*State law reference(s) Local government finance, G.S. 159-1 *et seq.*; municipal taxation, G.S. 160A-206 *et seq.*

sewer line laterals, and include the cost of such laterals in the total cost to be assessed upon abutting properties.

(N.C.S.L. Ch. 2005-117, § 1(8.1))

Section 8.2. Classification and exemption.

Where water or sewer lines are constructed across or through lots or tracts of land or when water or sewer lines, or both, are installed along both sides of corner lots and were or are financed in whole or in part by assessment, the Council may by uniform rule classify such lines for assessment as in its judgment will represent the benefits derived. The schedules of exemptions may be classified as to land uses (residential, business, commercial, industrial, office and institutional, agricultural, or other classifications) and shall be uniform for each such classification used; provided, however, that no schedule of exemptions may provide for exemption of more than seventy-five percent (75%) of the frontage of any side of a corner lot, or 150 feet, whichever is greater.

(N.C.S.L. Ch. 2005-117, § 1(8.2))

Section 8.3. Alternative method of assessing.

(a) In addition to, and as alternatives to, the method provided in the General Statutes for assessing the cost of water and sewer lines and laterals, the Town Council, if in its opinion it would be more equitable to do so, may in its discretion levy any such assessments according to either of the following methods:

- (1) Equally against each of the lots capable of being served by such line or lines; or
- (2) On the basis of the footage of land upon a public street by an equal rate per foot of such frontage.

(b) In lieu of assessing the total cost of a particular project as herein provided, the Town Council may annually, between the first days of January and July of each year, determine the average cost of installing water and sewer mains or lines, and on the basis of such determination may make assessments on such average cost during the following fiscal year beginning July 1. The average cost of such installation shall include the cost of the particular size and material of lines completed during the preceding calendar year. It may also include the anticipated increase in labor and materials cost based upon the average of such increases during the preceding five calendar years. The assessment of the average cost of such lines shall not be made until after the particular assessment project has been completed. The purposes of this section are to distribute more equitably the cost of the installation of water and sewer lines throughout the Town and to permit a property owner to know in advance what the cost of installation of water and sewer lines benefiting his property will be; and to permit the most expeditious assessment of cost against the property after completion of installation of such lines. The actual cost of acquisition of rights-of-way may also be assessed as part of the cost of an individual project. If the right-of-way costs have not been determined and assessed with the assessment of the average installation cost at the time of the completion of the project, such costs may be assessed separately when they are determined.

(N.C.S.L. Ch. 2005-117, § 1(8.3))

Section 8.4. Payment of assessments.

Any special assessment of the Town for any purpose amounting to less than one hundred dollars (\$100.00) shall be paid in cash not later than the next due date of Town taxes rather than in annual installments and shall bear interest as taxes.

(N.C.S.L. Ch. 2005-117, § 1(8.4))

Section 8.5. Water and sewer development fees. [Editor's note: Please see G.S. Ch. 162A, Article 8]

Such charges shall apply uniformly to all properties to which water or sewer service is extended subsequent to the establishment of such charges; provided, however, that the Council may establish higher water and sewer development fees for property developed or to be developed for business, commercial, industrial, or office and institutional uses than those established for residential and other uses and may base water and sewer development fees for residential property upon the number of dwelling units per acre of land. (N.C.S.L. Ch. 2005-117, § 1(8.5))

ARTICLE IX. REGULATORY POWERS

Section 9.1. Subdivision and zoning regulations.

(a) Any subdivision control ordinance enacted by the Town Council pursuant to general law may also provide for the orderly development of subdivisions by requiring the construction of community service facilities, including water lines; sewer lines; street paving, curbing, and guttering; and street and storm drainage facilities in accordance with Town standards and specifications, and to assure compliance with such requirements, the ordinance may require the posting of bond or such other method as will offer guarantee of compliance.

- (b) (1) In addition to the authority conferred upon it by general or local law, the Town of Cary may create, through the legislative process, general use zoning districts, in which a variety of uses are permitted; conditional use zoning districts, in which limited uses are permitted only upon approval by the Town; overlay zoning districts, which are applied coincidental with the general or conditional use district; and transitional zoning regulations.
- (2) The overlay zoning districts may impose additional regulations on some property within the underlying general or conditional use district and not on all properties within those districts.
- (3) A person petitioning for rezoning of a tract of land where conditional use districts or overlay districts are authorized by ordinance, may elect to request a general use district, a conditional use district, or an overlay district for the tract. If the petitioner elects to petition for the general use or overlay district zoning, and if the petition is approved, the rezoned property may be used for any of the uses permitted in the applicable general use or overlay district. If the petitioner elects to petition for conditional use district zoning, the petition must specify the actual use or uses, and all other development regulations authorized by State law, which are intended for the property specified in the petition. The intended use or uses and development regulations must be permitted in the corresponding general use district. If the petition is for conditional use district zoning, the Town Council is to approve or disapprove the petition on the basis of the specific use or uses and development regulations requested. development; and such other matters as the Town Council may find appropriate or the petitioner may propose, including architectural review or controls.

- (5) It is the further intent of this section to permit the creation of districts for specific uses and the imposition of reasonable conditions in order to secure the public health, safety and welfare, and ensure that substantial justice be done.

(N.C.S.L. Ch. 2005-117, § 1(10.1))

The Town may attach to the transfer and to the interest conveyed any covenants, conditions, or restrictions, or a combination of them, the Town deems necessary to further the public interest. The Town may invite bids or written proposals, including detailed development plans and site plans, for the purchase of any such property or property interest, whether by sale, exchange, or other transfer, pursuant to the specifications as may be approved by the Town. A sale, exchange, or other transfer of real property, or interest therein, pursuant to this section may be made contingent upon any necessary rezoning of the property. Any conveyance under this section may be made only pursuant to a resolution of the Town Council authorizing the conveyance. Notice of the proposed transaction shall be given at least 10 days prior to adoption of the resolution by publication, and the notice shall generally describe (i) the property involved, (ii) the nature of the interest to be conveyed, and (iii) all of the material terms of the proposed transaction, including any covenants, conditions, or restrictions which may be applicable. The notice shall give the time and place of the Town Council meeting where the proposed transaction will be considered and shall announce the Council's intention to authorize the proposed transaction. APPENDIX 2: INCORPORATION OF LOCAL ACTS INTO CHARTER**App. 2.1. Procedure for permanently closing streets and alleys.**

(a) When the Town of Cary proposes to permanently close any street or public alley, the Council shall first adopt a resolution declaring its intent to close the street or alley and calling a public hearing on the question. The resolution shall be published once a week for four successive weeks prior to the hearing, a copy thereof shall be sent by registered or certified mail to all owners of property adjoining the street or alley as shown on the county tax records, and a notice of the closing and public hearing shall be prominently posted in at least two places along the street or alley. If the street or alley is under the authority and control of the Department of Transportation, a copy of the resolution shall be mailed to the Department of Transportation. At the hearing, any person may be heard on the question of whether or not the closing would be detrimental to the public interest, or the property rights of any individual. If it appears to the satisfaction of the Council after the hearing that closing the street or alley is not contrary to the public interest, and that no individual owning property in the vicinity of the street or alley or in the subdivision in which it is located would thereby be deprived of reasonable means of ingress and egress to his property, the Council may adopt an order closing the street or alley. A certified copy of the order (or judgment of the court) shall be filed in the office of the register of deeds of the county in which the street, or any portion thereof, is located.

(b) Any person aggrieved by the closing of any street or alley including the Department of Transportation if the street or alley is under its authority and control, may appeal the Council's order to the General Court of Justice within 30 days after its adoption. The court shall hear the matter de novo, and shall have full jurisdiction to try the issues arising and to order the street or alley closed upon proper findings of fact by the jury. No cause of action or defense founded upon the invalidity of any proceedings taken in closing any street or alley may be asserted, nor shall the validity of the order be open to question in any court upon any ground whatever, except in an action or proceeding begun within 30 days after the order is adopted.

(c) Upon the closing of a street or alley in accordance with this section, subject to the provisions of subsection (f) of this section, all right, title, and interest in the right-of-way shall be conclusively presumed to be vested in those persons owning lots or parcels of land adjacent to the street or alley, and the title of such adjoining landowners, for the width of the abutting land owned by them, shall extend to the centerline of the street or alley.

(d) This section shall apply to any street or public alley within the Town of Cary that has been irrevocably dedicated to the public, without regard to whether it has actually been opened.

(e) No street or alley under the control of the Department of Transportation may be closed unless the Department of Transportation consents thereto.

(f) The Town of Cary may reserve its right, title, and interest in any utility improvement or easement within a street closed pursuant to this section. Such reservation shall be stated in the order of closing.

The purpose of such ordinances shall be to protect existing trees and shrubs for use as future buffers.

(b) Ordinances adopted pursuant to this section shall be limited to situations where undeveloped property is planned or zoned for residential or nonresidential use in accordance with adopted Town plans and zoning regulations. Such ordinances shall include reasonable provisions for access onto and within the subject property.

If the Town of Cary adopts an ordinance pursuant to this section then, notwithstanding G.S. 20-176, a violation of G.S. 20-158 detected only by a traffic control photographic system shall not be an infraction. If a violation of G.S. 20-158 is detected by both a law enforcement officer and a traffic control photographic system, the officer may charge the offender with an infraction. An ordinance authorized by this subsection shall provide that:

 - b. An affidavit stating that the vehicle involved was, at the time, stolen. The affidavit must be supported with evidence that supports the affidavit, including insurance or police report information.

- c. An affidavit stating that the person who received the citation is not the owner or driver of the vehicle, or that the person who received the citation was not driving a vehicle at the time and location designated in the citation.
- (2) Subdivision (1) of this subsection shall not apply, and the registered owner of the vehicle shall not be responsible for the violation, if notice of the violation is given to the registered owner of the vehicle more than 90 days after the date of the violation.
 - (3) A violation detected by a traffic control photographic system shall be deemed a noncriminal violation for which a civil penalty of fifty dollars (\$50.00) shall be assessed and for which no points authorized by G.S. 20-16(c) shall be assigned to the owner or driver of the vehicle nor insurance points as authorized by G.S. 58-36-65.

The citation shall be processed by officials or agents of the Town of Cary and shall be forwarded by personal service or first-class mail to the address given on the motor vehicle registration. If the owner fails to pay the civil penalty or to respond to the citation within the time period specified on the citation, the owner shall have waived the right to contest responsibility for the violation and shall be subject to a civil penalty not to exceed one hundred dollars (\$100.00). The Town of Cary may establish procedures for the collection of these penalties and may enforce the penalties by civil action in the nature of debt.
 - (5) The Town of Cary shall establish a nonjudicial administrative hearing process to review objections to citations or penalties issued or assessed under this section. The Town of Cary may establish an appeals panel composed of Town employees to review objections. If the Town of Cary does not establish an appeals panel composed of Town employees, the Mayor shall review and make a final decision on all objections.
- (e) The duration of the yellow light change interval at intersections where traffic control photographic systems are in use shall be no less than the yellow light change interval duration on the traffic signal plan of record signed and sealed by a professional engineer, licensed in accordance with the provisions of Chapter 89C of the General Statutes, and shall comply with the provisions of the Manual on Uniform Traffic Control Devices.
- (f) The Town of Cary upon enacting an ordinance implementing a traffic control photographic system may enter into a contract with a contractor for the lease, lease-purchase, or purchase of the system. The Town of Cary may enter into only one contract for the lease, lease-purchase, or purchase of the system and the duration of the contract may be for no more than sixty (60) months. After the period specified in the contract has expired, the system shall either be the property of the Town of Cary or the system shall be removed and returned to the contractor.
- (g) The clear proceeds from the citations issued pursuant to the ordinance authorized by this section shall be paid to the Wake County school fund. The clear proceeds from the citations shall mean the funds remaining after paying for the lease, lease-purchase, or purchase of the traffic control photographic system; paying a contractor for operating the system; and paying any administrative costs incurred by the Town of Cary related to the use of the system.

For the purpose of this section, public infrastructure includes, without limitation, water mains, sanitary sewer lines, lift stations, stormwater lines, streets, curb and gutter, sidewalks, traffic control devices, and other associated facilities.

(b) The Town of Cary shall enact ordinances setting forth procedures and terms under which such agreements may be approved.

(c) The Town of Cary may provide for such reimbursements to be paid from any lawful source.
