm drainage, and any other utilities needed to serve the property being platted must be granted. All easements must comply with the following standards:

1. Unless the grantee of an easement gives express written approval, no structures, fences, trees, shrubs or any other improvement may be placed in, on, above, over, or across the easement. An exception to this rule is that paving for parking, walkways, and driveways may be constructed over or across utility or drainage easements unless such construction is specifically prohibited by the plat or easement instrument.

2. Any structures, fences, trees, shrubs, or other improvements, including paving, exist at the pleasure of the grantee. The owner of the subservient estate is liable for the full cost for any adjustments, relocations, restorations, replacements, or reconstruction to any item placed within the easement other than the utilities. The grantee has no responsibility for any destruction or damage to items other than utilities placed within the easement. Grantees of easements have the right of ingress and egress to their respective easements for the purposes of constructing, inspecting, and maintaining their improvements.

3. If alleys are not provided, rear lot drainage easements and facilities may be required to prevent cross-lot drainage.

(g) Floodways. Floodway management areas and floodway easements must be dedicated or granted in accordance with Section 51A-8.611. (Ord. Nos. 20092; 21186; 23384; 24843; 24859; 25047; 26530; 28073; 28424; 29478; 30239; 30654; 31314)
§ 51A-8.603 Dallas Development Code: Ordinance No. 19455, as amended § 51A-8.604

SEC. 51A-8.603. CONSTRUCTION REQUIRED.

(a) All public and private streets and alleys within or along the perimeter of the proposed plat must be improved to the standards of this article.

(b) Storm drainage improvements, bridges, and culverts must be provided as needed to serve the subdivision in accordance with this article.

(c) Sidewalks must be provided in accordance with Section 51A-8.606 of this article.

(d) Median openings, extra lanes, and driveways must be provided in accordance with Section 51A-8.607 of this article.

(e) Street appurtenances must be provided in accordance with Section 51A-8.608 of this article.

(f) Railroad crossing facilities must be provided in accordance with Section 51A-8.609 of this article.

(g) Utility facilities must be provided in accordance with Section 51A-8.610 of this article.

(h) Monumentation must be provided in accordance with Section 51A-8.617 of this article. (Ord. Nos. 20092; 23384)

SEC. 51A-8.604. STREET ENGINEERING DESIGN AND CONSTRUCTION.

(a) Generally. Streets, whether dedicated to the public use or privately owned, must be designed in accordance with the Paving Design Manual of the department of public works. The geometrics of streets must be designed to provide appropriate access for passenger, delivery, emergency, and maintenance vehicles.

(b) Street construction required.

(1) Within the boundaries of the proposed plat, the owner must construct all thoroughfares, minor streets, and alleys shown on the proposed plat.

(2) When a minor street is along the perimeter of the proposed plat and the street is not improved with an approved all weather paving material to a width of 20 feet, the owner must improve the street to that standard along the length of the proposed plat.

(3) When a thoroughfare is along the perimeter of the proposed plat for 1000 feet or more, the owner must construct thoroughfare, sidewalk, and storm drainage improvements to complete one-half of the thoroughfare requirements along the entire length of the plat, adjusted for any participation in the construction under Section 51A-8.614.

(c) Minor street criteria. If additional right-of-way for a minor street has been waived by the commission in accordance with Section 51A-8.602(c)(3), the amount of street construction required for the streets on which the requirements have been waived is determined by the director of sustainable development and construction. Additional street construction may be required, if necessary, based on the existing condition or width of the streets, and if warranted by the expected traffic volumes, property access requirements, or truck, bus, and taxi loading. If additional right-of-way has not been waived, minor streets must be designed and constructed to meet the following criteria:

(c) Minor street criteria. If additional right-of-way for a minor street has been waived by the commission in accordance with Section 51A-8.602(c)(3), the amount of street construction required for the streets on which the requirements have been waived is determined by the director of sustainable development and construction. Additional street construction may be required, if necessary, based on the existing condition or width of the streets, and if warranted by the expected traffic volumes, property access requirements, or truck, bus, and taxi loading. If additional right-of-way has not been waived, minor streets must be designed and constructed to meet criteria given in the Street Design Manual of the city of Dallas.

Minor streets are referred to as local streets in the Paving Design Manual. Local streets comprise all roadways not identified as expressways, arterials or collectors. All pavement widths are measured from face of curb to face of curb. Additional pavement width is required for all bike routes designated in the 1985 Dallas Bike Plan.

Unusual circumstances or special designs requiring variance from the standards in this column may be approved by the traffic engineer upon a finding that unsafe conditions would result from strict enforcement of these provisions or a special design will enhance safety or traffic flow.

(d) Private streets criteria. When permitted, private streets are governed by the following regulations:

(1) Private streets must be constructed and maintained to the standards for public rights-of-way and must be approved by the director and the chief planning officer. Sidewalks are required and must be constructed and maintained to the standards for sidewalks in the public right-of-way. Water and wastewater mains must be installed in accordance with the applicable ordinances.

(2) A legal entity must be created that is responsible for street lighting, street maintenance and cleaning, and the installation and maintenance of interior traffic control devices. The legal instruments establishing the responsibility for a private street or alley must be submitted to the commission for approval, be approved as to legal form by the city attorney, and be recorded in the appropriate county. A provision must be included in the legal instruments that addresses the consequences of failure to maintain the private street or alley and its appurtenances, including the right, but not the obligation, of the city to take any action needed to bring the private street or alley into compliance.

(3) Private streets must contain private service easements including, but not limited to the following easements: utilities; storm drainage; fire lane; street lighting; government vehicle access; mail collection and delivery access; and utility meter reading access.

(4) Street lights comparable with those required on public rights-of-way must be provided. Street lighting design plans must be approved by the director based upon applicable guidelines.

(5) Design plans and location of all traffic control devices must be approved by the traffic engineer. The design, size, color, and construction of all traffic control devices must comply with the requirements for those located in public rights-of-way.

(7) A public school, park, or other public facility must be accessible from public rights-of-way in accordance with this code.

(8) Private streets must comply with the thoroughfare plan and must not interrupt public through streets.

(9) Private street names and numbers must be approved by the commission.

(10) At all entrances to subdivisions with private streets, signs identifying the streets as private must be posted. Private street signs must be:

(i) black on a yellow background;

(ii) diamond-shaped;
(iii) a minimum of 24 by 24 inches; and
(iv) installed pursuant to city traffic standards.

(11) Private streets and the area they serve must be platted.

(12) A guard house may be constructed at any entrance to a private street. All guard houses must be at least 30 feet from a public right-of-way.

(13) Any structure that restricts access to a private street must provide a passageway 20 feet wide and 14 feet high.

(14) One private street entrance must remain open at all times. If an additional private street entrance is closed at any time, it must be constructed to permit opening of the passageway in emergencies by boltcutters or breakaway panels.

(15) A private street system serving an area containing over 150 dwelling units must have a minimum of two access points to a public street.

(16) A private street system may serve no more than 300 dwelling units.

(17) The city has no obligation to maintain a private street. (Ord. Nos. 20092; 21186; 22392; 23384; 23535; 25047; 27495; 28073; 28424; 29478; 30239; 30654; 31314)

SEC. 51A-8.605. SANITATION COLLECTION ACCESS REQUIRED.

(a) Access required. The owner or homeowners’ association must provide access for city sanitation collection. If unmanned gates are used, the gates must remain open during routine collection hours (Monday through Saturday between 7 a.m. and 7 p.m.) A notation must be placed on a plat for single family or duplex lots indicating that it is the responsibility of the owner or homeowners’ association to provide adequate access for city sanitation collection.

(b) Indemnity agreement. If sanitation collection occurs on a private access easement, the owner or homeowners’ association must execute an agreement with the city department of street, sanitation, and code enforcement services indemnifying the city against damages to any private streets in the development caused by the city’s provision of routine sanitation collection. The agreement must be approved as to form by the city attorney’s office. (Ord. Nos. 20092; 23384)

SEC. 51A-8.606. SIDEWALKS.

(a) Required. Sidewalk construction is required along all public and private streets unless waived by the director.

(b) Design. All sidewalks must be designed and constructed to be barrier-free to the handicapped, and in accordance with the requirements contained in the Paving Design Manual, the Standard Construction Details, and any other council approved plan as amended. When poles, standards, and fire hydrants must be placed in the proposed sidewalk alignment, the sidewalk must be widened as delineated in the Standard Construction Details to provide a three-foot-wide clear distance between the edge of the obstruction or overhang projection and the edge of the sidewalk.

(b) Design. All sidewalks must be designed and constructed to be barrier-free to the handicapped, and in accordance with the requirements contained in the Street Design Manual, the Standard Construction Details, and any other council approved plan as amended. When poles, standards, and fire hydrants must be placed in the proposed sidewalk alignment, the sidewalk must be widened as delineated in the Standard Construction Details to provide a three-foot-wide clear distance between the edge of the obstruction or overhang projection and the edge of the sidewalk.

(c) Timing of construction. All sidewalks in the parkways of thoroughfares must be constructed concurrently with the thoroughfare or, if the thoroughfare is already constructed, before the acceptance of any improvements. Construction of
sidewalks along improved minor streets must be completed before a certificate of occupancy is issued or before a final inspection of buildings or improvements constructed on the property.

(d) Waiver of sidewalks. A person desiring a waiver of a sidewalk requirement shall make application to the director.
(1) In this subsection:

(A) MID-BLOCK LOT means a lot that is not a corner lot.

(B) CORNER LOT means a lot that is located at the intersection of two or more streets.

(2) The director may grant a waiver under these conditions:

(A) In general. These conditions apply to all waiver requests.

(i) If sidewalk construction would cause drainage, safety, or other engineering issues that cannot be feasibly addressed as determined by the director.

(ii) If a city approved and funded sidewalk construction project is planned to begin within one year of the waiver application submittal.

(iii) If the waiver will not have an adverse effect on neighboring properties.

(B) Mid-block lot. If sidewalks do not exist on the adjacent lots and on more than 80 percent of the lots on the same blockface.

(C) Corner lot. If sidewalks do not exist on any of the mid-block lots on the same blockface and the lot is not located within one-quarter mile, as measured along street frontages, from a transit stop, school, park, playground, or other pedestrian accessible destination.

(3) The denial of a waiver application must clearly state the specific reasons why the waiver conditions were not satisfied.

(4) Waivers for sidewalks on separate frontages of corner lots shall be determined independently for each blockface, but will require only one fee.

(5) Granting a waiver does not preclude the city from installing sidewalks at some later time and assessing the abutting owners for the cost of the installation. (Ord. Nos. 20092; 23384; 25047; 28073; 29478; 30933; 31314)

SEC. 51A-8.607. MEDIAN OPENINGS, EXTRA LANES, AND DRIVEWAYS.

(a) Generally. All median openings, driveway approaches, driveways, and extra lanes including left turn lanes, right turn lanes, acceleration/deceleration lanes, and other extra lanes must be located, designed, and constructed in accordance with the current standards of the department of public works.

(b) When required. Left turn lanes are required to serve median openings providing access to the proposed plat. Other extra lanes must be designed and constructed as part of the subdivision infrastructure improvements when:

(1) they are required by the thoroughfare plan;

(2) they are required by the zoning district in which the property is located; or

(3) they are recommended and approved by the director and the chief planning officer for proper traffic management.

(c) Spacing of openings. Median openings must be at least 400 feet from median openings serving thoroughfare intersections with divided thoroughfares, measured between the noses of the median. Median openings serving minor streets and driveway approaches along a divided thoroughfare must be at least 300 feet apart, measured between the noses of the median, unless the traffic engineer determines that the potential vehicular traffic in the area does not require 300-foot spacing. The minimum median opening width is 60 feet. Wider openings may be required in order to
facilitate truck turning movements. Median openings and left turn pockets must be constructed at the intersection of all streets and drive approaches that generate 250 trips in a 12-hour period.

(d) Relocation of openings. Existing median openings may be relocated if:

(1) the existing opening does not provide service to a public or private street;

(2) the proposed median opening meets the spacing requirements stated in Subsection (c) of this section;

(3) the existing opening is no longer in use or the owners of the properties being served by the existing opening sign a document requesting or
§ 51A-8.607 Dallas Development Code: Ordinance No. 19455, as amended

approving the change, and the document is approved by the city attorney’s office; and

(4) the proposed relocation is shown on engineering plans approved by the director.

(e) Driveways and driveway approaches. Driveways must be designed and constructed to provide proper site drainage and to maintain the conveyance of existing drainage in public and private streets. A separate street cut permit is required for each driveway approach accessing a thoroughfare. Driveways may be constructed concurrently with street construction, or with building construction, but must be completed before the issuance of a certificate of occupancy, or final inspection of the buildings or improvements on the property. (Ord. Nos. 20092; 21186; 22026; 23384; 25047; 28073; 28424; 29478; 30239; 30654)

§ 51A-8.608. STREET APPURTENANCES.

(a) Generally. Installation of the following items is required at the time the municipal infrastructure additions or improvements are constructed:

(1) Street lights.

(2) Traffic signals.

(3) Traffic signs and street name blades.

(4) Pavement markings.

(5) Temporary traffic control devices for use during construction.

(b) Street lights. The engineering, material, installation, and activation of street lights must be provided as required by the approved street lighting plans. All plan approvals, construction scheduling, and reimbursements must be coordinated through the director of transportation.

(c) Traffic signals. When the area being platted adds a driveway or street approach to an existing signal, the signal hardware must be modified to serve the development. The engineering, material, and construction of the upgrade to the existing signal must be provided.

(d) Traffic signs and street name blades. All of the required traffic signs and street name blades must be provided as determined by the traffic engineer. All signs must meet the standards of the department of transportation and may be obtained from the department of transportation or any other source if city standards are met. All necessary posts, hardware, and concrete required to complete the sign assembly installation must be provided as determined by the director of transportation. A maintenance bond sufficient in amount to maintain all developer installed traffic signs and street name blades for one year must be posted by the owner.

(e) Pavement markings. Pavement markings must be provided as necessary to serve the property being platted in accordance with the approved plans.

(f) Traffic control during construction. The owner is responsible for installing and maintaining all necessary barricades, temporary signs, pavement transitions, and pavement markings to safely convey traffic through the construction area in accordance with the Texas Manual on Uniform Traffic Control Devices, State Department of Highways and Public Transportation, and the Barricade Manual of the department of transportation. The owner is also responsible for the removal of all barricades, temporary signs, pavement transitions, and pavement markings. (Ord. Nos. 20092; 22026; 23384; 26530; 28424; 30239; 30654)

§ 51A-8.609. RAILROAD CROSSINGS.

(a) Generally. All engineering plans and construction of infrastructure in the railroad right-of-way must be approved by the department and the railroad.
(b) **Pipeline license agreements.** All underground improvements in the railroad right-of-way require pipeline license agreements. The owner of the property to be platted is responsible for securing railroad approval and all costs associated with plan approval, insurance, and construction.

(c) **Railroad agreements.** All surface improvements in the railroad right-of-way require railroad agreements. The owner of the property to be platted is responsible for securing railroad approval and all costs associated with plan approval, insurance, and construction.

(d) **Agreement processing.** Both railroad agreements and railroad license agreements are processed in the following manner:

   (1) The owner of the property to be platted submits the executed agreement to the director for approval.

   (2) Upon approval, all required funding must be submitted to the director, who coordinates the receipt of documents and funding and schedules the items for city council approval.

   (3) No improvements are permitted until all agreements are accepted and executed, and all funding has been received by the city.

   (4) No improvements may be accepted until receipt and approval of final invoices from the railroad.

   (5) The owner is responsible for any shortfall in funding.

   (6) The city refunds any remaining funds to the owner should the final cost prove less than the funding supplied by the developer.

(e) **No work permitted until agreements complete.** Infrastructure work in the railroad right-of-way is not permitted until:

   (1) completed agreements have been executed between the city and the property owner;

   (2) completed agreements have been executed between the city and the railroad; and

   (3) all required funding for the agreements is received by the city.

(f) **Payment to railroad.** The city shall forward funds received from the owner to the railroad upon acceptance of the improvements by both the director and the railroad, and after receipt and approval of the final invoices from the railroad. The owner is responsible for any additional costs or cost overruns on the work, and the city shall refund any remaining funds to the developer should the final cost be less than the funding supplied by the developer. (Ord. Nos. 20092; 22026; 23384; 23694; 25047; 28073)

SEC. 51A-8.610. UTILITIES.

The owner shall provide all necessary utility facilities to serve the subdivision, including easements, materials, construction, service connections, and funding as required by the various utility companies. No utility connections may be made until the final plat has been approved and recorded with the county. (Ord. Nos. 20092; 23384)

SEC. 51A-8.611. STORM DRAINAGE DESIGN.

(a) **Generally.**

   (1) Drainage systems, including all conveyances, inlets, conduits, structures, basins, or outlets used to drain storm water, must be designed and constructed to promote the health, safety, and welfare of the property owner and the public. Adequate provision must be made for the acceptance, collection, conveyance, detention, and discharge of
§ 51A-8.611 Dallas Development Code: Ordinance No. 19455, as amended

storm water runoff drainage onto, through, and originating within the subdivision. No final plat release may be issued until proper provision has been made for drainage.

(2) Private drainage systems are those which serve one lot or tract, or any open system that serves more than one lot or tract for which a private entity has maintenance obligations. Private systems are owned and maintained by a private entity. Easements must be provided to allow access by the city to any open system in the event that private system failure or diminished function jeopardizes the public’s health, safety or welfare. Private storm water drainage systems must be designed in general conformance with the design standards of the department of water utilities as set forth in the Drainage Design Manual of the department of water utilities. Private enclosed systems are not required to be constructed according to the Standard Construction Details, File 251D-1.

(3) Public drainage systems are those systems which serve more than one lot or tract, excluding open systems maintained by a private entity. The portion of a drainage system located downstream from a lot or tract boundary, and the portion of any drainage system within the lot or tract boundary which conveys storm drainage from outside the lot or tract boundary are public systems. Public storm water drainage systems must be designed and constructed in strict conformance with department of water utilities requirements.

(4) The city owns and maintains public systems that have been constructed and accepted pursuant to Section 51A-8.612.

(5) All storm drainage facilities must be designed and constructed to safely drain a 100-year storm as outlined in the Drainage Design Manual of the department of water utilities. Paved streets and alleys, ditches, and swales may be used for emergency overflow capacity in parallel with enclosed systems provided the requirements of the Drainage Design Manual of the department of water utilities are met.

(5) All storm drainage facilities must be designed and constructed to safely drain a one-percent annual chance storm event as outlined in the Drainage Design Manual of the city of Dallas. Paved streets and alleys, ditches, and swales may be used for emergency overflow capacity in parallel with enclosed systems provided the requirements of the Drainage Design Manual of the city of Dallas are met.
(6) Storm water must be discharged in an acceptable form and at a controlled rate so as not to endanger human life or public or private property.

(7) The owner shall fund and construct all storm drainage outfalls necessary to safely and adequately drain the subdivision.

(8) The city may provide new public drainage outfalls and public drainage system upgrades to serve existing and future subdivisions through specific items in the capital improvement bond programs.

(b) Erosion and sedimentation control.

(1) The owner shall provide erosion control plans for review and subsequent approval by the department of sustainable development and construction for any development requiring grading or clearing where sediments can be carried to natural or manmade drainageways. Erosion and sedimentation control plans are required in the following instances:

(A) When the property to be platted is located in the escarpment or in a geologically similar area (See Division 51A-5.200).

(B) Where ground cover is disturbed over an area larger than three acres.

(C) If required as a condition of approval of the preliminary plat.

(2) Erosion control plans must include the following:

(A) A timing schedule indicating the starting and completion dates of the development activities sequence and the time of exposure of each area. Written approval of the director of sustainable development and construction is necessary to authorize any time of exposure exceeding six months.

(B) A complete description of all control measures designed to control erosion and
§ 51A-8.611 Dallas Development Code: Ordinance No. 19455, as amended

sedimentation of soils during and after construction. The owner is responsible for maintenance of erosion and sedimentation control measures during development and shall remove sediment from city right-of-way or storm drainage systems that occurs during the construction phase. Revegetation of the disturbed area is required as a part of the approved erosion control plan.

(c) Detention:

(1) Detention facilities required in this subsection must be designed to provide detention for the 100-year frequency storm with dual outlet control structures designed for 5-year and 100-year storms. Dual outlet design provides control of peak rates for more frequent storms, thus reducing chances of flooding and erosion downstream. Detention must be provided in the following instances:

(A) The property to be platted is in or drains through the escarpment zone or a geologically similar area as defined in Division 51A-5.200 of this chapter.

(B) The development of the platted area results in an increase to the existing rate of runoff due to a rezoning of the platted area that allows higher density. Detention will not be required if:

(i) the rezoned area is in the redeveloped area and there is no increase in impermeable surface; or

(ii) the change in zoning results in less than a 20 percent increase in the runoff, and the area rezoned is less than 3 acres, or an adequate outfall exists to handle the developed discharge.

(C) The proposed development does not have adequate outfall to carry the 100-year flood without damaging property downstream, or the owner of downstream property refuses to provide the needed easements to the city. Detention will not be required under this subparagraph if the owner funds and constructs the storm drainage system to provide a 100-year runoff carrying capacity.

(D) The property to be platted contributes to the storm drainage of a neighboring municipality having detention requirements, provided there are written agreements with the neighboring municipalities.

(2) Detention facilities must be designed and constructed in conformance with the Drainage Design Manual of the department of water utilities.

(3) Detention area easements must be dedicated on the plat when detention facilities are on-site, and dedicated by a separate instrument when detention facilities are off-site.

(4) Each adjoining property owner and his successors and assigns shall be responsible for simple, routine maintenance of the detention area easement. The city of Dallas is responsible for any major maintenance and repair work necessary for the public safety and welfare.

(5) The constructed detention facilities and pond area must remain to line and grade and must not be altered without the approval of the director of water utilities.

(6) If detention is provided due to inadequate outfall pursuant to Section 51A-8.611(c)(1), then upstream storm drainage systems must be designed for a 100-year storm, up to the outfall into the detention basin. Drainage systems constructed downstream must be designed for a 100-year storm of the drainage basin without taking into consideration the reduction in flow provided by the detention facility upstream, unless a lesser criteria is approved by the director of water utilities when the proposed development does not increase the stormwater drainage from the property and the director determines that the drainage system is not necessary to preserve public health or safety.

(c) Detention:

(1) Detention facilities required in this subsection must be designed to provide detention for the one-percent, two-percent, 10 percent, and 50 percent annual chance storm events. Detention must
be provided in the following instances:

(A) The property to be platted is in or drains through the escarpment zone or a geologically similar area as defined in Division 51A-5.200 of this chapter.

(B) The development of the platted area results in an increase to the existing rate of runoff due to a rezoning of the platted area that allows higher density. Detention will not be required if:

   (i) the rezoned area is in the redeveloped area and there is no increase in impermeable surface;

   (ii) the change in zoning results in less than a 20 percent increase in the runoff, and the area rezoned is less than 3 acres, or an adequate outfall exists to handle the developed discharge; or

   (iii) the rezoned area is less than one acre in size and adds less than 5,000 square feet of additional impervious surface relative to existing conditions.

(C) The proposed development does not have adequate outfall to carry the one-percent annual chance storm event without damaging property downstream, or the owner of downstream property refuses to provide the needed easements to the city. Detention will not be required under this subparagraph if the owner funds and constructs the storm drainage system to provide a one-percent annual chance storm event runoff carrying capacity.

(D) The property to be platted contributes to the storm drainage of a neighboring municipality having detention requirements, provided there are written agreements with the neighboring municipalities.

(2) Detention facilities must be designed and constructed in conformance with the Drainage Design Manual of the city of Dallas.

(3) Detention area easements must be dedicated on the plat when detention facilities are on-site, and dedicated by a separate instrument when detention facilities are off-site.

(4) Each adjoining property owner and his successors and assigns shall be responsible for simple, routine maintenance of the detention area easement. The city of Dallas is responsible for any major maintenance and repair work necessary for the public safety and welfare.

(5) The constructed detention facilities and pond area must remain to line and grade and must not be altered without the approval of the director of water utilities.

(6) If detention is provided due to inadequate outfall pursuant to Section 51A-8.611(c)(1), then upstream storm drainage systems must be designed for a one-percent annual chance storm event, up to the outfall into the detention basin. Drainage systems constructed downstream must be designed for a one-percent annual chance storm event of the drainage basin without taking into consideration the reduction in flow provided by the detention facility upstream, unless a lesser criteria is approved by the director of water utilities when the proposed development does not increase the stormwater drainage from the property and the director determines that the drainage system is not necessary to preserve public health or safety.
(7) Storm water runoff from any plat into a contiguous city may be required to comply with the criteria of the contiguous city as directed by the director of sustainable development and construction provided there is a written agreement in effect at the time.

(8) The dual outlet control is not required in the design of the detention basin when the proposed outfall is onto an erosion protected surface that is no less than 100 feet from the outfall.

(9) When development of the property downstream results in the construction of facilities designed to accommodate the 100-year storm, and the detention facilities upstream are no longer necessary, the detention facilities may be abandoned and the land reclaimed for other purposes.

(d) Floodways.

(1) Generally. Floodways must be provided in accordance with the recommendation of the director of water utilities and the requirements of the commission to accommodate the 100-year storm drainage flows. Floodway dedications must be identified on the plat and monumented on the ground. Floodway conditions must be satisfied before submitting a final plat for a certificate of approval. Division 51A-5.100 applies to all floodways.

(2) Floodway easements.

(A) Floodway easements are drainage areas dedicated to the city as an easement to prevent obstructions of floodway capacity in a flood plain. Except as provided in Paragraph (3), a floodway easement is required for any portion of a property that is within a flood plain.

(B) A 15-foot wide floodway access easement from a publicly dedicated right-of-way may be required and may extend along a creek, parallel to the top of the bank to inspect or maintain a floodway easement.
(C) The owner of a lot that includes a floodway easement is liable for floodway easement maintenance in compliance with this subsection, taxes, and all other standard property owner liabilities.

(D) Unless approved by the directors of sustainable development and construction and water utilities in an instrument filed in the county deed records or by a city council approved tree mitigation plan, structures, fencing, trees, shrubs, or any other improvement or growth may not be placed in or across any floodway easement.

(E) Common areas, such as in a CUD, may be located within floodway easements. Before the release of a final plat, access to the common area must be shown on the plat and a permanent maintenance plan must be approved as to form by the city for a common area within a floodway easement. Owners of a common area within a floodway easement are jointly and severally liable for the floodway easement common area maintenance in compliance with this subsection, taxes, and all other standard property owner liabilities.

(F) For purposes of this subsection, "maintenance" means removing any object or condition that, as determined by the director of water utilities, impedes the free flow of water. Maintenance includes:

(i) keeping the floodway easement free from any structures;

(ii) removing debris;

(iii) desilting lakes, ponds, and detention areas; and

(iv) controlling the growth of vegetation.

(G) The city retains the right, but not the obligation, to enter onto the floodway easement to inspect or maintain the easement. If the floodway
(D) The area for each floodway management area must be identified on the plat in square feet or in acres.

(E) No lot may extend into a floodway management area.

(e) Lot to lot drainage. Each lot must be drained to an abutting street or alley unless the director of sustainable development and construction determines that drainage to a street or alley is infeasible. If the director of sustainable development and construction determines that street alley drainage is not feasible, drainage may be provided as follows:

(1) If no more than the rear 15 feet of a lot drains toward the rear lot line, a well-pronounced swale must be provided as approved by the director of sustainable development and construction.

(2) If more than the rear 15 feet of a lot drains toward the rear lot line, a paved invert in a common area or a drainage easement is required. In order to accommodate the one-percent annual chance storm event, an enclosed drainage system with inlets may be designed. Each portion of the system that drains more than one lot must be a private system. Each portion of the system that drains one lot must be a public system within an easement.

SEC. 51A-8.612. PRIVATE DEVELOPMENT CONTRACTS.

(a) Generally. Once the infrastructure plans and apportionment determination have been approved, but before the final release of a plat or approval of a zoning district classification or boundary change requiring an exaction, private development contracts must be executed by the chief engineer for sustainable...
development and construction to build the proposed infrastructure facilities. Private development contracts for water and wastewater improvements, if needed,
must comply with Chapter 49 of the Dallas City Code. Private development contracts for other infrastructure improvements must comply with this section. In addition, to ensure that the city will not incur claims or liabilities as a result of the developer’s failure to make payment in accordance with the terms of a private development contract, the director may require the developer, as a precondition of approval or release of a final plat or approval of a zoning district classification or boundary change requiring an exaction, to provide sufficient surety guaranteeing satisfaction of claims against the development in the event such default occurs. The surety shall be in the amount of the private development contract. The surety shall also be in the form of a bond, escrow account, cash deposit or unconditional letter of credit drawn on a state or federally chartered lending institution. The form of surety shall be reviewed and approved by the city attorney. If a bond is furnished, the bond shall be on a form provided by the director and approved by the city attorney. The bond shall be executed by the developer and at least one corporate surety authorized to do business and licensed to issue surety bonds in the State of Texas and otherwise acceptable to the city. If a cash deposit is provided, the deposit shall be placed in a special account and shall not be used for any other purpose. Interest accruing on the special account shall be credited to the developer. If an escrow account is provided, the account shall be placed with a state or federally chartered lending institution with a principal office or branch in Texas, and any escrow agreement between the developer and the escrowing institution shall provide for a retainage of not less than ten percent of the private development contract amount, to be held until the director gives written approval of the construction of the facilities.

(b) Cost. The cost of infrastructure construction is the responsibility of the developer of the property to be platted except as provided in Sections 51A-1.109 and 51A-8.614.

(c) Form. The private development contract must be on a form provided by the director and approved by the city attorney.

(d) Bonds. The private development contract must include performance and payment bonds equivalent to those the city uses and requires in its standard specifications, and the city must be a named obligee in the bonds.

(e) Duplicate plans. As part of the contract submission, duplicate sets of approved plans must be submitted to the director in sufficient number to meet the current contract plan distribution requirements of the city.

(f) Construction inspection. Before the approval of a private development contract, the owner shall submit to the director the name of the engineer licensed to practice in the State of Texas with whom he has contracted to provide the required construction inspection. The engineer performing the construction inspection shall attest to the director that the engineer, or a qualified member of the engineer’s firm, made periodic visits to the worksite, as dictated by recognized and customary practice, to inspect the construction of the storm drainage, street paving, bridge, culvert, and traffic signal improvements, and to assure that the improvements were constructed according to the approved plans, profiles, details, and specifications for the project. The engineer shall submit copies of the construction inspection reports along with his declaration.

(g) Material testing. Before the approval of a private development contract, the name of a local materials testing company that is:

(1) competent in the field of testing pertinent to the contract; and

(2) under contract with the owner; must be submitted to and approved by the director. Materials testing and certification must comply with the standard specifications for public works construction.

(h) Authorization to begin. No construction of infrastructure improvements may begin until a letter authorizing the construction has been issued by the director.
§ 51A-8.612  Dallas Development Code: Ordinance No. 19455, as amended  § 51A-8.612

(i) **Order of construction.**

(1) Except where the contractor has obtained a permit to barricade and occupy existing street right-of-way, paving and storm drainage construction which must be accomplished in existing public right-of-way must be completed and accepted by the department before the issuance of any building permits for structures in the platted area unless waived by the director when sequencing of the work is infeasible. If paving and storm drainage work in existing right-of-way and work requiring a building permit are allowed to occur simultaneously, the paving and storm drainage work must be completed and accepted by the department before the issuance of a certificate of occupancy or authorization for utility connections.

(2) In order to obtain building permits for structures to be constructed in the platted area:

(A) all required infrastructure work must have been completed and accepted; or

(B) the necessary infrastructure work to satisfy the fire department requirements must have been completed, and the developer must have furnished satisfactory evidence in the form of a development bond, approved by the city attorney and furnished by the property owner with the city of Dallas named as the obligee on the bond, in an amount equal to the estimated cost of the uncompleted infrastructure. The estimated cost of the uncompleted infrastructure must be approved by the director.

(3) Private development contracts for paving must not be approved by the city until the related storm drainage construction is completed and acceptable, and a water and wastewater release is issued by the director of water utilities approving the related water facilities construction work beneath or in close proximity to the proposed pavement.

(j) **Assurance of compliance.** The owner of the property to be platted is responsible for all construction and inspection services required for paving and drainage improvements. The owner shall ensure that the work is performed and completed in conformance with the approved plans, the standard specifications for public works construction, and the standard construction details. The responsible engineer shall certify in writing that the materials and work are in conformance with all plans and specifications.

(k) **Letter of acceptance.** No infrastructure improvements are considered accepted until:

(1) the owner has filed an affidavit affirming that:

(A) all parties to the private development contracts have been paid except for the normal and usual 10 percent retainage; and

(B) no liens exist on the property dedicated;

(2) the department has a copy of the approved recorded plat;

(3) the director has inspected the infrastructure improvements and determined that they comply with the approved plans and specifications and all applicable city ordinances;

(4) all fees required by this chapter or another city ordinance for the construction of the infrastructure improvements have been paid to the city;

(5) a letter of acceptance has been issued by the director; and

(6) the engineer of record has certified that all addition corners have been set pursuant to Section 51A-8.617.

(l) **Maintenance and repairs.** The contractor responsible for the construction of the infrastructure shall make maintenance repairs and replace all defective materials and workmanship for a period of one year from the date of the acceptance of the improvements. The decision of the director is
conclusive on the determination as to needed maintenance or defective materials or workmanship. The director’s determination shall be based upon applicable guidelines. (Ord. Nos. 20092; 21045; 21491; 22022; 23384; 25047; 25048; 26530; 28073; 30239; 30654)

SEC. 51A-8.613. COVENANT PROCEDURES.

(a) An owner who desires to plat more property than he is willing to construct or design paving, storm drainage, water, or wastewater facilities to serve may plat the property if he executes a covenant for the benefit of the city in accordance with this section. The covenant must run with the land. As part of the covenant, the owner shall agree to, at his cost: submit any needed additional plans; construct the required infrastructure; and secure or dedicate easements and rights-of-way necessary to serve the development at the owner’s cost. Covenants involving water or wastewater facilities must be approved in accordance with Chapter 49 of the Dallas City Code, as amended.

(b) Upon approval of the terms of the paving and storm drainage covenant by the director, the owner shall execute the covenant on a form provided by the director. Executed covenants must be submitted to the department for processing.

(c) All covenants must be approved in accordance with the procedure set out in Section 2-11.2 of this code.

(d) If a covenant is not fulfilled, no building permit or certificate of occupancy may be issued for any property included within the boundaries of the plat which the covenant was executed to serve.

(e) Upon determination by the director that all conditions of a covenant have been fulfilled, the city manager may execute, and cause to be filed of record, a release of the covenant without the necessity of city council approval. In the event of a conflict between this subsection and other provisions in the Dallas City Code, this subsection controls. (Ord. Nos. 20092; 22026; 23384; 23694; 25047; 28073)

SEC. 51A-8.614. COST SHARING CONTRACT.

(a) Generally. All funding requests for city cost sharing participation in municipal infrastructure additions or improvements must be approved by the city council. City participation is generally limited to items that benefit a broad population segment. The developer’s apportioned share of any exaction pursuant to Section 51A-1.109 is the responsibility of the developer unless the developer, as documented in a cost sharing contract, volunteers to pay a greater proportion. If the developer volunteers to pay a greater proportion, the city has no obligation for the amount volunteered. All city participation is subject to the availability of funds. City participation must comply with Subchapter C of Chapter 212 and Chapter 252 of the Texas Local Government Code. (Ord. Nos. 20092; 20730; 21186; 23384; 25047; 26530)

SEC. 51A-8.615. NONSTANDARD MATERIALS.

(a) Generally. Nonstandard materials may be used in the public right-of-way for paving, parkway, sidewalk, driveway, and other street enhancement if the criteria in this section are met.

(b) Plans. Plans indicating the nonstandard materials must be approved by the director of public works.

(c) Samples. Samples of each material used for a walking or traveling surface in the public right-of-way must be submitted to and approved by the director of public works.

(d) Standards. All street paving, sidewalk, driveway, curb, and gutter construction must conform to the Standard Construction Details and the Standard Specifications for Public Works Construction of the department of public works.

(e) Sidewalks. Sidewalks must be designed barrier-free to the handicapped.
(f) **Landscaping.** Proposed landscaping in the public right-of-way must conform to the park and recreation beautification plan or be approved by the director of public works, and must not interfere with utilities or any authorized use of the public right-of-way.

(g) **Central business district.** If the proposed plat is within the central business district, the nonstandard materials must meet all provisions of the Dallas Central Business District Pedestrian Facilities Plan Update.

(h) **Written approval.** Written approval must be obtained from the director of public works before any work is done.

(i) **Liability.** The responsibility and liability for all claims or damages resulting from injury or loss due to the use or presence of nonstandard work or materials is governed by Sections 43-33 and 43-34 of the Dallas City Code, as amended, and no liability is assumed by the city for approving plans including nonstandard materials.

(j) **Agreements required.** A written agreement must be executed between the owner of the property to be platted and the city for the use of nonstandard materials in the public right-of-way. The agreement must be executed before the construction of any improvement consisting of nonstandard materials. If the nonstandard material is to be located in a street or alley, or is otherwise intended for vehicular travel, a covenant agreement is required which provides a plan of perpetual maintenance at no cost to the city. If the nonstandard material is for a driveway, a sidewalk, or for another surface outside of the area between street curbs, or is not intended for vehicular travel, a written agreement is required between the owner of the property to be platted and the city. The owner is responsible for securing all required sidewalk, driveway, or street cut permits.

(k) **Maintenance of nonstandard material in public rights-of-way.** All improvements in the public rights-of-way exist at the pleasure of the city and must be maintained to the satisfaction of the city. The owner of the property to be platted is responsible for all maintenance and replacement of nonstandard materials and all preparatory work, including subgrade and base maintenance and replacement necessary due to work performed by the city or utility companies in the discharge of their responsibilities. Failure to maintain and replace defective nonstandard materials and workmanship constitutes just cause for the city to remove any portion or all of the nonstandard work and replace it with standard materials. (Ord. Nos. 20092; 23384; 28424; 30239; 30654)

SEC. 51A-8.616. RESERVED. (Ord. 23384)

SEC. 51A-8.617. MONUMENTATION.

(a) **Minimum monumentation standards.**

(1) At all angle points, points of curve, and points of tangency on the perimeter of the platted boundary, a minimum three inch metallic cap disc must be affixed to a metal pipe or rod and stamped with the addition name and the registered professional land surveyor number of the surveyor of record, or the name of the surveying company.

(2) At all block corners, a minimum two inch metallic cap must be affixed to a metal pipe or rod. The cap must be stamped with the block number and registered professional land surveyor number of the surveyor of record, or the name of the surveying company.

(3) At all lot corners, points of curve, and points of tangency of curves, a minimum 1/2-inch diameter metal pipe or rod is required with a cap stamped with the registered professional land surveyor number of the surveyor of record, or the name of the surveying company.

(4) All monuments installed must contain a cap or disc imprinted with the addition name, if required, and the registration number of the surveyor or the name of the engineering or surveying firm that
§ 51A-8.617 Dallas Development Code: Ordinance No. 19455, as amended

prepared the plat. In locations where such monuments cannot be installed, alternate types of monuments may be installed with the prior approval of the chief city surveyor. A request for alternate monumentation must be made in writing by the surveyor of record, and must include the City Plan File Number and the reason for the alternate monumentation request.

(5) Any points of monumentation that cannot be set at the designated place must be referenced with sufficient witness monumentation.

(b) Placement of a monument on the boundary of property being platted in which no areas are to be dedicated to the public.

(1) Monuments must be installed on the boundary of such property being platted at all corners, angle points, and points of curvature and tangency.

(2) The size, shape, and substance of monuments found or installed on the perimeter of the platted boundary must be described on the drawing and in the owner’s certificate of the submitted plat.

(c) Placement of monuments on and within the boundary of property being platted in which areas are to be dedicated to the public. Monuments must be installed on the boundary of such property being platted at all corners, angle points, and points of curvature and tangency, except those points falling within areas to be dedicated. In areas to be dedicated, all points on new right-of-way lines must be monumented. Monuments must be installed within the boundary of such property being platted at the following points:

(1) All corners of parks, squares, or other portions intended for public use.

(2) All block corners.

(3) On the right-of-way lines of all alleys and public and private streets at all points of intersections, angle points, and points of curvature and tangency.

(d) Placement of monuments on floodways, conservation easement areas, and escarpment lines.

(1) Monuments must be installed on each lot line and boundary line where these lines are intersected by or tangent with a floodway management area, floodway easement, conservation easement area, or the escarpment zone.

(2) Monuments for floodway management areas, floodway easements, and detention areas must be installed at all angle points and points of curvature or tangency.

(3) Floodway management areas, detention areas, escarpment zones, and conservation easement areas must be monumented with a minimum 1/2-inch iron rod with a cap stamped with the registered professional land surveyor number of the surveyor of record, or the name of the surveying company.

(4) Floodway easement areas must be monumented in accordance with the dimensions and specifications set forth under City File No. 424-109.

(e) Registered Professional Land Surveyor’s certificate. The final plat of the area being platted must contain a certificate that the land being platted was surveyed under the supervision of a registered professional land surveyor. The certificate must contain the registered professional land surveyor’s name and registration number, and must be sworn to before a notary public.

(f) Monument verification. After required monumentation has been set, a letter stating this must be sent to the chief city surveyor, for field inspection and verification of the platted property. The letter must be from the surveyor of record and must include the City Plan File Number and the addition name.

(Ord. Nos. 20092; 23384; 24843)
SEC. 51A-8.618. TRAFFIC BARRIERS.

(a) When required. For all property being platted with identifiable single family, duplex, or townhouse components that front on both an arterial and a public or private street or alley, traffic barriers must be constructed that separate the property from the arterial. See Section 51A-8.507(b)(6) for alley requirements.

(b) Easement. The owner must dedicate an exclusive barrier easement along the lots or alleys perimeter to the thoroughfare depending on who will maintain the barrier. Barrier easements must have a minimum width of three feet. If a screening wall serves as a traffic barrier, maintenance of the wall is the responsibility of each individual owner abutting the easement or the homeowners’ association.

(c) Design. The design and construction of traffic barriers must be approved by the director. If concrete is used for traffic barriers, it must be reinforced and have a minimum compressive strength of 3000 pounds per square inch at 28 days test. The traffic barrier must be at least 24 inches in height. All traffic barriers must be maintained by the property owner or a homeowners association.

(d) Timing of construction. All traffic barriers required by this article must be constructed concurrently with the adjoining street or, if the thoroughfare is already constructed or is not to be constructed with the subdivision infrastructure, before the issuance of a certificate of occupancy or utility connection for any structure within the boundaries of the plat.

(e) Acceptance of construction. All traffic barriers must be constructed under a private development contract in accordance with Section 51A-8.612. If a screening wall serves as a traffic barrier, it must be designed by an engineer and approved by the director.

(f) Maintenance and repair. Each adjacent property owner is responsible for simple routine maintenance and cleaning of all barriers to which his property is adjacent. The city of Dallas is responsible for any major maintenance and repair work necessary for the traffic barrier if the city has accepted it for maintenance. Any other type of traffic barriers is the responsibility of the homeowners’ association or the owner. (Ord. Nos. 20092; 21186; 23384; 25047; 28073)

SEC. 51A-8.619. SCREENING WALLS.

If the screening wall serves as a traffic barrier, it must meet the standards of Section 51A-8.618. (Ord. Nos. 20092; 23384)

SEC. 51A-8.620. RETAINING WALLS.

All retaining walls located on private property along public rights-of-way or easements must be constructed of reinforced concrete or other materials determined to be sufficiently durable by the director. Retaining wall design must be approved by the director of public works to ensure site conditions are adequately addressed by the design. Engineer certification and building permits may be required by other applicable regulations. (Ord. Nos. 23384; 25047; 28073; 28424; 30239; 30654)
DIVISION 51A-8.700. Administration.

SEC. 51A-8.701. NOTHING DEEMED SUBMITTED UNTIL FEES PAID.

Whenever a requirement exists for the submission of plans and a fee exists for the processing of the plans, no submission is complete until all required fees have been paid. (Ord. Nos. 20092; 23384)

SEC. 51A-8.702. EARLY RELEASE OF BUILDING OR FOUNDATION PERMIT.

(a) Generally. No building or foundation permit may be issued before the completion and filing for record of a final plat except in accordance with this section. The recipient of an early release permit bears the entire risk that improvements may need to be modified or removed based on engineering plan review or final plat denial. No certificate of occupancy shall be issued until the final plat is properly filed for record as required by this article and state law, and all conditions of preliminary plat approval and all other applicable rules and regulations have been satisfied.

(b) Application. An application for an early release must be submitted to the building official. The building official shall review the application and determine whether an early release is appropriate. If the building official recommends the early release, a building or foundation permit may be issued. The application for early release must include:

   (1) the number of copies required for circulation and review;
   
   (2) a copy of the approved preliminary plat;
   
   (3) the file number assigned to the plat application by the city;
   
   (4) a copy of the action letter from the subdivision administrator outlining the conditions of preliminary plat approval;
   
   (5) all requisites for building or foundation permit applications, whichever apply; and
   
   (6) a site plan showing the following:
       (A) Boundary lines of the property.
       (B) Existing streets.
       (C) Pavement widths and surface compositions for existing and proposed driveways, sidewalks, and areas intended for vehicular travel.
       (D) Improvements existing on the property, and all proposed improvements.
       (E) All dedications required by the preliminary plat.

(c) Fee. The fee for early release of a building or foundation permit is $300.

(d) Requirements for approval. No early release may be authorized until:

   (1) clearance has been received from all affected departments;
   
   (2) the commission or the subdivision administrator has approved a preliminary or final plat subject to conditions in accordance with this article;
   
   (3) all submitted plans conform to all applicable city ordinances, requirements, and conditions of plat approval, and compliance can otherwise be enforced;
   
   (4) all affected departments have determined the basic requirements necessary for final approval;

   (d) Requirements for approval. No early release may be authorized until:

   (1) clearance has been received from all affected departments;
(2) the commission or the subdivision administrator has approved a preliminary or final plat subject to conditions in accordance with this article.

(3) all submitted plans conform to all applicable city ordinances, requirements, and conditions of plat approval, and compliance can otherwise be enforced;

(4) all affected departments have determined the basic requirements necessary for final approval;
(5) the proposed building site has adequate all-weather access through public or private right-of-way;

(6) adequate storm drainage outfall exists to safely discharge on-site drainage of a one-hundred-year flood;

(7) adequate assurance has been received that off-site easements necessary for infrastructure to serve the plat have been secured;

(8) the proposed site has adequate water facilities for emergency fire service;

(9) infrastructure plans for the proposed plat have been submitted to the department and are in general conformance with city standards;

(10) if required by the director, private development contracts and bonds have been submitted;

(11) the application complies with all applicable laws;

(12) the only requirement preventing the building or foundation permit from being issued is the completion and filing for record of the plat;

(13) the building or foundation permit clearly states that no certificate of occupancy will be issued for the property or, for residential applications, no final inspection will be made until all platting requirements have been met;

(14) the owner acknowledges in writing concurrence with the conditions under which the permit is issued; and

(15) the fee required by Subsection (c) is paid to the building official. (Ord. Nos. 20092; 21431; 23384; 25047; 26529; 28073; 31314)
SEC. 51A-8.703. CIRCUMVENTION OF REGULATIONS PROHIBITED.

(a) Recording of plat. All plats must be signed by the property owners and filed and recorded with the county clerk of the county in which the property is located in accordance with the requirements of state law. No person may file or cause to be filed for record with the county clerk a proposed plat before the final plat of the property has been endorsed by the commission chair or the subdivision administrator in accordance with this article.

(b) Building permit. No building permit may be issued for the construction of any building or structure located on a tract that was not created in accordance with this article, except that building permits may be issued for:

(1) remodeling or repair of existing structures on such a tract; and

(2) infrastructure construction.

(c) No public or private improvements. No construction of any public or private improvements may be commenced or continued except in conformity with this article.

(d) Certificates of occupancy. No certificate of occupancy may be issued and no final inspection for residential property may be made for property which was not developed in strict compliance with this article, or for property upon which all conditions of plat approval have not been met. The fact that a building permit was issued for the property does not excuse compliance with all regulations, and a certificate of occupancy may be denied if a building permit is issued in error. (Ord. Nos. 20092; 23384; 26529)
SEC. 51A-8.704. UTILITIES.

Utility connections are not authorized until a final plat has been approved by the commission in accordance with this article and filed for record with the county clerk. (Ord. Nos. 20092; 23384)

SEC. 51A-8.705. TAXES.

No final plat may be filed with the county clerk until all taxes assessed by the city against the property have been paid. (Ord. Nos. 20092; 23384; 26529)

SEC. 51A-8.706. APPROVALS AND AGREEMENTS IN WRITING.

Whenever a requirement exists for approval by an official body, a city official, or a city employee, or for an agreement, concurrence, or acknowledgement from an applicant, the approval, agreement, concurrence, or acknowledgement must be expressed in written form. (Ord. Nos. 20092; 23384)

SEC. 51A-8.707. PLATTING IN THE ESCARPMENT ZONE AND IN THE GEOLOGICALLY SIMILAR AREA.

(a) The commission or the subdivision administrator shall refuse permission to plat property in the escarpment zone or in the geologically similar area, as defined in the escarpment regulations of this chapter, unless the director has first issued an escarpment permit for the development proposed.

(b) When property in the escarpment zone or in the geologically similar area is platted:

(1) the escarpment zone or the geologically similar area must be shown on the plat; and

(2) the plat must provide any dedications necessary for maintenance, drainage, or compliance with Division 51A-5.200, “Escarpment Regulations”; and

(3) the property owner is encouraged, but not required, to dedicate the escarpment zone or geologically similar area to the city as park. (Ord. Nos. 20092; 23384; 25047; 26000; 26529; 28073)

SEC. 51A-8.708. WAIVER BY CITY COUNCIL.

Nothing in this division shall preclude the city council from waiving, in whole or in part, any provision of this division in connection with the abandonment, conveyance, or closure of streets or alleys. (Ord. 23384)
ARTICLE X.
LANDSCAPE AND TREE CONSERVATION REGULATIONS.

Division 51A-10.00. In General.

SEC. 51A-10.101. DEFINITIONS.

In this article:

(1) AGE CLASS means a distinct group of trees originating from a single natural event or regeneration activity (i.e., a 10-year age class), as used in inventory management.

(2) ANSI A300 means the American National Standard for Tree Care Operations, including all parts, as amended.

(3) APPROVED TREE LIST means the list of replacement and landscape trees approved by the director.

(4) ARTIFICIAL LOT means an area within the building site that is delineated by the building official or the director of park and recreation for the sole purpose of satisfying the requirements of this article (see Section 51A-10.122).

(5) BOUNDARY TREE means:

(A) a tree growing on a property boundary line between two private lots resulting in joint ownership by the adjacent property owners when the trunk exists on each property; or

(B) a tree that has 20 percent or more of its tree canopy cover extending over a property line into an adjacent building site.

(6) BROWNFIELD means a building site, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant.

(7) CALIPER means the thickness of a tree trunk measured in inches.

(8) CANOPY TREE means a species of tree that normally bears crown foliage no lower than six feet above ground level upon maturity.

(9) CLASS 1 TREE means a tree located in a primary natural area or a geologically similar area within 50 feet above the escarpment zone.

(10) CLASS 2 TREE means a tree that is not otherwise classified as a Class 1 tree or Class 3 tree.

(11) CLASS 3 TREE means Arizona ash, black willow, cottonwood, hackberry, honeylocust, mesquite, mimosa, mulberry, ornamentals, *pinus* spp., Siberian elm, silver maple, sugarberry, or a small tree.

(12) CLEARING means any activity that removes or seriously injures one or more trees or the vegetative ground cover of one or more trees, such as root mat removal or topsoil removal.

(13) COVERED SOIL AREA means an area of soil that is under nonpermeable pavement and is designed to accommodate tree root growth.

(14) CRITICAL ROOT ZONE means the circular area of ground surrounding a tree extending a distance of one foot per diameter inch of the tree, measured from the tree trunk or stem.

(15) DEVELOPMENT IMPACT AREA means the area of land or vegetation alteration within a property including, but not limited to, clearing, grading, excavating, filling, and any construction site operations, paving, or any other installation.

(16) DIAMETER means the thickness of a tree trunk.

(17) DRIP LINE means a vertical line that runs from the outermost point of the crown of a tree to the ground.

In this article:
in inventory management.

(2) ANSI A300 means the American National Standard for Tree Care Operations, including all parts, as amended.

(3) APPROVED TREE LIST means the list of replacement and landscape trees approved by the director.

(4) ARTIFICIAL LOT means an area within the building site that is delineated by the building official or the director of park and recreation for the sole purpose of satisfying the requirements of this article (see Section 51A-10.122).

(5) BOUNDARY TREE means:

(A) a tree growing on a property boundary line between two private lots resulting in joint ownership by the adjacent property owners when the trunk exists on each property; or

(B) a tree that has 20 percent or more of its tree canopy cover extending over a property line into an adjacent building site.

(6) BROWNFIELD means a building site, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant.

(7) CALIPER means the thickness of a tree trunk measured in inches.

(8) CANOPY TREE means a species of tree that normally bears crown foliage no lower than six feet above ground level upon maturity.

(9) CLASS 1 TREE means a tree located in a primary natural area or a geologically similar area within 50 feet above the escarpment zone.

(10) CLASS 2 TREE means a tree that is not otherwise classified as a Class 1 tree or Class 3 tree.

(11) CLASS 3 TREE means Arizona ash, black willow, cottonwood, hackberry, honeylocust, mesquite, mimosa, mulberry, ornamentals, *pinus* spp., Siberian elm, silver maple, sugarberry, or a small tree.

(12) CLEARING means any activity that removes or seriously injures one or more trees or the vegetative ground cover of one or more trees, such as root mat removal or topsoil removal.

(13) COVERED SOIL AREA means an area of soil that is under nonpermeable pavement and is designed to accommodate tree root growth.

(14) CRITICAL ROOT ZONE means the circular area of ground surrounding a tree extending a distance of one foot per diameter inch of the tree, measured from the tree trunk or stem.

(15) DEVELOPMENT IMPACT AREA means the area of land or vegetation alteration within a property including, but not limited to, clearing, grading, excavating, filling, and any construction site operations, paving, or any other installation.

(16) DIAMETER means the thickness of a tree trunk.

(17) DRIP LINE means a vertical line that runs from the outermost point of the crown of a tree to the ground.
(18) ENHANCED PAVEMENT means any permeable or nonpermeable decorative pavement material intended for pedestrian or vehicular use approved by the director. Examples of enhanced pavement include, but are not limited to, brick or stone pavers, grass pavers, exposed aggregate concrete, and stamped and stained concrete.

(19) EVERGREEN TREE OR SHRUB means a tree or shrub of a species that normally retains its leaves throughout the year.

(20) FACADE PLANTING AREA means the portion of a lot abutting a storefront, office, or mixed use building facade.

(21) FLOOD PLAIN means any land area susceptible to inundation by the hundred-year frequency flood.

(22) FOREST STAND DELINEATION ("FSD") means a comprehensive assessment of the conditions of a property using multiple types of information, including, but not limited to, a tree survey, aerial imagery collected from private or public sources, natural resources assessments, topographic maps, management plans, a map of conservation areas, land use maps, etc., to provide the required data to determine tree replacement requirements and forest conservation objectives.

(23) GRADING means any digging, scooping, removing, depositing or stockpiling, of earth materials.

(24) GREEN INFRASTRUCTURE means the ecological framework of trees and vegetation used in conjunction with engineered systems for the effective and resilient processes of stormwater management, climate adaptation, urban heat abatement, biodiversity, improved air quality, clean water, and healthy soils, for sustainable social, health, and economic benefits of the urban community.

(25) GROUND COVER means natural mulch, or plants of species that normally reach a height of less than three feet upon maturity, installed in such a manner so as to form a continuous cover over the ground.

(26) HABITAT PRESERVATION AND RESTORATION AREA means a designated area on a landscape plan dedicated to the restoration and preservation of an undeveloped site through active or passive management practices.

(27) HISTORIC TREE means a tree, or grove of trees, that has been recognized by resolution of the city council as having cultural or historical significance.

(28) HUNDRED-YEAR FREQUENCY FLOOD means the flood having a one percent chance of being equaled or exceeded in any given year. This flood is based upon the drainage area being fully developed to current zoning limitations.

(29) INTERIOR ZONE means the area of a lot not included in a street buffer zone or a residential buffer zone.

(30) INVASIVE PLANT means a plant that has been classified as invasive to the Dallas region by Texas Parks and Wildlife or the Texas Department of Agriculture.

(31) LANDSCAPE ARCHITECT means a person licensed to use the title of "landscape architect" in the State of Texas in accordance with state law.

(32) LANDSCAPE AREA means an open soil area covered by natural grass, ground cover, stone aggregate or river rock, or other plant materials for the purpose of landscaping or the growth and establishment of trees and other vegetation.

(33) LANDSCAPE BUFFER STRIP means a landscape area that serves a buffer function.

(34) LARGE SHRUB means a shrub that normally reaches a height of six feet or more upon maturity.

(18) ENHANCED PAVEMENT means any permeable or nonpermeable decorative pavement material intended for pedestrian or vehicular use approved by the director. Examples of enhanced
pavement include, but are not limited to, brick or stone pavers, grass paver, exposed aggregate concrete, and stamped and stained concrete.

(19) EVERGREEN TREE OR SHRUB means a tree or shrub of a species that normally retains its leaves throughout the year.

(20) FACADE PLANTING AREA means the portion of a lot abutting a storefront, office, or mixed use building facade.

(21) FLOOD PLAIN means any land area susceptible to inundation by the one-percent annual chance flood.

(22) FOREST STAND DELINEATION ("FSD") means a comprehensive assessment of the conditions of a property using multiple types of information, including, but not limited to, a tree survey, aerial imagery collected from private or public sources, natural resources assessments, topographic maps, management plans, a map of conservation areas, land use maps, etc., to provide the required data to determine tree replacement requirements and forest conservation objectives.

(23) GRADING means any digging, scooping, removing, depositing, or stockpiling of earth materials.

(24) GREEN INFRASTRUCTURE means the ecological framework of trees and vegetation used in conjunction with engineered systems for the effective and resilient processes of stormwater management, climate adaptation, urban heat abatement, biodiversity, improved air quality, clean water, and healthy soils, for sustainable social, health, and economic benefits of the urban community.

(25) GROUND COVER means natural mulch, or plants of species that normally reach a height of less than three feet upon maturity, installed in such a manner so as to form a continuous cover over the ground.

(26) HABITAT PRESERVATION AND RESTORATION AREA means a designated area on a landscape plan dedicated to the restoration and preservation of an undeveloped site through active or passive management practices.

(27) HISTORIC TREE means a tree, or grove of trees, that has been recognized by resolution of the city council as having cultural or historical significance.

(28) INTERIOR ZONE means the area of a lot not included in a street buffer zone or a residential buffer zone.

(29) INVASIVE PLANT means a plant that has been classified as invasive to the Dallas region by Texas Parks and Wildlife or the Texas Department of Agriculture.

(30) LANDSCAPE ARCHITECT means a person licensed to use the title of "landscape architect" in the State of Texas in accordance with state law.

(31) LANDSCAPE AREA means an open soil area covered by natural grass, ground cover, stone aggregate or river rock, or other plant materials for the purpose of landscaping or the growth and establishment of trees and other vegetation.

(32) LANDSCAPE BUFFER STRIP means a landscape area that serves a buffer function.

(33) LARGE SHRUB means a shrub that normally reaches a height of six feet or more upon maturity.
(35) LARGE TREE means a tree species that typically attains a height and canopy width of at least 50 feet at maturity, or as classified by the director.

(36) LEGACY TREE means a large or medium tree planted in a landscape area in accordance with Section 51A-10.104 and Section 51A-10.135.

(37) LOT means:

(A) a "lot" as defined in Section 51A-2.102; and

(B) an "artificial lot" as defined in this section.

(38) LOT WITH RESIDENTIAL ADJACENCY means any of the following:

(A) A building site containing a multifamily use that is adjacent to or directly across:

(i) a street 64 feet or less in width; or

(ii) an alley;

from private property in a single family, duplex, townhouse, CH, or RTN district or a residential planned development district.

(B) A building site containing a nonresidential use that is adjacent to or directly across:

(i) a street 64 feet or less in width; or

(ii) an alley;

from private property in an agricultural, single family, duplex, townhouse, CH, multifamily, manufactured housing, or RTN district, or a residential planned development district.

(C) An artificial lot containing a multifamily use if the lot is less than 200 feet from private property in a single family, duplex, townhouse, CH, or RTN district, or a residential planned development district.

(D) An artificial lot containing a nonresidential use if the lot is less than 200 feet from private property in an agricultural, single family, duplex, townhouse, CH, multifamily, manufactured housing, or RTN district, or a residential planned development district.

(39) MEDIUM TREE means a tree that typically attains a canopy height of at least 30 feet and a width between 15 feet and 50 feet in width at maturity, or as otherwise classified by the director.

(40) NONPERMEABLE COVERAGE means coverage with any pavement that is not "permeable pavement" as defined in this section.

(41) NURSERY STOCK means a plant grown in or obtained from a nursery.

(42) OPEN SOIL AREA means an unpaved area of soil.

(43) PEDESTRIAN PATHWAY means an area intended for use by pedestrians or non-motorized vehicles that is physically or visually distinguishable from parking and driving surfaces by concrete curbs, wheel stops, or other permanent barriers, landscape barriers, or a change in surface materials such as pavers, patterned concrete, or flagstones.

(44) PERMEABLE PAVEMENT means director approved paving systems, pavers, or other structural surfaces that allow stormwater infiltration.

(45) PREVIOUSLY DEVELOPED SITE means a building site that has been substantially altered through paving, construction, or other activity that requires or required permitting or licensing through a regulatory agency.

(46) PRIMARY NATURAL AREA means an ecologically sensitive area including 100-year flood-plain, wetlands, and other significant habitat areas.

(34) LARGE TREE means a tree species that typically attains a height and canopy width of at least 50 feet at maturity, or as classified by the director.
LEGACY TREE means a large or medium tree planted in a landscape area in accordance with Section 51A-10.104 and Section 51A-10.135.

LOT means:
(A) a "lot" as defined in Section 51A-2.102; and
(B) an "artificial lot" as defined in this section.

LOT WITH RESIDENTIAL ADJACENCY means any of the following:
(A) A building site containing a multifamily use that is adjacent to or directly across:
   (i) a street 64 feet or less in width; or
   (ii) an alley;
from private property in a single family, duplex, townhouse, CH, or RTN district or a residential planned development district.

(B) A building site containing a nonresidential use that is adjacent to or directly across:
   (i) a street 64 feet or less in width; or
   (ii) an alley;
from private property in an agricultural, single family, duplex, townhouse, CH, multifamily, manufactured housing, or RTN district, or a residential planned development district.

(C) An artificial lot containing a multifamily use if the lot is less than 200 feet from private property in a single family, duplex, townhouse, CH, or RTN district, or a residential planned development district.

(D) An artificial lot containing a nonresidential use if the lot is less than 200 feet from private property in an agricultural, single family, duplex, townhouse, CH, multifamily, manufactured housing, or RTN district, or a residential planned development district.

MEDIUM TREE means a tree that typically attains a canopy height of at least 30 feet and a width between 15 feet and 50 feet in width at maturity, or as otherwise classified by the director.

NONPERMEABLE COVERAGE means coverage with any pavement that is not "permeable pavement" as defined in this section.

NURSERY STOCK means a plant grown in or obtained from a nursery.

ONE-PERCENT ANNUAL CHANCE FLOOD means the flood having a one percent chance of being equalled or exceeded in any given year. This flood is based upon the drainage area being fully developed to current zoning limitations.

OPEN SOIL AREA means an unpaved area of soil.

PEDESTRIAN PATHWAY means an area intended for use by pedestrians or non-motorized vehicles that is physically or visually distinguishable from parking and driving surfaces by concrete curbs, wheel stops, or other permanent barriers, landscape barriers, or a change in surface materials such as pavers, patterned concrete, or flagstones.

PERMEABLE PAVEMENT means director approved paving systems, pavers, or other structural surfaces that allow stormwater infiltration.

PREVIOUSLY DEVELOPED SITE means a building site that has been substantially altered through paving, construction, or other activity that requires or required permitting or licensing through a regulatory agency.

PRIMARY NATURAL AREA means an ecologically sensitive area including one-percent annual chance floodplain and riparian areas, wetlands or 50-foot wetland buffer, perennial and intermittent streams measured to 50 feet above top of bank, and the escarpment zone.
plain and riparian areas, wetlands or 50 foot wetland buffer, perennial and intermittent streams measured to 50 feet above top of bank, and the escarpment zone.

(47) **PRIVATE PROPERTY** means any property not dedicated to public use, except that "private property" does not include the following:

(A) A private street or alley.

(B) Property on which a utility and public service use listed in Section 51A-4.212 is being conducted as a main use.

(C) A railroad right-of-way.

(D) A cemetery or mausoleum.

(48) **PROTECTED TREE** means:

(A) a tree of any species that has a minimum diameter of eight inches that is not classified as unprotected in this article;

(B) any tree in a stand which projects a tree canopy over a building site when identified within a forest stand delineation review; or

(C) a tree that was planted as a replacement tree.

(49) **REMOVE OR SERIOUSLY INJURE** means an intentional or negligent action that will more likely than not cause a tree to decline and die within five years of the act. Actions that constitute removing or seriously injuring a tree include, but are not limited to: cutting down a tree; excessively pruning or topping a tree; compacting the soil above the root system of a tree; changing the natural grade above the root system of a tree; damaging the root system or the trunk of a tree (such as by operating machinery near, or by clearing or grading the area around, the trunk of a tree); failing to repair an injury to a tree from fire or other causes, which results in or permits tree infections or pest infestations into or on the tree; applying herbicidal or other lethal chemicals; and placing nonpermeable pavement over the root system of a tree.

(50) **RESPONSIBLE PARTY** means the property owner and any other person or entity responsible for removing or seriously injuring a protected tree.

(51) **REPLACEMENT TREE** means a tree that is planted in accordance with Section 51A-10.134.

(52) **ROOT PATH** means a path constructed using aeration or drainage strips providing roots a route under pavement from a tree to an adjacent landscape area.

(53) **SCREENING** means screening that complies with Section 51A-4.602, except as those regulations may be expressly modified in this article.

(54) **SECONDARY NATURAL AREA** means undisturbed areas on a building site other than primary natural areas.

(55) **SIGNIFICANT TREE** means a protected healthy tree whose age, size, unique type, or natural or historical character are of special importance to the city, and meets the following species and size requirements:

(A) Post oaks with a minimum diameter of 12 inches:

(B) Trees of the following species having a minimum 24 inch diameter: American elm, bois d’arc, cedar elm, chitalamwood, common persimmon, eastern red cedar, green ash, all other oaks, pecan, all walnut species, and white ash.

(56) **SMALL TREE** means a tree that typically attains a maximum height of 30 feet at maturity or is classified as a small tree by the director.

(57) **SOIL** means a medium that plants will grow in.
(B) Property on which a utility and public service use listed in Section 51A-4.212 is being conducted as a main use.

(C) Railroad right-of-way.

(D) A cemetery or mausoleum.

(48) PROTECTED TREE means:

(A) a tree of any species that has a minimum diameter of eight inches that is not classified as unprotected in this article;

(B) any tree in a stand which projects a tree canopy over a building site when identified within a forest stand delineation review; or

(C) a tree that was planted as a replacement tree.

(49) REMOVE OR SERIOUSLY INJURE means an intentional or negligent action that will more likely than not cause a tree to decline and die within five years of the act. Actions that constitute removing or seriously injuring a tree include, but are not limited to: cutting down a tree; excessively pruning or topping a tree; compacting the soil above the root system of a tree; changing the natural grade above the root system of a tree; damaging the root system or the trunk of a tree (such as by operating machinery near, or by clearing or grading the area around, the trunk of a tree); failing to repair an injury to a tree from fire or other causes, which results in or permits tree infections or pest infestations into or on the tree; applying herbicidal or other lethal chemicals; and placing nonpermeable pavement over the root system of a tree.

(50) RESPONSIBLE PARTY means the property owner and any other person or entity responsible for removing or seriously injuring a protected tree.

(51) REPLACEMENT TREE means a tree that is planted in accordance with Section 51A-10.134.

(52) ROOT PATH means a path constructed using aeration or drainage strips providing roots a route under pavement from a tree to an adjacent landscape area.

(53) SCREENING means screening that complies with Section 51A-4.602, except as those regulations may be expressly modified in this article.

(54) SECONDARY NATURAL AREA means undisturbed areas on a building site other than primary natural areas.

(55) SIGNIFICANT TREE means a protected healthy tree whose age, size, unique type, or natural or historical character are of special importance to the city, and meets the following species and size requirements:

(A) Post oaks with a minimum diameter of 12 inches.

(B) Trees of the following species having a minimum 24-inch diameter: American elm, bois d’arc, cedar elm, chittamwood, common persimmon, eastern red cedar, green ash, all other oaks, pecan, all walnut species, and white ash.

(56) SMALL TREE means a tree that typically attains a maximum height of 30 feet at maturity or is classified as a small tree by the director.

(57) SOIL means a medium that plants will grow in.
(58) STAND means a group of trees or other growth occupying a specific area that is sufficiently similar in species composition, size, age, arrangement, and condition, to be distinguishable from adjacent forest.

(59) SUSTAINABLE DEVELOPMENT INCENTIVE ("SDI") means a method of compliance that applies sustainable development, tree preservation practices, and tree mitigation reductions.

(60) TOPPING means the reduction of tree size using internodal cuts without regard to tree health or structural integrity.

(61) TREE CANOPY COVER means the amount of ground area directly beneath a tree's crown to the drip line or the combined crowns of a stand of trees, measured in square feet.

(62) TREE REMOVAL PROPERTY means the lot, parcel, right-of-way, or tract of land where a protected tree will be or has been removed or seriously injured.

(63) TREE SURVEY means a report that meets all of the requirements for a tree survey in Section 51A-10.132.

(64) UNPROTECTED TREE means the following:

(A) Callery pear (all cultivars).

(B) Chinaberry.

(C) Chinese tallow.

(D) Ilex species (except for yaupon holly and Possumhaw holly).

(E) Palm (all plants in Palmae).

(F) Tree-of-heaven or Ailanthus.

(G) Other trees listed as invasive plants.

(H) Trees with a diameter of less than 10 inches at the point on the trunk 4.5 feet above the ground, located on a lot with an existing single family or duplex use that is occupied at the time of removal.

(65) UNRESTRICTED ZONE means the area on a lot where tree mitigation is not required.

(66) URBAN STREETScape means the pedestrian oriented street environment between the back of curb and building facade for frontages that have a required front yard of 15 feet or less in depth.

(67) WATER COURSE means a natural or constructed channel for the flow of water.

(58) STAND means a group of trees or other growth occupying a specific area that is sufficiently similar in species composition, size, age, arrangement, and condition, to be distinguishable from adjacent forest.

(59) SUSTAINABLE DEVELOPMENT INCENTIVE ("SDI") means a method of compliance that applies sustainable development, tree preservation practices, and tree mitigation reductions.

(60) TOPPING means the reduction of tree size using internodal cuts without regard to tree health or structural integrity.

(61) TREE CANOPY COVER means the amount of ground area directly beneath a tree's crown to the drip line or the combined crowns of a stand of trees, measured in square feet.

(62) TREE REMOVAL PROPERTY means the lot, parcel, right-of-way, or tract of land where a protected tree will be or has been removed or seriously injured.

(63) TREE SURVEY means a report that meets all of the requirements for a tree survey in Section 51A-10.132.

(64) UNPROTECTED TREE means the following:

(A) Callery pear (all cultivars).

(B) Chinaberry.
(C) Chinese tallow.

(D) Ilex species (except for yaupon holly and Possumhaw holly).

(E) Palm (all plants in *Palmaceae*).

(F) Tree-of-heaven or *Ailanthus*.

(G) Other trees listed as invasive plants.

(H) Trees with a diameter of less than 10 inches at the point on the trunk 4.5 feet above the ground, located on a lot with an existing single family or duplex use that is occupied at the time of removal.

(65) UNRESTRICTED ZONE means the area on a lot where tree mitigation is not required.

(66) URBAN STREETSCAPE means the pedestrian-oriented street environment between the back of curb and building facade for frontages that have a required front yard of 15 feet or less in depth.

(67) WATER COURSE means a natural or constructed channel for the flow of water. (Ord. Nos. 19455; 20496; 22053; 25155; 30929; 31314)

**SEC. 51A-10.102. PURPOSE.**

The process of urban growth and development with its alteration of the natural topography, vegetation, and creation of impervious cover can have a negative effect on the ecological balance of an area by causing increases in air temperatures and accelerating the processes of runoff, erosion, and sedimentation. The economic base of the city can and should be protected through the conservation and enhancement of the unique natural beauty, environment, and vegetative space in this area. Recognizing that the general objectives of this article are to promote and protect the health, safety, and welfare of the public, the city council further declares that this article is adopted for the following specific purposes:

(1) To aid in stabilizing the environment's ecological balance by contributing to the processes of air purification, oxygen regeneration, ground-water recharge, and storm water runoff retardation and filtration, while at the same time aiding in noise, glare, wind, and heat abatement.
(3) To enhance the beautification of the city.

(4) To safeguard and enhance property values and to protect public and private investment.

(5) To conserve energy.

(6) To provide habitat for wildlife.

(7) To encourage the preservation of large trees which, once removed, can be replaced only after generations.

(8) To conserve water.

(9) To recognize and conserve the urban forest as part of the city’s green infrastructure. (Ord. Nos. 19455; 22053; 30929)

SEC. 51A-10.103. ACCEPTABLE PLANT MATERIALS.

(a) Artificial plant materials, including synthetic turf, may not be used to satisfy the requirements of this article.

(b) In satisfying the requirements of this article, the use of high-quality, hardy, and drought-tolerant plant materials is recommended and encouraged.

(c) For a lot or tract of land two acres in size or greater, no one species of tree may constitute more than 35 percent of the replacement trees planted on the lot or tract of land.

(d) Palm trees may not be used to satisfy the requirements of this article.

(e) Invasive plants are prohibited in required landscapes.

(f) The director shall maintain a list of acceptable plant materials for required landscapes. (Ord. Nos. 22053; 25155; 30929)

SEC. 51A-10.104. SOIL AND PLANTING AREA REQUIREMENTS.

(a) In general. Planting areas dedicated to the growth of roots may include open soil areas, covered soil areas, root paths, and drainage.

(b) Soil areas. Except as provided in this section, required landscape areas must include the following:

(1) Soil resource plan. A soil resource plan is required with the submission of a landscape plan or tree protection plan. A soil resource plan is used to distinguish landscaping zones from construction zones on the building site and to determine soil protection or soil modification for vegetation, if applicable. Zones that are required to be shown include:

(A) protected zones where existing soil and vegetation will not be disturbed;

(B) zones for soil amendment or treatment with minimal disturbance;

(C) zones where construction traffic and staging will be allowed; and

(D) zones for stockpiling topsoil and imported soil amendments.

(2) Soil resource assessment. A soil resource assessment is only required in conjunction with sustainable development incentive requirements and installation of legacy trees.

(A) A soil resource assessment must be provided before submittal of a building permit.

(B) A soil resource assessment may be included in other engineering site assessments for the property.

(C) A soil resource assessment must include information on all proposed landscape planting areas that delineates, quantifies, and
characterizes the topsoils and subsoils of a site before these materials are excavated for reuse on site.

(D) The ranges for physical, chemical, and biological indicators of soil quality for urban trees is determined from the *ISA Best Management Practices for Soil Management for Urban Trees*, or in another publication approved by the building official.

(3) Additional minimum soil quality requirements. Soils used in landscape areas for tree planting must be shown on a landscape plan or a tree protection plan in protected zones where existing soil and vegetation is not disturbed, or in zones modified to correct limiting factors for tree establishment and longevity.

(c) Planting area requirements. Except as provided in this section, planting areas must meet the following requirements:

(1) For each small tree installation, a minimum of 24 inches of soil depth and 25 square feet of open soil area (total of 50 cubic feet) must be provided.

(2) For each large or medium tree installation, a minimum of 36 inches of soil depth and 160 square feet of open soil area (total of 480 cubic feet) must be provided.

(3) Except as provided in this section, trees may share open soil areas.

(4) Except as provided in this section, large trees and medium trees must be planted a minimum of four feet from pavement.

(5) The planting areas must have native soils, prepared soils, or structural soils, and may include permeable pavement, sidewalk support, and soil cells.

(6) Required areas for plant materials must be protected from vehicular traffic through the use of concrete curbs, wheel stops, or other permanent barriers.

(7) Planters may be used to satisfy the requirements of this article provided that the soil requirements in Section 51A-10.104(b) are met.

(d) Legacy tree soil and planting area requirements.

(1) Except as provided in this paragraph, large legacy trees must be planted in a minimum 500 square foot open soil area with a minimum average soil depth of 36 inches (1500 cubic feet) per tree. For locations with shallow soils of less than 36 inches in average depth, the open soil area must be a minimum 750 square feet.

(2) Except as provided in this paragraph, medium legacy trees must be planted in a minimum 400 square foot open soil area with a minimum average soil depth of 36 inches (1200 cubic feet) per tree. For locations with shallow soils of less than 36 inches in average depth, the open soil area must be a minimum 750 square feet.

(3) Legacy trees must be a minimum of 30 feet measured horizontally from the closest point of a building or other structure on the property or an adjacent property at the time of installation.

(4) Legacy trees may not share required minimum open soil areas with large or medium trees.

(e) Alternative planting area requirements.

(1) Planting areas in an urban streetscape or located above underground buildings or structures must have the following open soil area depths and dimensions:

(A) For each small tree installation, a minimum of 30 inches of soil depth and 25 square feet of open soil area (total of 62.5 cubic feet).
(B) For each large or medium tree installation, a minimum of 36 inches of soil depth and 25 square feet of open soil area and a combination of open soil area, covered soil area, and root paths for a minimum of 240 cubic feet of soil volume. Large or medium trees planted in less than 480 cubic feet of soil volume do not count as replacement trees for purposes of Division 51A-10.1300.

(2) Trees may share open soil areas.

(f) Waiver. The building official may waive the minimum open soil and planting area requirements if a landscape architect certifies that:

(1) the proposed alternative soil depths and dimensions are sufficient to support the healthy and vigorous growth of the plant materials affected;

(2) the depth to impermeable subsurface prohibits minimum soil depth requirements; or

(3) that the proposed structural soils or suspended paving system are sufficient to support the healthy and vigorous growth of the plant materials.

(g) Adequate space. All required trees must be planted in adequate space to allow unobstructed growth to maturity.

(h) Tree locations.

(1) In general. All required trees must be located a minimum distance of:

(A) two feet from side yard and rear yard property boundaries;

(B) 20 feet from traffic signs and light poles;

(C) two-and-one-half feet from pavement; and

(D) five feet from electrical transmission boxes, fire hydrants, in-ground or above-ground utility access, underground local utility lines, and water meters.

(2) Small trees. Small trees must be located a minimum distance of:

(A) five feet from buildings; and

(B) 10 feet from all other trees.

(3) Medium trees. Medium trees must be located a minimum distance of:

(A) 12 feet from buildings;

(B) 10 feet from small trees;

(C) 20 feet from other medium trees;

(D) 20 feet from large trees; and

(E) 15 feet from the closest point of an overhead electric line.

(4) Large trees. Large trees must be located a minimum distance of:

(A) 15 feet from buildings;

(B) 10 feet from small trees;

(C) 20 feet from medium trees;

(D) 25 feet from other large trees; and

(E) 20 feet from the closest point of an overhead electric line.

(5) Legacy trees. Legacy trees must be located a minimum distance of 30 feet from the closest point of an overhead electric line.

(6) Measurement. For purposes of this subsection, all distances are measured horizontally from the center of the tree trunk. (Ord. Nos. 22053; 25155; 30929)
SEC. 51A-10.105. MEASUREMENTS.

(a) **Caliper.** For nursery stock trees:

1. Caliper is measured at six inches above soil level; which should be at or near the top of the root flare, and six inches above the root flare for bare root plants, up to and including the four-inch caliper size interval (i.e., from four inches up to, but not including, four and one-half inches);

2. If the caliper measured at six inches is four and one-half inches or more, the caliper must be measured at 12 inches above the ground level, soil line, or root flare, as appropriate; and

3. If a tree has multiple stems, caliper is one-half of the combined caliper of the three largest trunks.

(b) **Diameter.**

1. **Diameter at breast height.** Diameter at breast height ["DBH"] is the measurement of a tree trunk at a height of four and one-half feet above the ground, on the uphill side of the tree, or as recommended in the Landscape and Tree Manual for special situations for tree fork, leaning trees, or on slopes.

2. **Multiple stems.** For trees with multiple stems, the diameter of the trunk is measured at the narrowest point below branching when branching occurs below DBH, or near DBH.

3. **Branching.** When branching occurs at or lower than 12 inches above the ground, diameter of the trunk includes the diameter of the largest stem plus the average diameter of the remaining stems, measured at DBH. (Ord. Nos. 22053; 25155; 30929)

SEC. 51A-10.106. IRRIGATION REQUIREMENTS.

(a) **In general.**

1. Except as provided in this section, automatic irrigation systems must be installed in conjunction with new required landscaping for commercial and multifamily uses with combined landscape areas of 500 square feet or more per building site.

2. The automatic irrigation system must be:

   - (A) shown on a landscape plan or irrigation plan; and
   - (B) adequate to maintain the plant materials in a healthy, growing condition at all times.

(b) **Renovations and additions that require landscaping.** For building sites or artificial lots with an area of two acres or less, all required plant materials must be located a maximum of 100 feet from an irrigation source with a permanently installed threaded hose connection. Proposed watering methods (irrigation or otherwise) must be:

   - (1) shown on the landscape plan, if any; and
   - (2) capable of maintaining the plant materials in a healthy, growing condition at all times.

(c) **Alternate irrigation.** The building official may authorize an alternate method of irrigation for required landscape areas if the alternate irrigation method is:

   - (1) certified by a landscape architect or licensed irrigator;
   - (2) shown on a stamped landscape plan or irrigation plan; and
§ 51A-10.106 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-10.107 RESERVED. (Ord. 30929)

§ 51A-10.108 GENERAL MAINTENANCE.

(a) Required plant materials must be maintained in a healthy, growing condition at all times. The property owner is responsible for regular weeding, mowing of grass, irrigating, fertilizing, pruning, and other maintenance of all plantings as needed. Any required plant that dies or is removed must be replaced with another living plant that complies with this article and the approved landscape plan, if any, within 90 days after notification by the city.

(b) Any damage to utility lines resulting from the negligence of the property owner or his agents or employees in the installation and maintenance of required plant materials in a utility easement is the responsibility of the property owner. If a public utility disturbs a landscaped area in a utility easement, it shall make every reasonable effort to preserve the plant materials and return them to their prior locations after the utility work. If, nonetheless, some plant materials die, it is the obligation of the property owner to replace the plant materials. (Ord. Nos. 22053; 30929)

§ 51A-10.109 LANDSCAPE AND TREE MANUAL.

A landscape and tree manual is provided by the director as a technical guide for conserving, protecting, maintaining, and establishing the green infrastructure, landscape, and urban forest of the city in conjunction with this article. The director shall maintain the landscape and tree manual. (Ord. Nos. 22053; 22581; 25047; 25155; 30929)

§ 51A-10.110 SPECIAL EXCEPTIONS.

(a) In general and landscaping.

(1) The board may grant a special exception to the requirements of Division 51A-10.100 and Division 51A-10.120, other than fee and notice requirements, upon making a special finding from the evidence presented that:

(A) strict compliance with the requirements of Division 51A-10.100 or Division 51A-10.120 will unreasonably burden the use of the property;

(B) the special exception will not adversely affect neighboring property; and

(C) the requirements are not imposed by a site-specific landscape plan approved by the city plan commission or city council.

(2) In determining whether to grant a special exception under Paragraph (1), the board shall consider the following factors:

(A) The extent to which there is residential adjacency.

(B) The topography of the site.

(C) The extent to which landscaping exists for which no credit is given under this article.

(D) The extent to which other existing or proposed amenities will compensate for the reduction of landscaping.

(b) In general and urban forest conservation.

(1) The board may grant a special exception to the requirements of Division 51A-10.130, other than fee and notice requirements, upon making a special finding from the evidence presented that:
§ 51A-10.110 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-10.121

(A) strict compliance with the requirements of Division 51A-10.130 will unreasonably burden the use of the property;

(B) the special exception will not adversely affect neighboring property; and

(C) the requirements are not imposed by a site-specific landscape plan or tree mitigation plan approved by the city plan commission or city council.

(2) In determining whether to grant a special exception under Paragraph (1), the board shall consider the following factors:

(A) The extent to which there is residential adjacency.

(B) The topography of the site.

(C) The extent to which landscaping exists for which no credit is given under this article.

(D) The ability to plant replacement trees safely on the property.

(E) The extent to which alternative methods of replacement will compensate for a reduction of tree mitigation or extended time for tree replacement. (Ord. Nos. 22053; 25155; 30929)

Division 51A-10.120. Landscaping.

SEC. 51A-10.121. APPLICATION OF DIVISION.

(a) Except as provided in this article, this division does not apply to the following:

(1) Property governed by a landscape plan approved by the city council, the city plan commission, or the board of adjustment.

(2) Property lots in the following districts:

(A) The Dallas Arts District (Planned Development District Nos. 145 and 145-H/18).

(B) The Deep Ellum/Near East Side District (Planned Development District No. 269).

(C) The Oak Lawn Special Purpose District (Planned Development District No. 193).

(D) Central area districts.

(3) Restoration of a building that has been damaged or destroyed by fire, explosion, flood, tornado, riot, act of the public enemy, or accident of any kind. For purposes of this section, "restoration" means the act of putting back into a former or original state.

(4) Property located within or in close proximity to an airport boundary if the city’s director of aviation determines that the required landscape materials will threaten public health or safety.

(b) Only Section 51A-10.125(a) of this division applies to lots containing single family or duplex uses.

(c) This division only becomes applicable to a lot or tract when the nonpermeable coverage on the lot or tract is increased by more than 2,000 square feet within a 24-month period, not including portions of pedestrian pathways, that are between three feet in
width and 15 feet in width, or when an application is made for a building permit for construction work that:

(1) increases the number of stories and increases the height of a building on the lot; or

(2) increases by more than 35 percent or 10,000 square feet, whichever is less, the combined floor areas of all buildings on the lot within a 24-month period. The increase in combined floor area is determined by adding the floor area of all buildings on the lot within the 24 months prior to application for a building permit, deducting any floor area that has been demolished in that time or will be demolished as part of the building permit, and comparing this figure with the total combined floor area after construction.

(d) When this division becomes applicable to an individual lot or tract, its requirements are binding on all current and subsequent owners of the lot or tract.

(e) The city council shall, as a minimum, impose landscaping requirements that are reasonably consistent with the standards and purposes of this division as a part of any ordinance establishing or amending a planned development district, or granting or amending a specific use permit. (Note: This subsection does not apply to ordinances that merely renew a specific use permit when no substantive changes are made other than to extend the time limit of the permit.) All landscaping requirements imposed by the city council must be reflected in a landscape plan that complies in form and content with the requirements of Section 51A-10.123 and complies with Division 51A-10.100.

SEC. 51A-10.122. ARTIFICIAL LOT DELINEATION.

(a) In general. If the building site is over two acres in size, the applicant may request that the building official create an artificial lot to satisfy the requirements of this division. The building official shall not create an artificial lot which would, in his or her opinion, violate the spirit of the landscape regulations. Any artificial lot created by the building official must:

(1) wholly include the area on which the construction work is to be done;

(2) have an area that does not exceed 50 percent of the area of the developed or undeveloped building site;

(3) include all new exterior paving additions except portions of pedestrian pathways, that are between three feet in width and 15 feet in width;

(4) include the street buffer zone for new construction or additions that are located wholly, or in part, within 60 feet of the nearest street frontage; and

(5) include the residential buffer zone for new construction or additions that are located wholly, or in part, within 60 feet of the nearest residential adjacency.

(b) In city parks over five acres. In city parks over five acres in size, the director of park and recreation may create an artificial lot to satisfy the requirements of this division.

(1) Except as provided in this subsection, any artificial lot created by the director of park and recreation must wholly include the area on which the construction work is to be done.

(2) Portions of pedestrian pathways that are between three feet and 15 feet in width are excepted from this requirement.

(c) Platting not required. An artificial lot need not be platted; however, it must be delineated on plans approved by the building official prior to the issuance of a building permit. (Ord. Nos. 19455; 20496; 22053; 30929)
SEC. 51A-10.123. LANDSCAPE PLAN SUBMISSION.

(a) If this division applies to a lot pursuant to Section 51A-10.121, a landscape plan must be submitted to the building official with the application for a building permit for work on the lot. For landscape plans that are not submitted electronically, a landscape plan submission must consist of two blueline or blackline prints. The plan must have a scale of one inch equals 50 feet or larger (e.g. one inch equals 40 feet, one inch equals 30 feet, etc.) and be on a standard drawing sheet of a size not to exceed 36 inches by 48 inches. A plan which cannot be drawn in its entirety on a 36 inch by 48 inch sheet must be drawn with appropriate match lines on two or more sheets.

(b) Except as provided in this article, any person may prepare the landscape plan required under this division.

(c) A landscape plan required under this division must contain the following information:

(1) Date, scale, north point, and the names, addresses, and telephone numbers of each property owner and the person preparing the plan.

(2) Location of existing boundary lines and dimensions of the lot, the zoning classification of the lot, and the zoning classification of adjacent properties. A vicinity map should also be attached to or made a part of the plan.

(3) Approximate centerlines of existing water courses and the location of the flood plain, the escarpment zone, and geologically similar areas, as those terms are defined in Article V, if applicable; the approximate location of significant drainage features; and the location and size of existing and proposed streets and alleys, utility easements, driveways, and sidewalks on or adjacent to the lot.

(4) Location of centerlines of overhead and underground utility lines within and adjacent to the building site, and the location of all utilities, utility easements, including the location of utility poles, generators, and equipment, and any items listed in Section 51A-10.104(h).

(5) Project name, street address, and lot and block description.

(6) Location, height, and material of proposed screening and fencing (with berms to be delineated by one-foot contours).

(7) Locations and dimensions of required landscape areas.

(8) Complete description of plant materials shown on the plan, including names (common and scientific name), locations, quantities, container or caliper sizes at installation, heights, spread, and spacing. The location and type of all existing trees on the lot over six inches in diameter must be specifically indicated to be counted as required landscape trees.

(9) Complete description of landscaping and screening to be provided in or near off-street parking and loading areas, including information as to the amount (in square feet) of landscape area to be provided internal to parking areas and the number and location of required off-street parking and loading spaces.

(10) An indication of which protected trees will be removed during construction and how existing healthy trees proposed to be retained will be protected from damage during construction.

(11) Size, height, location, and material of proposed seating, lighting, planters, sculptures, and water features.

(12) A description of proposed watering methods or an irrigation plan.

(13) Location of visibility triangles on the premises (if applicable).

(14) Existing and proposed locations of trees transplanted on-site. (Ord. Nos. 19455; 10496; 22053; 30929)
SEC. 51A-10.124. LANDSCAPE PLAN REVIEW.

(a) In general. The building official shall review each landscape plan submitted to determine whether it complies with the requirements of this division. All landscape plans must comply with the mandatory provisions in Section 51A-10.125. In addition, all landscape plans must meet the minimum number of landscape design option points described in Section 51A-10.126. Except as provided in this article, the same landscape features and elements may be strategically placed so as to comply with more than one provision. (For example, the same trees may be located so as to qualify as required street buffer zone trees and required parking lot trees.)

(b) Landscape plan revisions. If requested by the applicant, the building official may approve revisions to staff-approved landscape plans and related permits if the revisions further the spirit and intent of this article. Revisions of elements required by this article are limited to:

(1) Substitution of more appropriate plant species.

(2) Revisions required by utility conflicts.

(3) Locations of plant materials up to a maximum of 10 feet. (Ord. Nos. 19455; 20496; 22053; 30929)

SEC. 51A-10.125. MANDATORY LANDSCAPING REQUIREMENTS.

(a) Single family and duplex uses.

(1) General. Except as provided in Section 51A-10.127, a lot containing a single family or duplex use established after May 29, 1994, must comply with this subsection before the final inspection of any building on the lot. The minimum number of trees required on a lot is determined by the lot size. The trees may be located in the public right-of-way if all private licensing requirements of the city code and charter are met.

(A) Lots 7,500 square feet or greater in area. A minimum of three large or medium nursery stock trees per lot with a minimum of two nursery stock trees in the front yard.

(B) Lots between 4,000 square feet and 7,499 square feet in area. A minimum of two large or medium nursery stock trees per lot with a minimum of one nursery stock tree located in the front yard.

(C) Lots 4,000 square feet or less in area. A minimum of one large or medium nursery stock tree per lot.

(D) Additional requirements:

(i) Nursery stock trees must be a species listed in the approved tree list maintained by the director.

(ii) Trees must have a minimum caliper of two inches.

(iii) Trees must be planted a minimum of 20 feet on center from the nearest point of an overhead electric line.

(iv) An existing, healthy, and protected tree on the lot or parkway may count as a required tree if it is not a boundary tree abutting adjacent private property.

(2) Shared access development.

(A) Shared access developments must comply with the following requirements:

(i) A landscape plan meeting the requirements of Section 51A-10.104 and Section 51A-10.123 must be approved before a building permit
§ 51A-10.125 Dallas Development Code: Ordinance No. 19455, as amended

for grading is issued or a private development contract pursuant to Section 51A-8.612 is approved, in conjunction with construction.

(ii) The minimum required landscape area for a shared access development is determined by the number of individual lots. Landscape areas in individual lots may be included in the total landscape area measurement for developments with a maximum of 36 individual lots. Permeable pavement does not count as landscape area.

(aa) Shared access developments with a maximum of 10 individual lots must provide a minimum landscape area equal to 10 percent of the total shared access development area.

(bb) Shared access developments with a minimum of 11 and a maximum 36 individual lots must provide a minimum landscape area equal to 15 percent of the total shared access development area.

(iii) One site tree must be provided for every 4,000 square feet within the shared access development. The trunk of any site tree must be located at least two-and-one-half feet from any pavement. Site trees must be species listed in the approved tree list. Large or medium nursery stock trees may not be planted within 20 feet on center of the nearest point of an overhead electric line.

(iv) One plant group must be provided for every 40 feet of street frontage. Plant groups may be located within the front yard or parkway if all private licensing requirements of the city code and charter are met. In this subparagraph, parkway means the portion of a street right-of-way between the projected street curb and the front lot line or corner side lot line. If the director determines that a large or medium tree would interfere with utility lines, one substitute small tree from a species listed in the approved tree list may be provided.

(B) Plant groups for shared access developments must include the following:

(i) one large tree and two small trees;

(ii) one large tree and three large evergreen shrubs; or

(iii) one large tree, two small trees, and one large evergreen shrub.

(b) Other uses. Lots containing a use other than single family or duplex must comply with the following requirements:

(1) Street buffer zone. Except as provided in this subsection, the landscape area provided along the entire length of the lot adjacent to a public right-of-way, excluding paved surfaces at points of vehicular ingress and egress, must meet the following minimum requirements:

<table>
<thead>
<tr>
<th>Right-of-way</th>
<th>Average Depth</th>
<th>Minimum Depth</th>
<th>Maximum Depth</th>

<td>7.5 feet</td>
<td>5 feet</td>
<td>25 feet</td>
</tr>
</tbody>
</table>

(A) Urban streetscape. The building official may approve a landscape plan for an urban streetscape that meets the following requirements:

(i) A minimum six foot wide planting area is required that meets the minimum soil area and volume requirements in Section 51A-10.104.

(ii) The planting area may be designed with open soil areas or covered soil areas.

(iii) The planting area is measured from the property line unless the building official determines that the planting area may be measured from the back of curb if necessary due to physical restraints of the property, including conflicts with local utilities.
§ 51A-10.125 Dallas Development Code: Ordinance No. 19455, as amended

(iv) A minimum of one design option must be provided in the front yard or right-of-way area.

(B) Right-of-way. The right-of-way adjacent to the property line may be used to satisfy the required street buffer zone subject to:

(i) a minimum depth of five foot maintained along the property as a street buffer zone;

(ii) local utility location;

(iii) appropriate planting conditions; and

(iv) city licensing and permit requirements.

(C) Required planting.

(i) Except as provided in this subparagraph, one large or medium street buffer tree must be provided for every 40 linear feet of frontage.

(ii) For frontages less than 20 linear feet, a large or medium street buffer tree is not required.

(iii) Large or medium trees must have a minimum caliper of three inches.

(iv) When existing conditions prohibit planting large trees or medium trees, the building official may approve two small trees be substituted for each large tree or medium tree.

(D) Buffer zone reduction. Properties less than 10,000 square feet may reduce the street buffer zone to the greater of:

(i) a minimum depth of five feet;

or

(ii) an area no less than five percent of the total lot area.

(2) Residential buffer zone.

(A) A landscape area must be provided along that portion of the perimeter of a lot where residential adjacency exists. The residential buffer zone must have an average depth of 10 feet, a minimum depth of five feet, and a maximum depth of 30 feet. No portion of the residential buffer zone may exceed 10 percent of the lot depth excluding paved surfaces at points of vehicular and pedestrian ingress or egress.

(B) The residential buffer zone must include a minimum of one plant group every 40 feet. Plant groups must include:

(i) Where screening is required, one minimum three-inch caliper large or medium tree.

(ii) Where screening is not required:

(aa) one large or medium tree and three small trees;

(bb) one large or medium tree and three large evergreen shrubs;

(cc) one large or medium tree, two small trees, and one large evergreen shrub; or

(dd) one large or medium tree, one small tree, and two large evergreen shrubs.

(C) If the building official determines that the location of a local utility prohibits planting large trees or medium trees, two small trees may be planted for each large tree or medium tree.

(D) Large or medium trees must have a minimum caliper of two inches.
§ 51A-10.125 Dallas Development Code: Ordinance No. 19455, as amended

(3) Interior zone.

(A) Surface parking lots in industrial districts. The requirements in Section 51A-10.125 (b)(3)(B)(iv) for surface parking lots with 100 spaces or more, do not apply to industrial and warehouse uses in IM or IR districts that provide a minimum of one tree meeting the requirements for trees in the street buffer zone for each 25 feet of frontage.

(B) Surface parking lots.

(i) Required large and medium trees.

(aa) Minimum caliper is three inches.

(bb) Planting must be within a landscape area.

(cc) The center of the trunk at grade must be planted a minimum of four feet from pavement.

(ii) Minimum landscape area. Individual landscape areas must be a minimum of 160 square feet, with a minimum width of eight feet.

(iii) Parking lots with 21 to 100 spaces. No parking space may be located more than 70 feet from the trunk of a large tree or medium tree.

(iv) Parking lots with 101 spaces or more. Except as provided in Paragraph (A):

(aa) No parking space may be located more than 70 feet from the trunk of a large or medium tree.

(bb) Except as provided in this item, a landscape area must be located at each end of a single row of parking spaces and contain a minimum of one large or medium tree.

(I) The building official may waive this requirement in order to preserve existing trees and natural features or due to unique natural site features.

(II) Parking island landscape areas are not required adjacent to handicapped parking spaces.

(cc) Except as provided in this romanette, maximum number of parking spaces allowed between parking island landscape areas is 12.

The building official may waive this requirement in order to preserve existing trees and natural features or due to the presence of unique natural site features.

(dd) No maximum number of parking spaces when a parking row:

(I) abuts a median landscape area running the length of the parking row with a minimum of one tree per 40 linear feet;

(II) abuts a residential buffer zone landscape area; or

(III) abuts a street buffer zone landscape area.

(4) Additional provisions.

(A) Screening of off-street loading spaces.

(i) All off-street loading spaces on a lot with residential adjacency must be screened from that residential adjacency.

(ii) In all districts except CS and industrial districts, all off-street loading spaces on a lot must be screened from all public streets adjacent to that lot.
(iii) The screening required under Subparagraphs (A) and (B) must be at least six feet in height measured from the horizontal plane passing through the nearest point of the off-street loading space and may be provided by using any of the methods for providing screening described in Section 51A-4.602(b)(3).

(B) Site trees.

(i) One tree having a caliper of at least two inches must be provided for each 4,000 square feet of lot area, or fraction thereof, except for industrial and warehouse uses in IM and IR districts, where one tree having a caliper of at least two inches must be provided for each 6,000 square feet of lot area, or fraction thereof.

(ii) Existing protected tree species that are determined by the building official to be healthy may be used to satisfy the site tree requirement, in accordance with the tree credit chart below:

<table>
<thead>
<tr>
<th>CALIPER OF RETAINED TREE</th>
<th>NUMBER OF SITE TREES CREDIT GIVEN FOR RETAINED TREE</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than 2 inches</td>

<td>20</td>
</tr>
</tbody>
</table>

(C) Minimum sizes. Except as provided in Subsection (b) of this section, plant materials used to satisfy the requirements of this division must comply with the following minimum size requirements at the time of installation:

(i) Large and medium trees must have a minimum caliper of two inches, or a minimum height of six feet, depending on the standard measuring technique for the species.

(ii) Small trees must have a minimum height of six feet.

(iii) Large evergreen shrubs must have a minimum height of two feet.

For purposes of this paragraph, "height" is measured from the top of the root ball or, if the plant is in a container, from the soil level in the container. (Ord. Nos. 19455; 19786; 20496; 22053; 24731; 25155; 26333; 28424; 28803; 30239; 30654; 30929)

SEC. 51A-10.126. LANDSCAPE DESIGN OPTIONS.

(a) Points required for a building site. The minimum number of landscape design option points required for a building site are:

<table>
<thead>
<tr>
<th>Lot Size</th>
<th>Points Required</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 999 sf</td>
<td>0</td>

(b) Design options. Points are obtained by meeting design option requirements in order to achieve the total number of points required for the property. Design options and possible points are listed in this subsection. Examples of the design options and their application are provided in the Landscape and Tree Manual.
§ 51A-10.126 Dallas Development Code: Ordinance No. 19455, as amended

(1) **Plant material bonus.** Points may be provided for plant materials added to the landscape design when the required amount of points for a standard design option is deficient by five points or less. All added plant materials must be provided in the front yard. The maximum number of points allowed per building site for the plant material bonus is five.

(A) Large or medium tree caliper increase: One point per additional caliper inch for each required tree (up to a maximum caliper of six inches.)

(B) Additional large shrub plant: 0.25 points.

(C) Additional small tree: 0.5 points.

(D) Additional large or medium tree: one point.

(2) **Buffer zones enhancements.** The maximum number of points allowed per building site for buffer zone enhancements is 20.

(A) Large enhanced buffer zone. Each required buffer zone depth may be increased by a minimum of five feet. This design option is not available if the buffer zone is reduced to no more than five percent of the lot area. Five points.

(B) Small enhanced buffer zone. A required buffer zone depth may be increased by a minimum of two feet. This design option is not available if the buffer zone is reduced to no more than five percent of the lot area. Two points.

(3) **Application of engineered solutions for soil volume.** Points may be obtained when using engineered solutions for soil volume when required trees are planted in impervious environments and meet the minimum requirement for soil volume for a maximum total of 10 points. A minimum of 75 percent of required street buffer trees must meet the soil volume minimum for credits to apply.

(A) Minimum required soil volume: five points.

(B) Increase in soil volume 10 percent above minimum requirement: six points.

(C) Increase in soil volume 15 percent above minimum requirement: seven points.

(D) Increase in soil volume 20 percent above minimum requirement: eight points.

(E) Increase in soil volume 25 percent above minimum requirement: nine points.

(F) Increase in soil volume 30 percent or greater above minimum requirement: 10 points.

(4) **Screening.** An applicant may provide screening from all adjacent public streets for all surface parking lots on a building site or artificial lot that meets the following requirements.

(A) The screening may not be required screening.

(B) The screening must extend along the entire street frontage of the parking lot, excluding:

(i) driveways and accessways at points of ingress and egress to and from the lot; and

(ii) visibility triangles.

(C) Underground parking and enclosed garage parking structures are not considered to be surface parking lots for purposes of this subsection.

(D) The screening may be designed with the following options for a maximum total of 20 points:

(i) **Option 1.** Standard design is provided with screening materials in accordance with Section 51A-4.602 and shrubs with a minimum height of two feet at time of installation and a single row of material. Five points for complete frontage.
(ii) **Option 2.** Enhanced design is provided by a landscape architect and must include a minimum of two plant species in order to provide the full screening effect. 10 points for complete frontage.

(iii) **Option 3.** Grouped beds may be added to Option 1 or Option 2 to complement the screening row with planting beds placed at intervals of a minimum of one per 50 feet of frontage. Five points for complete frontage.

(iv) **Option 4.** A minimum three-foot-tall screening wall may be provided along with the screening plant materials of Option 1 or Option 2. Five points for complete frontage.

(v) **Option 5.** A minimum three-foot-tall berm with groundcover may complement standard screening materials or be used to replace Option 1 or Option 2. Five points for complete frontage.

(5) **Building facade.** Facade planting areas on a building site or artificial lot adjacent to public streets or private driveways may be designed with the following options for a maximum total of 15 points:

(A) **Option 1.** Design is provided along the foundation of the structure. The planting area for the shrubs must be a minimum of three feet in depth and extend along at least 50 percent of the portion of the foundation that faces a street. The shrubs must be spaced no more than six feet apart measured from trunk to trunk. Five points.

(B) **Option 2.** An enhanced design may be provided as designed by a landscape architect. The design may vary from the standard foundation row to create depth and layering of landscaping for visual enhancement contiguous to and extending 15 feet or more from the building facade to complement and soften the foundation of the building. The planting area must be a minimum of five feet in depth. A minimum of two perennial plant species and water conservation irrigation method are required. The landscape area must extend for a minimum of 50 percent of the street-facing facade or a combination of the street-facing facade and the building facade facing a surface parking lot. 10 points.

(C) **Option 3.** An additional grouping of medium or small trees may be added to Option 2 to provide an improved pedestrian environment a maximum of 25 feet from the facade of the structure. A minimum of one tree per 50 feet of front or side yard building facade is required. Five points.

(D) **Option 4.** One small tree or two large shrubs per 30 feet of front facade located a maximum of 15 feet from the facade. Five points.

(6) **Pedestrian uses.** An applicant may provide private or publicly accessible pedestrian amenities. These amenities must occupy a minimum of five percent of the lot area. The amenities may be designed for the following options for a maximum total of 25 points.

(A) **Option 1. Urban streetscape.** A minimum of two of the following types of pedestrian amenities must be provided along street frontages. This option may only be used in an urban streetscape within the street buffer zone. 10 points.

   (i) Benches located at one per 60 feet of street frontage (minimum of two).

   (ii) Pedestrian street lamps (free-standing or wall mounted) at one per 50 feet of street frontage.

   (iii) Enhanced sidewalk with stamped concrete or brick pavers for pedestrian uses for the full width of the sidewalk, along the entire frontage. Pavement cannot be used to meet the enhanced pavement option in Paragraph (7).

   (iv) Minimum unobstructed sidewalk width of eight feet.

   (v) Water feature.
(B) **Option 2. Special amenities.** An applicant may provide private or publicly accessible special amenities to the building site including plazas, covered walkways, fountains, lakes and ponds, seating areas, and outdoor recreation facilities. The credited facilities must occupy at least five percent of the lot area provided in no more than two locations on the lot. The special amenities area must be fully identified on a landscape plan. Private or interior courtyards are excluded. Five points for private amenities and 10 points for publicly accessible amenities.

(C) **Option 3. Adjacency to habitat restoration areas.** Amenities built contiguous to habitat preservation and restoration areas will be credited for their location in or around the habitat when constructed according to a design supporting or enhancing habitat protection. 10 points for private amenities and 15 points for publicly accessible amenities.

(D) **Option 4. Athletic fields.** Open spaces maintained for athletic fields that are a minimum of five percent of the lot. 10 points. For athletic fields on lots greater than 10 acres. 20 points.

(7) **Pavements.** An applicant may provide enhanced pavement. The same pavement cannot satisfy multiple categories. (Note: All vehicular pavement must comply with the construction and maintenance provisions for off-street parking in this chapter.) Maximum total of 15 points.

(A) **Option 1: Enhanced vehicular pavement.** Pavement must be a minimum of 25 percent of all outdoor vehicular pavement on the lot.

(i) **Enhanced texture.** Stamped concrete, sand-blasted, rock-salt finished, pavers on concrete base, stone, etc.: Three points.

(ii) **Enhanced color.** Color is integrated into textured pavement: Three points.

(B) **Option 2: Permeable vehicular pavement.** Pavement must be a minimum of 25 percent of all outdoor vehicular pavement on the lot. Five points.

(C) **Option 3: Enhanced pedestrian walkways.** Enhanced pedestrian walkways must consist of enhanced pavement intended for pedestrian use and occupy at least five percent of the lot.

(i) **Enhanced texture.** Stamped concrete, sand-blasted, rock-salt finished, pavers on concrete base, stone, etc.: Three points.

(ii) **Enhanced color.** Color is integrated into textured pavement: Three points.

(8) **Conservation.** The applicant may create a conservation area on the property. The conservation area must occupy at least five percent of the lot area. Maximum of 25 points.

(A) **Option 1: Tree preservation in the development impact area.** Large or medium trees maintained in the development impact area may be used to meet design option requirements and to meet the requirements for site tree credit in Section 51A-10.125. The trees must be protected and maintained in areas required by this article. Two points for each tree up to a maximum of 10 points. Significant trees may attain five points.

(B) **Option 2: Habitat preservation.** The applicant must preserve existing healthy native and mixed species grassland or woodland areas. Five points.

(C) **Option 3: Habitat preservation and restoration using an active management plan.** The applicant may create or restore natural habitat conditions if designed and implemented by a qualified professional. Site maintenance must be continual for the purpose of sustaining the vegetated area. The option may be combined with low impact development design for the drainage functions of the property. 10 points.

(D) **Option 4: Habitat preservation and restoration - adjacent to primary natural areas.** The applicant may preserve and restore land areas adjacent to wetlands, creeks, floodplain, and slopes which help
§ 51A-10.126 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-10.126 Dallas Development Code: Ordinance No. 19455, as amended

protect creeks, habitat, slopes, and woodland in primary natural areas from the site construction. This option may be combined with pedestrian amenities. The area must be at least five percent of building site area. 15 points.

(9) Low impact development (LID). The applicant may improve the property with low impact development design to manage stormwater flow and provide surface heat abatement. The improvements may be combined for a maximum of 20 points.

(A) Rain garden. Maximum six points.
   (i) 1 to 5,000 square feet: three points; and
   (ii) each additional 1,000 square feet: one point.

(B) Bioswale. Maximum 10 points per bioswale.
   (i) 50 to 100 feet long: three points; and
   (ii) each additional 50 feet: one point.

(C) Water-wise plant materials and planting beds. The applicant may provide landscaping that uses water conservation techniques including water-wise plants, mulch, and efficient irrigation. Maximum 10 points.
   (i) In a minimum of 50 percent of landscape areas: three points.
   (ii) In a minimum of 80 percent of landscape areas: five points.
   (iii) Low-water consumption grasses for 80 percent of turf surfaces: three points.
   (iv) Low-water consumption grasses for all turf surfaces: five points.

(10) Parking lots. The applicant may improve the surface parking and vehicle outside display and storage areas in an interior zone on the property to provide wider landscape areas and an improved shade tree environment. The improvements may be combined for a maximum of 30 points for development impact areas 10 acres or larger and 20 points for development impact areas less than 10 acres.

(A) Option 1: Pedestrian pathways.
   Provide a protected pedestrian pathway, between three feet and 15 feet in width, through a parking lot to a building from a public or private street in an expanded landscape area median with trees and a walkway. A minimum of one large or medium tree is required for each 40 linear feet of pedestrian pathway or landscape area median. Five points.

(B) Option 2: Reduce distance between parking lot landscape islands. Provide no more than 10 parking spaces between landscape areas. Five points.

(C) Option 3: Increase size of parking lot landscape islands. Increase the landscape area to a minimum of 200 square feet for each large or medium tree.
   (i) Increase landscape area of 50 percent of the required parking lot landscape islands. Five points.
   (ii) Increase landscape area of 75 percent of the required parking lot landscape islands. Ten points.

(D) Option 4: Increase landscape area of parking lot landscape islands. Increase the landscape area a minimum of 300 square feet for each large or medium tree.
   (i) Increase landscape area of 50 percent of the required parking lot landscape islands. Seven points.
(ii) Increase landscape area of 75 percent of the required parking lot landscape islands. 12 points.

(E) **Option 5: Additional parking lot landscape islands.** Each additional parking lot landscape island provided - Three points.

(F) **Option 6: Landscape medians.** Provide a minimum 10-foot-wide landscape median with large or medium trees extending the length of a minimum 12-space parking row. Five points for each full median for a maximum of 20 points on the Property.

(G) **Option 7: Landscape medians.** Provide a 12-foot-wide landscape median with large or medium trees extending the length of a minimum 12-space parking row. Seven points for each full median for a maximum of 28 points on the Property.

(H) **Option 8: Landscape medians.** Provide a 16-foot-wide landscape median with large or medium trees extending the length of a minimum 12-space parking row. 10 points for each full median for a maximum of 30 points on the Property.

(I) **Option 9: Large legacy tree.** Provide a large legacy tree in a minimum 500 square foot dedicated open soil area. Two points per tree for a maximum of 20 points.

(J) **Option 10: Pocket park.** Provide a minimum of 2,500 square feet of contiguous open soil landscape area. 20 points.

(11) **General.** The applicant may provide documentation and demonstrate ability to achieve certain conditions.

(A) **Option 1.** Provide Sustainable SITES Initiative documentation and demonstrate ability to attain SITES certified level or greater. 10 points.

(B) **Option 2.** Provide and implement a landscape maintenance plan for a minimum three year period. Three points. (Ord. Nos. 19455; 20496; 22053; 30929)

**SEC. 51A-10.127. WHEN LANDSCAPING MUST BE COMPLETED.**

(a) Except as otherwise provided in Subsection (b), all landscaping must be completed before the final inspection of any building on the lot. If there is an approved landscape plan for the lot, the landscaping must comply with that plan before the final inspection.

(b) If the property owner provides the building official with documented assurance that the landscaping will be completed within six months, the building official may permit the property owner to complete his landscaping during the six-month period. For purposes of this subsection, "documented assurance" means:

(1) a copy of a valid contract to install the landscaping in accordance with the landscape plan within the six-month period; or

(2) a set of deed restrictions containing a covenant to install the landscaping in accordance with the landscape plan within the six-month period. The deed restrictions must:

(A) expressly provide that they may be enforced by the city of Dallas;

(B) be approved as to form by the city attorney; and

(C) be filed in the deed records of the county in which the land is located.

(c) If, at the end of the six-month period, the landscaping has not been installed in accordance with the landscape plan, the owner of the property is liable to the city for a civil penalty in the amount of $200 a day for each calendar day thereafter until the
landscaping is properly installed. The building official shall give written notice to the property owner of the amount owed to the city in civil penalties, and shall notify the city attorney of any unpaid civil penalty. The city attorney shall collect unpaid civil penalties in a suit on the city’s behalf.

(d) The civil penalty provided for in Subsection (c) is in addition to any other enforcement remedies the city may have under city ordinances and state law. (Ord. Nos. 19455; 20496; 22053; 30929)

SEC. 51A-10.128. ENFORCEMENT BY BUILDING OFFICIAL.

Whenever any work is being done contrary to the provisions of this division, the building official may order the work stopped by notice in writing served on any person engaged in the work or causing the work to be done. A person issued this notice shall stop work immediately until authorized by the building official to proceed with the work. (Ord. Nos. 25155; 30929)

Division 51A-10.130. Urban Forest Conservation.

SEC. 51A-10.131. APPLICATION OF DIVISION.

(a) This division applies to all property in the city except for:

(1) except as provided in this section, lots smaller than two acres in size that contain single-family or duplex uses in residential districts; and

(2) lots in an overlay district or a planned development district with tree preservation regulations that vary appreciably from those in this article, as determined by the building official.

(b) In this section, a tree removal property with an area of two acres or less in a residential district is considered to be vacant when an application is made for a demolition permit to demolish a single family or duplex structure. The tree removal property is considered to be vacant until:

(1) the demolition permit is closed (not expired) by the building inspector (reinstating the single family or duplex use); or

(2) a certificate of completion is provided to the tree removal property owner for a new single family or duplex structure for occupancy on the property.

(c) Historic trees on lots smaller than two acres in size that contain single-family or duplex uses in residential districts may be recognized in accordance with Section 51A-10.133. (Ord. Nos. 22053; 25155; 28553; 30929)

SEC. 51A-10.131.1. INTENT.

The city council intends that this division fully comply with state law to encourage the active planting of new trees and the replacement of damaged, injured,
or removed trees by providing alternatives and options that will enhance the urban forest. (Ord. 30929)

SEC. 51A-10.131.1. PLANNED DEVELOPMENT DISTRICTS.

Deviations from this division require a three-quarters vote of the city council. (Ord. 30929)

SEC. 51A-10.132. TREE REMOVAL APPLICATIONS.

(a) Tree removal application and posting.

(1) Except as provided in this subsection, a responsible party must post either an approved tree removal application in accordance with this section or a building permit in a conspicuous place at the entrances to the tree removal property, before removing or seriously injuring a protected tree on that tree removal property.

(2) A tree removal application must be posted in a conspicuous place at the entrance to the tree removal property in conjunction with a demolition permit or a grading permit.

(3) For trees removed from public right-of-way, posting of the required tree removal application is not required.

(b) Application for review. An application required under this section must be filed with the building official on a form furnished by the city for that purpose. The application must include the following:

(1) General. The name, address, telephone number, and signature of the applicant. The applicant may be the owner of the tree removal property or a contracted agent acting for the owner.

(2) Owner information. The name, address, and telephone number of each tree removal property owner.

(3) Tree removal property information. The street address, zoning district, and any overlay district of the tree removal property.

(4) Tree survey or forest stand delineation. One of the following must be provided.

(A) A tree survey that shows the location, diameter, and name (both common and scientific) of all trees on the tree removal property (trees in close proximity that all have a diameter of less than eight inches may be designated as a "group of trees" with only the number noted), or an estimate of the total diameter inches of protected trees, calculated and documented using a tree sampling method determined by the building official to be reasonably accurate. The survey does not have to be prepared by a registered surveyor, architect, or landscape architect. Trees not proposed for removal or serious injury, or located further than 20 feet from proposed construction activity need not be shown on the survey unless the building official determines it would help evaluation of the application.

(B) A forest stand delineation ("FSD") used for the purpose of calculating the total square footage of forest canopy coverage of building sites and providing an ecological assessment of a property. An FSD must be approved by the building official. The building official shall determine the information required to be provided in an FSD. The FSD is applicable to and may be used to calculate:

(i) Tree canopy cover assessment for old-field tree stands and undeveloped lots, two acres or larger, in early succession stages when:

(aa) a stand, or partial stand, with a minimum of 60 percent Class 3, eastern red cedar, or unprotected trees is located in a proposed development impact area;

(B) A forest stand delineation ("FSD") used for the purpose of calculating the total square footage of forest canopy coverage of building sites and providing an ecological assessment of a property. An
FSD must be approved by the building official. The building official shall determine the information required to be provided in an FSD. The FSD is applicable to and may be used to calculate:

(i) Tree canopy cover assessment for old-field tree stands and undeveloped lots, two acres or larger, in early succession stages when:

(aa) a stand, or partial stand, with a minimum of 60 percent Class 3, eastern red cedar, or unprotected trees is located in a proposed development impact area;
§ 51A-10.132

(bb) the forest stand delineation excludes areas within 50 feet of a 100-year floodplain, 50 feet of a wetland, 50 feet of an escarpment zone, or 150 feet of a stream bank;

(cc) the trees in the stand, or partial stand, is designated in an age class of 60 years or less by the building official based on site and historical data; and

(dd) the stand is assessed and surveyed using tree sampling methods which provide general species quantity and tree size determinations based on the use of quadrat plots, a transect line sampling method, point-quarter sampling method, or other method approved by the building official.

(ii) Tree canopy cover credit for single family and duplex construction.

(iii) Tree canopy cover assessment of development impact areas in conjunction with sustainable development incentives.

(iv) Tree canopy cover assessment on properties five acres or larger with institutional and community service uses or recreation uses when the measured tree canopy coverage is the baseline for determining the number of trees required for replacement when using the canopy cover replacement calculation for legacy trees in Section 51A-10.134(c)(7).

(v) Forest analysis for baseline documentation to create a conservation easement.

(vi) Tree canopy cover assessment where trees are removed without authorization.

(5) All permits and approvals related to floodplain, wetland, or escarpment regulations required by city departments or other agencies.

(6) Any other reasonable and pertinent information that the building official determines to be necessary for review.
(c) **Form of approval of tree removal application.** A tree removal application is not approved until it has been signed by the building official.

(d) **Separate offense for each tree removed or seriously injured without a permit.** A responsible party commits a separate violation of this section for each tree removed or seriously injured without authorization by a building permit or approved tree removal application.

(e) **Decision of the building official.** The building official shall deny a tree removal application if the removal or serious injury is not in the public interest. This decision must be based on the following factors:

1. The feasibility of relocating a proposed improvement that would require the removal or serious injury of the tree.
2. The cost of preserving the tree.
3. Whether the lot or tract would comply with this article after the removal or serious injury.
4. Whether the removal or serious injury is contrary to the public health, safety, or welfare.
5. The impact of the removal or serious injury on the urban and natural environment.
6. Whether an economically viable use of the property will exist if the application is denied.
7. Whether the tree is worthy of preservation, is a significant tree, or a historic tree.
8. Whether the tree is diseased or has a short remaining life expectancy.
9. The effect of the removal or serious injury on erosion, soil moisture retention, flow of surface waters, and drainage systems.
§ 51A-10.132 Dallas Development Code: Ordinance No. 19455, as amended

(10) The need for buffering of residential areas from the noise, glare, and visual effects of nonresidential uses.

(11) Whether a landscape plan has been approved by the board of adjustment, city plan commission, or city council.

(12) Whether the tree interferes with a utility service.

(13) Whether the tree is near existing or proposed structures.

(14) Whether the proposed mitigation for tree removal or serious injury is sufficient.

(f) Development impact area waiver. Except as provided in this section, if tree removal is authorized by a building permit for construction of a main structure, a property owner may apply for a waiver of the tree replacement requirements in Section 51A-10.134. The waiver applies to protected trees in the development impact area on properties not listed in Sections 51A-10.131 and 51A-10.134(b), all single family and duplex permits, and properties excepted from Article X landscape requirements in Section 51A-10.121.

(1) Qualifications. The owner must demonstrate a good faith effort to design the building project to preserve the most, the biggest, and the best trees, by providing the following:

   (A) a tree survey and a tree protection plan implemented as required by this division; and

   (B) proof of consultation with a qualified consulting arborist or landscape architect for planning and implementing best management practices to reduce the negative impacts of construction on protected trees before submitting the building permit for approval.

(2) Tree removal property waiver requirements.

   (A) Tree removal properties two acres and larger. All tree removal properties two acres and larger must:

      (i) meet the qualification requirements of Section 51A-10.135(d)(1) for sustainable development incentives;

      (ii) reduce mitigable inches of protected trees on the tree removal property by a minimum of 50 percent through application of tree canopy coverage credit using Sustainable Development Incentives procedures; and

      (iii) develop and implement the sustainable landscape plan and tree preservation plan in Section 51A-10.135(d)(4).

   (B) Tree removal properties less than two acres. The owner must meet all qualifications in Section 51A-10.132(f)(1).

(3) Waivers. The building official shall waive tree replacement requirements for protected trees within the development impact area if the building official determines that all requirements in this subsection are met.

   (A) Limitations. Except as provided in this subsection, the waiver is limited to protected trees in the development impact area on the tree removal property growing within the building footprint, minimum required parking areas, driveways, sidewalks, utility easements, detention areas, areas of grading, excavation areas, and staging areas necessary for construction.

   (B) Waiver calculations. Except as provided in this subparagraph, the number of inches to be waived is determined by providing the total number of inches of protected trees in the applicable locations in the development impact area.
§ 51A-10.132 Dallas Development Code: Ordinance No. 19455, as amended  § 51A-10.133.1

(i) The building official shall not waive mitigation of protected trees for non-required off-street parking spaces. The number of inches waived must be reduced on a pro-rata basis determined by the percentage of non-required parking spaces provided in the parking area. (Example: If the number of parking spaces required is 450; and 521 spaces are being provided on the lot, then the tree mitigation requirements shall not be waived for the 71 excess parking spaces. \[71/450=15.78\%\]).

(ii) The building official shall not waive mitigation of protected trees for an area greater than 70 percent of the tree removal property. Trees must be mitigated on a pro-rata basis if the development impact area exceeds 70 percent of the tree removal property. (Example: If the development impact area is 85 percent of the tree removal property, 15 percent of the trees removed must be mitigated, \[0.85-0.70=0.15\].)

(C) Significant trees. Any significant tree on the tree removal property removed or seriously injured must be replaced and is not eligible for this mitigation waiver.

(D) Primary natural area. The development impact area waiver may not include trees within a primary natural area.

(E) Special exception. A tree removal property with a waiver must fully comply with the minimum landscape requirements without a special exception.

(F) Completion. No waiver is complete until the tree removal property passes a final tree mitigation inspection or landscape inspection and obtains a permanent certificate of occupancy.

(G) Denial. The building official shall deny a development impact area waiver if the building official determines that the owner is in violation of any of the applicable requirements of this division during the period between initial review and final tree mitigation or landscape inspection. If a waiver is denied, the required tree replacement must be completed in accordance with Section 51A-10.134. (Ord. Nos. 22053; 25155; 30929; 31314)

SEC. 51A-10.133. HISTORIC TREES.

(a) A property owner must agree, on a form approved by the director, to have a tree designated as historic before the historic designation can be approved by city council.

(b) Except as provided in this section, historic status lasts for the life of the tree.

(c) A certified copy of the resolution declaring a tree historic must be filed in the deed records of the county where the historic tree is located.

(d) Except as provided in Section 51A-10.140, historic trees may only be removed by authorization of the city council. (Ord. 30929)

SEC. 51A-10.133.1. TRANSPLANTED TREES.

(a) Procedure. Established and healthy protected trees on a tree removal property may be transplanted within the city. The transplanting process must conform to operational and safety standards stated in ANSI A300 (Part 6), as amended, and with ISA Best Management Practices for Tree Planting, as amended.

(1) A protected tree that meets the requirements of this section is not considered removed, or seriously injured, if the transplanted tree is planted and maintained in a healthy growing condition.

(2) Building official approval is required before beginning the transplantation for credit as a landscape tree, for tree replacement, or for acceptance in tree canopy coverage measurements.

(3) The following information is required to obtain building official approval.
(A) An initial assessment report describing transplanting practices from beginning to end of the process, including post-planting care practices.

(B) A tree survey or landscape plan identifying the original and final locations of the protected tree after transplant, as applicable.

(C) Names and contact information of the property owners and contractors.

(D) Contractor credentials and a statement of equipment and procedures to be used for the operation.

(E) Other information required by the building official.

(b) Credit for transplanted trees.

(1) Healthy small trees qualify for one inch of replacement credit for each inch of the transplanted tree.

(2) Healthy large and medium protected trees six inches in diameter or less qualify for one inch of replacement credit for each inch of the transplanted tree.

(3) Healthy large and medium protected trees between seven inches and 12 inches in diameter qualify for two inches replacement credit for each inch of the transplanted tree.

(4) Healthy large and medium protected trees between 12 inches and 24 inches in diameter qualify for three inches of replacement credit for each inch of the transplanted tree.

(5) Healthy large and medium protected trees 24 inches or more in diameter qualify for five inches of replacement credit for each inch of the transplanted tree.

(c) Tree canopy coverage. Transplanted trees may be measured as part of the overall tree canopy coverage of a property in a forest stand delineation as a preserved tree. (Ord. 30929)

SEC. 51A-10.134. REPLACEMENT OF REMOVED OR SERIOUSLY INJURED TREES.

(a) In general. Except as provided in this section, if a tree removal application is approved, a building permit is issued, an unauthorized tree removal occurs, or when a tree is removed from a public right-of-way in conjunction with a private development, one or more healthy replacement trees must be planted in accordance with the requirements in this article.

(b) Exception. Trees removed with a building permit for construction of a single family or duplex dwelling on a lot one acre or less in a residential district are not required to be replaced if the tree was located in the unrestricted zone on the tree removal property. Trees not in the unrestricted zone are subject to replacement.

(1) For front and rear yards, the unrestricted zone does not include required setbacks or the area 15 feet from the property line, whichever is greater.

(2) For side yards, the unrestricted zone does not include required setbacks or the area five feet from the property line, whichever is greater.

(c) Requirements.

(1) Quantity.

(A) Except as provided in this section, the minimum total caliper of replacement trees must equal or exceed the total classified diameter inches of the protected trees removed or seriously injured as listed below.
§ 51A-10.134 Dallas Development Code: Ordinance No. 19455, as amended

(B) Tree classification for mitigation:

(i) Historic trees: 3:1

(ii) Significant: 1.5:1

(iii) Class 1: 1:1

(iv) Class 2: 0.7:1

(v) Class 3: 0.4:1

(2) Species.

(A) A replacement tree must be an approved tree determined by the director.

(B) For a tree removal property two acres in size or more, no one species of tree may constitute more than 35 percent of the replacement trees planted on the tree removal property.

(3) Location. The replacement trees must be planted on the lot from which the protected tree was removed or seriously injured, except as otherwise allowed by Section 51A-10.135. Replacement trees may not be planted within a visibility triangle, a water course, in an area within 15 feet horizontally to the closest point of an overhead electric line, or an existing or proposed street or alley unless the tree is authorized by a license and permit and is required to be in that location by other ordinance.

(4) Minimum size. A replacement tree must have a caliper of at least two inches.

(5) Timing.

(A) Except as provided in this section, all replacement trees must be planted within 30 days of removal.

(B) If the property owner provides the building official with an affidavit stating that all replacement trees will be planted within six months, the building official may allow the replacement trees to be planted during that six-month period.

(i) If the property owner submits an application for a building permit for construction on the tree removal property within the six-month period, the tree replacement requirements may be transferred to the building permit for final completion of all tree replacement prior to a final certificate of occupancy or certificate of completion for the property.

(ii) If the property owner does not submit an application for a building permit for construction within the six-month period, all tree replacement must be completed within 30 days after the expiration of the six-month period.

(C) For residential subdivision developments and multi-phase commercial developments, tree replacement may be completed in accordance with a comprehensive tree replacement plan for the development. The building official may allow the property owner additional time to complete the development project to plant the replacement trees, with the following restrictions:

(i) A proposed landscape plan identifying all conceptual landscaping for the properties within the subdivision must be provided by a landscape architect and designed according to the soil and area requirements of this article. The proposed plan will specify the minimum tree size and general species distribution for the properties in accordance with this article. The tree replacement for the development identified on the proposed plan must be completed prior to the final certificate of occupancy or certificate of completion for the project.

(ii) All required tree replacement that is not scheduled by an approved design for the property under the comprehensive tree replacement plan must be completed within six months of issuance of the tree removal application or building permit for removing trees.
§ 51A-10.134 Dallas Development Code: Ordinance No. 19455, as amended

(6) Forest stand delineation exceptions for old-field and undeveloped lots. When an FSD, under Section 51A-10.132(b)(4)(B) is used to assess tree canopy coverage:

(A) except as provided in this paragraph, no mitigation is required for a tree stand when:

(i) at least 60 percent of the trees in the stand are Class 3, eastern red cedar, or unprotected species; and

(ii) the average tree diameters in the stand are less than 12 inches DBH.

(B) significant trees in a stand located on an old-field or undeveloped lots must be mitigated.

(7) Additional requirements for forest stand delineation for properties five acres or greater with institutional uses or recreational uses. When an FSD under Section 51A-10.132(b)(5)(D) is used to assess tree canopy coverage:

(A) the tree removal property must maintain or increase the tree canopy coverage for the property recorded in the most recent FSD; and

(B) significant trees that are included in the FSD tree canopy coverage must be replaced according to the diameter standards for significant trees in this article.

(C) A replacement tree that dies within five years of the date it was planted must be replaced by another replacement tree that complies with this section. (Ord. Nos. 22053; 25155; 30929)

SEC. 51A-10.135. ALTERNATIVE METHODS OF COMPLIANCE WITH TREE REPLACEMENT REQUIREMENTS.

(a) In general. If the building official determines that, due to restrictive site conditions, it would be impracticable or imprudent for the responsible party to plant a replacement tree on the tree removal property, the responsible party shall comply with one or more of the mitigation methods in this section.

(b) Mitigation by legacy trees.

(1) Lots or artificial lots smaller than five acres on properties that are not using sustainable development incentives may attain replacement credit for planting legacy trees on the tree removal property.

(2) Each tree planted and designated as a legacy tree is given a 12 inch replacement credit.

(3) For lots containing a single-family or duplex use, credit will only be provided for legacy trees planted in the portion of the lot that abuts a street and extends across the width of the lot between the street and a main building and lines parallel to and extending outward from the front facade of a main building.

(c) Habitat preservation and restoration areas.

(1) Habitat preservation and restoration areas that are established to provide a dedicated open landscape area for native flora and fauna habitat preservation or restoration may be credited toward tree mitigation.

(2) To receive credit, habitat preservation and restoration areas must be a minimum of 1,200 square feet of contiguous area, as shown on a landscape plan.
(3) Credit will only be given for a maximum of 2,400 square feet of habitat and preservation area or 20 percent of the tree canopy cover goal for the property, as determined by the street typology of the adjacent street in Section 51A-10.135(d)(2)(A), whichever is greater.

(4) Every 1,200 square feet of habitat preserved that is not under a tree canopy may be counted as 12 diameter inches of tree replacement credit.

(5) These areas must be actively monitored and managed to be fully sustained as a protected habitat area including compliance with a maintenance plan provided to the building official.

(d) Sustainable development incentives. Sustainable development incentives must be calculated on a form provided by the director.

(1) Requirements. For a development to qualify for sustainable development incentives it must meet the requirements in this subsection.

(A) Properties must be a minimum of two acres with no residential uses except multifamily uses and shared access developments.

(B) Properties must contain commercial or multifamily uses or a shared access development.

(C) Before a building permit is issued, a consulting arborist or landscape architect must provide the following to the building official:

   (i) A forest stand delineation.

   (ii) A conceptual landscape plan identifying tree preservation, areas, natural features, landscape areas, proposed buildings, and any other site elements or improvements in as much detail as possible.

   (iii) A soil resource assessment for all landscape areas.

   (iv) A consulting arborist is required;

   (i) for design and implementation of a tree protection plan and soil resource assessment;

   (ii) to periodically inspect preserved trees;

   (iii) to insure the standards for legacy tree plantings are implemented; and

   (iv) to confirm compliance with these requirements to the building official before the final landscape inspection.

   (D) All healthy top soils disturbed during construction must be restored.

   (E) Development must be fitted to the topography and soils to minimize cut-and-fill sections.

   (F) Grading and clearing in or around the development impact area may not encroach in a primary natural area, except in conjunction with the construction of drainage facilities, approved through engineering review.

   (i) Grading near preserved trees and around the edge of the development impact area must be planned and implemented to insure minimal impact to natural topography, watercourses, vegetation, and wildlife.

   (ii) Indigenous vegetation must be retained and protected except in development impact areas or to control or remove invasive plants.

   (G) Utility easement planning and locations must be designed to insure minimal impact to preserved trees and primary natural areas.

   (H) All tree preservation and legacy tree plantings must fully comply with the tree protection requirements and soil area and tree spacing standards of this article.

   (I) A consulting arborist is required;
(J) Irrigation standards must be designed for efficient water conservation management on the property including dedicated irrigation for all legacy trees.

(K) A site maintenance schedule and implementation plan for site sustainability covering a minimum of five years must be approved by a consulting arborist or landscape architect and fully implemented. The schedule and plan must be available at the property.

(2) Pre-development assessment.

(A) Tree canopy cover goal and credit. The combined tree canopy cover of existing preserved trees, planted legacy trees, and planted landscape trees, shown on the final approved landscape plan, determines the tree canopy cover credit for sustainable development incentives.

(i) The combined preserved and planted legacy and landscape tree canopy cover measured in square feet is compared to the tree canopy cover goal for the property to determine the percentage of tree replacement reduction to be provided.

(ii) The tree canopy cover goal for the property is determined by the street typology of the adjacent streets. In this subsection, street typology is determined using the Complete Streets Manual, unless another publication is designated by the building official. Where a building site faces two or more street frontages with differing typologies, the greater canopy cover goal controls.

<table>

<td>25 percent</td>
</tr>
<tr>
<td>Parkways</td>
<td>45 percent</td>
</tr>
</tbody>
</table>

Canopy cover goal percentages are converted to square feet by multiplying the percent and the total square footage of the building site.

(B) Tree mitigation deductions. Tree mitigation deductions are subtracted from the total replacement tree requirements for the building site to calculate the base mitigation requirement in diameter inches. Available tree mitigation deductions are:

(i) Old-field mitigation reduction credit under Section 51A-10.134(c)(6).

(ii) Transplanted tree on site credit under Section 51A-10.133.1(c).

(3) Sustainable development credits.

(A) Tree canopy cover credit.

(i) Canopy cover credit square footage is divided by the tree canopy goal for the building site, measured in square feet, to obtain the percentage reduction.

(ii) The base mitigation requirement is reduced by the percentage above to determine the number of inches of mitigation remaining due.

(B) Preserved tree canopy credit.

(i) Preserved tree canopy cover is determined by completing a forest stand delineation and a conceptual landscape plan showing the protected trees to be preserved.

(ii) Preserved tree canopy cover credit, measured in square feet, must be confirmed before final inspection. Preserved tree canopy cover in a primary natural area is calculated at a rate of 0.25:1.

(C) Landscape tree canopy credit. Large and medium nursery stock landscape trees may be counted towards the tree canopy cover total for a building site at a rate of 300 square feet per tree.
(D) Legacy tree canopy credit. Large or medium legacy trees may be installed in enhanced landscape areas for legacy tree credit. Legacy tree credit is determined as follows:

(i) Large legacy trees are counted towards the tree canopy cover total at a rate of 1,200 square feet per tree.

(ii) Medium legacy trees are counted towards the tree canopy cover total at a rate of 750 square feet per tree.

(4) Green site points.

(A) Additional tree mitigation reductions are available through enhanced site planning and design, landscape, and water conservation improvements that directly promote urban forest conservation.

(B) Required green site points are calculated by determining the percentage of the tree canopy cover goal or the percentage of existing tree canopy cover compared to the overall building site area before development. The percentage is rounded and converted to points at a 1:1 ratio (i.e., 30 percent = 30 points).

(i) For building sites three acres or less, the required number of points is determined by the tree canopy cover goal or the tree canopy cover before construction, whichever is greater.

(ii) For all other building sites, the required number of points is determined by the tree canopy cover before construction, but must be a minimum of 50 points.

(C) Green site points from enhanced landscaping are determined as follows:

(i) Green site landscape plan. Five points. A green site landscape plan must meet the minimum standards of this article, be designed by a landscape architect, and include the following:

(aa) a plan for the design, implementation, and maintenance of a water-wise program and water-wise planting materials on a minimum of 75 percent of development impact area; and

(bb) a soil resource assessment throughout development for all landscape areas and required trees.

(ii) Tree preservation plan. Five points. A tree preservation plan must include a tree protection plan, soil resource assessment, and a complete tree survey performed by a consulting arborist. The tree preservation plan must be implemented and monitored by a consulting arborist. A report of soil planting conditions and tree protection during construction is required before a final landscape inspection.

(iii) Engineered solutions in an urban streetscape for replacement trees. 10 points maximum. A building site must have a minimum of five landscape design option points to qualify. Green site points are awarded when engineered solutions allow required large or medium trees in the street buffer zone to be planted in impervious environments. Soil volume must be a minimum of 480 cubic feet per required tree. A minimum of 75 percent of required street buffer trees must meet the soil volume minimum for credits to apply.

(aa) Minimum required soil volume: five points

(bb) Increase in soil volume 10 percent above minimum requirement: six points.

(cc) Increase in soil volume 15 percent above minimum requirement: seven points.

(dd) Increase in soil volume 20 percent above minimum requirement: eight points.

(ee) Increase in soil volume 25 percent above minimum requirement: nine points.
§ 51A-10.135  Dallas Development Code: Ordinance No. 19455, as amended

(ff) Increase in soil volume 30 percent or greater above minimum requirement: 10 points.

(iv) Enhanced buffer zone and increased landscape area. 15 points maximum. A building site must have a minimum of 10 landscape design option points in street buffer zone and residential buffer zone enhancements to qualify. A street buffer zone or residential buffer zone may be enlarged by a minimum average of five feet deeper than the required average buffer depth. Five points for each five feet average increase in depth along each buffer zone on the building site.

(v) Conservation through tree preservation or habitat restoration, 20 points maximum. A building site must have a minimum of 10 landscape design option points to qualify. Conservation or preservation programs on the tree removal property may qualify for credits where primary natural areas and secondary natural areas are retained for conservation purposes. Each individual area must be identified on the landscape plan and must be a minimum of five percent of the building site.

(aa) Habitat preservation. Five points. The applicant must preserve existing healthy native and mixed species grassland or woodland areas.

(bb) Habitat preservation and restoration using an active management plan. 10 points. The applicant may create or restore natural habitat conditions if designed and implemented by a qualified professional. Site maintenance must be continual for the purpose of sustaining the vegetated area. Five additional points is available for each additional area.

(cc) Habitat preservation, restoration, and maintenance of natural forest edge using an active management plan - adjacent to primary natural areas. 15 points. The applicant may preserve and restore land areas adjacent to wetlands, creeks, floodplain, and slopes which help buffer the protected creeks, slopes, habitat and woodland in primary natural areas from the development impact area. An additional five points may be allotted if 90 percent of the development impact area boundary adjacent to the primary natural area is a minimum of 100 feet from the primary natural area.

(D) Low impact development. 20 points maximum. A building site must have a minimum of six landscape design option points to qualify.

(i) Rain garden. Maximum 10 points.

(aa) One to 5,000 square feet: three points; and

(bb) each additional 1,000 square feet: one point.

(ii) Bioswale. Maximum 15 points per bioswale.

(aa) 50 to 100 feet long: three points; and

(bb) each additional 50 feet: one point.

(iii) Water-wise plant materials and planting beds. Maximum 10 points. The applicant may provide landscaping that uses water conservation techniques including water-wise plants, mulch, and efficient irrigation.

(aa) For providing water conservation techniques in a minimum of 50 percent of landscape areas: three points; or

(bb) in a minimum of 80 percent of landscape areas: five points.

(cc) For providing low-water consumption grasses for 80 percent of turf surfaces: three points; or
§ 51A-10.135 Dallas Development Code: Ordinance No. 19455, as amended

(dd) low-water consumption grasses for all turf surfaces: five points.

(E) Surface parking lots. The applicant may improve the interior zone to provide wider landscape areas and an enhanced shade tree environment. The enhancements may be combined for a maximum of 30 points. An additional five points are available if the building site achieves a 50 percent or greater projected tree canopy coverage over the parking lot with combined existing trees, legacy trees, and landscape trees.

(i) **Option 1.** Provide a protected pedestrian pathway that is between three feet in width and 15 feet in width, through a parking lot to a building from a public or private street or the expansion of a wide landscape median with trees and a walkway through the parking lot. A minimum of one large or medium tree is required for each 40 linear feet of pedestrian pathway or landscape median. Five points.

(ii) **Option 2.** Provide a maximum of 10 parking spaces between parking lot landscape islands. Five points.

(iii) **Option 3.** Increase the parking lot landscape area to a minimum of 200 square feet for each large or medium tree.

(aa) Increase of 50 percent of the required parking lot landscape islands. Five points.

(bb) Increase of 75 percent of the required parking lot landscape islands. 10 points.

(iv) **Option 4.** Increase the parking lot landscape area to a minimum of 300 square feet for each large or medium tree.

(aa) Increase of 50 percent of the required parking lot landscape islands. Five points.

(bb) Increase of 75 percent of the required parking lot landscape islands. 10 points.

(v) **Option 5.** Each additional parking lot landscape island provided. Three points.

(vi) **Option 6.** Provide a minimum 10-foot-wide landscape median with large or medium trees extending the length of a minimum 12 space parking row. Five points.

(vii) **Option 7.** Provide a 12-foot-wide landscape median with large or medium trees extending the length of a minimum 12 space parking row. 10 points for each full median for a maximum of 20 points on the lot.

(viii) **Option 8.** Provide a 16-foot-wide landscape median with large or medium trees extending the length of a minimum 12 space parking row. 15 points for each full median for a maximum of 30 points on the lot.

(ix) **Option 9.** Provide a minimum of 2,500 square feet of contiguous open soil surface area to serve as a pocket park. 20 points.

(F) Conservation easement. 10 points. The applicant may protect the primary and secondary natural areas on the building site adjacent to the development indefinitely through a conservation easement.

(G) Public deed restriction. Five points. The applicant may protect the primary and secondary natural areas on a building site with a public deed restriction for a minimum time-period of 25 years with 25 year automatic renewal provisions.

(e) Tree canopy cover credit for single family and duplex uses. To reduce tree replacement requirements, a portion of existing tree canopy coverage over a single family or duplex construction building site must be preserved.

(1) The tree canopy cover goal is 40 percent of the building site.
§ 51A-10.135 Dallas Development Code: Ordinance No. 19455, as amended

(2) Healthy large and medium trees preserved on the building site, including boundary trees, may be included in tree canopy cover calculations. Invasive trees and trees located within 20 feet on center of the nearest overhead public electric line are not included in the calculation.

(3) Each large and medium nursery stock tree planted as landscaping may also qualify as 300 square feet of tree canopy cover. If the tree canopy cover goal is met, additional landscape trees are not required, except that one tree must be provided in the front yard.

(4) Healthy large and medium trees preserved in the required front yard setback may qualify for double the total square footage of preserved tree canopy coverage.

(5) Boundary trees located on adjacent private property must be protected to the drip line according to the tree protection plan.

(6) The tree canopy cover must be measured by a forest stand delineation, verified and approved by the building official. The forest stand delineation must be provided by a consulting arborist.

(f) Conservation easement. Tree mitigation requirements may be reduced by granting a conservation easement to the city in accordance with this subsection.

(1) The conservation easement area must contain protected trees with a combined diameter equal to or exceeding the classified diameter inches for which replacement tree credit is being requested.

(2) The conservation easement area must be a minimum of 20 percent of the size of the development impact area on the tree removal property and must be:

   (A) configured primarily for urban forest conservation and preservation by protecting natural topography, waterways, forest vegetation, and wildlife habitation; and

   (B) a suitable size, dimension, topography, and general character for its intended purpose.

(3) No portion of the conservation easement may be narrower than 50 feet in width.

(4) A conservation easement must have frontage on an improved public street or have public access through private property to a public street.

(5) The city manager is authorized to accept and approve on behalf of the city a conservation easement to conserve trees and other natural features, upon:

   (A) approval as to form by the city attorney;

   (B) submission by the applicant of a metes and bounds property description prepared by a licensed surveyor; and

   (C) a determination by the building official that the easement area is suitable for conservation purposes, based on:

   (i) the submission of baseline documents prepared by a qualified professional describing the property's physical and biological conditions, the general age of any tree stands, locations of easements and construction, and the conservation values protected by the easement;

   (ii) the likelihood that the proposed conservation easement area would preserve vegetation on a parcel otherwise attractive for development;

   (iii) the overall health and condition of the trees on the conservation easement property, and the extent of invasive and exotic plants on the property and a strategy to manage the population;

   (iv) the suitability of the area as a wildlife habitat;
§ 51A-10.135 Dallas Development Code: Ordinance No. 19455, as amended

(v) other unique features worthy of preservation, e.g. water channels, rock formations, topography, or rare herbaceous or woody plant species; and

(vi) the preservation of undeveloped areas located in a flood plain on a building site before and after construction, except as authorized by the director for engineering infrastructure.

(6) The conservation easement may be structured to be monitored and managed by a nonprofit association dedicated to the conservation of land, with the city as a joint grantee having the right, but not the duty, to monitor the management of the conservation area.

(7) The city manager may not accept a sole or joint conservation easement on behalf of the city, unless and until the owner provides the building official with:

   (A) a tree survey as set forth in Section 51A-10.132, or an estimate of the caliper and type of protected trees documented in a manner determined to be reasonably accurate by the building official, or a forest stand delineation verified and approved by the building official; and

   (B) a preservation strategy for the conservation easement area.

(8) No person may place playground equipment or park amenities in a conservation easement area unless the building official has made a written determination that the amenities indicated on a site plan are unlikely to be detrimental to the conservation easement area.

(9) Conservation easement areas must be located wholly within the Dallas city limit.

(g) Use of other property for tree replacement. Replacement trees that cannot be planted on the tree removal property, and for which credit is not given through a conservation easement, may be replaced by the methods in this subsection. The applicant may:

   (1) provide a replacement tree to a city department for planting on city property, with the approval of the director of the city department.

   (2) plant a replacement tree on property in the city that is within five miles of the tree removal property as long as the responsible party obtains the written approval of the building official and provides:

      (A) a site plan indicating the location of the tree to be removed or seriously injured, the address of the property where the replacement tree will be planted, and a site plan indicating the location of the replacement tree; and

      (B) a written agreement between the owner of the property where the replacement tree will be planted and the responsible party, to transfer responsibility for the replacement tree under this article to the receiving party.

   (i) The agreement may be structured to allow a non-profit association dedicated to tree advocacy or the conservation of land to monitor and manage the replacement trees.

   (ii) The agreement must include a written affidavit by the owner of the property where the replacement tree will be planted agreeing to maintain the tree for five years and to be the responsible party for the replacement tree.

   (C) A responsible party who obtains permission to plant the replacement tree on other tree replacement property in the city shall ensure that the planting and maintenance of the tree on the other tree replacement property complies with the requirements of this article.

   (h) Park land dedication. Preserved protected trees on dedicated park land and private park land may be used to meet tree mitigation requirements in accordance with Subsection (f).
§ 51A-10.135 Dallas Development Code: Ordinance No. 19455, as amended

(1) Except as provided in this subsection, to be eligible for tree mitigation credits, dedicated park land and private park land must meet the conservation easement standards in Sections 51A-10.135(f)(1), 51A-10.135(f)(3), and 51A-10.135(f)(5).

(2) Park land dedication requirements may be met on an acre for acre basis for any land dedicated as a conservation easement under this section that meets the conservation easement standards in this section and the requirements for publicly accessible private park land in Section 51A-4.1007(b)(2)(A)(i) and is accepted by the director of the park and recreation department.

(i) Reforestation fund.

(1) Mitigation requirements may be met by making a payment into a special city account, to be known as the Reforestation Fund in accordance with this subsection.

(2) The director shall administer the reforestation fund to purchase trees to plant on public property, to create an urban forest master plan and to update it periodically, to fund a staff position for managing and directing the fund for planting and urban forest education, or to acquire conservation easements or wooded property. A minimum of 50 percent of all funds provided for each fiscal year must be available to planting trees on public property or to acquire conservation easements or wooded property.

(3) The amount of the payment required is calculated by using the formula for appraising the value of a tree, as derived from the most recent edition of the Guide for Plant Appraisal published by the Council of Tree & Landscape Appraisers, unless another publication is designated by the building official. If more than one tree is being removed or seriously injured or not planted, the values of the trees are added when calculating the payment required.

(4) All property purchased through this fund must be located within the city of Dallas. (Ord. Nos. 25155; 28073; 28553; 30929; 30934, eff. 7/1/19)

SEC. 51A-10.136. CONSERVATION AND MAINTENANCE OF PROTECTED TREES DURING CONSTRUCTION OR OTHER DISTURBANCE.

(a) City property. Except as provided in this section, trees on city property:

(1) must be established and maintained in accordance with ANSI A300 standards for tree care operations and the ISA Best Management Practices; or

(2) the American Standard for Nursery Stock Z60.

(b) In general. Where a property owner plans to retain protected trees on a site to be developed or otherwise disturbed in a manner that may affect protected trees, the following requirements must be met:

(1) Tree protection plan in general. A tree protection plan submitted to the building official must meet the specifications found in ANSI A300 Standards for Tree Care Operations, as amended, and ISA Best Management Practices.

(2) Tree protection plan additional requirements. A tree protection plan must include the following:

(A) A site plan drawn to scale, indicating the location of land disturbance, clearing, grading, trenching, tree protection zones, general projection of the tree canopy area over the property, proposed underground utilities, staging areas for parking, material storage, concrete washout, and debris burn and burial holes where these areas might affect tree protection, and areas where soil compaction is likely to occur in a tree protection zone due to traffic or materials storage.

(B) A complete tree survey in accordance with the requirements set forth in Section
§ 51A-10.132, or a forest stand delineation approved by
the building official. Significant and historic trees must
be specifically designated on the survey.

(C) Detailed drawings and descriptions
of any of the following tree protection measures that
will be used during development.

(i) Tree protection fencing. Tree
protection fences must be constructed within the
development impact area unless an alternative is
approved by the building official on the tree protection
plan.

(aa) Except as provided in this
subparagraph, tree protection fences must be a
minimum of four feet high, constructed with adequate,
durable material (e.g. orange plastic construction
fencing) approved by the building official, and located
at the drip line or the edge of the critical root zone,
whichever is farthest from the trunk, unless the
building official determines that a fence line closer to
the trunk will not be likely to result in damage to the
tree. The building official may require an expansion of
the critical root zone or approved encroachment. Once
established, the fence line must remain in place as
approved.

(bb) Tree protection fences
located in the development impact area within 15 feet
of construction activity must be a minimum of
six-feet-high and constructed of chain-link, wire-mesh,
or wood fence materials, and be solidly anchored to the
ground if:

(I) a required tree
protection fence located within the critical root zone of
a protected tree on the property is determined by the
building official to be in violation of this subsection;

(II) a significant or
historic tree is located within a development impact
area;

(III) a tree preservation
plan for sustainable development incentives is designed
for the preservation of protected trees within the area
of construction activity; or

(iv) Transplanting specifications.
Trees to be transplanted on property, or relocated from
a remote property, must conform to the specifications
found in ANSI A300 Standard for Tree Care
Operations, as amended.

(v) Tree wells, islands, retaining
walls, and aeration systems.

(vi) Staking specifications.

(vii) Soil and root protection.

(viii) Trunk protection.

(ix) Tree and site watering plan.

(c) Clearing. For clearing invasive, exotic, or
unprotected vegetation on a building site, a forest
stand delineation is required. The building official may
require a tree protection plan to be provided on all or
a portion of the building site.

(d) Implementation of tree protection plan.

(1) The responsible party must install and
maintain all tree protection measures indicated in the
approved plan prior to and throughout the land
disturbance process and the construction phase.
§ 51A-10.136 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-10.137

(2) No person may disturb the land or perform construction activity until the required tree protection measures have been inspected by the building official.

(3) The responsible party must mulch areas where soil compaction is likely to occur as indicated on the plan with a minimum four-inch layer of wood chip mulch, or by other options listed in ISA Best Management Practices, or methods and materials recommended by a consulting arborist and approved by the building official.

(4) If a cut is made to the root of a tree that is not intended to be removed or seriously injured as indicated on the plan, the cut must be made at a 90 degree angle.

(5) The responsible party must tunnel utilities if utilities are to run through a tree protection zone, rather than being placed along corridors between tree protection zones.

(6) The responsible party must provide water to the tree protection zone as needed due to weather or site conditions, with penetration between six and 18 inches of soil.

(e) Damage to protected trees. Where the building official has determined that irreparable damage has occurred to trees within tree protection zones, the responsible party must remove and replace those trees. The building official may determine that irreparable damage to a tree has occurred based on, but not limited to, the following factors:

(1) site evaluation;

(2) visible extensive damage to a tree root system;

(3) extensive soil compaction around the tree protection zone;

(4) visual evidence that required tree protection has been removed or is in disrepair; or

(5) a tree risk assessment by a consulting arborist that includes the current condition and proposed remedial measures.

(f) Topping. Topping is not an acceptable practice. (Ord. Nos. 22053; 25155; 30929)

SEC. 51A-10.137. VIOLATION OF THIS DIVISION.

(a) Stop work order. Whenever any work is being done contrary to the provisions of this division, the building official may order the work stopped by notice in writing served on any person engaged in the work or causing the work to be done. A person issued this notice shall stop work immediately until authorized by the building official to proceed with the work.

(b) Mitigation. The building official may require mitigation for the removal, or serious injury, of protected trees without a tree removal application or a building permit upon written notice of a violation of this division.

(1) Mitigation may include:

(A) replacement of nursery stock trees on the property based on a tree mitigation plan provided by the responsible party, if it is determined by the building official that it is practicable to plant trees on the tree removal property;

(B) other alternative methods of compliance in this article when approved by the building official; or

(C) a fee to be applied to the Reforestation Fund, with the amount determined in Section 51A-10.135.

(2) The responsible party must provide a tree survey or a forest stand delineation identifying all tree sizes and species, or tree canopy coverage, on the property.
(A) If the responsible party fails to provide the required information within 30 days of the notice of violation the building official may conduct a forest stand delineation using aerial imagery, field analysis, or other reasonable and pertinent information to review and identify the square footage of tree canopy coverage on the property.

(B) Required mitigation is calculated as follows:

(i) When tree size and species are identified in a verifiable survey provided by a consulting arborist and approved by the building official. Mitigation is required in accordance with Section 51A-10.134.

(ii) When protected trees have been removed with no measurable remaining evidence. Mitigation is required in accordance with Section 51A-10.134 as determined using the following calculation.

(aa) The tree canopy coverage area is estimated by measuring the tree canopy coverage area shown in an aerial image no older than three years before notice of violation.

(bb) The estimated tree canopy coverage area, in square feet, on the tree removal property is divided by 1,200 square feet to determine an estimated number of trees for the area.

(cc) The number of trees is multiplied by eight inches as the estimated average of trees to determine the inches of the trees to be replaced.

(iii) Reforestation fund.

(aa) The number of inches to be replaced for trees not located in a primary natural area is multiplied by the Class 2 base rate (0.7:1) to calculate reforestation fund value.

(bb) The number of inches to be replaced for trees located in a primary natural area is multiplied by the Class 1 base rate (1:1) to calculate reforestation fund value.

(3) Upon a finding by the building official that tree canopy coverage removal has occurred, the building official shall give written notification to the responsible party. Tree replacement or mitigation must be completed within 90 days of the date of the notification. (Ord. Nos. 22053; 25155; 30929)

SEC. 51A-10.138. APPEALS.

In considering an appeal from a decision of the building official made in the enforcement of this division, the sole issue before the board of adjustment shall be whether or not the building official erred in his or her decision. The board shall consider the same standards that the building official was required to consider in making the decision. (Ord. Nos. 22053; 25155; 30929)

SEC. 51A-10.139. FINES.

A person convicted of violating this division shall be subject to a fine of not less than $2,000.00 per protected tree removed or seriously injured without authorization, and not less than $2,000.00 per day for any other violation of this division. (Ord. Nos. 22053; 25155; 30929)

SEC. 51A-10.140. CRIMINAL RESPONSIBILITY, AND DEFENSES TO PROSECUTION.

(a) A person is criminally responsible for a violation of this division if the person:

(1) removes or seriously injures, or assists in the removal or serious injury of, a protected tree without complying with the requirements of this division; or
(2) owns part or all of the land where the violation occurs.

(b) It is a defense to prosecution under this section that the act is included in one of the enumerated categories listed in this section. A tree removal application or tree replacement is not required if the tree:

(1) was dead and the death was not caused by an intentional or negligent act of the owner or an agent of the owner;

(2) had a disease or injury that threatened the life of the tree and was not caused by an intentional act of the owner or an agent of the owner;

(3) was in danger of falling or had partially fallen and the danger or the fall was not due to an intentional act of the owner or an agent of the owner;

(4) was in a visibility triangle (unless the owner was legally required to maintain the tree there) or obstructed a traffic sign;

(5) interfered with service provided by a public utility within a public right-of-way;

(6) threatened public health or safety, as determined by one of the following city officials:

(A) the chief of the police department;

(B) the chief of the fire-rescue department;

(C) the director of public works;

(D) the director of transportation;

(E) the director of sanitation services;

(F) the director of code compliance;

(G) the director of park and recreation;

(H) the director of sustainable development and construction; or

(I) the director of aviation.

(7) was designated for removal without replacement in a landscape plan approved by the city council, city plan commission, or board of adjustment;

(8) interfered with construction or maintenance of a public utility or public right-of-way; or

(9) was removed or seriously injured to allow construction, including the operation of construction equipment in a normal manner, in accordance with infrastructure engineering plans approved under Article V of Chapter 49 or street paving and grading in a public right-of-way, storm drainage easement, detention or retention pond designation, or bridge construction, for private development. (Ord. Nos. 22053; 23694; 25047; 25155; 28073; 28424; 30239; 30654; 30929)
Dallas Development Code: Ordinance No. 19455, as amended

[Intentionally left blank]
ARTICLE XII.

GAS DRILLING AND PRODUCTION.

Division 51A-12.100. In General.

SEC. 51A-12.101. PURPOSE.

These regulations are intended to protect the public health, safety, and welfare; minimize the impact of gas drilling and production on surrounding property owners and mineral-rights owners; protect the environment; and encourage the safe and orderly production of mineral resources. (Ord. Nos. 26920; 29228)

SEC. 51A-12.102. DEFINITIONS.

(a) In this article, technical terms that are not defined have the meaning customarily attributed to them in the gas drilling and production industry by prudent and reasonable operators.

(b) In this article:

(1) ABANDONMENT means the discontinuation of a well or an operation site as approved by the Texas Railroad Commission and in compliance with this article.

(2) AMBIENT NOISE LEVEL means the all-encompassing noise level associated with a given environment, being a composite of sounds from all sources at the location, constituting the normal or existing level of environmental noise at a given location.

(3) BASE FLOOD means the flood having a one percent chance of being equalled or exceeded in any given year. See Article V.

(4) BLOWOUT PREVENTER means a mechanical, hydraulic, pneumatic, or other device or combination of devices secured to the top of a well casing, including valves, fittings, and control mechanisms, that can be used to completely close the top of the casing and prevent the uncontrolled flow of gas or other fluids from the well.

(5) COMPLETION means the date that drilling or reworking of the well has ended and gas is flowing to a sales or distribution point.

(6) CLOSED-LOOP SYSTEM means a system that uses sealed tanks, instead of reserve pits, to collect the drilling waste.

(7) DAYTIME HOURS means 7:00 am to 7:00 pm, Monday through Friday, and 8:00 am to 6:00 pm, Saturdays. Sundays and city holidays are not considered daytime hours.

(8) DRILLING means digging or boring a new well to explore for or produce gas.

(9) EQUIPMENT means any apparatus, machinery, or parts thereof used, erected, or maintained in connection with gas drilling or production.

(10) FRACTURING means the injecting of water into a well to cause pressure that will open up fractures already present in the formation.

(11) FLOWBACK means the process of flowing a fractured or completed well to recover water and residual sand from the gas stream before sending gas down a sales line.

(12) GAS means (1) any fluid, either combustible or noncombustible, that is produced in a natural state from the earth and that maintains a gaseous or rarefied state at standard temperature and pressure conditions or (2) any gaseous vapors derived from petroleum or natural gas.

(13) GAS INSPECTOR means the person designated by the city to enforce the provisions of this article, or the gas inspector’s representative.

(14) LANDFARMING means the depositing, spreading, or mixing of drill cuttings, drilling fluids,
drilling mud, salt water, produced water, or other waste generated by the gas drilling and production process onto the ground.

(15) OPERATION SITE means the area identified in the SUP to be used for drilling, production, and all associated operational activities after gas drilling is complete.

(16) OPERATOR means the person listed on the Texas Railroad Commission drilling permit application (currently called Form W-1 or Form P-4).

(17) PIPELINE CONSTRUCTION means the initiation of any excavation or other disturbance of property to install, construct, maintain, repair, replace, modify, or remove a pipeline.

(18) PIPELINE EMERGENCY means an incident relating to or directly attributable to the operation of a regulated pipeline in which any of the following has or is occurring:

(A) Fire or explosion not intentionally initiated by the pipeline operator as part of its normal and customary operations and in accordance with accepted safety practices.

(B) Release of a gas, hazardous liquid, or chemical that could adversely impact the environment or health of individuals, livestock, domestic animals, or wildlife in the city.

(C) Death of any person or individual.

(D) Bodily harm to any person that results in loss of consciousness, the need to assist a person from the scene of the incident, or the necessity of medical treatment in excess of first aid.

(E) Damage to private or public property not owned by the pipeline operator in excess of $5,000 in combined values, as determined by the gas inspector.

(F) The rerouting of traffic or the evacuation of buildings.

(19) PIPELINE OPERATOR means any person owning, operating, or responsible for operating a pipeline.

(20) PRODUCTION means the period between completion and abandonment of a well.

(21) REGULATED PIPELINE means all parts of those physical facilities for the transportation of gas, oil, or hydrocarbons, including pipes, valves, and other appurtenances attached to pipe, whether laid in public or private easements, public rights-of-way, or private streets within the city, including gathering lines, production lines, and transmission lines. Pipelines associated with franchised utilities are not regulated pipelines.

(22) REWORKING means the re-entry of an existing well after completion to access the existing bore hold, conduct deepening or sidetrack operations, or replace well liners or casings. Reworking is also known in the gas drilling and production industry as a work-over.

(23) TANK means a container used for holding or storing fluids from gas drilling and production.

(24) WELL means a hole or bore to any horizon, formation, or strata for the intended or actual production of gas. (Ord. Nos. 26920; 29228)

SEC. 51A-12.103. ADMINISTRATION.

(a) Gas inspector.

(1) The gas inspector is responsible for enforcing this article, other city codes applicable to gas drilling and production, and any SUP for gas drilling and production.

(2) The gas inspector shall:

(A) review and approve or deny all seismic survey, gas well, and regulated pipeline permit applications;
§ 51A-12.103 Dallas Development Code: Ordinance No. 19455, as amended § 51A-12.104

(B) conduct inspections of all wells and operation sites at least yearly for compliance with this article, the gas well permit, and the SUP for gas drilling and production;

(C) request, receive, review, and inspect any records, including records the operator sends to the Texas Railroad Commission, logs, and reports relating to the status or condition of any permitted well;

(D) issue orders or citations to obtain compliance with this article, a seismic survey, gas well, or regulated pipeline permit, and the SUP for gas drilling and production; and

(E) revoke or suspend seismic survey, gas well, or regulated pipeline permits for violations of this article, the seismic survey, gas well, or regulated pipeline permit, or SUP for gas drilling and production.

(3) The gas inspector, at each inspection, shall call the emergency contact numbers listed on the operator’s informational signs to verify that the phone numbers are current and the emergency contact persons can be reached.

(4) The gas inspector shall contact the appropriate city department to inspect the operation site if the gas inspector believes the operator is violating a city code provision not addressed in this article. The gas inspector shall determine whether the other city department completed the inspection and shall document what actions, if any, were taken against the operator.

(5) The gas inspector shall contact the appropriate state agency to inspect the operation site if the gas inspector believes the operator is violating state law. The gas inspector shall determine whether the state agency completed the inspection and shall document what actions, if any, were taken against the operator.

(b) Technical or legal advisors. The city may hire technical or legal advisors to advise the city on gas drilling and production matters. If the city hires advisors to address an operator’s unique circumstances, the city shall notify the operator of the estimated cost of services. The city shall invoice the operator, who shall pay the city within 30 days of receipt of an invoice from the city. (Ord. Nos. 26920; 29228)

SEC. 51A-12.104. SUP REQUIREMENT AND USE REGULATIONS.

See Sections 51-4.213(19) or 51A-4.203(b)(3.2). (Ord. Nos. 26920; 29228)
Division II. Gas Drilling.

SEC. 51A-12.201. SEISMIC SURVEY PERMIT.

(a) In general.

(1) No person shall participate in site preparation or any other seismic survey activities without first obtaining a seismic survey permit issued by the city in accordance with this division.

(2) Seismic surveys may only be conducted with low-impact vibrator systems designed for urban operations. Explosive charges, including dynamite, may not be used in preparing for or conducting a seismic survey.

(3) Seismic surveying is limited to the hours of 8:00 am to 5:00 pm, Monday through Friday, excluding city holidays.

(4) Seismic survey activities must be conducted in accordance with all applicable federal and state laws and regulations, and with all ordinances, rules, and regulations of the city.

(5) Seismic survey activities within public rights-of-way must be conducted in accordance with a traffic control plan approved by the director of the department of transportation.

(b) Seismic survey permit. A seismic survey permit application must be in writing, signed by the operator or applicant, and submitted to the gas inspector. The operator or applicant shall provide the following information on a form furnished by the city:

(1) the date the operator or applicant submitted the application;

(2) the operator or applicant’s name, address, telephone number, and email address;

(3) the location of the seismic survey;

(4) the date and time the seismic survey will be conducted;

(5) a detailed explanation of the seismic survey methods to be used;

(6) a detailed map of the area being surveyed and the location of all vibration and geophone points;

(7) the date and time the seismic survey will be completed; and

(8) for city property and public rights-of-ways:

(A) an executed access agreement for the use of the specific public rights-of-way or city property; and

(B) a current certificate of insurance for the coverage specified in the access agreement.

(c) Review of permit applications.

(1) The gas inspector shall return incomplete applications to the operator or applicant with a written explanation of the deficiencies.

(2) The gas inspector shall determine whether the seismic survey permit should be issued, issued with conditions, or denied within 45 days after receiving a complete seismic survey permit application. If the gas inspector fails to make this determination within this specified time, the seismic survey permit is deemed denied.

(3) The gas inspector shall issue a seismic survey permit if the application meets the requirements of this division. If the application does not meet the requirements of this division, the gas inspector shall either deny the application or issue the seismic survey permit subject to written conditions if compliance with the conditions eliminates the reasons for denial. If the gas inspector denies a seismic survey permit, the gas inspector shall provide the applicant with a written explanation of the reasons for denial within 30 days.
(d) **Appeal.**

(1) If the gas inspector denies a seismic survey permit, the gas inspector shall send the applicant, by certified mail, return receipt requested, written notice of the decision and the right to appeal.

(2) The applicant has the right to appeal to the permit and license appeal board in accordance with Article IX of Chapter 2 of the Dallas City Code.

(e) **Notice.** At least 72 hours before commencing geophysical operations (laying out of geophones), the operator or applicant shall provide written notice via United States mail, or other methods of delivery to each tenant, property owner, and resident within the area to be seismically surveyed. The written notice must include:

(1) general information about the seismic operations to be conducted;

(2) an overview of the seismographic survey process; and

(3) a hotline number to call with questions or complaints related to the seismic survey activities. The hotline number must be adequately staffed with trained personnel during normal working hours. (Ord. 29228)

**SEC. 51A-12.202. GAS WELL PERMIT.**

(a) **In general.**

(1) No person shall participate in site preparation, drilling, reworking, fracturing, operation, production, or any other related activity without first obtaining a gas well permit issued by the city in accordance with this article. Each well on an operation site must obtain a separate gas well permit.

(2) A gas well permit is required, in addition to any permit, license, or agreement required under this article, other city ordinances, or state or federal law.

(3) A gas well permit application may not be approved until an SUP is approved. Denial of an SUP is grounds for automatic denial of all related gas well permit applications.

(4) A gas well permit automatically terminates if the operator does not begin drilling within 180 days after the gas inspector issues the gas well permit. The gas inspector may extend the time for an additional 180 day period upon request by the operator and proof that the conditions on the operation site have not substantially changed. Only one extension is permitted.

(5) An existing gas well permit does not authorize reworking of an abandoned well. A new gas well permit is required to rework an abandoned well.

(6) A gas well permit automatically terminates after the well authorized by the gas well permit is abandoned pursuant to this article.

(7) The operator shall complete all drilling activities on the operation site within five years from the date the first gas well permit was issued.

(A) The operator may apply for a one-time, two-year extension from the gas inspector. The request for an extension must be made to the gas inspector in writing at least six months before the fifth year from the date the first gas well permit was issued.

(B) The gas inspector must approve or deny the extension within 45 days after receiving the extension request. The gas inspector must approve the extension if the drilling activities will not adversely impact the neighboring properties or if additional measures required eliminate the reasons for denial.

(C) If the gas inspector denies the request for a one-time, two-year extension, he must provide the operator with a written explanation of the reasons for denial within 30 days.

(D) As a condition of approval of the extension, the gas inspector may require additional measures, as necessary, to minimize the impact of the...
additional drilling activities upon neighboring properties.

(E) The operator has the right to appeal to the permit and license appeal board in accordance with Article IX of Chapter 2 of the Dallas City Code.

(b) Permit applications. A gas well permit application must be in writing, signed by the operator and filed with the gas inspector. The operator shall provide the following information on a form furnished by the city:

(1) the date the operator submitted the application;

(2) the proposed number of wells on the operation site;

(3) the field name as used by the Texas Railroad Commission;

(4) the proposed well name;

(5) the operator’s name and address;

(6) all surface owners’ names and addresses;

(7) all mineral rights owners’ names and addresses;

(8) the name of a representative with supervisory authority over all gas drilling and production operations and a phone number where they can be reached 24 hours a day;

(9) the name, address, and phone number of a person who is a resident of the State of Texas and is designated to receive notices from the city;

(10) the names of two designated emergency contact persons, their addresses, and phone numbers where they may be reached 24 hours a day;

(11) the names and addresses of tenants, property owners, and residents within 1,500 feet of the boundary of the operation site in accordance with the plans required as part of the gas well permit application;

(12) the address and legal description of the operation site;

(13) the location and a description of all structures and improvements within 1,500 feet of the boundary of operation site;

(14) a description of all fuel sources and public utilities required during drilling and production operations;

(15) a site plan of the operation site that matches the site plan attached to the SUP, was prepared by a licensed surveyor or registered engineer, is drawn to scale, complies with the site requirements in this article, and provides the following information:

(A) the date, scale, north point, name of owner, and name of person preparing the site plan;

(B) the location of existing boundary lines and dimensions of the operation site;

(C) the location of all improvements and equipment, including proposed wells, tanks, pipelines, compressors, separators, and storage sheds;

(D) the zoning of the operation site;

(E) the location of flood plains, and the existing and base flood elevations at the location of any proposed improvement including the well head;

(F) the existing watercourses and drainage features;

(G) off-street parking and loading areas and the surface material used;

(H) ingress and egress points;

(I) existing and proposed streets and alleys;
(J) location, height, and materials of existing and proposed fences;

(K) existing and proposed landscaping;

(L) location and description of signs, lighting, and outdoor speakers;

(M) location and description of all easements, along with the volume and page number where the easement is recorded;

(N) a map of the surrounding area, showing the zoning on all property within 1,500 feet of the boundary of the operation site, and the distance from wells, structures, or equipment to any use, structures, or features that have spacing requirements under Sections 51-4.213(19) or 51A-4.203(b)(3.2);

(O) a tree survey that complies with Article X;

(P) a copy of the SUP ordinance;

(Q) a copy of the Texas Railroad Commission drilling permit and its attached documents, as well as any other permits, disclosures, or reports required by the Texas Railroad Commission;

(R) a copy of the storm water pollution prevention plan and the notice of intent required by the Environmental Protection Agency;

(S) a copy the Texas Commission on Environmental Quality’s determination of the depth of useable-quality ground water;

(16) documentation of the insurance and security instruments required by this article;

(17) an indemnification agreement, approved as to form by the city attorney, stating that the operator agrees to defend the city and its officers and employees against all claims of injury or damage to persons or property arising out of the drilling and production operation;

(18) a notarized statement signed by the operator that the information submitted with the application is true and correct, to the best of the operator’s knowledge and belief;

(19) an air quality management and monitoring plan that includes:

(A) measures and equipment the operator will use to ensure that all site activities and equipment on the operation site comply with applicable emissions limits, applicable laws relating to emissions, and best management practices of the Environmental Protection Agency and the Texas Commission on Environmental Quality regarding air quality;

(B) monitoring techniques the operator will use to measure for and ensure compliance with applicable emissions limits and all applicable laws relating to emissions; and

(C) a categorization of Environmental Protection Agency Tier (Tier 0 to 4) of all diesel equipment that will be used on the operation site during each phase of the drilling and production use;

(20) a communications plan developed to keep tenants, property owners, and residents of protected uses within 2,000 feet of the boundary of the operation site informed that:

(A) documents how the operator will notify, solicit feedback, and respond to concerns about the gas drilling and production use;

(B) identifies how the operator will employ early and continuous engagement, including posted notice in public locations;

(C) establishes how the operator will develop and use advance or near-real-time notice of all significant activities occurring during the well’s life, including drilling, fracturing, flowback, redrilling and refracturing, completion, abandonment, as well as non-routine occurrences including flaring, spills, or emissions events;
(21) a dust mitigation plan detailing measures the operator will implement to mitigate and suppress dust generated at the operation site, including a mud shaker for vehicles exiting the site;

(22) an electricity usage plan showing:

(A) the equipment powered by electricity;

(B) the amount of electricity needed;

(C) the sources of the electric power;

(D) whether electricity is generated on site or purchased from a retail electric provider; and

(E) the approximate location of lines, poles, generators, generator fuel tanks, transformers, fuse boxes, and other apparatus necessary to use electric power;

(23) an emergency action response plan approved by the fire marshal that:

(A) establishes written procedures to minimize any hazard resulting from drilling, completion, production, or abandonment of wells, including prompt and effective response to emergencies from:

(i) leaks or releases that may impact public health, safety, or welfare;

(ii) fire, explosions, loss of well control, or blowout at or near the well; and

(iii) natural disasters;

(B) complies with the existing guidelines established by the Texas Railroad Commission, the Texas Commission on Environmental Quality, the Department of Transportation, and the Environmental Protection Agency;

(C) includes maps showing the public rights-of-way to the operation site, and turn-arounds and staging areas for emergency equipment;

(D) includes an effective means of notifying and communicating with local fire, police, and public officials during an emergency, including a detailed plan of how the operator will notify and communicate with city officials responsible for notification and evacuation of residents within one-half mile of the operation site, measured from the boundary of the operation site;

(E) includes the availability of personnel, equipment, tools, and materials at the operation site as necessary in case of an emergency;

(F) outlines measures to be taken to reduce public exposure to injury and the probability of accidental death or dismemberment;

(G) documents emergency shut-down procedures for a gas well and the operation site, if necessary;

(H) establishes a plan for the safe restoration of service and operations following an emergency or incident; and

(I) establishes a follow-up procedure for incident investigation to determine the cause of the incident and the implementation of corrective measures;

(24) an erosion control plan that complies with all city regulations;

(25) a fresh-water fracture pond design plan that includes an engineering design and a landscape and fencing design that includes:

(A) a detailed grading plan prepared by a civil engineer licensed by the state of Texas;
§ 51A-12.202 Dallas Development Code: Ordinance No. 19455, as amended

(B) measures that will be taken, such as shallow safety ledges, to prevent drowning;

(C) the fresh-water fracture pond size and how it is designed to minimize its footprint based on water supply;

(D) an open-design black or dark green chain link fence, a minimum of six feet in height, that encloses the fresh-water fracture pond; and

(E) restorative vegetation that complies with Article X;

(26) a hazardous materials management plan that:

(A) complies with the Dallas Fire Code;

(B) includes the formula identifying the non-radioactive tracing or tagging additives that the operator will use in all fracturing fluids on the operation site; and

(C) has been filed with the fire department;

(27) a hazardous materials inventory statement that:

(A) complies with the Dallas Fire Code;

(B) includes material safety data sheets or an equivalent detailing all hazardous materials that are or will be located, stored, transported, or temporarily used on the operation site, including site preparation, boring, fracturing, completing, reworking, redrilling, refracturing, and production. The material safety data sheets must indicate all types, quantities, volumes, and concentrations of all hazardous chemicals and additives used in these processes; and

(C) has been filed with the fire department;

(28) a landscape irrigation plan designed by a State of Texas licensed irrigator that includes:

(A) the appropriate type of irrigation for the operation site; and

(B) measures to be taken to adequately irrigate all landscaping, indicating the water source for irrigation;

(29) a noise management plan detailing how the equipment used in the drilling, completion, transportation, or production of a well complies with the maximum permissible noise levels in Section 51A-6.102 and this article, and that:

(A) identifies the noise impacts of gas drilling and production;

(B) provides documentation establishing the ambient noise level in accordance with this article; and

(C) details how the gas drilling and production noise impacts will be mitigated, considering the operation site characteristics, including:

(i) nature and proximity of adjacent development, location, and type;

(ii) seasonal and prevailing weather patterns, including wind directions;

(iii) vegetative cover on and adjacent to the operation site; and

(iv) topography on and adjacent to the operation site;

(30) a pipeline map indicating the location of the nearest gathering station, the alignment of the pipelines connecting the operation site to the gathering station, and a description of how the operator intends to get the gas to market;

(31) a screening and landscape plan that complies with all city screening and landscape requirements and includes:
§ 51A-12.202 Dallas Development Code: Ordinance No. 19455, as amended

(A) a schedule detailing the timing of all landscaping and screening installation or, if a SUP has already been approved with a screening and landscape plan, a copy of the approved screening and landscape plan;

(B) the proposed efforts to replace dead or dying screening vegetation; and

(C) a fully-executed third-party landscape maintenance agreement detailing the frequency and scope of the services to be provided;

(32) a security plan that includes details about how the security alarm system requirements in this article will be complied with and provides the location of all security cameras provided on the operation site;

(33) a signage plan that complies with the Texas Railroad Commission regulations, this article, and all other city ordinances, rules, and regulations for the operation site and pipelines;

(34) a spill prevention plan that complies with state and federal regulations, this article, and all other city ordinances, rules, and regulations and includes a plan for effective containment of all materials on site, including containment and mitigation strategies for any failures of temporary or permanent pipes, tanks, secondary containment systems, and water recycling systems;

(35) a surface reclamation plan that includes how the operator, using industry best practices, will:

(A) restore the operation site to allow its use under the city’s comprehensive plan;

(B) control surface water drainage, water accumulation, and measures that will be taken during the reclamation process to protect the quantity and quality of surface and groundwater systems;

(C) clean up any polluted surface or ground water;

(D) backfill, grade, and re-vegetate the operation site;

(E) reconstruct, replace, and stabilize the soil;

(F) reshape the topography; and

(G) employ other methods or practices necessary to ensure that all disturbed areas will be reclaimed;

(36) a site lighting plan that complies with city code, is designed to promote the safety of all gas drilling and production operations, and includes a photometric plan, indicating the type and color of lights to be used and demonstrates how it complies with all Federal Aviation Administration requirements;

(37) a transportation plan that includes a:

(A) traffic impact analysis, including the proposed truck routes, types and weights of trucks and vehicles accessing the operation site; hours of the day that truck and vehicle traffic will be entering and leaving the operation site; days of the week that truck and vehicle traffic will be entering and leaving the operation site; turning movements associated with truck and vehicle traffic; proposed access points; and proposed traffic control devices;

(B) map consistent with any SUP requirements showing the truck routes approved by the gas inspector and identifying all public rights-of-way, private streets, and routes intended for use within the city;

(C) videotape of the approved truck routes, showing in adequate detail the physical conditions of the rights-of-way; and

(D) road repair agreement approved as to form by the city attorney and signed by the operator;

(38) a vector control plan detailing all measures:
§ 51A-12.202 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-12.202

(A) that will be taken to ensure that a fresh-water fracture pond will not become a site for mosquito harbourage; and

(B) for mosquito abatement activities, including any biological or chemical control applications or water level control measures;

(39) a waste management plan that includes:

(A) recycling, treatment, and disposal methods for all drilling muds and cuttings, flowback water, fracturing fluids, salt water, produced water, solid waste, and any other materials generated from pad site operations;

(B) a copy of the Texas Railroad Commission underground injection control permit if the waste management plan includes an injection method; and

(C) the location of the landfill and a copy of the permit if the waste management plan includes disposal at a landfill;

(40) a water management plan that includes a description of the water source to be used, the volumes, and the recycling, reuse, or disposal methods that will be used during drilling and production operations; and

(41) any other information the gas inspector deems necessary.

(c) Review of permit applications.

(1) The gas inspector shall return incomplete applications to the operator with a written explanation of the deficiencies.

(2) The gas inspector shall determine whether the gas well permit should be issued, issued with conditions, or denied within 45 days after receiving a complete gas well permit application. If the gas inspector fails to make this determination within this specified time, the gas well permit is deemed denied.

(3) The gas inspector shall issue a gas well permit if the application meets the requirements of this article and the conditions of the SUP. If the application does not meet the requirements of this article or the conditions of the SUP, the gas inspector shall either deny the application or issue the gas well permit subject to written conditions if compliance with the conditions eliminates the reasons for denial. If the gas inspector denies a gas well permit, the gas inspector shall provide the operator with a written explanation of the reasons for denial within 30 days.

(d) Content of gas well permit. A gas well permit must:

(1) identify the name of the well and its operator;

(2) identify the name, address, and telephone number of the person designated to receive notices from the city;

(3) identify the names, addresses, and phone numbers of the two emergency contact persons;

(4) state the date the permit is issued;

(5) state that the gas well permit will automatically terminate if the operator does not begin drilling within 180 days after the date of issuance unless the gas inspector grants an extension;

(6) state that all drilling activities must cease within five years from the issuance of the first gas well permit issued on the operation site unless a one-time two-year extension is approved;

(7) state that the gas well permit shall automatically terminate after the well is abandoned;

(8) state that the operator shall apply for a new gas well permit before reworking an abandoned well;

(9) incorporate the full text of the indemnity provision from the operator’s submitted indemnity agreement;
§ 51A-12.202 Dallas Development Code: Ordinance No. 19455, as amended

(10) incorporate, by reference:

(A) the insurance and security requirements of this article;

(B) the conditions of the applicable SUP;

(C) the information contained in the permit application;

(D) the rules and regulations of the Texas Railroad Commission, including the field rules;

(E) all other required permits and fees; and

(F) the requirement for annual inspections, periodic reports, emergency reporting, and notice before reworking a well; and

(11) state that the operator shall comply with the most recently submitted and approved site plan, tree survey, hazardous materials management plan, and emergency action response plan. The SUP and the full-sized site plan must be attached to the gas well permit.

(e) Acceptance of permit. By accepting a gas well permit, the operator expressly stipulates and agrees to be bound by and comply with the provisions of this article. The terms of this article shall be deemed to be incorporated in any gas well permit as if they were set forth verbatim in the gas well permit.

(f) Amendment of permit. If the operator wants to change the original site plan attached to the gas well permit and the SUP, the operator shall first seek a zoning amendment or minor amendment and then apply in writing for a gas well permit amendment. If the operator pays the fee to amend their gas well permit, and the new site plan complies with the requirements of the SUP and this article, the gas inspector shall issue an amended gas well permit.

(g) Transfer of permit.

(1) The gas inspector shall transfer a gas well permit to a new operator if:

   (A) the transfer is in writing, approved as to form by the city attorney, signed by both operators, and the new operator agrees to be bound by the terms and conditions of the transferred gas well permit, the SUP, and this article;

   (B) all information previously provided to the city as part of the application for the original gas well permit is updated to reflect the new operator;

   (C) the new operator provides proof of the insurance and security required by this article; and

   (D) the operator-transfer fee is paid in full.

(2) The gas inspector shall release the insurance and security provided by the old operator if the requirements of this subsection are met. The transfer does not relieve the old operator from any liability arising out of events occurring before the transfer.

(h) Revocation or suspension of permit.

(1) If the operator violates this article, the gas well permit, or the SUP, the gas inspector shall give written notice to the operator describing the violation and giving the operator a reasonable time to cure. The time to cure must take into account the nature and extent of the violation, the efforts required to cure, and the potential impact on public health, safety, and welfare. The time to cure must not be less than 30 days unless the violation:

   (A) could cause imminent destruction of property or injury to persons; or
§ 51A-12.202 Dallas Development Code: Ordinance No. 19455, as amended § 51A-12.203

(B) involves the operator’s failure to take a required immediate action as required by this article.

(2) If the operator fails to correct the violation within the specified time, the gas inspector shall suspend or revoke the gas well permit. The gas inspector shall also report any violations to the Texas Railroad Commission and request that the Texas Railroad Commission take appropriate action.

(3) If a gas well permit is suspended, no person may engage in any activities that were permitted under that gas well permit except for those activities necessary to remedy the violation. If the violation is remedied, the gas inspector shall reinstate the gas well permit, and the operator may resume gas drilling and production.

(4) If a gas well permit is revoked, the operator shall obtain a new gas well permit before resuming gas drilling or production.

(i) Appeal.

(1) If the gas inspector denies, suspends, or revokes a gas well permit, the gas inspector shall send the operator, by certified mail, return receipt requested, written notice of the decision and the right to appeal.

(2) The operator has the right to appeal to the permit and license appeal board in accordance with Article IX of Chapter 2 of the Dallas City Code. (Ord. Nos. 26920; 29228)

SEC. 51A-12.203. INSURANCE AND SECURITY INSTRUMENTS.

(a) In general.

(1) The operator shall provide the insurance required in this section at its own expense.

(2) The operator shall keep the insurance in effect until the gas inspector approves the abandonment and restoration of the operation site.

(3) Companies approved by the State of Texas with an AM Best Rating of A or better and acceptable to the city must issue the insurance.

(4) The operator shall provide the gas inspector with a copy of the certificates of insurance.

(5) Upon the gas inspector’s request, the operator shall provide copies of the insurance policies and all endorsements at no cost to the city.

(b) Modification of insurance.

(1) The office of risk management may modify the insurance requirements of this section when necessary based upon economic conditions, recommendation of professional insurance advisors, changes in law, court decisions, or other relevant factors.

(2) The operator shall modify the insurance as requested and shall pay the cost of any modifications.

(c) Subcontractor insurance.

(1) The operator shall require each subcontractor performing work on the operation site to obtain insurance that is appropriate for the services the subcontractor is performing.

(2) The subcontractor shall provide the subcontractor’s insurance at its own expense to the operator and gas inspector.

(3) The subcontractor’s insurance must name the operator as an additional insured.
(4) The subcontractor shall keep the subcontractor’s insurance in effect until the gas inspector approves the abandonment and restoration of the operation site.

(5) Companies approved by the State of Texas with an AM Best Rating of A or better and acceptable to the city must issue the subcontractor’s insurance.

(6) The operator shall provide the gas inspector with a copy of the certificates of insurance for each subcontractor at least 30 days before the subcontractor begins work.

(7) Upon request, the operator shall provide the gas inspector with copies of the subcontractor’s insurance policies and all endorsements at no cost to the city.

(d) Required provisions. All insurance contracts and certificates of insurance must have an endorsement:

(1) stating that the city is an additional insured to all applicable policies;

(2) stating that coverage may not be cancelled, non-renewed, or materially changed in policy terms or coverage without 30-days advance written notice by mail to the:

(A) gas inspector; and

(B) City of Dallas, Director, Office of Risk Management, 1500 Marilla, 6A-South, Dallas, TX 75201;

(3) waiving subrogation against the city, its officers, employees, and elected representatives for bodily injury (including death), property damage, or any other loss to all applicable coverages;

(4) stating that the operator’s insurance is the primary insurance;

(5) stating that liability, duty, standard of care obligations, and the indemnification provision are underwritten by contractual liability coverage that includes these obligations;

(6) identifying the operation site by address; and

(7) identifying the gas inspector as the certificate holder.

(e) Required coverage. Subject to the operator’s right to maintain reasonable deductibles, and subject to a maximum deductible or self-insured retention of $250,000, the operator shall obtain insurance coverage in the following types and amounts:

(1) Workers’ compensation insurance with statutory limits.

(2) Employer’s liability insurance with the following minimum limits for bodily injury by:

(A) accident, $1,000,000 per each accident; and

(B) disease, $1,000,000 per employee with a per-policy aggregate of $1,000,000.

(3) Business automobile liability insurance covering owned, hired, and non-owned vehicles, with a minimum combined bodily injury (including death) and property damage limit of $2,000,000 per occurrence. If the operator is subject to the Motor Carrier Act, endorsement form MCS 90 is required and a copy must be attached to the certificate of insurance.

(4) Commercial general liability insurance covering explosion, collapse, underground blowout, cratering, premises/operations, personal and advertising injury, products/completed operations, independent contractors, and contractual liability with the following minimum combined bodily injury (including death) and property damage limits of:
§ 51A-12.203 Dallas Development Code: Ordinance No. 19455, as amended  § 51A-12.203

(A) $2,000,000 per occurrence;

(B) $2,000,000 products/completed operations aggregate; and

(C) $2,000,000 general aggregate.

(5) Environmental impairment or pollution legal liability insurance covering handling, removal, seepage, storage, testing, transportation, and disposal of materials.

(A) Coverage must include loss of use of property; cleanup cost; and defense, including costs and expenses incurred in the investigation, defense, or settlement of claims in connection with any loss arising from the operation site.

(B) Coverage must apply to sudden and accidental pollution resulting from the escape or release of smoke; vapors; fumes; acids; alkalis; toxic chemicals; liquids or gases; waste material; or other irritants, contaminants, or pollutants.

(C) Coverage must include gradual pollution or pollution legal liability with time element pollution for a minimum combined bodily injury (including death) and property damage limit of $10,000,000 per occurrence.

(D) Coverage must be maintained with a minimum combined bodily injury (including death) and property damage limit of $10,000,000 per occurrence.

(6) Umbrella liability insurance following the form of the primary liability coverage described in Paragraphs (1) through (4) and providing coverage with minimum combined bodily injury (including death) and property damage limit of $25,000,000 per occurrence and $25,000,000 annual aggregate. Increased primary liability limits equivalent to the umbrella liability insurance limits specified will satisfy the umbrella liability insurance requirements.

(A) A copy of the declaration page of the policy must be attached to the certificate of insurance.

(B) Coverage must include explosion, collapse, underground blowout, crating, sudden and accidental pollution, handling, removal, seepage, storage, testing, transportation, and disposal of materials. A copy of the endorsement providing this coverage must be attached to the certificate of insurance.

(7) Control-of-well insurance to provide coverage for the cost of regaining control of an out-of-control (wild) well including the cost of re-drilling and clean up of an incident with minimum limit of $10,000,000. Coverage must include seepage, pollution, stuck drill stem, evacuation expense of residents, loss of equipment, experts, and damage to property that the operator has in the operator’s care, custody, or control.

(8) If the insurance required in Section 51A-12.203(e)(4)-(6) is written on a claims-made form, coverage must be continuous (by renewal or extended reporting period) for at least 60 months after the gas inspector approves the abandonment and restoration of the operation site. Coverage, including renewals, must contain the same retroactive date as the original policy.

(f) Miscellaneous provisions.

(1) The city’s approval, disapproval, or failure to act regarding any insurance supplied by the operator or a subcontractor does not relieve the operator or subcontractor of full responsibility or liability for damages and accidents. Bankruptcy, insolvency, or the insurance company’s denial of liability does not exonerate the operator or the subcontractor from liability.

(2) If an insurance policy is cancelled or non-renewed, the gas inspector shall suspend the gas well permit on the date of cancellation or non-renewal and the operator shall immediately cease operations until the operator provides the gas inspector proof of replacement insurance coverage.

(g) Performance bond or irrevocable letter of credit. Before issuance of a gas well permit, the operator shall give the gas inspector a performance
§ 51A-12.203 Dallas Development Code: Ordinance No. 19455, as amended

bond or an irrevocable letter of credit approved as to form by the city attorney.

(1) A bonding or insurance company authorized to do business in Texas and acceptable to the city must issue the performance bond. A bank authorized to do business in Texas and acceptable to the city must issue the irrevocable letter of credit.

(2) The performance bond or irrevocable letter of credit must list the operator as principal and be payable to the city.

(3) The performance bond or irrevocable letter of credit must remain in effect for at least six months after the gas inspector approves the abandonment of the well.

(4) Except as otherwise provided, the amount of the performance bond or irrevocable letter of credit must be at least $50,000 per well.

(A) After a well is completed, the operator may request that the gas inspector reduce the existing performance bond or irrevocable letter of credit to $10,000 per well for the remainder of the time the well produces without reworking. The gas inspector shall reduce the existing performance bond or irrevocable letter of credit if the operator has fully complied with the provisions of this article and the conditions of the SUP, and the gas inspector determines that a $10,000 performance bond or irrevocable letter of credit is sufficient.

(B) If the gas inspector determines the operator’s performance bond or irrevocable letter of credit is insufficient, the gas inspector may require the operator to increase the amount of the performance bond or irrevocable letter of credit to a maximum of $250,000 per well.

(5) Cancellation of the performance bond or irrevocable letter of credit does not release the operator from the obligation to meet all requirements of this article, the gas well permit, and the SUP. If the performance bond or irrevocable letter of credit is cancelled, the gas well permit shall be suspended on the date of cancellation and the operator shall immediately cease operations until the operator provides the gas inspector with a replacement performance bond or irrevocable letter of credit that meets the requirements of this article.

(6) The city may draw against the performance bond or irrevocable letter of credit or pursue any other available remedy to recover damages, fees, fines, or penalties due from the operator for violation of any provision of this article, the SUP, or the gas well permit. The performance bond or irrevocable letter of credit may also be used to mitigate public losses (i.e. damage to infrastructure, loss of sales tax, etc.) related to the loss of control of a well.

(h) Road repair security instrument. Before issuance of a gas well permit, the operator shall give the gas inspector a road repair performance bond or an irrevocable letter of credit approved as to form by the city attorney. The road repair security instrument is in addition to the performance bond or irrevocable letter of credit required by Section 51A-12.203(g).

(1) A bonding or insurance company authorized to do business in Texas and acceptable to the city must issue the performance bond. A bank authorized to do business in Texas and acceptable to the city must issue the irrevocable letter of credit.

(2) The performance bond or irrevocable letter of credit must list the operator as principal and be payable to the city.

(3) The performance bond or irrevocable letter of credit must remain in effect for at least six months after the department of public works completes the final inspection of the right-of-way.

(4) The department of public works shall determine the amount of the performance bond or irrevocable letter of credit based upon, among other factors, the estimated cost to the city of restoring the right-of-way.

(5) Cancellation of the performance bond or irrevocable letter of credit does not release the
operator from the obligation to meet all requirements of this article, the gas well permit, and the SUP. If the performance bond or irrevocable letter of credit is cancelled, the gas well permit shall be suspended on the date of cancellation and the operator shall immediately cease operations until the operator provides the gas inspector with a replacement performance bond or irrevocable letter of credit that meets the requirements of this article.

(6) The city may draw against the performance bond or irrevocable letter of credit or pursue any other available remedy to recover damages, fees, fines, or penalties related to the damage of the right-of-way covered by Section 51A-12.204(p).

(i) Well plugging bond. Before issuance of a gas well permit, the operator shall give the gas inspector a well plugging bond.

(1) A bonding or insurance company authorized to do business in Texas and acceptable to the city must issue the well plugging bond.

(2) The well plugging bond must list the operator as principal and be payable to the city.

(3) The well plugging bond must remain in effect for at least six months after the gas inspector approves the abandonment of the well.

(4) Except as otherwise provided in this subsection, the amount of the well plugging bond must be at least $50,000 per well.

(5) Cancellation of the well plugging bond does not release the operator from the obligation to meet all requirements of this article, the gas well permit, and the SUP. If the well plugging bond is cancelled, the gas well permit shall be suspended on the date of cancellation and the operator shall immediately cease operations until the operator provides the gas inspector with a replacement well plugging bond that meets the requirements of this subsection.

(6) The city may draw against the well plugging bond or pursue any other available remedy to recover damages, fees, fines, or penalties due from the operator for violation of any provision of this article, the SUP, or the gas well permit. The well plugging bond may also be used to mitigate public losses (i.e. damage to infrastructure, loss of sales tax, etc.) related to the loss of control of a well. (Ord. Nos. 26920; 28424; 29228; 30239; 30654)

SEC. 51A-12.204. OPERATIONS.

(a) In general.

(1) Operations must be conducted in accordance with the practices of a reasonable and prudent gas drilling operation in the State of Texas.

(2) The layout of an operation site must comply with the site plan attached to the gas well permit and the SUP.

(3) No refining, except for gas dehydrating and physical phase separation, may occur on the operation site.

(4) Only freshwater-based mud systems are permitted.

(5) No person may add any type of metal additive into drilling fluids.

(6) Salt-water or produced-water disposal wells, also known as injection wells, are prohibited.

(7) Unless otherwise directed by the Texas Railroad Commission, the operator shall remove waste materials from the operation site and transport them to an off-site disposal or recycling facility at least once every 30 days.

(8) No air, gas, or pneumatic drilling is permitted.
§ 51A-12.204 Dallas Development Code: Ordinance No. 19455, as amended

(9) Salt water, produced water, or other wastewater collection or transportation pipelines must be approved by city council as part of a required SUP for a gas drilling and production use.

(10) Landfarming is prohibited.

(11) Lift and line compressors are permitted as part of the gas drilling and production use.

(12) The operation site must be kept clear of dilapidated structures, debris, pools of water or other liquids, contaminated soil, brush, high grass, weeds, and trash or other waste material.

(13) See Sections 51-4.213(19)(E) or 51A-4.203(b)(3.2)(E) for additional spacing, fencing, and slope requirements.

(b) Dust, vibrations, and odors.

(1) To prevent injury or nuisances to persons living and working in the area surrounding the operation site, the operator shall conduct all drilling and production in a manner that minimizes dust, vibrations, or odors, and in accordance with industry best practices for drilling and production of gas and other hydrocarbons.

(2) The operator shall adopt proven technological improvements in industry standards for drilling and production if capable of reducing dust, vibration, and odor.

(3) If the gas inspector determines that the dust, vibrations, or odors related to the gas drilling and production use present a risk of injury or have become a nuisance to persons living and working in the area, the gas inspector shall require the operator to adopt reasonable methods for reducing the dust, vibrations, and odors.

(4) Brine water, sulphur water, or water mixed any type of hydrocarbon may not be used for dust suppression.

(c) Electric lines. Electric lines to the operation site must be located in a manner compatible with those already installed in the surrounding area.

(d) Equipment, structures, and operations.

(1) In general.

(A) American Petroleum Institute. All equipment and permanent structures must conform to the standards of the American Petroleum Institute unless other specifications are approved by the fire marshal.

(B) Maintenance. All equipment and structures must be maintained in good repair and neat appearance.

(C) Painting. Unless a specific color is required by federal or state regulations, all equipment and structures must be painted with a neutral color approved by the gas inspector.

(D) Removal of rig and equipment. The drilling rig and associated drilling equipment must be removed from the operation site within 30 days after completion of each well unless other wells on the operation site are in the drilling phase.

(2) Drip pans and other containment devices. Drip pans or other containment devices must be placed underneath all tanks, containers, pumps, lubricating oil systems, engines, fuel and chemical storage tanks, system valves, and connections, and any other area or structures that could potentially leak, discharge, or spill hazardous liquids, semi-liquids, or solid waste materials.

(3) Engines.

(A) Electric motors must be used during drilling unless the operator submits a report to the gas inspector and the gas inspector determines that electric motors cannot be used.
(B) Only electric motors may be used during production.

(C) Electric power may be generated on the operation site but may not be sold for off-site use. All electrical installations and equipment must comply with city, state, and federal rules and regulations.

(4) Fire prevention equipment.

(A) The operator, at the operator’s expense, shall provide fire-fighting apparatus and supplies as approved by the fire department and required by city, state, and federal rules and regulations on the operation site at all times during drilling and production. The operator shall be responsible for the maintenance and upkeep of the fire-fighting apparatus and supplies.

(B) If the chief of the fire department makes a written request to the operator, the operator shall provide training and instruction to the fire department and other emergency responders about well safety, emergency management protocol, and all information specific to the well operations or emergency management activities at the operation site. The training must occur within 30 days after the written request is made.

(5) Mud pits.

(A) Only closed-loop drilling fluid systems are permitted.

(B) Low toxicity glycols, synthetic hydrocarbons, polymers, and esters must be substituted for conventional oil-based drilling fluids.

(6) Tanks.

(A) Gas well operations must use tanks for storing liquid hydrocarbons. Tanks must be portable, closed, and made of steel or fiberglass. If the gas inspector discovers condensate or liquid hydrocarbons, the gas inspector may require that tanks have a remote foam line.

(B) All tanks must have a vent line, flame and lightning arrester, pressure-relief valve, and level-control device. The level-control device must automatically activate a valve to close the well to prevent the tank from overflowing.

(C) Tanks must have a secondary containment system that is lined with an impervious material. The secondary containment system must be high enough to contain one-and-one-half times the contents of the largest tank in accordance with the Dallas Fire Code.

(D) Drilling mud, cuttings, liquid hydrocarbons, and other waste materials must be discharged into tanks in accordance with the Texas Railroad Commission rules and other city, state, or federal rules and regulations.

(E) Temporary flowback tanks must be removed from the operation site within 90 days after completion of a gas well unless:

   (i) the gas inspector extends the time period for no more than 30 additional days; or

   (ii) other wells on the operation site are in the drilling phase.

(F) The top of any tank may not exceed the required fence height.

(7) Wells.

(A) Each well must have an automated valve that closes the well if an abnormal change in operating pressure occurs. All wellheads must also have an emergency shut-off valve to the well distribution line.

(B) Surface casing must be run and set in full compliance with the Texas Railroad Commission and the Texas Commission on Environmental Quality.

(C) A blowout preventer must be used when wells are being drilled, reworked, or at anytime when tubing is being changed.
§ 51A-12.204 Dallas Development Code: Ordinance No. 19455, as amended

(e) **Emergencies.**

(1) **In general.**

(A) The emergency action response plan that complies with the Dallas Fire Code must be kept current.

(B) A copy of the current emergency response plan must be kept on the operation site at all times.

(C) Updates to the emergency action response plan must be submitted to the gas inspector, the fire chief, and the fire marshal within two business days after any additions, modifications, or amendments are made.

(D) The operator shall also conduct an annual review and provide updates of the emergency action response plan that must be approved by the fire marshal.

(2) **Compliance with emergency action response plan.** In emergencies, the operator shall comply with the current emergency action response plan submitted to the gas inspector.

(3) **Loss of control.**

(A) If the operator loses control of a well, the operator shall immediately take all necessary steps to regain control regardless of other provisions of this article.

(B) If the gas inspector believes that the loss of control of a well creates a danger to persons and property and the operator is not taking the necessary steps to regain control, the gas inspector is authorized to:

   (i) take the necessary steps to regain control; and

   (ii) incur expenses for labor and materials necessary to regain control.

(C) The operator shall reimburse the city for any expenses incurred in regaining control of a well.

(f) **Environmental requirements.**

(1) **In general.**

(A) All federal, state, and local rules regarding protection of natural resources must be strictly followed.

(B) The operator shall ensure that ground and fresh-water wells are not contaminated by gas drilling and production operations or any related activities.

(C) The operator shall comply with all local, state, and federal storm water quality regulations.

(D) The operator shall use industry best practices in recycling and reusing hydraulic fracturing fluids and flowback water.

(2) **Air quality.**

(A) **Gasses vented or burned.**

   (i) Except as permitted by the Texas Railroad Commission and the fire marshal, the operator shall not vent gases into the atmosphere or burn gases by open flame.

   (ii) At no time may a well flow or vent directly into the atmosphere without first directing the flow through separation equipment or into a portable tank.

   (iii) If venting or burning of gases is permitted, the vent or open flame must be located at least 300 feet from any structure that is necessary to the everyday operation of wells.

(B) **Reduced emissions.**

   (i) Internal combustion engines and compressors, whether stationary or mounted on
the operation site complies with applicable emissions limits and all applicable laws related to emissions; and

(cc) quarterly reporting to the gas inspector for a period of 12 months of documented compliance.

(3) Baseline assessments.

(A) Air.

(i) Before gas drilling activities begin on an operation site, the operator shall perform a baseline test of air quality on the operation site.

(ii) The baseline air quality test results must be collected and analyzed by a qualified third party using proper sampling and laboratory protocol from an Environmental Protection Agency or a Texas Commission on Environmental Quality approved laboratory.

(iii) The minimum baseline air quality results must include benzene, toluene, ethylbenzene, xylenes, ozone, hydrocarbons (e.g. methanes, ethanes, propanes), nitrogen oxides, volatile organic compounds, sulfur dioxide, naphthalenes, acroleins, and formaldehyde.

(iv) The baseline air quality test results must be provided to the gas inspector within 30 days after the baseline testing is conducted.

(v) The operator is responsible for the cost and fees associated with baseline testing of air quality.

(B) Natural gas.

(i) Within 30 days after the first well enters production on an operation site, the operator must provide to the gas inspector a written extended natural gas analysis.

(ii) The extended natural gas analysis must be performed by a qualified third party...
laboratory and must include findings for benzene and hydrocarbons.

(iii) The operator is responsible for the cost and fees associated with an extended natural gas analysis.

(C) Water.

(i) Except as otherwise provided in this paragraph, before gas drilling activities begin, the operator shall perform a baseline test of all water wells within 2,000 feet of a well bore and all surface water within 750 feet of a well bore.

(ii) Water samples must be collected by a third party consultant and analyzed using proper sampling and laboratory protocol from an Environmental Protection Agency or Texas Commission on Environmental Quality approved laboratory.

(iii) The minimum baseline water test results must include TDS, Chlorides, VOCs and TPH, dissolved gases (methane, ethane), TPH fractioned, SVOC’s, and HAP.

(iv) The baseline water test results must be provided to the gas inspector within 30 days after the baseline testing is conducted.

(v) If the operator documents to the satisfaction of the gas inspector that permission to access private property to conduct the required baseline testing is not granted, water baseline testing is not required for that water well or surface water.

(vi) The operator is responsible for the cost and fees associated with baseline testing of all water wells and surface water.

(4) Chemical and hazardous materials storage.

(A) The purpose of this paragraph, the hazardous materials management plan, and the hazardous materials inventory statement, including the materials safety data sheets, is to minimize the:

(i) risk of unwanted releases, fires, or explosions involving hazardous materials; and

(ii) consequences of an unsafe condition involving hazardous materials during normal operations or in the event of an abnormal condition.

(B) The operator shall comply at all times with the hazardous materials management plan, the hazardous materials inventory statement, and the material safety data sheets.

(C) The hazardous materials management plan, the hazardous materials inventory statement, and all material safety data sheets must be kept current.

(D) A copy of the current hazardous materials management plan, the hazardous materials inventory statement, and all material safety data sheets must be kept on the operation site at all times.

(E) Updates to the hazardous materials management plan and the hazardous materials inventory statement must be submitted to the gas inspector, the fire chief, and the fire marshal within two business days after any additions, modifications, or amendments are made.

(F) If a hazardous material that is not identified on a material safety data sheet filed with the fire department is being introduced to the operation site, a new or updated material safety data sheet must be provided to the fire department and the gas inspector at least seven days in advance of the hazardous materials being introduced onto the operation site.

(G) If hazardous materials are removed from the operation site or quantities have changed from a previously submitted material safety data sheet, updated copies of the material safety data sheets must be provided to the fire department and gas inspector within two business days.
(H) All chemicals and hazardous materials must be stored in accordance with the hazardous materials management plan and in such a manner as to prevent release, contain, and facilitate rapid remediation and cleanup of any accidental spill, leak, or discharge of a hazardous material.

(I) Containers must be properly labeled in accordance with federal, state, and local regulations.

(J) The operator shall take all appropriate pollution prevention actions, including raising chemicals and other materials above grade (for example, placing chemicals and other materials on wood pallets); installing and maintaining secondary containment systems; and providing adequate protection from storm water and other weather events.

(5) Cleanup after spills, leaks, and malfunctions.

(A) After any spill, leak, or malfunction, the operator shall remove, to the satisfaction of the fire marshal, the gas inspector, and the office of environmental quality all waste materials from any public or private property affected by the spill, leak, or malfunction. Cleanup operations must begin immediately.

(B) If the operator fails to begin cleanup operations immediately, the city may:

(i) contact the Texas Railroad Commission to facilitate the removal of all waste materials from the property affected by the spill, leak, or malfunction; or

(ii) employ any cleanup experts, other contractors, suppliers of special services, or may incur any other expenses for labor and material that the gas inspector deems necessary to clean up the spill, leak, or malfunction.

(C) The operator shall reimburse the city for any expenses incurred in cleanup operations.

(6) Depositing materials. The operator shall not deposit any substance (oil, naphtha, petroleum, asphalt, brine, refuse, wastewater, etc.) into or upon a right-of-way, storm drain, ditch, sewer, sanitary drain, body of water, or public or private property.

(7) Erosion control practices. Berms that are at least one-foot high and two-feet wide, or equivalent erosion devices, must be installed to prevent lot-to-lot drainage. Any damages to adjacent properties from sedimentation or erosion must be repaired immediately.

(8) Flood plain. All gas drilling and production operations must comply with the flood plain regulations in Article V.

(9) Water.

(A) The operator shall set surface casing in accordance with state and local rules and regulations to ensure groundwater protection.

(B) The operator shall:

(i) give the gas inspector 72-hour’s notice before setting the well casing;

(ii) allow access to the operation site during surface casing installation; and

(iii) allow access to all relevant reports associated with the setting of the surface casing.

(g) Fresh-water fracture ponds.

(1) In general.

(A) Fresh-water fracture ponds are permitted on an operation site.

(B) Except as otherwise provided in this subparagraph, additives, oil and gas waste by-products, and salt water are not permitted in a fresh-water fracture pond. Vector control additives are permitted in a fresh-water fracture pond.
§ 51A-12.204 Dallas Development Code: Ordinance No. 19455, as amended

(C) The fresh-water fracture pond must permanently hold sufficient water to prevent a nuisance or vector control problem.

(D) The fresh-water fracture pond must comply with the Drainage Design Manual of the Department of Public Works and all other city, state, and federal rules and regulations.

(E) Artificial liners are not permitted.

(F) Fresh-water fracture ponds must be maintained in a manner using best management practices to ensure the integrity of the fresh-water fracture pond. For purposes of this subparagraph, “best management practices” means structural, nonstructural, and managerial techniques that are recognized to be the most effective and practical means to control water storage in open pits in an urban or suburban setting.

(2) Removal and restoration.

(A) Removal.

(i) The operator shall remove the fresh-water fracture pond from the operation site within five years after the date the first gas well permit is issued. The operator may apply for a one-time, two-year extension from the gas inspector.

(ii) The request for an extension must be made to the gas inspector in writing at least six months before the fifth year from the date the first gas well permit was issued.

(iii) The gas inspector must approve or deny the extension within 45 days after receiving the extension request.

(iv) As a condition of approval of the extension, the gas inspector may require additional measures, as necessary, to minimize the impact of continued use of the fresh-water fracture pond, associated with the drilling activities, upon neighboring properties.

(v) The gas inspector must approve the extension if the fresh-water fracture pond will not adversely impact the neighboring properties or if additional measures required eliminate the reasons for denial.

(vi) If the gas inspector denies the request for a one-time two-year extension, the gas inspector must provide the operator with a written explanation of the reasons for denial within 30 days.

(vii) The operator has the right to appeal to the permit and license appeal board in accordance with Article IX of Chapter 2 of the Dallas City Code.

(B) Restoration. The operator is responsible for:

(i) removing the fresh-water fracture pond;

(ii) grading, leveling, and restoring the area to the same surface condition, as nearly as practicable, that existed before the fresh-water fracture pond was constructed; and

(iii) restoring the vegetation in accordance with the landscape design provided in the fresh-water fracture pond design plan.

(h) Fracturing.

(1) Notice.

(A) The operator shall send written notice to the gas inspector of the operator’s intent to begin fracturing. The notice must identify the well and estimate the duration of fracturing. The written notice to the gas inspector must be provided at least 15 days before fracturing begins.

(B) If the operation site is located within 1,500 feet of a protected use, measured from the boundary of the operation site in a straight line without regard to intervening structures or objects to
§ 51A-12.204 Dallas Development Code: Ordinance No. 19455, as amended

the nearest protected use, the operator shall post a sign adjacent to the main gate of the operation site informing the public when fracturing will begin and the estimated duration of fracturing. This sign must be posted at least 10 days before fracturing begins.

(C) The operator, at his own expense, shall provide written notification of the date that fracturing will begin and the estimated duration of fracturing to each property owner and registered neighborhood association within 1,500 feet of the boundary of the operation site, measured from the boundary of the operation site in a straight line without regard to intervening structures or objects to the nearest protected use, as shown by the current tax roll. The written notification must be sent by United States mail at least 10 days before fracturing begins.

(2) Tracing or tagging additives.

(A) The operator shall add non-radioactive tracing or tagging additives into all fracturing fluids used on an operation site.

(B) The operator shall provide the formula identifying the non-radioactive tracing or tagging additives in writing as part of the hazardous materials management plan.

(C) The fracturing fluid non-radioactive tracing or tagging additives must be unique for each operation site.

(D) If the operator changes or amends the non-radioactive tracing or tagging additives, the hazardous materials management plan must be amended and submitted to the fire marshal and the gas inspector at least seven days before introducing the changed additives onto the operation site.

(i) Glare. The operator shall comply with the glare regulations in Section 51A-6.104.

(j) Hours of operation.

(1) Construction activities. Except as otherwise provided in this paragraph, construction activities involving excavation of or alteration to the operation site or repair work on any access road may only occur during daytime hours. City council may expand the hours of operations for these construction activities as part of the required SUP for a gas drilling and production use if the city council finds that the expanded hours of operation will not adversely affect nearby properties.

(2) Drill stem testing. All open hole formation or drill stem testing may only occur during daytime hours. Drill stem tests may be conducted only if the well effluent produced during the test is produced through an adequate gas separator to storage tanks and the effluent remaining in the drill pipe is flushed to the surface by circulating drilling fluid down the annulus and up the drill pipe before the tool is closed.

(3) Fracturing.

(A) Except as otherwise provided in this subparagraph, fracturing activities may only occur during daytime hours. In an emergency situation, the gas inspector may expand the hours of operation for fracturing activities until the emergency is resolved.

(B) Flowback operations may occur 24 hours per day.

(4) L oudspeakers. Unless required by state or federal laws or regulations, loudspeakers are permitted during daytime hours only.

(5) Reworking. Except as otherwise provided in this paragraph, reworking or work-over operations may only occur during daytime hours. In an emergency situation, the gas inspector may expand the hours of operation for the reworking or work-over operations until the emergency is resolved.

(6) Truck traffic. Except as otherwise provided in this paragraph, truck deliveries and removal of equipment and materials associated with drilling, fracturing, or production, well servicing, site preparation, or other related work conducted on the operation site may only occur during daytime hours.
In cases of fires, blowouts, explosions, other emergencies, or where the delivery of equipment is necessary to prevent the cessation of drilling or production, truck deliveries and removal of equipment may occur 24 hours a day.

(k) Hydrogen sulfide. If a gas or oil field is identified as a hydrogen sulfide field in accordance with the Texas Railroad Commission, Texas Commission on Environmental Quality, or the Environmental Protection Agency rules and regulations, or if a well is producing hydrogen sulfide gas in excess of applicable Texas Railroad Commission, Texas Commission on Environmental Quality, or the Environmental Protection Agency rules and regulations, the operator shall stabilize and immediately cease operation of that well or facility.

(l) Incident reports.

(1) Reporting. The operator shall immediately notify the gas inspector and fire marshal of incidents occurring on the operation site, including blowouts, fires, spills, leaks, or explosions; incidents resulting in injury, death, or property damage; or incidents resulting in product loss from a storage tank or pipeline.

(2) Written summary of incident. The operator shall give a written summary of the incident to the gas inspector and fire marshal by 5:00 p.m. on the first business day after the incident.

(3) Follow-up report. The operator shall give a follow-up report to the gas inspector and fire marshal within 30 days after the incident. The follow-up report must be signed and dated by the operator or the operator’s representative and must include:

(A) the operator’s name and location of the operation site;

(B) the phone number, address, and e-mail address of the person with supervisory authority over the operation site;

(C) a description of the incident, including the time, date, location, and cause of the event;

(D) the duration of the incident (an incident ends when it no longer poses a danger to persons or property);

(E) an explanation of how the incident was brought under control and remedied; and

(F) a full description of any internal or external investigations or inquiries related to the incident, the findings of those investigations or inquiries, and the actions taken as a result of those findings.

(m) Noise.

(1) Conflicts. Except as otherwise provided in this subsection, the noise regulations in Section 51A-6.102 apply.

(2) Pre-drilling noise levels.

(A) Before the gas well permit may be issued, the operator shall establish and report to the gas inspector the continuous 72-hour pre-drilling ambient noise levels.

(B) The 72-hour time span must include at least one, 24-hour reading during either a Saturday or Sunday. The timeframe for this noise study must be designed to avoid the influence of wind interference on the noise study.

(C) The operator shall submit a proposed ambient noise level study plan to the gas inspector for approval before conducting the noise study. The proposed noise level study plan must contain a proposed testing schedule and other details as required by the gas inspector.

(D) The gas inspector shall determine if subsequent noise studies are needed to reevaluate ambient noise conditions.
(E) The operator is responsible for all costs and fees associated with establishing and reporting the continuous 72-hour pre-drilling ambient noise levels.

(3) **Noise levels.** An operator may not drill, re-drill, or operate any equipment in such a manner so as to create any noise that causes the exterior noise level, when measured at the nearest property line of the tract upon which the nearest protected use or habitable structure is located, or at a point that is 100 feet from the nearest protected use or habitable structure, whichever is closer to the well, to:

(A) exceed the ambient noise level by more than:
   
   (i) 10 dB during fracturing operations;
   
   (ii) five dB during daytime hours that do not include fracturing operations; and
   
   (iii) three dB during all other hours;

(B) create pure tones where one-third octave band sound-pressure level in the band with the tone exceeds the arithmetic average of the sound-pressure levels of two contiguous one-third octave bands by:

   (i) five dB for center frequencies of 500 hertz and above;
   
   (ii) eight dB for center frequencies between 160 and 400 hertz; and
   
   (iii) 15 dB for center frequencies less than or equal to 125 hertz; or

(C) create low-frequency outdoor noise levels that exceed the following dB levels:

   (i) 16 hertz octave band: 65 dB;
   
and

   (ii) 32 hertz octave band: 65 dB;

   (iii) 64 hertz octave band: 65 dB.

(4) **Adjustments.**

(A) Adjustments to the noise regulations in this subsection are permitted intermittently as follows:

<table>
<thead>
<tr>
<th>Permitted increases (dBA)</th>
<th>Duration of increase in minutes (cumulative during any 1 hour period)</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>15</td>
</tr>
<tr>
<td>10</td>
<td>5</td>
</tr>
<tr>
<td>15</td>
<td>1</td>
</tr>
<tr>
<td>20</td>
<td>Less than 1</td>
</tr>
</tbody>
</table>

(B) The time period of monitoring will be continuous over a minimum of one hour and will use the A-weighting network reported in decibel units. Data must be recorded and reported as Leq, which means an average measure of continuous noise that has the equivalent acoustic energy of the fluctuating signal over the same period.

(5) **Continuous monitoring.**

(A) If a proposed gas well is within 1,500 feet of a protected use, measured from the gas well in a straight line, without regard for intervening structures or objects, to the closest protected use, the operator shall comply with the following additional noise abatement measures:

(i) Exterior noise levels, including pure tone and low frequency data, must be continuously monitored to ensure compliance. The continuous noise level monitoring data must also include an audio recording to help identify the source of sound level spikes throughout the logging period.

(ii) The continuous noise monitoring equipment must be capable of wireless
transmission of real-time noise and audio data. Access to this real-time data must be made available to the gas inspector.

(iii) The noise readings must also be submitted to the gas inspector on a weekly basis in an electronic format or other format specified by the gas inspector. The weekly report must contain all noise data, including pure tone and low frequency readings. The report must state whether the operation site is in compliance with the noise requirements in this subsection and Section 51A-6.102.

(B) If the report indicates that the operation site is not in compliance with the noise regulations in this subsection or Section 51A-6.102, the report must state the measures that are being taken to bring the operation site into compliance and the timeframe for implementing these remedial measures.

(C) The operator is responsible for all costs and fees associated with all continuous noise monitoring.

(D) Continuous monitoring must occur at:

(i) the protected use property line or 100 feet from the nearest protected use, whichever is closer to the noise source; or

(ii) a location approved by the gas inspector.

(6) Blankets and other noise reduction methods.

(A) When required. If a gas well is within 2,000 feet of a protected use, measured from the gas well in a straight line, without regard for intervening structures or objects, to the closest point of the protected use, the operator shall provide noise reduction blankets along the perimeter of the operation site that faces the protected uses.

(B) Height. Minimum height for a noise reduction blanket is 30 feet, except that the city council may reduce the minimum noise reduction blanket height as part of the SUP for a gas drilling and production use if the city council determines that the proposed noise mitigation at the perimeter of the operation site is adequate.

(C) Materials.

(i) Noise reduction blankets must be constructed of a fire-retardant material approved by the fire marshal.

(ii) The gas inspector may require the operator to use noise reduction blankets that meet a standard of sound transmission class (STC) 30 or greater when necessary.

(D) Timeframe.

(i) Except as otherwise provided in this paragraph, if drilling, fracturing, or well completion operations cease for a period longer than 90 days, the operator shall immediately remove all perimeter noise blankets and all supporting structures. The gas inspector may grant a one-time, 30-day extension per well.

(ii) The gas inspector may waive the 90-day removal requirement for an operation site that has sufficient natural, vegetative, or topographical screening that prevents the view of the perimeter noise reduction blankets from city streets or protected uses.

(iii) To ensure compliance with the noise reduction blanket removal requirements, the operator shall provide written notice to the gas inspector within 48 hours after ceasing drilling, fracturing, or well completion operations.

(E) Other noise reduction methods.

(i) Acoustic blankets, sound walls, mufflers, or other methods of noise mitigation may be used to ensure compliance with this subsection and Section 51A-6.102.
§ 51A-12.204 Dallas Development Code: Ordinance No. 19455, as amended

(ii) Additional methods of noise mitigation must be approved by the gas inspector.

(iii) All soundproofing must comply with accepted industry standards and is subject to approval by the fire marshal.

(n) Periodic updates and reports.

(1) Required updates.

(A) Except as otherwise provided in this division, other city ordinances, or an SUP, the operator shall notify the gas inspector in writing of any changes to the following information within seven days after the changes are made:

(i) the name, address, or phone number of the operator; and

(ii) the name, address, or phone number of the person designated to receive notices from the city.

(B) Except as otherwise provided in this division, other city ordinances, or an SUP, the operator shall notify the gas inspector in writing within one business day of any changes to the name, address, or 24-hour phone number of the person with supervisory authority over the gas drilling or production operation site.

(C) Except as otherwise provided in this division, other city ordinances, or an SUP, if the conditions on the operator site or the operations of the gas drilling and product use change or any other updates or changes are made that are not reflected on a required plan, the operator shall provide an update to each affected plan to the gas inspector within 30 days of the change.

(D) The operator shall submit a yearly written report to the gas inspector identifying any other changes to the information provided in the gas well permit application not previously reported to the city.

(E) The operator shall notify the gas inspector in writing that a well has been completed within 72 hours after completion.

(2) Reports.

(A) The operator shall give the gas inspector a copy of any complaint submitted to the Texas Railroad Commission within 30 days after the operator receives notice of the complaint.

(B) On a monthly basis, the operator shall give the gas inspector a copy of any new or amended permits, disclosures, and reports required by the Texas Railroad Commission and Texas Commission on Environmental Quality.

(o) Reworking.

(1) At least 10 days before reworking begins, the operator shall send written notice to the gas inspector of the operator’s intent to rework a well. The notice must identify the well, describe the activities involved in the reworking, and estimate the duration of the activities.

(2) The operator shall pay the reworking fee before the operator begins reworking the well.

(3) If a well is already abandoned, a new gas well permit is required to rework.

(p) Rights-of-way. For purposes of this subsection, rights-of-way means those rights-of-way located along the truck routes shown on the operator’s approved transportation plan and incorporated by reference into the gas well permit.

(1) Periodic inspections. The operator shall periodically inspect the rights-of-way to determine if damage has occurred.

(2) City notifying operator. If the department of public works determines that the rights-of-way have been damaged, the gas inspector shall notify the operator in writing of the damage.
§ 51A-12.204 Dallas Development Code: Ordinance No. 19455, as amended

(3) Repairs. The operator shall repair the damage to the rights-of-way within 10 days after discovering or receiving notice of the damage. Repairs must be made in accordance with the current standards of the department of public works. At least two days before making the repairs, the operator shall notify the department of public works of the operator's intent to begin repairs. The operator shall have all necessary permits before repairing the rights-of-way.

(4) City making repairs and invoicing operator.

(A) If the operator fails to make repairs within 10 days after discovering or receiving notice of the damage, the director of public works may make the necessary repairs and invoice the operator. The operator shall pay the amount due within 30 days after the invoice date.

(B) If the director of public works determines that the damages to the rights-of-way affect the immediate health and safety of the public, the director of public works may make the repairs without first requesting that the operator make the repairs. The director of public works shall invoice and the operator shall pay the amount due within 30 days after the invoice date.

(C) If required by state law, the director of public works shall employ a competitive bidding process before making the repairs to the rights-of-way.

(5) Final inspection. After the gas inspector approves the abandonment and restoration of the operation site, the operator shall notify the director of public works and request an inspection of the rights-of-way. After inspection, the director of public works shall notify the operator of any needed repairs. Repairs must be made in accordance with this article.

(q) Security.

(1) Personnel.

(A) During drilling, fracturing, or reworking of a well, at least one person designated by the operator must be on the operation site at all times to oversee the activities and monitor safety.

(B) An operator shall provide an off-duty certified peace officer to direct traffic at the entrance to the operation site when high truck traffic is accessing the site, including during the construction of the operation site and fresh-water fracture pond, drilling, fracturing, flowback, and any reworking activities that requires a rig. The off-duty certified peace officer must ensure that all traffic entering and exiting the operation site is using the approved transportation route. A written record must be maintained of any violators and must be available on-site for inspection by the gas inspector.

(2) Security system. Within 10 days of completion of the temporary perimeter fencing, the operator shall install a fully operational security system that complies with the Dallas Fire Code and meets the following requirements.

(A) Remotely monitored control access system. The operator shall install and maintain at all vehicular gates a permitted, remotely monitored control access system. The control access system must meet the following requirements:

(i) Monitoring. The control access system must be monitored by a facility capable of monitoring security-related alarm systems and meeting all required state and federal guidelines. The monitoring facility must be staffed and operational at all times.

(ii) Access control. Gate access must be secured by an access control system with an unlocking and re-locking mechanism that requires a card, numeric code, or other identification device for gate operation. The system must record the identity of the entering party and the date and time of such entry.
(iii) **Intrusion detection system.** The control access system must include a gate closure contact sensor that activates when the gate closure sensor is violated by non-identified access. The control access system must be equipped to signal a control panel that activates an on-site audible signal and registers at the monitoring facility when an access breach is detected.

(iv) **Open gate detection.** The control access system must include an open gate detection alarm that notifies the monitoring facility if the gate closure sensors, once accessed, are not closed and is reactivated within five minutes after being opened.

(v) **Exit sensor.** The operator shall equip all gates with a motion sensor, weight sensor, or other device to unarm the gate for vehicles exiting the site.

(B) **Personnel exit gate.** An exit-only gate must be installed for personnel near the vehicular gate entrance.

(C) **Response to alarms.**

(i) The operator shall obtain an alarm permit for the alarm system from the police department in accordance with the city’s alarm ordinance.

(ii) The monitoring facility must notify the operator and the police department in case of a security breach at the operation site.

(iii) The operator shall respond on-site with an authorized representative within 45 minutes after notification of an alarm.

(iv) The gas inspector may suspend the gas well permit if more than 20 false alarms occur at an operation site in any calendar year.

(D) **Automated audible alarm system.** The operator shall install and maintain an audible alarm system at each operation site to provide warnings in case of a substantial drop in pressure, fire, or the release of any gas or oil.

(3) **Security cameras.**

(A) The operator shall at all times after the temporary perimeter fence is installed have:

(i) an adequate number of 24-hour operating security cameras to ensure coverage of the operation site, inside the perimeter fence; and

(ii) post signs on the perimeter fence indicating that any activity on the operation site may be recorded by video surveillance.

(B) Cameras must be maintained in proper operating condition and must:

(i) capture clear video images of all traffic entering and exiting the gates;

(ii) capture clear video images of all production equipment located on the operation site;

(iii) be equipped with motion detection technology;

(iv) be equipped with panning technology to pan immediately to any motion detected on the operation site;

(v) show the date and time of all activity on the video footage; and

(vi) be capable of being viewed at a monitoring facility.

(C) The operator shall maintain continuous video data for at least 672 hours. Upon request, the operator shall provide to the gas inspector any recorded views of the fenced area.

(D) Data from videos may only be requested by the gas inspector or law enforcement officials.
(r) Signs. All signs must be printed on durable, reflective, waterproof material. Signs must remain legible until the operation site is abandoned and restored pursuant to this article.

(1) Informational sign. The operator shall prominently display a sign on the fence adjacent to the main gate that lists the following:

(A) well names and numbers;
(B) name of the operator;
(C) the address of the operation site;
(D) the emergency 911 number;
(E) the telephone numbers of the two people who may be contacted 24 hours a day in case of an emergency; and
(F) the contact number for the office of the gas inspector.

(2) No smoking signs. The operator shall prominently display signs reading, “Danger, No Smoking Allowed,” in both English and Spanish adjacent to all gates and any other locations required by the fire marshal. Sign lettering must be a minimum of four inches in height and be red on a white background or white on a red background.

(s) Spacing.

(1) Gas wells. Gas wells must be spaced at least:

(A) 1,500 feet from any existing freshwater well;
(B) 25 feet from any property line;
(C) 25 feet from any storage tank or source of ignition;
(D) 75 feet from all rights-of-way; and
(E) 100 feet from any structure that is not used for the everyday operation of the well.

(2) Tanks and tank batteries.

(A) Tanks and tank batteries must be spaced at least:

(i) 100 feet from any combustible structure; and
(ii) 25 feet from all rights-of-way and property lines.

(B) The Dallas Fire Code may require additional spacing depending on the size of the tank.

(3) Measurement. Spacing is measured from the center of the well bore at the surface of the ground in a straight line, without regard to intervening structures or objects, to the closest point of the use, structure, or feature creating the spacing requirement.

(t) Soil.

(1) In general.

(A) It is an offense to contaminate any soil above regulatory thresholds and fail to expeditiously remediate the contaminated soil.

(B) Except as otherwise provided in this subsection, before any drilling activities may occur on an operation site, soil sampling must be conducted by a licensed third-party contractor retained by the city to establish a baseline study of soil conditions on the operation site and property within 2,000 feet of the boundary of the operation site.

(C) Soil samples must be collected and analyzed using proper sampling and laboratory protocol set forth by the Environmental Protection Agency or the Texas Commission on Environmental Quality. The results of the analyses must be given to the gas inspector with a copy of the report provided to the operator and other property owners whose soil was sampled.
(D) The operator is responsible for the cost and fees associated with pre-drilling and post-drilling soil sampling collection and analysis.

(2) Baseline.

(A) The licensed third-party contractor retained by the city must collect and analyze a minimum of five soil samples at locations across the operation site with at least two samples at or adjacent to any proposed equipment to be used on the operation site and analyzed in accordance with this subsection.

(B) If permission to access private property and conduct the baseline study is granted, a minimum of five soil samples must be collected at locations across each property located within 2,000 feet of the boundary of the operation site and analyzed in accordance with this subsection. If permission to access private property and conduct the baseline study is not granted, a baseline study of soil conditions is not required for that property.

(C) The soil sample baseline study analyses must include:

(i) a description of the point samples and GPS coordinates of each location;

(ii) planned equipment above the sampled area, if applicable;

(iii) methodology of sample collection;

(iv) description of field condition;

(v) summary of laboratory data results compared to the minimum acceptable soil sampling criteria;

(vi) copies of all laboratory data sheets;

(vii) drawings of sample points; and

(viii) analysis of the following: TPH, VOCs, SVOCs, chloride, barium, chromium, and ethylene glycol.

(3) Post-drilling.

(A) After the drilling of each well, the licensed third-party contractor retained by the city must collect and analyze soil samples across the operation site and analyzed in accordance with this subsection.

(B) Additionally, the city, using its licensed third-party contractor, may conduct soil sampling during inspections to document soil quality at the operation site.

(4) Abandonment. When the operation site is abandoned in accordance with the Texas Railroad Commission requirements and Section 51A-12.205 and after the equipment for that well is removed from the operation site, the operator shall collect soil samples of the abandoned operation site to document that the final conditions are within regulatory requirements.

(5) Remediation. If prohibited amounts of a hazardous substance are found at the operation site, the operator shall remediate the location within 30 days. After the operator remediates the operation site, the city, using its licensed third-party contractor, must collect and analyze soil samples at locations on the operation site as are necessary to determine compliance.

(u) Storage and vehicle parking. The only items that may be stored and vehicles that may be parked on the operation site are those that are necessary to the everyday operation of the well and do not constitute a fire hazard. The fire department shall determine what constitutes a fire hazard.

(v) Vector control. The operator must comply with the vector control plan approved as part of the gas well permit and all city ordinances, rules, and regulations regarding mosquito larvae within a freshwater fracturing pond or elsewhere on the operation site. (Ord. Nos. 26920; 28424; 29228; 29557; 30239; 30654; 31314)
SEC. 51A-12.205. ABANDONMENT AND RESTORATION.

(a) Abandonment of a well. The operator shall abandon each well after production has ceased on that well. A well is considered abandoned if the Texas Railroad Commission approves the abandonment, and the operator provides the gas inspector with a copy of the Texas Railroad Commission’s approval.

(b) Abandonment and restoration of the operation site. The operator shall abandon and restore the operation site within 60 days after production has ceased on all wells located on the operation site. An operation site is not considered abandoned until the gas inspector conducts an inspection of the operation site and approves the abandonment and restoration. The gas inspector shall approve the abandonment and restoration of the operation site if:

(1) the operation site is restored to its original condition, as nearly as practicable, in accordance with the surface reclamation plan;

(2) all wells located on the operation site are plugged and all well casings are cut and removed to a depth of at least three feet below surface;

(3) all equipment is removed from the operation site;

(4) the operator provides the gas inspector with a copy of the Texas Railroad Commission’s approval of the abandonment for each well located on the operation site;

(5) the abandonment complies with the Dallas Fire Code; and

(6) soil sampling has been conducted in accordance with this division and all required remediation is completed in accordance with state and federal regulations, this article, and all other city ordinances.

(c) Development after abandonment.

(1) No building permit may be issued for any construction on or redevelopment of the operation site until the gas inspector approves the abandonment and restoration of the operation site.

(2) No structure may be built over a vertical shaft of an abandoned well. (Ord. Nos. 26920; 29228)
§ 51A-12.301 Dallas Development Code: Ordinance No. 19455, as amended

Division III. Regulated Pipelines.

SEC. 51A-12.301. PIPELINE PERMIT.

(a) In general.

(1) No person may participate or assist in site preparation, installing, constructing, reconstructing, reworking, modifying, or replacing a regulated pipeline or any section of a regulated pipeline, without first obtaining a regulated pipeline permit issued by the city in accordance with this division.

(2) A regulated pipeline permit is required in addition to any permit, license, or agreement required under this article, other city ordinances, or state or federal laws.

(b) Permit application. A regulated pipeline permit application must be in writing, signed by the pipeline operator or the pipeline operator’s representative, and filed with the gas inspector. The pipeline operator shall provide the following information on a form furnished by the city:

(1) the name, business addresses, and telephone numbers of the pipeline operator;

(2) the names, titles, and telephone numbers of the person:
   (A) signing the application on behalf of the pipeline operator; and
   (B) designated as the principal contact for the submittal;

(3) the person designated as the 24-hour emergency contact;

(4) the names, mailing addresses, and telephone numbers of at least two primary persons, officers, or contacts available on a 24-hour basis and at least two alternative persons, officers, or contacts to be reached if the primary contacts are unavailable who:
   (A) can initiate appropriate actions to respond to an emergency;
   (B) have access to information on the location of the closest shutoff valve to any specific point in the city; and
   (C) can furnish the common name of the material being carried by the regulated pipeline;

(5) the origin point and the destination of the proposed pipeline;

(6) a text description of the general location of the proposed regulated pipeline;

(7) the substance to be transported through the proposed regulated pipeline;

(8) a copy of the material safety data sheet;

(9) an emergency response plan with procedures that provide for prompt and effective response to emergencies, including:
   (A) leaks or releases that can impact public health, safety, or welfare;
   (B) fire or explosions at or in the vicinity of a regulated pipeline or pipeline easement;
   (C) natural disasters;
   (D) effective means to notify and communicate information to local fire, police, and public officials during an emergency;
   (E) the availability of personnel, equipment, tools, and materials as necessary at the scene of an emergency;
   (F) measures to be taken to reduce public exposure to injury and probability of accidental death or dismemberment;
   (G) emergency shut down and pressure reduction of a regulated pipeline;
§ 51A-12.301  Dallas Development Code: Ordinance No. 19455, as amended  § 51A-12.301

(H) the safe restoration of service following an emergency or incident; and

(I) a follow-up incident investigation to determine the cause of the incident and require the implementation of corrective measures;

(10) engineering plans, drawings, and maps with summarized specifications showing the horizontal location, covering depths, and location of shutoff valves for the proposed regulated pipeline;

(11) plans showing the location of all proposed lift stations, pumps, or other service structures related to the regulated pipeline;

(12) to the extent the information can be obtained, drawings showing the location of other regulated pipelines and utilities that will be crossed or paralleled within 15 feet of the proposed regulated pipeline;

(13) a description of the public safety considerations and avoidance, as far as practicable, of habitable structures, protected uses, and areas where people congregate;

(14) detailed cross-section drawings for all public street rights-of-way and easement crossings;

(15) methods to be used to prevent both internal and external corrosion;

(16) a binder or certificates of all bonds and insurance required in accordance with this division;

(17) a tree survey that complies with Article X; and

(18) a proposed alignment strip map showing the name and address of all affected property owners.

(c) Review of permit applications.

(1) The gas inspector shall return incomplete applications to the pipeline operator with a written explanation of the deficiencies.

(2) The gas inspector shall determine whether the regulated pipeline permit should be issued, issued with conditions, or denied within 45 days after receiving a complete regulated pipeline permit application. If the gas inspector fails to make this determination within this specified time, the regulated pipeline permit application is deemed denied.

(3) The gas inspector must issue a regulated pipeline permit if the application meets the requirements of this division and all other applicable city ordinances, rules, and regulations and state and federal law.

(4) If the application does not meet the requirements of this division or other city rules or regulations, the gas inspector shall either deny the application or issue the regulated pipeline application subject to written conditions if compliance with the conditions eliminates the reasons for denial. If the gas inspector denies a regulated pipeline permit application, the gas inspector shall provide the pipeline operator with a written explanation of the reasons for denial with 30 days.

(d) Expiration. A regulated pipeline permit shall expire if the regulated pipeline has not been completed and the surface restored within two years. The gas inspector may grant one extension of time not to exceed one year if the gas inspector determines that weather or other unexpected physical conditions justify an extension. If the regulated pipeline permit expires, and construction of the regulated pipeline is not completed, the pipeline operator shall immediately cease construction and complete any site remediation required by this division or other applicable law, regulation, or ordinance.

(e) Revocation or suspension.

(1) If the pipeline operator violates this division or the regulated pipeline permit, the gas inspector shall give written notice to the pipeline operator describing the violation and giving the operator a reasonable time to cure. The time to cure must take into account the nature and extent of the
§ 51A-12.301 Dallas Development Code: Ordinance No. 19455, as amended

violation, the efforts required to cure, and the potential impact on public health, safety, and welfare. The time to cure may not be less than 30 days unless the violation:

(A) could cause imminent destruction of property or injury to persons; or

(B) involves the operator’s failure to take a required immediate action required by this division.

(2) If the operator fails to correct the violation within the specified time, the gas inspector shall suspend or revoke the gas well permit. The gas inspector shall also report any violations to the United States Department of Transportation and Texas Railroad Commission and request that these agencies take appropriate action.

(3) If a regulated pipeline permit is suspended, no person may engage in any activities permitted under that regulated pipeline permit except for those necessary to remedy the violation. If the violation is remedied, the gas inspector shall reinstate the regulated pipeline permit, and the pipeline operator may resume operations.

(4) If a regulated pipeline permit is revoked, the operator shall obtain a new regulated pipeline permit before resuming operations.

(5) If the gas inspector denies, suspends, or revokes a regulated pipeline permit, the gas inspector shall send the pipeline operator, by certified mail, return receipt requested, written notice of the decision and the right to appeal.

(6) The operator has the right to appeal to the permit and license appeal board in accordance with Article IX of Chapter 2 of the Dallas City Code. (Ord. 29228)

SEC. 51A-12.302. INSURANCE.

(a) Each person must carry public liability insurance with a carrier rated “A” or better by A.M. Best in a minimum amount of $1,000,000.00 for one person and $5,000,000.00 for one accident and property damage insurance in the amount of $10,000,000.00 for one accident, which shall remain in full force and effect and be carried so long as the pipeline is operated.

(b) Each pipeline operator shall provide and maintain in full force and effect during the term of its regulated pipeline permit insurance with the following minimum limits:

(1) Worker’s compensation at statutory limits.

(2) Employer’s liability insurance with the following minimum limits for bodily injury by:

   (i) accident, $1,000,000 per each accident; and

   (ii) disease, $1,000,000 per employee with a per-policy aggregate of $1,000,000.

(3) Commercial general liability coverage, including blanket contractual liability, products and completed operations, personal injury, bodily injury, broad form property damage, operations hazard, pollution, explosion, collapse and underground hazards for $2,000,000 per occurrence and aggregate policy limit of $2,000,000.

(4) Automobile liability insurance (for automobiles used by the pipeline operator in the course of its performance under the pipeline permit, including employer’s non-ownership and hired auto coverage) for $2,000,000 combined single limit per occurrence.

(5) Umbrella liability insurance following the form of the primary liability coverage described in Subsections (a) and (b) and providing coverage with minimum combined bodily injury (including death) and property damage limit of $25,000,000 per occurrence and $25,000,000 annual aggregate. Increased primary liability limits equivalent to the umbrella liability insurance limits specified will satisfy the umbrella liability insurance requirements.
§ 51A-12.302 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-12.302 Dallas Development Code: Ordinance No. 19455, as amended

(c) Performance bond or irrevocable letter of credit.

(1) Before issuance of a regulated pipeline permit, the pipeline operator shall submit to the gas inspector a performance bond or irrevocable letter of credit approved as to form by the city attorney in the amount of $100,000.

(2) The performance bond is effective upon the issuance of the regulated pipeline permit and must remain in full force and effect until all work under the terms of the regulated pipeline permit has been completed.

(3) The performance bond may be amended to include other permitted regulated pipelines. (Ord. 29228)

SEC. 51A-12.303. GENERAL PROVISIONS.

(a) A pipeline operator shall design, construct, repair, and maintain all regulated pipelines in accordance with this division, other city ordinances, rules and regulations, and state and federal laws.

(b) All new and relocated regulated pipelines must be located as near as practicable to existing regulated pipelines or other utilities unless the pipeline operator can demonstrate to the gas inspector that the alignment is infeasible.

(c) Nothing in this section grants permission to use any street or other public rights-of-way, utility easements, or city-owned property. To install, construct, maintain, repair, replace, modify, remove, or operate a regulated pipeline on, over, under, along, or across any affected city streets, sidewalks, alleys, or other city property, the pipeline operator shall obtain an easement or license.

(d) A pipeline operator must:

(1) not interfere with or damage existing utilities, including water, sewer, gas, storm drains, electric lines, or the facilities of public utilities or franchisees located on, under, or across street or other public rights-of-way;

(2) equip all regulated pipelines with:

(i) an automated pressure monitoring system that detects leaks and shuts off any line or any section of line that develops a leak; or

(ii) provide 24-hour pressure monitoring of the regulated pipeline system that provides immediate notice of any leak to the city’s emergency response providers;

(3) grade, level, and restore the affected property to the same surface condition, as nearly as practicable, as existed before construction activities were first commenced within 30 days after completion of the regulated pipeline; and

(4) backfill all trenches and compact such trenches to 95 percent standard density proctor in eight-inch lifts and construct the regulated pipeline so as to maintain a minimum depth of ten feet below the finished grade except in public rights-of-way, where minimum cover to the top of the pipe must be at least eight feet below the bottom of any adjacent roadside ditch. The gas inspector may require that sections of proposed regulated pipeline be constructed at deeper depths based upon future city infrastructure needs. During the backfill of any regulated pipeline excavations in open cut sections, the pipeline operator shall bury “buried pipeline” warning tape one foot above any regulated pipeline to warn future excavators of the presence of a buried regulated pipeline. The gas inspector may also require that a proposed or existing regulated pipeline be relocated if it conflict with the proposed alignment and depth of a gravity dependent utility.

(e) When the required pipeline records are submitted to the Texas Railroad Commission, the pipeline operator shall provide the gas inspector the following information:

(1) Global positioning system (GPS) information sufficient to locate the regulated pipelines,
including the beginning and end points; sufficient points in between the regulated pipeline route; and the depth of cover information. This information must be submitted to the gas inspector in a format compatible with the city’s own GIS system.

(2) As-built or record drawings of the regulated pipelines. The accuracy of the record drawings must meet a survey level of one foot to 50,000 feet. The scale of the record drawings must be a minimum of one inch to 40 feet. The drawings must be provided in a digital file format with the location tied to at least one nearby GPS city monument. If the new regulated pipeline length exceeds 1,000 feet within the city, the regulated pipeline must be tied to at least two GPS city monuments.

(3) The origin point and the destination of the regulated pipeline.

(4) Engineering plans, drawings, and maps with summarized specifications showing the horizontal location, covering depths, and location of shutoff valves of the subject regulated pipeline. The drawings must show the location of other regulated pipelines and utilities that are crossed or paralleled within 15 feet of the regulated pipeline right-of-way.

(5) Detailed cross-section drawings for all public rights-of-ways and easement crossings on city property as permitted by the city.

(6) A list of the names and mailing addresses of all the residents, property owners, and tenants adjacent to the regulated pipeline construction.

(f) Changes in any of the contact information required as part of the regulated pipeline permit application must be provided to the gas inspector and the fire marshal before the contact information is changed. (Ord. 29228)

SEC. 51A-12.304. EMERGENCY RESPONSE PLAN AND INCIDENT REPORTING.

(a) The pipeline operator shall maintain and update the emergency response plan to minimize hazards from an emergency.

(b) The pipeline operator shall meet annually with the gas inspector and fire marshal to review the emergency response plan.

(c) At the annual review meeting,

(1) the pipeline operator shall:

(A) provide or update a copy of the emergency response plan;

(B) review the responsibilities of each governmental organization in response to an emergency or incident;

(C) review the capabilities of the pipeline operator to respond to an emergency or incident;

(D) identify the types of emergencies or incidents that will result in or require contacting the city; and

(E) plan mutual activities that the city and the pipeline operator can engage in to minimize risks associated with pipeline operation; and

(2) the city shall provide the pipeline operator with a list of additional contacts that must be made if a pipeline emergency or incident occurs. The city will inform the pipeline operator of the emergency response groups that will be contacted through 911.
§ 51A-12.304 Dallas Development Code: Ordinance No. 19455, as amended  § 51A-12.306

(d) Upon discovering a pipeline emergency or incident, any affected pipeline operator shall, as soon as practical, communicate to the city’s 911 system the following information:

(1) a general description of the emergency or incident;

(2) the location of the emergency or incident;

(3) the name and telephone number of the person reporting the emergency or incident;

(4) the name of the pipeline operator;

(5) whether any hazardous material is involved and identification of the hazardous material; and

(6) any other information as requested by the emergency dispatcher or other official at the time of reporting the emergency or incident.

(e) Each pipeline operator shall equip and maintain a regulated pipeline containing natural gas with hydrogen sulfide in concentrations of more than 100 parts per 1,000,000,000 with an audible alarm system that will provide notice to the general public in the event of a leak. The audible alarm system must be of a type and design approved by the gas inspector.

(f) A pipeline operator shall report to the gas inspector all nonemergency incidents involving well safety or integrity by completing an incident report on a form furnished by the city. Incident reports must be filed by the pipeline operator within 24 hours after discovering the incident. (Ord. 29228)

(b) The location of all new or replacement pipe and regulated pipeline must be marked by the pipeline operator or the person installing or operating the regulated pipelines as follows:

(1) Marker signs must be placed at all locations where pipe or regulated pipelines cross property boundary lines and at each side of a public rights-of-way or private street that the regulated pipeline crosses.

(2) The top of all marker signs must be a minimum of four feet above ground level; the support post must be sufficient to support the marker sign; and the markers must be painted yellow or another color approved by the director of the department of transportation.

(3) All marker signs must be a minimum of 12 inches square and must be marked as “gas pipeline.”

(4) All marker signs must contain the name of the pipeline operator and a 24-hour local contact number.

(5) Regulated pipelines must be marked along their entire length with a buried metal wire and metallic flag tape.

(6) All signs must also contain an 811 designation “call before you dig” statement.

(7) The pipeline operator shall annually replace signage that has been lost, damaged, or removed. (Ord. 29228)

SEC. 51A-12.305. MARKERS.

(a) The pipeline operator is responsible for maintaining markers in accordance with this section and state and federal laws.
§ 51A-12.306  Dallas Development Code: Ordinance No. 19455, as amended  § 51A-12.309

(b) A pipeline operator shall contract for service with the selected underground utility coordinating system for a minimum of five years unless there is an agreement between the pipeline operator and the city to change to an alternate system. The pipeline operator shall maintain the contract for services without interruption for the life of the regulated pipeline permit. (Ord. 29228)

SEC. 51A-12.307. PIPELINE INFORMATION REPORTING REQUIREMENTS.

(a) The pipeline operator must file with the gas inspector an annual verified report in letter form on or before June 30 of each year to cover the reporting period of June 1 through May 31. The annual report must include the following information:

(1) A statement that the regulated pipeline has no outstanding safety violations as determined in an inspection or audit by either the Texas Railroad Commission or the United States Department of Transportation.

(2) If any safety violations, as determined by the Railroad Commission or the United States Department of Transportation, have not been corrected, the violations must be reported and an action plan to correct the safety violations must be provided. The action plan must include a timeline for corrective action and the individual or firm responsible for each action.

(3) If the pipeline operator has no reporting responsibility to the Texas Railroad Commission or the United States Department of Transportation and is otherwise exempt from the safety regulations of either agency, the following documents pertaining to the preceding reporting period of June 1 through May 31:

(A) copies of internal reports of responses to pipeline emergencies;

(B) current operations and maintenance logs; and

(C) current emergency action plan.

(4) Evidence that the pipeline operator has current liability insurance in accordance with this division.

(5) A statement that the regulated pipeline information provided is correct. If the information provided is no longer correct, updated or corrected information.

(b) The pipeline operator must, upon the request by the gas inspector, make available a log of all the maintenance and monitoring activities conducted on all pipelines subject to this division for the reporting period must be made available upon request by the gas inspector.

(c) The pipeline operator shall file a copy of all initial or follow-up reports provided to the Texas Railroad Commission and the United States Department of Transportation on unsafe pipeline conditions, pipeline emergencies, or pipeline incidents with the gas inspector. The pipeline operator shall file with the gas inspector any initial or follow-up reports filed with state and federal regulatory agencies regarding pipeline releases concurrently with the city. (Ord. 29228)

SEC. 51A-12.308. PUBLIC EDUCATION.

All pipeline operators must annually provide affected landowners, public officials, and emergency providers with appropriate public awareness information in accordance with 49 CFR 192.616 and 195.440. (Ord. 29228)

SEC. 51A-12.309. REPAIRS AND MAINTENANCE.

(a) All repairs and maintenance of pipelines must be performed in accordance with the United States Department of Transportation and Texas Railroad Commission mechanical integrity requirements.
§ 51A-12.309 Dallas Development Code: Ordinance No. 19455, as amended

§ 51A-12.311

(b) A pipeline operator shall protect, maintain in a state of good repair and condition, and regularly paint all pipeline risers and appurtenances related to pipeline construction and operations that are composed of materials generally protected or painted.

(c) If non-emergency repairs require excavation of a regulated pipeline, the pipeline operator shall provide written notice to the residents, property owners, and tenants within 500 feet, measured from the centerline of the pipeline to be excavated, at least five days before beginning the repairs.

(d) If above-ground non-emergency repairs that are not routine maintenance are required, the pipeline operator shall provide written notice to the residents, property owners, and tenants within 500 feet, measured from the centerline of the pipeline section to be repaired, at least five days before beginning the repairs. The written notice must be:

(1) sent by United States mail, postage prepaid, at least five days before beginning any non-emergency repair; or

(2) hand-delivery at least three days before beginning the non-emergency repairs. (Ord. 29228)

SEC. 51A-12.310. NO ASSUMPTION OF RESPONSIBILITY BY CITY.

Nothing in this division shall be construed as an assumption by the city of any responsibility of a pipeline operator of a pipeline not owned by the city, and no city officer, employee, or agent has the authority to relieve a pipeline operator of their responsibility under this division or by any other law, ordinance, rule, or regulation. (Ord. 29228)

SEC. 51A-12.311. ABANDONED PIPELINES.

(a) All regulated pipelines must be maintained in an active condition unless abandoned in accordance with state and federal regulations.

(b) Within 60 days after the pipeline becomes idle or inactive, a pipeline must be purged and plugged.

(c) The pipeline operator shall notify the gas inspector in writing within 30 days after a pipeline is abandoned. Within 60 days after abandonment, the regulated pipeline must be purged and plugged.

(d) To reactivate an abandoned pipeline, the pipeline operator shall apply for a new regulated pipeline permit in accordance with this division.

(e) A reactivated regulated pipeline must be pressure tested for integrity and compliance with the Texas Railroad Commission and the United States Department of Transportation regulations. A regulated gas permit application to reactivate an abandoned pipeline must include the results of the pressure testing. (Ord. 29228)
Division IV. Violations.

SEC. 51A-12.401. VIOLATIONS.

(a) A person is criminally responsible for a violation of this article if the person:

(1) refuses the gas inspector access to an operation site or a regulated pipeline;

(2) fails to comply with a gas inspector’s orders; or

(3) fails to comply with any provision of this article.

(b) A person who knowingly violates any provision of this article is guilty of a separate offense for each day or portion of a day during which the violation is continued. Each offense is punishable by a fine of $2,000. This fine shall be doubled for the second conviction of the same offense within any 24-month period and trebled for the third and subsequent convictions of the same offense within any 24-month period. See Section 51A-1.103 for additional provisions on enforcement. (Ord. Nos. 26920; 29228)
